ELDORADO — SCHLEICHER COUNTY, TEXAS

Thursday, March 28, 1957

NUMBER 13

Polo's World Champions Return Home To Eldorado

Members of the Eldorado Riding club filtered home by twos and fours this week after their victorious trip to Florida where they captured the world's championship in Palmetto Polo in a thrilling three-day series that ended there Sunday.

The Eldorado club, winner of many trophies and championships, won the right to enter the Florida world's championship contest, by capturing the Western States title last fall in a series of games that culminated in a game at Lubbock for West Texas championship.

Following this, the local club began making plans for the Florida trip, and sponsored a number of benefit performances to raise money for expenses—and collected over \$1,500 in this manner. The actual trip got under way Saturday, March 16, when the horses were loaded on a large truck and departed early that morning accompanied by A. G. Clark and Ollie Phillips. Members and their wives in private cars left over that week end, and the entire delegation was safely settled by Thursday at New Smyrna Beach, Florida, where they were royally entertained with barbecues and dances prior to the games.

There were five teams competing in the tournament, which got under way last Friday. Two of the teams were from Texas—Eldorado and Jacksboro. The other three were from Florida—Vero Beach, Orlando, and New Smyrna Beach.

Eldorado set the pace right from the start by defeating everything that came their way by lopsided scores. They beat Vero Beach 14-1, and then beat their fellow Texans 12-2, both on Friday. On Saturday Eldorado beat Orlando 13-0. In the meantime the Florida teams were being eliminated by each other and by Jacksboro, and when the championship game came up Sunday it was between the two Texas teams and Eldorado again won handily over Jacksboro 14-5. Scores on the various games were reported as follows:

Eldorado 14.....	Vero Beach 1
Eldorado 12.....	Jacksboro 2
Eldorado 13.....	Orlando 0
Jacksboro 17.....	New Smyrna 4
New Smyrna 9.....	Vero Beach 2
Jacksboro 10.....	New Smyrna 7
Eldorado 14.....	Jacksboro 5

The remarkable things about the trip was the fact that there was no car trouble or unpleasantness of any kind. The people of East Smyrna Beach gave the Schleicherites a royal welcome—and even prices seemed reasonable.

The Eldorado group occupied cottages along the beach, 14 miles south of Daytona. The girls all had quite a lot of opportunity to swim, but the men spent most of their time in grooming and working with their horses.

The governor extended letters of welcome upon their arrival.

The Eldorado team has brought home two trophies: one, presented by a Florida Senator, proclaiming them World Champions and the other announcing that they had won first in the parade, in which they entered the snappily dressed team riding their horses, their horse truck with large letters identifying them as Eldorado Riding Club, and a car or two of rooters.

All of the games took place at East Smyrna Beach arena. Florida participants were mostly fruit farmers and truck gardeners with a smattering of business men, who furnished less competition than did the players from Jacksboro, Texas.

One of the Florida men took a fancy to Tucker Clark's horse and bought it, so Tucker will have to train another for the new season.

The delegation from Eldorado had 13 players while Jacksboro had about 14.

All of the horses got through to Smyrna Beach in excellent condition. They stayed in rented stalls, and were taken out for exercise regularly.

The entire delegation reached Florida last Thursday night except Sam Henderson who arrived Friday morning, and all left for home Monday morning. Some reached here Tuesday night, and the horses, which had been accompanied by Mr. and Mrs. Ollie Phillips and children, Mr. and Mrs. A. G. Clark and Rance McDonald, arrived late Wednesday.

There were 12 women and 13 men in the delegation, including, in addition to those mentioned last week, Mrs. Gene Walker and Mrs. Bobby Borger, daughter and

Methodists To Launch Revival Monday Night

The First Methodist church of Eldorado will launch a series of revival meetings Monday night, April 1, with the pastor, the Rev. Russell Heaner, preaching.

Services are to be held each night for five days, Monday through Friday. Bob Burkart will be song leader, Mrs. E. C. Hill will be organist, and Mrs. Keno Ogden will be pianist.

The Methodist Men are to furnish a choir for the opening night's services.

There will be no morning services. The public is cordially invited to attend.

All Set Here For Senate Election

Schleicher county's voting machinery was being readied this week for the special election for U. S. Senator for Texas.

The election will be held throughout the state of Texas to name the successor to fill the unexpired term of Price Daniel. Because of the nearly even division of Republicans and Democrats in the Senate, the Texas election is expected to attract nation-wide attention.

Ballots were printed some time ago by the Success, and the county clerk's office has been handling the absentee vote. Up to yesterday noon 15 absentee ballots had been applied for. The absentee privilege closes tomorrow—March 29th.

The Schleicher county ballots contain the names of 23 Senatorial candidates, although we understand two or three have announced their withdrawal from the race, since the ballots were printed.

Names of the candidates are in alphabetical order, without respect to party affiliation.

The opinion seems to be prevalent that out of this long list, only three have much of a chance—Martin Dies, Ralph Yarborough, and

Thad Hutcheson. A printed sample ballot appears elsewhere in this Success issue.

All of the six regular voting boxes will be in use Tuesday. The precincts and election judges will be as follows:

No. 1, Memorial building, Dick Preston, judge.

No. 2, Cooper Gas voting box, Hal Whitten, judge.

No. 3A, County barn, Joe Wagley, judge.

No. 3B, Adams school, Bobby Sykes, judge.

No. 4A, Mittel box, W. F. West.

No. 4B, Reynolds, Alma Sauer.

No. 5, Absentee box, Joe Christman.

County Voting Strength

Voting strength of Schleicher county is down somewhat from other years because this is an "off year" for politics. Only 616 paid poll taxes in the county, and nine exemptions for voters becoming 21 were issued.

It has been estimated that there are about 175 or 200 voters who are 60 or older, and exempt from the tax. So the maximum voting strength in next Tuesday's Senatorial election will be roughly 800.

OTTO SAUERS WILL CELEBRATE THEIR 50TH ANNIVERSARY

Mr. and Mrs. Otto Sauer invite the public to attend the celebration of their 50th wedding anniversary Sunday afternoon from 3:00 to 5:00 at their farm home in the Reynolds community.

They request that callers do not bring gifts.

Lions' Broom & Mop Sale Will Be Held Saturday

Eldorado Lions will hold their annual broom and mop sale this Saturday, with Lions club members selling the articles in the business district and over the town.

W. T. Whitten, finance chairman of the club, is in general charge of arrangements.

The articles sold have been made by the blind, it was pointed out, and proceeds of the sale are used by the club in furthering their community work.

3 Names Added In Trustee Campaign

The campaign for three trustees for the Schleicher county school district finally broke open and generated some steam before the filing deadline arrived Tuesday night.

With three to be elected, the voters now have six to choose from. Filing their names during the past week were Richard Preston, and Dr. Jack Mowrey and Henry Moore—the last named being an incumbent.

Ballots will be printed during the coming week and the election will be held on Saturday, April 6th in the Memorial building—the one voting box being provided for the entire county. Following is the complete list of candidates in the order of their filing:

Ralph Waldron
L. D. (Jelly) Mund
Jim Martin
Richard (Dick) Preston
Dr. Jack Mowrey
Henry Moore.

Mrs. Doyle's Sister Dies In Kerrville

Mrs. Lowell Griffin of 335 W. Jefferson, Kerrville, died en route to the hospital Friday night, March 22. She had been in bad health several years and death was due to a heart attack. She was a sister of Mrs. Claude Doyle of Eldorado.

Eula Jane Yarbrough was born April 9, 1908, in Motley county, Texas. She was married to David Lowell Griffin in Kerrville on September 23, 1935, and to this couple were born two children, James Lowell and Mrs. Betty Blackwell, both of Kerrville.

Mrs. Griffin lived many years in Schleicher county, most of which were spent on the Sam Jones ranch. They moved to Kerrville in 1946, where they had since made their home.

Funeral services were held at the Smith Funeral chapel Sunday with Dr. D. K. Bailey officiating and Rev. Don Harrison soloist.

Pall bearers were employees of the State Highway Dept. where Mr. Griffin is employed.

Burial was made in the Garden of Memories cemetery.

She is survived her husband, two children; five sisters: Mrs. Claude Doyle of Eldorado, Mrs. Rex Welty of Odessa, Mrs. Henry Coker and Miss Mattie Yarbrough of Kerrville, and Mrs. R. H. Lindholm of George West; three brothers: R. A. Yarbrough of Corpus Christi, M. E. Yarbrough of Kansas City, Mo., and P. W. Yarbrough of Kerrville, two step brothers, L. I. Patterson and L. B. Patterson, both of Glennville, Ga., and a number of nieces, nephews, and other relatives.

Good Vote Expected To Turn Tuesday For City Election

SITE SELECTED FOR NEW SCHOOL GYMNASIUM BLDG.

The school trustees met in a special session yesterday afternoon and chose the site for the new gymnasium which was authorized recently by the voters in a special bond election.

Location chosen is across the street from the school (NW of the school ground) on lots owned by the school and now occupied by two houses. One house is occupied by a janitor and the other is used as a classroom for a Latin-American first grade. The houses will be moved or disposed of.

David Castle & Co., have the engineering and architectural contract, and their representative approved the location. There will be plenty of parking space around the new gym, it was pointed out by the trustees.

Next step will be drawing up and approving plans, and finally there will be a call for bids.

The next regular meeting of the school board will be on Monday night, April 1st.

We learn that a card shower is being promoted here for Mrs. George Faught of Lampasas, who will be 92 on April 5th. Anyone wishing to send her a card should address it % Lewis P. Carlile, 101 West 1st St., Lampasas, Texas.

Next Tuesday—on the same day as the Senate election—the voters of the City of Eldorado have another important appointment when they will be called upon to elect a Mayor and three aldermen to serve for the next two years.

For Mayor

For Mayor, the voters of the city will again chose between Eldon Calk, incumbent, and Rance McDonald, who opposed each other in the same race two years ago. At that time, with a total of 215 votes cast, Calk received 111, and McDonald was a close second with 104.

Aldermen

In the race for aldermen, there will be three to elect and five to choose from. These are:

Ed Meador
J. Edgar Spencer
Delbert Edmiston
Buster Gunn
L. W. Chrestman

Of these five, Meador and Spencer are incumbents who have agreed to run for re-election.

This city election will be held in the Memorial building in the ladies club room.

Mrs. B. T. Williams is here from her home at Parlin, Colo., to spend the week with her parents, Mr. and Mrs. Otto Sauer, and attend the Sauers' 50th wedding anniversary Sunday.

Getting Cover On The Land Is Key To Range Improvement

By WILLIAM M. ROUNTREE
Work Unit Conservationist

Making the most effective use of soil, water, and plant resources should be the objective of every rancher if he intends to get back to ranching for the greatest profit. What more can a ranchman do to insure his operation against drought, floods, and declining livestock prices than to make effective use of these three basic resources?

There is no short cut to getting rangeland, like the one in the picture above, back to good forage production. Land like this has to go through the weed, cover, and litter stages prior to the establishment of good grasses. A range just doesn't jump from bare ground to high productive grass.

Cover and litter perform miracles when it comes to sure-shot penetration of rainfall into the soil for use in producing dependable feed for cheap grazing. A minimum of 1500 to 2000 pounds of cover or litter per acre is considered necessary insurance against accelerated runoff during hard rains, controlling movement of soil, and getting water into the ground.

The range at the beginning may be well advanced or it might look like a hopeless situation. In either case management of the three key resources is the secret to ranching at a profit. Once cover and litter are established, production of feed increases, widening the margin for profitable operations.

Livestock breeders know the importance of selective breeding. Now successful ranchers are learning the benefits to be gained from raising the higher producing kinds of range feed through careful management.

Many ranchmen today are plagued by the disastrous results of operating their country while making little use of below-normal rainfall. Hard rains run off bare ranges at a terrific rate. Evaporation is increased on bare ranges. Not only is there a drop in the potential production of feed, but the actual loss of silt and water is irreplaceable. Heavy rains which should soak in to our parched rangelands will go rushing down creeks and draws to cause extensive downstream flood damage.

The wide variation in both seasonal and yearly rainfall bring about an urgent need for a reserve of cover and litter to cushion droughts by storing large amounts

of moisture during the high rainfall period for plant growth.

When the operator uses his cover and litter below the 1500 to 2,000 pounds per acre, the effectiveness of small showers is reduced in proportion, and a great percentage of the moisture is lost by evaporation and in regard to bigger rains—runoff is speeded up.

Old timers in the Eldorado-Divide Soil Conservation district say that in the early days they were seldom short of grass, but watering places often dried up.

In this section of the country temperature is almost as important as rainfall. It doesn't matter how wet the soil may be, if the temperature within the upper root zone is above 105 degrees, when little if any plant growth takes place. Therefore if a minimum of 1500 to 2000 lbs. of cover and litter is maintained, extreme temperatures are cushioned, and the growing range is maintained even when air temperature is above 105 degrees.

Ranges with sufficient cover seldom attain soil temperature readings above 100 degrees.

Actual readings in the district last summer were recorded as

high as 138 degrees on bare ground. At the same time, air temperature was only 98 degrees, and under a cover of grass the temperature was only 95 degrees. So you can see by these readings that a good quantity of cover and litter acts as an air conditioner.

Suppose an analysis is made of a range having poor cover that receives 19-21 inches of rainfall per year, the average for this part of the country. About eight inches can be expected to run off because of insufficient water-holding cover and litter. About seven inches would be lost to evaporation. This leaves only about 4 or 5 inches of effective moisture.

On the other hand, if a range has good cover, only about 2 inches of that 19-21 inches is lost as runoff. Evaporation is maintained at about five inches. This leaves 12 inches of moisture.

Twelve inches of usable moisture is 325,824 gallons per acre, which will grow approximately 3,877 pounds of grass.

As long as 1500 to 2000 pounds of cover and litter is maintained on the rangeland, range improvement will surely follow.

WHAT TO DO with this land. That's the big question in conservationists' minds in regard to thousands of acres in the Eldorado-Divide Soil Conservation district. William M. Rountree, Work Unit Conservationist, SCS, checks range west of Eldorado that has not had a hoof of stock on it for two years.

P-TA District Meeting Set For Wednesday At Menard High School

Menard.—Some 200 delegates from 13 counties are expected here April 3 for the annual spring conference of Parent Teacher Assn. District 6.

Mrs. T. W. Whaley of Kosse, state vice president of the Texas Congress of Parents and Teachers, will give the main address of the one-day session, following presentation of the conference theme.

Theme of the conference, "Opportunity with Responsibility for Every Youth," will be presented in a skit by Menard High School speech students.

Delegates are expected to attend the conference from Concho, Crockett, Edwards, Irion, Kimble, Kinney, Maverick, Menard, Reagan, Schleicher, Sutton, Tom Green and Val Verde counties.

Registration will begin at Menard High school at 8 a.m. April 3. The conference will open at 9 a.m. with Mrs. H. C. Green of Water Valley, District 6 president, presiding.

Reports of conference committees and presentation of the theme are next on the agenda, with the main address of Mrs. Whaley scheduled at 10:15 a.m.

A panel discussion of "The Decisive Role of Education in a Changing World" is scheduled at 11 a.m. Members of the panel will be Floyd Parson, Big Spring school superintendent; Stephen A. Willard, Lakeview special education teacher, and William Eilers, principal of Edison Junior High school, San Angelo.

Workshops on program planning and the school program will follow at 11:20, with a delegates' luncheon at noon.

The afternoon session will include more committee reports and a panel on "Home Is Still the Heart of Living," with Mrs. Gladys Short of the Texas Education Agency, Mrs. Estelle Wallace, San Angelo High school coordinator of home and family life, and Dr. Everett L. Sutter, San Angelo, district chairman of education for family living.

Following afternoon workshops, a general assembly at 3:05 p.m. will conclude the day's program.

Mrs. John A. Powell, Menard PTA president, and chairman of the conference housing committee, is making reservations for delegates at Bevans hotel and Motel 83 in Menard.

A meeting of the district board April 2 will precede the conference, with a banquet for board members and members of the Menard School Board and their wives that evening.

LIONS HAVE BOYS' RANCH PROGRAM WEDNESDAY

Morris Craig, superintendent of West Texas Boys' Ranch at Tankersley, presented the program at yesterday's Lions club meeting. He introduced seven of the boys from the ranch he had brought with him. Mr. Craig was introduced by Don McCormick.

He invited all Eldorado Lions and their wives and other friends to visit the ranch on Sunday, May 12, from 2:30 to 4:00.

Edwin Jackson, a director of the ranch, announced that the annual meeting at the ranch would be held April 7, with the Chuck Wagon gang of Odessa serving barbecue at 1:00 o'clock.

The Eldorado Lions club will have a business meeting next Wednesday, and no program.

Texas Almanacs — Success Office

Austin.—Legislative digging into the affairs of ICT Insurance Co. has reached the pick-and-shovel stage.

Previous sensation-a-day pace could hardly be maintained. In prospect now is an exhaustive turning over of every detail of the bankrupt company's financial history. Goal is to discover if crash was due to any violations of law or lack of adequate laws or enforcement.

One possibility for fresh sensations would be the return of Ben-Jack Cage, former manager of the company. Cage is in South America. He said he would be glad to talk with the committees, but was busy right now and couldn't get away.

Cage's successors at ICT have accused him of squandering the company's funds in numerous bizarre promotional schemes.

Recent disclosures from testimony:

(1) Former Insurance Commission Chairman J. Byron Saunders received some \$7,000 from ICT Discount Corp. in monthly checks. Saunders said it was in payment for his interest in Wood County oil wells. Atty. Gen. Will Wilson questioned Saunders closely as to why the money was listed on his income tax as legal fees rather than money from a property sale.

(2) Two former Insurance Commission examiners were asked to explain if they were the same men whose names appeared on checks from a Ben-Jack Cage interest. A doctor certified the two, L. W. Blanchard and Robert Butler, were too ill to testify. Both had been discharged from the commission for alleged connections with another company that went broke.

(3) Renne Allred Jr., court-appointed liquidator for ICT, charged the company was organized with borrowed money, a procedure contrary to state law. He also said year-end statements were fattened by short-term loans.

(4) Several legislators and former legislators testified concerning fees from ICT. Most were small in amount and received some time ago.

Coke's Company In Trouble
Physicians Life Insurance Co. of Dallas is to appear before the Insurance Commission on Thursday (March 28) to show why it should not lose its license.

This is only one of the difficulties faced by the company headed by Former Gov. Coke Stevenson.

It is one of several Dallas-based insurance companies that are to be investigated by a special Dallas County grand jury.

Governor Stevenson said the original founders of the company sold some of their stock through the company at a tremendous profit and retained the money themselves. None of these people is in authority now, he said, and the firm has sued for recovery of the money. "It will go a long way to get things straightened out," he said.

Stevenson also told stockholders the company's future solvency requires it to get loose from a com-

mitment to take over assets of American Atlas Ins. Co. from the state receiver. Federal tax liens against American Atlas were discovered after the deal was made.

Another Insurance Commission order gives Legal Security Life of Dallas until April 15 to clear up charges it falsified its books to show assets in excess of their true value.

Confused History

House bribery investigators are having slow going with the Texas Naturopathic Association. Efforts to uncover details of the TNA's past legislative activities have been repeatedly balked by faulty memories and lack of records.

On the committee's recommendation the House formally censured ex-Rep. James E. Cox of Conroe. Cox has been indicted on charges of agreeing to accept a bribe from the TNA.

Panel then turned its attention to reports of a fund raised by the Naturopaths to "educate" the Legislature in 1955. Fund was variously estimated from \$8,000 to \$59,000. But only hazy and conflicting testimony was received. No records were kept, said a former office secretary.

Irrked by it all, the committee prepared charges against a Dallas naturopath, Dr. Robert Spears, for refusing to answer questions about his background.

Limited Sales Approved

Bill to prohibit limiting of sales for below-cost items is back. Senate State Affairs committee approved the measure sponsored by Sen. A. M. Aikin Jr. A similar measure passed in 1955 was outlawed by courts because it applied only to groceries. Aikin's bill applies to all retailers.

A record crowd attended the committee meeting. Bill is generally favored by smaller grocers, who contend it is necessary to prevent big chains' usurping all the business with drastic price cutting.

Mrs. George Cartwright and youngest daughter Patricia arrived here Saturday evening by bus from her home at Wabash, Indiana. They stopped at San Antonio in their way to visit Mrs. Cartwright's sister Mrs. Cora DeLongue, and are now visiting Mr. and Mrs. Otto Sauer and other local relatives. The Sauers are celebrating their Golden Anniversary Sunday with all of their children and families in attendance.

THAD HUTCHESON FOR SENATOR

1914 Travis Street
Houston 2, Texas

Dear Fellow Texan:

One of your most valued possessions is your vote. You will want to give it only to the man whose beliefs and aims are most nearly like your own.

My political beliefs are simple.

I believe that States' Rights is one of the most important concepts in the American scheme of government. It will keep the majority of your government near your home and in the hands of your neighbors, whom you can observe and hold accountable for their actions.

I believe we can and must reduce the cost of government and we must require by constitutional amendment a balanced budget and a reasonable limit on income taxes. We must have an honest fiscal policy in government, and we must cut taxes.

I believe we must re-evaluate our foreign aid program, looking toward a reduction of expenditures and the substituting of loans for direct donations.

I believe that education and all matters related are best handled at the state and local level. I oppose the principle of federal aid to education.

I believe the time has come for new names and new faces in Texas politics—a time for an end to political bossism, political professionals and political scandals. Only a two-party system, with its checks and balances, its healthy competition, can restore to Texas and Texas voters integrity in public office and the respect we deserve from both national parties.

I will fight for these principles. If you believe in them, I ask your support in my campaign for U. S. Senator. I will not let you down.

Sincerely yours,

Thad Hutcheson

Otto Sauers Began Married Life Near Doss, Moved To Schleicher County Farm In 1928

Mr. and Mrs. Otto Sauer of the Reynolds community will celebrate their Golden Wedding anniversary Sunday afternoon, March 31, from 3 to 5 with open house in their home.

Mr. Sauer was born June 2, 1877 at Stonewall, Texas. He spent all of his childhood there on a farm receiving his formal education in a rural school. He was reared in the Lutheran faith and was confirmed in Fredericksburg at the age of 13.

Mrs. Sauer was born, Louise Baethge, at Fredericksburg, Texas, February 28, 1887. Later her family moved to Doss where she attended school until she was 15. Having a Primitive Baptist background, she has been a faithful member of the church for many years.

Mr. and Mrs. Sauer were married March 27, 1907 in the home of her parents, the late Henry Baethge and Mrs. Baethge of Doss, Texas. Reverend Shubert of the Doss Lutheran Church officiated in the presence of a large number of relatives and friends; all of whom remained after the ceremony for the wedding feast.

The couple began housekeeping on a 300-acre farm at Doss which Mr. Sauer inherited from his father.

In 1920 they purchased a ranch in Blanco county where the family resided eight years.

In 1928 after disposing of the Blanco property Mr. Sauer purchased a section of unimproved land southwest of Eldorado from R. A. Evans. The land was immediately put into cultivation,

fences built, residence and barns were constructed, and within six months a new farm graced this area of prairie land which was later named the Reynolds community. At the time the Sauer family moved into their new home a one-room school house had just been completed which provided a convenient location for the neighborhood children to attend grammar school. The building also served as a nucleus for community, recreational and spiritual life.

Other families which had settled in the area prior to the Sauers were the Charlie Reynolds, Joe Reynolds, George Dickens, John Faughts and Mark Hollands.

Mr. and Mrs. Sauer have twelve children. They are Mrs. Harvey Dannheim of San Angelo, Mrs. Bernard Williams of Parlin, Colo.; Mrs. Charles DeLongue of San Antonio, Mrs. George Cartwright of Wabash, Indiana, Mrs. Clyde Perkins of Dumas, William of Van Horn; Mrs. Milton Faught, Mrs. W. V. Lux, Mrs. Billy J. Reynolds, Victor, Clemens and Edgar Sauer of Eldorado.

The Sauers have 32 grandchildren and four great grandchildren. Mrs. Sauer's mother, Mrs. Hannah Baethge, is still living at Doss, and Mrs. Sauer also has seven living sisters and five living brothers. Mr. Sauer has one brother living. It is expected that much of this group will be here for Sunday's celebration.

Mr. and Mrs. Sauer cordially invite all of their friends to call Sunday afternoon between the hours of 3 and 5.

SINGING SCHEDULED

The Kimble-Menard county singing convention will meet in the Baptist church in Hext for 5th Sunday meeting on March 31st at 2:00 p.m., according to the secretary, Mrs. Hugh Spinks.

Jud Brannan drove to San Angelo Sunday and brought home Mrs. Brannan who had major surgery twice at St. John's. She is doing well; her sister-in-law, Mrs. Charles Morris of Del Rio, is staying with her.

Hutcheson Enters Final Week of Senate Race

From his headquarters in Houston Saturday, Thad Hutcheson, Republican candidate for the U. S. Senate stated, "In reply to the public misrepresentation of my views on segregation and civil rights by one of my opponents, I point out one great lesson to be learned in politics. It is the axiom, 'He Who Lies, Dies.'" Hutcheson continued, "I regret that my opponent, who at one time, years ago, served his country so well in Congress, has stooped to bigotry, character assassination and sarcastic remarks about my children and family as his campaign collapses around him."

Hutcheson stated that the public record proves "I believe in state and local self-determination on school desegregation and am opposed to the Civil Rights legislation now before Congress, and I have said so clearly and definitely during the campaign. I have a proven public record on these matters. First, as Co-Chairman of the Southern Caucus of the Republican National Convention last summer I fought for and helped obtain concessions for the traditional views of Texas and the South on desegregation in the Republican platform. I therefore offer proven performance in place of the empty promises of my opponents.

Further, as Resolutions Chairman at the Republican State convention of May 22, 1956, I helped prepare and guide through the convention a resolution rejecting 'the advocacy and intermeddling of outsiders' and declaring that in the absence of an orderly change of law the desegregation problem in Texas be left to the people, the school boards and the courts within this state pursuant to the decree of the United States Supreme Court."

"It is now apparent," Hutcheson said, "that my 'Adlai Stevenson conservative' opponent must have the same group of overzealous advisors directing his publicity as those who directed the Texas campaign for the Stevenson-Kefauver ticket last fall, judging from the

similarity of smear releases. I well remember some of the handbill propaganda maligning President Eisenhower just before the election last November. This type of low campaigning insults the intelli-

gence of Texas voters and will be repudiated with the same kind of overwhelming vote in the Senate election as was registered in sweeping President Eisenhower to victory."

METHODIST MEN

Ed Meador was speaker and Rev. Russell Heaner brought the devotion at the regular meeting of the Methodist Men Monday night. Plans were discussed for the community barbecue which the group will give on May 20th.

Capitol Hill continues to buzz about the budgets. And so last week another one of the 13 major appropriation bills that will be acted upon was approved, but with a half billion dollar reduction from budget estimates. It was a 5½-billion dollar bill.

That makes 5 out of the 13 already acted upon, and the total cuts up to now amount to \$789,500,000. The \$35 billion defense appropriation and the four and a half billion foreign aid bills will be acted upon a little later. Thus, it now looks like the eventual reductions may run anywhere from two to five billion.

Speaking of the money bill acted upon last week, it included an item of \$95 million for subsidizing public housing obligations that are outstanding. That serves as a good reminder of what it means for chickens to come home to roost. As a result of the Congress—over the protest of many of us—year in and year authorizing more of these projects to be built at taxpayers' expense, we are called upon to pay more and more each year on the amortized obligations. And the amount increases each year as new projects are built and more obligations are added.

Originally justified by sponsors as a way of providing housing for low-income and welfare families, Uncle Sam has now built about a half million units, making the government the biggest of all landlords. Tenants pay only a fraction of the actual rental value of the public housing apartments they occupy.

Getting away from the original concept of helping the needy, it has been revealed that many of these projects are now occupied by families earning several thousand dollars annually. In debate last week, I cited an example of this: A housing project in Pittsburgh is occupied 80% by steelworkers who earn more than \$100 per week, while American taxpayers are, in effect, paying a sizeable part of their rent bills for them each week. We have registered vigorous protest against this kind of business.

CARD OF THANKS

I am so glad that I live in Eldorado. I want to thank my friends for the visits, cards, letters, and beautiful flowers and gifts that I received while in the hospital.

Until I can see you personally, may God grant you health and happiness.

Mrs. Jud Brannan. 1tc

CARD OF THANKS

We want to thank our teachers, classmates, and friends for helping us keep up with our lessons by sending and bringing our assignments to us while we had the mumps. We appreciate it so much. Pat, Molly and Joe Phillips.

CARD OF THANKS

I wish to thank the members of the St. Mary's Episcopal church for their recent cash donation, which was greatly appreciated.

Mrs. J. N. Early *

A TRIBUTE

"In memory of Mrs. Lowell Griffin"

A precious one from us has gone. A voice we love is still; a place is vacant in our home That can never be filled.

By her sister
Mrs. Claude Doyle 1c

OVER the years we have sold a number of dating stamps which have 1957 as the latest year. Replace them now from our new stock of daters. They are still only \$1 at the Success office.

Mrs. Sessoms Honored At Local Shower

Mrs. Tommy Sessoms of Tatum, N. Mex., was honored on the 21st at a pink and blue shower at the Eastside Baptist church.

Hostesses were Mrs. George Williams, Mrs. Vernon Carroll, Mrs. Houston Thigpen, Mrs. Alvin Faris, Mrs. Fred Furr, Mrs. W. E. Turnbow, Mrs. Jack Griffin, Mrs. L. C. Higgins, Mrs. J. D. Holden, Mrs. Earl Hicks and Mrs. E. T. Turnbow. The shower was held at 3:00 p.m.

The serving table was laid with a white cloth and centered with a basket of Easter flowers. Favors were tiny storks in Easter eggs. Games were directed by Mrs. Vernon Carroll.

During the weekend Mrs. Swain left for an indefinite stay at Tatum with her son-in-law and daughter, Martha.

School News

Four members of the Eldorado Student Council and their sponsor left this morning to attend the state convention of student councils that opens today in Galveston. Ball High School of Galveston is host school for the convention.

Representing Eldorado at the convention will be Dick Runge, John Meador, Joy Dodd, and Lu-Ethyl Dawkins. The group will be accompanied by Mr. Andrews, student council sponsor.

Joy Dodd will lead one of the discussion groups at the convention. Her topic will be "How Can the Student Council Promote Citizenship?" The group will return Saturday night.

The Eldorado High school mixed chorus and Jr. High Girls chorus will go to Abilene Friday, March 29th to the Intercollegiate League Music Competition festival. It will be held in Lincoln Junior High. The High School chorus sings at 10:30 and the Junior High at 1:00. Both choral groups gave an assembly program Thursday morning at 11:30. The triple trio girls also sang.

The district one-act play contest was held in the high school auditorium, Friday 22nd at 4:00. The contest proved to be a successful one. An appreciative audience saw five dramatic productions.

The winning play was "Minnie Field" presented by the Menard school. Second place went to Sonora with their production of a cutting from "Anastasia." Eldorado placed third with the recognition scene from "Anastasia."

James Noguera of Menard was chosen best actor. The best actress award went to Dormalene Davey of Junction. Chosen on the all-star cast were Shannon Ratliff, Sonora, Tommy Espy, Sonora; Ann Ballew, Eldorado, and Grosse Mohler of Menard.

Dr. McDonald Held, professor at Howard Payne college was the judge for the contest. Dr. Held presented criticisms of the productions after the contest.

The purpose of such an event is to be of educational value to the student and this contest experience accomplished that purpose.

The boys' tennis team entered the Brady tournament Friday 22nd. In the boys' singles Cecil MacWalston played Bill Green of Eden a hard fought match, but lost a close 8-6, 8-6 decision. The doubles team of Jesse Hixson and Willie Luedicke drew tough Brady in the first round and lost 6-2, 6-3.

Eldorado meet:

In the dual meet with Christoval Monday afternoon March 25th, Christoval won three of five matches. In the High School Sr. singles Walston won 6-0, 6-2. In the High School Sr. doubles Clyde Wilkinson and Wayne Saloman defeated Hixson and Arnie Westbrook 6-2, 6-1. In the High School girls' doubles Loyce Thorn and Jayne Shipley defeated Martha Graham and Myrta Ann Topliffe 6-1, 7-5. In the Jr. boys singles Charlie Tillerson defeated James Sallee in what was the best fought match of the day, 6-1, 4-6, 9-7. In the Jr. boys doubles Jim Runge and Carl Parker teamed up to defeat Curtis Vaughn and Douglas Roberts 6-2, 6-4.

The Western half of the district volleyball will be played here in the local gym beginning at 3:00 o'clock next Tuesday afternoon, April 2nd. Eldorado will play Ozona in the first round and the winner will meet Sonora in the finals beginning at 4:00 p.m.

Concho unit of the Texas State Teachers Association will hold its last meeting of this year in Eldo-

rado next Thursday, April 4th, at 7:30 p.m.

There will be a brief business meeting and the election of officers for next year. High School Principal Joe Andrews is serving as vice president of the unit. The unit is composed of teachers from Schleicher, Sterling, Irion, and Tom Green counties.

The program under the direction of Jim Hancock, local speech director, will be the one-act play, "Anastasia." * * *

The Eldorado Junior and Senior High girls went to the Ozona volleyball tournament Saturday, Mar. 23rd. The Junior girls played their first game with Iraan and won 39-19. Their second game was a tighter-played one and in the last few minutes they lost to Ozona with a score of 28-25. Girls from here who played in the Junior division were Ilene Clayton, Marilee Graham, Linda Jones, Judy McGregor, Gayle Woodward, Mary Ann Nixon, Kay Thomerson, and Pat Phillips.

In the senior division the Eldorado girls won their first game against Junction 48-20 but in their second game the score was reversed and Iraan won 39-17. High point girls in the senior division were Emma Lou Menees and Linda Merle Nixon, and in the Junior division Mary Ann Nixon and Gayle Woodward were high scorers.

High school girls playing in the tourney were Linda Nixon, Linda Love, Emma Lou Menees, Ann Blair, LuEthyl Dawkins, Genelle McCalla, and Becky McAngus.

Style Show Saturday Is Well Attended

At 12:02 on March 23, the Junior Woman's club presented a spring fashion show and luncheon at the Memorial Building. As the guests entered, they were greeted by Mrs. Wilson Page and Mrs. T. P. Robinson Jr. They were then escorted to their tables by a junior hostess. Terry Phelps, Mickey Phelps, Jane Sanders, Pam Calk, Jan Davis, Frances Dawkins, Judy Hext, and Patricia Enochs served as junior hostesses. They seated the guests and served them. Mrs. Dan Brown and Mrs. Guy Whitaker assisted with the serving.

The models entered through an archway which was covered with pink. First, the models presented the complete picture of spring by appearing together. Then each model passed in front of the pink, flower garlanded pillars which were on the stage and came by the tables to the elevated garden scene. Here Mrs. Joe Kreklow, who was the commentator, was seated. The model then returned to the club room Models for the Eldorado Style Show were Jeannie Mund, Ann Ballew, Mrs. S. E. Jones Jr., and Mrs. S. D. Harper. Showing spring fashions for The Ratliff Store were Margo Mittel, Mrs. A. G. McCormack, and Mrs. Jack Jones.

The dining room was decorated in spring colors. Pink, glittering letters across the top of the west stage presented the theme of the show, "Prevues of Spring '57." The east stage was turned into a band stand and featured pink band stands with the black letters J. W. C. on them. Soft recorded music was played through the luncheon and show. The club members were especially proud of three mesquite trees which blossomed. One became a redbud, one a dogwood, and one had lovely yellow blossoms. Large golden balls hung on golden chains from the ceiling.—Reporter.

REYNOLDS - ALEXANDER H. D. CLUB MEETS

The Reynolds - Alexander Home Demonstration Club met at the home of Mrs. Cecil Williams on March 26, with seven members present.

The program was a speaking magazine. Mrs. L. Moore gave a timely topic and Mrs. M. L. Potter gave spring styles. Mrs. Cecil Williams, gave household hints. Mrs. J. Tom Williams, family fun; and Mrs. B. J. Reynolds gave a demonstration of making flowers from gum drops for cake decorations.

The next meeting will be with Mrs. Reginald Atkinson on April 9th, and the topic will be what can we have for breakfast, by our agent.

Mr. and Mrs. Leonard Schwobel Jr. and three sons of Ft. Worth, Mr. Schwobel's father Leonard of New York, and Fae Davis of Austin spent the weekend with Mr. and Mrs. J. W. Davis. Mr. Davis took Fae back to Austin and is spending the week there visiting his mother, Mrs. Katy Davis, who is celebrating her 86th birthday, and other relatives in the vicinity of Austin.

Post Script

One of the most destructive dust storms in many years struck Schleicher County during the weekend, as a part of the big five-state snow, wind, and dust blizzard.

The major part of the storm was Saturday and Sunday.

It varied in intensity over the county. Motorists could see a couple of blocks in brushy terrain, but not nearly that far in cultivated areas.

As far as we can learn there were no accidents from the storm, but there was considerable inconvenience. Residents of Reynolds and Bailey Ranch communities especially had to dig through high drifts to get their farm vehicles out, and in barrow ditches and on farm roads there were many banks of drift soil which made driving hazardous.

The duster struck Saturday morning and left a trail of damage before it blew itself out two days later. Earl Parker lost a large plate glass window from his garage building, and the Mikeska Gin seed house was blown down. School janitors had an enormous job on their hands, picking up quantities of waste paper which had accumulated along the tennis fences.

But the biggest loser was the housewife! Few houses in the county are tight enough to stand such winds, and dust came in through the finest cracks. A few home makers report they did not even try to set the tables for meals—they ate what they could hold in their hands.

Residents of the county had been a little inclined to be optimistic earlier this spring. Now since this duster they don't know what to make of their prospects. At least farmers with irrigated wells can surely grow good crops—and pastures are greening up.

—DS—
A building spurt in Sunset Acres is the news of the week.

Paul Page has started construction of a brick 4-bedroom house facing north as does the Derrick home, but on another street. Page, who with Derrick is a co-owner of the development, is at work on the foundation and will start actual construction in a few weeks. Location of the residence is on Live Oak Street, and Page has already set out three large live oaks.

In preparation for moving, Page has sold his residence, which he bought from Walter McGregor in 1951, and will lease it from the new owner, Charlie Hahn, until the new house is completed in September.

Sammie Jones, who owns a lot in the development, expects to start construction on his new residence possibly in two or three weeks, we understand. It will be located on Maple Street and be of part masonry.

Howard Derrick improved his premises during the week end by setting out several large trees.

Sunset Acres has all of the city utilities. The water was turned on Wednesday after the line was chlorinated.

—DS—
We understand that the entire city water and sewer system extensions for Eldorado will be completed in a week.

—DS—
Voters in the city of Eldorado will go to the Memorial building to vote Tuesday. The Senate balloting will be held in the main room—the city balloting will be set up in the ladies club room. It's two separate deals and two separate groups of election officials.

Mrs. J. E. Hill and Mrs. W. F. Meador Sr. have returned from Corpus Christi where they represented the Eldorado Methodists at the WSCS convention.

Mr. and Mrs. H. W. Scott are completing an addition across the rear of their residence. The finish is stucco.

ELDORADO SUCCESS

Entered as Second Class Matter at the post office at Eldorado, Texas, under the Act of March 3, 1879.

PUBLISHED EVERY THURSDAY At Eldorado, Texas
Fred Gunstead Publisher
Alice Gunstead Editor

Front-page advertising announcements to be charged for at a rate equal to 4 times the regular rate.

Dr. Gibson Leaves On Round the World Trip

Menlo Park, Calif. —Dr. Weldon B. Gibson, associate director of Stanford Research Institute, left Saturday, March 23, for a two-month round-the-world trip which includes a survey for the Ford Foundation of possible approaches to further stimulation of economic and industrial development in Burma, India and Pakistan.

Dr. Gibson will meet with industrial, research and government leaders in Japan, the Philippines, Burma, India, Pakistan, Iran, Lebanon, Italy and several countries in Western Europe. He will also visit technical and economics research organizations in Asia and Western Europe.

During the trip Dr. Gibson will confer with SRI research teams currently working on industrial development in several countries of Asia and Western Europe.

Dr. Gibson will also discuss with business, industry and government leaders in Asia and Europe the forthcoming International Industrial Development Conference to be held October 14-18 in San Francisco. The meeting is being sponsored by Stanford Research Institute and Time-Life International.

Weldon Gibson was born in Eldorado and attended the schools here. Several years ago he was invited back to Eldorado as the principal speaker at a homecoming celebration.

News From Our Neighbors

Sells Ranch

Jimmy Henderson has sold the J. C. Henderson Ranch between Alpine and Fort Davis to C. C. Pollard of Fort Stockton for slightly more than \$200,000. Mr. Pollard paid \$25 an acre for the ranch, which contains a little more than 8,000 acres.

No cattle were involved in the deal. The ranch was a part of the original W. T. Henderson Ranch. Mr. and Mrs. Pete Shoupe will continue to operate their ranch, which adjoins the J. C. Henderson Ranch.—Alpine Avalanche.

Support Fire Dept.

Funds for maintenance of the Sanderson Volunteer Fire Department have been boosted approximately \$600, according to W. J. Ferguson, Jr., treasurer of the organization. The appeal was made last week for funds to support the organization and contributions have been coming in steadily. —Sanderson Times.

Too Many Drives

The number of worthy charitable organizations the citizens and business concerns of McCamey are asked to support are growing with the passing of each year. We believe that it now reaches an alarming total. Practically all are truly deserving generous support, but there is a limit to how much an individual or business establishment can give. —McCamey News.

Hospital Receives Grant

The Santa Anna hospital received their second check in the amount of \$5,000 early this week from the Ford Foundation, to be used for improvements in the hospital. The first part of the Ford Foundation grant was received last July and has been spent on numerous improvements at the hospital. —Santa Anna News.

Flood Control

Advertisements for bids for construction of Dam Site No. 1, first of seven such structures to be built to control the watershed, appear in this issue of The Stockman, with bids scheduled to be opened by the Commissioners Court here on April 15. If contract is awarded on that date, construction can get under way as soon as the contractor can move in equipment and men, with 242 calendar days specified for completion of the structure. —Ozona Stockman.

COUNTY AGENT'S COLUMN

by Tiny Godwin

Schleicher County Agricultural Agent

School days are here again!

I will attend a marketing school sponsored jointly by the Texas Extension Service and Swift and Company, beginning Sunday, Mar. 31 with a 12:30 p. m. luncheon and continuing through April 5. What information given will help the county agent in passing on to producers many phases of marketing problems, shrinkage, grade, classes of trade, seasonal variations not to mention many other problems. This column will not be printed next week.

Land which has been placed in the Soil Bank, either the Acreage Reserve or Conservation Reserve is still eligible for Federal cost-sharing in carrying out practices under the Agricultural Conservation program. But, applications for cost sharing for conservation practices must be filed with the county ASC committee before any practice is undertaken. Too, the county committee is the best source of information on practices which have been approved for ACP cost sharing in the county for this year. Approved practices vary by counties, therefore, checking with the county committee is very important.

Applications are now being received for the 1957 ACP at most county offices. All applications for approved practices that are received in time for inclusion under this year's program will receive equal consideration.

If ACP practices are carried out on land placed in the Soil Bank, the Soil Bank provisions of no grazing and no harvesting must, of course, be met. Some practices which are not eligible for assistance under the Conservation Reserve are eligible under ACP, and may be carried out on Conservation Reserve land if approved by the county ASC committee. Assist-

ance, however, cannot be given under both programs for the same practice on the same acres.

The safe bet is to contact the local ASC committee and find out what is available for helping conserve and build up your farm land.

* * *

Farmers use 320 million pounds of raw rubber a year; 15 billion kilowatt hours of electric power. This panorama explains why depressed farm prices affect the nation's economy drastically, for the buying power of farmers is basic. And every dollar received by a farmer for his production is said to generate \$4 in the rest of the economy. The net of it is that anything done to strengthen agriculture does far more than that. It strengthens the entire nation.

* * *

The reason the Ten Commandments are short and clear is that they were handed down direct, not through several committees.

* * *

Plant scientists of the Texas Agricultural Experiment Station have announced the release of a new blight resistant cotton variety. It is known as Austin and is highly resistant to the most damaging race of bacterial blight found in Texas. Commercial seed will be available in 1958.

* * *

You can expect to have dead grass spots in your lawn this year due to grubs. The most effective way to control is to apply dieldrin or chlorodane powder and turn the sprinkler on. Water dissolves the powder and carries it in the soil. Grubs kill grass by eating the root system.

* * *

With a population amounting only to six per cent of the world's total, the United States consumes more than 50 per cent of the world's annual raw material production.

in a systematic arrangement of strips or bands which serve as vegetative barriers to wind and water erosion. In addition to reducing the movement of soil by wind or water, the infiltration of water into the soil is increased. The loss of water by runoff is also reduced.

Several crops can be used in strip cropping. These crops are crops that are normally planted by most farmers in their present crop rotation. By planting grain sorghums, sudan and small grain in strips alternating with clean tilled crops, the crops can be harvested and the stubble left for protection against erosion. The strips should be from four row width up to 200 feet wide. The stubble of the grain sorghums should be left standing through the critical blowing period; then stubble mulch residue before alternating strips. Strip cropping, to be effective, must be applied uniformly over the critical erosion area.

Now is the time to make plans to prevent wind erosion next year. Planting time is the time to plant stubble producing crops in strips to prevent wind erosion. Now is not too soon to start doing something about wind erosion. The high winds are sure to come, but the amount of wind erosion that occurs will be governed by the amount of protective crops on the land.

Land owners and operators who wish to plan and apply a strip cropping system on their farms, may receive assistance from technicians of the Soil Conservation Service assisting the district.

THREE CELEBRATE THEIR BIRTHDAYS WITH DINNER

Mrs. Annie Nixon and Jack Faught (twins) and nephew Milton Faught celebrated their joint birthdays with a family dinner at 6:00 at the Nixon home Friday. The dinner included several birthday cakes, with other food.

Among those present were Mrs. Chas. Fuller of Brady, the Hanson Nixon family, Mrs. Farris Nixon and children, Mr. and Mrs. Dwight Wiedenmann and family, Mrs. J. D. Meador and baby, the Ralph McMillans, the Bob Faughts, the Milton Faughts and Carol Jane, Mrs. Lester Nixon and children, Miss Edith Nixon of San Angelo, and others.

EL DORADO CHAPTER D. A. R. MEETS WITH OZONA MEMBERS

On last Thursday afternoon three cars of Eldorado women, members of the El Dorado Chapter, D. A. R., motored to Ozona to hold the March meeting of the chapter with the members who live in Ozona. The meeting was held in the home of Mrs. John Bailey, with her daughter, Mrs. L. B. Cox, Jr., and Mrs. Stephen Perner as co-hostesses.

During the business session the Regent, Mrs. Mary D. Coupe, made a very interesting report on the D. A. R. state meeting which was recently held in Mineral Wells. Members from Eldorado, other than Mrs. Coupe, who attended the state meeting were Mrs. W. F. Meador and Mrs. J. E. Hill. The Regent also announced that the report which was sent in to the state conference on the most outstanding work done by the chapter during the last year, won a ribbon.

The National Defense report was given by the Regent, in the absence of the chairman, Mrs. J. B. Montgomery.

The subject of the program was "American Philosophies," with Mrs. Elizabeth Powell as leader. Mrs. L. B. Cox, Jr., gave two numbers on the Hammond organ. Mrs. V. G. Tisdale read a paper on "The Religious Background of the Revolutionary Period."

A salad plate was served to 14 members of the chapter and three guests, Mrs. Fussle and Misses May and Thelma Ellington, all of Ozona.

P-TA GROUP MEETS

The last PTA discussion group meeting was held Monday evening in the high school auditorium. Several things were discussed for programs for the forthcoming year and it was decided that some of the programs will be discussion groups.

The Latin American group did not meet, but will meet Friday evening, March 29th in the cooking lab at the high school.

The last PTA program of the year will be April 16th. Mrs. W. C. Green, the District PTA president will be the installing officer. Also, at this meeting the announcement will be made as to who the \$200 scholarship will be awarded by the PTA.

The District PTA meeting will be held in Menard April 3rd.

MAXINE SORELLE BECOMES BRIDE OF SONORA MAN

Mrs. Maxine SoRelle of Sonora, daughter of Mr. and Mrs. C. N. Clarke of this county, was married to Charles Lee Haines of Sonora March 15 in the home of the Rev. and Mrs. W. H. Marshall at Sonora, the Methodist pastor., Rev. Marshall, performing the ceremony. The groom is the son of W. J. Haines and the late Mr. Haines of Sonora.

For the ceremony the bride wore a blue linen shantung sheath dress with matching duster, and her corsage was a white orchid. The maid of honor, Jayne Kiser, wore a pink linen sheath dress and wore a white glabella corsage. Best man was Bobby Joe Granger of San Angelo.

The bride, a graduate of Rotan High school, moved to this county with the Clarke family 3½ years ago, and for awhile was employed in the business district at Eldorado. For the past 18 months she has been employed in the Lillian M. Hudspeth Hospital at Sonora. She has resigned her position as nurse at the hospital but expects to work part time in the business office.

The groom is a graduate of Sonora High, attended SAC, San Angelo, and served in the Army. He is now employed in the First National Bank at Sonora.

The couple are making their home in Sonora, after a visit here and a wedding trip to Austin.

School Menus

Mon., April 1st: Meat loaf, pinto beans, tomatoes-okra gumbo, carrot and lettuce salad, milk, rolls, butter, peach slices.

Tues., Apr. 2: Roast beef and gravy, creamed potatoes, english peas, buttered beets, rolls, butter, milk, gingerbread with white icing.

The 1957 Soil Stewardship week will begin the fifth Sunday after Easter, May 26, and continue through Sunday, June 2. Supervisors of the Eldorado-Divide Soil Conservation district are working with the local Ministerial Alliance in preparation for a joint service in observance of Soil Stewardship week.

Watch this news column for further details of this service and begin making preparation to attend.

Land, productive land on which good crops, pastures, or forests will grow, is the most valuable resource on earth. Whether you live in the city or the country, the land feeds and clothes you, and gives you most of the other things you use.

Soil is not permanent. Under many conditions it is very unstable. When water or wind move across bare ground they usually carry some soil with them. They may move it hundreds of miles or only a few feet, but eventually they will remove large amounts of soil from any area where it isn't tied down.

Land that is cultivated or left bare is subject to both wind and water erosion. The amount of erosion on land in this condition varies with the amount of rain and wind received. The intensity of the rain and velocity of the wind are factors that effect the amount of erosion during rains or high wind.

Wind erosion is somewhat different than water erosion in that it

is easy to see the soil being removed from a field. The evidence of wind erosion is not as easy to erase as the evidence of erosion by water. Plowing a field with gully and sheet erosion from water usually hides the signs of erosion. The pits of dirt along the fences, in rock piles, and pastures adjoining fields is concrete evidence that a field is losing valuable topsoil by wind erosion. These signs are not so easy to remove. The loss of the topsoil from fields is not the only damage done by the wind erosion. Fences are sometimes covered to the extent that they have to be rebuilt. Many acres of valuable grassland is lost from production by silt that covers the grass several inches deep. Traveling on highways is made hazardous and sometimes accidents are the results of dirt blowing across a road. These accidents are apt to leave someone crippled for life and possibly someone dead. These are a few of the damages done by soil erosion.

Cropland that has a good cover of either old crop residue or a crop growing on them are less susceptible to erosion by wind and water. To give the soil maximum protection from erosion by wind and water a good cover of crop residue or a cover crop should be left on the land at all times.

Strip cropping is one of the conservation practices that can be applied with little expense and gives the soil good protection from both wind and water erosion.

Stripcropping is growing crops

The Frigidaire SHEER LOOK IS THE KITCHEN STYLE OF THE YEAR

Ever hear of a "style show" for the kitchen? Here's your chance to see one — the Frigidaire 1957 SHEER LOOK Electric Ranges, Refrigerators, and Laundry Equipment. We want you to SEE all these new FRIGIDAIRE APPLIANCES.

SEE the "handiest" refrigerators.

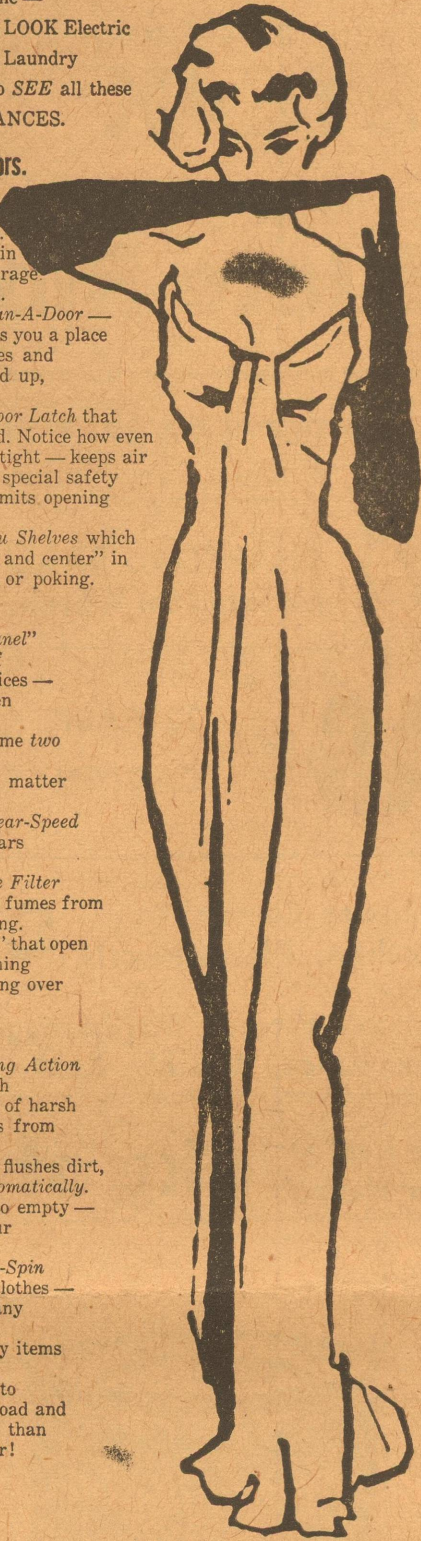

SEE the exclusive Ice-Ejector with easy-reach, automatic ice service. SEE how it triggers cubes in a twinkling from tray to storage bin, serves them frosty cold. SEE the new Frigidaire Plan-A-Door — the unique feature that gives you a place for everything. Door shelves and compartments can be moved up, down, as you please. SEE the new Safety-Seal Door Latch that ends door slamming for good. Notice how even a light touch seals the door tight — keeps air out, food fresher. And as a special safety feature, this new latch permits opening from the inside! SEE aluminum Roll-To-You Shelves which put foods and dishes "front and center" in seconds — without hunting or poking.

SEE the "thinkingest" ranges.

SEE the new "Thinking Panel" that master-minds a host of automatic labor-saving devices — cooks whole oven meals even while you're away. SEE how one oven can become two ovens — each with its own temperature control — in a matter of seconds. SEE the new super-fast Sear-Speed Radiantube Broiler that sears just like charcoal. SEE the Frigidaire Miracle Filter that swallows up smoke and fumes from baking, roasting and broiling. SEE the two "French Doors" that open from the center, make cleaning easier, put an end to reaching over a hot door.

SEE the "savingest" washers.

SEE how Rub-Free Washing Action gets all fabrics cleaner with suds-charged action instead of harsh blades — saves your clothes from needless wear and tear! SEE how Float-Over Rinse flushes dirt, lint, suds from clothes automatically. And there's no filter trap to empty — no dulling film to cloud your nice white things. SEE how Imperial Rapidry-Spin whirls more water out of clothes — up to 4 pounds more than any other washer made. Prove it yourself. You'll find many items are ready for ironing. SEE how you can save up to 9 gallons of hot water per load and enough detergent for more than 150 EXTRA washes a year!

Methodist News

Next Sunday will be one hundred per cent Sunday in our Sunday school. Our aim is to have every member of our Sunday school present. This cannot be done unless all of us do our best. If we do our best, we should be able to set a new record of attendance.

Mrs. Palmer West, our superintendent of membership cultivation and attendance, is still sick in bed with the mumps. Let's show her how much we appreciate the fine work she has done in building up our attendance by coming next Sunday, even though she will have to be absent.

The Nelson Attendance Plan has just ended. Mrs. Albert McGinnes, secretary of the Sunday School, has made a tally to see how much the Nelson Attendance Plan has helped us in building up our Sunday School attendance. Last year, the average attendance for the first 12 Sundays in 1956 was 111. During the first 12 Sundays in '57 (which was the time of the Nelson Attendance plan) our average attendance at Sunday School has been 137.6. So under the Plan our average attendance has increased 26 people every Sunday. And this in spite of the loss of regular churchgoers such as the Schullers, Warrens, Shugarts, and Luckenbachs.

The Dorcas circle will meet this afternoon at 3 o'clock.

There will be a reception Saturday night at the district parsonage in San Angelo honoring Bishop A. Frank Smith. Bishop Smith will preach at the First Methodist church in Sonora Sunday morning.

The Commission on Membership and Evangelism is sponsoring visitation evangelism Sunday afternoon at 2 o'clock from the church.

Everyone is invited to attend our revival meeting next week for five nights, from Monday through Friday, at 7:30. The pastor will preach and Bob Burkart will lead the singing. Mrs. Ernest C. Hill will play the organ and Mrs. Keno Ogden the piano.

Woman's Club Meets

The Woman's club met Tuesday, March 26, at 2:00 at the Memorial Building off a field trip. The first stop was at the Woolen Mills where we were greeted by Mr. Collins and other members of the firm, who showed us through and explained the workings of the factory.

Our next stop was at the Wax Plant where Mr. Hensley told us about what is done there.

We are very proud of our home industries and found them very interesting.

From there we went to the home of Mrs. Joe Edens for a business session and refreshments. Mrs. Edwin Jackson gave a report from her attendance of district meeting at Abilene.

The chest x-ray mobile unit is to be here April 8 and 9 at the Memorial Building, from 1 to 5:30 p.m. and 8:30 a.m. to 1:00 respectively.

Our club was requested to serve as hostess at that time, and also to use our phones to contact people and urge them to take advantage of this opportunity for a free chest x-ray.

A motion was made to sponsor Charleen Logan as candidate for National Art Institute. It carried unanimously.

Our next meeting will be held April 9 at 2:30 p.m. at the Presbyterian church. Program for Bible Day.

Mrs. Edens served cake and coffee to nine members. —Reporter.

another Bailey first...

U-Rollit* by Bailey

Here's the most durable western straw ever! 4-inch U-Rollit brim stays put... the way you want it. Tough, imported fiber woven in the new Wagon Wheel design. Durable "rawhide" brim construction. Waterproof. Soil resistant. We've got your size in choice of real western colors. Best five bucks you'll ever spend!

COULTER'S

Home Demonstration Agent's Column

Mrs. Joe Kreklow
Co. Home Demonstration Agent

Well, I hope that this will be the last of the big blows. Never before have we had a solid 48 hours of dirt (not dust) blowing as it did over the week end out in the Reynolds community. The Panhandle had its devastating snowdrifts and we have our black dirt drifts. The county road graders had to be sent out to clear some roads which were completely blocked. Some low spots which caught water during last Wednesday's 2½ inch rain were dried up in one day by the severe winds. One farmer was making plans to drain a "lake" but before he could get to it the high winds did the job for him.

We may never like this weather out in our community but at least the people are learning to take such debilitating weather in their stride. Early Monday morning I had two calls. One was to come and help a neighbor in making plans to add a new room to the house and make other remodeling changes; and the other was in connection with making plans for the celebration of the 50th wedding anniversary of Mr. and Mrs. Otto Sauer. Both were heartening in that the first call indicated the fact that one family was making plans to stay for a long time and the other pointed to a family that has already stayed a long time. Most of us have plenty of grit to keep on trying; all we need is the stamina.

Just arrived—a new bulletin called "Roses for Texas," by A. F. DeWerth, head of the Dept. of Floriculture and Landscape Architecture, Texas A&M college system. Call 24281, my number, and leave your name with Mrs. Kenneth Cheek, and one will be mailed immediately.

Next Wednesday, April 3, the district seven Texas Home Demonstration Assn. will hold its annual meeting on the campus of McMurry college in Abilene. Elected delegates from Schleicher county are Mrs. John Williams, THDA County chairman; Mrs. M. H. Woodward, county council chairman; Mrs. Arch Edmiston elected THDA chairman for 1958 and council delegate, Mrs. M. L. Potter. Mrs. E. H. Nixon Sr. is an elected alternate for any of the above named and will also attend.

Since Abilene is quite a drive to be made by 8:45 a.m. we are all going together on Tuesday afternoon and be guests of a family and friends which we are all fortunate enough to have living in Abilene. These meetings are attended by 300 and 300 women from 22 counties which make up Texas Almanacs — Success Office

IT'S "WATCH INSPECTION TIME"

MARCH 25—
APRIL 6

Watches need periodic checkups like all hard-working machinery. Their more than 120 parts are on the go 24 hours a day.

The hairspring reacts 1.5 million times a week. The jeweled lever starts and stops 432,000 times a day. The balance wheel runs constantly at express-train speed.

Let our service expert give your hard-working watch a thorough, professional inspection today. A checkup now may save you hours of delay and dollars of repairs later.

JOHN STIGLER
Jeweler

Extension District VII.

One of the many informative and interesting items in the new Rose bulletin is this: "Water plants thoroughly. Don't apply fertilizer to newly planted bushes until the root system is well established, then feed twice a season. Do not fertilize late in the fall."

LAYETTE SHOWER HONORS MRS. JERRY THOMPSON

Mrs. James Alexander and Mrs. Lynn Alexander gave a layette Coke party Thursday, March 21st, in the James Alexander home in honor of Mrs. Jerry Thompson.

Guests called at 9:30. Sixteen guests and several children attended. The table was covered with a lace tablecloth and had a stork as a centerpiece, with pink and blue streamers leading to each corner of the table.

Cokes, coffee, and cookies were served to the adults, while the children were served oranges and cold drinks and cookies.

The Thompsons live here where he is employed. Mrs. Thompson is the former Mary Lou Alexander.
