NOBODY'S BUSINESS

BY JULIAN CAPERS JR.

Austin—Texas, foremost 1938 political floor-show got off to a flying start this week, when Ernest O. Thompson, erstwhile mayor of Amarillo, now serving his second term as Railroad Commissioner, made his initial bow to the voter at Waco, where he reviewed the record he has made, and outlined the issue upon which he asks the voters to promote him to the governorship.

Previously, Thompson had stolen a march on his chief opponent, Attorney General Bill McCraw, of Dallas, by promulgating a 15-point platform advocating economy, no new Texas, aid for farmers and schools, a leasing board for school lands, liberal old age pensions based upon need, removal of insane from jails, cooperation with organized labor, lower utility rates and State utility regulation. He opposed un-American "isms", chain stores, centralization of government, Federal control of child labor and natural resources, open saloons and liquor by the drink, gambling, socialized medicine. He pledged fulfillment of the State's obligation to pension teachers and aid dependent children and needy blind, as approved by the voters. He advocated additional taxes on natural resources or on luxuries to finance this obligation, if additional funds were needed, though expressing the belief more taxes will be unnecessary.

MCCRAW OPPOSES TAXES

Meanwhile McCraw, leaving the State for a hearing in the Green estate tax case in Florida, issued a statement echoing Thompson's opposition to new or increased taxes, and advocating increased taxes on natural resources, public utilities and pipelines, if they are needed for the social security program. He said he will state his platform fully in his opening address at Arlington, between Fort Worth and Dallas, on Saturday, April 23.

Announcement by Jim Ferguson that his wife would not enter the gubernatorial race considerably, and left Harry Hines, Highway Commissioner, the only unheard-from prospective candidate. Hines friends believe he will announce for Governor during the week.

INSIDE STORY

Behind the decision of the Fergusons to keep out of the gubernatorial race this year lies an interesting story which goes back to 1933, when Mrs. Ferguson took office for her second term as Governor. Ernest Thompson was serving his first elective term as Railroad Commissioner at the time. There were a good many state officials, elective and appointive, who had been aligned with Ross Sterling, and who resented fiercely Mrs. Ferguson's defeat of the Houstonian for a second term. They were hostile, some even discourteous, to the woman governor. Thompson, although his political ideas were quite different from those of the Fergusons, and he was loyal to Sterling, the man who had originally appointed him to the Railroad Commission, was nevertheless, courteous and considerate of the woman governor. This chivalry and good sportsmanship won the undying friendship of Mrs. Ferguson for the red-headed Amarilloan. So when there was talk by Jim this year of running Mrs. Ferguson again, close friends say she told her husband he could do a little political dickering by using her name, but that when the show-down came, she would not enter a race against Thompson.

FAMILY OPERS

The final decision of the Fergusons was reached the day before Jim's announcement, at a family conference attended by their children and in-laws. The unanimous opinion of the latter group was that the health and age of neither Jim nor Ma justified them in entering, and this opinion, backed by the positive stand of Mrs. Ferguson against jeopardiz-

Freeze Damage Less Than Expected

The snow and freeze that visited this section last week did not do as much damage as it was expected at the time. Many people expected the wheat crop to be severely damaged but reports from farmers are to the effect that little or no damage was done wheat that had been kept grazed down. Wheat that was in the boot was damaged considerably but much of it was not killed.

The fruit crop was ruined along with gardens and flowers. A small crop of berries and grapes may be saved.

Trees and shrubs, including the mesquite, got their leaves killed and in some instances the tree itself may be killed.

The cold spell was the coldest for April that has visited this section for many years.

METHODIST W. M. S.

The W. M. S. met Monday afternoon at three o'clock at the church. The opening song was "Help Somebody Today."

Mrs. Scoggins was elected delegate to the Northwest Texas conference which meets at Snyder April 19-20. Mrs. Dickenson was elected corresponding secretary to take the place of Miss Fannie Jarratt.

We planned to visit a sick neighbor or a new person who has moved into our community instead of the regular society meeting next Monday.

The devotional was led by Mrs. Emma Martin. Her subject was the transfiguration of Christ, Mark 9:2-21.

Reporter

Mr. and Mrs. J. C. Meek received a message several days ago stating that a son had been born on April 6 to their daughter, Mrs. L. O. Clausen, at San Diego, California. Mrs. Clausen was Hallie Meek before her marriage.

ing the chances of the man who had been chivalrous to her, swung the balance, and Jim was overruled. It was a knowledge of this situation which caused the writer of this column last autumn to report that the Fergusons would not be in the race this year, in direct contradiction of reports and rumors published in virtually every daily newspaper in the State.

Wild Claims Fool Voters

The voters of Texas would do well any year, and particularly this year, to familiarize themselves with the duties and powers of the principal elective officers both state and local, before the campaigns get hot. It is a favorite trick of some politicians to confuse the voters with promises to perform certain things, which may be desirable to a lot of voters but which the occupant of the office the promising candidate seeks, is entirely without power to perform. Legislative candidates pour out promises to do things which lie entirely without the province of the legislative bodies to do, and which only administrative officers can perform. And administrative office candidates, from Governor down to tax collector, quite often paint rosy pictures of the reforms they will bring about, when they know—but often the voters don't know—that only the legislative agents of the people can make changes. The present campaigning reveals a candidate for attorney general who would furnish Texas with a new constitution, which only the people could create in an election; another seeker of the lieutenant governor's chair would change the fundamental structure of the government and destroy a legislative system that has been in use for nearly 100 years, actually the sole and only power the lieutenant governor has is to preside over the sessions of the Senate. Still another candidate for governor promises pensions for everybody over 65, when all the governor can do about it is to abide by his oath of office, and enforce the pensions-for-needy-only law which the legislators wrote and placed on the statute books.

Scholastics Decrease One

The scholastic census for the Lorraine Independent School District, completed in March, shows a decline of one pupil from last year. The census for this year shows 292 white children and 31 negroes, a total of 323. This year's census enrolled 8 less white children and 7 more negroes than last year.

Happenings at the Baptist Church

We are happy to say that we had another good day last Sunday. 175 in Sunday School and 80 in the B. T. S., and 6 mighty fine additions to the church for which we thank the good Lord. The sad part is, some of the saints left their purse at home, rode free that day. Hope you make it up next Sunday. It belongs to the Lord, bring it in to the store house (church).

The Workers Conference of the Mitchell-Scurry Association met with our church Tuesday. The ladies of the church, with the help of a few men, gave lunch to 250 people and it was done in the most orderly way. Take it from me the ladies of our church know how to do things, and they really do it.

The B. T. S. is doing the best work I have ever seen a B. T. U. do, and I have been connected with a great many.

Let me say, in all seriousness: Are you at the head of some department in the church? Do you want the church to help you in your work? Then help the other fellow, don't expect it if you are not willing to give it. Thank you. Lets make next Sunday another great day, you, you.

M. H. Godfrey, Pastor

America's Greatest Food Authority Now Writes for This Paper

C. Houston Goudiss

We announce with pride a new feature in this issue, "What You Eat and Why," by C. Houston Goudiss, noted food authority, radio speaker, author and lecturer, famous as the man who knows food "from soil to serving, from table to tissue."

One of these articles will appear each week, and we know housewives and mothers will look forward to them for the accurate, worthwhile information they contain on foods and their relation to health. This is not a recipe column. Mr. Goudiss has designed it to serve as a link between laboratory and layman in the food field, interpreting modern scientific knowledge in the language of the home maker, giving her the elemental facts regarding new discoveries and the part played by food in building and maintaining health.

Every woman wants to know what foods will benefit her family and why, and that is just the information that Mr. Goudiss will give. Watch for the articles each week, make a scrap book of them for ready reference. They contain valuable information every home maker has been wanting.

Mrs. James Mahoney and Mrs. Gay of Colorado visited in the W. E. Honea home Monday.

Mrs. L. B. Richards, Misses Parth Buckhan and Louise Zeller, and Messrs Robert Anderson and Jones Nelson of Abilene visited Mr. and Mrs. Irl Zellner Sunday.

\$3.00 Apportionment Fund Is Sent Out

Dispatches from Austin state that \$3.00 per pupil of the state apportionment fund was sent out this week to the various counties of the state. The remaining \$7 of the fund is expected to be paid by August 31. The apportionment fund this year is \$22 per pupil.

DISTRICT LEAGUE MEETS IN SWEETWATER

The district meeting of the Interscholastic League is to meet in Sweetwater Friday and Saturday of this week. The meet was postponed last week because of the severe cold.

The Lorraine school, being champions of Mitchell County, will represent the county in most events at the district meet.

WEEKLY HEALTH LETTER

Austin Texas April 11, Diabetes the price moderns pay for soft, luxurious living, took a toll of 600 lives in Texas last year, according to Dr. Geo. W. Cox, State Health Officer.

"While the controllable diseases, such as typhoid fever, malaria, diphtheria and smallpox, are causing a smaller number of deaths each year in this country, diabetes, which was notably absent in the early pioneer days, is now taking a staggering number of lives," Doctor Cox said.

"Up until the highly mechanized age diabetes was not a health problem, but the disease became noticeable in direct ratio to the development of luxury living, soft eating, soft habits, and general disregard for basic hygienic laws evinced itself among the population. Diabetes is nature's back-slap at coddling and pampering the body," he said.

"Diabetes is a class, it appears. Certainly it seems to attack the indoor desk man more often than the outdoor person whose work is more vigorous or who takes more exercise. Whatever the actual cause of the development of the disease may be, vocation or economic conditions are factors, for those who can not indulge in luxurious living and whose occupation calls for physical effort are not frequently affected."

"There would be fewer victims of ravishing diabetes," Doctor Cox added, "if those who are indulging in soft, antinatural living would realize the folly of their ways. Especially middle-aged persons and those beyond it should exercise care. Simple living, an annual physical examination, and if already showing the results of indulgences, obtaining and abiding by the advice of the family physician, could drastically cut down power of this disease and its threat to an alarming proportion of adult America."

Byron Bennett of Lubbock is spending the Easter holidays here with his mother, Mrs. Lily Bennett.

Bond Sale To Improve Football Field To Start In A Few Days

WORKERS CONFERENCE MET HERE TUESDAY

The Workers Conference of the Mitchell-Scurry Baptist Association met with the Lorraine church Tuesday in an all day meeting. 218 visitors from churches in the association enjoyed the splendid program and the lunch served by the ladies at noon.

TOURIST CABINS NEAR COMPLETION

The tourist cabins being erected on the property occupied by the Sinclair Service Station by W. S. Wimberley are almost finished. Within a short time W. P. Mays, operator of the station, expects to have the cabins ready for occupancy by tourists.

METHODIST CHURCH

Yes, the cold wave came and destroyed fruit and gardens, but we are so thankful it did not destroy our interest in the Kingdom of God upon earth.

Large crowds witnessed their interest in things eternal by their presence at all service last Sunday.

During the coming weeks many events of importance will be taking place. April 19th the woman's annual conference will convene at Snyder. Mrs. J. A. Scoggins has been elected delegate from the local auxiliary but, a good number of other women will attend one or more days. This is an unusual opportunity since it does not often meet so near us. May first the district meeting of young people will be held at Midland. This will be the last roundup before assembly in June. The cowboy idea will be carried out and our young folks are counting on going 100 per cent, and having a grand time.

A great treat is in store for all music lovers on the evening of May 1. A group of 40 or more singers are coming to our church. Watch the paper for further announcements.

Best of all just now, next Sunday is Easter. What significance is attached to that word, Easter means life, new life. Someone has said that life begins at Easter for here it is that we learn that death is not final; we get a glimpse of a lovely land beyond where our faith is not justified. Easter also gives us a message of the supremacy of love and goodness over hatred and evil.

This should be a time when every follower of Christ should seek His sanctuary to worship Him. No better time could be found to begin new life in Christ than on this holy Easter morning. Those having children to be baptised please be present at the eleven o'clock hour.

Come one and all, lets make it a great service. Special music.

J. A. Scoggins, Pastor.

PETERIFIED WOOD WANTED FOR CLINIC

Dr. Bruce Johnson is searching for peterified wood to be used in his clinic. He asks that anyone who knows of any that he might get to please let him know about it.

Mr. and Mrs. Edjison Wilson of Colorado visited his parents Mr. and Mrs. H. B. Wilson Sunday.

Milton and Edwin Hallmark of Lubbock are here to spend the Easter holidays.

J. L. Johnson says that when he inspected his maize seed preparing to plant he found that weevils had eaten quite a bit of it. In fact he floated out half of what he intended to plant. He thought perhaps others who had not inspected their seed should do so before planting.

Mr. and Mrs. Fred Ison and Uncle Jeff Ison visited in Hermleigh Sunday.

Mr. and Mrs. Fred Ison and Uncle Jeff Ison visited in Hermleigh Sunday.

Dr. Bruce Johnson reports that last Wednesday someone entered his office while he was at lunch and took a microscope which he valued at \$169.00. No trace of the instrument has been found.

The athletic committee of the Lorraine High School met recently and decided to promote the sale of \$5.00 bonds for the purpose of improving the new football field. Plans of the committee call for sodding the playing field with grass and building a fence around the property. In order to have a grass field ready for playing next fall the grass must be set out soon and watered regularly during the summer. Water will have to be piped to the property.

In order to raise the money with which to make these improvements the committee is offering these bonds for sale to football fans. Approximately \$500 is needed to do all the work as planned. The bonds will become due in 1941 but they may be taken up earlier. They are to draw interest.

The bonds will be put on sale the first of next week and the committee hopes to sell enough right away to start work on laying the water pipe and setting out the grass.

If you are interested in having a good grass playing field for the Lorraine Bulldogs do your part by purchasing a bond.

SOUTH CHAMPION

Health is not so good. Several cases of flu and some of pneumonia have followed the April freeze. Ruby three year old daughter of Mr. and Mrs. S. M. Green, is quite ill of pneumonia and has been taken to the hospital at Roscoe. Mr. Green has the flu. Mrs. Malcolm Bruce and one of her children are ill. We hope with moderating weather all will soon be better.

Reporter

THE GLEANERS

The Gleaners Sunday School class met in regular monthly Bible study Tuesday afternoon at three o'clock in the home of Mrs. L. B. Walker with Mrs. W. S. Thomas co-hostess.

The president called the meeting to order and Mrs. T. C. Wilson offered prayer. The social service committee reported 10 trays, 12 visits, and 9 bouquets to the sick for the month.

Mrs. Wilson conducted the Bible study in the absence of Mrs. Williams. The lesson was chapters 9 to 13 of Judges. Mrs. C. W. Palmer dismissed with prayer.

Delicious refreshments of sandwiches, cookies, salad and punch were served to 14 members.

Reporter

BIRTHDAY DINNER

Mr. and Mrs. Swafford gave a birthday dinner Sunday for their little son and Aunt Jo Smith. Those present for the occasion were Mr. and Mrs. C. H. Bagwell and son Olen, Mr. and Mrs. Dee Finch and children, Mr. and Mrs. John Daughtery and son S. P. and daughter Marie, Miss Marie Barron, Mr. and Mrs. Clyde Banks, Mr. and Mrs. Bob Horton and children, Aunt Jo Smith, Henry Lewis Clements, and Mr. and Mrs. W. L. Swafford.

Mr. and Mrs. Fred Ison and Uncle Jeff Ison visited in Hermleigh Sunday.

NEXT WEEK!

Why does the town of Velasco call itself the "Cradle of Texas liberty"? What are Velasco's three claims to this title? You'll find them next week in a special article by Elmo Scott Watson, noted historian and writer.

NEW SPENDING PLANS

Billion and a Half More to Be Asked for Public Works Program . . . Battle Over Reorganization Bill

Members of the house of representatives were swamped with telegrams from citizens all over the country urging that they vote against the administration's reorganization bill which, it was feared, would pave the way to an American dictatorship. Above is seen Congressman John J. O'Connor of New York, a leading foe of the bill, reading some of the messages he received.

Edward W. Pickard SUMMARIZES THE WORLD'S WEEK

Billion and a Half Wanted

HARRY HOPKINS, chief of the WPA, and Aubrey Williams, his deputy, had a conference with the President, and immediately afterward the word went out unofficially that Mr. Roosevelt contemplated offering congress a public works program calling for the expenditure of \$1,500,000,000 to end the recession and revitalize business.

According to the plan this money would be raised by federal bond issues, and would be lent to states and cities without interest for periods as long as 50 years; and it would be repayable in small amounts annually.

Williams has said a much greater emergency relief fund than is available would soon be needed if the new thousands of unemployed were to be cared for by the government.

Kill Reorganization Bill

AT SIX o'clock on the evening of April 8 the President lost his fight for the passage of his government reorganization bill. The house of representatives voted 204 to 196 to send the bill back to committee, thus shelving it for this session of congress at least.

One hundred and eight Democrats, 88 Republicans, 6 Progressives and 2 Farmer-Laborites joined to carry the motion, which sent the bill back to committee, thus killing the bill. Voting against recommitment were 191 Democrats, 2 Progressives, and 3 Farmer-Laborites. Not one Republican voted to save the bill.

The bill, among other things, would have authorized the President, by executive order, to consolidate, regroup, co-ordinate, consolidate, or abolish any of the 135 bureaus, agencies, and divisions of government. Certain independent boards and commissions were exempted.

Closing pleas, delivered in dramatic fashion by Speaker William B. Bankhead and Majority Leader Sam Rayburn, failed to swing enough votes to save the measure. The two leaders placed the issue squarely on the President. A vote against the bill was a vote of lack of confidence in the occupant of the White House, they said.

In opposition to all this organized effort were Representative John J. O'Connor, New York Democrat, chairman of the rules committee, a group of other Democratic leaders and the solid Republican minority.

They argued that the nation was fearful of the bill's implications. At a period in history when dictators abroad were growing increasingly arrogant, the congress should refrain from passing a measure which seemed to pave the way for a dictatorship in the United States, they asserted.

Man Is a Sponge

Our bodies are like water-logged sponges, for we carry water to the limit of our capacity. A human being is more than two-thirds water, and this proportion must be maintained, if health and strength are to be preserved.

There is enough water in a person weighing 150 pounds to fill a 15-gallon barrel. Muscles, liver and kidneys are about 80 per cent water, the brain 85 per cent. Even bone is made up of more than one-third water, so you can see that the old adage "dry as a bone" is not strictly accurate.

No cell can function unless it is constantly bathed in fluid. Furthermore, the cells depend upon water to transport their foods through the blood. This alone requires ten pounds of water in constant circulation.

We may term these functions an incoming service. But it is equally important as an outgoing stream. The cells need water to flush away their waste products. And if the surface of the lungs is not kept moist, there can be no intake of oxygen, no output of carbon dioxide.

Without water, no waste would be carried out of the body. Poisonous substances would remain to wreck the system within a short time. Water flushes the countless channels of physical existence—even while we sleep, for it constantly passes from the body through the lungs and skin, as well as through the bowels and kidneys.

Water Starvation

Where do we get all this water? When we are thirsty, we take a

WE OFFER

A New Food Department

All the accumulated knowledge and experience of C. Houston Goudiss, the man who for 30 years has exerted a wide influence on the food habits of this nation, are now available to homemakers through the series of articles now appearing in this newspaper.

His work has been a devotion to the study of food, both from the productive and the manufactured standpoint. He believes that better food means a better nation. Sharing these views, we have secured him to assist in carrying out our aims—to be the best available guide in all matters that affect the homes of the readers of this newspaper—for health, happiness and prosperity depend first of all upon food.

Every homemaker will want to clip these articles, and save them. She will find them invaluable aids in keeping her family properly fed.

Plan to Defend Czechs

JOSEPH PAUL-BONCOUR, French foreign minister, has devised a plan for an alliance linking Soviet Russia, Poland, Jugoslavia, and Czechoslovakia with France for the specific purpose of protecting the Czechs from aggression on the part of Nazi Germany.

The French ambassadors to Moscow and Warsaw and the ministers to Prague and Bucharest, who had been summoned to Paris, were instructed by Paul-Boncour to sound out the governments to which they were accredited regarding the proposal.

Efforts to bring about agreement between the government of Czechoslovakia and Konrad Henlein's Sudeten German or Nazi party broke down when Premier Hodza rejected the Nazi demands for elections among the nation's 3,500,000 Germans to determine whether they should gain autonomy.

What to Eat and Why

C. Houston Goudiss Discusses WATER--the Elixir of Life

By C. HOUSTON GOUDISS 6 East 39th St., New York.

OF ALL the elements required to support life and maintain health and efficiency, water takes precedence. Without it, the protein, carbohydrates, fats, minerals and vitamins, which build and repair tissues, provide motive power for the body engine, and regulate the complex processes necessary to existence would be utterly useless.

Water is the magic stream through which all nutritive elements are carried into and through the body and there held in suspension. It is the ever-ready messenger which distributes heat, moisture and body-building material, where and as it is needed.

drink and there the interest of most people ends. Few individuals give proper consideration to supplying the body with all the water it needs. Yet, when the water content of the body diminishes, health and life are in danger. A loss of 10 per cent of body water is a serious matter and a loss of 20 per cent is usually fatal.

It is only in rare instances—such as when lost in a desert—that man actually dies of thirst, for even when no fluids are drunk, water is consumed with food. But all about us we see men and women suffering from the effects of water starvation. Some indications of this are dryness of the skin and lips, mucous membranes and scalp. There is also danger of damaging the kidneys which require water to flush away the acid products of metabolism. And very often constipation can be traced to a deficiency of water, which is necessary to soften the contents of the intestinal canal.

None of these ill effects may be feared if you take enough water.

How Much Is Enough?

A healthy, normal individual requires about four quarts of water every 24 hours. That requirement varies somewhat with the season. In hot weather there is a greater elimination of water through perspiration and that loss must be replaced.

However, it is not necessary to drink four quarts of water a day. For part of our needs are supplied by food. The body draws upon three sources for its water: First, water taken as a drink or in other liquids; second, water supplied by foods, especially fruits and vegetables, for although solid foods appear dry, most of them are in fact from 75 to 95 per cent water; third, water formed in the tissues in the combustion of fuel foods. Fat gives the most water when burned. In fact, it produces more water than the weight of the original fat. Sugar gives the least.

Foods Rich in Water

A half-pound potato contains nearly a full glass of water. Some other foods that are more than 70 per cent water are asparagus, berries, string beans, cabbage, cauliflower, celery, cucumber, eggs, citrus fruits, cherries, grapes, melons, apples, raw and cooked greens, milk, onions, cooked green peas, boiled potatoes, sauerkraut, shell fish, meat stews, tomatoes and squash.

Foods containing less than 30 per cent water include butter, cakes, candies, ready-to-eat cereals, crackers, dried fruits, nuts, potato chips, sausage, bacon, syrups and Zwieback.

Avoid the Dry Habit

In addition to the water consumed with food, every normal individual should drink about six glasses of liquid daily—as water, milk, coffee, tea or other beverages. Most people drink far too little water. Women often have the mistaken notion that water will make them fat. To demonstrate the fallacy of this idea, a world-famous physician once remarked that if that were true, poor people would long ago have adopted the practice.

It is possible to drink too much water and those who are suffering from disease should be guided by their physician in determining the amount required. But most normal people could increase both mental and physical efficiency by taking more of this magic fluid.

Drink Water with Meals

The question is often asked—"Is it wise to drink water with meals?" The answer is "Yes."

Have You a Question? Ask C. Houston Goudiss

C. Houston Goudiss has placed at the disposal of readers of this newspaper all the facilities of his famous Experimental Kitchen Laboratory in New York City. He will gladly answer questions concerning foods, diet, nutrition, and their relation to health. You are also invited to consult him in matters of personal hygiene. It is not necessary to write a letter unless you desire, for postcard inquiries will receive the same careful attention. Address C. Houston Goudiss at 6 East 39th Street, New York City.

There is evidence that the drinking of a reasonable amount of water with meals by normal individuals stimulates the secretion of gastric juice, thereby improving digestion. It has also been demonstrated that it aids in the absorption of food by the body and retards the growth of intestinal bacteria.

The homemaker should be just as conscientious in providing her family with sufficient water as with adequate amounts of the other food substances. For water must be included in the list of essential food constituents. It is in truth, the ELIXIR OF LIFE.

Questions Answered

C. D. L., Jr.—Pyorrhea seems to be associated with a mild vitamin C deficiency which has gone on over a long period of time. To obtain adequate amounts of vitamin C, you should eat plenty of citrus fruits, tomatoes, strawberries and raw, leafy vegetables, such as cabbage.

Mrs. S. T. R.—Answering your question as to what is the most efficient time to begin reducing—the proper time is when the weight first begins to climb above normal. Most people wait until they are 20 or 30 pounds overweight and then reducing becomes more difficult.

Miss T. P. G.—Yes, there is a stimulant in cocoa that closely resembles caffeine in coffee. But a cup of cocoa contains less of the stimulant than is found in a cup of tea or coffee.

Mrs. A. R. M.—No, milk is not fattening. Women especially fear that milk will increase their weight, but this fear is not justified, since a pint of milk, or two large glasses, only supplies 340 calories.

BEAUTY CONTEST for PLANTS!

HAVE you ever wondered why most of the finest gardens in your locality are grown from FERRY'S Seeds? Here's why:

All FERRY'S Seeds are the result of many years of careful breeding, selecting and improving. In developing a new strain, the seed experts of the FERRY-Morse Seed-Breeding Institute hold "plant beauty contests" to select the finest plants. Their seeds are planted for the next crop. Thus, year after year, weaknesses are eliminated and desirable qualities encouraged.

Select your flower and vegetable seeds from the FERRY'S Seeds store display. All have been tested this year for germination and tested for truthness to type. 5c a packet and up. FERRY-Morse Seed Co., Detroit, San Francisco.

FERRY'S SEEDS

WHO'S NEWS THIS WEEK

By LEMUEL F. PARTON

NEW YORK.—This summer's session of the Institute of Pacific Relations will have many new factors and policies to consider, as new power formulas and equations are being drawn. The Philippines have changed their mind about cutting their United States towline. Japan and Germany make a joint survey of a 50-mile, low-lying canal route across the upper neck of Siam, which will bring Japan four days nearer Australia and perhaps five days nearer India. England's Singapore naval base isn't what it used to be. Australia announces a big new rearmament program.

Ian Mackenzie, Canada's handsome and versatile defense minister, breaks the news that Canada will rely on the United States fleet, voicing "reasonable assumption," rather than definite "commitments."

And Paul V. McNutt, commissioner of the Philippines, says we should carry "liberty and peace" to the Far East.

Mr. Mackenzie, a Vancouver lawyer, is one of Canada's most famous scholars who writes fluently and publishes articles in Gaelic. In his native Scotland, he was the most illustrious prize scholar of his generation, virtually monopolizing all the medals and garlands of the University of Edinburgh, for attainment in the classics.

He later won a Carnegie research fellowship, gathering more honors in his work on old Irish manuscripts. He later attended the Royal Academy at Dublin, wrote songs and stories in the ancient Celtic language and picked up a law degree as a sort of afterthought.

He went to Vancouver in 1914, returned for the war, and romped through grades to the rank of captain, fighting in all the major engagements.

He kept his stride in his later success in law and politics in Vancouver, becoming national defense minister in 1935. He is regarded as Canada's most eligible bachelor. He says his favorite recreation is study.

JOSEPH A. LYONS, Australian prime minister who announces a rearmament program of approximately \$215,000,000, has no such gift of tongues and reached eminence by a longer and harder road.

He rose to power in the labor movement and, in 1931, like the late Ramsay MacDonald, broke with his party and entered a coalition government. His shift to the right brought him under vigorous assault, but he was re-elected by a large majority last October.

He is sixty years old, gray and tousle-haired, the father of 11 children, and walks with a limp as the result of a railroad accident 13 years ago.

He began his working career as a country school teacher in Tasmania. Insularity and "home rule" marked his attitude a few years ago. Now he recommends as a commonwealth slogan, "Keep in tune with England."

Everywhere, the little nations are calling, "Wait for baby."

TAKEING arms against this sea of troubles is the Countess Alain Dedons de Pierrefeu, formerly Elsa Tudor of the Boston social register.

Under impressive patronage, which includes faculty members of leading universities, scholars, diplomats and sociologists, she organizes a "world youth tour," with a fervor comparable to that of Peter the Hermit leading the children's crusade.

She is recruiting young persons from all nations, including Germany, Italy and Russia, on a world tour to flux animosities and foster good will and understanding. "World peace through world trade" is their slogan.

Rear Admiral Richard E. Byrd is among those who give warm endorsement to the plan. Headquarters for the tour are in New York.

The French husband of the countess was killed in the World war. Since then she has been vigorously active in social movements in Europe, Chicago, Boston and New York. For nearly four years she has been traveling around the world, recruiting support for her youth organization among diplomats, economists and business men.

WILLIAM MACLEOD RAINE'S

To Ride the River With

COPYRIGHT WILLIAM MACLEOD RAINE—WNU SERVICE

SYNOPSIS

Ruth Chiswick of L C ranch, obsessed by fear of danger to her outspoken and bull-headed father, Lee, from a band of lawless rustlers headed by Sherman Howard, decides to save him by eloping with young Lou Howard, Sherman's son, and comes to the town of Tail Holt to meet him. While in Yell Sanger's store, a crook-nosed stranger enters, sizes up the situation, and when a drunken cowboy, Jim Pender, rides in and starts shooting, protects Ruth, while Lou Howard hides. Disgusted with Lou's cowardice, Ruth calls off the elopement, and sends the stranger for her father at the gambling house across the street. There the stranger, calling himself Jeff Gray, meets Morgan Norris, a killer, Curly Connor, Kansas, Mile High, Sid Hunt, and other rustlers, and Sherman Howard. Lee Chiswick enters, with his foreman, Dan Brand, and tells Sanger Howard of his orders to shoot rustlers at sight. Jeff Gray returns to Ruth and solemnly reassures her of her father's safety. At supper, Ruth introduces Jeff to her father, and Brand, and in Sanger's store later she speaks cordially to Curly Connor.

CHAPTER—II—Continued

Curly spoke in a friendly way to her father and then to her. Morgan Norris scowled. He had been talking as they entered, but his words had apparently dried up. After paying for the sack of tobacco Sanger handed him, he walked past Ruth out of the store. It seemed to her there was an insolent defiance in the slight swagger with which he moved.

On his way out Curly stopped for another word with Ruth. He considered her the prettiest girl within a day's ride, and he was quite willing to make the most of their rather slight acquaintance.

Lee Chiswick passed them with some bundles in his hands.

"I'm putting these in the saddlebags," the cattleman said gruffly.

"Yes, Father, I'll be right out," Ruth answered. She knew he was annoyed at her for falling into talk with Curly Connor, a wild young fellow reputed to be hand in glove with the rustlers.

"We're starting," Chiswick growled over his shoulder.

The cattleman walked across the road to the hitch-post and began putting packages in the saddlebags of his mount. Through the deepening dusk he saw Dan Brand coming down the street leading Ruth's chestnut mare. Morgan Norris leaned against a doorpost at the entrance to the Golden Nugget.

The foreman fastened the chestnut with a slip-knot. "Got to get me some latin' tobacco," he said, and bowlegged across the road to the store.

As Brand passed the two young people, he gave Ruth a curious glance. Down at the corral where she had left her horse, he had learned a bit of news.

"All set to go?" Ruth asked him.

"Soon as I get my chewing," Curly was speaking to the girl in a low voice. She shook her head, decisively.

"No, Mr. Connor. I'm sure I am flattered. But you know Father doesn't like some of your friends. I don't think he would make you welcome at the L C if you rode out there."

"Not even if I dropped in kinda by chance?"

Ruth laughed. "Young men who drop in by chance don't fool him any more."

They followed Brand out of the store. Night was sweeping down over the valley. The first evening stars were pricking out. Above the door of a saloon farther down the street a lantern had been lit.

Men drifted in and out of gambling-houses. Morgan Norris was no longer in sight. He had disappeared into the Golden Nugget. Mile High and his friend Sid moved with trailing spurs to their cowpions.

Someone invited them to come back and have another drink.

"No, sir, we're hitting the trail," Mile High called back.

From the alley beside the Golden Nugget a flash split the darkness. The blast of a gun sounded—twice.

Lee Chiswick caught at the pommel of his saddle, at the same time dragging a revolver into sight. Ruth ran forward and slipped an arm around his waist.

"Get back, girl!" he shouted with an oath.

A man came swiftly, weapon in hand. From the end of the barrel a faint trickle of smoke drifted. The man was Jeff Gray.

Ruth clung to her father, her body between him and the runner.

"Don't you dare!" she cried wildly. "You murderer!"

Gray stopped abruptly, and thrust his gun back into the holster.

"You don't think . . ." he began.

"Lemme go, you little fool," Chiswick cried, struggling to free his arms.

Two more guns roared. Dan Brand and Curly Connor had come into action against the crook-nosed man.

Gray dodged behind the horses, crossed the street at a zigzag run, and crouched, and crouched, and crouched up the trailing reins of his rangy team. Without touching the stirrups, he vaulted into the saddle. The gelding whirled at a touch, ris-

ing to its hind legs. A moment later the rider went racing down the street, lying low on the saddle. Bullets whizzed past him. He did not stop. Horse and man vanished into the night.

CHAPTER III

In an incredibly short time after the firing had ceased a crowd of milling men surrounded the Chiswicks.

All the color had washed out of Ruth's face. Her arm still supported the wounded cattleman.

"Someone get a doctor," she begged.

"No doc in town," Mile High answered. "I'll ride to Tough Nut for one if you like, Miss."

Lee drew a hand across the back of his neck and looked at the stain. "Creased me," he said. "Must have knocked me dizzy with the shock. No more than skin deep."

From the outskirts of the press Morgan Norris asked a question. "Who did it?"

"That sorreltop stranger," answered Curly. "Open out a way, boys, and let Mr. Chiswick through. Better get him into the Golden Nugget."

"I'll go into Sanger's," Chiswick said. "No-use making a fuss. I'm not hurt."

The broad shoulders of Dan Brand opened a path.

"Are you sure it's . . . not se-

The pain from the grip on her flesh was intense.

rious, Father?" Ruth asked, as soon as they had reached the store.

"Sure," Lee replied curtly. "Just a scratch. Get me water, a clean towel, and some linen to tie up my neck, Yell," he ordered.

Sherman Howard came into the store as Ruth was tying a handkerchief around her father's neck to hold the bandage in place.

He said suavely: "I wouldn't have had this happen for a thousand dollars, Lee. I've got men out on the trail after this skunk, and if they catch him we'll sure string him to a cottonwood."

"Why, the scallawag ate supper with us not 15 minutes ago," Brand burst out indignantly. "Soon as I see him I knew he was a bad hombre, but I didn't figure on him pulling any such a thing as that."

"Hadn't been for Miss Chiswick the fellow would have finished the job," Curly cried with enthusiasm. "I never saw anything like the way she stood between him and her father. He couldn't get in another shot."

"You and Dan drove him off, Mr. Connor," Ruth said blushing.

"I certainly owe you thanks for your help," Chiswick said to Curly. "His bullet had knocked me silly and I couldn't do much for myself."

"Yore gun came out mighty swift, sir. I noticed that. Maybe if you hadn't been dazed you might have done better than Dan and me. We both missed clean, I reckon."

"Didn't have time to get set," apologized Brand. "He was moving mighty fast."

"And still is," Curly added with a grin.

"We'll hit the trail," Chiswick told the foreman. "Might bring the horses across to the door."

"Do you think you're able to travel?" his daughter asked, with a worried frown.

"Why not wait till morning, Lee?" Howard said. "You'll be more comfortable at Ma Fressall's. Better play safe."

"You think some yellow coyote will take a crack at me?" the L C owner asked bluntly, his hard gaze on Howard.

"No. I think you may be hurt worse than you figure. If you're set on going, Curly will ride with you, till you are clear of town, I reckon."

"Sure I will," assented Curly.

"Mighty glad to do that. Though you're perfectly safe from that killer, I would say."

"You can't ride beside me, young fellow," Chiswick told him. "But I'll take your proposition up and ask you to go along with my daughter till we get out of this town. You and Dan will flank her. I'll ride in front alone. If there is another murderer wants to get me, here is his chance."

At the edge of the village, Chiswick pulled up, thanked Curly, and sent the young man back. A quarter of a mile farther on he took a hill trail.

"It's five miles farther home this way, Father," Ruth said. "And a rough trail for night travel. With your wound—"

"I keep telling you I haven't any wound," he exclaimed. "We're going this way because it's safer. They'll think we will travel by the main road. If a trap has been laid, we'll miss it."

"Something in that," Brand agreed. "I don't reckon anybody is laying for us, but no need to take a chance."

A crowing cock was proclaiming the advent of dawn when they reached the L C ranch.

Ruth poured her father another cup of coffee. He took it absently, his eyes on a paper in his hand.

"Reckon I better put the date in," he said aloud, to himself.

The paper was a bill of sale. It read:

"This is to certify I have this day sold to Barclay Broderick one hundred and eighty (180) yearling heifers branded L C, Lazy D, and J-M, and I guarantee peaceable possession of same. Lee Chiswick."

His daughter watched him, waiting for a favorable moment. It was the second morning after their return to the ranch, and she had made up her mind to confess now. She was nervous, for she was not at all sure what he might do. This was going to be a blow for him. Why had she been such a fool?

"Something to tell you, Father," she said.

With a pencil he wrote the date on the bill of sale. "That ought to be about the thing," he looked up.

"Yes?"

Small gleaming teeth, strong and even, bit into her upper lip. "Can we go into your office?" she asked.

He finished the coffee. Ruth followed him. In the movement of her fluent body was a fine animal vigor. She shut the door of the little room after they had entered.

Ruth swallowed a lump in her throat and plunged. "When I went to Tail Holt I didn't know you had gone there, Father," she began.

"Didn't?" Chiswick's eyes came to attention. "Then why did you go?"

"I was running away to get married."

He stared at her. "Who with?"

"With Lou Howard." Her eyes clung to his steadily. She held her head up, defiant even in her humility.

He was too surprised and shocked to say anything at first.

"It wasn't his fault as much as it was mine," she went on. "I was a crazy fool. You told me to have nothing to do with him—never to speak to him. You threatened me. I like him, and I resented having you dictate to me. We met secretly. I thought I was in love with him and slipped away to Tail Holt. We were going to be married there."

"One of those cursed Howards!" Lee was still too shaken to explode.

"On the way I found out I didn't care for him so much," Ruth continued. "But I was ashamed to turn back then. When that drunken man who was killed later came into Sanger's he—Lou Howard, I mean—

didn't behave well. He was frightened and forgot all about me. He jumped over the counter and hid. Afterward I told him I was through—that I never wanted to see him again."

"You didn't marry him?" the cattleman said thickly.

"No. I wasn't crazy any longer."

He seized her by the shoulders, his strong fingers biting into the flesh savagely. "Girl, what more have you to tell me?" he demanded.

The color poured into her cheeks, but the eyes of the girl did not yield an iota to the fierce inquiry in his. "Nothing. Nothing at all."

"You weren't—"

He didn't finish his question, nor was that necessary.

"Never!" she cried.

The pain from the grip on her flesh was intense, but she did not wince.

He drew a long breath and flung her from him.

"My own daughter throws down on me and joins the pack of wolves tearing me down," he said bitterly.

Ruth understood exactly how he felt. She had always shared his resentment at Sherman Howard's active hostility, but she had never understood the reason for her father's implacable hatred of the man. There was, she guessed, something hidden in the buried past to account for it.

"I'm sorry, Father. Of course it doesn't do any good to say that, but—I'd give anything if I hadn't done it."

"You threw him overboard—quit of your own accord? He didn't jilt you?" Lee asked harshly.

"No. He begged me to go on, with it—said folks would give him the laugh. I'm the one to blame all the way through. I'm a flirt—and fickle. There must be something rotten . . . about me. I suppose it's too late to whip it out of me."

Ruth did herself less than justice. She had been willful, and she had flirted in an innocent way, but she was far from fickle. A few boys had plunged fathoms deep in love with her, but it had been good for their education. Ruth was as clean as the windswept hills, and there was in her a deep loyalty.

Hopelessly he threw out a spool. "My own fault, I reckon. I handed you—let you run hog wild—gave you your own way. If I'd used a quirt on you, it might have been better."

Ruth knew why he had been so indulgent. She reminded him of the young wife he had lost two or three years after her birth.

"I took advantage of your goodness to me," Ruth agreed.

"Your brothers are boys I'm proud of—fine steady young fellows who will do to ride the river with. I know they will be with me long as they can stand and fight. And I thought I could depend on you too, even if you are a wild colt. I didn't figure you'd walk out on me to join my worst enemy."

"I didn't do that, Father," she denied. "I would always be on your side."

"Trouble is you're a lump of conceit. You figure wrong makes right if you say so. Girl, you're laying out trouble for yourself unless you change your ways, and trouble for anyone fond of you. You'd ought to go down on your knees and thank God you didn't marry this scoundrel. You would have paid for it all your life."

Ruth knew this was true, and admitted it.

"I'm ashamed of myself," she said with unwonted gentleness.

Chiswick looked at her, started to speak, then turned on his heel abruptly and strode out of the room. Ruth knew why he left. Her attitude lapped at his resentment and weakened it. He did not want to forgive her yet, not while the passionate abhorrence of what she had done was still hot in him.

(TO BE CONTINUED)

SEEN and HEARD around the NATIONAL CAPITAL

By Carter Field

FAMOUS WASHINGTON CORRESPONDENT

Washington. — "I see Jimmy Byrnes is going to reorganize the government," commented another Southern senator after studying the various roll calls on the reorganization bill.

It is difficult to exaggerate the importance of the service the South Carolina senator rendered the White House in leading the fight for this bill. Up until a few weeks before the final roll call the whole measure had been considered dead. It was believed that the senate would agree with the house in giving President Roosevelt his six additional assistants. But it was never dreamed that the senate would vote to abolish the office of comptroller, which has proved such an effective check on illegal spending, and the whole purpose of which is to make sure that before money is paid out, the purpose for which it is to be paid is in clear accord with the language of the law.

Nor was it dreamed that the senate would hand the veterans' bureau over to White House control.

Several factors contributed to the change. Most important, probably, were the secret promises made—nobody knows how many. These promises included, it is assumed, a good lame-duck job for Senator William H. Dieterich of Illinois, who is headed for retirement by the Illinois Democratic factions despite the most slavish devotion to the President, even extending to reversing his stand on the leadership battle last year between Senators Alben W. Barkley of Kentucky and Pat Harrison of Mississippi.

Army Engineers Win

High up on the list also should be the astuteness which caused Senator Byrnes to have the army engineers specifically eliminated from the powers granted to the President. It just happens that the army engineers are the most efficient bunch of lobbyists in Washington today.

They have been since the Anti-Saloon league passed into its present slough of despond, and probably will be so long as congressmen have the right to appoint cadets to West Point. The engineers are old friends, politically, socially, and in the distribution of pork, with the senators and representatives. They did not want their functions transferred to some New Deal agency such as TVA, or the proposed department of public works. They like it the way it is, and that's the way it is going to stay.

Another big reason for the President's victory was the mounting tide of opposition to the New Deal taxation ideas. It became necessary, because of pressure from home, reinforced by the business depression, for a number of senators to oppose President Roosevelt on his tax ideas, specifically on his pet tax on undistributed corporation earnings, and also on the capital gains and losses tax.

That would be all right, but some of them had opposed the President also on the court packing issue, and some figure they must oppose him on some other issues also. Altogether, they were in danger of getting branded as anti-Democratic, in danger of having the Jim Farley-built New Deal machines back candidates against them in their next primaries.

So probably enough senators to turn the tide were forced into the "Yes" column on the reorganization bill by this question of regularity alone. Especially as it is common knowledge in Washington that on a secret vote the reorganization bill would have been overwhelmingly beaten.

Robert on the Spot

Lawrence W. ("Chip") Robert, Jr., secretary of the Democratic National committee, and one of the most ardent Southern supporters of the administration, is in a dither as a result of President Roosevelt's speech snubbing Senator Walter F. George of Georgia, and virtually inviting Governor E. D. Rivers to run against George.

"Chip" is on the spot. He is not only a loyal friend of the President, and almost a pal of Governor Rivers, but he is an enthusiastic admirer of Senator George. In fact, despite the Georgia senator's insurgence on the Supreme court issue, and on reorganization of the government bureaus, departments and commissions, friends of the two say "Chip" thinks Walter George just about the best qualified man in the Democratic party to take the place of President Roosevelt when Roosevelt steps out, whether that be in 1941 or 1945.

The terrible part of it all, from "Chip's" point of view, is that he arranged this particular party, set the stage for the dramatic denouement that followed. But "Chip" had a very different climax in mind. In fact, it was scarcely a climax he wanted. What "Chip" wanted to arrange was a public reconciliation, so to speak, among his three friends, President Roosevelt, Governor Rivers, and Senator George. All he hoped for was a few kind words from each about the other

two, which would give the Georgia folks the impression that all was harmony in the party—that Roosevelt was for George, that George was for the renomination for governor of Rivers, and that Rivers was for Roosevelt and George.

He talked a good deal about his hopes, did "Chip." He persuaded Senator George, very much against the senator's will, to make the trip, and also—which was not particularly against his will—to say some complimentary things about Ed Rivers.

Spilled the Beans

The mere fact that George was riding on Roosevelt's train, and appearing with him on the platform, "Chip" thought, would be enough. It really did not make any difference if Roosevelt failed to say anything particularly friendly. The appearance would be enough.

But Roosevelt, to "Chip's" chagrin, and to the enormous embarrassment of the George lieutenants, lashed out on the wage and hour scales in the South, and, on top of that, after assailing the forces of special privilege, turned smilingly to Governor Rivers and told the crowd their governor understood his aims and was fighting shoulder to shoulder with him.

Which every one within sound of his voice interpreted as an open invitation to Governor Rivers to run against Senator George in the senatorial primary this fall, and run with Roosevelt's active support!

The timing was deadly. "Chip's" maneuver had been timed too, right after most of the George Democratic leaders figured they had everything straightened out, with George to be unopposed for senator and Rivers unopposed for governor.

Now, word from George holds, Rivers is almost sure to run against George. Rivers will be counting on the enormous popularity of Roosevelt in Georgia, demonstrated by a number of local votes last year when referenda were held on the court issue.

Speech Pleases Some

President Roosevelt's comments about the exploitation of labor by the South's "feudal" system naturally strengthened him with the elements he must have to retain the New Deal in power for the four years beginning in January, 1940, whether he runs for a third term or succeeds in naming his successor.

Indignation among many of his ardent supporters in the house and senate will not do any harm to that particular objective. There will be just one effect that Mr. Roosevelt will not relish, and even if he had calculated this also in advance, it probably would not have deterred him.

This one effect will be to strengthen every Southern senator and member of the house who has been independent, and make it much more difficult for any one to raise the cry of "anti-Roosevelt" against them. For example, it would help renominate Senator Walter F. George of Georgia, and Senator Ellison D. (Cotton Ed) Smith of South Carolina, if their opponents make this issue. Both these senators come up this year in the states where the election is unimportant as the primary decides everything.

But, as stated, if he gave any thought to this at all, Mr. Roosevelt might reasonably calculate he would not be able to beat either of these senators anyhow.

But Maryland is a much more interesting story. Senator Millard E. Tydings has been a thorn in the White House side for years now. In fact, it surprised the folks in Maryland—and Washington—somewhat when Tydings actually made speeches for Mr. Roosevelt in 1936.

Would Boost Welles

Every time any issue comes up which involves a fight between the conservative Democrats and the White House, Senator Tydings is right with the anti's. Privately, the President has been trying to give his undersecretary of state, Sumner Welles, a boost from time to time. Welles was born in New York, having become a resident of Maryland only in recent years, but he has cherished, and not very secretly, an ambition to represent Maryland in the senate.

Mr. Roosevelt occasionally visits him at Oxen Hill, his gorgeous home in southern Maryland. During the 1936 campaign Mr. Roosevelt used Oxen Hill as a meeting place for all the Maryland Democratic leaders.

But though a very divided state, Maryland has always had pronounced Southern leanings. It has direct commercial connections, and an extraordinary sentimental tie with the South. In fact, it probably was more shocked at the scolding the President gave the South than any other particular Southern state.

So that speech by the President in Georgia was not calculated to help push Mr. Tydings out of the senate, or to push Mr. Welles into the American house of lords.

Sardines Characterized as Hobos of the Sea; They Travel Long Distances

After 18 years of intensive study, the sardine has been characterized by the California State Fisheries laboratory as being a veritable hobo of the sea, writes a San Francisco United Press correspondent.

Its wanderings, in fact, are so great that the fish threatens to involve international complications with Japan, Mexico and possibly other countries.

The system which the state laboratory employed has been to catch sardines, tag them and then keep records of where they eventually were caught again.

This has been made necessary by the controversy of whether the sardines caught off the Japanese, Mexican and Russian coasts were California sardines or whether the various sections of the sea harbor distinct sardine populations of their own. All evidence to date indicates that the sardine is a migratory fish.

According to the first report prepared by laboratory officials after checking for 18 years the size, ma-

turity, spawning grounds, anatomical characteristics and license tag attached to them, the sardines inhabiting the coast from Lower California to Canada are one homogeneous migratory population.

It has been developed further that most of the spawning occurs off the coast of Southern California and Lower California. The young remain in the warm southern waters for a while, then they get the travel urge and begin their northward swim.

The hobo instinct then develops as they grow in size. At first they are only able to get as far as Central Californian waters, returning the following spring to the spawning grounds in the south.

Fleet Marriages

Fleet marriages were clandestine and irregular marriages performed at Fleet prison in London by debtor clerks. Though not illegal, the system was so abused that it was abolished in the reign of George II.

POLITICAL ANNOUNCEMENT

The Mitchell County News is
authorized to announce to the
voters of Mitchell County the
following candidates who seek
election in the Democratic pri-
mary July 23.

For Sheriff
R. E. (Dick) GREGORY

For County Treasurer:
BASIL HUDSON
MRS. ED L. GRUBBS

For County Superintendent:
ROY DAVIS COLES
(Re-election)

For Tax Assessor-Collector:
JACK HELTON
BRUCE HART
GILBERT LEACH
J. G. WATERS

For Commissioner, Precinct 4:
FRANK CROWNOVER
(Re-election)
H. B. BEIGHTS
W. E. WILLIAMS
S. O. (DOC) GIVENS

For Public Weigher, Precinct 5:
JOHN SCOWN
(Re-election)
JOHN HORTON
MOODY RICHARDSON

For County Clerk:
FLOYD QUINNEY
JAMES HERRINGTON
(Re-election)

For County Judge:
A. F. KING
(Re-election)

For District Attorney, 32nd Dist.:
GEORGE W. OUTLAW
(Re-election)
TRUETT BARBER
ZOLLIE C. STEAKLEY

For District Clerk:
J. H. BALLARD
(Re-election)

For Representative of the 117th
District.
MARSHALL H. PIOR
TEMPLE DICKSON

If there is a town anywhere
that needs a genuine clean-up,
paint-up campaign Loraine is it.
Accumulation of trash for more
than a year in streets and alleys
has made the city a breeding
place for flies and mosquitoes.
The health and happiness of the
citizens are in danger to say
nothing of the appearance of
the town.

We believe the city officials
should tackle this clean-up job
at once and see that the cam-
paign is carried through until
the entire town is clean. One
member of the council told us the
other day that there is no money
in the city treasury to defray
expenses of a clean-up campaign.
If there isn't somebody blunder-
ed when the budget did not in-
clude such items as this. A clean
city is a healthy city and we be-
lieve the citizens want to pay
enough taxes to care for at least
an annual clean-up campaign. If
there is no money in the city
treasury for it now lets provide
some other way to do the job
this year, and get it done.

There are very few homes in
Loraine that a good coat or two
of paint would not help. A few
have been painted this spring
but the majority need it badly.
Why not start a paint-up cam-

WHEAT PRICES BELOW PARITY FOR PAST 12 YEARS

College Station—Wheat has
been consistently below parity
price for the past 12 years accord-
ing to W. E. Morgan, economist
of the Extension Service of Texas
A. & M. College. This means that
a bushel of wheat sold, will buy
less than a similar bushel bought
back in the years 1910-1914.

loans on wheat will be made in
years when the farm price on
June 15 is below 52 percent of
the parity price, or when the July
crop estimate is greater than a
normal year's domestic consump-
tion and exports.

Had the new farm act been in
force, loans would have been
made in all the years since 1923
except in 1925, 1933, 1934, and
1936.

Under the act, loans will be
made at rates of not less than 52
percent and not more than 75
percent of the parity price at the
beginning of the marketing year.

**Five Thousand Subjects
Bow to This New Queen**

Miss Mary Ann Walker of Wichita Falls was chosen by her class-
mates at Texas State College for Women to reign over the annual
Cotton Pageant at Texas A. & M. College, April 8. The daughter of
Mr. and Mrs. M. D. Walker, she is the seventh cotton queen.

paigned along with the clean-up. It
would improve the looks of the
town 100 per cent. The fronts
and interiors of most business
houses also need paint applied.
Somebody start the campaign
and lets all keep it going.

Business men! Why penalize
Loraine longer! Lets get together
and perfect a working organi-
zation among ourselves that will
help us and the surrounding
community to better ways of
living. Right now there are a
number of problems confronting
the community that can be work-
ed out to benefit all of us. Lets
quit being so lazy and indiffer-
ent about the matter.

Our city streets are terrible.
Some of them are almost impass-
able, but they cannot be worked.
There is no money in the city
treasury. The budget didn't in-
clude anything for expenses of
keeping up streets—but let the
streets go, the city is saving
money for the taxpayers. What's
the use in keeping city streets in
good condition anyway? Visitors
who come to our town will say,
"There's a town where the tax
rate must be low, I'll just move
in." Oh, yeah!

**NUMBER OF TEXAS TRENCH
SILOS REACHES 10,000**

College Station—The number
of trench silos filled in Texas dur-
ing 1937 as officially reported by
county agricultural agents was

9,483, according to E. R. Eudaly,
dairyman of the Texas A. & M.
College Extension Service, who
said that unreported silos would
bring the number up to well over
ten thousand.

The silos contain 711,525 tons
of feed, or an average of slightly
over 75 tons per silo. Silage is
valued at from \$3 to \$6 a ton in
accordance with the type of feed
used.

**REDDY
KILOWATT
MAKES
YOUR
IRONING
Easier!**

REDDY KILOWATT is the fellow who keeps your electric iron hot when
you're ironing clothes, saving you time and trouble. His wage for heat-
ing your iron while you do an entire week's laundry is only a few pennies.

By the way, if your iron or iron cord isn't working properly, it doesn't
cost much to have them repaired. Take your iron or cord to any elec-
tric shop for quick repairs. And if you need a new iron, see the auto-
matic irons which heat faster and maintain an even temperature to make
ironing easier.

TEXAS ELECTRIC SERVICE COMPANY
A. L. McSPADDEN, Manager

In addition to the standard
feeds, such as corn and the sorgh-
ums, which are usually stored in
trench silos, Eudaly cited many
instances where farmers had used
the trenches to save frost bitten
crops and sprouted grain. Russian
thistles, sweet potato vines, john-
son grass, broom corn, prickly
pear with dry fodder, cotton
stalks, and similar crops have
been successfully made into silage
in short crop years.

A recent report from Frank
Brunneman, county agricultural

agent of Cameron county, stated
that grapefruit rinds had been in-
to a trench silo. This use of the
by-products of citrus canneries,
which is normally wasted, is con-
sidered especially interesting in
view of recent tests which have
shown that grapefruit rinds have
the same food value as beet pulp.
The use of trench silos has
practically doubled each year
since 1930, when only 12 trenches
were filled. The low initial cost
of the silos, ease of filling and
feeding from them, and their ad-

aptability to any number of ani-
mals, is largely responsible for
the increase, Eudaly said. Farm-
ers and ranchmen are also becom-
ing aware of the need for reserves
of feed, and nothing fills their
need like the trench silo, which
in addition to being economical, is
rat, insect, fire, and flood proof,
and will hold silage for indefinite
periods, he pointed out. A trench
silo contest sponsored by the East
Texas Chamber of Commerce is
expected to result in expansion
in that section.

Please accept these fine novels
...WITH OUR COMPLIMENTS

EVERY year this newspaper
brings you at least three—
sometimes more—of the finest
stories in American fiction, in
the form of serials which ap-
pear from week to week. Were
you to buy these novels, from
the pens of the highest paid
writers of fiction in the world,
they would cost you at least \$2
apiece in book form. Thus you
get at least \$6 worth of top-
notch fiction every year as only

one of the many features in-
cluded in the low cost of your
subscription.

Follow these entertaining
serials starting today. If you
don't, you will be missing some
of the best literature being pro-
duced in America and some of
the pleasantest hours you ever
spent. And remember, this is
only one of the many reasons
for making this YOUR news-
paper.

AIN'T IT THE TRUTH
 "No one is beat till he quits; no one is through till he stops. No matter how hard failure hits, no matter how often he drops, a fellow's not down till he lies in the dust and refuses to rise.
 "Fate can slam him and bang him around, and batter his fame till he's sore, but she never can say that he's down while he bobs up serenely once more. A fellow's not dead till he dies not beat till he no longer tries."

American Legion Speakers Visit Seventh Grade
 The seventh grade had two American Legion speakers this week. Mr. Herrington spoke Wednesday and Mr. Templeton spoke Friday. Both talks were very interesting.
 Mr. Herrington spoke on scholarship. He gave some statistics on how much it costs to send us to school and what it means in later life. The main point was that we should make the best of our schooling.
 Mr. Templeton spoke on courage. He said that it did not mean physical courage. It means the courage to stand up and do what is right.

PUBLIC SPEAKING
 It means as though the speech students are learning fast. During the past six weeks they have been studying short speeches for special occasions, and have been doing fairly well; especially on campaign speeches, which were, in fact rather humorous. If the candidates would visit our class, they would get a good laugh and possibly learn something.
 The class is proud to say that they have a boy in their class, whom they are quite sure, will make an orator.

JUNIOR-SENIOR BANQUET
 Everybody is bustling around this week preparing for the annual Jr.-Sr. Banquet to be given Friday April 15 in the Baptist Basement.
 The Juniors are very secretive with their plans but are busy making preparations.
 The Seniors are taking advantage of being guests and are devoting their time to trying to get dates and improve their appearance (if possible) for the big affair.

LOOK WHO'S HERE
 It isn't time to look yet; but you can't afford to miss seeing just who is here, when the time comes. Watch this section of the paper and the Seniors will give you the signal when they have their annual play.

The District Interscholastic Meet, which was to have been held last week, will be held Friday and Saturday in Sweetwater. All first place winners at county meet will represent our School in both literary and athletic events.

Miss Lee: "Why don't you study to become a Pharmacist?"
 Bob James: "Don't have to, I was raised on the farm."

ALLUMI SECTION SENIORS OF 1936
 Loal Brown is married and working for the Standard Oil Company at Odessa.
 Zoa Bollinger is living in Loraine. Orman Duke works at a filling station in Loraine.
 Jimmie Ruth Glass is in nurse's training at Parkland Hospital at Dallas, Texas.
 Nova Lee Groom is in training at Hendrick Memorial Hospital in Abilene Texas.
 Edwin Hallmark is a sophomore at Texas Tech, Lubbock.
 Juanice Hart is Mrs. Kenneth Butler and lives north of Loraine.
 Irvin Jarratt lives on a farm south of Loraine.
 Lavelle Jones is Mrs. Murrell Miller, and is living on a farm near Loraine.
 Garland Land is working in Los Angeles, California.
 Evelyn Land is living in Loraine.
 Leroy Lucas is, residing on a farm near Loraine.
 Kent McGowan is attending Draughon's Business College at Abilene Texas.
 H. B. McCollum is farming near Seminole.
 Eldon Mahon is attending McMurry.
 Gladys Merket is married and living in Sweetwater.
 Rue McCarley is living in California.
 Geneva Nelson lives in Houston.
 Doris Narrell is going to Hardin Simmons.
 Charles Reeder is living near Abernathy.
 Ople Richburg lives east of Loraine.
 Lula Mae Roberts lives near Loraine.
 Othell Wilson is attending McMurry College.

JUNIOR NEWS
 The Juniors are through with the exams and most everyone came out alright.
 This is the week of the Junior and Senior banquet and all Juniors are trying to get everything prepared so there will be no rush the last minute.
 We are glad to have several of our members back in school after a short spell of sickness.
 The county winners in interscholastic events go to Sweetwater Friday and Saturday and we hope they win the district.

SOPHOMORE NEWS
 The sophomores are disappointed again. It seems as if all bad weather knocks out the good times we had planned. For instance we had planned to have a weiner roast last Friday night and the cold weather ruined our plans. We may be able to have some kind of a get together this week and celebrate the end of six weeks exams.
 A friend is one who walks in when the rest of the world walks out.

FRESHMEN NEWS
 Happy chatters were heard Monday morning about getting through with the exams, but Tuesday, I imagine, there will be a few sorrowful faces in the Freshmen class. In case you don't know what's going to happen, the report cards are coming. Freshmen let's get out of that "rut" and make some good grades the last six weeks. Don't let low grades get you down when you still have three years to go. Let's study hard to prove we're not "green freshmen".
 Nina Groom: "You remind me of the sea."
 Kenneth H.: "Why, because I'm wild, restless, and romantic?"
 Nina: "No, because you make me sick."

THIRD GRADE NEWS
Easter Poem
 A lady in a new dress,
 A man with a suit fresh press,
 Bright ribbons, bows, and frills,
 And winter here again with its chill.
 That's Easter—
 Bunnies laying here and there,
 Bright Easter eggs everywhere,
 With grass all nice and green,
 It's the prettiest sight you've ever seen!
 That's Easter—
 On the third day Jesus arose,
 Conquered death and its foes,
 All the world celebrates the day,
 That is why we all say
 That's Easter—
 We told you last week that if we learned more about our new unit, Texas, we would tell you about, and we have learned more.
 We have learned about some important cities and why they are important. Houston is important as the world's largest cotton port.
 We also learned about the six flags of Texas. Texas was first ruled by France, next by Spain, third by Mexico, fourth it was a nation by itself, then she joined the United States, and now is the Lone-Star-State in the United States.

LOOK WHO'S HERE
 It's Witty, it's funny, it's a riot, in fact it is to be the best three act farce comedy that you have ever seen put on by a Senior Class. This Senior Play "Look Who's Here" will keep you laughing all the time. You can't afford to miss seeing Aunt Alice, the spinster; and various others in the play.
 The cast of characters are as follows:
 Lyman Winchell—Garland Faulkenberry;
 Estelle Winchell—Ruby Hendrick
 Tommy Rotanah—Will Allbright
 Grace Sterling—Ronel Thomas
 Alice Bainbridge—Earlene Brown
 Jennie—Nina Pearl Brown
 Jimmie—Edward Baumann
 Irene Andrews—Doris Glass
 Rosse Stanford—Dell Johnson
 The problems of Lyman and Estelle Winchell will give you an evening of fun and entertainment that you can't afford to miss at the High School Auditorium Friday evening April 22.
 Don't fail to see Look Who's Here!

Tests Prove the Power of Food
Demonstrate a Vitamin-Rich Diet Is Vital to Health
 By C. HOUSTON GOUDISS
MANKIND owes many things to the animals which have been used as test subjects in laboratories all over the world. As doctors and scientists have waged their war against disease, as they have made great strides forward in the study of foods and nutrition, they have carried on many of their experiments with rats.
 The rats pictured here dramatically illustrate the power of food to influence growth. Although these two rats are exactly the same age, the weight of one is twice that of his brother. Where one animal is puny and underdeveloped, the second is fat and sleek and full of vitality.
 What has produced such a difference in weight and general physical well-being? Merely a slight difference in diet. The two rats have lived under identically the same conditions, but the smaller animal on the left has received food lacking in sufficient vitamins, while the other rat has been fed the same diet, reinforced with vitamins.
 If a well-balanced food ration is vital to the health of animals, how much more vital it must be for human beings. Surely the lesson is plain to see. If a mother wants her children to thrive she must feed them adequately. The child who is receiving a diet lacking in vitamins has no chance to grow and develop properly. Nor will the adult or a deficient diet attain or maintain optimum health.
EDITOR'S NOTE: To plan a diet wisely, to recognize the foods rich in important food elements, we must learn to utilize the discoveries of science. We must keep abreast of the newer knowledge of nutrition as it is presented by wise, unbiased interpreters such as C. Houston Goudiss, nationally known food authority, who each week offers his "What to Eat and Why" column in this newspaper. In this column Mr. Goudiss translates the latest developments into simple, non-technical language. By following his articles regularly, it is easy to keep in step with the most up-to-date findings of nutritional science.

RIALTO THEATRE

TO RIDE THE RIVER WITH

William MacLeod Raine's New Western Serial

Jeff Gray rode into Tail Holt with a chip on his shoulder, a tough hombre who joined forces with notorious Sherm Howard. Obviously, he was a cattle rustler, helping to ruin Lee Chiswick's ranch. But beautiful Ruth Chiswick never completely lost faith in Jeff, for his character seemed essentially honest. Why, then, did Jeff join the rustlers... why did he try to shoot Ruth's father in cold blood? You'll find the answer in our amazing new serial, "To Ride the River With."

The Dryest Story

A friend tells this as the dryest story he ever heard: "An Irishman and a Scotchman went to the bar to get a drink—and the Irishman had no money."
 They poked a lot of fun at the Scotchman, but why did he need a drink if he was already so "tight?" It's no disgrace to be saving. Let 'em talk. If you save carefully and keep your savings in a reliable Bank like ours, you'll be independent while the spender has to go on relief. A modern bank for modern people.

FIRST STATE BANK
 Member Federal Deposit Insurance Corporation

AROUND THE HOUSE

Tasty Applesauce.—Applesauce made out of tasteless apples may be enlivened by adding a little nutmeg, cinnamon and cloves, or adding lemon juice for tartness.

Storing Food Oils.—Store oils, such as olive or vegetable, in the refrigerator. They are likely to become rancid when opened unless they are kept chilled.

When Cooking Eggs.—In cooking eggs and egg dishes temperature is most important. When the protein in egg is heated it coagulates or becomes firm.

To Remove Gum.—To remove chewing gum from fabrics, rub with ice and the gum will roll off and leave no marks.

Cooked Pineapple for Gelatin.—Only cooked pineapple should be used with gelatin in desserts or salads, for fresh pineapple contains a substance that acts on the gelatin and does not allow it to jell.

Don't TEAR your "insides" out with rough cathartics!

If you're constipated and you want a good cleaning out, you need a laxative—but you don't have to take any rough treatment along with it!

Ex-Lax gets thorough results—but smoothly, easily, without throwing your eliminative system out of whack, without causing nausea, stomach pains or weakness.

For over 30 years Ex-Lax has been America's favorite family laxative. Now it is Scientifically Improved. It's actually better than ever. IT TASTES BETTER than ever, ACTS BETTER than ever—and is MORE GENTLE than ever.

Equally good for children and grown-ups. 10¢ and 25¢ boxes at your druggist.

Now Improved—better than ever!

EX-LAX

THE ORIGINAL CHOCOLATED LAXATIVE

Gratitude Is a Duty Gratitude is a duty none can be excused from because it is always at our own disposal.—Charron.

Opportunity Passes

Whilst we deliberate how to begin a thing, it grows too late to begin it.—Quintilian.

NERVOUS?

Do you feel so nervous you want to scream? Are you cross and irritable? Do you scold those dearest to you?

If your nerves are on edge, try LYDIA E. PINKHAM'S VEGETABLE COMPOUND. It often helps Nature calm quivering nerves.

For three generations one woman has told another how to go "smiling through" with Lydia E. Pinkham's Vegetable Compound. It helps Nature tone up the system, thus lessening the discomforts from the functional disorders which women must endure.

Make a note NOW to get a bottle of world-famous Pinkham's Compound today WHITE-OUT FAIL from your druggist—more than a million women have written in letters reporting benefits.

Why not try LYDIA E. PINKHAM'S VEGETABLE COMPOUND?

WNU—L 15-38

Still Useful

No man is useless while he has a friend.—Robert Louis Stevenson.

Sentinels of Health

Don't Neglect Them!

Nature designed the kidneys to do a marvelous job. Their task is to keep the flowing blood stream free of an excess of toxic impurities. The act of living—life itself—is constantly producing waste matter the kidneys must remove from the blood if good health is to endure.

When the kidneys fail to function as Nature intended, there is retention of waste that may cause body-wide distress. One may suffer nagging backache, persistent headache, attacks of dizziness, getting up nights, swelling, puffiness under the eyes—feel tired, nervous, all worn out.

Frequent, scanty or burning passages may be further evidence of kidney or bladder disturbance.

The recognized and proper treatment is a diuretic medicine to help the kidneys get rid of excess poisonous body waste. Use Doan's Pills. They have had more than forty years of public approval. Are endorsed by the country over. Look for Doan's Sold at all drug stores.

Here's an Easy Dress For You to Crochet

A simple mesh with puff stitch dots is quickly and easily crocheted into this charming dress. Use mercerized cotton in fresh spring colors. Pattern 1658 contains directions for making the dress in sizes 4 to 8 (all given in one pattern); an illustration of it and of all stitches used; material requirements; photograph of detail of stitch.

Send 15 cents in stamps or coins (coins preferred) for this pattern to The Sewing Circle, Needlecraft Department, 82 Eighth Ave., New York, N. Y.

Why... an Oil Polish?

And here, home-makers, is why: The oil element in polish is absolutely essential to all fine wood! For the same reason that we oil machinery—water our plants—massage cream into the face—is oil polish used! The same principle applies—for wood definitely requires this attention to keep it "alive!" The best oil polish has a fine, non-greasy oil base—and it is just this—when rubbed or massaged into the furniture—that prevents the wood from checking, drying out, splitting or cracking. Furniture will not do any of these things, when cared for—and it is the combination of the "oil" and the "rubbing" that prevents it! For the quality oil-polish "feeds" the hungry finish—keeps the wood young! Other polishes may give a quick, easy-to-achieve luster—but a little time and energy (it should not be labor) on the part of the housewife, will pay dividends in the looks and long life of her furniture and woodwork. All experts agree that an oil polish properly used (apply on damp cloth—as directed) is not only better—it is vital! And so, home-makers, take this important tip: Always use an oil polish—and the best one!

O-CEDAR CLEANS, POLISHES, PRESERVES—KEEPS FURNITURE LIKE NEW

More women use O-Cedar Polish and Mops than any other kind—for furniture, woodwork, and floors.

Perfection Trifles make perfection, and perfection is no trifle.

Now I Iron the EASY WAY with my Coleman SELF-HEATING IRON

Thousands of women have hunched "ironing day blues" with this smothering, work-saving Coleman Iron. Quietly self-heating. Heat is evenly distributed. No hot spots and hot edges. Iron with less effort, in one-third the time. Do your next ironing with the Instant-Lighting Coleman. It's a wonderful time and labor saver. See it at your dealer's.

Write! Send your card for free literature and full details. Address Dept. 10-23 The Coleman Lamp and Stove Co., 1000 North Main Street, Chicago, Ill. (Circular 10-23)

IMPROVED UNIFORM INTERNATIONAL SUNDAY SCHOOL Lesson

By REV. HAROLD L. LUNDQUIST, Dean of the Moody Bible Institute of Chicago. © Western Newspaper Union.

Lesson for April 17

THE VICTORIOUS SERVANT (Easter)

LESSON TEXT—Acts 2:22-36. **GOLDEN TEXT**—This Jesus hath God raised up, whereof we all are witnesses.—Acts 2:32. **PRIMARY TOPIC**—Peter's First Sermon. **JUNIOR TOPIC**—Peter's Greatest Sermon. **INTERMEDIATE AND SENIOR TOPIC**—Winning with the Victorious Christ. **YOUNG PEOPLE AND ADULT TOPIC**—The Risen Christ Our Hope of Victory.

"Up from the grave He arose With a mighty triumph o'er His foes; He arose a Victor from the dark domain, And He lives forever with His saints to reign; He arose! He arose! Hallelujah! Christ arose!"

Let the glad chorus swell the good tidings that the One who humbled Himself to become the servant of all is the "Victorious Servant"—yes, the Victorious Lord!

Easter is the great holiday—a real holy day of the Christian church. We rejoice in the incarnation, for only as the Son of God identified Himself with the human race could He bear our sins on Calvary's tree. We keep the cross before us, for only as He died did He make atonement for our sin, but above all we observe the resurrection, for had He not risen for our justification we would indeed have been without any hope. Ours is a resurrection faith; let us live it in resurrection power.

Life is so serious in its responsibilities and burdens, so often disappointing in its trials and sorrows, that we need to sound the note of victory. But it must be real victory and it must be assured at the crucial point where all the hopes of man find defeat—at death. Only the Christian has the assurance of victory there, but, thank God, he does really have it in our Lord Jesus Christ.

Turning aside from our studies in the Gospel of Mark for today we consider together the sermon of Peter on the day of Pentecost. He declares Jesus to be:

I. Approved by Mighty Works (v. 22).

Theories may have validity only to the man who accepts the authority of the one who proclaims them, but facts are stubborn things, the reality of which no man can deny. There are those who speak about the Lord Jesus as though we asked them to accept Him on the basis of our claims for Him as the Son of God. They forget the facts of history—from the hundreds of years before His incarnation when the prophets spoke of His coming, down through the account of His earthly life, death, and resurrection to which we may well add the inescapable argument of Christianity as it stands in the world today—all speak of Him as the Son of God.

II. Delivered Up to Die (v. 23).

The cross was not an accident. Jesus did not die as a martyr to a noble but hopeless cause. He came into the world "to give his life a ransom for many" (Matt. 20:28). He said, "I lay down my life. No man taketh it from me, but I lay it down of myself. I have power to take it down, and I have power to take it again" (John 10:17, 18).

But the fact that the cross was in the eternal plan of God in no way justifies those who slew Him. Though they were fulfilling the divine purpose, they were acting as free moral agents fully responsible for their wicked deeds.

III. Raised Up by God (v. 24-32).

"It was not possible that he should be holden" of death (v. 24)—what a beautifully final and positive statement. It was an impossibility that Christ should remain in the grave, and it is the absolute assurance of Scripture that we who "be dead with him shall also live with him" (II Tim. 2:11). To the believer, the one who is in Christ, the resurrection of the Saviour is the guarantee that we shall be raised. Christ is the first-fruits of them that sleep in the grave. (I Cor. 15:20.)

Peter in his sermon turns to the Scriptures to prove the resurrection referring to the prophet Joel as well as to the Psalms of David. It would be well for us to do likewise on this Easter Sunday of 1938, for we have infinitely richer resources, for in our hands is the New Testament with the story of the resurrection and all the references of the epistles to this glorious truth.

IV. Ascended and Exalted (v. 33).

"Look, ye saints! The sight is glorious; See the Man of Sorrows now; From the fight returned victorious, Every knee to Him shall bow: Crown Him! Crown Him! Crowns become the Victor's brow." "He humbled himself... Wherefore God hath highly exalted him" (Phil. 2:8, 9). Read Philippians 2: 8-11 as a fitting close to this glorious lesson.

Gaining Knowledge

"More knowledge of God's Word will be gained by a single effort to obey one of His commandments than by a year of reading with no effort to keep the Word of God."

Atonement

No rush to the battle will atone for sin in the tent.—G. Campbell Morgan.

Borrowing Troubles

Do not know that more than half our trouble is borrowed?

Strange Facts

No Such Thing As a Tree

TREES are the oldest things on earth. You have seen hundreds of them. They grow in great abundance in all but a few sections of the United States. Yet there is no such thing as a tree as a matter of scientific classification.

This oldest living thing gives us not only shelter, food and heat, but such a strangely wide variety of products as clothing material, furniture, paper, rubber, dyes, chewing gum, rosin, turpentine and alcohol. Because trees provide for so many of man's needs and because they live for hundreds, sometimes thousands of years trees have figured in the folklore and religions of many nations. The Algonquin Indians and the early peoples of Scandinavia both believed that their ancestors were descended from an ash tree. To the early inhabitants of England and Italy the oak tree was sacred.

We use the word tree to refer to the giant sequoias and redwoods of California, we use it to refer to the great oaks and beeches of America and Europe and to the slender palm and the little fig tree. But as a matter of scientific classification there is no such thing as a tree because the word may be given with equal accuracy to any plant ten feet tall that grows with a singly woody stem and lives more than two years.

Ask Me Another

A General Quiz

- Why are the countries south of the United States called Latin America?
- In political parlance what is "log rolling"?
- Are there any women in the Texas Rangers?
- How many men have held the permanent rank of full admiral in the United States navy?
- Why are low shoes called oxfords?
- What is the distinction between the secretary of the treasury and United States treasurer?
- What was the subtitle of "Uncle Tom's Cabin"?
- How many Canadians are of British origin, and how many of French?

The Answers

- Because the prevailing language is of Latin origin.
- It means you vote for my bill and I'll vote for yours.
- Mrs. Frances Haskell Edmondson is a member.
- Three: David G. Farragut, David Porter and George Dewey.
- Such footwear was first made and worn at Oxford, England.
- The secretary of the treasury is head of the department, while the treasurer acts only as the treasurer of the department.
- The book appeared at a time that double titles were popular. It was named "Uncle Tom's Cabin or Life Among the Lowly."
- Of the 10,377,000 people in Canada, 4,870,000 are of British origin and 2,455,000 are of French origin.

Dresses That Flatter Figure

THERE'S no spring tonic in the world like having a pretty new dress that makes you look slim and smart. And these are so easy to make, that you'll enjoy fixing them for yourself. The patterns

or polka dot prints, or georgette. Later, in voile, it will be your coolest summer frock.

The Patterns.

1382 is designed for sizes 34, 36, 38, 40, 42, 44, 46 and 48. Size 36 requires 3 1/2 yards of 36-inch material without nap. With short sleeves.

1456 is designed for sizes 36, 38, 40, 42, 44, 46, 48, 50 and 52. Size 38 requires 4 1/2 yards of 39-inch material, plus 1 1/2 contrasting.

Spring-Summer Pattern Book.

Send 15 cents for the Barbara Bell Spring and Summer Pattern Book which is now ready. It contains 109 attractive, practical and becoming designs. The Barbara Bell patterns are well planned, accurately cut and easy to follow. Each pattern includes a sew-chart which enables even a beginner to cut and make her own clothes.

Send your order to The Sewing Circle Pattern Dept., Room 1020, 211 W. Wacker Dr., Chicago, Ill. Price of patterns, 15 cents (in coins) each. © B-I-I Syndicate.—WNU Service.

are carefully planned so that even beginners will have no trouble following them, and each is accompanied by a detailed sew chart explaining just what to do. In addition to having something individual and very much your own, you'll save, decidedly.

Comfortable House Dress.

It's wonderful how much more one feels like working in a brand new, fresh house dress that's becoming as well as comfortable. This design is distinctly slenderizing because it's so straight and simple. You can make it in a few hours. Cheerful percale print, seersucker or chambray are nice fabrics for this dress, which will certainly be your favorite if you want to look slimmer than you are.

Dress For Afternoon.

If you wear any size between 36 and 52 this dress is designed to make you look your best. Shirring on the shoulders creates the fullness that you need in the blouse. The long, unbroken line from shoulder to hem takes inches off the figure. Sleeves ending just below the elbow are flattering to plump arms, and the long, softly rippling jabot trims are lengthening in effect. Make this lovely dress of silk crepe, small-figured

The Eiffel Tower

Work on the tower began on January 22, 1887, and it was completed on March 31, 1889. It weighs 15,400,000 pounds and is composed of 12,000 steel plates of varying forms and dimensions held together by 2,500,000 rivets. The structure is 1,000 feet high and on a clear day from the top of the tower points 55 miles distant are visible. During 1937 810,185 people visited the tower. A television station has been installed on the summit, which is to be operated in connection with the tower's radio station.

Irrational Hate

We hate some persons because we do not know them; and we will not know them because we hate them.—Colton.

"INSIDE INFORMATION"

Acid-Free Quaker State makes your car run better, last longer. Retail price, 35¢ a quart. Quaker State Oil Refining Corp., Oil City, Penna.

THIS "MAKIN'S" TOBACCO STANDS MIGHTY HIGH IN THE SOFT-BALL LEAGUE!

Dick Mansfield shows Marty Fiedler how quick and firm this "crimp cut" tobacco rolls up into a simply grand cigarette

DICK MANSFIELD (left), of the Marty Fiedler Soft-Ball Team, gives Marty himself the signal for a smooth "makin's" smoke. Says Dick: "That Prince Albert smuggles right down in the paper and stays put. Shapes up neat and firm and draws right. P. A. smokes mild, cool, and mellow. And it stays lit too."

AL VAN CISE (with bat) is up next. "Watch me do my stuff," he tells Bob La Comb (right) and Sammy Shack (front). "After I go in there and knock out a homer, I'll be back for another of those good-tastin' P. A. smokes. They've got the good full body a real 'makin's' smoke should have. There's no harshness to Prince Albert 'makin's' cigarettes. They're cool and smooth, no matter how many I smoke." (And Prince Albert is America's favorite pipe tobacco.)

70 fine roll-your-own cigarettes in every 2-oz. tin of Prince Albert

PRINCE ALBERT CRIMP CUT THE NATIONAL JOY SMOKE

Your money's worth in every tin—Your money back if you don't agree

Roll yourself 30 swell cigarettes from Prince Albert. If you don't find them the finest, tastiest roll-your-own cigarettes you ever smoked, return the pocket tin with the rest of the tobacco in it to us at any time within a month from this date, and we will refund full purchase price, plus postage. (Signed) R. J. Reynolds Tobacco Company, Winston-Salem, North Carolina.

LOCALS

Pupils of the primary department of the Methodist Sunday School enjoyed an Easter Egg hunt at the church Saturday afternoon.

Mr. and Mrs. W. W. Rowland of New Lynn visited Mr. and Mrs. Claude Spikes Sunday.

Miss Anna Bess Wilkerson visited in Sweetwater Saturday.

Mr. and Mrs. R. A. Edwards and son Roy G. visited Mr. and Mrs. Barney Haney in Roscoe Sunday.

Mr. and Mrs. Ben Smith were called to Oplin Saturday where Mrs. Smith's uncle, L. S. Harris, died Saturday morning about 11 o'clock. The body was shipped Sunday to Mississippi for burial.

Mr. and Mrs. T. R. Bennett visited Mr. and Mrs. Bill Thompson Sunday, and took care of their children while Mr. and Mrs. Thompson attended the funeral of Gid Hammock, Mrs. Thompson's uncle, who died at Big Spring. Mr. Hammock formerly lived in the Brownlee community.
