Short-Lived Revolt Staged By Anti-Sukarno Military Forces

TOKYO (AP)—Indonesian Defense Minister Gen. Abdul Haris Nasution has crushed an uprising against President Sukarno and both he and Sukarno are safe and well, Radio Jakarta reported Friday night.

The broadcast announcement came a few hours after a revolutionary council led by Lt. Col. Untung, a battalion commander in Sukarno's bodyguard, announced it had seized power and proclaimed itself "the source of all authority."

The Malaysian government radio in Kuala Lumpur, which has been monitoring Jakarta broadcasts, said army units under Gen. Suharto, loyal to Sukarno and Nasution, were instrumental in smashing Untung's power move.

The Jakarta radio said "those responsible for the coup have been arrested," Malaysian officials reported.

Untung's revolutionary council, during its bid for supremacy, had declared that Sukarno, 61, was "under protection" of the council. This led to speculation that the strongman had been removed.

There was no immediate report of Sukarno's whereabouts.

Untung, in a broadcast before the government's countermove, had said he took the action because a number of generals and the U.S. Central Intelligence Agency had planned an anti-Sukarno coup.

Radio Jakarta at that time appeared to have been under his control.

An earlier broadcast by Radio Jakarta announced formation of a new, 45-member cabinet laced with perhaps a dozen Communists, but D.N. Aidit, leader of Indonesia's 3 million-member Communist party, was not on the list.

The revolutionary council said a major role in putting down rebellious by army colonels in Sumatra in 1958, it recently moved into the city, ostensibly to take part in the armed forces day observances next Wednesday. Untung, charged in one broadcast that army generals planned to seize the government before armed forces day.

US Fears New Crisis

By JOHN M. HIGHTOWER
AP Special Correspondent

WASHINGTON (AP)—Reports of a political upheaval in Indonesia today signal an incipient new crisis in crisis-ridden South-east Asia.

Apprehensive U.S. officials were watching the situation closely. They studied the Jakarta announcement and official reports from the U.S. Embassy in Jakarta in an effort to determine what effect the upheaval might have on President Sukarno's leadership and on Indonesia's political alliance.

For several years the populous island nation has been swinging closer and closer to the Red Chinese orbit, and it appeared that the Communist issue might be a vital element in the present emergency.

Robert J. McCloskey, State Department press officer, said early today that preliminary dispatches from the embassy showed that something irregular was happening in Jakarta but the shape of events was not clear.

"We'll be watching the situation closely," McCloskey said. "But we can't define it now and can't comment on it."

Southeast Asia has been the scene of mounting tension. The centerpiece of concern, of course, is the war in Viet Nam. And at the moment U.S. officials are also preoccupied with the shaky cease-fire between India and Pakistan.

Relations between the United States and Indonesia were reduced almost to the vanishing point some time ago.

Increasing tensions between the two countries have been marked by Indonesian seizure of control of various American-owned properties. Violent and destructive demonstrating such as libraries and information centers and sharp policy differences over Indonesia's conflict with British-backed Malaysia.

In spite of the tensions, however, the United States has refrained from breaking relations with the Sukarno government, although the once-heavy economic aid to Indonesia has long since been ended.

U.S. concern over Indonesia's future has two primary bases. The island chain which the republic occupies is one of the richest areas in the world in natural resources, with vast supplies of oil, tin and other minerals.

Also the archipelago holds highly important strategic positions along the air and water route between the Indian and Pacific oceans.

Fidel's New Offer Eyed

MIAMI, Fla. (AP) — Fidel Castro said today he was throwing exit gates from his Communist island completely open and challenged the United States to cooperate through diplomatic channels.

The Cuban prime minister said he would let anyone on the island leave for exile after Oct. 10—a considerably broader offer than the one he made Tuesday.

He suggested that the United States, if it were interested, pursue the matter through diplomatic channels. This was exactly what the United States had told Castro to do to show he was serious when he made his original open door policy announcement Tuesday.

Castro's promise Tuesday to lift Cuba's sugar cane curtain involved only relatives of persons already living in the United States. The offer was studied cautiously in Washington and viewed in some quarters as an attempt to embarrass the American government.

The bearded prime minister said in a Havana radio broadcast monitored in Miami today that if the United States doesn't [illegible] public, it should use the channels of diplomacy—in this case the Swiss Embassy in Havana.

Since the break in U.S.-Cuban relations in 1961, the Swiss have represented American interests in Cuba.

"The North American State Department declared that if my words of Sept. 28 related to those who desired to leave for the U.S. were serious, I should make the proposal through diplomatic channels, in which case the State Department would give it a most careful consideration," Castro said.

The prime minister said in the broadcast, monitored here, that "we maintain the decision that from Oct. 10 we will give absolute guarantees and facilities to all those who wish to come to Cuba by their own means or to pick up their relatives."

He said the Cuban government would provide two free daily flights to transport Cubans to the United States, presumably to Miami where the large majority of Cubans seek haven after fleeing their homeland in small boats 90 miles across the treacherous Gulf Stream to the Florida Keys.

New Field Biggest In North America

SASKATOON, Alta. (AP) — Arthur Laing, federal resources minister, says an oil field discovered in northern Alberta is possibly the largest in North America.

He said Thursday that government officials estimate the field has a potential of 6 to 7 billion barrels.

The field is 400 miles north of Edmonton near the Alberta-Northwest Territories boundary.

Quads Born In New York

MANHASSET, N.Y. (AP) — Four healthy babies were born today to Mrs. Shiela Sklar, 25, who had known for weeks she would have quadruplets.

Mrs. Sklar of Hartsdale, N.Y., gave birth at North Shore Hospital to three boys and a girl, ranging in weight from 3 pounds, 12 ounces, to 5 pounds, 13 ounces.

Like several other mothers involved in multiple births around the world, she had been given a fertility drug.

The babies' arrival had been anxiously awaited since July 14, when Mrs. Sklar was admitted to the Manhasset hospital.

She and her husband, Herbert, a New York City advertising man, have one other child, a 2-year-old daughter.

Mrs. Sklar received the fertility drug, clomiphene citrate, at the fertility clinic at Manhattan's Columbia-Presbyterian Medical Center. She became pregnant the first month after taking the drug, but did not know until the fifth month that she was likely to have a multiple birth. Doctors later confirmed that she was bearing quadruplets.

PLANS UNDERWAY

Plane To Carry 700 Passengers

By VERN HAUGLAND

WASHINGTON (AP) — The United States has set out to build the world's largest airplane — the C5A, capable of carrying up to 700 passengers.

The task of developing and producing airplane bodies, wings, tails and other parts larger than ever before flown was assigned Thursday to the Lockheed Aircraft Corp.'s Georgia Division at Marietta, Ga.

Six 41,000-pound thrust jet engines — four to a plane — will be produced by the General Electric Co. of Cincinnati.

Secretary of Defense Robert S. McNamara estimated it will cost about $2 billion to develop the plane, produce the initial Air Force order of 58 and place the transport in operation by 1969.

The air frame project accounts for about $1.5 billion of the cost, the engines about $500 million.

The giant plane will weigh almost 350 tons, twice the gross tonnage of the largest U.S. military cargo plane now in service, the Douglas C15 propjet transport.

McNamara said the C5A will carry three times as much cargo as the Lockheed C141 jet freighter, which he called the most modern and efficient transport in the world today.

At a cruising speed of 500 to 550 miles an hour, the plane would have 30 per cent greater speed than the recently unveiled huge Soviet Ilyushin transport and would have double the payload capacity, he said.

Lockheed, the Douglas and Boeing companies had waged a three-way race for the lucrative contract. Prices of their stocks had fluctuated wildly in recent weeks on the basis of recurrent rumors.

After the announcement, Lockheed jumped $2 a share on the New York Stock Exchange to $59.37, while Boeing's stock fell $3.62 to $100 and Douglas dropped $6.50 to $54.50.

Mercury Takes Dive In Texas

By The Associated Press

More than a few Texans shivered a bit this morning.

A cold front finished sweeping across the state into the Gulf of Mexico, and it brought the chilliest weather of the new fall season.

The mercury dipped close to freezing in the Panhandle, touching 35 degrees at Dalhart before daylight. Temperatures at other points ranged from the low 40s to 60s at the same hour.

There was still light rain during the night in southern areas and along the lower Texas coast. It fell around Brownsville, McAllen, Alice, Corpus Christi, Victoria and Palacios.

Skies were clear in northern and western sections where the cold front passed first. It was partly cloudy elsewhere.

Top readings Thursday ranged from 56 degrees at Dalhart, behind the front, up to 88 at Corpus Christi, Luflin and Victoria, then still ahead of the cool air mass.

Forecasts called for a few scattered showers into tonight and Saturday across the southern half of the state and fair skies in the west. Gradual warming was predicted for most sections by Saturday.

The Weather Bureau said any cool spell could be expected by the first of next week in the northern areas and it would stay cooler than normal in the south at least until midweek.

$400 Taken From Store

An unidentified robber took a sack of money containing $400 in cash and several checks from the B&B Parkway Grocery, 1212 Lubbock Highway, about 9:30 p.m. Thursday.

Investigating officers said the money sack was taken from a counter beside the cash register. No arrests have been made.

Mrs. Denver Way, a clerk at the grocery, was the only employe on duty when the theft occurred. Officers said she told them she took the money from the cash register and put it into the money bag. The bag was placed on the counter near the register. A customer made a purchase and departed. Mrs. Way locked the door, went to the back of the store to turn off the lights. Returning to the register, she discovered the money bag was missing and called police.

The theft is being investigated by City Police and Sheriff's Authorities.

Dedication Of Special School Set

The dedication of a building where trainable handicapped children will receive special instruction this year has been set for 3 p.m. Sunday across the street from West Elementary.

Following the dedication ceremonies, the public is invited to an open house at the building and at West Elementary's classrooms for special education. The building and classrooms will be open until 5 p.m.

The program also includes special presentations by officials of the Humble Co. and Mayor M. L. Broman.

Humble gave the buildings formerly used as its district office to the city, which in turn, made them available to the school system for the special school's use.

A sign with the name of the new school will be unveiled during the program. Masters of Ceremonies will be Harold Bennett, president of the school board, and the Rev. Alan Lynch, pastor of the First Christian Church, will give the invocation.

Mrs. Maurine Robinson, coordinator of special education, also will appear on the program.

Elementary School Evaluation Slated

All Snyder Elementary Schools will be evaluated by a visiting committee from the Southern Association of Colleges and Schools next Monday, Tuesday and Wednesday.

The visiting Committee, headed by Dr. Bill Barron from the University of Texas, serves as the official representatives of the Southern Association. It will assess the extent to which standards are being met and provide professional consultative services to the faculty by reviewing self-study and will make suggestions for continuing school improvement.

The team visit is part of the process wherein the Snyder Public Schools will become a member of the Southern Association in all grades. Snyder High School has been a member of the association for a number of years. However, only a limited number of schools in the State qualify for membership in all grades.

An evaluating team for the junior high schools will be in Snyder on Oct. 16 and 17.

Members of the elementary school evaluating team will be Dr. Barron, coordinator; Dorothy Prince, Odessa Public Schools, language arts; Eddie Bernholtz, Andrews elementary principal, plant and administration; Dr. Lynn McCraw, University of Texas, physical education; Robert Carter, Midland Public Schools, social studies; Dr. John Anderson, Lubbock Public Schools, music and art; Dr. Olive Wheeler, Texas Tech, mathematics; Mary Foremen, Big Spring Public Schools, guidance counselor; Rose Duke, University of Texas, science; Dr. Wheeler and Dorothy Prince, Howard, only a limited library.

LIBERTY LADY WILL SEE MEASURE SIGNED

By JAMES C. MUNN

WASHINGTON (AP) — President Johnson has chosen the Statue of Liberty for signing into law the historic immigration reform bill.

He'll fly to New York Sunday and sign the measure at the base of the statue, a beacon to millions of immigrants who thronged to America's shores.

The President will remain in New York overnight to meet with Pope Paul VI Monday.

The House approved the immigration bill Thursday by a vote of 320 to 69. The Senate then sent it to the President by voice vote.

Sponsors of the measure, which had the strong backing of the President and of his predecessor John F. Kennedy, say it will increase immigration to the United States to 353,000 a year, about 50,000 more than at present.

The measure will repeal, in three years, the national-origins formula under which Eastern Hemisphere nations received immigration quotas in proportion to their share of the U.S. population in 1920.

The effect was to encourage immigration from northern Europe and discourage that from southern and eastern Europe. Opponents of the quota system called that formula discriminatory.

The bill sets an annual ceiling of 170,000 on Eastern Hemisphere immigration and 120,000 on Western Hemisphere. The Western Hemisphere quota, effective July 1, 1968, is the first of its kind.

Husbands, wives, minor children and parents of U.S. citizens will be admitted outside the quotas.

But no more than 20,000 may be admitted each year from any country outside the Western Hemisphere.

The signing ceremony will be carried out at a desk to be set up at the base of the statue — a gift from the people of France in 1886 — on Liberty Island, formerly Bedloe's Island.

AFS CHAPTER SETS SESSION

The Snyder American Field Service Chapter will meet at 7 a.m. Saturday at Sallie's Cafeteria.

The AFS unit, which sponsors the foreign exchange student program here, will make plans for a rummage sale and for a booth at the Scurry County Fair.

New Plan Affects Two Texas Units

WASHINGTON (AP) — Two Texas units will be affected by the plan under which six Army reserve divisions will be disbanded and a number of National Guard and reserve units brought to maximum readiness.

The plan was disclosed Thursday by Defense Secretary Robert McNamara.

It embodies key features of McNamara's effort to merge reserve units into the National Guard or disband them. The original plan was rejected by Congress last year but many of its critics applauded the new announcement.

A brigade from Texas 36th Infantry Division will be among six National Guard brigades selected as high priority units.

At Amarillo the 36th commander, Maj. Gen. Selden Simpson, said the priority brigade will be designated within two weeks, after staff conferences and consultation with the state adjutant general, Maj. Gen. Thomas Bishop.

One of the reserve units to be disbanded is the 90th Infantry Division of Texas.

Men in disbanded units may shift either to high priority units or go into a manpower pool of other reserves not assigned to units.

"While it is not my place to question Mr. McNamara's decision," the 90th's commander, Maj. Gen. Robert Travis, said at San Antonio, "in behalf of the division I wish to state that we deeply regret the loss of this opportunity to serve in the defense of this nation, especially at this critical time."

Sen. John Tower, R-Tex., a member of the Senate Armed Service Committee, issued this statement:

Mr. McNamara has made a grave mistake. In these perilous times it is inconceivable that a single man would presume to make such a decision after experienced committees of the Congress had thoroughly studied the idea and found it to be most dangerous and unwise.

Dear Abby...

By ABIGAIL VAN BUREN

DEAR ABBY: This won't interfere. Young people have their own special way of measuring goes. I have an extra-sensitive sense of smell. Whenever I come into a room where there is a dog owner, I can SMELL it. No matter how clean people keep themselves I know immediately when I get close to them that they have a dog at home. Please don't think this is a slam against dogs or dog owners because some of my best friends have dogs, although I, myself, have never had one. When I mention this to some dog owners, they think I am imagining things, and I am sure there are some who think there is something wrong with me. Maybe there is, but so far I have never guessed wrong. If you use this letter, sign me . . .

SNIFFY

DEAR "SNIFFY": If what you say is true (and it could be), I advise you to keep it to yourself. Dog owners will be more insulted than flattered to be detected by your nose. And friends are worth more than a few scents!

• • •

DEAR ABBY: What do you think of a husband who runs around with other women and when confronted by his wife, he always says, "Well, I always come home to you, don't I, Honey?"

What is that supposed to prove?

TENNESSEE SAP

DEAR SAP: It proves that your husband wants to have his cake and eat it, too — with your blessing.

• • •

DEAR ABBY: I am a young lady of 20. I work in an office with seven men, who are all married. I am single. The nearest eating place is four blocks away, so sometimes when it rains several of the men have asked me to have lunch with them as I don't have a car. I have always declined because I don't think it's right for a single girl to lunch with married men. And, besides, I don't want any of the wives to get the wrong idea. I would like your opinion on this.

CAREFUL

DEAR CAREFUL: There's safety in numbers. Go with a group, but not with one man alone and you won't have to worry about what his wife will think.

• • •

DEAR ABBY: Please say something in your column about all those tired milkmen jokes. (You know, the note in the bottle saying, "Come in, my husband is out of town.")

The average milkman doesn't deliver anything but milk. I know. I am a milkman with 200 customers in walk-up apartments. The walking alone can wear a good man out. Also, if your truck is parked in front of one place too long, the company gets about 30 calls from the neighbors. There are exceptions, of course. I once knew a freshman milkman who had a little redhead on his route. She started getting a pint of milk a day, and ended up getting fresh eggs, butter, cottage cheese and whipping cream, by the quart. Naturally, she never paid any bills. He didn't last long. Most housewives want only a cheery good morning, accurate bills and friendly, but not intimate service. (Sign me)

— VETERAN MILKMAN

CONFIDENTIAL TO CONCERNED PARENTS: Do not interfere. Young people have their own special way of measuring affection. I have been told of a girl, 12, who came home all starry-eyed and informed her parents that a certain boy "liked" her. When asked how she knew, she said: "Because every time he passes me in the hall he kicks me!" Her father said that the day she comes home with two black eyes he would know she is really "in love." They didn't interfere, and the girl got over this boy and a dozen others before finding the one.

Pakistan Reports New Fighting

KARACHI, Pakistan (AP) — Radio Pakistan reported fresh fighting today between Indian and Pakistani forces on the Kashmir cease-fire line north of Chhamb.

Quoting official sources, the radio said Indian troops attacked Thursday night with artillery and mortars. The Pakistanis fought back, the radio said.

The Pakistani government charged in a letter to U.N. Secretary-General U Thant that on Wednesday India had "given Pakistan 24 hours to withdraw its troops from the sector."

An Indian government spokesman in New Delhi denied the charge. He said Indian troops had strict orders to observe the cease-fire "scrupulously and therefore the question of any ultimatum did not arise."

Meanwhile, Indian Prime Minister Lal Bahadur Shastri described the U.N. cease-fire in the India-Pakistan war as "precarious."

Newsman In Mexican Jail

PIEDRAS NEGRAS, Mexico (AP) — Andrew McBeath, 42, publisher of the weekly Eagle Pass (Tex.) News Guide, has been in a Mexican jail since his arrest here Tuesday night.

He is accused of using obscene language and making derogatory remarks about Mexicans in the restaurant where he was arrested.

McBeath denies the charge and says he was arrested because of a series of travel columns his newspaper carried last summer.

Some local politicians and Mexican newspapers in Piedras Negras said the syndicated column degraded the Mexican people.

At Eagle Pass, Mrs. McBeath said: "Andy was asked by the Chamber of Commerce that since there was a misunderstanding he quit printing the column. He did, and even published a front page editorial of apology for the misunderstanding."

Mrs. McBeath said Tuesday's trip was their first into Mexico since the controversy over the columns and her husband was arrested within 15 minutes after they crossed the border.

Soviets Ok Reforms For Industries

MOSCOW (AP) — The Supreme Soviet, the Soviet Union's parliament, opened a session today to give approval quickly to the new industrial reform program. It is designed to give energetic factory managers a chance to show what they can do for the slipping economy.

In the opening speech, First Deputy Premier Kirill Mazurov declared that in recent years, while total industrial production and [illegible] of the national income had steadily fallen.

He cited a list of statistics designed to show that Soviet production was rising at a faster rate than in France, Germany, Britain and the United States. But he conceded that the growth rate of the national income has been going down.

This reflects what foreign observers have noted — that production of poor quality goods has been stepped up but they are not in demand, either at home or abroad. The result has been a vast pile-up of goods which could be sold only at knock-down prices if at all.

Mazurov was named chairman of a 50-member committee to put the economic reform proposals before the Supreme Soviet. It is likely to be approved Saturday.

Ladies Know-How Sent To Sealab

By ROBERT M. BURNETT

LA JOLLA, Calif. (AP) — The housewives of the United States [illegible] of the Navy's Sealab 2 overcoming their worst catastrophe to date. Their pancakes.

In the underwater laboratory where the air is mostly helium and atmospheric pressure is seven times that at the surface, the aquanauts' flapjacks turned into disaster: scorched on the outside, gummy on the inside.

After the aquanauts reported last week that their pancakes failed, women began to volunteer culinary advice.

"We have been flooded with letters from housewives from coast to coast," a Sealab spokesman reported. "They have all recommended pancake cooking procedures guaranteed to help the divers."

Among the suggestions:

Use a greaseless cooking pan. Change the ingredients — a pinch more of this, a bit less of that. Lower the heat. Raise the heat. Try frozen batter.

The Navy has been considering the suggestions — although, said a spokesman, housewives don't really realize what aquanaut flycooks are up against.

Because of the added pressure, things cook faster. Heat transfers quickly from the griddle to the pancake. When the outside looks perfect the inside is just an oozy goo.

Navy scientists had already tried greaseless pans, perfected for use by persons who can't have grease in their diets — because grease would have smoked up the Sealab atmosphere.

The atmosphere was fine, but the pancakes were incredible and inedible.

Now Navy scientists will give the frozen pancake batter a whirl.

They'll try it first in a topside laboratory duplicating Sealab's conditions. If it works, they'll send it down to the bottom of the sea — and the aquanauts will try again to have pancakes for breakfast.

Judges Urged To Create Better Image

MIDLAND (AP) — A Louisiana lawyer told several hundred Texas judges today they can help slow the breakdown in law enforcement by paying more attention to the image they create.

Leonard Greenburg of Houma addressed the conference of the State Bar Judicial Section.

Atty. Gen. Nicholas Katzenbach also was one of today's speakers.

Greenburg blamed the law enforcement breakdown on the population explosion, "our accelerated pace of living," the inadequacies of law enforcement officers, the doctrine of "civil disobedience," and "a diminishing respect for courts and the legal profession as a whole."

Specialization in law, and the increasing volume of jurisprudence and laws, Greenburg said, could result in "the dispensation of legal advice taking on the characteristics of a super market."

Greenburg urged the judges to "combat the doctrine of civil disobedience wherever it crops up and firm up respect for law and order.

"And, by our own demeanor, where it may have been misleading, we may begin to remodel the present image of our profession so that it appears to be what it ought to be."

Referring to the Los Angeles riots, Greenburg said the disorders were "encouraged by a few self-appointed leaders who proclaimed that the individual had the right to determine what was a just or unjust law."

SERVE BLINTZES with an assortment of go-alongs in matching small containers made from super-strength aluminum foil.

Blintzes Are Good At Any Meal

By CECILY BROWNSTONE
Associated Press Food Editor

ALL OVER the country the stuffed pancakes called Blintzes are becoming known. A specialty of the Jewish cuisine, recipes for these pancakes are traveling far and wide.

Here's the latest formula to be tested in our kitchen, and it produces mighty good eating.

The knack of making the pancakes thin, — as they should be — lies in a turn of the wrist as the batter is poured into the skillet. Our explicit directions, plus practice, should help you become a wizard at turning them out.

Blintzes are good at any meal — as the main course at breakfast or lunch, or as a dessert at supper or dinner. They are wonderful, too, at snacktime.

CHEESE BLINTZES
¾ cup sifted flour
1 teaspoon baking powder
½ teaspoon salt
2 tablespoons sugar
2 large eggs
2-3 cup milk
1-3 cup water
½ teaspoon vanilla
Cottage Cheese Filling
Butter
Go-along Assortment

Into a medium mixing bowl, sift together the flour, baking powder, salt and sugar. In a small mixing bowl, beat the eggs slightly; add the milk, water and vanilla; beat until combined. Gradually beat the liquid into the sifted dry ingredients; continue beating until smooth — make sure all tiny lumps disappear.

Over medium heat, heat an 8-inch skillet; brush bottom and sides with melted butter. Pour 2 level tablespoons of the batter into the skillet, as you do so, have one hand on the skillet handle and lift off heat to swirl and spread batter to edges of skillet. Cook the pancake, adjusting the heat as necessary, until light brown on the bottom and set enough on top not to be damp and sticky. Turn out pancake by inverting skillet on a baking board or kitchen towel. Brushing skillet with salad oil each time, continue using batter the same way. Turn out pancakes in a single layer; do not stack. You should have 14 pancakes.

Put a spoonful of the Cottage Cheese Filling in the center of each pancake; fold in sides; roll. Place rolled pancakes, seam side down, in a single layer on a large plate and tightly cover with aluminum foil; chill until ready to use.

At serving time, melt a tablespoon or two of butter in a medium skillet (preferably teflon - lined) and add as many pancakes as the skillet will comfortably hold. Turn the rolled pancakes, turning once, on both sides. Add butter as necessary in frying remaining pancakes. Pancake part of the blintzes should be piping hot, but cheese filling should be only warmed through for best texture. Serve blintzes with the Go-along Assortment.

COTTAGE CHEESE FILLING
1 large egg
1 carton (12 ounces) dry cottage cheese (1½ cups)
1 teaspoon sugar
½ teaspoon salt
½ teaspoon cinnamon

In a small mixing bowl, beat egg until thick and lemon colored. Add the cottage cheese, sugar, salt and cinnamon; gently beat to blend. Use as directed in recipe for Cheese Blintzes.

GO-ALONG ASSORTMENT
Serve the cheese blintzes with a help - yourself assortment of mandarin oranges (drained), applesauce, red fruit preserves (strawberry, raspberry or cranberry), and sour cream. Attractive matching containers for these go-alongs may be fashioned from aluminum foil. To do so, press three layers of super - strength foil over a small bowl or custard cup to make a mold; remove the foil mold and trim the edges, if necessary, with a scissors. Make other small foil containers in the same way.

Soap And Water Formula

Do you ever look back at your teen years with nostalgia for freedom from the responsibilities of adulthood? Even if you're age, don't forget the worries of junior and senior high school boys and girls. At that age of change, ambitions, desires, confusions, and conflicts abound.

In the teen - ager's continuous striving for popularity, personal appearance becomes extremely important. As a result, any kind of skin blemish appears magnified, and complexion care is of major concern.

One of the most effective aids in complexion care is frequent washings with soap. In a teen's skin - care program, soap is especially beneficial because it contains an anti-bacterial system called AT-7. AT-7 consists of two ingredients which, working together, reduce infection - causing bacteria on the skin. Specifically, they reduce the chance of infection in skin abrasions. And regular use deposits an invisible film on the skin that prevents further bacterial growth.

Leaving the soap on the face for a minute or two before rinsing will have more of a drying effect than a fast wash and rinse. If enlarged pores are a problem, a cold water rinse will help shrink them.

Of course, external care is not the sole solution to problem skin; it must be combined with adequate rest and balanced diet for effective results.

Delightful and different salad: marinate cooked beet slices in an oil and vinegar dressing. Serve the marinated beets on salad greens and garnish with lots of drained capers.

Good Shrimp Sandwiches

1 can (4½ ounces) shrimp
¼ cup minced celery
2 tablespoons each mayonnaise and chili sauce
1 teaspoon minced scallion
8 thin slices buttered bread

Drain shrimp; rinse with cold water; chop fine; mix with remaining ingredients (except bread). Use as filling with buttered bread for 4 hearty sandwiches.

CUSTOM-MADE FOR CINDERELLA

Immigration Act Just A Step In Man's Historic Revolution

AP News Analyst

The new immigration act may look like just one more item in the long list of accomplishments by the 1965 Congress, but it is more than that.

It is part and product of a turbulent time — the past 20 years — which future historians will probably consider the most revolutionary period in the history of man.

In those 20 years:

The great colonial powers, exhausted by war, surrendered their possessions and men everywhere and of all races developed a sense of freedom, or nationalism, or in many places, if not all, an appreciation for the dignity of man.

The United States was swept alone in this global revolution in thinking and gradually and grudgingly — particularly in the South, began to undo centuries of segregated injustice to Negroes.

The immigration bill passed Thursday by both houses, ending 41 years of limiting immigration by nationality, is simply from complete, American revolution.

It has a more immediately practical side, of course, since it is hardly intelligent for the United States to discriminate among nations when it is trying to persuade as many as possible to be friends, if not allies.

The world itself had passed beyond the simple primitive days of unsophisticated contests between nations, although they persisted, and now was in the great contest between ideologies.

Meanwhile 117 nations through the United Nations for the first time truly, if not always, began to cooperate to preserve peace although they have yet to prove they can try it indefinitely or achieve it absolutely.

It was in these 20 years that nations developed a weapon of war, the hydrogen bomb, so ghastly it may scare all of them out of making big war again, although this, too, has yet to be proved.

And if it is proved it will be more a tribute to fear than to

Always, of course, the success of the new experiences and experiments depends upon the common sense of man, which unfortunately has been pitifully anthropoidal and even fiendish through all the centuries.

And since 1945 man has entered space and peeped around and no one now on earth can predict where this will lead afoot, afloat or aloft in relations between men or even worlds.

Any man now alive, because of what 20 years have wrought, is hardly more than a rubber band stretching between the long past and the infinite future, unable to imagine what lies ahead or whether he will snap and disappear.

In this time nations still intervened in one another's affairs with troops and guns although learning to give aid to one another and to be indignant at intervention, always depending on who was doing it.

Wars were just as terrible as ever but, because they were better covered than ever before by the news media, they made men everywhere shudder more.

And in these 20 years the United States, like others, was having multiple revolutions within itself in social welfare, political representation, automation, labor relations, education, religious tolerance, medicine and crime.

So, while the immigration act definitely leads into the mainstream of the mid-century life of the United States and the world, it is still only one of many tributaries.

Boyle Finds His Own Idea Of Eden

By HAL BOYLE

NEW YORK (AP) — Every man at some time harbors the desire to own a piece of green earth.

Many people who work in the city satisfy this yearning by buying a small Valhalla in the suburbs measuring 60 by 100 feet.

Then they wear out their lives paying for it and going to and from it.

Some of my best friends and worst enemies dwell in the suburbs, and I feel equally sorry for them all.

They don't live where they work and they don't work where they live. They are people in eternal transit. Actually, they aren't people at all. They are prisoners of back and forth.

Their pleasures are adjusted to a timetable. Their greatest daily victory or defeat is to catch or miss a certain train or bus that carries them into the city in the morning or home from the city in the evening.

Suburbs make me bilious. Whenever I hear a suburbanite praise his lot in life it sounds to me like a slave admiring his chains.

Yet, much as I dislike the suburbs, I share all men's desire for a personal Eden.

The quest of it has occupied most of the weekends of the quarter century I have lived in New York. The way I do it is this: First, I get my wife to carry in the Sunday newspaper, because if any back in the family has to be sprung it might as well be hers.

Next I spread out the editorial section for the cat. Then I lie down on the floor, open the real estate section and spend endless happy hours looking for bargains.

Then, while out on a stroll, I discovered the green spot on earth I would most like to have as my own.

It is an ideal setting for a perfect home. It has picturesque boulders and a tremendous view of the city's skyline. I could walk to it from work.

There is a lake in it big enough to row on. It echoes in summer to the music of a carousel. It has winding paths in it, little glades to pause and dream in, plenty of space to pitch horseshoes or play baseball.

It throbs with all kinds of wild life—alligators, elephants, lions, squirrels and polar bears.

The trouble with this paradise I'd like to build a permanent home in is that it isn't for sale.

They call it Central Park.

LBJs Plan Farewell To Legislators

WASHINGTON (AP) — No one's sure when Congress will wind up for the year, but President and Mrs. Johnson have scheduled their goodby to the legislators for next Thursday night.

At the traditional farewell salute to Congress, the members will be invited to the White House for a buffet supper and an entertainment program that includes folk singers and jazz combos.

The date appeared Thursday on Mrs. Johnson's calendar of events for October. A straw in the wind perhaps?

Junior Editors Quiz on LARYNX

QUESTION: Do animals have voice boxes like we do?

• • •

ANSWER: The higher animals do have a voice box, or larynx, to make sounds with. It is situated in the throat, as ours is, and is a kind of enlargement of the windpipe. Inside, the vocal chords are stretched across and vibrate when air is passed over them, creating sound. The cavities of throat and mouth enlarge the sound, like the hollow box of a violin's body enlarges the vibration of the violin strings. The big lion has a large voice box and amplifying area which makes for a deep sound, as the big bass fiddle makes a deep tone. But the little cat, with its much smaller voice box and vocal chords, produces a higher-pitched sound, much as the small violin does.

Birds sing by using a special "sing box" of their own called a syrinx, in which vibrating membranes take the place of vocal chords.

No matter how the voice boxes of the animals may resemble ours, there is a gigantic difference between what they can do with theirs and what we do with ours. For we can modify the sounds coming from our voice boxes, turning them into speech to convey every shade of meaning. That is only possible because of the amazing development of the human brain.

• • •

FOR YOU TO DO: Remember you have a voice box which will give you more than just words you can sing with it! You may not be an opera star, but sing just the same. It will make you feel happy. 10-1

Lamar Ninth Grade Blanks Goliad, 24-0

Lamar's 9th grade put on a good show of rock 'em, sock 'em football here Thursday night to completely outclass Goliad of Big Spring, 24 to 0.

Mitch Rambin and Larry Lofton led a slashing attack that ammassed 250 yards overland as Lamar kept their big opponents in their end of the field most of the night. The defense played its finest game, allowing the visitors only two yards net rushing in each of the first two quarters and minus 17 in the final frame.

The defense also put on a magnificent goal line stand in the third quarter — the one period in which Goliad finally got it's offense to rolling. Big Spring gained 66 yards on the ground in this stanza, but the stand shut them out inside the 10.

Steve Holder called a brilliant game at quarterback and his passing was on target. Understudy signal caller Leland Herod also did a fine job, engineering a touchdown in the fourth quarter with substitutes. All of the Lamar boys got into the game, and all of them looked good.

Holder, displaying blinding speed, scored the first touchdown on a 12-yard romp around left end to cap a 70 yard march following the opening kickoff. Rambin contributed most of the yardage in the drive, and he got loose from the 30, but a clipping penalty brought the ball back to the Lamar 45. A pass try for extra points failed.

Covering a fumble at the Goliad 40 early in the second quarter, Lamar drove in five plays. Rambin took a pitchout from Holder as he was falling and rambled 19 yards along the east sidelines to the south goal. A run for extras was stopped short, leaving the count at 12-0.

Following an exchange of punts, Lamar moved 49 yards for an 18-0 advantage before halftime. Holder passed to Jerry January, who made a good catch for a 1st at the 20. Rambin gained six and Craig Alexander added four in two carries. Facing fourth, Holder sped around right end to the one, then hit Larry Lofton with a touchdown pass.

Barfield — Big Spring's outstanding player — took a 31-yard pass reception to the Snyder 30, but Lofton intercepted at the 10 to halt the threat before the gun sounded.

Big Spring moved from its 32 to the Snyder 38 on eight straight ground plays to begin the third quarter. Then Barfield shook loose and appeared to be headed for a TD but Rambin pulled him down from behind on the seven.

Lamar made its goal line stand at this point. The defenders swarmed all over the Big Spring backfield to thwart two ground plays. Lynn Wilson made the first tackle and Bobby Wright got the next one. Two incomplete passes and the opportunity had fizzled.

End sweeps by Rambin and power runs by Lofton put the Texans from their 46 to the Goliad five in the fourth quarter but a field goal attempt by Rambin missed.

On the first defensive play Wilson intercepted a pass and Leland Herod engineered the touchdown from the 24. He passed to Holder at the five and Wilson swept left end for the tally. Again the try for points failed and the 24-0 margin held up.

The entire line played well on defense. Ends Doyle Gallman and Jerry January, tackles Dewey Grinslade and Morris Smith, middle guards Robert and Marciano Morales and linebackers Lynn Wilson and Bobby Wright were top front-line performers. The subs also looked good.

Coach Tommy Echols said he was proud of the entire team. "The whole bunch did a fine job. The defensive line hit all the way and the backs ran hard and blocked good."

Student Collapses

AMARILLO, Tex. (AP) — A 14-year-old Amarillo Junior High School student, Ernest Chit Odell, collapsed and died Thursday after playing touch football.

The cause of death was not determined, but officials said an autopsy would probably be ordered.

Ducats All Gone

AUSTIN, Tex. (AP) — A complete sellout of tickets to the Texas-Rice football game here Oct. 23 was announced yesterday by University of Texas officials.

Boxes have been set up along the sidelines of the University of Texas stadium and a crowd of 65,500 is expected.

"B" Team Meets Ponies

The Snyder High School "B" team will be at Sweetwater Saturday night for a 7:30 p.m. football game.

Coaches Bill Hartsfield and Roy Carter say the Ponies are smarting from the earlier defeat here and are out to get revenge.

Probable starters for Snyder are ends O. L. Cooper and Frankie Grimmitt, tackles Tim Mebane and John Brimner, guards Jackie Green and Bobby Clayton, center David Wilson, quarterback Mickey Almond, halfback Loyd Pinkerton, wingback Dwain Boydstun and fullback Ronnie Shields.

Hataway, Garner and Gilstrap come in on defense. Mario Tavarez still is out with a knee injury and quarterback Jimmy Ramage is out for the season.

Boys Club Grid Results

The Frogs remain undefeated and unscored on in the three games played so far in the 11 and 12 year old league, as they leaped over the Bears by a score of 42 to 0.

Frog fans highly praised the whole line on their hard blocking and tackling and alert playing which caused the Bears to fumble on several occasions. Louis Loyd was one of the outstanding defensive players of the forward line.

Scoring touchdowns of two each were Travis Bunch and Terry Arnold, while Mike Line scored one touchdown and four points after touchdowns and Louis Loyd scored one touchdown.

Outstanding players for the Bears on defense were Randy Wright, Mitch Butler, and Terry Clay and outstanding on offense was Mitch Butler.

Games scheduled for Saturday at 9 and 10:30 a.m. pits the Toads against the Kittens and the Bears against the Lions.

Kermit Challenges Snyder Tonight At Tiger Stadium

A close hard-fought defensive battle is on tap tonight when the Kermit Yellowjackets invade Tiger Stadium for an 8 p.m. test of the Snyder High School football team.

Kermit has won easy victories over two El Paso Class AAAA teams in three outings. The lone loss was a two - touchdown affair with one of the best football teams ever to come out of Hobbs, N.M.

Local scouts say the Yellowjackets like to play defense and hit hard along the line. There is nothing fancy about their offense. They just line up and run over their opponents, mostly with straight power stuff.

For Snyder, the Tigers will be playing their second straight home game and still seeking their first win of the season. The Tigers had narrow losses to Andrews and Stamford before bowing, 34-7, to Big Spring.

Coach Horrace Bostick's boys came out of the Steer affray nursing a lot of bruises and sore arms and legs. Two of the biggest tackles on the team, Jim Headstream and Joe Breeden, suffered fractured fingers. Terral Austin, offensive and defensive starter at tackle, sustained a cut chin. And substitute end Whitt Boren came out with a swollen jaw.

Other illnesses and injuries through the week have hampered the Tigers in their workouts. Asked who would appear in the starting lineup, Coach Bostick Thursday said he would have to wait and see who showed up for the Thursday drill.

Two top men have missed most of the practice sessions this week. David Holt, first string tackle who tried his hand at fullback last week, and Jackie Rice, one of the top running backs, both have been sick.

One boy that's definitely out of the game is guard Jim Sartor. He missed the Big Spring clash due to an infection of the hand and it will be at least another week before he's ready for action. Jim Wilson, substitute tackle, missed the Steer tilt due to infected ears, but he may be able to play some Friday. Roy Kizer, front line pivotman, has missed practice with injured knees, and Fred Wiman missed one of the sessions due to flu.

Depending on how healthy some of the boys are, the offensive alignment probably will include Ray Kizer and Steve McMahan at ends, Terral Austin and David Holt or Jimmy Wilson at tackles, Keith Noble and Danny Howell at guards, Ken Neeper at center, Murry Bowden at quarterback, Rick Hall and Jackie Rice or Fred Johnston at halfbacks and Donnie Newman at fullback.

Fred Wiman, Rob Golden and Ronnie White along with some others are ready for action on defense. Kizer and McMahan, Noble and Howell, Austin and Johnston and Bowden and Hall also see defensive duty.

David Cadena probably will see service both ways. Also ready are backs Vernon and Curtis Clay, Eldon Woodward and Billy Wilson. David Fulks, Bobby Beard, Bobby Clardy, Billy McClain and Sam Elledge could break into the lineup up front.

Wednesday's drill concluded the heavy preparations for the Yellowjackets with the boys donning pads for hitting on both offense and defense. No contact work was slated for Thursday with the boys reviewing overall tactics.

Bostick said Holt probably would return to the line if his health permits him to play. No other changes were anticipated. The coach said everyone has a good attitude and the boys will be ready for football Friday. Most prognosticators feel the Yellowjackets should be favored by at least one touchdown. After the two-touchdown upset by Snyder last year, the visitors probably will be out to even the score.

Coach Charles Jetton has five returning lettermen to form a nucleus for his scatter - T offense, including backs Mike Choate (174), Andy Buffington (155), tackles Mike Phattie (190), and Leo Brooks (200), and guard Alvaro Gonzalez (150).

Buffington is a better than average signal caller. His backfield mates are wingback Randy Bryan, halfback Carrol Samuels and fullback Billy Thompson. They are about the same size as the small Tiger backs. Other starters in the line are ends Jerry Sims (162) and Joe Scott (115), tackle Don Claxton (167), guard Ruben Jiminez (169) and center Travis Goodman (188).

With height on a par with their foe, the Tigers may try to move the ball through the middle. A lack of speed definitely hampers sweeps, and the passing game has yet to reach its full potential.

With three straight losses, the Tigers have plenty of incentive to win this one. There is a good chance they will do it.

Late Levens Run Upholds Lamar Upset

Lamar 8th grade's football team upset big Goliad of Big Spring, 14-8, here Thursday night in as exciting a football game as you'll ever see.

Although the young Texans have played with only two regulars in the line, they clearly outfought their bigger foe. Although Lamar held an edge throughout the game, Coach Eddie Logan's boys had to score late in the fourth quarter to preserve the victory.

This strange set of circumstances came about when Goliad's fine runner —Tom Ryan broke loose around right end with 3:54 remaining and scooted 75 yards for a touchdown. He swept the other end to tie the game at 8-8 after Lamar had led ever since seven minutes deep in the initial period.

A lesser team would have been content for a tie, but it had been obvious all night that the Texans were determined to have their upset. So, on the first play following the ensuing kickoff Randy Levens romped around left end, cleared by beautiful blocking, cut back up the middle, and charged 56 yards to pay dirt. The pass for points was broken up, but that didn't matter. The Texans had won their upset with a final 14-8 reading on the scoreboard.

Crisp blocking and strong pursuit were the keys to the Lamar victory. The defense kept the talented Ryan in check except for that late run. Neil Rinehart was the outstanding player, both offensively and defensively for Lamar, although the entire team put forth a good effort.

Ryan stepped 67 yards around right end early in the first quarter, but a penalty nullified the effort. Forced to punt, Goliad gave the Texans the ball at the enemy 45. They drove to the 10 before a fumble halted the march. Rinehart turned in the big play in the march — a 27-yard gain over tackle.

Seconds later Goliad fumbled and Billy Bowden and Ricky Arnold recovered at the six for Lamar. Bowden gained one, then Neil scampered around right end for the touchdown. Quarterback Lee McNair hit Levens in the end zone for the two-pointer and Lamar had an edge that stood up until the fourth quarter.

Rinehart recovered two fumbles during the game, including one in the second stanza which stopped a 38-yard Goliad drive at the Lamar 28. Lamar almost scored in this frame when McNair spotted a receiver behind the Goliad defenders, but the boy was off balance and couldn't quite hold onto it.

Lamar camped in the Goliad side of the field in the third quarter, reaching the 28 when Ronnie Watkins pulled in a McNair pass. An interception halted the threat. Seconds later Ricky Arnold put Lamar back in business at the 30 with a fumble recovery, but Rinehart was thrown for a loss to quash the second threat.

All of the Lamar defenders fought tenaciously. John Lacik, 104-pound middle guard, was right in the thick of the fight, causing several of the 10 Goliad fumbles. The visitors lost the ball five times by fumbles. Perhaps one reason was the hard-hitting Texans.

Arkansas Speedster

It's Hard To Keep Up With Jones Boy

By ED SHEARER

FAYETTEVILLE, Ark. (AP) — Arkansas wingback Harry Jones, who scored four touchdowns the first seven times he had the ball, will see what he can do as an offensive starter for the first time in his college career Saturday night.

Jones, a 9.7 sprinter, is the leading rusher in the Southwest Conference after two games — neither of which he started.

Frank Broyles, coach of the fourth-ranked Razorbacks, moved the Enid, Okla., speedster to the offensive unit last spring. Jones, the starting safety on Arkansas' undefeated 1964 team, intercepted two passes as a sophomore and returned them both for touchdowns.

He added two more the first five times he touched the ball in Arkansas' 28-14 season-opening victory over Oklahoma State.

Jones carried the ball 18 times in the two games for 205 yards, tops in the SWC and ninth best in the nation.

An injury to starter Jim Lindsey left Jones with the No. 1 spot in Saturday night's battle with Texas Christian. The Razorbacks will be seeking their 15th consecutive victory in the OSU game.

Lindsey suffered a broken rib in the OSU opener and, without his coaches knowing it, also played against Tulsa last week. Lindsey was hit again on the rib and Broyles says he will probably miss the next two games.

Broyles says of Lindsey: "I don't think there is anyone in the country any better at his position. He's a great leader."

Broyles has gotten good mileage from the two as alternating wingbacks. Lindsey's injury will throw Jones into the limelight but his loss will hurt the balance of the Razorback attack.

But Arkansas fans took Jones to heart in the 192-pounder's first game performance.

He caught the first four passes thrown to him, one for a touchdown, and ripped off a 50-yard scoring sprint on his first carry from scrimmage. Later in the game Jones had a non-scoring 53-yard run.

That all came as a substitute. A crowd of 47,000 — most ever to see a game in the state — is expected at Little Rock Saturday night to see what the Oklahoma speed merchant can do as a starter.

Nicklaus Favored In Canadian Cup

By JOHN FARROW

MADRID, Spain (AP) — Jack Nicklaus of Columbus, Ohio, still was considered the one to beat for the individual title even though he was two strokes down at the start of the second round play in the Canada Cup golf matches today.

Donald Swaelens of Belgium and Chen Ching-po of Nationalist China, tied at 69s, three-under-par, were the pace-setters in this international 72-hole tourney that ends Sunday.

There was a six-way tie at 70 between George Knudson of Canada, Kel Nagle of Australia, Gary Player of South Africa, Miguel Sala of Colombia, Ramon Sota of Spain and Robert de Vicenzo of Argentina. Then came Nicklaus with a 34-37—71.

"I'm well satisfied with that round," Nicklaus said after he completed play over the 7,096-yard Club de Campo course. He had only one practice round.

"I know the course better now" the U.S. Masters champion said.

Nicklaus' partner in the Canada Cup over a course well watered after six months of drought and now made soft by rain is Tony Lema, Oakland, Calif., former British Open champion.

Lema struggled around in 39-37—76 but said: "I reckon I got some of the bad blood out of me. Today's another day."

Nicklaus said the Madrid course reminded him of ones in Southern California and Arizona — "also ones well watered."

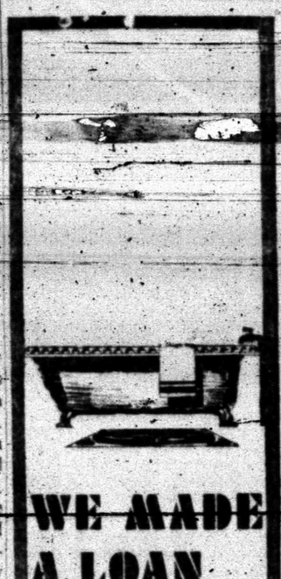
He said the course was a good test of golf and he doubted if there would be many low scorers at the end of the 72 holes Sunday.

Player and Harold Henning of South Africa led the team chase with a total of 142 after the first round. They were followed by Belgium, China and Spain at 143 with Australia next at 145 and Italy and Canada at 146.

Argentina, Hawaii, Colombia, United States and Japan were bracketed at 147. New Zealand and Puerto Rico were one stroke behind at 148.

Fouad I University in Cario was established more than 1,500 years ago, although it was not officially called a university until 1925.

Managers Red Schoendienst of the St. Louis Cardinals, Dick Sisler of the Cincinnati Reds and Harry Walker of the Pittsburgh Pirates were Cardinal teammates in 1946.



WE MADE A LOAN ON THIS BATHTUB!

No beauty by today's standards. But a lot of water has gone down the drain since we made a Property Improvement Loan on it 35 years ago. It was the latest thing way back in 1930, the year S.I.C. started in the Consumer Finance field. Things have changed much for the better over the years. That goes for lending procedures, too. By using the experience gained over the past third of a century, S.I.C. specialists offer fast, friendly, budget-planned service attuned to the modern tempo. Whether you want $100 or $5,000 for a bathtub, boat, new car or to consolidate a flock of bills . . . once your loan is approved, you'll get the cash fast at S.I.C.

Restrictions On Trial News Seen

BUFFALO, N.Y. (AP) — Sharp restrictions are going to be imposed on the amount of information given to the press before criminal trials, a prominent lawyer told the Associated Press Managing Editors annual meeting today.

Thomas F. Lambert Jr. of Boston, editor-in-chief of the American Trial Lawyer's Association, said bar associations were moving "in the direction of an absolute prohibition on pre-trial publicity," despite newspaper protests.

He predicted that laws would be enacted and court rulings would be issued so that law-enforcement officials also would be held in contempt of court if they gave out information that might impair a criminal defendant's chances of a fair trial.

"I do not expect the judicial contempt power to be applied to the press," Lambert said. "But do not take that as a license to get away with practices that are not in the interests of justice."

Lambert addressed the convention discussing the continuing controversy that arose from the Warren Commission's report criticizing the activities of newspapers in covering the assassination of President John F. Kennedy and the arrest of Lee Harvey Oswald.

The panel discussion highlighted the second day of business sessions during the convention of AP member newspaper editors.

Panel Works On Johnson State Park

AUSTIN (AP) — Lyndon B. Johnson State Park, across a winding ranch road from the President's ranch, is still in the Texas Parks and Wildlife Commission's plans.

"We're still working on it," commission chairman Will Odom said Thursday when asked for a status report on the controversial project. The commission authorized it last November.

The 59th Legislature did not appropriate funds for the 240-acre park, and Odom said the commission is not engaged in a fund raising campaign to buy land.

When the park was designated, a private campaign to secure donations was mentioned as one way to finance the project.

The acreage includes pastures, peach orchards and some wooded land across Ranch 1 from the LBJ Ranch. The park's southern border would be U.S. 290.

Condemnation proceedings have been started only against 17 acres on the east fringe of the park area. The state offered $300 an acre but a special Gillespie County condemnation board put the value at $850. The state is appealing.

Buys New Auto; A 1967 Hardtop

DALLAS (AP) — Sgt. Billy Horn stepped into a suburban Garland dealer's showroom yesterday and told salesman Ray Roberts he wanted to buy a new car a little ahead of time.

What he wanted was a 1967 model hardtop—which won't be out for nearly a year.

Horn, in the 1st Armored Division, has orders sending him to Viet Nam. His wife doesn't drive.

So the sergeant traded in his 1964 model convertible as a down payment and signed a contract to pick up the new car Dec. 15, 1966.

Annual meeting of the Mitchell-Scurry Baptist Association WMU will be held Thursday at Oak Street Baptist Church in Colorado City.

Northside Baptist

Times for evening services will change to the fall schedule this Sunday evening at Northside Baptist Church. The evening worship service, which is broadcast over KSNY, will begin at 7:30 p.m. The Baptist Training Course will precede the worship service.

The Rev. John Duke, pastor, will speak at both the 11 a.m. and 7:30 p.m. services. Sunday School will begin at 9:45 a.m. Music will be under direction of Bill Poe, music director for the church.

The Wednesday evening teachers meeting will begin at 6:45 p.m. and the midweek service will follow at 7:30 p.m.

Union Baptist

"The Life That Wins" will be the title of the 10:50 a.m. message to be delivered by the pastor, Rev. Guy A. White. Sermon text will be from Philippians 1:18-25.

The 7 p.m. message will be titled "The Sinfulness of Sin" with the text from Romans 7:7-25.

Sunday School begins at 9:45 a.m. and Training Union begins at 6 a.m.

All men are again urged to be present Saturday for a "work day" at the church. Painting, door hanging, and general clean-up will fill the day. Dinner will be served at the church.

There will be a Youth Fellowship at the church after the Sunday evening services. The new volleyball court should be ready to go.

WMU meets at 9:30 p.m. Tuesday. Wednesday at 6:30 p.m. the RA's, GA's, Sunbeams, and teachers and officers meet. At 7:30 p.m. prayer meeting and study in Joh 13 will be held.

37th Church of Christ

Everyone is invited to attend the services at the Thirty-seventh Street church of Christ this Sunday. There will be classes for all ages at 9:45 a.m. followed by the morning worship hour at 10:45. The Sunday evening worship will be at 6 o'clock. Maxie B. Boren, minister for the church will preach at both services.

"Five Minutes With the Master" is a five minute radio program that can be heard each week-day morning at 8:15 over KSNY. Everyone in the Snyder area is invited to listen.

"The Herald of Truth" is a nation wide TV program conducted by the Highland church of Christ in Abilene, and can be seen on Channel 13 at 9 o'clock each Sunday morning.

Be still

"Peace I leave with you; my peace I give unto you." St. John 14:27

Whoever you are — whatever you do —
May the love of God reside with you.
There's nothing so base, cruel or mean,
But God in his peace can make all clean.
He gives of love as the sun sends rays;
May his peace abide throughout your days!

WILL CURTIS

Bethel Baptist

"God Will Judge Us" will be the title of R. Virgil Mott's sermon subject Sunday morning at 11 a.m. Reference scripture John 12:31-32.

Sunday School will begin at 9:45 a.m. Annual Sunday School promotion will be observed at 10:50 a.m. Bethel Baptist Church in called conference unanimously voted to participate The Church Development Program which is sponsored by the Direct Missions Department and The General Convention of Texas. The program is designed to operate one full year. Rev. Mott said. "We already rank high in many qualifications of the program."

Sunday afternoon the congregation is invited to meet at the church for a period of hymn singing at 5:30 p.m. At 6:30 p.m. the Training Union will meet by departments, and at 6:45 the annual promotion will be observed in each department.

"When Are We Free" will be the pastor's sermon subject for the evening service at 7:30 p.m. An outline of The Church Development project will be given to all who attend the evening service.

Sermon Time Changed

The Rev. T. L. Nipp of Dimmitt has changed the time for his "This I Believe" radio sermon on Sunday afternoon. Beginning this Sunday the program will be presented from 1:30 p.m. to 2 p.m.

Rev. Nipp's subject will be "Not by Might, Not by Power, But by Spirit, Sayeth the Lord, Zac 4:6

Communication Is Program Feature

Equipment now in use as well as coming innovations in communications were demonstrated Thursday at the Snyder Rotary Club's weekly luncheon meeting.

The program was presented by Glenn Scott of Southwestern Bell Telephone Co. and was titled "Information on the Move."

Rotarians were reminded of two inter-club meetings, the district meeting in Lubbock on Thursday night and Friday night's meeting at Sweetwater preceding the football game.

Charles Hartman, Rotary President, presided at the luncheon meeting.

Texas Cities Get Expansion Funds

WASHINGTON (AP) — Funds for these Texas projects were announced Thursday by the Community Facilities Administration:

Brownsville, $32,400 loan for planning street improvements to cost an estimated $807,000.

Pharr, $6,700 loan for planning improvements to cost an estimated $128,300.

San Marcos, $19,600 loan for planning expansion of the sewer system. Estimated cost of the project is $768,120.

The total U.S. resident population June 1, 1965, was 163,644,000 — an increase of 1.3 per cent over June 1964, according to Census Bureau estimates. The new figure represents an increase of 3 per cent since April 1, 1960.

STRICTLY 'NEW-HAT' EVERY DAY!

There's nothing brighter, fresher, newsier and more welcome than your daily paper. It keeps you current on world affairs, stimulates your mind, tickles your sense of humor, puts facts at your fingertips.

It's short-lived — but it grows old gracefully. Today's paper won't be dead tomorrow or even the day after that. So much that's in it is timeless as well as timely. Things like expert financial and medical advice, recipes, do-it-yourself hints, special features and stories, pictures — these are just a few of the ageless extras your daily paper gives you.

In this era of mass communications, your newspaper stands out as a tangible document. It's yours to read, put down, pick up and read again, clip and save.

The Snyder Daily News

Whosoever Will may come to Church may come to God . . .

DEEP YEARNING

. . . for God, or is it hero-worship, or is it a desire to be shown the way . . . is it a dream? Well, heroes are God's occasion for awakening in His children a yearning to be one. Dreams are the doorsteps up which one must climb to reach this higher elevation. *Be it hero-worship or a longing for God, it is his dream and a child is at his best when he dreams.* His dreams are his prayers. God and your son, together, can do great things. But they can do better if a father joins God and his son in the dream prayer. Here a father meets, face-to-face, one of the finer experiences of life . . . his own son in fervent prayer. Scenes like this cause a father to be interested in things that have to do with life rather than just a living. *A prayer life is the result of church teaching and good raising.* . . . has your child learned to pray? . . . To be good and kind and patient are fine but add church attendance to the list and you'll have the ingredients which go into every good man.
