They laughed when I bought my first Bond.

In my neighborhood everyone was poor.
Most of us were lucky if we had enough food
to eat or clothes to wear. So like most kids we
spent a lot of time talking about the things
we wanted out of life. Things like owning a
big car, wearing fine clothes and going to all
of the best places. Boy, we could hardly wait
to grow up.

Like the other kids I had little odd jobs in
grammar school but I got my first real job
when I started high school. I was a junior
clerk in a big department store. That's where
I first heard about U.S. Savings Bonds. My
boss asked me if I wanted to join the Payroll
Savings Plan and I said yes. A month later I
got my first bond.

When my friends found out they really had
a good laugh. Imagine buying U.S. Savings
Bonds when there were so many other great
things to buy. Well, they kept laughing and I
kept saving all through high school.

After graduation some of us wanted to go
to college. And that's when my Bonds really
came in handy. They not only helped pay my
tuition, but also helped buy some books.

Well, I'm a senior now and looking forward
to graduation. Unfortunately, a lot of my
friends never even got started. And to think,
they laughed when I bought my first Bond.

Now E Bonds pay 5 1/4% interest when held to
maturity of 5 years, 10 months (4% the first
year). Bonds are replaced if lost, stolen, or
destroyed. When needed they can be cashed
at your bank. Interest is not subject to state
local income taxes, and federal tax may
be deferred until redemption.

Storm Warning

Since the tornado season is with us again, it is time to remind everyone of the signals sounded by the fire siren. One blast of the siren indicates a fire, two blasts are to call the department together, and three blasts indicate a storm.

Three blasts do not necessarily indicate that a tornado has

been sighted, but they do mean that everyone should watch the clouds and take whatever action seems to be necessary.

The time is here for work to be done again on Rowe Cemetery. This work is paid for solely by voluntary contributions, and donations are needed to pay for gas and labor.
