OVER TWO THOUSAND OBTAIN DRIVERS LICENSES

Sheriff Talley states that over 2200 drivers licenses have been issued by his office to men, women and children of Ochiltree county, but he adds that in his opinion there are many car drivers that have not obtained a license. Sheriff Talley estimates that there are at least 3,500 persons in Ochiltree county eligible to obtain drivers licenses.

Under the provisions of the Texas drivers license law, it is unlawful for persons of any age to drive a car without a license. Persons, age 18 and over, can obtain license from the sheriff's office by making application in person. Children, age 14 to 18, can obtain license by appearing in person accompanied by one of their parents who will give written consent for issuance of license. There is no charge for drivers license.

The car drivers license law went into effect on April 1, 1936, and any person who drives a car without being licensed is subject to arrest and fine of not more than \$200.00.

Digging Themselves Out From Flood Debris

Throughout the eastern and New England states, as the great floods receded, the people in the devastated regions speedily began the hard task of cleaning up their cities and towns. Characteristic scenes are here presented. 1—WPA workers clearing the mud and wreckage from streets in Pittsburgh. 2—View in Johnstown, Pa., as citizens were digging out the debris. 3—Man and wife in a Pittsburgh suburb doing their spring house cleaning" after the waters had left their bungalow.

MOTOR LICENSE TAG TOTAL OFF

OFFICIALS THINK THAT MANY WILL OBTAIN TAGS WHEN WHAT ALLOTMENT PAYMENTS ARE MADE

Reports at the close of business on April 1, indicated that there was a slight decrease in the number of motor vehicle registrations in Ochiltree county, compared to the same period in 1935. A check of the records in Sheriff Talley's office shows that 818 passenger cars, 86 farm trucks, and 56 commercial truck licenses have been issued for 1936. At this same time in 1935, the registration was 850 passenger cars, 72 commercial trucks, and 98 farm trucks.

It is thought that the registrations will increase considerably just as soon as the what allotment payments for the second one-half of 1935 contracts are made. Officials are expecting arrival of these checks soon.

In the meantime, owners of cars and trucks that have not been registered for 1936, should take notice of the fact that it is unlawful to operate cars and trucks until the license fee has been paid.

SPECIAL TRAIN CARRYING BUSINESS AND PROFESSIONAL MEN TO VISIT PERRYTON, APRIL 21

One hundred of the leading business and professional men of Wichita will be in Perryton on April 21 at 9:10 a. m. on their twenty-ninth annual Good Will tour.

Their visit to this city is said to be more for the purpose of making a friendly call on their friends and neighbors than it is to seek business. Wichita has always been closely associated with this community, both in a business and personal way, and this year Wichita is sending her representatives here to renew old friendships.

The entire itinerary of the trip is through the sections of Kansas, Oklahoma and Texas which have the best crop and business conditions of recent years. Wichita businessmen, because of these better conditions, are confident of finding a greater optimism among the people along the route their train will travel.

There will be many entertainment features accompanying the party, including the famous American Legion band and the equally famous Chamber of Commerce quartet.

O. O. McCloud, member of the local CCC camp, underwent an operation for appendicitis at the Perryton hospital, Wednesday.

TALLEY SAYS "BUY 1936 TAGS OR SUFFER PENALTY"

Sheriff J. S. Talley has issued a warning to owners and operators of cars and trucks that the law regarding operation of motor vehicles without 1936 tags will be strictly enforced in Ochiltree county. It is unlawful to operate a car on any highway or public road in Texas after April 1 without a 1936 license plate. Owners of cars that are operated in violation of this law will be arrested and fined, and in addition, a twenty per cent penalty will be added to the purchase of a 1936 tag. Cars or trucks operated without a 1936 plate, on or after April 1, 1936, will have to pay for an entire year's license fee, regardless of how late in the year the tag is purchased. Sheriff Talley very emphatically states, "Buy a 1936 license plate, or put your car or truck up and keep it out of use until you comply with the law." He and his officers have no alternative but to enforce the laws of the state in regard to car licenses.

DEMAND ACTION WIND EROSION

OCHILTREE COUNTY AGRICULTURAL ASSOCIATION DEMANDS ACTION FROM COUNTY BOARD

The meeting of the Ochiltree County Agricultural Association on Tuesday morning was given over principally to discussions of wind erosion and the failure of the Ochiltree County Wind Erosion district to force non-resident and resident owners to give preventative treatment to blowing lands.

As a result of the discussion, the association, without a single dissenting voice, adopted a resolution calling for a committee to meet with the Commissioners Court, the executive body of the Wind Erosion district, and see what measures could be taken. Under the provisions of the wind erosion legislation, no land can be entered upon until two weeks legal publication has been made. Other Panhandle counties have prepared themselves for such emergencies by giving notice by publication on every tract of land in the county.

This was not done in Ochiltree county, only a few tracts being advertised several weeks ago. Treatment of some kind has been given the tracts so advertised and in only two cases was it necessary for the Commissioners to do the work. Cost of such treatment, if done by the district, is assessed as a first and prior lien against the land.

Carrying out the wishes of the Agricultural Association, President W. M. Deck, appointed a committee consisting of Forest Forgy, W. R. Norris, Amos Schuster, M. W. Truax and B. L. Rogers to meet with the Commissioners at a special meeting Wednesday. In this all-day meeting it was finally decided by the Commissioners to advertise about 25 more tracts.

According to the Commissioners Court, this wind erosion district is not such a "hot" proposition after all. They state that they do not have any funds to work with, or at least they are limited. It is understood that of the tracts advertised, such work as necessary will be done, provided they can be financed.

"If the creation of the entire county into a special wind erosion district has only set up another useless sub-division, as those in charge indicate it is, why not just junk it and let the state have the one-half of our state taxes back," some have said. But on the other hand many believe that a great good can come from the measure which our own representative, B. L. Rogers, caused to become a law, and that those in charge will be able to set up machinery to force owners to treat blowing lands.

Considerable discussion at the Association meeting centered around a proposal by M. W. Truax that some sort of a movement be inaugurated whereby a plan could be evolved so that farming in this area will be done by actual farmers who live on their farms and that a farmer's acreage will be limited to the numbers of acres that he is actually equipped to handle. It is the firm belief of most "live on the farm" farmers that the slipshod methods used by most "long range" wheat gamblers is a very material contributing factor to the present deplorable condition of the soil in this area. President Deck appointed a committee consisting of M. W. Truax, L. A. McClure and G. E. Lemon to make a study of such a plan.

A committee of three, W. R. Norris, Amos Schuster and L. R. Conner, was named to prepare a draft of a constitution and by-laws to be presented to the next meeting of the Association. H. Hargrove, Ed Clements and Curtis Roach were appointed by President Deck to make a study of a resolution regarding the farm debt adjustment question and report on same at the next meeting.

R. H. and G. T. Prewitt returned Tuesday from Kansas City, Mo., where they spent five days transacting business and visiting with relatives.

The stream-lined knee-acting limousine is as dust-covered as the gawky out-of-date 1929 battle wagon, and the grinding dirt tears its way into the nose and eyes of people just as much as it does the CCC punks. To me, these effects are even more far-reaching than the vitamin content of southwestern dirt.

There's one thing about these dust storms. They grind away until everyone is ground down to the same size. Centennial Pageant

Assignment of Parts For "Texas Under Six Flags" Will Be Completed Next Week

The name, "Texas Under Six Flags," has been chosen for the pageant to be given by the Perryton schools in May. This pageant will be based on scenes worked up by Texas history classes as well as the plan used by McLain, Texas, in their Centennial celebration. This material is being organized by the committee in charge. Assignments of parts to home rooms and various school organizations will be completed by the first of next week.

We hope to make this pageant an event of special interest to people of this part of the Panhandle. If any residents of Perryton or the surrounding community recall any incidents in the early history of this section that they would like to see depicted, the committee would be pleased for you to write it up or tell us about it.

ARTS CLUB

The Arts club met March 27, the sixth period. We planned an outline for those who shall serve throughout the year, since we have only seven more club periods and three more serving periods. We are getting along nicely with our quilt. We are hoping it will be finished soon.

A GLIMPSE OF SENIORS

Elsie Lee Thornton is our senior brunette and most popular girl. She was Freshman president and Junior reporter. She has served on numerous important committees, and has held many club offices.

Maxine Prewitt and Effie Jones are our Senior clowns. They have much dramatic ability. They have been in the contest plays for the last two years.

Edna Vanita Brillhart is a red-headed Senior. In the past she has been Junior secretary. On entering Senior high she was valedictorian.

Arline Slavine is a very popular Senior. She was the district representative candidate of this year, and is now president of her class.

Claudine George, secretary of the Senior class, is a noted musician. She was president of the Junior class.

George Henry Andress is the ex-president of the Senior class and most popular boy. George has been vice president of the Freshman class, president of the Junior class, and escort to the Junior queen in 1935, and escort to the school sweetheart this year.

Cora Lee Tandy has been here for two years. She was vice president of the Senior class, and she is secretary of the high school student body. Last year she was elected Junior queen. She has served as a member of the El Sombrero staff both years.

LeRoy "Pete" LaMaster and Joy Hergert are the ladies' men of the Senior class. They are both very popular.

Ruth King and Bette Bryan are social leaders and rank among the prettiest.

ENGLISH CLUB NEWS

The English club met Friday, March 27, in the study hall. The meeting was called to order, the roll was called, and the minutes of the last meeting were read. Although Mrs. Wood has been ill, we have carried on until her return. We are happy to have her back.

The program was presented by Margaret Farnsworth. It consisted of several very good numbers which

were enjoyed by the club members and a few visitors: a vocal duet by Anita Jackson and Geraldine Cropper accompanied by Sybil Apple; a vocal duet by Sybil Apple and Jeanne Pinkerton accompanied by Virginia Correll; a piano duet by Sybil McCall and Vivian Rogers, and a tap dance by Jane Perry, was the entertainment for the day. The program did not quite fill the forty-five minutes allowed, so a very clever pantomime was presented by Effie Jones and Maxine Prewitt. They were accompanied by Virginia Correll at the piano.

We are sorry to hear that one of our outstanding club members, Geddes Morris, is sick. We hope to have her back some time this week.

SENIOR CLASS NEWS

The Senior class called a special meeting Wednesday, March 25. The purpose was for the selection of invitations and calling cards. Several different kinds were submitted for choice. The more conventional type was thought to be most appropriate. The class showed its good taste in selecting pure white in preference to colored invitations. Those desiring to order invitations and cards, or either, are requested to see the class secretary, Claudine George, who is in charge of placing orders.

A few minor issues were taken up, suggestions for a party were made, but nothing definite was decided upon.

Operetta Next Week

Students Rehearsing for Operetta Which Will Be Presented on Thursday, April 16

This high school operetta, "The Gypsy Rover," which will be given on next Thursday, April 16, is in three acts and is built around the character of Rob, later known as Sir Gilbert Howe, of English nobility. Rob is stolen when an infant, by his nurse, Meg, who later becomes the wife of Marto, a Gypsy. Rob grows to manhood amongst the Gypsies believing Meg and Marto to be his parents.

It happens one day, while riding with her fiancée, Lord Craven, Lady Constance Martendale becomes lost in the woods. They wander to the Gypsy camp where Constance and Rob meet and fall in love at first sight. Craven objects to Rob's attitude, but in a very funny comedy scene with Marto and Sifno, he is made to tell Sir George, who later comes in search of Constance, that Rob is a charming fellow. In act two, Rob goes to the home of Constance and serenades her. They plan to elope but are overheard by Craven who informs Sir George, and plans are made to capture Rob. This is successfully accomplished and Rob is thrown into prison, but later escapes.

Two years elapse and Rob has come into his estates, his identity having been proven by Meg. He becomes a successful composer, a friend of the prince, and a social lion. Constance has remained true to her love for Rob and on his return to English, he woos and wins her for his wife. As Rob says, "The good fairies have led me to the beautiful country after all, and our story, Constance, can end in the proper way. They lived happily ever after."

There are also pretty love affairs between Nina and Capt. Jerome, and Zara and Sifno, and many comedy scenes by Sifno and Marto. Space prevents giving more than a thread of the plot.

CHEMISTRY NEWS

The chemistry class has been making up for lost time where tests are concerned, while Mr. Bush has been absent. The class is glad to see Mr. Bush well and back to school.

Iron is the subject of the earnest endeavors in class this week. Some of the students think iron is hard, but it is evident that they are just a bit rusty.

There were several students absent last week, due to the excess of vitamin K, but they are all back looking none the worse.

6-1 NEWS

Those who made one hundred in spelling last week were: Ona Grace Francis, Alvin B. Holmes, Mady Frances Crow, Charles Patton, Kathleen Allen, Woodrow Brillhart, Marie Carlson, Dorothy Woods, and Hunter Murphy.

There have been several boys and girls absent from our room on account of illness.

Ernest Tindle spent Tuesday, Wednesday and Thursday nights with Charles Patton.

Junior Play Soon

Selected for Junior Play which Will Be Presented Tuesday, April 21

Junior play, "The Crazy Mix," will be given the 21st of this month. It promises to be a "rip-entertainment, folks, and something that such a name imply. It just jumps from any situation to another, but right along with it, is a refreshing love story.

It is as follows: A lovely girl with a sure mind of her own, and experimental as artistic generally to be—Heleen Tallman. Al Craig, blessed with an eye of vivacity, and a living picture of the verve which we so admire in "this younger generation"—Vivian Rogers.

Roberts, an altogether alert with a dreamy expression and an imaginative mind—Imo-wiet.

Carlos Sebastian, a handsome, youthful Spanish artist who has been in American abandon, and who has been with Spanish gallantry—Harvey Wilson.

Paul Paffoff, good looking and as courteous as you expect an attaché of the So-sassy to be—Ben Crum.

Holden, American youth with all the attributes that make it distinguishable: handsome, and his appearance enhanced by his frank, sin-gular—Clyde Jones.

Lane, rather nonchalant and sophisticated in appearance, in a great musician whose talents are secondary to his Sibyl McCall.

Stamm, impulsive nature and musical talent whose charm is shown with the resonant of his violin—Harold Hud-

Julian, Lee Julian's mother, in appearance, and her poise, perfect—Wanita

Macready, as sharp and sassy as any Irish landlady can only Gibson.

For it, folks, and make up mind to attend, because it will be one of the year's entertainments. The cast is hard.

Opening New Road

New Pavement on Highway 4 Through Collingsworth County Ready For Travel Next Week

All concrete has been poured on Highway 4 to a point eight miles north of here, according to Sumner D. Bacon, resident engineer, who said today that the road would probably be opened between April 15-20.

The last strip of concrete has to set and be uncovered," he said. "In addition we have to seal the joints on the road and to build up the shoulders before the road is open. The entire eight miles will probably be opened at the same time."

Mr. Bacon pointed out that the strip leading out of Wellington was still closed, despite the fact that some cars were passing the barricades and traveling over the road. He said that motorists did this at their own risk and that in the near future men would be working along the road, as well as trucks, which made travel dangerous.—Wellington Leader.

Terracing Paid Farmer

Carson County Farmer Says Increased Yield Paid Terracing Cost During First Year

"Terracing on my farm paid for itself the first year in increased yields," said G. T. Colgrave, a farmer living in Carson county, seven miles north of White Deer, Texas. Mr. Colgrave did his terrace line running and constructed level terraces on 170 acres of his farm a year ago. This field last year produced enough more hegar and cane than his unterraced land to pay for his total terracing costs. In addition to the increase in yields due to moisture conservation the terraced land has a good protective covering of stubble, which is preventing wind erosion during this blowing season.

Saving of water by terracing and contour farming is one of the major steps of the program of the Soil Conservation service in increasing the possibility of getting a crop-over.

The Panhandle A. and M. College experiment station increased wheat and grain sorghum yields 34 per cent over a period of eleven years by terracing and contour farming.

"Well, I know I wouldn't ever take a prize at a beauty show," a local woman said at a party the other evening, "but at least I am safe in the respect that no male affinity ever took a shot at me because of the overwhelming intensity of his devotion."

Runs for Congress

Maude Thomas, Well Known Beaver Woman, Seeks Nomination as Congressman-at-Large

Maude O. Thomas, local politician, Sunday announced her candidacy for the Democratic nomination for congressman-at-large. That office is now held by Will Rogers, a former school teacher, who won many votes and his election on the strength of his name, and he is a candidate to succeed himself. Sam Houston of Claremore, a descendant of the famous character of that same name, is also a candidate.

Quoting the Oklahoman, Miss Thomas made the statement, "I observe a couple of men running on the names of two good men who are dead. I think we ought to have a live one in the race." During W. H. Murray's administration, Miss Thomas received much publicity through her appointment to the highway commission—the only woman to serve in that capacity—where she served for several months while Lew Wentz was forced off by executive order.—The Herald-Democrat, Beaver, Okla.

SOIL CONSERVATION PROGRESS

TEN COUNTIES IN PANHANDLE NOW ORGANIZED INTO UNITS TO COMBAT WIND EROSION

Ten counties in northwest Texas have formed legal conservation districts for combating wind erosion. These counties have organized under provision of Texas house bill No. 978 are Dallam, Hartley, Oldham, Deaf Smith, Sherman, Moore, Lipscomb, Hansford, Ochiltree and Randall.

The counties through their conservancy district governing body, the commissioner's court, have the authority to treat blowing lands which are a hazard to adjoining lands providing the owner is unwilling or unable to do the work. The cost of work done is charged to the land and becomes a first lien payable in three equal installments over a period of three years.

Due to the extreme wind erosion conditions which existed in the first nine counties named the conservation law provided the refunding of the state ad valorem taxes, to the conservancy districts, for the years 1935 and 1936, for erosion control work. These and other counties organized under the law may use 20 per cent of the automobile fees and part or all of the special road and bridge fund in carrying out the work of the district.

Through cooperative working agreements between the Extension service, the Soil Conservation service and the conservancy districts, assistant county agents are being employed in four of the counties to do soil conservation work.

International Sunday School Lesson

By A. C. Williams, Minister, Perryton Church of Christ

Lesson II. April 12, 1936.
OUR LIVING LORD
Luke 24: 1-35

I. Ministering Women

Woman was last at the cross and first at the tomb, we are informed. Three days before, our Lord had expired on the rugged tree on Calvary. Hopes had been tried with him. The disciples abandoned the hopes of the kingdom. The object of their dreams lay in the cold earth. Crushed in disappointment and bereavement their hearts were bleeding and sorely wounded.

But as the first day of the week began to dawn, some women were making their way toward the tomb with spices with which to anoint the mangled body of Jesus. They wondered who would roll away the stone from the mouth of the cave, for it had been placed there and sealed with the Roman seal, and great as it was, the death penalty for its removal made the task even more formidable.

Glancing upon the women saw that the great rock had been rolled away. Jesus had risen. The bands of death had been broken. The power of the unseen world was overcome as Jesus defied the clutches of death and came forth to die no more. Guards set to watch the grave quaked as dead men.

As the women approached they were greeted by angels who asked, "Why seek ye the living among the dead... he is risen." The object of their quest was gone. Why had they not believed him? Had he not told

them he would rise the third day. Had they not sorrowed since the recent Thursday evening crucifixion fearing lest he should never be seen alive again?

Having been the place where the Lord had lain, the women were sent to tell the disciples the wonderful story. It appears that Mary Magdalene lingered behind at the tomb, and was the first to see the risen Lord. The other women hurried to tell the disciples what they had seen and heard.

II. Skeptical Men

We would suppose that the disciples would remember what Jesus had told them about his resurrection. We would expect them to welcome the news brought by the excited women. But no. Masculine like, they seemed to think it the proper course to disregard the earnest testimony of the ladies and brand the information as idle tales. But some of them mustered up enough courage to make an investigation. So off started Peter and John. They must have looked like Winter and Spring in a racing contest. But John who was younger outran Peter and came to the tomb. Then followed Peter and deliberately walked into the vault and examined the linen clothes. This was a beginning of demonstrations proving the resurrection of Jesus. In all, Jesus himself appeared about eleven times and on various occasions, and by "many infallible proofs" he proved that he had broken death's chains and lived to die no more. Down through the stream of twenty centuries has come this unanswerable proof, and today we rejoice in the assurance that we too,

Easter

Many people never comprehend the meaning of Easter. It is a season of hope and of life. They had placed the crucified Saviour in a tomb, had secured the tomb with the Roman seal and his followers were without hope. Then the startling announcement was made that Christ was risen. When this fact was verified the disciples' hopes were revived and the hope of a lost world became real.

It is fitting that we, his followers, should make much of the anniversary of his resurrection. To be sure each Lord's day is a resurrection day, because immediately after his resurrection the disciples met for worship on the first day instead of the seventh or the old Jewish Sabbath. However, the regularity of Lord's day does not permit the stressing of the truth so forcefully as does the annual anniversary or Easter. The falsehoods that have been perpetuated by the Catholic church has made Baptist and Protestants shy of any emphasis on this special day. It should not be so but at this season when people are conscious of the season is a time to impress the truth and the meaning of Easter on the minds of people. Let us make much of this day and get all the spiritual good from it that we can. Let us honor the risen Christ by worshipping him in his house next Sunday.

Harzenberger, Pastor.

CHRISTIAN SCIENCE

"Are Sin, Disease, and Death Real?" is the subject of the Lesson-Sermon which will be read in all Churches of Christ, Scientist on Sunday, April 12.
The Golden Text is: "All flesh shall see the salvation of God" (Luke 2:36).

Among the citations which comprise the Lesson-Sermon is the following from the Bible: "The Lamb which is in the midst of the throne shall feed them, and shall lead them unto living fountains of waters; and God shall wipe away all tears from their eyes" (Revelation 7:17).

The Lesson-Sermon includes also the following passage from the Christian Science textbook, "Science and Health with Key to the Scriptures" by Mary Baker Eddy: "If sickness is real, it belongs to immortality; if true, it is a part of Truth... But if sickness and sin are illusions, the awakening from this mortal dream, or illusion, will bring us into health, holiness, and immortality" (page 230).

The difference between an artist and an editor is, that if an artist doesn't feel like painting he doesn't paint, but an editor has to go ahead and get out a paper whether he feels like it or not.

"Notwithstanding my many resolutions made last summer," a reader of this paper said yesterday, "that I would plant no more gardens I felt myself weaken a good deal yesterday when I received my first seed catalogue."

JEFFERSON CONTOURED LANDS

THIRD PRESIDENT OF THE NATION ADVOCATED FARMING ON THE CONTOUR TO CONSERVE SOIL

Thomas Jefferson, third president of the United States, whose birthday is April 13, was a practical farmer. He knew conservation of soil was of vital importance to lasting and successful farming. In 1813 writing about his farm in Albemarle county, Va., he said:

"Our country is hilly and we have been in the habit of plowing in straight rows, whether up or down hill, or however they lead, and our soil was all rapidly running into the rivers. We now plow horizontally following the curvature of the hills and hollows on dead level, however crooked the lines may be. Every furrow thus acts as a reservoir to receive and retain the waters, all of which go to the benefit of the growing plant instead of running off into the streams."

Many farmers are learning today, as Jefferson learned, the value of contour plowing and planting to check serious soil losses by wind and

water, reports the soil conservation service.

In the Perryton area 87 farmers have entered into co-operative agreements with the soil conservation service covering 52,500 acres of cultivated land to be terraced and contoured; and 36,000 acres of pasture land to be contour furrowed. This work is now being accomplished as rapidly as facilities permit.
