25TH YEAR—NUMBER 3

"Where The West Is At"

COLORADO, TEXAS, FRIDAY, OCTOBER 18, 1929

On the "Broadway of America"

WHIPKEY PRINTING CO.

ENLARGING LOCAL LIBRARY OBJECT OF MEMBERSHIP DRIVE

Library Now Includes Nearly 500 Books of Fiction; Dues \$1.00

Enlargement of the Colorado Library, which has had several years of purely natural growth since its establishment by the Mitchell County Federation of Women's clubs, is the object of a membership campaign being staged by the Federation under the new president, Mrs. C. P. Gary. Mrs. J. G. Merritt is chairman of the membership committee, of which Mrs. Boyd Dozier and Mrs. Tom Pritchett are also members.

The library is maintained solely by membership dues and fines collected. It has grown to include some five hundred volumes of popular fiction, but one dollar per year. A book may be kept out as long as two weeks before returning. The library, which is located over the city hall, is open each Tuesday and Saturday afternoon, from 3 to 5:30 o'clock. Mrs. Boyd Dozier is employed by the Federation as librarian.

Lacking a public library, Colorado book lovers have found pleasure and profit in this library, which began in a very modest way with donations of books from various club members. The shelves are replenished as often as there is a sufficient sum in the treasury. The novels placed on them are always the works of popular authors and have usually proved their merit before being placed in the library. It is not always possible for the library to afford the very latest works of fiction, but the best sellers are always secured as soon as they have circulated to any great extent in smaller cities and towns.

Romances, mysteries, western novels, and other types of fiction are included in the library. The following books were recently placed on the shelves of the library:

"The Law Breakers," by Ridgwell Cullum.
"The Quirt," by B. M. Bower.
"The Silver Poppy," A. Stringer.
"The Rose in the Ring," by Geo. Barr McCutcheon.
"Ranching for Sylvia," by Harold Bindass.
"A Daughter of the Snows," Jack London.
"Their Yesterdays," Harold Bell Wright.
"The Spirit of the Border," "The Last of the Plainsmen," "The Light of the Western Stars," "The Call of the Canyon," all by Zane Grey.
"The Girl in the Ring," by Geo. Barr McCutcheon.
"The Covered Wagon," Emerson Hough.
"The Trail of '98," Robert W. Service.
"The Sheriff's Son," William McLeod Raine.
"The Little French Girl," Anna Douglas Sedgwick.
"Something for Nothing," E. J. Rath.
"Nevada," Zane Grey.
"The Girl in Black," by Victor Bridges.
"Red Sail," L. E. Geilgud.
"The Laughingest Lady," by E. C. Slone.
"Out of the West," Florence Riddell.
"Spread Circles," by Florence Ward.
"The Little Yellow House," by Beatrice Benton.

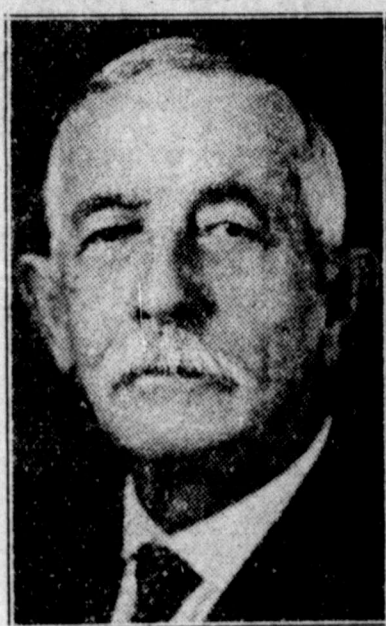

"Winner Takes All," Larry Evans.
"Rovin' Redden," Jas. Roberts.
"The Circular Study," Anna Katharine Green.
"The Covered Wagon," Emerson Hough.
"The Trail of '98," Robert W. Service.
"The Sheriff's Son," William McLeod Raine.
"The Little French Girl," Anna Douglas Sedgwick.
"Something for Nothing," E. J. Rath.
"Nevada," Zane Grey.
"The Girl in Black," by Victor Bridges.
"Red Sail," L. E. Geilgud.
"The Laughingest Lady," by E. C. Slone.
"Out of the West," Florence Riddell.
"Spread Circles," by Florence Ward.
"The Little Yellow House," by Beatrice Benton.

HONOR ROLL IN GRADES BELOW JUNIOR HIGH

In the grades of Colorado public school below Junior high school, the following honor students were named for the past six weeks:

Glen Gary, Gilbert Grubbs, Jack Henderson, Francis Dale Simpson, Naydett Foster, Doris Hammond, Agnes Ruth Harper, Meta Hudson, Jane Clare Meskimen, Elena Wheeler, Charles Carter, Harry Lovejoy, Shirley Kiker, LeVerne Brewin, Jo McGinnis and Evelyn Hamer.

HONORED BY TEXAS PRESBYTERIANS

DR. P. C. COLEMAN

Who was named Moderator of the Texas Synod, Presbyterian church, for the ensuing year at the convention in Tyler last week. Dr. Coleman is the fifth layman to be so honored by this body within the past three-quarters of a century.

TWO CONFERENCE GAMES FOR WOLVES NEXT TWO WEEKS

Team to Meet Loraine This Friday and Rotan Next Thursday

With at least one lesson well learned as a result of their defeat in Roscoe last Friday, the Colorado Wolves will play their second and third conference games of the season when they meet Loraine on Cantrill field here this Friday afternoon, and Rotan here on Thursday afternoon, October 24.

The motto of the Wolves since the game with Roscoe has been, in substance: "No more punts blocked," for it was largely through blocking Colorado's punts that Roscoe High defeated the Wolves. Coach Cantrill has been putting his men through intensive training since then in an effort to correct this weakness.

Colorado's next game after the one Friday will be with Rotan here on Thursday, October 24. The date for this game was originally Friday, October 25, but has been changed to Thursday.

Colorado To Be Represented By Girl In Contest

Miss Frieda Merle Reid, student in public speaking in Colorado high school and member of one of the girls' debating teams, has been chosen to represent Colorado in the "My Home Town" contest at the West Texas Chamber of Commerce convention in El Paso, October 24, 25, and 26, according to John W. Cobb, head of the department of public speaking. She is 15 years of age and a Junior in the Colorado high school.

She will be the first girl to represent Colorado in one of these contests. For the past two years the contest has been won by W. R. Ely, Jr., of Abilene. Ely can not participate in the contest this year because he is now a student in the University of Texas, having graduated at Abilene last year.

BANK STATEMENTS SHOW DEPOSITS ARE OVER TWO MILLION

Report for October 4 Gives Loans From Banks at Near Two Millions

Deposits in the two Colorado banks on October 4, when official report was made to the comptroller, are listed at \$2,000,857.85. The City National deposits are \$944,119.91, and the Colorado National \$1,059,739.94. Loans and discounts are: City National, \$700,404.80; Colorado National, \$936,103.45.

HEALTH OFFICER SAYS MILK ORDINANCE MUST BE ENFORCED IN CITY

Dr. Coleman Warns Those Selling Milk, Butter, Must Test Cows

Those who sell milk and butter or any dairy products in Colorado must have their cows tested as provided in a city ordinance of the City of Colorado, or be prosecuted, according to statement given out Wednesday by Dr. P. C. Coleman, county health officer.

The city ordinance provides that cows must be tested for tuberculosis by a veterinarian and the seller of dairy products must have a certificate showing the cow or cows are free from tuberculosis or other diseases.

Dr. Coleman has taken great interest in health matters and is doing everything he can to protect the health of the people and to raise the health standard in the county. He says it is very important that cows be free from tuberculosis, not only for the protection of the general public but for the protection of the owner and his family.

No person would want to use or sell milk from a tubercular cow, but Dr. Coleman says cows may present the very picture of health and still be infected with the disease. The only safe way is to have the cows tested, he said, and he made it plain that he intended to see that the milk ordinance is enforced. The statement issued by Dr. Coleman follows: To All Whom It May Concern:

I call your attention to the following ordinance, providing for the protection of purchasers of milk in this city:

"An ordinance of the City of Colorado requiring all persons within the corporate limits of the City of Colorado to have their milk cows examined by a duly authorized veterinarian; prohibiting sale of milk from cows without first obtaining a certificate from such veterinarian, that the cows are free from tuberculosis and other diseases and providing a penalty for violation of this ordinance.

"I would call your attention to the provisions of this ordinance and that the term 'Milk' includes butter and all other by-products of milk.

"Expenses of inspection are small and I am sure you see the wisdom of this ordinance, not only on account of those purchasing milk, but your own family as well. I would call your attention to the fact that the appearance of the animal is no indication that they may not be infected with tuberculosis; in many instances it has been found that cattle presenting the appearance of perfect health have been found to be infected.

Please do not consider this as a mere formal notice and that it will not be enforced, and also remember that the ordinance covers one or more cattle and is not confined to those operating dairies alone.

"P. C. COLEMAN, M. D., County Health Officer."

Plans for R. R. Underpass About Completed Now

Dr. P. C. Coleman, president of the Chamber of Commerce, received a letter Monday from A. E. Pistole, superintendent of the Rio Grande division of the Texas & Pacific railway, which says plans and specifications for the proposed underpass at the end of Locust street will be finished and sent to Colorado within a few days to be submitted to the city council and interested citizens.

Such an underpass has been discussed here for two years. Just what will be done has not been determined. The railway is ready and anxious to cooperate in this undertaking, and the council has evidenced interest in the matter. Therefore, it is hoped some definite plan will be done about the project when the plans are received. The Chamber of Commerce has been working on the matter and is backing the plan to put in the underpass.

CITY ELECTION TO NAME MAYOR ORDERED FOR OCTOBER 29TH

Coloradoans will pick a mayor on Tuesday, October 29, according to order of the city council, passed Monday night, setting that date for a special election to name a chief executive to succeed Thos. J. Coffee, who has resigned to move to Big Spring.

The election will be held at the city hall. Jack Smith will be the presiding officer. The election order reads:

"Every person who has attained the age of 21 years who has resided within the limits of said city for six months preceding the date of said election, and is a qualified voter under the laws of the State of Texas, shall be entitled to vote at said election."

HEAVY DOCKET FACES DISTRICT COURT TO OPEN HERE MONDAY

Tinney Murder Trial May Be Heard; Liquor Cases Carried Over

The October term of the Mitchell county district court will open Monday morning with a heavy docket of civil cases and several criminal cases. Several liquor cases and a few other criminal cases were carried over at the last term of court. There are 51 civil cases on the docket, and 21 of these are divorce cases.

J. S. Tinney will probably be tried on a charge of murder. He is out on bond now, awaiting action of grand jury on a charge of murdering C. W. Seuddy on a farm near McKenzie on August 25.

Judge Fritz R. Smith will preside and District Attorney George H. Mahon will represent the State.

CALVES FOR FEEDING DEMONSTRATION ARE ASSURED BY COWMEN

Aggie Vocational Class Will Put Calves on Feed; Cooperative Plan Be Followed

Calves for the car of feeders to be fed on a cooperative basis and shipped to market next spring to test the idea of feeding and finishing local cattle on local feed, have been assured by the entrance of D. H. Snyder into the group of cattlemen who are to furnish and feed one car of calves.

Besides Snyder, O. F. Jones, Chester Jones, S. O. Wulfjen and B. B. Byrne have agreed to cooperate in the demonstration, and furnish the calves. They are willing to go this far to determine whether it will pay to feed and finish for market West Texas calves on West Texas feed.

Club boys and members of the vocational agriculture class of the Colorado high school are planning to feed another car. Doyle Williams, instructor in vocational agriculture, says the boys are now seeking suitable calves to buy at reasonable price to put on feed in this demonstration. Banks have agreed to finance the proposition.

The Colorado feed mill and other feed dealers have agreed to cooperate, and will assist in the demonstration in any way possible. The chamber of commerce is cooperating and assisting the county agent in putting the plan into operation.

H. A. Cook Is 3rd Man As City Night Police

H. A. Cook was put on Tuesday night as city night police and watchman, upon order of the city council in session Monday night. Cook is the third man on the night force. T. A. Hickman and Homer Key are the other night men. Hickman makes the rounds with a clock, while Key and Cook will be general watchmen and police.

Because of the fall rush and so many transients in the county, the council felt it wise to put another man on the night force.

MITCHELL COUNTY WELL REPRESENTED AT DALLAS FAIR

Nine Men And Women And Nine Club Boys Attending

Nine men and women and nine Four-H Club boys are representing Mitchell county at the State Fair in Dallas this week.

The men and women who are attending the Fair with the boys will be official representatives of the Colorado Chamber of Commerce at the Texas Feeder-Breeder Association while in Dallas. They are Mr. and Mrs. U. D. Wulfjen, Mr. and Mrs. S. O. Wulfjen, Mrs. J. L. Pidgeon, Mr. and Mrs. W. S. Foster, and Mr. and Mrs. James T. Johnson.

The club boys are those who won trips to the Club Encampment at the fair through records made in their club work. Transportation for them was furnished by the Chamber of Commerce and the T. & P. Railway, and all expenses at the encampment are being taken care of by the fair management.

The boys who won the trips are: Garvice Craghead, Joe Leonard Blackard, Kenneth Richburg, George Draper, L. G. Walker, Foster Willis, Roy Hallman, J. C. Northeatt, and Robert Earle Wulfjen.

Jackrabbits To Play First Game This Thursday

The Jackrabbits of Colorado High school will play their first game of the season Thursday evening at 4 o'clock at Cantrill field, when they will meet Roscoe's second team, according to Coach Jim Rice.

Admission to the game will be 10 and 15 cents. The following lineup for the Jackrabbits has been worked out:

E. Stagner, right end; Jack Hicks, right tackle; James Bodine, right guard; A. J. Nolen, center; J. L. Hart, left guard; S. Chivers, left tackle; Red Church, left end; Rex McKinney, quarterback; Ferguson, half back; M. Majors, half back; W. Viles, full back.

C. C. to Assist Turkey Growers Secure Market

The Colorado Chamber of Commerce and the county agent will assist the turkey growers of this section in securing adequate market for turkeys this year. J. H. Greene has requested those who will have turkeys to sell for Thanksgiving market to advise the chamber of commerce or W. S. Foster, county agent, immediately. It will be necessary to compile some data on the number to be marketed here, and that is the information wanted.

Greene said: "It is not the purpose of the chamber of commerce to buy turkeys, but we will be glad to assist in securing the best possible price, provided we have some idea as to the amount to be marketed here."

Rev. Harrison Of Ennis Will Preach Sunday

Rev. C. W. Harrison of Ennis will preach at the First Christian church here at both hours Sunday, according to W. W. Porter, superintendent of the Sunday school of this church.

FIVE NAMES ON HONOR ROLL OF JUNIOR HIGH

Five names appear on the first honor roll of the Junior High School for this year. They are: Cleo Shepherd, Elizabeth Watson, Armenta Foster, Irl Bradford Glass, and Maxine Dorn.

Junior High Eleven First Game Saturday

Making their initial appearance in Colorado's football world, the Junior high school team, as yet unnamed, will meet Roscoe's Junior high team here Saturday afternoon at 2:30, on Cantrill field.

This team has been practicing for some time, with Principal Holman as coach. John Smith is captain, and the team will have the following lineup Saturday:

Leon Sorrells, center; Leonard Alexander, right guard; Ray Green, left guard; Aubrey Barnett, right tackle; Bill Loving, left tackle; Elvey Stagner, right end; Red Church, left end; Bud Loving, quarterback; Paul Knief, halfback; N. A. Pennington, halfback; John Smith and Charley Cook, full backs; Red Moon Morrison, H. K. Williams, and C. W. Hagler, subs.

HEALTH IS SUBJECT OF BUSINESS WOMEN'S CLUB AT LUNCHEON

State Health Officer And Nurse Speak On Program

"Health" was the theme of the program of the Business and Professional Women's club today (Thursday) at its regular luncheon.

Dr. J. C. Anderson, State health officer, and Miss Olga Buresh, State health nurse, who stopped in Colorado by invitation on their return trip from the medical meeting in Big Spring, were the principal speakers on the program. Dr. P. C. Coleman, county and city health officer, was also a prominent speaker on the program.

RAINS SLOW PICKING AS ONLY 13,435 BALES GINNED TO THURSDAY

Slightly Over 1,000 Increase Over Last Week; Best Staple 16.70

Heavy rains Saturday and Sunday slowed up cotton picking to the extent that slightly more than 1,000 bales have been ginned since Thursday of last week. Up to Thursday noon 13,435 bales had been ginned.

Loraine had ginned 3362 bales, Buford 1023 bales, Westbrook 2,028, with Guitart gin putting up 1,028 bales and the Williams-Miller 1,000. Colorado had ginned 7,022 bales, distributed as follows: Lambert, 1665; Cleary & Grubbs, two plants, 1665; Cooperative gin, 1,006; Williams-Morgan, 1367; Concrete, 765; Farmers Gin Co. No. 3 plant, 1,577; and Farmers No. 1 plant, 642.

Seed were bringing \$30 per ton at gins and the best staple and grade was bringing 16.70 at Colorado, while strict middling was selling for 16.20.

FUNERAL SERVICES FOR MRS. CURRANT

Funeral services for Mrs. Betty Currant, 18, who died Monday, were held Tuesday afternoon at the L. O. O. F. cemetery, Rev. J. D. Harvey of the Church of Christ being in charge.

Mrs. Currant was the wife of Paul Currant and the daughter of Mrs. Towle Coburn. Her death followed that of her baby's a week before.

WHIPKEY TO PRESIDE AT LUNCHEON CLUB

W. W. Whipkey has been appointed to preside at the Luncheon club next Tuesday noon.

The program will also include a reading by Miss Loyce Price, who has studied reading in T. C. U. for the three past years.

HEAVIEST GENERAL RAIN OF THE YEAR FALLS SAT.-SUNDAY

Precipitation 3.76 Here With Some Hail Damage In County

The heaviest general rains of the year came to West Texas over Saturday and Sunday, to put West Texas streams bank full or at flood stage, to assure fall and winter range and reduced feed bills, and to brighten considerably the financial outlook of this section. The rainfall at Colorado amounted to 3.76 inches, which just about strikes an average for all of West Texas.

Streets of Colorado were flooded late Saturday afternoon. Water was level with the sidewalks on Walnut, Elm and some parts of Oak and Second. Gravel streets of the city were badly washed and great drifts of sand were piled up on the paved streets at many places.

Some hail fell in Colorado. In the vicinity of Rodgers crops were damaged by hail, and on the Robert Lee road near Looney hail wiped out several cotton crops. The Roney place was heavy loser. J. R. Sheppard reports some loss from hail and southeast of Loraine the damage was said to be heavy.

The Colorado river showed about ten-foot rise, while Lone Wolf, Morgan creek, Beal's creek and Champion were all on a rampage, bank full.

The rainfall Saturday afternoon was exceedingly heavy, two inches falling in less than 30 minutes. Saturday night and Sunday the fall was slow. Reports indicate it was general over West Texas. Reports received are: Best 2, Big Lake 2.7, Barnhart, Mertzon, Rankin and Ozona big rains, Bronte 3, Carlsbad 3.5, Robert Lee 2.5, Sterling City 3, Water Valley big rain, Norton 1.5, Brady good rain, Ballinger 3, Menard 3 to 10 inches in surrounding territory, Forsan and Brownwood big rains, Wall 3, Rowena 4, Miles 2, Maryneal 3, Eden good rain, Abilene 1.5, and Blackwell 2, Bradshaw 2.5, Brownwood 1.5, Norton 1.5, Coleman 1.11, Maverick 1.25, Ovala 2.5, Paint Rock 2, Santa Anna 1.5, Talpa 1.5, Winters 2, Roscoe 3, Loraine 3, Snyder 3.50, Big Spring 2, Midland 2, Lamesa, Tahoka, Post, Crosbyton, Lubbock, and other points report a good rain, the heaviest in several months.

Marriage Of Miss Hunter On July 29 Is Announced

Announcement was received in Colorado early this week of the marriage on July 29 in Roswell, New Mexico of Miss Grace Hunter and Mr. Fred Moore of Lubbock.

Mrs. Moore is the youngest daughter of Mrs. J. P. Hunter of Colorado. She is a graduate of Colorado high school, and has attended Texas Tech and North Texas State Teachers' College. She is now a student in Texas Tech, where she is to receive her degree in June.

Mr. Moore is the son of Mr. and Mrs. R. H. Moore of Lubbock, and the nephew of Mr. T. R. Homsley of Colorado. He will also receive his degree next June from Tech, where he is a student assistant in the geology department.

Mr. and Mrs. Moore are making their home in Lubbock.

Chester Berry Operated On At Temple Monday

Chester C. Berry, prominent landowner of Cuthbert section, was operated on for appendicitis at the Scott & White hospital in Temple Monday morning at 10 o'clock.

N. T. Womack was advised late Tuesday afternoon that Mr. Berry was doing nicely and he is expected to be able to come home in another week, probably.

SOCIETY

MRS. J. G. MERRITT, Editor

Phone 144

would appreciate report of all social and club meetings. Reports must be phoned in not later than Wednesday afternoon each week

PHONE 144

Daughters of the King

The Daughters of the King Sunday school class met Thursday in the basement of the church, with Mrs. DuBois as hostess. The class was happy to welcome home again Mrs. G. F. Cook, who has been away for her health, and to have Mrs. Davis, a former member, with them.

Mrs. Walter King conducted the devotional, using Miss Conde's study on "Stewardship." This was a splendid lesson on giving what we have—time, love, interest, and help. Mrs. Hall led in prayer, remembering especially the family of Rev. E. E. Hightower, whose death had occurred the day before.

The president paid tribute to her officers and asked the help of the members to make the class work this year what it has been in the past.

The vice president reported a flower sent Miss E. King, who has been sick the past month. Her mother thanked the members for this.

Mrs. M. P. McColl reported that a fine could be built in the Mission church for \$17.50. It was voted to have this done at once. The gift of a stove and some coal was accepted with thanks from Mrs. Waring.

A rummage sale was planned for Saturday to pay for the fine. Some gave dollars instead of rummage. These were thankfully accepted, and committees appointed to collect the garments and do the selling.

Fifty-three visits were reported. Mrs. Garrett reported 25 in attendance at the Mission Sunday school last Sunday, with a mother who was helping as a teacher.

The treasurer collected dues and gave her yearly report, which showed that the class, while not a money-making institution, had handled a large amount of money. The monthly dues of 10 cents alone amounted to \$26.75, this being the smallest item. The next meeting is to be with Mrs. Merrell, the leader of the devotional to be Mrs. Costin.

Mrs. J. D. Wulfin closed the meeting with prayer. The hostess served a delectable plate of ice cream with two kinds of wafers.

Shakespeare Club

The Shakespeare Club met Friday at 2:30 with Mrs. A. L. Whiskey, meeting early in order that members wishing to do so might go to Roscoe to see Governor Ross a football game.

The year's dues were paid by almost everyone and several paid their dues for the County Federation for the library. The treasurer was instructed to send the State dues at once.

Mrs. Lockhart and Mrs. Gage, resignations from the club were accepted with regrets.

Mrs. Johnson gave a report of the County Federation meeting. Mrs. Strophite and Mrs. John Prater were appointed to work with Mrs. C. P. Gary in the rummage sale to be held Saturday. They asked that the members bring their garments to the club Friday.

The program on King Henry Sixth was most interesting. Mrs. Lee told why Shakespeare wrote this play.

Miss Millwee's topic was "Consider Situation in England, France and Adjoining Countries Economically, Politically and Geographically," at the date of Henry Fifth's death. She gave a very wonderful review of the condition of Europe during this period.

Mrs. J. G. Merritt gave the story of Henry Sixth written after the fashion of Lamb's Tales, this she called "Merritt's Tale of Henry the Sixth."

Each member had two pertinent questions on Shakespeare. These proved to be not only interesting but informational. The hostess and her daughter, Mrs. Price, served a delicious refreshment plate containing a stuffed apple, meat sandwich, nut bread, olives and tea.

Mrs. Winn is hostess this week.

Shower for Mrs. Fitzgerald

Friday afternoon at 5 o'clock, Miss Laura Belle Grantland entertained in honor of the bride of last week, Mrs. Fitzgerald, nee Miss Marguerite Stoneham. The house was decorated in yellow and black and carried out the Halloween idea. The walls were hung with black cats, witches and bats.

The lights were shaded with yellow pumpkins, bowls and roses of yellow cosmos nodded from every side. The guests were met at the door by Mrs. W. H. Garrett and Mrs. J. G. Merritt and presented to the receiving line in which stood Miss Grantland, Mrs. Fitzgerald, Mrs. Stoneham and Mrs. Berryhill.

Miss Rubelle Smart gave a number of beautiful piano selections. After all the guests had arrived, the lights were turned low and it was announced that a witch was coming to take the bride to her pot of gold.

The witch entered with her broom, the dining room doors opened at her magic touch, and she led the bride in to the pot, which was heaped high with golden gifts. Flames enveloped the pot, and two spooks stood guard over it, but the witch with her magic was able to bring forth the treasures it contained.

Before the gifts were opened Miss Grantland gave a very appropriate toast to the bride, Mrs. Berryhill a clever one to the groom, and Miss Leone Almond a cheering one to the girls left behind. The beautiful gifts were opened and admired. There were many useful and lovely things for the young couple who are soon to have a home of their own.

An ice with little cakes was served. The plate favors were yellow cosmos. The black witch with her broomstick proved to be Mrs. John Vaughan and the two spooks in white were Mrs. Willbanks and Miss Virginia Webb when they unmasked.

The Auxiliary to the American Legion met Saturday at the home of the incoming president, Mrs. C. C. Thompson. Mrs. C. R. Farris presided and the new secretary, Mrs. Roy Warren, took minutes.

A total of \$5.30 was reported on the entertainment at the hut; \$7.00 on the sale at the circus grounds, and \$9.10 was turned in on Christmas cards.

It was voted to send the \$22.50 at once for the purpose to sell on Armistice Day. These were made by the members in Kerrville.

The incoming president and her objective was to place markers at every World War veteran's grave in the county. She presented a plan for an entertainment to be given Halloween, and appointed an entertainment committee composed of Mrs. Farris, Mrs. Pritchett and Mrs. Merritt to further investigate this and to plan for an Armistice program. She continued the chairman of committees as last year, except that Mrs. Roscoe Dobbs took her place as Americanism chairman. It was voted to give a medal to the rural pupil writing the best essay on some phase of American history—this to be determined.

The poppy sale was planned for Saturday, November 9, sales to be held in Westbrook and Loraine as well as Colorado. The fact that the poppies are made by disabled veterans in Kerrville who get one cent for each one, makes them of more value in the eyes of the Auxiliary and the public as well. We buy them not only as a memorial to the buddies who have gone west, but because in buying them we help those who were not so fortunate as to be killed but were disabled. At the close of the business, the hostess served delicious ice-cream cake and tea. The next meeting will be at the Hut.

Faithful Workers Class

The Faithful Workers Sunday school class had a business meeting with Mrs. Spoons last Monday evening. There were six present and great plans were made for the class future. Ice cream and cake were served.

The officers of this class are Mrs. A. D. Bush, teacher; Mrs. Spoons, president; Mrs. Mary Lucky, first vice president; Mrs. W. W. Wood, second vice president; Mrs. Tom Jackson, 3rd vice president; Mrs. C. Bennett, secretary and treasurer, and Nina Coles, reporter. Ladies, come and join us; we need your help.

Club Women Invited to Big Spring
The City Federation of Big Spring has invited the members of the Federated clubs of Mitchell county to be their guests at an informal tea October 25, at 3:30 p. m. The invitation was received from Mrs. Frank Gary by Mrs. J. G. Merritt, who was asked to extend the invitation to the club women and report to Mrs. Gary how many to expect. A number will no doubt take advantage of this invitation to enjoy the hospitality of the Big Spring club women.

Simmons Scholarship Available
Mrs. J. G. Merritt, chairman of scholarship and loans, T. F. W. C., has been notified that the young lady holding the Simmons University scholarship has had to give this up because of ill health, so this very splendid scholarship is now available. Anyone wishing this can secure it by writing Mrs. Lon V. Smith, Floydada, and presenting satisfactory credentials.

Mrs. C. L. Root and Mrs. Bert Wulfin Entertain

Wednesday afternoon at 3 o'clock Mrs. C. L. Root and Mrs. Bert Wulfin entertained with a big and beautiful party. There were 23 tables—seven of 42 and sixteen of bridge. The house was very artistically adorned with Halloween decorations. Witches peeped out from every corner, owls and cats were in the doors, bats and skeletons seemed to be flying about the rooms. The tables were covered in yellow and black, and on each one were pretty little wagons with wheels made of vanilla wafers, drawn by animal cracker elephants. These were filled with candies shaped like kernels of corn. The score pads were covered with frills of yellow with the number in black and a black cat or witch on each. The tables for the 42 players were pumpkin jack-o'-lanterns backed with a witch.

At the conclusion of the games a refreshment plate of pumpkin pie topped with whipped cream, coffee, and pumpkin candies was served. The favors were Klondike cosmos.

Baptist Circles

Circle One met with Mrs. W. D. Green with nine members present. Their Bible lesson was led by Mrs. Bettan and the lesson on William Carey, the missionary, was taught by Mrs. Lucky. The next meeting is with Mrs. Lee Jones.

Circle Two had seven present. A good Bible lesson was had. They planned a bake sale and to serve pie and coffee next Saturday at Pritchett Grocery. The next meeting is in T. E. L. class room.

Circle Three met with Mrs. Russell, having seven present. They had a very interesting lesson and planned for a rummage sale Saturday.

Circle Four met with Mrs. O. B. Price, there being nine present. Several took examination on "The Christ of the Indian Road." They had a lesson about the Bible, taught by Mrs. Ashford. The next meeting will be with Mrs. Price.

Circle Five met with Mrs. A. L. Whiskey. They had a splendid lesson and then a business meeting. They meet next with Mrs. Whiskey. Each member is urged to remember that a box will be packed for Buckner Orphans' Home next Monday at the regular missionary meeting. All are requested to have articles ready.

Presbyterian Business Meeting
The Presbyterian Missionary Auxiliary met Monday in business session in the church parlors. Mrs. Peek conducted the devotional, using John 10:22-31.

It was decided to have an all-day

meeting to study the Home Mission book, "The Crowded Ways."

The Third district is to hold the district meeting of the Presbyterial in Colorado on Oct. 24, and committees were appointed and plans made for entertainment of this group. A free-will offering was taken to help get seats for a Mexican church in Barstow, and \$8.00 was given.

The meetings next Monday will be in circles.

London Bridge Honoring Mrs. Mayes

Friday evening at the Country club, Mr. and Mrs. W. L. Doss, Jr., very delightfully entertained the London Bridge with a Halloween party, honoring Mrs. Doss' sister, Mrs. Mayes of Lampasas.

The reception room was hung with black cats, witches, bats and other symbols of Halloween. Klondike cosmos and marigolds were the flowers used. The score pads, tallies and candy baskets were all Halloween figures.

The only guests besides Mrs. Mayes were Mr. and Mrs. Harris Toller.

High score prize went to Mr. and Mrs. J. B. Mills. This was a cream and sugar berry set. Low score was made by Mr. and Mrs. R. J. Wallace, who received a nice pumpkin-shaped orange squeezer. The honoree was given a novelty bud made of a pine cone.

A refreshment plate of individual pumpkin pies topped with whipped cream, and coffee was served. On each plate was a Halloween favor.

Self Culture Club

The Self Culture Club met Friday at the home of Mrs. Billingsley with every member except one present.

Mrs. C. P. Gary gave a splendid report of the County Federation meeting. The club voted to pay \$1 per member on the librarian's salary. Mrs. Gordon was elected delegate to the State meeting in Mineral Wells, and Mrs. C. P. Gary alternate. Several of the members plan to go.

Roll call was responded to with the name of a current novel. Mrs. John Williams gave a wonderful outline of "Wild Geese," and Mrs. Clarence Cook read a poem by Edgar A. Guest, "Youth."

At the social hour Halloween salad, sandwiches and tea were served. The meeting this week is with Mrs. Williams.

Home Department

The Home Department of Methodist church met Monday with Mrs. Fred Dozier's "family" at her home. The meeting was opened with prayer. Mrs. Looney thanked the members for the flowers sent Judge Looney during his illness.

The name quilt was given Grandmother Grantland, who sold it to Mrs. R. N. Gary. It was voted to drop the "capsules" during the coming year, but to continue with the "family" idea.

It was urged that the home department be added to reviving the plan, of the chairman representing the year, the year or chairman appointing 12 months, each month appointing four weeks, and each week seven days, was discussed. The sum of \$1.20 was added to the flower fund, and \$70 paid on dues.

Two kinds of sandwiches, black and angel cake, potato chips and hot tea were served. This "family" was voted especially good cooks.

Mrs. Jeff Dobbs' family has the next meeting.

Shakespeare Club

The Shakespeare club met Friday with Miss McComas. The second lesson on Henry Fifth was studied with Mrs. Brennan leader.

Mrs. Thomas R. Smith gave her second and last article on "Africa," which was very fine indeed.

A delicious two-course luncheon was served in the dining room.

Mrs. Pearson is hostess this week.

Mrs. Armstrong Entertains At Mrs. Thomas'

Mrs. Sam Armstrong entertained very delightfully Tuesday afternoon with a Halloween party at the home of Mrs. Nat Thomas. The house was artistically decorated with Klondike cosmos, Halloween symbols were used on the nut cups, score pads and tallies. There were four tables of bridge and one of 42 players. Mrs. Randle won high score in bridge and received a pretty Japanese tea set.

Mrs. Howard got low and was consoled with a pretty wall pocket. Mrs. Winn won the 42 prize in a cut. This was also a wall pocket. A delectable refreshment plate of perfection salad, cheese wafers, pumpkin pie and coffee was served.

Young Mothers Wesley Bible Class

The Young Mothers Wesley Bible class of the Methodist Sunday school met in monthly business session on Thursday last, with Mrs. Monroe Herrington. The president, Mrs. R. J. Wallace, presided. Mrs. Fred Dozier conducted the devotional.

Roll was called, with 12 present. It was voted to start two new market baskets and locate the two old ones.

A rummage sale was planned for October 26, Mrs. J. L. Pidgeon and Mrs. Aubrey Herrington in charge of this, and Mrs. Winn to find a location for the sale.

Mrs. Jim White and Mrs. Clyde

White were appointed the visiting committee for the month. Mrs. Monroe and Mrs. Aubrey Herrington on the sick committee.

Refreshments were served at the conclusion of the business session, after which adjournment was made to meet in November with Mrs. Aubrey Herrington.

Juniors Halloween Party

The Junior Missionary society of the Methodist church will have a Halloween party Friday evening from 6 to 9 o'clock, at the home of Mrs. Jack Reynolds. Every member of the organization is urged to be present.

U. D. C.

Robert E. Lee Chapter, U. D. C., met Tuesday at 3:30 with Miss Ruby McGill. The meeting was called to order by the president, Mrs. R. N. Gary. The ritual was read and the Lord's prayer repeated. Mrs. Thompson read the minutes in the absence of Mrs. Jack Smith.

The treasurer reported all bills paid and \$9.44 on hand, a number of members yet owing dues. Mrs. Terrell had reported to seventh grade about writing essays on J. E. B. Stuart, the Chapter offering a medal for the best essay. The registrar reported two certificates ordered.

The names of ten members of children of the Confederacy were read and then State dues paid by the president. The report sent to the State department of the year's work, indeed. This was very good, indeed.

Delegates to the National convention at Biloxi, Miss., in November, were elected as follows: Mrs. Mattie Merriweather, Mrs. J. G. Merritt, delegates; Mrs. Martin and Mrs. C. E. Way, alternates. The chapter endorsed Mrs. Bachinsky of Alabama as National president.

The historian had arranged for some songs. With Mrs. Terrell at the piano, Mrs. Martin sang a beautiful number, "The Southern Cross of Honor." This was a little poem about the Cross of Honor that Mrs. Terrell had found among her father's papers, and which she had set to the music of "The Old Oaken Bucket." The women were so delighted with it that it was moved to send a copy of it to both the State and National conventions, and to have copies typed for sale among the members.

Mrs. Stoneham, with Mrs. Terrell playing, sang very sweetly "Annie Laurie." Then Mrs. Martin sang "When You and I Were Young, Maggie." "Will There Be Any Stars in My Crown," and then the group joined in a number of old-time songs.

It was decided to have a sing-song at the next meeting, which will be with Mrs. Merriweather at 3 o'clock the third Tuesday in November.

Mrs. R. E. Grantland, one of the honorary members of the chapter, was present. The hostess served ice-cream cake and hot tea at the refreshment hour.

1921 Club

The 1921 Club met Friday with Mrs. Kelley. Iatan school was adopted and a report given from the Colorado home economics club which the club is sponsoring. No work will be done until the women get in from the cotton fields. It is planned to have a negro health nurse later.

Every member responded to their assigned roll call. The first lesson on the Contemporary Short Story proved very interesting. It was a "Backward Glance," the assigned readings being Canby's "The Short Story in English," and Matthews' "The Philosophy of the Short Story."

Mrs. Fee gave a very interesting paper on the origin and meaning of the short story, and Mrs. Sam Majors gave a very good paper indeed on local color in a short story.

Mrs. Dick Carter, who led the discussion, gave a wonderful outline of the home readings. Mrs. Pritchett discussed America's part in the development of the short story, and Mrs. Harrison gave England's part in both subjects. The meeting this week is with Mrs. Price.

Shower for Mrs. M. W. Barrett

Thursday afternoon at the home of Mrs. Roscoe Dobbs, she and Mrs. Floyd Jay entertained with a beautiful shower for Mrs. M. W. Barrett.

The house was decorated in Halloween colors of yellow and black, pumpkins, witches, black cats and bats being much in evidence. The guests were presented to a receiving line in which stood Mrs. Dobbs, Mrs. Barrett, Mrs. Jay and Mrs. A. L. Geer.

Miss Ethel Mae Murphy gave a clever reading and when she had finished little Armona Rogers appeared dressed as a newsboy and announced that The Record was out once more and Jewell should be rewarded for getting it out on time.

With this, she led Mrs. Barrett into the dining room, where the dining table was heaped with lovely gifts for the recent bride.

While these were being opened and admired, punch and cake were served by Mrs. W. S. Schley and Miss Frances Plaster. Favors were clever Halloween dolls.

Pastime Bridge Club

Bill Gordon entertained the Pastime Bridge club Tuesday at the home of her sister, Mrs. J. A. Ferguson. The house was decorated in Halloween figures, with vases of

roses. The tallies were Halloween symbols. A very delightful afternoon was spent and at its close a refreshment plate of Osgood pie and coffee was served, the tables being covered with yellow and black.

The next meeting will be in the evening at Mrs. Hope Herrington's, with the husbands as guests.

RADIO SERVICE MAN TO ATTEND AT WATER KENT MEET IN DALLAS

L. J. Taylor, radio service expert with the J. Riordan Co., will go to Dallas Saturday to attend a meeting of Atwater Kent radio dealers and secure instruction on operation and service of the new model Atwater Kent combination talking machine and radio. Taylor has attended several radio service schools and is considered an expert in radio service and repairing. He is frequently called to other cities to repair and adjust high-priced radio machines.

BLACKARD HARDWARE APPOINTED DEALER FOR KENNEDY "LIFE TONE"

The Blackard Hardware Company has been appointed dealer for the famous Kennedy "Life Tone" radio, termed the "Royalty of Radio." This machine is one of the many standard makes of radio and has had a very wide sale. H. A. Blackard, in speaking of the machine said: "When you hear the Life Tone of the 'Royalty of Radio' your radio search is ended and your radio enjoyment begins. You will find that elusive something that you have always missed—the true life tone of radio."

Mr. and Mrs. W. L. Homsley of Midland and Mr. and Mrs. Bill Homsley of Havana, Cuba, were the guests this week of Mr. and Mrs. T. R. Homsley.

Guy Reynolds of the Rogers community came in Wednesday and subscribed for The Record. He said he had heard so much about this paper he had to subscribe. Reynolds is a West Texan, being practically raised around Dunn and Ira. He has lived at Rogers for seven years. He is not discouraged. He made plenty of feed, he said, but cotton is short. He has branched off into the rabbit business some. His wife got interested in the rabbit business and has made a success of it. They have a batch of Chinchilla rabbits and are greatly interested in this business. They sold every rabbit raised the past spring at good prices.

Health Nurse Holds Meetings Wed.-Thursday

Two meetings were held at the court house this week by Miss Olga Burish, nurse secured from the State Department of Health, to discuss plans for her work in this county and to acquaint the parents and school representatives with the work.

Wednesday afternoon at 2 o'clock several women from various sections of the county gathered at the county court room, and Miss Burish gave demonstrations of how children are inspected, and answered questions about her work.

Dr. P. C. Coleman, county health officer and president of the county board of education which was largely instrumental in securing the nurse, talked on the importance of the work planned. He urged mothers to follow out the program of health and home hygiene recommended by the nurse. He expressed the opinion that the work to be done by the nurse here is the most important confronting the fathers and mothers of the county.

Another meeting of similar nature was held Thursday morning at 10 o'clock. Dr. J. C. Anderson, State health officer, who was in Big Spring to attend the Mid-West Texas Medical society meeting Wednesday, was present. He gave some very valuable information on the work of the department and the work of the nurse.

The State department pays the salary and expenses of Miss Burish. She will work in Mitchell county six weeks.

Miss Ruby McGill, county superintendent, said the nurse would start work with the rural schools of the county about next Tuesday. She will visit all the schools and make surveys of sanitary conditions and furnish the trustees with a report on the same. She will also make personal inspection of the children, and endeavor to get defects in health corrected. Defects in vision, hearing, teeth, and other physical troubles will be pointed out and the child sent to physician or optometrist to have the trouble corrected.

Conferences will be held with mothers and in the homes with a view of improving the health conditions and home hygiene. All of this will cost the school patrons or parents nothing unless medical attention is needed.

NO SLUMP IN DEMAND FOR OFFICE WORKERS

Will Rogers In "They Had To See Paris" At Palace

Will Rogers, the famous humorist and stage hand, will be shown in his all-talking picture at the Palace Theatre, Thursday, Friday and Saturday, October 17, 18, and 19, in that much talked of picture, "They Had To See Paris." The picture is a knock-out, a laugh producer and a scream, yet it is a good, clean picture. Of course, everybody will want to see it, and the Palace is preparing to care for unusual crowds.

Spade Spuddings

Everyone here is rejoicing over the good rain which has just fallen. Of course, cotton picking will be delayed a short while, but there is now a good season in the ground and no doubt farmers will begin breaking land right away.

The Spade school Dramatic club will meet Friday evening at 7:30. All members are urged to be present. This is one of the regular business sessions.

The box supper last Friday night went far beyond our expectations. We did not make any great sum of money, but we were well pleased with the amount. Good order prevailed throughout the selling of the boxes. There was a pretty girl's contest and Miss Mildred Faulkner received majority of votes and received the cake. Mr. Skaggs and L. H. Welch were run for best looking (?) man, and Mr. Skaggs won. We did not learn what prize he received. A general good time was had, and many expressed themselves as having more fun than ever before at a box supper. We appreciate very much those who came from other communities and helped us out. We made a total of \$47.00. Some of this amount was turned over to home economics room to help defray some expenses.

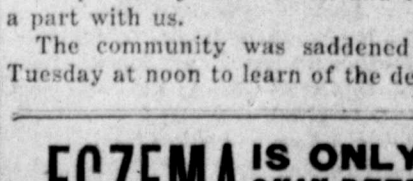

Basket balls, playground balls and bats have been ordered for the children. Some baseball equipment was purchased Saturday.

Neither Sunday school met Sunday morning, on account of rain. However the B. Y. P. U. met Sunday evening at sundown. Quite an interest is being taken in this work. We are anxious to see more enlisted in the work.

There were no church services Saturday night and Sunday morning, due to the inclemency of weather. Bro. Leach, preached Sunday night. He brought us a wonderful message on "Talents."

Next Saturday and Sunday is Bro. Leach's preaching date at this place. Everyone come out to church. The community is requested to come out to P. T. A. Thursday night of next week. There promises to be an entertaining program. The intermediate room will put on a little program. Then school problems will be discussed. We would be glad to see more parents join P. T. A. and take a part with us.

The community was saddened on Tuesday at noon to learn of the death

ECZEMA IS ONLY SKIN DEEP
and we honestly believe CRANOLENE, the Cranberry Cream, will heal any case of Eczema, or other skin trouble. Come in and let us tell you about it. Use a \$1 jar, and if you are dissatisfied your money will be refunded. COLORADO DRUG CO.

Bibby Returns From Meeting of Penney Managers

Mr. E. R. Bibby, manager of the local J. C. Penney Co. store, arrived home from a week at the Fall convention of the company, held at the Baker Hotel in Dallas, Texas.

In addition to the executives of the company, who presided at the general sessions and held individual conferences with the store managers, buyers for seven important merchandise divisions were present at the convention with full lines of merchandise. Mr. Bibby reports:

"Plans for late fall and early winter business are the most comprehensive in the history of the business," Mr. Bibby said.

"There are over 400 new J. C. Penney Co. stores in operation, bringing the total number to over 1400; many new sections of the country have been covered, and much remodeling of older stores has been done in the past several months."

"In all lines of merchandise, the showings made by the buyers revealed striking notes in style and quality. Plans for store advertising in local centers have taken into consideration the usual heavy increase in sales during the holiday periods and the necessity for keeping the advertising message of the store constantly before the buying public."

N. T. WOMACK HAS OPERATION ON NOSE

N. T. Womack went to Sweetwater Wednesday to have a specialist there perform an operation on his nose. Mr. Womack has been having some trouble with his head and nose for some time, and the trip to Sweetwater resulted in operation to drain the sinus tubes. He was able to return that afternoon and was feeling better Thursday morning.

Another old-timer who paid up this week to save his head is B. N. Carter of the oil mill force. Carter has been a subscriber for The Record for a long time and has been with the oil mill a long time. He claims he does four men's work and puts in 16 hours a day, but we got to have proof on that. Not that we doubt B. N.'s word, but that's going too strong. When he reads this he will be doing nothing and reading about nothing, and every time we have seen him he's been doing the same thing. Please turn the page.

Typewriter and Carbon paper at the Record office.

We carry a complete line of office

of Mrs. Paul Kurren. She had many relatives in the community and had been with us many times. We extend our sympathy to the bereaved ones. The body was laid to rest in the Colorado cemetery.

D. C. Russell Field Agent For Business School

D. C. Russell of Colorado has been named chief field agent for the Big Spring Commercial College of Big Spring. He has charge of all the territory in the vicinity of Big Spring including Mitchell county, and is authorized to issue scholarships good at the school for either resident or correspondence tuition.

The college gives courses in bookkeeping, shorthand, typewriting, complete business course which includes bookkeeping, filing, spelling, punctuation, accounting, commercial English, commercial law, rapid calculation, penmanship, office practice, and banking, Mr. Russell says.

Every kind of commercial course given by a reputable business college is handled by the Big Spring institution, Russell says, and a course in commercial teaching, and Crell

Management is given. This is the only school in Texas giving the latter course, he says.

Instruction in all the courses can be secured by mail or by attendance, and the scholarship is a lifetime scholarship, Mr. Russell said.

Mr. Russell is a well-known Coloradoan. He was formerly with a local wholesale house and Mrs. Russell is principal of the primary school in Colorado.

CANTRILL OFFICIATES IN ANGELO-RANGER GAME

Coach Jim Cantrill was head linesman in the San Angelo and Ranger football game at Angelo Saturday afternoon. The game ended 7 to 6 in favor of Ranger.

Coach Cantrill, a former T. C. U. star, has officiated in many high school games this season, and he is being sought every week as an official.

C. A. Wilkins, principal of Colorado high school, and Rev. A. E. Ewell went to San Angelo with Coach Cantrill and saw the game.

"MERCHANTS TO YOUR GRANDFATHERS"

PAT NEFF IS NEW CHAIRMAN OF TEXAS R. R. COMMISSION

Governor Selects Man Who
Once Named Him As
Attorney

AUSTIN, Oct. 14.—Former Governor Pat M. Neff of Waco was chosen today to succeed Clarence E. Gilmore, late chairman of the State Railroad Commission, who died Thursday.

Term Ends in 1931
Neff gained experience in railroad matters as a member of the United States board of mediation. He was appointed by President Coolidge to fill an unexpired term. President Coolidge selected him for a second term but the senate had not confirmed the appointment when President Hoover took office. The new president named former Governor O. B. Colquitt to the place.

While the railroad commission chooses its own chairman, it was considered that Neff would be given that position. His services as railroad commissioner will end in January, 1931, unless he runs for re-election next year.

Neff was governor of Texas for two terms, from January, 1921, to

January, 1925. C. V. Terrell, one of the other two members of the railroad commission, was originally a Neff appointee.

Governor Moody, who selected the Waco man for the railroad post, was appointed district attorney by Neff while the latter was the state's chief executive.

Neff had been mentioned as a likely candidate for governor next year, especially in the event Senator Earle B. Mayfield should enter the race. Mayfield opposed Neff's re-appointment to the Federal mediation board.

EARLE MAYFIELD MAY SEEK GILMORE'S PLACE

AUSTIN, Oct. 15.—Friends of Former U. S. Senator Earle B. Mayfield of Austin have made known they are attentively waiting an indication whether he will seek an election next year as successor to the late Clarence E. Gilmore on the railroad commission.

Senator Mayfield served six years on the railroad commission, as a colleague of Mr. Gilmore, leaving this office to enter the Senate.

He has been discussed as a virtually certain candidate for governor next year, but his friends insist he is keenly interested in the work of the railroad commission, his intimate knowledge gained in his previous service upon it, and that the sudden shifting of scenes by Chairman Gilmore's unexpected death may draw him into this race.

CONTRACT FOR NEW HOME LET BY DR. WHITMORE TUESDAY

Will Be English Nordic Type and
Cost \$11,500; Site Corner
Cedar and Eighth

Contract for a beautiful new home to be erected at corner of Cedar and Eighth streets, was let Tuesday by Dr. and Mrs. H. G. Whitmore. L. E. Erwin, Abilene architect and contractor, was given the contract, which calls for expenditure of \$11,500.00.

The structure is to be built on the English Nordic style of architecture of brick veneer with natural stone and stucco effects, will contain eight rooms, bath, halls, closets, etc.

The interior will be modern design with a Futuristic color harmony scheme, supplemented with art tile and other effects. Interior trim is to be of special mold design which will make the home one of the finest and most elaborate in Colorado.

Leaded glass casements, disappearing stairway, rubber tile bath floor, weather strips, etc., will help to make it one of the most modern as well as most comfortable.

A double garage with servant's quarters with concrete driveways and walks will set off the exterior appearance and make it complete.

Materials for the structure are to be furnished by the Gray Lumber Co. This company furnished building materials for the five-story Colorado Hotel, Baptist church, and other structures here.

MRS. BILL ROLAND WROTE SONG GIVEN AT LUNCHEON CLUB

A song sung at the Luncheon club Tuesday noon by Mrs. Bill Roland of Loraine as a part of the program put on by herself, Mrs. W. R. Martin and Mrs. Kirk Taylor, was written by Mrs. Roland.

The song, a clever one and charmingly rendered by Mrs. Roland, was on advertising, the theme of the program. The words of the song follow:

The orange and the grapefruit crop
In Hoover's adopted State
Had grown so large they couldn't
ship it

Out the Golden Gate.
They appealed to all the wise men
To advise them who would buy it;
They got together and evolved
The new eighteen-day diet.

The ladies all can now grow thin,
They've lost a load of cares
Since California learned how
To advertise her wares.

How many of you gentlemen
Liked olives at the start?
And did you drink your sassafras
And eat your rhubarb tart
Without your mother telling you
It was the thing you need?
And so today we're guided by
The daily ads we read.

So, if your job is rolling pills
Or baking apple pies,
They'll cultivate a taste for them
If you will advertise.

A business man in our town—
He was so very wise,
But he couldn't afford to pay for ads
So he scratched out both his eyes,
And when he came to realize
The blackness of his sin,
He went and joined the Luncheon
club
And scratched them in again.

I'd sooner live in Africa,
Where it isn't Paradise,
Than to live in Colorado
If you don't advertise.

"THEM DAYS ARE GONE FOREVER"

In the good old days of Colorado when the first automobile ever seen here was a high-wheeled chariot that couldn't pull the west hill even in low, and when a local motor enthusiast tried to promote a plank road to Snyder, were recalled to memory of old timers Wednesday when F. S. Keiper, the then motorist, dropped into town and met up with some of his former victims and former friends.

Keiper is said to have been the first man in Colorado to own an automobile. He opened a garage known as the Service Garage, in the old livery stable building which was torn down to make room for the five-story Colorado Hotel. That was back in about 1906 or 1907. He sold the E. M. F. and Flanders 20 cars. He is still known here as "EMF" Keiper and as "Flanders" Keiper.

Keiper got up a scheme to lay a plank road to Snyder on which to speed over, and Uncle Fred Whipkey says he came "darn near putting it over."

Keiper now lives in Kansas City and is in the oil business. He and associates have considerable production in West Texas. He saw many of the old-timers here and was almost dumbfounded to find the five-story hotel on the site of his former garage building.

We carry a complete line of office supplies.

OH! THE RAIN!!
Yes, it rained Saturday evening and night—nearly 4 inches. Of course, it kept everybody away from church and Sunday school the next day.

I do not dislike rainy days. I love them—I love them more and more as the years pile up.

Last Saturday night it rained. I was caught out with my car, and torrents fell from the heavens. The heavy drops danced from the pavement like a great army of tiny fairies who wished only to touch the earth but once and then die in ecstasy. I drove through the streets and a mist merely outlined the buildings on either side. Half hidden lights spotted the horizon; fast moving cars swished through the disappearing waters that scammed here and there. You could hear the song of the rubber-tired wheels as they rapidly kissed the pavement and sped on to homes, appointments, the theatre, and everywhere.

O, there's beauty to the rain. It freshens everything, including the spring in one's heart.

I like to walk in the rain. I like to feel the slap of the drops upon my cheeks. I like the contact that is aroused and the akinship to the forces of nature. Those drops! Where did they come from? Perhaps from far away lakes, rivers, or the mighty ocean itself. Perhaps some of them came from little brooks that emptied their hearts long ago far up in the mountains.

And what joy the rain brings, too! Gardens, with their multitude of flowers, smile their happiest after the rain, and all nature is so sweet and fresh the morning after, and the sun reaches so close to the earth after the rain has had its play.

The grey colorings of a rainy night with its interlacing of yellow lights from windows, street lights and moving vehicles is an inspiring sight. And the creeping lights from lighted store windows all along the extending streets add such a romantic glow while the rain is on and in full play.

I have watched the storm in the mountains when in camp, swirling and bending the stately trees—

I think I shall never see
A poem as lovely as a tree;
Poems are written by men like me,
But God alone can make a tree.

It's a wonderful sight. I have watched the rain approach from far across the great lake, and then next, its sudden run to my feet.

Meditation seems so much finer when the rain is on. The complexities of life do not seem so strange. The rainy day doesn't sadden me, as it does so many. I wish it saddened none. The raindrops scintillating in the sun are so clean and fresh. They must be made of marvelous substance, else they would not take the exquisite form they do when they fall like tiny feathers during the winter months in flakes of stars in snow.

F. B. WHIPKEY.
P. S.—The editor asked me to write about the rain. Here it is; read it or pass it up, as you like.
F. B. W.

SCHLEY TO MOVE HIS DELCO-LIGHT TO WALNUT ST. PLACE

W. B. Schley, local Delco-Light dealer, has moved his business to 256 Walnut street, between the M System and Herrington's Shoe shop. He has been occupying a building on Third street in connection with the Frigidaire agency. Only the Delco-Light business will be moved to the new location.

MENS' SHOES
A Genuine Kangaroo Shoe, think of it—for only—

\$6.85
MEN'S GOOD QUALITY WORK SHOE
\$1.69

LEGION AUXILIARY URGED ORDER POPPIES FROM SICK BUDDIES

Oran C. Hooker Post, American Legion, and the Auxiliary, have received a letter from the post commander at Legion, Texas, the veterans' hospital, urging the local post and auxiliary to order poppies immediately for sale on November 11, Armistice Day. The letter follows:

"This is a sick buddy talking to you, Mr. Texas Legionnaire!
"Last year the patients at Legion Hospital made 100,000 poppies which were distributed through the Texas Auxiliary. The men who made these poppies are non-compensated patients; in many cases the money made from this work is their sole income. Many times this is the only work their doctors permit them to do. Most times the money they earn goes to buy food for their wife and children. They need the work and the money the year 'round. So, now listen:

"Order the poppies for your post now. Don't wait until a week or ten days or even a month before you need them. These men cannot be crowded. They can only work an hour or so per day regardless of how careless you might be in delaying your order. After you order from Miss Maddox, then she, in turn, has to compile the needs for the whole State, secure the material and give us authority to proceed. This all takes time. Place your order now.

"Sell more poppies this year than ever before. Some of the posts last year put up around \$1,000 in their post treasury through poppy sales in addition to giving employment and income to sick buddies here for making them. You can do something. Order 5,000 or 10,000 poppies now. Give us time to have the sick men make them and get them to you in ample time. Don't wait for the State convention or the next meeting of the post. Get the order off now; we urge this in the name of the 150 men who need the work here and the money for their families, some of whom may be from your city or county."

EWELL PREACHES AT SAN ANGELO CHURCH; SERMON BROADCAST

Rev. A. E. Ewell preached at the First Christian church of San Angelo last Sunday morning and his sermon was broadcast over radio, by the San Angelo station.

Rev. Ewell had gone to San Angelo with R. B. Cantrill and C. A. Wilkins to attend the San Angelo

and Ranger football game, and his friends there insisted he occupy the pulpit at the First Christian church. He did not know the sermon would be broadcast until the "mike" was set before him.

Very few men can stand to be idle. Lack of work causes man to become immoral.

No man can say that he is entirely self-made. Without the encouragement and help of others we could accomplish very little.

Disease may be defined as the motor cop that holds us up for speeding on the highway of life.

YELLOW AND BLUE TO BE COLORS FOR 1930 LICENSE PLATES

Texas will not follow the three major styles of color in automobile license plates adopted by most of the other 30 states which will change their license color combinations for the year 1930. Texas motif for the next year will be blue on a yellow background, the change being from the current State style of yellow figures on a black background.

The latter style predominates in all of the states this year, but will hardly be seen over the nation after January 1.

Dorothy Gray

"TAN WITHOUT TEARS"

HOW are you going to acquire the rich natural tan that is so smart—and so becoming—without first suffering the agonies of sunburn? The answer is simple: use Dorothy Gray Sunburn Cream. Smooth this delightful creamy liquid over your skin before exposure to the sun. Then you won't burn, or blister, but will take on an even golden tan. Sunburn Cream isn't sticky, or greasy; it is quickly absorbed, leaving your skin smooth and lightly fragrant.

A bottle of Dorothy Gray Sunburn Cream costs two dollars and will ordinarily last you a whole season. You'll find it at our Toilet Goods Department.

CROSTHWAITE DRUG CO.

DR. R. E. LEE IMPROVING HOME
Dr. and Mrs. R. E. Lee are having their pretty home on Oak street remodeled on the interior, one of the features of which is hardwood flooring. A new porch and other additions were recently made to the home.

Dr. Lee has just recently moved into elegantly furnished office rooms over the W. L. Doss drug store.

Why we display this Sign

We are authorized RCA dealers and handle RCA Radiolas, Radiotrons and accessories because—

1 They are the product of a company that stands first in home reception, first in broadcasting, first in international communication, first in ocean steamship and airplane communication—first in radio.

2 RCA Radiolas and Radiotrons, our own investigation shows, provide bigger values, more dependable performance.

3 RCA Radiolas and Radiotrons are known makes of established leadership—yet they cost no more.

4 RCA Radiolas cover the price range—a set for every pocketbook—from \$82.75 up.

5 An RCA franchise is an endorsement of our own responsibility, stability and business standing.

We invite you to call and hear RCA Radiolas. The set you want is here—and you can have months to pay for it.

Jones, Russell & Company

MOTOR NOTES ABOUT AUTO AND TIRE DEALERS

A. J. Herrington of the Oakland-Pontiac agency was in Sweetwater Tuesday on business.

Mills Chevrolet Co. has sold a new Chevrolet roadster to E. C. Bassham.

Practically all automobile dealers are in the midst of a big Used Car campaign. The May Motor Co., Buick dealers; Mills Chevrolet Co., A. J. Herrington, and Toler Motor Co., Chrysler dealers, have special bargain days on Used Cars, and are making a special campaign on them.

The Colorado Motor Co., Ford dealers, have sold new cars to Ledger Smith, sedan; Lloyd Heart, roadster; J. L. Colson, pickup.

Hendrix-Woldert Co., Dodge and Plymouth dealers, sold a new Dodge six sedan to Shell Pipe Line Co. this week. This firm has nice display of Dodges and Plymouths on hand.

J. I. Lane, formerly with the Ford and later with the Oakland-Pontiac agency, has opened up an auto service and repair place of his own, having leased the service department of the Dockrey Whippet Co. Lane is a real mechanic and he is keeping busy at his new place.

Toler Motor Co., Chrysler and DeSota dealers, are showing the new DeSota. The firm is also pushing a user car sale this week.

Wes Joyce, manager Dodge agency, was in Sweetwater Monday.

The Dockrey Whippet Co. has sold a new Whippet six coupe to J. De Witt Wilks and a Whippet four sedan to J. B. Emfinger. Dockrey has several cars on hand and his place is being visited by many prospective Whippet drivers.

The auto tire business has been about the largest business in town in volume of sales the past three weeks. Hicks Rubber Co., the Lewis Rubber Co., and Ed Womack, exclusive tire stores, all report very heavy sales.

Ed Womack, General tire distributor, has been ill at his home for more than two weeks of the flu. He was able to be down town yesterday, but said he was feeling rather "done up."

Earl Hammond, Model T Ford parts dealer, who recently bought the Herrington stock, says his business has been heavy the past two weeks. His place is on Elm street, just north of Herrington's. He has received some new stocks recently and has a real parts store now.

Uncle Trav says a man will put on a lot of new clothes and say nothing about it. A woman will put on a few and talk about it for hours.

Grissom's Store Opens Big Sale Friday Morning

A big Fall and Winter Clearance Sale will open at Grissom's store Friday morning at 9 o'clock, according to a two-page ad appearing in this issue of The Record.

This store is one of a big chain of West Texas stores, which includes a large store at Abilene. The management says new fall and winter merchandise is going into the sale at greatly reduced prices and that many bargains will await customers. The Record calls attention to their big ad. Read it. It might mean a great deal to you.

W. M. Godbe of Galveston Opens Electric Shop

The Colorado Electric Co. is a new concern which opened for business a few days ago. This concern is located in East Colorado, next to the N. A. Rogers grocery, where the owner, W. M. Godbe, formerly of Galveston, purchased the property occupied.

Godbe, who is an electrical engineer, has a modern electrical shop and can handle all kinds of motor and armature rewinding, and the big jobs ordinarily sent to the big cities. He is now handling large oil field motor repair jobs which formerly went to Waco. He does all kinds of commercial wiring also.

Godbe was in the electric business in Galveston seven years and he comes here with the reputation of being one of the best electrical engineers in that section. He moved his shop from Galveston in order to get closer to the oil field trade which he is handling, and located here after having visited all the major cities of West Texas.

Local firms or individuals who have motor trouble can get quick and efficient service from this new shop which specializes on this kind of work.

J. I. Lane Now In Charge Repair Shop At Whippet Agency

J. I. Lane, for a number of years foreman of the Herrington Ford agency and later with the Herrington Oakland-Pontiac agency, has gone into business for himself, having leased the repair and service department at the Dockrey Whippet Co. Lane is an expert mechanic and will service and repair all makes of cars at his new place. Being an honest, hard-working boy, there is no doubt about his making good in business. Auto owners have confidence in him and his ability and he is getting lots of work.

The building occupied has plenty of space and Lane says he is starting off fine. He invites his friends and former patrons to drive around to the place on Third street and see him.

CITIZENS URGED TO VOTE IN CITY ELECTION

Owing to the shortness of time before the special election to name a Mayor for Colorado, many local citizens have requested The Record to urge all voters of the city to keep the date in mind and go to the polls and vote.

The special election is to be on Tuesday, October 29. It becomes the duty of all voters to cast a ballot in this election. The City of Colorado is the biggest business concern in the city, has many responsibilities and problems, and voters have a duty to perform in going to the polls and expressing an interest in the naming of their officials.

There are two good men out for mayor. It makes no difference which you are supporting it is important that a ballot be cast.

Women voters, if qualified to vote in the county, do not have to hold a city poll tax to vote in the city election. Those who have resided in Colorado for six months, and are qualified otherwise as voters, may cast their ballot in the city election because the city is not permitted to assess poll taxes against women voters.

It would be in line with duty for men and women to remind their neighbors and friends of the election and urge them to go and vote.

Bill Hollis' dog bit his mother-in-law and the old lady got mad and went home. Three of Bill's neighbors came over next day and tried to buy the dog.

Something you get for nothing what you paid for it.

Another thing about pursuing the even tenor of your way is that some pestiferous cuss is always spoiling the harmony by trying to sing bass.

ELEPHANT PAYS FOR CRIME WITH HIS LIFE

KENEDY, Oct. 16.—Chained securely to trees but rolling his little beady eyes and waving his murderous trunk in a last defiance, Black Diamond, the "killer elephant," paid with his life here Wednesday afternoon, at the hands of a firing squad, for the death Saturday of Mrs. Eva Donohue in Corsicana.

Several volleys from a machine gun were necessary before life in the nine-ton brute was snuffed out.

The death site for the monster of the forest was a peaceful wooded cow pasture on the farm of E. C. Bain, two miles south of Kennedy.

Seeming to sense that his death was near, Black Diamond refused to eat peanuts and fruit loaded with deadly poison, which circus officials had finally decided upon as the means of extermination.

Chained to three of his former elephant companions in circus performances, Black Diamond began the "death march" shortly after noon. He was taken off the circus train where he had been since arriving from Corpus Christi, led through the streets of Kennedy and then to the circus site, where he was exhibited for the last time.

The firing squad let loose the first burst of lead at 2:15 p. m. Black Diamond seemed stunned and stood still. Another round of shots and he rolled over slowly on his side but he was still alive. Another burst of bullets and then one shot into the brain and Black Diamond had reached the end of the sawdust trail.

His death warrant was signed last Sunday by John Ringling, owner of the Al G. Barnes circus. For some reason Black Diamond went mad at Corsicana last Saturday, crushed a

Rogers Closing Out Grocery To Handle Produce

N. A. Rogers announces he will close out his stock of groceries in East Colorado to devote his entire time to the poultry and produce business.

He says he is putting on a sale to sell his grocery stock at practically wholesale price, in order to close out quickly.

Rogers has been buying poultry, and dairy products for some time and will continue this business, except will enlarge his activities along that line. He will buy turkeys, chickens, eggs and cream.

WITH THE JOKESMITH

Only a Suggestion
"What are you doing that for, mother?" asked little Norman, as he saw his mother sterilizing the dishes that came from the sick room.

"Because, dear, poor daddy has germs and the germs got on the dishes. I boil the dishes and that kills the germs."

Norman turned this over in his mind for a minute or two and then inquired:

"Mother, why don't you boil daddy?"

Both Needed
The teacher was giving the primary class a talk on flowers.

"Now, children," said she, "who can tell me what makes the flowers spring from the seed?"

"God does it," said one little girl, "but fertilizer helps him."

Business Is Business
Cohen and his family sat down to dinner on Sunday. To his three little boys Cohen said:

"Now, children, which of you would want it a nickel instead of meat for your dinner?"

Each of the three decided in favor of the cash settlement, so Mrs. Cohen put the meat away. Then she brought in the pie and put it on the table.

"Now, my children," inquired Cohen, "how many of you want a nickel's worth of pie?"

A Counter Evil
"I understand, William," said the minister, "that you caught the Smith boys fishing last Sabbath. I trust you did everything in your power to discourage such evil practices."

"Oh, yes, sir," returned little Willie, "I stole their fish."

Not Increasing
Mrs. Henpeck—Everything is getting higher.

Mr. Henpeck (meekly)—Oh, I don't know, Maria. For instance, there's your opinion of you and the neighbors' opinion of both of us.

A Refund
All stories told relative to incidents that occur at the gate of the Celestian City are not veracious, but this one has the semblance of truth.

A broker who had made his mark in Wall Street sought admission at the pearly gates.

"Who are you?" said Saint Peter.

"I'm a Wall Street broker."

"What do you want?"

"I want to get in."

"What have you done that entitles you to admission?"

"Well, I saw a decrepit woman on Broadway the other day and gave her two pennies."

"Gabriel, is that on record?"

"Yes, Saint Peter, it's marked up to his credit."

"What else have you done?"

"I crossed Brooklyn Bridge the other night and met a newsboy half frozen to death and I gave him a penny."

"Gabriel, is that on record?"

"Yes, Saint Peter."

"What else have you done?"

"Well, I can't exactly recollect anything else right now."

"Gabriel," St. Peter asked, "what do you think we ought to do with this fellow?"

"Oh, just give him back his three cents and tell him to go to hell."

Sniff—I hear you took a long auto trip with Sandy MacTight. Who paid the traveling expenses?

Bones—Well, we split 50-50. I furnished gas and oil while Sandy saw to air and water.

Fencereall Smith says the world is interested more in where you are now and the direction you're going than it is in where you came from.

There are seven hundred occupations in this country by which one may make a living and the people engaged in six hundred and ninety-nine of them think they could do better in the other one.

W. W. Whipkey and family left Thursday morning to attend the State Fair in Dallas.

Mrs. Donohue, his former owner, to death and seriously injured his trainee, H. D. Pritchett.

WEST TEXAS COUNTY JUDGES ARE ORGANIZED

LUBBOCK, Oct. 16.—Organization of West Texas County Judges and Commissioners association, with Robert H. Bean, county judge of Lubbock county as president, was perfected at a meeting of officials from 16 counties here today.

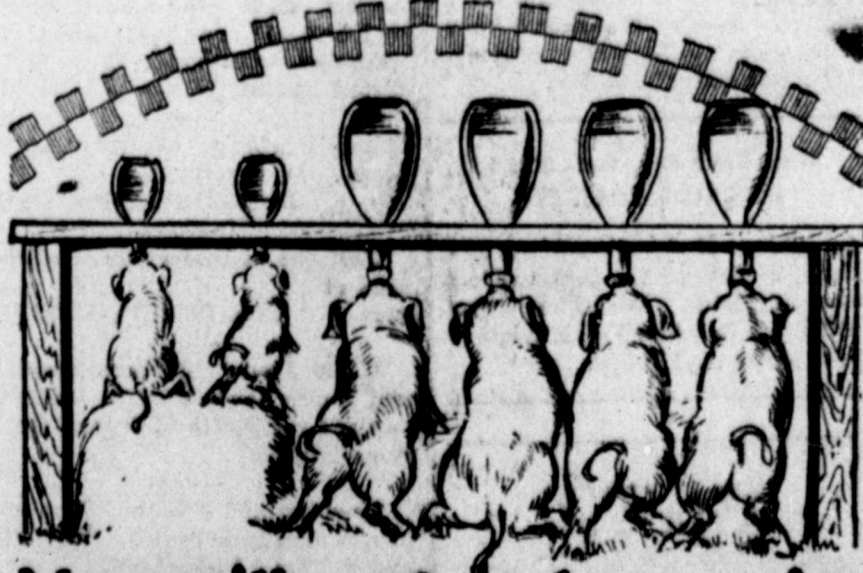

Other officers elected were Dixie Kilgore, Dawson county judge, vice president, and William McGeehee, Floyd county judge, secretary and treasurer. Plainview was selected for an adjourned meeting December 18th.

Ira School Opens Oct. 21

The Ira public school, under the efficient leadership of Supt. Elmer Taylor, will start October 21.

UNDERWOOD Portable Typewriter in handsome case. Guaranteed to do everything the big machine will do. Double-shift. Standard keyboard. See and demonstrate the machine at the Record office. Sold on credit. Whipkey Printing Co.

Furthermore, we've noticed that there are a great many more people who can read writing than there are who can write reading.

More milk makes cheaper pigs

If pigs were fed from bottles, small bottles would make runts.

That's exactly what happens if some of the sows' udders are not developed and full of milk.

Purina Pig Chow added to corn is a milk-making ration. That's why the broad sow fed on Pig Chow has big, thrifty, quick-growing pigs.

Compare the ingredients in Pig Chow with tankage. Which will give little pigs more milk and a better start?

Order Pig Chow now for best results.

SWIFT & CO. WILL BUILD BIG POULTRY PLANT AT ABILENE

Expected to Create Better Market
For Poultry and Dairy
Products

ABILENE, Oct. 15.—A produce plant, which will serve as a market for farmers throughout a large area surrounding Abilene, is to be built in Abilene in the near future by Swift & Co., H. T. Smith of Fort Worth has announced here. Mr. Smith is manager of the company's produce department in Texas.

Negotiations for the site, on T. & P. trackage at Second and Magnolia streets, were finally closed Friday. Plans for the structure are now being drawn. Construction will begin as soon as preliminaries are out of the way, Smith said.

Cream chickens, turkeys and eggs will be purchased from farmers and prepared here for shipment to nearby and eastern markets, Mr. Smith said. The new plant—one of four to be built in Texas by Swift at this time—will have facilities for feeding, at one time, about 15,000 head of poultry. Creamery machinery will be installed for manufacture of a large volume of butter and cooler facilities will be provided for refrigerating these products and eggs.

A PARADE WITH THRILLS
(From the El Paso Times)

Visitors to the coming convention of the West Texas Chamber of Commerce, as well as El Pasoans, will see a parade with thrills, the largest military parade since the World War, on the afternoon of October 25.

More than 5,000 soldiers from Ft. Bliss will take part, according to Major A. J. Surles. El Paso knows the verve and precision with which our soldiers parade. This one will be the best ever.

The fact that Fort Bliss is the largest cavalry post in the United States will give additional interest to the parade.

There is a fascination about the swinging march of the cavalry with its splendid horses. El Paso and West Texas still have the old love for good horse and skilled rider felt by all in the frontier days, not so far back.

There will be numerous military bands, as well as the best bands in West Texas. They will be one of the most inspiring features of the parade. Among the guests of honor at the parade will be Governor Moody, Dillon and Leon of Texas, New Mexico and Chihuahua. El Paso had hoped for the presence of President Hoover and President Gil, but this does not seem likely.

The thanks of El Paso are due to General Symmonds and the Fort Bliss officials for their cordial cooperation. Such a parade would have been impossible without their aid and could not be given in any other Southwestern city.

**NEW DE LUXE SEDAN
ANNOUNCED BY PLYMOUTH**

A new DeLuxe sedan with an unusually roomy body and with many new features of style, comfort and luxury is being announced this week by the Plymouth Motor Corporation. This new sedan increases the number of body styles available in Plymouth line to seven and it is priced at the remarkably low figure of \$745.00 f. o. b. Detroit.

"In building this new DeLuxe sedan we are presenting something new in motor luxury," said Wes Joyce, manager of Hendrix-Woldert Co., local dealers. "In exterior and interior style and finish and in new features of quality and luxury, it establishes new standards for a car of low price. The same Silver Dome engine and other mechanical features that have proved the Plymouth to be a remarkable car in performance are

WILLIAM FOX MOVIE TONE FOLLIES of 1929

Wednesday, Thursday,
Oct. 23-24
Palace Theatre
Admission 15 and 50c

to be found in this new body type."

Construction features provide a sturdy and attractive full-size body that comfortably seats five passengers. The body, overall, is of black, the belt moulding being an attractive dark blue with cigarette stripe. The black of the body proper is also carried out in the fenders, splash guards and the chassis sheet metal parts. Headlamps, side lamps, cowl bar, slender profile, radiator shell, and other exterior fittings are of chrome plate, adding a striking note of contrast to the black of the body.

Driving and operating controls are placed to provide the ease of control characteristic of all Plymouth cars. Full driver vision, finger-tip control and hydraulic brakes add safety.

**TRAIN AND PULLMAN
FARE TO EL PASO IS
REDUCED TO \$20.10**

The round trip fare for Pullman and passage to El Paso for the West Texas Chamber of Commerce convention has been reduced to \$20.10, according to information received by J. H. Greene, secretary of the chamber of commerce.

This will include use of the Pullman car during the three days of the convention. Pullman to and return, Greene said. The special train will leave Colorado about 11 o'clock Wednesday, October 23, and return Saturday morning, October 26, arriving in Colorado on the return trip early Sunday morning.

**VISITOR COMPLIMENTS
AGRICULTURE DEP'T**

J. C. Dykes, of the teachers' training department of A. & M. College, visited the vocational agriculture department of Colorado high school last Friday.

Mr. Dykes paid several compliments, both to the department here and to the instructor, Doyle Williams.

25TH YEAR—NUMBER 3

COLORADO, TEXAS, FRIDAY, OCTOBER 18, 1929

WHIPKEY PRINTING CO.

DEBATING TEAMS OF COLORADO HIGH FACE BUSY YEAR, COBB SAYS

Six Debates Scheduled To Take Place Next Week In Roscoe

Members of the local chapter of the National Forensic League and applicants for membership in the chapter face a busy year, according to their coach, John W. Cobb, who announced that members are to take part in six debates within the next week.

Three debating teams of boys and three of girls will go to Roscoe one day next week, according to Mr. Cobb, and there meet six corresponding teams in practice debates on the Interscholastic League debate subject for the year: "Resolved, That the Sterling plan of financing a system of highways should be adopted in Texas."

If members of the Colorado teams win their debates, they will make for themselves their first points for the year in the National Forensic League and thereby build up the number of points, which was depleted last year by the graduation of several of the strongest members of the chapter.

Among students in public speaking in Colorado high school this year are five teams of girls and one extra debater and three teams of boys.

The girls' teams are as follows: Frieda Merle Reid and Ethel Mae Murphy; Juliette Phillips and Juanice Green; LaVada Baze and Hilma Joyce; Lulu Franklin and Mary Cook; Ruth Hinds and Alice Harryman; Josephine Sullivan.

The boys' teams are: Francis Johnson and Paul Thompson; Frank Bodzin and Louis Levinson; John Franklin Elliott and Chas. Levinson.

Last year the high school had a first and second team in both boys and girls. This year there is so far no distinction between the teams. All are on equal footing, each striving to make itself known as the best

Bodine Says Self Feeders Best for Hogs

L. L. Bodine of Buford built a self-feeder for hogs last week from plans furnished by the county agent and will feed nine head of pigs a ration of ground maize balanced with a protein supplement, composed of half tankage and half cottonseed meal.

Mr. Bodine says he saw the hogs in Harry Cranfill's demonstration last summer and that he believes in using self feeders for hogs.

The feeder is built with tin flaps covering the troughs which prevents chickens from wasting the feed.

JUDGE ASSISTS ROAD PROGRAM AT INADALE

County Judge Horace Holley has been in Inadale this week arranging for stores and filling stations there to move back in order that the new routing for highway No. 7 in that vicinity may be made. Citizens in the town have expressed a willingness to cooperate in the movement, and no opposition is expected.

Re-routing of the highway from the Mitchell county line to the beginning of the surfacing near Hermleigh is expected to be made this fall. Surveys have been completed, and actual work awaits only the action of the State highway department, it is understood. The new route will cut off about a mile from the present road. State maintenance will be provided, and hard surfacing some time during 1930 is expected.—Snyder News.

by defeating more of its opponents than any other of the teams. There are several other teams among the public speaking students this year, but the ones named above are those who will meet out-of-town teams.

During the year these teams will meet opposing teams in schools within a radius of 100 miles of Colorado, Mr. Cobb states, and those who are victorious most times will represent Colorado in the Interscholastic League meet.

HIGH SCHOOL "A" HONOR ROLL HAS 15 NAMES, "B" ROLL 46

"B" Roll a New Practice To Encourage Those Nearly Making "A" Roll

Names of fifteen high school students appear on the year's first "A" honor roll, and names of 46 on the "B" honor roll, compiled from the first report cards given out this week.

Juniors lead in the number of those on the roll, having six class members on the list. Seniors come next with four class members, Sophomores next with three members, and Freshmen last, with two members.

The roll is as follows:

"A" HONOR ROLL
Seniors
Garrett, J. C. 92.75
O'Neal, Jennie Faye 92.75
Tunnell, Iris 94.5
Whitaker, Mabel 91.25

Juniors
Carter, Inez 90
Evans, Mary 93
Halbert, Imogene 91.8
Spalding, Virginia 93.5
Wynne, Preston 91.25
Milton, Geneva 92.75

Sophomores
Bodzin, Frank 93.5
Joyce, Hilma 94.25
Baze, LaVada 92.25

Freshmen
Payne, Mattie Beth 92.25
Whitaker, Mildred 92.5

"B" HONOR ROLL

The "B" honor roll is being used this year for the first time. It is meant to be a means of encouraging those students who succeed in making an average of between 85 and 90, with only one grade below 85, and that one 80 or above, but who do not quite make the "A" roll, which requires a 90 average.

The following names appear on the first "B" honor roll:

Seniors
Johnson, Mildred 85.5
Morrow, Clifton 88
Moates, A. V. 91.25
Ashford, Beulah 88
Feaster, Orin 90.5
Plaster, Fayrel 88.5
Watson, Nellie 88.5
Watson, Woodrow 87.75
Dolan, Thomas 85.5
Pond, Lois 91.5
Pond, Ruth 89
Smith, Pete 88.25
Jones, Earnestine 87
Lockhart, Herman 87.75
Hughes, Mary 88.75
Henderson, Marthale 87.25
Franklin, Lulu 90.75
Davis, Iola 88.25
Cochran, Paul 85.5
Bohanon, Woodrow 87.5

Juniors
Reid, Frieda Merle 90.5
Haines, Lester 87.5
Byrd, Ruth 88.75
Cook, Mary 89.75
Goss, T. Jay 89.75
Harryman, Alice 90.6
Haines, Nona 86.5
Looney, Blanche 89.5
Soper, Russell 90

Sophomores
Hester, Helen 87.5
Jones, Pauline 90.25
Beal, Frances Ann 88.5
Bloodworth, Ruth 88
Herrington, Nollie 87.5
Henderson, Eleanor 91
Levinson, Louis 90.8
Rogers, Velma 88.75
Rogers, Nina Lee 88.25

Freshmen
Chivers, Thelma 85.75
Jenkins, Margaret 85.5
Jones, Gladys Louise 87.25
Levinson, Charles 85.8
Martin, Princess 91
Payne, Rilla 88.5
Raifsnider, Juanita 87.75
Witten, George Otis 88.25

SCURRY FARMERS SEEK ONE VARIETY COTTON

That uniform seed cotton for Scurry county will be the greatest factor in raising the market price in this section, was the consensus of opinion of 25 business men, farmers and ginners who gathered in the Chamber of Commerce office Wednesday afternoon. The meeting was called for the purpose of considering ways and means for putting this county on a par with adjoining communities as a cotton market. President Joe Stinson of the Scurry County Chamber of Commerce presided.

It was the opinion of several that the market here is below daily quotations because 80 per cent of the cotton is less than seven-eighths staple and because of the droughty season this year, which has caused the crop to be unusually lacking in both grade and staple.—Snyder News.

Mr. and Mrs. J. A. Sadler went to the Dallas Fair Sunday.

Jews Observe Yom Kippur In Big Spring

All-day fasting and a program of worship in Big Spring Monday drew Jewish citizens of Colorado, who closed their businesses that they might better observe Yom Kippur, Day of Atonement, most sacred of all Jewish holidays.

Those attending the services from Colorado were Mr. and Mrs. L. Landau and family, Mr. and Mrs. Max Berman, Mr. and Mrs. H. I. Berman, Mrs. Sam Berman, Philip Berman, and Mr. and Mrs. Frank Bodzin and family.

Yom Kippur is regarded by all orthodox Jews as the Sabbath of Sabbath and brings to an end ten days of penitence, which begin with Rosh Hashonah, New Year's Day. Prayers and meditations, repentance and contrition are made the dominant features of the day.

LANDERS BOY IS SUCCESSFUL WITH PURE LINE MAIZE

Increase of 374 Pounds Per Acre Results When Pure Seed Planted

Leroy Adrian of the Landers 4-H Club increased the yield of maize 374 pounds per acre by using pure line maize seed. He had half an acre planted with pure seed and half an acre with just average seed and the yields of the two plots were 887 pounds and 700 pounds, respectively, which gives an increase of 187 pounds, or 374 pounds per acre.

In only two cases has the pure line seed failed to increase maize yields over ordinary seed and in both of these demonstrations the crop was practically burned up by dry weather.

W. A. HALLMAN PROVES TWO ROW SKIP ONE IS BEST PLAN FOR MAIZE

Yield of Two Rows Practically Double That of Three Rows Planted Solid

Two-row skip one maize practically doubled the yield of solid-row maize in a demonstration carried on by W. A. Hallman this year. Three rows of maize planted solid made three-fourths slides full, while two rows of skip-row maize made 1½ slides full. The slide holds approximately 350 pounds, so at this rate the solid maize would produce 525 pounds on two rows and the solid row 262 pounds on three rows.

WOLVES GO DOWN IN DEFEAT 15 TO 0 IN ROSCOE GAME

Tall Plowboys Block Three Punks To Win; Wolves May Me Out Of the Race

Gloom was written all over the faces of the Wolves and fans when they returned from the Roscoe-Colorado game at Roscoe last Friday afternoon.

The Roscoe Plowboys blocked three punts for a 15 to 0 victory over the Wolves, and unless Snyder defeats Roscoe, Colorado is out of the running so far as the championship of the west section of District 8, class B football is concerned. In the event Snyder defeats Roscoe, and then Colorado defeats Snyder, the Wolves might still be in the race.

The Roscoe game was unbelievable. The Plowboys had nothing on the Wolves when it came to real football, but a big tall Plowboy reached up and blocked three punts near the Colorado goal line and stacked up the score.

The Wolves equalled up the points in first downs, but several fumbles and the attempted punts too near the goal line with not enough speed in booting the pigskin cost them the game.

The right end runs so successful for the Wolves in the Merkel game struck a stone wall in the Roscoe play. The Plowboys concentrated on the right end and stopped P. J. Burns so many times that he was almost exhausted. The Wolves failed to launch an aerial attack in the last half, but attempted to fight through to Roscoe's goal line, but a fumble on the 13-yard line lost the ball and shut out the Wolves for good. When the final pop of the gun came, the two teams were fighting back and forth in the center of the field with the Wolves pouring charge after charge into the farmers with little result. The Wolves were worn to a frazzle and the farmers were ready to take out when time was called, but the Colorado fans all wore long faces and remarked: "They couldn't do that; they didn't have a thing."

HUTCHINSON ENTERS MAYOR'S RACE UPON DEMAND OF VOTERS

Solicited By Many Substantial Citizens to Offer for Election

H. L. Hutchinson, owner of the hardware and furniture store which bears his name, upon solicitation from many Colorado citizens, has entered the race for Mayor of Colorado to succeed Thos. J. Coffey, resigned.

Friends and acquaintances who have strong faith in Hutchinson's business ability, solicited him to offer for mayor and these solicitors became so insistent he has finally consented to enter the race.

H. L. Hutchinson has lived in Colorado more than a quarter of a century and is known by nearly every citizen of Colorado. He has been a most successful business man, having survived all the hard drouth years of the earlier days in Colorado, and today is considered one of the most substantial citizens of the city. His business judgment and ability have not been questioned.

Supporters of the hardware merchant say affairs of the city should have a strong business man at the head, and that in electing H. L. Hutchinson as mayor the people would have the services of a most capable and level-headed business man.

Hutchinson was for ten years president of the Colorado Independent school board and during that time advancement of the schools was indeed very gratifying. He served loyally and efficiently in this capacity. He has always taken deep interest in school affairs and in general advancement of the community.

The corporation of Colorado has become the largest business in the city. It has grown until thousands and thousands of dollars are expended each month, and many of the business men and others feel that Hutchinson should be elected because of his experience in handling big business. His honesty and integrity, well known to everyone who is acquainted with him, makes him the logical candidate, his friends and supporters contend.

When interviewed on Wednesday morning, Hutchinson said: "If I am elected mayor, I will put whatever time necessary into the work and will do my very best to conduct the duties to the satisfaction of all concerned."

Of course everyone knows Hutchinson will do his best. He is a conscientious worker, and his honesty and sincerity of purpose is not even questioned. His supporters say if he does his best—which he will do—Colorado will have a good mayor, if he is elected.

Williams Auto Supply Co. May Open Store Here

The Williams Auto Supply Co., chain tire and accessory firm with headquarters in Lubbock, may open a store in Colorado in the near future, according to F. V. Williams, president, who was in Colorado Tuesday.

The firm operates stores at Lubbock, Midland, Big Spring, San Angelo, and other West Texas towns. Mr. Williams said Tuesday if he could secure a suitable location he would open a store in Colorado.

He praised Colorado and expressed the belief that this city is one of the most substantial in West Texas.

FINE PRODUCTION RECORD BACK OF GALEY'S JERSEYS

Dam of Herd Bull Is Making Test Record of Two Pounds Butter Per Day

Judging by the record being made by "Combinations Fair Kitty," the dam of I. K. Galey's registered Jersey bull, Mitchell county has some Jerseys with production behind them equal to anything in the State.

This cow, "Combination's Fair Kitty," will in all probability make a Gold Medal when she completes her Register of Merit test this fall. In August, the seventh month of the test, she produced 81 pounds of butterfat and 1366 pounds of milk. She has already produced 565 pounds of butterfat in seven months and has 57 days left to make the 610 pound mark for a Gold Medal. Kitty is now producing 2 pounds of butterfat per day and is expected to make 650 to 675 pounds of butterfat in the 303 days of the test.

Mr. and Mrs. A. L. Whipkey left Tuesday for Dallas, where they will enjoy the Fair and a visit with their son, Stansel.

Misses Nelle Harper Greene and Lucille Ashford of Simmons University, Abilene, spent the week-end at home.

How shall we wash it

This man knows the one best way to launder each color and fabric

IN our Wash Room, experts are trained to recognize instantly the various kinds of fabrics, and to determine the washing process best suited to each particular piece. Colors that are suspected of not being fast are washed separately. Silks, woolsens, etc., are routed through for special handling. Because we have made a business of wash-day, clothes washed our way are cleaner and last longer.

AIR TRAVEL COST
NOW APPROACHING
RAILROAD LEVEL

Oakland-Pontiac Dealer Makes Tour
Of 5,600 Miles at Only
\$0.1075 Mile

The expense of travel by commercial plane is being reduced to a point where it soon will match the cost per mile of individual railroad transportation, it is declared by S. H. Adler, president of S. H. Adler, Inc., Oakland-Pontiac dealer at Monroe, La., who recently visited the Oakland Motor Car company at Pontiac, Mich., during an air journey of 5,600 miles.

Mr. Adler's "air fare" for the entire trip totaled \$602, or ten and three-quarter cents per mile. This compares with an average cost of between three and four cents per mile for travel by rail.

Mr. Adler's route took him from Monroe, La., to Dallas, Oklahoma City, Kansas City, Chicago, Columbus, Philadelphia, Washington, New York. Then he hopped to Pittsburgh to attend the wedding of a niece and thence to Detroit and Pontiac where he conferred with Oakland factory executives. He flew home by a more direct route. The entire air tour involved 52.5 flying hours. On all the stages of his journey Mr. Adler used regularly scheduled air services, except on the short hop from Detroit to Pontiac which he made in a specially chartered plane.

"The airplane will supplement but never replace the railroad and automobile," said Mr. Adler. "The airplane will find an increasing use as the fastest and most convenient mode of travel on long trips."

Lost

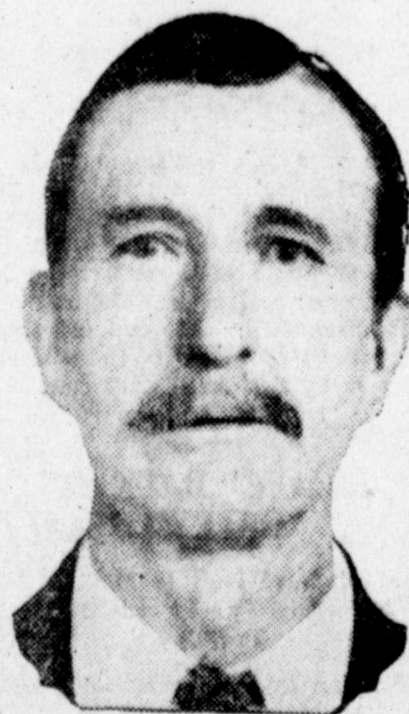

"For de goodness sake," exclaimed an old darkey as he shuffled along in a department store, "I can't find nothin' at all."

"Are you looking for something in men's clothing?" asked the polite floorwalker.

"No sir, boss. I ain't," explained the old man. "I'se lookin' for sumthin' in wimmen's clothing; I'se lost my wife somear's in dis place."

HE WANTS TO TELL ALL
HIS FRIENDS OF SARGON

"I've seen Dallas grow from a small town to a great city and I have many friends in Texas. I want them all to know about Sargon, and what it did for me."

Wm. D. VAUGHN

"My stomach was out of order for a long time. Although I ate very little, I was often in misery after meals and smothering spells would frequently wake me at night. I was constipated, my blood was thin and my color was as yellow as gold. I had severe pains in my back and sides and my kidneys would get me up all during the night."

"Since taking Sargon, I'm in better health than for years. I eat like a hungry schoolboy and can digest anything. There's not a pain in my body and I sleep good at night. Sargon Pills toned up my liver and ended my constipation. Now my skin has a good healthy color and I feel like a new man." Wm. D. Vaughn, 1910 S. Akard St., Dallas.

Fox Movietone
Follies Shows
Array of Youth

The William Fox Movietone Follies of 1929, first Follies of the talking pictures, is to have its local premiere at the Palace Theatre Oct. 23-24, and it is safe to say that it is awaited with more interest by moviegoers than any of the other audible productions shown so far, because of its unusual nature.

The scope of the films in recording action and voices being so much greater than that of the legitimate stage, the Fox Movietone Follies is expected to provide totally new precedent for entertainments of its nature. Pre-viewers say without reservation that for size, speed and other qualities it far exceeds the limitations of stage technique.

Nine young screen and stage favorites head the list of principals and serve not only to interpret characters in the story, which concerns backstage life, but lead the many singing and dancing numbers. They are Sue Carol, Lola Lane, Sharon Lynn, John Breeden, Dixie Lee, David Percy, David Rollins, Frank Richardson and Stepin Fetchit.

Miss Carol often has portrayed the role of jazz mad flapper on the screen. When the talkies came along she was not found wanting, for she has a fetching voice and can dance as well as the most talented Broadway "hooper." Her chief specialty in the Fox Movietone Follies is "The Breakaway," a new song-and-dance number of distinct originality.

Miss Lane was the girl in the Fox Movietone all-talking feature, entitled "SpeakEasy." She came to the pictures from Broadway, where she was in Greenwich Village Follies and later was George Jessel's leading lady in "The War Song." She sings the "Big City Blues" in the Follies.

Miss Lynn was in the Fox Films, "None But the Brave," and "Red Wine," and in the talkie "SpeakEasy." She has a highly pleasing voice and plays the piano well, having composed several pieces for that instrument. Her main number in the Follies is "That's You Baby."

CROP ROTATION AND
TERRACING DOUBLES
YIELD ON 40 ACRES

D. P. Smith Plants Maize and Peas
On Tract and Gets Much
Better Crop

By terracing and following a definite system of rotating crops, D. P. Smith of Longfellow community, has made a forty-acre field produce as much cotton in three years as it formerly produced in six years.

Until six years ago, this piece of land has been planted to cotton year in and year out and had never made over ten bales. Six years ago it was terraced and the first year it made eighteen bales. The next year it was planted in maize with cowpeas in every other row. The following year it made 20 bales. The next year it was in feed and peas again and last year it again made 20 bales, making a total of 58 bales of cotton and three good crops of feed in six years.

Under the old system, the former owner worked six years to make the same amount of cotton on the forty acres and lost the profit from the three feed crops.

CHEVROLET LEADS

Chevrolet test cars at General Motors Proving Ground have already been driven upwards of five million miles, according to James M. Crawford, chief engineer of the company, who declared last week that use of this vast outdoor laboratory has been one of the principal reasons for Chevrolet's consistent success.

"An average of 12 test cars are in constant operation, plying up steep inclines, plowing through sand, mud and snow, driving into the teeth of heavy winds, testing speed and endurance of the track and subjecting themselves to every known performance trial," he said. These cars are not retired until they have been driven between 30,000 and 50,000 miles.

"After an experimental model attains this mileage it goes to the experimental laboratory to be dismantled. Every part is inspected, all evidences of wear noted. If a detail is not as it should be, work starts immediately developing a new part or process to replace the old."

"The new feature is then built in an entirely new car or three new cars if the operation is vital and this in turn is subjected to the Proving Ground tests. This cycle continues until we have complete satisfaction. In the case of the new six, 100 different experimental models were tested over a period of four years."

Faithful Chameleon

The business men were talking over their employees.

"Well, old Johnson has grown gray-haired in my service."

"Pooh. I've a girl with me who has grown yellow, brown and red-haired in my service."

COLORADOANS ATTEND
CHARTER NIGHT MEET
SWEETWATER LIONS

Charter Presented to Recently Organized Club; Randle Speaks

Thirteen Coloradoans attended the charter night banquet of the Sweetwater Lions club at the Wright hotel Tuesday night, at which charter for the new Sweetwater club was presented.

Those from Colorado were Mr. and Mrs. J. H. Greene, Rev. and Mrs. W. C. Ashford, J. H. Smoot, Col. C. M. Adams, Bob Stubblefield, Ralph Lee, C. C. Thompson, R. A. May, Rawlins Clark, A. L. McSpaddin and J. W. Randle.

J. W. Randle, president of the Colorado Lions club, and J. H. Greene were members of the Colorado delegation who spoke.

District Governor T. N. Carswell of Abilene presented the charter to John M. Hendrix, president of the Sweetwater club. C. M. Anderson was toastmaster at the banquet. V. Earl Eap gave the welcome address, M. B. Norwood of the Roseco club responded, and Rev. Pary Smith of Sweetwater talked on Lionism.

Officers of the Sweetwater club are: President, John M. Hendrix; vice president, V. Earl Eap; second vice president, Gary L. Smith; third vice president, Charles W. Lewis; secretary-treasurer, C. S. Boyles, Jr.; lion tamer, Guy E. Morris; tail twister, John T. Thomson.

SENDS PAPER TO GRANDSON

Mrs. L. L. Franks came in this week and paid for The Record to be sent to her grandson, Jack Hale, who is attending State University. She says Jack is almost lost down at Austin without The Record. We are glad to send the paper to him. He is making good at State. This is his third year in the University, which he entered after graduating from Colorado high school.

AL G. BARNES CIRCUS ELEPHANT KILLS WOMAN AT CORSICANA SATURDAY

A bull elephant of the Al G. Barnes circus became enraged Saturday while the circus was unloading at Corsicana and seized and killed Mrs. Eva Donohoe of Kerns, Texas.

The elephant was the second largest owned by the Barnes circus, which showed in Colorado October 5. The largest animal was kept chained while here, but the one which killed Mrs. Donohoe was not chained.

H. D. Pickett, employed by Mrs. Donohoe on her farm, who had been with her when she owned a small show which included the elephant, had charge of the animal when it became enraged. It was said the animal might have remembered previous treatment at the hands of the former owner and trainer and when he came to a street corner where Mrs. Donohoe was standing between two cars, he tossed picket aside and grabbed her to the ground and attempted to stamp her body. The car behind which she was standing was wrecked, Pickett's arm was broken and he was injured otherwise, while several other persons who attempted to stop the elephant were tossed aside. One man came near losing his life when the animal wound his snout around the man's neck and hoisted him in the air and tossed him to one side.

Killer to Meet Death in Quiet Spot
 BAY CITY, Texas, Oct. 14.—Black Diamond, the killer elephant, lay trussed in his death cell today, his little eyes aglow with a jungle lust to kill and his heavy chains a clanking badge of shame, while his owners, the operators of a circus, already ordered to take his life, deliberated on the method they would use to carry out the death mandate.

Sometime tomorrow or the next day, while the circus is pushing along toward its next stand, Black Diamond, who Saturday dashed Mrs. Eva Donohoe, 52, to death and seriously injured his former trainer, either will be shot or strangled by his own kind. It first was planned to execute the nine-ton slayer today, but circus officials later decided the attempt might endanger life in town and would have to be postponed until some thinly settled countryside could be reached.

If in pursuance of a strange variant of the Mosaic laws—a life for a life—the method of strangulation is used, three of Black Diamond's elephantine companions will be hitched to one end of a huge chain and three to the other, Black Diamond's neck caught in a lethal slipknot in the center. The powerful lunges of the lumbering executioners would put an end to the killer quickly.

Should rifles be employed the job will have even less fanfare. Tent men simply will "let him have it" in a vital spot, dig a great grave and push the hulk in with levers.

Black Diamond's crime occurred Saturday at Corsicana. For some reason he became stirred with rage, dashed out of his quarters, wrapped Mrs. Donohoe in his great trunk and smashed out her life. Then he turned on his ex-master, H. D. Pickett, 38, tossing him, broken, nearly 30 feet

Never gives a pasty or flaky look! Will not irritate or clog the pores! Its youthful bloom stays on longer. Remember the name—MELLO-GLO. Adv.

WOMAN DRIVES CHRYSLER 3067 MILES IN FIVE DAYS

The old idea of a woman's place being anywhere except behind the steering wheel is fast becoming a myth. Her accomplishments in the last decade, over land and sea, by airplane, speedboat, and motor car, have revised all previous conceptions of feminine capabilities.

That transcontinental trips by automobile no longer hold terror for the modern woman driver is seen by a letter recently received by J. W. Frazer, general sales manager for the Chrysler Corporation at Detroit, from Miss Jessie McCauley, at Vallejo, Calif., who covered the 3,067 miles from the Chrysler factory at Detroit to San Francisco, in five days and 13 hours, an average of approximately 600 miles a day, in a new Chrysler coupe.

The drive was an unusually severe test—even for a man driver. Leaving Detroit in a car that had not been broken in, she made the first lap of 624 miles from Detroit to St. Louis in 19 hours, driving in the early morning, through heavy traffic, fog and detours made necessary by big floods. During the next day's driving, congested roads reduced the total to 441 miles, and the third day brought her to Trinidad, Colorado, and Raton Pass with 550 additional miles on the speedometer. Passing through the desert and Santa Fe she stopped the following day at Bakersfield, Calif., with a total mileage for

the day of 603. On the fifth and last lap, Miss McCauley made the cut across the Mojave Desert in a sandstorm so fierce her speed was less than 30 miles an hour for hours on end. She arrived, however, at San Francisco, 849 miles from the starting point for the day, and five and a half days from Detroit. In her letter she said she made the entire trip without breaking the speed laws in any State from Michigan to California. Miss McCauley's trip is the more remarkable when it is taken into consideration that she is only 5 feet 1½ inches tall and weighs but 105 pounds. Her introduction to the automobile came 14 years ago when she experienced a severe illness and being unable to walk, took to driving. Since then she has covered approx-

imately 200,000 miles at the wheels of 38 different cars.

"The Chrysler performed perfectly," was her only comment about the trip. "I should like to do it over again."

GUS BERTNER PRAISES CHAMBER OF COMMERCE

Gus Bertner, one-time resident of Colorado and New York Life Insurance agent of Little Rock, Arkansas, who is an enthusiastic reader of The Colorado Record, writes:

"Mr. H. L. Baker was right in commending the chamber of commerce for its work, and subscribing to its membership."

In a letter to Mr. J. H. Smoot, his agent in Colorado, Mr. Bertner says: "You are authorized to pay my

dues to the Chamber for one year now and continue to pay each year for me." Mr. Bertner says every other property owner in the county should appreciate the Chamber and show that appreciation by joining, as he is doing. Mr. Bertner owns business property in the city of Colorado, also some property in the county. Gus, as he is familiarly called by his best friends, is one of the most prosperous insurance men in the South-

land. While visiting in Colorado early this year, Mr. Bertner stated that he is still reading the Colorado Record, and that it is the best weekly newspaper in the west.

"I can't seem to get these dishes clean, mother." "You could, dear, if you tried more soap and a little elbow grease." "I've tried the soap, but I didn't see any of the other."

**Now Make
ELECTRIC ENERGY
Cheaper Than Ever Before**

NEVER before in the history of this community has electric energy been so cheap as it is today. The new domestic electric service rate of the Texas Electric Service Company with the 7 and 5 cent steps for energy used, makes it possible for you to use double the amount of electricity which you used at our former rate at only a small increase in your monthly bill.

That means better lighting for your home. It means that you can now do all those things electrically which you have long wanted to do but which you have kept from doing because of the

cost. It is cheap to do things electrically today.

How often have you wished for the time to do new and interesting things, to have more time with your family, more time for relaxation and enjoyment. 7 and 5, the Economy Twins, will bring that time to you. They will do your work in less time and with very little effort on your part, so that when your work is done you will have the strength and energy to enjoy your leisure hours. Check up on electric service in your home and let 7 and 5 work for you.

Probable Closing Down Of Salt Works Concerned Folks Here on September, 17, 1892

The probability of closing down the salt works here evidently concerned Colorado folks greatly in 1892, for a whole column of the front page of the Colorado Weekly Clipper for September 17, 1892, was devoted to this subject.

"President Marshall of the Texas Salt Works, at Colorado City," the article read, "is not a delegate but a Republican and is all around with the delegates. He said in talking with them yesterday that the Colorado City Salt Works would not shut down, Governor Hogg to the contrary notwithstanding; that the railway rates were all right, for the companies had to make new rates and use the old ones as a basis on which to work, and the proper adjustment of rates would come soon. Anyway, he said, while it might be that Governor Hogg knew more about the salt company's business than the president, it was very certain that the president could control the business to that extent."

Political discussions, literary gems of sarcasm and irony, largely filled the pages of the Clipper for this particular date. One article stated:

"Colorado is suffering from an acute attack of politics, and the condition of the patient is becoming alarming. While it is but natural for men to have their preference, it is unnatural for live and progressive citizens to lose sight of the progress and development of their home and talk nothing but politics from one end of the week to the other. More business and less politics is what Colorado needs just at the present."

"The election of Hogg will contribute not one cent to the development of the great Colorado country, and the election of Clark will not advance the interests of Colorado one iota. These gentlemen are both politicians and each is seeking to be made governor of the great State of

Texas. The Clipper supports Hogg because we believe him to be the regular nominee of the Democratic party. . . . Hogg and Clark are candidates for governor. Colorado is a candidate for the enviable but attainable position of the leading city of West Texas."

Citizens of Colorado at that date, according to The Clipper, were just awakened to the fact that the road question was the "biggest problem staring them in the face."

"There is not a town in Western Texas," asserted The Clipper, "that is more sadly afflicted with bad roads than Colorado, nor a county more in need of better roads than Mitchell."

"With about \$15,000 worth of road and bridge bonds illegally invested in the courthouse, the outlook for future road building is a gloomy one. The present road and bridge tax cannot be used for the purpose for which it is collected until the annual interest on those courthouse bonds is paid, and its payment knocks such a gaping hole in the slender revenue that but little is left for road and bridge purposes."

The following local notes appeared in the Clipper:

"Mrs. J. W. Ayers of Dallas has been visiting Mrs. D. C. Byrne for the past week."

"Sam Main has returned to the city, after an absence of several months."

"A little weed cutting on some of the principal streets would add materially to the appearance of the city."

"Mrs. A. C. Spear has been quite sick for several days."

"N. Lapowski spent Sunday in Abilene."

"Y. H. Frost returned from a trip to Chicago Sunday evening."

"The gutters on Second street have received attention this week and have been cleaned out and put in good condition. Now, the street and alley committee should have each side of the street from Lone Wolf bridge westward ditched, and the great pile of cinders at the ice factory might be hauled and thrown on the land to a good advantage."

"The first bale of new cotton arrived in the city Saturday. It was raised by Mr. Dorn, of this county, and was purchased by the enterprising firm of Sig Simon & Bro. at 6 1/2 cents per pound. A premium of \$9 was made up and paid to Mr. Dorn."

"R. O. Pearson, who has been a member of the typographical force for a number of years, departed on Tuesday morning for Lake Charles, La., where he has accepted a position on the American."

Scurry Co. Had Ginned 6,963 Bales to Thurs.

Scurry county gins had ginned 6,963 bales up to Thursday morning of last week, reports the Times-Signal. Snyder had ginned 3,436, Hermleigh 870, Inadale 606, China Grove 601, Ira 513, Dunn 512, Fluvanna 216, and Camp Springs 211.

2,250 Bales at Slaton
SLATON.—Gins here had ginned 2,250 bales at noon Saturday.

MERKEL—Cotton receipts for the week to noon Thursday were 735 bales, bringing the total for the season to 3,860 bales ginned in Merkel.

Winters Ginnings Heavy
The Winters Enterprise reports 8,995 bales ginned at Winters up to last Thursday noon.

Rotan Ginnings
Rotan gins had handled 3248 bales up to last Thursday, the Advance reports.

1,708 Bales at Tahoka
TAHOKA.—Tahoka gins had handled 1,708 bales to Thursday noon. Picking has now become general.

2,130,065 BALES GINNED IN STATE PRIOR TO OCT. 1

Figures Below Last Year: West Texas Ahead Last Year's Figures

Cotton ginned in Texas prior to October 1 this year totaled 2,130,065 bales, compared to 2,430,885 bales on same date last year, according to figures issued by the bureau of the census, Department of Commerce of the Federal government.

Practically all West Texas counties show an increase of figures for same date last year, caused by the crop being about 30 days earlier this year. Dry weather caused the crop to mature much earlier this year.

Nueces county leads with 117,850 and San Patricio county is second with 75,224 bales. Figures for ten leading counties are:

County	1929	1928
Nueces	117,850	73,251
San Patricio	75,224	56,162
McLennan	65,494	51,219
Navarro	62,712	51,400
Williamson	62,418	60,626
Ellis	60,882	55,192
Hill	56,456	44,293
Hidalgo	52,081	40,574
Collin	46,513	32,293
Falls	45,311	42,712

West Texas counties in the vicinity of Mitchell are:

Coke	2,969	1,177
Dawson	3,673	307
Eastland	2,883	2,351
Erath	6,129	4,769
Fisher	4,413	1,546
Garza	1,358	50
Howard	2,932	830
Jones	8,420	3,422
Kent	1,161	383
Lamb	858	12
Lubbock	7,135	119
Lynn	3,279	103
Martin	1,530	233
MITCHELL	6,437	941
Nolan	3,712	499
Scurry	3,744	303
Taylor	10,677	2,886
Tom Green	3,688	1,892

WARNS MOTOR INDUSTRY AGAINST OVERPRODUCTION

L. A. Miller Says Automobile Industry Faces Serious Problem in Near Future

TOLEDO, Ohio, Oct. 8.—Annual boosting of production schedules on the part of automobile manufacturers has resulted in the entire industry being faced with a serious problem, which not only threatens the welfare of the automobile dealer, but if a halt is not called, may affect the entire business and economic structure of the industry. This was the substance of a statement made by L. A. Miller, president of the Willys-Overland Company, here today.

"The industry is faced with a serious problem," said Mr. Miller. "Year after year motor car manufacturers have set their production schedules at higher figures. The company that produced 200,000 cars last year had set its mark at 250,000 for the current year. If last year's sales totaled 350,000, the goal for this year was set at 400,000, and so on. The ability of the public to absorb an indefinitely increasing number of cars is constantly overestimated. As a result, from the first month of this year, we have seen automobile plants running at record production. Dealers have had cars shipped to them in excess of the purchasing power of their communities, creating a problem of meeting loans from banks and finance companies. Long trades, with the selling of cars at net loss to the dealer, is the result. And dealers find that while they have done an increased volume of business, their profits have dwindled or losses have been sustained. The used-car problem of today is the direct result of

this policy of over-building on the part of manufacturers.

"And," continued Mr. Miller, "this has been done on the theory that increased volume meant decreased cost. Up to a certain point this is correct, insofar as manufacturing economies are concerned. But the theory fails when the volume is not maintained. Sales forces are expanded, plants equipped and tooled and materials bought to carry out these increased production schedules. In the closing months of the year, manufacturers usually find the market unable to absorb the number of cars they intend to build. Output is curtailed, with the result that at the end of the year a considerable lesser number of units have been actually built on which the average overhead expense has taken a decided upward trend and materially affected the producer's profit per car for the year."

That Willys-Overland, with the dealers' interest in mind, intends to be the first big producer to apply corrective measures and to adopt a policy which, he predicted, would become the practice of the industry, was the assertion of the Willys-Overland president.

"This year we will produce in the neighborhood of 300,000 cars. We do not plan to increase this total next year. We believe it is the conservative number of cars our dealers can move without the need of forced selling, unprofitable trades, excessive used car stocks, and with turnover in their capital to assure a sound return on their investment at the end of the year. We will keep our productive capacity absolutely flexible, so that as dealer outlets increase, and resulting increased retail demand warrant expanding our output, we can do it promptly and efficiently. We are confident that the result will be a large increase in our own profits. With this policy, each new car sale will net our dealers a substantial profit. They will be able to keep used car stocks at a minimum and turning over regularly, and their net for the year will be substantial."

ELECTION OF DR. COLEMAN AS SYNOD MODERATOR ONE GREAT ACHIEVEMENTS OF USEFUL LIFE

Dr. P. C. Coleman, who was elected moderator of the Synod of Texas, Presbyterian church, U. S., in the annual convention of that body at Tyler last week, enters on his service in this office as one of the culminating achievements of a long career of usefulness in his chosen medical profession, his life as a citizen of his home town and State, and his work in the Presbyterian church.

Since 1883, when he settled in Mitchell county as a young doctor, he has covered a territory within a

radius of 200 miles, first on horseback, later in a buggy, and now by automobile. He has assisted in bringing into the world a great majority of those who live in this part of the country. He has been a healer not only in body but in spirit, the kind of a physician who has made the phrase of "family doctor" revered and respected.

Now that he is past the usual span of life of three-score years and ten (he won't tell how much), he is still a virile man, able yet to get intense

joy out of following the hounds on a wolf hunt all night. He is said to be one of the most enthusiastic wolf hunters in Texas.

Perhaps a few words about the life history of this man would not be amiss here. Dr. Coleman was born in Rutherford county, Tennessee, and was educated in the University of Louisville, Ky., coming to Texas soon after graduation. In 1896 he was elected without opposition to the presidency of the Texas State Medical association and has served continually on State medical boards since that time. He is now chairman of the State board of counselors of the State Medical association. For over forty-six years he has been resident surgeon for the Texas & Pacific railroad. During the war he was a member of the exemption board of Mitchell county.

Since his arrival in Mitchell county, Dr. Coleman has been actively connected with the educational interests, serving on both city and county educational boards. For over 20 years he has been a member of the board of directors of Austin College, Sherman. During the seven years' campaign for the creation of Texas Technological College he served as chairman of all committees that brought about the passage of the bill which created the college. He is known as the "Father of Texas Tech."

When the Colorado Chamber of Commerce was organized nearly 20 years ago, Dr. Coleman was chosen its first president, and has been elected to succeed himself each year since. He is a director of the Colorado National Bank. He has been connected with the West Texas Chamber of Commerce since its organization, having served continuously as vice president.

A practical farmer himself and a large landowner he has been a strong advocate of diversified farming. He has also advocated terracing both farm and pasture lands to conserve the moisture and advocated crop rotation, scientific farming, and business methods on the farm. He is a firm believer in farm home ownership.

In being elected to the office of moderator in the Texas Synod, Dr. Coleman enjoys the distinction of being the fifth layman to be so honored during the past 60 years. He has been active in the Presbyterian church for many years. He was first elected an elder in the church at the age of 19, to take the place of his father. That was at Murfreesboro, Tennessee. He has been active in the work of the El Paso Presbytery since the organization was formed and has served as a member of the Home Missions committee all during that time. He also served as moderator of the El Paso Presbytery.

Record Want A's pay dividends.

NEED TAPEWORMS TAKE THE MEASURE OF YOUR FLOCK?

The Evil Reputation of These Elongated Pests Will Be Well Demonstrated If They Are Allowed to Get a Good Start in the Poultry Flock.

Tapeworms are probably among the worst offenders of the thirty-six or more species or variety of worms that find parking space in a fowl's intestines. They may cause serious loss in any flock once they get started, so it is well to know what are the signs of their presence and what are the best measures for getting rid of them.

Tapeworms are very common in poultry and some varieties do not seem to cause any particular trouble. There are at least two kinds, however, that will cause plenty of trouble if allowed to gain headway. These worms are small, seldom being over five inches long. They bury their heads in the walls of the fowl's intestines, but, apparently, only to anchor themselves. The greatest damage they do is deprive the bird of its natural nourishment by absorbing all or most of it themselves. The chickens eat as much as they ever did, or more, but it does little good. A careful observer will see that his fowls are gradually losing weight and get pale from no apparent cause.

The only sure way to detect tapeworm is to kill one or more of the fowls most seriously affected and conduct a post-mortem examination, or "post" any that die. Cut open the ones selected for examination and slit the intestines from end to end. If the intestines are held under water, it will be easier to detect the worms if any are present. Tapeworms are easily recognized, being flat, made up of jointed segments. They are white or gray in color. There may also be round worms present. Round worms are a serious enough problem to be featured in an independent article which I have written for separate publication.

Tapeworms must have an intermediate host, or they cannot spread to other fowls. Tapeworm eggs will not hatch in the intestines of chickens. The eggs of tapeworms are passed with the dropping of infected chickens and may be eaten by flies or earthworms. They hatch inside the fly or earthworm, and then the chickens eat them and the worms develop and grow in the chicken. Flies are the most common hosts. If, therefore, fowls are confined to yards which are kept free of droppings and decayed matter, there will be less trouble from tapeworms. If all such materials are removed some distance from the poultry runs, flies will be attracted elsewhere.

Kamala is known to be the most effective remedy against tapeworms in poultry, and is recommended by the United States Department of Agriculture. It is best given in the form of individual dose pills—one gram being a dose for an adult chicken. This medicine is very convenient as no fasting is necessary before giving it. Caution should be used, however, as some cases of poisoning have resulted from giving Kamala. The usual practice is to try it on a few of the less valuable birds about 48 hours before the rest of the flock. If the test fowls show favorable results, the rest may be treated with reasonable assurance of safety.

In the case of tapeworm infection, as with most other poultry diseases, sanitary measures are of prime importance. Clean up runs and houses, and keep them clean and well disinfected with a good dip and disinfectant. Remove all droppings or other fly attracting material every morning and remove it to a safe distance. Cover all runs with a heavy coating of hydrated lime, which should be plowed or spaded under often, and a quick growing grain planted.

PHILADELPHIT COPS BASEBALL TITLE IN WIN OVER CHICAGO

Third Year in Succession for American League to Hold World Championship

SHIBE PARK, PHILADELPHIA, Oct. 14.—The dreams of the old master, Connie Mack, came true this afternoon when his youthful Athletics won the baseball championship of the world with a finish that packed all the thrills of a story book climax, all the nerve tingling excitement of the final act of a melodrama. The ninth inning of fantasy be-

GLYCERIN MIX REMOVES CAUSE OF STOMACH GAS

Simple glycerin, buckthorn bark, saline, etc., as mixed in Adlerika, acts on BOTH upper and lower bowel, removing poisons you never thought were there and which caused gas and other stomach trouble. Just ONE spoonful relieves GAS, sour stomach, sick headache and constipation. Don't take medicine which cleans only PART of bowels, but let Adlerika give you a REAL cleaning and see how good you feel! It will surprise you! W. L. Doss, Druggist. Adv.

came the ninth inning of reality when the men of Mack, American League champions, surged from behind to score three runs and beat the Chicago Cubs, champions of the National league, 3 to 2, in the fifth and deciding game of the world's series.

With this flourishing finish, the Philadelphia Athletics once again lifted the American league banner to the peak, for the third consecutive year, with a more dramatic if not quite as decisive a touch as did the Yankees in scoring their clean sweeps of 1927 and 1928. The National league has now lost 12 of the last 19 world's series games and they must wait another year for any chance of revenge.

It is understood, however, that the famous chewing gum Wrigley, owner of the Chicago Cubs of the Na-

tional league, intends to spend some real money for two pitchers and a third baseman, and will give the American league a hard fight for the honors next year.

Connie Mack, owner of the Philadelphia Athletics, the team which at

one time was considered the greatest baseball aggregation ever gathered together, is just smiling and saying nothing. He is a great baseball general and may have some cards he intends to play next year that he has not yet revealed.

BURTON-LINGO COMPANY

LUMBER and WIRE

We Can Save You Some Money

COLORADO, TEXAS

BUILT BY
BUICK

The Marquette is sweeping to nationwide success with an array of features that distinguish it at once as the most outstanding value in the moderate-price field.

BUILT BY BUICK—The Marquette alone in its class can offer the priceless advantages of Buick engineering, Buick craftsmanship and countrywide Buick service facilities.

PERFORMANCE—Brilliant pick-up—to 60 miles an hour in 3 seconds—dashing speed—65 or 70 honest miles an hour—and a wonderful fund of smooth, flexible power!

PISTON DISPLACEMENT—The marvelous power plant has a larger piston displacement (212.8 cubic inches) than any car at its price!

ECONOMY—Even with larger piston displacement, this remarkable engine operates in the normal driving range with appreciably lower fuel consumption! Tire mileage is phenomenal. Service needs are at an absolute minimum.

COMPLETENESS—Throughout the Marquette you will find a full complement of the finest features. Nothing but the very best has been good enough!

ROADABILITY—So perfect are its poise and balance that, at every speed, riding qualities and roadability are amazingly superior to those of many cars of much higher price!

UPHOLSTERY—The Marquette alone in the moderate-price class is upholstered with a wonderful new waterproof, dustproof, wear-proof mohair.

ENDURANCE—Buick-built cars are famous for stamina. The Marquette delivers many thousands of miles of brilliant, uninterrupted service over every kind of road.

EXTRA VALUE—Buick's immense resources and great facilities provide in the Marquette extra goodness in every part—extra snop and sparkle in performance—extra value, unapproached at the price.

STYLE—The Marquette is as distinguished in appearance as in performance. Its hand-somely tailored bodies by Fisher challenge comparison with the smartest cars on the road!

See the Marquette. Take the wheel and discover performance that knows no rival in the moderate-price field!

HYMAN HAPPENINGS

By far the best rain that has visited this section for more than a year came Saturday night and Sunday. Branches are running and tanks are overflowing. While too late to do this year's crops much good, unless it be in the case of late feed, it will

help grass; and more than all else it helps the feelings of the people here. Already the hope which seems really to dwell eternal in the human breast is revived and strengthened, and we look forward to the future as represented by next year's crops.

the social Undoing of Elizabeth Ann

As a hostess, Elizabeth Ann decided that she was a grand success. She glanced happily about the tables of modish guests in the living room.

"This is a party," she thought. "One they'd talk about for many a day. Everything was going beautifully."

She giggled as one of the group at the nearest table trumped her partner's ace. The hum of conversation rose and fell.

And then the telephone rang. "Yes, he's here," she answered, "but he can't come to the phone. He's in the garage working on the car. Oh, Long Distance, very well, I'll call him."

Her heart sank. The sparkle left her eyes. Too well she knew what to expect when her husband "worked on the car."

"And things had been going so well," she thought bitterly, as Ed, red-faced and perspiring, oil and grease from head to foot, paused in embarrassment at the door.

Ed was waiting in the hall when he closed the door miserably behind the last guest. He slipped a consoling arm about her.

"I'm sorry, honey!" he soothed. "It won't happen again. Tomorrow I'll order an extension telephone for that kitchen."

Telephones where you need them save time, patience, housewifely strength—even prevent minor social disasters.

Few know that one or two additional instruments cost considerably less than the single telephone they now have!

By a wisely-placed "extension" or two, and perhaps a rearrangement of the equipment you already have, an expert telephone man can often double the convenience of your telephone service.

"And things had been going so well!"

Manager, Southwestern Bell Telephone Co., City.
I'd like to know how to get more out of my telephone service. Please send me free, a copy of your booklet, "Modern Telephone Service for the Home."

rather than backward on the disappointments of the past few years. We have learned that the kind of land we cultivate here gives its most bountiful harvests in the years which follow an abundant fall and winter moisture. We consider the early fall rains a good harbinger for months to come, and we know that if we can get good winter rains and can store them in the ground by terracing, we need not fear to compare crops with any section of Texas.

Mrs. McDonald and Welch, teachers of the intermediate and primary grades of Hyman school, have returned from their summer vacations, devoted largely to study preparatory for advanced work, and are ready for opening of school which will be on Monday, Oct. 14. They report having passed a pleasant summer, and a readiness for a busy fall and winter. Roy Cole, principal of the school, maintains his residence here the year around, and has been with us right along, except for a short vacation spent in Colorado.

Mr. and Mrs. J. M. Black have returned from a short trip to Eastland county, where Mr. Black formerly lived and to which place he expects to return. They will leave many friends and well-wishers here. Mr. Black has sold his farm here to his children, Mrs. Frank Taylor, Mr. Frank Black, and Mrs. Carl Lowry. Otis Chalk, owner of the land on which the Chalk oil pool is located, has been a frequent visitor at Hyman lately, a guest of Harry Hyman. Mr. Chalk and Mr. Hyman visited in Snyder Friday of last week on business. They are expecting to be in Abilene several days this week, also on business.

Charles Black, one of the oldest residents of Hyman, is still on the sick list.

The Baptists of this community report that they will soon be ready to begin work on their church here, on land to be donated by Mrs. Harry Hyman.

Lee Woodward and Mr. Yancy, residents of the Hackberry Creek section of the Hyman community, expect to leave shortly on a trip to Live Oak county. Both of these men operate large farms. They seem to think that two shots at a crop are better than one, and it is possible that they may divide their forces, working land in South Texas as well as here. While gone it is likely they will inspect land about 100 miles south of San Antonio, belonging to Harry Hyman of this place. Mr. Hyman will accompany them on the trip.

There is little to report in the matter of progress in the oil situation here. The well being drilled by Gibson & Johnson on Bob Scott's section 7, is making fair progress. It was shut down for a short time last week for lack of drilling water, but that obstacle was soon overcome.

Lloyd Sigler of Fort Worth, who drilled the McGinley-Sigler Sarah M. Hyman No. 1 on Mrs. Hyman's land, has been expected daily for some time, but has not yet shown up. It is expected that when he comes he will take steps to complete cleaning out of this well, and it is very confidently expected that when he does, the production will be substantially

increased.

The roads in this community, recently graded under the supervision of Commissioner H. H. VanZandt, stood up pretty well under the strain put upon them by the heavy rain of Saturday night and Sunday. While there was some washing, the grades being new and soft it is felt that the results abundantly vindicated the work done and the small expense involved in this new improvement.

Harry Hyman, who has been for several days driving about 70 head of horses and mules eight miles a day to and from water, says he is confident that he is the most grateful man in Mitchell county for the fine rain and supply of stock water it provided. Mr. Hyman has recently purchased a well drill and has been drilling water wells on farms owned by Mrs. Hyman, not heretofore provided with a water supply. He says he expects to keep on drilling until every farm has water sufficient for its own use, or until the well drill wears out or his money plays out. He says he thinks the well drill, although a second-hand one which has seen a good deal of use, will outlast the money. He hopes both the drill and money will last until water is found on all the farms. A good many of Mrs. Hyman's farms already have good wells and tanks. Mr. Hyman also expects to begin in the near future to build additional houses on some of these farms, feeling convinced that good improvements are necessary to get and keep good tenants. It will be Mrs. Hyman's policy hereafter to lease her farms for a period of years, furnishing a good deal of grass with each cultivated field, to men who want to locate with some degree of permanency.

It is expected that several of the farmers here will plant some acreage this fall in small grain—wheat, rye, barley and oats. A number of them have small dairy herds and want to provide winter pasture for them. No part of West Texas will grow better small grain than this land, given a proper rainfall.

BUFORD BULLETIN

School opened Monday morning with an enrollment of 55, there being 20 in the primary rooms, 17 in the intermediate room, and 18 in the principal's room. The program opened by singing "America," after which Rev. E. L. Naugle, pastor of Methodist church at Westbrook, led in prayer. Rev. J. E. McDermott, pastor of the Baptist church at Westbrook, brought the devotional. Mr. J. V. Glover, the principal, then introduced Miss Johnny Chesney, the intermediate teacher; Miss Burnice Ramsey, the primary teacher, and Mrs. Glover, his mother. Rev. McDermott gave a very uplifting talk on "Cooperation." It was then discovered that Miss Ruby McGill, county superintendent, was in the house and had brought Miss Burish, health nurse, with her. Miss McGill read a letter from Miss Sanders at Austin, stating that five extra points should be allowed on the scoring of each school which satisfactorily met the health requirements. Miss McGill introduced Miss Burish, who told something of her work. These ladies were not able to stay for the entire program, but were given a hearty invitation to come again at any time. Rev. Naugle gave a very entertaining and instructive talk on "Green and Growing Things."

Mr. and Mrs. H. P. Powers, teachers at Conaway, were introduced. Mrs. Powers told a very interesting story to the little folks who were growing quite restless. Mr. Powers spoke on the "Value of a High School Education."

Messrs. Emmett Blassingame and Curtis Rogers, trustees, each made a short talk, stressing cooperation. Mr. Glover made a few announcements and declared a few minutes of recess before issuing the books.

One very encouraging and inspiring thing was that so many of the patrons manifested their interest in their school by being present at the opening. Those present were: Mr. and Mrs. Emmett Blassingame, Mrs. T. D. McGuire, Mr. and Mrs. J. S. Curry, Mr. and Mrs. Reese Bedford, Mr. and Mrs. W. H. Yater, Mr. Curtis Rogers, Mrs. Essie Blackard.

The teachers are especially anxious that the patrons visit the school often. We are expecting a great school year at Buford. All patrons and pupils are cordially invited to visit at the teacherage at any time.

Little Miss Joyce Campbell was unable to start to school Monday on account of illness. It is hoped that she will soon be well again.

Joe Leonard Blackard is attending the Dallas Fair this week. He was awarded the trip on his 4-H Club work.

Mr. and Mrs. W. H. Yater, Mr. and Mrs. Reese Bedford, Mr. Glover, Mrs. Glover, and Miss Ramsey were in Colorado shopping Monday afternoon.

Mr. Glover visited in Westbrook Sunday evening.

Ralph Ramsey of Westbrook brought Miss Ramsey over here Saturday.

Mr. Gus Chesney of Colorado visited at the teacherage Sunday night.

Tenth Grade

A Delco-Light system has been installed here. We have lights in the school house, in the teacherage, and one on the basketball court. We have hopes of playing a good many games at night now.

We are going to have a school carnival October 30. Another interesting feature will be the crowning of the Queen of Halloween. The queen has not been selected yet. Everyone is cordially invited to be present.

Albert Harlow and Irvin Mann attended a basketball game between Westbrook and Coahoma Friday.

Ninth Grade

The school has ordered about \$200 worth of laboratory equipment for the eighth and ninth grades. We are very anxious for it to come.

We have five in the ninth grade now. We are surely working hard.

Eighth Grade

In Algebra we have finished positive and negative numbers.

In History, we have finished Chapter IV, and are working on our note books.

We will have examinations this week.

Seventh Grade

E. B. Gregson, Jr., attended a dinner in the home of A. T. Barker Sunday evening.

We are going to have examinations this week. We are hoping to make good grades.

Charles Bruce was a guest in the A. T. Barker home Sunday evening.

Community News

A delicious 6 o'clock dinner was served in the A. T. Barker home Sunday afternoon. Those present were Mr. and Mrs. Mack Fisher, Mr. E. B. Gregson, Sr., Myrtle, Edna, and E. B. Gregson, Jr., and Annie Fowler. They report a very enjoyable evening.

Mrs. W. C. Gatloff spent Monday shopping in Big Spring.

John Fowler visited his relatives in Snyder Saturday and Sunday.

We carry a complete line of office supplies.

LORRAINE WOMEN GIVE PROGRAM AT LUNCHEON CLUB THURSDAY NOON

Appropriate Program On Advertising Brings Fun; Bentley Speaks

An address by Max Bentley, managing editor of the Alibene Reporter-News, "West Texas' Own Newspaper," and an excellent program by Mrs. W. R. Martin, Mrs. Bill Roland and Mrs. Kirk Taylor, "The Merry Makers" of Lorraine, featured the meeting of the Colorado Chamber of Commerce Luncheon club Tuesday noon.

The program was on "Publicity," and Roy Dozier, chairman of the publicity committee of the Chamber of Commerce, presided. The program of songs by the Merry Makers was on advertising and they gave a travesty on advertising, representing daily occurrences at the Colorado Record office. This part of the program carried jokes on local men through repeated attempts to advertise and got over big, creating lots of fun. Mrs. Roland sat at a table and took down classified ads for The Record while the party at the other end of the line in the cloak room could be heard, and what they gave to the "classified" department was indeed a "travesty."

Bentley on Publicity
Mr. Bentley spoke about the wonderful development in West Texas, due principally to publicity. He said the phenomenal growth of the cities and towns of West Texas has been due very largely to favorable publicity.

The right kind of publicity is always sought and will always benefit a community. West Texas, in the past few years, has reaped a golden harvest from favorable publicity circulated throughout the East. People of the east are learning through publicity and visits to West Texas, that their former ideas of a desert country existing here are false and that this is really a land of "milk and honey."

Refers to Football
In referring to the "pleasant" visit of Col. C. M. Adams and a committee to his office two years ago, Mr. Bentley cautiously ventured onto football ground, but he got a touch-down when he was assured Colorado considered his papers "her very own."

When Col. Adams gets behind a deal he gets satisfaction, and Bentley said the Colonel got a good dinner on him when the committee stormed him.

Max Bentley, one of the "big" men in the daily newspaper game, has his heart and soul in work for West Texas. He would rather read or publish stories of West Texas development than anything else. "I believe these stories," he said, "and they are true. West Texas is the greatest country on earth and such cities as Colorado are proving it. I love West Texas and I am always anxious to contribute what I may to help West Texas in its rapid progress."

Acker Miller Speaks
Bentley promised the club Colorado could have all the publicity desired from his papers. He was liberal in his promises of space for news from this county. These newspapers have always been open to Colorado and Mitchell county news and will continue to be, he said.

A former Coloradoan, who has fought many a baseball battle in South Colorado, reared here, but has gone out in the world and made good, also spoke. Rev. Acker Miller, pastor of the First Baptist church of Cisco, is the man. He told how he had fought. Bob Cooper, Milburn Doss, Sam Wulfjen, and others in the years past, and expressed pleasure at being back in the "old home town." Acker Miller graduated from Colorado high school in 1907. He attended the Baptist Seminary at Louisville, Ky., and served as pastor of a church in Oklahoma four years and has been pastor at Cisco five years.

Health Nurse Explains Work
Miss Olga Burish, health nurse from State Department of Health, who began work in this county Monday, explained some of the plans for her work.

She will be here six weeks and will visit the schools to inspect the children and make recommendations as to health and sanitary conditions. She expects to make a sanitary survey of all the schools in the county, including the independent districts. Visits to the homes will be made also and mothers will be instructed in home hygiene and health matters.

Miss Burish was secured through efforts of Miss Ruby McGill, county superintendent, in cooperation with the civic organizations of the city. She is one of two itinerate nurses

furnished by the health department for this work, and Miss McGill, in introducing the nurse, explained that Mitchell county was exceedingly fortunate in securing one of these nurses this year.

The list of guests at the luncheon included Dr. D. L. Lockett, Baptist missionary of Africa; John Elliott, Mrs. R. B. Terrell, Miss Ruby McGill, Mrs. R. H. Cantrill, and Miss Mable Smith, besides those listed above on the program.

A resolution condemning fake advertising schemes and seeking to protect the merchants and business and professional men from the many so-called fake advertising schemes on which they are "worked" was passed. The resolution asks the Chamber of Commerce, Lions club, and Business and Professional Women's club to pass similar resolutions and to urge members not to patronize any advertising scheme that does not have the endorsement of the publicity committee of the club.

The resolution was as follows: "In view of the fact that so many kinds of advertising schemes are being offered to the citizens of our town, most of which are unknown to us and because of the excessive cost for each individual to make investigations, the result of which is the investment of many dollars by our different business men in some form of advertising with absolutely no visible value, now, therefore,

"Be it resolved, that the members of the Chamber of Commerce Luncheon club refrain from patronizing any advertising proposition, or buy space on any advertising sheet, card or sign, or any publication, unless the same has the endorsement of the publicity committee from the Chamber of Commerce, Luncheon Club, Lions Club, and Business and Professional Women's Club.

"Be it further resolved, that we recommend to the Chamber of Commerce, the Lions club, and the Business and Professional Women's Club the adoption of a similar resolution and that we further recommend that the above mentioned clubs subscribe to the above resolution, each for its self, and that neither of these organizations shall be exempted from the above resolution. It being understood that the above organizations engage in no advertisement for financial gain, to the said organizations, without the endorsement of the publicity committee, of the various organizations, as above referred to."

Program For West Texas C. C. Convention

EL PASO, Oct. 14.—President-Manager A. M. Bourland today announces the official program for the eleventh annual convention of the West Texas Chamber of Commerce to be held in El Paso Oct. 24, 25 and 26. A number of important committee meetings not listed on the official program will be held. The plan of business for these sessions follows:

Thursday, Oct. 24
Opening session—Liberty hall.
9 a. m.—Massed band concert—Liberty Hall.

4 p. m.—Military review. Other entertainment features.

7:30—Delegation stunts—Plaza.

Friday, October 25
7:30 a. m.—Special breakfasts.

9:00—Massed band concert—Liberty Hall.

9:30—Convention called to order by President A. M. Bourland. Song, with Charles Andrews of El Paso leading.

9:35—Invocation by Rev. George Bassett, pastor of the First Christian church.

9:40—Special music.

9:45—Address by Hon. R. C. Dillon, governor of New Mexico.

10:15—Address, Texas' Highway Program, by Hon. Jewel P. Lightfoot of Fort Worth.

11:15—Report of committee on

changes in by-laws, operation plan, etc., by Walter D. Cline, chairman, Wichita Falls.

12:30—Announcements, recess.

Afternoon
2:30—Military and Delegations parade.

Night—Football game, etc.

Saturday, Oct. 26
9:00 a. m.—Massed band concert at Liberty Hall.

9:30—Convention called to order by President A. M. Bourland. Song, with Chas. Andrews leader.

9:35—Invocation, Rev. J. E. Congdon, pastor of the First Presbyterian church.

9:40—Special music.

9:45—Finals in "My Home Town

Contest."

10:15—Address, by Governor Luis Leon, governor of Chihuahua, Republic of Mexico.

10:45—Music.

10:50—Report of resolution committee.

11:50—Report of nominating committee. Election.

12:15 p. m.—Selection of next convention city.

12:30—Announcements—Recess.

Afternoon
3:00 p. m.—Business meeting of new directors.

7:00 p. m.—Guests of Juarez—fun, frolic, etc.

Blank Books at Record office.

J. M. Bledsoe Out For State School Superintendent

COMMERCE, Oct. 16.—J. M. Bledsoe, of this city, has announced that he will enter the race for State Superintendent of Public Instruction in 1930 in view of numerous letters and telegrams received recently from numerous friends.

"No one is more familiar than I with the fact that there exists no well-organized political machine to champion my cause," said Mr. Bled-

soe, "and to carry my campaign. If elected, I want to be able to realize that success came as a result of the confidence and support of those who believed in me and were willing to help fight for better educational opportunities for the boys and girls of Texas."

Mr. Bledsoe received B. S., and A. B. degrees from East Texas Normal College in this city, and received an M. A. degree from the University of Texas.

RUMMAGE SALE

The Excel and No. 3 Circles of the Baptist church will hold a Rummage Sale on Elm street, next door to the Helpy-Selfy, Saturday, October 19.

All discarded clothing would be appreciated by their friends.

COUNCIL BURNS MIDNIGHT OIL IN MONDAY MEETING

The city council, which had under consideration the resignation of Mayor Coffee, and the ordering of an election to fill his place, "burned the midnight oil" Monday night. The session was attended by all aldermen except Dr. C. L. Root, who was out of the city.

A petition for paving on one block of Ninth between Locust and Hickory was received but postponed for future action.

Another night watchman for the balance of this year was authorized and a committee empowered to employ the same.

Regular accounts for the month were ordered paid.

LORAIN NEWS

LOCAL AND PERSONAL NEWS ABOUT LORAIN AND VICINITY

MRS. ZORA DEAN, Correspondent

Mrs. Dean is also authorized to receive and receipt for subscriptions for The Colorado Record and to transact other business for Whiskey Printing Company. See her and take your County paper—The Record

A terrific downpour of rain was visited on Lorain and surrounding territory Saturday afternoon at 4:30 continuing all afternoon and into the night. The streets were flooded for a time, tying up traffic and the big Trades Day crowd was forced to the sidewalks and buildings. Even cars were unable to traverse the flooded streets for a time. Hail and wind were reported from the Baumann community, south of town. It is estimated that there will be much damage to cotton which is now open. However, it is hoped that a rise in price will offset this loss.

The Farmall Tractor with a 10-Disc Plow and a good man will break 18 acres of ground, five inches deep, in one day. Price Bros.

The Lone Star school opened Monday morning, October 14, and 69 pupils have been enrolled. Many of the patrons attended and made a few remarks and promised to visit the school more often. H. B. Barrie, principal; Mrs. S. C. Harris, intermediate, and Miss Ethel Dean, primary grades.

The Valley View school opened on Monday, October 7, and is running nicely with 53 pupils enrolled. The prospects are good for a successful term. The officials of the school are working to classify the school as a class A Standard rural school this year.

Teachers of this school are B. L. Templeton, teacher of the intermediate department, and Miss Opal Palmer, teacher of primary department.

With the Farmall Tractor and its equipment you can cultivate in a farm-like manner 225 acres of crop. PRICE BROS.

The Lorain Bulldogs defeated the McCauley Eagles 19 to 0 on the local field Friday, Oct. 11. This was very encouraging to the Lorain fans and more enthusiasm is expected to be shown over the remaining games of the season. The next team to be played will be Colorado Wolves on Cantrill field at Colorado, on Friday, October 18.

Mrs. H. K. Sadler returned from Nimrod last Thursday, accompanied by her parents, Mr. and Mrs. Duke, who will spend the winter with her.

Buy a Farm-All Tractor. Use it to the limit. The saving on your feed bill will meet the deferred payment. PRICE BROS.

Mrs. A. J. Collier is enjoying a visit from her mother who arrived from Kaufman county Friday.

Mrs. Joe Austin of Abilene spent Tuesday here visiting her brother W. L. Swafford, who underwent an appendicitis operation at the Root hospital Saturday afternoon. He is reported to be recovering nicely.

Louise, small daughter of Mr. and Mrs. H. C. Spikes, is doing nicely following the removal of her tonsils and adenoids Monday.

Mrs. J. S. Muns returned Monday from Big Spring, where she had been visiting her cousin.

Mrs. O. P. Blair and children of Lone Star spent Saturday night and Sunday in the T. R. Bennett home.

H. H. Hooker and wife were in Dallas Tuesday of last week and while there purchased a studio piano.

Woodrow Pratt spent the week-end home from Simmons.

Dick Compton and wife returned Saturday night from a trip to Phoenix, Arizona. His brother accompanied them.

J. W. Winstead has returned from a visit in Midland.

Pink Robertson and mother spent the week-end visiting here from Stanton.

We will sell you a FARM-ALL Tractor with small cash payment, the balance payable out of your next two crops. PRICE BROS.

Mrs. Lewis Elliott is expected home from Carlsbad Sunday.

J. F. Marshall and wife are visiting here from Clyde.

Mr. and Mrs. J. M. Edwards of Strawn, and Mrs. A. N. Edwards and little son of Wichita Falls, are guests of the M. A. Edwards' this week.

Miss Verna Lee Burt, who has been on a visit here for the past two months, returned to her home at Carlton last week, accompanied by her sister, Mrs. M. A. Edwards.

Mr. Austin, who came here recently from Missouri, has bought the property formerly occupied by the 467 Filling Station and plans to build a home on it.

Judge O. E. Stevenson presided at the semi-monthly Luncheon club on Wednesday. Mr. St. John of Abilene

was the chief out-of-town speaker. About 40 were present. Plans for the community fair were discussed.

Rev. and Mrs. N. E. McGuire were "at home" to their many friends on Tuesday evening from 7:30 to 10.

However, the occasion was a pleasant surprise to them. At 7:30 the guests began to arrive. They were greeted at the door by Rev. McGuire, who stood first in the receiving line; next Mrs. McGuire, Rev. J. M. Cochran, Mrs. Cochran, Mr. and Mrs. R. E. Bennett. After these greetings the guests passed into the dining room, where delicious fruit punch was served, the punch bowl being presided over by Mrs. J. L. Pratt.

The entertainment consisted of piano music by Mrs. Taylor and Miss Marshall, and it was greatly enjoyed. A delightful musical reading was given by Mrs. Rowland, and Miss Turlow, in a most charming way, read one of Kipling's poems. Mr. Jarrett sang a solo with Mrs. Taylor as accompanist. Mr. Wilcox, who is a genius at playing the French harp, gave two numbers that were greatly enjoyed. Mr. Ritchburg sang and yodeled, playing his own guitar accompaniment. Tiny little Maxine Hooker gave a good reading.

It had been whispered around that there would be singing by a quartet. The guests could hardly wait to hear this. The personnel of this quartet was Mr. Kirk Taylor, Mr. Pickets, Mr. Munz and Mr. Jarrett, and the beautiful numbers rendered by them were greatly enjoyed.

Each guest had brought a love gift for Rev. and Mrs. McGuire. These had been placed in big boxes, and these were brought into the room just as the guests were getting ready to depart. Mrs. McGuire remarked that she believed Santa Claus had been there. Rev. J. M. Cochran of the Methodist church presented these boxes, filled with linens, home-canned foods, and various useful articles. Bro. Cochran gave a most impressive presentation speech, stressing the love and appreciation that had prompted the gifts. We certainly do love Brother Cochran, too, and our town is indeed fortunate to have him and his family. We regret to lose Bro. McGuire and family. He has done lots for us. We wish them God's speed in his new field of duty.

Not being satisfied with the bull weevil history given by Mr. Webster, I dusted off a volume of Wood's Natural History and found that a bull weevil had eaten all the pages except those containing information about itself.

From Mr. Wood's book I learned that the origin of the bull weevil is undetermined but that a farmer in Georgia, who has made an extensive study of bull weevil history, has advanced the information that the bug was deported from hell back in 1729 because of conduct unbecoming a bull weevil. I have inside information that they couldn't keep fires down there on its account.

Mr. Wood defines the bull weevil as follows: "A damned bug, or rube, cussed, hated, lambasted, slandered, feared and respected by everybody. A bug or beetle which fears no one, never gets hot nor cold, wet nor dry, neither smokes, drinks, cusses, chews gum nor gives a damn what folks say so long as they plant plenty of cotton for him." I consider that a fairly good definition but not strong enough.

Now, I sympathize with the bull weevil even though he knows nothing of strikes, hatchet murders, suicides, gangs, taxes, the Eighteenth Amendment, laws, boarding houses or the pains of being married to a red-headed woman. He has my sympathy because he knows nothing of the pleasures of eating snap beans, chili, okra, or onions, a dhaba never enjoyed a drink of good home brew. He knows nothing of the pleasure of standing on the corner and watching 'em pass on a windy day or the thrill of a real good necking party.

The bull weevil has the distinction of being cussed in more languages than any other nine things on earth and of being lied about more than fish that got off the hook before we landed them.

A monument has been erected in South Carolina, or some other foreign country, in honor of the bull weevil with the following inscription:

Here's to the bug who don't give a damn whether cotton is ten or forty cents a pound; He fills up his belly 'til his back is lame— Everybody cusses but he eats just the same.

I consider that a wonderful tribute to the bug.

The bull weevil hasn't as many lives as a cat but he is always on the job and can devour a nice crop of cotton while Congress is taking a chew of Brown's Mule and not slobber half as much over the job. More dirty methods have been resorted to in efforts to destroy the weevil than any politician ever employed in a political campaign, but he still hangs on. He is particularly fond of being thrown into the fire, and can live as well under water as on land. He goes North in winter, South in summer, and seldom spends two nights in one State.

Like persimmon sprouts, the only way to get rid of the weevil is to move off, leave him behind and move some place into the midst of more

A FULL DESCRIPTION OF THE BOLL WEEVIL

You have probably heard of the boll weevil but, in case you are so ignorant as to not know what a boll weevil is, I'll tell you before I make my speech just what it is.

Now, there are several definitions of the boll weevil, both fane and grove, besides my own. I shan't give my own definition here, but if you care to get a copy of it, please come around me some time when I'm real sore about something (ladies not invited), and I'll try to accommodate you with a volume.

Webster, in his publication known as the dictionary, defines the boll weevil somewhat as follows (I leave out words not fit for publication): "Boll Weevil—An animal, bug, fly, insect, pest, or something of the kind, with two, four, six or maybe more legs, the same number or possibly more wings, a snout, two or three propellers, landing gear, fly wheel, hacksaw, drill, several eyes, no conscience and a number of other things, all enclosed in a fire-proof shell, hide, skin, or roof, as the case demands." Mr. Webster declined to say anything further about the boll weevil for fear the Postoffice Department would refuse to accept his pamphlet in the mails.

Not being satisfied with the bull weevil history given by Mr. Webster, I dusted off a volume of Wood's Natural History and found that a bull weevil had eaten all the pages except those containing information about itself.

From Mr. Wood's book I learned that the origin of the bull weevil is undetermined but that a farmer in Georgia, who has made an extensive study of bull weevil history, has advanced the information that the bug was deported from hell back in 1729 because of conduct unbecoming a bull weevil. Like persimmon sprouts, the only way to get rid of the weevil is to move off, leave him behind and move some place into the midst of more

CHRYSLER "66" SHACKLE INTRODUCES NEW PRINCIPLE

Every experienced motorist knows that one of the hardest problems to "lick" on an automobile is that of the noisy shackle. For years it was necessary to do a complete overhaul job on the shackles after every few thousand miles if silence was to be maintained. Regardless of advice from dealers and factories, motorists neglected oiling the shackles with the result that they were nearly always noisy after the car was a few months old.

"Of the various methods employed to overcome this trouble, one of the most interesting as well as successful is that used on the new Chrysler '66,' in which the molecular displacement of rubber compensates for the spring action; with a consequent elimination of all metal-to-metal contact in the shackle assembly," says Harris Toler, local Chrysler dealer.

"The use of rubber here is the immediate answer to the problem of the neglected motorist who will not attend to lubrication. It cannot be neglected because there is nothing to do."

Truthful Tom says he's not so sure there are germs in kisses and he is willing to be one of two to start a scientific investigation of the subject.

In the advertising columns of the great newspaper of life many of us appear under the heading: "Too late to classify."

How to tell a woman's age may be a fine piece of information, but it wouldn't do to tell.

Practice does not make perfect. For instance, the female portion of our family has been lecturing us for years and she's still improving on it.

Grandfather avoided shifty horse traders.

"Our shrewd fathers and grandfathers seldom risked buying their horses from the shifty itinerant horse traders of their day," says A. J. Herrington, local Oakland-Pontiac dealer.

"Instead they protected their investments in transportation by purchasing their horses from a reputable established horse dealer—one who was in business to stay and who even were he so inclined, could not afford to risk his reputation by misrepresenting a horse to one of his customers. Were he to have done so, he knew the world would have been passed throughout the countryside. The resultant damage to future business would have exceeded by far the temporary advantage gained in one shady deal."

Today the same situation exists, except that the mode of transportation has changed. We buy automobiles instead of horses. And if we

GOOD WILL USED CARS

FOOD AS A FINE ART

THE best hotels in the world are in the United States. In no other country are there so many strictly modern hostilities offering every comfort, convenience and luxury, and so great a variety of delicious foods. One of the circumstances that makes this possible is revealed in a recent article in the Western Canner and Packer, of San Francisco, Calif., in the form of an interview with Curt C. Rawak, Purchasing Agent for two of the city's finest hotels.

"We probably have a little different problem here," he said, in part to that magazine's representative, "than you have come across before. We, as you know, are in the catering business, and we serve a high class of trade. Our problem is not so much that of buying large quantities for economy as it is to buy what we can sell. We have to give our patrons what they want, regardless of cost. If a patron wants an alligator pear in January, it's our business to get it for him, if it is to be had, and of course, we charge the customer accordingly."

Many Prefer Canned Foods

"That is the peculiar angle of buying for the trade we serve. We buy a great deal of fresh stuff, both fruits and vegetables, simply because our patrons call for it. That doesn't mean that we are not big users of canned foods. In fact many people prefer canned to fresh stuff. That is particularly true of asparagus."

"About the system I use in buying I always buy by specification. Although I have complete confidence

in what the canners say about their products, there is nevertheless another side of the story. It's up to me to select from a dozen or more fancy packs the one that will suit my purpose best."

"You can see from the samples I have over there that I am getting ready to contract for my year's supply of tomatoes. I open the cans and empty them into a colander and let them drain for two minutes. I then weigh what's left in order to determine the number of servings in each and I usually select the one which gives me the greatest number of servings. Of course, I take color into consideration, too...."

Public Eats More Scientifically

Rawak went on to say that he had noticed a growing tendency among the people of today to select their menus with a great deal of care. He is of the opinion that they eat more scientifically in these days of enlightenment than they ever did before. In proof of this contention he pointed out that nowadays people know the science of proteins and carbohydrates.

"That is one reason why we have an all-year-round demand for canned commodities," he said. "People can now have spinach for Thanksgiving or asparagus for Christmas by a simple twist of the can opener. It is truly remarkable how the canning industry has made possible a balanced menu for all the months of the year."

He then told how many cases of tomatoes and asparagus he expects to buy this year, and stated that he sold more than three times as much

of the latter canned as fresh. He told about the number of cases of peas, not stringless beans he expects to purchase, and something about this patron's preferences in canned fruits. Peeled apricots, he said, have always been favorably received by his customers, both as a breakfast fruit and in pies.

Some Unusual Recipes

But it's one thing to know that wealthy hotel patrons enjoy canned foods, and quite another to know how to use them like a highly paid chef. So here are two tested recipes, the savor of which will make you think you're dining at the swiftest of hotels:

Scotch Woodcock: Make a sauce of four tablespoons butter, four tablespoons flour, two cups milk, the juice from a can of asparagus tips, one teaspoon salt and one-fourth teaspoon pepper. Add four hard-cooked eggs, chopped, and the asparagus tips cut in one-inch pieces. Add one chopped pimiento and serve on toast. This will serve eight people.

Tomato Rabbit with Eggs: Stew three cups of canned tomatoes, one-fourth teaspoon soda, one and one-half teaspoons salt, and one-fourth teaspoon pepper five minutes. Press through a sieve. Add three tablespoons flour and three tablespoons cold water smoothed together and stir until it thickens. Add one and one-half cups grated cheese and stir till melted. Slice hard-cooked eggs over buttered toast and pour over the sauce. This, too, serves eight people.

GOODYEAR PATHFINDER DESIGN IS IMPROVED

"Improvements in design and construction which have been made in the new Goodyear Pathfinder tire strengthen the position of the Pathfinder as the best tire for the money on the market," said Wilborn Lewis, manager of Lewis Rubber Company, Goodyear service station.

"These improvements," he said, "have been made in both high pressure and balloon sizes and give the tire user greater value than ever before in a tire of this type."

"An inspection of the new Pathfinder shows that the tread has been re-designed to give greater traction and resistance to skidding on wet, slippery pavements. This feature is especially timely with winter weather approaching. The tread has been made longer wearing with the use of tougher compounds."

"Then, too, the carcass of the tire is stronger. The same kind of construction that goes into the Goodyear All-Weather tread, the leading standard tire on the market today, goes into the Pathfinder. Superstew, the exclusively Goodyear cord fabric, goes into the plies which make up the body of the tire."

"In fact, everything considered, the new Pathfinder is beyond comparison with other tires of the same type. And the market will continue to grow as more and more motorists learn of its high qualities, at low cost."

"New, low prices are now in effect, placing this tire at the lowest cost possible. In fact, tires are now lower in cost and higher in value than at any time in the history of the industry. For the man who has a medium investment in his car, for the automobile owner who does not drive a great deal, and others who do not feel the need of the best tire equipment, but who want quality at low cost, the improved Goodyear Pathfinder will fill the bill."

Beware of harboring prejudice in your heart. The other fellow may be doing the same thing and as a result neither of you are worth a cuss to the community.

CHURCHES

PRESBYTERIAN CHURCH

Last Sunday's attendance was not so good as the Sunday before. The rain was fine and you were afraid to get out in it, but you were at your business place the next morning. Rain or no rain business is attended to. Why not make the Lord's business of just as much importance? It is more important than anything else. Enough said. Don't fail on this Sunday, please.

Dr. Coleman will make his report of Synod at the 11 o'clock hour. Do not fail to hear him.

Worship and sermon at 11 a. m., and 7:30 p. m.

Bible school at 9:45 a. m., J. M.

Thomas, superintendent.
Christian Endeavor at 5:30 p. m. Come and bring your friends to all the Sunday services, and the prayer service on Wednesday evening at 7:30 o'clock.

We are praying for a revival. Join us in this service.

W. M. ELLIOTT, Pastor.

CHURCH OF CHRIST

Bible class for all, 10 a. m.
Praying and communion, 11-12 a. m. Sermon subject for this time: "The Blessed Man."

Young People's meetings 6:30 p. m.

Evening Gospel service, 7:30. We plan a series of sermons for the evening hour on the Bible as the Book. The first of the series, "Why Study the Bible?"

Meetings of the week: Ladies' Bible class, Monday 3 p. m.; Development meeting Wednesday at 7:30 p. m.

m. We welcome your presence. Come be with us. Minister's phone is No. 280-W. "At your service all the time."

J. D. HARVEY, Minister.

METHODIST CHURCH

There are four more Sundays in this conference year. The annual conference meets at Pampa, November the 13th. We trust that each one will do his part in helping to bring up a full report for the year.

Sunday services as follows:

Morning worship at 11 o'clock.

Evening worship at 7:30.

Epworth League at 6:30 p. m.

Remember, Sunday school at 9:45. Let us come praying that the services be a blessing to each one attending. Strangers and visitors have a cordial welcome.

W. C. HINDS, Minister.

FIRST CHRISTIAN CHURCH

Bible school at the regular hour. Everybody urged to come.

The church will have a visiting pastor, Rev. C. W. Harrison of Ennis, who will preach Sunday morning and Sunday evening. Come out and hear him.

FIRST BAPTIST CHURCH

Sunday school 9:45 a. m., George B. Slaton, superintendent. In spite of the downpour of rain last Sunday there were 95 present for Sunday school. As the winter months are approaching with the attendant inclement weather, we should resolve to be faithful on Sunday school attendance regardless of the weather.

Morning hour of worship 10:50. Theme for morning, "God Is." Every member of our church family should endeavor to be present for study of the morning message.

Evening service 7:30. Subject, "Buying Without Money."

B. Y. P. U.'s meet at 6:30.

Visitors are cordially invited to worship with us.

WILLIAM C. ASHFORD, Pastor.

MAURICE PORTER IS WITH SUL ROSS TEAM

ALPINE, Texas, Oct. 15.—Maurice Porter of Colorado, son of Mr. and Mrs. W. W. Porter, is a member of the Sul Ross eleven which held the strong Texas Tech team to a 7-7 tie at the Marfa Fair last Saturday.

Maurice is out for fullback, and Coach B. C. Graves, Lobo mentor, considers him one of the strongest men on the squad. This is Porter's first year on the squad.

A BIG NEWSPAPER IN A BIG LITTLE TOWN

(From Graham Leader)

In September, 1905, the Colorado Record was established. It was a 4-column, 4-page newspaper, printed one page at a time on a foot-pedal job press. The Record and three other newspapers were struggling along, eking out a mere existence. In October of the same year the Whipkey brothers from the town of West, came to Colorado, and after invoicing The Record shop which totaled \$495, they gave the proprietor \$1,500 and took possession. The new proprietors soon had their newspaper running as a 6-column, 8-page affair, and as Mr. Whipkey says, "soon had the hides of their competitors hanging on the back fence." In 1912 the Whipkey boys bought the first linotype west of Abilene and in 1925 purchased the first Duplex printing press west of that city. The weekly payroll of The Record office now is \$400, and eleven families are dependent upon the paper's success. The present annual gross business of The Record is \$45,000 with sworn circulation of 2275. This data we culled from the write-up given by F. B. Whipkey, general manager, in The Record last week, on The Record celebrating its 23 years of continuous publication. Today The Record is a 7-column newspaper, printing from 14 to 20 pages weekly. It is probably one of the best equipped newspaper and job plants west of Abilene. The Record is crowded with advertising every week, and its job department running at full blast every day.

The official family consists of F. B. Whipkey, managing editor; W. W. Whipkey, general manager; and Wed Reid, editor. The latter was elected last year to represent Mitchell county in the State Legislature.

Colorado's motto is, "Where the West Is At," and the Leader says, "Where one of the best newspapers in the West Is At."

The population of Colorado is given as 6500. The progressive-ness and the bigness of its newspaper is a criterion of the progressiveness and the bigness of its citizenship.

THOUSANDS OF INVALIDS BESIEGE PENITENTIARY

Following the escape of the twenty prisoners from the tubercular farm of the Texas penitentiaries, the commission, we understand, has received thousands of applications from the sick and infirm of Texas for entrance into the wonderful sanitarium maintained at the Winn farm. The amazing performance of the sick and infirm patients digging a tunnel 85 feet long and making their escape through same is a marvelous achievement and puts to naught some of the great professional healers. Here is a chance for the commission to pay out of debt and put the Texas penitentiaries on a cash basis. Thousands of the unfortunates suffering from tuberculosis will gladly pay a thousand dollars or more to get the same treatment that the escaped prisoners evidently received for putting them in shape for the gruelling task of burrowing down seven feet in the ground and laying on their bellies and digging another 85 feet to freedom. That takes hard work, it takes sticking qualities, and a treatment that brings about such a successful test should be passed on. "The State Penitentiary Sanitarium for the Cure of Tuberculosis" will soon be the headlines beckoning the unfortunates to come and get cured. Surely it looks as though a bright day is coming for the run-down penitentiaries and an easy way to get the "dough" to pay out of debt.—Uvalde Leader-News.

LUBBOCK MAN IS NEW MEMBER STATE BOARD

AUSTIN, Oct. 14.—Governor Dan Moody this afternoon named two members for the State Industrial Accident Board. The new appointees are H. T. Kimbro of Lubbock and Earl Adams of Crockett.

It was learned last week that Governor Moody had tendered one of the appointments to Adams and that he had accepted. He will fill the vacancy caused by the death of the late James W. Swayne of Fort Worth, who was chairman of the commission. Kimbro will fill the place now held by J. M. Patillo, whose term expired more than two years ago.

Miss Estee Sanford is the other member of the board. Her term expired last December, but her place has not been filled, and she still is serving on the board.

GOVERNMENT CONTROL

The last legislature enacted a law placing all ice plants under the control of the railroad commission, and before any ice plant can manufacture ice, it is forced to get a permit from the railroad commission. The ice plant in Yellville was forced this year to pay \$50 for the privilege of making ice. Before any one can put in an ice plant in a town where there is a plant now operating, he is forced

to get a permit from the railroad commission. Wherever the law has been tested, the courts have ruled against the commission.

If this law is constitutional, it will not be long until a law is enacted giving some commission the power to say how many grocery stores shall be operated in a town, and making those who are in business pay for a permit for doing so. If a man has money he ought to be allowed, without interference by law, to invest it in any legitimate business he chooses. If his judgment is bad and he loses his money, it is his loss.—The Yellville (Ark.) Echo.

Efforts were made to get practically the same law enacted in Texas during the past legislature, and efforts to put this law on the statute books of Texas will be made at the next general session of the legislature. People who are interested in this matter should let their representatives know how they stand.

LETTERS FROM THE PEOPLE

REGARDING LEAVING TOWNS OFF HIGHWAY

To The Record:

The best news published in some time regarding road matters, was an article from Lockhart headed, "Martindale Will be Included on Highway," stating, "The protest of Martindale to the State Highway commission against Highway No. 80 leaving the town off the highway has been heard and orders have been issued to the corps working on the highway to include Martindale in its route. Martindale will also be on the highway, as well as Prairie Lee, all three having objected to the building around the towns."

Now that the plans have been changed as to the three towns named, there is hope the rule will be extended to include the many other towns of the State which have been slated to be left off, and I think restitution should also be made to those towns which have already suffered loss from such practice.

When the State Highway Commission began to function in 1917, certain roads were mapped out and agreed upon, and taxpayers citizens who were in the towns designated, or aided by others who sought investment, went ahead and helped build up the towns and roads with facilities for the travelers, and many put their all in same.

Now to take the designated highway away from them, has always struck me as being wrong, and my voice has been raised against same ever since the practice began, and I continue to enter protest.

During a visit of several months to California a few summers ago, where I closely inspected highway matters, I failed to note a single town that had been left off the designated highway.

And in fact I believe Texas holds the pennant in this respect, as I can hear of no other State in the Union where the interests of the citizens are thrown into the discard to benefit the tourist from some other State.

FRED ROBINSON, Waco, Texas.

ONE COW VS. ONE DOZEN

"Why milk twelve poor cows when one good cow will do the work of the twelve?" asks the bulletin of the American Bankers Association agricultural commission. It declares that analysis of more than 100,000 individual yearly records from cows on test in dairy herd improvement associations indicate that on the average: Cows that produced 100 pounds of butterfat a year returned \$14 each over feed cost; Cows that produced 200 lbs. butterfat a year returned \$54 each over feed cost; Cows that produced 300 lbs. butterfat a year returned \$96 each over feed cost; Cows that produced 400 lbs. butterfat a year returned \$138 each over feed cost; Cows that produced 500 lbs. butterfat a year returned \$178 each over feed cost.

In other words, one 500-pound producer will return \$10 more over feed cost than twelve 100-lb. produc-

FOOD FOR THOUGHT

To Open Cans Quickly

HERE'S a new idea for you. Russell Crouse who conducts a column in the New York Evening Post says that home cooking would be speeded up fifty years by the use of zippers on canned foods. No zippers have been invented which will fulfill the important function of keeping out the oxygen, the exclusion of which assures a higher vitamin content in canned foods than in those cooked at home in the usual way, but there have been important improvements in can openers which are saving literally years of time to American housewives.

Up-to-Date Can Openers

The new can openers used today are almost as simple in construction and far more speedy and efficient than the old ones. They remove the tops from all types and shapes of

cans and their mechanical grip makes it possible to open hot cans as easily as cold. Two wheels grip tightly the outside and inside of the rim by means of scissor-shaped handles, and, held so, the turning of a key similar to a clock winding key causes one wheel to cut the tin as the other turns the can, and presto, the top is off!

A New Kind of Can

There is a new kind of can with a key welded to its top which is equally simple to open. The thin strip of tin to be rolled back with this key has diagonal grooves cut in herringbone fashion, so that if the strip does not tear evenly, these grooves at an angle will guide the tearing part of it past the defective part, and it will not break off on the key.

CLARENCE GILMORE

When grim death steps in and takes away a public official, the populace always pauses for a brief period at least, but when the Hon. Clarence Gilmore, chairman of the Texas Railroad Commission, died suddenly last Thursday afternoon at San Antonio, Texans everywhere were shocked and deeply grieved, for there has never been a man in Texas' official family whom a greater number of the State's citizens loved and honored. No man has ever occupied the seat of officialdom in Texas who was more conscientious in his duties than was Clarence Gilmore, and no official has ever put forth more effort to be of service to the State. He put his very life into the office to which the people had elected him. What more could a man do?

"Clarence Gilmore as a public man was earnest, able and devoted, ever responsive to the public's need and singly dedicated to the public's interest," the Fort Worth Star-Telegram says, while the Dallas News remarks that "the rank of this dead servant of our people will be pretty high. He is among the few really big Texans who have within recent years worn the harness of public service." The San Angelo Standard says that "particularly West Texas has cause for sorrow in the passing of Mr. Gilmore." The Abilene Morning News covers another side of the loss to Texas, by saying: "Among newspaper men Clarence Gilmore was very highly regarded. They trusted him implicitly and spoke highly of him on all occasions."

Yes, this time death stepped in Texas lost unusually heavy.

EAST VS. WEST

It was the old, old story of the East and the West locking horns

when Judge Horace Holley was defeated for president of the State organization of commissioners and judges.

The stage was all set for a West-ern victory, but West Texas is so far from Houston, where the convention was held, that many of the dwellers in the wide-open spaces left before the ballots were cast. It is believed that they wanted to leave early Friday in order to be back in their home towns for Sunday school.

So the piney-woods officials put their favorite on the throne of supreme county judgeship, whence he will reign for another year. Friends of Judge Holley are consoling him with the idea that "there wasn't anything in the office anyway."

But the easterners failed to give this section even a lesser prize, for H. C. Flournoy, commissioner from the Fluvanna district, was narrowly beaten for vice president.

We're not worrying, though. Let East Texas have the offices; better to have no high office with all its glory, and dwell in God's country, than to sit on the seat of the mighty and swat mosquitoes.—Snyder News.

THE DIFFERENCE

A certain Colorado young lady found a package of love letters recently that had been written to her mother by her father, before they were married. The daughter saw that she could have a little sport, read them to her mother, substituting her own name for that of her mother and a fine young man for that of her father. The mother jumped up and down in her chair, shifting her feet and seemed terribly disgusted, and for bid her daughter to have anything to do with a man who would write such sickening and nonsensical stuff to a young lady. When the young lady handed the letter to her mother to read, the house became so still that one could hear the grass grow in the back yard and the bed-ticks tick in the next room.

TIME FOR THAT "NEW ERA"

"We are facing a new era in the history of the West Texas Chamber of Commerce and the El Paso convention will be the most significant of any meeting yet recorded," said A. M. (Andy) Bourland, president and acting manager of the regional organization, in an interview with the Morning Avalanche yesterday. Mr. Bourland, with his secretary, Grady Shipp, were visiting in Lubbock in the interest of the W.T.C.C.

As has been noted in these columns heretofore, this newspaper is of the opinion that a "new era" in the West Texas Chamber of Commerce is essential to the life of the organization. West Texas, generally, have "soured" on it. West Tex-

ans, generally, are looking back upon the "hoorah" age, on the hopeless and helpless administration of the now gone, but not forgotten, Homer D. Wade, and they want something more than the blaring of bands and the thunder of oratory from their sectional organization. As President Bourland intimates, it's time for a "new deal."

There is a place for the West Texas Chamber of Commerce in the business structure of this territory. There is no place for it on the sidelines, lustily singing "The Old Gray Mare" and doing nothing. The "new era" of which Mr. Bourland speaks will be welcomed if it incorporates action and service. If it is but a continuation of the same old stuff it will be scoffed at—and the WTCC will go by the boards.

The Morning Avalanche is not hostile to the West Texas Chamber of Commerce as a service organization. As a matter of fact, we hope to see it reorganized, strengthened and placed in the saddle of action. In addition, this newspaper believes West Texas is fortunate in having a business man, a worker, a man who has wrought big things, in the president's chair at this particular time, when a firm hand at the helm is about the only thing that will save the sinking ship.

But The Avalanche does feel, in the interest of the people, that the revamping, of which the president speaks, is essential and should be publicly demanded, if continued support is given the project.—Lubbock Avalanche.

GLEANINGS FROM EXCHANGES

A number of weekly newspapers are indulging in speculation as to what would now be the condition of Texas had the Hon. Lynch Davidson been elected in 1924 and are intimating "I told you so." More than 75 per cent of the editors of weekly newspapers in Texas supported Mr. Davidson as was shown by the poll of editors attending the Texas Press Association at Amarillo. It was a foregone conclusion that Felix Robertson would lead in the first primary. Very few editors believed that Robertson would have sufficient strength to win the second or run-off primary whoever might be the other candidate. Such proved to be the case and Mrs. Miriam A. Ferguson was nominated and elected. Lynch Davidson and Whit Davidson killed each other in the first primary of 1924. In 1926 Lynch Davidson tried to run on the issues he espoused in 1924. The issue in the minds of the people was different and Dan Moody lacked only a few votes of winning a majority in the first primary over Lynch Davidson and Mrs. Ferguson. It so happens that the Penitentiary Investigation Committee has adopted Mr. Davidson's recommendations as to penitentiary reform—"sto's his clothes while he was in swimming," as W. J. Bryan used to say. The citizenship made a mistake in not nominating Lynch Davidson in 1924, but it is not the first one they have made and we greatly fear it will not be the last. Let's set our faces forward and do better in 1930.—Lockhart Register.

The newspaper folks of Texas will gather at the Dallas Fair on Friday, October 18, and be guests of the fair for one day. The attendance is usually as large on Press day at the Dallas Fair as it is the annual conventions, some five hundred newspaper men and their families attending. This year the luncheon will be a very unique affair. It will be served in the "cokhouse of Hagenbach-Wallace Circus," and circus tickets will be presented to all guests, not to mention passes to the "Red Robe," big coliseum show, the rodeo, races, and midway attractions. Texas newspapers are credited with much of the success the Fair has attained, carrying its message into the homes of the most obscure corners of the State, and the Fair officials are not unmindful of the fact.

To Be a Neighbor

People who lived and work side by side are prone to understand each other. Because they are close together and learn the peculiarities and shortcomings of each other they are apt to become more friendly and tolerant with those who are less near to them. It is so in families. When the real test comes they find that love abides, but in the everyday contacts with each other there is fiction due merely to the simple fact of proximity.

It is a fine art to think well of those with whom we live in daily contact. Neighborliness should mean loving kindness. It should be the synonym for sympathy and should express itself in the gracious acts that make others happy.

The nearest to us are those who can do us the most harm or the most good. It is a beautiful thing to live in harmony and generous friendliness with those who are nearest to us. It is the mark of true nobleness and character.

One of the most pitiful of all so-

cial phenomena is the example of husband and wife, brother and sister, kindred, who use the closeness of their relationship to make each other miserable instead of happy. A little self-denial, a little unselfishness, a little toleration for the failings and peculiarities of others, a spirit of generous, kindly sympathy when the clouds lower will keep out discord and bring peace.

People who are in close daily contact should seek to come into a spiritual companionship. The lack of this is the weakness of many homes. People may be physically near each other and spiritually worlds apart. If one would be a neighbor in the high sense of the word, one must act in the general spirit of friendliness and helpfulness. "Thou shalt love thy neighbor as thyself."—Plains Progress.

An exchange says corn whiskey will remove stains from summer clothes. No doubt correct. It will also remove the summer clothes, as well as the winter, spring and autumn clothes, not only from the man who drinks it, but from the wife and children as well. It will remove the linings of stomachs, hair from head, teeth and tonsils, reputation and self respect. It will remove what little sense the drinker has, and make a wildcat out of what would otherwise be an inoffensive plug citizen. It will remove the food from the table, the furniture from the house, and the happy, eager look from the faces of the children. As a remover of things corn whiskey has no equal.—Roscoe Times.

CARD OF THANKS

We take this method of very gratefully thanking the ladies of the Baptist church who gave a shower, and the citizens who assisted and donated funds to help us, following the loss of our house and household goods by fire recently. Words do not express our gratitude.

Mr. and Mrs. W. M. CAWTHON.

Riggs Shepperd, student in Simmons University, spent the week-end at home.

CHEVROLET SIX

—the Car of Universal Appeal!

SINCE January 1st, over a million one hundred and thirty-five thousand six-cylinder Chevrolets have been produced. Naturally, this is an outstanding industrial achievement. But it is more than that. It is a great public endorsement of Chevrolet's policy of progress: to build a quality automobile whose design incorporates every possible feature of progressive engineering . . . whose beauty is distinctive, smart and satisfying . . . whose reliability is assured by fine materials and precision manufacture . . . and whose price is so low as to be within reach of the great majority of the people. We want you to know what this policy has meant in the development of the Chevrolet Six—the modern car of universal appeal. We want you to know that Chevrolet has brought within the reach of everybody, everywhere, all the advantages of smooth, six-cylinder performance. Come in today!

Mrs. Naugle is also authorized to receive and receipt for subscriptions for the Colorado Record and to transact other business for Whiskey Printing Company. See her and take your County paper—The Record.

BURTON-LINGO COMPANY

LUMBER and BUILDING MATERIALS

Lowe Bros. Paints and DuPont Duco Lacquer
WESTBROOK, TEXAS

Mr. and Mrs. P. M. Rowland had as their guests Mr. and Mrs. D. E. Clinger of Toyah, Mr. and Mrs. V. E. Clinger and children, and Mrs. Chas. Clinger of Albany.

Mr. and Mrs. Key Hooks of Mission and Mr. and Mrs. Roy Nunally and Guy Hooks of Colorado visited the E. V. Bell family last Thursday. Ed Hayslip is at La Mesa, New Mexico, on business.

The Farnall Tractor with a 10-Disc Plow and a good man will flat-break 18 acres of ground, five inches deep, in one day.

Price Bros. Miss Burnice Ramsey has gone to Buford where she will teach.

Mr. and Mrs. W. M. Rippetoe of Dublin are visiting their son, W. T. Rippetoe, and family.

Mr. and Mrs. F. H. Patterson and Rev. and Mrs. Eugene L. Naugle and Cathryn visited relatives in Stanton Saturday.

Vernon Glover and his mother have moved to Buford, where Mr. Glover is to teach.

With the Farnall Tractor and its equipment you can cultivate in a farm-like manner 225 acres of crop.

Price Bros. Mr. and Mrs. E. J. Boatler, Leroy Gressett, A. L. Young, and P. M. Rowland attended the packing house

opening in Sweetwater Saturday.

The Y. M. P. S. met at the Methodist church Monday evening with Mrs. Joe McKinney as leader. A very interesting program was given. Plans were made for a social in the near future and a play to be given at a later date.

The Methodist Missionary Society met at the church in regular Bible study Monday afternoon. The meeting was led by Mrs. Naugle. Interesting discussions were given by Mrs. Skelton, Mrs. Hahn, Mrs. Hayslip, and Mrs. Boston. The society is to have a sale at the Mothers' dining room next Saturday, Oct. 19, which time Christmas cards, stamped goods and all kinds of "cans" will be offered to the public.

We will sell you a FARM-ALL Tractor with small cash payment, the balance payable out of your next two crops.

PRICE BROS. Last Wednesday afternoon Mrs. Burr Brown and Mrs. Roy Messimer entertained at the home of the latter with a miscellaneous shower, honoring Mrs. Floyd Davis. After a number of interesting contests the honor was awarded a large basket of gifts as a reward for winning in the last contest. Refreshments of sandwiches, olives, angel food cake and punch were served.

Mr. and Mrs. O. T. Bird and Lena Lee spent the week-end in Mineral Wells.

Buy a Farm-All Tractor. Use it to the limit. The saving on your feed bill will meet the deferred payment.

PRICE BROS. Mrs. A. L. Young and little daughters spent the week-end in Ft. Worth.

Mr. and Mrs. A. L. Weaver have had as their guests Mrs. Weaver's father and mother from Corsicana.

Mr. and Mrs. McCorn and son, Hugh McCorn, and grandson Odom Arnold of Pawnee, are visiting Mr. and Mrs. Braden Gaylor.

Mrs. Nawl Boatler began teaching at Fairview last Monday.

Miss Mozelle Donelson and O. C. McDermott, accompanied by Mrs. McDermott's sister, Mrs. Sparks and family of Abilene, visited home folks Sunday.

Mr. and Mrs. A. L. Weaver and Mr. Weaver's parents, left Tuesday for a visit with relatives in Breckenridge.

Baptist Notes Rev. W. C. Ashford of Colorado is holding a revival meeting with the Westbrook Baptists. Services at 9 a. m. and 7:30 p. m. daily. Everybody is urged to come.

Tuesday evening the Baptist Y. W. A. entertained at the home of Rev. and Mrs. J. E. McDermott in honor of Mr. and Mrs. C. C. Dorn, who were recently married. A number of contests were enjoyed. After the last contest in which Mrs. Dorn's group won, she was presented with a large basket of gifts by Mrs. Sidney Watson, in a very gracious manner. Refreshments were served to a large number of guests.

The Y. W. A. girls met at the Baptist parsonage Thursday afternoon with Mrs. Glover, counselor, presiding. After the regular meeting Mrs.

Glover, who leaves for Buford, was presented with a box of beautiful handkerchiefs. Mrs. Munn was elected new counselor with Miss Lillian Smith as president. Mrs. McDermott, the hostess, served delicious ice cream and cake.

The Blanche Rose Walker circle met Monday afternoon with Mrs. Cope. Bro. McDermott read Romans 15:8-15, as a devotional lesson.

W. M. U. Circle No. 2 met Monday, Oct. 14, with Mrs. Mills. The devotional taken from the 5th chapter of Matthew, was led by Mrs. H. L. Harmon. After the regular business, the Circle began some special benevolent work which is hoped to be completed on next regular Industrial Day, which comes on Monday, October 28. The Circle meets with Mrs. George Dawson on that date.

High School Notes On Friday night, October 4, the Junior class royally entertained the Seniors at the home of Miss Molly Bell Owens, a prominent Junior. When all the guests arrived, many enjoyable games were played, after which refreshments were served, consisting of delicious punch and hostess cake. Miss Ruth Skelton, a Junior, gave a toast to the Seniors, Leonard Morris. A Senior responded to the toast. The guests then bid their hostess a fond good night.

Choral Club Last Wednesday afternoon Mrs. Meskimen and Mrs. Van Boston met with the high school girls and organized a Choral Club. Much enthusiasm was shown. The following officers were elected: President, Opal McDermott; secretary, Ruth Hart. The club will meet on Wednesday of every week.

Tuesday afternoon the Westbrook girls met to reorganize their basketball club. The girls re-elected Gussie Bledsoe as captain. Gussie is a Senior and served us well and faithful last year. With our new coach, Miss Bales, the girls are going to show their colors. Watch them! We are now working on a play, "Nora, Wake Up." The date will be set for it later. This is to be given to raise money for athletic equipment.

On Friday, October 11, the Westbrook high school team met the Coahoma school team in a local cake fight on the Westbrook court. Both teams played a good, clean game, but a hard-fought one. The Westbrook line-up was Ginerich and Costin, forwards; Palmer, center, and Costin and Morris, guards. The score was 16-13 in favor of Coahoma. The deciding goal was made at the last second. Westbrook and Coahoma meet again Friday, Oct. 18, at Coahoma. Be sure to see the game.

ROSCEE NEWS

James A. Bratcher Dead Mr. James A. Bratcher, father of Ernest Bratcher, living southwest of Roscoe, died about 7:30 Wednesday morning after a very brief illness. Mr. Bratcher was born in St. Clair county, Missouri, on December 9, 1848. He came to Texas at an early day and settled in Dallas county, afterwards moving to Hill county, where he lived for a good many years. About ten years ago he and his wife moved to Cisco, where they had their home, though for the past two years they had been living with their children. He had been with his son, Ernest, since April.

Wyatt-Golden C. S. (Buster) Wyatt and Miss Dixie Golden motored to San Angelo Sunday, where they were united in marriage at 2:30 p. m. by Rev. Ridgeway in the office of the First

Baptist church. They were accompanied by Mr. and Mrs. T. E. Pope.

Brownlee School Opens The Brownlee school will open on Saturday, October 12, for registration, assignment of lessons and getting acquainted. The teachers are: Lawrence L. Trott, principal; Miss Mary Bell Adams, intermediate, and Miss Susie Keith, primary teacher.

McWilliam-Weaver Roger McWilliam and Miss Ada Marie Weaver were united in marriage Friday at the home of the bride's parents, Mr. and Mrs. T. J. Weaver on the Pyron ranch. Rev. G. W. Parks performed the ceremony. Roger is the son of Mr. and Mrs. B. W. McWilliam of Pyron but for some time has been working at Chapman Ranch, Texas. Ada Marie is the youngest daughter of Mr. and Mrs. T. J. Weaver of Pyron and for-

merly of Roscoe.

Walker-Morgan Jack Walker of Lorraine and Miss Mildred Morgan of Roscoe were united in marriage Sunday night. Mildred is the daughter of Mrs. J. F. Hemphill of this city and has a host of friends here.

SICK AT HIS STOMACH

"I was suffering from stomach trouble in 1917," says Mr. C. K. Nelson, a railroad engineer living in Pulaski, Va. "I had a tightness in my chest, a shortness of breath. There seemed to be a heavy weight in the pit of my stomach, and quite a bit of nausea, yet I couldn't vomit. I tried different remedies, yet suffered on just the same. When in West Virginia on a work train, I was in such a condition that I just gave up and came home. I couldn't stand to work, in my condition. Some one told me about Black-Draught. I started taking it in small doses after meals. It helped me, and I went back to work."

Makes Your Stomach Like New

One dose GORDON'S banishes indigestion, sour, gassy stomach, bloating—all discomforts that follow eating. Soothes and heals irritated lining—makes stomach like new. Costs less than 3 cents a dose.

"Just as ONE OLD Friend TO Another"

Henry Ford Plans Notable Tribute to Thomas A. Edison on 50th Anniversary of Invention of the Incandescent Electric Light

TWO men who have changed the history of this country by doing the impossible, because they did not know it was impossible, will dine together on the night of October 21st at Dearborn, Michigan. One will be host; the other, guest of honor. With them will be a group of famous men, who have reached the heights in the various arts, professions and industries of the Twentieth Century.

The occasion will be the celebration of the fiftieth anniversary of the invention of the electric light; the host, Henry Ford; the guest of honor, his friend, Thomas A. Edison.

Although the whole civilized world will "listen in" by radio to the tributes that will be paid Mr. Edison that night, the celebration itself will be marked by a homely simplicity and informality. It will be the personal tribute of one friend to another. Because of the benefits that Mr. Edison's inventions have conferred upon the entire world, however, Mr. Ford considered it only fair that representative citizens from all countries should be among the invited guests.

Remembers His Admiration

"You see," he said recently, "I haven't forgotten the respect and admiration I felt for Mr. Edison long before I had the privilege of meeting him and becoming his friend. And somehow I feel there are millions of other people today who feel about Thomas Edison as I felt then. I want them to be represented at Dearborn on the night we let Mr. Edison know how beloved he really is."

In the past two decades the country has come to know something of the friendship existing between Mr. Ford and Mr. Edison through the newspaper reports of their vacation trips together.

Comparatively few people know, however, that Mr. Edison had been Ford's inspiration for many years before they met. Edison was just winning world recognition when his future friend was a school boy of twelve or thirteen years. Like many other lads

of that day, Ford's imagination was fired by the story of the young man who had risen from obscurity by no more than his own industry and talents. Later, Ford frequently passed the Edison Electric Light Company and largely through his admiration of the inventor he was impelled finally to go there seeking a job. That job gave him his first contact with Edison and brought about their comradeship.

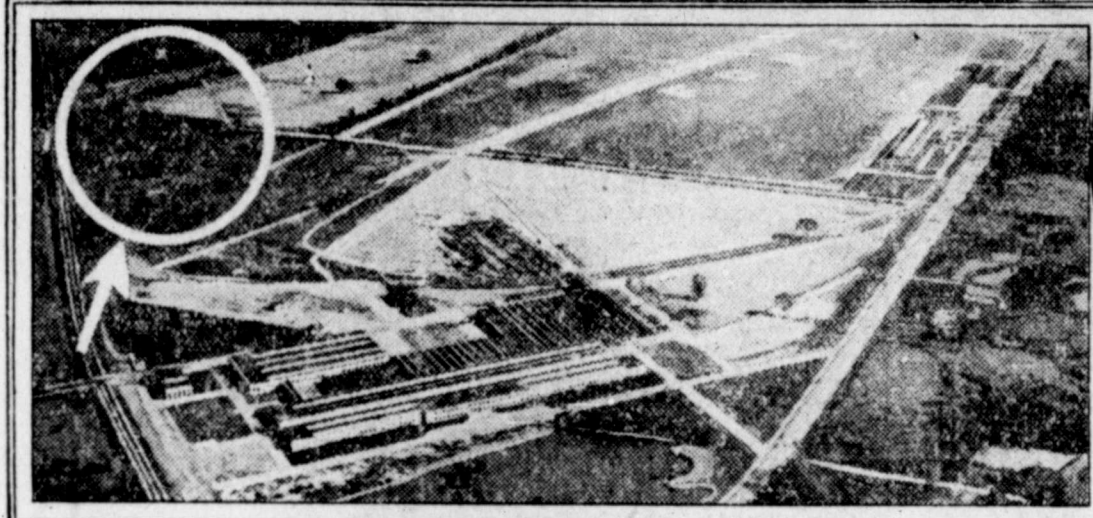

Visited Luther Burbank

The Ford-Edison friendship has embraced associations with many other important men who were companions on some of the camping parties or trips about the country. While attending the Panama Pacific Exposition in San Francisco Messrs. Edison and Ford visited at the home of Luther Burbank, the plant wizard. During their long acquaintanceship, Ford's ideas and admiration of Edison crystallized and with the crystallization came a desire to preserve for humanity memories of the life of the great inventor, and particularly the buildings that figured so prominently in the great work at Menlo Park, New Jersey, the birthplace of modern lighting methods. Ford wished also to make these buildings, and the equipment that went with them, an inspiration to young inventors. All this was as an honor to his friend.

Dearborn was selected as the place for the removal and restoration of the laboratories, machine shop and other Edisonia. It seemed appropriate that the area about Detroit, where the inventor passed his early years and began the journey toward the heights of accomplishment, should have first claim to this shrine to achievement.

So, during the past twelve months, the Edison laboratories at Menlo Park, and Fort Myers, Florida, have been transported bodily to the site of an Edisonia village at Dearborn. With them have come the boarding house of Sally Jordan, where the Edison assistants lived when Edison invented the electric light. There, on the night of October 21st, this year, the cere-

An intimate picture of Thomas A. Edison and his friend, Henry Ford.

The Edison buildings have been placed on the site enclosed in the circle. In the foreground are the Ford Engineering Laboratories. The picture shows also a section of the Ford Airport.

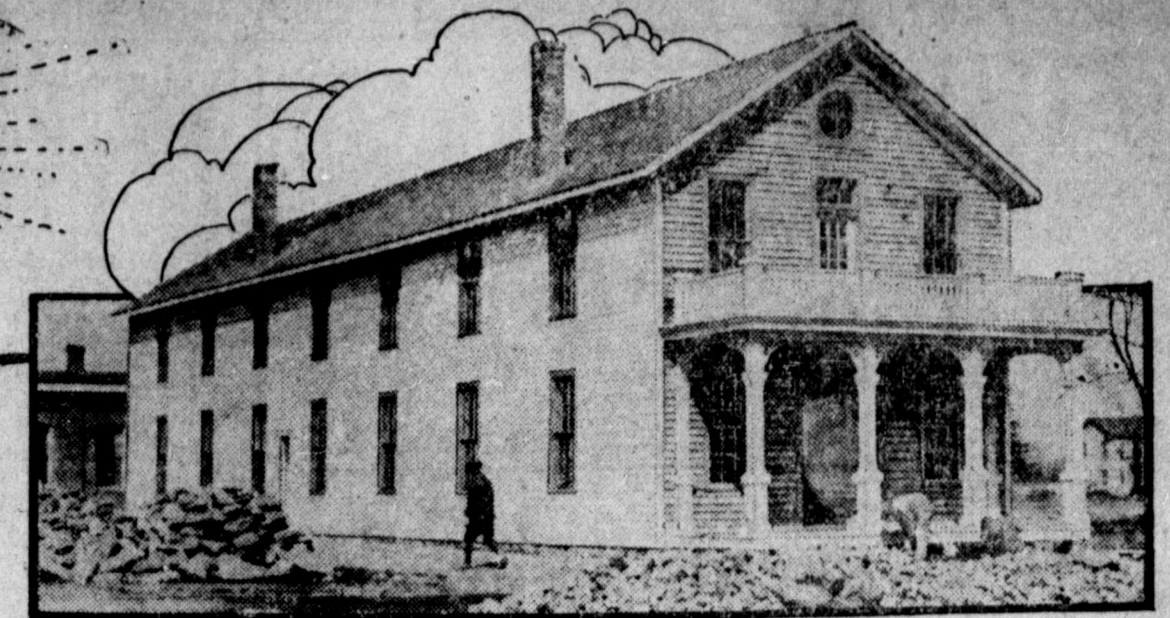

mony of introducing the first incandescent light will be reenacted with the famous old inventor himself playing the leading role.

Other distinguished participants in the celebration will be brought from Detroit to Dearborn on a quaint old train that will be a reproduction of the train that ran on the railroads of 1859.

At Dearborn they will disembark at the "Smith's Creek" station, of the Grand Trunk Line. This station has also been given a new site at Dearborn because it is one of the earliest of the Edisonia exhibits.

Sixty years ago, Thomas A. Edison, then a boy of sixteen, was once set down on its wooden platform with much haste and no dignity while an

irate conductor stood guard at the baggage car door and howled threats of dismemberment. Young Edison was a news dispenser in those days but he experimented with chemicals on the side. His small laboratory occupied a corner of the car. On that particular day he had mixed the ingredients of an explosion and set fire to the baggage car.

The old Edison laboratory from Menlo Park, N. J., where the wizard of electricity developed the light that was soon shown round the world. The picture shows the new location in Dearborn.

The fact that the "Smith's Creek" station has been made part of the Edisonia village will give some idea of the thoroughness with which Mr. Ford has gone about setting up an exhibit that will visualize in detail all the colorful phases of the famous inventor's life.

It has not been for a mere one night's celebration, however, that all this Edisonia memorabilia has been mobilized. The distinguished visitors

the annual Reliability Tour, held to test and demonstrate the reliability of the airplane on long trips about the country, will end at the time of the anniversary events in Dearborn. This tour always attracts national interest and it is hoped that the airport lighting, with great electric beacons, at the time the tour is nearing completion, will serve to show another contribution by Edison to human progress. The small, incandescent bulb has grown to mighty proportions, as the beams that will shoot upward into the night will demonstrate.

Inspiration for Youth

After the memorable night has come to a close, however, the thing that Henry Ford wants most to do for his friend, Thomas Edison, will take definite shape and become a living reality. The museum and school of technology, now in process of formation, will open its doors. Mr. Ford is anxious to assist in continuing the Edison inspiration in American mechanics. He feels that association with the equipment and machinery that yielded to Mr. Edison his great discoveries will be an added inspiration to youths who go to Dearborn.

When the restoration is completed everything will operate just as it did in the days when it was used by the wizard of electricity. In Henry Ford's opinion nothing can give the youth a better picture of the progress of invention and industry than tracing it through the different phases since October 21, 1879. And either in the Edison collection, the museum of Americana which Ford has been collecting for years, or the Ford factories, the types of electrical machinery leading from 1879 to the present day will be available for the student.

In place of a museum with "silent" signs to curb the enthusiasm of young visitors there will be at Dearborn an active plant in daily operation, where representatives of the oncoming generation may find inspiration, encouragement and practical education. This is Henry Ford's real tribute to his friend.

First house ever lighted by electricity. It has been removed by Henry Ford from Menlo Park to Dearborn.

will see the epoch-making event of fifty years ago re-enacted. They will pay their tributes to the wonderful old man who has given so many inventions of incalculable value to the world, and the world, through the instrumentality of the greatest hook-up of radio stations ever attempted, will listen in. Edison himself will speak.

An important feature of the anniversary celebration will be the participation of the airplane. The Ford Airport is nearby the Menlo Park village and

Meeting of Commissioners' Court

The September reports of R. E. Gregory as tax collector, and Maymie Taylor as county treasurer, examined and approved.

Quarterly reports of J. Lee Jones as county and district clerk, examined and approved.

Monthly report of W. S. Stoneham as justice of peace, approved.

The court was advised that there remains \$55.27 to the credit of Road District 1 in the City National bank.

The county treasurer was authorized to deposit said amount to credit of road and bridge fund of the county.

The court authorized purchase of 5.93 acres of land from W. H. Jones for \$593.00, being located in the SW corner of sec 46, blk 25, T. & P. Ry.

The court then decided to the State highway department 1.14 acres of land, being part of 5.93 acres purchased from W. H. Jones, this land to be used as part of Highway No. 1 of Mitchell county.

The jury of view reported in the petition of N. E. Browne et al for the public road of the first class, 40 feet wide, to be established along the east line of sec 93, and the west line of sec 94, blk 27, T&P Ry. Co.

The court accepted the recommendation of the jury to establish the road.

The report of jury of view for a road petitioned by B. F. Dulaney, beginning at SE corner of sec 138 and extending along south boundary line of said section a distance of one mile, was accepted and the road established.

The report of the jury of view in petition of T. M. Grant et al for a public road 60 feet in width along east line of sec 24, blk 29, Tsp 1N, T&P Ry., accepted and the court declared said road established.

WOMEN QUOTE "ADS" WHICH GET RESULTS IN CLUB PROGRAM HERE

Classified "ads" of The Record got results Tuesday at the Luncheon club when a trio of women from Loraine—Mrs. Kirk Taylor, Mrs. W. R. Martin, and Mrs. Bill Roland, gave a travesty on advertising. The purpose of the ads was to get a laugh and they certainly got results, and we don't mean perhaps.

A small table on the stage, at which Mrs. Roland sat, represented the classified advertising department of the Colorado Record. Mrs. Martin and Mrs. Taylor called up representing themselves to be the following customers:

"This is Joe Mills. I want to put in this ad: For Sale—An automobile by a man leaving town with new upholstery."

U. D. Wulfinj wanted to advertise a Jersey cow that produces six quarts of milk a day, a cookstove and a Ford car.

Jim Greene had lost a cane and wanted the following ad printed: "Lost—Gentleman's cane by a man with an ivory head."

J. W. Randle's ad read: "Wanted—Salesman to sell our eggs not over 40 years old."

Ford Morris advertised that he "wanted a boy to deliver fish that could ride a bicycle." He also advertised: "See me for fryers I kill myself every morning."

Ralph Lee had a laundry notice which said: "Don't send your clothes somewhere else to be ruined; try me first."

Bob Stubblefield of the Acorn Store "Wanted five girls to sew buttons on the third floor."

Rev. W. C. Ashford sought to print a church notice which read: "Next Sunday at the Baptist church there will be special music by the choir, assisted by the new organist. The church will then be closed the following three Sundays for repairs."

Classified Ads will NOT BE accepted over the telephone, and must be paid for when inserted.

We carry a complete line of office supplies.

SLATS' DIARY

Friday—Little Slim Buckner cum past are house this afternoon all X-cited up and ma ast him what was the matter with him and he replied and sed he was rushen home becuz they had a new babie at his house. Ma ast him what was it and he sed it was a child of sum kind but so fur he diddnt no weather he... was a bruther or a sister yet.

Saturday—I tried to tawk ma out of a Xtry peace of Chalklit pie today at the dinner table but I failed very bad. Ant Emmy piped in and says Dont you no that Pie kills more people than bullets does. I ansered back and sed Well mebbly so but drather die with a stumick full of led enn, ways.

Sunday—Ant Emmy axually go off a wice crack today. We had wen to church and seen Mrs. Cory Blun there with her sister. Ant Emmy: new all about her and sed she has been devored three times at leas and that when she was here at hom why people tawked about her... much as they did about the weather. Witch Cory seemed to be not to b caring nothing about.

Munday—Pa was envited out to Stag party tonite and after he ha got drest and went Ant Emmy kind smiled and sed Well Well I neve new till now what a Stag party was. I all ways that it was a sort of... masquerade party or other to wite people went dressed like a differan animal and ect.

Tuesday—Ant Emmy says she ain never a going to vote agen. Shv voted last Fall for the 1st time any her Candidate was elected but shv says to this day she haint herd... wird frum him so she dont think h freely apreshiates what she done fo him a tall.

Wednesday—Me and Slimmy Buck ned had a fite today and beleave m I got the best of it and him. Ant Emmy sed it was becuz I had thrite on my own side. The way it was Slim sed my Pa wasent fit to asso shiate with hogs. I sed he was s then the trouble started and I gave him a offle lickien.

Thursday—And then agen today I goes and have a nother fite. This time with Hinky. And wen I finely floors him with a upper cut to the Jaw whv I give him two, or 3 extr for good measure and then the teech er frum the Sunday Skool come a

Beautiful Scene To Be Shown In Mother's Boy

A fashionable cabaret scene, unsurpassed for beauty and the high quality of its appointments, makes the Pathe all-talking picture, "Mother's Boy," starring Morton Downey, well known Broadway tenor, which will be the feature attraction at the Palace Theatre on October 20, 21, and 22, one of the most notable dialogue film productions ever shown in this city. Helen Chandler, Barbara Bennett, Beryl Mercer, Osgood Perkins and John T. Doyle, all stage players of popularity and reputation, re featured.

In keeping with the richness of their surroundings, the men and women who are seen in this delightful sequence, are top-notchers in their individual fields. Among the 30 couples seated at the tables were many professional models, well known to patrons of Fifth avenue modiste shops, rich fur emporiums and night clubs in New York. Of ne men, the faces of many are known to those who scan the advertisements for the dressiest collars, suits and overcoats.

It is in this cafe that Tommy O'Day, who is his "Mother's Boy," formerly a delicatessen delivery clerk who has become a famous night club singer, meets Beatrix Townley, a wealthy society woman who charmed by his vocal artistry, interests herself in his future and obtains for him the leading part in a famous stage revue. The cafe scene is typical of New York club life and the gold buttoned waiters are those who nightly officiate in Morton Downey's famous Club Casanova in New York.

The story of "Mother's Boy," written by Gene Markey, is a deeply moving, dramatic, thrilling comedy of the lower East Side in New York. The cast is composed almost wholly of noted stage players.

We carry a complete line of office supplies.

Longfellow Locals

Longfellow school opened Monday with a good attendance. A large number of patrons were present. Miss Burish, State health nurse, gave a very interesting talk.

The trustees and patrons are filling in the yard and making other improvements at the school to beautify the grounds.

L. C. Hinton visited in the home of H. L. Baker Sunday.

Mr. and Mrs. Wood Walding spent Sunday evening with Mr. and Mrs.

O. D. Britton.

Mrs. Virgil Frasier went to her husband at Amarillo last week.

Mr. and Mrs. O. W. Watlington of Colorado visited her mother, Mrs. G. I. Braswell, Sunday.

Mr. and Mrs. A. K. McCarley and family spent the week-end with Mr. and Mrs. E. W. Watlington of Andrews.

Our cynical old bachelor friend says he doesn't believe that woman was created to share men's troubles for the reason that before she was created he didn't have any.

"Eat Your Spinach, Dear"

HAVEN'T you often said that to the children, and applied the same remark to carrots, too? For children are often reluctant to eat these two vegetables so rich in vitamins and so healthful because the youngsters say that they haven't "enough taste."

One way to solve this problem is to add a dash of granulated sugar to the water in which these vegetables are cooked. It not only enhances and develops the flavors of these vegetables themselves, but it also increases their food value.

Try These

Carrot Boats with Spinach: Cook even sized carrots until tender in boiling salted water with a dash of granulated sugar. Drain. Cut in halves lengthwise if very large. Spoon out centers of the halves and

sprinkle the cavities with salt. Heat a can of spinach, season well with salt, pepper, butter, a little lemon juice or vinegar, and also a dash of granulated sugar. Then pile the spinach in the carrot boats. Stick a buttered ring mold. Keep hot while preparing the beets. Heat canned beets in their own liquor with a dash of sugar. Drain, chop and season well with butter, salt and pepper. Turn the spinach mold out onto a hot, round platter and fill the center with the beets. You may sprinkle chopped, hard-cooked eggs over the spinach ring.
