THE REPORTS OF THE SPIES

GOLDEN TEXT—The Lord is my light and my salvation; whom shall I fear? the Lord is the strength of my life; of whom shall I be afraid?
LESSON TEXT—Numbers 13:17-14:45.
PRIMARY TOPIC—Two Brave Spies.
JUNIOR TOPIC—Scouting Through the Promised Land.
INTERMEDIATE AND SENIOR TOPIC—The Brave and the Cowardly Scouts.
YOUNG PEOPLE AND ADULT TOPIC—How Faith Gives Courage.

I. The Spies Sent Out (13:17-20).
Less than two years have passed since the Israelites were delivered from Egyptian bondage. They are now at Kadesh-barnea within sight of the Promised Land. Moses urged them to go in and take immediate possession (Deut. 1:21). But they failed to do so because of unbelief (Heb. 3:19). The record in Deuteronomy 1:19-25 shows that God did not take the initiative in sending out the spies, but that the people, because of lack of faith, made the request. There was a threefold purpose in sending out the spies:

1. To see whether the land was as God had told them (v. 18).
2. To see whether the people who dwelt there were strong or weak, few or many (v. 18).
3. And to see whether the cities were made up of strongholds or of tents (v. 19).

II. The Commission Executed (13:21-23).
They entered the land from the south and traversed it to its northern limits. On their return they gathered some specimens of fruit.

III. The Spies Rendered Reports (13:26-33).

On their return this committee of explorers rendered both a majority and minority report to the entire congregation (v. 26).

1. The majority report (vv. 26-29).
 - a. "The land floweth with milk and honey" (v. 27).
 - b. The people who live there are strong (v. 28).
 - c. The people live in walled cities (v. 28).
 - d. The land is inhabited by giants (v. 28 cf. v. 33). In comparison with the inhabitants they saw themselves as grasshoppers. Furthermore, they saw the people so distributed that it seemed impossible to conquer them.
2. The minority report (vv. 30-33).

This report in part agreed with the first. It did not ignore the difficulties nor dispute the facts, but it did deny the conclusion of the majority. They did not minimize the task before them, but asserted that with God's help they were well able to get possession of the land, and therefore urged immediate action.

IV. The Rebellion of the People (14:1-44).

1. This rebellion began by crying (vv. 1-3). They even wished that they had died in the wilderness or in Egypt. God took them at their word. He sent them back to wander in the wilderness for thirty-eight years, during which time all of that generation died except Caleb and Joshua.

2. Proposition to return to Egypt (vv. 4-10). They proposed to select a captain as their leader. Joshua and Caleb protested against this, which so exasperated the people that they were about to stone them when God manifested his glory before all Israel in vindication of the loyalty of Joshua and Caleb.

3. God's wrath upon the people (vv. 11, 12). Because of their unbelief God purposed to smite them with pestilence, disinherit them, and supplant them with a nation mightier than they.

4. Moses' intercession in behalf of the people (vv. 13-19). Moses plead with God against this judgment because the Egyptians would hear of it and blaspheme and this they would pass on to the other nations, saying that God was not able to bring them into the land.

5. The Lord's response to Moses' plea (vv. 20-30). He assured Moses that he had granted pardon according to his intercession but told him that although he would bring them into the land according to his promise, yet with the exception of Joshua and Caleb the men of that generation should be barred.

6. The presumption of the people (vv. 40-44). Having in unbelief refused to go up at the command of Moses, they now in presumption go up. **V. The People Smitten by the Amalekites and Canaanites (v. 45).**
Because the people refused to heed Moses and presumptuously attempted to go up, God permitted the Amalekites and Canaanites to come down upon them to their destruction.

RANDOM THOUGHTS

There is never a gospel in a grove.

The man who forgets to pray may regret that he has lived another day.

Vinegar is the result of ferment; the less you carry round with you the better off you will be.

Some of us are weak and some strong; the helping hand of the strong should be held out to the weak.

"ELECTRIC COOKING

BEATS THE BEST OLDFASHIONED COOKING YOU EVER TASTED"

SAYS MRS. MODERN

And Mrs. Modern knows what she is talking about, for she does her cooking electrically and she wouldn't change for the world.

WESTINGHOUSE Automatic ELECTRIC RANGE \$14.50
Completely Installed

She knows, for example, that she can prepare just the same delicious meals that her mother and grandmother before her did without the hours and hours of hard, hot work that they were forced to contend with.

She knows, too, that it doesn't cost any more than other ways of cooking; that she saves time and energy, and that she gets better results the electric way.

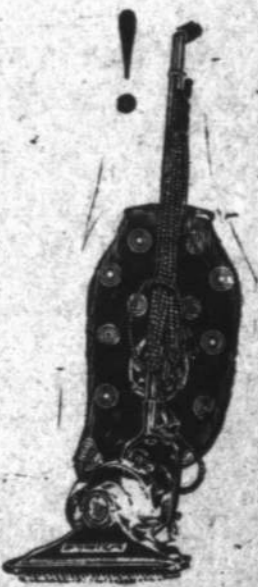

The Westinghouse fully automatic electric range illustrated above is noted for its Flavor Zone oven, which imparts to the foods cooked therein the savory goodness of the old Dutch Oven. Look this range over at your convenience—you'll like it a lot.

Fair Visitors Invited To Make Collins Store Headquarters

**LAMESA'S LEADING DEPARTMENT STORE
WILL PLAY HOST TO FAIR VISITORS**

**SHOWING LATEST STYLES
FOR MEN, WOMEN
AND CHILDREN**

On Thursday and Friday, September 22nd and 23rd, Lamesa and Lamesa merchants are to be hosts to all Dawson county residents, and also to many others in adjoining counties. It is the date of the Dawson County Fair.

Now at this time, The Collins Dry Goods Store wants to extend a cordial invitation to all people to come and attend the Fair. We believe you will enjoy the exhibits that are being arranged, and we are certain that you will be pleased to meet with friends and neighbors, to discuss cotton crops, prices, etc., to tell of your canning and how the turkey crop is progressing, and all other topics which are of particular interest to the farm family.

Now that we've invited you to the Fair, we wish to extend our personal and most cordial invitation for you to make our store your headquarters just to show you that we really want you to come to Lamesa and to be our guests while here, and we'll be disappointed if you don't come and see us.

Latest Fall Styles

While you are in our store, we want you to take your time, go into each department and see the big display of new Fall Merchandise we have assembled together for you.

There is the latest in every department, and the advertisements on this page picture to you only a few of the hundreds of articles we have in our store.

Everything is fresh and new, and of the latest creations. What a surprise in store for you, if you have not already been through these various departments and noted the tremendous changes that Fall has brought.

From men's shirts to women's coats, styles have changed in both lines and materials, and those on display in our store are the latest, you may rest assured of that, and further more, you do not have to go further than Collins Dry Goods to get the best styles, best quality, and best of all the best in price.

We wish we had the space here to tell you of the changes, but you can best get the idea of the tremendous change styles have undergone, by just going through our store and seeing them for yourself.

Our shoe department and men and boys work clothes department are still the talk of the town.

CHAMBER OF COMMERCE DIRECTORS MEET AT REGULAR BREAKFAST

Talk Fair and Highways

The Lamesa Chamber of Commerce met in regular monthly session Wednesday morning of this week at breakfast at the Westland Hotel. The following were present: Dr. R. F. Nix, first vice president, presiding, C. A. Hollingsworth, Carl Rountree, Dr. W. H. Bennett, Louis B. Reed, E. Haynes, Owen C. Taylor, F. T. McCollum, W. B. Collins, Joe Flaniken, C. Baldwin, J. R. Lowrie, W. D. Arnett, Mon. D. Thaxton and Wm. A. Wilson.

Besides routine business transacted reports were heard from the Agricultural Department, Owen C. Taylor chairman on progress of the fair and premium for first bale of cotton. J. R. Flaniken and Carl Rountree also reported work being done on highway matters now pending before the Commissioner's Court and the State Highway Department for Dawson County's two State Highways. It was also reported that an effort was being made to secure a road from Lamesa to Andrews county which will make a more direct route from Floy to Lamesa.

FEDERAL AGRICULTURAL EXPERIMENT STATION REPRESENTATIVE IN LAMESA

S. S. Burton, representing the Federal Agricultural Experiment Station at Woodward, Okla., was here this week inspecting plantings the station had made in Dawson county.

The Federal station has nine locations and plantings in this county to wit: Beckham Bros., Mrs. Ruby Davis, Olin Earnest, H. E. Easterwood, Austin Merrick, Gustav Smidt, R. M. Senter, Walter Thomas and W. A. Wilson.

The purpose of the stations in locating these plantings in Dawson county is to encourage tree and shrubbery planting both for ornamentals and hedges so states Mr. Burton. He commented very favorably on the care taken of the settings in this county and stated that he had noted with much interest the great number of trees set in Dawson county this past spring.

PLAINS FARMERS SAVE THOUSANDS

South Plains farmers this fall will be saved between \$15,000 and \$25,000 on their cotton crop because of a reduction of 50 per cent in penalties from light bales announced by the Texas Cotton association, an organization of cotton merchants and shippers. The charge is applicable for cotton selling for less than 10 cents.

The penalties last year were \$1.00 per bale for cotton weighing between 400 and 450 pounds; \$2 per bale for 350 and 400 pound bales, cotton authorities state. The new "dockage" for these divisions will be 50 cents, \$1.00 and \$1.50 for cotton selling at prices of less than 10 cents.

A private estimate of the South Plains crop this fall places the yield at 446,000 bales.

DECLINE IN POULTRY SHIPMENTS FROM STATE IS SHOWN

Austin, Texas, Aug. 31.—Poultry and egg shipments to other states from Texas during July amounted to 96 cars of 16 per cent less than the 115 cars shipped out of the State in July 1931, according to the Bureau of Business Research of the University of Texas. The decline occurred in poultry shipments which were 30 per cent less than in July a year ago. Egg shipments of 38 cars were 13 per cent greater than the 33 cars shipped in the corresponding month last year.

"Receipts of eggs from other states totaled only four cars compared with seven cars in July, 1931," the report said. Two cars were shipped in from Oklahoma and one each from Kansas and Missouri.

Few prices in New York showed marked improvement during the early part of July, as a result of the relatively small receipts of good eggs; but much of the gain was lost later in the month when the higher prices attracted larger supplies.

"Storage holdings of eggs as of August 1 was much below those of last year. Total case equivalent of both shell and frozen eggs on August 1, 1932, was 9,236,000 cases or 27 per cent less than the 12,781,000 cases on the corresponding date last year.

"While the storage situation is favorable for stronger egg prices an offsetting factor recently has been a relative increase in receipts at the principal markets compared with last year. While receipts continue to be behind those of last year the difference is not so great as it was earlier in the year."

MISS NADINE McMAHAN AND JOE BURLESON MARRIED

Coming as a distinct surprise to their many friends here, word was received Monday of the marriage of Miss Nadine McMahan and Joe Burleson. The ceremony being performed at Lovington, N. M., on that same day, September 12th.

The couple left here early Monday morning unobtrusively to their parents and friends.

Mrs. Burleson is the charming daughter of Mrs. J. A. McMahan, and has lived here most of her life. She attended the local schools several years where she was one of the most popular members.

Mr. Burleson is the son of Mr. and Mrs. W. B. Burleson who moved here from Abilene several months ago. He is employed with his father in the Burleson Candy Company here.

The couple will make their home in Lamesa.

THE FINAL THRUST

A newspaper man was told that he had but a few days to live. He summoned his attorney and instructed: "Make my will so my overdraft at the bank goes to my wife—she can explain it. My equity in my car to my son, he will have to go to work to keep up the payments. Give my good will to the supply house—they took some awful chances on me and are entitled to something. My equipment you can give to the junkman—he has had his eye on it for several years. I want six of my creditors for fall-bearers—they have carried me so long they might as well finish the job."

Mrs. Truman Campbell spent Wednesday and Thursday of this week visiting her mother in Lubbock.

Mr. and Mrs. Bob Lavender spent a few days this week visiting in Lubbock.

BAPTIST TO MEET IN SNYDER SEPTEMBER 20TH.

Baptists of the Snyder District will meet in Snyder on Tuesday, September 20th, at the First Baptist Church to complete plans for the Every-member Canvass Campaign. The meeting will be attended by 500 members of the 71 Baptist churches of the District, representing some 12,000 Baptists.

Speakers appearing on the program at Tuesday's gathering will be Dr. J. Howard Williams of Dallas, General Director of the campaign, Dr. W. R. White, Pastor of the Broad way Baptist Church of Ft. Worth, and Mr. T. C. Gardner of Dallas, who is an Associated Director of the campaign.

This meeting is a part of the Every-member Canvass Campaign of Texas Baptists to raise \$600,000 for Missions and Benevolences. The quota to be raised in the Snyder District is \$7,500, and Dr. P. C. McGahey of Snyder is the District Director.

Mr. and Mrs. W. D. Shipley and daughter, Billy, and Mr. and Mrs. J. W. Tarlton left Sunday for points in California.

Miss Sally Rutledge who has been here visiting Mrs. Frank Barkhurst, returned to her home in Fort Worth Tuesday.

Mrs. Jack Miller of Dimmett is here visiting Mrs. Roscoe Holton.

Mr. and Mrs. A. P. Edwards of Tahoka visited here Sunday.

Graham George of Tahoka spent the week-end here visiting friends.

Miss Enid Averett will leave the latter part of this week for Southern University, Georgetown, where she will work in the library this fall.

730 DIFFERENT KINDS OF
SOIL FOUND IN TEXAS

Seven hundred and thirty different kinds of soil have been identified in Texas within the 22 per cent of the state surveyed during the last thirty years. In a recent review of data on soil surveys, the division of soil survey, Texas Agricultural Experiment Station, found that 155 series of soils had been established, and from these 730 soil types and phases of type mapped.

Each of these soils, distinguished by certain individual features, represents a definite resource, either

actually or potentially, if used for the purpose for which it is best suited. If utilized without regard to their natural adaptation, however, or not protected and managed properly, these soils may fall into the marginal class and become unprofitable.

Soil surveys are expected to continue until all the counties of Texas have been covered and complete soil resources are known and catalogued and this inventoried information made available to the public. No plans for land utilization or for economic welfare of agriculture can be made properly without a correct e-

FOOTBALL NEWS

The opening of the local high school is accompanied by the usual or stronger interest in the high school sport of football. Though several star performers of last year's squad are lost to the team by graduation there is a nucleus of last year's squad and abundant new material for training by coaches McCollum and Gregg. Some forty aspirants for the Tornado squad are being trained daily by the coaches and the drills are becoming more intensive in preparation for the opening game with Big Spring on September 30 on the local football field.

Inexperience must be overcome by training. Those fans who visit the practice field each afternoon after school hours are already informed as to the enthusiasm displayed by the local lads. It is too early to forecast the type of team which shall represent Lamesa this season and defend the District Championship which was won last season. It is not yet possible to name the strongest of the players because their capabilities are still unknown. However, the squad displays an aggressive attitude in practice and exhibits ability to take coaching and have average size, weight and speed. The first game should tell most of the story of what may be expected of 1932 Tornadoes.

Requests for tickets on the part of Big Spring school authorities indicate that the Steers will also be looked over by their home-town followers that their chances for success in their Class A competition may be forecast.

One of the two girls in the bus was reading a newspaper. "I see", she remarked to her companion, "that Mr. So-and-So, the octogenarian, is dead. Now, what on earth is an octogenarian?" "I'm sure I haven't the faintest idea," replied the other girl. "But they're a sickly lot. You never hear of one but he's dying."

Shepherd Hill and Guy Travis are on the North Plains this week transacting business.

Claude Willis is here this week transacting business.

Mr. and Mrs. Frank Bass were Lubbock visitors Tuesday.

Mrs. Stone of Seminole was shopping in Lamesa Tuesday.

Miss Nina Scott left today (Thursday) for Lubbock where she will attend Tech this fall.

BLUE BOOK LISTS TEXAS "FIRST" IN SOUTH

The Blue Book, annual publication of the Manufacturers Record, publishes a list of the things in which Texas is first among the Southern States, as follows:

Area, productive power, agriculture, crop acreage, livestock value, number of farms, cotton gins, cottonseed products, mineral products, sulphur, petroleum, gas, carbon black, gypsum, sand and gravel, cement, railroad mileage, highway mileage, highway construction, motor registration, number of airplanes, airports, and landing fields, electric power production, paid-in bank capital, individual deposits in National banks, education, outlays for new school buildings, school enrollment, new insurance business written in 1931.

But for the inclusion as "Southern States" of Missouri, Kentucky, Maryland and West Virginia, Texas would have been "first" in a number of other items, as the Dallas News editorial points out, among them total wealth, total manufacturing, total bank clearings and "a number of others".

BAPTISTS TO CONVENE IN ABILENE NOV. 7-17

The Executive Board of the Baptist General Convention of Texas meeting in Dallas, September 13,

voted to change the date for the meeting of the Baptist Convention from November 9 to November 16. The Convention voted last year to meet in Abilene in 1932.

Plans were completed for the raising of \$600,000 for missions and benevolences by means of Every-member Canvass Campaign now in progress among the 490,000 Baptists of Texas. Dr. J. Howard Williams, Executive Secretary of the Board, was placed in charge of the campaign, and he has appointed seventeen organizers in as many districts representing every portion of Texas.

The campaign will continue until October 30. The final week, October 23-30, is designated as pledge week, at which time every Baptist in the state will be solicited for a pledge to the \$600,000 fund.

The money raised by this campaign is to be used by the Baptists for their work of missions and benevolences; every Baptist institution is to share in the funds, whether it is in Texas, in China or elsewhere. The proportion of the funds to go to each institution will be worked out at the meeting of the State Convention to be held in Abilene November 16th.

It's hard for me to keep up with the new language of big business, but as I understand it, and 'adjustment' is the equivalent to a raise. Of course, Rupert wouldn't know that; he has been working only since 1928; he should ask some old timer to explain what a raise is.

salad, two capons, two slices of meat loaf, two slices of turkey, one slice of chicken, one slice of ham, one order of cold-slaw, two lobsters a la Newburgh, one brownie, two slices of cake and two wedges of blueberry pie with ice cream.

**DRY, CLEAR WEATHER IS
WELCOME ON SOUTH PLAINS**

Cessation of heavy and unseasonable rains of the past few weeks seems to be assured at this time, and O'Donnell is rejoicing over that fact along with the rest of the South Plains and the entire state.

Clouds began breaking slightly Thursday, and sunshine has continued uniformly since that time. Highways and streets are more passable than during the first part of last week, but our own boulevards and avenues are in their usual chaotic condition following a rain.

Still, we can't equal the record of one of our neighboring West Texas towns. The Rotan Advance last week carried headlines stating that J. C. Bridges, a local business man, caught a fish in the street in front of his place of business Tuesday morning. On second thought, however, we are of the decided opinion that the only reason none of us caught one was that they had all drowned in the high water here in town. We must remember that our fish are of the dry water varieties found up on the Cap, while the Rotan fish are more accustomed to slight dampness. If we hadn't had quite so much rain, we could have started a fish market without any trouble.

CARD OF THANKS

We wish to express our heartfelt thanks to our many friends and neighbors who were so kind and sympathetic during the illness and death of our darling child, Leota Francis Robinson. Especially do we want to thank the ones who gave the beautiful flowers.

HANCOCK NEWS

A number of the people of this community met in the N. W. Harvick home Tuesday of last week and canned vegetables and chickens for Mr. Charlie Miller and children and for Mr. and Mrs. J. B. McLendon. With two sealers and six steam pressure canners two hundred cans were filled between 10 a. m. and 4 p. m.; thirty-two of the cans were filled with corn, sixteen with chicken, nine with squash and the remainder with peas and beans. The peas and beans came from the Harvick farm, the corn from the Bessie Lisenbee farm and the squash from the Oscar McLendon place. Mrs. W. T. Williams, Mrs. Fred Bell, Mrs. George Fillpot, Mrs. E. R. Clifton, Mrs. Charlie Harry, Mabel Jones, Mrs. Claude Jones, Mrs. Dee Phillips and Mrs. Oscar McLendon brought the chickens.

At noon the lunch was spread picnic fashion. Watermelon and cantaloupes given by Hollin Kennison were served in the afternoon.

Those present were: Mrs. Tom Miller and daughter, Annie Mae, Mr. and Mrs. Oscar McLendon, Mrs. Charlie Harry, Mr. and Mrs. Alva Huffstutler, and family, Bessie and Gladys Lisenbee, Mr. and Mrs. Claud Jones, Mrs. J. R. Harrell, Mrs. Jack Mears, Mr. and Mrs. Fred Petterson, Mrs. S. N. Ansley, Lonnie Stephens, Catherine and Minnie Edgmon, Willie Lisenbee, and Mr. and Mrs. W. N. Harvick and family.

**FOUR MAX BOYS OPEN SUN-
DAY FOR 3 DAYS IN COMEDY**

"Horse Feathers", latest of the mad, Merry comedies of the Four Marx Brothers, open Sunday at the Palace Theatre.

Groucho, Chico, Harpo, and Zeppo are again cast together in a picture that affords them opportunities for the same type of nonsense they presented in "Animal Crackers", "Monkey Business", and "The Cocoanuts", their three previous movie efforts.

An amusing plot holds the picture together. Groucho is a college president because that's the only way, it seems, he can get his son, Zeppo, out of college. Zeppo has been there for twelve years.

With the co-operation of Chico, village bootlegger, and Harpo, village dogcatcher, he ultimately accomplishes his object.

Upon this frame is built many a comedy situation. Groucho talks at his usual rapid-fire rate; Chico puns in dialect; Harpo says nothing and chases every blonde in sight; and Zeppo makes love to the best-looking girls available.

Mr. and Mrs. L. A. Hovsley, and Mr. and Mrs. S. D. Liles of Throckmorton are here visiting Mr. and Mrs. W. K. Crawley and Vernon Hovsley.

Trench Silos for Big West Texas Feed Crop

JUST WHAT ITS NAME IMPLIES, a trench silo is simply a trench dug into the ground into which chopped feed crops may be stored for feeding as succulent ensilage to dairy cows, beef cattle and work stock during periods of dry pastures or bad weather. Cheap, easily dug, easily filled, ensilage easily removed, the big disadvantage of a trench silo is excessive spoilage which may be avoided by properly filling, and by providing drainage. More than 200 were dug in Texas in 1931 and county agent reports indicate a big increase for 1932, especially in West Texas.

Clyde Bailey has returned from Dallas where he has been working.

Miss Marie McDonald returned the first part of this week from a visit with her sister, Mrs. Stokes in Slaton.

FREE MILK: Rather than accept prevailing low prices, Iowa farmers recently gave milk to the needy. Photo shows crowd at one of many free "milk stations" in Sioux City. Attempts to ship milk and produce by non-abstracting producers were halted by farmer picket lines patrolling the highways.

RUMORS that Montagu Norman, governor of the Bank of England, left, was here to discuss war debts or bond issues are officially denied.

It is one of the unusual flower styles being introduced at the International Florists' Telegraph Delivery Assn. convention, in Toronto, September 12 to 16.

A HERITAGE: That Capt. James Mollison, right, comes by his interest in flying naturally was revealed when he met his cousin, A. J. Amos, left, Scarsdale, N. Y. after his flight from Ireland. Mollison's grandfather was an early aviation enthusiast in Scotland and made many unsuccessful attempts to fly in machines of his own creation. Amos, an executive of General Foods, disclosed.

CONGRATULATIONS to Joan Blondell, right, pretty movie star, Hollywood's newest newtywed.

SOME THINGS WE HAVE

Here are some facts about the wealth and the resources of the people of the United States that ought to bid us take courage.

We have \$52,000,000 savings deposit accounts with over \$29,000,000 in the banks to their credit. In the mutual savings banks of the country deposits are \$1,233,000,000 in excess of what they were in the height of boom times.

There are 68,000,000 insurance policy holders insured for more than \$110,000,000,000, or almost seven times the amount in force in 1910. More than \$16,500,000,000 new life insurance was written in the depression year 1931.

Bank clearings for the United States in 1931 were \$462,000,000,000, while in 1910 they were \$168,000,000,000.

As a nation we hold more of the world's monetary gold than ever has been assembled in any one country. We have about \$4,000,000,000 of the

yellow metal.

The assessed value of property in 1930 was nearly \$167,000,000,000; in 1910 it was \$69,500,000,000.

The wealth of the United States estimated now at \$300,000,000,000, is about double the amount recorded in 1910, while our population increased during this period by only one-third.

We spent for public schools in the United States in 1930, \$2,305,000,000 and in 1910, \$426,250,000.

For highways the country spent 1,618,000,000 in 1931; while in 1914 the figure was \$240,000,000.

The automatic machine for home refrigeration has been perfected since 1925. In the three years of the depression, approximately 3,750,000 mechanical refrigerators have been purchased at an estimated cost of \$2,000,000,000, while more than 16,000,000 radios are now owned in the United States.

Our exports today are far in excess of our exports prior to the World War. While the United States

leads the world in foreign trade, it is true that 90 per cent of our business is done with and among our 125,000,000 people. This is the greatest present and potential market for our products.

DELPHIAN HOLD FIRST MEETING LAST TUESDAY NIGHT

The Lamesa Delphian Chapter held their first fall meeting on Tuesday evening, September 6. The president, Mrs. L. M. Pratt reviewed the constitution and by-laws of the club, outlined the year's program urging upon the members their fullest cooperation for a successful year's work.

Answer to the roll call, "Echoes from my Vacation," revealed a happy compliance of the members to the terms of the depression in spending their vacation.

Mrs. W. P. Ayriett talked on "Woman and Club Work," and Mrs. Lambeth gave a parliamentary drill. Mrs. Ralph Stuart presented the Junior Delphian club in a number that was very much appreciated. The officers for the following year

were then introduced.

President—Mrs. L. M. Pratt.
First Vice President—Miss Thelma Merrick.

Second Vice President—Mrs. Sam Smith.
Secretary-Treasurer—Miss Maurine Morgan.

Parliamentarian—Mrs. O. Lambeth.

Critic—Mrs. J. L. Morris.

Federation Counselor—Mrs. W. P. Ayriett.

Librarian—Mrs. R. E. Simpson.

Junior Club Sponsor—Mrs. Ralph Stuart.

GARLAND MOORE MARRIES CLEBURNE GIRL

Miss Inez Barron became the bride of Mr. Garland Moore in Cleburne, on Monday afternoon.

Mrs. Moore is the daughter of Mr. and Mrs. Roy Barron of Cleburne. She graduated from the Cleburne High School in 1931 and is a very popular member of the younger set at that place.

Mr. Moore is the son of Mr. and Mrs. W. O. Moore, who live northwest of Lamesa. He graduated from the Olney High School in 1929, and attended Texas Tech in 1930.

Mr. Moore has been employed with the Texas company in Cleburne for the past year and a half.

The young couple will go to Lubbock next week to live, where Mr. Moore will attend Tech this fall.

Russell Mitchell of Levelland spent the week-end here visiting his father, S. M. Mitchell.
