NUMBER 43

City Mail Service For Perryton To Be Expanded

Street Markers Must Be Put On Each Street; Sidewalks And House Numbers Also Required

Perryton will have city parcel post delivery and an extension of city mail delivery service provided certain qualifications are met by the City of Perryton and by individual property owners. Postmaster Mansel Coffee announced this week. First qualification for expanded mail service, Coffee stated, is that street markers be placed on each street. This must be done before the Post Office Department will approve any expansion, either in parcel post or city mail deliveries. Approval for the expansion was tentatively granted on October 1, providing the street markers are put in place.

Mayor G. T. Leatherman has stated that street markers would be made and placed, but that no definite time could be set as to when all streets would be marked.

Nail Gives Scoreboard To Perryton Schools

Through the efforts of Harry Nail, long-time Ranger booster, Ranger Field has been improved this week by the addition of a large scoreboard placed at the west end of the field. Nail not only donated the scoreboard but also donated the service and the streets between blocks must have a curb and gutter, with the street being either paved or topped with an all-weather surface. One-half of the lots in each block to receive mail service must be occupied by houses.

Efforts have been made for the past year to have Perryton approved for additional mail service and a parcel post route, and an inspection was made in July of this year, stated Coffee. At the time, the inspector stated that the additional routes would be approved provided the necessary qualifications were met.

It is proposed to extend city mail

If Your Dog Is Missing See Judge Shanks

Anybody lost a dog? Judge Dave Shanks has a small, short-haired, black and white dog at his home and he believes it must be someone's pet which has strayed away from home.

Three More Young Men Join Army

Three more Perryton young men have volunteered for the Army recently, announced Sgt. Youngquist of the Army Recruiting Service. Danny Ellis, age 18, volunteered for the Airborne Infantry, signing up for 18 months. George E. Fleicher, age 18, signed up for 18 months, also in the Airborne Infantry. Frank Wida, age 17, volunteered for 3 years with the Air Force, signifying a preference for the Pacific theatre. All of the men were sworn in at Port San Houston, Texas.

Will The Light Be On or Off?

LESS THAN HALF of the Ochiltree county USO quota of \$880 has been met after three weeks. Most of the Ochiltree county servicemen today are teen-agers who need a "home away from home" as much as their older brothers did during the war years. USO will run through 1947, after urgent pleas by the Army and Navy to keep entertainment going for young servicemen and hospitalized veterans. The campaign closes at midnight Saturday, October 26, and to meet the quota, more contributions are needed. Ex-servicemen Dean McCutcheon, Giltner LaMaster, Sidney Jines and Harold Hudson are taking contributions to close the drive. If they don't contact you, mail a check to Giltner LaMaster, county USO chairman, and show the servicemen you are behind them.

Rangers Battle Canadian Wildcats Here Friday Night

Locals Seek First Victory Four Years

Long-standing gridiron rivalry was renewed Friday night at the field when the Rangers of the Canadian Wildcats in their second conference game for the season.

The Rangers will be seeking to end a drought of several years in this game. Only once in the past six years have the Rangers defeated the Wildcats, squeezing a 6-0 victory in 1942. The championship team of the Canadian 26-0, but the Rangers have been few and far between for the Rangers since the six games played from 1940 to 1945. Perryton has scored 145 points while the Wildcats have scored 98 points in taking five of the six games.

Records for the two teams for the last five years:

	Perryton	Canadian
1941	6	7
1942	0	27
1943	0	31
1944	6	0
1945	0	13
1946	6	20

On the basis of this season's record, Perryton should be favored to defeat the Wildcats. The Rangers have won 5 and lost 1, while the Wildcats have won 3 and lost 3. Records of games played against the Wildcats:

Football Club Meets Monday

Full program, featuring football, basketball and a re-bash of the Canadian football game will be the bill of fare at the football club meeting to be held at the Perryton Hotel on Monday, October 27 at 8 o'clock, announced Charley Kent this week.

Schedules for transporting the Rangers squad to homes in the country will be out this week, Kent added. The new schedule will consist of the most part of men who were in the old list which has been in effect for two months.

This year's Ranger team is the best in several years," Kent stated. "So far they have received good reports from the fans. The Quarterback Club intends to keep up this effort and to do so needs a lot of help. We would like to see a big crowd at the meeting Monday night and promise that the entertainment will be well worth the effort."

Statue of Liberty weighs 350 pounds.

Coffee Resigns as Postmaster; Hale Takes Over on November 1

Mansel Coffee announced this week that his resignation as postmaster of Perryton will become effective November 1. He sent in his resignation on September 1, but did not receive notice that his resignation had been accepted until this week.

Archie Hale, present assistant postmaster will take over as acting postmaster on November 1 and will continue in this capacity until a permanent postmaster is secured. Hale has served over 11 years as Perryton's postmaster, having been appointed on May 20, 1935. He lived in Perryton since the very earliest days, having a real estate and insurance business for 27 years prior to becoming postmaster. He has served on the city council and has always been in the front in any civic enterprise of the town. No plans for the immediate future have been made, he added. "I just intend to be-

Anderson Attends State Meeting Of School Heads

Superintendent J. A. Anderson attended the annual conference of the Texas Association of School Administrators held in Waco on Sunday and Monday, October 20 and 21. Supt. Anderson is one of the five directors of the association.

Theme of the conference was "The People's Schools of Today and Tomorrow," with outstanding high school and university educational leaders giving addresses on all phases of the theme.

One outstanding development of the conference, reported Supt. Anderson, was the decision to place public school music activities under the sponsorship of the Interscholastic League. P. W. Savage, principal of Pampa High School was named to head this division of the League.

Boy Is Sent To Reform School For Car Theft

A career of crime was halted, at least temporarily, for a 15-year-old boy who appeared before Judge Dave Shanks in Juvenile Court Monday.

The boy, identified as Julian T. Doerfling of Illinois, was brought back from West Plains, Missouri by Sheriff W. H. Lance, who obtained the boy from officers of that city who were holding him on a charge of automobile theft. Doerfling admitted taking the automobile of W. A. Bryan of Perryton on Thursday, October 10 after Bryan had offered him a place to sleep in the car.

Questioning by Shanks revealed that the boy has already served 27 months in the Illinois state reformatory, having first been committed to that institution at the age of 11, for attempted murder.

Doerfling said that he awoke during the night while sleeping in Bryan's car, and decided to leave town. He started the car and drove south to Shamrock. As he had no money, he said that he stole gasoline along the way, arriving in West Plains, Missouri the next day where police officers apprehended him. He said that as far as he could remember, this was the eighth automobile he has stolen.

Judge Shanks remarked to the boy, "It looks to me as if you need the services of a psychiatrist more than anything else." To which the boy replied, "Oh, there have been lots of psychiatrists working on me, but they haven't done any good."

Judge Shanks committed Doerfling to the state school at Gatesville. Sheriff Lance took him to Gatesville Tuesday morning.

come a loafer for a while."

Hale started out as substitute city carrier in November, 1930, and has worked his way up through city carrier, substitute clerk, full-time clerk and was appointed assistant postmaster in 1942. He also worked in the post office at Tyrone, Oklahoma for one year prior to moving to Perryton. He is likewise a civic booster and is a prominent church worker for the Church of Christ. He stated that he did not want the permanent postmastership and would not apply for it, but would be the acting postmaster to the best of his ability.

No definite date has been set for applications and examinations to fill the permanent postmastership. Coffee stated that appointment must be made within six months, however, unless the Post Office Department extends the time.

"This Is It! ... He Can Do It!" Say Baptists As 10-Day Revival Meeting Opens Friday

Rev. Dick O'Brien

Mrs. Raymond G. Hall

Raymond G. Hall

With the slogan, "This is it! ... He can do it!" the Baptist revival opens Friday, October 25 under the direction of Rev. Dick O'Brien, pastor of the First Baptist Church of Big Springs and famous over the state of Texas for his inspiring gospel messages.

Music for the revival will be conducted by Mr. and Mrs. Raymond G. Hall of Midland, Texas, who are sincere and experienced leaders in congregational singing. At present Educational Director of the First Baptist Church of Midland, Texas, Hall has for some time been active

in revival gatherings, accompanied by his wife, an accomplished organist and pianist.

"We feel that Rev. Dick O'Brien has a message for everyone during this revival," stated Rev. O. C. Curtis, pastor of the First Baptist Church. "Rev. O'Brien won't be in the pulpit but 25 minutes at a time, but the sermon he will deliver in these 25 minutes will be remembered by the listen long after he has left the church."

Rev. O'Brien stated that he would draw upon the book of Job for

many of his morning messages, explaining that this book answers more of the every day questions of life than any other book of the Bible.

"For all our problems," said Rev. O'Brien, "Christ is the answer. He is the answer to post-war stability in this world and to the permanent security of our homes! You can get your heart right by receiving the Prince of Peace."

On Friday, October 25, opening night of the revival, services will

Perryton B Team Loses to Borger

The Perryton B team, with only a few weeks of practice, gave a heavier, more experienced Borger B team a workout Thursday night, October 17 at Borger.

Final score was Borger 82, Perryton 0. Coach Melvin Crawford reported that the Perryton B team was simply outclassed, having a light bunch of boys, while Borger came out with a team averaging nearly 150 pounds per man.

At that, Perryton made 7 first downs and made 118 yards by rushing in spite of the top-sided score. The yardage came in midfield however, and never paid off when in scoring territory.

Crawford stated that the Perryton team got a lot of good experience out of this game and that the lessons learned would stand them in good stead when they play a team more their size and experience.

Starting line-up for Perryton was LE Delbert Trew; LT Kenneth Davis; LG Marvin Moore; C Bobby Dunlavy; RG Duane Mounts; RT Jerry Cartwright; RE George Wilson; B Don Rogers; B Donald Graves; B Jerry Ward and B Dean Morgan.

Substitutes were Richard Blackmore, Bill Cronister, Orvil Brummett and Buddy Jones.

Sunday Fire Burns Clothes and Furniture

A fire which started in the living room of Leslie Rich, 500 East Central Ave., shortly before noon Sunday, spread rapidly through the house and devoured the clothing, furniture and bedding in two rooms before being checked by members of the fire department.

Rich stated that he had banked the fire in his small coal heater at about 11 o'clock, and had closed the house before going to church that morning. It was thought by firemen that the blaze started from the stove and spread from a pile of newspapers nearby to the bedding and wallpaper near the stove.

Ray Barclay, member of the fire department and neighbor of Rich, saw smoke pouring from the house and turned in the alarm.

Rich estimated the damage to be over \$1000. He had no insurance to cover the damage.

Approximately \$80, in small bills, which was in a box near the stove, was burned. Rich turned the charred bills in to the First National Bank and bank officials stated that most, if not all of the money would probably be redeemed by the Treasury.

Five Students Top Honor Roll In High School

Five students from Perryton High School lead the honor roll for the first six weeks, having made all A's these students are Mavis Harry, Ruth Wade and Duane Bell of the senior class and Bob Dunlavy and Betty Hall of the freshman class.

Forty-five students made the "B" honor roll, having no grade less than B in any of their courses.

Senior class honor students in this category include James Hale, Larson, Verne Hoy, Ernest Janzen, George Leslie, Carlos Smith, Don Stephenson, Carol Lawrence, Melba Little, Colleen Milledge, Nina Phagan, Colleen.

Herald Recognized By University of Texas

The Herald has been recognized again as an outstanding weekly newspaper, this time by the University of Texas. Paul J. Thompson, chairman of the Journalism Department, wrote that his department had selected twenty-five of what they consider the best weekly newspapers in Texas for use in the Journalism library. The Herald was included in this select group. This is indeed a worthwhile form of recognition of the Herald by a group of journalism authorities, especially since there are hundreds of weekly newspapers in the state. It is not only a privilege, it is an honor to place the Herald in the University Journalism Library.

Pot Luck Supper Draws Big Crowd

"The best crowd of the year," said Miss Anna Tevis, president of the Legion Auxiliary, when asked about the monthly pot luck supper held Monday, October 21, by the Legion and Auxiliary.

Feature attraction was the bingo game which drew a large number of participants but only two winners. Mrs. Elmer Harryman won the prize four times while Harold Witt rang the gong three times.

A short business meeting was held after the meal, at which time plans were discussed for Legion participation in the Armistice Day observance. Further details of the program will be announced later, stated commander Giltner LaMaster.

McMillen Club to Have Pie Supper

The McMillen Home Demonstration club is sponsoring a pie supper on Saturday night, October 26 at the McMillen school house.

The festivities will begin at 7:30 p. m. and the public is cordially invited to attend. Entertainment is being planned and all who are present will spend an enjoyable evening.

Rangers Beat White Deer 31-6 For First Conference Victory

Depending entirely upon a powerful running attack, the Rangers overcame the White Deer Bucks Friday night 31-6 to take their first conference victory.

The initial score came in the first quarter, five plays after the Rangers first got possession of the ball. Powell, Jones and Flowers worked the ball from the Ranger 40 across the goal line, with Powell smashing over for the counter. Keith Flowers attempt at extra point was not good.

Second score came on an out tackle play by Vernon Flowers after a series of running plays had brought the ball from midfield to scoring territory.

A weak kick by West of White Deer gave the Rangers the ball on the Buck's 30 yard line and set up the third score, midway in the second quarter. After Keith Flowers picked up 8 yards, Vernon Flowers added 6. Bill Jones went to the 5 yard line and Powell went over for the score. Keith Flowers kicked the

extra point this time to bring the score to 19-0.

A triple lateral, Powell to V. Flowers to Jones, accounted for the fourth score. With the ball resting on the 10 yard line Powell took the ball, handed it off to Flowers who went off his own right tackle and flipped the ball out to Jones who cut for the corner and crossed the goal line standing up. Try for extra point was not good and the half ended with the score 25-0 in favor of the Rangers.

Shortly after the second half opened, the Rangers added their final scoring counter for the evening on a thrilling broken field dash by Bill Jones. The Rangers had the ball on the White Deer 40 yard line after a nice punt return by Jones had brought it from the Ranger 45.

Jones took the ball, came wide to his left and found himself boxed in by four White Deer players. He cut back sharply to his right, shook himself clear and ran into another group of Bucks. He cut back sharply to the left, superb open field blocking took out the opposing players and Jones ran straight down the field for the score, outrunning the White Deer safety man all the way. Try for extra point was not good and the score remained 31-0.

The second team came into game at this point and finished the game.

White Deer's lone tally came on a 60 yard sprint to paydirt by Harvey, 120 pound substitute back, in the third quarter. Harvey broke through the line, outmaneuvered the Ranger secondary and dashed across the line for the score.

In this game, as in previous Ranger victories, it was aggressive play which played a big part in the winning score. Although outwitted from tackle to tackle, the Rangers line opened up holes almost at will for the backfield. Larry Slaughter operated well at center, dividing time with Wilbert Seidie, who effectiveness was hampered somewhat by an injured ankle.

Don Stephenson stood out as a tackle along with his running mate, at the other tackle, Bob Watchous. Guards Gene Stinson, Glen Johnson, Paul George and Carlos Smith showed heads up play as they consistently stacked up quick opening plays off the tricky T formation employed by the Bucks.

The linebacking pair of Raymond Powell and Vernon Flowers continued to display a brand of vicious tackling which throttled the Buck attack when ball carriers did get through the line into the secondary. Flowers was a whiz on pass defense, intercepting 3 of the 5 White Deer passes attempted.

On offense, the four starting backs operated just about equally well, though Jones' sparkling 40 yard broken field run was the offensive highlight of the game.

The second team displayed a rather weak brand of offense, but did well on defense. Bobby Stone got plenty of tackles from his defensive halfback position, while Larry Unruh supplied most of the offensive punch for the seconds.

A large crowd of Perryton fans attended the game, in spite of the distance to White Deer. In fact, it appeared that the stands contained as many, if not more Perryton people than White Deer boosters, which speaks well for the support the Rangers are receiving this year.

Mr. and Mrs. Frank Williams of Drumwright, Okla. were visiting in the home of his brother, Kirt Williams and other friends and relatives over the weekend.

Mr. and Mrs. Lester Baumann have returned from a ten day vacation; they visited Oklahoma City, Okla., Neosho and Mountain View, Mo. and other points of interest along their chosen route.

West Texas State College students home for the weekend included Miss Ruby Ann Patton, J. C. Jones, Dub Burleson, June Brown and Betty Pugh.

Everything for the business office at Stewart's.

Washington Is Still A Lively Place Though Congress Is Not in Session

By L. T. EASLEY

(For Jane Eads)

WASHINGTON—Congress is experiencing its longest recess since 1938, but that doesn't mean the city is without its lawmakers.

Apparently five months is too long for most of them to stay away from Washington, so accustomed have they become to being here throughout most of the year. Downers are here at any given time. They return for a week or two of conferences with federal agencies or at the White House.

A good number of the younger legislators have come back to enter their children in the local schools. Some in town now are old timers who won't be on the roll when the 80th Congress convenes Jan. 3.

Rep. Halton W. Summers (D-Tex.) is among the latter group. Retiring voluntarily after 34 years in the House, he figures it will take most of the rest of the year to sort through the tons of letters and documents he has accumulated over the decades. Some of the material he will keep for himself. Some will go to schools and other institutions. Much will be thrown away.

Most of the congressional offices remain open during the recess, with one secretary on hand to handle mail and occasional home district visitors.

Correspondence these days includes numerous requests from all parts of the country for tickets to the Army-Navy football game at Philadelphia Nov. 30.

Each congressman gets two tickets free. (He must pay an 80-cent federal tax on each), and in addition may buy a limited number to satisfy the desires of his grid-enthusiast constituents.

While voters write in only once each year for football game tickets—and of course only relatively few have this on their mind—they do write throughout the year and in large numbers for such things as farm bulletins and pamphlets on raising babies.

This prompts much swapping between congressional offices, for each is allowed a certain number of publications. Consequently a legislator from a busy seaport, for instance, will trade off most of his Agriculture Department literature on raising hogs or alfalfa to a mid-western congressman for the latter's share of navigation charts of coastal waterways.

don herold says:

Nature has its quiet processes which we had better permit to operate, or else.

When I was a kid and one of us got a sore, even we kids had a saying: "It won't get well if you pick it."

You can't raise carrots if you pull them up every day to see how they're growing.

If you get to taking too much medicine, pretty soon you're taking medicine to recover from medicine.

Nature operates in economic life, too. And this country is in its present mess, because Washington meddlers have monkeyed too much with natural human instincts—passed too many laws, imposed too many controls and de-controls and de-de-controls. For Pete's sake, let's let people alone a little in the U. S. A.

Federal agencies sell their old and damaged furniture and office equipment at auction.

A carpenter in the woodshops at the capitol has developed a big enterprise buying this equipment, assembling unbroken parts and selling it back to the government.

Recently he bought a large number of tables from the agencies, then sold them back to the Capitol without touching them, and of course netted a nice profit.

Miss Helen Carlson of Madison, Wis. is visiting in the home of Mr. and Mrs. Alton Boxwell and the children.

Nagurski Was A Bonecrusher

By ROBERT L. MOORE

(AP) Newsfeatures
RALEIGH, N. C. — Nominations for the all-time Gridiron Mutual Administration Society.

Coch Beattie Feathers of North Carolina State College and Bronco Nagurski, the bucking bone-crusher who now scouts for the Chicago Bears of the National Football League.

Bronco thinks Feathers is the "greatest running back I ever blocked for." And Feathers thinks the Bronco is the "greatest blocker and fullback I ever knew."

They made a great backfield team for George Halas' golden era of Chicago Bear supremacy in the mid-thirties.

Seeking to prove his points about Nagurski, Feathers recalls a 1935 game between Johnny Blood's Pittsburgh Steelers and the Bears. Nagurski blasted through center after taking a pass-off from Feathers.

With two beefy opponents hanging onto his back, Bronco accomplished the following innocent destruction simply by running over those who sought to hit him head-on.

Broke the shoulders of two men who hit him thigh-high and put a

third out of competition with a broken collar bone.

The North Carolina State mentor says that no old-time professional ever attempted to tackle Nagurski.

"They always used a rolling block," Feathers explains. "It was the only way he could be stopped. The three men he eliminated from the Pittsburg lineup in a single play were all freshmen in the league and apparently hadn't been warned about the big boy."

Feathers, still holder of the National League record for yards gained in a single season—1,052 yards in 1934, an average of 9.8 per try—says "it was easy behind Nagurski." The Wolfpack coach also played with Brooklyn in 1938 and 1939 and with the Green Bay Packers in 1940.

Veterans' NEWS

Most offices of the Veterans Administration are fast becoming places to war veterans of southwest, judging by the report of Contact Representatives, January through September, a total of two million concerns handled by VA rep- resen- tatives in Texas, Louisiana and Mississippi.

More than 1,334,000 were personal calls. 391,444 veterans phoned in and requests for information. 779,752 contacts involv- ing dependents.

Desire for information on Veterans legislation enacted by Congress in August drew large numbers of ex-servicemen to VA offices during September. Getting ready to go back to work in September also paid off calls to VA offices.

The phase of contact activi- ties of preparing benefit appli- cations sent forward as usual with representatives preparing applications in August and in September.

V-J Day the number of calls in Veterans Administration offices of Texas, Louisiana and Mississippi has increased 42 per cent. VA medical service officials.

Total on V-J Day was 5,296 calls with 7,503 on September 10, 1946.

Number of patients in VA hospitals throughout the nation increased 29 per cent since the war's end.

Cops Figure Out 47 Ways to Tell If Man is Drunk

(AP) Newsfeatures
BILLINGS, Mont. — Billings police are instructed to consider these questions in deciding whether a person is drunk:

Does his breath have an odor of alcohol? Is it faint, moderate, or strong?

Is he partly dressed or unclad, or is his clothing dirty?

Is he polite, excited, reserved, hilarious, talkative, insulting, combative, stupefied, delirious, silent or dull?

Is he hiccupping, belching, drooling, punching, kicking, fighting, sleeping, in convulsions or unconscious?

Are his eyes normal, watery, bloodshot, roving, downcast, or glassy?

Is he swaying, wobbling, sagging, falling or unable to stand?

Is his speech fair, slurred, stuttering, confused, incoherent, whispering or jerky? How is his enunciation?

Can he touch his finger to his nose?

To meet the mounting need for veterans' hospitalization, VA will construct nine new hospitals in the tri-state Dallas branch during the next two and one-half years.

World War II veterans entering business on VA-guaranteed loans are setting out on some unusual enterprises.

A Jackson, Miss., Air Corps veteran operates a complete children's shop. Down in New Orleans, La., a former artilleryman has opened a frozen food factory. Two former nurses in Seguin, Texas, have bought and are now managing a hospital.

Were You Invited to Join the Party Or Just to Pay the Bill?

On April 1st, there were 2,874,00 Federal employees aboard the National Ship of State from the Executive Branch of the Government alone—at a yearly cost of an estimated 7 billion 686 million dollars in wages. Your contribution toward the wages of these government employees will be \$145 this year—and every year until the free ride ends.

Since 1932, payrolls in the Judicial Branch of the Government have increased only 3 million dollars. In the same 14-year period, the payroll of the Legislative Branch—your elected representatives—has increased 5 million dollars. But, wages of new employees added since VJ Day to the Executive

Branch alone, (not including Army and Navy Departments) will increase the cost of this branch by 386 million dollars a year.

It is estimated the salary load of the Executive Branch is being pyramided at a rate of over 4 million per month each thirty days.

Can you afford this increased cost of bureaucracy and own a home too? Can industry absorb this increased tax burden without increasing the cost of its products?

Ask your Congressman who is contributing the funds for this ride on the Ship of State.

NATIONAL RETAIL LUMBER DEALERS ASSOCIATION, WASHINGTON, D. C.

Hand-Set Press Given to Museum By Guymon Man

Goodwell, Okla., Oct. 15—(Special) Giles E. Miller, Guymon newspaper publisher, recently made a gift of an old Franklin type hand-set press to the Panhandle Museum.

The press was manufactured in 1817 and is the first press used in Kansas. It was used in 1833 at the Shawnee Baptist Mission by the Rev. Jonathan Meeker. It later was used on the Liberal Leader in 1887 and later on the Hardesty Herald at "Old Hardesty." The Meeker press was part of the equipment

moved to Guymon when the Guymon Herald was established in 1901 by Dick Quinn. The Herald and the press passed through a succession of owners and in 1932 was placed in the Panhandle Museum. Mr. Miller has allowed the press to be displayed at a number of press conventions and several historical society museums. He has been actively engaged in newspaper work for more than a half century.

Mr. and Mrs. W. E. McMillen are taking Mrs. E. L. Whippo to Amarillo Friday and she will go on to Dallas to visit with her daughter, Mrs. Troy Hilton and family.

It is believed that poliomyelitis was first described by a London physician in 1781.

Grizzlies on Rampage In Northwest Montana

KALISPELL, Mont., Oct. 23—Aroused by three recent attacks on human beings by grizzly bears in northwest Montana, the Kalispell Daily Interlake is advocating repeal of trapping laws that protect the grizzlies.

One bear mauled a camper badly before it was killed by a rifle bullet. Another chased a forester into a tree and tore off his shoes. A small dog saved two hunters from a grizzly by diverting its attention after the bear had attacked one of them. The dog was killed by a blow from the bear's paw.

Time set line at reasonable prices at Stewart's.

"SUN-SATIONAL"—Something new for the resort season is this backless halter, called the "sun-sational" by its designer, M. R. Fleischman. The bra has a plastic bicycle clip motif around the bottom, with drawing to hold top snugly in place. You don't have to unfasten shoulder straps to get an even tan—that's the idea.

Fighter Hurley Has New Scrap In Politics

Santa Fe, N. M., Oct. 22—(AP) Major General Patrick J. Hurley, who asserts he will fight anything "a second old and an inch high," is in the midst of another scrap—this time political.

The colorful soldier, former Secretary of War, international trouble-shooter for the late President Roosevelt, and until recently United States ambassador to China, is the Republican candidate for the U. S. Senate in the November 5 New Mexico general election.

He seeks the post now held by Senator Dennis Chavez, 11-year veteran in the Senate who is running for re-election on the Democratic ticket.

The GOP nominee, as Hurley put it, is taking to his campaign "like a kitten to a hot rock."

Bringing a new note into campaigning, the tall, internationally-minded diplomat tells his audiences to "vote against me, folks, so I can stay at home and play with my pet rattlesnake." At a recent Republican gathering, the former coal miner-cowboy-fast driver, decked himself in western hat, checked shirt and boots, mounted a black horse and galloped up to the speaker's stand in a cloud of dust.

As the horse slid to a stop, Hurley shouted to a nearby cowboy who apparently feared for the General's safety: "Sir, I'll either be thrown off this horse or I'll dismount in an orthodox manner. I'll be damned if I fall off."

With the political results yet to be determined, Hurley's ability as a showman already is known. The distinguished Irishman rarely disappoints his audiences. He strikes the right pose, tells the right stories, and looks the fabulous character he is. Some observers believe his powerful oratory suffers from translation in the Spanish-American areas of the state and assert he should speak without benefit of an interpreter. They said there are few who can not understand his language, and if not his language his tones and gestures.

Hurley's friends believe his campaign has scored best in Democratic eastern New Mexico and think he is gaining favor in the northern part of the state.

Born in the Choctaw Nation of Oklahoma 63 years ago, Hurley went to work in the mines at 11, later punched cattle, drove taxi, served on the Mexican border with the Oklahoma national guard, and launched his varied military career. He became Secretary of War in 1929 and during World War II served as minister to New Zealand, special emissary to Russia, Great Britain and nations of the far East, and ambassador to China.

Hurley resigned from his ambassadorial post to China last November with the assertion that "career diplomats" were scuttling the administration's policy and looked a blast at the State Department. In his campaign, he misses no opportunity to rap the department's actions.

Denying a report that he once killed a mule by hitting it over the head with a fencepost, the GOP senatorial nominee retorts: "That's not so. Why, I've never hit a career diplomat with a fencepost."

Connecticut is known both as the nutting state and the constitution state.

Bridge East of Hardesty to Get \$70,500 Repairs

GUYMON, Oct. 20—A total of \$70,500 has been authorized by the Oklahoma State Highway Commission for new spans to repair flood damages to the Palo Duro Creek bridge on State Highway No. 3, nine miles east of Hardesty.

Local highway authorities indicated that \$16,500 of this amount would be used to build a temporary bridge over the creek, where high water last week washed out seven 36-foot spans of the large bridge. The flood waters left one span on the east bank and six spans on the west, they reported. However, the six span section was taken up and moved out of line so it may make the entire remaining bridge a total loss.

The temporary passage will be a two 30-foot span bridge large enough to handle the ordinary flow of the creek.

Mr. and Mrs. Ralph Adams and Pat of Compton, Calif. are visiting friends in Perryton this week. They are former residents.

GUESS WHO!—You have to look close to recognize Rita Hayworth with her once-red tresses dyed blonde and cut eight inches shorter. Hair-do is special for "The Lady From Shanghai."

Brazil Curtails Propaganda Bureau

RIO DE JANEIRO (AP)—Brazil has abolished its National Department of Information, created in 1945 to succeed the former Department of Information and Propaganda which supervised censorship during the war and for several years recently. However, the new service it operated will be retained to furnish non-political news from governmental departments.

P. T. A. Meeting On October 28

The Parent Teacher's Association will meet at 7:30 p. m. Monday, October 28 in the high school auditorium for a regular meeting and informal reception.

Mrs. Spencer P. Whippo is in charge of the program; the theme is "Laying Firm Foundations in our Homes."

Following the program and business, which will be conducted by Mrs. Manse Wood, P.T.A. president, a reception will be held.

All parents and faculty members are urged to be present at this meeting.

California occupies more than one-half of the Pacific coastline of the United States.

Mountain laurel is the state flower of Connecticut.

Law Locked Out

HOPKINSVILLE, Ky. (AP)—prisoner in the jail here, apparently unimpressed with the security of the cell door until he tore up the lock. When Jailer Alton White went to remove him, he found it necessary to chase him out of his cell.

How much **LIGHT** is enough to read a newspaper?

IT'S good to settle down with your favorite newspaper when you have better lighting at your elbow for easier, smoother seeing.

Under modern lighting, you'll be seeing more and seeing faster without straining your eyes or inviting fatigue. And eye comfort is important. For reading or writing... wherever eyes are called upon to see quickly and surely... try a three-light lamp that brings you 100-200-300-watt lighting in a single bulb.

You owe it to your eyes to find out about better lighting now.

COMMUNITY PUBLIC SERVICE COMPANY

EYESIGHT IS PRICELESS—LIGHT IS CHEAP

You can get free advice on recommended light bulb sizes and suggestions for improving your home lighting at our office. Enjoy better light for better sight.

PLAINVIEW HARDWARE COMPANY

PAPEC

Model X Hammer Mill for Low Cost Grain and Roughage Grinding

● GUARANTEED PERFORMANCE

The Papec Model X is guaranteed to grind any feed, either grain or roughage, to a desired fineness. Within its power range of 7 1/2 HP to 35 HP, it is also guaranteed to outgrind any other make of hammer mill working on the same job. Back of this guarantee stand Papec's 40-year-old reputation for good machinery at low prices.

● BUILT FOR SAFETY

Heavy steel construction, low operating speed and a built-in tramp metal trap are the Papec Model X owner's assurance of safety. The accurately balanced hammer assembly turns on heavy duty ball and roller bearings at a shaft speed well under that required by most hammer mills. The individual hammers with their reversible, 3-ply tips are made exactly like the hammers used in the most expensive Papec custom mill models. There are no loose or hinged parts. A pocket in the bottom of the blower intake flue serves as a trap to catch nails and other bits of tramp metal that are a constant source of danger in handling feed for livestock.

● LOW OPERATING COST

The extremely low price of the Papec Model X is made possible by simplicity of design, quantity production and a very small margin of profit. A comparison of Papec construction and performance with other hammer mills will convince you that Papec offers you not only the most for your money but also the best that money can buy in operating efficiency, convenience and durability. These qualities are your assurance of low cost feed grinding and freedom from repair expense for many years to come.

FRONT PLATES RETURN—For the first time in several years Texas motorists will be able to sport both a front and rear 1947 license plate. The 1947 plate is the same size as the current model and has white numerals on a black background. Mrs. Billie Maceron, Potter County deputy tax collector in Amarillo, Tex., demonstrates the new sample plate. The plates will not be available until February. (L.P. Photo)

No. 1 Continued from Front Page

mutual opponents also favor the Rangers. Perryton defeated the West Texas Calves 13-6, while Canadian bowed to the Calves 19-6. Canadian topped White Deer 19-6, while the Rangers pounded out a 31-6 victory.

Major task facing coaches Murry and Emerick this week is devising ways of keeping the Canadian speedsters, Cross and Blackmore, inside the ends and out of an open field. These two fleet halfbacks have demonstrated time and again that an open field is their dish, and most Canadian scores have been of the long-run variety when either Cross or Blackmore has shaken loose behind excellent open field blocking.

The Rangers outweigh the Wild-

cats ten pounds per man, averaging 161 to the Wildcats' 151 pounds per man. The Canadian average is boosted by the addition of Park, 200-pound center, who is far heavier than any Ranger lineman.

The Ranger squad is in good condition for the game, having emerged from the White Deer game with nothing more serious than minor bruises and sore muscles. The Wildcats absorbed a 26-0 lacing from the powerful Panhandle Panthers last week and might not be in as good shape as Perryton.

Game time is 3 o'clock, and admission is 75c for adults and 35c for school children.

Sibley Jines and Long Bull left this week for Colonel, S. D., where they will spend a week pheasant hunting.

Jacobson Rites Held Tuesday

Funeral services were held Tuesday afternoon at 3 o'clock in the Boxwell Brothers chapel for Harvey Jacobson, who died Saturday, October 19, in his trailer home home on East 1st St. He lived alone and had apparently died in his sleep of a heart attack, according to statements of the medical examiner.

Ward H. N. Gregg delivered the funeral sermon and interment was in the Blue Mound cemetery.

Palbearers were Ed Padgett, W. E. Gage, Loren Allen, Andrew Smith, Joe Yoakum and Elmer Miller.

Obituary

Harvey Harrison Jacobson was born in Maynard, Iowa, on January 31, 1891 to Oliver and Caroline Jacobson. He died on October 19, 1946 at the age of 55 years, 8 months and 18 days.

For a number of years, he farmed near Gray, Oklahoma, later moving to Perryton, where he lived for the fifteen years preceding his death.

Survivors include four sisters, Mrs. Alma Borabough of Perryton; Mrs. W. H. Wilson of Gray, Oklahoma; Mrs. F. H. Orbell of Randall, Iowa; and Mrs. C. C. Malven of Maynard, Iowa; two brothers, Dave Jacobson and L. W. Jacobson of Perryton.

No. 3 Continued from Front Page

begin at 7 o'clock and will disband at 7:45 o'clock so that members may attend the Perryton-Canadian football game. On Friday, November 1, members will also be dismissed at 7:45 for the Perryton-Phillips game.

Rev. Curtis announced that Wednesday, October 30 would be School and Lions Club night. Thursday, October 31 will be Ranger football team and Rotary Club night.

The entire membership of the First Baptist Church joins with their pastor and the visiting evangelist in extending to everyone a cordial invitation to join with them in this 10-day revival. The revival will close on Sunday evening, November 3.

delivery service to the 1000 and 1100 blocks on S. W. 1st, 2nd, 3rd and 4th streets; to the 900 block on S. E. 1st St.; the 900 block on the east side of Main St.; the 700 and 800 block of Main St. Deliveries on the east side of Main Street will include the 700 block of S. E. 2nd St.; and 400 and 500 blocks of N. E. 1st Ave.; the 400 and 500 blocks of Center Ave.; and the 100 and 200 blocks on S. E. 4th St.

Parcel post deliveries will be established within the city limits where the streets are paved, or have a curb and gutter with an all-weather surface.

Coffee pointed out that a parcel post delivery service is badly needed in Perryton and that other cities of the same size or smaller size have such service in effect. At the present time, packages pile up in the Post Office building and the condition becomes quite bad especially at Christmas time.

The Post Office Department is ready to furnish a vehicle for parcel post deliveries, once the service has been established. Coffee added, and this will mean additional men will be needed on the Post Office force.

Stating that it is quite probable that inspectors from the Post Office Department will be in Perryton before November 1, Coffee said, "We have gone just as far as we can go in trying to secure better mail service for the people of Perryton. From now on it is up to the people and to the City as to whether they want parcel post deliveries and extended city mail deliveries."

borne Anti-Aircraft Battalion. He reports that he is learning to drive a "duck", 2½ ton amphibious truck, and that this training is interesting especially when the water is rough.

Pvt. Jim L. Hudson completed a special course in the Engineers School at Fort Belvoir, Virginia, on October 15, and is spending a short furlough with his parents, Mr. and Mrs. H. I. Hudson of Austin before shipping out to the Pacific. He enlisted in the Army on May 16, 1946, and took basic training at Fort Belvoir.

Pvt. Delos Pugh, U. S. Marine Air Corps, is spending a few days with his parents, Mr. and Mrs. T. O. Pugh. He arrived in Perryton Monday morning, and after attending homecoming at W.T.S.C. Canyon, this weekend he will entrain for San Diego where he reports October 29.

Pvt. Jim Dunlavy, who has spent a furlough in Perryton with his parents, Mr. and Mrs. W. H. Dunlavy, left Wednesday to report to Camp Stoneman, Calif. He will receive an overseas assignment there.

In a letter from their son, Sgt. Gale S. Rogers, Mr. and Mrs. C. B. Rogers learned that his company is being de-activated and that he will be moved from the point in Japan where he has been stationed. Gale asked that all letters and papers be held until he learns his new address.

Sgt. John Dunlavy called his parents, Mr. and Mrs. W. H. Dunlavy, Friday from Oakland, Calif. with the news that he will be home soon. He has been based in the Philippines.

After 14 months service on Okinawa, Pfc. Dudley Hargrove, son of Mr. and Mrs. Herman Hargrove, was scheduled to dock in the United States on Wednesday, October 30.

Hugoton Couple Married Tuesday

The marriage of R. Dell North and Miss Blanche Pfeiffer, both of Hugoton, Kans., was solemnized here Tuesday evening, October 22.

Judge Dave Shanks performed the ceremony; the marriage license was issued at Pampa, Texas.

Word has been received from Mr. and Mrs. R. E. Carr that they are getting settled in their new home in Lyndon, Kansas. Residents of Ochiltree county for many years, they moved to Kansas about two weeks ago.

Poles Get First Russian Grain

WARSAW (AP)—The newspaper Glos Ludu reported the first trainload of grain imported from Russia under the Polish-Soviet commercial agreement has arrived at Przeworsk.

Americans chew about 12,000,000 pounds of gum a year.

My hat's off... to my customers who have been so swell about waiting for the tire that...

OUTWEARS PREWAR TIRES

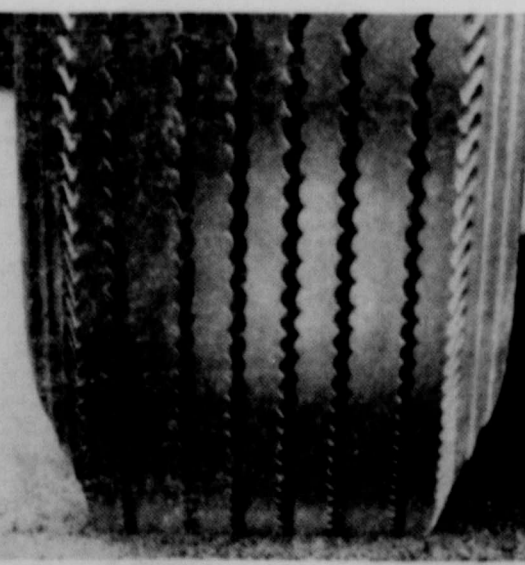

FOR EXTRA SAFETY AND EXTRA MILEAGE THE NEW **B.F. Goodrich Silvertown** IS WORTH THE WAIT

The new Silvertown tires have been setting records for long mileage, safety and economy not only on taxi fleets, police cars and special test cars but in regular car owner use.

These new tires are built with a broader, flatter tread that puts more rubber in contact with the road, spreading the wear over a larger area. To hold this heavier tread, B. F. Goodrich engineers developed a 35% stronger cord body with stronger cords and more of them... This meant better bruise resistance, greater safety.

If you want the tire that OUTWEARS PREWAR TIRES, place your order today. A little wait will be rewarded with today's biggest money's worth in tires.

There's no getting away from it! When you have a good thing—word gets around—and FAST! And from our view, it seems everyone is demanding the tire that OUTWEARS PREWAR TIRES.

SUNDAY LESSON

Conversion of Paul, Meant Uncertain Future, Many Risks

The International Sunday School Lesson for October 27
Scripture: Acts 13:1-5, 13-14, 44-46, 48-49; 14:26-27

WHEN Paul saw the light on the way to Damascus, we are told that "he was not disobedient unto the heavenly vision." God's call may come to us in heavenly visions or in very human inward impulses; but in whatever way it comes it is by obedience only that we find the pathway to service.
Paul's conversion meant breaking with the old associations. His future was uncertain. He was accepting all the dangers and risks of a new way.
In his Jewish prejudices he had been bigoted and narrow-minded. Now, as if to atone for all his past sins, he ardently took upon himself a mission to gentiles as well as to Jews. And his mission was directed more and more to gentiles as the opposition of his former comrades, the Jewish persecutors, increased.

It was from the pagan city of Antioch, where the disciples were first called "Christians," that Paul began his missionary journeys; and the first journey was slight in comparison with Paul's later travels. His companion on that first journey was Barnabas, who had spoken up for him when the disciples at Jerusalem were inclined to fear and distrust him.
Accompanying them was a young man named John, whose surname was Mark. This companion later caused a sharp contention between Paul and Barnabas (Acts 15:37-39).

He left them on their first journey under circumstances that Paul evidently considered not to his credit, and Paul refused to take him with them when they proposed a second trip.
In defense of John Mark it may be said that Paul, for whom no danger was too great and no task too formidable, may have been too exacting a leader. In any event, the world owes a great debt to this John Mark, for he was later the author of the Gospel of Mark, the simplest and most direct of the Gospels in its portrayal of the Master's life and work.

CITATION BY PUBLICATION
THE STATE OF TEXAS
TO: T. O. JACKSON R. G. BARNUM, MAGNOLIA PETROLEUM COMPANY, T. H. BLACK and CHARLIE HYDE, GEO. E. MONTGOMERY, L. BLANCH BOWEN, W. D. KING, S. R. McCORKLE, W. A. JOHNSON, J. H. COKER, W. R. HEMPHILL, MINNIE M. AVERILL, E. L. MYERS, TEXTICAL OIL COMPANY, CHARLES DENNY JR. and J. W. DENNY, L. G. SPILLMAN and K. S. DARGAN, E. L. PARKER, J. M. VERNON, JOHN N. STUMP, AMERICAN LA FRANCE P. E. CO., F. P. ROGERS, and MISS AUGUSTA CRAVENS their assigns, successors in trusteeship, stockholders and the unknown heirs and assigns of the hereinbefore named

ed, and all other persons claiming any title or interest in the hereinafter described land and premises GREETING:

YOU ARE COMMANDED to appear and answer the plaintiff's petition at or before 10 o'clock a. m. of the first Monday after the expiration of 42 days from the date of issuance of this citation, the same being Monday the 18th day of November, A. D. 1946 at or before 10 o'clock a. m. before the Honorable District Court of Ochiltree County, at the Court House in Perryton, Texas. Said plaintiff's petition was filed on the 3rd day of October, 1946. The file number of said suit being No. 915.

The names of the parties in said suit are: Eloda Freeman, joined by her husband, C. C. Freeman, as Plaintiffs, and F. M. Chambers, H. S. Wilbur, Trustee, Eloda Freeman, Dan B. Hoover, Trustee, being Trustee for benefit of Ed Hoover, Dan B. Hoover, W. H. Black, C. C. Freeman, P. O. Boyd, D. M. Jamison, John Waters, Edwin Waters, B. C. Allen, Henry Schoenhals, E. J. Cussen and D. W. Davis; and the above named parties to whom this citation is issued and directed, are defendants.

The nature of which suit is as follows: Plaintiff alleges ownership of the following described tract of land, situated in Ochiltree County, Texas, to-wit:

"All that certain land originally granted to the H. & T. C. Ry. Co. by the State of Texas, by virtue of Certificate No. 36,394, being all of Survey No. 471, Block Number 43, and more particularly described as follows:

Beginning at a mound and four pits, the NW corner of Section 470; Thence South 1919 varas to the SE corner of this section and NW corner of Section No. 411; Thence 1921 varas to a stake marked SW 471 and 4 pits, the SW corner of this section and SE corner of Section 472; Thence North 2164 varas to the Original NW corner of this section and SW corner of Section 498 from which 3 prong cotton wood brs N 80 deg W 33 vrs, crooked cottonwood brs N 10 deg E 59 vrs; Thence South 82 degrees 42' E 1936 vrs to the place of beginning, containing 694.8 acres of land.

Plaintiff alleges that on or about the day of February, 1942 plaintiff was lawfully seized, and also on such day, was in possession of such premises. That plaintiffs were and still are the owners in fee simple of the above described lands and premises, and in possession of same.

Such action is a suit in trespass to try title brought by plaintiff for title and possession of the land above described and for damages. Plaintiff prays in said petition for recovery of title and possession to and of the land above described, for damages, for costs of suit and for such further relief as he may be entitled, at law or in equity.

ISSUED THIS 3rd day of October, A. D. 1946.

Given under my hand and seal of said court, at office in Perryton, Texas, this 3rd day of October, A. D. 1946.

BEULA K. LeMaster, Clerk District Court Ochiltree County, Texas. 41-41-c

CECIL DODD

NOTICE!

As I will be out of town for three weeks my office will be closed from Monday Morning, October 14, until Monday Morning, November 4.

Dr. E. R. JARVIS

Proclamation BY THE Governor of the State of Texas

NO. 41-300

TO ALL TO WHOM THESE PRESENTS SHALL COME:

BE IT KNOWN that I, Coke R. Stevenson, Governor of the State of Texas do hereby order a Special Election to be held throughout the State of Texas on the first Thursday in November, 1946, same being the seventh day of November, A. D., 1946; and notice is hereby given to the people as required by law; and the County Judge of each county is directed to cause said election to be held at each precinct in the county as required by law, at such time.

FOR THE PURPOSE of adopting or rejecting the following Constitutional Amendment submitted by the 49th Legislature of Texas at its Regular Session in 1945:

Amendment to Article III of the Constitution of the State of Texas by the addition of a new Section to be known as Section 49-b, creating a Veteran's Land Board and establishing a Veteran's Land Fund by the issuance of bonds not to exceed Twenty-five Million (\$25,000,000.00) Dollars as an obligation of the State of Texas for the purchase of land in Texas to be sold to Texas Veterans of World War II.

IN TESTIMONY WHEREOF I have hereunto signed my name officially and caused the Seal of State to be affixed hereto at Austin, this the 30th day of July, A. D., 1946.

BY THE GOVERNOR: CLAUDE ISBELL
SECRETARY OF STATE

COKE R. STEVENSON,
Governor of Texas.

NOTICE of ELECTION

Pursuant to the Election Proclamation issued by the Governor of Texas, notice is hereby given that a SPECIAL ELECTION will be held on

Thursday, the Seventh Day of November, 1946

at the Court House in the County of Ochiltree, State of Texas for the purpose of voting for or against the adoption of a proposed amendment to the Constitution of the State of Texas as follows:

Proposing an amendment to Article III of the Constitution of the State of Texas by the addition of a new Section to be known as Section 49-b, creating a Veteran's Land Board, and providing that the Legislature shall provide by law for the issuance by said Board of not to exceed Twenty-five Million Dollars (\$25,000,000) in bonds or obligations of the State of Texas for the purpose of creating a fund to be known as the Veteran's Land Fund.

DAVE SHANKS, County Judge,
Ochiltree County Texas

OFFICIAL BALLOT

FOR the Amendment to Article III of the Constitution of the State of Texas by adding Section 49-b creating a Veteran's Land Fund for the purchase of lands in Texas to be sold to Texas Veterans of World War II.

AGAINST the Amendment to Article III of the Constitution of the State of Texas by adding Section 49-b creating a Veteran's Land Fund for the purchase of lands in Texas to be sold to Texas Veterans of World War II.

Due to Circumstances the Entire County Will
Vote at the Courthouse. Only
One Voting Place.

Vote at Courthouse

Guymon, Okla.

It's not that we don't love our work!

WE DO LOVE our work—but these days, we almost dread leaving home and going to our showroom.

So many people want new Packards, and there are a few coming through!

But you can't build cars without materials!

The factory is straining every effort to get more parts and material so production can be increased.

We're doing our best!

Some cars have been shipped with wooden bumpers, some without window regulator handles. This costs the factory a lot of money, for it means that replacements must be shipped and installed later.

Under such difficulties, it's a wonder the folks at the factory have done as well as they have. This year, compared to the same period of 1941, Packard has built a higher percentage of cars than the industry as a whole.

We don't dare predict!

Our customers have been so patient that we'd like to sound some optimistic note.

But word from Detroit says that parts and materials are still scarce. Steel continues to be limited. Shortages of lead, copper and other materials are looming up.

Scrap iron has been so scarce that Packard started the ball rolling on a nation-wide collection drive!

Take care of your present car!

Until you're sure of getting a new one, give your present car the best of care.

Lots of cars are running better and lasting longer because our trained mechanics have serviced them right. Give us a chance to catch those little troubles before they grow up into big ones.

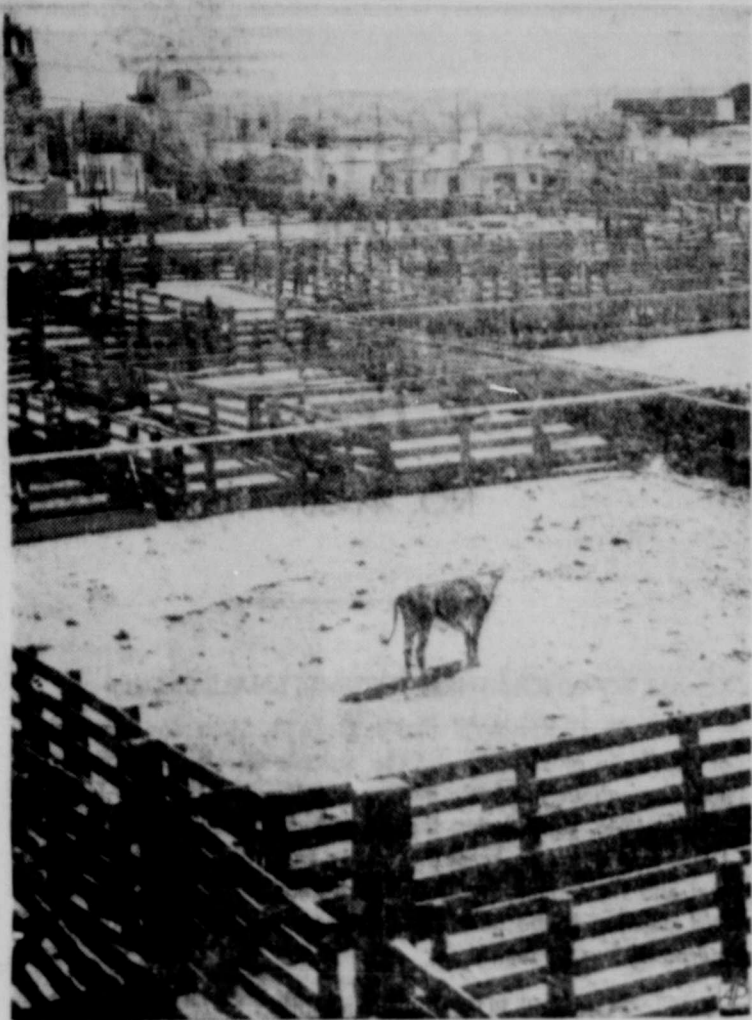

Bring your car in any time. We're short on new cars, but we're long on helpful, car-saving service.

Your Packard Dealer

F. T. HOLDEMAN MOTOR CO.

WAITING FOR MEXICAN CATTLE—A steer stands alone in stockyards at El Paso, Tex., which were readied to handle movement of Mexican cattle across the border from Juarez. The U. S. quarantine on importations of cattle from Mexico was lifted Oct. 18. (U.P. Photo)

TEXANS IN WASHINGTON

BY TEX EASLEY

(U.P. Special Washington Service)

Washington, Oct. 24—The Agriculture Department says Texas tick fever is about whipped.

Reviewing the cattle disease in one of its periodic bulletins, the Department notes that steady and persistent eradication efforts started in 1906 have done the business. Embargoes that once impeded movement of cattle through stockyards seldom ever have to be imposed these days.

While commonly known as Texas Fever, the disease formerly was widespread throughout the entire south and caused an annual loss of about \$40,000,000. The loss now averages less than \$40,000. The quarantine area has been reduced to one percent of its original size.

The catch of fur-bearing animals in Texas is heading for an all time high in 1946.

A report just issued by the Interior Department shows that the number of such animals, excluding rabbits, has exceeded any previous year and should increase another 20 percent before Dec. 31. Estimating its report covers 80 percent of the current year's catch. The Department says 1,264,707 animals have so far been trapped.

While pointing out that conditions in Texas make it impractical to obtain a comprehensive and accurate count, the report states that the highest previous catch was 829,317 animals in 1941.

The catch this year includes: Muskrats, 417,339; Opossums, 330,066; Raccoons, 164,327; Skunks, 126,358; Foxes, 56,253.

Around the Capital:

Mrs. Bonnie L. Langford has been recommended by Rep. Olin Teague (D-Tex.) for appointment to the Postmastership at Meriden.

Attorney General Tom Clark and Rep. Hutton W. Summers were among those present for the opening of the fall term of the Supreme Court. Elmore Whitehurst, Dallas attorney who serves as an aide to the tribunal, is to speak Oct. 24 before a judicial conference of the 6th federal circuit in Cincinnati.

A Rio Grande Valley man, Terry B. Sanders of Edinburg, has been transferred from the State Department here to Moscow as third secretary and vice consul.

Every day sees an increase in the mail which comes into the office of Rep. Teague, Texas' newest congressman. From a beginning of two or three letters a day, it now has risen to more than a score.

Two farm officials from College Station here for a national conference of agriculture leaders were guests of Teague at lunch in the House Office Building cafeteria. They were C. A. Bonen, Experiment Station farm management research expert, and C. H. Bates, farm management official of the Extension Service. Also with them at the lunch was Ernest Holcomb, who was a classmate of Teague's at Texas A. and M. in the class of '32. Holcomb is with the Production and Marketing Administration in the Agriculture Department.

Officials of the Texas State Society of Washington, headed by attorney Ralph Pittman of Wichita Falls, have an unusual problem on their hands. They're trying to figure out how to make their monthly dance less popular. Too many persons who never were west of the Alleghenies are crashing the gate. From a financial standpoint it's profitable, but the organization doesn't seek a profit.

At a recent dance opening the fall season Miss Helen Snelling of Abilene, who runs the Washington office of Braniff Airways and serves as secretary of the Texas society circulated blank identification cards among the 1,200 or so persons who

INDEX OF TEXAS BUSINESS

ADJUSTED FOR SEASONAL VARIATION
1935-39=100

PERCENT

Oct. 22 (U.P.)—The Bureau of Business Research of the University of Texas says the index of Texas business compiled by the Bureau gives no indication that the break in the index has yet had any influence on business. The index climbed to 198.6 in August from 189.3 in July. The index is expressed as a percentage of the five year average, 1935-1939, it means that the level of activity is nearly double the pre-war level.

Point of the reconversion period was in Oct. 1945, when the index of business activity was 167 per cent of the pre-war period. Since that date Texas business has in general expanded month to month.

Spectacular gains in business have occurred in retail trade; the index of department and store sales increased from 339.7 in July to 383.5 in August. The index of electric power consumption was 260.0 in August and 243.8 in July. The index of employment rose from 111.7 in July to 119.9 in August, while payrolls rose from 193.2 to 203.4.

Components of the composite index to decrease were miscellaneous freight carloadings in the southwestern district, and crude oil runs to stills. The index of freight carloadings as 140.1 in July and 133.6 in August. The index of crude runs to stills declined from 180.2 in July to 175.1 in August.

● Blue Mound

Mr. and Mrs. John Morris and children spent last Sunday night in the home of Mr. and Mrs. Leon Morris.

Mrs. B. L. Barnes and Lola Bell, Mrs. Ralph Pattison, Lynn and Glenn and Mrs. H. E. Pattison were shopping Friday in Amarillo. They were dinner guests in the home of Mrs. Roy Jeffroy of Amarillo.

Mr. and Mrs. Clifton Sharp and children of Hartley spent Friday night in the home of her parents, Mr. and Mrs. John Morris.

Mrs. Mary Bolin and daughter, Lola Lee, of Summerville, Ore. are visiting relatives here. Mrs. Bolin is a sister of Mrs. Fannie Sagar.

Mrs. Hazel Peagin arrived home this week after visiting several weeks in Arkansas, and in Galveston with her daughter, Mrs. W. L. Hacker and Mr. Hacker.

Mrs. Leon Morris and children and Mrs. Jim Wallace and children of Boyd spent Wednesday in the home of Mrs. John Morris.

Mr. and Mrs. A. W. Pattison spent last Sunday in the home of Mr. and Mrs. Claude Saunders.

Mrs. H. E. Pattison, Charles and Karen, were Sunday visitors in the home of Mrs. O. E. Enterline.

Kenneth Herndon spent Sunday with Norman Enterline.

Mr. and Mrs. LaVaun Pattison of Perryton called Thursday evening in the home of his mother.

Barber, 101, Shaved Victor Hugo, Dumas

BUENOS AIRES (U.P.)—Take it from his barber—Victor Hugo wouldn't stop talking.

Emile Astier, who says he recently celebrated his 101st birthday claims to have shaved the famous French writer who died in 1885.

"Hugo was very advanced, and never wore a hat," Astier said. "He was a good customer, but he talked continuously."

Aside from that flaw, which a barber would naturally notice, Astier said Hugo was better than two other customers, Alexander Dumas the Younger and Victoriano Sardou. Both used to come to be shorn to the Astier shop in Paris-Rue de la Chéchy.

Mrs. S. R. George was operated on in the Shattuck hospital last Saturday. Her condition is improving.

BACKFIELD SPARK—A spark in the Rice Institute 1946 backfield is Virgil "Ike" Eikenberg (above), 23 year old passer and runner. Big Ike is from Boling, Texas, weighs 198.

● Boyd, Oklahoma

Two light frosts here to date with little or no damage. Everett Cowan has broom corn hands.

M. M. Rankin received word last week that his sister, Dora Campbell, who has been quite ill for several months, passed away.

People in our community were saddened by the passing of a good friend and neighbor, Mrs. E. K. Gates, who passed away about 9 a. m. Sunday in Liberal after a lingering illness. The children have our heartfelt sympathy.

I spent a very pleasant day with Mrs. Jessie George Thursday, and was also royally entertained by our good friends, Mr. and Mrs. Gerald Murray in their home Saturday afternoon.

L. B. Dowers and Ed Claybrook were in Perryton Friday.

Mr. and Mrs. Haworth visited with Mrs. Pierce Sunday evening.

Mr. and Mrs. W. N. Patterson, Roseville, Calif. are here on a visit with old neighbors and relatives. Mr. Patterson is an uncle of Marion Rankin and Emma Claybrook. Bert Freeman brought them to Perryton to see Johnnie Wilson Monday afternoon.

Funeral Services were held at Gray Tuesday afternoon for Mrs. E. K. Gates with burial at Bethany.

Doggone It!

Fido Puts on the Dog

NEW YORK (U.P.)—Rover can come out of the dog house now that one company is offering a line of cosmetics for dog. Packaged in colorful boxes and bottles, the complete line includes a shampoo, a flea powder and a coat dressing.

The cosmetics are already on sale at one large New York department store and arrangements have been made to sell them in stores all over the country.

Mrs. Ruth Jordan has returned to her home at Cordell, Okla. after spending ten days in the home of her sister, Mrs. A. V. Goff and Mr. Goff.

Mr. and Mrs. Burl Teague and Jewel of Raton, N. Mex. visited several days this week in the home of her parents, Mr. and Mrs. A. N. Down and with other friends and relatives.

Mr. and Mrs. Art Penner, Jerry and Leah, of the Balke community were dinner guests in the Gerald Murray home Monday evening.

Italians Drink Peroxide Milk

NEW YORK — (AP) — A simple method of sterilizing milk by stirring in a small amount of hydrogen peroxide the familiar antiseptic is being used in Italy.

The milk is said to taste better than pasteurized milk, an American Chemical Society magazine reports, and the sterilization is complete for three days. The idea has been developed by a chemical company in Milan, Italy, and is being produced in large quantities.

American investors are studying the treatment. Containers for the peroxide-treated milk have to be made of glass, or plastic, since the peroxide is reactive to iron, copper, lead, and alkalies.

Polish Repatriates

WARSAW, Poland — (AP) — The government's repatriation office reported 30,831 repatriates crossed Poland's borders between May 1 and July 31.

During the German occupation, 3,000,000 of Greece's 16,000,000 acres of timber were hacked away to make winter quarters for Germans on the Russian front.

More Bouncers Needed Than Girls In New York's Roseland Ballroom

By JACK O'BRIEN

NEW YORK — Roseland Ballroom, synonymous for some 27 years with dime-a-dance, has reached the strange stage in its history where there are more bouncers on the premises than ladies. There are 16 bouncers and only 12 young ladies with whom you can exchange a ticket for a few minutes of their tepid embraces.

The presence of this seemingly large number of heavily muscled gentlemen is not in any sense a riot squad or indication that mayhem is in direct competition with the fox trot, waltz or rumba. The 16 are there more for psychological reasons. Their most impressive presence does more to prevent quick fadeouts than would a distribution in every customer of one copy of an etiquette book.

Assured in conservatively well-cut business suits, this team of "floor men," as their vocation has

come to be called by the management who shy away from the more pugnacious descriptions circulates among the customers at evenly-distributed points with a background of training and experience. In nipping potential ballroom belligerents in the bud they do not try to blend into the wallpaper or otherwise hide their identity, as their very facades alone are convincingly enough to quell any possible fight.

Boss of the bouncers or floor men, is Tommy Coppinger, who has made a successful profession of his job, having begun heaving troublesome customers from the roughest spots of the Prohibition era. He has blended a fine set of muscles with a good deal of boxing ability, a working knowledge of Jiu Jitsu and ballroom psychology to cope with any mayhem short of atomic attack.

Some of the gentlemen on Tommy's staff are former boxers and wrestlers, and a few bear the scars of their trade, which help as much as the most convincing conversation to get tough customers out of lapping moods. One look at a neatly-rounded cauliflower ear or a slightly flattened proboscis usually is enough to assure any contentious customer that Roseland is not the correct locale for combat.

The ex-pugs on Tommy's staff include Charley Massera, Paul Walker, Jack DeMave, Knute Hansen, Charley "Trader" Horn, Jorge Brescia, Eddie Kid Whalen, Mike O'Dowd the 2nd, and Big Ben Morris, all of whom have fought at Madison Square Garden at one point or another. The four ex-wrestlers are Cliff Olson, Joe Parelli, Chuck Ross and John Melas.

With the exception of Big Ben Morris, the Roseland bouncer staff is continually on its toes. Big Ben can, fortunately, spot trouble flat-footed, an easy achievement since

Clover Blamed For Sexless Sheep

MELBOURNE — (AP) — A new disease which affects the fertility of sheep is threatening the reproduction of flocks in Western Australia and parts of South Australia and Victoria.

An Australian Government research officer, disclosing the presence of the disease, said it was thought originally it was associated with an early type of clover known as dwarf lupine, but now there was suggestion that later clovers such as Mt. Barker and Tallarook were involved.

The officer said the clovers seemed to contain substances closely allied to oestrogen, a female hormone and similar to stilboestrol, a manufactured chemical used in human therapeutics and veterinary work. The substances, he declared, seemed to upset the ductless glands system of animals and affected the breeding organs of ewes.

The eggs of the great horned owl might well be termed the first "cold storage" eggs. These birds usually nest in mid-winter but successfully keep their eggs warm in sub-zero weather.

SPEED MERCHANT — Aubrey Fowler, 156-pound tailback, is one reason why the Arkansas Razorbacks have surprised the Southwest conference this year. Fowler, a triple threat, is 26, a war veteran.

he lowers seven feet and carries 300 pounds around the ballroom with ease. A well-placed, gentle word of remonstrance from this amiable giant saves him from having to exert his proven strength.

Sons Give Father High Ideas

JEFFERSONVILLE, Ind. — (AP) — Walter E. Prentice 59-year-old Jeffersonville attorney, believes in keeping up with his sons.

Two of them, Robert J. Prentice, 29, and Dixon W. Prentice, 27, decided to take flying lesson. The father followed suit.

"They tried to tell me I was too old, but I think I've convinced them you're never too old to learn," said Prentice senior.

All three have solved, preparatory to receiving private pilot licenses. A third son, Dr. Wilson E. Prentice, a Jeffersonville dentist, has been flying for years.

Puerto Rico was discovered by Columbus on Nov. 19, 1493, during his second voyage to the new world.

A farmer named Jones from Dubuque said "This '66' Gas is no fluke, "When the starter I flicker, "The truck starts much quicker, "Than a hired man scared by a spook!"

KENNETH MUNGER, Owner

Enough Food is no Accident

It is no accident that the largest crops in our history are being harvested this year when we, and the rest of the world, need them most.

In spite of war, loss of labor and little new equipment, the American farmer has again taken care of us and provided a life-saving surplus for abroad.

How do our farmers do it? How is it that only sixteen per cent of our people can feed all of us and go on breaking records in the face of circumstances which slow up industry?

There are three reasons: First, farmers work harder and longer than most other Americans. Second, they know how to make the best use of tools. And, third, they have a long-standing partnership with industry seeking to satisfy their urge to get more out of the land for the same labor. Farmers are still practicing the end of enterprise that built America.

Nation thanks are due the farmer for the job he has done in the last five years. Universal respect is due him for his foresight in helping industry equip farms to meet a whole series of emergencies.

But... we should not crowd our luck, or the farmer's luck either. Too many farm tools are now worn out. Without new ones production may go down. Farmers need over eight hundred million dollars' worth of new implements and equipment. It is up to industry and labor to keep wheels turning to produce them, but any recurrence of strikes would prevent this.

America should see that the hard-working farmer gets what he needs.

AMERICAN IRON AND STEEL INSTITUTE,
350 Fifth Avenue, New York 1, N. Y.

The Institute has printed booklet STEEL SERVES THE FARMER. Write for copy and it will be sent gladly.

THE FUTURE—Henry Travers, Glenn Ford, Jim Bannion and Loren Tindell are seen in Columbia's romantic "Gallant Journey" showing at the Ellis on Sunday and Monday, October 27-28.

'Mom and Dad' Show Here on Wednesday

Acclaimed by many universities, colleges, national clubs and organizations, as well as officials of most city churches, the new educational hygiene attraction "Mom and Dad" with an all-star Hollywood cast comes to the Ellis theatre for a one day engagement, Wednesday, Oct. 24.

This powerful modern-day drama is clear, moral and educational. Its story is so human it overflows with good fun—yet it is so humanly true the film has its moments when the tears flow freely. It is a touching and heart-tugging story of youth and the social problems of today. Certainly, with its thousands of endorsements, its praise from millions who have witnessed it, "Mom and Dad" could not rightfully be misconstrued by anyone as anything but a masterpiece of modern cinema.

The producers explain this phase of the policy of presentation with the frank statement the picture contains two modern and powerful medical and health sequences dealing with delicate subject matter. This fact, along with the request of Elliot Forbes, famous hygiene commentator who appears on the stage in person, necessitates segregated audiences. Likewise the picture is presented to only high school-age and older patrons.

Bill Beauchamp, one of Hollywood's best directors, handled the megaphone job and according to critics certainly obtained wonderful performances from each and every member of the big cast. Marcel Le Prieux, famed French cameraman was behind the lenses and is credited with giving the picture its beautiful lighting, excellent photography and constantly shifting angles. The story is a screen original by Mildred Horn.

"Mom and Dad" is a simple, human story of every-day life in an average American town. Carl Blackburn, popular biology teacher of the high school is the character around whom the story weaves thru one interesting episode after another.

There will be three performances daily. Shows for women and high school girls are scheduled for 2 p. m. and 7 p. m. and shows for men only at 9 p. m. each evening. Men's tickets start selling at 7:30 o'clock.

Furs in Africa

PORT ELIZABETH, South Africa.—(AP)—AN American-prefected process for converting sheepskins into imitation furs, claimed to be better in many respects than the genuine article through infinitely cheaper, may be introduced into South Africa shortly.

Greeting Cards for every occasion. Herald want ads.

NIGHT IN CASABLANCA—The zany Marx brothers are back again, after a four year absence, in a side-splitting story of love and mystery in post-war Casablanca. Harpo chases blondes—Chico tickles the piano—Groucho engages in some torrid love scenes as only Groucho knows how. This laugh riot shows Thursday and Friday, October 31—November 1.

Inventor Flies, Wins Gal

The re-telling of one of the world's most exciting love stories has been filmed by Columbia Pictures, and "Gallant Journey" will play at the Ellis Sunday and Monday, Oct. 27-28. Produced and directed by William A. Wellman, its stars are Glenn Ford and Janet Blair, who are supported by Charlie Ruggles, Henry Travers, Jimmy Lloyd and a large cast of featured players.

"Gallant Journey" is described as the story of all women who ever "wasted" their lives on a dreamer, and loved every moment of it. John Montgomery (Glenn Ford) is a typical dreamer, an inventive, intelligent young visionary whose genius is lost on an unlistening world. Only the love and faith of one woman, Regina Cleary (Janet Blair), his childhood sweetheart and later, his wife, keep the flame of ambition flickering in his heart, and spur him on to achieve his goal.

Under the guidance of Mr. Wellman, who also collaborated on the original screenplay by Byron Morgan, the film is said to masterfully develop as a heart-warming record of a segment out of this nation's great past, fully exploiting the romantic background of the fabulous Gay '90s. The production has been compared favorably with such other Wellman hits as "Wings," "A Star Is Born" and "O. I. Joe."

Glenn Ford, who excited raves for his great performance in "Gilda," has the biggest role of his career as Montgomery. Right now, Glenn is enjoying extraordinary popularity as the screen's bobby-sox favorite, and should more than add to his prestige in this new film. We hear that Janet Blair, in her first dramatic role, is revealed as a new, exciting personality, and that the rest of the cast gives splendid support to the principals.

Midnight Picture Is Full of Thrills

If you're one of those movie fans who likes his murder mysteries to be blood-freezing, nerve-jangling affairs right down to the eye-opening give-away (and who isn't?), then make it a point to invest in a seat at the Ellis Theatre for the midnight preview on Saturday, Oct. 26, and don't feel cheated if you only use the edge of it throughout the performance. The new film is Columbia Pictures' "The Unknown," with Karen Morley, Jim Bannion, Jeff Donnell and Robert Scott.

Terror reigns in the decadent Martin mansion of the old South, wherein are buried the ghastly secrets of a maddened family. Private detectives Jack Packard (Jim Bannion) and Doc Long (Barton Yarborough) bring a long-lost heiress, Nina Arnold (Jeff Donnell), back to her clan to hear the reading of her late grandmother's will, but the will is lost, and murder haunts every effort to find it. Nina sees her mother, Rachel.

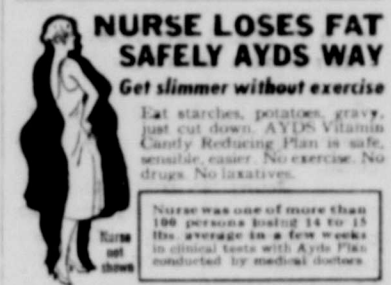

R. B. Yoakley Jeweler

Chambermaid In Paris is Pursued By Four Lovers

Exciting drama, colorful romance and subtle humor are skillfully blended in the scintillating film that plays at the Ellis Theatre, Tuesday, October 29 under the engaging title "The Diary of a Chambermaid." It is a Benedict Bogues presentation, with Burgess Meredith acting as co-producer, and his wife, the lovely and effervescent Paulette Goddard, contributing a brilliant star performance in the title role. Sharing stellar honors with her are Hurd Hatfield, well remembered for his recent star role in "The Picture of Dorian Grey," Francis Lederer and Meredith himself.

The story, adapted by Mr. Meredith from Octave Mirbeau's romantic French novel, tells the story of beautiful Celestine (Miss Goddard) who rebels at the trick of fate that makes her a chambermaid, and decides to elevate herself. When she arrives at the spacious country chateau of M. and Mme. Lanlaire (Reginald Owen and Judith Anderson) she has plenty of opportunity, and plenty of excitement. The period is about 1885, nearly, nearly fifteen years after the Third Republic, but the eccentric Madame Lanlaire is still an ardent Royalist. Into this somewhat antiquated household Celestine breezes like a welcome breeze.

NURSE LOSES FAT SAFELY AYDS WAY Get slimmer without exercise Eat starches, potatoes, gravy, just cut down. AYDS Vitamin Candy Reducing Plan is safe, sensible, easier. No exercise. No drugs. No laxatives. Nurse was one of more than 100 persons losing 15 to 25 lbs. average in a few weeks in clinical tests with Ayds. Plan is simple. Start the AYDS Vitamin Candy way to lose weight now. 30 day supply of Ayds, \$2.25. MONEY BACK, on the very first box if you don't get results. Phone SANFORD DRUG CO. Phone 90

breath of summer wind, but her effort upon the various members is more devastating.

First, there is Hurd Hatfield (the son), frustrated and disillusioned because of his mother's dominating influence. Next, the father (Reginald Owen), then the impish old retired army officer next door (Burgess Meredith), and last, but most demanding of all, the ruthless overseer and valet, played by Francis Lederer.

All four men fall violently in love with Celestine and offer her everything within their reach. But Celestine has eyes and heart only for Hatfield, the unhappy son who in the sashing tragedy that brings this four-cornered love story to its breath-taking climax, proves the courage and the daring befitting a son of this brave free France.

Mrs. Bill McLanahan and Mr. Oscar Blank left Saturday for Houston where they will attend the Grand Chapter, O.E.S. Mrs. McLanahan is worthy matron of the Perryton chapter.

Yet Remembers Meal for 45 Years

CHARDRON, Neb.—(AP)—Mayor Sam Prey has done his part to help a Spanish-American war veteran collect a bill which the government has owed him for 45 years.

The veteran, H. B. Morelock, wrote Prey asking if he could learn the name of a man who operated a restaurant here in 1901. He explained he took a cavalry unit through Chadron and fed them at the restaurant, paying the bill himself. He couldn't remember the proprietor's name, but did recall "the cash register was to the right of the door as you enter."

From old timers the mayor learned the restaurant owner was Bill Jacobus, long since dead. Morelock did not say how much it cost him to feed the soldiers in his charge 45 years ago.

It is estimated that the United States will export 400,000,000 bushels of grain and grain products of 1946.

SHOWING TIME

NIGHT: 7:30—9:30 p. m.
SATURDAY MATINEE: 3:00 p. m.
SUNDAY NIGHT: 9:00 p. m.
PREVIEW: 11:45 p. m.

Thursday - Friday October 24-25

Margaret O'Brien, Lionel Barrymore, Lewis Stone, Edward Arnold, Ray Collins and Jane Darwell in—

"Three Wise Fools"

All Hollywood talked about it. Yes, and everyone predicted that "Three Wise Fools" would be one of the prize pictures of the year. The prediction has come true. See wonderful Margaret O'Brien as the little Irish girl with a brogue who brings sunshine into the lives of three hard-bitten bachelors. "Three Wise Fools" has everything—laughter and tears and thrills and thrills. A new M-G-M triumph for all America to enjoy.

Saturday October 26

Sunset Carson, Peggy Stewart, and Bruce Langley in—

"Red River Renegades"

Action . . . Action . . . Action. Sunset Carson fronts for Uncle Sam and the mail goes through. As a fighting son of the west he solves the mystery of vanishing stage coaches.

Sunday-Monday, October 27-28

Glen Ford, Janet Blair, Charlie Ruggles, Henry Travis and Jimmy Lloyd in—

"Gallant Journey"

Glen Ford is even more exciting than he was in Gilda. Janet Blair is revealed as a new heart-warming personality. Gallant Journey is a wonderful love story . . . a great motion picture. The triumphant love story of a man who wanted to touch the stars . . . and a woman who gave him the heart to do it.

Tuesday, October 29

Paulette Goddard, Burgess Meredith, and Hurd Hatfield in an astounding revelation in the art of love.

THE
CAR YOU'RE
DRIVING
NOW

and your
forthcoming
NEW
CHEVROLET

KEEP IT WELL SERVICED by bringing it to our modern Chevrolet Service Headquarters at regular intervals, and gain these practical advantages: (1) safeguard your present transportation; (2) avoid the major breakdowns which so often hit old cars in cold weather; (3) save money by preventing serious troubles and repair bills; and (4) maintain the resale value of your car. Remember—we're members of America's foremost automotive service organization; and motorist after motorist will tell you, OUR CAR-SERVICE IS YOUR BEST CAR-SEVER. Come in—today!

REST ASSURED THAT WE'LL MAKE DELIVERY of your new Chevrolet just as quickly as we can although it's impossible to give accurate estimates of delivery dates. We're getting our fair share of Chevrolet's current output, but production is still running far below normal, even though Chevrolet built more cars and trucks than any other manufacturer during the third quarter of 1946. Meanwhile, our sincere thanks to you for waiting for delivery and our assurance that your patience will be well rewarded when you take possession of this car, giving BIG CASH VALUE AT LOWEST COST!

Present Immigrants Are Better Clothed and Have More Money Than in Old Days

By BRACK CURRY
(For Jane Eds.)

WASHINGTON—Controlled immigration is bringing better potential citizens to America.

The penniless alien in colorful native garb who flooded the nation's gateways in the old days now is seldom seen, says the U. S. Immigration Service.

Today's typical immigrant, it says, "is more likely to have cleaner habits, to be better educated and better supplied with money."

And he sails off to America in style compared with pre World War I days. The word "steerage" is now only a term.

The service says this in the latest issue of its publication "Monthly Review."

In the olden days steerage quarters, between decks, ran the entire length and width of the ship with double-decker bunks and no partitions. Women and small children slept on one side of the ver-

sel, men on the other.

Cattle, pigs, goats and chickens were carried on deck. This was the only way to obtain fresh meat, milk and poultry since there was no refrigeration. Passage cost from \$10 upwards.

Congress moved in 1917 to prevent the immigration of undesirable aliens. It passed the Basic Immigration Act, which among other things listed the excludable classes set out in previous legislation and added some others.

One result was that in a typical year of unrestricted immigration—July 1, 1913 to June 30, 1914—1,969 aliens were deported after hearings as mentally defective, 1,547 as having dangerous or contagious diseases, and 19,616 as having a disease or disability which might affect their ability to support themselves.

In a typical year after controlled immigration began only 2,115 were

held for immigration hearings.

Numerical restrictions and health and literacy requirements for immigrants have not ended the Immigration Service's troubles.

It's trouble-shooters are the inspectors of the Boarding Division. They've also been called "the diplomatic corps" of the service. These inspectors must examine every alien and citizen passenger arriving in this country from overseas.

Their task is complex—to nab impersonators and forgers of passports, while remembering that they're the first contacts for potential Americans.

Stowaways are one headache for the inspectors. The 1917 act added stowaways as a class of excludable aliens. Since July 1, 1945, the Immigration Service has arrested 1,975 alien stowaways ranging from six to 66 years old.

Largest Crowd In WT History Homecoming

CANYON, Oct. 22—A Homecoming Day victory next Saturday afternoon, October 26, will be ardently sought by a West Texas State eleven which has had more than its share of hard knocks this season. Game time with New Mexico A & M College will be 2 p. m.

Approximately 20 high school bands will be on hand for their annual marching contest.

Traditional crowning of the football queen, elected by members of the football squad, will be an impressive half-time ceremony.

College officials are expecting the largest Homecoming crowd in the history of the school. The Border Conference game between the Aggies of New Mexico and the Buffaloes of West Texas State will highlight the afternoon festivities.

PERSONAL MENTION

Martha Rodgers and William
Are Married in Amarillo

Martha Rodgers and William were exchanged by Mrs. E. Rodgers, daughter of Mrs. S. P. Rodgers of Amarillo and William R. Thomas, son of Mrs. J. R. Thomas, on Saturday morning, October 23, at 9:30 o'clock.

The ceremony was performed by C. Curtis, pastor of the First Baptist Church, Perryton. The bride wore a three-piece black gabardine suit; her corsage was gardenias. The groom wore a three-piece black gabardine suit; his boutonniere was gardenias.

Following the ceremony, the bride and groom were entertained at a reception in the home of Mrs. J. R. Thomas. The bride's bridesmaids were Mrs. J. R. Thomas, daughter of Mrs. J. R. Thomas, and Mrs. J. R. Thomas, daughter of Mrs. J. R. Thomas.

The bride's maid of honor was Mrs. J. R. Thomas, daughter of Mrs. J. R. Thomas. The groom's best man was Mr. J. R. Thomas, son of Mr. J. R. Thomas.

October Social
Meeting W.S.C.S.
Held Thursday

Mrs. C. B. Rogers, Mrs. W. E. McMillen and Miss Nellie Perry were hostesses for the October social meeting of the Women's Society for Christian Service of the Methodist church in the Rogers home, 720 S. W. 7th Street, last Thursday afternoon.

Mrs. Chas. Garrett was program leader for the day, and Mrs. Anna P. Wilson opened the meeting with prayer. "A Charge to Keep" was sung before Mrs. R. B. Orrill led the study course Mrs. J. W. Chase and Mrs. Cecil Dodd gave the discussions on the "Christian Motive and Method in Stewardship."

Refreshments were served during the social hour to Mesdames Fischer, Clifford Beck, C. W. Poole, Dona Price, O. C. Shearer, John Sell, D. D. Shanks, C. F. Jones, J. W. Richardson, Floyd Coffin, P. E. Gidley, Robert Barlow, Harold Kershaw, T. V. Elzey, Oris Bruner, Garrett, Wilson, Orrill, Chase and Dodd, members; Mesdames Del Spicer, James Brillhart, R. H. Asbell, R. B. Kile, D. E. Watkins and Jack Elzey, guests.

Out-of-town guests attending the wedding were Miss Inez Franz of Oklahoma A. & M. College, Stillwater, Okla. He served three years in the U. S. Army, with 16 months overseas duty.

Mr. Thomas was graduated from Perryton high school and attended Oklahoma A. & M. College, Stillwater, Okla. He served three years in the U. S. Army, with 16 months overseas duty.

Miss Kershaw Has
Halloween Party

Miss Connie Kershaw entertained a group of her friends Saturday evening with a Halloween party at the home of her parents, Mr. and Mrs. J. H. Kershaw.

Following outdoor games and a weiner roast by a pasture lake, the guests played games in the house until nine o'clock.

The Halloween theme was noted in the decorations of black and orange crepe paper, orange candles, jack o'lanterns and Halloween favors.

The guest list included Evonne Bruner, Roma Fay Hawk, Bettye Hall, Nancy Lee Dodd, Harold M. Jones, Joan Sims, Evelyn Yates, Tilly Urub, Jolene Wright, Elaine Dietrich, Colleen Milledge, Nancy Grabeel, Fay Marie Beck, Barbara Bruner, Margaret Scott, Dona Jean Stork, Beverly Hale, Lois Cook, Bobby Dear, Roy Devers, Dale Hoover, Myron McCarty, Richard Blackmore, Leon Bell, James Hale, Billy Herndon, Gene Waide, R. E. Waide, Ronnie Waide, Mickey Huston, Don Dietrich, Curtis Leicht, Bob Dunlavy, Gary Conley, Glen Roy Callahan, Charles Scott and Dean Morgan.

Mrs. Thrasher, president, presided at the business meeting and during the election of officers to serve during 1947, she was re-named president for the Hometown Women. Other officers to serve are Mrs. George Graves, vice-president; Mrs. M. S. Hummer, secretary-treasurer; Mrs. Corwin Trosper, reporter; Mrs. M. S. Hummer, council delegate and Mrs. Corwin Trosper, alternate delegate.

The group was led in a word guessing game by Mrs. Wheeler, and Mrs. Trosper gave the council delegate report.

Mrs. Wheeler showed several interesting fall flower plants, among them a broadleaf evergreen and an iris bloom of orchid shade. The demonstration was on bed spreads; the various types discussed were chenille, candlewick, print material and rayon. Three stuffed animals, a rabbit, penguin and horse for children were displayed. Several members copied patterns for dainty aprons for gift making. Mrs. Wheeler also explained block printing with a Prang paint set used on material from the Itasca, Texas, Weavers' Guild.

The refreshment plate accented the Halloween motif and offered sandwiches, pumpkin pie with whipped cream and witches' brew or orangeade.

Those present included Mesdames Orville Cook, Roy Doerrie, George Graves, D. D. Hummer, M. S. Hummer, Rhoda Stollings, Corwin Trosper, Virdie P. Wheeler, B. L. Barnes of the McMillen club, Kenneth Hocking, Alvin Paine and daughters, O. R. Collins and daughters and Miss Virginia Pluitt.

Mrs. Corwin Trosper will be hostess to the club on Wednesday, November 20.

Among the suggestions presented were scuffs, luncheon sets, embroidered pictures, stuffed toys, home made bedspreads, including both the flounce and candlewick type. Work with a stencil set was also demonstrated.

Those attending were Mesdames James Brillhart, L. R. Conner, Allen Dennison, Dan Teater, H. N. Elledge, Carl Scroggs, Walt Pres- ton, J. R. Stump, Marvin Groves, D. B. Stump, and Wilma Gilmore. O. A. Burger, Roy Leicht and David Burger were guests.

The next meeting will be November 6 in the home of Mrs. P. W. Wermake; the topic is "Getting the Most from Refrigerators."

Mother's Club In Luthi Home

Mrs. Johnnie Luthi entertained the Young Mother's Club of the Methodist Church at her country home last Friday afternoon.

Mrs. H. L. Thurston led the program on "Early Years Lay Foundations." A poem, "The New Home" was read by Mrs. Bob Holt, and Mrs. A. J. Eudy discussed "Protect His Heart."

The hostess served refreshments to Mesdames James Brillhart, Bob Holt, Jack Elzey, Floyd Coffin, Lloyd Phillips, Rufus Bolerjack, J. W. Putnam, A. J. Eudy, Lawrence Elzey, W. L. Thurston, Ralph Headlee and Roy Sanford.

Church Vows Unite Miss Beth Floyd
and Robert Goff Sunday, October 20

The First Baptist Church was the scene Sunday morning, October 20 for the marriage of Miss Beth Evonne Floyd, daughter of Mr. and Mrs. W. H. Floyd, 2223 10th St., Lubbock, Texas, to Robert Eugene Goff, son of Mr. and Mrs. A. V. Goff, 715 S. W. 3rd St., Perryton, Texas.

Rev. O. C. Curtis, pastor, read the impressive double ring service at nine o'clock before the altar banked with baskets of giant white mums and red oak leaves and tiered candles, against a background of living palms.

While the candles were being lighted Miss Carolyn Reynolds of Lubbock, organist, played "Indian Love Call." She accompanied Miss Theda Porter, Lubbock, who sang "Because - D' Harlelot, and 'I Love You Truly.' Miss Reynolds played the traditional wedding marches, and "To A Wild Rose" - McDowell was played softly during the exchange of vows.

Bridesmaids were Misses Ruth Morgan, Carol Lawrence, Betty Sue Morgan and Marian Day; they wore dresses of pink net and carried colonial bouquets of mixed flowers. Miss Margarette Orrill, cousin of the bride, was maid-of-honor, and she was attired in pastel blue marquisette; her flowers were pink carnations. Mrs. Elizabeth Hobgood of Abilene, Texas, attended the bride as matron-of-honor; her dress was of yellow net and she carried white carnations.

Miss Betty Pugh, in a gown of pink net, and Mrs. Curtis Brown of Shawnee, Oklahoma, in a dress of pastel green net, lit the candles as the service began. They wore wrist corsages of white carnations.

Attending the bride-groom were John Hamblenton of Norman, Okla., best man and Ray Brown of Pampa, Texas, cousin of the bride-groom, groomsmen.

Billy Curtis and Rev. Curtis Brown of Shawnee, Oklahoma, were ushers.

Little Miss Jo Nita Watson, in a floor length dress of pink net, preceded the bride down the aisle, strewn rose petals in the path. Lynn Curtis bore the rings on a white satin pillow.

The radiant bride was given in marriage by her father. Her wedding gown was of white slipper satin fashioned with leg-o-mutton sleeves and the full skirt fell from a molded bodice extended into a flowing train. The sweetheart neckline was accented by an intricate design of tiny crystal beads. Her fingertip veil of two tiers was held in place by a beaded crown, and she carried a shower bouquet of white roses.

For her daughter's marriage, Mrs. Floyd chose a suit of black gabardine with complementing accessories and a corsage of white carnations. Mrs. Goff, mother of the bride-groom, wore a black wool crepe suit with a corsage of white carnations; her accessories were black.

Immediately following the ceremony the couple greeted the guests in the foyer of the church.

When they left for a wedding trip to Colorado and New Mexico, the bride was wearing a gray wool gabardine two piece suit, grey gloves and hat, russet bag and shoes, and a fur trimmed needle point top coat of blue.

The bride is a graduate of Texas Technological College where she studied voice and piano in the school of music. She was a member of Alpha Chi Omega, Las Leales.

Mrs. Amos Morris
New Chairman of
County HD Council

Mrs. Amos Morris was elected chairman of the Ochiltree County Home Demonstration Clubs Council when they met Saturday, October 19 in the ladies lounge in Perryton. Other officers selected were Mrs. O. C. Rogers, vice-chairman; Mrs. Robert Barlow, secretary-treasurer and Mrs. Delbert Davis, reporter.

Roll Call was answered by giving the name of each club president and council delegate for the coming year.

Mrs. Robert Barlow, who is chairman of the park project, stated that four stoves which have been purchased for \$16.50 each, will soon be placed in the Ochiltree Memorial park.

Announcement was also made regarding the County Wide Recreation night on November 8. All club members and their families will be in attendance. The affair will be held at the school cafeteria, and a program will be furnished by club members following the potluck supper.

Present for Saturday's session were Mesdames P. E. Rhine, Dan Manning, A. L. Carter, Amos Morris, Virdie Wheeler, John Schoultz, James Hardy, C. F. Moses, Sid Beck, O. C. Rogers, Robert Barlow, D. Trosper, L. P. Waggoner, E. N. Flathers, C. Pshigoda and Delbert Davis.

The bride-groom attended Oklahoma Baptist University, Shawnee, Okla. for two years and received a Bachelor of Science degree from the University of Oklahoma at Norman in 1942. He also studied Epidemiology and tropical medicine at the National Naval Medical School, Bethesda, Maryland. He has recently been discharged from the armed forces, having served 27 months; 18 months were spent with the First Marine Division in the Southwest Pacific.

Out-of-town wedding guests included Mr. and Mrs. A. L. Jordan, Channing, Tex.; Miss Betty Ann Kershaw, Lubbock, Tex.; Mr. and Mrs. Grover C. Seymour, Lee's Summit, Mo.; Mr. and Mrs. Homer C. Miller, Antioch, Tex.; Mr. Elmer E. Brown and Ray Brown, Pampa, Tex.; Rev. and Mrs. Curtis Lee Brown, Shawnee, Okla.; Mrs. Ruth Jordan, Cordell, Okla.; Mrs. Percy Goff and daughter, Joan, Stroud, Okla. and Mr. and Mrs. John B. Hamblenton, Norman, Okla.

Plans were made for the Halloween party and the next meeting will last all day and is to be held in the home of Mrs. Payett Wagner.

Christmas gift hints by Mesdames Earl Flathers, Cal Callahan, Bill Klein, Raymond Byers, Ed Savage, Sonny Brownlee, W. C. Cotner, Fay Savage and Mrs. P. Schroeder. Visitors were Mrs. David Klein and Mrs. Flathers.

Plans were made for the Halloween party and the next meeting will last all day and is to be held in the home of Mrs. Payett Wagner.

Observance of
F. H. T. Week by
Local Chapter

In observance of Future Homemakers of Texas Week from October 19-25, the local organization staged an all day picnic at Lake Fryer Saturday.

Highlighting the day was the baseball game, the lunch and hikes. Mesdames Fletcher, Modrick, Beuter and Freddie Palugoda furnished transportation for the day.

Saturday the girls attended the Baptist church in a group. An installation service for new officers was held Wednesday evening, with Lola Barnes the installing officer.

Carol Smith assumed her duties as president and other officers installed were Beverly Hale, vice-president, Georgia Ann Dragoun, secretary, Ramona Modrick, treasurer and Mavis Hardy, reporter.

The club has forty members who are planning many interesting activities for the year, and guests who are interested in the work of the club are invited to visit the homemaking department at the school at any time.

WICS Meet for
Missionary Study
With Mrs. Leslie

The WICS society of the Christian church met in the home of Mrs. Bernard O. Leslie Monday evening for monthly missionary study.

Mrs. Spencer P. Whippo presided for the business session. Mrs. Weldon Clark was named to serve as missionary chairman for the society. Mrs. Leslie as spiritual life chairman; Mrs. Jim Anderson and Mrs. Melvin Schell as the membership committee and Miss Catherine Coffey as stewardship chairman.

Mrs. Alton Bowwell, secretary, reported that money had been sent to Juliette Fowler Orphans Home in Dallas to buy two bunches of bananas for school lunches. It was decided to send clothing to the home immediately.

Mrs. Weldon Clark led the study program on "The Christian and Race." She was assisted by Mrs. Murrell Ballard and Mrs. Whippo. Mrs. Ward Gregg led the closing devotion.

The hostess served a delightful refreshment plate in the Autumnal motif to ten members and a guest, Miss Helen Carlson of Madison, Wisconsin.

Mrs. Joy Hergert
Party Honoree

Mrs. Joy Hergert of Ft. Worth, who was a Perryton visitor the past week was honored at a bridge party last Thursday evening by Mrs. Edna Tucker in the home of her parents, Mr. and Mrs. H. C. Brillhart east of Perryton.

Scoring awards went to Mrs. Henry Richardson, who played high and Mrs. Ike Kelley of Canadian, second high.

Seated for the games and the refreshment plate were Mesdames Kermit Johnson, Ike Vernon, Richardson, Gene Brillhart, Jean Blasingame, S. M. Edmondson, Beth Feulscher, G. W. Acker and Jake Kelley, Irvin Hergert and Ike Kelley of Canadian.

Miss Gaynelle Leatherman observed her seventh birthday last Thursday afternoon with a party at the home of her parents, Mr. and Mrs. Ross Leatherman.

Outdoor games were enjoyed following the gift inspection. Favors were Halloween suckers.

Refreshments were served to Janey Todd, Mary Lou Jacquot, Janice Schuster, Joynyn Lovett, Judy and Pat Conner, Joyce Ann Miller, Carol Sparkman, Russ Thomas, Dixie Conley, Danny Witt, Kay Witt, Eddie LeMaster, Glenda McGibbon, Virginia McLanahan, Sue Ann Brashears and Shirley Stone.

Club Entertained
Friday Evening

Members of the Black Home Demonstration club were entertained in the home of Mrs. H. W. Bagley Friday evening, October 18.

Officers were elected for the coming year, and Saturday night, November 2 was decided upon for the date of the party to be held in the home of Mrs. Sid Beck. Each member is to invite a guest.

Mrs. Schubert made a talk on the advantage of having a specified place for canned foods in the home. Mrs. Wheeler, demonstrator, gave a demonstration on stencil work and making bed spreads.

Refreshments were served to the following: Mesdames Sid Beck, D. F. Moses, Schubert, Ed Beck, Hayden, Rowles, Taylor, Pope, Crain, Wheeler, Bagley and three visitors, Mrs. Larson, Mrs. Dennis Reed and Mrs. Bill Schets.

The next meeting will be with Mrs. Schubert.

New Members
Welcomed by
Sosis Group

New members were welcomed by the Home Economics department of the Sosis group when they met last Wednesday evening in the home of Mrs. J. R. Thomas. The new members were Mesdames F. Holmes, John Sell, J. W. Barnes and Clarence Neufeld.

The study hour, Mrs. H. D. discussed styles of furniture. Mrs. Hood Willis told of drapery and Mrs. Fae Marie Beck played with a piano solo and Mrs. Blackmore gave a reading by group.

Refreshments were served by the club at the close of the two hour session.

Members present were Mesdames B. LaMaster, H. D. Barnes, M. Schelling, D. A. Caldwell, Ray and Ralph Headlee, G. D. Holt, J. Jackson, Harold Kershaw, C. L. Schell, O. C. Curtis, Hood Willis, and J. H. Ward. Holmes, Sell, Putnam, and two visitors Mesdames P. Poole and Glen Truax.

Hospital Notes

Visiting Hours:
10:00 a.m. until 11:00 a.m.
2:00 p.m. until 4:00 p.m.
7:00 p.m. until 9:00 p.m.

Barley Holmes is a hospital patient.

Murphy, Morse, Texas, is a hospital patient.

Mr. Ira Thornton, a medical patient, was admitted October 23.

Mr.

SIT IN THE SHADE AND PLOW!

Rear view of the plow turning earth. The apparatus is an adaptation of equipment used in the "Queen Bee," a target plane devised for anti-aircraft artillery practice.

This radio-controlled farm tractor, shown undergoing tests in England, looks like an answer to the farmer's prayer. Man at right holds the tiny master switch which directs the tractor. Incoming radio signals operate sensitive electrical relays in the receiver, so that by means of compressed air servomotors, the tractor can be made to run straight or turn right or left. The plow can be raised when the tractor turns at end of a furrow. The plow-raising system is cut out when other implements are attached. The apparatus is a development of Tractors, Ltd., in co-operation with the government, and is said to consume only about an eighth as much fuel as conventional equipment.

Elementary school attendance in the United States reached a peak of more than 23,000,000 in the early 1930's.

Komotine and Xanthé are the largest inland cities in western Thrace.

The wild goose has about 12,000 muscled, 10,000 of which control the action of its feathers.

It is estimated that the number of teachers in U. S. elementary and high schools dropped from 927,000 in 1941 to 868,000 in 1944-45.

New Father Reports Shortage on Names

Syracuse, N. Y.—(AP)—Now there's a shortage of girls' first names, according to the father of a three-week-old Liverpool, N. Y., girl, who returned a name form to the county unfilled.

In a letter to Bernard M. Mitchell, county registrar of vital statistics, the father wrote: "We have not named the child yet and have no reason for believing we will do so soon. The fact is we spent some time getting a name. The child turned out to be a girl and we could not use the name we spent so much trouble getting. Times being what they are, shortages of everything—it will be impossible to get a name within a reasonable time."

Mitchell said it was the first time in the history of the department that a supplemental name form had been returned without the necessary information written in.

Between 1922 and 1943, the population of Haifa in Palestine has jumped from 24,000 to more than 120,000.

SOCIETY.

(Continued from Page 1)

Entre Nous Club At McConnells

Mrs. W. L. McConnell was hostess to Entre Nous bridge club last Wednesday afternoon. Mrs. Max Boyer was a guest of the club.

Prizes went to Mrs. W. R. Cayler for high score and Mrs. Cecil Dodd, second high.

The refreshment plate was served to Mesdames Charley Kent, G. L. Keagle, Jake LeMaster, W. R. Cayler, Fred Osborne, A. B. Hankins, Cecil Dodd, J. H. Bradshaw, G. McGibbon, Miles Edwards and Boyer.

Miss Hurlhey Is Complimented

Miss Georgia Hurlhey was complimented at a dinner bridge on Tuesday evening, October 15, in observance of her birthday. Mrs. Sibyl McGarraugh was hostess at her home, 905 S. W. 5th Street.

Seated for dinner and the game were Mesdames Ross Leatherman, Beulah LeMaster, Jean Blasingame, Neal McGarraugh, Cleo Tuley, Lillian Campbell, Misses Marie Pinkney, Marjory Price, Madeline Colbert, the hostess and the honoree.

October Meeting Of T. E. L. Class

Mrs. J. M. Grigsby and Mrs. J. B. Nash were hostesses for the October business and social meeting of the T. E. L. Class of the Baptist Sunday school on Tuesday afternoon, October 15. Mrs. Grigsby's daughter, Mrs. J. C. May, assisted with the hostess duties.

The devotional led by Mrs. G. D. Holt, was followed by the business session; Mrs. J. L. Blackburn, president, presided.

Recreation during the social hour was under the direction of Miss Clyde Cofer, social chairman for the class.

Refreshments were served by the hostesses to Mesdames Holt, John Klapp, E. O. Bruner, T. P. McLain, Blackburn, J. D. Wade, Nancy Edmondson, E. B. Morgan, J. W. Cayler, G. I. Horne, Ollie Morris, A. M. Horan, Cofer, Anna O'Boke, Dave Copeland and Mrs. B. L. Barnes and Miss Neva Morris, guests.

Mrs. S. R. George underwent surgery in the Shattuck hospital Saturday and will be a patient there for the next two weeks.

4-H Club Idea Wins In Korea Election

SEOUL, Korea.—(AP)—In an election described as the first secret balloting in Korea in 4,000 years, householders of Kyunggi province have approved a proposal to introduce the American 4-H club type of agricultural program to the province's young folk.

The vote was 229,367 for the 4-H idea, 73,239 against, and 8,102 voided or defective ballots.

The 4-H proposal was originated by Lt. Col. Charles A. Anderson of Beatrice, Neb., American military governor of the province.

Mr. and Mrs. Glen Weeks of Carroll, Iowa, were guests recently in the home of Mr. and Mrs. W. J. and Mr. and Mrs. J. W. Cayler. Mr. Weeks is Mrs. J. W. Cayler's nephew.

Veterans Administration received more applications for guaranteed or insured G. I. loans during August than during any previous month.

CARD OF THANKS

I wish to express my thanks and appreciation to the many friends and neighbors for the cards, letters and flowers during my stay in the hospital at Temple, Texas.

Mrs. Clint Ragsdale.

GI Flamethrowers Get Peacetime Job Killing Stubborn Weeds on Farm

By HOWARD DOBSON
(For Jane Eads)

WASHINGTON — Former infantrymen who lugged flamethrowers during the war should be able to adjust happily on some modern farms.

There is a new machine for giving weeds a mechanized hotfoot.

Also, ex-tank drivers certainly would enjoy getting acquainted with a new type of bulldozer tractor which loads manure, rocks or even hay without laborious handling.

These are just two of many improved devices, gadgets, machines and assorted labor-saving ideas which agriculture research engineers are testing at their proving grounds near here.

The engineers don't invent, but they encourage inventors and help machinery manufacturers by testing new ideas.

The "flame cultivator," developed originally for cotton farmers to eliminate hoeing weeds between

the plants, is being tried out now on cane and corn. It consists of two blow torches, which fire hot blasts across the rows while other attachments cut the weeds between the rows.

The device is not used until cotton stalks are at least 3-16 inch thick, large enough to stand a little scorching.

The new loader is attached to the front end of a regular tractor. It digs in under a load of manure, for instance, and picks it up like a scoop shovel.

It operates the same as a sweep hay rake and can load anything that has to be picked up and put into a wagon.

Several manufacturers are working on a small-10 horsepower, 1,000 pound — tractor for farms of 40 acres or less. It fills the gap between the large and the garden tractors.

Hydraulic control is all the rage now. They call it "fingertip con-

trol," of course, and a farmer actually can lift the plow or harrow attached to his tractor without wrestling a long lever that rusts and gets stuck.

There is a new combine harvester which is a single unit with the tractor that powers and carries it. The operator cuts a swath directly in front of him, doesn't have to worry about a back swath when he is through with a field, and can detour any patch of grain that looks too green for cutting.

There also is a new and choosy cotton picker. Its spinning fingers grab only the open bolls and don't strip plants as earlier pickers did.

For the corn-borer country there is a new picker and shredder which chops up corn stalks—and the borer in them. This kills the insects and leaves the shredded stalk to be plowed back into the ground.

And there is a blower machine for air-conditioning hay which is cut green. It dries the hay for stacking.

The U. S. Office of Education estimates a 1946 school enrollment of 28,283,000—or a little more than one in every five persons in the country.

Wot, No Smoke For Smoke in Air?

NEW YORK (AP) — One feature of Pan American World Airways' version of the Boeing Strato-cruiser will produce a strange effect on passengers who smoke, according to engineers working on the airliner.

You won't be able to blow a smoke ring. You'll get all set to blow and you'll blow, but there'll be no smoke ring. In fact, no smoke.

The engineers have installed a system that changes the air so fast, the cigarette smoke never has a chance. The system snatches the smoke away almost before it gets out of your mouth. There's no draft, but the passengers get completely new air every 90 seconds.

A rat is said to do at least one dollar's worth of damage a year on the farm and twice that much in the city. The total annual damage is estimated at \$200,000,000.

Cat-Beasts Sought In Australian Wilds

SYDNEY (AP) — A recent report that a man had shot "two unknown puma-like animals" at Tugun, near Maryborough, Queensland, had set Australian zoologists speculating again about the possibility of the existence of a giant Australian cat.

If one were proved to exist it would be a discovery of first-class scientific importance. Reports persist about "large beasts of the cat-like tribe . . . the size of a mastiff with tiger stripes."

Australian zoologists don't write off the possibility of a large Australian marsupial (pouched) cat existing in some of the wilder and little-touched corners of Australia. There's little doubt, for example, that marsupial wolves exist in the wilder and more remote areas of north-western Tasmania. The marsupial wolf once was all over the mainland but has now become extinct there, a few specimens have been preserved. Its last stronghold in Tasmania where it was fairly frequent when the first white settlers came.

Puerto Rico is the most mountainous island in the south Atlantic.

From where I sit ... by Joe Marsh

On Playing the Fiddle Badly

Favorite recreation in our town sitting together in one or another home and making music. Somebody at the piano; a fiddle player; and Molly who even has a harp!

That comes out isn't the best in the whole world. In fact, it is downright bad. But I even think to question or criticize.

Because the spirit of harmony is in—harmony between folks who reach other's company, who end the simple, homey atmosphere

—with nothing more exciting than old songs, and a glass of moderate beer or cider.

From where I sit, it's a heap more important to be a poor fiddle player, than not to play at all. More important to be a part of the American scene—with its community music, home entertainment, friendly glass of beer—than to hold out for professional perfection. (Besides, I like to play the fiddle—even badly!)

Big Fishing Fleet Planned for Poland

Warsaw—(AP)—The semi official Polish newspaper Rzeczpospolita said a fishing fleet capable of supplying 140,000,000 pounds of fish annually for the home market is being planned under the three-year investment program of the chief maritime institute. The journal said "this should contribute to a general improvement in Poland's food situation and protect at the same time the cattle population."

CURLEY'S SERVICE

West Brillhart Ave.

End of the Long Grind

A Challenge To Free Enterprise

ROGER W. BABSON, Editor-in-Chief

En Route to Central West, Oct. 18. As this is being published I am on a railroad train making my annual inspection of our U. S. Well, my first thought is that the railroads are racing toward government ownership! It is not entirely the fault of management although the lack of interest in the railroad financial or otherwise, on the part of directors and officials is no doubt a contributing factor. A railroad of any other business can not be expected to operate at a loss. Yet today, in the greatest period of peacetime railway traffic, most of the railroads are operating at dangerously high costs and are crying for higher freight rates which only postpone the day of recovery.

The railroads, today, need many high-cost replacements. It is estimated that from our four to six thousand locomotives will need to be replaced within the next few years, many now being over twenty-five years in service. There is great need for new passenger and freight cars. Are the railroads to continue to operate with the same equipment until eventually it falls apart and we have no railroads? Or are they going to manage to operate with a profit large enough to attract investor interest and thus with the increased capital so obtained permit replacements and improvements?

NEED FOR ECONOMY

The only real hope for continued solvency of the railroads is a concerted campaign to reduce costs. We have examples of such savings in the new vapor seasoning method for ties and timbers, which reduces checking and splitting more effectively than the old air seasoning process. Further, it reduces the time necessary to accomplish the seasoning from approximately 15 months to less than a day. End hardened and welded rails help to reduce high maintenance costs. The use of longer-lived materials results in greater rigidity and permanence of track.

Partly because of higher labor costs, many maintenance-of-way departments are using more power-operated machinery than ever before. With machines, three to four times more track can be laid in the same time than can be laid manually, and maintenance costs materially reduced. The protection of ties from mechanical damage, caused by the higher speeds and the heavier loads and motive power of today may be effected by the installation of larger tie plates. An authority on the subject states that the installation of such large plates, even though the heavier rails are not now to be installed, will produce

a saving per track mile of \$500 to \$1300 annually. But all these improvements cost money and where will the money be found? I fear that Uncle Sam who controls the scales must provide it.

Management's Responsibility

Directors and officials of railroads should have a greater financial interest in their companies. If the present management is to continue to operate the railroads, it is up to an active managing interest to avail itself to all known and new methods of economic operation. Furthermore, labor must cooperate toward a fair relation between labor costs and freight and passenger rates, and in addition must find ways of encouraging thrift and responsibility for a full day's work by all of the railroad employees.

If management does not fight for its rights to make and keep the railroads a profitable business, government ownership is likely to result. A fair example of what this might mean can be seen in Mexico where the rail transportation of the country is close to breaking down and where the government-owned and operated by the labor unions. And this brings me to my final statement, namely, that the labor unions are running the railroads. With an exception of a dozen, I don't want a penny invested in the remaining 200 roads.

Phosphate Shipments Aid New Zealand Farms

AUCKLAND, N. Z. (AP)—New Zealand's production of dairy produce will be greatly assisted by the resumption of phosphate shipments from Nauru and Ocean Islands, two rich phosphate islands near the Equator, which were captured by the Japanese during their advance in the Pacific.

From the enormous deposits of phosphate on the two islands about 1,200,000 tons were shipped every year before the war. Farming economy in both Australia and New Zealand rests very largely on extensive use of phosphate as fertilizer to keep the pastures in good condition.

The average estimated teacher's salary in elementary and high schools in the United States in 1945-46 was \$1,975.

East of Bowd

Weather has been pleasant. Wheat fields look green, as all the wheat is growing nicely except in spots where it washed badly.

The community extends sympathy to the relatives of Mrs. E. K. Gates. Mrs. Gates passed away Sunday. She was another of the pioneer ladies of Beaver County.

Fred Whittet is at home after spending several weeks in the hospital at Halstead, Kansas.

Mr. and Mrs. Harry Kirtan write from Twin Falls, Idaho that they are enjoying their stay there. They are visiting in the Harry Holt home. Mrs. Holt is their daughter. Annabelle Whittet, youngest daughter of Mr. and Mrs. Fred Whittet and William White of Liberal, Kansas were married at the Christian church in Liberal, Oct. 6.

Lewis Whittet has been cutting feed for several of the farmers around Boyd.

Lee Schollenberger and sons, Maurice and Glen, have been shocking feed for W. H. Williams.

Christian Science

"Probation After Death" is the subject of the Lesson-Sermon which will be read in all Churches of Christ, Scientist, on Sunday, October 27.

The Golden Text is: "Blessed is the man that endureth temptation: for when he is tried, he shall receive the crown of life, which the Lord hath promised to them that love him" (James 1:12).

Among the citations which comprise the Lesson-Sermon is the following from the Bible: "Be ye

Relief At Last For Your Cough

Creomulsion relieves promptly because it goes right to the seat of the trouble to help loosen and expel germ laden phlegm, and aid nature to soothe and heal raw, tender, inflamed bronchial mucous membranes. Tell your druggist to sell you a bottle of Creomulsion with the understanding you must like the way it quickly allays the cough or you are to have your money back.

CREOMULSION
for Coughs, Chest Colds, Bronchitis

therefore perfect, even as your Father which is in heaven is perfect" (Matthew 5:48).

The Lesson-Sermon also includes the following passage from the Christian Science textbook, "Science and Health with Key to the Scriptures" by Mary Baker Eddy: "The divine demand, Be ye therefore perfect, is scientific, and the human footsteps leading to perfection are indispensable" (page 253).

Conservation Conscious Texans Short Fertilizer Supply

By TEX KASLEY

HOUSTON, Oct. 15 (AP)—Farmers have become so "conservation conscious" that they have depleted their source of fertilizer.

The view of Roland Crumpler, director of the Production Administration of the Agriculture Department, is that the conservation movement has gone too far.

The P and MA succession, Agriculture Adjustment Administration, are pointing the government to the

to 70 and 80 per cent of the phosphate potash, seeds for

and over crops. All to be redistributed the fertility of

and retaining water and

seem to be in a soil conservation state of mind.

Various government, local farm groups, banks with money invest-

are promoting conservation.

People have taken hold of the idea and are pretty vigorously

not the seeds distributed

and all the cooperation needed, but to get maximum benefit out of the program they need more fertilizers. That's where the rub comes in. There's not enough to meet the demand.

D. F. Vance, of College Station, director of the P and MA in Texas, conferred here with Crumpler about the fertilizer situation. Reps. Poague and Teague called Crumpler's attention to the shortage of phosphates in central Texas.

This is the overall picture, as described by the Agriculture official. The total production of phosphate in the United States is 7,000,000 tons annually. This constitutes by far the greatest portion of fertilizer used in this country. Phosphate rock is mixed with sulphuric acid to make the proper mixture for soil rebuilding.

Virtually all of this production is in privately-owned plants, and it is distributed through private trade channels. The more limited production of potash fertilizers is controlled by the Civilian Production Administration and allocated to states on the basis of need.

The government owns one phosphate fertilizer plant, which is expected to turn out 50,000 tons of fertilizer during the last six months

THE JAPANESE GENERALLY BELIEVE THAT THEIR ARMY-LESS COUNTRY WOULD BE DEFENDED BY THE U.S.—THIS WOULD IMPLY A PERMANENT CLOSE RELATIONSHIP WITH AMERICA.

THE CABINET WILL BE RESPONSIBLE TO THE TWO ELECTED HOUSES IN THE DIET, THUS ASSURING THAT THE PEOPLE WILL HOLD THE FINAL VOICE IN HOW THE GOVERNMENT IS RUN.

Veteran Forum

Q I served only four months in the army before I got a dependency discharge. Now I'm in need of an operation. Am I eligible to enter Veterans hospital?

A Yes, any veteran is eligible for hospitalization at a VA hospital providing he served at least 90 days in the armed forces and that his discharge is other than dishonorable. However, to be treated for no-service connected ailments, you must sign a statement that you are financially unable to pay for private treatment.

Q Can a veteran be cared for in a private hospital at the expense of the government?

A Yes, provided the ailment was incurred in or aggravated by service in the armed forces and prior authorization is obtained from VA Regional office. In the case of female veterans, the ailment need not be service-connected.

Q Can I be treated at a VA hospital for malaria that didn't evidence itself until after I was discharged from the Army?

A Yes, the VA rules that malaria may be service-connected even though not attack occurred prior

to the veteran's release from service. Therefore, you may be hospitalized in a private hospital if an emergency or in a VA hospital. Out-patient medical treatment may also be authorized. If your illness is serious enough, you may also file a disability claim.

Q Is a veteran's family entitled to care in a VA hospital?

A Not unless they have attained eligibility in their own right by reason of service in the armed forces.

Q May I be furnished a wheelchair by the VA?

A Yes, if you have a service-connected disability requiring the use of one.

Q May an honorably discharged member of the WAC obtain hospital treatment and domiciliary care in a VA facility?

A Yes, former members of the WAC, as well as any other women's organization in the armed forces, are entitled to the same treatment

as male veterans.

of 1946. Built by the RPC as a war emergency project, the plant is located in Houston. It uses phosphate rock obtained in Louisiana and sulphuric acid from Texas.

In addition to the output of the Houston plant, which is distributed by the P and MA, the Federal Agency also buys phosphate fertilizers wherever it can procure any from private manufacturers. From this source it expects to obtain 15,000 tons in the latter part of 1946 to augment the production at the Houston plant.

Texas is to receive 14,000 tons of the total of 65,000 tons which the P and MA will have for distribution to farmers in the soil conservation work. The number of Texas farms which were lined up in the AAA soil conservation in 1944—the latest full year for which figures are available—was 230,300. The acreage involved was 29,505,000, and payments

to farmers for their co-operation totals \$33,448,000.

Crumpler was unable to say how much phosphate fertilizers Texas farmers were able to obtain through private trade channels, but expressed certainty that it was considerably less than they wanted.

As an example of the increasing demand of Texans for fertilizers he mentioned a telephone call made to a phosphate plant in Louisiana. The government for years had been buying the plant's output for distribution through AAA committees in various states. When he reached the Manager, Crumpler was told that the production now was going entirely to private dealers in east Texas.

Invents Electric Lock-Picker, but He Won't Sell It

CHATTANOOGA, Tenn. — A Chattanooga, locksmith says he has perfected a portable electric lock-picker that could be a menace to civilization.

William Miskill says his device will open the average door lock in a matter of seconds and would be a potential bonanza for house-breakers and car thieves.

But, he added, it will never be put on sale—he's a locksmith and it's to his interest to preserve locks rather than undermine them. The device, the result of 18 years' experimentation, consists of a long steel needle connected to some coils which cause the needle to vibrate when electric current is applied.

All Miskill has to do is insert the needle and a tension tool into the lock and press the trigger. The needle vibrates and, aided by the tension tool, forces the lock tumbler up and the door opens.

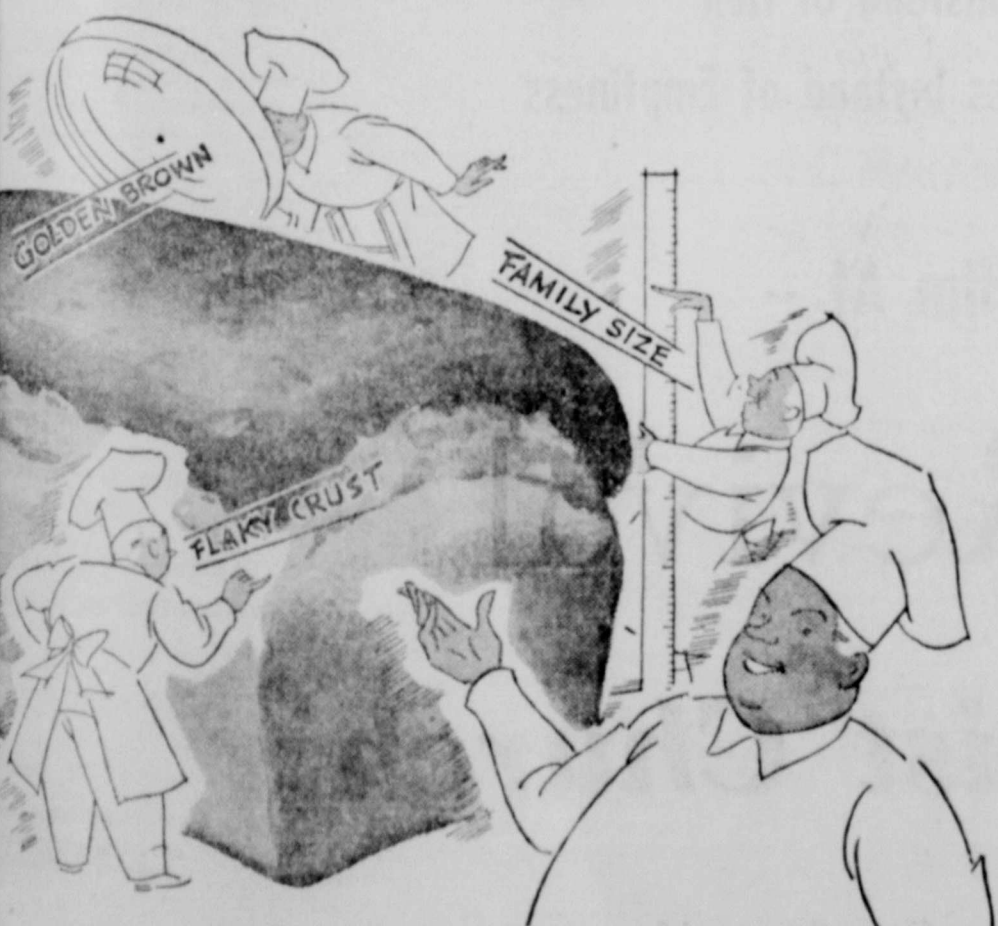

The only noise connected with the operation is a gently humming audible only within 10 feet. The machine is easily portable. A dry cell fits in one back pocket and the coils and needle in another.
