Beer Selling Charge Set For Lujan

Alberto Lujan was charged Monday in Mitchell County Court with sale of beer in a day area.

Lujan remained in Mitchell County jail Wednesday afternoon in lieu of \$500 bond.

Highway Patrolman Buddy Hertenberger signed the complaint against Lujan for the alleged offense of Jan. 30.

Lujan appeared before County Judge Elmer Martin, but requested a delay to consult with an attorney before entering a plea. The court granted his request.

In another case K. D. McAlister entered a plea of guilty to driving while intoxicated in a case filed Saturday.

McAlister was fined \$50 plus \$27.50 court costs and given a three day probated jail sentence. He was also placed on probation for one year.

WOLVES DUMP LEADERS

Pack Slaps Touted Anson Tiger Quint

By JAMES ANDERSON

Colorado City Wolves jumped off to an early lead that they never relinquished in hammering the league leading Anson Tigers 47-36 in Wolf Gym Tuesday night.

The Tigers, who were previously undefeated in District 5-AA play, played solid basketball, but never managed to crack an airtight Colorado City defense that held the Tigers to a meager 15 points in the first half of play.

Wayne Snowden, tallied 19 points to lead the Wolves and all scorers for the evening.

The Wolves, while throwing the ball away on bad passes on several instances, managed to hold the lightning quick Tigers with an almost impenetrable defense.

Anson only made four successful free throws in the game and the Wolves amazing accuracy at the line proved to be one of the big differences in the game.

Wolves Jerry Franks and Mike Hillhouse scored nine each to backstop Snowden's top performance.

Ruey Tilley added six and Gary Parker contributed four points as the five Wolf starters went then entire route without a substitution.

The Wolves got ahead early and held onto a 10-7 bulge after the first period of action.

As the second quarter opened, the Tiger's Pat McGlothlin hit two quick points. Frank Frank added a gratis point and the McGlothlin struck a gain to knot the score at 11-11.

Hillhouse got hot and scored two quick baskets and then Tilley to pull away from the Tigers at 19-11 with 3:05 left in the second quarter.

McGlothlin, who led the Tigers with 14 points, hit for a basket to leave the Wolves pair, but Hillhouse made a lay ahead 21-15 at halftime.

Anson surged back in the third period with McGlothlin's six points leading the way for the visitors.

With 43 seconds left in the quarter, Anson neared the eventual victors at 28-23, but a basket by Parker and two free throws by Franks pushed

the Wolves out 32-25 as the second period ended.

Snowden, meshed a fast two points for the Wolves to open the last period while Anson missed on two of three free throws as the C-City called time with 6:09 remaining.

A pair of Tiger baskets cut the Wolf lead to three at 39-36.

The Tigers, getting anxious to steal the ball, fouled Franks and Snowden within the course of 19 seconds and the Wolf cagers hooped all four gratis tosses to take full command at 43-36 with only 1:43 remaining.

Hillhouse and Franks each added a free throw and Snowden popped the net for two points for the final score of 47-36.

Assisting with the services was Rev. L. B. Edwards, pastor of Westbrook Baptist Church. Burial was in Colorado City Cemetery.

Survivors were a daughter, Mrs. A. C. Bassett of Odessa; a foster son, Charles "Buster" Stevens of Colorado City; a brother, Terrell McKenney of Westbrook; and four grandchildren.

LITTLE HARVESTED

Few Cotton Samples In Classing Office

U. S. Department of Agriculture's Cottonseed and Marketing Service reported 14,823 cotton samples graded last week.

B. B. Martin, Jr., in charge of the classing office said there was very little cotton harvested during the week.

About 1/2 of the samples classed were carried over from the previous week, while the remaining 1/2 was what was accumulated on all yards and ginned during the week-end and the first of the week.

The grade of District 2 cotton dropped but was white grade dropped from 7 to 3 per cent of the total, light spotted qualities declined from 77 to 70 per cent, spotted cotton increased from 15 to 25 per cent, and light cotton increased to 2 per cent.

Predominant grades last week were: middling light spotted 9 per cent, strict low middling light spotted 54 per cent, middling spotted 9 per cent, and strict low middling spotted 18 per cent. The largest change in percentage was for middling light spotted which dropped from 19 to 9.

Samples reduced in grade because of bolls increased from 7 to 12 per cent of the total classed.

Sixty-seven percent of the samples stapled 15 1/8 inch compared to 76 per cent for the preceding week, while 29.32 staple length increased from 22 to 32 per cent. The remaining 1 per cent stapled 7/8 inch.

Microaire readings were unchanged compared to the preceding week. Forty-eight percent of the samples milled 3.5 through 4.8, 26 per cent milled 3.3 to 3.5, 18 per cent was 3.0 to 3.2, 6 per cent went 2.7 to 2.9 and 2 per cent milled 2.6 or lower.

The market became more sluggish as strict low middling light spotted cotton became more difficult to sell. Most of the cotton that graded middling

light spotted or higher went into the Commodity Credit Corporation loan as did the strict low middling light spotted cotton at a few places.

Prices received on the lower colored qualities ranged from \$1.00 to \$3.75 per bale.

Colorful Jellied Rice Salad

Rice Council Photo

The darling of almost every feminine luncheon is a salad—one that is pretty, easy to prepare and eat, and one that satisfies dainty lady-like appetites.

Molded Chicken, Rice, and Cranberry Salad is a good example of such a luncheon entrée. The colorful orange flavored cranberry layer forms a base for the snowy rice and chicken layer colorfully flecked with green onions and celery. The salad can be prepared the day before the party, chilled until serving time, then be unmolded on a serving plate and garnished with salad greens.

Sour cream and mayonnaise join the diced poultry and tender-cooked rice in the "meaty" layer that provides the appetite-satisfying part of the salad. For this recipe, regular milled white rice, cooked according to package directions, was used. Any other type of U. S. grown rice—brown, parboiled, or precooked—could be used when cooked according to package directions.

Molded Chicken, Rice, and Cranberry Salad

1 tablespoon unflavored gelatin	1/4 teaspoon white pepper
1 cup cold water	1/2 cup sour cream
1 1/2 cups hot chicken broth	1/2 cup mayonnaise
2 cups diced cooked chicken or turkey	1 teaspoon lemon juice
2 cups cooked rice	2 packages (3 ounces each) orange gelatin
1 1/2 cups diced celery	2 cups hot orange juice
1/4 cup chopped green onions with tops	2 cups jellied cranberry sauce
1 teaspoon salt	Salad greens

Soften gelatin in water. Dissolve in chicken broth. Chill until partly thickened. Add chicken, rice, celery, green onions, seasonings, sour cream, mayonnaise, and lemon juice. Mix well. Spoon into a loaf pan. Chill. Blend orange gelatin with orange juice and cranberry sauce. Chill until partly thickened. Pour over chicken mixture. Chill until firm. Unmold onto serving platter. Garnish with salad greens. Makes 10 servings.

Over 1200 Patients Now At Chiropractic Clinic

Chiropractic Health Clinic Dr. Elton Berkman served in Colorado City serves some 1,200 patients from many states during 1954-55 and is still a member of the legislative committee of the state organization. In addition, he serves on the legislative committee for the national organization. He and Dr. Virginia Berkman opened the local clinic in June, 1950, coming here from Seattle, Wash. Both are graduates of Palmer Chiropractic College in Iowa. Dr. Patillo is a graduate of Logan Chiropractic College in St. Louis. Over 3 million people are now using chiropractic science for health problems in the United States. At this time the science is less than 100 years old. The science is the use of analytical and X-ray equipment.

Grain Check Urged To Prevent Damage

Damaged grain can result from moisture migration at this season, and W. S. Allen, Extension agricultural engineer at Texas A&M University, suggest a check of grain storage be made now. Deterioration, he adds, may be found near the top center of the grain bin if damage is from moisture migration.

Maes Brown's average was 92.83. Ranks are determined following each six weeks period and are averaged from the time NHS students entered the ninth grade.

For one of its projects, Loraine chapter of National Honor Society is donating to the Loraine Guidance Services a 716-page College Handbook for 1965-67, published by the College Entrance Examination Board. College Handbook presents basic information about the 397 member colleges of the College Entrance Examination Board with details about location, size, program, terms of admission, annual expenses, financial aid, et cetera.

National Honor Society is also presenting the Manual of Freshman-Class Profiles, 1965-67, a 900-page book with profiles supplied by 419 colleges. Profiles are intended for secondary school counselors, teachers and administrators who help high school students with college plans.

Preston C. Lightfoot, counselor, is sponsor of the NHS at Loraine High School.

WANT TO LIVE FOREVER?

An age of desire of man is to LIVE forever! Weird formulas have ben concocted, fortunes and men have been spent strange and magnificent monuments have been created in attempts to LIVE forever. The ancient art of embalming, the search for the mythical fountain of youth, the Taj Mahal and pyramids are results of efforts to LIVE forever. GOD has promised -

You Will Exist Forever— BUT WHERE?

Accept GOD'S plan and LIVE forever in glory.
Reject GOD'S plan and exist forever in torment.

CONVERSATION CORNER

GENERALLY SPEAKING — which some women always are — life gets more complicated all the time. About the time you get the last Christmas presents paid for, here come those little old W-2 forms filled out with the fabulous figure earned, then spent in riotous living during 1965.

So you sit and wonder where the money went, when you view that total cent by cent.

SNOW MELTS just a few hours before a sudden and storm comes rushing in from the direction of Westbrook. Wonder who's been raining sand over there?

Course it could be all those Westbrook School kids stompin' their feet with disappointment 'cause their school's been closed. A better used for heating the building has been broken down. And of course such things make life very hard and dull for the young in search of knowledge.

TWICE in one day, our little neighbor town, Westbrook, made the news in a great big way — first on a statewide basis, then on a nationwide, radio broadcast.

First, the column Big D, written by Paul Crume for the Dallas News, came out with this paragraph: "And you may have noticed that the Winter Festival at Westbrook, out in West Texas, had to be called off because of winter."

Then, at noon Monday, another man named Paul — Paul Harvey — climaxed his resume' of weather conditions all over the continent by announcing to the world-at-large, "The annual Winter Festival at Westbrook, Texas, had to be postponed because of cold weather."

How 'bout that? Such publicity is enough to make our friends at Westbrook "do a little blowin'."

LOOKED UP to see a little familiar but almost never seen face — that of John Baze.

John, who ran the Colorado City Record as shop foreman and ad man for decades, lives in the State of Washington.

He and his wife Dora came to Texas last Nov. 30 to visit their daughter Jerry and her husband Riggs Shepherd, down at Victoria.

They were in search of some of that "warm winter weather" for which Texas is famous.

Two weeks ago, the Bazes came to Snyder to visit John's sister, "Tye," Mrs. Inez Brown.

Life being what it is, and largely made up of complications, they arrived in Snyder just hours before the blizzard, temperatures down to three degrees and loads of snow. C'est la vie. Where the Bazes live in Washington the record low is 19 degrees.

FAMILIAR FACES, here and there places, have belonged to Mrs. Wright Hock and her cute daughter Susan of Spade.

Also in from Spade, early this week, were attractive Christine Northcutt and her husband J. E. (Shorty) Northcutt, parents of Kenneth, Baylor U. student.

John Tom Merritt was dashing about in the wind but stopped by briefly for a chat. Seems that John's brother Jake (David, McMillan) Merritt sees fit to be retiring. "He's gonna divide his time between sittin' still and playin' golf," said John.

Asked about Joe Merritt, son of Jean and Ford and husband of Carolyn (Shirley) Joe, in Viet Nam, will have completed his military service in some forty-something days now.

JOHN T. MERRITT JR., son of John and Mabel (Sissy Majors) received his B.S. degree in civil engineering at Texas Tech at the end of the mid-term semester, by the way.

He is at home now and is working for EBASCO at the Morgan Creek Power Plant 30 million dollar addition site.

MARY POST is grandmother again. Her second son Bill is daddy of a new daughter, named Kathryn Mary. (few things in this world are as dear to the heart as a namesake!)

The baby was born to Brigitte and Bill Post Sunday morning in San Bernardino, California, and weighed 8 lbs., 10 1/2 oz. She is first daughter, second child of the Bill Posts. Her brother Bobby is seven.

SEEN LATELYS were pert little brunet Dolores Holman, CHS Howl worker, and Danny Fisher. Ruth Dezier and Mrs. W. W. Rhode lunching late together.

Saw, too, Mrs. Bob Berman, lovely-to-look-at blond Bob May, wearing his old friend John Baze. Diffie Clem and Frances Myers. Mae Fuller on the downtown scene. Mrs. Jess Craddock in a pretty blue coat. Christine Easterwood and her mother Mrs. W. L. Joyce. Mary Lee Moore, too.

Frank W. Wilson, the school super, was an office visitor.

A coffee breaking at the hotel coffee shop were Newby Pratt, W. B. Crockett, Jr., Lewis Elliott and Charlie Godwin. Elton (Mrs. Guy) Burson was saying that her first son Mike, Skipper Warren, son of Virginia and Pete Mickey and Terry Redwine, sons of the A. G. Redwines, all students in Texas Tech, have rented a "kitchen" apartment off-campus where they will plan, prepare and (possibly) eat their own cooking for a change.

All four of the young men are both working and attending classes.

P.S. HEAR TELL, that our Judy Root and her husband Billy Hubbard transferred from University of Texas to North Texas University in Denton at mid-term.

Denton is where the Charles Root first daughter, Anna Lee, her husband Ray Dillard and their son Charles Ray live.

Hear, too, that the Virgil Stones are moving to Mineral Wells. That our Edna Coe Majors (Mrs. Sam L. Sr.) is convalescing, following surgery. And that Baby Dale, living in C-City, she and her husband, Willis, are former C-City. She and her husband, Willis, are former C-City. She and her husband, Willis, are former C-City. Citizens who live now in McAllen.

HOSPITAL ACCOUNTING

Roots Attend 3 Day Seminar

Charles Root, owner of Root Memorial Hospital, attended a three-day seminar on hospital accounting in Austin Thursday-Saturday.

Mrs. Root also attended the seminar sponsored by the Texas Hospital Association at their headquarters in Austin.

In scheduling the three-day seminar, conducted by the Texas Hospital Association and sponsored by the Texas Association of Hospital Accountants, W. B. Forester, president of the 940 member hospital association, and Administrator, Bexar County Hospital District, San Antonio, said, "Both associations recognize the need for more hospital accounting instruction."

The seminar was scheduled so that the various levels of accounting education are recognized and neither duplication or omission prevent maximum utilization of instruction. Institute Coordinator is Thomas E. Riggs, CPA, Assistant Executive Director of the Texas Hospital Association. Primary purposes of the

seminar were to meet the need for a study of basic hospital accounting principles, discuss uses of accounting information in hospitals and explore fully reimbursement under Medicare. Registration was limited to 125 participants each day.

Instruction was devoted to bookkeepers, business managers, accountants, administrators, board members and owners who must learn about reimbursement under Medicare, or have a minimal knowledge of accounting theory, or are trained in other disciplines, or are new to the hospital field, or are trained in accounting but want to learn more about the uniform application of hospital accounting principles.

Progress Continues

Those of you driving down Oak Street near downtown these days must have noticed the progress in construction of the new county library building across from the courthouse.

Just this week workers finished pouring concrete for the floor of the new structure and the work is continuing on all phases of the project.

State officials inspected the building recently and turned in a good report on its progress.

So as the days go by, we here in Mitchell County get closer and closer to seeing a complete reality in the form of an institution that will be of great benefit to all of us in making our community a better place to live.

Medicare Deadline Nears

Of the 19 million persons over 65 eligible to enroll for the medical-care part of the new Medicare program that goes into operation in July, over 1 million have told the Social Security Administration that they do not want to be covered by this insurance. And about 7 million have not been heard from at all, although the enrollment deadline for those who were 65 or over on Jan. 1, at the bargain rate of \$3 a month, is March 31, only about two months in the future.

It is possible that some of those who have refused to sign up or who have not indicated a decision one way or the other are so wealthy that they can pay all their doctor bills out of their own pockets. But it is doubtful if there are very many of these. Many, it is suspected, simply do not understand the program or are confused. And some very low-income persons who must live on very tight budgets may feel they cannot afford to pay, even the \$3-a-month or \$36-a-year cost.

WHATEVER THE REASON, failure to sign up by the March 31 deadline can be costly, since those enrolling after the first enrollment period will have to pay a 10 per cent higher premium for the protection for every full year clamping in between.

Some of those who have said that they do not want to sign up have said they are already fully protected by private insurance. Many private insurance companies, however, have told the Social Security Administration that they plan to change their policies after Medicare goes into operation so that they will pay under those policies only medical costs that Medicare does not pay.

THOSE WHO NOW have their private policies should keep them, but they may find that they are not fully protected after July 1 unless they sign up for the medical-care part of the Medicare program.

First of all, everyone should understand that the medical-care insurance is separate from the hospital-care part of the program under which hospital care and many related services will be provided free to all persons over 65.

Under the medical-care part of the program, the person over 65 must pay the \$3-a-month insurance premium, and the federal

government will pay another \$3. They thus get the insurance for half price.

Subject to a \$50 deductible provision, meaning that the insured person must pay the first \$50 of his annual doctor bills, the government will pay 80 per cent of the remainder. This means that the insured person would pay \$146 of a \$500 medical bill.

SERVICES COVERED include the fees of doctors for treatment and diagnosis, the fees of surgeons, the fees of nurses or physical therapists, up to 100 home visits a year, the cost of diagnostic tests, surgical dressings, splints, casts and such devices as an artificial limb or a plastic heart valve; rental of medical equipment, such as a wheel chair or crutches; and medication for chronic disease, if administered by a physician.

Not covered and to be paid for by the insured person either out of his own pocket or through private insurance will be the fees for a routine physical checkup; the cost of eye examinations for glasses; the cost of hearing aids, eyeglasses or certain orthopedic devices; drugs prescribed for home use; immunization shots; and dental care unless surgery is involved.

STATES MAY PAY the premiums of all those on public assistance rolls, either as a group or individually. Some states have said that they intend to increase public assistance payments by \$3 a month, letting the recipients pay the medical-care insurance premiums themselves. In any case, a person must get an identification card to receive either medical-care or hospital-care benefits under the program.

Nobody can be forced to enroll, but the Social Security Administration wants every body to understand the program so that they will know what they will get for their money. If they do enroll and what their situation will be if they fail to enroll and pay the premium for medical-care insurance.

Families and friends can help to make sure that the program is understood by everyone over 65, and anyone can get full information by contacting their nearest Social Security office, whether they receive Social Security benefits or not. It's the person over 65 that will be hurt by failure to enroll.

—HOUSTON POST

No Choice But To Bomb

SOLEMN AND ALL-OUT peace efforts have been made in the honorable American custom — now it is time to get back into the North Viet Nam skies and prosecute the war effort.

Thirty-six days of hands-off air activity over North Viet Nam strategic establishments were met not only by silence from the enemy, but by continuing buildup, American and South Viet Nam ground forces have been carrying the burden in cruel and endless guerrilla warfare.

Our commitment to the free world has been fulfilled. We will constantly strive for a negotiated peace to insure the free life of the Vietnamese, but the United States now faces inescapable acceleration of the whole effort.

President Johnson rightfully sought the peace, and this government will continue to do so, but it must pursue other avenues of bombing, possible blockade of vital harbors and any other military means to protect our own and others who seek freedom. Protracted, and restricted, jungle growth war could only lead to a worsening flow of blood of interminable duration.

We are not war hawks by nature, neither are we fools who dribble lives away in lost causes.

But we are heaping a great and unforgivable injustice on every member of our armed forces now bogged down in the bitter struggle and on every young man destined for that struggle if we continue to withhold this vital help from them. Particularly is this an injustice in the face of the obvious rejection of our sincere and honest effort to resolve the question of South Viet Nam by peaceful means.

We are forced to the reluctant conclusion that we can solve our situation in Viet Nam at this point only by withdrawal, which is to say surrender, or by military defeat of North Viet Nam's aggression.

If there is any middle course, we have not found it.

As for the temper of the public, at least in Dallas, the poll conducted by The Times Herald last week is significant. By far the majority opinion was for resuming the bombing. "Do whatever is necessary to end this dirty and confusing war," was the attitude.

A typical comment was that by rancher George Johnson: "I can't understand why we stopped the bombing of North Viet Nam in the first place. When a bulldog bites you, you either fight or run. You don't stand there and blab about peace."

GOVERNOR AGREES

Substantial Spending Set For Next Fiscal Period

By VERN SANFORD

Texas Press Association

AUSTIN, Tex. Gov. John Connally is going along with forecasts that a "substantial amount" of new government spending is the next fiscal period is "almost inevitable."

However, Connally declined to join in predicting specific new taxes. He called such forecasts "premature," although the Committee on State and Local Tax Policy earlier had indicated it agrees with the predictions.

"It's almost inevitable that we are going to be looking at increased expenditures in a substantial amount," Connally told a press conference. "But I don't want to try to estimate the magnitude of a tax program, if any, or the expenditures."

Meanwhile the tax policy committee held its first meeting, ordered Texas Research League studies on impact of sales tax adjustment and announced a study of how to equalize the widely-varying state property tax.

Rep. Ben Atwell of Dallas, committee chairman, reported that all members of the panel seemed to feel that more revenue will be necessary when the Legislature writes the new budget for Texas government operations next year.

Atwell said the committee will be taking a reading on revenue which could be obtained from raising the sales tax rate (now two per cent) and moving various exemptions.

These exemptions apply to food, drugs, farm machinery, alcoholic beverages, industrial and agricultural fuel and power. Atwell doubts that the Legislature will tamper with the food, medicine and farm implements. He expressed a personal preference for a rate hike if new money is mandatory.

Committee also is going to study the likely effect of income taxation and corporate tax formula adjustments.

As a possible method of equalizing the property tax, the committee will evaluate results of assigning each county its equitable share of the ad valorem loan on the basis of estimated fair market values. Voters would have to approve such a procedure by Constitutional amendment.

Citizens of some counties now are paying seven times as much tax on property with the same value as do citizens of other counties.

LEGAL SERVICES — Harold Jones of Wichita Falls is chairman of the newly chartered Texas Bar Foundation to raise funds for expansion of the State Bar's program of legal services to the poor.

Philip Brin of Longview is vice chairman and Associate Justice — T. Gilbert Sharpe, Brownsville, 13th Court of Civil Appeals, is secretary.

DRAFT RULES TIGHTENED — Young Texans served draft orders no longer can get them cancelled by joining reserve or national guard units. Col. Morris Schwartz, State Selective Service director, announced.

A man still can enlist in regular active-duty forces

after receiving his draft orders. If he can be signed up before induction date, Schwartz said.

New policy reached Texas draft boards from National Selective Service Headquarters where it was adopted on recommendation of the Assistant Secretary of Defense for manpower.

CANDIDATES ANNOUNCED — In a press conference at the Capitol, Stanley C. Woods, 43, of Houston and State Rep. Bill Hollowell, 37, of Grand Saline announced as team candidates for Governor and Lieutenant Governor respectively.

Judge Joe Greenhill announced his candidacy for reelection as Associate Justice of the Texas Supreme Court.

COURTS SPEAK — Third Court of Civil Appeals here upheld the State Banking Board in granting a charter to Northline State Bank, of Houston, thus reversing the decision of District Judge Tom Reavley of Austin. Airline National Bank of Houston brought suit claiming there was no public necessity for a new bank.

State Supreme Court declined to give special consideration to adequacy of legal services rendered a Robstown couple by the Nueces County legal aid office in a suit where they stand to lose their home.

Court of Criminal Appeals sustained the death sentence conviction of Walter Lee Siros in the rape of a Houston woman.

CONNALLY TO SOUTH AMERICA — Governor Connally is considering a week-long tour of major South American countries starting February 21 to drum up participation in San Antonio's 1968 HemisFair.

He said he hopes to visit presidents of Venezuela, Brazil and Argentina — and perhaps Chile and Peru — and ask their cooperation in staging HemisFair exhibits. Connally doubles as commissioner general of the "Fair of the Americas."

"We are running out of time," Connally told a press conference. "The fair is scheduled to open in April of 1968. Exhibits must be built in a little over two years. Once the line is broken, I think they'll fall the major South American countries will come in."

TOURIST SEMINARS SET — Texas businesses will get tips on how they can get a bigger share of \$300,000,000-000-a-year U.S. vacation market in series of tourist seminars scheduled for 20 Texas communities March 7-May 13.

University of Texas Department of Distributive Education and Texas Tourist Development Agency will co-sponsor the meetings in places yet to be selected.

Cities are mainly designed for groups which have direct contact with tourists, including police, hotel, service station and restaurant personnel. Interested communities and groups should correspond with Texas Tourist Development Agency here.

OIL AND GAS ARGUMENTS — Oil and gas oper-

A Dallas AFL-CIO official has charged top leaders of the state organization with "following the path of a runaway freight to political suicide" in a report published by The Dallas Times Herald.

Gene Freeland, secretary-treasurer of the Dallas AFL-CIO Council made the charges against Roy Evans, state secretary, and Hank Brown, state president.

Freeland issued a "statement" regarding the effort upon state officials to "declare war on John Connally." He said an all-out negative war by the state would make it harder for Dallas laborites to elect candidates who would represent the working people of the area.

Freeland also disputed Evans' charge that several major unions in Texas were not affiliated with the Texas AFL-CIO because of Con-

nally, saying that it was instead caused by the "leadership or lack of leadership as personified by Hank Brown and Roy Evans."

Texas attorney general Waggoner Carr has been in Washington recently for the national conference of attorney generals.

The candidate was also reported to have been doing "homework" in preparation for his all-out campaign battle with Senator John Tower that will turn out to be a tremendous race for both parties concerned.

Peter O'Donnell Jr., Texas state Republican chairman, is remaining non-committal on just whom the GOP might decide to run against Demo John Connally in the coming gubernatorial race in 1966.

State Supreme Court finally cleared the way for State Sens. Franklin Spears and Galloway Calhoun to enter the Democratic primary for attorney general.

Only Justice Woods Griffin dissented in okaying Spears to run while Griffin and Chief Justice Robert Calvert voted against Calhoun.

The controversy had arisen over their eligibility to run since both had participated in the 59th Legislature which voted a salary increase for attorney general.

Carr said in an official opinion. A \$34,031 federal grant for Head Start program in Brownwood Independent School District has been approved by Governor Connally to add 120 pre-school children. Connally has reappointed Roy L. McKinney Jr. of Denison as Interstate Compact Commissioner for the Red River.

Elton E. Evans has been named district engineer of the Texas Highway Department District 9, composed of an eight-county area around Waco. Texas Water Development Board has announced that Brown and Root, engineering consulting firm in Houston, is participating in the formulation of the Statewide water plan.

WATER RIGHTS MAY BE CANCELLED — At a March 15 meeting in Austin, the Texas Water Rights Commission proposes to cancel water rights for all who fail to exercise them by that date. Only five rights are scheduled to be heard at this time.

This is the first of more than 200 hearings expected to be held in 1966 as the state moves to erase "paper rights" to use stream water. Then the state will be able to show how much water really is available for future use in Texas rivers.

POLICE REPORT COMPLETE — Out of almost 300 police agencies employing 9,000 officers, less than half have established formalized minimum requirements for employment. So states the Texas Commission on Law Enforcement Officer Standards and Education.

In addition, less than a fourth of the agencies require any sort of formal training before officer assignment.

SOME WIN, SOME LOSE — Some Texas cities have been adversely affected by the recent closing and reduction of 126 military bases in the nation. But this may turn out to benefit other communities in need of airport equipment.

Texas Aeronautics Commission will act as a go-between for communities seeking surplus property.

Austin and Abilene both had Nike facilities declared excess recently and Bellville and Huntsville lost Naval Reserve installations. Towns interested in securing the surplus equipment should contact the Aeronautics Commission.

INTEREST EARNINGS UP — Texas state government now has \$228,800,000 in time account deposits.

State Treasurer Jesse James estimated the money will earn \$9,100,000 this year at four per cent interest.

James said the interest will average at \$762,832 a month, or more than \$25,000 a day. Total exceeds that of recent years.

SHORT SNORTS — U.S. Development Administration has opened nine-state regional office here. Two district judges have power to appoint and remove Bexar County grand jury bailiffs, but county commissioners set their pay and car allowances, Atty. Gen. Waggoner

The GOP's head man admitted that his party would concentrate its prime efforts and finances on the reelection of John Tower to the United States Senate over Waggoner Carr.

Houston Chronicle reports that State Rep. Paul Haring is continuing his active campaign for railroad commissioner as an independent Democrat.

The report said "He (Haring) continued to question incumbent Byron Tunnell's acceptance of a Cadillac as an appreciation gift at a dinner given by oil and gas men and others for Tunnell in his hometown of Tyler last year."

State Supreme Court finally cleared the way for State Sens. Franklin Spears and Galloway Calhoun to enter the Democratic primary for attorney general.

Only Justice Woods Griffin dissented in okaying Spears to run while Griffin and Chief Justice Robert Calvert voted against Calhoun.

The controversy had arisen over their eligibility to run since both had participated in the 59th Legislature which voted a salary increase for attorney general.

FEDERAL RETURNS

Income Tax Information

This column of questions and answers on federal tax matters is provided by the local office of the U. S. Internal Revenue Service and is published as a public service to taxpayers. The column answers questions most frequently asked by taxpayers.

Q — When can I start excluding sick pay? **A** — There are two rules governing when and how much sick pay may be excluded from income for federal tax purposes.

First, if the amount you receive as sick pay is more than 75 per cent of your weekly rate of pay, there is a 30 day waiting period before you are entitled to a sick-pay exclusion.

If the amount you receive is 75 per cent or less, the waiting period is 7 days unless you are hospitalized for at least one day during your absence from work. In that event, there is no waiting period. The exclusion is limited to \$75.00 per week for the part of the first 30-day period in which you are entitled to the exclusion. After that, it becomes \$100.00 per week.

Q — My husband and I have separated. Who is entitled to claim the children as dependents? **A** — The children may be claimed as dependents by the person who provides more than half their support during the taxable year. Whether this person is you or your husband depends on the financial arrangements worked out between you.

Q — I have inherited \$2,000 from my father's estate. Will I have to report this on my return? **A** — No, inheritances are not taxable income.

Q — I am retired and have no taxable income. Can I still file a joint return with my wife who is still working? **A** — Yes. The fact that either the husband or the wife had no income does not prevent them from filing a joint return.

Q — I paid up the mortgage on my home early but was charged a pre-payment penalty. Is that deductible? **A** — Yes it is deductible as interest if you itemize your deductions.

Q — What kind of records should I keep for my income tax return, that I might have to produce if I'm audited? **A** — Keep whatever you need to substantiate the income and deductions on your return. Cancelled checks, paid bills, Forms W-2 and 1099, bank books and similar records will be helpful.

Q — Why is my wife's Social Security number so important on a joint tax return? Most of the income comes from my salary. **A** — According to the law, your wife should show her account number on your joint return if she had: (1) separate gross income of \$600 or more, \$1200 or more if she was 65 or more before the end of the taxable year, or (2) self-employment income, or (3) separate income, such as wages, dividends, or interest, paid to her which the payer is required to report on a return or statement of information.

If the necessary account numbers are not on a return the matching can not be done, necessitating correspondence with the taxpayer. Failure to include your wife's number will delay the processing of your return and any refund due.

Q — I am retired and have no taxable income. Can I still file a joint return with my wife who is still working? **A** — Yes. The fact that either the husband or the wife had no income does not prevent them from filing a joint return.

Q — I paid up the mortgage on my home early but was charged a pre-payment penalty. Is that deductible? **A** — Yes it is deductible as interest if you itemize your deductions.

Ballinger Beats C-City Wolves

Colorado City's hopes for the District 6-AA cage title dimmed considerably Saturday night when Ballinger routed the Wolves 53-30.

The Wolves, led by Jerry Franks, 19 points, fought an uphill battle throughout the first half coming up on the short end of 30-22 score after two periods of play.

Battling back in the third quarter, the Wolf quint drew into a 36-36 tie at the end of the period after holding the Bearcats to a meager six points during the eight minutes.

The Bears were not to be denied, however, and outscored the Wolves in the final period mainly on the strength of the eight-point production of substitute James Baker.

Colorado City Record, Thursday, Feb. 7, 1966, Page 3

Mike Hillhouse jumped in to win out 71-62 over the Bears in a 23-point scoring spree by Ronny Wilson.

Ballinger outscored the local squad in every period except the last.

MEAT COOKERY Quiz

Q. What is the name of this cut of meat?

A. Beef shank cross cuts.

Q. Where do they come from?

A. They are small pieces, about two inches long, made by cutting across the bones of the fore shank. Thus, they are a tapering almost round shaped cut, with a cross section of the shank-bone and a good percentage of meat.

Q. How are they prepared?

A. They may be cooked in liquid, as for soup, or they may be braised, usually with vegetables. To use them for soup, cover with water, cover utensil tightly and cook slowly for 2 to 3 hours. Add vegetables and cook until they are done. To braise, brown the meat first, season and add not more than 1/2 cup of liquid and cook until tender. Add vegetables before meat is done. Thicken cooking liquid for gravy, if desired.

Barber Quits LBJ Staff

Perry Barber Jr. has left the staff of President Lyndon B. Johnson in Washington, D.C. to return to the Houston law firm of Baker, Botts, Shepherd and Coates.

Barber, son of Mr. and Mrs. Perry Barber Sr. of Colorado City, joined the president's staff in September of 1964 as an assistant to Jack Valenti, one of the top members of the presidential staff.

The Colorado High graduate had been on leave of absence from the law firm in order to take the position in Washington.

He received his bachelor's degree in business administration and law degrees from the University of Texas. For a time Barber served as clerk for a federal district judge.

The law firm which he is associated is said to be the largest west of New York City.

ALL DAY FEB 8

'Millinery Magic' HD Workshop Here

Tuesday, Feb. 8, a "Millinery Magic Workshop" will be featured by Mitchell County Home Demonstration Club women.

Workshop will begin at 10 a.m. in Modallion Room at Lone Wolf Electric Co-op building.

Covered dish luncheon will be served at the noon hour. Plainview HD Club will be hostesses for the meeting.

Mrs. Ned Norred, of Big Spring, will be teacher for the hat workshop. All HD Club members are asked to bring with them in addition to a covered dish for lunch, needles and pins, scissors, bias tape and thread to match hat fabric, 2 1/2 yard hat fabric, 1/4 yard outing for lining, tape measure and household glue.

Mrs. Norred, a guest instructor, will bring to the meeting buckram, millinery wire and some hat frames. Hat frames may be purchased for \$1.79 to \$1.98 if workshop mill-

iners prefer to buy a frame rather than make one, noted Miss Idalia Wood, HD Agent, this week.

Other suggestions for interested women include the bringing to the workshop of a sauce pan, cookie jar or waste basket which fits the head. Details, the workshop announcement says, "will be useful in making your hat frame."

Joines Gets Promotion

Bobbie R. Joines, 920 E. 16, field engineer for Dowell Division of The Dow Chemical Company at Colorado City, has been promoted to service sales engineer, it was announced by B. J. Nunley, Colorado City station manager.

Joines received his degree from Texas Technological College in 1964. He joined Dowell in his present position in June, 1965.

H-SU Tuition To Increase

Tuition will be increased from \$18.50 to \$23 per semester hour at Harding-Simmons University effective the summer term which begins June 6, university officials have revealed.

Dr. James H. Landes, H-SU president, also announced that the university has submitted an application to the U. S. Office of Education for participation in an enlarged Federal student aid program.

The Federal program calls for funds for the National Defense Student Loans, College Opportunity Grants for students from low-income families and a College Work-Study Employment program.

The increase represents a net increase of approximately \$54 per semester for a student enrolled for 12 semester hours or \$67.50 for one who

is taking at least 15 semester hours. Tuition increase is necessary, but "concurrently" with facing this fact, we have tried to come up with a program to more than offset it for our students, to open the door to any worthy student who really wants to come to Harding-Simmons University, said Dr. Landes.

WSCS at Westbrook Meet in Bean Home

WESTBROOK The Woman's Society of Christian Service of Methodist Church met with Mrs. S. M. Bean Monday afternoon.

Mrs. L. E. Gressett completed the study of "The Word with Power." A discussion on the book followed.

Present were: Mmes. Gressett, Bill Rees, Frank Oglesby, John Hawkins, the Rev. Bean and the hostess.

Mrs. Gressett will host the business and social meeting next Monday.

Even a frown can worry Mother. And when he has a fever — she always fears the worst!

Did you know, Mother, that more children fall victim to spiritual neglect than any of the crippling diseases we dread? It has wrecked the fond hopes and bold dreams of hundreds of thousands of parents.

Yet it isn't a disease, at all! It is a HESITATION, hesitating to start our child in Church School, hesitating to go with him and worship God, hesitating to discuss at home the need for moral and religious foundation for the whole family.

Face it today! Do something about it next Sunday! Choose YOUR church. And make it YOUR church. And through a lifetime of worship and faith it can be for your child... HIS church.

THE CHURCH FOR ALL... ALL FOR THE CHURCH

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.

HD Club Hears Agent

WESTBROOK - Westbrook Home Demonstration Club met Monday afternoon, January 24, in the home of Mrs. Hoyt Roberts.
 Mrs. Emory Sweatt, president, called the meeting to order. The group sang "The More We Get Together." Club prayer was led by Mrs. Herman Parsons.
 During a business meeting, Mrs. Altis Clemmer gave a report of the HD Council Meeting.
 Plans were made to attend a program on "Hat Making," to be held at the Medallion Room of the Lone Wolf Electric Co-op Building, February 8, beginning at 10:00 A.M.
 Miss Idalia Wood, Mitchell County Home Demonstration Agent, presented a program on "Style Trends for the Individual."
 Refreshments were served to Mrs. W. E. Smith, Jr., Altis Clemmer, Herman Parsons, Emory Sweatt, Troy Lankford and guests Mrs. Drue Cawthron, L. B. Edwards, Miss Wood, Miss Doris Sweatt, Troy Smith and the hostess, Mrs. Roberts.

 his house where to plant his shrubbery? As one judge put it:
 "Individual taste, good or bad, should ordinarily be left alone by government."
 Nevertheless, there has been a gradual trend toward letting aesthetics play a larger role in municipal regulation. Beauty, if not yet as necessary as safety or health, is at least considered more necessary than it used to be.
 "Our sensibilities have become more refined and our ideals more exacting," wrote

one court. And "an eyesore in a neighborhood of residences might be as ruinous to property values as a disagreeable noise, or odor, or a menace to safety or health."
 "States differ as to just how large the role of beautification may be. But they all agree that it may carry some weight."
 "Beauty may not be queen," a judge observed, "but at least it is no longer an outcast, beyond the pale of protection."
 A public service feature of the American Bar Association and the State Bar of Texas. Written by Will Bernard.
