WEATHER STORY

The picture above tells its own story of the weather in Snyder last week. Mrs. H. D. Robinson, Jr., 3749 Rose Circle, watches as her sons, Tommy, 4, and Ronnie, 6, fried an egg on the sidewalk yesterday afternoon. (Lee Watson photograph)

1,000 Believed Dead In Japan From Floods

TOKYO, Sunday, June 28 (AP)—The rising toll of modern Japan's worst flood seemed certain to pass 1,000 today with more than 600,000 homeless and damage well in excess of 33 million dollars. More rain was forecast for the stricken southern island of Kyushu.

No U. S. casualties were reported and three big U. S. bases, all on high ground, escaped damage.

The latest national police count showed 252 dead, 703 missing and 725 injured. But many remote areas were cut off by the murky floodwaters and no word came from them.

Hundreds of American soldiers and airmen worked side by side with 1,000 Japanese police in around-the-clock mercy missions.

U. S. helicopters directed rescuers in rubber boats to persons marooned on housetops. U. S. authorities promised full use of ships, planes, engineers and other American resources.

Whole villages were engulfed and in one instance the entire populace of 488 was reported to have perished.

The entire northern half of Kyushu was threatened. The island is about half the size of South Carolina.

Police officials said the flood was "unprecedented" in modern history and was a heartbreaking disaster even in a land lashed by typhoons and repeated earthquakes.

Since Thursday, heavy rains have pounded the island. Black clouds hung overhead and Japanese weather officials ominously predicted more downpours.

Mass Innoculation In Polio Epidemic Area

MONTGOMERY, Ala., June 27-(AP)—Sixty-seven gallons of costly gamma globulin were flown in here today to inoculate 30,000 children against a mounting polio outbreak.

The Office of Defense Mobilization, official distributing agent of gamma globulin, agreed yesterday to send in the entire available supply of the blood derivative after polio-stricken Montgomery was declared an emergency area.

The serum left the E. R. Squibb & Company plant in New Brunswick, N. J., last night. Officials there said the 250,000 cubic centimeters is the largest single shipment ever dispatched.

Aid Measures Promised To Farmers By Benson

Flies From Plains To See Governor

LUBBOCK, June 27 (AP) —Secretary of Agriculture Benson sifted the drought dry soil of West Texas through his fingers today and promised federal aid to harassed farmers and ranchers in the Southwest's worst drought threat.

The cabinet member—wearing a new pair of Texas cowboy boots—plodded across acre after acre of withered crops and pastures for a first hand look at the damage.

He shucked his coat and sat down with delegations from Texas, Oklahoma, New Mexico, Kansas, and Colorado and heard discouraging reports.

Lack of water, money and feed covered the discussions.

Benson then stood in the jammed ballroom of a local hotel and announced his decision on four problems:

1. The Department of Agriculture must make available cotton seed and other food by-products for the maintenance of herds and flocks "at prices producers can afford to pay."

2. The department will try to get lower rail rates to the drought areas—"we got to get the livestock and the feed together."

3. "We may find it necessary for a stepped up buying program of meat and lower grade livestock . . . it would be a move to get lower grade livestock into consumption, not in storage."

4. "Some method must be worked out for emergency credit, using existing agencies as far as possible x x x you people are not asking handouts, just a little help in an emergency."

Benson said the exact counties included in the drought areas of Texas and Oklahoma which would be eligible for such aid would be announced Monday.

Benson's busy schedule included a tour of the drought area near here this morning, a speech at 11 a. m. to the American Cotton Congress, a luncheon appearance, and the drought discussions this afternoon.

Late today he flew to Austin for a talk with Gov. Allan Shivers on how the state and federal governments can combine efforts in the drought relief. Tonight he will talk in San Antonio with more worried farmers and ranchers.

"We in the Department of Agriculture are firmly resolved to do all in our power in line with budgetary and legal considerations to secure for cotton and all agriculture parity of research, and parity of price and income," he told the cotton congress. "Among our major objectives is parity of opportunity.

"The farmer is being squeezed by low farm prices and high rigid farm costs x x x we must look ioward the public good and allow that to take precedence over private interests."

For the rancher he said:

"It would be calamity for the whole country if foundation herds were forced into liquidation. You need feed, and we want to help you get it."

He said he could see "an immediate and urgent need" for supplementing credit for cotton farmers. Benson added that he did not believe that the extended credit should be earmarked for any specific purpose. He said the farmer should be allowed more credit or his most pressing need — seed, maintenance of present equipment, and such.

He said he was in Lubbock "not to announce a program, but to hear the people and let them help set the program."

VOTE TO BE CLOSE

Bitterness Grows As House Near Battle On Profits Tax

WASHINGTON, June 27 (AP)—Angry charges swelled from both sides today as President Eisenhower prepared a last-minute appeal for House support in his battle to extend the excess profits tax.

Leaders agreed the floor fight on the issue, set for Monday, would be close and bitter—the toughest the administration has faced in the House this year.

Rep. Mason (R-Ill) protested hotly today that Congress members have been "dragged down to the White House" and subjected to pressure to "vote against their own convictions."

House Speaker Martin (R-Mass), retorted that opponents of the administration move are trying "to confuse the issue" by attacking the procedure involved rather than the President's proposal itself.

House GOP leaders repeated confident predictions that when the chips were down, the administration would win. Some foes conceded the odds favored the President.

Rep. Priest (Tenn), acting Democratic leader, told a reporter his best estimate was that the issue could be decided by 10 votes in the 431-mah House—and it could go either way.

Eisenhower, taking a week end out of town at Thurmont, Md., was reported reliably to have prepared a message to the House expressing this theme:

That despite the unusual procedure—admittedly the hottest isue—a vote against the bill would be a vote against the President's program to reduce the federal deficit, fight inflation and restore "a sound dollar."

A top GOP leader said tentative plans called for this message to take the form of a letter to Martin or to Majority Leader Halleck (R-Ind), to be read to the House Monday morning.

Administration leaders said final strategy in the tense situation would not be decided until early Monday, however.

Eisenhower has staked his prestige on an almost unprecedented situation in the House. The tax is now due to expire Tuesday, but can be extended retroactively.

Weeks ago, the President proposed that the levy be extended for six months.

Chairman Reed (R-NY) of the House Ways and Means Committee fiercely opposing the extension, bottled it up in his committee and thwarted every effort by the administration to force action.

Rhee Asks Promise Of Aid If Attacked Again

SEOUL, Sunday, June 28 (AP) — A third secret meeting of President Syngman Rhee and Washington's special truce envoy was indicated today following a report that a promise of U. S. military aid against any future Red aggression would erase Rhee's opposition to an armistice.

The possibility of another meeting was seen in the sudden change in official plans for President Eisenhower's envoy, Walter S. Robertson, to tour the front today. It was announced that the U. S. assistant secretary of state's frontline trip either would be called off or drastically cut.

Rhee was described as "very happy" after his second talk with Robertson yesterday. The American envoy said he was "very optimistic" about the progress of his mission to remove Rhee's defiance of an armistice, which was near the signing stage.

Robert Eunson, Associated Press Tokyo bureau chief, aid a highly-placed South Korean source indicated Rhee might drop his fiery opposition to a truce if the U. S. would pledge military aid to the southern republic should the Reds launch another attack.

The South Korean spokesman told Eunson that the pact "is the one point the President will never back down on."

He said that Rhee "may give in on the other two points but he will never give in on the defense pact."

The "other two points" the spokesman referred to were Rhee's previous insistence upon withdrawal of Allied and Chinese Communist forces from Korea and a three-month time limit on political conferences to follow an armistice.

Robertson and Gen. Mark W. Clark, U. S. Far East commander, talked with Rhee for 40 minutes Saturday afternoon. Clark flew from Tokyo for the meeting. The day before, Robertson had his first talk with the 78-year-old South Korean chief executive.

A United Nations source close to Robertson told newsmen that "if things go as well as they have so far" the special envoy may leave soon for Washington.

The happy social scenes were in sharp contrast to the stern United Nations and U. S. reactions to Rhee's order last week which turned loose 27,000 anti-Red North Korean war prisoners from camps in South Korea.

The prisoner release by South Korean guards shattered immediate chances for the quick signing of an armistice.

Rhee said the armistice, which would halt fighting with Korea still divided north and south, and would set up a five-nation neutral commission to deal with the war prisoners' repatriation issue, would have resulted in "death for South Korea."

The Communist high command a week ago demanded in a letter to Gen. Clark that the released prisoners be recaptured. The Reds also demanded to know of Clark whether the U. N. could control the South Korean government.

UN Head For Truce Quickly

UNITED NATIONS, N. Y., June 27 (AP)—Secretary General Dag Hammerskjold today called on the U. N. to forego total military victory in Korea as a prelude to a peace without vengeance.

Hammarskjold broadcast (CBS) his ideas in his first major address on world affairs since taking over as U. N. secretary general from Trygve Lie. It was made to mark the signing of the U. N. Charter in San Francisco eight years ago yesterday.

The U. N. chief spoke against a background of demands from President Syngman Rhee for continued war to unite divided North and South Korea.

Without referring specifically to these demands, Hammarskjold warned that the U. N. Charter does not allow use of force to secure "victory in terms of land or power" but only for self-defense or to repel aggresion.

Once this has been done, he declared, there is no provision for further punishment of the aggressor.

RACE WITH TIME

FT. COLLINS, Colo., June 27 (AP) — During registration for Colorado A. & M. College's summer session, an official questioned a married girl student about what seemed an unusually ambitious study program.

In an effort to graduate this summer, she had asked permission to take several credits above the maximum study load.

"And just whom are you trying to beat" the official asked.

"The stork," said the girl.

Chinese Make Push For Vital Power Source

SEOUL, Sunday, June 28 (AP)—A "confused and fluid" South Korean force fought desperately today, aided by driving rain, against vanguards of 72,000 Chinese Reds driving toward the vital hydro-electric Hwachon Reservoir in East-Central Korea.

Latest reports said the rain had succeeded where the reeling South Koreans had failed in slowing the push 12 miles north of South Korea's biggest electric power source.

But the situation still was officially described as "confused and fluid" on the eastern side of a 13-mile activated front straddling the Pukhan River. A penetration of six or seven more miles would put defenders of the big Hwachon power project under Red artillery fire.

In the west, 40 miles north of Seoul, a Chinese Red division — 10,000 to 12,000 men — knocked South Korean 1st division men off three of five outposts assaulted since Friday. Censorship clouded the exact points of these attacks beyond placing them west of Yonchon and north of the main Imjin River line.

WHITAKER GETS DEATH FROM JURY IN VERNON

By ROBERT H. JOHNSON JR.

VERNON, June 27 (AP)—A West Texas jury ruled tonight Walter E. Whitaker, Jr., must die for strangling Joyce Fern White.

Whitaker, 21, of Hartford, Conn., sat impassively as the jury decision was read. He had shown no emotion throughout his week-long murder trial.

His parents also sat motionless. The elder Whitaker bowed his head.

Whitaker was convicted of murder with malice.

The state accused him of strangling the 18-year-old Lubbock High School senior last Jan. 8, saying she wanted to marry him and he planned with cold malice to get rid of her.

Whitaker led officers to a prairie grave and dug up Joyce Fern's body on Jan. 28.

Two Texas rangers led Whitaker from the courthouse to the Wilbarger County jail as soon as Judge Victor Lindsey read the verdict. His parents followed him out of the room. Their eyes were moist.

Then four brothers of Joyce Fern—Kenneth, Alvin, Perry and Ray—filed from the courtroom. Mrs. Lena B. White, 58, the girl's mother, was not present for the verdict. She had broken down in sobs as she testified yesterday and had wept softly during final arguments today.

Kenneth White, who coaches at the Cooper Community high School near Lubbock, told reporters as he walked from the room "that verdict is exactly what it ought to be."

The jury received the case at 2:49 p.m. (CST) and announced it had a verdict three hours and 45 minutes later. Its findings were read at 7:30 p. m.

The fate of the dark slender youth went to the jury after state's attorneys called him an "egotistical killer" and the defense termed him insane.

Young Whitaker had testified that he lost his memory of burying the girl's body "in a big white flash" and didn't recover it for 19 days. He said he still could not recall whether he strangled her to death with a cotton cord.

"Boy, that was a long pull", Whitaker said as he sat in an ante chamber awaiting the verdict.

Dist. Atty. Travis Shelton of Lubbock described Whitaker in his closing argument as "an egotistical killer and slick-looking ladies man."

"You didn't see any tears in his eyes as he testified how he buried the body," Shelton said.

Chief Defense Atty. Burton Burks told the jury that Joyce's disappearance never would have been solved if it hadn't been for Whitaker's co-operation with officers.

He stressed a point in the judge's charge that the case was based on circumstantial evidence as far as identity of the person who strangled Joyce is concerned.

The charge also instructed the jury to consider temporary insanity because of Whitaker's claim of amnesia about the killing.

Burkes declared:

"The boy is bound to be crazy or he wouldn't have done it."

Earlier, a state attorney described Whitaker as a man with "faucet amnesia—you can turn it on or off."

The defense said Whitaker's mind went blank as nature's way of saving him from mental torture.

The girl's widowed mother, Mrs. Lena B. White, broke down and wept once as a defense attorney described Joyce's love affair with Whitaker. A brother, Kenneth, who coaches at Cooper Community High School near Lubbock, wiped his eyes with a handkerchief.

The youth had described his feeling for Joyce as "physical love" as opposed to the "spiritual love" he felt for a Swedish girl who rejected him.

He testified that Joyce, whom he described as "too agressive" a lover for him, tricked him into a promise of marriage by telling him she was pregnant. Whitaker said she then quarreled with him about the Swedish girl, Ulla Lindborg, and admitted she was not pregnant. The next thing he knew, Whitaker testified, Joyce was dead but he can't remember how it happened. Dist. Judge Victor Lindsey of Lubbock charged the jury that it must consider murder with malice, murder without malice and temporary insanity due to amnesia.

Defense attorneys insisted there was no malice in Whitaker's mind when he set out to marry Joyce, then parked and made love to her. They said she was killed while his mind was blacked out by emotional pressure.

His slender, dark-haired mother sat rigid, her teeth clenched and her left hand crumpling a flowered handkerchief, as attorneys pleaded for her son's life. She fanned herself rapidly.

Whitaker's father sat slumped in his chair, listening intently. For the first time during his trial, the youth hung his head as state's attorney's insisted that it was the jury's duty to give him the death penalty.

He was charged with strangling the Lubbock High School senior the night of Jan. 8 and burying her nude body and clothing in a desolate field west of town.

The maximum penalty for murder without malice is five years in prison.

Program Is Set To Open County's Park

A full program is planned for two days of activities over the week end of the Fourth to officially open Towle Memorial Park according to Bob Crowell, manager of the Chamber of Commerce.

The opening activities will begin at 8 o'clock Friday night with a dedication program at the park's baseball diamond.

The ceremony will be followed by a 9 o'clock Pony League baseball game at the same field. Pony League officials said yesterday the two competing teams have not yet been chosen.

From 9 o'clock until 10:30 o'clock Friday night, all park facilities will be open for inspection, including the swimming pool and stock barn.

Saturday morning, the swimming pool will be open at 6 o'clock for use all day.

At 5 o'clock Saturday afternoon, the Pony League will again have a baseball game at the park diamond.

At 7 o'clock, Miss Billie Biggs, state AAU diving champion and holder of several other swimming and diving titles, will present a diving exhibition.

Miss Biggs' show will be followed by a beauty contest of area women under sponsorship of the Kiwanis Club. Entries have already been turned in for that contest.

The swimming pool will reopen for public use at 8:30 o'clock Saturday night and remain open until 10 o'clock. Jack Dillon, swimming pool manager, said the pool will remain open from 6 o'clock each morning until 10 o'clock at night this summer.

The opening ceremony Friday night, at which the Rev. Ronald Hubbard of the First Presbyterian Church will be master of ceremonies, will include welcome addresses by both Edgar Taylor, county judge, and Harry Holbrook, mayor. After Mr. Hubbard introduces officials, Taylor will introduce Mrs. Howard G. Towle, who donated the county the 200 acres for the park. The dedication address will be made by Forrest Sears, former mayor.

AT YOUTH CENTER OPENING

On hand for the opening of the Youth Center Friday night were Caroline Holley, left, and Bettie Estes who tried their hand at the club's outdoor shuffleboard. Refreshments were served by the Jaycees and wives who are sponsoring the operation of the center. The club is open to high school students in the county on Tuesday and Friday nights. Western Allies Call Again On Reds for Free German Election

BERLIN, June 27 (AP)—The Western Allied high commissioners declared tonight the June 17 revolt in East Germany "again demonstrated the urgent need" for reuniting Germany.

They stood firm on the Western position that any Germany reunion must provide for "conditions of freedom" and free elections.

The communique, issued after the high commission met here to discuss last week's workers' rebellion in the Soviet zone, reiterated policy statements of President Eisenhower, British Prime Minister Churchill, and the French government.

The commissioners declared they "would make every effort" to induce the Soviets to lift the martial law which quelled the bloody uprising and to restore normal communications in divided Berlin.

Acting immediately upon this resolve, all the high commissioners sent identical new written demands tonight to the Soviet high commissioner, Vladimir Semyenov.

"I insist that all measures should be taken without delay to insure a return to normal life in Berlin and to remove all restrictions which have been placed upon movement of persons and vehicles and upon communications," the letters said.

"Furthermore, I request that all barriers between East and West Germany which have been arbitrarily imposed should be eliminated."

These letters repeated demands made upon Semyenov earlier by the Allied commandants in Berlin.

The commissioners held the door open at today's meeting for Russia to make a move toward re-establishing four-power cooperation in Germany. They met in the French sector, virtually in the Soviets' back yard, where they could easily present themselves if they desired.

But the Soviets ignored the door. Semyenov neither appeared nor sent any message.

Instead, the Communists pushed ahead with their desperate program of trying to pacify the rebellious workers with promises of better living conditions and less communism.

French High Commissioner Andre Francois - Poncet presided at today's high commission meeting, attended also by Dr. James B. Conant of the United States and Sir Ivone Kirkpatrick of Britain.

Their communique expressed sympathy for the Berliners who fell before the guns of Soviet soldiers and Communist police in the June 17 revolt.

Communist courts continued to wreak vengeance on the thousands arrested when the revolt spread throughout East Germany. One verdict revealed that some strikers in Halle were armed with carbines in their march against Communist officials.

Hermann Thieme, convicted of hoarding weapons and passing them out to fellow Halle strikers, was sentenced to six years in prison.

But the main theme of the Communists was appeasement.

Churchill Forced To Retire Temporarily; Health Failing

LONDON, June 27 (AP) — Wan and exhausted, 78-year-old Prime Minster Churchill retired today to his country home on doctor's orders for a "complete rest" of at least a month, and thereby forced the Big Three to postpone their Bermuda conference again.

The Forign Office said he would meet President Eisenhower and French Premier Joseph Laniel on the Atlantic isle as soon as he is fit again for vital talks on such issues as Korea and a possible Big Four showdown conference with Soviet Premier Malenkov.

Churchill, who drives himself mercilessly, buckled under the strain of simultaneously running the government, playing his role in coronation festivities and acting for ailing Foreign Secretary Anthony Eden, the No. 2 man in the British government who is recovering in Boston from a gall bladder operation.

A world-renowned nerve specialist is attending him.

The elder statesman has planned to sail for Bermuda Tuesday night on the battleship Vanguard. The conference had been set for July 8 after being postponed from two earlier dates because France was without a premier. Only yesterday the way was finally cleared by the French National Assembly's approval of Laniel as the new premier.

After hearing his doctors' verdict, Churchill reluctantly telephoned President Eisenhower and Premier Laniel and arranged the postponement.

He turned over the reins of government temporarily to B. A. Butler, chancellor of the Exchequer, a 50-year-old progressive and ambitious politician considered by many to be his political heir apparent.

Britain's old "John Bull" for half a century apparently was not seriously ill. Even as the news was announced, he was puttering about Chartwell, his 26-room home 30 miles southeast of London and arranging to have important papers sent him for persual.

The text of the announcement from his official residence, 10 Downing Street.

"In consequence of the attached medical report the Prime Minister, after consultation with the President of the United States and the French Prime Minister, has postponed the Bermuda conference.

"The medical report:

"'The Prime Minister has had no respite for a long time from his very arduous duties and is in need of complete rest.

"'We have therefore advised him to abandon his journey to Bermuda and to lighten his duties for at least a month.

"'Russel Brain."

"'Moran

Lord Moran is Churchill's lifelong friend and personal physician, who has pulled him through penumonia and other periodic illnesses and whom Churchill once introduced to Pope Pius as "the man who saved my life."

Flynn Suing Wine Firm

TURIN, Italy, June 27 (AP)—Hollywood film star Errol Flynn and Italian glamor girl Gina Lollobrigida have filed suit against a vermouth-making firm charging unauthorized use of their names. Hearings were set for Nov. 20.

Religious rites connected with cows frequently are also linked to the moon because of the shape of a cow's horn.

LOST 47 POUNDS

Here is a sensible home recipe for taking off ugly fat without starvation diet. Just ask your druggist for improved Barcentrate. Mix with grapefruit juice as directed on label. Then take two tablespoonful twice a day.

If the very first bottle doesn't show you the way to reduce, return the empty bottle for your money back.

Mary E. Moyer, 708 E. Barton, Temple, Texas, states as follows:

"I wrote you in January that I had lost 40 pounds taking Barcentrate. Since then I have taken two more bottles and lost an additional 7 pounds, making a total of 47 pounds. I now wear a size 20 dress, instead of 44. When I started to take Barcentrate, I weighed 213 pounds. I now weight 166."

French Information Book Had Material For Copy Of Pastel

Because Mrs. Wayne Stephens and her fifth grade class wrote to the French embassy in Washington, D. C., asking for information about France, a different type pastel now hangs in the Stephens living room.

From pictures in the book sent back by the embassy Mrs. Stephens chose to copy a print by Paul Cezanne in which warm reds and yellows are used. Mrs. Stephens selected the picture because it doesn't use many blues and grays which she finds herself painting too often. They are her favorite colors. The original Cezanne picture, "La Montagne Sainte-Veitorie" hangs in the Frick collection in New York.

Her copy differs to some extent from the original in that she used even warmer colors or, as she termed it, "put shunshine in it."

Class mothers translated sections of the book which was written entirely in French, Mrs. Stephens said.

Her art is actually her hobby. She estimates she has painted and given away 30 or 40 pictures. Although, she said, they make good gifts, she also has to give them away because the space in her home is limited.

Included in the collection on the living room wall are pastels, oils, water colors and a tooled copper. Most of the pictures are copies since ordinarily she doesn't see things to paint, Mrs. Stephens said. However, on at least one occasion she has painted from memory. The oil is of the Del Rio hospital. But, Mrs. Stephens said, "you can never get the colors exactly right."

The copper is one she did while taking a course in a Brownwood college. She has applied colored lacquer on the top with the same strokes you would use putting on nail polish, she said.

Mrs. Stephens attended both Howard Payne and Daniel Baker colleges in Brownwood and was also enrolled at Hardin-Simmons University, McMurry College and Texas Tech. She has been teaching fifth grade at the west elementary school here for three years and has been accepted to teach there again next year.

Mrs. Wayne Stephens of 3701 Highland Drive is shown with a picture she copied from an original done by Cezanne. Art is nothing new to Mrs. Stephens who has been holding a paint brush most of her life. However, she has never taken art lessons.

Although Mrs. Stephens is familiar with a number of art mediums she still prefers working in oils. With oils "you don't have to finish right then," she said referring to the fact that oils are slow to dry. The only things she ever does to them once they are finished is to clean them with linseed oil occasionally. Oils are never supposed to be placed under glass, she explained.

She teaches finger painting to her class during the winter and to vacation Bible school members of the First Baptist Church in the summer. She said she has never seen any child who didn't enjoy working with the paints. It has only been fairly recently that more than one color has been used in the finger art, she said.

Mrs. Stephens doesn't like working with charcoal because the technique is hard, and she prefers colors, she said. Some day she hopes to enter her other work in art shows.

Biblical Novel Is Story Of King's Doctor

(THE BABYLONIANS, by Nathaniel Norsen Weinreb, Doubleday and Co., Garden, City.)

Nathaniel Norsen Weinreb's "The Babylonians" as indicated by the title is a Biblical, book based on the era when the young conquerer, Nebuchadnezzar, was ruler.

But Weinreb's main character is the physician and close friend of the king, Beladar. Nebuchadnezzar recalls the doctor from another country and is forced to have him tried before a court because Beladar was the last person to administer to a patient of royal ancestry before he died. The law read that if a person who died was of the royal or gentleman class the surgeon must forfeit his fingers. If a slave died he must only be replaced with a new one.

After the trail Beladar is banished to Judah where he is to be the king's spy. Romance enters Weinreb's novel in the form of Devora who was reputed to be the mistress for the ruler there, King Zedekiah. Although the book, as a whole, is unusual, here the author lets it get a little trite. The reader is forced to go through the stages of Devora's biting, scratching and using offending lnguage everytime she comes in contact with Beladar. Later Weinreb is more mature about the character's attraction to each other.

The author writes of the wars that were dull reading in the history books, but with the human touch inserted, provide suspense as well as interst.

Weinreb started writing at the age of ten in Wausau, Wis., where his family had moved from New York. He became a free-lance writer for various New York radio stations and during the war was head script writer for the armed forces radio show, "The Voice of the Army." His work has also appeared in numerous pulps and confession magaines. For the past 12 years he has served as a story analyst for Twentieth - Century Fox in New York. He makes condensations of story material under consideration by Fox. D.K.

Paul Boner Is Named Dean

AUSTIN, June 27 (AP)—University of Texas regents appointed Dr. Paul Boner dean of the university today, a position equivalent to vice president.

The regents approved budgets for the main university and its branches totaling more than $23,800,000 for the year beginning Sept. 1. Budgets for the current year totaled $20,310,013.

The main university's budget was fixed at $10,271,265 compare with $9,282,133 for 1952-53. The regents authorized use of $2,100,000 from the available university fund, generally used only for building purposes, to care for the increase.

The regents said the higher budget was needed to met increased costs.

Budgets of other units (with the current budget in parentheses), include:

Medical Branch, Galveston, $7,182,630 ($5,842,285)

Texas Western College, El Paso, $1,189,025 ($1,207,449).

Merit raises were given throughout the system, but no blanket salary increases were included in any of the budget, said Chancellor James Hart.

Indonesians like a cigarette made of a mixture of 40 per cent cloves and 60 per cent tobacco.

Story Of LaFollette Written By His Widow

"Robert Marion LaFollette, 1855-1925" the biography of the late senator will be published in two volumes this fall by Macmillan.

The story was begun soon after his death by the widow who was, herself, a lawyer. She wrote the chapters covering his career to 1910. Following Mrs. LaFollette's death, her daughter undertook the editing of her mother's manuscript and the completion of her father's biography.

Included in the books are the voluminous LaFollette Papers and intimate family letters.

Better Known Long Hair Popular Here

By DOLORES KETCHERSID

Although there is argument pro and con concerning the values of the boom for Snyder, a record dealer says they sold more classical music since the coming of that era.

With new residents came a new taste in music, and the dealer credits the Civic Music Association with further popularizing classical music. But even with the recent upsurge, classical records still fall into third place behind popular and hillbilly.

Another infuence on the buying public is movies and their songs. Background music sometimes locally becomes best sellers, the dealer said. The "Song from Moulin Rouge" given a semi-classical treatment by Percy's Faith's orchestra has stayed at the top of the local hit parade for about a month. Although "Hans Christian Andersen" was popular with the townspeople, the album didn't sell here, the record people said.

Even though nationally popular operatic and popular music sell faster than more unfamiliar scores, the lesser known variety is found on the local shelves. Vanguard records of the Vienna State Opera Orchestra will interest most music lovers. Conducted by Franz Litschauer, the orchestra plays Sibelius' "Valse Trites" which is a Norwegian tune. On the opposite side is Grieg's "Norwegian Dance No. 1".

Under Litschauer's baton the music drops to almost inaudibility and increases in frequent crescendos.

Another record by the Austrian orchestra is "The Drummer Boy" and "Reveille." The first is sung by Alfred Poell, a baritone. The recording isn't in English, and will probably only appeal to concert-goers. The album cover tells us the story is of a young drummer who bids farewell to his superior officers although they ordered his execution. The tempo is that of a modified march.

"Reveille" is the tale of dead soldiers who rise up on the battlefield to fight the foe. Although it has an improbable story, the music is easier to listen to than that on the opposite side. Felix Prohaska conducts both scores.

Liberace, who seems to be trying to keep away from the classical music for which he was prepared, has a new record out. "I'll Never Forgive Myself" is on one side backed by "I'm Loved." Liberace plays piano and sings for both of them. His brother, George, provides the background music.

A new recording released by Derby stars the voice of Trudy Richards. "The Breese" has an almost identical arrangement as the one done by Kay Starr earlier for her album. Nevertheless, Trudy's recording is coming up in the hit parade. On the opposite side the vocalist sings "I Can't Love You Any More."

Best classical sellers locally are Tschaikowsky's "Nutcracker Suite," Chopin's "Polynaise in A Flat," Grieg's "Peer Gnyt," and the Strauss waltzes.

The popular top ten last week were:

"The Song From Moulin Rouge," Percy Faith.

"I'm Walking Behind You," Eddie Fisher,

"Anna," Silvana Mangano,

"April in Portugal," Lex Baxter,

"Seven Lonely Days," Georgia Gibbs,

"Caravan," Ralph Marterie,

'I'd Rather Die Young," the Hilltoppers,

"Ruby," Lex Baxter,

"Swedish Rhaposody," Percy Faith,

"Mexican Joe," Jim Reeves.

Flood Control Bill Passed

WASHINGTON, June 27 (AP)—The Senate passed today a bill carrying $455,140,100 for the country's flood control and navigation projects for the year starting July 1.

Passage was by voice vote. The money will be spent by army engineers who handle the various projects.

The Senate rejected all efforts from the floor to alter the bill as written by its appropriations committee.

The senate bill represents a boost of $47,371,000 over the corresponding measure which was passed by the House last month. It now will go to a conference committee to iron out differences between the two branches.

PILES Risky? Yes!

But This Book Tells What You Can Do To Help Avoid Dangers

Here's the truth! Piles (and such disorders as fastula, rectal or colon ailments) can be dangerour or not, depending on whether you give them proper care. Learn how to help avoid dangers from this book; just write for it to Thornton & Minor Hospital, Suite 1869, 911 E. Linwood, Kansas City 9, Mo.

Congratulations to the Progressive Citizens of Scurry County on completion of

THE ADVENTURES OF PATSY

Babe Zaharias Beats Cancer; To Try Return To Golf Course

NEWTON, Tex., June 27 (AP)—Babe Didrickson Zaharias starts the stretch drive in her fight to return to golf next week, conqueror of cancer "through the help of God."

The greatest woman athlete of them all, declaring "I've got to find out if I can play," left by automobile for Tampa, Fla., today and will begin getting the feel of a golf course again as soon as possible.

Almost a miracle is the recovery of the mighty babe from the ravages of the dread disease. Just two months and ten days ago she was operated upon in a hospital at Beaumont and the sports world sorrowed that the Olympics star of 20 years ago—the woman who attained the pinnacle of sports in everything she tried—might never appear in competition again.

"When I found I had cancer I thought the world had fallen in," said the indomitable Babe today as her husband, Wrestler George Zaharias, frowned. "But I had to pull myself together. I said, 'Come on Babe, you got to get a birdie.'

"Everybody can do the same thing if they'll just take the proper care of themselves. I was fortunate to find I had the disease when I did, before it had spread over my body. Everybody should have periodic examinations. We can all whip cancer if we'll do that and if we'll just not be afraid."

Dr. Robert M. Moore, who performed the operation, and Dr. W.E. Tatum, the family physician, both gave her clearance today to return to golf where she was the greatest woman player of them all. Dr. Moore left it up to her as to when she might start. That was enough for the Babe.

"I'll have to find out if I can play again," she said. "That's my life—playing in big tournaments before crowds. If I find I can't do it I'll devote the rest of my life solely to a campaign against cancer."

The first thing, said the Babe, is to get her legs in shape. She will do a lot of walking. "I'll walk as far as I can go. I won't be playing at first. At each green I'll use my eight iron to chip and then I'll putt. I expect to add a hole a day to my walking. In two or three weeks I can start hitting the ball. I hope to be back in competitive golf within three months."

The Babe, who lost more than 10 pounds while in the hospital and got down to 130, now is up to 150. "I feel great," she said, "but I get tired very easy. But I haven't been idle. Even in the hospital at Beaumont I worked my legs and arms and exercised."

The operation was April 17 and the cancer was removed from the lower rectum.

Mrs. Zaharias, who calls Beaumont her home town—she won the Babe Zaharias Open there the very week she found she had cancer—has been residing here with her brother, Louis Didrikson and family while she recuperates. But she has traveled around over the state in her brand new Packard, accompanied by her golf pal, Betty Dodd of San Antonio. Betty has been with the Babe throughout her operation and convalescence and went with her today to Tampa.

There is a spring lake near the club house at Tampa and the Babe will do a lot of swimming there. "That will help me in getting my strength back," she said.

She expects to visit her Tampa golf course the first time Monday. It may be a couple of days, however, before she starts her chipping and putting.

The Babe is president of the Virus Research Foundation of America which raises funds for research through sports events. And plans have been launched for formation of a Babe Zaharias Cancer Fund.

The week closing tomorrow has been Babe Zaharias week in America. Women throughout the nation competed against the score of 71 the Babe shot at Miami Beach, Fla., last February, each paying $1.00 for the privilege. The money went to the Damon Runyon Cancer Fund.

The Babe is 38 years old—she celebrated her birthday yesterday.

Tom Fool Proves He Is Among Greatest

NEW YORK, June 27 (AP)—Any lingering doubts that Tom Fool is one of the greatest race horses this country has seen were dispelled today when the Greentree Stable's 4-year-old equalled the Aqueduct track record in winning the $59,800 Carter Handicap under a crushing burden of 135 pounds.

No horse ever had carried tnat weight and won the Carter in 52 previous runnings.

With Toronto's Ted Atkinson biding his time in the seven-furlong dash, Tom Fool was rated along in fifth place down the back stretch as Mrs. Jam Burke's Squared Away set a blistering early pace.

The Greentree ace began to move on the leaders around the turn to the home stretch, picked them off one by one until only Squared Away remained in front with an eighth of a mile left.

Then Ted let his mount loose, and with a crowd of 30,206 sunbaked fans screaming at the favorite, Tom Fool nailed Squared Away nearing the 16th pole and headed for the wire as if packing 135 pounds was just an every day performance.

The track was fast under a blazing sun and the time of 1:22 flat matched the track record established last year when Greentree's Northern Star won this same race but carrying 20 pounds less. Northern Star was scratched from today's running.

Akinson actually eased the 4-year-old bay son of Menow-Gaga up as they neared the finish and at that the colt hit the wire two lengths ahead of Squared Away, ridden by Jim Nichols.

Squared Away with 122 pounds, finished 2¼ lengths in front of Mrs. Alfred Roberts' Eatontown. The later was a length and a quarter ahead of Harborvale stable's Dark Peter, fourth in the nine-horse field.

In winning his sixth straight race this year, Tom Fool returned $3.30, $2.70 and $2.40. Squared Away paid $6.00, $4.30 while Eatontown returned $5.00.

Standard Is Edged, Holds To 2nd Place

Standard of Texas was taken down another notch but still held onto second place in the city softball league Friday night. Humble remains at the top.

The Standard team, which had trimmed Sunray the night before, was edged by the same team Friday night 4-3. Sunray now stands in fifth place.

Lloyd Eckert, winning hurler, gave up five hits, and Sunray got six hits off elmer Glover. Each team committed two errors.

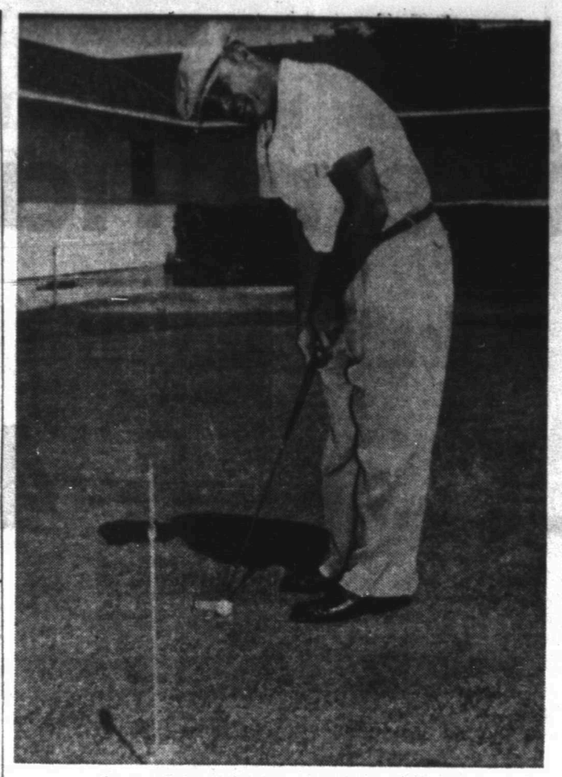

The game tied up in the sixth. Sunray had tallied three runs in the first, and Standard came back with three in the sixth. In the seventh, Sunray brought in the winning run.

Sun took a win over Pan American by forfeit Friday night.

Texaco, third place team, will meet Magnolia, fourth place, at 7:30 o'clock tomorrow night, while Sunray and Sun will play at 9 o'clock.

LEAGUE STANDINGS

Humble	12-1
Standard	12-3
Texaco	10-4
Magnolia	9-4
Sunray	9-6
Lion	6-8
Hermleigh	5-7
Sun	5-8
National Guard	3-10
Pan American	2-11
DeMolays	1-12

OFF TO NATIONAL MEET

J. T. Hammett professional golfer of Snyder, was to leave today for Birmingham, Mich., where he will participate in the National PGA tourney. Hammett, who was second qualifier for the meet among those at Waco with a score of 136, went to the PGA last year. (Dale Walton photograph)

Braves Move Into Little League Lead

The Kiwanis Braves took the lead in the second half of the Little League Friday night and pushed the Lions Cubs, who took second place in the first half, to the cellar.

The Braves finally edged the Cubs 8-7 in the seventh inning after the two teams had tied up in the last regular inning.

The winning team had led off 3-0 in the first period, and it scored one run in the next four innings while the Cubs turned in two. During the sixth, the Cubs brought in five runs to the Braves' three to tie the game.

Chuck Warren and Jerry Minor eached hurled three innings, while Billy Foree was on the mound during the last inning for the Braves. The three pitchers allowed only four hits, while their team got seven off Johnnie Drake.

Each team committed six errors.

Tomorrow night, the Optimist Cardinals and Legion Yankees, the two second place teams, will meet at 7 o'clock, and the Cubs and Quarterback Giants, the two last place teams, will play at 9 o'clock.

In other games last week, the Cards downed the Braves 2-1 and the Cubs 9-7, the Indians beat the Cubs 11-9 and lost to the Yanks 11-2, and the Giants lost to the Braves 7-1 and to the Indians 15-5.

LEAGUE STANDINGS

Braves	2-0
Yankees	1-0
Cardinals	1-0
Indians	1-1
Cubs	0-2
Giants	0-2

Yanks Rapped For 5-0 Loss By Cleveland

NEW YORK, June 27 (AP)—Cleveland's Mike Garcia humbled the dazed New York Yankees today, 5-0, for the world champs' sixth straight defeat, longest in the five-year regime of Manager Casey Stengel.

As a result of Cleveland's rough handling of Eddie Lopat, the Yanks' American League lead was cut to seven full games by the onrushing Tribe. It was Lopat's first defeat since July 2, 1952 when Bostoh did the trick. Since then he had won 13 in a row, including eight this season.

Not since 1945 when the Yanks dropped nine in a row has the club lost as many as six. The previous high under Stengel was five, set last July and tied last night.

Ripe Bronx boos greeted Mickey Mantle when he came up in the eighth to break his string of hitless trips at 14 with a single to right. A good portion of the crowd of 33,030, that brought the two-day attendance to 88,502, seemed to enjoy watching the Yanks squirm in defeat. Maybe the panic isn't on yet, but it won't take too much more, despite the still-comfortable lead.

Luke Easter's first home run of the year, a 350-foot fly that settled in the lower right field stands beyond the leaping Hank Bauer broke a scoreless battle in the fifth. It was enough. But the Indians, still smarting over the clean sweep the Yanks made in their home park on the last western swing, kept hacking away at Lopat with the help of the Yanks' uncertain defense.

Whitey Ford (8-1) will try to stop the Yank tailspin tomorrow in the final game of the series. Cleveland will pitch Early Wynn (6-5) in a try for a sweep.

Pony League Is Lined Up For Start Tuesday

Pony League officials completed their schedule this week and will begin play in the league at 7 o'clock Tuesday night.

At the time, the Lions Club Phillies will meet the Von Roeder Red Sox. At 9 o'clock that night the Courthouse Tigers will play the Scurry Butane Dodgers.

There will be a total of 36 games in the league. All will be played at the newly - completed baseball field at Towle Memorial Park, according to Forrest Beavers, president of the league.

Pony League is similar to Little League, except it provides play for boys 13 and 14 years old, while Little League is for boys 12 and under.

The Pony league schedule will last until Aug. 7.

Team managers are Virgil Joines for the Tigers, Miller Price, J. W. Coffee, Roy Staton, and Jake Hodges for the Red Sox; Phillip Fisher, Bill Wilkinson, and Bob Bunselmeyer for the Phillies; and Bill Morgan and Arel Faver for the Dodgers.

Games each night of the schedule will begin at 7 o'clock and 9 o'clock.

SCHEDULE

June 30 — Phillies vs. Red Sox, Tigers vs. Dodgers.
July 2 — Phillies vs. Tigers, Red Sox vs. Dodgers.
July 3 — Phillies vs. Dodgers, Red Sox vs. Tigers.
July 7 — Red Sox vs. Phillies, Tigers vs. Dodgers.
July 9 — Red Sox vs. Dodgers, Phillies vs. Tigers.
July 10 — Red Sox vs. Tigers, Phillies vs. Dodgers.
July 14 — Tigers vs. Dodgers, Phillies vs. Red Sox.
July 16 — Tigers vs. Phillies, Red Sox vs. Dodgers.
July 17 — Tigers vs. Red Sox, Phillies vs. Dodgers.
July 21 — Dodgers vs. Tigers, Phillies vs. Red Sox.
July 23 — Dodgers vs. Red Sox, Phillies vs. Tigers.
July 24 — Dodgers vs. Phillies, Red Sox vs. Tigers.
July 28 — Phillies vs. Red Sox, Tigers vs. Dodgers.
July 30 — Phillies vs. Tigers, Red Sox vs. Dodgers.
July 31 — Phillies vs. Dodgers, Red Sox vs. Tigers.
Aug 4 — Red Sox vs. Phillies, Tigers vs. Dodgers.
Aug. 6 — Red Sox vs. Dodgers, Phillies vs. Tigers.
Aug. 7 — Red Sox vs. Tigers, Phillies vs. Dodgers.

Fourth Round Of All English Championships At Wimbledon Played

WIMBLEDON, England, June 27 (AP)—Mrs. Dorothy Head Knode of Alameda, Calif., defeated Mrs. E. W. Dawson Scott of Britain, 6-2, 6-1, today in the fourth round of the All-England championships.

Mrs. E. Vollmer, Germany, defeated Mrs. Heather Brewer, Bermuda, 6-2, 6-1.

All quarter - final brackets in both men's and women's singles were to be filled today.

In the men's division, left-handed Mervyn Rose of Australia, seeded third, and Jaroslav Drobny of Egypt, seeded fourth, advanced with straight set victories.

Rose turned back Jacques Brichant of Belgium, 6-4, 6-4, 8-6. Drobny, who figured in a 93-game marathon triumph over Budge Patty Thursday, expelled Rex Hartwig of Australia, 6-3, 7-5, 7-5.

130-Mile Boat Race

CORPUS CHRISTI, June 27 (AP)—A 130-mile race in which 200 boats are expected to compete will be run from Harlingen to the Padre Island causeway Saturday.

It is known as the international marathon. There will be $2,400 in prize money.

RELAX NOW

PGA To Be Party For Pros With Ben Hogan Gone

BIRMINGHAM, Mich., June 27 (AP)—With Ben Hogan 3,000 miles away, golf's pros can relax and enjoy their own private tee party next week.

It's the annual championship of the Professional Golfers Association—a 216-hole medal and match play marathon which begins with qualifying Wednesday and continues through July 7.

The site is the Birmingham Country Club, a short 6,465-yard, par 71 layout doctored up a bit for the occasion by the widely-known fairway architect, Bobbie Robert Trent Jones.

Jones "souped up" nearby Oakland Hills for the U. S. open two years ago, and you can still hear the outraged cries of the competitors.

The advance favorites are broken-handed Sam Snead, seeking his fourth PGA title; George Fazio, who led the country in sectional qualifying; defending champion Jim Turnesa, Cary Middlecoff and Jack Burke.

These are the boys who usually collect the dough when Hogan and Lloyd Mangrum aren't first in line. Mangrum, second to Hogan in the year's money winning list, also is seeking the British Open title.

Hogan, a two - time winner, wouldn't be caught dead in the PGA tournament since his near fatal automobile accident in 1949. It's too tough on his legs, he says.

Snead, winner in 1942, 1949 and 1951, has a bone separation in his left hand and says he has difficulty gripping the club. But he promises to play in the PGA, adding: "I don't know how far I'll go but I'll start anyway."

Other ex-title holders competing are Gene Sarazen, who won in 1922, 1923, and 1933; Henry Picard, 1939; Bob Hamilton, 1944; Jim Ferrier, 1947, and Chandler Harper, 1950.

USGA Is Opening Up Information Center

NEW YORK, June 28 (AP)—The U. S. Golf Assn. is setting up a southwestern office of the greens section at College Station, Tex.

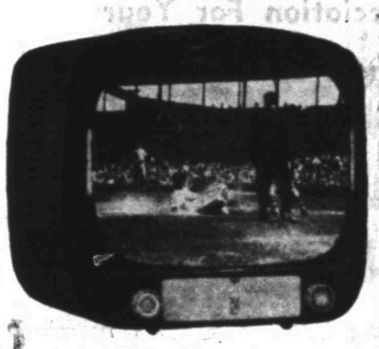

The USGA said today the office would open July 1 under the direction of Dr. Marvin Ferguson, who will also be national research coordinator.

The southwestern section is the third such body set up by the USGA to provide turf information to member clubs and courses. The main office is at Beltsville, Md., and the western office, opened last year, at Davis, Cal.

Interest Rate Increase Has Slowed New House Building

By LEE WATSON

Builders and finance company representatives in Snyder say it is more difficult to secure a house loan now than ever before.

An increase in interest rates granted by the government on Federal Housing Administration (FHA-) and Veteran's Administration (GI) housing loans about six weeks ago has not relieved the difficulty of securing such loans.

W. W. Millburn, president of Millburn Mortgage & Realty, said that persons and investment companies with large amounts of money to invest are still putting money in government bonds, which pay three per cent interest, rather than in house paper which pays four and one-half per cent and four and three-fourths per cent.

"There is more profit in the government bonds at three per cent than in house paper because there is not as much expense and red tape involved," Millburn said.

House builders here say that loans on some houses which were built with loan commitments prior to building have not been closed out.

One builder is reported to be holding the bag on 15 such deals.

The Associated Press said that in Washington "puzzled officials reported that 10 per cent fewer GI and four per cent fewer non-GI home seekers have been able to arrange for government insured or government-guaranteed mortgages than before the higher interest rates became effective."

But the veterans administration and federal housing administration say its "much too early" to call the attempt to loosen up mortgage money a failure.

House building, which had averaged about a quarter million dollars per month for the last three months, appears to be at almost a standstill here now so far as new construction is concerned.

Building permit applications at the city hall have dropped to almost nothing so far this month.

The Associated Press reported that it found the same reason for the slump that local builders and loan represenatives believed to be true here.

It said, "Officials reported evidence that the government's encouragement of rising interest rates, through issuance of better-paying federal bonds, has unsettled the mortgage money market. Leaders are reluctant to splurge on mortgages if other investments will pay better returns.

The National Association of Home Builders (NAHB), which will send witnesses before the committees, has reported local mortgage markets confused and uncertain, lenders reluctant to make firm commitments, and home-buyers "puzzled and disappointed."

"The builders, who plugged for higher interest rates in expectation that it would stimulate building, will propose a new cure: they want lower FHA down-payments.

"They also will support a proposed liberalization of mortgage-buying by the government. the governments federal national mortgage association purchases from banks a prescribed portion of their FHA and GI mortgages, thus providing the banks will cash to make more loans. The builders recommend increasing the percentage of a builder's mortgages which can be bought.

"A spokesman for NAHB said builders assume that 'the credit situation will ease eventually, because the money will have to oe invested somewhere but he agreed with the forecast of Sen. Sparkman (D-La) that, unless the money market does loosen, home building will slump by 250,000 houses from the present rate of more than a million starts a year.

Pvt. Jimmie R. Evans of Snyder recently arrived at Camp Roberts, Calif., to begin his military training. He is the son of Mr. and Mrs. Elmer Evans, 2008, Avenue L.

Scientists believe it would be harder for men to survive on Venus than on Mars.

Pennsylvanian Shows In Ector Drill Test

Dixilyn Drilling Co. of Fort Worth uncovered shows of gas and oil on a drillstem test in No. 1-C Sallie W. Ratliff, wildcat one and MacBoring (Wolfcamp) filed in Northeast Ector County.T h Northeast Ector County.

The shows came on a drillstem test of the Pennsylvanian from 10,580-740 feet. Tool was open four hours. Gas surfaced just before the tool was closed. Recovery was 240 feet of oil and gas-cut mud.

More hole was being made.

Education Of Public Brought Firework Accidents Down

CHICAGO, June 27 (AP)—By the end of the Fourth of July holiday next Sunday night, there will be many more dead and maimed by automobiles than by fireworks.

So this seems a good time to pose a question:

How was the holiday's annual fireworks death toll reduced from 466 to 2 in 50 years?

It's an achievement that becomes monumental when you compare it with efforts to bring the new mass killer, the motor vehicle accident, under control.

Look, for contrast, at the grim record of July 4 traffic deaths. They hit a peak of 491 in 1951. Last year there were 366.

The steady reduction in fireworks fatalities was brought about by shock, education, law and changing custom.

The American Medical Association provided mass shock treatments in the form of reports on the Independence Day carnage. The AMA report for 1903, for example, was 466 dead and 3,983 injured.

History was taking an ironic twist. More lives were being lost in celebrating freedom than in winning it.

Early in the 1900s newspapers and many aroused citizens spoke out for a "safe and sane" celebration. The National Safety Council and other organizations joined in the public education campaign. Thoughtful parents indoctrinated their youngsters at home.

Many cities adopted curbs on fireworks except in authorized public displays that were good as far as they went but they went only as far as the city limits.

The most effective legal action has been taken by states. Laws prohibiting the sale and use of fireworks except in uthorized public displays have been enacted in 27 states—26 of them in the last 16 years.

The results of these safe-and-sane movements can be traced in the AMA count of the Independence holiday fireworks deaths. They slumped from 466 in 1903 to 215 in 1909, to 30 in 1915, to 18 in 1938, to 6 in 1946, to 2 in 1952.

Maybe you live in a state with a control law and you were jarred awake on the morning of last July 4 by blasts and crackles. Those were firecrackers all right.

Nobody concerned with the problem knows how many tons of them are set off in areas where legal bars have been raised against them.

But the National Fire Protection Association, a prime mover in the state control-by-law field, provides this information on the bootleg trade:

"Such fireworks are sold by mail order in response to comic book and magazine advertising. Shipment is made by Railway Express or motor carrier.

"Fireworks also are sold from roadside stands set up in areas outside the jurisdiction of state fireworks laws or (city) ordinances, and goods purchased are smuggled home by the purchaser."

The association says a resolution, now pending in Congress, would "put an end to these practices."

Rep. Marguerite Stitt Church (R-Ill) has introduced a bill in Congress to ban the shipment of fireworks into states where their sale is prohibited.

Another factor in the slump in fireworks deaths is a change in the pattern of holiday living. In the horse-and-buggy era folks were wont to stay close to home and amuse themselves with firecrackers, powder and dynamite.

Americans of the automobile age prefer to go places and to take their chances on the roads.

Stock Market Down For First Half Of Year

NEW YORK, June 27 (AP)—The stock market is closing the first six months of 1953 in a decided downtrend, with prices sharply below their best for the period.

As the half - way mark neared, the market was trying hard to pull safely away from the lows of the year, reached this month. Wall Street observers generally thought there was a good chance for a rally in July and August, traditionally a time for upward markets.

The Associated Press average is off nearly 10 points since January. Individual shares are down as much as 15 points or more from their highs.

Why the general downtrend? Brokers appeared unanimous in placing the blame on uncertainties abroad and at home. They said investors and traders were disturbed by these questions: Korea, excess profits tax, business outlook and tight money.

The market touched bottom for the six-months period June 9. At $104.20, the average was the lowest since Oct. 23. The market then began to rally.

The rally continued this week. The AP average rose $1.50 during the week to close at $107.20.

The market rallied Monday and went up further Tuesday, with the rails and oils the strongest issues. A decline came Wednesday and a resumption of the recovery movement Thursday. Friday, volume was the smallest since Aug. 21, and the market closed mixed.

The most active stock was Pacific Western Oil, which closed down 3⅛. Pacific Western's new well in Arabia hit water.

Second most active was New York Central, up ⅝. American Gas gained ½, Pennsylvania Railroad was up 1⅛, and American Safety Razor declined ½.

A baby usually can distinguish primary colors at six months.

Gaines Failure Is Preparing To Plug

Jake L. Mamon No. 1 Estes, wildcat in Southeast Gaines County, was bottomed at 12,525 feet in the Devonian with electric logs being run prior to being plugged and abandoned.

The project took a drillstem test from 12,498 to 12,525 feet. tool was open five hours. Recovery was 90 feet of oil and salty, sulphur water and 2,960 feet of salty, sulphur water.

The Devonian was topped by samples at 12,495 feet, elevation 3,016 feet on Kelly drive bushing.

The failure is seven miles north of the Block & (Devonian) field in Northwest Martin County and 660 feet from north and east lines of section 20, block A-19, psl survey.

Boyd Attends Meeting

Bill Boyd, manager of Western Motor & Implement Co., attended an all - day session for Packard dealers in Dallas Thursday.

Four factory officials from Detroit headed the meeting, which was part of a new sales and promotion program the company has launched.

Reeves Stepout Set

Continental Oil Co. No. 1-12 D. E. Perkins is to be drilled as a stepout from production in the Scott (Delaware) field of Northeast Reeves County.

Operator staked drillsite 330 feet from northwest and 560 feet from northeast lines of section 12, block 6, H&GN survey and five miles south of Barstow.

It will drill to 5,500 feet with rotary tools.

Lea Try Is Plugged

Amerada Petroleum Corp. No. 1 Lois C. Hobbs, wildcat in Northeast Lea County, has been plugged and abandoned on total depth of 11,754 feet in lime.

The prospector was drilled two and one-half miles southwest of the King (Wolfcamp) field.

Site was 810 feet from north and 360 feet from west lines of section 3-14s-37e.

STUDENT INTEREST HIGH IN CENTER OPENING

Scurry County high school students had a night of dancing and games at the opening of the Youth Center here Friday. Steve Birdwell and his orchestra played for the 200 students who attended. Many of students helped in the work done to prepare the building for the opening. (Joe Dave Scott photograph)

County Park Is Memorial To Late Dr. Howard G. Towle

Scurry County's benefactress for land now called Towle Memorial Park is a woman who has long favored recreational facilities and who decided to do something about it.

She is Mrs. Mary Towle, wife of the late Dr. Howard G. Towle, who served as mayor of Snyder for 24 years.

Early last year, when citizens here were working on their proposal they later submitted for the park bond issue, they took up the problem of land for the park. Before they felt out property owners to find the price of suitable land, Mrs. Towle made an offer of 200 acres just south of town.

After the bond issue was passed, the commissioners court considered several sites and accepted Mrs. Towle's offer, which she made in memory of her husband, who died Nov. 11, 1950. "I think Dr. Towle had that in mind before he died," she said recently.

ACTIVE WORKER

Mrs. Towle, still very active in civic affairs and church work, is 67 years old and not sensitive about her age. She helped organize the Altrurian Club, the first study group in Snyder, in 1908 and has been a member since. She was a member of the building committee for the First Methodist Church when it constructed its building. She was also president of the Methodist Missionary Society for many years, taught in the Sunday school and directed the Young Women's Missionary Society several years, served as treasurer of the church's Northwest Texas Conference and was once district secretary. In club work, she performed district and state federated club work many years.

Mrs. Towle, who was born in Colorado City March 1, 1885, as Mary Ruddick, married Dr. Towle in 1905. A native of Wisconsin, Dr. Towle spent his boyhood in Nebraska and in 1902 graduated from Bradley Polytechnic College at Peoria, Ill. He did special study with Needles Institute of Kansas City and at Northern Illinois College at Chicago before going to Colorado City to practice.

Mrs. Mary Towle

After the two were married, they came to Snyder the same year on a stage hack and helped establish Towle Jewelry & Optical, a business the couple owned more than 40 years before selling to the late Sam Williams. The business is now Williams Jewelry, operated by Mrs. Williams. Dr. John Blum, son-in-law of Dr. Towle, was a partner with him several years. He now has a practice here.

SERVED ON BOARD

Dr. Towle was very active in optometry. In 1929 he was appointed to the state board of examiners in optometry, and he served on the board 20 years, 12 of which he was president. In 1939 he was awarded a plaque for outstanding meritorious and unselfish service for the advancement of professional optometry, one of the highest honors of the board on which he served. In 1936 he was made an honorary colonel under the Alred administration. When he died, the House and Senate both passed resolutions honoring him for his civic and optometry work.

The late mayor served as volunteer fire chief for 14 years, beginning when Snyder used a bucket bridage to fight fires and ending when modern methods had come into use here. He was a member of the Methodist Church, Masonic Lodge, Shrine, and Rotary Club.

Mrs. Towle, who has worked many years for recreational facilities here and remembers many previous attempts to provide facilities, was also a donor of Ruddick Park at Colorado City. She and her three sisters, Mrs. Pearl Shannon of Colorado City, Mrs. J. H. Green of Big Spring, and the late Mrs. James T. Johnson of Colorado City gave the 30 acres for the park in memory of their father, W. P. Ruddick. The late Mr. Ruddick, who had been a pioneer of Mitchell County, was the first man to attempt farming in that county when he raised cotton and feed.

Mrs. Towle said she had heard opposition from some persons to the county's spending $350,000 for the park, said that she and many other elderly persons here probably will never use the park's swimming pool or its other facilities but that the younger generation is in great need of the recreation grounds.

Elevator Service For 8 Little Ducklings

COPENHAGEN, Denmark, June 27 (AP)—Eight ducklings and their mother stopped traffic in Copenhagen this morning, baffled police and firemen trying to rescue them from a roof and finally rescued themselves.

Each time the would-be rescuers put a ladder to the roof, the mother led her brood in a dizzying walk along the rain gutter. Finally, the mother walked over an outlet. The eight ducklings, faithfully following her, plopped down the pipe, zip, zip, zip, one after another.

When mama saw them all lined up on the street, she flew down to join them.

Ann Blyth Marries Doctor In Hollywood

NORTH HOLLYWOOD, Calif., June 27 (AP)—A doll-like movie star bride and a handsome obstetrician today gave Hollywood a wedding that would be hard to duplicate on film.

Ann Blyth, looking radiantly beautiful, became the bride of Dr. James V. McNulty at St. Charles Borromeo Church in the San Fernando Valley. It was the film capital's most glamorous wedding in years.

James Francis Cardinal McIntyre, archbishop of Los Angeles, wearing red and gold vestments of his high church office, read the ancient marriage liturgy of the Roman Catholic church.

Both the 24-year-old actress and her 35-year-old husband voiced the traditional "I do" in firm tones.

After the cardinal finished the marriage ceremony, he read a personal message of congratulation from Pope Pius XII.

The Rev. Harry Mead, pastor of St. Charles, celebrated the nuptial mass. A male choir sang throughout the hour-long ceremony, mixing its selections among sixth century Gregorian chants and more recent English hymns.

An orderly crowd of 2,000 fans lined the street outside the church. Early arrivals were waiting an hour before the ceremony began.

The crowd cheered as Dr. McNulty arrived with his brother and best man, singer Dennis Day. Then a shout went up when the bride arrived.

Inside 500 guests nearly filled the church. Among them were Irene Dunne, Piper Laurie, who came with producer Leonard Goldstein; Terry Moore, who came with Dick Clayton, an old boy friend of the bride; Edmund Gwenn, Jerry Colonna and Jeanne Crain.

Singer Honeymoons

NIAGARA FALLS, Ont., June 27 (AP)—Songstress Gracie Fields and Boris Alperovici, married 16 months ago on the Isle of Capri, are here for a second honeymoon.

Hearing Into Price Hike Set Wednesday

WASHINGTON, June 27 (AP)—Oil producers, refiners and marketers are expected to be before the House Commerce Committee in its investigation July 1 of recent boosts in gasoline and oil prices.

Chairman Wolverton (R-NJ) says the committee wants to develop "facts or conditions with reference to such price increases," explaining that the committee has received many protests about increases in gasoline prices, particularly on the Eastern seaboard.

Most major oil companies recently raised crude oil prices about 25 cents a barrel.

Russell Brown, general counsel of the Independent Petroleum Association of America said he would be glad to testify in support of the increases in crude prices.

"Increased costs and the greater funds needed for defense expansion fully justify the crude oil price increase," he said.

"Excessive imports have continued to work against a proper upward adjustment."

The price increases, he said, were "long overdue." he added:

"Basic factors that would have resulted in a price increase long before now were ignored under artificial federal price control and were partially nullified by an unreasonable and uneconomic rate of imports."

He said increased costs "have been forced upon the industry by group pressure which has resulted in labor and steel price increases."

Wolverton said the price increases follow a period of "successive cutbacks in the amount of domestic production allowed and come at the very time that stringent reduction of oil imports is being urged."

Brown said figures in his office indicate that production now is about 6,470,000 barrels a day, higher than in the last several years.

Joseph LaFortune of Tulsa, who succeeds Ed Warren as deputy administrator of the Petroleum Administration for Defense (PAD) July 1, probably will have a skeleton staff of about 80 persons.

A year ago there were about 350 employes. For the last year PAD has been gradually scaling down its staff. Abandonment of controls on steel and other commodities eliminated much work.

One of PAD's most important jobs is seeing that both military and civilian aviation obtain needed gasoline supplies. Aviation gasoline has been short in some areas.

Loyd L. Peek Gets Promotion

Loyd L. Peek, field superintendent of the Snyder district for Sunray Oil Corp., has been promoted to assistant superintendent of Sunray's North and West Texas District, Sunray officials announced today.

Peek, who has been superintendent here since 1950, does not yet know the effective date of his transfer, nor does he know who will replace him here.

The 36-year-old superintendent came here in 1949 from Forsan as production foreman. In 1950 he was promoted to superintendent for Sunray, going back to the foreman's position later. After Sunray and Barnsdall merged, Peek was again made field superintendent, succeeding V. A. Knight, who left the firm.

Peek had been a Sunray employe since 1943, when he began as a roustabout at Forsan. He later served at Odessa before going back to Forsan. He was production foreman there before coming to Snyder.

The superintendent is married and has two children, Sovella, 15, and James Loyd, 4.

Standard Of Texas Engineer Completing Course At Penn State

Thomas A. Riggs, 3010 Fortieth Street, will complete a seminar in reservoir engineering at Pennsylvania State College next week.

Riggs, who has been district engineer for the Standard of Texas production department here about six months, has been at the seminar about three weeks.

The course was planned by the school to bring graduate employes of the oil industry up to date on modern techniques and advancements in reservoir engineering.

Pennsylvanian Wildcat In Howard Is Spotted

Oceanic Oil Co. and Green & McSpadden have set location in North Howard County for their No. 1 Winnans as an 8,500-foot wildcat.

It is 660 feet from south and west lines of the northeast quarter of section 25-33-t3n-T&P, one - half mile south of Vealmoor and one and three-fourths miles west of the Vealmoor Pennsylvanian Lime field.

It will begin at once to drill to 8,500 feet or to test the Pennsylvanian at a lesser depth.

Small Discovery Is Complete In Runnels

S. C. Herring Drilling Co. of Abilene has completed a small flowing discovery from the Gardner sand in Northeast Runnels County.

The discovery was completed for a daily potential of 47.88 barrels of 40-gravity oil plus three per cent water.

Production was through a one-quarter-inch choke and perforations at 3,805-3,814 feet. Gas - oil ratio was 600-1.

The new discovery is five-eighths of a mile southwest of the depleted Morris Whitely field and 4,300 feet from south and 1,280 feet from east lines of section 139, I. P. Wallace survey and three miles southwest of the town of Crews.

Sutton County Field Opener Is Indicated

Ashland Oil & Refining Co. and Felmont Oil Corp., No. 1 Wallace Estate, rank wildcat in Southeast Sutton County, flowed oil from the Strawn at the estimated rate of 40 barrels hourly to indicate as an important new field discovery.

Oil flow came on a drillstem test at 4,997-5,026 feet with tool open 20 minutes. Gas surfaced in three minutes, drilling mud came to the top in 12 minutes, and oil came to the surface in 16 minutes.

Gas volume was estimated at 750,000 cubic feet per day. Open flowing bottomhole pressure was 175 to 1,525 pounds. Shutin bottomhole pressure was 2,375 after 20 minutes.

Operator reversed out a full string of oil. No formation water was found. The project is to core ahead. Tentative top of the Strawn lime is called at 5,000 feet. Derrick floor elevation is 2,290 feet.

It is three miles southeast of Pure No. 1 S. H. Allison, wildcat which was completed as a discovery from the Strawn for a daily flow of 308 barrels of 32.8-gravity oil and 299 barrels of water. It was completed more than two years ago and is now shutin after having been depleted.

DRILLING REPORTS

Hunt No. 1 Branch, wildcat in Southwest Stonewall County, is preparing to plug and abandon after finding no shows of oil.

It had drilled to a total depth of 6,502 feet in unidentified lime.

Sun No. 3-A Anderson in Mitchell County had cored to 6,020 feet in Strawn shale and sand, where it will cement five and one-half inch casing and then perforate opposite various streaks of strawn sand pay which have been drilled through.

Texaco No. 3 Fuller in the Fullerville Strawn field of North Scurry flowed 24 hours and made 30.4 barrels of fluid, 15 per cent of which was oil and 85 per cent of which was water. It is still testing.

Humble No. 1-B McMillan in the Buffalo Creek Ellenburger field near Hermleigh swabbed 16 hours on Ellenburger perforations and recovered 21 barrels of water with a scum of oil. It is still testing.

Also in Scurry, Brahaney No. 1 Jordan is drilling at 2,739 feet in anhydrite and shale and Humble No. 1 Jones is at 7,129 feet in shale.

In Borden, Texaco No. 1 Canning is at 5,880 feet in lime and shale and Texaco No. 1 Jones is at 4,731 feet in lime.

In Fisher, Smith No. 1 Rives is at 6,685 feet in lime and Lone Star No. 1 Criswell is at 6,811 feet in sandy lime and shale.

In Dawson, U. S. Smelting No. 1 Sandidge is digging at 6,578 feet in lime.

In Howard, Texas Pacific No. 1 Spencer is at 3,782 feet in lime.

In Mitchell, Humble No. 1 Farmer is at 3,395 feet in lime.

In Stonewall, Pure No. 1-A Smith is drilling at 4,515 feet in sandy shale.

Magnolia Sets 4 New Tests

Magnolia Petroleum Co. is to start operations at once on four new explorations in Midland and Upton Counties.

Three of the projects are in Midland County and the fourth is in Upton County.

The Midland County testers include:

Magnolia No. 2 Mary Gatlin in the Parks (Pennsylvanian) field and 10 miles southwest of the city Midland.

It will be 660 feet from west and 1,980 feet from north lines of section 4, block 40, T-3-S, T&P survey. Projected destination is 10,800 feet to test the Pennsylvanian lime.

Magnolia No. 2-0 TXL is to dig to 13,300 feet in Southwest Midland County to try for production in the Ellenburger. It is in the Pegasus (Ellenburger) field and 660 feet from south and 1,980 feet from east lines of section 29, block 40, T-4-S, T&P survey. It is 20 miles south of Midland.

Magnolia No. 12 Roy Glass will be a test to the Pennsylvanian in the Southwest Midland County sector of the multipay Pegasus field.

It also is 20 miles southwest of Midland and 660 feet from north and 1,980 feet from west lines of section 30, block 40, T-4-S, T&P survey. It is projected to 10,700 feet.

Magnolia No. 1-V TL is to be a 13,300 feet Ellenburger exploration in the Northwest Upton County side of the Pegasus field.

It will be approximately 24 miles southwest of Midland and 660 feet from north and east lines of the northwest quarter of section 47, block 41, T-4-S, T&P survey.

Terry Project Catches Fire

Stanolind Oil & Gas Co. No. 1 Tom May, project in the Statex (Cisco) filed of South-Central Terry County, blew out and caught fire Thursday night and burned for seven hours. No one was injured and estimate of damage has not been reported.

The fire caused the rig to collapse.

The fire started when operator was going into the hole to test on total depth of 10,078 feet in Pennsylvanian lime. It started about 9:30 p. m.

Location is 660 feet from south and 330 feet from west lines of the east half of the northwest quarter of section 119, block T, D&W survey and six miles southeast of Brownfield.

Farmers Are Biggest Users Of Oil Industry's Products

TULSA, June 27 (AP)—Although many may not realize it, American farmers reap another crop when they buy oil products from service station or the tank wagon.

Oil's biggest buyer as an industry is the man on the farm, who also supplies some items needed to producing oil.

To bring oil from deep in the earth, drillers use such things as starch, rice, beet pulps, beans and even chicken feathers.

The American Petroleum Institute's Oil Industry Information Committee (OIIC), says they use them at times by the carloads daily.

OIIC explains the strange appetites of oil wells and the farm diet that satisfies them:

Rotary drilling calls for mud, rivers of it. Not just plain, everyday mud but a specialized concoction to cool and lubricate the drill and the steel pipe encasing it.

Mud also cleans the hole of cuttings, washing them from the bottom and carrying them to the surface between the pipe and the hole's wall. It guards against cave-ins and escaping, dangerous gases.

Sometimes the drill finds porous geological formations that absorb too much of the fluids. Then the driller adds to his mud the starch that acts as a sealing agent and keeps the mud's circulation from clogging. Now and then cellulose flakes do the same job.

On occasions the mud's circulation starts to wander in subterranean cavities. Building up its bulk calls for a strange mixture—flaxseed, sawdust, excelsior, chopped hemp.

Or cottonseed hulls, hay, chicken features, sugar cane and redwood fibers, Irish moss. Even beet pulps, rice, beans and wheat bran.

Many of last year's 37,000 rotary-drilled wells, says OIIC, at times used as high as 600 pounds of starch daily, others needed several carloads of bulk materials a day.

Thus the farmer put a lot of things a long way underground to find the oil that fuels his machinery and vehicles and provides him dozens of much-used products.

Oil Completion Up One Over Previous Week

AUSTIN, June 27 (AP)—Oil well completions held steady at 226 this week, one more than the previous week. The railroad commission reported the total for the year was 5,183 compared with 5,556 a year ago.

Five gas wells were completed. Operators plugged 116 dry holes and 24 oil wells. Wildcat drilling produced 17 oil wells, 52 dry holes.

The total average calendar day crude oil allowable was 3,103,113 barrels today, an increase of 9,849 barrels from last week.

Failures Reported In Hockley And Dawson

Woodward & Co. and Dan Auld have plugged their No. 1 Vance, wildcat in Southeast Hockley County and B. L. McFarland, Inc., and Vincent & Welch, Inc., are waiting on plugging orders for their No. 1-76 Barron, wildcat in Northwest Dawson County.

The Hockley County project was drilled to total depth of 10,102 feet in lime and shale. Drillstem test was not taken on total depth.

The Pennsylvanina reef was topped at 10,006 feet by samples, elevation 3,353 feet.

Location was 695 feet from south and east lines of labor 10, league 3, Jones County School Land survey.

The Dawson County project is bottomed 8,685 feet in lime. Drillstem test was taken from 8,645 to 8,685 feet. That test made only salt water.

Location is 660 feet from south and west lines of the southeast quarter of section 76, block M, EL&RR survey and 15 miles northwest of Lamesa.

Reagan Prospector

Sun Oil Co. has staked location for an Ellenburger wildcat in Northeast Reagan County.

It is No. 1 C. H. Sugg and is located 660 feet from south and west lines of section 40, TC survey. That makes it six miles southeast of the Sugg (Spraberry) filed and one-quarter of a mile west of the Irion line.

Projected depth is 10,000 feet. Rotary tools will be moved in and drilling will begin at once.

Offset In Gaines

The Texas Co. spotted location for a 9,575-foot project offsetting Wolfcamp production in the Bottenfield pool of Central-South Gaines County.

The project will be drilled as No. 1 W. A. Cox, 660 feet from the north and 1,980 feet from east lines of section 12, block C-45, psl survey and 10 miles southeast of Seminole.

Operations are to start at once.

Atom Chiefs Cautious About Peacetime Atomic Power Use

WASHINGTON, June 28 (AP)—Congress is moving speedily—but warily—to keep up to date on the nation's quest for industrial power from the atom.

There's no indication that science will maintain the same pace. Estimates of successful, cheap, mass use of such power run as far as 50 years in the future.

The Joint Congressional Atomic Energy Committee, in the midst of private, security-conscious hearings, is embarking on public hearings in the belief that they can be held without giving away any secrets.

One objective, say Co-Chairman W. Sterling Cole (R-NY) of the House and Bourke Hickenlooper (R-Iowa) of the Senate, is to keep the people informed on the "great promise" of peacetime nuclear energy.

There's no question that atomic power holds great promise. But there are complications—both technical and financial. The picture is potentially full of fireworks.

Problem No. 1 is whether private industry should be allowed to own and operate atomic facilities and own fissionable materials. Congress will have to change the law, since now only the Atomic Energy Commission (AEC) may now do either of these things. More liberal patent rights on atomic developments by groups outside AEC is another phase of the problem.

The AEC says there is "optimism" that economical nuclear power can be attained "within a few years." But only six months ago, one of its own scientists declared that at that stage, its production would cost up to three times as much as power derived from coal.

The AEC says the best way to achieve the goal of economical atomic power is to change the present atomic law to allow "groups outside the commission" —including private industry—to own and operate federally licensed plants which could produce atomic power.

The AEC's proposal has the backing of the White House. But the essence of the AEC's idea already has drawn fire—both inside and outside Congress. The CIO charged it would mean "turning atomic energy development over to the big monopolistic corporations.

The AEC through Chairman Gordon Dean, has vigorously denied such contentions, and claims that the taxpayers' 12 billion dollar stake in the atomic program and national security would be well protected.

The commission says that its scientists already have proved that the atom can be harnessed to produce useful power but that the job of perfecting it economically is "a cost-cutting one, the kind of job that can be done best by skilled people competing with other skilled people. . . ."

Dean declared in a recent speech:

"It (the commission's proposal) is not a giveaway program; it is not even a sell-away program.

"Under it, the commission gives nothing away. It doesn't even sell any of its own facilities. All it would do would be to permit others to own what they themselves have built and paid for. . . ."

There is evidence that the government itself hopes to take its first step soon toward building a pilot plant to get information on what nuclear power would cost.

The House Appropriations Committee has voted seven million dollars to start such a plant.

Cole says the Detroit Edison Company and the Dow Chemical Company "have an intense interest" in development of an atomic power plant capable of producing power competitive with coal and other fossil fuels and at the same time producing weapon materials, such as plutonium.

Cole indicated the companies are ready to go ahead, provided a federally financed research and development program also is instituted.

Such a project presumably would depend upon amending the Atomic Energy Act to allow private ownership of plant and materials.

A key proposal, as reported by Cole, was that the companies would "not require a federal guarantee to purchase plutonium."

Some other industrial firms, including Monsanto Chemical Company, have proposed that "dual-purpose" reactors—capable of producing both power and plutonium—be built by private industry with its own funds.

The uranium fuel for such devices would be leased or loaned to industry by the government.

The idea would be that the federal government would purchase the plutonium produced, the revenue helping offset the increased cost of producing atomic power, as compared with conventional power. The atomic power would belong to the industry producing it.

No Comment From Eden On Churchill's Forced Retirement

BOSTON, June 27 (AP)—A secretary to Mrs. Anthony Eden, wife of the British Foreign Secretary, said she thought there would be no comment on today's announcement in London that Prime Minister Churchill has been advised by his doctors to take "a complete rest."

The secretary was asked if the announcement might make a change in Eden's plans to remain in this country several weeks convalescing from a bile duct operation performed at New England Baptist Hospital June 10. She said she could not say.

Mrs. Eden is a niece of Mr. Churchill.

The foreign secretary expects to be discharged from the hospital next Tuesday.

Oil of cloves was widely used in the ancient world.

Wife Walks In Sleep When Moon Is Full

ENID, Okla., June 27 (AP) — A housewife of 27, who sleep walks at midnight when the moon is full, was found nude early today picking leaves 20 feet up in a tree.

Police answered a call from her distraught husband, who was unable to find her.

He told authorities his wife often walked in her sleep and it was always when the moon is full and around midnight.

Police reported:

The husband, an employe of a utility company, found his wife missing shortly after midnight.

He searched the neighborhood and was unable to find her. He called police who also started searching the area. The woman was spotted in the tree as a full moon illuminated the weird scene.

The woman, still asleep, was nude and picking leaves while she balance on a limb 20 feet in the air. The fire department and rescuers working silently so the woman wouldn't be startled, stretched a life net under the tree.

The husband then climbed the tree, carefully wrapped his shirt around his wife and gently awakened her.

She fell into the net and he followed, grabbing his frightened wife before she could run off and hurt herself.

The husband reported later his wife was extremely nervous but apparently none the worse for her exerpeince. However, he said he would watch her a little closer when the moon is full.

Statute Of Limitations Kills Indictments On Fisher County Officials

ROBY—Two misdemeaner indictments against Bill Owens, commissioner of Fisher County precinct No. 1, and Ike West, former county commissioner, were dismissed Friday by County Judge Bruce McCain.

The indictments were dismissed because of the statute of limitations of two years, under which a person cannot be prosecuted for alleged crimes unless the indictment was returned within a two-year period after the alleged offense.

The misdemeaner indictment against West alleges misconduct Feb. 16, 1951, and Owens' indictment alleges an offense on March 23, 1951.

Three felony indictments remain against Owens for misuse of county funds. The indictments were returned by the 104th District Court grand jury during the June term.

The Trapani salt marshes of Sicily produce 200,000 tons of salt annually.

SNYDERITE AND NAVY SECRETARY

Seaman Thomas F. James, Jr., of Snyder got close enough to Secretary of the Navy Robert B. Anderson last week to have his picture taken with him when Anderson, of Vernon, was visiting the recruit training base at San Diego, Cal. James' parents are Snyder Police Sgt. and Mrs. T. F. James, Sr. (Navy photograph)

X-ray Machine Studied By County For Cogdell Hospital

The commissioners court Friday afternoon opened and reviewed five bids on x-ray equipment for the county hospital and tabled them pending recommendation from the hospital board and the administrator.

Bids and qualities of the equipment were discussed about two hour with Dr. Robert F. Wasson, board member, R. B. Fulcher, administrator, and the court. The commissioners asked Dr. Wasson and Fulcher to study the bids further and make recommendation to the court.

Fulcher said yesterday afternoon that an engineer on construction of the project, Cogdell Memorial Hospital, would inspect the main x-ray room of the building tomorrow and estimate cost of altering the ceiling for installation of a floor-to-ceiling type tube, which is the kind used in two of the bids.

The court has virtually decided not to accept the lowest of the five bids because of the rarity of the type machine and because the nearest service representative resides in Dallas. This bid was for $10,000.

The difference between the two next lowest bids is about $500, and Fulcher said that the highest of these two was preferred. The lowest of the two would require alteration of the ceiling, which might cost as much as the difference between the bids. If so, the highest of the two, a bid on a General Electric machine, would probably be recommended. The second lowest is on a Keleket machine, which ranked second in the hospital board's preference.

From the lowest to the highest, bids on the main machines and totals for all equipment were:

Southwest & Johnson X-Ray Co., Dallas, on a Mattern machine for the main x-ray room at $7,775 and other necessary equipment called for, a total of $10,000.

R. P. Kincheloe Co., Dallas, on a Keleket at $8,356.88, bringing the firm's total bid to $10,922.30.

General Electric Coporation, Dallas division, a General Electirc machine at $8,624, and other equipment making the total $11,449.50.

Westinghouse Electric Corp., Dallas division, a General Electric machine, the total being $12,650.43.

Gilbert X-Ray Co. of Texas, Dallas, a Picker machine at $9,900, and the total at $12,655.30. This firm also submitted unsolicited alternate bids on equipment below the specifications required. Alternate on the main machine was $7,000, and the alternate total was $9,755.30. The alternates were not considered because the court did not want the cheaper equipment and because none of the other firms had been asked to bid on alternates.

The equipment to be purchased includes the main machine, a smaller and portable machine, and all necessary equipment for a complete x-ray processing laboratory.

Fulcher said he and Dr. Wasson would meet with the commissioners again tomorrow afternoon, at which time they would make a recommendation.

Patrolman Replaces Mark Search On Police Department Yesterday

Roy E. Wilhelm, 30, of Tahoka, went to work as a patrolman for the police department yesterday to replace Mark Search, who did not return from his vacation when it ended about a week ago, Walter Suttle, police chief, said.

Wilhelm is married and has a two-weeks-old child.

He as worked previously as a policeman in Borger, and has completed a department of public safety training course. He served three years in the army during the war.

Mr. and Mrs. Keith L. Merrick and their year-old son, Johnny, former Snyder residents, were visitors Thursday night in the home of Mr. and Mrs. Robert R. Patterson, 110 Milburn. The Merricks live in Lubbock.

Three Minor Accidents In City Saturday

Three minor automobile accidents were investigated by police yesterday morning but no one was injured and damages to the cars was only slight, police said.

First of the accidents was at 9 o'clock on the Lubbock highway just north of Thirteenth Street involving a 1952 International pickup driven by Melton Lowe, 21, 1806 Thirty-ninth Street, and a 1949 Ford two-door sedan driven by Marvin Eugene Fowler, 18, of Seagraves, Tex.

The second accident occurred at 10 o'clock in the 1900 block of Twenty-sixth Street involving a 1950 Ford driven by Mrs. Joe Evans, 57, route 1, and a 1949 Chevrolet sedan driven by Bernon Dale Walton, 23, 209 Thirty-fourth Street.

The third accident occurred a short time later involving a 1951 Chevrolet sedan driven by Ernest Milton Cody, 37, of the Deluxe Trailer Courts, and a 1947 Willis station wagon driven by Helen Adams Vaughan, 31, of 2909 Avenue N.

Heat Over Most Of Nation; Sprinkles Help Very Little

(By The Associated Press)

A blanket of hot air covered much of the nation from New England to the Southwest Saturday. Patches of the country got rain and thundershowers.

Light rain drifted across some Gulf states from New Orleans to South Carolina. But it failed to relieve heat that ranged from the mid-80s in New England south and westward to the 100s in the Southwest.

Thundershowers occurred in a region of Eastern Iowa and Southwestern Wisconsin and in the Eastern Dakotas. Light rain fell in the Pacific Northwest.

Southern and Central Plains states baked in 90-degree temperatures.

Residents of the Northern Great Lakes region wore sweaters and jackets in temperatures in the 60s.

Hardy Rites To Be Held Here Tuesday At 2

Funeral services will be held at 2 o'clock Tuesday afternoon at the North Side Baptist Church for Mrs. Bertha Housier Hardy, 44, who died last week in Bremerton, Wash.

Mrs. Hardy's body is to arrive here by train tomorrow night. She is a native of Scurry County, born at Hermleigh in 1909, the daughter of the late Thomas Houseler and of Mrs. Maria Housler, now of Corpus Christi. She and her husband, Raymond R. Hardy, who also died last week and is to be buried at Brownwood tomorrow, moved to Washington in 1944.

The Rev. Jack Dean will officiate in services. Burial will be in the Snyder Cemetery under direction of Bell Funeral Home.

Surviving are her mother, five sisters, Mrs. Marie Hundsnurcher of Corpus Christi, Mrs. Anna Harrell of Harlingen, Mrs. Clara Clark of Big Spring, and Mrs. Eva Pantalione of Duarte, Cal.; two brothers, John A. Housler of Fresno, Cal., and T. W. Housler of Higgins; two daughters, Mrs. Dorothy Turner of Odessa and Mrs. Billie l'Francis Christhanson of Bremerton, Wash.; and two sons, Donald Ray Hardy, now serving in the Marine Corps, and Ronnilee Hardy of Bremerton, Wash.

Tonga is the last of the Polynesian kingdoms in Oceania, says the National Geographic Society. Yak tails were used by the fashionable ladies of ancient Rome as fly switches.

PREPARE FOR POOL OPENING

The picture above, made Thursday afternoon, shows the frantic activity of contractors on the swimming pool in Towle Memorial Park to finish it in time for the anticipated opening next Saturday. Since the picture was made the inside of the pool has been painted a light green color, and the contractor says it will be ready to receive water early in the week. (Lee Watson photograph)

Swimming Classes Planned At New Pool In Towle Park

Swimming classes for all age groups will be taught after the opening of the Towle Memorial Park swimming pool, according to Jack Dillon, manager.

The exact time for the classes is still undetermined, but children will be taught in two morning classes while adults who work will be instructed after their working hours. Tentative plans are for the swimming pool to be open from 6 o'clock until 12 o'clock in the mornings and 1 o'clock until 10 o'clock at night, Dillon said. Both Dillon and Horrace Bostick, assistant manager, will instruct.

The lessons which are open to everyone will be given over a period of a month, Dillon said. Fifteen lessons will cost $5. The first stroke to be taught is a modified form of a breast stroke. Later the backstroke, side arm and Australian crawl will be taught, Dillon said. No diving instruction will be given. If lifesaving courses should be offered later, they will be given in co-operation with the Red Cross, he said.

Approximately 85 persons have already enrolled. Present facilities provide for about 200 persons, Dillon said. Both men are taking names of persons signing up for the lessons.

Two lifeguards will be employed at the swimming pool. The one who has been selected is Grant Teaff, son of Mr. and Mrs. Bill Teaff, who is a student of McMurry College.

Dillon said the swimming pool is one of the best he has seen in West Texas. It is 160 feet long, 90 feet wide at the largest end and 47 at the narrow end which is also the deepest end. The water depth will range from three and one-half feet in the wading pool to 10 feet at the opposite end.

A 10-foot slide and two one-meter and one three-meter diving boards will flank the sides. Other features of the swimming pool include underwater lighting and red lines marking the pool for races.

A filter will clean the water so that it will be pure enough to drink, Dillon said. The water is cleaned four times each 24 hours. However, the same water will be used all summer long. Only a small percentage will be lost, and that will be in evaporation, the manager said. The pool will not be filled in one day, but over a period of days so as not to tax the city's water supply, Dillon said.

The percentage of chlorine will be increased in proportion to the numbers of swimmers, he said.

Cuthbert Cadet Takes Training In Georgia

Cadet Joe B. Flowers, son of R. N. Flowers of Cuthbert, reported to Camp Gordon, Ga., last week for a six-week course at the signal corps reserve officers training camp.

Flowers, a student at Oklahoma A & M College and a member of the school's ROTC unit, is working to qualify for a commission as a second lieutenant in the Signal Corps reserve.

World Famous Surgeon Dies

BOSTON, June 27 (AP)—Dr. Frank H. Lahey, 73, a surgeon whose fame was worldwide, died today of a heart ailment he suffered six days after assisting in an operation on British Foreign Secretary Anthony Eden.

Death came to the thin, 5 foot 6 surgeon at New England Baptist Hospital while his wife and three doctors were at his bedside.

He was the founder and director of surgery of the Lahey Clinic, established in 1922, where hundreds of operations are performed yearly on persons ranging from the penniless to the world famous.

Dr. Lahey operated twice on President Anastasio Somoza of Nicaragua and last year was awarded the Nicaraguan Presidential Medal of Honor.

One of his more recent operations was performed May 23 on a 41-year-old Siamese twin from Holyoke, Mass. He successfully removed an abdominal tumor from Margaret Gibb after anesthetizing the other twin, Mary, as well.

In the June 10 bile duct operation on Eden, Lahey served as assistant to Dr. Richard B. Cattell of the Lahey Clinic staff.

It was an unusual role for Dr. Lahey, who also was surgeon in chief of both the Deaconness Hospital and the New England Baptist Hospital.

He was the second noted Boston surgeon to die this month. Dr. Marius Smith-Petersen, world-famous orthopedic surgeon, died on June 16.

By a twist of fate, both died after participating in operations on celebrities—Dr. Lahey on Eden and Dr. Smith-Petersen on radio-TV star Arthur Godfrey.

NOTE TO POLICE

TOKYO, June 27 (AP)—About 350 policemen quietly moved early today into a residential area of West Tokyo and raided the homes of 43 North Koreans for illegal weapons.

On each door the police found a sign which read: "You're too late."

Cremation By Compulsion Is Cause Of Ire

SARK, Channel Islands, June 27 (AP) — The 600 citizens of Sark are hopping mad today over a proposal to substitute cremation for burial to save space on this tiny island of 4 square miles in the English Channel.

Two members of the Court of Chief Pleas — the island parliament — introduced the scheme for compulsory cremation of the dead because they think Sark has too many cemeteries already. It has four.

But the proud and independent people of this self-governing island are indignant. Protests are mounting in homes and pubs. Sark's average yearly death roll is five. No islander has ever been cremated.

"The Sark people abhor compulsion and cremation, and the two together are very unsettling," an angry member of parliament told a reporter. "Of all places in the world to cut across people's feelings, Sark is the worst choice."

Deep Andrews Test

Cities Service Oil Co. filed application with the Railroad Commission of Texas Friday requesting permission to start drilling at once on a 12,800-feet wildcat in Southwest Andrews County.

It is to be drilled as No. 1-AT University, 677.81 feet from west and 663.36 feet from south lines of the south half of section 26, block 10, University survey.

Drillsite is 13 miles southwest of the town of Andrews.

Extender Readying For Completion Test

Extension to the Lazy J (Permo-Pennsylvanian) field of Northwest Lea County, has been assured at Gulf Oil Corp. (Ashmun & Hilliard of Midland) No. 1-CD Lea-State.

Drillstem test was taken from 9,688 to 9,767 feet. Tool was open 20 minutes. Gas surfaced in three minutes, mud in 11½ and oil in 13¾. The well flowed to pits at an estimated rate of 10 to 15 barrels hourly.

Operator was pulling tool at last report.

FOUR WAYS TO BUY:
CASH CHARGE LAY-AWAY BUDGET
Dunlap's
South Side of the Square

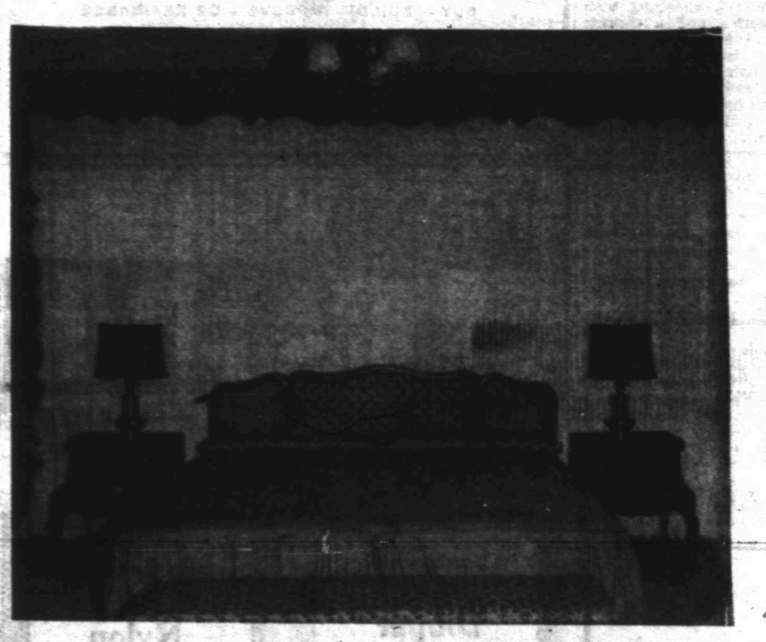

Mrs. Marvin Key stands by the dishwasher built into the pink metal cabinets in the kitchen. The huge blonde dining table with a lazy Susan is in the background. The windows are shuttered with tiny louvered pink shutters. Ruffled valances are green chintz trimmed in pink.

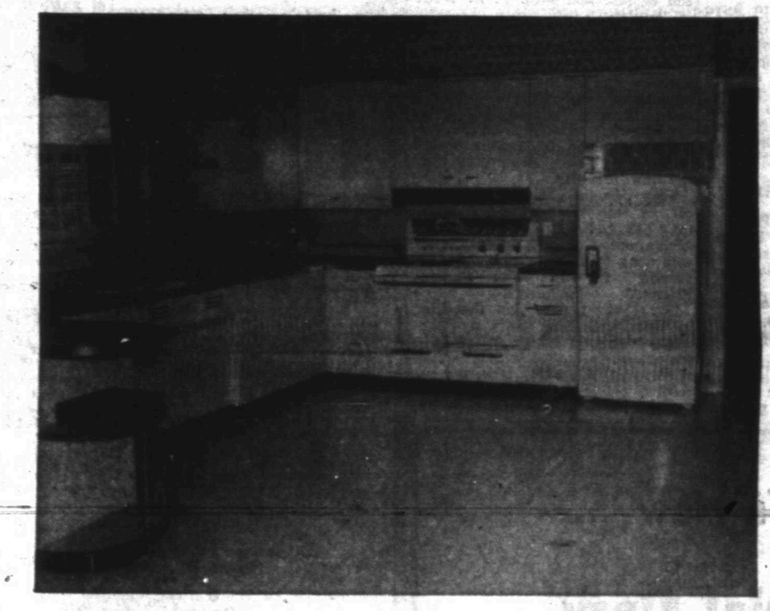

Mr. and Mrs. Key relax in their large living room carpeted in beige. Walls are a soft aqua and curtains are a deeper blue-green. The sectional sofa is rust and the grouping of pictures are framed in rust velvet. The fireplace burns wood and connects with the fireplace in the den. The entrance hall, seen through the door, has blue brick-like wallpaper on one wall and has a design like an espaliered rose bush. Mrs. Bullion in Big Spring was the decorator. (Lee Watson Photographs.)

Beauty In New Homes Adds To City

THE SNYDER DAILY NEWS
VOL. 4, No. 50 SNYDER, TEXAS, SUNDAY, JUNE 28, 1953 SECTION TWO

The front bedroom is framed by the cornice covering almost an entire wall. Spread is rust-colored rough-textured cloth. Aqua and brown print covers the headboard, cornice and chest. Ivory panels are the curtains.

The pink cabinets and small printed wallpaper make a very attractive work area for Mrs. Key. There's plenty of room when the five sons and their families are home. Door leads to the garage and upstairs rooms.

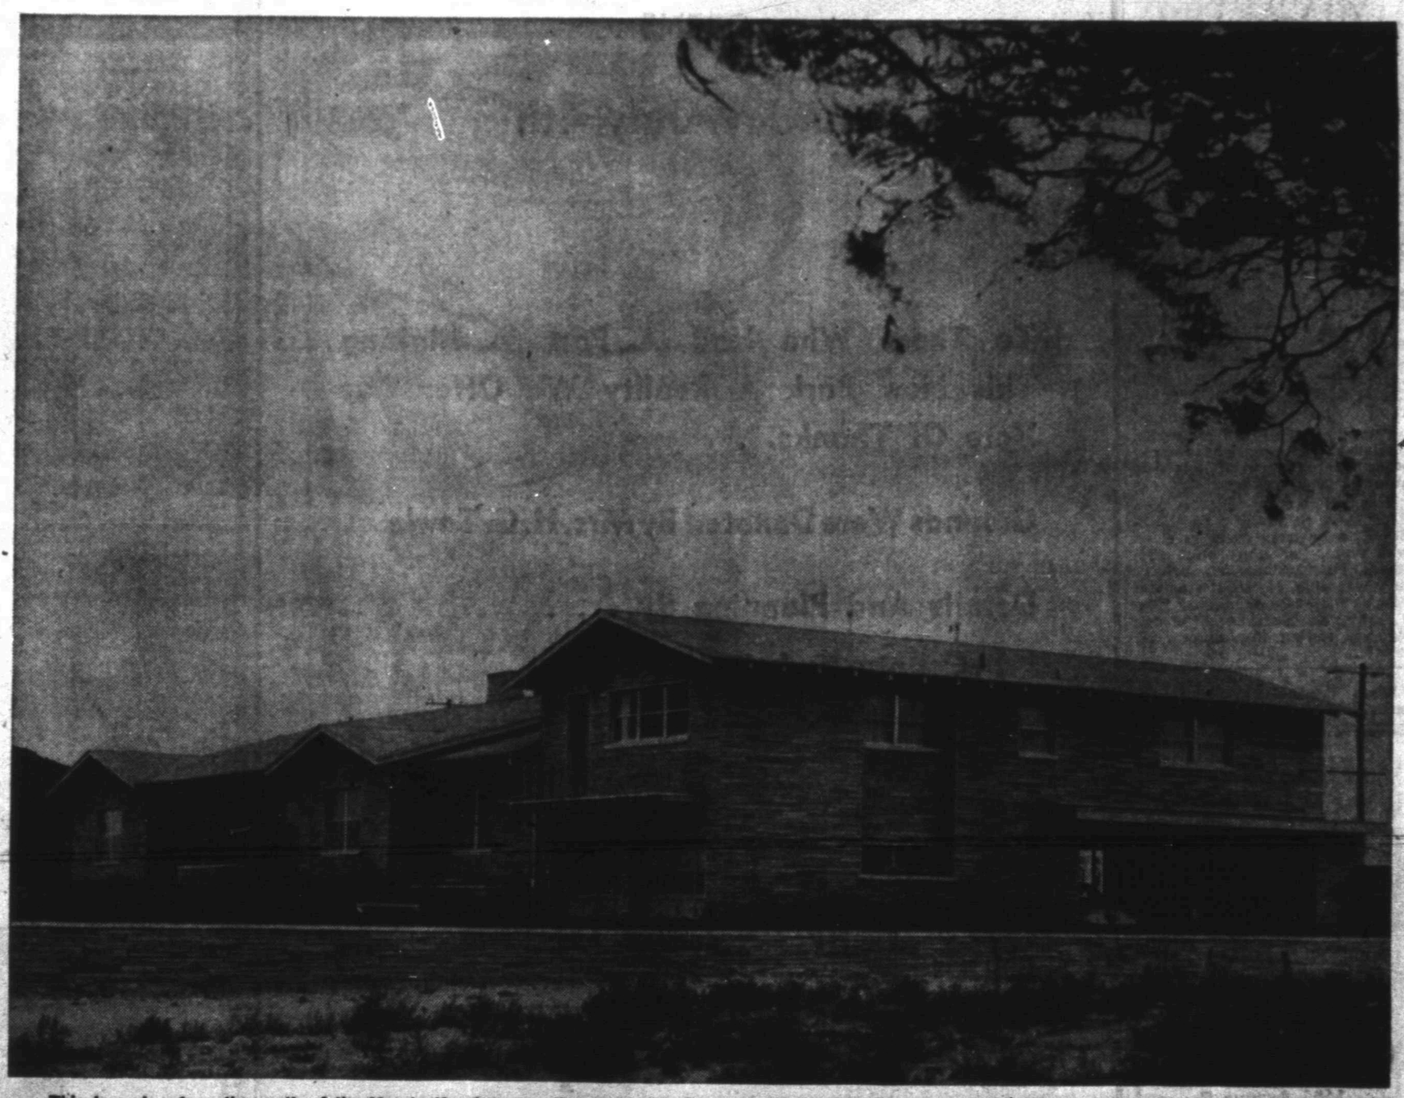

Mr. Key shows one of his guns with a telescopic sight. The moose hanging in the foreground was shot in Canada. Over Mr. Key's head is a mountain sheep. The den has a complete map of the world on one wall, which no doubt eliminates geographical arguments.

Roland, 10, left, and Wayne, 8, read comic books in their bedroom. The walls and floors can take rough and tumble business of the boys and their friends. One of the Key's sons is married and lives in California. He, his wife and new baby will visit the new home this summer.

Jimmy Key, 16, left, is shown in his room with his cousin, Odell Moore, 15, son of Mr. and Mrs. Lester Moore. Jimmy was talking on his private line telephone to Willie Brownfield, a next door neighbor on the hill west of town. Jimmy has all sorts of communication equipment. Future signal corpsman?

This is a view from the north of the Marvin Key home on the west part of town. The house was designed by Don Smith of Sweetwater, the same architect who planned the Borden County Rural School. Clyde Key and Lester Hanback were the builders. The house is made of buff-colored cut stone. It was started in July last year, and the family moved from Knapp into it about the first of April.

BATHING BEAUTIES . . . Mother and daughter enjoy the beach protected from sun's harmful rays with liberal use of suntan lotion and a parasol.

Parents Should Prevent Children From Sunburning

(By The Associated Press)

Please don't roast your baby in the sun.

Any Mom who uses an oven thermometer in baking should know better than that. But every day one sees little tots broiling in the summer sunshine, with mother sitting under a parasol quite aloof from it all.

An agonizing sunburn can scare a little tot into the shade for a lifetime. But if Mom takes time and energy to instruct her child in the proper procedures of sun basking, a good time can be had outdoors.

Here are some tips worth observing if baby and Mom plan to enjoy their outdoor sessions this summer:

1. Before your youngster leaves the house have her assemble sunglasses, suntan lotion, a hat with a brim, long coverall, long sleeved light-weight blouse, a large Turkish towel.

2. When she arrives at the beach, show her how to apply the suntan lotion.

3. Children who have been sitting in the sun are likely to shiver after a dip in cool water. When she has been blotted dry with a towel, have a warm sweater ready to keep her from chilling until she warms up again.

4. Bring an alarm clock so exposures to the sun may be timed. Time consuming relaxers such as reading and knitting are likely to take your thoughts from your child until she is scorched. Be sure she wears sunglasses or little cotton eye pads when she is lying down in the sun.

5. Keep her from munching food and drinking icy drinks while she is in the direct sunshine. When it is time to have lunch, sit in a shady spot or under a parasol.

6. Unless she is a good swimmer, train her to ask permission when she wants to wade in the water. It is Mother's job to accompany her youngster in water that is more than ankle-deep.

7. Keep your child calmed down as much as possible. She is likely to become overheated from playing the simplest little games on a hot day.

When choosing beach equipment, make sure that bathing suits will dry easily, that sunglasses are approved by your optician and that suntan lotions are effective and pure. The American Medical Association Committee on Cosmetics has put its stamp of approval on certain protective lotions especially good for tender-skinned children.

BRIDGE NOTES

Mrs. Coke Tilley took first place at the Ace Bridge Club meeting June 17. Mrs. George Horst won second and low went to Mrs. W. D. Birdwell. Mrs. F. D. Fulkerson was hostess.

• • •

Mrs. V. V. McGrew and Mrs. Ruth Keenan won high at the Couple's Duplicate Bridge Club Tuesday night at the Country Club. Mr. and Mrs. Wayne Boren took second and Mrs. Garrett Harrell and Mrs. Joyce Gorman, third.

El Martez entertained their hus bands at their meeting Monday at the home of Mr. and Mrs. Robert Dawson. Mr. Doak Criss took high for men, Mrs. Dawson, high for women and Mrs. Tom French, bingo. Club guests were Mr. and Mrs. Eugene Hickman.

• • •

The Fritz R. Smiths took second place at the Wednesday Duplicate Bridge Club at the Colorado City Country Club. Also placing in the master point night were Mrs. Prentis Bass and Mrs. Ray Keenan who won third. Mr. and Mrs. Robert F. Wasson, fourth, and Charles Snyder and Prentis Bass with fifth place. Others attending were Mrs. Mable Brock, Mrs. Ophelia Blackard, Mr. and Mrs. Doak Criss, Mrs. Charles Snyder and Mrs. W. D. Boggs.

Last Letter To His Wife

CHICAGO (AP)—"This will be my last letter to you," the lieutenant wrote his wife from Korea. "That I know, because it will not be mailed unless I am killed tonight."

Lt. James Ford of Chicago asked a last favor of his wife, Jean, 25, whom he married only eight months ago.

"Pray that all this shall end soon."

It ended soon for James Ford, as he suspected. But as he wrote hours before leaving on a hazardous patrol deep behind Communist lines—his thoughts were of others.

"I pray each night that they will sign a truce so these young kids can get away from this blood and death. As it is now, they are thrown in here at 18 and 19 before they even know what life is all about. It's a cruel way to have to grow up."

Mrs. Ford said of the letter:

"There is no bitterness in it."

"I have no fear of going on this patrol," Ford wrote, "and I don't mind going if it will help in the smallest way to make this messed-up world a better place to live in."

Fin Government Out

HELSINKI, June 27 (AP)—Premier Urho Kekkonen's coalition Finnish government will offer its resignation Monday, it was announced today. The two principal parties in the coalition, the Agrarians and the Socialists, have been deadlocked for weeks over economic issues.

Railroad tank cars range in capacity from 4,000 to 16,000 gallons.

Mrs. Harold Lewis Wade

Harold Lewis Wade And Miss Dodson Are Married

The wedding of Miss Mary Catherine Dodson of Smackover, Ark., and Harold Lewis Wade of Pine Bluff, Ark., was solemnized in the First Baptist Church of Smackover June 6.

The bride is the daughter of Mr. and Mrs. G. A. Dodson of Smackover, and the bridegroom is the son of Mr. and Mrs. L. A. Wade of Snyder.

Dr. W. B. Tatum of Pine Bluff read the double ring ceremony in a setting of gladioli blossoms in baskets against a backbround of huckleberry foliage and emerald fern. Candles burned in spiral candelabra. The couple said vows under an arch of greenery and knelt on a white satin prie dieu for the blessing.

Miss Janelle Collums, organist, played the traditional wedding marches and other selections and accompanied Miss Robin Berry who sang "At Dawning" and "Serenade" from "The Student Prince."

Mr. Dodson gave his daughter in marriage. She wore a floor-length dress of white nylon tulle over satin, fashioned with a bodice of imported Chantilly lace, a high pointed collar and sleeves coming to calla lily points over her hands. Her fingertip veil fell from a shell-shaped cap of lace trimmed with seed pearls. She carried a bouquet of calle lilies and gardenias.

Miss Margeret Berry, maid of honor, was dressed in blue net over taffeta, with a shell-shaped cap of matching lace. She carried a bouquet of yellow rainbow asters.

The bride's other attendants, Miss Gloria Jean Hatcher and Mrs. Franklin R. Matthews, wore costumes identical to that of the maid of honor. Their flowers were bouquets of pink rainbow asters.

Bruce Fraizer of Duncan, Okla., served as best man. Ushers were Graydon Dodson, of Pittsburgh, Pa., brother of the bride, and Dale Roor of Grand Rapids, Mich.

The reception was held in the home of the bride's parents. Baskets of gladioli were used in decorations. The table was centered with the bridal bouquets. Mrs. Roy Pumphrey, aunt of the bride, cut the cake and Mrs. Dorothy Worley, aunt of the bridegroom, served punch. Miss Marcia Brewer presided at the bride's book. Others assisting were Miss Joan Bearden, Miss Paula Jean Martin, Mrs. Bill Jenkins and Mrs. Don Moshburn and Mrs. G. V. Conklin and Mrs. A. C. Ingram.

After a honeymoon in the Ozarks the couple will live in Pine Bluff. For traveling the bride wore a suit of beige silk shantung with white accessories and a corsage of gardenias.

Mrs. Wade is a graduate of Smackover High School and of Baylor University, Waco. Mr. Wade was graduated from Snyder High School and from Oklahoma A&M College.

Eskimos Will Vote

Ottawa, June 27 (AP)—Canadian Eskimos will have the right to vote in a federal election for the first time Aug. 10 when Canadians choose their government for the next five years.

Demo Leader's Schedule For Tour Of Texas

CORSICANA, June 27 (AP)—Nine places on the six-day tour of Texas by Stephen Mitchell, national Democratic chairman, were announced today by County Judge Jim Sewell.

Mitchell will start his tour Monday at Abilene, accompanied by Sewell and Mrs. Hilda Weinert of Seguin, Texas' Democratic committee woman. Sewell was 1952 state campaign manager in Texas for Adlai Stevenson.

The Mitchell schedule:

Monday, June 29—Open house in Abilene at Hotel Windsor from 1-6 p.m. and a public speech at 8 p.m.

Tuesday—Speech to the Denton Kiwanis Club at noon, conferences with Democrats at Southern Hotel in Denton from 1:30-6 p.m. and a barbecue and speech at 7 p.m. in the Denton city park.

Wednesday—Public speech at the Kilgore community center at 12 noon, public speech at the American Legion hall in Beaumont at 8 p.m.

Thursday—Private luncheon in Bryan at 1 p.m., public speech at Baylor University Student Union Building, Waco, at 7:30 p.m.

Friday—Public speech at White Plaza Hotel, Corpus Christi, at 1 p.m., followed by open house at the Robert Driscoll Hotel. At 8 p.m. Mitchell will fly to Uvalde for a private talk with former Vice President John Nance Garner.

Saturday—Speech at the Odessa July 4 festival.

Mitchell will leave Odessa at 3:30 p.m. Saturday for Chicago.

Strauss Made Member Of Atomic Commission

WASHINGTON, June 27 (AP)—The Senate confirmed Lewis Strauss, New York financier, today as a member of the Atomic Energy Commission which he is to head as chairman.

Strauss, a former member of the commission, was named by President Eisenhower Wednesday to a five-year term succeeding Chairman Gordon Dean.

Mrs. Jackie Grant Reed

Norma Jean Cary, J. G. Reed Married In Chapel

The Rev. John P. Baker officiated June 19 at the marriage of Miss Norma Jean Cary and Lt. Jackie Grant Reed in Ford Memorial Chapel of Lubbock.

Parents of the couple are Mr. and Mrs. A. E. Cary of Snyder and Mr. and Mrs. J. J. Reed of Shallowater.

A double ring ceremony was performed before an altar banked with greenery and baskets of gladioli and carnations, backgrounded by candelabra.

MRS. NABERS SINGS

Mrs. S. J. Nabers sang "Because," "I Love You Truly" and "The Lord's Prayer." She was accompanied by Miss Imogene Webster, who offered an organ medley of traditional wedding music and played "Indian Love Call" during the ceremony.

Given in marriage by her father, the bride wore a gown of white imported Chantilly-type lace and nylon tulle over satin. Designed with a sheer yoke outlined with lace applique and iridescent sequins, the fitted lace bodice had long sleeves and joined an immense waltz-length skirt. The skirt was fashioned of nylon tulle divided by full length panels of lace.

Her veil of silk illusion was attached to a lace cap outlined with seed pearls on a pleated net tiara. She carried a white orchid surrounded by stephanotis.

Mrs. Odis Glasscock, who attended the bride as matron of honor, wore a waltz-length dress designed with a strapless bodice in summer blue net over taffeta. A stole and headpiece of net complemented the ensemble. She carried pink carnations.

BROTHER IS ATTENDANT

The bridegroom's brother, Bobby Joe Reed, served as best man. Candlelighters were Don Cary and Jim Cary, both of Snyder. B. H. Thomas Jr, of Shallowater, Abie Reed of Shallowater, and the candlelighters were ushers.

At the home of Mrs. S. J. Nabors, a reception was held following the ceremony. The bride's table was laid with a cutwork cloth. Appointments were crystal and pink carnations and a white wedding cake decorated the table.

At the serving table were Mrs. B. H. Thomas of Shallowater, Miss Sue Stephens of Gail and Miss Virginia Beckwith. Mrs. Audry Cary presided at the bride's book. Mrs. Detaon Rigsby was at the piano. Others in the houseparty were Mesdames Allen Stephens of Gail, and Ivan Hill of Snyder.

For traveling to Denver, Colo., the bride chose a natural colored suit of silk shantung with accessories in summer blue.

The bride, a graduate of Texas Tech, has been employed by Stanolind Oil and Gas Co. for the past year. She is a member of Desk and Derrick Club.

The bridegroom attended Texas Tech and is now on active duty with the Air Force. He is stationed in Denver.

Hermleigh 4-H Club Girls Hold Meeting

The Hermleigh 4-H Club girls met Wednesday at the home of Ethel Rose Hundsnurcher.

Miss Ruby Butts, county home demonstration agent, gave instructions in making brownies. The girls played games and sang songs.

Refreshments were served to Sandra Leech, Darlene Wemken, Violet Davis and Nelda Smith.

Raincoat Can Be Cared For In Your Home

(By The Associated Press)

It's a smart girl who learns how to clean or launder her own raincoat and re-waterproof it at home.

Many of the gay raincoats currently on the market can be tossed into the family washing machine, but unless the water repellant is renewed after laundering, they may not be very effective in shedding rain.

Others can be cleaned at home, but here again it is necessary to renew the waterproofing substance after the garment is dunked in cleaning fluid.

The business of renewing the water-repellant surface of a coat usually is fairly expensive, if done by a professional cleaner, and in time the upkeep of the coat may amount to more than its original cost.

Whether or not you clean your own coat, you can keep down the upkeep cost by taking care of it. After it has been out in the rain it should be pressed, to keep it from looking rumpled. A steam iron is recommended for this purpose, to achieve a smooth finish and avoid damaging the water-repellant surface.

Remove soil spots as soon as you see them using a damp cloth or cleaning fluid, as required by the fabric. Work quickly and, if you use soap, rinse at once, as soap damages the waterproofing.

Most coats nowadays can take two or three cleanings before they need to be re-waterproofed. You can apply the water repellant easily at home, using a widely available waterproofing substance which comes in a flexible bottle and can be sprayed on the garment.

Other water repellant compounds, still in the experimental stage, may simplify the process even more. Chemists are at present working on one product which can be mixed with cleaning fluid, so that a coat may be waterproofed as it is cleaned. Another may make it possible to put the water repellant directly into a steam iron, and waterproof the coat as it is pressed.

Press your raincoat with a steam iron after it has been sprayed with renewable water repellant.

Chairmen For Pony League Mothers Picked

Pony League mothers completed final plans for operation of concession stands at league games in a meeting Wednesday night in the county courtroom.

League play will open Tuesday with a double header starting at 8 o'clock that night. The games will be played on the new diamonds in Towle Park.

Plans were made for the concession stands to be open each game night, which will be Tuesdays, Thursdays and Fridays. Proceeds will go to the league.

Mothers of players have been asked to contact their team chairman for work details. Chairmen are Mrs. Walker Dabbs, Von Roeder Seed Farms Redsox; Mrs. M. F. Allen, Courthouse Tigers; Mrs. Robert L. Smith, Scurry Butane Dodgers; and Mrs. Harry Ward, Lions Club Phillies.

PERSONALS

Mrs. Bruce Schane from Big Lake is a guest in the home of Mr. and Mrs. L. B. Taylor, 1609 Avenue I. Mrs. Schane is the former Laquita Saunders of Snyder. She and Miss Francine Taylor were school friends.

Mr. and Mrs. Jesse Clements and daughter, Anita, and Donna Taylor and Ann Taylor are spending the week end at Christoval. Donna and Ann are daughters of Mr. and Mrs. L. B. Taylor.

We hope this doesn't discourage other girls of this area from entering the bathing beauty contest at the opening of Towle Park swimming pool, but this is the first entry. She is Miss Peggy Ritter, daughter of Mrs. D. E. Dowell, 1907 Coleman Street. She is 16, and her telephone number is listed as 3-6730. The contest will be held next Saturday, and entry deadline at the chamber of commerce office is at non that day. Married or single women from 16 to 25 are eligible for entry.

Rainbow Girls Go To Grand Assembly Meet At Galveston

The Rainbow Girls returned Thursday night from attending their Grand Assembly for five days in Galveston. They studied methods of conducting local meetings.

While there "A" Certificates were awarded to Kay Birdsall, Gay Birdsall, Janice Starr, Virginia Parrqit, Patsy Davidson, Betty Jo Whitehed and Gwen Watson. "B" Certificates were given Ann Osborne, Judy Noah, Norma Jean Edelman, Janice Stacey, Robbie Pratt, Jane Voss and Kay Watson. The certificates are indicative of individual accomplishments.

The girls attended meetings during the day. Wednesday night a banquet was given in their honor. They also went as a group to a beach party at Stuart's Beach there.

Sponsors for the trip were Mrs. Carl Smith, Mrs. P. W. Birdsall, Mrs. Georgia Davidson and Mrs. Ralph Parrott.

It is believed that pheasants were first taken to England by the Romans.

Good Will Cruise

RIO DE JANEIRO, June 27 (AP)—Twenty - nine U.S. warships carrying nearly 15,000 men on a training cruise put in at Rio and Santos today for an eight -day good will visit. The battleship Missouri, flying the flag of Rear Adm. E. T. Woolridge, commanding the fleet, and the battleship Wisconsin, led the group.

The grey squirrel, a native of America, was introduced into England in the 19th Century.

25 YEARS AGO

(Taken for the files of the Scurry County Times-Signal, June 28, 1928.)

As next Wednesday is the Fourth of July, Snyder and Scurry County could enjoy a big basket picnic at Wolf Park with a feast of real baseball in having the six teams parade their stuff that day instead of using up the regular schedule of three days for the week.

• • •

The E. L Doheny J. J. Koonsman No. 1 oil well that was recently spudded in is causing a great deal of excitement since the Byrd, Lechner and Harmon interests are personally on the scene to get things started off right. The well is now around 150 feet in the hole, and the location promises to be the start of West Texas's newest oil development, we hope.

W. H. Kimzey made a business trip to Blackwell Saturday afternoon, returning Sunday.

Mobley, White Vows Said In Union Church

Mr. and Mrs. Kenneth White are in Oklahoma following their marriage last Sunday afternoon at the Union Baptist Church.

The bride is the former Miss Velda Ann Mobley, daughter of Mr. and Mrs. V. T. Mobley of Snyder. The groom is the son of Mr. and Mrs. J. O. White of Snyder.

The Rev. L. V. Ratliff, pastor, read the single - ring ceremony.

The bride, wearing white lace over satin, was given in marriage by her father. She carried a cascade of white carnations. Miss Mary Nell Strickland attended her as maid of honor.

Bridesmaids were Miss Elna Swanson of Snyder and Miss Betty David of Seminole. Best man was Tommey Exell of Andrews.

Bob Little and Orval Watson served as groomsmen while Shirley Little was candlelighter. Connie Marshall, a cousin of the bride, was flower girl.

Preceding the ceremony Bill Poe sang "O Promise Me" accompanied by Miss Shirley Arnold at the piano.

A reception followed the service at the White home. The guests were served by Mrs. E. L. White and Mrs. "Red" Jaxon, Mrs. Burney Krasner, Mrs. John Marshall.

The couple will be at home in Midland where he is employed by the Superior Oil Co.

Mr. and Mrs. Jack R. Shelton

Miss Holmes, Mr. Shelton Married Here

Miss Laura Sue Holmes and Jack Randall Shelton exchanged wedding vows in a double - ring ceremony in the home of Dr. and Mrs. Robert F. Wasson, 300 Thirty-seventh Street, Friday night.

The Presbyterian wedding service was read by the Rev. Ronald Hubbard, pastor of the First Presbyterian Church. A few close friends attended.

The bride is the daughter of Mr. Fred Holmes of Kansas City. The bridegroom is the son of Mr. and Mrs. J. R. Shelton of Midland.

Given in marriage by Dr. Wasson, Miss Holmes was attended by Mrs. Wasson. Houston H. Harte served as best man.

For her wedding costume the bride chose a pink Anne Fogarty dress and wore a white faille shell hat with rhinestones and pearl trim. She wore her mother's pearl earrings and carried a white carnation nosegay.

The bride is a graduate of Texas Tech College where she majored in journalism. While there she was a member of Alpha Lambda Delta, national freshman, honorary society, Theta Sigma Phi, national honor society for women journalists, Kappa Alpha Mu, national photography honor society, Alpha Chi, national honor society for juniors and seniors, and Ko Shari social club.

The bridegroom was a member of Kappa Alpha Mu, Gargoyle Society, an art club, and Silver Key social club. Mr. Shelton was also a journalism major at the college.

Following a short wedding trip to Dallas and Lubbock the couple will be at home in Midland where Mr. Shelton is a draftsman for Humble Oil & Refining Co. Mrs. Shelton, former society editor of the Snyder Daily News, will be employed as a secretary in the Midland school system.

PERSONALS

Visitors Friday in the home of Mrs. Billy McDorman, 1505 Avenue R, were Mr. and Mrs. Jake Harrison and sons from Ranger.

Mr. George Gibson, 310 Twenty-fourth Street, went to Paris Thursday to attend the funeral of his brother-in-law, George Rodgers. Mr. Rodgers died of a heart attack. Mr. and Mrs. Elmo Crowder accompanied Mr. Gibson on the trip.

Pvt. Gene Graham of Fort Hood, visited recently in the home of Mr. and Mrs. A. A. Behringer, 1401 Avenue M.

Mrs. Junior Behringer of Lamesa is a guest this week in the home of Mr. and Mrs. A. A. Behringer, 1401 Avenue M, and Mr. and Mrs. Glendon Bynum, 1909 Fifteenth Street.

Although the proportion varies greatly, practically all meteorites contain some iron.

Country Club To Hold Celebration Here Saturday

Members, associate members and non - resident guests of the Country Club will celebrate July 4 with progressive bridge, golf and a picnic Saturday.

The bridge game will get underway at 3 o'clock that afternoon. Both men and women will participate. Prizes will be awarded for a high score, second high and a traveling prize.

Also during the day men and women will play golf. The man and woman with the lowest scores will be given golf balls.

Mrs. Robert F. Wasson will present the winner of the women's individual duplicate tournament with a trophy. The tournament will be in session until Friday.

Between 7 and 7:30 o'clock that evening a picnic supper will be served. Those attending will bring fried chicken, salad or dessert. Mrs. J. T. Hammett will furnish and fry the chicken for $1.50 if she is contacted by Wednessay, according to Mrs. J. D. Scott. Mrs. Scott and Mrs. Jack Gorman are in charge of arrangements.

Getting Water In New Pool Makes Problem

Filling the swimming pool in Towle Memorial Park with water next week in time for its planned opening July 4, may prove to be a problem, B. J. Shelley, city manager, said last week.

"We believe that the city will be able to provide the water to fill it, if we can have the time to fill it slowly," Shelley stated.

He said that water from Lake Thomas has been promised to the city July 1, and that the city is ready to start processing the water when it gets here.

"But there is only a four-inch main going to the swimming pool, and it is tied onto a six-inch main in the southwest part of town which also must carry water for Highland Park and Towle Place," he said.

He said that using the four-inch line to the swimming pool will probably greatly reduce water pressure in Southwest Snyder and that it will be necessary to fill the pool during the night or low consumption periods during the day.

Shelley said that all the chemicals necessary to make water from Lake Thomas usable for city residents are on hand and that the city's one-million gallon sedimentation basin is now being prepared to receive the water.

Workmen at the swimming pool said it would probably be ready to receive water early this week.

Monument For GIs

CANBERRA, Australia, June 27 (AP)—Queen Elizabeth II will unveil an Australian monument honoring America's role in the Pacific war when she visits here next February. It is a tall column surmounted by an American eagle.

Mrs. Dora Haile dips flour into a measuring cup before making hot rolls. She has used the same recipe for 25 years since she received it from one of her Negro cooks. The advantage to the recipe is that there is little kneading, she said.

Recipe For Hot Rolls By Mrs. Haile

Mrs. Dora Haile of Roswell, N. M., brought her recipe for hot rolls with her when she came visiting her niece, Mrs. C. U. Bishop who lives at 1204 Twenty-sixth Street.

HOT ROLLS

1 yeast cake
1 cup milk
1 tablespon sugar
¼ teaspoon salt
2 tablespoons melted shorteming
2 egg whites
2½ cups flour

Dissolve yeast in lukewarm milk. Add sugar, salt, shortening and mix well. Add enough flour to the mixture to give it the consistancy of cake dough. Blend in stiffly beaten egg whites and beat well. Add flour until dough is very stiff. Place in well greased bowl in warm place and let rise an hour. Knead again with two tablespoons of flour on the dough board. Place in greased pan and let rise an hour. Bake. Makes about 18 rolls.

The English coronations were first conducted in English in 1603, having been conducted in Latin before that.

The reindeer is the only deer which has antlers on both the male and female of the species.

Mrs. McCright Feted With Bridal Shower In Peterson Home

Mrs. Joseph J. McCright, the former Miss Marilyn Craig, was honored with a bridal shower Tuesday in the home of Mrs. L. B. Peterson, 2406 Avenue I.

The bride's colors of green and pink were carried out in plate favors made of hearts tied with colored ribbon. Bride and groom dolls stood in an archway to form the centerpiece.

About 20 guests called. Hostesses were Miss Ladell McCright, Miss Janell McCright, Miss Francine Taylor, Mrs. Bruce Schane of Big Lake and Mrs. Peterson.

Sweden's constitution was set up in 1809 and the Swedes say it is the oldest written constitution in Europe.

Greek Army Increased

ATHENS, June 27 (AP)—Greece soon may add 10,000 men to her present army of 143,000 men in order to take full advantage of U. S. aid. The defense minister, Panayoti Canellopoulos, said the move is being considered "because of the importance and extent of military equipment and supplies that are being given Greece by America" which otherwise might be lost.

Snow often evaporates into the air without melting.

Summer Charm Fotenotes Built Around Proper Care

(By The Associated Press)

Your footprints can leave sparkling imprints on summer sands.

Feet lead a sole-tickling existance in summertime, what with warm sands and dewy grasses underfoot by day and cool patios by night. The goal should be to keep your feet twinkling during this barefoot period.

A weekly pedicure should take only 15 minutes, and your reward may be little toes that give the appearance of bright seashells. Here's how:

1. Remove old nail polish with oily remover. Moisten cotton with it, pressing it against the nail for a few seconds, then wipe down with a single stroke toward the nail tip.

2. File toe nails straight across with an emery board. If nails are long use scissors to cut them, taking care not to cut them too close. Never file or cut your nails away at corners. This can cause ingrown toenails. Shape them slightly at the tip in an oval shape.

3. Soak your feet in warm soapy water, scrubbing them with a soft brush, then dry thoroughly.

4. Apply oily cuticle remover with an orangewood stick wrapped with cotton. This should be worked gently around the cuticle, pushing it back from the nail. Wipe loosened cuticle with towel or tissue.

5. After using cuticle oil go over the nails again with polish remover to remove all traces of oil.

6. Apply a polish foundation to your nails. Then choose your favorite polish, applying it sparingly with a not-too-full brush so that it does not run back on the cuticle or around the sides of the nail.

7. After the polish is dry, take cuticle oil and apply it around the cuticle. Massage cream around feet and ankles.

Pearly polishes are popular now because these give a jewel-like sparkle to the nails. You'll find them available in pink, rose, flame and even white pearl tones.

Park Board Of Seven Helped Plan Project And Stood Behind It

Assisting in the original planning of the park were seven members of a park advisory committee established by the commissioners court June 23, last year.

Although the group was not formed as permanent body, its interest in the project never subsided throughout the park's construction. The group was formed to aid commissioners and engineers with planning of the park.

Forming of the board was by each county commissioner appointing one member and the four appointed members then selecting three others to be approved by the court. Selected by the commissioners were E. J. Mills, who later moved to Tulsa, Ralph Geisenhoner, Claude McCormick, and Mrs. Harold Brown. Selected by these four were Malven Stevenson, Herman Doak, and H. A. Johnson.

The surface of Venus cannot be seen from the Earth because of dense clouds.

10-13 Year-olds Need Special Understanding From Parents

(By The Associated Press)

"How silly may a parent get in bringing up pre-teenage girls?" I asked this question of Mrs. Anna M. W. Wolf, senior staff member of the Child Study Association. Says she:

"Silly enough to meet the girl on her own level."

We were discussing the complex problems parents face in helping their 10-to-13-year-old daughters through growing-up pains.

"You see," said Mrs. Wolf, "these girls have very special needs and very special resentments toward their parents. Primarily, they are interested in their interest, rather than in their personalities. That's why they need parents who can be silly as well as worthwhile."

Mrs. Wolf stresses the resentment of pre-teenagers to criticism, which begins as correction, swings into criticism, and very soon is nagging. She admitted, however, there is no general rule for correcting such things as sloughing, poor manners, or other bad habits. Each case must be treated separately.

Young girls in this age bracket, she continued, also resent disparagement of their friends, though the parent is naturally anxious that her daughter choose the "right kind" of friend. Children choose their friends because they are comfortable with them. A girl wishes to feel sufficiently superior, or at least not inferior to her friends, she says.

"Parents should also beware of comparisons with other girls," Mrs. Wolf cautioned. "They must be very subtle about their remarks in this direction."

Teasing, too, is sometimes dangerous with girls at this age who feel their parent is catching them at a disadvantage, and that the teasing remark really conceals the antagonism of the adult which the youngster can feel.

"If the child enjoys the teasing, she can recognize it as friendly, but if she does not, it should be avoided," she counseled. "Sarcasm is an adult weapon which children use crudely and which is not always effective."

Describing the resentment children feel toward "old fogeyism", Mrs. Wolf suggests that parents of this age group avoid the "how terrible this generation is," kind of remark.

"Nothing sets up barriers between generations more than such comments."

Parents should find out for themselves the values which young children hold dear today, and face up to them. When a real impasse occurs, a child can understand and recognize anger and respect it.

The one thing a parent should understand, says Mrs. Wolf, is daughter's desire for privacy. Girls need privacy in their rooms and in their thoughts. Secrets are precious to them. It is the age of the locked diary and the secret club. They need to be let alone, for they are not the affectionate youngsters of five, with easily exhibited emotions. They are emotionally cold at this age, she said.

This does not mean, Mrs. Wolf hastened to point out, that these girls do not need the companionship of grown-ups at this age. On the contrary, they do, "for there is too much separation of age groups. Emphasis is to much on the gang, to the exculsion of grown-ups, who sould be part of social companionship."

Mrs. Wolf also has a word of encouragement for the parent who is worried at her daughter's lack of popularity. Says she:

"Popularity is not necessarily a sign of mental health, since the shy wallflower often makes the best marriage."

QUICK CHANGE . . . Wicker basket bag, by Simon, has flowers which can be changed to match outfit. Idea also good for old bag.

No Aid To Koreans

TAIPEH, Formosa, June 27 (AP)—Official nationalist quarters said today there is no chance that Chinese troops from Formosa will be sent to Korea if President Syngman Rhee decides to fight on alone.

U. S. - Slav Contract

BELGRADE, June 27 (AP)—The U. S. and Yugoslavia have signed an off - shore procurment contract, officials said today, by which Yugoslavia will produce ammunition worth more than five million dollars.

Miss Jacqueeline Lee Bouvier, who will marry Senator John F. Kennedy (D-Mass.) next September, poses with her Speed Graphic camera while an inquiring photographer for the Times-Herald in Washington. Miss Bouvier, who resides at McLean, Va., left the Times-Herald last year, but did some special work for the newspaper in the recent coronation of Queen Elizabeth.

Commissioners Court Commends Citizens On New Towle Park

With the completion of Towle Memorial Park, the five members of the commissioners court issued a statement of thanks and commendation to the people of the county for progress by completion of another county project. The statement:

"Individually and also as a body, the county commssoners court members thank the people of the county and all who have had a part in the park project for cooperaton in its construction, and we hope the benefits of the new park will be enjoyed by all."

The court is composed of Edgar Taylor, county judge; Clarence Wade, commissioner of precinct 1; Cullen Toombs, precinct 2; L. L. (Pat) Moore, precinct 3; and Doyle Parmer, precinct 4.

Eisenhower Relaxes

THURMONT, Md., June 27 (AP)—President Eisenhower relaxed at his cabinet retreat in the Catoctin Mountains today but kept in close touch with the situation in Korea. The President and Mrs. Eisenhower drove from Washington late yesterday to spend a quiet week end at Camp David, 60 miles northwest of the capital.

It is estimated that the United States uses 700 million pounds of cocoa beans a year.

Children With Defects In Speech Can Get Much Help

(By The Associated Press)

Why has five-year-old John never talked? Can anything be done for Susie, born with a cleft of the palate? What should be done about Buddy and Joe and Mary, who stutter?

These are typical problems facing parents of more than three million children in our country, says Ruth M. Clark, executive member of the James Sonnett Greene Club and re-educational director of the National Hospital for Speech Disorders in New York City. It is the only institution of its kind in the United States and, through the club, composed of former patients of the hospital, it provides a specialist for under privileged children suffering from speech defects.

If Junior isn't talking by the age of four, says Miss Clark, parents push him to speak. Their very overanxiety may lead the child to stutter. She adds:

"Children can outgrow stuttering if they are given proper guidance. Parents can do more than anyone else for the child, since in the early stages of stuttering, treatment is largely a matter of eliminating environmental tensions, particularly in the home and developing in the child a sense of confidence and security."

Parents of children who stutter should keep the following points in mind, says Miss Clark:

1. Avoid fussing over his eating habits or otherwise creating tension at mealtime.

2. Never send him to bed in a state of high excitement. Begin to taper off his activities at least a half hour before bedtime by reading or relating a quieting story to him.

3. Slow down the tempo in the home and encourage the child to do everything slowly and easily.

4. Avoid undue excitement and remove all sources of tension in the home—particularly parental bickering and quarreling. Curb your own excitable tendencies and those of other adults who come in contact with the child.

5. Avoid making the child "speech conscious" by continually correcting his speech. Don't make him stop and repeat any particular word with which he has had difficulty. If you feel that some speech guidance is necessary, simply suggest: "Let's try to talk more slowly; Mother doesn't hear so well today."

6. Don't continually "police" the child and direct all his activities.

7. Never punish or ridicule the child when he stutters. Never make him feel he is different or the object of pity.

8. Give the child frequent evidence of your affection. The child who stutters, like every boy and girl, needs the feeling of security that can come only from the knowledge that he is loved and wanted.

Children with a cleft of the palate need surgery, otherwise they will have a serious speech defect, she says. And speech training should be begun soon after the palate has been repaired.

Here, too, it is important to give the childs sympathetic understanding and frequent encouragement. Correction for the most part should be confined to the speech lesson itself and to one or two brief "good speech" periods during the day when the child is expected to make a special effort to put into practice the speech patterns he is learning.

There are several possible reasons why little five-year-old John doesn't talk, points out Miss Clark. He may be retarded mentally, his hearing may be impaired, or he may have some other handicap which interferes with speech. Also, she suggests, a child may be perfectly normal in all respects except his ability to use the muscles necessary for speech.

The James Sonnett Greene Club has a series of leaflets on helping the child who doesn't talk, on lisping, on cleft-palate speech, on stuttering and poor articulation, which they will send to parents who write for them. Address your letters to The James Sonnett Greene Club, 61-63 Irving Place, New York 3, N.Y.

The grey squirrel is such a pest in England that there is a law against keeping one alive.

CARBON TET IN FACE IS PRANK

CLIFTON, N. Y. June 27(AP)—Ernest Boll told police he was driving along early today, minding his own business, when someone pulled alongside his car and squirted him in the face with a fire extinguisher.

Boll chased the other auto. He was just about to force him to the curb two miles down the highway, when he got another squirt of carbon tetrachloride in the face from the exinguisher.

Boll told police he was so upset he failed to get the prankster's license number. He also decided to give up the chase.

Braly Becomes Shiver's Press Representative

AUSTIN, June 27 (AP)—Earl Braly, 34, former West Texas newspaperman, will become Gov. Shivers' press secretary July 1. Shivers told of the appointment today.

Braly will succeed Weldon Hart now chairman and executive director of the Texas Employment Commission.

Braly, is a graduate of Texas Tech. He worked for the Lubbock Avalanche Journal and the Breckenridge Daily American from 1939 to 1941, when he entered the Army.

NO MOONSHINERS

ASHLAND CITY, Tenn., June 27 (AP)—The "revenoors" swooped down on a suspected still near here and flushed out three men and hundreds of gallons of mash.

Federal alcoholic tax unit agents and state agents smiled happily over their "haul."

Smiles faded fast when the "moonshiners" turned out to be Cheatham County Sheriff Bruce Bradley and two of his deputies, on a raid of their own.

COMPARING NOTES — Jeanette Janvrin, left, 22, "Britain's perfect secretary," compares notes in New York with Lois Ann Dryer of Buffalo, N. Y., "American Secretary of '53."

TAKES NAVY OATH — Prince Albert of Liege, 18, brother of King Baudouin of Belgium, raises his hand to take the oath as "aspirant de marine," low officer rank in Belgian army.

TITLED TALK — The Marquis of Huntly, left, chats with the Earl of Shrewsbury on leaving a coronation rehearsal at London's Westminster Abbey. Both men carry their coronets.

PERSONALITY JUDGES

Some People Like To Make Friends With Fish In Sea

By HAL BOYLE

BERMUDA (AP)—Fish are more friendly in summer than in winter. A fish also finds it easier to figure out the personality of a person than a person does that of a fish.

"And all fish do have personalities," insists Bronson Hartley, who knows a number of them well enough to call them by their first names.

Bronson, a tall, slender ex-New Yorker of 33, has spent more than one sixth of his life under water in the seas around Bermuda.

He and his pretty dark - haired Cuban wife, Martica, have taken more than 6,000 tourists for deep sea dives and conducted walks along the ocean floor here in the last five years.

The hidden life that swarms around the coral reefs has fascinated Bronson since he built his first diving helmet at the age of 11, the helmet he still uses.

Martica and he lead happy, arduous lives. But Martica, who steers their boat, "The Arc," and supervises the diving, laughs at the idea there is any danger to it.

"We have taken down children of 5, and people as old as 83," she said. "It is much safer at the bottom of the ocean than it is on a highway."

Over the years Bronson has made pets of many fish, which he feeds by hand. His favorites are two beautiful angel fish—Helen and Ruth.

"Helen is so tame now she will swim through a hoop for me, and eat out of anybody's hand," he said. "It took me only six months to tame her, but a year to make friends with Ruth.

"I can make two appointments a day with Helen, and she will always be there on time. But Ruth is unpredictable.

"Ruth has an unusual ability. She can sense whether a stranger is neutrotic or odd in any way, and will immediately swim away. It never fails. She sometimes can judge a stranger much quicker than my wife or I can. On the other hand, she loves children."

Bronson has been feeding Helen for five years, and is as fond of her as if she were his child.

"We took a six-month vacation," he said. "And the first day I was back and went down to the reef she swam out to meet me, and it was as if I never had been away. But she was narrow and gaunt, and her eyes were sunken. She had to learn how to fend for herself again while I was gone."

I asked Martica if she were ever jealous of Helen, and she threw back her head and laughed:

"That's the kind of competition I don't mind."

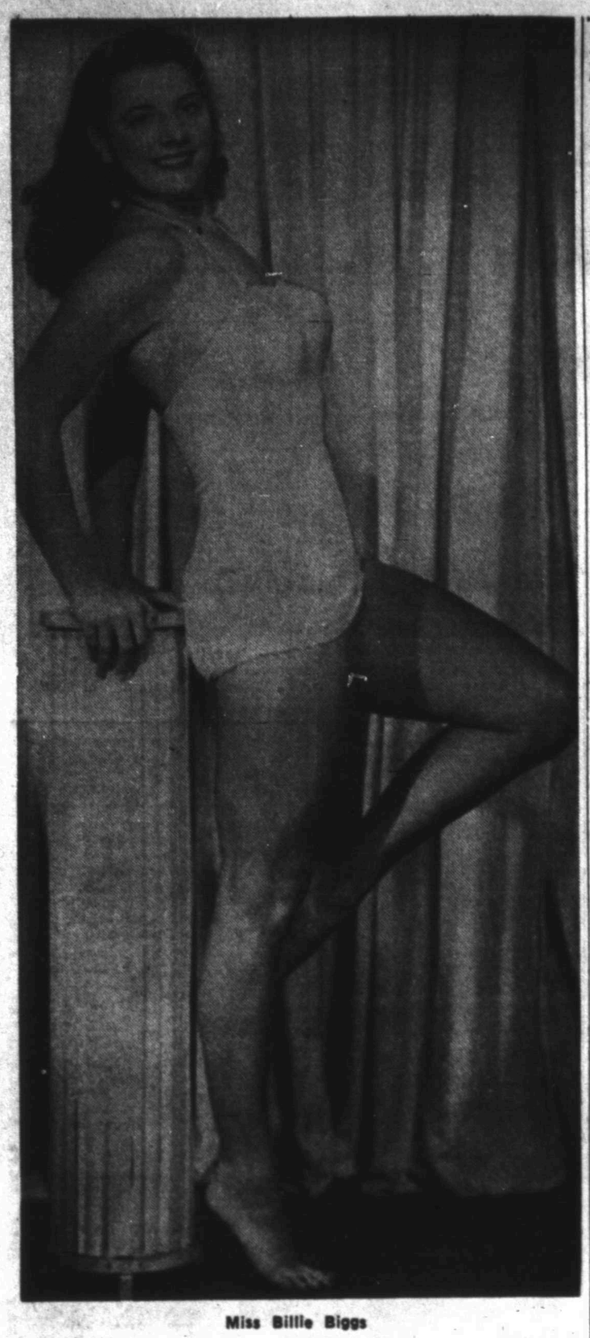

Some Supplies Still Short In Poultry Mart

AUSTIN, June 27 (AP)—Another steady week in the Texas poultry market with some supplies still short was reported by the state Department of Agriculture today. Trading was moderate.

In South Texas demand was fair to mostly good. Demand was also good in East Texas. Demand was mostly fair in the Waco - Corsicana area.

Closing prices were 28 cents in the south; 26½-27½ in the east; and 27 at Waco.

The Lions Club estimates it has 10,000 groups in the world.

Miss Billie Biggs

Champion Diver To Be Here Saturday

Miss Billie Biggs, 20-year-old state amateur diving champion, will perform at the swimming pool at Towle Memorial Park at its opening July 4.

Miss Biggs, a former resident of Snyder and now of Fort Worth, will begin her performance at 7 o'clock next Saturday night. Her show will be followed by a beauty contest under sponsorship of the Kiwanis Club.

The young diver has been state diving champ for five years. She also holds titles of Southwestern AAU diving champion, both low and high board and indoor low board. She was state backstroke champion in 1950, Oklahoma Open champion in 1951, Junior Olympic diving champion in 1949, and she was fifth place winner in the national AAU meet at San Antonio in 1949.

The Southern Methodist senior is now exhibitionist twirler for the school's Mustang Band. This summer she taught a high school twirling school at Tyler.

The diving champ is the daughter of Mr. and Mrs. A. P. Biggs, now of Fort Worth. She is the niece of W. J. Ramsey, Towle Park superintendent.

Miss Biggs has done water ballet shows for various groups at Dallas, Fort Worth, and Breckenridge. She has also previously been a member of the cast for the Ice Capades at Fort Worth.

ROTC Elimination Directive Cancelled

BRYAN, June 27 (AP)—The Army has cancelled a directive which would have eliminated Senior ROTC training at Allen Military Academy and eight other junior colleges over the nation. The notice was received yesterday.

Smugglers Stopped

COPENHAGEN, June 27 (AP) — Police said today Danish port officials have thwarted an attempt to smuggle two shipments of strategic nickel through Copenhagen's free port to Communist Eastern Europe.

EDITORS AREN'T NEEDED, ANYWAY

PARIS, Tex., June 27 (AP) — Managing Editor Ray Sissel of the Paris news came to work today with a thimble on the injured index finger of his right hand thinking he could type that way.

"Sixugeht," he typed.

"I'm going on vacation; see you two weeks from now," he turned to the office staff and stated.

Off he went.

President For A&M Is Named

COLLEGE STATION, June 27 (AP)—Dr. David Morgan, 44, was named president of Texas A&M College today.

The native Virginian will take office Sept. 1 when Dr. M. T. Harrington steps up to the chancellorship.

Morgan has been member of the college staff since last August, coming here from Colorado A&M as dean.

He received his education in California and took his PH. D. from California in 1938.

Morgan is married and has two daughters, Ann, 18 and Dale, 12. Mrs. Morgan is a native New Yorker and has a Masters degree from Vanderbilt.

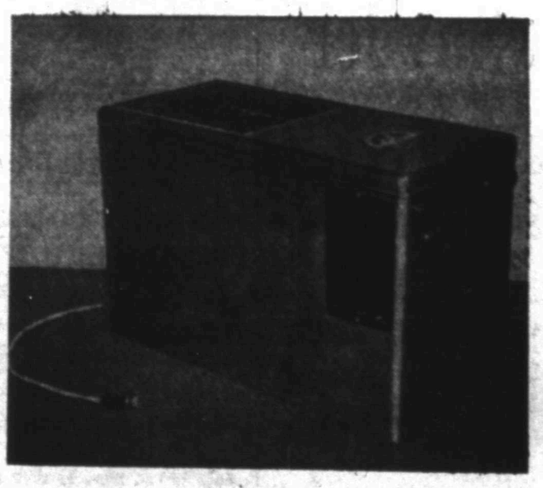

Morgan is an elder in Presbyterian Church at College Station. He is on council of the Oak Ridge Institute of Nuclear Studies. This year he was selected by the student newspaper, the Battalion, or one of six outstanding members of the college faculty.

High Court Vacation

AUSTIN, June 27 (AP)—The Court of Criminal Appeals began its summer vacation today, adjourning until Oct. 5.

Automobile Power
COOLER
THE NEWEST AND FINEST PORTABLE ACCESSORY FOR YOUR CAR.

Can be used with ice, water or dry according to the atmospheric conditions. It is true that each owner and operator will find various manners as to speed and operation of the cooler as changes from day to day occur—involving both the Pump and Cooling Fan! The Cooler is located on the seat for greatest efficiency. No installation is required! Just place it in the center of the seat of your automobile, one in the front. Just plug the cooler into your cigarette lighter socket and adjust the louvers for one or two occupants, as one side of the cooler can be completely closed, and its operation is simplicity itself. The cooler is light in weight and will not mar the automobile. A felt pad is installed on the bottom of the cooler. The cooler also reduces road noises in your car. The Mountain Breeze Power Cooler filters dust from the air, is very quiet in operation and is easily moved to the luggage compartment if cooling comfort is not desired.
