

Sea Dart Stands On One Ski

The Navy's XF2Y1 Sea Dart jet fighter, which usually takes off from San Diego, Calif., bay on two skis, balances like a human skier on one foot as it takes off using only one ski during a test flight. The plane has been fitted with a single ski as part of the Convair Aircraft Company's testing program. The Sea Dart is the first sea plane built to exceed the speed of sound.

U.S. Begins Making Hydrogen Weapons

WASHINGTON (AP) — The government said today it has begun producing weapons whose design is based on the spectacular 1954 hydrogen bomb test in the Pacific, and hinted these are of several types. It said also that the prospects for developing an airplane driven by an atomic power plant have "considerably brightened" in the last six months. The Atomic Energy Commission, which made these disclosures, was as close-mouthed as usual in its 18th semiannual report to Congress. The report covered the first half of this year. The commission said that all of its activities — which include production of conventional and thermonuclear weapons — continued during this period "at a growing rate and with increasing effectiveness."

Officers Still Vainly Seek Missing Boy

DALLAS (AP) — It was a month ago that Mrs. Travis Parrack, attractive 20-year-old mother, looked into her backyard and smiled as she saw her tiny son at play. She looked again about an hour later and blond, blue-eyed Gary DeWayne was gone. He's never been found and police say they have uncovered no trace of the 22-month-old boy who weighed 29 pounds and was 30 inches tall. Sheriff Bill Decker says the case has him stumped. Decker and his deputies are on the hunt around the clock. Recently they have checked scores of baby doctors in the area. No results. When Mrs. Parrack spread the alarm at 1:10 p.m. June 29, searchers fanned out in a human chain around the family's home. Empty ice boxes were opened, septic tanks probed, drainage ditches and empty houses checked. A house-to-house canvass of the neighborhood revealed nobody who had seen the tot in his yellow sunsuit and nobody who had noticed strangers or strange automobiles in the neighborhood.

French Mop Up Arab Ambushers

PARIS (AP) — The French reported last night they had finally mopped up Arab guerrilla forces that ambushed Foreign Legionnaires in the mountains of northeast Algeria. It was the worst clash in Algeria's current wave of Nationalist terrorism. About 100 persons were killed in a two-day battle which started at dawn Wednesday when the rebels ambushed the 140-man convoy in a deep ravine along a winding trail in the Nememcha mountains.

Lutheran Pastor Is Found Guilty Of Heresy, But Denies Charges

MILWAUKEE (AP) — A Lutheran pastor, found guilty last night in the first heresy trial in the 60-year history of the Northwest Synod of United Lutheran Church, said after the verdict, "I am not guilty as charged." The Rev. George P. Crist Jr., 31, summoned from his home at Durham in nearby Waukesha County to hear the decision, told newsmen, "I have committed no offense against the rules of the United Lutheran Church. I am certainly saddened by the verdict, but I think I was as ready for it as I could be. A board of seven pastors found him guilty of nine counts of deviation from church doctrine and recommended he be suspended immediately from his pulpit. He was found innocent of five charges. He denied the 14 charges were valid deviations from church doctrine. He said he will begin a two-week vacation in northern Wisconsin tomorrow with his wife and three children. After the vacation, he said, he "doesn't know" what he will do. He said when the trial began Wednesday, "My ministry will continue regardless of what happens here." He stated last night that the verdict "could certainly mean that my formal ministry

'HERETIC' He faces defrocking

could come to a close." He indicated he would like to teach, "probably philosophy at the college level," and stated he may return to school for further degrees before seeking such a post. "I have no present intention of seeking a pulpit in another church, but that is a possibility," he said. The trial board, which comprised Pastor Crist on his personal conduct during the two days of the hearing, deliberated three hours before returning the verdict. The board recommended to the synod president, Dr. Paul E. Bishop, that Crist be asked to give up his pulpit immediately. The final decision is up to the synod convention, which has the power to change the penalty. The convention will be held here May 16, 1956. The penalty after such a conviction changes from a simple rebuke to defrocking. The charges upon which Pastor Crist was convicted included that he denied the virgin birth of Christ, denied the physical resurrection of Jesus and denied the authenticity of a number of miracles. Charges of which he was found innocent included that he mixed the word of God with his own opinions and surmises and denied the usefulness of all prayers.

Way Cleared For Old-Age Payments

AUSTIN (AP) — An attorney general's opinion yesterday cleared the way for increased old-age payments to begin in September. The recent Legislature appropriated an additional 7 million dollars for the state's welfare program, effective Sept. 1. The bill was passed by voice vote, however, and under the Constitution cannot go into effect until 90 days after the session's end. That would be Sept. 6. Since the state aid payments are on a monthly basis, the question arose as to whether effective date of increased payments would have to be delayed until Oct. 1.

REGIONAL SPLIT

State Segregation Opinions Crystallize

By The Associated Press There were clear signs of a division of thinking Friday as Texas moved toward the crucial fall opening of schools with a Supreme Court order to integrate white and Negro students. In East Texas, where the state's greatest number of Negroes reside, there was apparently a pronounced desire to keep up the old division and separation of the races. Western and southern sections of the state, where Negro populations are thinner, seemed more willing to combine the schools for white and colored children. Kilgore, Tex., Thursday night completed organization of a so-called "Citizens Council" with the announced goal of "preventing desegregation" of the school system. The new president of the organization, a young lawyer-rancher, A. G. Morton Jr., said every "lawful and legal means" would be used against the desegregation trend. Morton said, "Desegregation can lead to nothing but miscegenation and a mongrel race." He added that the trend was an example of minority rule to which he is opposed and said he believed the Citizens Council would be "for the good of the colored people who feel x x x segregation should continue." There were reports that similar councils would be formed at Marshall and Longview and Morton told the Kilgore meeting he "understood" that an anti-integration

U. S. To Build Space Station

Ike's Housing Bill Faces Hard Road In House

WASHINGTON (AP) — President Eisenhower's plans for more federally assisted, low-rent public housing projects faced rough going today as the House prepared to take up its long-stalemate housing bill. Rep. Wolcott (R-Mich), senior House Banking Committee Republican, predicted the House would accept his substitute bill, which makes no provision for public housing. Eisenhower has asked for 35,000 public housing units a year for two years—the same number as approved by the committee—although he sought a tie-in with slum clearance and urban redevelopment that's not in the committee measure. The 35,000 figure is the number authorized last year. Public housing foes on the House Rules Committee have held up action on the House bill for nearly a month. It finally cleared it for a floor vote yesterday, removing a principal stumbling block to congressional adjournment. A housing bill is regarded as a "must" item, largely because the Federal Housing Administration is running out of authority to insure home loans. The Banking Committee measure would grant FHA four billion dollars in new home mortgage insurance authority. It also would extend FHA's home repair and modernization program for another year, raising from \$2,500 to \$3,000 the limit on individual loans FHA may insure for this purpose; raise from 5 to 12 1/2 million dollars the ceiling on mortgages for large-scale rental housing projects which FHA may insure; add 500 million dollars in federal authority for grants to help in slum clearance and urban redevelopment; extend and liberalize the military housing program; make the Home Loan Bank Board an independent agency and provide other changes in existing law. In addition, it would provide for 10,000 public housing units a year for two years for elderly families of low income. Wolcott's proposal leaves out public housing altogether. It would give FHA \$3,400,000,000 in new mortgage insurance authority, extend the home repair program a year as is, limit the military housing program and add 500 million dollars for slum clearance. The Senate has voted for 135,000 public housing units a year for four years and for some other provisions the administration didn't ask.

Unmanned Satellite Approved By Ike

WASHINGTON (AP) — President Eisenhower today approved plans for launching a planned artificial earth satellite—an unmanned globe for purely scientific purposes. Government scientists explained the thought is that one or more of the space objects would circle the earth 200 or 300 miles up at a speed of 18,000 m.p.h. They might remain for days or weeks, then fall back down and disintegrate. The White House said information obtained from the project — it is hoped the satellites can be launched by 1957 or 1958—will be available to scientists of all nations, Russia included. Government scientists, participating in an extraordinary news conference at the White House, said the satellites are not yet in existence, only in the planning stage. But they said confidence that they can be launched within perhaps two years is based on rocket flights going up to 230 miles. The satellites, according to present thinking, would be about the size of basketballs. What they might be made of, the experts do not yet know. There is hope they can carry instruments. Even if they don't, it was explained, valuable information on the earth's upper atmosphere is expected. The satellites would circle the earth every 90 minutes, so that even if they remained up only a day or two there would be opportunity for study. Scientists of all nations are to be informed of the orbits the satellites will travel and the frequencies on which they will broadcast, if it is possible to equip them with radio. The whole project is designed as part of this country's participation throughout the world. "What will this rather fantastic development mean in the way of benefits for mankind? Various scientists at the conference, representing the National Academy of Sciences and the National Science Foundation, said that there are possibilities in several directions. For one thing, more information may be obtained about the atmosphere, which is important in radio communications. Information may be obtained which may improve weather forecasting. A better idea may result of the effects of the light and ultra violet radiation from the sun. More information may be obtained on cosmic rays and meteorites.

NATURAL FOR TEXAS GIRLS

KILGORE (AP) — The producers of Cinerama were set today to place the Kilgore College Rangerettes drill team among the wonders of the world. The nationally famous group of dancing girls, regulars at the Cotton Bowl and other celebrations for years, were included in the third Cinerama production — "The Seven Wonders of the World."

Marshall Miss Holds Lead In Beauty Contest

TYLER (AP) — Betty Ann Bibb, a beautiful miss from Marshall and just 18 years old, had the lead today in competition for the title of "Miss Texas." Pretty Betty Ann was a preliminary winner last night in bathing suit competition as the annual beauty contest eliminations began. Another bathing suit preliminary winner will be announced tonight, officials said. The Marshall High School graduate was last night's only winner announced.

Israelis Seek To Probe Air Crash

ATHENS, Greece (AP) — A six-man Israeli commission sought again today to enter Bulgaria to examine the wreckage of an Israeli airliner shot down by Communist gunners. The Israeli mission was denied entry to the Soviet satellite yesterday but planned to return to the Greek-Bulgarian border for another try today. All 58 persons aboard the airliner, including 12 American passengers, died when the four-engine Constellation of the El Al Israel Airline crashed in flames Wednesday just north of the Greek frontier. Bulgaria said the plane, which was en route from London to Tel Aviv, strayed off course crossing Yugoslavia and violated Bulgaria's air space for 100 miles without warning. Admitting its anti-aircraft gunners shot the plane down, Bulgaria expressed "deep regret" and named four high officials to investigate.

Texas Has 89 New Polio Cases In Week

AUSTIN (AP) — The State Health Department today reported 89 new Texas polio cases for the past week, 28 paralytic in nature. The year's total of 990 cases was several hundred below that of a year ago.

Israelis Seek To Probe Air Crash

ATHENS, Greece (AP) — A six-man Israeli commission sought again today to enter Bulgaria to examine the wreckage of an Israeli airliner shot down by Communist gunners. The Israeli mission was denied entry to the Soviet satellite yesterday but planned to return to the Greek-Bulgarian border for another try today. All 58 persons aboard the airliner, including 12 American passengers, died when the four-engine Constellation of the El Al Israel Airline crashed in flames Wednesday just north of the Greek frontier. Admitting its anti-aircraft gunners shot the plane down, Bulgaria expressed "deep regret" and named four high officials to investigate.

More Showers; Lakes Higher

More showers fell in the north part of Howard County Thursday afternoon, but mostly in areas previously visited by rains. A shower shortly after lunch reached from the northeast edge of town, growing in intensity past the Center Point community. Earl Hull, who received only 4 of an inch Wednesday when much of the county was getting a soaking, said that while there was only a sprinkle at his house, the east side of his place got as much as an inch. Farther to the east, showers increased until the Green Valley section between Coahoma and Vincent had 6 of an inch. Later in the evening there were more showers to the north of Big Spring, some pouring out upwards of an inch as far north as the county line in the vicinity of the Clanton Flat area. Texas Electric Service Company reported elevation of its Lake Colorado City had increased Friday morning to 2964.75, a gain of .55 of a foot from heavy rains on the upper reaches of Morgan and Wildhorse Creeks in northeast Howard on Wednesday. Lake J. B. Thomas, the Colorado River Municipal Water District reservoir on the Colorado, inched upward to elevation 2247.35, an increase of .4 of a foot. This is a new record level for the lake. It provides a net gain of 4.3 feet for the past 10 days.

U. S. Moves To Brand Labor Unit As Pro-Communist

WASHINGTON (AP) — In the first use of a 1954 law, the government has moved to have a labor union branded formally as under Communist domination. Atty. Gen. Brownell filed the charge yesterday against the independent International Union of Mine, Mill and Smelter Workers, with headquarters at Denver. The Subversive Activities Control Board, before which the charge was filed, will hold hearings.

The Senate has voted for 135,000 public housing units a year for four years and for some other provisions the administration didn't ask.

Planned FM Road To Cross County

Howard County is included for a farm-to-market road which will connect Luther with Vincent under a new program announced by the Texas Highway Commission. Borden County will have 19 miles of the road to Big Spring rebuilt under the program, and Mitchell County will get a new bridge across the Colorado River and an extension of the Buford road to Cuthbert. Inauguration of the new two-year program of farm-to-market roads will be possible under funds provided by the 51st Legislature through FB 287, according to E. H. Thornton, Jr., chairman of the State Highway Commission. The program as applied to highway district No. 6 will approximate 100 miles of road at an estimated cost of \$1,298,000, said Jake Roberts, district engineer at Abilene. Roberts said the counties would be given 120 days in which to accept the projects outlined under the program. If, in that time, they qualify by agreements to secure and clear the right-of-way, the Highway Department will begin surveys as rapidly as its crews can be distributed, said Roberts. That, at the earliest it would be the latter part of this year before the jobs could be ready. Among the projects approved, said Roberts were these: HOWARD — From the end of FM 2032 eastward past the Reed Fields Natural Gasoline plant to Vincent, a distance of 10.4 miles, estimated cost \$112,000. BORDEN — Rehabilitation of the first 10 miles of FM 669 south from

Gall, estimated cost \$110,000. This was a section developed originally for light traffic, but it attracted such a volume and weight of traffic that it needs to be rebuilt and resurfaced. MITCHELL — A new bridge over the Colorado River on FM 1228 from Buford, and extend the paved section from the bridge 3 1/2 miles west to Cuthbert, estimated cost for both \$100,000.

Phillips Declines Hospital Cuts

ODESSA (AP) — Sen. Jimmy Phillips of Angleton charged here today every county in Texas will suffer from "false economy" being practiced by the state in connection with state hospitals. In a speech prepared for delivery at a joint noon meeting of the Odessa Rotary, Kiwanis and Lions clubs, Phillips singled out the John Sealy Hospital at Galveston. The hospital recently announced a minimum daily charge of \$3 for charity patients, effective Sept. 1. "It is false economy," he said, "to deny this hospital the funds which could prevent many citizens from eventually becoming dependents of the state."

Fatal Bullets Came From Mate's Gun, Report Discloses

WACO, Tex. (AP) — Bullets from the bodies of a woman trick rodeo rider and her male companion who were slain July 10 came from her husband's gun, a state police laboratory report disclosed today. Blond and shapely Mrs. Pauline McGowan, 27, of Waco and Bobby Royce Darby, 21, her riding student from Grand Prairie, Tex., were found shot to death in a motel. Her husband, Raymond McGowan, 48, is free under \$10,000 bond on charges of murdering them. His .22 caliber revolver was turned over to officers by his attorney, after the shooting. Mrs. McGowan had filed suit against the operator of a Dallas riding stable June 25, charging mental cruelty. McGowan had contacted the suit.

More Tries This Week, But Also More Misses

Tacklers of the Cashword Puzzle jumped heavily in numbers this week—but the combined skill and brain of all of them did not quite come up to the puzzle-maker's idea of correct definitions. Sorry—no winner. Even though there were 1,529 attempts. But the increase in entries means one thing: the odds are increasing that SOMEBODY will pick off the jackpot soon, and it would be unfortunate indeed to fail to send in an entry. The payoff next week goes to \$300 to Herald subscribers—plus those merchants' bonuses. Have another try, and see if you can't outsmart this Cashword Puzzle man. For the man's ideas of those definitions, turn to Page 2 for the Cashword Puzzle solution.

Father Gives Up Baby Son

Frank Hilliard, 19, junk dealer in Lorton, Va., hands his nine-month-old baby son to Fairfax Detective Sgt. Lance Greer at his home in Lorton. Hilliard was arrested on a kidnaping charge which alleges he snatched the child from the child's grandmother's arms in a Baltimore beer garden. The young father claims his wife left him three weeks ago and took the baby with her.

Japs Protest U. S. Atom Gun Arrival

TOKYO, (AP)—The arrival of six U.S. Army atomic cannons at Okinawa roused political fire today in Japan's Diet (Parliament). Under critical opposition questioning, Prime Minister Ichiro Hatoyama said the United States had not informed Japan that the atomic guns and rockets were being sent to the Far East for the first time. "Since this issue is very important," said Foreign Minister Mamoru Shigemitsu, "we have immediately asked for official confirmation. The government's attitude will be decided by the reply."

A Washington announcement said a six-gun battalion of 200mm. atomic cannons and a battery of long-range 75mm. bombardment rockets were being assigned to the Far East.

At Okinawa, biggest U.S. Far East base, an Army spokesman said the guns had arrived there with the 653rd Field Artillery Battalion and would be unloaded tomorrow and Sunday. The 653rd trained at Ft. Bragg, N.C.

There was no word on where the 5th Artillery Battalion, a unit equipped with 75mm. "Honest John" rockets, would be stationed. It trained at Ft. Sill, Okla.

The Army emphasized both the cannon and the rocket can use either conventional or atomic warheads.

Following custom, the Pentagon would not say whether atomic ammunition was shipped with the weapons.

Prime Minister Hatoyama, under questioning by former Prime

Yma Sumac's Spouse Faces Paternity Suit

LOS ANGELES, (AP)—A 21-year-old dancer has asked that Moises Vivanco, 38, husband of singer Yma Sumac, be adjudged the father of her twin daughters.

Maureen E. Shay filed the paternity suit in Los Angeles Superior Court yesterday, asking that Vivanco contribute \$300 a month toward the support of her daughters, Mary and Catherine, 9 months.

Vivanco, manager for the Peruvian-born singer, flatly denied the accusation. "I am not the father," he said last night. "Somebody wants to use me for publicity."

Efficiency Lesson For Red Visitors

DES MOINES (AP)—Peter Svechnikov's big Soviet collective farm were to be cut up into small Iowa-type farms and farmed with Iowa efficiency it could be operated with less than one eighth of the people it takes to work it now.

This is one of the outstanding lessons of the Soviet farm delegation's visit here.

If Petr Babmindra's giant state farm were to be broken up into small Iowa-type family farms and farmed with Iowa efficiency it could be worked by no more than one quarter of the people who work it now.

Of course, as the chief of the Soviet farm delegation, Vladimir Matskevich, has made abundantly clear there is not going to be any breaking up of Soviet state farms. The Russians are going to stick to their socialist farming system.

Yet the figures are plain enough. Delegation member Svechnikov runs one of the more efficient collective farms of the U.S.S.R. It is called the Kuban collective farm and is devoted in considerable part to the raising of wheat.

Here are the statistics: the farm has 35,000 total acres it has on it 1,700 families furnishing 2,700 workers. Each family in effect "farms" about 21 acres.

In Iowa, as the Soviet delegation has seen, a typical farmer is likely to be farming 100 acres without outside help and without the women doing work in the fields.

The contrast becomes even more devastating when it is taken into consideration that: (1) on the Kuban farm mechanized work is not done by the members of the farm but by a machinery and tractor station which must be paid for its services; and (2) women work alongside men in the fields.

Or let's take Petr Babmindra's fine Giant state farm. Babmindra is also a delegation member.

The Giant has 115,000 acres approximately and 2,700 staff workers (with another 900 hired during harvest). Thus each full-time worker farms on the average about 42 acres.

And, it must be remembered, the farms of Svechnikov and Babmindra are probably far more efficient than the average Soviet collective or state farm.

Soviet farmers, though they no doubt work hard, simply farm on the average very little in comparison with American farmers. For Russia's low standard of living.

MORE

The worker on the Kuban collective farm not only farms less than one eighth of the land that an Iowa farmer does, he also farms less efficiently. Thus his over-all production is even less than one eighth of the Iowa farmer's. And out of this he has to provide his own consumption needs. Thus the surplus which he has left to send in one form or another to nonfarm folks is a smaller fraction still.

No matter how hard the government may squeeze the Soviet farmer, it cannot get what isn't there. Because of poor productivity, there is simply less to eat and wear for both farm and nonfarm consumer.

The Soviet farm leaders here in the delegation realize this to some extent because this theme has been

Reprived Dog Finds A Home

SAN DIEGO, Calif. (AP)—Lucky, a blind German shepherd dog which won a reprieve from death in the city pound after being found abandoned on a busy San Diego street last May, has a new home.

He was adopted yesterday by Mr. and Mrs. Irven Natman, of Los Angeles, and their two daughters.

Published stories brought offers of a home from more than 500 persons from all over the nation.

Ancient Rome Held More Water

ROME (AP)—No wonder they could afford to take baths back in the days of the Caesars. Rome had more water then than now.

Ancient Rome's four major and seven minor aqueducts poured 3,585 gallons of water a second into the city. Modern Rome's water system brings in only 2,244 gallons a second.

Malay Alliance Party Sets Government Organization

KUALA LUMPUR, Malaya, (AP)—The Malay-Chinese-Indian Alliance today prepared to form the Federation of Malaya's first elected government after winning a majority in the 48-member Legislative Council.

Final results of the British pro-

jectorate's first national election Wednesday confirmed the Alliance's boast it would win 51 of the 52 seats at stake. The British high commissioner, Sir Donald MacGillivray, will appoint the other 46 members.

The Alliance lost only one race.

Argentine Police, Communists Clash

BUENOS AIRES, Argentina (AP)—Police and Communists clashed last night in Rosario, Argentina's second largest city.

Authorities said the Reds were writing slogans on walls and attempting to organize a demonstration. Some arrests were made.

STUDEBAKER

GET all the things you pay for... get a Studebaker. Get action-power. The Studebaker Commander V-8 gives you top power per pound in the low price field! Get real beauty. Studebaker's styling has won 36 International Awards!

Get economy. Studebaker won the Mobilgas Run Sweepstakes for the second straight year!

Get quality. Studebaker craftsmen put top quality into every car they build!

Yes, get all that Studebaker offers... for the cost of the usual lowest price car. No wonder Studebaker is the smart car to buy!

Most for your money in the low price field! Drive it...prove it!

Here's The SOLUTION To CASHWORD PUZZLE NO. 25

Explanation Of More Difficult Clues

- CLUES ACROSS:**
- Especially true of Wine. He will know how much he needs for any occasion and he can get just that quantity. Usually he will not know the precise length of Wire he will need so he may well play safe and buy a little more than he needs.
 - Careful study of a particular Planet might be necessary, but Planes is the wrong word for today's study of space travel. Rockets or "space-ships" are now more commonly used.
 - Stare is the surer word. We see so many unexpected things today that the word Start is too strong. We would be "staring" incessantly. They do make us Stare a little, however, which is thus the surer answer.
 - Well is best. You do not "make" money from a Will. You receive money or inherit it. You can "make" money from a Will, however, an oil Well, for example.
 - Hate is preferred. All men joining the army know they will have to take orders, and the majority accept the situation philosophically. The few that definitely Hate to take orders can cause much discontent.
 - Band is more apt. The clue says the Band is in the road. So you will at least slow down even though you may not need to stop. As for Band, if it is slight you would probably not alter your speed.
 - Gold is better than Good. The glitter of Gold would delight a "little youngster" who, after all, being little, wouldn't know or care if the watch was a Good watch or not.
 - The implication that men are responsible for them is true of Crimes, but not necessarily of Crises, for many of which nature is responsible.
 - Tears is best. A woman may not communicate her Fears,
- but her Tears will be pretty obvious. Also, there is always a sound, psychological basis for mistaken Fears.
- CLUES DOWN:**
- Hired is best. Even though lazy, he may still be extremely indignant when Fired from a job, possibly considering it an injustice. When applying for a job a lay-man may not care whether he is Hired or not. Tired is not good since a lazy man is probably more conscious of being Tired than an industrious man.
 - Fast matches better than Last where racing is concerned. It is how a horse runs that counts, and "Last", without knowing the number and quality of the rest of the field, conveys nothing.
 - Bet is best. "The lure of easy money" matches better as a motive for Betting than Begging. A man usually Bets only because he is driven to it; not because of the "lure of easy money".
 - Box is best since the clue does not say whether the child is a boy or girl. A pretty Bow would only appeal to a little girl. A Bob is too remote as is also a Boa, or even a Boy. A pretty Box might well attract a boy or girl.
 - Sewing is preferred. "Always" is too definite a statement for Sawing, since in some cases it doesn't matter how clumsily a thing is Sawn. Sewing is a satisfactory answer because Sewing is always constructive while Sawing is not necessarily so. Sawing is too restricted in its application.
 - Ladder fits the clue better since it has its uses, of course. A Larder has only one use, so the word "uses" is not apt.
 - Dope is preferred. Dope is "expected" to have an effect; that is why it is taken. A Dose, depending on what it is and what quantity is taken, is something so commonly taken that a Dose is often of little apparent effect.

This Sunday

With the 1956 election year fast approaching, one of the most important questions of the day is whether or not President Eisenhower will run again. There have been conflicting rumors and predictions from the leaders of both major parties, and the himself has dropped hints on both sides of the subject.

On the theory that a man's neighbors should know his best, FAMILY WEEKLY compiled public opinion on the question in Gettysburg, Pa., where the Eisenhowers have a retirement farmhouse. In the next issue of your color-groove magazine you'll learn what Ike's future neighbors think the future holds for him.

Pickets Halt Fuel Train

Kansas City policemen put the hustle on pickets at the strike-bound Westinghouse jet engine plant in an effort to clear the track so a freight train loaded with jet fuel can enter the plant. Jackson County sheriff's deputies and some 70 pickets and sympathizers pushed and jostled each other as the railroad sought to deliver the fuel under a non-interference court order. The action was stopped when the train was ordered away to avoid possible serious injuries.

State's Water Plans Hinge On Cooperation

LAMESA — Wagoner Carr, who is slated to become speaker of the Texas House of Representatives next session, believes sectional differences will have to be forgotten before constructive water legislation can be accomplished.

Carr spoke here this week to the Kiwanis Club on the "State of the State," giving a resume of the 51st Legislature's accomplishment. The method of financing a state program of water development proved the stumbling block on the No. 1 problem, he said, but he added the partisan attitudes of West Texas and South Texas should be forgotten in working out a water program for the state.

He said there was further need of strengthening insurance regulation and that more funds should be provided for an adequate number of inspectors. This would aid insurance in general in Texas, he thought.

Reform of veteran land laws should help, in the opinion of Carr. Taxwise, one of the biggest problems was in digging up more school revenues, he said.

VA Hospital Chief Plans Retirement

A Connecticut Yankee leaves Texas Sunday for the sunny shores of Florida. Dr. George A. Leonard, admissions officer at the Veterans Administration hospital here, will retire from VA service Sunday at the age of 71, and is looking forward to many days of fishing and basking in the coastal sun.

A long and illustrious career comes to an end with this, Dr. Leonard's "second" retirement. He was retired from the Army in 1950 with the rank of full colonel. He spent a total of 31 years in the service, entering as a first lieutenant in 1917.

Dr. Leonard spent World War I in France with the medical corps. He got out in 1919 and went into private practice but keeping in the reserves. In 1940 he re-entered the service and was stationed at several places over the U. S. until 1944.

At this time, he was one of the 500 doctors loaned by the Army to the nation's VA hospitals. He first went to New Orleans then to the VA office in El Paso in 1947. He came to Big Spring in 1951.

When he came to the local hospital, he created the office of ad-

missions which he has held the duration of his stay here. Dr. Leonard is coming to the end of his 50th year in the medical profession. He was graduated from the Maryland Medical School in Baltimore in 1905.

Dr. Leonard expressed his regret in leaving Big Spring. He said the associations and work with the people here have been among the most satisfying he has encountered in his long career.

Veterans Reminded That End Of GI Bill Benefits Draws Nearer

World War II veterans have been reminded by the Veterans Administration that they have one

U.S. Buying British Jets

WASHINGTON (AP)—The United States is buying 140 million dollars worth of British-made jet fighters for the Royal Air Force.

They will replace American and Canadian-manufactured F86 Sabre Jets assigned to Britain when that country had trouble in production models of its own aircraft.

The F86s, numbering about 400, will be returned to the U.S. Air Force for reallocation to other countries had trouble in producing Treaty Organization program.

The Defense Department made the announcement today by releasing without comment a British Ministry of Defense statement published simultaneously in London.

About 465 Hawker Hunter jet fighters will be produced to replace the F86s provided the RAF since 1952 and 1953. The cost per plane will be about \$207,000, plus cost for spare parts. An F86 costs between \$300,000 and \$400,000, including spare parts.

The "offshore procurement" program under which the British-made airplanes will be provided the RAF is part of the over-all program for armament of the NATO nations.

The British statement said the Sabres have given the Royal Air Force "most valuable service." But it added there are "substantial" advantages in equipping the RAF with British-type planes which can be serviced and repaired from United Kingdom sources.

year in which to complete GI training and two years in which to apply for GI loans.

July 25, 1958, marks the end of the education program for all but a few of the World War II veterans now in training under the original GI bill. GI training payments to schools and veterans will stop on that date even though a veteran may still have unused training entitlement or be in the middle of a course.

The GI loan program, now at peak activity, has two more years to run, coming to an end for practically all World War II veterans on July 25, 1957.

The small group of veterans

exempted from these two deadlines are those who enlisted or re-enlisted under the Armed Forces Voluntary Recruitment Act between Oct. 6, 1945 and Oct. 6, 1946. These veterans have nine years from the end of their enlistment or re-enlistment to finish GI training and ten years to apply for GI loans.

More than 90 per cent of GI loans, 3,750,000, have been for purchase of homes. More than 7,000,000, or half of all who served in World War II, have received some sort of education under the GI bill since 1944.

Only about 138,000 World War II veterans are still in training under the original GI bill.

Youths Must Snip Away At Red Tape To Get Drivers License

By CLIFTON LAWHORNE

Boys and girls in Howard County between 14 and 16 years of age have a lot of red tape to go through before they can get licenses to drive. They must make license applications, be screened by a juvenile licensing board, receive approval by both the board and the County Judge, and pass the standard written examination and driving test. Everybody has to take the written examination and driving test before receiving a license, but only those between 14 and 16 must receive permission from the County Judge to take the driving tests. Such permission can be granted only after investigation and public hearing.

The law further states that youths under 16 must show a necessity for receiving licenses. And licenses definitely cannot be issued to anyone under 14 years of age.

A juvenile licensing board was organized here several months ago by the Citizens' Traffic Commission to aid County Judge R. H. Weaver in screening the juvenile applicants.

This board, though it has no official jurisdiction, has been empowered by Judge Weaver to conduct the required public hearings on applicants between 14 and 16. The usual procedure is for the youths to pick up an application form in Judge Weaver's office and take it home to fill in the blanks. The form is then returned to the judge's office, and the applicant is told to appear at the next meeting of the board.

The judge's secretary reports that about twice as many application forms are distributed to prospective applicants as are returned for the hearing.

"The kiddos have found out that the board is approving only those cases where a necessity exists for a license," said George Oldham, CTC executive secretary. "Consequently, most of the applications now actually have a need for a license."

Each teen-age applicant must list his parent's name and business, his own driving experience, the number of drivers and cars in his family, and whether or not

he has been arrested or ticketed for any traffic violation.

Each applicant's form must be signed by a disinterested party, and one parent must be with the applicant at the board meeting.

These meetings are usually held twice a month, and between five and 10 applications are considered in each. About a 15-minute interview is given to each teen-ager and his parent.

The board members, in interviewing the youngster, stress the importance of driving safely and the responsibility that goes with a license. Parents are reminded, too, that they bear a tremendous responsibility by letting their children drive.

The most recent board meeting was held last Wednesday afternoon in Judge Weaver's chambers. Ten applicants were heard at the time, and all were passed. Judge Weaver said he would follow the board's recommendations and give permission for the youths to take the driving tests.

Those who passed included Charles Leslie Bridges, 14; Gerald Luther Bell, 14; Ginny Dee Scud-day, 14; J. O. Whitefield, 14; Lenora Wilkerson, 15; Nancy Cunningham, 14; Jackie Phillips, 15; Bobby William Dyer, 14; Jerry Lloyd Brooks, 14; and Gerald Wooten, 14.

The most often submitted need for a driver's license is that the teen-ager is working and must operate a car, according to K. H. McGibbon, board chairman. Certain family conditions may mean a necessity also, it was pointed out.

The board considers each case separately, and if the juvenile can show any need whatsoever, he will not be turned down on his application.

"Very few parents will look the board members in the eye and tell a lie about their children needing licenses," McGibbon pointed out. "When they tell you there is a necessity, there usually is."

The local juvenile licensing board was organized because of the

alarming increase in the number of traffic accidents involving young drivers, McGibbon said. The board screens applicants for licenses to drive cars, motorcycles, motor-

driven scooters, and motorcycles.

A number of other cities in Texas have the juvenile licenses boards now, but the Big Spring set-up has been recently checked by Midland and Snyder officials with the thought of using it as a model for organizing in their cities.

The board only screens the applicants to see that youths not needing licenses do not get the opportunity to get them. Youths passing the board, said Judge Weaver, must then take the tests offered by the Texas Department of Public Safety.

This written examination and driving test is quite a hurdle in itself.

Tito Warned Not To Build MIGs

BELGRADE, Yugoslavia (AP)—The United States reportedly has warned Yugoslavia that construction of Soviet MIG fighter planes here might seriously affect U.S. aid to President Tito's government.

Well-informed sources said the warning was given the Yugoslav Foreign Office by U.S. Ambassador James Riddleberger. Officials would not comment.

Rumors that Russia has expressed willingness to supply Yugoslavia's aviation industry with a license to build the MIGs have circulated here recently.

Yugoslavia decided some time ago to begin building jet aircraft. The government reportedly discussed the possibility of using Western designs with the United States, Britain and France, but the West's price was said to be too high.

Breaks Leg

ROME (AP)—Prince Carlo Pacelli, a nephew of Pope Pius XII, fell and broke his leg yesterday while at the Vatican to visit the pontiff. He is being treated at a Rome hospital.

Court Upholds Powell Appeal

WASHINGTON (AP)—The U.S. Court of Appeals today set aside the contempt of court conviction of Clyde I. Powell, a key figure in congressional and grand jury investigations of housing scandals last year.

Powell, former assistant commissioner for rental housing in the Federal Housing Administration, was sentenced to a year in jail. The sentence grew out of various appearances by Powell before a federal grand jury. He was accused of failing to answer certain questions.

U.S. Health Service Reports Polio Drop

WASHINGTON (AP)—The Public Health Service today reported a decline in polio cases this year compared with some corresponding periods in 1954, although there was a seasonal increase in cases reported last week over the week before.

There were 812 cases reported last week from all states, compared with 567 cases the week before, and with 1,109 in the corresponding week of 1954.

Important thought to keep in mind:

There are times when it can be awfully embarrassing to stall. There's no need to worry about stalling in hot-weather traffic; no need to worry about balky hot-engine starting! Just fill up at your Gulf station with New Super-Refined Gulf NO-NOX—the gasoline that's made with evaporation control to prevent vapor-lock. And always protect your engine with New Gulfpride H.D. Select, the motor oil that controls carbon.

New Gulf No-Nox Gasoline

delivers not just the highest octane but full working octane because it's super-refined to burn clean

See what a difference Gulf super-refining makes. Gulf takes out the "dirty-burning tail-end" of gasoline—at the refinery—to bring you new clean-burning Gulf NO-NOX.

- more complete engine protection
- extra gas mileage in short-trip, stop-and-go driving
- freedom from vapor-lock and engine stalling
- no knock, no pre-ignition—even in today's high-compression engines

New Gulfpride H.D. Select Motor Oil

The only motor oil super-refined by the Alchlor Process for modern high-compression engines.

- Controls carbon
- Combats corrosive acids, rust and deposits
- Assures lower oil consumption
- Provides the toughest protective film ever developed in a motor oil

Available in 3 grades—SAE 10W, SAE 20/20W, SAE 30.

Revival Opens At Benton Church, Ends At E. 4th

The revival now being held at the East Fourth Baptist Church will continue through Sunday night. The Rev. J. Woodrow Fuller, assistant executive secretary and director of the department of Direct Missions and Promotion of the Baptist General Convention of Texas, will be the guest speaker for the Friday, Saturday nights, and Sunday morning services.

A series of revival services will begin Friday night with services each night at 8 p.m. through Aug. 7, conducted by the Benton Street Church of Christ. The meetings will be held in the open air at Eleventh Place and Birdwell, across the street from the new church building which is under construction.

Sunday morning worship will be at the church at Benton. W. Wallace Layton, minister of the Garden Oaks Church of Christ in Houston, will conduct the meetings.

At Salem Baptist Church, northeast of town, the Rev. James Bradford of Waco will conduct a revival Sunday through Aug. 7. Services will be held daily at 8 p.m. and 9:30 a.m. Roy Fish will lead the singing.

install the Rev. J. W. Janzow as pastor of the Peace Lutheran Church there.

METHODIST
The members of the Wesley Memorial Methodist Church will hear the Rev. Wayne Parmenter, pastor, speak Sunday morning on "The Invisible Christ," and that night on "The Highway of Holiness."

At Park Methodist Church, the Sunday morning sermon topic will be "The Joy of Salvation. Bible study will be at 7:30 p.m. followed by worship service at 8.

PRESBYTERIAN
The Rev. R. Gage Lloyd, pastor

'Wrong-Doing' Charge Dropped

WASHINGTON (AP)—The office of Comptroller General Joseph Campbell says it was wrong in two accusations of wrongdoing against Howard I. Young, a government dollar-a-year man in 1951-53, and was dropping them.

Young is president of American Zinc, Lead and Smelting Co., of St. Louis. He retained his position with the company when he was an official in the Defense Materials Procurement Agency during the Truman administration.

Allegations of "conflict of interest" in Young's handling of some zinc contracts during his time with the DMPA were made by Campbell July 7. The Senate-House Defense Production Committee conducted an inquiry. Yesterday, the committee made public testimony taken the day before in which Campbell's office said two of its charges against Young were based on wrong information.

The charges were that Young's firm sold \$60,000 worth of machinery to the Mid-Continent; and that Young's firm sold 1,167 tons of zinc to the stockpile at a price 1 1/2 cents a pound above the market price.

The committee did not say what steps it might take next.

McCarthy Demands Nationalist Seat At Red China Talks

WASHINGTON (AP)—With a new blast at "appeasing the Chinese Communists," Sen. McCarthy (R-Wis) demanded yesterday that Nationalist China be represented at next week's U. S.-Red Chinese talks at Geneva.

He introduced a resolution asking the Senate to back that stand, but there appeared little likelihood of action in the rush toward adjournment.

"It is not by accident," he said in a speech, "that a Far Eastern sell-out is taking shape at the very time the Congress adjourns. The administration hopes to bring off its deal while we are out of session, and thus avoid having to answer to the representatives of the

Butler Sees Demo Return

WASHINGTON (AP)—Chairman Paul Butler of the Democratic National Committee said today the action of the Texas Democratic Executive Committee in deciding to replace Wright Morrow as the state's national committeeman indicates a return of Texas to the Democratic fold in the 1956 general election.

The Democratic National Committee has refused to recognize Morrow since he tendered his resignation after supporting President Eisenhower in the 1952 election. Texas went Republican in the presidential balloting.

"The recognition by the Democratic State Committee of Texas of the vacancy in the post of national committeeman," said Butler in a statement, "and the announced intention of the committee to fill that vacancy at a meeting in September are important steps toward greatly strengthening the voice of Texas in the national party."

"I sincerely hope that they are evidence that more and more Democrats are recognizing that the major programs and principles which bind us together in the Democratic party are of a far greater importance than the differences which have divided some Democrats in the past."

"My confidence has been strengthened that a united and vigorous Texas to the Democratic column in the 1956 presidential election."

The People Left in Judah

THEY PETITION JEREMIAH TO INTERCEDE WITH JEHOVAH, BUT WILL NOT ACCEPT HIS MESSAGE

Scripture—II Kings 25:10-12; Jeremiah 40-41.

By NEWMAN CAMPBELL
OUR EDITOR OF Peloubet's Notes, Wilbur M. Smith, D.D., cannot recall a lesson that has been based on the Scriptures given in today's lesson. It should therefore be new to all of us.

It begins with two verses from II Kings which were included in last week's lesson: "And all the army of the Chaldees, that were with the captain of the guard, brake down the walls of Jerusalem round about."

"Now the rest of the people that were left in the city, and the fugitives that fell away to the kingdom of Babylon, with the remnant of the multitude, did Nebuzaradan, the captain of the guard carry away."

"But the captain of the guard left of the poor of the land to be vine-dressers and husbandmen."

What happened to those who were left in Judah is the subject of our lesson. They were not all poor, as Jeremiah was among them, and later "all the captains of the forces . . . and all the people from the least unto the greatest" came to hear Jeremiah's

message from Jehovah.

Jeremiah had been taken in chains to Ramah where Nebuzaradan came to him and said that the Lord had destroyed Jeremiah's people because of their wickedness, but Jeremiah could go where he pleased. He could remain in Judah or go to Babylon, where he promised he would be treated well. Jeremiah decided to stay with the remnant of his people.

Nebuzaradan also told Jeremiah that he should go to Gedaliah, in Mizpah and tell him that the king of Babylon had appointed him governor of Judah. He was the last of the line of David to hold an important post in the kingdom. Mizpah was in Benjamin, on the boundary of the northern and southern kingdoms.

So Jeremiah dwelt with Gedaliah and the people that were left in the land. Gedaliah as governor seemed to have the approval of all, but his officers informed him that the king of Ammon, across Jordan, had sent Ishmael, a descendant of David, to kill him.

The rumor proved true. Ishmael murdered not only Gedaliah, but those around him who had aided him in maintaining order in the nation. The brutal deed was done so secretly that Ishmael thought the Jews would not know he had done it.

MORNING PEEPER

By Joyce Connaway

Would you like to know what the ladies of Princeton Avenue and Ridgelea Drive were doing between 9 and 9:45 this morning? Well, the Morning Peeper knows, and so shall you!

Mrs. E. Griffin Christensen, 201 Princeton, was occupied with general housework, but Mrs. Delbert E. Simpson, 202, got specialized, she was cleaning out closets, Mrs. Bernard M. Keese, 203, had gone downtown.

"What was I doing?" asked Mrs. Herman L. Stokes, 204, "Just mopping."

At work was Mrs. Dwight H. Gilliland, 205, and breakfast was being prepared at the Cephas M. Wozencraft residence, 207.

Mrs. Ray H. Townsend, 211, was transplanting her thoughts and news items into a letter. Having just finished breakfast, Mrs. Willie O. Washington, 209, was getting ready to wash the dishes.

"I was really just walking from one room to another, getting ready to clean this house," explained Mrs. Adolphus C. LaCroix, 311.

No one could be found at the home of Chester F. Chuck, 312, and Louis R. Helms, 318, Mrs. Arthur B. Paschall, 315, was stirring up some breakfast.

"We have had a bunch of company that left yesterday, so I am trying to clean up the house now," said Mrs. Ernest B. Hilburn, 319.

Now let us jump over town for several blocks to Ridgelea Drive and see what is going on or off.

There was no answer at the Elwood Carille place, 610, Mrs. William C. Bell, 611, had just removed the bed linen and put them in the washer, and was remaking the bed.

Mrs. Robert L. Carille, 612, was playing with the children. Mrs. Clyde R. Howell, 613, was reported to have gone to Midland.

Gone from home were the James R. Smiths, 614, the James T. Farquhars, 615, and the W. D. Peters, 616.

The Morning Peeper really shook up Mrs. Claude I. Wright Jr., 617. When I said that this was the Herald office calling, she practically fainted.

"I thought I had won the puzzle," she cried. I regretfully told her that all she would gain from this

call was her name in the paper. So although Mrs. Wright was not the winner this week, she has had the sensation of thinking she had for a few seconds. By the way, she was making a bed.

Mrs. Doc L. Wilkinson, 620, was working, and no one answered the continuous ringing at the Clifford A. Byrd home, 612.

"I was giving my little boy a lightbulb to put in his lamp," was the reply of Mrs. Earl D. Campbell, 622.

Grocery store bound was Mrs. Opal Brown, 623, and Mrs. Bruce Hogue was having a cup of java. One clean bedroom floor was in process at the M. David Simms residence, 625, for Mrs. Simms was pushing a broom when the phone rang. Mrs. James R. Bowerman was washing dishes.

That's it for this morning, for this Peeper is too peoped to peep any more!

L. Oldfields Make Home In Big Spring

Now at home at 1107 Lancaster following a wedding trip to South Texas, are Mr. and Mrs. Lindy Oldfield who were married at 6 p.m. Saturday at the East Fourth Baptist Church.

The bride is the former Roberta Robbins, 609 Circle Drive, daughter of Mr. and Mrs. Gene Mayo of Forgan, Okla.

The Rev. Maple Avery, pastor of the East Fourth Baptist Church, performed the informal single ring ceremony.

A green linen street length suit was chosen by the bride. She also wore white accessories and carried white roses.

Matron of honor, Mrs. U. E. Dickens, sister of the bride, wore a pink linen dress with white accessories. Her flowers were white carnations.

U. E. Dickens served as best man. The bride is a graduate of Forgan High School in Oklahoma and attended Draughtons Business College in Amarillo. She is presently employed with the Hilliard's Accounting. Mr. Oldfield is with the Big Spring Police Force.

Fake Fur, Ensembles Are Fashion's Pets

By ANNE LEFEVER

You'll probably have to look twice at the new coat of your friend to see whether it is of fur or the new man-made fur-like fabric called orleogro.

The "fake fur" is soft, feather-light and has the appearance of seal, beaver or mouton; that depends on the color of this combination of dypel and orlon. It has the luxurious feel and appearance of fur, but it is really a fabric with a knit back.

Stoles, capes, jackets and short coats will be available in local stores in various colors such as champagne, which is a light beige, moonstone, or gray, black and brown.

Advantages of this new chemical miracle are that it gives warmth with very little weight, needs no summer storage and is mildew and moth proof.

You may expect to find this material used in ensembles, which are coming into their own this fall and winter. The "all-in-one look," starting in the spring with the coat and dress ensemble had its beginnings with the skirt and sweater and the "jacket dress."

Fall styles will combine all of these, resulting in the suit with the blouse, the coat with a blouse and skirt, the jacket and blouse plus a skirt and a suit with a top-coat. Other combinations will be a jumper plus a blouse and a jacket, the skirt and blouse plus a sleeveless jerkin or the pullover blouse or sweater plus the over-blouse or a cardigan sweater.

Matched color is the important idea stressed in all the costumes assembled in this way because color will be the tie-in for each ensemble. Each unit will be independent of the other parts, but each will have a common color, and when worn together, will give the impression of good taste, which occurs in color-matched or blended fashion.

Already noticeable in transitional colors for fall are the "jetted colors" or the blacked browns, greens, blues, reds and grays. These shades are just what the names imply — darker tones than those found in the spring styles, and they will be much in evidence in the fall styles.

Coming early in the fall will be "harvest tones" of rust and pumpkin shades on through the color range to earth brown. Following this, for winter wear will be the deep browns, with formal brown an alternate for black in clothes for "dress up."

Greens will come closely on the fringes of the brown category, with a blacked avocado being especially good in sports wear. Mixes, such as plaids and tweeds, will run to the blue-greens while the jewel tones will be used for wools, satins,

silks, brocades and other formal fabrics.

Strong for the first time in several seasons are the red tones, bearing such titles as "Vibrant Red," "Spanish Wine," "Dahlia," "Cranberry" or "Crabapple."

Royal blue is predicted as a feature color for cocktail and dressy clothes, with satin in that shade being most popular. For sports, periwinkle blue will show up in tweeds and plaids as well as solids. Iridescent in blue and green will be quite noteworthy.

Winey purple and grape tones will bring the amethyst family back into the fashion spotlight, with a new addition, "brown plum," showing the effect of the jetted colors.

Family Reunion Is Held In Stanton

STANTON—A reunion of the descendants of Mr. and Mrs. W. W. Richards, who came to Martin County in 1906, was held in the O. B. Bryan home recently. Approximately 40 attended.

Major and Mrs. J. W. Stevens, who are stationed in Meppershall Beds, England, are the parents of twins, born July 2.

The girl weighed 5 pounds, 14 ounces and has been named Diane Carol. The boy weighed 5 pounds 5 1/2 ounces and has been named David Karl.

The grandparents are Mr. and Mrs. Claude Kelly of Stanton and Mr. and Mrs. Stevens of Post. Major and Mrs. Kelly have two other children, Joey and Kenny. Mrs. Kelly is the former Nadine Kelly.

Joe Glover and Vida Holt, district agents from Ft. Stockton, were in charge of the district meeting of The Farm and Home Development recently in the Martin County agent's office.

Chief of police, Ed McCain, is back on the job after a week vacation.

Five Entertain At Bridge Luncheon

Wives of the Maintenance and Supply Group at Webb Air Force Base were guests at a luncheon Thursday served in the home of Mrs. Newton D. Hagins. Co-hostesses were Mrs. Charles P. Cliff, Mrs. Phillip Kunn, Mrs. J. P. Thummel and Mrs. T. J. Bouch.

Yellow and white daisies were used in the decorations for the luncheon tables. Bridge and canasta were the afternoon's entertainment, with prizes going to Mrs. Thummel, Mrs. Bouch, Mrs. W. J. Frazer, Mrs. Donald Davis, Mrs. Carl Bonnell, Mrs. Robert Baker and Mrs. Robert Woda, a guest.

Other guests were Capt. Kuhn, Capt. Cliff and Col. Hagins, all of whom attended the luncheon.

Garden City Folks Have Guests, Trips; Bridge Club Meets

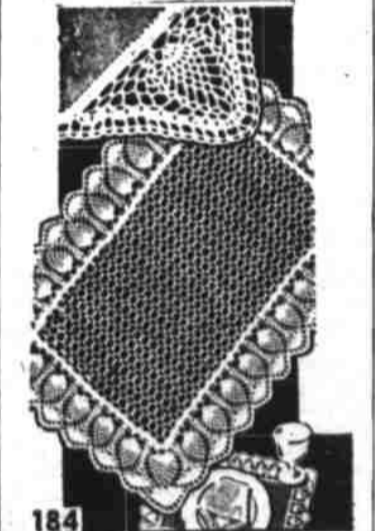

GARDEN CITY — Mr. and Mrs. Mac O'Bannon and Marion are in Wyoming as guests of her sister, Platonique in Okla. Calister, N. M., are Mr. and Mrs. John Cox and Mary Jo.

The Rev. W. W. Kitterman is holding a revival meeting in Tennessee. He is pastor of the Cumberland Presbyterian Church. Sandra Wilkerson is visiting her aunt, Mrs. R. E. Powell in Houma, La.

Mr. and Mrs. W. A. Wilson have returned from a visit with her mother in Vian, Okla., and with his parents in Denton.

After visiting her daughter, Mrs. W. W. Ramsey, and Col. Ramsey in Washington, D. C., Mrs. J. L. Parker has returned home. Mrs. Ray Hightower was high winner in the bridge games of the Afternoon Bridge Club when Mrs. Ira L. Watkins was hostess. Mrs. D. W. Parker won guest high, and consolation was won by Mrs. Dick Mitchell. Bingo prizes went to Mrs. Targe Lindsay and Mrs. W. E. Chaney, who were guests. Another guest was Mrs. Sam Cox.

Mr. and Mrs. Harris Gray and daughters, Connie and Pam, of Milan, Italy, will arrive here tonight for a several days visit with Dr. and Mrs. G. H. Wood, Mrs. F. S. Gray, and Lady Jane Gray.

184 Pineapple Set

By CAROL CURTIS
One of the most popular of all crochet designs is the much-loved "pineapple" motif, here used in a 12 by 17-inch table mat with matching napkin. Make a gift set of four or six mats in pure white thread and stiffen by using a heavy starch. Enlarged photographic detail in pattern makes for ease in crocheting.

Send 25 cents for PATTERN No. 184, YOUR NAME, ADDRESS, PATTERN NUMBER to CAROL CURTIS, Big Spring Herald, Box 229, Madison Square Station, New York 10, N. Y.

The NEEDLEWORK GUIDE, 36 pages, 150 designs for knitting, crochet, embroidery, hairpin lace, dozens of beautiful color transfers. Order as you do needlework patterns. Only 25 cents.

Celebrate 50th Anniversary

Mr. and Mrs. James W. Rice of Colorado City celebrated their Golden Wedding Anniversary Sunday with open house at the home of a daughter, Mrs. R. J. Lloyd of 1128 Oak Street. Mr. and Mrs. Rice were married July 23, 1905, in San Augustine County at the home of the bride's parents. Mrs. Rice was the former Mary Sheffield. The couple lived in San Augustine County for 14 years, moving to Mitchell County in 1919. All of the Rice children live in Colorado City and were present for the celebration. They are Otto Rice, Mrs. Lloyd, Mrs. J. W. Wallace, and Mrs. J. C. Cook. Two sons, Kirby and Jim Rice, are dead. Only one of the eight grandchildren, Virdeil Rice of the Air Force, was unable to attend.

Indoor Sports Club Entertained By Hills

Mr. and Mrs. Ross Hill were hosts for the Indoor Sports Club Thursday evening when they entertained the group with a back yard supper.

A business session was held, during which, Claudia Arrick appointed chairmen of the various committees. They will select members

to serve on the committees. Dollie Ward was named chairman of the finance group; James Horton will head the ways and means committee. Entertainment will be in charge of Vivian Kinard, and Mrs. James Brooks will serve as chairman of the refreshment committee.

Leonards Will Make Home In Florida

Dr. and Mrs. G. A. Leonard, 618 Dallas, plan to leave Tuesday for Florida, where they expect to make their home.

Dr. Leonard, who has been practicing medicine for 50 years is retiring and will follow his life-long wish to "find a good fishing place." Leaving their household goods in storage, the couple will settle in the place which suits them best.

En route to Florida, Dr. and Mrs. Leonard will visit with their son, Lt. G. A. Leonard Jr., in Fort McClellan, Ala., and with the Roy Smiths of Tuscaloosa, Ala., former residents of Big Spring. In Birmingham, Ala., they will be guests of Dr. and Mrs. L. B. Andrews and the John Brights, also ex-residents of this city. Dr. Leonard was manager of the local VA hospital when it was first opened.

Open House Date Set By Board Of Church Women

September 11 was set as the date for the open house at the Westside Recreation Center Thursday by the executive board of the United Council of Church Women.

Meeting at the Parish House in the early part of the day, the group held a business session before serving a covered dish luncheon. Hostesses for the luncheon were Mrs. W. G. Wilson Jr. and Mrs. H. M. Compton.

Plans were made to work over the draperies at the Center and to refinish the work and study tables. It was announced that the needs, which can be supplied by the public, are books, current magazines, games, chairs and a movie projector.

The Council has placed two copies of a pictorial story of the New Testament in the library at the Center and one copy in the county library. Ten attended the meeting.

Oil Transfers Feted With Farewell Party

FORSAN — A farewell party was given Monday night at the Church of Christ for three families of the Continental Oil Company who are being transferred to Linch, Wyo.

The honorees were Mr. and Mrs. Frank Philley and Jennie, Mr. and Mrs. D. W. Lewis and Linda, Mr. and Mrs. Eddie Goepfinger, Sharon Ann and Johnny.

Mr. and Mrs. Sterling Bills and Jackie were in San Angelo Monday. Buddy Bills has returned home from a visit in Stephenville with relatives.

Visiting here for the week with her parents, Mr. and Mrs. B. R. Wilson, is Mrs. Dennis Hughes, Raymond and Ann from Midland. Monday Jesse Louis Overton and Muri Bailey were in Post.

Guests of Mr. and Mrs. C. C. Suttles were her brother and family, Mr. and Mrs. S. J. Newsom and sons of Odessa.

Sunday Mr. and Mrs. H. H. Story and daughters visited in Miles with his father who is ill. Mr. and Mrs. M. H. Eudy and children had as their guest her sister, Darlene Graham from Fullerton.

Mr. and Mrs. Sam Starr, Corinne and Gary have returned from Oual, Calif., where they visited her parents, Mr. and Mrs. Lee Miller. They also visited with the W. C. Yandells in Bowie.

Mrs. E. K. Moren left Tuesday afternoon for Fort Worth where she will visit her daughter, Mrs. Ira Hart, and Mr. Hart. They are parents of a daughter, born at 2 a.m. Tuesday morning. The baby's paternal grandparents are the Mrs. Ira Hart of Abilene and the late Rev. Hart.

Youth Week Leaders

Members of the Youth Caravan who will lead the worship services and recreation at Coahoma First Methodist Church Sunday through Friday are, back row, left to right, Sue Wymore and Treva Ely, counselor; front row, left to right, Agnes Beard, Dorothy Bengton and Mary Estes.

Youth Caravan To Lead Coahoma Methodist Meet

Coahoma Methodist Church is sponsoring Youth Caravan at their church Sunday through Friday. Four college girls and their sponsor, Treva Ely, are traveling around to churches during the summer to lead in discussions, planning, recreation and worship.

The Rev. Richard Deats of Big Spring, will preach the worship services. Each day, a supper will be

served at 6 p.m. at the church, followed by recreation and worship. Girls in the caravan are Dorothy Bengton, Louisiana Polytechnic Institute, Ruston, La.; Sue Wymore, Iowa State College, Ames, Iowa; Mary Elizabeth Estes, Southeast Missouri State College, Cape Girardeau, Mo.; and Agnes Beard, University of Tennessee, Martin Branch, Dyersburg, Tenn.

The girls will stay in private homes while in Coahoma.

Altrusa Club Hears Jack Wallace Tell About TV Station

Jack Wallace, speaking to the Altrusa Club at a luncheon meeting Thursday, told his listeners that 75 per cent of all the TV stations in the world are in the United States. The group met at the Wagon Wheel for a regular session.

Mrs. Bob Middleton, in charge of the program, introduced Mr. Wallace, who gave a background of the television industry and told what it can mean to a community and to the world.

Plans for the Big Spring station were completed Wednesday, the club was told, and the speaker showed the blueprint of the building. Descriptions were given of the various levels.

Following his talk, a question and answer period was held. About 20 attended the luncheon.

Mrs. J. Bowen Talks To King's Daughters

Mrs. James N. Bowen gave the devotion on "Walking in the Law" when the King's Daughters Sunday School Class of the Phillips Memorial Baptist Church met Thursday night in the home of Mrs. R. M. Stroup, 810 E. 6th.

Co-hostess was Mrs. B. R. Mize. Mrs. Gene Combs led the group in prayer. Refreshments were served to four.

Sew And Chatter Club Has Barbecue Dinner

Members of the Sew and Chatter Club and their guests were entertained Thursday night with a barbecue dinner at the home of Mrs. R. F. Bluhm, 107 E. 18th. Twenty-eight were present.

The next meeting will be Friday at 3 p.m. at the home of Mrs. Ches Anderson, 608 Scurry.

Three Turncoats Return Today To Face Charges Of Betrayal

SAN FRANCISCO (AP) — Three turncoat former corporals who embraced communism at the end of the Korean War return today to their families—and to charges they betrayed their nation and their comrades in a prisoner of war camp.

land docks today the Army charges will be read to them. But, before they are taken into custody by the military police, the three will have a chance to visit in privacy with the families they haven't seen in five years.

Then they will be arrested by military police, the charges read to them and they will be whisked away to a military stockade at Ft. Baker, where they will be treated like any other prisoners.

The exact charges will not be given out until they are read to the prisoners.

\$25 Fine Levelled In Sanitation Case

A Big Spring resident was fined \$25 in corporation court this morning after he was found guilty of violating the city livestock and fowl ordinance.

Acting City Judge Grover Cunningham Jr. instructed the man to clean up the pens in accordance with instructions from the City-County Health Unit.

The charges were preferred by Maj. William F. Gillilan Jr., assigned to headquarters, Military District of Washington, and forwarded to the San Francisco court-martial jurisdiction.

School Budget Hearing Aug. 9

Public hearing on the proposed budget for the Big Spring Independent School District has been set for Aug. 9.

The date coincides with the regular monthly meeting of the board of trustees, and the budget hearing likely will precede the regular business session.

Neighbors testified the pens have an annoying stench and that the chickens are raised in filth. Sanitarian Lige Fox also testified the pens did not reach health standards of cleanliness.

'Arrive Alive' Traffic Slogan

"Drive to arrive alive!" This is the slogan of the Big Spring Citizens' Traffic Commission during the vacation season.

The problem when starting on a motor trip is to arrive at the destination safely, and careful driving might necessitate a detour to the hospital, said Larson Lloyd, CTC chairman.

In order to "drive to arrive alive," the motorist is urged to be courteous, to obey the laws, and to gear driving to the conditions.

'Signs Of Life' Traffic Theme

LAMESA — "Signs of Life" will be the August theme for the CTC. The Commission in cooperation with the national movement of "slow down and live."

A courteous driver is one who gives other drivers a break and one who is always prepared to yield the right-of-way to prevent accidents, Lloyd pointed out.

The intelligent driver knows that to be safe he must stay within the law, the chairman explained, and such a driver also knows that to stay alive the various conditions prevalent at the time must be considered.

Local Trio Going To Lions Camp For Crippled Children

Three youngsters, already up in the clouds over prospects of attending the Lions Crippled Children's Camp at Kerrville, will have this literal experience Sunday.

Defendant Wins In Last Civil Case At District Court

A jury ruled in favor of the defendant in the last civil case to be tried during this session of the 11th District Court. The jury answered 22 specific issues regarding the accident in question in the case, J. G. Anderson vs Homer Hobson Speer, a suit for damages.

29 Liquor Cases In This District In Month Of June

The Big Spring district of the Texas Liquor Control Board reported 29 criminal cases filed in the month of June as released in the TLCB monthly review.

Local Trio Going To Lions Camp For Crippled Children

Three youngsters, already up in the clouds over prospects of attending the Lions Crippled Children's Camp at Kerrville, will have this literal experience Sunday.

Cafe's Liquor License Suspended

The liquor license of Inez Barrera, owner of the Mi Cafetal, 401 NW 4th, was suspended for five days effective today, announced C. B. Arnold, district supervisor of the Texas Liquor Control Board.

Harley Sadler's Widow Fatally Shot

Mitchell County Reports Second Polio Victim

COLORADO CITY — Mrs. Bobby R. Gholson, 20, of Westbrook, was taken Thursday afternoon to the polio ward at Hendricks Memorial Hospital in Abilene.

Second Mitchell County to fall ill with polio this week, Mrs. Gholson was under observation at the Root Memorial Hospital here.

Robbin, the daughter of Mr. and Mrs. Troy Wadzeck of Colorado City, was said to have no paralysis but suffers from a stiffness of the neck and muscle weakness of the right leg and back.

The two Mitchell County polio cases pointed up the opportunity that many of Mitchell County's youngsters would have to obtain free polio vaccine at a make-up clinic on August 10th.

Only 291 out of 487 of last year's first and second graders who received shots in April showed up for second shots in July.

Those who received a first shot but not a second can get their followup shot on the 10th from 9 to 10 in the morning at the primary building.

Rains Bring Dip In Water Usage

Big Spring rains again have resulted in a heavy dip in the amount of water used here daily.

During the 24-hour period ending at 8 a.m. today, some 3,050,000 gallons of water were distributed to residents here, and the day before the amount used was 3,309,000 gallons.

Just prior to the rains, on Tuesday, the use was 5,606,000 gallons. This was about as high as the daily use reached since the rains of the previous week.

Before rains reduced the water consumption rate here, Big Spring was using upwards of seven million gallons daily. An all time record was set on July 12 when eight million gallons were used.

Water Superintendent Roy Hester stated today that he imagines that the eight million gallon record will stand this year, though he believes that daily use in August will be close to that.

VA Teachers To Dallas Meet

Vocational agricultural teachers of this area will attend a week's conference at Dallas, starting Monday, Aug. 1. This is an annual event in which officers are elected and awards given.

Suffers Fractures In Fall Off Ladder

W. L. Cason, 1944 Nolan, suffered a fractured wrist and elbow when he fell from a ladder yesterday afternoon.

Only One Auto Mishap Reported

Only one automobile accident was reported in Big Spring yesterday, and it came at 8:30 p.m. at the intersection of Third and Benton.

Traffic Cases Filed In Justice Court

Seven misdemeanor cases were filed in Justice Court yesterday. One man was fined \$15.50 for drunkenness while another was charged with speeding.

HOSPITAL NOTES

BIG SPRING HOSPITAL Admissions — Ada Freeze, Coahoma; Paula Martinez, Coahoma. Dismissals — Robert Wilcox, 611 Caylor Dr.; Vera Workman, 204 N. Johnson; Maria Garcia, Rt. 2; Raymond Lee Andrews Jr., 1421 Tucson; E. O. Hicks, Gall Rd.; Angelina Hernandez, City; Samuel Nichols, El Paso; Jimmy Robertson, Tarrant.

Float Entries Being Taken For Rodeo Parade

There is still time to register a float in the coming Rodeo Parade, according to Edith Gay at the Chamber of Commerce.

First prize will be \$50, second prize, \$30; and the third prize, \$20. Persons and organizations interested in entering a float should contact the Chamber office.

Ringside boxes are still available, Miss Gay said. Cost for the boxes is \$25 for the season.

Eighteen boxes on the south end of the Rodeo Bowl may be purchased for \$15 for the season.

Theft Suspect Pleads Innocent

Raymond Nelson pleaded not guilty in County Court this morning to theft charges. Judge R. H. Weaver set his bond at \$500.

Nelson was charged Thursday with felony theft in Justice Court. When he was returned here from Snyder, questioning and further investigation indicated the complaint against him included an amount claimed as back rent as well as the amount of the alleged theft.

The felony theft charge was dismissed, according to Justice Walter Grice, and a new charge was filed in County Court. Nelson is now charged with theft under \$50.

The complaint alleges he took four cases of beer, valued at \$17.58, belonging to Ida Mae Elkins.

Fred Montlongo Diaz pleaded not guilty to driving while intoxicated charges and his bond was set at \$500. Diaz was arrested by police officers Wednesday evening on U. S. Highway 87 near the State Hospital.

William Charles Forhand is expected to be returned here today from Amarillo. He is charged with burglary of the Jet Drive-In.

Continental's Bid For West Coast Service OK'd

Prospects are better that Continental Air Lines will be afforded direct service into Chicago and to the West Coast.

CAB examiner Ferdinand M. Moran recommended Thursday that CAB applications for routes from Denver to Chicago be approved along with one from Denver to Los Angeles.

Customer Drives Off With Tray

The driver of a late model Oldsmobile last night drove away from Donald's Drive-In Cafe, 2406 Scurry, with the serving tray still on the vehicle's window.

MARKETS

WALL STREET — The stock market maintained a mixed position today in early dealings.

NEW YORK (AP) — Noon cotton prices were 15 to 16 cents a bale higher than the previous close October 21.85, December 24.30 and March 24.18.

Moore And Westbrook Fields Listed For 3 New Locations

Three area locations were staked today. One is in the Moore field of Howard County and the other two are in the Westbrook field of Mitchell County.

John I. Moore and Duncan Drilling Company's No. 2 Conoco-Brindley is the Moore field try. Blue Danube Oil Company's No. 3-C Bird and 1-C Strain are the ventures in the Westbrook area.

Dawson

Shell No. 1 Clay, wildcat about five miles west of Patricia, is drilling below 9,024 feet in shale and lime. Projected depth is 13,300 feet.

Glasscock

Sohio No. 16-A R. S. Davenport, a Spraberry Trend project which has plugged back for tests in the Clear Fork, is now swabbing out lead from perforations between 6,379 and 6,389 feet.

Howard

John I. Moore and Duncan Drilling Company staked their No. 2 Conoco-Brindley as a Moore field location about seven miles south-west of Big Spring. It will be drilled by rotary to 3,300 feet.

Local Group At WTCC Parley

Big Spring was represented by four local men at a district meeting of the West Texas Chamber of Commerce in Midland Thursday.

Lamesa Church Sets Meeting

LAMESA — W. T. Hamilton, minister of the Church of Christ, announced here today that the annual summer gospel meeting would begin at 10 a.m. Sunday.

Farm Teachers, Agents To Meet

LAMESA — Agricultural teachers and county agents for Dawson and Borden counties were to meet here this afternoon.

Rodeo Stock Due To Arrive Here During The Week End

A touch of rodeo atmosphere was beginning to be apparent here Friday as tempo in preparation for the annual show next week stepped up.

Everett Colburn, who will again produce this year's western extravaganza, was here Friday to confer briefly with rodeo officials.

Specialty acts will include D. J. Gaudin, the Kajun Kid, and Buck LeGrand as clowns; Charlene Calvin Beal, Shawnee, Okla., as a trick roper and rider; and the mounted quadrille with nine pretty girl riders long with a like number of cowboys.

Announcer for the show will be Pete Logan, who hails from Oregon and who handled last year's production here.

Tickets for the rodeo are on sale by Lions Club members, or they may be had from J. H. Greene at the Chamber of Commerce, or Larson Lloyd at the First National Bank.

et al, C NE NE, 28-33-5n, T&P survey, has been plugged and abandoned at 8,380 feet in lime. Site of this wildcat is 15 miles southeast of Lamesa.

Cities Service No. 1 Hendon, C SW NE, 72-M-EL&RR survey, got down to 2,118 feet in lime. This wildcat, situated for depth of 9,800 feet, is five miles southwest of Welch.

Another Westbrook field venture will be Blue Danube's No. 1-C Strain, 330 from south and west lines, 12-28-in. T&P survey, about eight miles north of Westbrook. It will be drilled by cable tools to depth of 3,500 feet.

Sterling

Sunray No. 1-E Nora Gee, C NE NW, 143-2-H&TC survey, flowed 185 barrels of load oil in 12 hours through a 14-64ths inch choke. Casing pressure was 325 pounds. This venture is a three-fourths of a mile outpost to the southwest of the Fuller-Coke, South field.

Sunray No. 1 Bynum, C SW NW, 198-3-H&TC survey, is now shut-in and operator is moving off rotary. At last report, this venture flowed 106 barrels of oil in 24 hours through a 8-64ths inch choke. Location is nine miles northeast of Sterling City, in the Jameson Southwest field.

Yoakum

Murchison and Mowary No. 1 R. L. Cook is reportedly drilling at 8,865 feet in lime and shale.

Standard Garb Suggested For Rodeo Parade

Local persons riding in the Rodeo parade are being asked to wear blue jeans, white shirts, and black ties, according to Edith Gay in the Chamber of Commerce office.

Midland

F. Kirk Johnson No. 1 H. A. Jesse has been spotted as a 5,000-foot rotary wildcat in Midland County. It is slated for a test of the Grayburg formation. Site is 330 feet from south and east lines, 5-37-3s, T&P survey.

Mitchell

Ada No. 1 A. L. Dunn, C SE SE, 73-20-Lavaca Navigation Survey, took a drillstem test from 7,355 to 7,375 feet with the tool open two hours. Recovery was 30 feet of mud. Flowing pressure was from 40 to 100 pounds, and the 30-minute shut-in pressure was 2,560 pounds. Operator is now drilling at 7,534 feet in shale. Top of the reef is

BUCKER FOR BIG SPRING RODEO Paul Templeton fans a Colborn Bronc

Deserter Who Began New Life Gets 25-Year Term

NEW YORK, (AP)—A World War II Army deserter — who changed his name, raised a family and founded a thriving business — has been sentenced to 25 years at hard labor by a court-martial.

The penalty, imposed yesterday after Arthur Athans, 35, Falconer, N.Y., pleaded guilty, is subject to automatic review.

Athans's wife, Marjorie, who took their five children with her to the court-martial on Governors Island, tearfully told the board: "You couldn't ask for a better husband."

She married the ex-soldier in 1946, and has said she knew nothing of his desertion until his arrest last May.

Approximately 600 friends of the family petitioned the court-martial for leniency.

The deserter, who took the name of Joseph Trainer, operated a successful automobile agency near Jamestown in upstate New York for five years. Then military police got on his trail in some unexpected manner.

The court-martial was told that Athans had been convicted three times for being AWOL and was serving a five-year sentence at hard labor at Ft. Knox, Ky., when he deserted Dec. 7, 1944.

The court-martial, composed of 10 officers and one warrant officer, added dishonorable discharge and forfeiture of all pay and allowances to the 25-year sentence. It could have sentenced Athans to hard labor for life.

Holding Water Where It Helps

Terraces are built to hold the water where it falls. And that is just what these are doing on the J. O. McCrary farm immediately south of Fairview Wednesday afternoon about an hour after a three-inch rain fell.

It seems that the last rains filled in most of the dry gaps in this area, and farmers are rushing to get seed on the bare fields. Most feed dealers say the latest plantings will be hegarl, cane and maize, with some African millet and many small lots of peas and beans.

Free was buying poison yesterday morning. He said he had a lot of worm eggs and a few small worms were found. He expects to start dusting either Saturday or Monday.

At Lomax the rain was fairly general, and there will be hundreds of acres planted this week and next. Everett Lomax got two and a half inches of rain. He has about 250 acres of planting to do. Some of it will be on land where he already had a poor stand of feed, and the rest will be on bare fields.

Lomax used to have a nice herd of registered Hereford cattle, but now keeps only a few head. The lack of homegrown feed during the dry years and the slumping cattle prices caused him to cut down on his herd. He still feeds out cattle during the winter when he makes a feed crop.

"There is no good money to make in cattle now," he said, "but I can market my feed crop in the form of beef and get a good price for it. Raising feed for sale is never very profitable."

A demand from tractor hands has developed in the area north of Lamesa and O'Donnell where farmers are just now planting. James Jones of the Texas Harvesting Association says they need around 40 tractor hands up there now.

There may be a labor shortage in Howard County, according to Leon McKinney of the Texas Employment Commission. He says cotton choppers may be in short supply within the next week or so.

The 4-H Club boys of Glasscock County are looking forward to the third week in August. That is when they make their trip to Camp Scott Abel, high in the mountains of northern New Mexico. County Agent Oliver West says all the boys will likely go on the three-day trip. They plan to go by Carlsbad Caverns and all who want to may go through it.

The other day a Martin County farmer wanted a tractor driver and asked his Mexican Nationals if one of them could handle the machine. One fellow volunteered, but after a few minutes the farmer was convinced he had never been on a tractor before.

Finally the man climbed down and told the farmer he couldn't drive it. The only kind of tractor he had ever driven, he said, was a "Chevrolet."

T. A. Rees, who farms and ranches northeast of Latah, says his area missed out on all the late rains. Crops are still holding up but must have more moisture soon to make anything. He said grass came out a little in the spring but stopped after the moisture vanished. Most ranchers in his area have sold off a big part of their stock so they won't have to feed them.

Lloyd Hastings of Courtney says irrigated crops are getting better every year. He is one of the pioneers in irrigation in Martin County and at one time had his fields leveled for border irrigation. He also had drop structures installed and spent both time and money in getting a good irrigation system on his farm. Finally he junked the plan and bought a sprinkler, which he now uses.

Hastings said that a few years ago farmers thought a bale to the acre was a big cotton crop. Now with plenty of water, fertilizer and insect control, the man who doesn't make over a bale and a half is almost a back number.

Toots Mansfield has been competing in two big rodeos the past two weeks. At Salt Lake City he won second place in the second ground and placed fourth in the entire show.

This week he has been roping at Cheyenne, Wyoming, but the results are not known. He will be in Big Spring next week to rope in the show here, along with several other contestants who made the two western rodeos.

The grass seeding on the Junior College field is already up to a good stand. They have five one-acre plots which are planted to King bluestem, Caucasian bluestem, K. R. bluestem, El Reno sideots and Blackwell switch grass.

These are all new grasses to this section, says Marion Everhart, of the SCS, but should be adapted to this climate and soil. Most of them are mid-grasses, although they grow fairly tall if not grazed.

Farmers around Knott have the best prospects for a crop in the last five years, says Alton Fries,

Gas Attack Kills Skunk

BARRINGTON, Ill. (AP)—The age-old and delicate problem of what to do about skunks was solved yesterday by two Lake County deputy sheriffs.

For several days the skunk has resisted efforts to chase him out of a basement window well in the home of Harry Sunnesen. The deputies called for a vacuum cleaner hose, attached it to the exhaust pipe of their automobile and asphyxiated the skunk.

Safe Cycling Drive

MEXICO CITY (AP)—They're setting 300 bicycles a day here in a campaign against reckless cycling.

Eden Hails U. S. Willingness To Join Europe Pact

LONDON, (AP)—Prime Minister Eden last night hailed the willingness of the United States to join in a security pact "which in effect guarantees the safety, the security of Europe and its future."

Reporting by television to Britain on the summit conference, Eden said, "It may be, in time, that a security pact or something like it could give Russia the sense of security she feels she needs so that Germany can be united."

He also said the visit to Britain next spring of Soviet Premier Bulganin and Communist party chief Nikita S. Khrushchev could open "a new era" in East-West relations.

He said the question of German unity at the Geneva conference brought out "a real difference" between the West and Russia—with the Russians demanding a security pact before agreeing to German unification and the West contending that Europe cannot be secure until Germany is united.

"To try to meet the Russian point of view," he said, "we said at Geneva that so far as our country is concerned — and our allies said the same — we were ready to bring in time together a unity of Germany and creation of a security pact for Europe.

"Do not let us forget how important it is that the great American people are willing to join in a security pact which in effect guarantees the safety, the security of Europe and its future."

Nationalists 'Smell A Rat' In U.S.-Red China Parley

TAIPEI, Formosa (AP)—The official China Daily News said editorially today: "We smell a rat in the recent announcements from Washington. We must be on the alert for anything."

In the strongest editorial comment yet by Nationalist Chinese papers on the Geneva talks starting Monday between Red China and the United States, the paper said the meeting was "100 per cent a product of appeasement."

It said, "The so-called tension in the Formosa Strait was created by the Russian and Chinese Communists to lure the United States and the rest of the free world into another trap."

"Discussing a cease-fire with them means we stepped right into that trap."

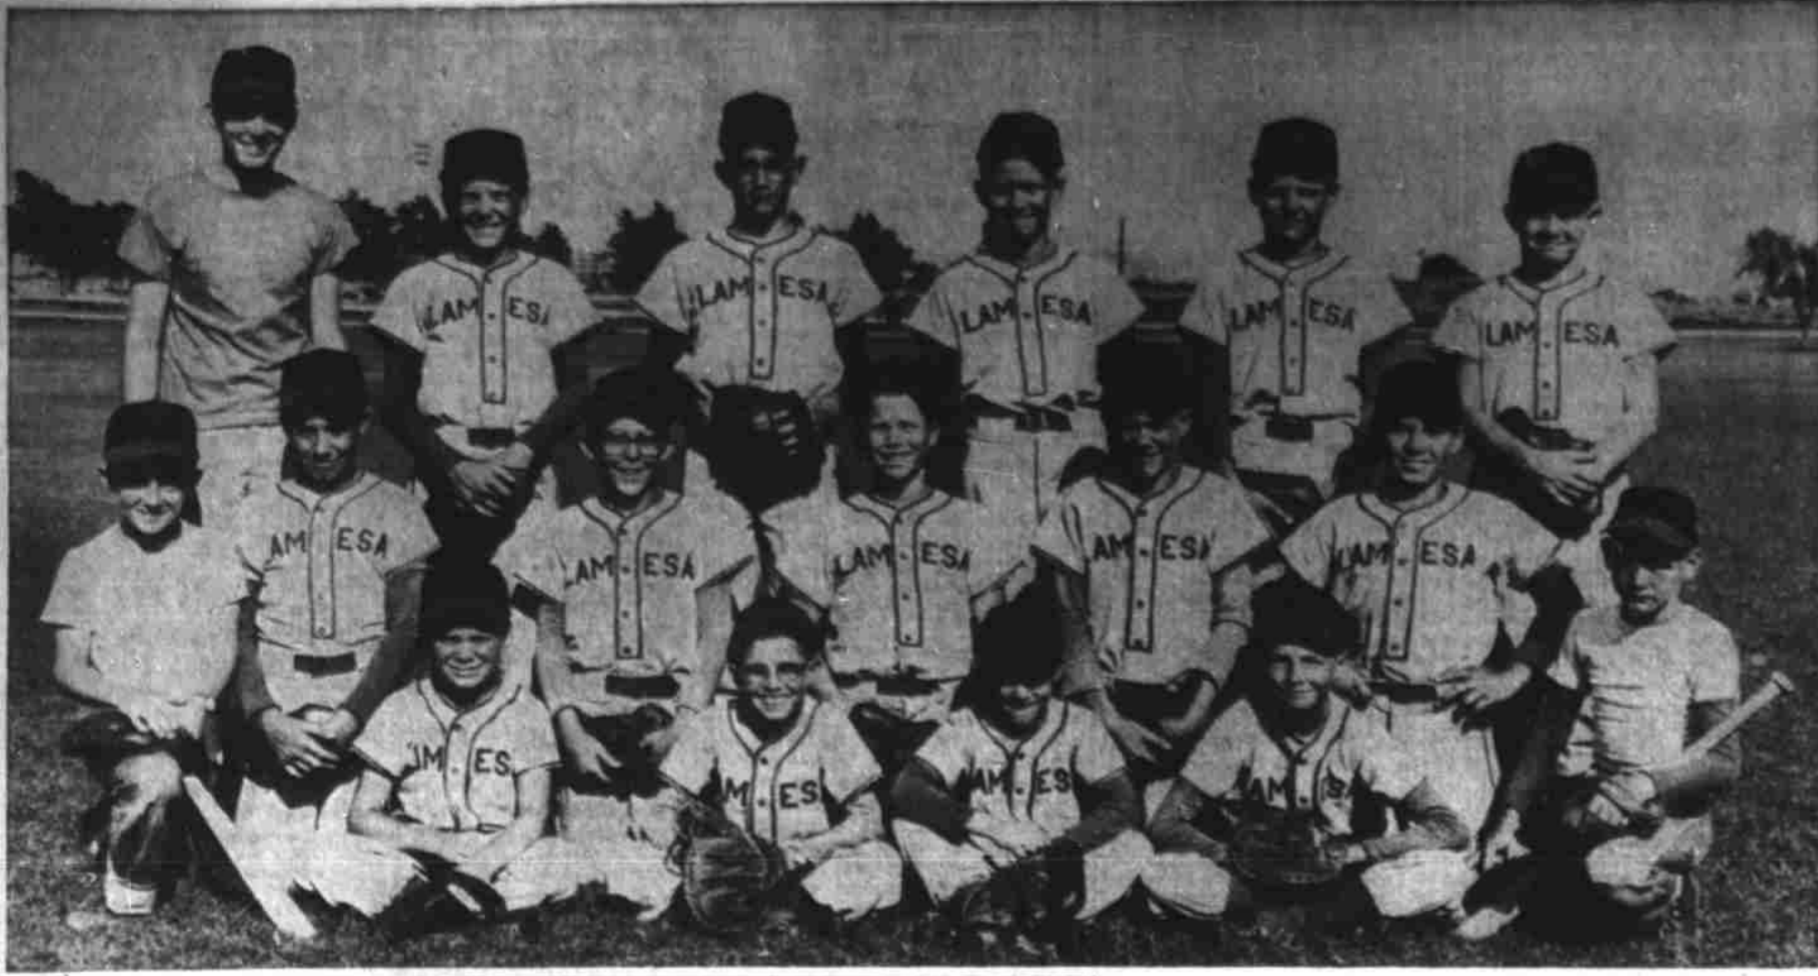

"We shall never accept a cease-fire."

Lamesa Little League Representatives

These boys, representing Lamesa Little Leaguers, got to the semi-finals in district playoffs at Lubbock this week. They are, left to right, sitting: Jerry Bowles, Harvey Everhart, Charles Burleson, Freddie Fowler; second row: Rex Cotton, (bat boy), Bryan McNeil, David Bayless, Melvin Keithley, Ebert McNeil, Graham Addison, Gene Westmoreland; back row: Hal Boyd, manager, Ralph Cruess, Kenneth Filippin, Tommy Doyle, Richard Crump, Gene Dorothy, Winifred White, the co-manager, was not present when the picture was taken. (Frogge Studio, Lamesa).

Midland Rallies To Gain Split With Big Spring

Big Spring and Midland exchanged gifts in a Longhorn League double header here Thursday night. The Cosden Cops accepted the first game on a silver platter, 5-3; then pained off the second, 8-4. The provincials walked their way to victory in the opening engagement. Trailing by a 3-1 tally going into the fourth inning, the Big Springers picked up four runs with the help of five walks, a hit batsman and only one base hit and Kosse Hill made the lead stand up in notching his eighth win of the campaign. The second game hinged on a critical play in the sixth, when the Indians counted five times to come from behind and grab a permanent lead. Midland was trailing with a runner at first with one down and pinch batter Don Deckman at bat when Nick Cappelli raced over to cover second base. Deckman hit the ball through his position for two bases and opened the door for four more Midland runs.

LOOKING 'EM OVER

With Tommy Hart

Perhaps the most popular player ever to wear a local baseball uniform, certainly one of the great drawing cards in the history of the Longhorn League, returns to the scene of some of his greatest triumphs this evening. The things Carlos (Potato) Pascual did while playing in Steer Park and using the battle arena as a base of operations still serve as conversation starters around the circuit. This time, though, Potato will be wearing the uniform of the opposition. He's now the first baseman for the Hobbs Sports and he'll be around through Sunday. You can't picture Pascual as a first baseman? Well, neither can I. He's one of the shortest players ever to play in the league and they say he's ballooned up to around 200 pounds but, it's true, he is holding down the initial sack for the fast moving Sports. They say his right arm is about to drop off, which is another way of stating that he has chronic arm trouble and can't contribute more than one or two good throws a game. That's hard to figure, too, since, in 1950, his great right arm earned him the opportunity to start in two ball games for the Washington Senators. Potato came here as a third baseman in 1949 and played that position through most of the following season but he went to the hill when needed, which was often. This writer always thought his future lay in playing third base and not as a pitcher, which shows you why I'm not managing a baseball club.

The things that impressed me about Pascual were (1) he could hit the long ball, (2) he could deliver in the clutch and (3) he had the most amazing throw across the infield of any player I've ever seen on a baseball diamond. Potato still holds the home run record hit by a rookie in the Longhorn League. He drove 25 over the uprights in 1949. Perhaps his greatest feat occurred the following year at Odessa, when, on July 4, he pulled an iron man stunt in pitching Big Spring to a double victory over the then pace-setters of the Longhorn League. What made the event all the more remarkable was the fact that he kept the Oilers away from the plate for 14 innings that evening. The double caseism job came in the midst of 41 consecutive scoreless innings the chunky Cuban hurled that year. Potato hit 335 in 136 games in 1949. He appeared in only six games as hurler but wound up with a 3-1 won-lost record. He got in 121 games for the Broncs the following year, before being called up by the Senators, and hit at a .345 clip while driving in an even 100 runs.

He was used more regularly as a hurler in '50, getting in 22 games. His won-lost record was a good if not pearly 2-75, second only to San Angelo's Jimmy McClure among those who got in 20 or more games. Pat Stasey, then the manager of the Broncs, never tried to keep a tight rein on his athletes. When Potato got his summons from Washington, he began working under Bucky Harris. Harris isn't known as a strict disciplinarian but to Potato he must have seemed like one. Potato gave every sign of being a great hurler in his brief stints—he beat the Philadelphia Athletics and would have fared equally well against the Boston Red Sox had not errors betrayed him. He managed to strike out both Teddy Williams and Bobby Doerr but got beat, 4-2. Potato suddenly decided he wanted to go home in spring training the following season and Harris let him go, muttering that he would not pamper ball players. Potato never found his way back to the big leagues. He later distinguished himself in both summer and winter ball in his native Cuba and opened this season regarded as the ace of the Yucatan mound staff of the Class AA Mexican League. However, arm trouble forced him to the sidelines. He eventually drew his release and headed for Hobbs, where his old boss, Stasey, was running the show. Even when he was in the big show, Potato remarked for publication he preferred to play for Stasey more than any one else. After all these years, Pascual has found his way back to the Longhorn League. Even though he will be wearing an alien uniform this trip here, it's good to have him back. Look for a change in the National League umpiring family soon. League Prexy Warren Giles is unhappy with one member of his staff. He didn't say as much for publication, but George Trautman, the minor league president, frowns on any sort of re-alignment of Texas baseball leagues. He can't see the wisdom of killing off three circuits to organize a Class A league that, at best, would be a shaky loop. He thinks the leagues that now exist can survive by climbing down out of the clouds and planting their feet solidly upon the ground. Howard Green, the Big State League prexy, is doing so much tub-bating for a new league in hopes of salvaging himself a job. The Longhorn League's best hope of survival lies in returning to Class D.

Angelo Increases Longhorn Lead

Two veteran lefthanders and some New Mexico rain allowed San Angelo to creep out to a two-game margin atop the Longhorn League Thursday night. The pace-setting Colla polished off Odessa in both ends of a double-header 4-3 and 1-0 in pick up a full

game over second-place Artesia. The Artesia-at-Roswell twin bill was rained out. In the other games, Hobbs continued its climb from the bottom by pulling to within two percentage points of Odessa with a 9-1 rout of Carlsbad, while Midland and Big Spring shared a doubleheader. Big Spring took the first one 5-3, but Midland got the nightcap 8-4. The teams switch around Friday night with Artesia at San Angelo, Carlsbad at Midland, Hobbs at Big Spring and Odessa at Roswell.

Jurgens, Fuentes Signed For Bout

SAN ANTONIO (AP)—San Antonio's Al Jurgens and Ramon Fuentes, ranked third among the world's welterweights, have been signed for a 10-round bout here Aug. 9. Jurgens is a left-hook specialist considered one of Texas' best welterweights. He has scored three straight triumphs since returning to the ring from an eight-month layoff.

STARTS NEXT WEEK

Coleman Departs For Grid School

Carl Coleman head football coach at Big Spring High School, was to leave this morning for the annual Texas Coaches' Association school at San Antonio. The clinic is not due to begin until Monday morning but Coleman will attend a directors' meeting there Sunday. He is completing a two-year term on the board of directors. Coleman is due to be joined in San Antonio over the weekend by most of his assistants. Their ranks include Roy Baird and Johnny Johnston. Harold Bentley, who is spending the summer working in the oil fields around Kermit, was undecidably earlier this week about going.

Carlisle (Frosty) Robison, Big Spring's nominee to play in the All-Star football game highlighting the school, was to go to San Antonio this weekend to begin workouts. Robison is in good shape. He spent the summer working in the oil fields. Frosty, an all-state halfback for Big Spring the past two seasons, will play in the North backfield. The North team will be coached by Darrell Royal and Wade Walke, both of Mississippi State. Robison will be the second Big Spring player in two years to appear in the contest. The other was Norman Dudley, a center, now at Texas Tech. Among Robison's teammates will be Hollis Ganey, Colorado City; Jim Millerman; Abilene; Bob Harrison, Stamford; Gary McElroy, San Angelo; Billy Ward Huffnagle, McCamey; Neal Wilcox, Hermleigh; Jerry Cramer; Breckenridge; and Kenneth Schrum, Midland.

FOUL TIPS — Al Jimenez clubbed his 30th four-master of the season for Midland in the sixth inning of the second game. The drive coming with two on . . . Glen Selbo proved a thorn in the side of the Big Spring hurler, Mike Rainey, in the second game . . . He wound up with four hits in as many trips . . . Bob Martin rapped out three hits and was walked intentionally once in four trips in the morningcap . . . Capps' bat slipped out of his hands in the first inning of the second engagement and went almost to second base . . . Frank Billings, Cop left fielder, was hurt when he crashed into the left field wall while chasing a fly ball in the fourth inning of the second go but continued in the game.

Midland 8-4

Davis Cup Tennis Whirl Nears Final Showdown

Australia meets Canada at Montreal and Italy and Sweden clash in Milan today as play in the Davis Cup tennis whirl nears the big Challenge Round against the United States at Forest Hills, N. Y., late next month. The Australians, favored in their match against Canada, go into the three-day North American zone final without Lew Hoad, one of the wonders of past cup play. Captain Harry Hopman replaced Hoad with Rex Hartwig for today's opening singles competition. Hoad has sulked and his game is off since his bride of six weeks was sent home after the Wimbledon Championships.

MIDLAND WINS LL PLAYOFFS

Midland came back in the bottom of the third to tie up the game as Sowers hit a sizzler down the third base line and was driven in on a single by Satterwhite. The fielders of both teams were expertly alert during the game. There were especially good catches by right fielder Bobby Branham and Zay LeFevre in center field for the Nationals. Jay LeFevre was robbed of a clean base hit in the top of the fourth as Mike Burkett, Midland left fielder, made a spectacular rolling catch for the out. The Big Spring team played errorless ball and left five men stranded on the bases. Midland was recorded with three errors and left six men on base. The Midland Central nine will now enter the District Tournament in Lubbock, Aug. 1-3, to represent this area. Should they continue their winning streak they will compete in the Sectional Tournament in their home town Aug. 4-6.

Ken Rosewall meets Bob Bedard, of Sherbrooke, Que., in the open-match, while Lorne Main, of Toronto and Vancouver, plays Hartwig. The surprising Italian team which has whipped through the European zone play without dropping a match is favored to defeat the Swedish squad. Sweden's Sven Davidson, one of Europe's most powerful singles players, meets Fausto Gardini today while Lennart Bergelin of Sweden plays Giuseppe Mario, a pint-sized giant killer when he's in form.

The winner of the Canada-Australia tournament plays Japan, the Eastern zone champions, at Glen Cove, N.Y., Aug. 5-6-7. The Glen Cove survivor takes on the Italy-Sweden winner at Philadelphia Aug. 12-13-14, with the Forest Hills Challenge Round set for Aug. 26-28.

In Return Bout DALLAS (AP)—William (Red) Worley of San Angelo and Bobby Spaeth of Wichita, Kans., will meet in a return heavyweight bout here Aug. 18, promoter Lew Gray said yesterday.

Vern Smith Faces Fight In Tourney

DALLAS (AP)—At least a dozen top-flight golfers were present today to give defending champion Vernon Smith of Galveston a stiff battle for the Texas Public Links golf championship. Smith went one-under-par in warming up yesterday for the 28th annual meet, being held this year on the par-72 Tension Park course. Top challengers include last year's runnerup, Leonard White of Dallas, and a flock of other highly-rated Dallas players — Dick Martin, Gene Towry, Jimmy Powell, Dick Whetzel, Art Corbin, Milo Clark, J. Ferguson and Hal McCommas. About 100 golfers are expected to compete in the three-day medal-play meet.

SPORTS HERE FOR 3 TILTS

The red-hot Hobbs Sports, with several one-time Big Spring players in the lineup move into Big Spring this evening to begin a three-game series with Pepper Martin's Cosden Cops. Game time this evening and Saturday will be 8:15 p.m. The two teams wind up their set with a singleton at 3 p.m. Sunday. Hobbs has climbed over the Cops into seventh place and apparently is set to make its drive toward the first division. Either Marcus Job or Art DiCesare will probably mount the knoll for Big Spring, although Jim Newberry has checked into camp and has pronounced himself ready to hurl.

Goin' Great!

in the LONE STAR State

LONE STAR BEER

Take a Break

During the course of your summer fun, stop for the refreshing pleasure of Texas' fine, light Lone Star Beer! Brewed without added sugars or syrups. Naturally fine! Naturally light! So naturally, Lone Star Beer is Goin' Great—in the Lone Star State!

White Sox Leapfrog Over New Yorkers

Coleman Fans With Three On

For the first three months of the 1951 season they raved about "Those amazing Chicago White Sox and everything looked rosy for a pennant at Comiskey Park.

But after the All-Star Game in July the magic potion wore off. The Go-Go kids were gone. Ever since, they said, when the chips were down and the heat was on in July, it would be bye, bye White Sox.

So look, today, two weeks after the All-Star tilt, it's been just the opposite, and Marty Marion's scrapping Chicago gang has knocked the New York Yankees out of first place — by two slim percentage points. The White Sox showed no signs of folding this time as they whipped the Yankees yesterday 3-2 and took the vital series two games to one.

In fact, Chicago reached first place the hard way with an uphill battle. When league play resumed July 14 after the All-Star recess, the White Sox were in third place, six games back of New York, and a game behind second-place Cleveland. Since then Chicago's won 12 of 17 games and has been rolling at a .706 pace.

But it's a long way to the end of the season in September and the top five clubs in the American league could be covered with a large blanket.

Cleveland defeated the Boston Red Sox 6-4 to pull within a game of the lead yesterday, while Detroit overcame Baltimore 7-5 to trail the leaders by only 5½ games — in fifth place, Washington and Kansas City were idle.

Rookie pitcher Roger Craig and Brooklyn home runs produced a 10-2 victory over Cincinnati as the Dodgers maintained their 12½-game National League spread over Braves, who defeated Philadelphia 4-2.

The New York Giants downed the Chicago Cubs 4-1. The St. Louis Cardinals defeated the Pittsburgh Pirates, also 4-1.

Walt Drogo continued his batting spree, his two-run homer in the third inning off Bob Turley proving the White Sox margin over New York. Connie Johnson had the Yankees shut out until Mickey Mantle hit his 22nd homer in the ninth with one aboard. Billy Pierce struck out pinch hitter Jerry Coleman with the bases full to end the battle.

Grocers Defeat Robert Lee, 5-1

BRONTE (SC) — The Piggy-Wiggly All-Stars of Big Spring advanced into the second round of the District Tournament of the State Softball Association by defeating Robert Lee, 5-1, here Thursday night.

The Grocers earned the right to tangle with the Merchants of San Angelo at 8:45 o'clock this evening.

Roy Overturf hurled the Big Spring club to victory, giving up only three hits, one of which was a home run. Piggy-Wiggly collected seven off Robert Lee hurling.

The Merchants advanced by beating San Angelo, 14-3.

In other games, Smith's Drive-In nudged El Paso, 10-0, as Boyd Reece gave up only one hit; and the Bronte All-Stars turned back Salvato Drug, 13-3.

CARDINALS EDGE CATS, 8-7, IN LEAGUE PLAY

The Cardinals protected their undefeated record in Senior Teen-Age Baseball League play by edging the Cats, 8-7, here Thursday night.

The Tabbies rallied for four runs in the sixth inning and another in the seventh but it wasn't quite enough. B. F. Newton, the Red Birds' relief hurler, settled down to fan Charles Johnson with Buddy Meeks at second base. Meeks had doubled in Jerald Shortes.

Bobby Suggs clubbed a home run in the first inning for the Cards. Ricky Terry followed with a second-inning base with two mates up front.

For the Cats, Meeks had two doubles and Shortes one. LeRoy LeFevre was the winning hurler. He struck out six and issued two walks. Meeks, on the mound for five innings, ranned ten but issued 11 walks.

FORD HAS 66

PGA Champ Takes Lead At Akron

AKRON, Ohio (U)—Doug Ford, keeping up a busy home life between rounds, was in the lead today as the Rubber City Open went into its second 18 holes.

The PGA champion from Klamath Lake, N.Y., blazed over the first 18 on the 6,700-yard Firestone Country Club course yesterday with a 64—under-par 33-3—66.

Then he went home to his house trailer, helped his wife shop for groceries, took his three youngsters swimming and returned to the course with his family later to take part in a golf clinic.

Starting in this tournament only two days after he whipped Cary Middlecoff at the PGA title match in Detroit, Ford waacked four strokes off par on the first nine holes with an eagle on No. 2 and birdies on No. 6 and No. 7.

He started with four straight pars on the back nine, and he found birdie range on two of the next three holes before finishing

Gates, Carrico On Grid Squad

WICHITA FALLS (U)—Two players have been added to the Texas squad for the Oil Bowl football game here Aug. 19.

Jimmy Gates, Pleasant Grove fullback, and Bill Carrico, Denton guard, are the latest additions to the squad that meets an Oklahoma team in the bowl game.

Nine now have been picked for the Texas outfit.

Baxter Team Paces Meet

AMARILLO (U)—A pair of sharp-shooting teen-agers from the host city led the way today into first round play in the fourth annual Amarillo Invitational Partnership Golf Tourney.

Wearing the favorite's label as match play opened on the 6,700-yard Ross Rogers Municipal Course were Rex Baxter Jr., Mexican Amateur champion, former National Junior champ and runner-up in the Trans Mississippi tourney; and John Farquhar, former state schoolboy champion.

They fired an 11-under-par total of 133 yesterday, rolling up 11 birdies and an eagle between them in spite of rain which caught up with them at the start of the back nine.

When the showers started, they were eight under par.

Baxter and Farquhar met a pair of their former Amarillo Golden Sandle teammates in first round play, being matched against Miles Childers and James Smith.

Placing second in yesterday's qualifying rounds were John Oliver and Don Schumacher of Dallas with 137.

A total of 126 teams are entered in the meet, which runs through Sunday.

Desperate Yankees Seek To Strengthen Lineup

By ORLO ROBERTSON

NEW YORK (U)—The New York Yankees, battling for their sixth American League pennant in seven years, trail the pace-setting Chicago White Sox by two percentage points today. They are getting desperate.

And well they might for they have frittered away a five-game lead since the All-Star Game July 12 and, in addition to trailing the White Sox, hold only a one-game bulge over the Cleveland Indians, three over Boston and 5½ over Detroit.

The hitters are not hitting and the pitchers are not pitching. At least they are not pitching winning ball. Manager Casey Stengel has received just five complete games from his hurlers since starting their latest disastrous Western trip July 14. And only four of them were victories.

Stengel has admitted he can do nothing about his hitters except perhaps put the eight best in the

Bengals Seek 6th Straight

The Tigers will seek their sixth straight win in Junior Teen-Age Baseball League play here this evening, at which time they clash with the Devils in the first game of a double header.

In the second engagement, the Reporters oppose the Rails.

Earlier this week, the Tigers bombed the Devils, 11-4, behind the pitching of Allen Alexander while the Reporters need out the Rails, 9-8.

The Newsies scored all their runs in the first two innings in that one and Kenny Johnson held the Rails at bay.

Standings:	W	L	Pct.
Team-Tigers	5	0	1.000
Reporters	3	2	.600
Rails	1	4	.200
Devils	1	4	.200

Walker Wants Too Much To Return

DETROIT (U)—Doak Walker, the Detroit Lions professional football star, has asked too much to play another season, the Detroit Free Press says.

LEGAL NOTICE

THE STATE OF TEXAS

To: RICARDO GOMEZ

Defendant (s). Ousting:

You are hereby commanded to appear by filing a written answer to the Plaintiff (s) Petition on or before ten o'clock A.M. of the first Monday after the expiration of forty-two days from the date of the issuance of this citation, to wit Monday the 20th day of September 1955, at or before ten o'clock A.M. before the Honorable District Court of Tarrant County, Texas, at the Court House of said County in Big Spring, Texas.

Said Plaintiff (s) Petition was filed in said court, on the 19th day of July A.D. 1955. In this cause, Plaintiff (s) vs. Ricardo Gomez, Defendant (s).

A brief statement of the nature of this suit is as follows:

On the 18th day of November, 1947, O. B. Walters gave a Warranty Deed to Ricardo Gomez and wife, Cruz Gomez unto the following described property:

A tract of land 1/2 section wide running East and West and 1/2 section deep running South and North, out of Tract No. Twenty-nine (29), taken out of Wm. B. Currie Subdivision of S. E. 1/4 Section No. Fourteen (14), Block No. Thirty-two (32), Township 36 North, Range 10 East, Survey, Howard County, Texas, as fully described in deed of said date here-with.

and in turn they gave their note unto O. B. Walters to cover the purchase price of said property. After which, Cruz Gomez had deeded, and defendant, Ricardo Gomez, is now defendant. WALTERS has approved interest and Attorney's Fees. Middle Walters is the owner of said note as O. B. Walters is now dead. WALTERS, she, Middle Walters, seeks foreclosure of said Vendor's Lien Note and the sale of said property, as is more fully shown by Plaintiff (s) Petition on file in this suit.

If this citation is not served within thirty days after the date of the issuance, it shall be returned unexecuted. The officer executing this process shall promptly return the same according to law, and make due return as the law directs.

Issued and given under my hand and the seal of said Court, at office in Big Spring, Texas, this 21st day of July A. D. 1955.

Attest:

GEO. C. CHRYSTE, Clerk, District Court, Howard County, Texas.

By Elizabeth A. Barrett, Deputy.

(Seal)

Home From California

Mrs. Bill Bonner and Bill Jr., 105 Washington Blvd., have returned from a three-weeks trip to California. While there they visited Mr. and Mrs. Mark Sutphen and family, former Big Spring residents, now living in La Habra, Calif. Donna Sutphen came to Big Spring with them for a visit, before going to Fort Worth, where she will be the guest of her grandparents.

Ike Foresees Continued GOP Control Of U. S. Administration

By D. HAROLD OLIVER WASHINGTON (AP) — President Eisenhower told Republican lawmakers today that the GOP can control the national administration "forever" if it works in unity for principles that the people can accept in confidence.

He also described as "complete both" suggestions that the American people have been led to expect too much too soon out of the Geneva summit conference and a let-down will work against the Republican party.

The President spoke informally at a breakfast at the Statler Hotel attended by all but 11 of the 240 Republican senators and representatives.

The preadjournment gathering was arranged by Republican National Chairman Leonard W. Hall. Members of the Cabinet were there as well as top White House staff members.

There was a 1956 second term atmosphere as the President entered the room, with many of the legislators chanting "We want Ike."

Others wore large red and white buttons inscribed "Ike in 1956." Although the President made no mention of a second term, he urged the legislators when they go home to carry a positive message to their constituents about the work they have done and will do.

He recommended emphasis also message should be that the United States is not going to default on the principles it stands for.

He recommended emphasis also on plans to keep working for highway, school construction, health programs, and a policy of keeping up strength to protect the nation while it seeks the road to peace.

Newsmen were not invited to the breakfast, but White House Press Secretary James C. Hagerty told them afterward about the President's informal talk.

Hagerty said Eisenhower repeated what he has said before — that he is interested in unification of the Republican party behind a set of principles that would be accepted in trust and confidence by the people.

He said his definition of a true Republican is one who best represents those principles for which the party stands and is not running for election just because he is a Republican.

The President began his talk by asking members of the Cabinet to stand. He then told the Republican legislators that those officials represent the executive team he

has been working with and they are "a fine team."

He then praised his party leaders in Congress for the work they did in the 83rd and 84th Congresses and said

Costly Gimmick

STOCKHOLM (AP)—Anybody want to buy a castle for 5 cents? The Bergvik-Ala Co., a huge wood pulp firm, today offered to sell the big castle at Akmarbruk, in central Sweden, for that price. The gimmick: The purchaser must renovate it completely—at an estimated cost of \$150,000.

State Mostly Dry And Hot

By The Associated Press
Texas was mostly dry and hot Friday but the Weather Bureau clung to forecasts that included widely scattered or isolated thundershowers for the state.

As the day broke, the only precipitation was a shower at Brownsville, but weather observers said low clouds were forming over a wide portion of South Texas that included Corpus Christi, the Lower Rio Grande Valley and San Antonio.

Temperatures were mostly in the 70s during the night and ranged from 64 at Amarillo to 81 at Dallas. They rose steadily toward the century mark as the day progressed.

Jap Red Dies

TOKYO (AP)—The Japanese Communist party announced today that its exiled chairman, Kyuichi Tokuda, died Oct. 24, 1953, in Peiping. The party also announced the selection of seven Communist leaders to run the party, but no new chairman.

UNCLE RAY'S CORNER

A pond skater at lower right, and a back swimmer in a pond.

This summer you may watch various insects which spend their time in ponds or other bodies of water. Today I have several questions to answer about such insects.

Q. Is it true that some water insects will die if they spend a short time under water?

A. Yes. These insects, like other members of the insect tribe, breathe air. Certain of them are clever at swimming under water, but all adult insects must have a supply of air.

A good example of a water insect which may die below the surface is the pond skater (also called the water strider). This insect will glide, or skate, along the surface, but even the feet stay dry. The feet are covered with dense, feathery little hairs.

If you desire to place pond skaters in a home aquarium, be careful how you carry them from the pond. When put in a pail of water, they may die because the water in the pail splashes over them and drowns them!

Some kinds of pond skaters are clever at diving, but even they must dive in their own way. Otherwise they may drown. If you place these insects in wet moss, you should be able to carry them safely to your home aquarium.

Q. How many legs does a pond skater use while gliding over the water?

A. Four. Like other insects, it has six legs, but the first two legs are used to grasp tiny insects which serve as food.

Q. Do pond skaters spend all their time on the water?
A. Much of their time is spent on shore. When they see something to eat floating on the water, they rush out to get it. They also go out on the water to escape from enemies.

Q. Do some insects swim upside down?

A. Yes. They are known as back swimmers, and are experts at swimming under the water. When they go below the surface, they take down air which is kept in the midst of hair on their bodies.

(Some insects have hair of a sort, but it differs from the hair of mammals.)

Sunday: Letters from Readers.

Former Paratrooper, Now 'Woman,' Weds

SACRAMENTO, Calif. (AP)—Tamara Edell Rees, 31, a former combat paratrooper who reportedly underwent a sex-change operation in Holland, today confirmed marriage to a young Los Angeles widower.

Tamara, an entertainer at a local theater, said the wedding took place Saturday in Reno to James E. Courtland III, father of two children.

As Robert Rees, the entertainer served through World War II in the 82nd Airborne Division. He was wounded twice. The sex-change operation was performed after Rees had been discharged.

Before going overseas, Rees was married and his parents said he was the father of two children. He was divorced before the operation two years ago.

Gas Bill Snags On Adjournment

WASHINGTON (AP)—A bill to free natural gas producers from federal controls passed the House by a six-vote margin last night but promptly was snagged in the rush to adjourn.

Acting Majority Leader Clements (D-Ky) told newsmen the bill is not on the Senate program. Sen. Daniel (D-Tex), an all-out backer, conceded it is "awfully late" to start debate this year on such a controversial issue.

The Senate can act upon it during the session beginning next January.

The House last night passed 209-203 a bill by Rep. Harris (D-Ark), frankly aimed at overturning a 1954 Supreme Court decision. It would exempt producers from the Federal Power Commission's price fixing authority.

The high court had ruled that the FPC should regulate producer prices for gas sold to interstate pipelines. It said the FPC was wrong in contending it lacked this power under the 1938 Natural Gas Act.

On passage 86 Democrats and 123 Republicans voted for the bill. Against it were 136 Democrats and 67 Republicans. The House previously defeated 210-203 a motion by Rep. Wolverton (R-N.J.) to send the measure back to the Commerce Committee.

What effect the proposal would have on consumers' gas bills was a matter for dispute. Backers said it would assure adequate supplies and thus keep future prices down. Opponents said the bill was a "giveaway" that would mean millions of dollars in extra profits annually for big oil companies owning the bulk of gas reserves.

Heat's Still On For U.S.

By The Associated Press
The heat was still on, and nearly full force, over most of the mid-continent and Southern areas today with not much hope of immediate relief from the season's hottest weather.

Fairly pleasant summer weather prevailed in sections of the Northeast and some Western states.

However, temperatures ranging from the 90s to 100 and above were predicted again today for much of the wilted Midwest.

Minneapolis, with a high of 81 Wednesday, reported a top mark of 100 yesterday.

It was cooler from the Ohio River Valley northeastward to Maine as cooler air from Canada moved southward to northern Virginia. At Boston, yesterday's pleasant 67 compared to a high of 93 Wednesday, a drop of 26 degrees.

Party Given Mrs. Hobby

WASHINGTON (AP)—Top officials in her department gave a farewell party last night for Mrs. Oveta Culp Hobby, the former Bell County girl who rose to director of the WAC in World War II and is now the retiring Secretary of Health, Education and Welfare.

Mrs. Hobby is resigning Monday because of the ill health of her husband, former Governor William P. Hobby. She plans to leave for Houston Sunday and says she will be at work Monday as publisher of the Houston Post.

It was announced at last night's dinner that a special annual employe award for outstanding services in the department has been established in honor of Mrs. Hobby, the nation's first Welfare Secretary.

Bradshaw Mintener, Assistant secretary in the department, announced the "Oveta Culp Hobby Award." The recipient will receive an engraved certificate and \$200 cash.

Dog Tag Religious Ties Now To Be Spelled Out

WASHINGTON (AP)—Religious preferences of members of the Armed services will hereafter be spelled out fully on their dog tags instead of being designated by single letters.

The Defense Department said this will make it possible for chaplains in an emergency to know precisely which last rites to administer.

The 'Wrong' Gifts

Dear Miss Brandow:
For graduation James gave me a lovely and very expensive wrist watch. I was terribly thrilled, but mother says I must return it because it is too expensive.

He isn't a special boy friend and there is nothing serious between us, although he wishes there were. He can afford to give nice gifts and being older and having money, I am sure it was no strain on his budget. Also I have wanted a wrist watch for several years and cannot afford to buy such a nice one.

Glady's
Your mother is right Gladys. An expensive watch is a gift much too nice to accept from anyone not a relative or a fiance. A lady could not do it in good taste, and explaining the gift might imply intimacy which never existed and would certainly arouse criticism.

Also you would feel a certain unfair indebtedness to this boy.

If he has a great deal of money, he probably never realized the impropriety of his expensive selection. He showed thoughtfulness in sending something he knew you wanted and would treasure.

You have only one proper course of action. Spare his feelings as much as possible. Tell him how much you like the gift, but that you simply cannot accept anything so expensive.

Peonage Suspect Faces Charges

CORPUS CHRISTI (AP)—Kidnaping charges have been filed against Bobbie Williams, 47-year-old Corpus Christi man after two teen-age sisters were recruited for farm work without the consent of their parents.

The girls were among a dozen Negro children which Williams is alleged to have taken to the Rio Grande Valley to pick cotton. The charge was filed after the children complained to police that they were not paid for their work, were whipped and beaten, and were not allowed to return home.

Williams is charged with kidnaping Maxie Rhodes, 13, and Lou Ellen Rhodes, 15, daughters of Mrs. Ellen Rhodes who signed the complaint.

Wrong Limbs

WEST HAVEN, Conn. (AP)—Squirrels have been climbing limbs around here but not the kind usually found on trees. Dog Warden Frank Crego said four women have reported being bitten on the legs by squirrels.
