Olton Citizens Go To Polls Tuesday To Choose President

Olton residents will join with Lamb County citizens and the rest of the United States this Tuesday in one of the hardest tasks of recent years -- election of a president of the United States.

Speculation and straw polls show that Wallace has a strong

following here in Olton.

It's hard to tell which way Olton will go, but "coffee shop" talk seems that there are a great number that are really undecided.

Olton voters will go to the polls in the junior high gymnasium with Eldon Franks serv-

ing as election judge.

Polls will be open from 8 a. m. until 7 p. m. Tuesday. A new ballot this year has been introduced to the state voters which may prove to be rather confusing.

A top line on the ballots has been added so that persons wishing to vote a "straight ticket" may do so by simply marking the one box.

Those wishing to vote a "split ticket" should NOT mark the top line but mark only those candidates for which they wish to vote.

A complete explanation of how to vote a split ticket appears on page 8 of this issue of the Enterprise. Sample ballot appears on the same page.

Some few are already making their decisions or have made them as absentee voting will continue through Nov. 1.

Whirlwinds Looking For Upset When They Meet Mustangs Here

Trying to fill the role of spoiler for the Mustangs this week during Homecoming will be "The Mean Green" a nickname the Floydada Whirlwinds have picked up this year.

Floydada will be coming into the game with one loss for this year.

Hale Center defeated the Whirlwinds at Floydada on their Homecoming. The game was played in a driving rain with the Winds losing nine of more fumbles to the upset minded Hale Center Owls.

Leader of the Whirlwinds is Ted Wester a standout end who is said to be like Jerry Leivas. "If the quarterback gets the ball in the air he will catch it," commented Coach Beck. "Wester is a two way man as he plays a rugged defensive game as well as offensive."

Quarterbacking the Winds this year is Jack Gregory. Gregory is a fine passer with Wester being his favorite target.

Steve Craig, Steve Puckett, and Mark Weems are the big men in the ball carrying department for the Whirlwinds.

All-district center Stan Pierce anchors the Wind line. Coach Beck describes the Floydada team as the biggest team we have met all year, plus being a very good passing team.

"Floydada's defensive is really tough," he said.

Head coach of the Whirlwinds is L. G. Wilson in his first year at Floydada. Coach Wilson had several good seasons at Winters before coming to Floydada. They traveled to the semi-finals one year while winning district several times.

This was to have been a re-

building year at Floydada but it seems that they just needed a spark to light the fire and they have turned into a winner already this year.

Friday's game will be the big one as far as the Mustangs are concerned as they can clinch a tie for district champions and the right to meet Denver City for the Bi-District title if they beat Floydada. In that situation, we play Denver City here this year.

The win this Friday night will be the 19th district game in a row for the Mustangs to have won. It will also be the 14th

win in a row on our home field.

Starting lineups for Olton will be as follows:

OFFENSIVE -- Joe Luera, Steve Burleson, Eddie Hooper, Jason Latimer, Tony George, Joe Hernandez, Emiliano Marquez, Johnny Lewis, Charles A. McClain, Kenneth Johnson and Benny Akin.

DEFENSIVE -- Kenneth Johnson; Johnny Lewis, Joe Luera, Steve Burleson, Barry Cowart, Eddie Hooper, Gary Durham, Tony George, Benny Akin, Sel Sanchez and Charles A. McClain.

HOMECOMING QUEEN -- One of these lovely young ladies will reign over Homecoming activities after she is crowned at the pep rally at 3:35 Thursday afternoon. Pictured left to right are Letha Estes, Francine Offield, Kathline Carson and Leslie Norfleet.

Homecoming Events Slated For Weekend

A frenzy of excitement builds as Homecoming becomes reality this weekend.

Many activities are being planned, including two pep rallies, the crowning of a football queen, a spirited parade, P-TA Chili Supper, and ex-students assemblage in the school cafeteria, following the all-important clash between Floydada Whirlwinds and district-leading Olton Mustangs.

Proceedings begin today at 3:35 with a pep rally held in the gymnasium. The public is welcome to come and participate in the event which will introduce the candidates for Homecoming Queen.

Four young lovelies -- Kathline Carson, daughter of Mr. and Mrs. K. W. Carson; Leslie Norfleet, daughter of Mr. and Mrs. Owen Norfleet; Letha Estes, daughter of Mr. and Mrs. Jack Estes and Francine Offield, daughter of Mr. and Mrs. Denver Offield will be presented by their escorts: Captains Benny Akin, Eddie Hooper, Steve Burleson and Charles A. McClain.

The candidate chosen for the honor will be crowned with the coveted "glittering helmet" to reign throughout the festivities.

Undergraduate cheer-

leaders Jan Scruggs, Sunya Sorley, Janie Jones and Bonnie Offield will be in charge of this event and of the second pep rally, which will be conducted Friday at 2:35 p. m. School will be dismissed Friday at 2:50 and busses will run at 3 p. m.

Down town parade, scheduled for 4 p. m., will originate at Turner's Shamrock Station under sponsorship of the Student Council.

Theme of the parade, "Reflections of Mother Goose" will be portrayed in the five floats entered from junior high and high school groups.

Both junior and senior high school bands, under direction

of Fred Stockdale, will march in the parade, as will the Scout organizations.

The annual Chili supper, sponsored by the Parent-Teacher Association, will be served in the school cafeteria from 5 to 7 p. m.

A unique feature of this parade will be Roy Rodgers, 4 year-old-son of Mr. and Mrs. J. D. Rodgers, astride "Hi Fi" his father's trained shetland mule.

Highly trained in performance skills Hi Fi also foretells future events. Having been asked if Olton will win he has nodded an emphatic YES! (Being distantly related to the Mustang,

he should be in position to know.)

Kick-off time is 7:30 p. m. The Queen and her court will be introduced in special pre-game ceremonies, as will the award winning floats.

An after-game coffee for all ex-students and ex-teachers will be hosted by the student council, David Howton sponsor. This event will be staged in the cafeteria.

At least two classes, 1943 and 1953, have made special provisions for assembly and reminiscence.

Everyone is invited to get in-the-act and to help make this the finest, most memorable Homecoming to date.

'Consolidation Not The Answer' Frank Ford Tells Oltonites

Frank Ford, Republican candidate for state representative of the 72nd district, spoke to a small, but interested audience during a visit in Olton Tuesday morning, saying that he felt that the people were ready for a change from the one party system in Austin to a two party system.

Touching briefly on some of the main issues, Ford emphatically stated that he was against the consolidation of the rural schools.

"About the time the governor's committee report was released, I began alerting people about the dangers of consolidation. I was raised in a small town and I firmly believe that we need to put economic growth

and agriculture -- related industry into small towns, rather than try to destroy them. The large towns have more problems now than they can solve."

"In some areas of the district, school children would be on a bus as much as seven hours. Some of our best schools are the smaller schools, such as Springlake-Earth, Olton, Lazbuddie and Wolcott."

Ford continued, "A community needs a school and I intend to work against this consolidation."

Criticizing the Democratic party, Ford said that there was going to be a two party system in Austin this year with at least 40 Republican legislators and "we will have a two party system that will work for the interest of the people."

"In the past session, 30 million dollars were added to the taxpayers' bill, by a conference committee, in the secrecy of Ben Barnes apartment. Development of the LBJ Park received \$500,000 of this."

"Even Gov. Connally was critical of the action of this committee. The only way to stop this, is to elect a man free from the influence of the party."

When asked about the daylight savings time issue, Ford said that he "will introduce a bill to put us back on standard time."

"Even though this was the wishes of the people of this district when this issue came before legislature, the district was not represented. The party asked the present representative to push the issue and he did and it was passed."

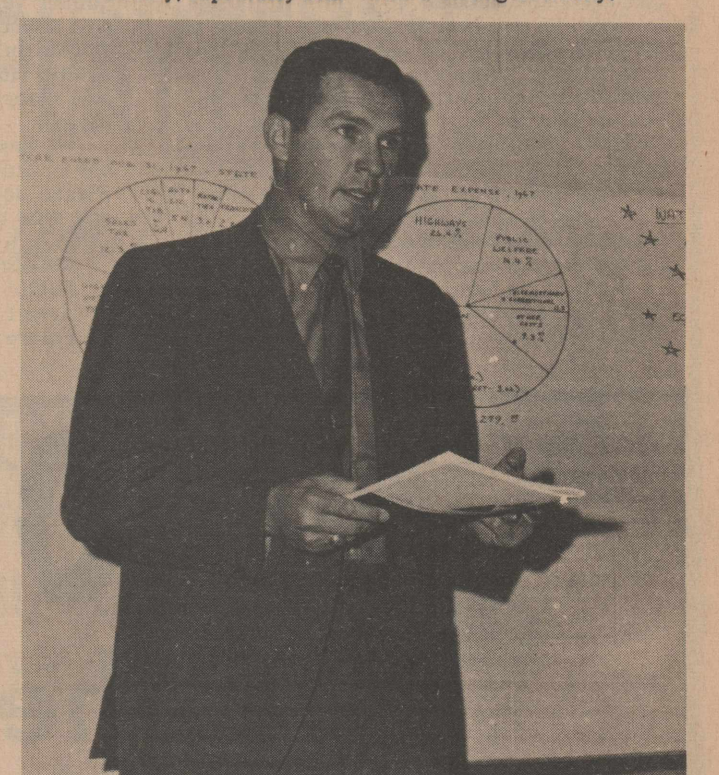

"In every single incident when the interest of the people clash with power interests, the power interest was represented."

Ford said that the time was right for an economic growth in Lamb County, especially with

cattle and hog markets located near the county now.

"There is no reason at least 30,000 head of cattle could not be fed out in this county. It would be a short haul for farmers to bring grain to elevators which would serve a feed lot. A 30,000 head feedlot would create about 50 jobs and that, in turn, would create other jobs, which would serve the feedlot operation."

"I consider it a responsibility as well as a privilege to represent this area so that our children will have a free country in which to live and one with a strong economy."

FRANK FORD speaks in Olton Tuesday about issues confronting the 72nd district, striking out against consolidation of rural schools.

Visitor From Germany Likes 'Sunshine And Wind'

Mrs. Mina Nafzger Schaefer of Singer, Germany has been visiting this week in Olton, Hereford, Plainview, Kress and Canyon. Mrs. Schaefer's father was a brother of the late Sam Nafzger who came to Lamb County in 1913.

In Olton, Mrs. Schaefer visited with cousins, Mr. and Mrs. Arthur Nafzger, Mr. and Mrs. Paul Nafzger and Mrs. Juanita Thomas, daughter of the late Mrs. Margaret Nafzger.

Born and reared in Switzerland, Mrs. Schaefer brought greetings to her West Texas relatives from her three sisters who still live in Switzerland.

The visit is Mrs. Schaefer's first to Texas although she has traveled to the United States twice before, visiting a brother in Monroe, Wis.

"Texas is very beautiful, especially the sunsets," Mrs. Schaefer remarks. She adds, "The flat land pleases me very much and I like the sunshine and the wind."

Mrs. Schaefer is staying in the home of Pastor and Mrs. Sam Nafzger of Canyon. Two years ago, during a visit to

Germany, Sam Nafzger visited in the home of Mrs. Schaefer and her husband.

Mr. and Mrs. Arthur Nafzger entertained Mrs. Schaefer in their home Monday afternoon. Also present were Mr. and Mrs. Ralph Nafzger of Plainview, Mr. and Mrs. Paul Nafzger, Pastor and Mrs. Sam Nafzger of Canyon, and Mrs. Juanita Thomas.

Baptist Church To Host Show After Football

High School youth of the First Baptist Church will be served sandwiches, chips and dips, cookies, and Cokes Friday night following the football game with Floydada.

A full-length horror movie, "The Bride of the Gorilla", will be shown following the refreshment time.

All of these youth and their guests are invited to drop by Friday night.

Youngster First In Week's Contest

A tough contest this past week resulted in lots of misses -- even for those who usually are near the top of the list.

A little fellow, Johnny Lunsford, won first place this week with 12 correct answers. He will be mailed a check for \$5.

David Autry of Lubbock was second place winner with the same number of correct answers but came in second because of the tiebreaker score. He will receive \$3. He was off 15 points on the tiebreaker while Johnny was off only eight.

Third place resulted in a tie between Sandra Splawn and Tom Sluder who each missed four games and were 15 points off on the tiebreaker. They will split third prize money and receive a dollar each.

Still maintaining her lead in the season contest is Ruby Lee Sherman with 77 points only one point ahead of Trent Sharp and Charles Diddyway of Post is close behind with 75. Complete standings are printed inside this issue.

There is still time to enter

this week's contest. Simply pick up a copy of last week's Enterprise and fill in the blank, and drop it into an envelope placed at one of the sponsoring businesses.

Chili Supper Slated Friday

The annual chili supper sponsored by Parent-Teacher Association will be served preceding the Homecoming game. Serving hours are slated from 5 to 7 p. m.

A menu including "Victory" chili, accompanied by the traditional beans, pickles, onions, crackers, catsup with pie and milk or coffee will be served this year.

Those persons 12 years and over will be charged \$1. and children under 12, 50¢.

There will be no advance ticket sales.

Five hundred plates have been planned and tickets will be available at door only.

Dear Editor

Communism In America

Editor,
Well, they have changed the time of day again.

Remember when they changed Thanksgiving? They hadn't changed the calendar, some celebrated the old, some the new, and some both.

They got us straight the next year, as they got the calendar changed. Wasn't too confusing, hard on the turkeys that year, of so many Thanksgivings, but good for the turkey raiser.

Things like changing the time of day, or Thanksgiving day, we can adjust to without ill effects. - But, bringing Communist soldiers over here and teaching them to fly our best jet air planes, and then send them back with one for a pattern; could cost the lives of American boys, since they have Communist in our defense plants, that gun could jam, that plane is more apt to fall with our fighting men.

This all happened during the last Rep. administration along with passing a law that it is a Communist Constitutional right to be allowed to work in the U. S. defense plants and teach in our schools. - Is it any wonder we find so many of the teachers on the side of the rioting student?

A Chinese Communist intelligence Chief wrote:

Is it true that most Americans, like the majority of the American POW's in Korea, haven't done anything for which they can be criticized?

As one country after another has slipped, or been pushed behind iron curtains, they

have done nothing.
Their money is used to send foreign aid to the Communist enemy, they do nothing. In their reactions, Americans are like a majority of the POWS of Korea. They do nothing to be criticized for.

At least 98 per cent of all Americans are opposed to Communism, yet, they watch elected and appointed officials give continual aid and comfort to the enemy, and they do nothing.

They pointed out that the Communist brainwashing in Korea wasn't designed to make Communist out of Americans. If it succeeded in making them "go along," it did it's job. Do nothing Communism will win without firing a shot.

It was said, the prisoners behavior was less an individual failure than it was an indictment of our entire society, which had not prepared them adequately for their head on collision with Communist indoctrination.

Can we ignore this forceful example of the impact of Communist psychological pressure? Our continued survival may depend upon the action we take now to insure that all citizens, not only military personnel, are fortified against the continuous Communist ideological assault.

George Wallace is the only candidate that has promised to do anything about it. I think the clock has already struck 15, and it's later than we ever "knewed it to be".

Mrs. V. Y. Jefferies

Future Homemakers

DEAR EDITOR:

"We are the Future Homemakers of America. We face the future with warm courage and high hope."

This is the beginning of the creed of the FHA chapters of our nation. We are just another organization at the local high school, but a group of young people who realize that we must prepare for the future. Today's youth face many responsibilities. Future Homemakers, Future Farmers, Vocational and Industrial Clubs of America, 4-H Clubs, Boy Scouts, Girl Scouts and countless other youth organizations are working together, preparing for the future.

We face the future with warm courage because we care, we love America, one nation under God. We ask you to care. Help us

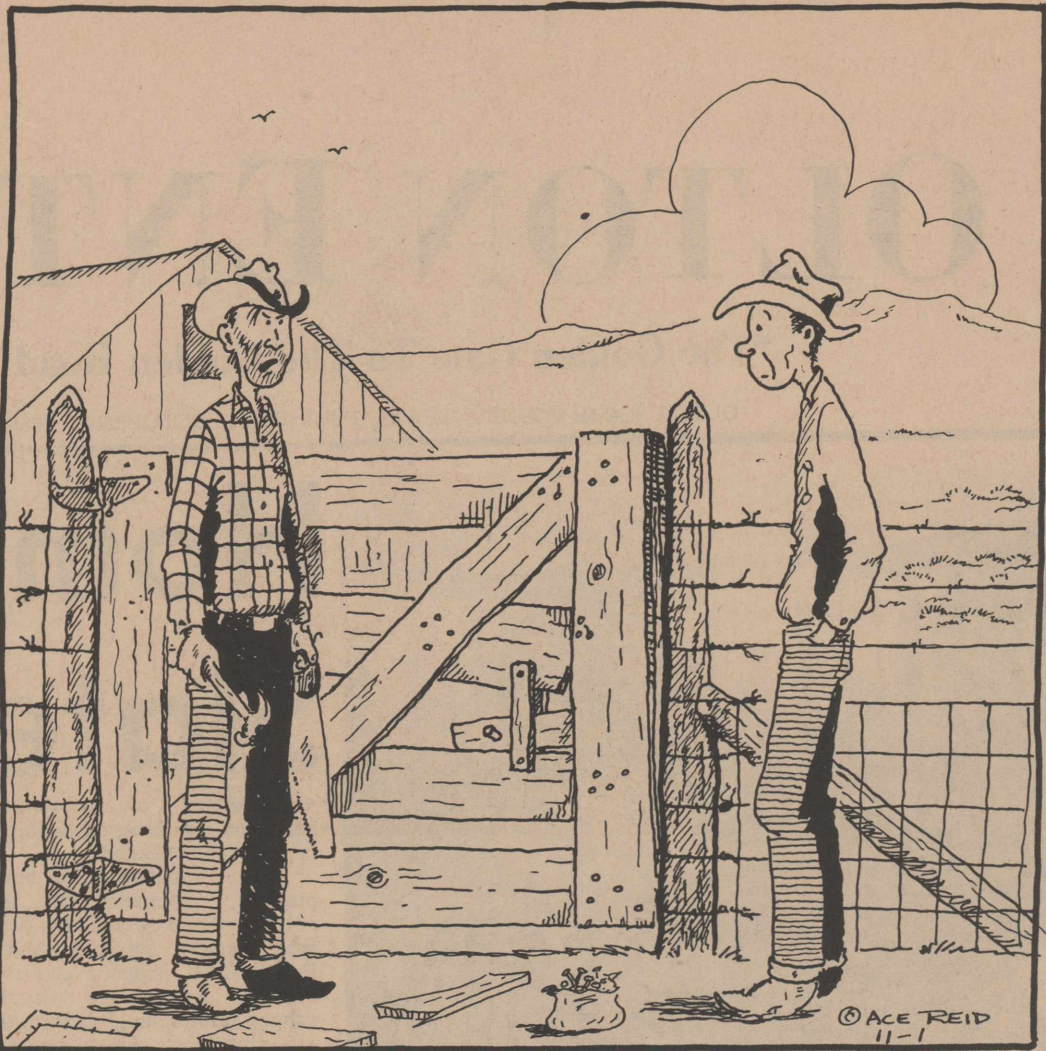

stamp out apathy.
"Don't-care-itis" can overcome a human very rapidly. How much you care will affect the posterity of this nation and the world. In a short time many of us will be adults. How much you care on November 5th will determine the type world you will hand us.

We have high hope because we have placed our confidence in you, our parents and friends. Please do not fail us. Vote on November 5th and show that you care.

How many carrots can be grown on an acre?

Enough to ruin all the peas grown on 100 acres.

Did you read that Aristotle Onassis gave Jackie a ring valued at more than \$1 million?

Well, when a billionaire visits "the place where people go when they are through playing games", he can afford the best in the store.

What did you think about George Ball resigning his post as ambassador to the U.N., and joining Mr. Humphrey's organization?

The way the polls are looking, George may have made a mistake. The U. N. never accomplishes anything, but the pay is steady, and the outfit will probably still be in business after November 5th.

A cigarette with a filter tip containing tobacco is now on the market. Would this have any advantages?

Yes. A person who happened to light the wrong end would never know the difference.

Did you read that Richard Nixon said he keeps his weight down by eating a lot of cottage cheese?

Anyone who has to shave twice a day, and eat cottage cheese to stay slim, must have a lot of will power. Under the same conditions, I'm afraid I'd end up as a fat man with a long beard.

New Puppies

There has been an addition to our family since the last time I sat at this typewriter.

We are now proud (?) owners of six little puppies, wait, make that five. And there is a mighty cute little story that goes with the changing.

Our little family of pups were not found until this past Saturday, when we discovered that they were underneath the house of a neighbor.

So we asked the little boys to get under the house and get them for us which we did. But while getting them out, one of the little girls said that her cousin had found one of the pups and taken it home with her earlier in the week.

Well, now this was fine with me, but the puppy needed to be with its mother so I told her if she wanted to bring it back and let us keep it until it was big enough to wean, then she could have it back.

So that night after we had them all settled and we were preparing to go to bed, the kids were discussing the little pup and asked me if she had brought it home yet.

I replied that the little girl hadn't had time yet, that it was just that afternoon when we had found the pups. And besides we would have to give them away sooner or later, we couldn't keep them.

Well, now, this didn't set too well with my five year old Scottie, who chimed up and asked, "Why do we have to give them away, let's keep them."

To which I replied, "We can't keep them all, we will have to give some of them away."

"Don't give them away, Mom," he says, very woefully.

"I'm not going to give them away now," I say, "We'll keep them til they get big enough to eat."

"Don't EAT them, Mom," was the heartbreaking plea from him after that answer.

I laughed until I cried, I am always saying something that doesn't sound like I intend for it to, but this was ridiculous!

The Lions had as guest a couple of weeks ago, a state highway patrolman that told a cute "dog" joke, that this made me think of so I'll share it with you.

Seems this old man had been brought into court to tell the judge why he was claiming that he was injured in an automobile accident when, at the scene of the accident he said he wasn't hurt.

The old man replied that he had had two dogs with him at the time of the accident and when everything settled down after the mishap, one dog lay on one side of him, all cut and bruised and bleeding and another lay on the other side of him just as badly hurt.

He continued, "This policeman came up and looked at one of my dogs and took out his gun and shot him, went over and looked at the other one and shot him and then turned to me and said, 'You hurt, fella?' So I told him right quick that I wasn't hurt."

72nd DISTRICT NEEDS BILL CLAYTON

The economy of West Texas and particularly the 72nd Legislative District is based on water supply for agriculture, municipal and industrial needs.

We need the help, assistance and proven leadership of people like BILL CLAYTON who have the influence, seniority, integrity and ability to get the job done.

**Your Effective
Voice In
Government**

BILL CLAYTON'S record stands for itself. It reflects the work of conscientious young man. The 72nd District is in good hands.

VOTING RECORD AND POSITION

★ WATER DEVELOPMENT

Bill Clayton has been directly associated with every major piece of water legislation passing during the last six years. He is recognized by his colleagues as being one of the most effective and well informed members of the Texas Legislature on water and soil resource development and conservation. Bill Clayton knows the vital importance of water, not only to your future, but to the future of the entire State. Past accomplishments and effective leadership have made Clayton vital to continued progress in development of water resources for the High Plains.

★ EDUCATION

Child by child we build our nation . . . tomorrow depends on today's children and young adults. Bill Clayton is ever mindful of the need to raise our standard of excellence in the Texas school systems. This can only be done through the uprating of the Texas schools, and dedicated recruitment of the finest teachers. Clayton co-authored a bill that created the "coordinating Board of Texas Colleges and University systems. His voting record shows a continued support of teacher pay-raise and the strengthening of all educational systems in Texas.

★ LAW ENFORCEMENT

Today, law enforcement agencies are facing new problems. Bill Clayton is concerned about the breakdown of law and order. Clayton has been active in seeking higher salaries for law enforcement officials and uniform standard procedures. Bill Clayton served on a special House Committee which will suggest revision of our obsolete liquor laws. Clayton believes that all people must respect the law and that proper enforcement is essential to maintain law and order.

★ INDUSTRIAL DEVELOPMENT

Bill Clayton knows that industrial development helps to stabilize the economy of any given city or area. During his six years in the Legislature, Bill Clayton has worked aggressively for industrial development for our area of the State. Several smaller cities in our 72nd Legislative District now have airports as a result of Clayton's assistance in starting a program of State grants. These State grants are financed with unclaimed gas tax refund on aviation fuel. Bill Clayton knows that airports help encourage industry in less densely populated areas.

★ TOURISM

Bill Clayton has worked hard for tourism during his six years as State Representative. Clayton, House Speaker Ben Barnes and other interested legislators were successful in establishing a National Park in the Big Bend area of West Texas. The water importation program being led by Clayton will develop many new recreational opportunities with huge water reservoirs for fishing and boating. Bill Clayton realizes both the need for more recreational facilities in his district and increased business activity from tourist trade.

★ COUNTY, CITY & LOCAL GOV'T

Bill Clayton has been a strong advocate of local government. He is currently serving as chairman of the Committee on Counties of the Texas House of Representatives. Clayton believes that government at the county and city level are more responsive to the people and whenever possible they should take the lead and the responsibility of many governmental programs and functions. Clayton has authorized many bills that benefit the cities and support the idea of allowing cities the option to choose their own method of taxation. Bill Clayton is needed on the job for more effective and responsible county, city, and local government action.

Take advantage of this opportunity to keep your firm grip in the State Legislature by going to the polls on November 5th, and casting your ballot for **BILL CLAYTON**

Recipes Of The Week

Our recipes this week are contributed by Billie Jean Wilkinson, secretary for the Chamber of Commerce. She moved here with her family in February of this year.

Mrs. Wilkinson is the mother of three. Judy, 14, is a freshman in Olton High School; Lynn, 13, is an eighth grader and member of the eighth grade football team and Patti, 12, is a sixth grader at Olton Junior High.

Although she has not lived here for several years, Billie Jean was born and reared at Olton. Her parents are Mr. and Mrs. L. L. LaDuke.

Billie Jean's hobbies are volleyball and bowling. She enjoys all sports.

The family attend the Methodist church.

CARROT CAKE

3 c. flour
2 c. sugar
2 tsp. baking powder

1 tsp. soda
2 tsp. cinnamon
pinch salt
1 1/2 c. pecans

ADD

1 1/2 c. cooking oil
2 c. grated carrots
1 small can crushed pineapple
3 eggs
2 tsp. vanilla

Sift flour and dry ingredients. Add liquids and mix. Add eggs last and mix well. Bake in a large tube pan at 350 degrees for one hour.

MILKY WAY CAKE

8 milky way bars
2 sticks oleo
2 c. sugar
4 eggs
2 1/2 c. flour
1/2 tsp. soda
1 1/4 c. buttermilk
1 c. chopped pecans

Melt bars and 1 stick oleo. Set aside. Cream sugar and one stick oleo. Add eggs. Add flour alternately, soda with buttermilk. Add melted candy mixture. Add pecans. Bake in tube pan at 325 degrees for one hour and 10 minutes or until done.

MILKY WAY ICING

2 1/2 c. sugar
1 c. evaporated milk
6 oz. chocolate chips
1 c. marshmallow cream
1 stick oleo

Cook to soft ball stage and add chips, cream and oleo. Stir until all are melted.

HONEY NUT CAKE

8 c. sugar
2 c. honey
4 c. milk or water
1 lb. almonds
1 lb. walnuts
2 tsp. cinnamon
2 tsp. ground cloves
1/4 c. candied lemon peel
1/3 c. candied orange peel
1/2 c. citron
2 tsp. soda
flour

In saucepan slowly bring to boiling point sugar, honey and milk. Boil 15 minutes. Add spices, nuts and fruit. Stir in as much flour as can be done with a spoon. Set aside to cool. Then mix in soda, cinnamon and let stand over night. Next day mix in enough flour to make a stiff dough. Let stand a few days. Roll out to 1/2" thickness. Bake at 375 degrees for 15 minutes or until lightly browned. Remove immediately.

Teacher's Ass'n Urges OK Of Amendment 9

Passage of Amendment #9 in the November general election was today urged by Charles H. Tennyson, Executive Secretary for the 123,000 member Texas State Teachers Association.

Tennyson described Amendment #9 as "vital both for attracting new and promising individuals into the profession, and for holding those experienced Texas teachers who find themselves discouraged by a retirement program which needs updating."

If passed, Amendment #9

would make it possible for each teacher in the state to contribute to the Teacher Retirement System on the basis of his full salary.

At present, and for the 31 years the system has been in existence, there have been constitutional limits on the salary which could be used as the basis for a teacher contributing toward retirement. The retirement system for other State of Texas employees does not have any such limitation. A constitutional amendment removed limitations for them several years ago.

"It's now been 12 years since a constitutional amendment raised the ceiling in the Teacher Retirement System. We can't keep upgrading Texas

education if we have to wait half a generation between adjusting our teacher retirement system to economic changes. Eliminating the ceiling concept entirely will put Texas back in the race for getting and keeping the kind of teachers we want for our children," concluded Tennyson.

Grave Of Sheriff F.A. Loyd Receives Historical Marker

An Official Texas Historical Grave Marker for the late Franklin A. Loyd, father of Mrs. Winston Bley, has arrived from the foundry and has been placed at his grave in the Littlefield Cemetery. A dedicatory ceremony will be held at the graveside at 3 p. m. Sunday Nov. 17.

The inscription on the marker reads: Franklin A. Loyd March 6, 1889 - March 21, 1937. Born in Montague County. Taking office as sheriff in 1935, he served with honor until mortally wounded in line of duty. His widow, Mrs. Grace Owen Loyd, served remainder of term. He was father of eight children.

The marker is one of a series that will record the brave deeds of Texas' most gallant lawmen from the days of the Republic to the present.

Loyd died March 21, 1937 of

bullet wounds received two days earlier.

"Sheriff and Police", a law-enforcement magazine, published soon after Loyd's death described the lawman thus:

"The sheriff was conscious to the end, and one of his last requests was that the negro be given a fair trial. That his last request was typical of the man, is agreed by all who knew him. Time and time again during the almost two years he had served this county as sheriff, have many intimates and this editor himself, heard him always asking for fairness and fair treatment. Yet with that honesty and fair-mindedness, he was not timid. Fear was not in his nature, and his oft repeated remark was that he sought only to make a good sheriff - and he did."

VISITS DAUGHTER

Mrs. Tom Stansell spent Saturday night in the home of her son-in-law and daughter, Mr. and Mrs. W. Dwight Joiner of Dimmitt. They attended church services Sunday morning in Dimmitt United Presbyterian Church where Rev. Mitchell Kennedy is pastor.

Card Of Thanks

The Parent-Teacher Association wishes to express appreciation to the entire community for helping to make the district fall workshop of October 22 a decided success. Especially are we grateful to the Chamber of Commerce for a gracious committee of welcome; to the merchants, for their loyal participation through advertising and publicity; to the program participants; to the cafeteria staff members; and to all others who in any way assisted in this fine endeavor.

Virginia Moss, President.

I would like to express my appreciation, and thank everyone for the prayers, flowers, and visits during my stay in the hospital.

ELECT ★ DICK BROWN TO CONGRESS

FARMER - BUSINESSMAN

*Native Texan, member of pioneer Hartley County farming and ranching family.

*Graduate of University Of Colorado, Lieutenant in Naval Reserve.

*Tireless civic worker and Sunday School Teacher, Hartley First Baptist Church.

If the Panhandle area is to meet the challenge of these fast-changing times, our district must have a Congressman of vision and dedication, a man who knows how to work with others and get things done. Dick Brown can provide that kind of progressive voice, and help build a future of opportunity.

Study Club Hears Study 'Land Of The Red People'

Sixteen members were present Monday evening, Oct. 28 when Mrs. Truitt Sides hosted a regular meeting of Olton Study Club. Devotional thoughts were led by Mrs. Paul Burrus. A short business meeting, Mrs. J. L. Carson Jr. presiding, included plans for packaging the yearly Christmas gifts for the State Institution at Wichita Falls, and for the annual sale of Fruit Cakes for the holiday season.

The program for the evening concerned Oklahoma, which means "Land of Red People".

A splendid study of Indian Territory prepared by Mrs. Jack Straw and presented by Mrs. Paul Burrus described one of the most tragic episodes in American history.

In a heart breaking emigration, now labeled "The Trail of Tears" five civilized tribes of Eastern Indians were banished from the land of their fathers east of the Mississippi to a far western wilderness that was pledged to them "so long as grass is green and waters run". This, to the perception and understanding of the red people, meant forever and ever.

But, according to Mrs. Burrus, such was not the case. The Chisholm Trail bisected this "happy hunting ground" and thousands of long horned cattle appropriated the rich blue stem grass in passing.

White settlers, too, coveted

the land and eventually thousands of intruders were living among the Indians.

During the war between the states guerrilla bands from both sides ravaged the Indian nation and left the land stripped. Elaborate plans for establishment of a Commonwealth failed...

the land of the red people became the frontier of the white man."

The influence of the Indian has had great effect on the state, said Mrs. Burrus.

Two of it's best loved citizens now represent her in Statuary Hall of the Nations capitol, they are Sequoyah and Will Rogers...both are Cherokees!

The Club's next meeting will be Nov. 11 when Mrs. Carl Hooper will be the hostess entertaining at the Women's Club House.

County TSTA OK Amendment

The Lamb County Unit of The Texas State Teachers Association endorses Amendment 9 which is to be voted on in the general election Nov. 5. The members of this organization urge that the voters give this amendment their approval.

Approval of the amendment will not mean an increase in taxes.

The present Teachers' Retirement Provision places the ceiling of individual teachers' annual salary base on which percentage retirement may be paid at \$8400.

The proposed amendment will permit all Texas teachers to pay retirement funds out of their total salary even though it may exceed \$8400. The Association urges that this amendment be given careful consideration.

OLTON TRADE LOT

**THIS IS WHAT
FRANK FORD
HAS BEEN SAYING
DURING HIS CAMPAIGN TO
SERVE YOU AS
STATE REPRESENTATIVE**

WATER CONSERVATION AND IMPORTATION:

"Water is the life-blood of our irrigated economy, and the importance of total water resources planning cannot be over-emphasized. Feasibility studies for importing water to the high-plains from the lower Mississippi basin should be pushed forward at maximum speed. Funding on these-and importation itself-must come from congress, with maximum state-federal cooperation. At the state level, our district is far behind on planning for flood control and conservation dams on our creeks. We must keep the water that falls in our district, rather than seeing it rampaging on down-stream after every big rain. We must use lake water and tail water return systems to the maximum, along with irrigation practices consistent with the water available in any given area. If elected, I intend to work with men who have a proven record of water conservation. Under no circumstance must this issue be allowed to become a political football to be used at election time for partisan gain."

EDUCATION AND VOCATIONAL TRAINING:

"Texas has fallen from 33rd to 38th during the past eight years in per-student support for education. During the same time, we have fallen from 40th to 44th in literacy. This dismal record cannot be continued if our young people are going to be able to hold jobs which will be available in the 1970's. We must increase our attention to primary education and the development of basic skills, give additional help to children with specific learning disabilities, increase pre-school opportunities with bilingual education where needed. Vocational training must be increased, with emphasis on job training by private industry, so that the trainee will know that a specific job is waiting upon completion of the training. Education and jobs are the only effective answer to poverty."

FRANK FORD IS THE ONLY CANDIDATE IN THE RACE WHO HAS SPOKEN OUT CLEARLY ON:

- ★ The need to keep the family sized farm unit strong as it is the backbone of our rural economy.
- ★ Practical measures that should be encouraged in each community for economic growth.
- ★ The need for abolishing daylight savings time, a measure which his opponent pushed to passage in 1967.
- ★ Ways to reduce the crime rate, which has nearly doubled in the last eight years.
- ★ The need for a two-party system so that the people can regain control of their state government.

**FRANK FORD WILL REPRESENT THE PEOPLE
OF THIS DISTRICT**

Election Ballot Change May Confuse Some Voters

Two factors may cause some balloting confusion in the November 5 general election, election officials in Texas forecast this week.

The two factors are:

1. A new State law has inserted a new top line on the paper ballots so that persons desiring to vote a "straight party ticket" may do so by making one mark. This new line is expected to confuse not only the "straight ticket" voters, but also the "split ticket" voters.

2. "Split ticket" voters are expected to be more numerous than ever before, especially since there is a third party, the American Party, and it has candidates for only President and Vice-President and no other offices.

Voters are cautioned to be certain that their ballots are properly marked so that their intentions will not be subject to interpretation by election officials.

The "scratch" method of voting, which some people prefer, is still permitted. However, voters using this method are cautioned to be certain to mark through all names in all three party columns for which they do not wish to vote.

There are 19 counties in Texas that use voting machines. As in the past, one lever can be pulled to vote a "straight ticket." To vote a "split ticket," individual levers should be pulled for each candidate of the voter's choice. Persons who are uncertain as to how to operate a machine should contact one of the election officials before entering the voting booth.

Voting machines are scheduled to be used in the following counties: Bell, Bexar, Brazoria, Cameron, Dallas, DeKalb, El Paso, Galveston, Gregg, Harris, Hidalgo, Jefferson, Midland, Nueces, Potter, Randall, Rusk, Smith and Tarrant.

How To Vote A Straight Ticket or A Split Ticket

To vote a "straight party" ticket, mark an "X" in one, and only one, of the boxes on the ballot's top line:

Candidates for: ☐ PARTY A ☐ PARTY B ☐ PARTY C

To vote a "split ticket" do not mark any box on the top line. Instead, mark "X's" in the boxes at the side of the individual candidates of your choice:

'Generation Gap' Is Not Invention Of America Says Extension Director

The famous "generation gap" is not an American invention.

"If you think just we have long hair and mini-skirts, you are wrong," said Mrs. Florence Low, assistant Extension director for home economics, after returning from the International Home Economics Congress.

The meeting participants discussed the generation gap and other internationally common family problems.

Mrs. Low, with Texas A&M University, this summer spent a week in Bristol, England, attending the congress and two weeks touring the British Isles.

Baked beans for breakfast, beautiful yards and congenial homes were part of the assistant director's trip. But most impressive, she said, was the way the 1,100 people from 60 countries worked together, despite the language barrier and different cultures, to solve

common family life problems.

"I really was impressed, too, with beauty of homes across the country," Mrs. Low remembers. "I did not see a single plastic flower on the trip."

The five major problems were cited as: malnutrition, over population, conflict, communication and training for girls and women who are more frequently leaving the home to work.

Malnutrition and overpopulation are world wide problems. An agronomy engineer told the group they would have to decide whether to feed the old or the young. There is not enough food for both, he said.

The generation gap is a part of family conflict.

Internationally, women are beginning to work outside the home and they need training. Families, too, stressed Mrs. Low, need to understand a wo-

man's role in society.

"In this country, we have a shorter distance to go," she said. "Women have been working for a long time but there still are those who feel their place is in the home."

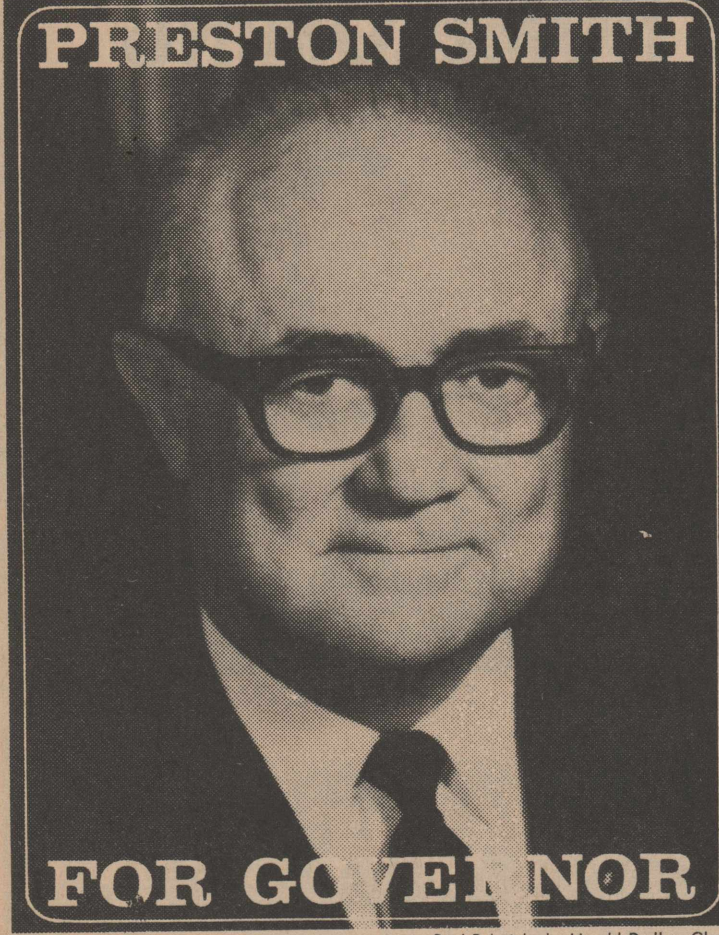

The International Federation of Home Economics, sponsor of the congress, is the only means of communicating with home economists around the world. And today, international cooperation has never been more important, said Mrs. Low.

"We live in a world without boundaries, all having many of the same problems," the home economist said. "Even though they may be solved in different ways, there are common denominators. The conference helps us understand various cultures so we can cooperate."

OLTON STATE BANK

MEMBER OF F.D.I.C.

Paul Eggers' Stand On Agriculture Issued By Campaign Chairman Wilson

Statement by Will Wilson, campaign chairman for Paul Eggers, Republican candidate for governor:

"The long-standing Democratic vote in the rural areas is showing signs of weakening this year.

"With only one established party, the vote of the farming community has been taken for granted, and the Democratic-controlled state government stood by while rural communities slowly decayed.

"From 1949 to 1965, Texas

fell from the number one agricultural producer in the nation to the number four producer.

Poverty runs twice as high in our rural areas as in our cities, the number of agricultural jobs has decreased by 45 per cent since 1950, and from 15 to 30 per cent of the people have moved away to cities. Now our rural communities and schools face a crisis for survival.

"Through the work of Paul Eggers, rural communities can begin to find new hope in a two-party system. Over the summer, Eggers traveled to more than 250 rural communities to meet with the people and talk about their problems. He has proposals for strong measures to stop water pollution and also find new sources of water for

Texas. He will increase state research to help find new markets for farm products, and he has promised to use the full power of his office to help bring new industry to rural areas.

"Paul Eggers has made a tremendous effort to show the rural communities that we must have a two-party system to have a truly responsive government."

'Cold War' GIs Get Educational Opportunities

Passage of a sweeping new veterans bill on the next to last day of the 90th Congress was a great victory, not just for me, but for six million American veterans of the Cold War period and the war in Vietnam. Congress approved a series of amendments to my Cold War GI Bill of two years ago, and to other existing veterans laws--giving today's young men information the best opportunities ever to return to school and to better protect their families.

Congress improved on my original Cold War Bill by offering the returning veteran a minimum of one and one-half months of schooling for each month he served in uniform--up to 36 months of schooling with government financing. That does not mean college only. Returning GIs can choose to return to high school, or they can choose on-the-job training in a skill, business college, technical school, trade school, on-the-farm training, or even commercial flight training.

The new bill also includes -- for the first time-- educational opportunities for widows of servicemen. For many years we've had government pensions for military widows. But we've never given them an opportunity to return to school and become better prepared to support themselves.

Previously, veterans could receive a month of schooling for each month of active duty, so that a man drafted for two years could have two years of education upon discharge, with government support. Now he is guaranteed a minimum of one and one-half months for each month in the service; but every veteran who completes at least 18 months in the Armed Forces now is entitled to a full 36 months in school. That's enough for a high school graduate to earn a college degree, or enough for a veteran who chooses on-the-job training to master a skill.

Our Cold War veterans are finally being treated on a level with the veterans of World War II and Korea. Veterans of those wars returned to school by the millions and became well-educated, wage-earning, tax-paying citizens.

It's estimated that those two bills cost about \$15 billion. But it's also estimated that veterans who went to school under the GI bills will have paid \$30 to \$45 billion in additional taxes from their improved earning capacity.

These six million Cold War veterans-- including 300,000 Texans-- now can have the same chance to learn --and the whole nation stands to gain from it.

All From One Bale Of Cotton

What can a bale of cotton do--assuming 500 pounds lint average? If all the lint from just one bale went into sheeting, and no waste in processing, it would make 327 percale sheets per bale. Or, 293 muslin sheets--all 81" X 108".

Pillowcases would roll out of a bale of cotton like Topsy. One bale of cotton could make 1,895 percale pillowcases per bale.

Handkerchiefs really up the figures. From one bale of cotton, a textile mill can make 11,635 handkerchiefs.

When you look at a 10 cent spool of sewing thread, ever wonder how many spools you could make with a bale of cotton? There's 42,000 yards of 50 ply thread in a pound, or 21,000,000 yards per bale.

It would take just 2.09 bales of cotton to make a single thread to circle the earth at the equator--and have just enough left over to tie a knot!

IN LUBBOCK

Mr. and Mrs. Lewis Wartchow of Stroud, Okla., are spending about two weeks at Lubbock. Mr. and Mrs. Wartchow have been recent visitors of Mrs. Wartchow's parents, Mr. and Mrs. Bob Daugherty. They also visited Mr. and Mrs. Bobby Daugherty, brother and sister-in-law of Mrs. Wartchow.

TAX MAN SAM SEZ:

Paying taxes is a part of our way of life. Most folks say it is a part that they don't particularly like, but since the things they require from their government cost, it is reasonable to expect to pay taxes a few more times before we find the perfect method. The amount of taxes that you pay often depends upon the kind of records you keep. There may be a few CPA's and other professional record-keepers who really love to keep records, but the average taxpayer doesn't. This costs him! Most folks working in the tax business join the Internal Revenue Service in advising you to keep good records. Maybe we should take the trouble. The sweat and frustration might be worthwhile.

Everything But The Kitchen Sink

BY MOZELLE TROTTER

Once in a while I get to thinking "May just be that Grandma was better off than today's housewife - despite all the wonderful appliances we have to make life a snap."

I'm referring to my escapade with an electric blender - or "How to make an Avocado Go Further."

It all began when I - at the last minute - was making (or attempting to make) avocado dip last week.

I suppose I never have really learned how to use my blender because I sometimes have to use a special, slender little spatula "to help things along."

Well, the trick is in knowing just how close to come to those speedy little blades without getting caught! You guessed it. I didn't win this battle.

I've decided that those little whirling blades are a miniature tornado - they can wrack pretty good havoc!

Do you suppose avocado might be good for the complexion?

Yes, I had the silly lid off and just happened to be looking down over the thing!

If I weren't "four eyed" I could have easily been the gal the song writer had in

mind when he composed "Green Eyes."

And you should have seen my bangs! No, I'm glad you didn't. Dippity-do doesn't have a thing on avocado! What with increased costs at the beauty shops, I was determined to salvage my hair do.

I did, too, even though I looked a bit tarnished the rest of the week. (Oh, yes, I still had a blob of avocado in the top of my hair when I got back to the office that day.) Cleaning up those blobs from me, the cabinet and the kitchen was just like picking cucumbers - no matter how carefully you think you've picked them, you can usually find at least one more.

I had avocado on the ceiling and avocado on the floor. And, hard as it is to believe, I still had a little bit in the blender!

After cleaning up and calming down I got to thinking. Wonder what I should try to invent as a result of all this? A remarkable new skin cream? A fantastic new cleaner for linoleum? Maybe the greatest thing yet for woodwork? Wonder if Lady Clairol would like a fascinating new shade - green?

Scheduled In Plainview Nov. 9

The 11th annual Hutcherson Flying Queens Basketball Clinic will be held at Plainview High School, Saturday, Nov. 9 starting at 9 a. m.

A crowd of some 2,000 coaches and girl basketball players are expected for the clinic which features lectures by outstanding high school coaches, special demonstrations by the Flying Queens of Wayland College, four basketball games and a question and answer period following the first two games.

The Queens will be on the program from 10:50 to 11:50 a. m. for special demonstrations of offensive and defensive techniques and ballhandling. Coaches of the eight teams which will play as part of the clinic will speak during the morning session and teams will present special demonstrations.

A coaches luncheon will be highlighted by a film of the 1968 Iowa State Championship game in which a girl on each of the teams scored over 60 points in a 113-107 contest. Also, at the luncheon, coaches of the eight teams playing for the clinic will give a rundown on their teams.

Friona and Slaton are to open the game slate at 2:30, followed at 4 p. m. by Tulia vs Spearman. Hale Center tackles Quitaque in the first evening game at 7 p. m. with Floydada testing Springlake at 8:30.

Schools which have not pre-registered should do so by Nov. 1. Names of girls, coaches, and drivers should be sent with the \$10 school registration fee.

Mighty Mustangs Round Up Lockney Longhorns

By Elmer Houston
Olton's title-hungry Mustangs stirred up a cloud of dust in Lockney Friday night as they corralled the Longhorns of Lockney 35-0.

Lockney's goal line was crossed in each and every quarter as the Mustangs passed and ran like wild stallions.

Work-horse fullback Kenneth Johnson drew first pay dirt as he picked up the first touchdown of the night for the Mustangs from a foot and a half out, with 2:07 remaining in the first quarter of play.

Eddie Hooper, whose father Carl Hooper was a Mustang tackle of the 1928-29-30 era, kicked his first of five extra points of the night.

With 5:39 remaining in the second quarter, Charles A. McClain tossed a halfback pass to end R. L. Copeland for the second T. D. to give the Mustangs a 14-0 halftime lead.

Lockney picked up their first first down of the night early in the third quarter only to give the ball up on fourth down by punting to the Mustangs.

On first down Olton's Big Benny Akin broke around his left end for 80 yards and paydirt his first of two for the night.

McClain added another T.D. to his collection Friday night as

he carried one in from 15 yards out to bring his season total to 70 points. He was tied for the class AA scoring lead before the game.

Big difference in the game was the Olton defense as they held the Longhorns repeatedly forcing them to give up the ball by punting.

Olton forced the Longhorns to punt twice early in the first period before Olton received a third down quick kick on the Lockney 47 yard line.

In seven plays the Mustangs moved the 47 yards with full back Johnson carrying in for the score to put Olton in front 7-0 with 2:07 remaining in the first quarter.

After picking up three first downs to the Horn 33, halfback McClain started out around his right end only to toss a pass to end R. L. Copeland for the second touchdown of the night. Hooper kicked the extra point making it 14-0.

Olton took the 14-0 score into the dressing room at halftime after holding Lockney to a minus 23 yards and no first downs.

Lockney's Longhorns picked up their first first down of the night on a fake punt play early in the third quarter.

Quarterback Tandy Johnson, a great player for the

Longhorns went back as if to punt only to run around his right end picking up 31 yards to the Olton 31.

But the effort went in vain as the Mustang defense pushed the horns back to the 39 before they punted into the end zone on fourth down.

On first down from the 20 Akin broke around his left end and behind beautiful blocking went 80 yards for his first of two T. D.s of the night with 9:10 remaining in the third quarter.

Lockney picked up another

first down out to their own 43 before their all round man Johnston punted on fourth down long yardage needed for the first down.

Late in the third quarter Johnson punted to the Olton 21. From there Olton moved to the Lockney 49 in five plays and having changed ends of the field in the meantime as the quarter had ended.

On first down at the Horn 49, Akin bolted through the left side of the line behind good blocking and outran the Lockney defenders to the goal line

for his second T. D. making it Olton 27-0.

Hooper kicked the extra point making it 28-0.

On the first play from scrimmage after the kick off, Olton stand out Eddie Hooper recovered a Horn fumble on the Longhorn 15 yard line.

On first down halfback McClain broke through the line turned on the steam and went into the end zone standing up for another Olton touchdown.

Hooper kicked the extra point making it five for five that night.

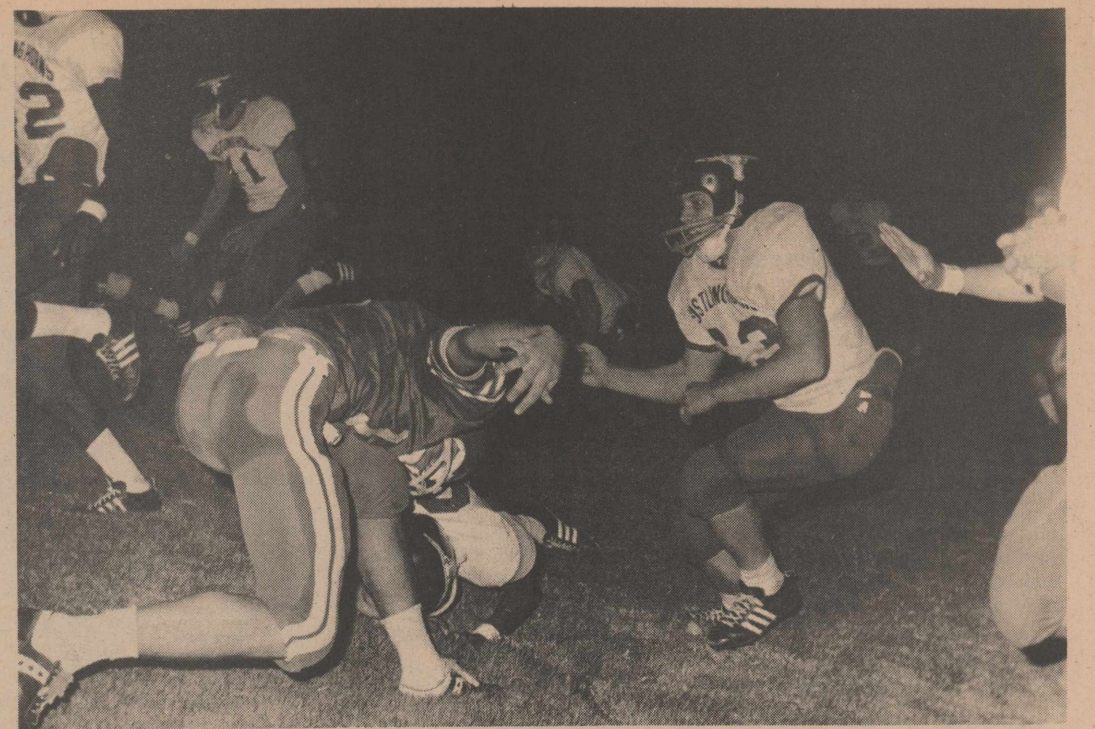

Late in the fourth quarter Olton's Akin tried a 42 yard field goal only to have it drop short with Longhorn halfback Tracy Dickson bringing it out to the Lockney 13 yard marker. With 28 seconds remaining in the game, Longhorn do-everything-man Johnston punted to Olton after having three passes go incomplete.

Olton ran the clock out with the quarterback keeping the ball on the Lockney 47 yard line.

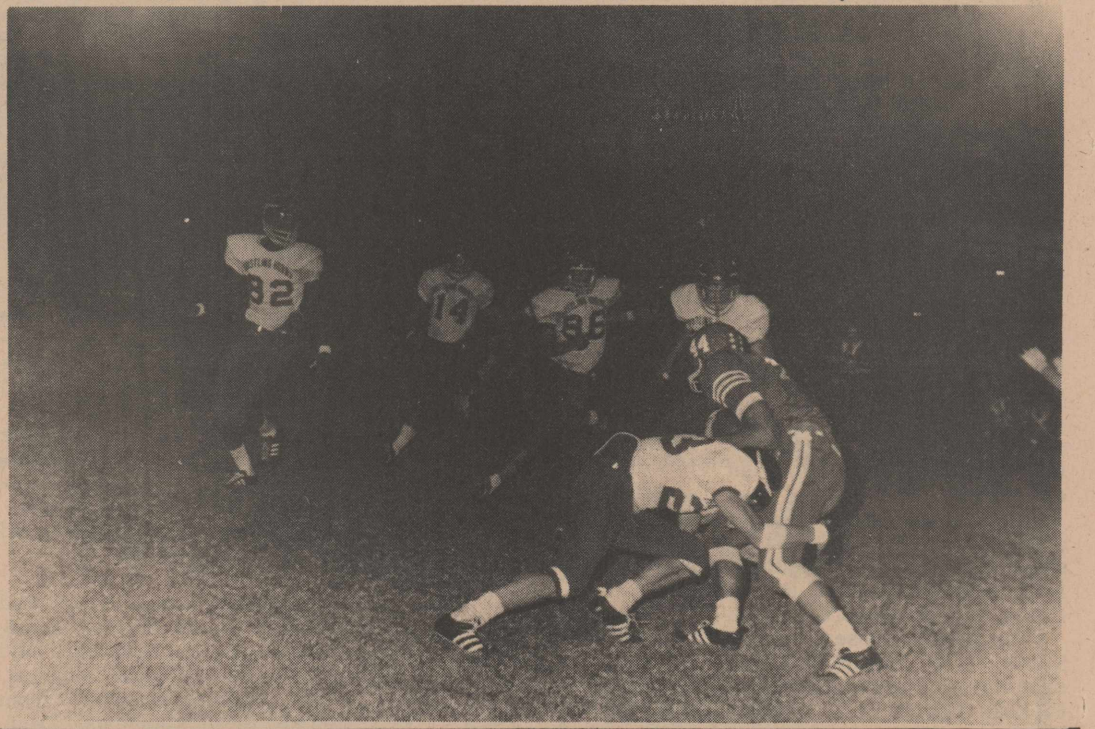

Joe Luera was offensive player of the week for the Mustangs followed closely by Steve Burleson, Eddie Hooper, Tony George, Joe Hernandez, Benny Akin, Kenneth Johnson and Charles A. McClain.

Defensive player of the week was Kenneth Johnson followed closely by Barry Cowart, and Sel Sanchez.

A victory for the Mustangs this week will clinch a tie for the district championship and the right to play Denver City for the Bi-district championship.

LOCKNEY LONGHORNS fell victim to the Mighty Mustangs during district play Friday night. The Mustangs meet Floydada this Friday.

Olton B-Team Edges By Friona

Olton's B-Team scored just enough points to win here last Thursday night by edging by Friona 7-0.

Quarterback Mike Parsons passed to Steve Culwell for the only Olton score. Culwell caught the pass on the Friona ten yard line and skipped on into the end zone for the T. D.

Jerry Davis kicked the extra point to make it 7-0.

Olton had to tighten up their defense a couple of times late in the second half to keep Friona from scoring. One time the Olton defense stopped the Friona team on the Olton one foot line.

Olton combined their team

efforts to down the Friona lads 7-0 as Olton's boys played a fine game.

ATTEND REUNION

Mr. and Mrs. George E. Bohner recently attended a reunion of Company D of the 359th Infantry which was held at the Brookside Inn at Waxahachie. Thirty-seven members of the Company were present. Three members had answered "a call from the Great Commander" since the 1967 reunion. Major William Fish of San Antonio gave the address at the banquet which was held at noon Sunday.

Stampede Friona

Olton's freshmen team stampeded over the Friona freshmen last Thursday night here in Olton by the score of 28-0.

Leading the scoring for Olton with one T. D. each were Ray Luera, Keith Neinast, Collin Johnson and Alonzo Springer.

Steve Stockdale kicked all five extra points.

Both the offensive and defensive units turned in good games for the Colts, with everyone doing a bang up job.

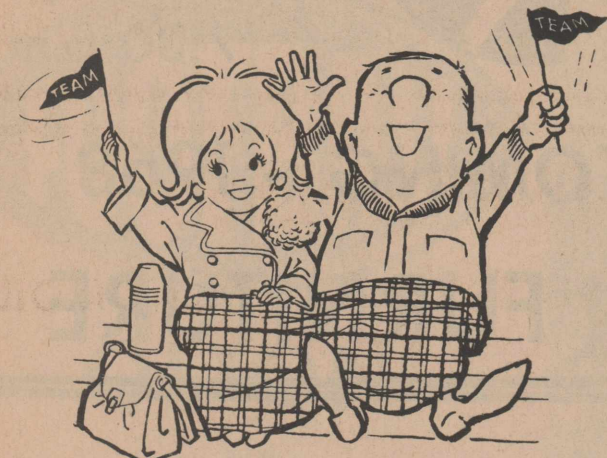

IN BROWNWOOD

Mr. and Mrs. George Bohner were recently in Brownwood where they visited briefly with Charles Reynolds. They were also guests of Mrs. Charles Newton whose late husband was manager of an Olton lumber company during the family's residency here.

FOOTBALL CONTEST

The teams that are playing in this week's contest games are listed in each of the ads on this page. Each team is numbered, 1 through 26.

Use the handy entry form at the lower right hand corner of the page and circle the numbers of the teams you predict to win. Print the scores you predict in the tiebreaker game in the spaces provided.

Each week's entry must be turned in to one of the merchants sponsoring the contest. Contestants are given a week to prepare and turn in their entries.

Sponsoring merchants may accept mailed entries. All late entries will be discarded.

In case of ties, a coin will be flipped to determine the winners.

Each week the number of games predicted correctly will count toward each contestant's season total. The person picking the most games correctly for the entire season will receive the grand prize. The person with the second highest total will receive the second grand prize. In the event of a tie on the season total, a coin will be flipped to determine the winner.

The weekly prizes will be given to the persons picking the most number of games for that week. The tie-breaker will count as one of the games picked, and the predicted scores will be used to determine the top three places in that week's contest, if necessary.

Only one entry per person is allowed.

STOP DISEASE BEFORE IT STARTS

Just a few generations ago, virtually the only disease that doctors could prevent with a drug was smallpox. Today, many maladies are almost unknown—maladies that once took countless lives. James Ball Family Make Home In Africa

Former Hart Camp residents, Mrs. James Ball and sons, Scott and Kent, left last week to join the head of the family who has been stationed in Angola, on the west coast of Africa, for the past seven months.

Ball's parents are Mr. and Mrs. Louis Ball.

Ball is seven months into an 18 month contract as a commercial pilot with the Brown and Root Construction Company. The company has not yet received delivery on their aircraft, so Ball is presently operating heavy equipment on construction of a pipeline near Cavinda, Angola, for Gulf Oil Co.

Angola is situated on the coast immediately south of the Congo and is a Portuguese possession. The official language is Portuguese.

The family was to make connections in New York with Trans Portuguese Airlines for the trip to Lisbon, Portugal, and continuation to the African location. There was a possibility that Ball would meet the family in Lisbon, Mrs. Ball said on departure.

The family will make their home in Luanda, the capital of Angola, where the boys will attend the international school.

Scott, 11, and Kent, 9, will enter the school as fifth and third graders respectively. The school is operated by Americans, according to information received by Mrs. Ball.

The trip was expected to take a total of 36 hours.

Both Ball and his wife were reared in the Littlefield area. He graduated from Spade High School in 1952 and she attended

Littlefield High School through the eleventh grade and graduated through a correspondence school.

Mrs. Ball and sons have been making their home for the past few months with her parents, Mr. and Mrs. A. O. (Preach) Dickson, northwest of Littlefield while the necessary preparations for their trip were being made.

Ball graduated from the American Flyers Academy at Ardmore, Okla., in August 1967 and served as a flight instructor there for nine months prior to accepting the assignment to Africa.

When asked how they felt about taking on an adventure in darkest Africa, the two boys were somewhat unresponsive. They had just spent a long 16-hour day in travel preparations and farewells and their apathy at that point was understandable.

Later on in the interview, however, they were responding like youngsters setting out on a grand adventure.

Halloween Party Treats Sunbeams

The four and five year old members of the Sunbeams of the First Baptist Church were entertained with a Halloween party Monday afternoon at 3 o'clock.

Games were "Pinning the tail on the Donkey", Tossing a ball into a box and pitching plastic horseshoes.

Refreshments were apples, candy, Kool Aid and cookies. Masks were given as favors.

Mrs. Benny Dickson and Mrs. Floyd Prentice were hostesses to the party attended by 15 children.

DAUGHTER VISITS

Mr. and Mrs. Bill Hall and Roxy of Dallas spent Thursday night with her parents, Mr. and Mrs. C. C. Curry.

IN LITTLEFIELD HOSPITAL

Mrs. Jake Mitchell and Mrs. Gene Mitchell were in Littlefield Hospital Monday attending Mrs. Euel Mitchell who is critically ill.

ATTEND FUNERAL

Mr. and Mrs. Witt Laceywell attended last rites at Hamilton for Mrs. E. W. Vaughn.

VIET NAM:

**YOU CAN MAKE
SURE WE'RE NOT
TRAPPED AGAIN.**

Every American wants peace. We must end this war in a way that discourages aggression and prevents future wars. How can you make this peace a lasting peace? Elect Richard Nixon President.

He understands the forces that threaten world peace. He has the experience to bring about an era of negotiation. He will reform the free-world alliances now in disarray and redirect our strategy on new, global terms.

He is a recognized world leader who knows how to practice preventive diplomacy. He will end this war and avoid future wars by dealing with our adversaries in the only way they respect-through strength, collective security, and patience.

NIXON ON LOCAL CONTROL:

"I don't think there is any court in this country, any judge in this country, either local or on the Supreme Court, that is qualified to be a local school district and to make the decision as your local school board." --Stated in Miami, Aug. 6, 1968.

NIXON ON AID TO EDUCATION:

"Let us have a federal government program for education that will turn back to the states without any strings, the money that the states can use to upgrade their educational standards at the local level." Stated in Hillsboro, N.H., February, 1968.

NIXON ON BUSING CHILDREN:

"I think the Office of Education has gone too far when it follows the policy... that the primary purpose of building schools should be social and economic integration.

NOW IS YOUR CHANCE TO TURN OUR SCHOOLS BACK TO THE PEOPLE

"I think the primary purpose of building schools should be education, and I, for that reason, oppose busing. I don't think you help education by taking children who are two or three years behind other children and busing them way across town to another school." --Stated in Dallas, Oct. 11, 1968, to statewide television audience.

NIXON ON FEDERAL SCHOOL GUIDELINES:

"If a local school board is conscientiously trying to see to it that there is freedom of choice... then I think the Office of Education should stay out of it and not try to be a local school board. I favor leaving it to a local school board." --Stated in Dallas, Oct. 11, 1968, before national press corps.

THE FARM PROBLEM:

YOU CAN HELP EASE IT.

Last year the American Farmer lost almost two billion dollars. Over one hundred thousand farms closed down. How can you help stop this trend? Elect Richard Nixon President. Here are some of the things he wants to do:

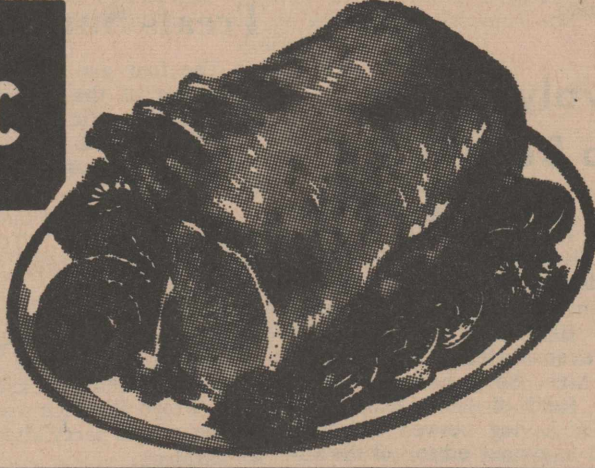

1. Appoint a Secretary of Agriculture who will explain the farmers' problems to the President, instead of the Secretary explaining the President's policies to the farmer, as is now the case.
2. Increase exports of American agricultural products, which are a principal factor in our trade surplus.
3. Establish a special task force to develop and implement a program to increase dairy products.
4. Increase the research effort by the Department of Agriculture to find better and more diverse ways to utilize our enormous volume of farm produce.

Don't Let This Homecoming Pass You By!

ALFRED GARCIA

J. C. JONES CO.

Friday, Nov. 1 7:30 p.m.

If you will remember in our last episode on dull fourth week of the six weeks, we were at a loss for news. Well, gang, it looks like we have a repeat of that week. There is absolutely nothing to do this week -- no activities happening -- no homework -- no excitement -- no special importance concerning our football game Friday -- and no, we don't lie. But wait, Leroy fans, we have searched and search for just SOMETHING that has happened this week and found a few unimportant tidbits -- So -- eat your hearts out!!!

Monday was a dull day with class meetings starting the week off by interrupting classes (such torture) Last minute (or first in some instances) arrangements concerning the Homecoming floats to be exhibited in the Homecoming Parade Friday, and booths concerning the Halloween Carnival to be held Saturday night was the agenda for the class meetings.

The Homecoming Queen candidates were chosen by the football team Monday at practice. They are Letha Estes,

Leslie Norfleet, Kathline Carson, and Francine Offield. The crowning of Homecoming Queen will be Thursday afternoon at 3:30 during a pep rally for our fantastic Mustang football boys. Also, a short rally for our boys will be held Friday at 2:30 after which school is turned out for the parade.

Most of the afternoons this week were spent either by working on the class floats, or getting prepared for that annual freak-out -- the Halloween Carnival. Therefore, putting the important and necessary things first, homework, we have a strong suspicion, was left as an afterthought. (But we wouldn't know about that.)

Again we would like to mention the Pep Rally, Thursday afternoon at 3:30. This will be an "all-out" affair and Seniors, you're very last Homecoming to attend while in OHS so make it the best Homecoming rally yet!!! The Homecoming Parade highlights the week and it is Friday afternoon. Hey, and even the BAND will be there!!!

Equally important is the Halloween Carnival to be held

Saturday night. A great deal of effort has been made pertaining to these activities and we think it would be a marvelous idea to risk your life and visit the Halloween Carnival (especially the Sr.'s "Chuckie-In"). Okay??

That groovy old man in the Sandhills is just beside himself with his letters this week -- Uh, well, see for yourself ---

Dear Old Man in the Sandhills: How come the seniors aren't having a style show at the Halloween Carnival this year? Concerned

Dear Concerned:

Heck, with the talent of that class, they wouldn't waste their time on some dumb style show! If you want to blow your mind with the rest come to the Chuckie-In '69 they're putting on! I promise, they've started a new thing!!!

EDITOR'S NOTE -

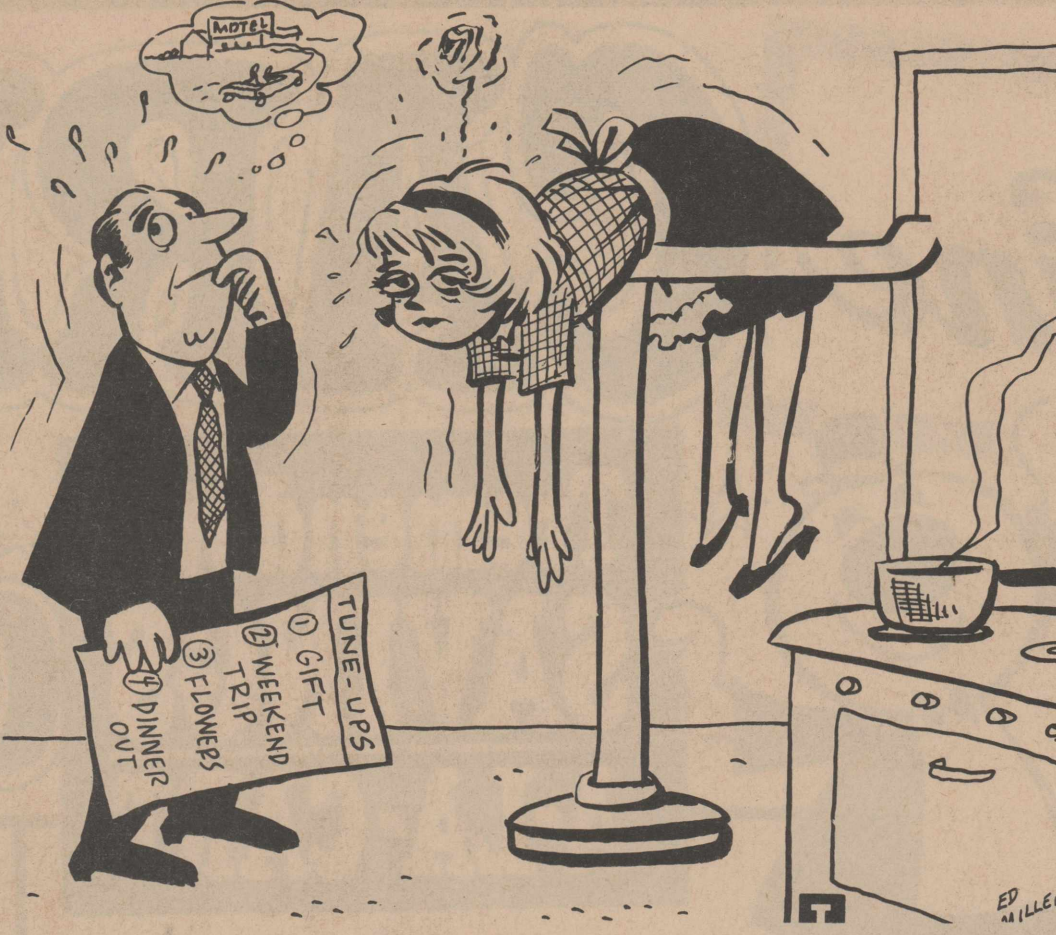

The Old Man In The Sandhills received a letter this week kids that we couldn't print. The Enterprise can not print unsigned letters or those which contain derogatory remarks. Sorry, Kids.

And now our definition of love.

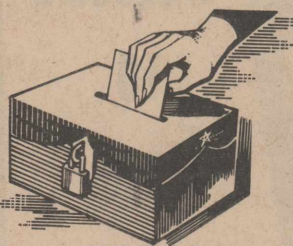

What is love? Love to a new aunt is calling her nephew "a dumb little kid" and not really meaning it.

Give Your Wife A Tune-Up

Your wife is an extremely sensitive and highly sophisticated mechanism. Theoretically, she should last you a lifetime and perform at peak level regardless of age. But every married man, to get the most mileage out of his spouse, must be aware of the things that can go wrong, whether she's a 1969 model or as old as a model-T, foreign or domestic, new or used.

The body is streamlined and luxurious. She features many accessories.

Chances are, your wife never rolled off an assembly line. Like the cars that do, however, she needs an occasional tune-up. Why not give her a check-up and find out what kind of service she needs. Even if she seems perfect, preventive maintenance is desirable.

What are some of the defects that wives suffer from? One woman may be slow in getting started when it comes to fixing breakfast. A battery recharge--in the form of a good night's sleep without staying up to watch television--could put her in better condition. Is she irritable and peevish? That sounds like crankcase trouble. She may be bored with household chores. Take the old girl out for a surprise weekend at a hotel or motel. She'll be easier to handle after that.

"When my wife and I first got married, hardly anything went wrong," says a typical car-owning husband. "Then little things began to happen. She developed a noisy muffler, and hardly anyone she talked to could get a word in edgewise. There were all kinds of friction, screeches and knocks. My operating costs went way up.

"Then I mentioned these troubles at my friendly service station. The mechanic there was helpful, although my wife doesn't come under the warranty. He suggested that I give her flowers and a present like perfume or bath oil and take her on a long trip. I took his advice. Her overall performance improved almost immediately. Her exhaust mechanism cleared up, too."

There are many ways of warming up a wife without getting her overheated. One is by telling her how nice she looks before as well as after she's been to the beauty parlor. Another is to tell her that she dances as well as younger models. And if she needs a new gown to go dancing in, get her one.

The chassis of the modern wife is low-slung and sleek.

Some men care for their cars with an almost religious fervor, polishing chrome, buying seat covers and simonizing the vehicles regularly. Their wives are ignored by comparison. Yet the great majority of husbands are more concerned about staying in the good graces of the good woman than they are for keeping their automobiles running smoothly.

In a recent poll, it was found that nearly all men are satisfied with their wives, although some may think that they wound up with lemons. When such a feeling occurs, it's time to shift into high gear and to apply some of these suggestions. Remember, it's far better to give your wife a tune-up than to start searching for a new one.

Booster Club Announces New Meeting Time

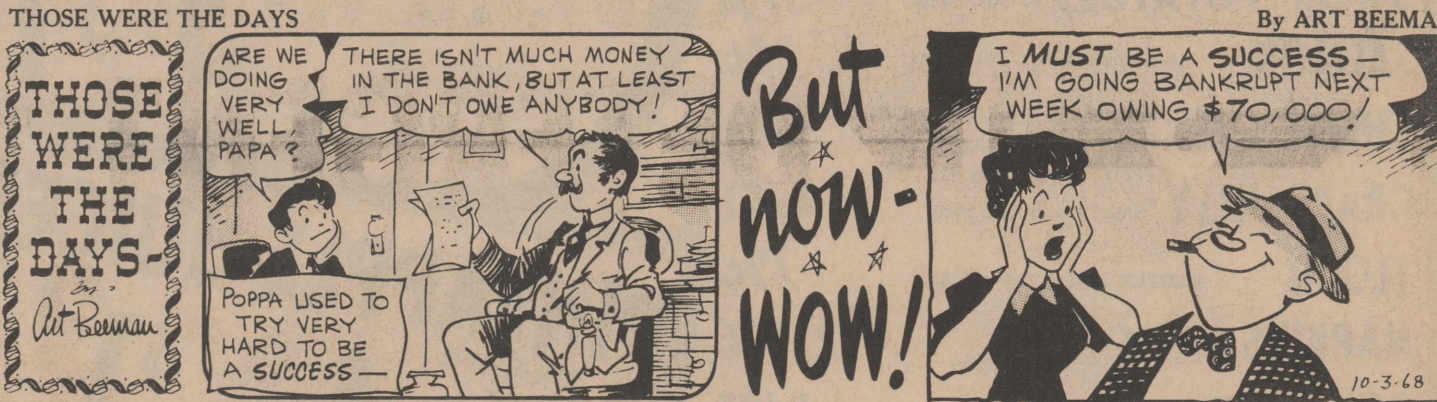

The Booster Club announces 7:30 p. m. as the new time for regular meetings to be held each Monday in high school study hall.

Local fans are being offered a new means of identifying with the proud Mustangs -- a white tie, bearing the words "Olton Mustangs". They may be had from any member of the Booster Club for \$1.50 each.

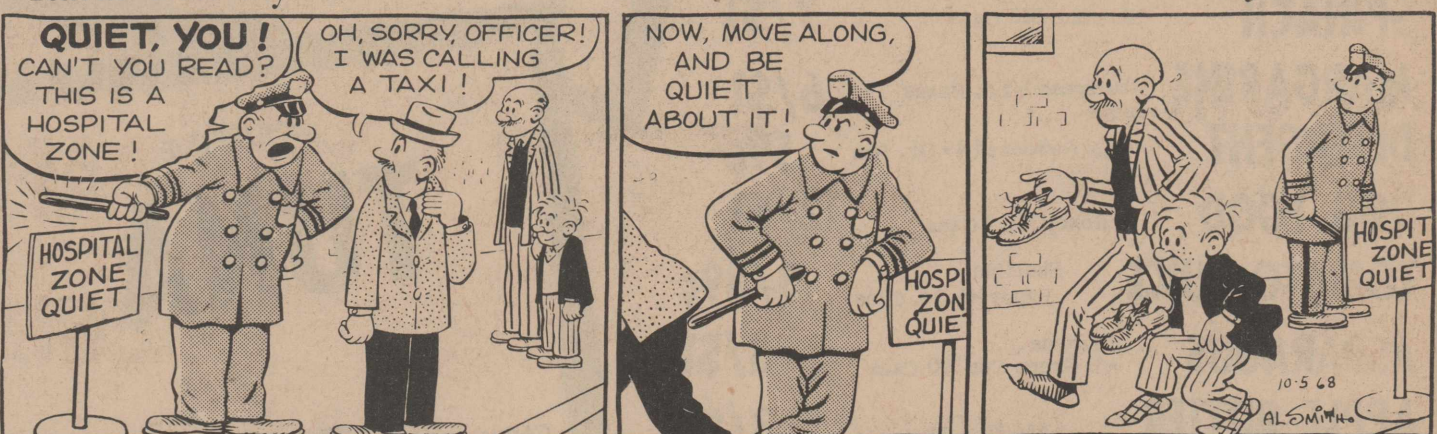

VISITS IN KRESS

Mrs. Paul Burrus, Mrs. C. S. Silcott and Mrs. Jack Silcott visited Tuesday evening in the home of Mr. and Mrs. D. M. Granbery in Kress. Also visiting the Granberys is their daughter, Mrs. Jim Steigers and Mark and Julie of Denver, Colo.
