School Board Election Set For Tomorrow

There are contests in every school election tomorrow except those for the county school board.

The Snyder school district has six candidates running for three places, Hermleigh four candidates for two places, Fluvanna five candidates for two places, Ira six candidates for two places, and Borden County five candidates for three places.

Running uncontested for the county school board here are Perry Echols, precinct 3, and Dave Hess, precinct 4.

Polls will open at 8 a.m. tomorrow and close at 7 p.m. Each of the elections will be at the schools in the rural districts here.

The Snyder district will have three polling places for convenience of voters, who can vote at any one of the three. At the school tax office, R. C. Lunsford, will be election judge and clerks will be Mrs. L. P. Houston and Mr. and Mrs. M. F. Bell. Voting at West Elementary School will be in the foyer where election judge will be J. F. LeMond and clerks J. E. Woodson, Mrs. A. B. Casstevens, and J. D. Scott. At the junior high cafeteria M. L. Andress will be judge, and clerks will be Mrs. Andress and Mr. and Mrs. Ross Williams.

Most of the boards will canvass the elections next week, when the terms of those elected officially begin. School board members are elected for three-year terms. The Snyder school board's regular meeting is Tuesday evening.

The candidates in tomorrow's elections:

Snyder school board, Gene Best, Ross Hemphill, Malven Stevenson, all incumbents, William J. Schiebel, Lee D. Stone, and W. F. McMemamy.

Ira school board, Lewis Dunn and Marvin Sorrells, incumbents; Leon Sterling, Jake Autry, Harold Hester, and Marvin Jordan.

Hermleigh school board, Glenn Foster and Albert Kuss, Jr., incumbents, Rudy Kubena, and Nathan Campbell.

Fluvanna school board, Weldon Key, Bill Jones, A. W. Scrivner, Paul Turner, and Robert Jones. None are incumbents.

Borden County school board, Milton Davis, Bob Beal, and O. D. Jackson, incumbents, John R. Anderson, and Alton Millikin.

Charter To Be Sought For Livestock Auction Concern

The board of directors of the Scurry County livestock auction, which is in the process of being organized here, is now proceeding to get the new auction incorporated.

Prospective stockholders in the proposed corporation, in a public meeting last night, decided to go ahead with needed procedure to have the auction incorporated before there is solicitation of stock in the corporation.

After the incorporation the board or its representatives will solicit both "B" stock, probably at $100 per share, and "C" stock, which will be non-dividend stock sold to merchants.

Nine directors of the organization have already been chosen from the men who will be "A" stockholders, with another yet to be named. There will be an 11th director elected from "B" stockholders after stock sales.

Directors named so far are Ralph Miller, LeRoy Spires, Borden Gray, Aubrey Headstream, Hoyle Cary, Max von Roeder, Ray Lunsford, Jesse Koonsman, and Charlie Eastman.

About 50 men attended the meeting last night, when the organization of the corporation was officially turned over to the now-forming board. Previously a special committee had been studying the prospective livestock auction. That committee, headed by Weldon Johnson, had been appointed at an earlier meeting of farmers, ranchers, and businessmen called by the agriculture committee of the Chamber of Commerce.

Plans call for dividends from the corporation, when formed and functioning, to go from profits to "A" and "B" stockholders on an equal basis. Previously it had been suggested that "A" stockholders would get the first dividend each year, but those who are prospective "A" stockholders said they preferred it be on an equal basis for both types of owners.

Also in the planning is a provision that the corporation would operate the livestock auction only as a commission house and not own any livestock itself. That met with favor of the group in the meeting.

It was pointed out in the meeting that a limited corporation will be formed. Stockholders will be liable for no more than the amount of stock they have in the corporation.

Daniel's Top Bills Face Rough Tests

AUSTIN (AP)—Gov. Daniel's two prime deficit cutting measures faced rough tests before the House today.

The Senate worked on other measures, still awaiting House action on tax and spending bills.

Representatives tentatively approved yesterday 98-39 the much-amended bookkeeping bill which lost some sponsors. Some estimated it would reduce the deficit by 33½ million dollars and others 28½ million dollars. Daniel claimed it would eliminate 18 million dollars.

The abandoned bank accounts bill was amended in committee to affect only banks. Sponsors said they would try to get oil pipeline, insurance and utility companies and others back under the measure. As amended by the committee, the bill was expected to produce eight million dollars instead of 20 million dollars estimated by Daniel.

Rep. H. J. Blanchard, Lubbock, was named chairman of a special five-man house revenue and taxation subcommittee instructed to report "the main revenue measure" April 13.

Daniel announced he would make a speech Tuesday. It will be televised by 10 stations.

The House passed 21 local and uncontested bills after the lawmakers heard U. S. Sen. Ralph Yarborough (D-Tex) urge a strengthening of the armed forces.

The hotly-contested firemen and policemen's working hours bill was set for floor debate at 10 a.m. Monday. It will come up after the representatives consider the two billion dollar plus state spending bill for 1960-61.

The House killed at least temporarily a bill (HB11) aimed at setting up a water and safety code. Although they voted 63-78 against licensing boats and requiring safety equipment, the representatives could recall the measure later for another vote if they desired.

Two beer and liquor bills gained committee approval and were sent to the House floor for debate. They would permit refunds of state taxes paid on beer later found to be unfit for consumption and allow beer and liquor advertisements on the outside of buses.

The house tax committee heard a bill to establish a corporate net income tax estimated to bring in 40 to 45 million dollars a year. It went to a subcommittee.

The committee also voted out favorably its third measure of the session, a bill defining cigarettes and cigars for tax purposes.

2 Fishermen Die In Storm

WELLFLEET, Mass. (AP) — Two men drowned, a third was missing, and four other fishermen swam ashore safely through 20-foot waves early today after the Boston fishing vessel Paul Mino went aground on a sandbar during a heavy rainstorm.

The bodies of the cook, Charles Piazzi, 25, and crewman Joseph Panto, both of Boston, were recovered and taken to a funeral home. Missing was the skipper of the 83-foot craft, Angelo Marino, 42, of Everett.

Marino was returning from his second trip since buying the vessel.

The accident occurred at 1 a.m. on the ocean side of Cape Cod.

The survivors were listed as Michale J. Ciarametaro, 42; Frank Ciarametaro, 29, no relations; and John Norris, 39, all of Gloucester, and James Clements, 45, of Somerville.

Clements was suffering from shock. The others were reported in good condition.

Norris said all the men donned life jackets after the vessel grounded and began taking on water. He added it was raining hard at the time and the wind was blowing about 35 miles an hour.

The craft sank lower as dawn broke, and the seven men decided to try to swim ashore.

Stolen Car Recovered

A car stolen here at about noon Wednesday was recovered in Odessa this morning, Sheriff Earl Abercrombie said today.

Two juvenile suspects are in jail at Graham after that car theft and theft of a car at Graham.

The car was stolen from the parking area at Cogdell Memorial Hospital. It was a 1956 Pontiac owned by Curtis Hamm, 1208 Twenty-sixth Street. Mrs. Ham is employed at the hospital.

Abercrombie said the youths had stolen a car in Graham and abandoned it at the Hobbs community school, then came on to Snyder and stole the car here, driving it to Odessa, where they were apprehended. Sheriff Bus Rollins of Fisher County recovered the car at Hobbs.

Weak Front Enters State

By The Associated Press

A weak cold front pushed across Texas Friday, dipping temperatures and stirring up a little dust. Strong northerly winds followed the front southward.

The dust was reported in the west part of North Central Texas.

Early Friday the front ran from the Fort Worth-Dallas area westward to north of Abilene and South of Lubbock.

Amarillo had 47 degrees early Friday while Waco, just ahead of the front, had 60. Wichita Falls, also behind the front, showered 63 while Dallas had 66 and Lubbock 56.

Highs Thursday ranged from 94 at Presidio to 75 at Galveston.

Pakistan To Get B57 Jet Bombers

WASHINGTON (AP) — The United States is planning to begin delivering B57 jet bombers to Pakistan late this year, the Pentagon says.

The Defense Department said Thursday night an undisclosed number of the light bombers are being furnished under terms of a military agreement between the United States and Pakistan.

Political Prejudice Rapped By Sen. Gore

Japan Asks Reversal Of Troop Ruling

TOKYO (AP) — The Japanese government asked the Supreme Court today to reverse a lower court ruling that the presence of U.S. bases and troops in Japan is unconstitutional.

The district prosecutor's office appealed directly to the highest court to speed up a final ruling which, under normally slow Japanese court procedure, could take months or even years.

If the Supreme Court upholds the decision of the Tokyo District Court, it could mean Japan's removal from the non-Communist world's defense setup. But undoubtedly such a decision would result in an urgent campaign to amend the constitution.

Directly at stake is the 1951 U.S.-Japan security treaty, giving the United States the right to maintain bases and troops in Japan, and agreements to implement the treaty.

The Tokyo District Court said these pacts violated Article Nine of Japan's constitution, which forbids war as an instrument of national policy. The constitution was largely written by U.S. occupation officials. Gen. Douglas MacArthur while occupation commander ruled that the "no war" clause did not prevent Japan from having military forces for defense purposes only.

Prime Minister Nobusuke Kishi's ruling Liberal-Democratic party supports this view and the presence of U.S. forces in Japan as a defense measure. The Socialists, the chief opposition party, oppose rearmament and U.S. bases in Japan and are expected to make the lower court ruling a major political issue.

Pair Blamed For Strikes

MEXICO CITY (AP) — Two Russian diplomats accused of aiding Mexican labor leaders in an Easter holiday railway strike left by plane for Toronto today. They had been ordered out of the country by the Mexican government.

The two are Capt. Nicolai Remisov, a naval military attache, and Nicolai Asenov, second secretary in the Russian embassy here.

An embassy spokesman denounced the Mexican action as unfriendly, and denied the charges brought against the two men.

The Mexican government accused them of giving economic aid and advice to Demetrio Vallejo, leader of the railway workers, and his lieutenants. Vallejo and more than 100 of his followers are under arrest pending filing of formal charges.

Informed sources charged there was a Communist plot to upset the country with a series of strikes in key industries.

Ruslan Tuchenin, a press attache at the Soviet embassy, declared the action taken by the Mexican government was "unfriendly toward the Soviet Union."

He said the two diplomats had carried out only their normal diplomatic duties.

"It is not true that they had connections with the agitation movement in Mexico or with any Mexican citizen," he said.

At the airport the two diplomats hid in their automobile until almost time to board their plane.

Asked whether he was resentful of the Mexican government's action, Asenov replied: "Not at all. I like Mexico very much."

Remisov expressed similar sentiments.

Meanwhile, the blaze of disorders touched off by Communist and leftist agitators last week continued to flare sporadically, and results of the disruption of railroads was beginning to be felt widely.

Leftist university students attempted to stage a monster rally last night, but it was broken up by police after a rock-throwing battle in which several were injured.

Sympathizers of Demetrio Vallejo, the railway syndicate leader, called for a torchlight protest parade to the National Palace through the center of the capital.

An hour before the parade was to form, police converged on the university grounds and surrounded the campus. All traffic was blocked for six hours.

Students tried to break through police cordons, throwing rocks and other articles. Police did not use tear gas because of women and children nearby. Nevertheless, they broke up the rally, arresting about 20 students.

Reports from over the country said foodstuffs and combustibles were becoming scarce as shipments were delayed. Tapachula, near the Guatemalan border, reported panic buying as strikers stubbornly refused to join the exodus of workers back to their jobs elsewhere.

Generally, the outlook was optimistic over the country. National Railways officials in Mexico City said that virtually all passenger trains were running, although many were far off schedule.

Movement of freight began to speed up, although freight trains were not operating on a par with passenger trains. Losses were heavy in perishables.

Officially, railway headquarters said that 90 percent of all passenger trains were running, and about 75 percent of freights. The total is probably less than this, some sources said.

Officials said that about 75 percent of all workers had returned to their jobs—another figure questioned by other sources.

Hundreds of strikers and agitators are still being held in Army camps and jails, and questioning continued today.

An indictment is expected to be brought against Vallejo and his subordinates shortly. If charged and convicted of treason, as rumored, Vallejo could face the maximum sentence of 40 years in prison.

Report Clears White, Calvert

By FRANK N. MANITZAS

AUSTIN (AP)— The Travis County grand jury said today no violations of the state election code were found in its investigations of money contributed to heads of the state comptroller and agriculture commissioner departments.

The report did not mention by name either Comptroller Robert S. Calvert or Agriculture Commissioner John White. It said:

"In neither investigation was there evidence that the department head participated in solicitations of money or requested them but he did know of them directly in the case of personal gifts by being the recipient and indirectly in the case of political contributions of which he was neither the recipient nor the solicitor."

The jury said it spent a great deal of time studying the Senate Investigating Committee's report which first uncovered $30,000 received by Calvert from his employes since 1949. The grand jury report said the investigation into reports of contributions made by Agriculture Department employes was raised by a private citizen.

The brief report said the grand jury concurred "in spirit" with the Senate committee's recommendations for strengthening the law prohibiting state officials from soliciting or accepting political contributions from employes. The jury agreed that the penalty should be upgraded from a misdemeanor to a felony, and added:

"We have studied, also, the Senate Investigating Committee's report concerning the matter submitted to us with greatest care and we note that they did not make any finding that there had been any violation of the law. This was consistent with our own analysis of the matter."

The committee report of March 3 recommended that a joint standing committee of members from both the House and Senate be named with general investigatory powers to keep an eye on "all matters pertaining to the administration of the state government, the affairs and activities of its departments and institutions."

The Senate report said "that the practice of collecting sums of money in cash from employes of the department for the personal use and benefit of the comptroller of public accounts is not in keeping with the conduct which the public has a right to expect of state officials and, further, it is [illegible] and should be effectively stopped."

New Farm Bill Is Promised

WASHINGTON (AP) — Sen. Homer E. Capehart (R-Ind) says he will introduce a completely new farm bill in Congress within two weeks.

"It is a new approach, has new ideas," the senator said Thursday night when he announced he was preparing the bill.

"The administration farm policy has broken down. We need new thoughts and ideas," Capehart said. But he denied he was leading any clique in Congress or the Republican party in a revolt against the Eisenhower administration's farm program.

The senator would not disclose the specific provisions of his bill but said: "In general, it will provide for reducing surpluses, increasing farm prices, and getting the taxpayers out of the farm business."

Reckless Drivers Warned By Sheriff

The sheriff's department plans to clamp down on those who drive recklessly and throw litter inside the courthouse square, Sheriff Earl Abercrombie said this morning.

Abercrombie said his department has received numerous complaints from citizens about reckless driving inside the parking area around the courthouse.

The area is also frequently filled with litter thrown from cars during nights, he said.

The sheriff said his department will enforce laws governing these violations, keeping a close watch on the courthouse parking area.

Common Cold Vaccine Seen

CHICAGO (AP)—A expert today predicted a vaccine that will prevent from 60 to 70 per cent of all common colds probably will be available within the next two years.

Dr. Thomas G. Ward, professor of virology at the University of Notre Dame, said he believes a vaccine can be developed against "an acceptable proportion of the common colds."

He said 75 to 80 per cent of common colds are caused by a group of viruses or a group of bacteria of the streptococcus type.

Vaccines made from dead or tamed viruses can be injected into the body and develop resistance against viruses.

"I realize that I have stuck my neck out," Dr. Ward commented in an interview in Today's Health, a magazine published by the American Medical Assn.

Man Denies Taking Trio On Wild Ride

FORT WORTH (AP)—A Grapevine man, Jerry Max Grace, 24, denied from his county jail cell last night that he is mentally ill or that he kidnaped his parents and his girl friend and held them prisoner Wednesday night in a Lewisville tourist court.

Very calm and showing no outward signs of emotion, Grace said the story that he forced the trio to accompany him on a wild ride through West Texas by threatening them with a barbecue fork simply is not true.

Grace was seized early yesterday in a Lewisville tourist court.

Western Group Toughening Policy Toward Berlin Issue

By JOHN M. HIGHTOWER

WASHINGTON (AP) — The Western powers appeared today to be toughening their policy on negotiations with the Soviet Union over the Berlin crisis.

As the NATO foreign ministers meeting went into its second day here, the United States, Britain and France were reported shelving some proposals which could be construed as offering possible concessions to the Soviets.

The United States, meanwhile, pledged anew the full use of its nuclear missile and bomber striking force in defense of Western Europe and North America if military action ever became necessary.

Acting Secretary of State Christian Herter told the 15-nation Foreign Ministers Council late Thursday that U.S. power today is greater than it has ever been. He declared that this country is now making faster progress in the development of missiles than is the Soviet Union.

"I pledge our continued willingness," Herter solemnly told the allied leaders, "to make the necessary effort for the common defense.

"I pledge also full willingness to use our strength in the common defense if need be."

West German Foreign Minister Heinrich von Brentano was scheduled to lead off today's debate on the Berlin crisis and the development of Western policy for dealing with it. The debate opened Thursday after President Eisenhower's morning address in which he declared that NATO must be prepared to carry on for years in a world of continued "tension and bickering" between the free nations and the Soviets.

The Western Big Three are seeking support from the whole NATO Council on the general policy lines which they have so far developed for negotiations with the Soviet Union at a foreign ministers meeting beginning in Geneva May 11 on the problem of Germany and the specific crisis over Berlin.

Britain has been reported as favoring a softer approach to the Geneva negotiations than the United States and France. West Germany is known to advocate a hardboiled strategy, reserving any concessions until a late stage and avoiding any evidence of willingness to pay a price to get the U.S.S.R. to ease up on Berlin.

British Foreign Secretary Selwyn Lloyd told the NATO meeting any plan for neutralizing or demilitarizing Germany would constitute the worst possible solution on the German problem. He declared Britain would not advocate any freeze on armed forces in central Europe unless it were linked with the goal of reunifying Germany. This latter point indicated a shift in Britain's position.

Graham Has Audience Of 50,000 Persons

AUCKLAND, New Zealand (AP)—Three thousand persons surged forward to make "decisions for Christ" Friday at the close of an hour-long sermon by American evangelist Billy Graham.

He opened his crusade at the Auckland football ground before an audience officials estimated at 50,000.

Junior Editors Quiz on RUBBER

QUESTION: [illegible]

ANSWER: When Christopher Columbus visited the island of Haiti more than 450 years ago, he marveled at the little round black objects that the children bounced back and forth. He learned that they were made from the gum tree.

Columbus took samples of the gummy substance back to Europe, but no use was found for it. Nearly 300 years later English chemist Joseph Priestly noticed that it would rub out pencil marks. Thus it came to be called rubber.

Since that time numerous uses have been found for rubber since it is waterproof, resistant to electricity and the most elastic substance known. Today in the United States, the world's largest user, rubber is a billion dollar industry, with half of it in automobile tires.

FOR YOU TO DO: Columbus here is [illegible] little boy on the island of Haiti. Color this [illegible] crayons and save in your scrapbook. Make a list of the things in your house that make use of rubber [illegible] electric appliances. Can you name more than 25?

Mrs. Luce Must Fill 'Big Shoes'

By EDWARD T. BUTLER

RIO DE JANEIRO (AP)—From that Brazilian point of view, Clare Boothe Luce will have to fill a big pair of shoes when she becomes U.S. ambassador to Brazil.

The shoes are those of Ellis Ormsbee Briggs, who has spent 2½ years as U.S. representative here. After long service in Latin America, he is moving on to [illegible].

You are apt to find him speaking in Portuguese with a coffee farmer or perhaps to a bulldozer driver deep in Brazil's jungled interior.

He is one of the few foreign diplomats in Brazil who is eager to leave his office chair for a seat in a bouncing jeep and a look at the growing interior of South America's largest nation.

Briggs has traveled in every one of this nation's 25 states and territories.

"I have had the good fortune personally to observe the accomplishments of a fruitful collaboration between our two countries and to witness Brazil's phenomenal progress," Briggs says.

The newspaper Jornal do Brasil has expressed hope the dynamic Mrs. Luce will continue the traditions of tact, understanding and discreet efficiency [illegible] the American embassy by her predecessor, Ambassador Briggs.

The newspapers Tribuna da Imprensa and Ultima Hora had similar praise.

Briggs [illegible] U.S. [illegible] has been spent in the republics below the U.S. border. His first assignment was as vice consul in Peru in 19[illegible].

One Guilty Plea Heard

One plea of guilty has been entered in district court as a result of indictments returned [illegible] days ago by the Scurry County grand jury.

Truman Brown, who had two indictments of forgery, pleaded guilty to one of the indictments. The other was passed until the next term of court.

Brown was given two years on probation by Judge Sterling Williams. He was represented by Gene Dulaney, court-appointed, and Wayland Holt, district attorney, was prosecutor.

Another man [illegible] grand jury made bond today. He was Herman Moore, whose bond had been set at $1,000 after his [illegible] while intoxicated as a repeated offense. Sureties were Mrs. H. G. Moore and J. G. Garner.

Senator Urges Top Education Standards

HOUSTON (AP) — Sen. Ralph Yarborough said last night major emphasis on athletics and academic trivia cannot produce well-educated citizens.

"It is more likely to produce mediocrity," the senator told the annual meeting of the Texas Council of Church-Related Colleges.

"We cannot, we must not and we will not continue to deny all our students education of the first class. The parent, the professor and the politician must all make up their minds that easy courses, little discipline and stinted funds for education will never add up to high educational standards," he said.

Copter Crash Kills Three

RICHLAND, Wash. (AP)—Three men were killed Thursday evening when an Army helicopter crashed and burned on the sprawling Hanford Atomic Works Reservation 24 miles north of here.

One of the men, Capt. Patrick McDonnell of Vancouver, Wash., and Richland, was a brother of an Air Force sergeant, William A. McDonnell, 25, who died in a similar helicopter crash in the Spokane River at Spokane, Wash., [illegible] March.

The other two killed Thursday were Chief Warrant Officer Leo F. Little, the pilot, of Palouse, Wash., and Maj. Joseph Guiliani of St. Paul, Minn., and Richland.

The Army said the crash occurred while the helicopter was on a routine training flight.

McDonnell was married and the father of four children. Guiliani's widow and five children live here, and Little's widow and two children reside in West Richland, Wash.

Radar Patrol Plane Crashes

ARGENTIA, Nfld. (AP)—A U.S. Air Force Constellation of the Atlantic radar patrol crashed and burned on landing at the Argentia base Thursday night, killing one man and severely injuring several others of the 24-man crew.

U.S. Air Force officials refused to give the name of the dead man or to say exactly how many men were injured.

Officials said the big four-engine plane was coming in with engine trouble after a patrol over the At[illegible] as the aircraft landed in dense fog. The plane burst into flames as it skidded down the runway.

The plane and its crew were part of Airborne Early Warning Squadron 13, stationed at the U.S. Naval Air Station at Patuxent, Md.

Find Father, 2 Children

FORT WORTH (AP) — A teenage Haltom City father, sought by police for several hours after his wife reported he had attempted to commit suicide and then left with their two small children, was located by officers at about 1:25 a.m. today. The children were unharmed.

The youth, 19, denied he had tried to take his own life. He said his wrist was cut when he jammed his arm through a glass door chasing a man he had accused of dating his wife, 17.

Police were unable to locate the man in the house.

The young father said when his wife still insisted on leaving him that he told her he wanted the children, 8 months and 2 years old, and left with them in the car.

Spending Habits Change In Decade

By MARTHA COLE

WASHINGTON (AP) — The Labor Department wants to revise its consumer price index because American spending habits have changed a great deal in 10 years.

Among the reasons: Americans now have television sets, cars and home appliances—and less dress clothes.

The present index is based on the spending habits of Americans in 1950. To get the index the government prices about 300 commodities and services in 46 cities.

The index, popularly known as the cost of living index, comes out every month. The system for figuring it could be revised by January 1964 for an estimated $4,600,000, the department says.

In testimony made public today, Secretary of Labor James P. Mitchell asked a House Appropriations subcommittee for funds to start the revision.

Mitchell testified that the index basket of commodities, prices and services was growing out of date because of these changes in American life:

1. Families are larger. There are more old people and more children.

2. The population has grown 15 per cent since 1950 and has shifted geographically. A higher proportion of families now live in the Southwest and West.

3. Families are moving to the suburbs where people spend less on dress clothes and outside entertainment and more on houses and gardens.

4. Family incomes are higher even when account is taken of higher prices. More money is spent on television, cars, travel, education and medical care. A smaller proportion of income is spent on food. Food expenditures themselves go heavily for frozen foods, meats and fresh fruits.

Bergman Back In Hollywood

HOLLYWOOD (AP) — Actress Ingrid Bergman returns to Hollywood today for her first visit in nine years.

The Swedish actress, accompanied by her husband, theatrical impresario Lars Schmidt, will present one of the Oscars Monday night at the annual awards program of the Academy of Motion Picture Arts and Sciences.

Miss Bergman, who recently was involved in a child custody battle in Europe with a former husband, Roberto Rossellini, left Hollywood in 1950 for Italy to make pictures for Rossellini.

Pair Charged With Planting Bomb

VALLETTA, Malta (AP)—Two Maltese—one a steward in the Royal Navy—were charged today with planting a homemade bomb in the 2,000-ton British radar picket destroyer Broadsword.

Edward Connell, 23, the steward, was accused of instigating the bomb plot and George Bonnici, 43, a government laborer, with being his accomplice.

There has been agitation against the British for months in this colony in protest against the Royal Navy turning over its big dockyard to a private firm. The Maltese fear the ship yard will be shut down or curtailed and the island's economy wrecked.

Men Continue Leadership In Smoking

By JAMES B. SIBBISON

WASHINGTON (AP) — Smoking still is a lot more popular habit among men than it is among women the world over.

A study by a special House Tobacco subcommittee shows that 7 out of 10 U.S. males smoke. Only a little over 3 out of 10 American women do.

The situation is similar, the study says, in Britain, Canada, Sweden and Denmark — except that some Danish women favor cigars and cigarillos to cigarettes.

The subcommittee, headed by Rep. John C. Watts (D-Ky.), made the study to determine what can be done to boost declining U.S. tobacco sales abroad.

It discovered that people are puffing away at a record rate. But the smoking patterns vary.

The British, for example, are among the world's most avid smokers. Their consumption continues to rise despite heavy taxes and a cigarette price averaging 50 cents a pack.

Why do people smoke, anyway?

"A surprising number of reasons are psychological," the study says, "associated with the stress, tensions and social demands of the modern world."

Most smokers admit that there is more involved in smoking than what is obtained from tobacco itself, but that the tobacco does offer, with its nicotine, a real psychological feeling of tranquility and a variety of tastes.

New Look Adopted By Communists

WASHINGTON (AP) — House investigators report that U.S. Communists have been ordered to wear a new look. The objective: to win friends and influence people.

In its latest report on Communist activities, the House Committee on Un-American Activities said Thursday:

"To a degree unmatched in party history, Communists are now promoting themselves as loyal to the United States, peace-loving and humanitarian in purpose, and anxious to work in harmony with Socialists, liberals, and even capitalists for the good of the nation."

Under the remodeled tactics, the committee said, the Communists' main emphasis now is on a program of direct action to infiltrate legitimate community affairs. By and large, the investigators said, the role of the indirect Communist front organization has been abandoned.

Other changes in tactics, the report said, involve an invigorated campaign to attract youth into the party and to re-establish a welcome for Communists within organized labor.

The committee's 129-page report was described by Chairman Francis E. Walter (D-Pa.) as the result of a two-year investigation of communism in Southern California.

Jones Rites Held Today

Funeral services were to be held at 3 p.m. today at Ranger for Mrs. Minnie E. Jones, 80, sister of Joe Henry of Hermleigh.

Mrs. Jones died Wednesday evening in a Wichita Falls hospital after a long illness. She was born Aug. 25, 1878, at Desdemona, living there most of her life. She was a Church of Christ member.

Services were to be held at Killingsworth Funeral Chapel at Ranger with Lonnie Branam, Church of Christ minister, officiating. Burial was to be in the Merriman Cemetery, there.

Survivors include three sons, C. A. "Dick" Jones of Ranger, Walford Jones of Orange, and Clarence R. Jones of Nordheim; one daughter, Mrs. G. C. Fitzhugh of Stephenville; one other brother, Tommy Henry of Stephenville; two sisters, Mrs. C. R. Daniel of Stephenville and Mrs. Lizzie Carruth of Meadow; seven grandchildren, and 10 great-grandchildren.

Buddhist Ruler's Escape Confirmed

By WATSON SIMS

NEW DELHI, India (AP)—The Dalai Lama, 23-year-old god-king of Tibet, slipped across the border into India three weeks ago in a successful escape from pursuing Chinese Communists.

Prime Minister Nehru, in announcing the Buddhist ruler's safe arrival to a cheerful parliament, indicated that he would be quickly given political asylum.

"Yes, he is in good health," Nehru declared in disclosing the end of a dramatic 15-day manhunt in which the Chinese Reds desperately tried to head off the youthful monarch worshipped by Tibetans as a living Buddha.

The Dalai Lama, reportedly traveling in a party of 80, crossed the border in extreme northeast India near the village of Towang, approximately 300 miles north of Calcutta. Towang has the largest Buddhist monastery in India, but is located in almost inaccessible mountainous country.

The Chinese Communists, in disclosing Thursday that their quarry had reached India, claimed he was kidnaped by rebels who rose [illegible] in Lhasa, the Tibetan capital, just over two weeks ago.

But Nehru's statement to Parliament emphasized that the young ruler fled Lhasa of his own accord and that he was seeking refuge in India.

Nehru said that he first learned Wednesday night that an emissary of the Dalai Lama had arrived at the Indian border in the northeast frontier area of Assam state.

The prime minister said that the young ruler and his party actually had crossed the border the night before but the message from the remote area was slow in reaching him. A second group subsequently arrived to swell the Lama's entourage to 80 persons, Nehru said.

Nehru said the Dalai Lama's emissary sought political asylum for his chief and that the Indian political officer at Shillong, in Assam state, the chief town 150 miles south of the border, had prior instructions what to do. This was taken as an indication that asylum would be granted.

Rains Ease In Eastern Area Of U. S.

By The Associated Press

Rains which deluged wide areas in the eastern half of the nation diminished in most areas today as flood dangers in some Midwest sections appear increasing.

Tornadoes struck two small communities in central Missouri Thursday night, causing some property damage. No one was injured as the twisters damaged 10 homes in California, a town of 3,500, and one in Otterville, population 400. Strong winds with gusts up to 72 m.p.h. lashed St. Joseph, in northwest Missouri.

Earlier Thursday tornadoes hit the Dade City and Orlando, Fla., areas, killing one person and injuring nine others. Damage was estimated at more than one million dollars. A twister also struck a rural area near Washington, N.C., damaging several buildings.

Floods plagued areas in northeastern Iowa, southern Wisconsin and northern Illinois. Heavy spring rains have caused some flooding in sections of Missouri, Michigan, Indiana, New York, South Carolina, Georgia, Florida and Western Washington.

Some 1,500 persons have been forced from their homes in the Rockford, Ill., area by flood waters from the Rock River. More rain fell in the area during the night.

Teacher Suffers Injury In Fall

Mrs. Byron Taylor, teacher at the East Elementary School, suffered a slight back injury in a fall at the school this morning.

A chair in which Mrs. Taylor was standing while working with materials in a classroom at about 8:45 a.m. slipped from under her, causing the fall.

She was taken by Bell ambulance to Cogdell Memorial Hospital for X-rays.

WOMEN

Slides Of Colorado Shown At Women's Culture Club

The Women's Culture Club met Tuesday afternoon, March 31, at the Martha Ann Clubhouse, with the president, Mrs. H. L. Wren, presiding.

Mrs. A. C. Martin brought the thought for the day entitled "Choices", saying:

"All through life we must keep choosing. Destiny hangs on 'yes' and 'no'. As we look back, it is to wonder what would have happened if we had gone the other way when the road forked.

"On life's bargain counter are wares piled up for the pleasing of all tastes. We marvel that some eagerly select what we reject. Our tastes are various as our natures.

"How can nature originate so great a variety of patterns? We speak of the mass of mankind as if it was all one. But, it presents a bewildering variation. Human beings are as different from one another as their parental influences and their environments and their personal natures are different. Flesh and blood can never be run in a mould of monotonous uniformity. The fascination of travel is in the endless variety of mankind that one encounters, more than in silent buildings or inarticulate scenery.

"The choice of personal associates is the all-influencing choice. To go wrong here is the likeliest way to cripple one's chances of eminence or of plain everyday success.

"The basic of happiness is not in things, but in people. Those of us who are thoroughly normal cannot get along without congenial society. The kind of persons we choose to be with is the first and surest indication of character. The worthiest must be uneasy and unhappy in the company of the worst; and the best will naturally seek the best. What a man chooses, he is."

Mrs. J. W. Clawson, leader for the program, introduced the speakers.

The tour through senic Colorado was narrated by Miss Violet Brown, Mrs. Jess Lemons and Rose Ann Lemons as they presented color slides from Denver, its park system, city museum and the Red Rock Theater; Boulder Creek Canyon, Central City, Black Canyon of the Gunnison, Estes Park, Trail Ridge Road through Rocky Mountain National Park and many other beautiful places of interest. The group felt they had toured the state after viewing their slides.

Each member and visitor answered roll call by giving an interesting place which they had visited.

Refreshments were served by the hostess, Mrs. S. A. Tibbels to 18 members and guests: Mrs. Beatrice Best, Mrs. R. D. English, Mrs. J. W. W. Patterson, Miss Violet Brown, Mrs. Jesse Lemons and Rose Ann Lemons.

Walnut Pan Bread

Ingredients: 1 cup sifted flour, 3 teaspoons baking powder, ½ teaspoon salt, ½ cup enriched yellow cornmeal, 1 cups ready-to-eat bran, 1 cup milk, ½ cup golden shortening, ½ cup dark brown sugar (firmly packed), 2 large eggs, 1 bag (3 ounces or ¾ cup) walnut pieces.

Method: Sift together the flour, baking powder, salt and cornmeal. Add bran to milk and soak until milk is absorbed. Cream shortening and sugar; beat in eggs thoroughly, one at a time. Stir in soaked bran; then flour mixture stirring just until dry ingredients are moistened. Break walnuts into uniform pieces (about the size of green peas) and fold in. Turn into buttered baking pan (9 by 9 by 1¾ inches). Bake in hot (400 degrees) oven 25 to 30 minutes or until cake tester inserted in center comes out clean. Cut into squares in pan and serve very hot. Any leftover may be reheated.

Miles To Smiles

Surveys prove that you can save about 40 miles of walking every year with the purchase of a clothes dryer. Since washday doesn't wait for good weather, a clothes dryer can make scheduling more flexible, as well as relieve you of time-consuming heavy work.

Air Like Cream

Sounds like a foolish simile—warm air like cream. But they are similar in that both are lighter than the elements they are associated with. Cream is lighter than milk so it rises to the top. Warm air rises above cold air, sometimes creating drafts at your feet and a blanket of hot air around your head.

Control Should Mean Aid

"Federal aid means federal control" is a familiar phrase if you have been keeping up with the Congress. The word state may be substituted for federal when reference is made to usurpation of power at the state level.

Texas legislators are hearing about it regarding certain measures now pending in their mills at Austin, one of the more prominent of which is a bill which would set the hours and wage scale for city firemen and policemen.

The Mayor of San Angelo has called attention to a possible "boomerang" which might well be released if those who favor local control stick to their guns.

The San Angelo Mayor has announced that he will go to Austin to ask for part of any sales tax enacted by the legislature. He indicated that he will proceed on the contention that the state assumes responsibility for meeting any financial obligation which it imposes upon a city.

This reverses the aid-control system. It appears perfectly logical that "control" should require "aid."

The Texas League of Municipalities has fought the state regulation of hours and pay for city firemen and policemen for the simple reason that municipalities rest at the bottom of the totem pole for tax sources. The federal government no longer is satisfied with merely the "cream," and the states are being forced to dip into new sources, all of which means that cities are doing well to hold what they had.

Meanwhile, the strain on city coffers increases in proportion to that exerted on the "higher" agencies. The joker is that there is no lower source for the cities to usurp.

Volunteers Test Space Equipment

By ELTON C. FAY

NORFOLK, Va. (AP) — Mrs. Richard H. Tabor rapped on the window, shook her fist in mock anger, pointed to her wrist watch and told her husband it was time for dinner. She asked him to come back "from out there 100,000 feet on the edge of space."

Dinner was ready at home, the five children were waiting.

Lt. Richard Tabor, Navy doctor and airman, was sitting bundled up in a space suit in a test chamber where the air pressure had been dropped to that which would be found on the surface of the moon.

People peered in at him.

The hands on dials on the outside of the pressure chamber wound around and around as the pressure dropped—40,000 feet, 60,000 feet, 80,000 feet, 100,000 feet.

The test pressure chamber is at the naval air station here, where the Navy is peering toward the era of space travel. With volunteers like Lt. Tabor, it is learning what problems will confront man when he roams out into space.

At 100,000 feet, air and atmospheric pressure are virtually nonexistent. The conditions are those man would find if he walked in the valleys of the moon, say the Navy experts.

But Tabor's helmet and pressure suit keep his body at a tolerable pressure level of 35,000 feet latitude.

The pressure chambers at the naval air station seems like a quiet, safe sort of place. But, like space itself, danger lurks in that windowed, lighted chamber from which almost all air has been pumped.

At a simulated pressure of 60,000 feet altitude, the volunteer in the chamber would stay alive only about 70 seconds if his pressure suit failed. In an adjacent chamber two Navy hospitalmen, wearing oxygen masks, stand ready to move quickly if trouble occurs.

Their chamber has a pressure representing 20,000 feet. They wear oxygen masks and keep an eye on Tabor through a porthole.

In Tabor's chamber, a beaker of water stands on a table. As the air pressure drops the water begins to boil. This is what would happen to the blood in Tabor's veins if he weren't protected by the space suit.

Tabor, a native of Charleston, W.Va., has been experimenting with designs of space suits and pressure chambers since 1956.

The present design is the best yet, Tabor says. It permits comparative freedom of movement of the arms, legs, hands and head. With the new suit, he has flown a navy jet fighter, can write notes even wearing the gloves of the space suit, can eat (in a somewhat hurried and restricted manner) while at simulated high altitudes.

Thursday's demonstration by Dr. Tabor of the high altitude pressure chamber was a short test, lasting only long enough to make him late for dinner.

DETROIT (AP) — Police stopped Robert J. Lewis' panel truck when they noticed the front and rear license plates had different numbers.

They said Lewis, 29, painted 1953 and 1955 plates this year's yellow and green colors and mounted them on the truck.

Lewis said he didn't have the money to buy new plates. He was fined $50 after pleading guilty to a charge of improperly using motor vehicle plates.

West Unprepared For Berlin Crisis

By JAMES MARLOW
Associated Press News Analyst

WASHINGTON (AP) — It has taken the Western allies about four months just to reach a point where they seem agreed on standing firm on the Berlin crisis.

They had been agreed for some weeks on willingness to negotiate with the Soviet Union to settle the crisis peacefully. But if they [illegible] — what they want to negotiate — it's still locked up in their heads.

Chances are they don't know — yet, and won't until they've done some more weeks of talking. All of which is pretty good evidence of two things:

1. How thoroughly Soviet Premier Nikita Khrushchev shook them up with his demand last November that the United States, Britain and France get their troops out of West Berlin, which is 110 miles inside Communist East Germany.

2. How thoroughly allied policy in Europe has been frozen for years and how thoroughly it was unprepared to meet a sudden twist in events like the one pulled by Khrushchev.

The Allies haven't lacked time for plenty of discussion since last November.

British Prime Minister Harold Macmillan, after conferring with Khrushchev, visited President Eisenhower, President Charles de Gaulle of France and West Germany's Chancellor Konrad Adenauer.

His visits seemed something less than fully satisfactory from the standpoint of allied unity. Reports of "disagreement" between him and Eisenhower—or, perhaps, it would be better to say their failure to see eye-to-eye—leaked out.

Then this week the foreign ministers of the United States, Britain, France and West Germany met for two days before the North Atlantic Treaty Organization's 15-member nations opened their session here.

As late as Thursday afternoon it was reported the Western allies were split, with Britain off on one side suggesting they concentrate on solving the Berlin situation even at the cost of delaying unification of Germany.

To put it another way: There have been reports the British were for making concessions to the Soviets to get over the Berlin hump.

Then Thursday night NATO spokesmen sought to paint a picture of unity at last among the Big Three and West Germany with British Foreign Secretary Selwyn Lloyd represented as taking a stand for German reunification, too.

In short, the NATO spokesmen attempted to show allied unity in determination to withstand Soviet pressure for concessions.

But if the West isn't ready to make concessions — in return for Soviet concessions — there doesn't seem much reason for negotiations.

As for concessions: It seems to this writer the West has already made a big one. For years the West — particularly the United States — had insisted on the reunification of East and West Germany through free elections.

Now talk of reunification through free elections seems to have disappeared from the speech of Western spokesmen. Actually the idea of uniting the two Germanys through free elections has been unrealistic from the beginning.

The reason: The Soviet Union is against it and this year Khrushchev again brushed aside any such idea. And no wonder. East Germany is a Russian satellite. Moscow isn't going to chance losing anything it has its hands on.

It would lose East Germany in any free election set up to choose a single German government which would decide whether it wanted to be pro-West or pro-Communist.

There's pretty good reason to believe the 18 million East Germans would vote against any connection with communism, which was rammed down their throats. But even if they were pro-Communist they are outnumbered by the 50 million West and pro-West Germans.

Altantic Control Big Task For Navy

By HAL BOLE

NEW YORK (AP)—The gray wastes of the Atlantic today cloak a silent, never-ending struggle for leadership in naval power.

Adm. Jerauld (Jerry) Wright, top sea dog for the North Atlantic Treaty Organization, has a new worry—reports that the Soviet Union is developing a submarine that can launch a guided missile with an atomic warhead.

"They can convert a number of their existing submarines to that purpose," he said grimly. "The defense of North America from the threat of attack by guided missile submarines is occupying a good deal of our attention."

This and a multitude of other problems in the day-to-day race for supremacy at sea are under constant study by 140 NATO officers at Wright's headquarters at Norfolk, Va. He is proud of the fact it is the first and only Allied military headquarters ever established on U.S. soil.

The tall, sparely built 60-year-old admiral wears two hats.

As American naval commander in the Atlantic, he guards the eastern approaches to North and South American continents from the North Pole to the South Pole.

As NATO's Atlantic commander, his ships and men from eight Allied nations patrol millions of square miles between the West Indies and the North Pole, all the vital sea lines that link Europe and North America.

"It isn't an easy thing to bring naval forces of different nations into a coordinated task force," he said, "but we feel we have done it. They get along well, and they work together as a team."

"Three-fourths of Russia's 450 submarines are concentrated in European waters," he pointed out. "There they are in position to try to sever Europe from America and extend the Iron Curtain to the very shoreline of the United States and Canada."

"That is their goal. Our task is to prevent them."

Wright, son of an Army lieutenant general, at 19 was one of the youngest men ever to be graduated from the Naval Academy.

BUCKIN' THE LINE

By BUCK FRANCIS
News Sports Editor

TIM ROBERTS, THE Tigers' fine lefthander, had to work pretty hard for some of those 16 strikeouts against Monterey Tuesday.

Eight of the strikeouts or exactly one-half of his total K's, came on 3-2 pitches. Two others came on 2-2 situations, three on 1-2 and three times Tim blazed three straight strikes past a Monterey batsman.

Three of the five free passes Roberts issued came on 3-2 counts. In fact, the first two Monterey players to get on base walked on 3-2 pitches in the fifth inning. The other two getting to first base via walks came on four straight balls.

All told Roberts served up 127 pitches (not counting foul balls after there were two strikes on the batter). That's an average of 18.4 pitches per inning. In other words, that's a lotta throwin' for one day.

Roberts, apparently, has just about recovered from his broken ankle he suffered during basketball season. Tim was still favoring the injury somewhat when the season opened but his performance the other day against Monterey pretty well removes any doubt that he isn't ready to go.

Monterey Victory A Big Win

The victory over Monterey put quite a feather in the Tiger caps. It was only Monterey's third defeat in 13 games and the first time they've been whitewashed this season.

In a recent vote of the sports writers and coaches of District 3-AAAA, Monterey was tabbed as the district favorite this year.

One of Monterey's 10 victories this season was a smashing 9-1 victory over Big Spring, a team that holds two wins over the Tigers. And it was Art Whitaker, the lad who absorbed the 7-0 licking at the hands of the Tigers Tuesday, who pitched Monterey's win over the Steers.

Monterey's win over Big Spring is the only blemish on an otherwise perfect Steer record to date. The Steers have won nine times.

The Tigers get two more chances at the Steers tomorrow when the two clubs clash in a doubleheader at Big Spring.

The Tigers probably will get another shot at Jay LeFevre tomorrow, the fellow who hurled a no-hitter at the Bengals here March 13.

Tigers Even With '58 Team In Shutouts

The Tiger diamonders have already matched last year's shutout record. The Tiger nine blanked only two opponents last year and the Bengals have already accomplished this feat this season.

This year the Black and Gold have posted shutout wins over San Angelo (3-0) by Norman Gladson and Monterey (7-0) by Roberts.

Both of last year's shutouts ended in 2-0 victories for the Bengals, San Angelo in the regular season and Odessa Ector in bi-district being the victims. Dick Hayes hurled the shutout over San Angelo and Norman Gladson did the whitewashing on Ector.

The Moffettmen have quite a ways to go to match the 1957 Tiger shutout record of 7.

Local athletes are in for another busy weekend this week. The Tiger baseballers opened a three-game weekend series today with a single game against Tom S. here. As aforementioned, the Tiger diamonders go to Big Spring tomorrow for a doubleheader.

The Tiger tracksters go to Kermit tomorrow for the Permian Basin Relays and the Junior High Blue Devils and Tiger Freshmen go to Sweetwater for the annual Sweetwater Junior High meet, also tomorrow.

Tiger 9 Hosts Tom S. Today

Sophomore Charles Gladson was named the starting pitcher for the Tiger baseballers in today's game with the Tom S. Westerners at Towle Park, starting at 4 p.m.

Gladson will be making his second start against the Westerners. The young righthander was charged with the defeat in the Tigers 6-4 loss to the Westerners in the second game of a doubleheader two weeks ago at Lubbock. The Tigers had won the first game, 6-2.

Mike Farley, junior right hander, will oppose Gladson in today's tilt. Farley, too, is out for revenge. Mike absorbed the loss in the first game of the doubleheader with the Bengals after shutting the Tigers out the first six innings.

The Tigers exploded for six runs in the seventh to erase a 2-0 deficit and driving Farley to cover in the process.

The Tigers will be out to even their season record at 5-5 today. The Bengals, after losing their first four starts, have bounced back to win four of their last five games for a 4-5 record.

Tom S. is 5-7 for the season. The Westerners dropped a 6-5 decision to Lamesa, a fellow district member of the Tigers, in an 8-inning hair-raiser Tuesday.

On the same day, the Tigers were winning 2-0 over Monterey at Lubbock behind the 2-hit pitching of Tim Roberts.

will wind up their week's play with

The loss to the Tigers is the only blemish on Farley's record. He has won two.

Tom S. is loaded with power with two 400 hitters in the lineup. Center fielder Harry Pryjomski leads the Westerners at the plate with a .452 average with first baseman Darwin Hilliard close behind with .444.

Two other Westerners are hitting above .300, second baseman Bill Houchin and shortstop Carry Marshall, both sporting .303 marks.

Second baseman Kenny Drake is the only Tiger hitting above .300. Drake has collected 10 hits in 29 trips for a .345 average.

After today's game, the Tigers a doubleheader at Big Spring tomorrow. Norman Gladson (2-3) and Tim Roberts (2-1) are expected to draw the starting mound assignments for the Tigers tomorrow.

Following are the probable starting lineups for today's game with batting averages:

TOM S.

Bill Houchin, 2b, .303; Bobby Paulger, catcher, .270; Darwin Hilliard, 1b, .444; Harry McWright, left field, .294; Ronald Caffee, right field, .250; Harry Pryjomski, center field, .452; Carry Marshall, shortstop, .303; Mike Webb, 3b, .233; Mike Farley, pitcher, (2-1), .143.

TIGERS

Spencer Dyer, left field, .276; Johnny Drake, center field, .240; Kenny Drake, 2b, .345; Terry Lee, right field, .250; Mike Moffett, 1b, .167; Jerry Fleming, short stop, .133; Ronnie Wylie, catcher, .118; Keith Moffett, 3b, .222; Charles Gladson, pitcher, (0-1), .250.

Yearlings Roll To 18-4 Win

The Tiger freshmen and sophomores rolled to an 18-4 victory over the Colorado City sophomores at Colorado City yesterday in a practice baseball game.

Freshman Freddie Miller went the route for the Tigers, giving up seven hits.

Freshman Spencer Dyer and sophomore Ronnie Wylie led an 18-hit Tiger attack with four hits apiece in six trips.

Sophomore Weldon Ware chipped in with three hits in four trips and sophomore Benny Greenfield slammed a homerun in the first inning.

The two teams will play again here next Thursday.

Tiger Thinless To Kermit; Junior Hi, Frosh To S'wter

The track teams of Snyder High School and Junior High School will hit the road tomorrow; the Tigers going to Kermit for the Permian Basin Relays and the Blue Devils treking to Sweetwater for the annual Sweetwater Junior High Meet.

Tiger track coach will take 20 boys to Kermit although two are doubtful participants, sprinters John Weaver and Richard Mahan. Both Weaver and Mahan are nursing leg ailments.

The Tigers will work out here today and then leave about 7 tonight for Kermit. Preliminaries at Kermit will start at 10 a.m. Saturday. Finals will start at 1:30 p.m.

The Tigers placed second at Kermit last season with Andrews winning the title by a 4½ point margin, 38½-34. Andrews and Tigers again are expected to battle it out for the title.

The Tiger chances however, will be weakened if Weaver and Mahan are unable to compete.

The Kermit meet is the final competition for the Tigers before the District 3-AAA meet next week at Sweetwater.

Other teams entered at Kermit are Alpine, Artesia, Brownfield, Carlsbad, Crane, Denver City, Odessa Ector, Fort Stockton, Grandfalls, Hobbs, N.M., Jal, Kermit, Lamesa, Monahan, Morton, McCamey, Pecos, Plains, Seminole and Wink.

The Tigers hold two records at Kermit, both in the hurdles. Rex Wilson sped the 120-yard highs in 14.5 last year for a record and later in the meet his teammate, Bud Morgan, set a new mark in the 180-yard lows in 19.5.

Following are the Tiger entries at Kermit:

High hurdles —Stan Wooleyer and Wayne Berry.

100-yard dash — Jimmy Maroney and Jesse Crawford.

440-yard dash — Alex Cross and Bo Brown.

180-yard low hurdles — Wooleyer and Crawford.

Stan Leonard Takes Early Masters Lead

By WILL GRIMSLEY
Associated Press Sports Writer

AUGUSTA, Ga. (AP)—Since the Masters Golf Tournament was born 25 years ago, every champion has borne the imprint, "made in U.S.A." This could be the year for an imported brand.

As the star-spangled field swung into the second round today, a short, balding Canadian, Stan Leonard, was two strokes out in front with a three-under-par 69. Four overseas players were within four shots of first place.

Peter Thomson of Australia, holder and four-time winner of the British Open crown, and Spain's amazing Angel Miguel were bracketed with three U.S. pros at 72. Gary Player of South Africa and Big Dave Thomas of Wales were among nine men tied at 73.

After a frustrating day of early rain and shifting winds, the run for one of the game's most coveted titles was still wide open but the foreign threat never was stronger.

The best an outsider ever has done in this event came last year when Leonard tied Ken Venturi for fourth, two strokes back of Arnold Palmer.

Leonard, 44, six times professional champion of his country, had the luck and patience where others failed Thursday and therein lies the story of his remarkable round under extremely difficult conditions.

Two strokes back of Leonard came the defending champion, Arnold Palmer of Ligonier, Pa., red hot Jackie Burke Jr., of Houston and Chandler Harper, a balding club manufacturer from Portsmouth, Va., who has played in only two tournaments this year.

Thomson and Miguel, the latter the surprise individual winner in the Canada Cup matches at Mexico City last year, were bracketed with the reigning National Open champion, Tommy Bolt, and two touring pros, Jay Hebert and Gene Littler, all tied at 72.

Floyd Faces Busy Year

By MURRAY ROSE
Associated Press Sports Writer

NEW YORK (AP) — "This is great news. I'm a fighter and I want to fight. The more the better."

So said heavyweight champion Floyd Patterson when told that a four-fight program had been lined up for him in the next 19 months. If he wins them all he could earn upwards of a million dollars (before taxes and manager's cut) before Nov. 1, 1960.

Definitely on Floyd's busy schedule are the defenses against England's Brian London at Las Vegas, May 1 and against Sweden's Ingemar Johansson, undefeated European champion, at Yankee Stadium, June 25.

Beyond these two are title defenses against opponents still to be picked. The London fight and the two after Johansson are part of a three-fight package with NBC television.

Patterson said his manager had not informed him yet of the four-fight program.

The manager, elusive Cus D'Amato, was so busy that he didn't attend two press conferences in which the Las Vegas fight was confirmed and the date and ball park for the Johansson fight were announced.

At the first press conference, Admiral John Bergen, board chairman of Madison Square Garden, Tom Gallery of NBC and Promoter Cecil Rhodes Jr. announced the three-fight deal for NBC television.

Admiral Bergen called D'Amato "a fine fellow," said the Garden hoped to take part in promoting two of Patterson's title fights. He also expressed hope that D'Amato's other fights would appear in the Garden. This indicated the end of D'Amato's feud with the Garden.

Records In Danger In Texas Relays

AUSTIN, Tex. (AP) — Scattered preliminaries leading to record-potentials in a half-dozen events kicked off Texas Relays today.

A long line of athletes will trudge in search of track and field glory with Bobby Morrow, the triple gold medal winner of the Olympic games in the spotlight.

Morrow runs in the feature of the first session of final events tonight, matching strides with Ira Marchison of Western Michigan, co-holder of the world's record of 10.1 in the 100-meter dash.

The special 100 meter dash also has such sprint stars as Ollan Cassell of Houston, former National AAU 220-yard champion; Bill Woodhouse, Morrow's erstwhile teammate at Abilene Christian College; Sidney Garton, freshman sensation of East Texas State, and John West, another spring standout at East Texas State.

Seventeen championships will be determined tonight with 23 more on the line tomorrow afternoon.

The huge track and field carnival has drawn its largest entry —1,265 athletes—and more are likely. There are 116 schools represented in the four division—university, college, freshman-junior college and high school.

Two relays records could come from preliminaries in field events this afternoon. Bill Alley of Kansas, who last week hurled the javelin 258 feet 4 inches, will be after the mark of 252-10½. Ernie Shelby of Kansas, who already holds the broad jump record of 26 feet 3½ inches, will be trying to better that.

Also, the distance medley relay is down for a final running and Oklahoma, which set the record of 9:54.4 last year, is back with its team intact.

Other records in danger are the pole vault mark of 14 feet 3¾ inches, which Ken Pollard of Nebraska is expected to remove, and the high jump record of 6 feet 9 9 inches, which Don Stewart of Southern Methodist, the NCAA champion, might erase. Pollared has been over the vault record by three inches this season.

Tonight's events also headline fellows like Eddie Southern of Texas, Olympic 400-meter hurdles runner-up; Gail Hodgson, Oklahoma's crack miler, and Garton, as spearhead of East Texas State's 880-yard relay team.

Southern will be pushing along the 880-yard and sprint medley relay teams. Hodgson anchors Oklahoma in both the sprint medley and distance medley. He has run the mile in 4:04.9.

Wayland Gals In AAU Finals

ST. JOSEPH, Mo. (AP) — Two familiar names, Nashville, Tenn., and Wayland College of Plainview, Tex., meet in tonight's finals of the women's National AAU basketball tournament.

Nashville won the title last year after Wayland had held it four years.

In the semifinals last night, Wayland knocked off Iowa Wesleyan 40-34 and Nashville defeated Omaha Commercial 53-28.

Yank Moundsmen Hitting Early Peak

By JAC CLARY
Associated Press Sports Writer

Casey Stengel isn't doing too much talking these days about his New York Yankee pitching staff. He doesn't have to—their actions are speaking louder (and possibly clearer) than could his words.

With the season getting into full swing a week from today, the World Champions are getting Grade-A performances from all of their expected starters. The only possible leak in the Yankee dike that is expected to hold back the American League contenders is the sudden back injury to first baseman Bill Skowron.

In the last five days, Stengel has gotten top-flight performances from Tom Sturdivant, Bobby Shantz, Art Ditmar, Don Larsen, Bob Turley, Jim Coates and Whitey Ford.

These are the men Stengel expects to use in his starting pitching rotation. The latest line runs like this:

Sturdivant: Pitched seven innings against the Chicago White Sox, March 29, allowing two runs and six hits. In 1958, the righty was 3-6 with a 4.18 earned run average.

Shantz: In seven innings against the Cincinnati Reds on March 30, he allowed five hits and no runs. The little lefty was 7-6 last year with a 3.36 ERA.

Ditmar: On March 31 against Kansas City, the right-hander gave nine hits and two runs in eight innings. He had a 3.41 ERA last year, winning nine of 17 decisions.

Larsen: Stricken with a pulled muscle in his pitching shoulder March 15, the big right-hander allowed the St. Louis Cards one run on three hits over four innings, April 1. He was 9-6 with a 3.08 earned run average last year.

Turley: Pitched nine innings for the Yankee B squad in a 4-3 decision over Richmond of the International League, also on April 1. The World Series star was Stengel's leading pitcher in '58 with a 21-7 record and a 2.98 ERA.

Coates: Relieved Larsen and pitched one-hit ball for three innings. The rookie has drawn Stengel's praise as the bright light of his young hurlers and will probably stick with the club.

Ford: Went eight innings yesterday, beating the St. Louis Cards 2-1, and scattered nine hits. He did not show any signs of arm trouble, which has plagued him in the past. The little lefty was 14-7 last year with a 2.01 ERA.

In other exhibition games Thursday, the Boston Red Sox won the Cactus League title with a 4-2 victory over San Francisco, the Cleveland Indians knocked off the Chicago Cubs 4-2, and in night games the Philadelphia Phils defeated Baltimore 8-6 and the Chicago White Sox won over Cincinnati 6-5.

Los Angeles-Pittsburgh, Washington-Milwaukee and Kansas City-Detroit were rained out.

Larry Jackson went the distance for St. Louis, allowing nine hits. Skowron, hitting .446, strained a back muscle during a pregame warmup.

Frank Malzone's two-run homer [illegible] paced the Red Sox while Tito Francona's two-run double broke a 2-2 tie in the eighth inning to give the Indians their victory.

Willie Jones paced the Phils' 13-hit attack with two singles and a double for three RBI, with Jim Finigan's error in the third inning opening the flood gates for four Phillie runs.

Jim Landis' homer off Joe Nuxhall with one out in the ninth gave the White Sox their victory. Gus Bell hit a three-run homer and Frankie Robinson one with none on for Cincy.

"MY DADDY SAYS"...

. . . the spark that flies off my kitty's fur is a kind of electricity. My dad says he wishes it had been that easy to get electricity on our farm. He says that he and some other people borrowed money at interest and did it themselves. Most important My Dad says nobody in the world knows more about Rural Electrification than the people who established these systems and we still have a lot of work to do in rural areas.

My Dad thinks we ought to have the same laws for us that apply to other business managed utilities. My kitty doesn't seem to care . . . he can see in the dark.

Poison Helps Fight Cancer

By JOHN BARBOUR
Associated Press Science Writer

EXCELSIOR SPRINGS, Mo. (AP) — New techniques can poison an arm or leg to kill a cancer without killing the patient.

The technique is also being used on the lungs, breasts and pelvis to fight regional cancers.

The treated part of the body has to be shut off from the rest and supplied with a separate source of fresh blood.

Dr. Oscar Creech Jr. of Tulane University described the new method before this week's American Cancer Society seminar.

A pumping machine that acts like an artificial heart and lung outside of the body makes the technique possible.

Suppose a doctor wanted to treat a cancerous leg with chemical poisons in an effort to kill the tumor.

He can shut off the cancerous leg by a tourniquet. Then he can hook up the artificial heart and lung to the blood vessels of the leg, circulating freshened blood through this area.

In this way he can introduce strong poisons into the leg's bloodstream for up to an hour without fear of poisoning the patient. Poisonous anti-cancer agents like nitrogen mustard [illegible] fairly strong concentrations with little harm to the rest of the body.

There is some leakage, but it is not enough to hurt the patient.

The hour time limit reflects a tendency of the blood to become less useful under the strain of the pumping mechanism.

Essentially the leg or any other part of the body is kept divided from the rest of the body. But in isolating some areas like the pelvis or the breast, isolation is less complete.

Instead of tourniquets these areas may be isolated by using small balloons within the blood vessels to block the blood flow.

After the treatment the poison is flushed out by plasma.

Wilson Motors To Erect Building

William H. Wilson Jr., owner of Wilson Motors, Ford-Edsel-Mercury dealership here, has announced plans to construct a new building for the firm this summer.

Wilson recently purchased about 11 acres of property on the north side of the East Highway just east of the B & B Steakhouse.

The property included that just west of the farm-to-market road which runs north under the Santa Fe Railway tracks, on which Wilson will construct his new building, purchased from J. M. Pitts of Snyder and M. J. Thornton of Abilene. Wilson also purchased some land east of that farm road and adjoining the creek which crosses the East Highway from H. H. McDonald of Tyler, William Stone of Snyder and W. A. Bates of Snyder. That property will be used for future development.

Pitts Garage & Salvage Service now occupies the property on which Wilson's building will be constructed. Wilson said he expects to get possession of the property in May and to begin cleaning up the grounds in preparation for the beginning of construction during the summer.

Wilson said his present plans call for getting the new building complete in time to move into it by the first part of 1960. The new building will house the firm's display room, parts, service, truck and body shops.

Wilson Motors now uses a building owned by Bob Bickerstaff of Midland, who was formerly an auto dealer here.

Jury Gets Dope Case

NEW YORK (AP) — The narcotics conspiracy case of underworld chieftain Vito Genovese and 15 other defendants was in the hands of a federal court jury today after a three-month trial.

The jury of seven women and five men was locked up in a hotel Thursday midnight.

Judge Alexander Bicks delivered an 8½-hour charge of 30,000 words before giving the case to the jury. He stressed that the case of each defendant must be considered individually.

The prosecution depicted Genovese, 61, as the "control man" of a multimillion-dollar ring that brought in narcotics from Europe, Cuba, Puerto Rico and Mexico.

The defense described him as a legitimate $225-a-week business executive.

Genovese, a resident of Atlantic Highlands, N.J., has had many brushes with the law but never has been convicted of a crime.

Authorities list him among the 60-odd underworld figures and associates who attended the conclave at Apalachin, N.Y., Nov. 14, 1957. Officials also have called him a leader of the Mafia, the international crime and terror band that had its ancient roots in Sicily.

Vanderpool To Speak At Baccalaureate

The Rev. Harry Vanderpool, pastor of the First Methodist Church, has been chosen speaker for baccalaureate services for the Snyder High School spring graduating class.

Rev. Vanderpool is also president of the Snyder Ministerial Alliance.

The graduating class annually elects the baccalaureate speaker.

Baccalaureate services for the class will be held on the evening of May 24. Commencement exercises will be May 26. Commencement speaker has not yet been chosen.

This year's graduating class will have about 143 students, according to [illegible], high school principal.

Four From Here To State Convention

Four members of the First Christian Church will attend the Texas Convention of Christian Churches in Austin next Wednesday through Sunday.

Attending from here will be the Rev. and Mrs. John Reaves, Mrs. Dave Harlin and Mrs. Eula Williams. Mrs. Harlin is president of the Christian Women's Fellowship of the church.

Forecasts of the 1960s, the "Decade of Decision," will highlight the convention program. Dr. Wilbur H. Cramblet of St. Louis, Mo., president of the Christian Board of Publication, will give one of the main addresses. Other speakers will include Dr. Loren E. Lair of Des Moines, executive secretary of the Iowa Society of Christian Churches, and [illegible] Bradshaw of Indianapolis, executive secretary of the department of church development and evangelism for the United Christian Missionary Society.

Study groups will meet Thursday through Saturday. Included in study will be "The Role of the Bible in the Christian Faith," "Worship in the Disciples Tradition," "Responsible Churchmanship" and "Christian Encounter with Present Life."

Dr. [illegible], president of the National Evangelistic Association of the Christian Churches, will speak at 2 [illegible]. Mrs. J. Warren Hastings, wife of a Washington, D. C., Christian Church [illegible], will speak at the women's [illegible].

Baptist Leaders At Meeting In Lamesa

The Rev. Vernon Yearby, former pastor of the First Baptist [illegible] in the department of evangelism of the Baptist Home Mission Board at Dallas, was to be speaker in the Baptist meeting of district and associational leaders today at Lamesa.

Participating in the conference from Snyder were the Rev. A. J. Martin, Virgil Scott, Glen [illegible], Mrs. [illegible] and the Rev. W. L. Cass. Also attending were the Rev. T. L. [illegible] of Ira, the Rev. L. B. [illegible] of Hermleigh, and [illegible].

The district will consider a new encampment to be developed north of Stanton. Camp directors are [illegible], the Rev. [illegible] Nelson and [illegible] Williamson, all of Snyder.

TELL WEDDING PLANS—Elizabeth Taylor and Eddie Fisher hold hands as they disclosed in Las Vegas they will wed in six weeks after Debbie Reynolds gave her consent to a quickie Nevada divorce. LIZ IS FLIPPING

Debbie Agrees To Quickie Divorce

By JAMES BACON

LAS VEGAS, Nev. (AP) — An ecstatic Elizabeth Taylor and Eddie Fisher today made plans for a private wedding that will take place probably May 11.

"No one will know about it until it's over," the joyful actress told a reporter Thursday night.

"We are both very grateful to Debbie."

She was referring to Debbie Reynolds, Fisher's wife, who announced Thursday she would not oppose Fisher's desire to get a quickie Nevada divorce so that he could marry Miss Taylor.

"I wish Liz and Eddie happiness," Debbie said as she arrived in Los Angeles after a transpolar flight from a movie location in Spain.

The news made Liz and Eddie so happy that they literally jumped for joy. A reporter told them of Debbie's statement while the two were at the $500-a-week dude ranch that Miss Taylor rents while Fisher performs nearby at the Tropicana Hotel.

"Liz is flipping," said Fisher. [illegible] I'm grateful that Debbie did this."

Then Liz got on the telephone and said: "I'm so happy I almost passed out at the news. I knew all along that Debbie would consent. Just chalk it up to woman's psychology or intuition."

Liz originally had made plans to attend Burl Ives' opening at the Flamingo Hotel Thursday night. Ives, her co-star in "Cat on a Hot Tin Roof" and also a fellow Academy Award nominee, was opening Wednesday night.

"I decided that Eddie and I should be alone," she explained. "Also, I've been fighting a sore throat."

She was not at Fisher's supper show but the singer went out to the ranch between shows and she returned with him to the midnight show.

"I'll be here every night from now on," she said, "either out front or around the dressing room."

That means two shows a night for the next six weeks, the time needed for Fisher to establish Nevada residence. He said he probably will charge incompatibility in his divorce suit against Debbie.

Debbie got a California decree in February from Fisher but it will not be final for a year. As a result Liz and Eddie cannot live in California as man and wife until February 1960. Otherwise Fisher would be subject to prosecution for bigamy in that state.

1925 Divorce Now Official

HOUSTON, Tex. (AP) — A divorce granted July 27, 1925, has become official at long last.

Dist. Judge Sears McGee signed an order Thursday divorcing [illegible] Florence Johnson from John [illegible].

The original divorce was granted by retired Dist. Judge Ewing Boyd but never entered on the court's official minutes.

Mrs. Johnson, who remarried 30 years ago, didn't discover the error until she recently asked for a copy of the decree as a document [illegible] application.

Mrs. Johnson's attorney, Victor M. Petty, obtained an affidavit from Boyd last week certifying the divorce was granted in 1925.

Blame Wasp In Collision

MESA, Ariz. (AP) — A woman's attempt to shoo away a wasp while driving resulted in a collision with a school bus and the death of her daughter Thursday.

None of the 70 junior high school students on the bus was hurt.

Patrolman Carroll Bollinger said that as Alice M. Flaherty, 34, tried to ward off the wasp, her car plowed head-on into the bus.

Viola Pearl Gibson, 16, died of injuries in a Mesa hospital. Mrs. Flaherty and another daughter, Shirley Ann Gibson, 13, were hospitalized with fractures.

Fishing Violators Get Rapid Justice

THERMOPOLIS, Wyo. (AP) — When Game Warden Jack Reavis found four men fishing in a restricted area, justice was on the scene.

One of the four called court into session on the river bank and fined himself and the other three $10 each. Then he suspended the fine on promise of good behavior.

The one angler, Reavis said, was Justice of the Peace F. J. Welch.

Sophia Loren Hurt In Wrestling Scene

HOLLYWOOD (AP) — A [illegible] wrestling scene sent Sophia Loren to a hospital Thursday for X-rays on her arm.

Steve Forrest, a costar in "Heller With a Gun," fell on Miss Loren's right arm when they wrestled during filming.

A doctor said there may be a [illegible] hairline crack.

Horseless Army Still Has Horse Sense

By C. YATES McDANIEL

WASHINGTON (AP) — The Army, which abolished cavalry years ago, used old-fashioned horse sense in answering a boy's plea for help with his horse.

The boy with the problem is Philip Trautman, 11, Madera, Calif.

Philip addressed a letter to the "Chief of Cavalry, United States Army, Washington."

He [illegible] his brothers, 12 and 6, and a 19-year-old horse.

The horse, Philip wrote, "is [illegible] in the field but when we are coming home he wants to run back to the corral."

What Philip wanted to know was: "How would you stop him from running back to the corral? No matter how hard we pull he won't stop."

Although the Army abolished its chief of cavalry before World War II, the boy's letter fell into good hands in the [illegible] office, Brig. Gen. Frank S. [illegible], whose present job is handling the [illegible] assignment of general officers [illegible] started his military career as a [illegible] cavalryman and is [illegible] the best horsemen in the Army [illegible] his present [illegible] is tanks and trucks [illegible] honored warrior [illegible].

[illegible] the Army in past years frequently had the same problem with its horses.

The general offered two suggestions to solve Philip's problem. First, he recommended using a double bridle with both a curb and snaffle [illegible] to talk this suggestion over with his dad "because some horses do not react too well with these bits."

The general's second piece of advice was that Philip and his brothers, when returning home, [illegible]

Deaf Man Walks Into Train's Path

SAN BERNARDINO, Calif. (AP) — The warning bell was ringing as George [illegible] Roundtree walked toward the railroad crossing.

But he kept on walking. He was killed.

Witnesses heard the bell and saw a Southern Pacific passenger train strike the 80-year-old man and hurl him into the air.

Why didn't he stop? Investigators said he was deaf.

Bat Rabies Increasing Along Border

BROWNSVILLE, Tex. (AP) — The dread paralytic rabies carried by vampire and other bats is increasing in the U.S.-Mexico border region, a Pan-American Sanitary Bureau official said today.

The first U.S. death definitely attributed to bat rabies was reported in California only last year, Dr. James Cocozza told the annual meeting of the U.S.-Mexico Border Public Health Assn.

He recommended a stepped-up and coordinated U.S.-Mexico program to combat the whole problem of rabies, not alone that caused by the vampire bat.

Dr. Cocozza, head of the Sanitary Bureau's El Paso office, said the rabid bat has been long recognized in Latin America, but was unknown north of the Rio Grande until about five years ago.

The bats, he added, are hard to fight since they have great range and little is known about them. They are a great menace to livestock, causing many rabies deaths among cattle and farm animals, he said.

Cocozza said the skunk is threatening to become the main source of both animal and human rabies because of a decrease in coyote and wolf populations and the vaccination of dogs against the disease.

Two Persons Injured By Hit-And-Run Boat

DALLAS (AP) — A hit-and-run boat injured two persons yesterday.

Accident Investigator J. B. [illegible] said Mrs. [illegible] and [illegible] Padgett were standing in the road inspecting auto damage from a minor collision when they were knocked down by a motor boat being towed on a trailer.

The driver did not stop.

JWs Make Plans To Attend Training Meet

The Snyder Congregation of Jehovah's Witnesses is making plans to attend a three-day training program in Big Spring.

"The object of the program," J. D. Cook, minister, said, "is to equip every one of the preaching fellowship of Jehovah's witnesses in the practical use of the Bible as a help in fortifying the spiritual morale of people in our community."

Cook said that Jehovah's witnesses are enrolled in ministerial training of at least five classes weekly.

McMurry Band Will Play Here Sunday

A former Snyder High School student will be with the McMurry College band during a performance in the 11 a.m. Sunday services in the First Methodist Church.

Karen Crooks, a graduate of Snyder High School and member of the First Methodist Church, is a flute player and maidenette. She will be with the 55-piece Indian band as it begins its annual spring tour of West Texas.

Directed by Raymond Bynum, the college band will present a program of religious music during the services.

The program will feature a hymn medley on the vibraharp by Homer Payne, senior from Merkel; the Vesper hymn by the English Handbell Choir; and a special number to be presented by a mixed quartet. In addition, there will be several numbers presented by the entire band which will include vocal solos.

Snyder will be the initial stop for the band Sunday as it launches a week-long tour of West Texas. During the tour it will perform before church and high school congregations.

Following its Snyder appearance the band will play during the Sunday night services in the First Methodist Church in Lamesa. After a 2 p.m. Monday concert in Wolforth High School, the band will move on to Abernathy where it will present a concert Monday night in Abernathy High School.

Other stops include Floydada High School Tuesday, plus a senior banquet in the First Methodist Church. The banquet will precede the high school concert.

Bynum will direct the band during the Wednesday night services in the First Methodist Church at Shamrock.

Youth Rally Set

A youth rally has been set by the Mitchell-Scurry Baptist Association for April 11 at the Colonial Hill Baptist Church here.

The evening rally will be led by Wayne Blankenship and Tommy Mosley, students at Hardin-Simmons University.

Wise Parents

It is the wise parents who help their children to realize what it costs to live and what it means to make a living without nagging them about it. It is also the wise parents that give their children the opportunity to handle some money of their own. If you do this you are helping them meet life as an adult.

Lutherans In Training

Training in lay visitation evangelism is scheduled for Monday through Wednesday evenings at the Grace Lutheran Church.

The Rev. Myron K. Blackman, pastor of the Salem Lutheran Church of Houston, will conduct the training sessions, which will be at 6:30 p.m. daily. He conducted a similar program just prior to the organization of the church here.

Rev. Blackman is also president of the Eastern Conference of the Texas-Louisiana Lutheran Synod of the United Lutheran Church in America, a member of the board of directors of Central Seminary at Fremont, Neb., and a synodical chairman of the board of foreign mission.

L. T. Kramer is the local church's evangelism chairman. Similar schools are being held in other Lutheran churches in the synod.

REV. MYRON K. BLACKMAN

Leadership Clinic

The Mitchell-Scurry Baptist Association Women's Missionary Union will hold a leadership clinic Thursday at the Avenue D Baptist Church here.

There will be study on Girls' Auxiliary, led by Mrs. A. B. Graves of Colorado City; Sunbeams, led by Mrs. Faulkner of Big Spring; and on YWA, led by Mrs. G. N. Cummings of Snyder.

MONOPOLIZING SALVATION

(Question) "Do you claim to have a monopoly on Salvation?"

(Answer) This charge is often made against Christians because of the conviction they have toward God's word. Of course, only the Lord can dictate the terms of admission into His kingdom and all who follow His will and walk in his ways have access to it. If I may, I should like to turn and question our querist. "Do you teach the plan of Salvation the way the Lord commissioned his Apostles?" If you do, then as you charged me, thou hast condemned thyself. If you do not, then you fall under heaven's curse of "preaching another gospel." (Gal. 1:7-9) Churches of Christ today plead for unity even as our Christ prayed. (John 17:20,21). Every effort is made to follow the exact pattern the New Testament gives in CONVERSIONS, ORGANIZATION and manner of WORSHIP. "If any man speak, let him speak as the oracles of God; if any man minister, let him do it as of the ability which God giveth: that God in all things may be glorified through Jesus Christ, to whom be praise and dominion forever. Amen." (I Pet. 4:11) Jesus enjoys the exclusive right to bar from, or permit, those who would enter his Kingdom. To the apostles this commission was committed and the truths bound. (Matt. 16:18,19; Mark 16:15-16; Acts 2:37,38) Who would dare teach otherwise.

You In The Church The Church In You

— form a combination for good. Every man, woman and child needs the influence of the church. So, come let us go into the house of the Lord. Let us support her program of service to humanity, be a faithful worker, a daily bible reader and attend services regularly.

Whether of wood, or gold, or other material, The Cross is symbolic of our highest living. It tells of both sacrifice and life at its best. It is a symbol of God, a symbol of Christ, *a symbol of the Christian church you attend every week.* What would the church be without The Cross! Where might your steps lead were you to forget the Crucifixion! What might happen to your family and to the families of all your friends were it not for the influence of the allumined Cross in their lives. If you would have tomorrow remember you; if you would have your golden years filled with peace and hope . . . then *Keep The Cross Before You Every Day.*

The Public Spirited Firms and Individuals on this page bring you this weekly message in the hope that it will point to a better way of life and be an inspiration to everyone.
