U.S.-Red China Conference Is Empire's Aim

LONDON, Jan. 11. (AP) — Informed sources reported today the British Commonwealth nations have proposed a high level meeting between the United States and Red China to discuss a Korean settlement.

The proposed get-together would be under United Nations auspices, the informants said.

Neither the United States nor Red China has so far reacted to the suggestion.

UNANIMOUS SUPPORT

The new move apparently has the support of the leaders of all nine British Commonwealth nations who have been discussing the tense situation in the Orient and in the rest of the world in a conference which began here last Thursday.

Few details of the proposal were available, but its immediate objectives were clear.

It would seek to avoid formulation in the United Nations, of a new cease-fire resolution which might prove unacceptable to either the U. S. or Red China. It would seek to defer offering of a projected U. S. resolution to have the UN brand Communist China an aggressor.

FEARFUL

Britain, the Commonwealth and many western nations would find it difficult to support such a resolution. Some have recognized the Peiping government. All want to keep out of a limited or open war against Red China. They fear labelling Communist China an aggressor eventually would lead to imposition of economic sanctions against China, which could be a step to war.

No Oil Shows In Samples Of Howard Well

Stanolind Oil & Gas Co. No. 1 Buchanan Estate, 660 feet from east and 1,980 feet from north lines of section 25, block 31, T-1-N, T&P survey and in Northeast Howard County, topped the Ellenburger at 9,258 feet with an elevation of 2,474 feet.

The wildcat is now drillstem testing that formation from total depth of 9,280 feet.

The samples from the Ellenburger top to total depth did not show signs of petroleum.

Operator reported that water was breaking through the formation and cutting the drilling mud.

The No. 1 Buchanan has not logged any shows of possible commercial production from any formation drilled.

IN PENNSYLVANIAN

Sinclair Oil & Gas Co. No. 7-C June Sanders, which has shown for commercial production from the Wolfcamp in Southwest Midland County, is coring in the Pennsylvanian below 10,256 feet.

The one and one half mile northeast outpost to the Sweetie Peck field topped the Pennsylvanian by samples at 9,967 feet on an elevation of 2,892 feet.

That makes it 17 feet high on top of the Pennsylvanian to the same marker of the same operator's No. 3-C Sanders, a drilling project on the north side of the field.

Location of the prospector is 660 feet from south and east lines of the northeast quarter of section 9, block 41, T-4-S, T&P survey and about 23 miles southwest of the city of Midland.

IRION WILDCAT

Five miles east of the town of Mertzon and in extreme Central East Irion County, the Wilshire Oil Co. is to start drilling immediately on its No. 1 Phillips-Beam, Ellenburger wildcat.

The 9,000-foot test will be dug 660 feet from north and west lines of section 14, block 3, H&TC survey and three miles southwest of the operator's No. 1 Brooks, recently completed as a discovery from the Ellenburger.

The wildcat is on a block of 2,250 acres which had been held by B. F. Phillips of Tyler and Dallas. He turned the block to Wilshire to drill and retained an overide.

GARZA FAILURE

A. R. McElreath of Fort Worth No. 1 Spinning, East-Central Garza County wildcat five miles southeast of the town of Post, and three miles south and one mile east of the Garza-San Andres field, has been plugged and abandoned at total depth of 2,815 feet.

Operator baled 30 barrels of sulphur water per hour from 2,754-70 feet. Hole was deepened to the abandoned total depth without finding signs of production.

The failure is 330 feet from south and west lines of the southeast quarter of section 9, block 5, GH&H survey.

Drouth Relief Freight Rates To West Texas

AUSTIN, Jan. 11. (AP) — The State Railroad Commission today granted drouth relief freight rates on cattle feeds for 37 counties of Southwest Texas.

Commission Chairman Olin Culberson said the reduced rates would remain in effect until April 20.

South Texas farmers and cattlemen appeared before the commisson at a public hearing Jan. 4 to plead for the reduced rates on what they termed "life-saving feeds" for cattle in that area.

They said the severe drouth and resulting acute shortage of pasturage for livestock feed has created an emergency.

Petition for the reduced rates was brought by the Texas Livestock Marketing Association. County agents, members of the State Farm Bureau, the Valley Farm Bureau, Texas and Southwestern Cattle Raisers Association, Texas Sheep and Goat Raisers Association, and many other officials, bankers and businessmen joined in the request at the hearing.

Senators May Re-Open Case On Rosenberg

WASHINGTON, Jan. 11. (AP) — A Senate committee agreed to decide today whether to move for a court showdown with the men who sought to label as a Communist sympathizer Mrs. Anna M. Rosenberg, assistant secretary of defense.

The Senate Armed Services Committee, which unanimously denounced the accusations as false in a report to the Senate, called a meeting to determine its next step.

The meeting had been set for this morning but a quorum of members failed to show up. Another effort to settle the issue was planned later in the day.

Before the group were twin motions by Sens. Cain (R-Wash) and Morse (R-Ore), urging that Mrs. Rosenberg's accusers be charged with perjury if the Justice Department can find a basis to prosecute such a charge.

"Obviously there always is a question in a case like this of whether the exploded accusations against Mrs. Rosenberg arose from mistaken identity or from willfully committed perjury," Morse told a reporter.

"That is a matter for the courts to decide, and I must press for adoption of my motion. As a lawyer, I believe we must protect the sanctity of the oath we administer to witnesses that they shall tell the truth."

Formal Opening Planned At Lee Motor Company

Lee Motor Co., formerly Schooling Motor Co., will have its formal opening Saturday, D. A. George, manager, announced today.

The firm is owned by V. Lee Matney of Amarillo and H. L. Ratliff of Breckenridge, who recently purchased complete ownership from their former partner, R. A. Schooling. George, formerly of Amarillo, was named manager when the transaction was completed.

James H. George has been named assistant manager of the motor company with Kenneth Knollenberg shop foreman. Their company is the authorized agency for Plymouth and DeSoto automobiles and maintains a body and paint shop as well as a service station.

Low Air And Navy Loss Cause Of Stampede

NEW ORLEANS, Jan. 11. (AP) — Men of draft age are stampeding into the Air Force and Navy because of the small losses among personnel in those services in the Korean war, according to Lt. Gen. Leroy Lutes.

Low of 20 This Morning

The mercury took a slow glide up to 54 degrees in Snyder yesterday, stopping considerably short of the previous day's high reading. The low recorded by Mrs. D. P. Strayhorn, weather observer, was 20 degrees, seven below that of the day before.

No Reserved Space

Refugees and South Korean soldiers almost obscure the locomotive of a train moving out of Suwon ahead of advancing Reds who took the town. An estimated half million refugees have been ordered out of the Pusan-Pohang perimeter in southern Korea to less crowded areas in the southwestern Cholla province.

Allies Fighting Holding Action On Central Front Below Wonju

(By The Associated Press)

TOKYO, Jan. 11. — American Second Division troops clung stubbornly last night to a salient one and one-half miles south of Wonju on the critical central Korean front, but two Korean Red divisions were attempting a flanking move from the north and east.

A spokesman with the Americans, who were bolstered by French and Dutch troops, identified the Reds as about 20,000 men of the North Korean Sixth and Tenth Divisions.

The censorship withheld further details of this action, which was reported by AP Correspondent William C. Barnard in a dispatch timed at 10 p.m. Thursday (7 a.m. Thursday, CST.) and received in Tokyo early Friday.

HEAVY CASUALTIES

A second-division spokesman also said a Red force was beaten back with 200 to 300 casualties when it tried to encircle a Second Division unit five miles to the southeast on the Wonju-Checon Highway.

Otherwise, Barnard reported, the front was stabilized Thursday, with only some small-arms fire south of the wrecked and empty town of Wonju.

On that front, 55 miles southeast of Seoul, the Reds lost an estimated 2,100 troops in an earlier fight that lasted seven hours.

PUSH BACK

The allies abandoned Wonju Monday. On Wednesday, a tank-led patrol of the U. S. Second Division pushed back into the town from the southeast.

Finding no Reds there, the patrol looked around for a while, then voluntarily withdrew towards the overlooking hills in the south.

South, on the road towards Chongju, the company-sized patrol was jumped by more than 7,000 North Koreans. At one stage the Americans fixed bayonets and charged.

After other allied forces reinforced the patrol, the Reds broke off the battle Wednesday night.

But the greatest menace to allied armies was shaping up in a 50-mile stretch between Chongju and Red-held Osan in western Korea.

Chinese and Korean Red forces estimated at 285,000 were in the area or moving toward it in an apparent bid to cut off the main forces of the U. S. Eighth Army on the road south of abandoned Seoul.

In that area roads fan out through the hills, affording many avenues of approach to the allied forces.

FORCE ACTON

AP Correspondent John Randolph said the Chinese evidently hope to force the Eighth Army to accept battle in the rough country suitable for swarms of night-fighting Red infantrymen.

Six Chinese armies were in the general western area, south of Seoul, and seven armies were north and west of Wonju. This force included wiry Mongolian cavalrymen. Intelligence officers said 500 Chinese planes and 200 tanks are available to back the push.

Air Force Hits Ground Troops

U. S. FIFTH AIR FORCE HEADQUARTERS, Korea, Jan. 11 (AP)—Allied war planes lashed today at Communist troops and supplies and reported they killed or wounded more than 1,400 Reds.

It was their first chance in two days to hit the Chinese invaders of Korea. Ground-hugging clouds had prevented their usual close teamwork with their buddies on the snowy ground.

The heaviest strike was in the Suwon area south of Seoul. About 100 fighters caught huge enemy concentrations in the open and inflicted casualties on nearly 1,100 of them, headquarters reported. A total of 215 sorties flown throughout Kora in the three hours of clear weather this afternoon.

Headquarters said F-80 jets of the 49th Fighter Bomber Wing made the largest kill in the Suwn area when they shot up 200 troops in one concentration.

Repeat Performance

Harry Vazquez (left), 17, of Brooklyn, is sworn into the Army—for the third time—by Capt. Louis J. Clancy at 39 Whitehall Street in New York City. Twice before Vazquez had used the birth certificate of his brother, Jose, to enlist. Each time, as a result of letters written by his mother to the Army about his age, Vazquez received a minority discharge. He has his mother's consent this time to enlist. Vazquez has asked to be allowed to join an outfit in Korea—the unit he was assigned to on his second enlistment.

GOP Split On Newcomers In Major Posts

By MARVIN L. ARROWSMITH
(Associated Press Staff)

WASHINGTON, Jan. 11. — Divided Senate Republicans arranged to vote today on whether to give the new GOP senators some of the major committee assignments which ordinarily go to veterans.

In advance of the closed party conference, Sen. McCarthy (R-Wis) — sponsor of the plan to give the newcomers a larger voice — predicted "a rather close division."

TAFT BACKING

The McCarthy proposal had the backing of Sen. Taft of Ohio, chairman of the Senate Republican Policy Committee. But it was opposed by Sen. Butler of Nebraska, chairman of the GOP Committee on Committees — the group which hands out assignments to the legislative committees.

The policy committee discussed the touchy plan late yesterday, but decided to take no stand. The group simply put McCarthy's resolution in draft form, then sent it on to the conference of the 47 Republican senators for a vote.

McCARTHY PLAN

The McCarthy proposal provides that before any man who already has one major committee assignment shall get a second, every GOP senator shall have at least one major post. Those who already have two major committees would not be affected. And they could continue to exchange their present committees for others.

Sen. Young (R-ND), a member of the policy committee, said he favors the plan and he predicted it would be approved if a secret ballot were held. Such a ballot frequently is ordered where personalities are involved, as they are in this case.

Work Begins on New Bridge; Another Will Be Started on Monday

Excavations have been started for a new bridge on Twenty-fourth Street and Avenue O, and work is to start Monday on excavational work for the new bridge to replace the one that collapsed on Twenty-seventh Street, Dwight Look, assistant city engineer, said today.

Each of the new bridges will have 36-foot roadways. The Twenty-fourth Street bridge will be 27-feet long, and will have a four-foot sidewalk on each side, making the overall width 44-feet.

The Twenty-seventh Street bridge across Deep Creek will have a five-foot walk-way on each side making it 46 feet wide, and will be 150-feet long, Look said.

No completion date is known.

British Cut Trains

LONDON, Jan. 11. (AP) — The state-owned British rail system announced today 369 trains will be taken out of service Monday to save coal during the current fuel crisis.

Governor Shivers Calls For Economy, More Tax And State Law Reforms

Warns Against Sabotage And Enemy Attack

Wants Balanced Budget And Continued Upkeep Of Schools, Welfare

By DAVE CHEAVENS
(Associated Press Staff)

AUSTIN, Jan. 11. — Gov. Allan Shivers warned the Legislature tiday it must spend less, tax more and cut state projects dimmed under "the long shadow of another world war."

The governor's biennial message to the Legislature on the third day of its 52nd general session bluntly underscored the urgency of girding against sabotage and of defending "our own lives against a possible enemy attack."

Balancing the budget without crippling schools, state hospitals and public welfare demands new taxes in the ace of an expected 110 million deficit, the governor said. He forecast heavy defense spending.

CIVIL DEFENSE

"I hope you will protect the slender balance in our general revenue fund for civil defense," Shivers solemnly told the lawmakers. Specific civil- defense legislation will be offered as soon as possible, he said.

Shivers called for drastic reduction or elimination of every state project not necessary to building a strong, sound, home front. Inevitable federal demands for more taxes, more material and more manpower "will have to be given priority over similar state and local demands."

The question is no longer whether or not new taxes will be needed, the governor said, but how large or how small the new levy will be. He turned thumbs down on a sales or an income tax.

Shivers suggested the answer to the question of how to meet the deficit lies within the ability and willingness of the Legislature and the people to separate the essential from the non-essential.

KNOWN PROBLEMS

The governor said the Legislature faced an immediate outlook of uncertainties, but this much is known:

"The size of our tax bill is going to depend on appropriations for state departments, hospitals, and special schools, education, the judiciary, the prison system, public defense.

"These are the 'musts' of state government. Generally speaking, we cannot dispense with any of them and continue to operate.

They ought to be considered as early as possible in the session . . . in the light of the national emergency."

He urged exploration of the present tax plan to be sure "no one shall pay more than his share, and no one less."

CHEAP REFORMS

The governor then emphasized a series of "needed reforms" that can be accomplished at little or no cost:

Legislative, congressional and judicial redistricting; strengthening the criminal, water, insurance and election codes; improved traffic safety; stronger states' rights through affirmative "congressional action to return our confiscated tidelands"; research for secondary recovery of oil; increased efficiency through adoption of four-year terms for state and local officers internal security with enforceable controls on Communist Party activity.

Shivers told the lawmakers they must not only avoid spending money, but they must find ways to save.

"It is not a popular or pleasant task either to suggest added taxes or to deny appropriations to sincere and important groups that demand them. But you and I were elected to face these problems," the governor said.

As an example he noted the increased spending for public school and higher education, and asked whether "we are substituting quantity for quality" in these fields.

Bugle Makes Circuit

WESTERN KOREA, Jan. 11. (AP)—An American infantry company captured a Chinese bugler complete with bugle.

Cameramen wanted to photograph the bugle. But:

The company had sent it to a battalion. The batalion had given it to the regimental commander. He had presented it to the division commander, who had turned it over to the corps commander. The latter gave it to the commanding general of the Turkish brigade.

The commander of the Turkish brigade said he had rushed the bugle back to Turkey for presentation to the Turkish chief of staff.

Against Law To Hoard Rubber

WASHINGTON, Jan. 11. (AP)—The government made it unlawful today to hoard supplies of natural and synthetic rubber.

The National Production Authority (NPA) added rubber and a number of other items to its previously published list of materials subject to anti-hoarding provisions of the Defense Production Act.

That act makes it unlawful to hoard designated materials. It defines hoarding as:

1. The accumulation of supplies in excess of reasonable demands of business, personal or home consumption.

2. The accumulation of supplies for the purpose of resale at prices in excess of prevailing market levels.

In addition to natural and synthetic rubber, the NPA added the following other items today to its hoarding list:

Industrial ethyl achohol, Chlorine, zinc dust and oxides, and these textile materials — burlap (hessian) cotton pulp, high tenacity rayon yarn, and nylon staple and nylon filament yarn.

Probe Racing News On Radio

WASHINGTON, Jan. 11. (AP)—The Federal Communications Commission today ordered a general investigation into the handling of horse racing information by radio and TV stations.

The commission announced it is sending a questionnaire to all standard, FM and television outlets, requiring full information on all regular programs related to racing.

The announcement emphasized that the survey is not concerned with occasional broadcasts of results and other information about feature race events such as the Preakness and the Kentucky Derby.

FCC said it does want to know what stations have regular racing programs, the form of their handling, what detail is included, and the source from which the station obtains the information it broadcasts.

King Gustaf Pledges Support To The UN

STOCKHOLM, Sweden, Jan. 11. (AP) — King Gustaf VI, in his first speech from the throne, today pledged his country's co-operation in all United Nations measures "calculated to ease the international tension and to promote permanent peace."

Lucky Boy

Cpl. Horrise D. Crownover, 23-year-old Army MP from Bonham, Tex., displays a $100 bill which was given to him by a silk-hatted stranger who greeted him on a busy New York street. Cpl. Crownover shook hands with the stranger who pressed the bill in his hand and then walked away. By the time the MP, who lives with his wife on Staten Island, realized what had happened, the stranger had mingled with others on the avenue and disappeared. Cpl. Crownover is attached to First Army MP's at Fort Jay, Governors Island.

Kilday Balks At Air Control

WASHINGTON, Jan. 11. (AP)—Rep Kilday (D-Tex.) balked today at giving the Air Force chief of staff "command" authority—rather than just "supervision" over all Air Force personnel and components.

"Command of the Air Force rest with the President of the United States as commander-in-chief," Kilday told a reporter. "In this country the civilians run the military."

The issue arose during hearings on an Air Force reorganization bill before a House armed services subcommittee which Kilday heads. Secretary of the Air Force Finletter and the AF chief of staff Gen. Hoyt S. Vanderberg were called back for further testimony today.

Vanderberg argued yesterday that a situation might arise where an enemy country offered to surrender at a time when planes from a U. S. base were on their way to attack it in a devastating air strike—possibly with atomic bombs although he did not mention them.

The immediate base commander might not know of the surrender offer, Vandenberg said, and Washigton should have airtight authority to halt the attack or shift the traget.

He said the chief of staff, under direction of the secretary of the Air Force, should have full "command" over Air Force personnel and organizations, rather than mere "supervision" as the reorganization bill now provides.

Carrier In Service

BOSTON, Jan. 11. (AP) — The USS Kula Gulf, first of a fleet of 21 escort carriers at Boston to be taken out of "mothballs" since the President declared an emergency, will be recommissioned about Feb. 15, the Navy announced today.

New Policy For Mobilization Of Manpower Due To Be Issued

WASHINGTON, Jan. 11. (AP)—Mrs. Anna M. Rosenberg said today President Truman plans to issue a new "national manpower mobilization policy" within the next few days.

The woman assistant secretary of defense said the presidential directive would ask industry, agriculture military and civilian groups to conserve available manpower.

Mrs. Rosenberg, who was brought to the Defense Department as a manpower expert, mentioned the prospective new order at a Senate hearing in response to a question from Sen. Stennis (D-Miss) as to plans for draft deferment of young men engaged in farm work.

ABOUT FARMERS

Stennis wanted to know whether sufficient young farm workers would be deferred to produce the increased food and farm crops that will be needed for the expanding mobilization program.

Mrs. Rosenberg did not elaborate to the senators on her statement and would give no details to reporters who questioned her later.

She did say that in general the order will require that "we do our job and do it right."

She said that would involve each group viewing its own manpower needs against the overall needs of others.

Mrs. Rosenberg was before a Senate armed services subcommittee for further discussion of administration proposals to draft 18-year-olds into the armed services and set up a universal military training program. She and Secretary of Defense Marshall disclosed the plan to the committee yesterday.

Weather

WEST TEXAS: Partly cloudy to cloudy and warmer this afternoon and tonight. Friday partly cloudy, with moderate temperatures.

EAST TEXAS: Partly cloudy, warmer tonight and in interior this afternoon. Friday mostly cloudy and warmer, a few showers extreme south portion. Moderate northeast to east winds on the coast becoming southeast and south Friday.

Hogan Takes Honors As Sport's Greatest Comeback Last Year

NEW YORK, Jan. 11. (AP) — Bantam Ben Hogan's phenomenal moviescript rally from a near-fatal accident to regain his old golfing heights was rated today the greatest comeback in sports for 1950.

Sports writers and broadcasters participating in the year-end Associated Press poll, had little trouble making up their minds in this category, giving an overwhelming vote to the plucky little shotmaster from Texas.

On Feb. 2, 1949 Hogan was critically injured in an automobiles accident while returning home from a tournament in Phoenix, Ariz. For weeks his condition remained serious.

There was doubt that the sinewy veteran who the year before had scored professional golf's U. S. slam —the PGA, Open and Western — would ever walk, much less play, again.

FIRST ROUND

But by mid-summer of 1949 Hogan was hobbling around on crutches and in December he played his first round of friendly golf.

There was a flurry of excitement when it was announced Hogan would attempt his comeback to competitive golf in the rich Los Angeles Open Jan. 6. Could Hogan do it? He replied quickly.

Walking stiffly on legs held together by bailing wire, Hogan amazed the golf world by finishing in a tie with Sam Snead for first place, shooting a remarkable 280. It was immaterial that Ben later lost to his old rival in a playoff.

Hogan won the Greenbrier Open in May with a record-tying 21-under-par 259 and then climaxed his spectacular comeback by winning the National Open at Philadelphia in June.

Hogan received 112 first place votes from the 214 who cast ballots and piled up 393 points on the basis of three for a first place vote two for second, etc.

PHILLIE SLUGGER

Second place went to another whose career was almost cut short by tragedy — Eddie Waitkus, first baseman of the Philadelphia Phillies.

Waitkus was shot and seriously wounded in Chicago June 15, 1949, by a 19-year-old girl.

He came back last year to play 154 games for the Phillies, help them to the National League pennant and play in the World Series. He batted .284.

Here are the leading comebackers with points awarded on the basis of three for a first place vote, two for second, etc.

(First place votes in parentheses):

1. Ben Hogan, golf (112)	393
2. Eddie Waitkus, baseball (29)	160
3. Navy, football (7)	58
4. John Mize, baseball (8)	52
5. New York Giants, baseball (5)	46
6. Joe DiMaggio, baseball	32
7. Princeton, football (3)	30
8. Ewell Blackwell, baseball	29
9. Michigan, football	28
10. New York Yankees, baseball	27

Tris Speaker Becomes First To Be Named In Sports Hall Of Fame

DALLAS, Jan. 11. (AP) — Tris Speaker today becomes the first to be named to the Texas Sportswriters Association's Hall of Fame and sports greats of all fields are due to attend the luncheon honoring the former major league baseball star and manager.

Tom Greenberg, general manager of the Cleveland baseball club, will be principal speaker at the banquet.

Speaker, who lives at Hubbard, was overwhelmingly chosen by the sportswriters as the first Texas athlete to be honored.

Baseball Men Discuss Broadcasting Policy

NEW YORK, Jan. 11. (AP) —President Ford. Frick and National League club owners will meet here today to discuss radio policy that will offer as much help to the minor leagues as possible.

"Our meeting will have nothing to do with the World Series broadcast or even the contracts by individual clubs or their local outlets," Frick said.

"Primarily, we are going to try to find out what we are going to do about chain broadcasting."

Back-Seat Fliers For Observation Aircraft

TOKYO, Jan. 11. (AP) — Ground officers of the U. S. First Marine Division assigned to small two-seated observation planes are being taught to be back seat fliers at an airfield in South Korea.

The purpose is to enable them to land observation planes safely if the regular pilots are wounded or killed by the enemy.

Charles Solid Favorite Over Contender Oma

By MURRAY ROSE
(Associated Press Staff)

NEW YORK, Jan. 11. — Calm confident Ezzard Charles remained a solid 1 to 6 favorite today to retain his heavyweight championship against the challenge of unorthodox Lee Oma at Madison Square Garden tomorrow night.

The sharp-punching Cincinnati champ also was listed as a 1 to 2 choice to stop the Buffalo fighter before the 15-rounds are over.

There was very little betting here on either the outcome or a knockout. But interest in the fight has picked up and there is a good possibility the International Boxing Club's predictions of a 12,000 crowd and a $65,000 gross will be fulfilled.

Charles' sixth title defense will be telecast and broadcast.

The 29-year-old champion wound up his boxing preparations yesterday with a flashy four-round workout. He looked fast and fit when he completed his fourth and last round.

Asked if he planned to go for a knockout, Ezzard said "I'm going out to win. If I can knock him out, I'll do it. I'll see what happens in there."

Charles has made no special effort in training to cope with Oma's puzzling style. The Buffalo scrapper fights with his hands down and walks away from opponents in a style somewhat similar to that of Jersey Joe Walcott, who was beaten by Charles.

Oma, who finished boxing Tuesday, just limbered up yesterday.

"I'm in good shape," said the 34-year-old Oma. "I've never trained like this before. I'm ready."

Bout is scheduled at 9 p.m. (CST.)

Labor Leaders Want Flexible Wage Program

WASHINGTON, Jan. 11. (AP) — Major labor leaders said today the government must mould a wage-price policy flexible enough to work for a decade.

They gave that appraisal to the Wage Stabilization Board, an arm of the Economic Stabilization Agency (ESA) which announced last night that it will not now put into effect a temporary 30-day freeze on prices and wages.

That left the controls situation as indefinite as it was a week or so ago before ESA began giving serious study to the wisdom of applying an immediate interim freeze in advance of more permanent controls.

The appeal for a long-range policy came from spokesmen for the AFL, CIO, machinists and railroad unions, joining in testimony as the United Labor Policy Committee (ULPC). They said the present emergency may stretch on indefinitely, and "we're not planning for a short-term situation."

The group represented all major elements of the organized labor movement except John L. Lewis, United Mine Workers (UMW) chief, who was heard separately by the wage board yesterday. He advised against any kind of wage or price controls.

The other labor officials today accepted the theory that there must be some kind of stabilization program — although they did not attempt to tell the board what kind of formula to adopt.

When Splashing Be Careful Who It Is

DETROIT, Jan. 11. (AP) — Splash a motorist and see what happens.

On a balmy day last September when drivers had their windows open after a rain, a taxicab driver tore past a long line of cars.

Water spurted from a puddle through the car window of Common Pleas Judge Ralph W. Liddy drenching women passengers. The cabbie rolled on, soaking the wife and baby of Severino Bignotti, another motorist.

Bignotti wheeled in pursuit and pinned the cab against a curb.

Cab Driver Michael T. Newman 27, was fined $25 yesterday in Traffic Referee John G. Carney's court. Bignotti had Judge Liddy as a witness to testify against the cabbie.

Youth Center Proclamation

PROCLAMATION
By
F. G. Sears, Mayor
City of Snyder
And
Edgar Taylor, Judge
Scurry County

TO THE CITIZENS OF SNYDER AND SCURRY COUNTY:

WHEREAS it is desired to bring to the attention of the residents of this city and county the worthwhile projects which have been commenced by the building of a Youth Center; and

WHEREAS the youth of our city and county will be morally and physically benefitted by the facilities of the Youth Center; and

WHEREAS it is the intention of the Advisory Board to dedicate the Youth Center as soon as final building costs have been satisfied;

NOW THEREFORE LET IT BE PROCLAIMED for all to know that the week of January 14th to 20th, 1951, inclusive, is and shall be known as Youth Center Week.

(s) F. G. SEARS
Mayor, City of Snyder
(s) EDGAR TAYLOR
County Judge,
Scurry County

Unbeaten Record Topples By One Point In Last Minutes

By MILO FARNETI
(Associated Press Staff)

NEW YORK, Jan. 11. — Someone's unbeaten record had to go but you couldn't tell whose until the buzzer sounded.

Princeton's basketball five went into its game at Columbia last night with a record of 18 straight victories over a two-season span. Columbia had 17 straight.

Columbia won the Ivy League test, 53-52, coming from behind on substitute Bob Sullivan's field goal with 49 seconds left.

Columbia (9-0) ranks eighth nationally in this week's Associated Press poll. Princeton (8-1) 20th.

Penn State and Bucknell gave a good demonstration of what's been an interesting topic of conversation this week among Basketball Coaches Hank Iba of Oklahoma A&M, Nat Holman of CCNY and Jack Gray of Texas.

Penn State froze out Bucknell, 25-15. The winners led at halftime, 5-3, using a zone defense and zone offense—center Joe Piskowski stood out in midcourt holding the ball.

Neither team scored in the first 16 minutes. Then courageous Bill Strella broke away for a goal, the only one Bucknell scored in the first half.

Two other unbeatens, Hamline and Washington & Jefferson, also lost.

Hamline (11-1) moved out of its class in taking on Phillips 66, the national AAU champion. The Pipers faded in the last two minutes to lose, 64-61, to the heavily-manned all-star independent squad.

Waynesburg won, 73-65, to stop the Washington & Jefferson streak at eight straight this season.

Louisville won its 12th game in 13 starts, defeating Xavier of Cincinnati, 63-55. Western Kentucky (8-4) downed Evansville (10-2), 75-63.

Baskets in the final seconds decided three eastern games.

Ed Tixier's goal in the last 12 seconds gave Army (4-0) a 59-58 victory over Rutgers. Ray Rudzinski drove in for a layup in the last minute for a St. Francis (Brooklyn) upset of Fordham, 65-63. Fred Kozar scored in the last four seconds or Brown's 59-57 upset of Rhode Island State.

Navy staved off charging Maryland, 51-47. Siena (12-1) defeated Creighton, 58-40. Villanova (11-1) whipped Rider, 63-48. LaSalle (10-2) drubbed Geneva, 87-58.

Texas Western defeated Arizona State at Tempe, 91-77, and Nevada took Ricks, 58-52.

Bradley (15-0) the No. 1 team in the country, takes on St. John's (10-2) on tonight's top game.

New Delay In United Nations

By MAX HARRELSON
(Associated Press Staff)

LAKE SUCCESS, Jan. 11. — The UN today faced a new delay in its quest for a Korean peace settlement.

The General Assembly's 60-nation political committee was scheduled to meet at 3 o'clock this afternoon, but informed quarters said it probably would adjourn until next week because no one had any formal proposals ready yet.

The situation was this:

The assembly's three-member cease-fire committee had a 5-point truce plan, but wasn't ready to submit it because India's Sir Benegal N. Rau wanted to get an okay first from his chief, Prime Minister Jawaharlal Nehru.

Israel had a similar 7-point plan but did not want to jeopardize it in resolution unless it received substantial support.

The United States had a plan, calling for condemnation of Communist China as an aggressor, but wanted to give the UN another chance to seek a cease-fire.

The picture was complicated further by the fact that the whole Far East problem was under consideration by the conference of British Commonwealth premiers in London. Many delegates felt they should at least wait until the Commonwealth diplomats had received word of any decisions which might affect their attitude.

Texas Shrimpers Want Protection Or Subsidies

BROWNSVILLE, Jan. 11. (AP) — Texas shrimpers say they want government protection against competition from foreign fisheries or "subsidies like those granted for farmers."

Their demands were made yesterday at a meeting of the Texas Shrimp Assn., at which delegates hit a proposed $1,250,000 Export-Import Bank loan to Mexico for the purchase of shrimp trawlers.

Softening Of Sanity Code Is Predicted At NCAA Conference

HAROLD V. RATLIFF
(Associated Press Staff)

DALLAS, Jan. 11. — Confidence arose among the liberals of the National Collegiate Athletic Association today that an amendment softening the sanity code governing financial aid to athletes will be passed.

Some of the liberal leaders, notably T. P. Heard, athletic director of Louisiana State, flatly predicted that the NCAA constitution would be amended to place enforcement of the code in the hands of the individual schools and conferences. This will require a two-thirds majority in the convention whose showdown meeting comes tomorrow.

Passage of such an amendment also probably would mean that seven schools not now in compliance with the code would escape going on trial.

The American Association of College Baseball Coaches yesterday recommended to the NCAA that beginning with the next spring semester freshmen be made eligible for varsity participation in all sports. This was done because of the war situation.

The coaches also reported that an effort was being made by members to get legislation that would prohibit professional baseball from signing boys from high school and colleges. John Kobs of Michigan State, secretary-treasurer of the Baseball Coaches Association, said Oregon, Washington and Pennsylvania members had made some legislative investigation. The baseball coaches have been crying out against pro baseball raiding the campuses.

1950 Called Worst Year For Insect Infestation in History

The entomology section of the annual report of O. M. Fowler, county agent, stated the cotton insect infestation in 1950 was the worst since cotton was first grown in the county.

Control measures were generally favorable. The 1951 program for cotton insects and animal parasites will continue to receive the careful attention of the agent and others who are working individually and collectively on the matter, according to the report.

There are two entomology problems to be considered. They are crop insects, and external and internal parasites of livestock and poultry.

CONTROL SOUGHT

The goals sought include control of crop insects, and prevention and control of parasites in livestock and poultry.

The following methods were used: Group contact with handlers of insecticides and producers; demonstrations crops (cotton and grain sorghum); livestock (cattle-beef and dairy); and poultry; the press through publications of recommended practices given by the extension entomologists and experiment stations.

As a result, cotton producers followed recommended practices in their insect control work, an estimated 90 per cent of the producers used control measures on boll worm, boll weevil, leaf worm and leaf hopper. Livestock and poultry producers who used parasite control measures followed recommended practices. The parasites with which the producers are concerned are horn flies, stable flies, lice, screwworms, spinose, ear tick, and grubs.

ORCHARDS

Next year's work with home production, which includes orchards and gardens, will call for closer contact with co-operators and demonstrators both by the agent and the extension specialists, the report says.

Among the problems of the home orchards and garden are use of adapted varieties, site and soil selection, cultural practices, and insect and disease control and prevention.

The goals were for producers to use adapted varieties; garden and orchard sites located according to requirements; seed treatment for prevention of seed borne diseases; innoculation of legume family seed, pruning where and when needed, and insect and disease control, and prevention when possible.

As for methods used, they included group meetings; co-operators were selected; group training program was conducted - Extension specialists in charge; personal contact by the agent; distribution of printed matter on related phases of production.

The results were that new orchards are being set out with adapted varieties; adapted varieties of vegetables are being planted by our gardeners; garden and orchard sites are being considered in the light of requirements rather than by a hit and miss procedure and recommended insect control measures are being followed by our gardeners.

RANGE MANAGEMENT

The outlook in 1951 for range management program can be carried on with more interest on the part of the ranchers than formerly, says Fowler in his report.

There are four major problems which are mesquite eradication; reseeding native rangeland; reseeding abandoned fields, and range management, with deferred grazing and stocking rates.

The goals set were for mesquite eradication plots, and demonstrations on reseeding of native and abandoned fields.

The methods applied were through the S.C.A., P.M.A., supervisor of the U.C.S.C.District and the agent, who worked together on the range management program. Publications were distributed to interested parties.

The results are that ranchers are interested in carrying out on an experimental basis the latest findings on mesquite control; seeding of abandoned fields, reseeding of native rangeland has proven successful in several instances, says the report.

The next installment will cover soil and moisture conservation and 4-H clubs.

PERSONALS

John Wadell of the Chemical Process Co., Lubbock highway, was a week-end visitor in Breckenridge, Tex.

C. T. Cody of the Superior Oil Co. returned this week from a trip to Midland where he transacted business for his firm.

J. B. Cotten is in Lubbock trying a case in District Court. The attorney is expected back in his offices tomorrow.

Mr. and Mrs. W. W. Park, 2407 Twenty-seventh Street, spent the week end in Seymour, Tex., visiting friends.

Mr. and Mrs. Keith Merrick have just moved from their home at 1404 Twenty-fourth Street to a new residence in Highland Park located at 3766 Dalton Drive.

Mrs. Sam Joyce, 2610 Thirty-second Street, is ill at home.

Snyder Residents Are Injured in Accident Four Miles From Anson

Three Snyder residents were among five persons under treatment at Hendrick Memorial Hospital in Abilene last night after an automobile accident about four miles east of Anson on U. S. Highway 180.

Mrs. Dorothy Dement, 34, of Snyder, suffered a broken back. Her six-year-old son, Gary Dement, suffered severe abrasions about the face when they were thrown from their car. Another son, Larry, 8 years old, suffered a cut above his left eye and a possible broken toe.

Mr. and Mrs. F. H. Dewey of El Paso, occupants of another car, were also admitted to the hospital but the extent of their injuries was not believed to be serious.

The accident victims said a dynamite truck sideswiped both their cars.

Just Call Them Texas

TEXAS CITY, Jan. 11. (AP) — It will be the Texas City Texans in the Class B Gulf Coast Baseball League this season. The nickname was selected yesterday after a contest among fans.

Reception For Forty Persons In Greer Home

About 40 officers of Kiwanis Club, their wives and guests attended a reception last night in the home of Mr. and Mrs. Bruce Greer, 603 Twenty - ninth Street. The party preceded Mr. Greer's installation as president of Kiwanis.

Mrs. Greer received the guests in a black velvet semi-formal gown, with a low-cut throat line and a shoulder corsage fashioned of pink carnations and ribbons. Mrs. H. W. Cargile, wife of the Kiwanis vice - president, wore a black crepe gown complimented by an oversized corsage of red carnations.

The living room was decorated with pink carnations and pink tapers. Guests were served light refreshments of hors d'oeurves and vegetable punch from the dining table which was covered with a white crocheted cloth. Yellow jonquils were arranged in a low bowl in the center of the table, ivory tapers burning in crystal candelabra at either end. The table setting was crystal.

Those who signed the guest book were: Mr. and Mrs. Edward Bolger, Dr. W. R. Newton, Frank Stephenson, Dr. and Mrs. W. M. Smith, Dr. and Mrs. L. J. Neal, Mr. and Mrs. F. A. Fisher, Miss Peggy Fisher, Mr. and Mrs. W.D. Fagan of Abilene, Mr. and Mrs. Bill Brown, Mr. and Mrs. Harold Grant, Mr. and Mrs. Cargile, Mr. and Mrs. John M. Dodson, Miss Louise Metz, Mr. and Mrs. E. L. Kownslar, Dr. and Mrs. George W. Horton, Hershel Kerby, Miss Ivan Perry, Mrs. Frances Biow, and Gene Haney, Carl W. Eckert, E. L. Allphin, and Jack Tyler, all of Council Bluffs, Ia., who were here to officiate at Mr. Greer's installation later.

Five From Fluvanna Go Into Armed Service

Five Fluvanna men have left or will leave soon for service with the Army and Navy.

Truss Farquhar and Bert Eckert will leave this week for service in the Navy. J. M. Glass, Jr., who also volunteered for the Navy, is to be inducted in Amarillo.

Lester Eckert was to be inducted into the Army Wednesday. Orville Matthews was to be inducted in Abilene Wednesday.

Man Pleads Not Guilty To Cafe Burglary

James W. Gaines, 28, until recently of Amarillo, when arraigned on a burglary charge yesterday afternoon before W. C. Davidson justice of the peace, entered a plea of not guilty and was placed under a $5,000 bond, one of the heaviest bonds for such an offense in recent years, according to Lloyd Merritt, sheriff.

A woman companion of Gaines who gave her name as Billie Summers, 23, of the Westerner Motel arrested on a charge of vagrancy was fined $100 and costs by Judge Davidson.

Gaines told the sheriff that he borrowed the 1940 brown Plymouth sedan, which was found Monday night parked, with its motor running, near the Ranch House cafe. It was loaded with a 40-pound cured ham, 19 cartons of cigarettes, several boxes of cigars, a number of packages of bacon and liver, and a carton of headache tablets. All the merchandise was later identified as coming from the Ranch House cafe, which was burglarized late Monday night, Merritt said. Entrance was effected by breaking a glass in the door, and unlocking it from the inside.

Homer Whisnand, L. E. Haynes and Charles Youngblood, deputies said they were cruising in the vicinity of the Ranch House when one of the officers saw a man flee from the front door. The deputies gave chase, and apprehended Gaines under a car more than a block from the scene.

Following the arrest of Gaines who admitted to Judge Davidson that he was under an indictment at Sweetwater for burglary, a postal inspector from the Fort Worth office became interested in the case, and yesterday questioned Gaines in the sheriff's office.

Gaines told the officers that he once worked for the post office department.

He also told the sheriff's department that he had been arrested more than 300 times.

Wives of Halliburton Personnel Form Club

Wives of personnel at Halliburton Oil Well Cementing Co. organized a Canasta Club when they met Wednesday in the home of Mrs. J. W. Barker, Lamesa highway.

In addition to afternoon canasta games, the women will entertain their husbands at night parties frequently. Plans were discussed for these socials.

The hostess served refreshments to the following: Mrs. Mike Weatherly, Mrs. W. W. Carey, Mrs. B. F. Davis, Mrs. R. N. Kilman, Mrs. L. C. Nations, Mrs. C. N. Necessary, Mrs. B. B. Turner, and Mrs. W. C. Quinn.

Wounded in Korea War

The Department of Defense has released the name of Pfc. Ted Arnold, Jr., son of Mrs. Charles E Smith, of Snyder, as wounded in action with the Marine Corps. The department's file carry Mrs. Smith's Snyder address as 1211 Twenty-fourth Street, but a check there revealed she had moved some time ago. It is not known whether she still is a resident of Snyder.

Hermleigh Resident Of 40 Years Dies at Altus

Funeral services for S. L. Johnson, 85, a former resident of route No. 3, Hermleigh, will be held at 2 o'clock tomorrow at the Church of Christ in Snyder.

Mr. Johnson died yesterday afternoon at the home of his daughter, Mrs. Sam Lingeman of Altus Okla. He and Mrs. Johnson had been living there for the past several months. Mr. Johnson had been ill only a few days.

Mr. Johnson had lived near Hermleigh for about 40 years. He was the brother-in-law of the late "Uncle Billy" Nelson of Snyder. He was a member of the Church of Christ.

Survivors in addition to the widow include two sons, Otis Johnson of route No. 3 Hermleigh, and Earl Johnson of Waco; a granddaughter, Mrs. Harry Ward of Snyder, and five other grandchildren.

Interment will be in the Snyder cemetery under the direction of the Bolzer-Barnes Funeral Home.

Four Charged in Driving And Liquor Violations

Three cases of driving while intoxicated and one for possession of liquor for sale were filed in county court yesterday.

Carl Robinette, 50, of Corder Place; Curtis Lee Rippetoe, 44, who resides at the end of Avenue L, and Carl Hagham, 34, 1001 Twenty-sixth Street, were charged with driving while intoxicated, and Lewis G. Dickson, 34, of Snyder, for violation of the state liquor law.

Man Suffers Fractures In Accident With Jeep

William J. Daulton suffered a fractured collar bone and rib and bruises on the chest and right arm yesterday afternoon when a jeep being loaded on a truck rolled back against him.

The accident happened at the Vaughan & Taylor yards on the Lamesa highway. Daulton was taken to the Snyder Hospital by a Bolzer-Barnes ambulance, and is reported to be in satisfactory condition.

STOCK MARKET

NEW YORK, Jan. 11. (AP)—Strong buying demand entered the stock market today and pushed prices higher.

Advances extended to around $1 a share on a broad and scattered basis among leaders were held to a few cents. Steels, motors and rails attracted the most attention of traders, but radio-television and aircraft issues obtained a modest share of orders.

A feature of the market at one time was the higher swing of several tin mining stocks.

New Zealand Is Hit By Earth Tremors Today

AUKLAND, N. Z., Jan. 11. (AP)—Sharp earth tremors rocked southern New Zealand early today, toppling chimneys and buckling railroad tracks. There were no casualties reported.

The railroad station at Cheviot settled three inches into the earth and the main rail line north was knocked out by the quakes.

Estimates Show Large Increase In Citrus

WASHINGTON, Jan. 11. (AP) — An 11 million box grapefruit and 9 million box orange crop are forecast this season for Texas.

The Agriculture Department placed the total citrus crop at 170,660,000 boxes compared to 156,395,000 last year. The guess a month ago was 172,810,000 boxes.

The orange and tangerine crop was estimated at 110,640,000 boxes against 108,535,000 last season. The grapefruit guess is 47,520,000 compared to 36,900,000.

Little Information On Soviet Plans Held Even By Experts

By WES GALLAGHER
(Associated Press Staff)

NEW YORK, Jan. 11.—Will the Soviets provoke a war?

When? What do you do about it?

Despite their seeming lethargy these three questions give Europeans the same nightmares they give Americans today.

No one knows positive answers to these questions, including the so called Russian "experts", but if you live next door to the Russians in Europe—as I have since the end of the last war—the answers go like this:

(1) The Soviets are apt to blunder through an aggressive act into a world war rather than start one deliberately.

(2) The greatest war danger period since 1939 is from April through September of this year.

(3) You must fight in Europe as long as you can, no matter how little you have.

TOP SECRET

It is useless to speculate on whether the Kremlin is planning a deliberate all out attack. This would be the most closely kept secret in the most closely guarded country in the world. The best intelligence agencies in the world frankly admit they would not likely obtain such top secret information. The best they hope for would be a few days warning of a possible attack by external evidence such as troop dispositions, buildups and similar movements.

On this count they all say there has been no significant change in troop dispositions along the Iron Curtain through Europe in the past year or two. But the Soviets always have had enough there to overrun Europe. It would only need an order and minor shifts to send them into action.

The argument that the Soviets would not attack because they are "getting what they want without it" does not hold water.

HITLER EXAMPLE

Hitler was getting all he needed in Europe in 1939 without war. He had the continent economically in the palm of his hand. He needed only to be patient, but he wasn't. He miscalculated that the West would not fight.

The danger seems to be that the Russians will not be patient, that they will make the same miscalculation of the West and that they will make one more aggressive grab in Europe that will touch off a war just as Hitler's invasion of Poland did.

Western Europe is just as it was in 1939. There is no more "give" for aggressors. There are no more plums left for the taking. All of the countries are sewed up by pacts, the presence of American or British troops, or deep moral commitments.

Above all things, the Soviet Union would like to have control of Germany and more specifically the industrial Ruhr area.

RUHR IMPORTANT

The Ruhr would give Russia the industrial might to match the millions of people she has snatched in Asia and eastern Europe.

An aggressive move toward Germany or the Ruhr would be certain to touch off a new world war. Any such move would immediately involve American and British troops since they are on the spot.

The same is true of Austria, Berlin, Vienna and Trieste. Norway is under the collective protection of the Atlantic Pact.

It has been said the Russians might try to pick off rebellious Yugoslavia by using satellite troops. This would touch off a full scale war in the heart of Europe. It is impossible to see how this could be kept from spreading. There have been rumors that England already has given secret commitments to Tito.

Another Soviet engineered pass at Greece would deeply involve the United States and Great Britain, with their Mediterranean and United Nation interests.

Turkey, now fighting gallantly with American troops in Korea, is in a similar situation.

EASY DAYS GONE

The easy days of country snatching in eastern Europe are gone. Whether the Kremlin recognizes this remains to be seen. Like Hitler it may be encouraged by past successes to make another try.

This is the grave danger Europeans feel as they wait for the Russians' next move. Since 1945 the Kremlin has moved aggressively year after year. What will they do this year.

This brings up the question of when?

Starting in April most of Europe is favorable to military operations. By the end of September the most favorable period passes.

This is looked upon as the prime possible war period in a year of decision. If the Soviets have decided to risk aggression, they probably will never have a more favorable time.

Western Europe is now at its military weakest. Its morale is low. Many countries are divided by political quarrels. Although steadily declining, the influence of Communist fifth columns is still potent in key areas. The United States has not yet rearmed and has only a handful of troops in Europe. Great Britain is in a similar fix.

The western military situation in Europe can not get worst: It can only get better. Therefore it may be felt from the Soviet point of view 1951 would be the year to strike.

ATOM DIFFERENCE

The big deterrent is the atom bomb, which Winston Churchill believes is the only thing now stopping the Soviet from embarking on all-out world conquest.

What can the West do in event of attack, particularly this year? Should more troops be sent to Europe? Should the United States withdraw?

Despite its tremendous advantages in manpower, trained troops and vast ground strength, the Soviet Union would have definite military weakness in fighting in Europe particularly in an extended campaign.

These are:

1. Low industrial capacity for their vast manpower. Soviet steel production is about one fifth that of the United States.

2. Long and vulnerable lines of communication to Western Europe.

3. Uncertain satellite loyalty, particularly if the Soviet should start losing or show signs of military weakness.

Unquestionably the Soviet Union could gain great initial victories just as Hitler did. Holding their initial gains would be another matter. Western military defense plans are designed to take advantage of Soviet weaknesses.

First there is the atom bomb. A Soviet attack would be met with an all out air assault by the United States and Britain with the atom bomb.

ALLIED AIM

Its aim would be to rip the industrial heart out of the Soviet Union if possible and further reduce its comparatively small producing capacity. It would have the further aim of smashing long Soviet rail lines of communication and cutting off sources of war supplies.

It is 2,200 line miles from the Ural Mountains-major manufacturing area in the Soviet Union—to the English Channel. All communication is over a thin, largely antiquated rail system.

Western aims would be to hamstring Soviet manpower in Europe by knocking out home bases and leaving armies stranded.

To do this it is necessary in event of attack to make Soviet armies in Europe use up their stockpiles of supplies. For this reason it is essential the West have ground forces in western Europe which force the Soviet to fight, if even on the smallest scale.

Though western ground forces be small and lose every battle from Germany to Spain, they might contribute to victory in the end by leaving an over-extended Soviet force without the materials to carry on.

NEED MEN

This is the reason why western military men are straining every effort to get some sort of force into being on the ground in Europe, although they know they cannot organize enough to hold a Soviet attack, this year or next.

To make the atom attack successful it is necessary to engage and drain Soviet forces on the ground.

It would be exactly the same tactic Russia used against Hitler, trading space against men and supplies.

If Russia were able to overrun Europe without a fight, atomic bombing of the Soviet Union would not have the desired effect. The Soviet army would have overrun and captured new industrial centers it could put to use to replace those knocked out in the homeland and at the same time would have its original supplies intact.

The second phase of western defense plans envisages building up enough troops to hold this line. At best these would not be ready before late '52 or early '53.

THIRD PHASE

The third and final phase military men want to reach is to create a highly armored force of 45 divisions stationed east of the Rhine ready to counter attack if the Soviets move. Military men feel this force combined with the atom bomb would deter the Soviet from attacking by insuring its defeat if it did.

At present military men are in phase one. They need every available man to make the Russians—if they attack—use up their resources.

It is a political and military paradox that the only troops in Europe in numbers ready to fight now are the very ones which are not in the Atlantic Pact and not included in present aid plans.

These are an estimated 28 Turkish divisions (have received nominal U. S. aid) 30 Yugoslav divisions; 19 Spanish divisions.

The Turks, who distinguished themselves in Korea, are considered especially important since they are on Russia's flank and the only forces that constitute a threat to Russia itself. The Turks threaten the vital Baku Oil fields.

Political considerations have blocked military help to Spain and Yugoslavia. This has not made American and western allied military men in Europe any happier when they contemplate fighting with the skeleton forces on phase one.

Alaskan Attack Said Readied

TAIPEI, Formosa, Jan. 11. (AP)—The Chinese Nationalist defense minister said today Russia has moved an additional 300,000 troops to Siberia in readiness for an attack on Alaska.

It said "Marshal Malinovsky, the Soviet Union's Far Eastern commander," had more than 15 seasoned divisions under him before the reinforcements.

The ministry said further:

The Moscow-Peiping axis was converting China's northwestern provinces into a vast military base. Tihwa and Hami, the main cities of the far northwestern Chinese province of Sinkiang, were being converted under Soviet technicians into two of the strongest bases in the Far East.

Moscow has ordered Mao Tze-tung's Red Chinese regime to put China on a total war footing as soon as possible.

Shell Acquires Leases in Hale

Shell Oil Co. has acquired ten year commercial oil and gas leases on two checkerboarded spreads of more than 10,500 acres in Hale County.

Shell acquired approximately 6,000 acres immediately south of the city of Plainview on an assignment from Ben Harwit of Midland.

The spread is in relatively small tracts and is not solidly blocked.

The company also secured, by assignment from Robert M. Payne of Midland, leases on approximately 4,500 acres of scattered leases in Central Hale County, just south of the town of Hale Center.

No information is available regarding the bonuses originally paid the landowners when the leases were taken during the middle of 1950.

It is understood that all of the contracts call for the payment of $1 per acre annual rental.

So far as can be learned Shell does not have any plans for any immediate exploration activity on any of the Hale County leases.

* * *

Runnels County Well Completed As Discovery From the Gardner Sand

In Northeast Runnels County, G. B. Cree of Abilene has completed his No. 1 Myrtle Allen as a Gardner Sand discovery for a daily flowing potential of 264 barrels of 41.2 - gravity oil per day.

Gas-oil ratio on the test was 867-1. Flowing pressures were 650 pounds on the casing and 209 pounds on the tubing.

The production was through a 16-64-inch tubing choke and perforations from 3,885 to 3,859 feet in five and one-half inch casing.

Plug back total depth of the opener is 4,027 feet. The well is 330 feet from north and 2,420.8 feet from east lines of section 9, H&TC survey, 14 miles east of Winters.

A Gardner sand strike one mile northwest of Talpa and in Central-East Runnels County was potentialed by Richard King, Jr., and Henry I. Flinn.

This discovery is the No. 1 Noel Hale and was completed for a 24-hour flow of 101.50 barrels of 43-gravity oil through a one-quarter-inch choke and open hole between 3,455 and 3,471 feet.

Gas-oil rato was 400-1. Casing pressure was 570 pounds and tubing pressure 150 pounds.

The No. 1 Hale is 330 feet from north and 14 feet from west lines of ET&RR survey 117.

* * *

Martin County Wildcat Cores in Spraberry

Callery & Hurt and Ted Weiner No. 1-18 Earl Powell, wildcat in Central-East Martin County, is at total depth of 7,043 feet in the Spraberry preparing to set seven-inch casing on bottom.

When that is done, hole will be cored deeper into the Spraberry.

A core from 7,029-43 feet showed seven feet of black shale, two feet of gray sand with good oil stain and odor, and one foot of gray, fractured sand which was bleeding oil and gas. The remainder of the core was four feet of gray, shaley sandstone with fair oil stain. The core had no shows of water.

The Sprayberry was topped at 7,036 feet, elevation 2,717 feet. That makes it eight feet high to Magnolia Oil Co. No. 1 Powell, which was drilled as a dry hole in 1942, before the Sprayberry had been recognized as a possible source of oil production.

The project is being drilled on a block of several thousand acres which was recently acquired by Forest Oil Corporation and Pan American Production Company.

Forest and Pan American farmed out a checkerboard spread in the block to Weiner for the drilling of the wildcat.

Weiner then made a trade with Callery & Hurt whereby that concern assumed a part of the obligation for the well in return for a portion of the acreage obtained by Weiner.

Location is at the center of the southeast quarter of the southwest quarter of section 18, block 35, T&P survey, T-1-N.

Deep Wildcats Set in Terry

Gulf Oil Corp. and Wilshire Oil Co., Inc., have each made definite locations for deep wildcat in Central-Terry County.

Gulf will drill an 11,700-foot test four and one-half miles northeast of Brownfield and six and one-half miles west of the Mound Lake-Pennsylvanian field. It will be dug as the No. 1 T. L. Lowe, 660 feet from east and south lines of section 81, block T, D&W survey.

That makes it one and one-half miles south and one-half mile west of their No. 1 J. S. Smith, which is still a location for a deep test.

Wilshire is to drill its No. 1 Southern Minerals-G. M. Newsome 467 feet from north and west lines of the northeast quarter of section 47, block T, D&W survey. It is to be drilled to 12,600 feet.

The location is three miles northeast of the South, Brownfield Canyon reef field and four and one-half miles southeast of Brownfield.

The location is a twin to a 5,581-foot dry hole, 660 feet from the north and west lines of the northeast quarter of the section.

* * *

Central-South Terry Well To Test Wolfcamp

Magnolia Petroleum Co. has staked location for a Wolfcamp prospector on the southeast side of the Wellman field in Central-South Terry County.

The explorer will be drilled as the No. 3 Harmon Scales, one-location south of the same operator's No. 2 Scales, which was recently completed as a producer.

Exact location is 1,980 feet from south and 660 feet from west lines of section 12, block C-36, psl survey.

Contracted destination is 9,900 feet. The drillsite is 10 miles south west of Brownfield.

* * *

Well Near Ozona Is Plugged at 9,505 Feet

Magnolia Petroleum Co. No. 1 Addie Clayton, Northeast Crockett County wildcat, 11 miles northeast of Ozona, has been plugged and abandoned on total depth of 9,505 feet in barren Ellenburger.

This prospector cut 885 feet of Ellenburger section. It did not log any shows of oil and had extremely slight shows of gas.

It made salty, sulphur water in a drillstem test at 9,370-9,505 feet.

Location was 1,980 feet from north and east lines of section 9, block 1, GC&SF survey. It was 10 miles north and two miles east of Magnolia No. 1 Clayton Ranch, a gas-distillate discovery completed about a year ago from the Ellenburger.

* * *

Plug Runnels Failure

Wheelock & Strake No. 1 Elo Michaelis, Northwest Runnels County wildcat, has been plugged and abandoned at 5,485 feet in lime.

The failure is 1,683.44 feet from south and 5,295 feet from east lines of H. Friley survey No. 448 and five miles west of Wingate.

It was one and one-half miles south-southeast of the Fort Chadbourne field.

Michigan Quads Are Reported As All Doing Well, Likewise Father

PONTIAC, Mich., Jan. 11. (AP) — Michigan's currently most prominent citizens — the day-old Rosebush quadruplets — were "doing very well" today.

To all appearances the two boy and two girl babies—Kenneth, Jr., Keith, Krystal and Kristene —were thriving.

The infants, born yesterday to Mrs. Ann Rosebush, 34, mother of four other children, remained in incubators at St. Joseph's Mercy Hospital.

The hospital reported that Mrs. Rosebush also was doing "fine."

Likewise, the father, Kenneth, 36, after a sound night's rest which followed his earlier night-long floor-pacing.

New Officers of Kiwanis Are Installed Before 150 Guests

The work of the Snyder Kiwanis Club during 1950 was lauded last night by Vern Allphin, of Council Bluffs, Ia., past governor of the Iowa-Nebraska Kiwanis International, who spoke before 150 Kiwanians and their guests at an installation banquet.

Allphin was the guest speaker at the formal installation of the club, when the following officers were sworn in by Frank M. Jackson, of San Angelo, lieutenant governor of the 12th Kiwanis district:

Bruce L. Greer, president; H.

New president of Kiwanis Club —Bruce L. Greer.

W. Cargile, first vice-president; Harold Grant, second vice-president; John M. Dodson, secretary-treasurer; Frank A. Fisher, corresponding secretary, with the following new board of directors, Frank Stephenson, Ford Kenner, William King, Dr. Woodrow W. Mikeska, William L. Stone, Herbert Feather, and Bill Brown, the latter beng the retiring president.

Allphin, veteran of World War I, and a native of Arkansas, stressed five topics in his address, which included soil conservation, health, the home, church and the school, which he said are the foundation of this nation and of the Kiwanis International.

"Soil is a valuable heritage and it must be preserved if we are to survive, and we must hold what we have," he said. He told of the soil conservation work being done in Iowa.

The speaker stressed the importance of health, particularly to the youth of the nation, pointing out that there was a large percentage of 4-F's during World War II. At this point he paid a glowing tribute to what the Snyder Kiwanis Club and other civic organizations were doing here to build youth into fine Americans.

"Home is a great American institution, and every child should be entitled to a home, where he can play and live a normal life," he said.

Speaking of the church, he urged everyone to attend the church of his choice, saying that too many people these days forget God for the worldly things in life. Religious life should be a paramount in everyone's life, he said.

He then told of the little red school houses in Iowa that later became sites of great colleges. He alluded to the schools as a free enterprise that every child should be given an opportunity to attend. He scored the low pay given teachers, pointing out that they are the bulwark of the nation and should be recognized for their work.

1950 REPORT

Retiring President Brown reported on the activities of the club during the past year, which he called a successful Kiwanis year. Some of the work done by the Snyder Kiwanians included fostering the Youth Center; attendance at the state Kiwanis convention; organization of the Key club, which is a junior Kiwanis unit; sponsorship of the Negro football game last fall to raise funds for Christmas benevolence, and co-operation with other civic groups in community welfare.

Greer in his acceptance speech, which was brief, said the outlook for 1951 for the Kiwanis Club was good, and asked for the co-operation of all members to make the coming year just as good or better than last year in its activities.

Hershel Ezell, vice-president of the Midland club, acted as master of ceremonies at the dinner.

It was also ladies night at the installation ceremonies.

Ford Caperton was program chairman.

Others who accompanied Allphin to Snyder from Council Bluffs, included Carl Eckert, president of the Kiwanis there; former Sheriff Jack Tyler, and Eugene Haney, current president of the Council Bluff club.

There were visiting Kiwanians from Lamesa, Big Spring, Sweetwater, San Angelo, Midland, Abilene and Odessa.

Entertainment was by Elaine Lambert's dancing pupils.

No Injuries Result From Collision Today

An ambulance driven by Jeff D. Smith, 45, of Lovington, N. M., returning to his home from Merkel, and a truck operated by James Hazelwood, 48, of 1009 Thirty-second Street, collided early today about seven miles west of the city on U. S. Highway 180. No one was injured.

According to Bill Zimmerman and E. W. Green, highway patrolmen who investigated the accident, the ambulance was damaged about $700, and the truck damages were estimated at $300.

No one except Smith was in the ambulance.

TALK OF THE TOWN

By FRANCES BIOW

Every man at this office was called into action yesterday when a plaintive voice called us and requested the correct version of a recipe she had used from our Tuesday paper. It seems Mrs. E. B. Pope, 222 Twenty-eighth Street started the ill-fated pecan pie recipe with full intentions of serving it to her husband for supper. Lo and behold, when she reached the end, part of it had been omitted in printing. While we scrambled to go back and locate the correct copy, Mrs. Pope waited in her kitchen. Tragic ending We never could find it. The courageous cook promised to telephone us and let us know how the pie tasted, As Is!

* * *

C. T. CODY of the Tumbleweed Courts holds a title which should be near and dear to his heart . . . According to th impressed ROBERT EDDINS, owner of the modern Lamesa highway courts, Cody "is a tool pushers' pusher". It would seem that he oversees all the tool pushers for Superior Oil Co., here and in Midland.

* * *

MISS RUBY BURTON greets her approaching move with only the tiniest bit of trepidation and mainly a sense of adventure, for the new post which comes her way is personal secretary to the president of Wayland College much-talked-of little school in Plainview, Tex. Miss Bruton is an ex of the Baptist college. She got out in 1935 and only in 1947 met the new president, Dr. Marshall, who "is a go-getter", to quote her. Life will be greatly different for the quiet young woman who has done such an energetic stint in recent years with secretaryship of the Baptist church here . . . . and many wish her well.

KEITH L. MERRICK, attorney claims he deserves space for a promotion, of sorts. "I have now moved to the 'head of the stairs'." he bragged. "Back in spelling class such a move meant advancement and even though I only changed suites in this building, I feel I have come up in the world." He's still at 2501½ Avenue S.

* * *

SUPERINTENDENT D. S. BODIE at Cities Service offices commented upon our telephoned query for news, "No news here and that's o.k. with us. In fact, I guess you newspaper folks are the only ones in town who don't like the old theory, 'No news is good news,' . . . he's about right at that.

A line from DALE WALTON, recently inducted into Uncle Sam's armed forces at San Antonio, to those of us who worked with him when he reported for the Daily News "I'm not in Korea yet, please note. And the job is interesting, working on a newspaper!" The post at Fort Sam Houston puts out a paper, and of course Dale found a berth on it.

* * *

MRS. H. W. SANDERS, 2412 Thirty-second Street, avers that Snyder's climate holds much over San Diego, Calif., Pheonix, Ariz., and other such fashionable wintering places. Just home from a two week's vacation trip, Mrs. Sanders said she was warm for the first time when she hit West Texas.

If you collect records, you will immediately want those refreshing tunes from "Call Me Madam" and "Guys and Dolls", Broadway hits just being performed before delighted New York audiences. The songs are so new they haven't hit the juke boxes, though at least two are slated for Hit Parade notice. Ethel Merman, in the Decca album, does out, sings Irving Berlin's "The Best Thing For You", "Marrying For Love" (this will be the nation's number one some prophecy), "You're Just In Love," "Something to Dance About," "It's A Lovely Day Today."

* * *

One of the more popular New York columnists, at the beginning of this fresh new year, thought up this story: "Atomic power got away from the scientists and blew the whole world to smithereens. Nothing was left—only destruction, except that on a small island off the beaten path stood one little tree, its branches torn to shreds. And sitting on a broken twig were two monkeys. 'Gee!" said one to the other, "Now we gotta start the whole gosh-darned thing over again'."

They Can Keep Kisses

LOS ANGELES, Jan. 11. (AP) — Three men kissed Mrs. Mildred W. Young yesterday, all without her consent.

She told police they came to her door, asked for a "Mr. Johnson," ordered her at gunpoint back into the house, trussed her to a bedstead, ransacked the house of $200,000 worth of jewelry, silverware and clothing, took it to their auto, and then returned, each to take a goodbye kiss.

BIG SPRING HIGHWAY

First on Agenda of Progress

In calling a $600,000 bond election Tuesday night, the city council wasn't just calling another bond election.

It was doing what it believed was the only thing to do in renewing the basic need of any city which is to grow or even survive. It gave Snyder a chance to have an adequate supply of water for now and for posterity.

The action wasn't spur-of-the-moment. Lengthy discussions were held on the matter at several occasions.

Nor was the action merely the following of an easy trend of popular opinion. Surely no $600,000 tax bond issue is going to be accepted without opposition.

This opposition was foreseen by the council. Some aldermen believed this was not the time to call a tax bond issue, in the season when mounting federal tax burdens are being felt and when prices are rising rapidly. They believed the issue stood a better chance if postponed until the inevitable water shortage developed in the spring or early summer.

As discussion from all sides was brought out, the men became of one mind. Their crystallized opinion was: if the people of Snyder don't want water, now is the time to find it out—not when we already have a contract with the Colorado River Municipal Water District and have water right at the city gate with no filtering plant to process it.

Nothing could be more ridiculous than to pipe water to the city limits, pay the minimum charge of more than $4,600 a month to the water district, and still be unable to use the water because we had no filtering plant.

The council has done all that it can do, and in as short a period of time as could be expected.

From here, the ball must be carried by the voters. Poll taxes must be paid and people must be informed and convinced of the absolute necessity of voting yes to all three propositions—annexation, ratification of the contract, and approval of the filtration plant bonds.

It becomes the duty of every citizen who wants to see Snyder adequately supplied with water to vote and to stimulate the interest of his neighbors.

It becomes the duty of all to see that as many persons as possible are informed of the tremendous significance of the water issue which makes it overshadow all other local questions.

Talk it over. Recall those days last summer — an unusually wet summer — when you turned on the water tap and only a little dribble came out.

There might not be that much if something isn't done soon.

Cameron County Wants To Study Water Plans

SAN BENITO, Jan. 11. (AP)—Managers, directors and attorneys of Cameron County irrigation districts want more study of a plan to form a valley-wide water authority.

They said yesterday such study is needed before they join any such organization.

Ownership Of Nevada Station May Change

WASHINGTON, Jan. 11. (AP)—Kenyon Brown, Texas and Oklahoma radio operator, may get control of KWRN at Reno, Nev. The Communications Commission received yesterday an application by Reno Newspapers, Inc., for a permit to assign the license of the station to Brown for 27,500.

Colorado City 4-H And F.F.A. Show Offers $3,000 in Prize Money

Approximately $3,000 in prizes will be offered exhibitors in the fourteenth annual Mitchell County 4-H and Future Farmers of America livestock show in Colorado City Jan. 22 and 23, R. F. Fee, president of the show committee, has announced.

The show is sponsored by the Chamber of Commerce, and is open to all 4-H and F.F.A. club boys in the county. Stanley Anderson head of the animal husbandry department of Texas Technological College, will serve as judge.

Prizes will be offered in five divisions, comprised of milk fed calves, dry lot calves, fat lambs, swine and showmanship.

Less Conventions Will Mean More Members Baptist Churches Told

DALLAS, Jan. 11. (AP) — Baptists could get 250,000 new church members this year if they spend as much time at it as they ordinarily do in "coming and going to and from conventions and conferences," said Baylor University President Dr. W. R. White.

Stamford Votes For $100,000 School Bonds

STAMFORD, Jan. 10 —Stamford voters gave overwhelming approval to a $100,000 school bond issue yesterday, with only 27 opposing votes cast.

Construction will begin immediately on six extra classrooms at the Reynolds elementary school. The high school library will also be rebuilt. Contract for the construction has been awarded the First Southwest Co. of Dallas.

Octane Of West Texas Gasoline Was At Top; Now Rating Decreases

WASHINGTON, Jan. 11. (AP) — Your gasoline was more powerful last summer than ever before.

The Bureau of Mines said yesterday the octane rating of the nation's gasoline hit a new high, one and a half to two points above the preceding summer.

West Texas and the Texas Panhandle had octane ratings which were tops, the bureau said. Its six months survey predicted octane materials used in gasoline are going into urgent defense production.

Over 2,500 Added To Korean Casualty List

WASHINGTON, Jan. 11. (AP)—Announced American casualties in Korea now total 42,713, an increase of 2,537 over a week ago.

The new total, announced yesterday by the Defense Department includes 6,247 killed in action, 29,208 wounded and 7,160 missing.

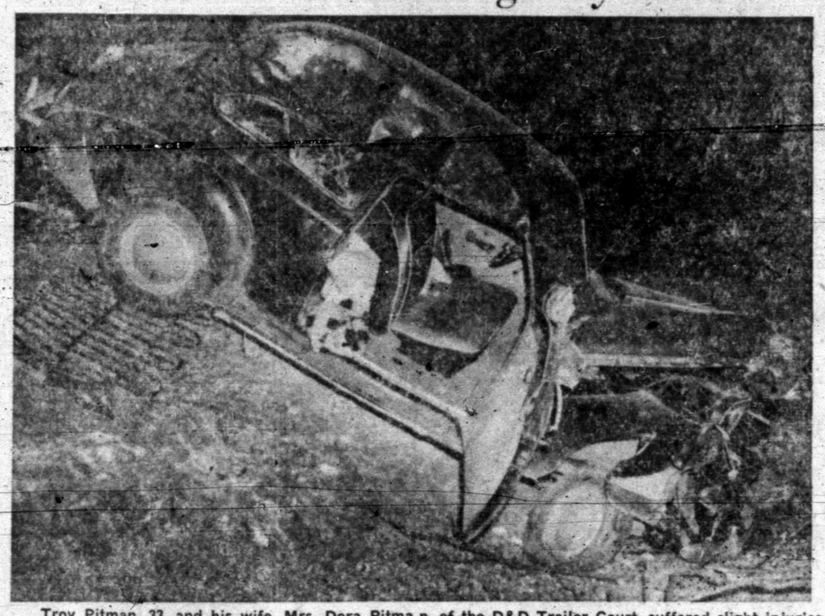
Car Fails to Make Highway Curve



Troy Pitman, 33, and his wife, Mrs .Dora Pitma n, of the D&D Trailer Court ,suffered slight injuries Monday night when this 1940 Chevrolet overturned after striking an embankment in the Big Spring highway at 3007 Avenue S. The car, driven north by Ve rna Kirby, 42, climbed the bank and knocked down two trees and a fence, then landed upended on the east side of the embankment. Fred Mayberry, 33, was also a passenger.—(Joe Dave Scott photograph.)

NEWS FROM UNION

By MRS. J. B. ADAMS

A social and supper were held at the Methodist Church Monday night in honor of Mr. and Mrs. Holly Shuler who are moving from Snyder in the near future.

The Rev. Jack O'Neal and Ab Williamson attended the evangelistic conference in Dallas this week.

The Women's Missionary Union met at the church Tuesday to work on two quilts for the girls' home at Rockdale, Tex.

Sara Sue Bell of Snyder spent Tuesday night with Judith and Cherry Jones.

Mrs. John Langford is still in Abilene with her mother, Mrs. R. W. West, who underwent an operation last Friday. Mrs. West's condition is reported to be satisfactory.

Lee Denny, general superintendent of the Burdell Oil Co., is in Bronte, Tex., this week.

Stamford Policeman Is Hired for Snyder Force

The total number of men on the city police force was brought to 18 by the addition of a new man yesterday, Chester Bairrington chief of police, said.

Bill William, 34-year-old former member of the Stamford police department, was the new addition to the force.

'Willam comes to us highly recommended by the Stamford police chief," Bairrington said.

The new patrolman has had about two years experience with the Stamford department.

PERSONALS

Two new employees at the Chemical Process Co. are Fred Crouch and Wesley Harkrider, both of Breckenridge. They are both drivers for the company.

Visitors in Snyder yesterday were J. M. House, the division superintendent of Humble Oil & Refining Co., of Midland, and M. M. Rodgers, the district superintendent of Wink.

Mr. and Mrs. P. Glisson, Post highway, went to Midland this week on business connected with the Marathon Oil Co. of which Mr. Glisson is local manager.

Today's Great Hope for Those Suffering Aches and Pains

Due to Lack of Vitamins B_1, B_2, Iron and Niacin

Why Settle for Symptomatic Relief • Read How Just a Few of Thousands Have Relieved the Cause of Such Deficiences with Hadacol!

Mrs. Homer Hames, R.D. 1, Newport, Ohio: "I have been having aches for a time, and I did everything I knew of to help without success. So I took three bottles of HADACOL. I sure feel good now. I couldn't hardly do my housework before, but now I can get my work done good. I went and got me a job at the pottery and really don't feel tired at the end of the day. I can sleep good at night now. Thanks a million for HADACOL. I wouldn't be without it. I am thirty-two years old."

A. M. Hurst, R.R. #2, Box 205, Perry, Florida: "I was born September 23, 1872. I heard of your HADACOL having the vitamins B_1 and B_2 in liquid form and that sounded good to me. I bought and have taken two small, one large and part of a second large bottle. Now I do not feel any more aches and pains. I intend to keep right on taking HADACOL."

J. L. Pappy, Bayard, Florida: "I feel that I should tell the world about your wonderful HADACOL. I have suffered with aches and pains for the past years, which worried me considerably. But, after taking two large bottles and one small bottle of HADACOL, I am now doing all my work again, and feel better. I sleep good at night, eat hearty all because of your wonderful product. I am seventy-five years of age, and far more active than the average man, and feel sure that if I had not heard about HADACOL, I would not of been able to achieve the things I have done since taking it. I will always praise your wonderful HADACOL."

Senator Dudley J. LeBlanc, the Man Responsible for Today's Great HADACOL

Senator LeBlanc has been in public life since he was quite a young man and he has always advocated the cause of the oppressed and the downtrodden. It was he who introduced the law in Louisiana that gives every deserving man and woman in Louisiana a pension of $50.00; it was he who introduced the law creating the office of Service Commissioner, the duties of which office is to see that every deserving ex-soldier and veteran receives his just reward from the Federal and State Government; it was he who has consistently fought the battle of the school teachers in the halls of the legislature; he worked untiringly for the farmers and the laboring man.

In view of the fact that this man has worked so untiringly for your cause and in your behalf, don't you believe that it was reasonable to assume that in his untiring efforts he would someday find something to assist you besides rendering governmental assistance.

The word "HADACOL" has become a by-word throughout this Nation. Read the testimonials on this page. Ask your friends who have taken HADACOL the benefits they have received from it. Don't hesitate. Place your confidence in

Senator Dudley J. LeBlanc

a man who has by his past activities demonstrated to you that he is your friend—that his heart beats in sympathy with your cause—and if you are suffering from deficiencies of Vitamins B_1, B_2, Niacin and Iron, don't hesitate—don't delay—buy HADACOL . . . the product made by the best friend you have ever had.

Refuse substitutes. There's only one true HADACOL

MANY DOCTORS RECOMMEND

Gallup Poll

Truman Popularity to 4-Year Low, December Survey Finds

By GEORGE GALLUP
Director, American Institute of Public Opinion

PRINCETON, N.J., Jan. 9 —In December, President Truman's personal popularity with the American public sank to the lowest point in four years.

A little more than one-third (36 per cent) of voters interviewed in a national sampling survey gave him a definite nod of approval, while approximately half expressed disapproval and the rest did not express an opinion.

At intervals of every few months during Mr. Truman's five-year presidency, a representative cross-section of the nation's voters has been asked an identical question regarding him, as follows:

"Do you approve or disapprove of the way Truman is handling his job as President?"

The result in December:

Approve	36
Disapprove	49
No opinion	15
Total	100

One year ago the Institute reported his popularity index as follows:

One Year Ago (Jan. 1950)

Approve	45
Disapprove	40
No opinion	15
	100

Two years ago, on the same question, the vote was:

Two Years Ago (Jan. 1949)

Approve	69
Disapprove	17
No opinion	14
	100

The only previous time when the President's popularity was lower than today was just before the Congressional elections of 1946, in which the Democratic party lost control of both houses of Congress. At that time 32 per cent of voters questioned by the Institute said they approved of Mr. Truman.

These surveys are conducted by methods which proved accurate within 1 percentage point in forecasting the Congressional elections last November.

Wide Swing of Popularity

Probably more than in the case of any President in recent years, Mr. Truman's popularity has been subject to violent fluctuations. He has always in the past come out of a slump and been able to regain great heights of popularity.

This type of popularity survey is a highly sensitive index reflecting the day-to-day moods of the American electorate, and where Mr. Truman is concerned, those moods are highly volatile.

His popularity has ranged from a high of 87 per cent to a low of 32 per cent in the five years since he took office.

By comparison the fluctuations of President Roosevelt's popularity in this same type of survey never showed so wide a range. The high point was 84 per cent in [illegible], the low point slightly under 50 per cent in 1938.

Effect of Korea

Mr. Truman's popularity took an upward spurt right after his decision last June to fight the Communists in Korea. But the gain was not sustained.

Here is the trend over a five-year period:

	Approve	Disapprove	No Opin.
July, 1945	87	3	10
Oct. 1946	32	53	15
Mar., 1947	60	23	17
Jan., 1949	69	17	14
Jan., 1950	45	40	15
June (before Korea)	37	45	18
July (directly after Korea)	46	37	17
Oct.	39	48	13
Dec.	36	49	15

STARS

Democrats Still in Favor

The low state of Mr. Truman's popularity is due in large measure to a shift in attitude among Independent voters and among Democrats.

While the majority of persons who classify themselves as Democrats still approve of him, one-third say they disapprove of Mr. Truman's handling of his job. Among Independents the weight of opinion is unfavorable.

Here is the vote in the present survey by persons who classify themselves as Republicans, Democrats or Independents:

	Approve	Disapprove	No Opin.
Republicans	19	70	11
Democrats	53	33	14
Independents	32	47	21

Texas History Written in Brands

By JOHN HENDRIX

C. C. Jones of Paris, Texas, evidently had in mind the building up of his herds when he selected the leaning ladder as his brand.

It will be recalled that it was from Paris, Lamar County, Texas, that the famous John Chisum identified with early Southwestern cattle history, started on his pilgrimage to southern New Mexico. After a long and hazardous career as ranching career was ended.

It was from various sections of the state not closely identified with the cattle industry that leaders in the industry were developed and made their way west to new frontiers to carry to it this great industry. Notably among these counties are Williamson, Cooke, Denton, and others which bounded a frontier in the early '80s.

The Texas cattleman had the pioneers' ability to establish borders and trading points as he moved on westward to cause Texas to become the leading cattle state of all America and send cowmen to establish new ranges in the far Northwest.
