

U. S. Urges Fast Action To Nip Space Arms Race

Vote Referee Plan Pushed

By EDMOND LE BRETON

WASHINGTON (AP)—Civil rights advocates drove today for House approval of a voting referee plan to resolve the long wrangle over legislation against racial discrimination at the polls.

There were even some "anti-carpetbag" sweeteners in it for the Southerners, who were still fighting it vigorously. Members outside the South generally were supporting the revised proposal.

The major test vote was expected late today, paving the way for a final House vote on the bill.

The GOP House leader, Rep. Charles A. Halleck of Indiana, told newsmen he thinks the House could write "a fine law" by incorporating the revised administration plan for referees into the stripped-down bill before it.

Halleck said the Senate might well agree to such a bill and end the marathon battle raging on that side of the Capitol for exactly a month.

The Senate continued battling over various provisions of its own civil rights legislation despite a general expectation it eventually will accept whatever the House passes.

Rep. Emanuel Celler of New York, leader of the Democratic supporters of civil rights legislation, joined his Republican counterpart, Rep. William M. McCulloch of Ohio, in predicting approval by the House of the referee plan.

In its final form, the proposal retains the basic idea of court-appointed officers who could step in when state officials followed a pattern of discrimination against Negro or other minority would-be voters.

Water Needs Of Cities In Area Cited

BIG SPRING—The need of water for cities will be the theme of the next 10 years as predicted in a statement Col. E. V. Spence, 60-2 Tuesday with the U.S. (Water) Study Commission.

Spence, General Manager of the Colorado River Municipal Water District, presented projections by Freese, Nichols and Endress, Consulting Engineers for the District to the Commission at its Big Spring meeting.

Within the next 30 years an unhampered natural growth of population in this area could create a water demand 11½ times that of 1960, the estimate continued.

Martin C. Nichols, member of the consulting firm, pointed out that the cities of Odessa, Midland, Big Spring, Snyder, Colorado City, Lamesa and Stanton had increased at the annual rate of 7.4 percent within the past 39 years. An average annual increase of 7 percent will continue until 1970 when it will level off at a more moderate rate. Nichols used the experience of Tarrant County, on which there are long and complete records available, as a basis for plotting population curves for this area.

"It is evident that the surface and ground water resources of the Upper Colorado River watershed cannot sustain any such population and water use without importing water into the upper watershed," he said.

Smoldering furniture taken outside today to a blaze again and again. The fire department was called twice, once at midnight and again, at 7:30 this morning, to extinguish blazes after they had left the scene.

Lewis' estimating merchandise damage at between \$9,000 and \$10,000, will announce his plans for the future sometime this week. At present, he is uncertain as to whether he will reopen. He had opened the store in December of 1959.

Damage to the building was tentatively estimated at about \$4,000 by Porter.

Another fire alarm was turned in as firemen were rolling hoses to leave the scene of the furniture store fire. One truck went to a grass fire in the 300 block of Avenue T.

Mrs. Breakstone, a sister-in-law of Mrs. Graham, had been visiting in Houston.

Two others were injured.

The proposal which has been revised requires that referees be local people, voters in the judicial district involved. Language authorizing the referees to follow the voting process right through the counting of the ballots was somewhat modified. However, spokesmen on both sides agreed that in extreme cases the referees could be sent in to oversee even the actual count.

The House in swift parliamentary moves Monday discarded two administration civil rights proposals that might have led to prolonged debate. Both were ruled out of order on grounds they were not closely enough related to the main bill.

A commission to safeguard Negro and other minority employment rights on government contracts.

Financial aid to school districts changing from segregated school systems.

The Senate continued battling over various provisions of its own civil rights legislation despite a general expectation it eventually will accept whatever the House passes.

Rep. Emanuel Celler of New York, leader of the Democratic supporters of civil rights legislation, joined his Republican counterpart, Rep. William M. McCulloch of Ohio, in predicting approval by the House of the referee plan.

In its final form, the proposal retains the basic idea of court-appointed officers who could step in when state officials followed a pattern of discrimination against Negro or other minority would-be voters.

This is the highest accreditation available to hospitals, and approval of the hospital here came following its first request for an inspection.

"This accreditation means the same thing to a hospital that the word 'sterling' means to silver," explained Bill Newsom, superintendent of the hospital.

The Joint Commission on Accreditation of Hospitals lists as member organizations the American College of Physicians, the American College of Surgeons, the American Hospital Assn., and the American Medical Assn.

The inspection of Cogdell Memorial Hospital was made on Jan. 20 by Warren G. Atwood, M.D., field representative of the commission.

The inspection involved a detailed survey of the hospital's physical facilities, how they are used, methods of operation of various departments, the governing body, etc.

Absentee Voting In School Elections

Absentee voting is underway at the county clerk's office for school elections in the county.

The absentee ballots were made available yesterday, and the absentee voting period will continue until midnight, March 29.

The school districts will hold their elections on April 2. However, all absentee voting now is conducted through the county clerk's office.

Newsom said accreditation by the commission does not mean that the hospital here has suddenly undergone spectacular changes but that it assures patrons that the hospital is operated under the highest professional standards.

Heavy snow fell at Pampa in the upper Texas Panhandle Tuesday and light snow fell at Dalhart, northwest of there.

Flakes up to the size of 25-cent pieces fell in Pampa for a time, then suddenly the sun broke through but light snow continued to fall, apparently driven by 15 m.p.h. winds from clouds farther away.

Although the temperature was one degree above freezing at Pampa, much of the snow remained on the ground.

Elsewhere traffic-snarling light rain, drizzle and fog shrouded much of the state while farmers worried about when they could get into their soggy fields for spring land preparation.

The Weather Bureau blamed a late winter disturbance centered over northwest Texas and a disturbance over the Central Gulf for the bad weather.

Snow was reported from the

CANDIDATE—Ex-Governor Elmo Smith of Oregon has filed for GOP nomination for the U.S. Senate. He is expected to oppose Sen. Richard L. Neuberger's widow in the fall general election. (AP Wirephoto)

West Plan 'Belittled'

By GUSTAV SVENSSON

GENEVA (AP)—The Soviet Union belittled a Western plan for disarmament today, at the opening of a 10-nation conference called to find a way for ending the world arms race.

Soviet Deputy Foreign Minister Valerian Zorin described as impractical the proposal put forward by the United States, Britain, France, Italy and Canada.

He urged instead that the conference take up a Western Soviet proposal which in Russian eyes does not contain adequate control provisions.

The Soviet delegate spoke just before U.S. Ambassador Frederick M. Eaton took the floor as the final speaker. Eaton urged the conference to take "immediate action to prevent an extension of the arms race into outer space."

This problem has arisen since the collapse of the last previous negotiations on disarmament in London in 1957.

Eaton stressed that arrangements to cut back forces and

weapons must be subject to fool-proof controls. He added that "the initial steps must not be overly ambitious."

Both Eaton and British Minister of State David Ormsby-Gore stressed that the control problem would need to be carefully worked out. The American delegation leader said:

"It has been said that there must be no inspection without commensurate disarmament. Conversely, the security of the world requires that there be no disarmament without commensurate inspection. We must patiently find our way through this difficulty."

The west's plan for ending the arms race calls for creation of an international disarmament organization with ultimate power to enforce disarmament. The rival Eastern plan is based on Soviet Premier Nikita S. Khrushchev's call for total disarmament within four years. He first unveiled it in a speech to the U.N. General Assembly last Sept. 18.

The conference likely will set up several study groups and committees of experts which may deliberate for months or even years. U.S. negotiators were told to expect to stay in Geneva at least a year. But a Soviet commentator in Moscow called for speedy action.

For the first time in more than a decade of arms talks, East and West were meeting on an equal numerical basis. On the Western side were the United States, Britain, France, Italy and Canada. Representing the Communist bloc were the Soviet Union, Poland, Romania, Czechoslovakia and Bulgaria.

Previous disarmament talks were carried on mostly by the United States, Britain, France, Canada and the Soviet Union.

The Western plan was submitted to the Communists informally Monday night. Like previous Western proposals, it called for tightly controlled, step-by-step disarmament. Its chief new features were the "international organization" which ultimately would have vast powers, an earlier start toward nuclear disarmament, and emphasis on the use of outer space for peaceful purposes only.

The West's plan calls for three general stages.

First it would set up an international disarmament organization, linked to the United Nations, to begin studies of all phases of disarmament. All nations would tell the organization what they were spending for military purposes. The United States and the Soviet Union would cut their armed forces to 2½ million men each. The armed forces of other nations would be reduced to 1½ million.

All nations also would place agreed quantities of conventional armaments into storage deposits in their own territories. Studies would be made of ways to police a cutoff in the manufacture of nuclear materials for military purposes, and of transforming nuclear military stockpiles to peaceful uses.

Second, the organization would begin studies of all phases of disarmament. All nations would tell the organization what they were spending for military purposes. The United States and the Soviet Union would cut their armed forces to 2½ million men each. The armed forces of other nations would be reduced to 1½ million.

All nations also would place agreed quantities of conventional armaments into storage deposits in their own territories. Studies would be made of ways to police a cutoff in the manufacture of nuclear materials for military purposes, and of transforming nuclear military stockpiles to peaceful uses.

Third, the organization would begin studies of all phases of disarmament. All nations would tell the organization what they were spending for military purposes. The United States and the Soviet Union would cut their armed forces to 2½ million men each. The armed forces of other nations would be reduced to 1½ million.

All nations also would place agreed quantities of conventional armaments into storage deposits in their own territories. Studies would be made of ways to police a cutoff in the manufacture of nuclear materials for military purposes, and of transforming nuclear military stockpiles to peaceful uses.

Fourth, the organization would begin studies of all phases of disarmament. All nations would tell the organization what they were spending for military purposes. The United States and the Soviet Union would cut their armed forces to 2½ million men each. The armed forces of other nations would be reduced to 1½ million.

All nations also would place agreed quantities of conventional armaments into storage deposits in their own territories. Studies would be made of ways to police a cutoff in the manufacture of nuclear materials for military purposes, and of transforming nuclear military stockpiles to peaceful uses.

Fifth, the organization would begin studies of all phases of disarmament. All nations would tell the organization what they were spending for military purposes. The United States and the Soviet Union would cut their armed forces to 2½ million men each. The armed forces of other nations would be reduced to 1½ million.

All nations also would place agreed quantities of conventional armaments into storage deposits in their own territories. Studies would be made of ways to police a cutoff in the manufacture of nuclear materials for military purposes, and of transforming nuclear military stockpiles to peaceful uses.

Sixth, the organization would begin studies of all phases of disarmament. All nations would tell the organization what they were spending for military purposes. The United States and the Soviet Union would cut their armed forces to 2½ million men each. The armed forces of other nations would be reduced to 1½ million.

All nations also would place agreed quantities of conventional armaments into storage deposits in their own territories. Studies would be made of ways to police a cutoff in the manufacture of nuclear materials for military purposes, and of transforming nuclear military stockpiles to peaceful uses.

Seventh, the organization would begin studies of all phases of disarmament. All nations would tell the organization what they were spending for military purposes. The United States and the Soviet Union would cut their armed forces to 2½ million men each. The armed forces of other nations would be reduced to 1½ million.

All nations also would place agreed quantities of conventional armaments into storage deposits in their own territories. Studies would be made of ways to police a cutoff in the manufacture of nuclear materials for military purposes, and of transforming nuclear military stockpiles to peaceful uses.

Eighth, the organization would begin studies of all phases of disarmament. All nations would tell the organization what they were spending for military purposes. The United States and the Soviet Union would cut their armed forces to 2½ million men each. The armed forces of other nations would be reduced to 1½ million.

All nations also would place agreed quantities of conventional armaments into storage deposits in their own territories. Studies would be made of ways to police a cutoff in the manufacture of nuclear materials for military purposes, and of transforming nuclear military stockpiles to peaceful uses.

Ninth, the organization would begin studies of all phases of disarmament. All nations would tell the organization what they were spending for military purposes. The United States and the Soviet Union would cut their armed forces to 2½ million men each. The armed forces of other nations would be reduced to 1½ million.

All nations also would place agreed quantities of conventional armaments into storage deposits in their own territories. Studies would be made of ways to police a cutoff in the manufacture of nuclear materials for military purposes, and of transforming nuclear military stockpiles to peaceful uses.

FIREMEN FIGHT SMOKE WITH FURNITURE STORE FIRE—Firemen squat out of range of the smoke as they pour water on the flames that heavily damaged the I. V. Lewis Furniture Store Monday.

USED FURNITURE—Framed in the ruins of what had 15 minutes before been an overstuffed easy chair, firemen carry smoldering furniture from Lewis Furniture Store.

Furniture Store Has Heavy Fire Damage

Raging flames partially destroyed the I.V. Lewis Furniture Store, 2407 Avenue R, late Monday afternoon with damage running near \$15,000 to the building and merchandise.

Causes of the fire is unknown. Smoke, heavy from the upholstery padding and furniture finishes, endangered firemen as they battled the blaze. Fire Chief D. A. Porter, a witness declared.

The fire was confined to the rear half of the store with heavy smoke and water damage to the remainder of the building and furniture. All furniture in the back store room was destroyed before firemen arrived.

Slide snapped an electric cable that ignited some timbers. The timbering in turn started a smoldering fire in the coal.

Communication was maintained with the miners for about four hours until that line, too, was broken, apparently burned through by the fire.

There are three honeycombed refuge areas, or "rooms," off the main passageway where the men might have barricaded themselves from the deadly fumes and smoke from the fire.

An alternative would have been to try to make it through the main passageway to an old mine entrance on the other side of the mountain. This way has been blocked for some time, and safety officials consider it the worst choice the men could have made.

"If they're up toward the slope, they're dead," said Paul Ling, deputy state mines director.

Basic mine safety instructions call for trapped men to use chalk or other means to leave signs for rescuers.

The 18 were cut off about 8 a.m. last Tuesday when a small rock

slide snapped an electric cable that ignited some timbers. The timbering in turn started a smoldering fire in the coal.

Collision Claims Its Third Victim

HOUSTON (AP)—A third person died today from injuries received in a two-car collision. She was Mrs. Lauretta Breakstone, 56, of Chicago.

Killed in the crash Monday was Barker, 35 miles west of Houston, were Mrs. Ann Graham, 32, of Sealy.

Mrs. Breakstone, a sister-in-law of Mrs. Graham, had been visiting in Houston.

Two others were injured.

Sitdown Demonstrations In South Appear To Be Ebbing

By The Associated Press

Sitdown demonstrations appeared to be diminishing in the South today in the face of mass convictions and firm police action but new racial violence was reported in two cities.

Negro students at Florida A&M University called off their sit-downs protesting segregated eating facilities at Tallahassee, Montgomery, Ala., was quiet. There was one small demonstration in South Carolina.

Courts in Virginia, North Carolina and South Carolina handed down a series of convictions Monday in connection with sit-down troubles. Both Negroes and white persons were involved.

At Charleston, S. C., Grady McMillin, 24, a white service station attendant, told police six Negro youths carved crude "KKK" initials in his back, beat him up and robbed him of \$40.

Two Negro college students were convicted of trespassing in

In New Orleans, Michael Tortorich, 17, told police a Negro teenager stabbed him in the back Sunday night as he waited for a bus. Tortorich's condition was described as fair.

The decision to halt demonstrations at Tallahassee was announced by Ira C. Robinson, president of the Student Government Assn. at Florida A&M University. He said agreement was reached after Saturday's riot in downtown Tallahassee and the turning back of a Negro march by tear gas.

At Petersburg, Va., hundreds of Negroes sang hymns outside the courthouse while 11 members of their race were convicted of trespassing at the city's public library March 7. All were released on bond.

Two Negro college students were convicted of trespassing in

Raleigh, N.C. They were among 43 students arrested during February demonstrations.

In Texas, three white students joined five Negroes, including one who picked the main entrance to the University of Texas. They were protesting alleged inadequate housing for Negro students and a university policy of not allowing Negroes on athletic teams or in drama groups.

The management of drug stores in Houston, Tex., and Galveston, Tex., closed lunch counters Monday. A crowd of about 100 Negroes gathered outside a Galveston store but they were dispersed without violence by police.

San Antonio, Tex., merchants marked time until Thursday when an NAACP leader said demonstrations would start unless San Antonio lunch counters were desegregated.

Foundation Board To Meet Wednesday

The Board of Directors of the Snyder County Industrial Foundation will meet at 3 p.m. Wednesday in the Chamber of Commerce office.

The meeting was called by Claude McCormick, president of the Foundation.

WEATHER

SNYDER TEMPERATURES: High Monday, 75 degrees; low, 40 degrees; reading today, 75 degrees.

East Texas: Scattered showers this afternoon, becoming partly cloudy tonight and Wednesday. Chilly tonight. Lows: 30 to 40 in interior tonight.

South Central Texas: Scattered showers mainly in east this afternoon, becoming partly cloudy tonight, and Wednesday. Chilly tonight. Lows: 30 to 40 in interior.

North Central Texas: Few showers this afternoon and evening, and tonight. Chilly tonight. Lows: 30 to 40 in interior.

West Texas: Few showers this afternoon and evening, and tonight. Chilly tonight. Lows: 30 to 40 in interior.

Texas Democratic Leaders Set Stage To Support LBJ

By Dave Cheavens

AUSTIN (AP)—The Texas Democratic leadership has shown again that it is marching militantly along the

merely as a favorite son but as a serious contender for the nomination coming up in June and September.

Speakers urged the committee to support LBJ.

The committee took no action which was construed by one speaker—not a SDEEC member—as a possible slap at Johnson.

ton, urging that party leaders "understand" they must support the presidential nominee, regardless of who he is.

The party leadership has demonstrated over and over that it will back all Democratic nominees from the local level up," said John Pease of San Antonio. "This resolution is not needed."

Goldberg replied that past performances by Texas party leaders had shown the need of reasserting the party loyalty obligation. He was referring to the pro-Eisenhower bolts by the Texas Democratic leadership in 1952 and 1956.

The committee's vote on the resolution was about the same as it has been in the past on similar propositions backed by liberals.

The SDEEC also honored Mrs. H. H. Weinert of Seguin as "the outstanding lady" of the party in Texas. This was in recognition of her long service as a party worker, plus her efforts in church, school and other phases of public life.

Mrs. Weinert, former national committeewoman from Texas, was honored at a luncheon.

She told a story of a brief marriage that was happy except for one thing: Her young husband wanted to make money the easy way.

"I began to have suspicions when I looked in his drawer and found it loaded with all kinds of attitudinal—from the biggest to the littlest. Then in 1941 he came home one night and dumped a sackful of money on the bed," she said.

"The bed was just covered with money, I fussed and got mad, but he didn't do any good. He just laughed."

Chesman is awaiting execution. The death date—his eighth—is May 2. Newsman asked the woman if she thought he would escape death this time, as he had the previous seven, through legal maneuvers or action by the governor.

She said she thinks he is innocent of charges of kidnapping and sex perversion.

"There was nothing abnormal about him, whatsoever," said the former Mrs. Chesman. "Even when we were going together as high school kids he always respected 'no.' He was never one to use force."

Several Snyder members are scheduled to attend the annual meeting of the U. S. Highway 180 Assn. in El Paso on March 25-26.

The session will be held at El Rancho Motel there, with registration and a dinner session set for Friday night and the business meetings on Saturday.

The association has received approval from all three states involved on a proposal to extend U. S. 180 to Holbrook, Ariz. The last check remaining is that of the numbering committee.

Delegates to the annual session are expected from Weatherford to Arizona.

Airliner Skids Off Runway At Houston

HOUSTON (AP)—A Braniff plane skidded off a runway at the international airport Monday night. There were no injuries.

The plane, en route from Dallas to Buenos Aires, carried 10 passengers and a crew of 6.

PUBLICITY WOMEN—These two ladies were cutting, pasting and working diligently Monday afternoon to get their Beta Epsilon Chapter scrapbook in A-1 order for the Alpha State Convention competition. They are from left to right, Mrs. Alene Stephens and Miss Maydelle Burns.

Beta Epsilon Chapter Vying For Another Scrapbook Award

For the last two years Beta Epsilon Chapter of Delta Kappa Gamma has sent a scrapbook to the Alpha State Convention to compete in state-wide ratings which are Standard, Excellent, and Superior.

In 1958, Beta Epsilon's scrapbook was judged Excellent and in 1959 it received the Superior rating which is the highest. To receive this highest rating, Superior, the scrapbook had to contain a minimum of 300 column inches of printed publicity at least four single column pictures or two double column or larger pictures; and at least two radio or two television programs and four radio or four television announcements. Besides this publicity, it must contain a group picture of chapter officers; six pictures of some chapter activity; a minimum of six mementos from International, State, and Regional Conventions; four chapter mementos; a chapter yearbook; and a copy of at least five newsletters or bulletins.

The Publicity Committee of Beta Epsilon has printed and mailed a newsletter to each member several days before each regular meeting for the past two years. At the Alpha State Convention in 1959 of the approximately 135 chapters in Texas only 94 sent scrapbooks, and Beta Epsilon's was given special recognition at the State Convention for the Regional publicity of any paper in the state of Texas. Mrs. Lida Rhoades, local president said.

For the past three years Miss Maydelle Burns has been Publicity Chairman of Beta Epsilon Chapter. Other members serving on this committee during part of the time

are Miss Edith Wilkerson, Mrs. Pearl Shropshire, Mrs. Lola Horton, Mrs. Mattie Hines, Mrs. Cora Johnson, Mrs. Hazel Hanback, Miss Mable Smith, and Mrs. Alene Stephens.

Much work is being done at this time mounting pictures, measuring column inches of printed publicity, and getting everything in the scrapbook to be sent to Fort Worth for this year's Alpha State Convention April 29-30.

Party Honors Two Young Ladies At Colorado City

CHINA GROVE (Sp.) — Mrs. R. C. Prescott and Mrs. N. F. Hall were hostess for a party, Friday night given in the Club Room of the Recreation Center in Colorado City to honor their daughters Donna Kaye, and Donna Ann.

An enjoyable evening was reported by all. Those attending were, Leslie Smith, Jo Ann Wallace, Doris Weaver, Roberta Thompson, Barbara Jackson, Judy Snowden, Donna Carter, Emma Lynn Rice, Maynette Davis, Linda Preston, Raymond Bell, Lynn Prescott, Michael Prescott, Jimmy Golden, Donny Camp, Robert (Tiger) Davis, Ronny Mosley, Paul Golden, Glen Stamford, Wayne Snowden, Bobby Grissom, Bobby Cupp, R. C. Prescott, and N. F. Hall.

Refreshments of candy, cookies, and cokes was served to all.

CLEAN IT FIRST

Moths are not attracted to man-made fibers but they like certain types of soil. Even if a garment to be stored is not woolen, be sure to have it cleaned before storing.

China Grove News

By MRS. N. F. HALL.

Mrs. Damon Cotton and Mrs. Tom Webb visited Mrs. Whit Farmer of Ira, now in the Big Spring Hospital, Thursday. Mrs. Farmer underwent eye surgery recently.

Mrs. Richard McFarland of Dunn visited her daughter and family, Mr. and Mrs. Charlie White this week.

Mrs. N. F. Hall and Ronny, and Mrs. Albert Hively visited L. L. Scale of Roscoe Thursday afternoon.

Mr. and Mrs. Damon Cotton visited Mr. and Mrs. Arlis Cotton and children of Buford Sunday.

Sunday guest of Mr. and Mrs. Floyd W. Market were, Mrs. Jimmy Shurtliff and children of Houston. Mr. and Mrs. Bo Market and boys, Mr. and Mrs. Paul Hunter and children all of Colorado City.

Mr. and Mrs. Cecil Webb of Floydada were guests of Mr. and Mrs. T. J. Webb Monday.

Mr. and Mrs. J. W. Webb were guest of Mr. and Mrs. Whit Farmer of Ira Sunday.

Mrs. A. B. Cary of Ira visited Mrs. N. F. Hall Saturday.

Mrs. Atkinson Hostess To Church Circle

Mrs. Ray Atkinson, 3200 Ave. D, was hostess for the Robecah Circle of the Trinity Methodist Church recently with seven members present.

Mrs. Atkinson, assisted by Mrs. W. E. Rushing, Mrs. M. E. Williams and Mrs. Alvin West gave a program concerning the general conference of the Methodist Church.

Mrs. Dale Stewart closed the program with a devotional. Refreshments were served by the hostess.

FRANCIS ANN CAFFEY

Francis Ann Caffey Named Texas' BC Homemaker

Texas' Betty Crocker Homemaker of Tomorrow is Francis Ann Caffey of Hawkins High School, Hawkins.

Miss Caffey, daughter of Mr. and Mrs. Pratha E. Caffey, received the highest rating in a written examination on homemaking knowledge and attitudes administered to 16,822 senior girls in 709 schools throughout Texas. She will receive a \$1,500 scholarship from General Mills and becomes a candidate with 49 other state winners and the representative from the District of Columbia for the title of All-American Homemaker of Tomorrow.

On April 23 all state winners begin an expense paid tour of New York City, colonial Williamsburg, Va., and Washington, D. C. The tour will end in Washington on April 28 where the All-American Homemaker of Tomorrow will be announced at the American Table Dinner in the Statler-Hilton Hotel.

Score in the original test and personal observation on this tour will be the basis for selection of the national winner, whose scholarship will be increased to \$5,000.

Mary Ann Sims of Moody High School, Moody, rated second in Texas and will receive a \$500 scholarship.

Miss Caffey, the state winner, worked last summer as a nurses aid in a local hospital. "After witnessing a few minor operations, and not fainting, I decided that I was strong enough to be a nurse."

During the holiday season, Francis worked as a gift wrapper in a local store. "I have always been the family gift wrapper, so I didn't need any training to learn the knack."

Sewing is one of Francis' many interests. Last year she won a prize for a brown flannel suit that she made. "It took about three

weeks to make, but when I was aware of the price, the time spent seemed well worth the while."

Francis has been on the honor roll of Hawkins high school throughout all four years. She plans to attend Texas Women's University, majoring in nursing.

Miss Sims, state runner-up, plans to attend Baylor University and to major in Home Economics education. She finds that selection and care of clothing is her favorite homemaking duty. By entering competitive events in rodeos, such as goat tying and ribbon roping, Mary Ann has purchased some of her own clothing. This money is also used to help with school expenses.

Eight other Texas senior girls received honorable mention in the homemaking test. They are: Catherine Sue Bursey, Quanah High School, Quanah; Norma Elizabeth Padaras, Beaumont High School, Beaumont; Mary Alice Terry, Coleman High School, Coleman; Rebecca Lou Donaldson, Gatesville High School, Gatesville; Velma Estelle Reynolds, Center High School, Center; Margaret Rose Manger, Saint Agnes Academy, Houston; Judith Marie Blackburn, Marshall Senior High School, Marshall; Sandra Ann Robinson, Hereford High School, Hereford.

The test in this sixth annual national homemaking program was designed and judged by Science Research Associates of Chicago. The school of each state Homemaker of Tomorrow will receive a \$4,000 scholarship, third place winner a \$3,000 award and fourth place winner a \$2,000 grant.

A 39-acre section of Manhattan Island comprises Chinatown.

Hoffa Criticizes Foes During Rally

NEW YORK (AP) — Teamsters Union President James R. Hoffa, who was chief counsel of the Madison Square Garden rally, criticized his adversaries Monday night at a committee. His audience enthusiastically whistled and cheered as Hoffa turned to reporters covering the rally and said: "There is no use Hoffa called it a 'wonderful turning point' considering that most what you can expect from the Teamsters is a 'wonderful turning point'."

The Teamsters president had angry words for recent labor legislation. Sen. John F. Kennedy (D-Mass.), his brother, Robert F. Kennedy, AFL-CIO President George Meany, Auto Workers President Walter Reuther, the press, radio, and television.

Sen. Kennedy, who helped write the new labor law, was a member of the Senate committee which in-

Seek Negro Assaultants

CHARLESTON, S.C. (AP) — Search continued today for six young Negroes who a white service station attendant says cut, beat and robbed him.

Grady McMakin, 24, told police the assaultants "pulled me by the heels face down into a little alley and started carving me up." Nearly 100 stitches were required to close slashes on McMakin's back.

McMakin said he was robbed of \$40 during the affray, just after dark Saturday. He was released Sunday from a local hospital.

The attack occurred near a racially mixed neighborhood that includes a large Negro housing project, officers said.

"I remember them saying something like 'That'll fix him' and 'Let's carve KKK on him,'" McMakin said. He said they kicked him in the head and ribs and laughed as they did it.

On March 7, in Houston, Texas, four masked white youths hung a Negro man, Felton Turner, 27, by his heels from a tree. Turner's body had two series of KKK scalded onto his chest and stomach.

Hoffa gave a point-by-point analysis of the new Landrum-Griffin labor reform law, seeking to convince his audience that it was designed to destroy the Teamsters and turn them into strikebreakers.

He said he "planned to build a web of union alliances covering millions of workers as an answer to the law. He would have all unions arrange common expiration dates for their contracts. Thus, he said, unions could circumvent the law's ban on secondary boycotts."

The Teamsters—there are 150,000 of them in the metropolitan district—had made special pleas to the city's unorganized cab drivers to park their vehicles and come to hear Hoffa. There was no indication the cab drivers responded in any great numbers.

At a news conference after his speech, Hoffa denied printed reports that he has a purge list and is actively opposing Sen. Kennedy's candidacy for the Democratic presidential nomination as well as reflection of congressmen who are supporting Kennedy.

Former Headwaiter Faces Tax Count

NEW YORK (AP) — A former headwaiter at the Copacabana restaurant and night club has been indicted on charges of evading \$14,294 in income taxes.

Ronald F. Egleston, 30, who resigned from the club last month, was charged Monday with withholding only \$14,879 of \$58,000 he earned for 1953 through 1955.

Gerrymander is the term used in rearranging election districts to give unfair advantage to political parties already in power.

West Winner In Battle Of Passes

BERLIN (AP) — A stubborn West Monday night won its battle with the Soviet Union over new travel passes for Western military missions in East Germany. Word of the passes implied recognition of the Soviet puppet regime.

The Soviets discarded the passes after month-long Western refusal to accept them and retaliation against Soviet missions in West Germany.

The passes would have authorized the United States, British and French military missions stationed at Potsdam, East Germany, to travel in the "German Democratic Republic." The old passes, now back in effect, authorize travel in the Soviet zone of Germany.

The Western Allies contended use of the passes would imply recognition of the East German regime which they contend is an illegal, unrepresentative government.

The Soviets' surprising about-face came at a meeting of the heads of the Western missions with the Soviet chief of staff in East Germany, Lt. Gen. G. V. Voronov.

The official East German news agency, ADN, said Voronov told the Western representatives he "guided by the desire not to worsen relations among the great powers, especially in view of the forthcoming summit conference, the Soviet government has authorized the supreme commander to make no changes until further notice in the passes issued previously."

The missions, created in 1947 for liaison among the four occupation powers, are considered valuable by both the West and the Soviets as observers of what the other side is doing.

Since the new passes were issued Jan. 29, the Western missions in Potsdam—totaling about 50 men—had stopped all their travel in and from West Berlin except for supply trips and to get medical treatment.

In retaliation, the United States and Britain last week sharply curtailed the movements of the Soviet missions in West Germany.

Actor's Wife Leaves Estate Of \$10,000

LOS ANGELES (AP) — Actor Joseph Cotten's late wife, Lenore, left him an estate estimated at more than \$10,000, probate of her will has disclosed.

The document was dated July 3, 1948. Mrs. Cotten died in Rome Jan. 7 at the age of 53. The will was admitted to probate here Monday.

PLAYING CUPID were these girls in the office of Miss Clara Balzen, service order supervisor (front row, center). Front row, left to right: Mrs. Ann Waldrop, Miss Balzen, Miss Barbara Connolly. Rear: Miss Carolyn Strawn, Mrs. Charlie Ann Hanzelka, Mrs. Evelyn Evans, Miss Fay Morgan.

Seven who played Cupid

How these telephone girls helped sergeant in Iceland send flowers to his wife . . . an example of the Spirit of Service in action

MRS. BOB VAN SYCLE

A letter from Iceland addressed to Southwestern Bell ended up in the office of Miss Clara Balzen, telephone service order supervisor.

It was from Staff Sgt. Bob Van Sycle, stationed with the Air Force in Iceland. He said his wife's birthday was coming up soon and he wanted to send her flowers. He had an idea he could ask the telephone company to send the flowers and charge his phone bill for the amount.

GIRLS HELP OUT

It turned out the sergeant had the wrong information, but the girls decided to help, anyway. They wrote they were sorry the telephone company was unable to bill a florist charge to his telephone account, but added: "However, we feel such thoughtfulness deserves some special attention."

So they picked out a birthday card and had a florist deliver a dozen red roses to Sergeant Van Sycle's wife. She was delighted and so

was her husband. He wrote to the telephone girls who helped play Cupid:

LETTER FROM SERGEANT

"Thanks to the gracious efforts of you girls, my wife's birthday was made very, very happy. The flowers arrived just at the right moment and were beautiful and the card you selected was very pretty and most fitting. My wife was very happy and as a result, I was happy, too. I owe this all to you. A light shone where, but for your generosity there would have been none."

Not every telephone employee has a chance to help someone like the sergeant and his wife. Even so, the initiative displayed by the seven telephone girls and their willingness to do something extra are very much a part of their daily efforts on the job. This is a special sense of responsibility that goes with telephone work: the Spirit of Service.

Demos Speculating On Adlai's Role

By JACK BELL.
WASHINGTON (AP) — Many Democrats here consider Adlai E. Stevenson as a likely choice for secretary of state but not for the party's presidential nomination. Stevenson, twice the party's nominee, has long disavowed any intention of making a third race for the office. But speculation was renewed Monday that he might make a soft-seat campaign and take the nomination.

There is recognition, too, of the progress Sen. John F. Kennedy (D-Mass.) now is making toward the elimination of any deadlock in the balloting at the Los Angeles convention in July.

Kennedy has more "primary" battles ahead, particularly in Wisconsin, West Virginia and Oregon, before any of his rivals will begin to show any signs of political panic. But there is a certain amount of uneasiness among them about Kennedy's inroads into delegations from states not holding primaries.

"Stevenson's chances for the nomination seem, likely to depend in part on what happens to Sen. Hubert H. Humphrey (D-Minn.) if he doesn't get the first prize. Stevenson seems to be every other candidate's choice for secretary of state, if the Democrats win."

Chairman J. William Fulbright (D-Ark.) of the Senate Foreign Relations Committee said he believes Stevenson would be glad to accept the No. 1 Cabinet appointment.

Fulbright, who worked closely with Stevenson in the latter's two campaigns, said he thinks a con-

Deadline For Cotton Crop Choice Near

By OVID A. MARTIN.
WASHINGTON (AP) — Cotton farmers have just one more day in which to take advantage of a provision of the 1960 cotton control program allowing them to overplant federal allotments 40 per cent.

The closing date for notifying local agricultural adjustment and conservation offices of a desire to choose what is called the Choice B production plan is at the close of business March 16.

Growers electing to overplant by this amount are eligible for price support loans at 60 per cent of the parity price of cotton, or an average of 23.18 cents a pound on the basis of 1/4-inch middling cotton.

Those electing to stick to their allotments will be eligible for support at 75 per cent of parity, or an average of 28.97 cents for the same base grade. This is called Choice A plan.

Through March 4, 29,668 of the 95,376 farms assigned 1960 cotton allotments had elected the Choice B plan. They increased their allotments from 1,402,448 to 1,963,415 acres, an increase of 560,967 acres. This brought the total allotment for the crop to 16,870,967 acres as of that date.

Under a similar choice program last year, 68,539 farms elected the Choice B plan to increase their allotments from 2,558,827 to 3,582,356 acres.

Officials expect the final slump to show a larger allotment for the Choice B plan this year than last.

This dual plan is designed to give farmers who wish it a chance to increase their production if they are willing to accept a lower price. The Choice B support price forms the basis for domestic and export market prices. Officials say the plan has contributed heavily to exports of cotton from the 1959 crop.

Army Takes Over Police In Argentina

BUENOS AIRES (AP) — The Argentine armed forces today took control of the police in Argentina's 22 provinces as part of the government's campaign against terrorist followers of ex-dictator Juan D. Peron.

Interior Minister Alfredo Vitolo issued the decree extending military control Monday night after a conference with President Arturo Frondizi.

Frondizi put into effect a "Plan Conintes" — increasing military control almost to the point of martial law — after a series of explosions blamed on followers of Peron. The Frondizi government has been operating under a state of siege, or modified martial law, for about 18 months.

The word "conintes" is derived from the Spanish "conocion interna," or domestic commotion. One of the chief provisions of the plan is the death penalty for anyone found disrupting peace by sabotage or bombing. Persons accused of this will be tried by military courts.

Marriage Results In Theft Charge

REDWOOD CITY, Calif. (AP) — Kenneth Beaver faces petty theft charges because he got married. Beaver, a 35-year-old painter, married his housekeeper, Nancy Ribholz, whom he had hired to look after a teen-age daughter by his divorced wife.

As long as he was not married he could draw funds for a housekeeper from the San Mateo County Welfare Department. But he failed to notify the department of his marriage and it now charges his collection of \$557 since then constitutes petty theft.

RONNIE WYLIE NORM GLADSON
Ever Ready Battery

Gladson In Starting Role Against Tom S.

Norm Gladson, the cool, calm, collected senior right-hander of the Snyder Tigers, will be on the hill here today to test the likes of Tom S. Lobbeck's Westerners. The game is slated to begin at 4:15 this afternoon at the Towle Park Field.

Gladson has received credit for both of Snyder's victories to date, as he stifled Abilene's bats in downing them 3-2 on four hits, then followed up by coming on in relief against Big Spring here to come out on top by 4-1. He also came off the bench to spell starter Ronnie Jones in Saturday's second game of a doubleheader against Lubbock Monterey, giving up only a single hit while facing 14 batters. Jones was charged with the loss in that contest.

The Tigers now stand 2-2 for the young season, sporting wins over Abilene and Big Spring while losing a pair to Monterey, 2-0 and 6-2. Tom S. is 2-1 to date, having downed Big Spring 6-0 while splitting a twin bill against Midland in

dropping the first 16-0 and coming back to win the second by 3-4. Tiger coach Speedy Moffett expects to start the following lineup for today's non-district clash: Spencer Dyer, 2b (.091); Steve Free, 2b (.250); Mike Moffett, cf (.181); Franklin Moore, rf (.200); Bennie Greenfield, 1b (.333); Bubba Fleming, 3b (.167); Jerry Guthrie, lf (.166); Ronnie Wylie, c (.000); and Gladson, p (.166).

The Tom S. lineup will have Mike Pinkston catching, Larry Mit-

chell at first, Buzzy Henderson, second base, Gary Dement, shortstop, Dennis Hoy, third, Mike Webb, Gary Knowles and Jerry Balch, outfielders, and Mike Farley, pitcher.

Today's game will mark the first of four Tiger tilts for the week. Odessa High comes here Friday afternoon for a single game, and the Bengals will hit the road Saturday for Big Spring, where they will test that team for the second time this year in a double bill.

You Scratch My Back...

KC Camp Haven For Ex-Yankees

By MIKE RATHER

Associated Press Sports Writer

The shuttle system operating between Kansas City and New York — for use by baseball players only — may have dropped off five front-liners who'll be in the Athletics' starting lineup when Bob Elliott makes his managerial debut in the majors.

The A's, berated by many for their numerous transactions with New York, could open the 1960 campaign with Bob Cerv, Hank Bauer and Norm Siebern in the outfield, Jerry Lumpe at shortstop and Marv Throneberry at first base.

Elliott also has two starting pitchers—Johnny Kucks and Don Larsen—either of whom might wind up with the opening day mound assignment.

Kucks was the pitching star and Lumpe and Siebern the batting heroes Monday as the A's defeated the Milwaukee Braves, 7-5, in an exhibition game.

Kucks pitched three scoreless in-

Volleyball Girls Test Big Spring

The Snyder Tigrette volleyball girls travel to Big Spring today, where they will engage that team in a non-district game this evening.

The Tigrettes, who stand 1-1 in district warfare at present, will be at home this Thursday for another tilt at Sweetwater, before whom they fell this past week by 22-15.

Prior to tonight's varsity encounter, a pair of games matching the "B" and Freshman girls will be reeled off, with the Freshman game slated to begin at 6 o'clock and the remaining ones to follow on completion of each.

Sievers' Elbow Okay

ORLANDO, Fla. (AP)—The left elbow of Washington Senators slugger Roy Sievers was x-rayed Monday and no fracture was found. Sievers was hit by a fast ball of Detroit Tiger pitcher Phil Regan Sunday.

SPORTS

6 The Snyder (Texas) Daily News, Tues., March 15, 1960

Between You And Me

By Jerry Jackson

Rough and tough and hard to take was the type of defeat administered to the Tigers here in Saturday's Canyon Reef Relays, as they were undercut by the thinnest possible margin.

Nothing can be taken away from winning Midland, however, as they broke for the wire in championship fashion in a doubleheader. With all events completed with the exception of the mile run and mile relay, the Bulldogs were running third, having only 22½ points to their credit as against Snyder's 27 and Big Spring's 26. So their work was cut out for them, in that the

most points which they could garner in the two remaining events, was 15 1/2 for a first place in the relay and 3 for a first in the run, which would give them a 37½ total for the day. Also, should the Tigers have picked up even a fourth place in either it would have given the Stebbles-stompers the outright win, regardless of what Midland could have done.

So the Bulldogs roared to the occasion in sweeping to wins in both, just as the doctor ordered, while the Tigers faltered and failed to place. A spinning, twirling, commendable performance on Midland's part, and a bitter pill for the local cindermen to swallow.

Loss Of Berry Severe Blow

IT COULDN'T BE VERY WELL been a different story had one of the Tiger met tickets — Wayne Berry — not been on the sick list. Berry, who is a steady performer in the hurdles and second only to ace-in-the-hole Stanley Woolver in same, was hospitalized for the greater part of last week and was unable to participate. It is generally conceded that had he been up to snuff physically that he would have had little trouble in placing in one or both of the hurdles events, with the points gained putting the Tigers over the hump.

Of course, Midland's star miler, one Phil Barrett, was also nursing a sprained ankle and couldn't participate, but his absence didn't hurt the Bulldogs to the degree that Berry's did. Snyder, as Midland swept the distance events anyway as brought out above, improving on a first place finish is a pretty big order.

Snyder's showing proved beyond a doubt's shadow that they'll be

hard to handle or even touch in the district race. All five of the 3-A members competed, with the Tigers falling down the aforementioned 37 points, Colorado City grabbing off 6, and Sweetwater, Lake View, and Lamesa failing to scratch. Colorado City's was a one-man show, as versatile jumper Jerry McKay leaped 6'2" in the high jump for first in that event and a resulting 5 points, then followed with a 19' 11" effort in the broad jump for fourth place and the remaining point.

However, McKay's breadth in the broad jump was eclipsed by the Tigers' all-around hands-man, Jimmy Maroney, who placed second with a 20' 11½" jump. Marcus Strickland, the other half of Snyder's 1-2 broad jump punch, crowded McKay with his 19' 11", also.

So prospects couldn't be brighter as far as district warfare is concerned. But enough of the chick-counting prior to hatching, and a quick switch to football.

Myers High On Snyder's Berry

POWELL BERRY, ex-Tiger grinder, is reportedly bringing nothing but smiles to Texas A&M coach Jim Myers following Saturday's inter-county game down in the Kyle Field confines.

Berry, a senior quarterback, put on a talent-laden exhibition in leading the Maroons to a convincing 35-14 win in the

game, as he handled most of the offensive duties from the man-under slit in directing his team to two quick touchdowns and scoring one himself. The Whites were unable to recover from the lightning-quick assault as they failed to get with in shouting distance of the winners through the remainder of the game.

Following the contest, Myers commented that, "I'm rather pleased with the way the game went."

"We never do the same thing twice," Berry's coach Coach Orsborn admitted. The Braves, who lost to St. John's, 75-71, in overtime for last year's title, are noted for using two or three types of

Pony League Status On Block Tonight

The decision as to the future of Snyder's Graduate Pony League will be the main topic of discussion here in the High School Cafeteria tonight, with indications being that it will be replaced by a Teenage League, thus making 17 and 18 year olds eligible for participation.

The planning session will get underway at 7:30, and all interested boys and parents are urged to attend in order to gain a complete picture of the proposed setup.

Under the Pony League system, which has been operating here the past two summers, boys over 16 years of age are precluded from participating in the program. Should the new league be decided upon, the door would be opened to older boys to play, with those who have not reached their 19th birthday by August 1 being eligible.

Still Sets Record As Philly Nips Nats

PHILADELPHIA (AP)—What a difference a year—and a man—has made in the Philadelphia Warriors. They're heading into the National Basketball Ass'n's Eastern Division final playoffs.

The man is Will Chamberlain who set another record Monday night in leading the Warriors to a 122-112, trouncing of the Syracuse Nats in the decisive finale in their three-game preliminary series.

A year ago the Warriors were the Eastern Division doormats and didn't get into the series.

Seventy-one Will the Still hit for 53 points, three more than the old playoff record. It was the ninth record Will set in his one-year NBA career. He had 16 points at the quarter and 10 in the second period when the Warriors wrapped up the game by taking a 14-point lead.

FOR A JOB WELL DONE—Tiger shot-putter Tommy Minton, who placed third in that event in Saturday's Canyon Reef Relays, is shown receiving the medal for his achievement from Judy Cox, who is one of the Relay Queen's attendants. At left is the other attendant, Jane Dugas, while the queen of the meet—Linda Gale Miller—is at center. Minton heaved the shot 49' 11¼" in taking third, with the winning throw of 56' 8¾" being turned in by San Angelo's Kenneth Hensen.

NIT Tourney Now In Quarterfinals

By JACK CLARY

Associated Press Sports Writer

NEW YORK (AP)—Top-seeded Bradley plays tough Dayton and defending champion St. John's takes on even tougher St. Bonaventure tonight in the last quarterfinal competition of the National Invitation Tournament at Madison Square Garden.

Bradley (24-2) is a five-point favorite over the Flyers, who easily handled Temple 72-51 in a first-round game. St. Bonaventure (20-3) is given a one-point nod over the Redmen (17-7) after eliminating Holy Cross 94-81 for its 17th consecutive victory in a first round game.

Dayton's (21-6) chief worry appears to be Bradley's ever-changing offense and defense.

"We never do the same thing twice," Bradley's coach Coach Orsborn admitted. The Braves, who lost to St. John's, 75-71, in overtime for last year's title, are noted for using two or three types of

offense or defense all with variations almost as a matter of course.

Dayton coach Tom Blackburn has high regard for the Braves.

"After all, they've beaten the Big O. (Oscar Robertson and Cincinnati, 61-60). In our section of the country, if you've beaten the Big O, you've got it," said Blackburn, who has led the Flyers into five NIT finals and never emerged a winner.

St. John's coach Joe Lapchick is worried mostly about his fourth-seeded team's lack of activity the past 12 days and still is haunted by the 95-78 lacing by the Bonnies in December's Holiday Festival.

The game shapes up as a battle between St. John's All-America Tony Jackson, and high-scoring Tom Stuk of the Bonnies. Stuk, who was second nationally in scoring with a 22.5 average, combined with brother Sam for 52 points in last Saturday's victory over Holy Cross.

Horvath Grappling With Hull For Lead

MONTREAL (AP)—An apparently rejuvenated Bronco Horvath has taken over the scoring leadership from Bobby Hull by one point, National Hockey League statistics showed today.

Boston's Horvath scored four points in three games last week for a season total of 79, while Hull, of Chicago, picked up only one. Both have three games to play.

Horvath has scored 36 goals and assisted on 41 while Hull has 38 goals and 40 assists.

Statement Made By Rep. Burleson

On Jan. 11, application was formally filed by Congressman Omar Burleson for his name to appear on the ballot for the Democratic Primary Election on May 7.

Mr. Burleson's resolution to the Congress of the United States is of course, based on a record of service. Burleson states, "I make no claim of perfection. Doubtless, mistakes have been made, as is usually the case in all human endeavors, but two guiding principles have been constantly followed: First, to know the views of my constituents and reflect their sentiments to the greatest possible degree in my actions in the Congress. Second, to inform and advise as closely as I can on those issues which affect my constituency and our Nation."

OMAR BURLESON

Burleson was born and raised on a farm between Anson and Stamford in Jones County. He attended rural school, graduated from Anson High School, attended Abilene Christian College, Hardin-Simmons University, and graduated from Cumberland Law School, following which he had postgraduate law at the University of Texas. He married Ruth DeWeese, daughter of Rev. R. D. DeWeese, who pastored Baptist Churches in West and South Texas.

He served as County Attorney and County Judge of the home County of Jones. Later he became a Special Agent for the F.B.I. He served three years in the United States Navy in World War II, mostly in the Pacific Ocean Area. After the war he was elected to the 80th Congress and has been reelected to succeeding Congresses. He is now Chairman of the House Administration Committee in the U. S. House of Representatives.

Burleson points out that many vital issues have had to be faced in the years he has represented the 17th District in the Congress. "Many more loom before us. With constancy, I have striven to face these problems with the courage and good sense required," he says.

As the record will definitely show, on many occasions I have found myself in the minority, but have never failed to exercise the right to vote and to do as I thought best. This has especially been true in connection with the needless spending of Federal money. The record will show that at every single session of the Congress I have voted for the reduction below that recommended by the Executive Department, and far below that actually appropriated by the Congress. This has been the case in all matters except National Defense. In this instance, I have always voted for those things calculated to make and to keep our Nation stronger than any other in the world.

"At all times I have tried to represent the very best interest of every segment of the economy

in our 17th Congressional District. Many times we do not accomplish all we think should be accomplished, but I believe those who have followed themselves with my record will know that I have done the best possible under all the circumstances which must be met.

"In domestic matters, the record shows the threat of centralized power in Washington has increased. To this I am opposed, as my actions prove. Big government and high taxes are the result of many activities of the Federal Government which should be reserved to the States. Big government with its far-flung operations has created needless waste and extravagance.

"It has been my purpose to conduct myself at all times in a manner worthy of the trust and confidence which has been placed in me by the people who send me to Congress. To violate that trust in any respect would be unthinkable, and it shall never knowingly be done."

As Chairman of one of the Standing Committees of the House, Burleson will have to be in Washington at intervals during the campaign. He has opened campaign headquarters in his home town in Anson. He retains his permanent Congressional Service Office in Abilene which is open at all times for official business. He has returned to Washington after spending several days in the District, with the expectation of being back in April to further conduct his campaign and see as many people between now and the Primary Election on the first Saturday in May.

"In the meantime," he says, "I invite your investigation into my past performances, and if you believe I have been faithful to duty and worthy of your continued support, your active participation in my campaign will be greatly appreciated."

Graham To Preach 4 Times In Israel

JERUSALEM (AP) — Billy Graham will preach four times in Israel this weekend, but residents of the Jewish nation's biggest city may have to go next door to hear him.

Graham, now visiting neighboring Jordan and the holy places

there, is scheduled to preach at a church in Haifa Saturday night, at an open air meeting in Nazareth Sunday morning, at the YMCA in the Israeli sector of Jerusalem Sunday night and on Monday at St. Peter's church in Jaffa.

Jaffa is the partly Arab, partly Jewish twin city of Tel Aviv, Israel's largest city and chief port. A spokesman for the Christian Church Council in Israel, which is organizing Graham's meetings, said originally the U.S. evangelist was to have spoken in Tel Aviv, in the 3,000-seat Frederik R. Mann Auditorium or in the auditorium of the Zionist Organization of America.

Managers of the two halls, the spokesman said, first consented to make them available, then withdrew their offers. No reasons were given.

An Israeli government official said the possibility of the Mann Auditorium — the city's cultural center — or some such hall in Tel Aviv being made available to Graham is still under consideration.

He said Graham's appearance involved Jewish religious feelings. "There is of course no objection to Graham preaching in churches," the official said.

Despite a 4:30 a.m. departure from Cairo Graham put in a full day Monday visiting holy places on the Jordan side of the border dividing the Holy Land. He knelt briefly at the silver star marking the spot in Bethlehem where legend says Christ was born, visited Gethsemane and drove to the tombs of the family of Abraham at Hebron.

Mother Of Quints Weds

CUERNAVACA, Mexico (AP) — A woman who gave birth to quintuplets a week ago married their father Monday in a hospital where the four surviving infants lay in incubators.

Paula Guerrero Muniz, 43, and Gilberto Diaz, 28, plan a religious ceremony later.

Mrs. Diaz gave birth to two boys and three girls last Tuesday. One boy died shortly after birth. The couple have two other children.

Diaz, an unemployed farmhand, said he and Paula had not married for 10 years, because of money troubles and objections from her family. Now that he has been promised a steady job, Mrs. Diaz' parents are reconciled to the union and authorities plan to build a home for the family.

Doctors said the babies are doing well but will probably remain in the hospital for five months.

Ghana, the new republic on the Gold Coast of Africa, is about twice the size of Mississippi. Its population is estimated at five million.

Behavior Of Finch Jury Under Probe

By DIAL TORGERSOON
LOS ANGELES (AP) — The Finch case jury room may have been as full of sound and fury as the courtroom, according to reports reaching Dist. Atty. William B. McKesson.

McKesson, prompted by tales told by two jurors, wants to find out just what happened behind the locked door as the jury argued itself into a bitter deadlock.

His office Monday launched an investigation of reports of near-violent feuding and intimidation during the panel's eight days of fruitless deliberations.

McKesson said he was specifically interested in the report that one male juror threatened to throw a woman juror out of a second-story window.

Regardless of what the probe reveals, one thing is certain: It won't affect the outcome of Finch-Tregoff trial No. 1.

The state is now pressing for an immediate second trial for Dr. R. Bernard Finch and his mistress, Carole Tregoff, who are accused of slaying Finch's wife last July 18. A new date will be set Thursday.

McKesson said he will fight any moves to free the defendants on bail pending the second trial, which he said he would ask to be conducted just like the first — except for different prosecutors.

He said Clifford Craft was stepping aside because of his health and that Fred N. Whithell wouldn't be able to handle the case again because of a crowded calendar at his regular assignment in a suburban court.

McKesson said his investigators have been ordered to check two women jurors' reports that a male juror sent them notes proposing after-hours trysts in their hotel rooms. The jury was locked up for 22 days in a downtown hotel.

"If this is true," said McKesson, "we want to learn what the balliffs were doing during this time."

Warrants Are Issued Here

The Scurry County Commissioners' Court Monday issued \$83,000 of warrants authorized in 1958 for the purchase of right-of-way along the proposed route of US Highway 84 in Scurry County. However, warrants amounting to \$30,000 had matured unpaid and were repurchased at face value from the First Southwest Company of Abilene.

The order issuing the warrants was presented to the court by Dale Green, representing Charles Smith, the county's fiscal agent.

Other business in the late morning involved authorizing Park Superintendent Russell Jones to hire R. W. Fulcher of Slaton to manage the swimming pool at Towle Park at a salary of \$400 per month.

Draws Jail Term

Antonio Valdez of Post was sentenced to 30 days jail in county court Monday morning for illegal transportation of intoxicating beverages in a dry area. He was apprehended in Fluvanna by the sheriff's department. Found in his car were 120 quarts of beer, 24 half-pints of whiskey and 8 half-pints of vodka.

SMOKED OUT!

Former Richest Man Has Plan To Make Wealth Worth More

By INEZ ROBB

Reading is my vice, and for my sins I have just completed a wistful little paper-back that I confidently predict will be the unrivaled hit of the publishing world in 1960. And I make this prediction with full knowledge that the year is but at the morn and has nine and one-half months to go.

The book on which I place my money is another entry for the library's Utopia shelf, a shelf that began with Plato's "Republic" and embraces Huxley's "Brave New World." Ever since Plato, men have put their dreams of a new, or better, or different world on paper.

And there is no reason that H.L. Hunt, oil man of Dallas, Texas, formerly "the richest man in the world" until J. Paul Getty, another oil man, won the title going away, shouldn't make his pitch among the first 10 percent of the nation's taxpayers. There are other ways, all involving money, in which to pile up even more "bonus" votes.

For the first half of the book, I felt there might eventually be provision for extra votes for outstanding scientists, artists, intellectuals, educators, and dedicated professional men who seldom get in the upper-income bracket. But there is no such nonsense in "Alpaca," where intellectuals are equated with treason and the book-educated with political unreliability.

It was "early agreed," writes Mr. Hunt, "that nowhere else can such abysmal ignorance be found as is displayed among the most highly educated," and in a stern indictment of emigrants, he also polishes off intellectuals, by writing that the two consort "to build and join subtle organizations intended to pave the way for the overthrow of government," and of course, there is no nonsense about labor unions, either. They

Let's look at the voting process in the later Utopia, and I quote from "Alpaca":

"If a citizen is a taxpayer among the first 10 percent of the nation's taxpayers, he earns a quota of seven additional votes, or if of the first 20 percent, six extra votes; or if of the first 30 percent, five votes; or if of the first 40 percent, four votes; or of the first 50 percent, three extra votes, or if of the first 60 percent, two extra votes; or if of the first 70 percent, one extra vote."

And so I give you "Alpaca," the perfected society, a la Texas where money is king and Mr. Hunt, the great and good friend of the late Senator Joseph McCarthy, is its prophet. Take it away!

Copyright, 1960, by United Feature Syndicate, Inc.

just ain't.

Rights Bill Faces More Arguments

By JAMES MARLOW

Associated Press News Analyst WASHINGTON (AP) — The civil rights fight in Congress goes on and on. Sometimes it seems as confused as ever. If there is to be a quick and quiet end to it, the House apparently will have to provide it.

For a month, through Southern filibuster and miscellaneous debate, the Senate talked on civil rights like a man addressing himself in the mirror. He wasn't changing his mind but at least he had a respectful audience.

Then over the weekend Sen. Everett Dirksen of Illinois, the Republican leader, said he thought the Senate might just wait till the House passed a civil rights bill, and then approve that. A couple of weeks ago, when others had a similar idea, Dirksen had advocated going ahead with the Senate's own bill.

The House, which started last week on its own civil rights bill, has worked much faster. Unlike the Senate, where debate is unlimited, the House agreed to cut speckmaking short. It expects to

Buttering The Boss Is A Fine Art

By HAL BOYLE

NEW YORK (AP) — Boss buttering is a fine art in America. But it is amazing how few people are really expert at it.

"I don't want to be surrounded by yes men," a boss may say. "I need someone around here who can tell me when I am wrong."

But the boss really means it. His wife will tell him when he is wrong. So will the chairman of the board.

What he really needs is someone who will build up his confidence by making him feel right—whether what he has done is right or wrong.

This takes a skilled "yes man," and it is surprising how few there are around.

If you're going to butter the boss at all, butter him all over. Being a really successful yes man is no job for a shirker. It's hard work. The pay is good, but the hours are long.

Here are a dozen tested remarks found in the vocabulary of almost every successful yes man:

1. "Golf was made for you, J.B. If it weren't for that pebble in front of your tee, you'd have had a hole in one for sure."
2. "You're absolutely right, J.B. You had to take the hit in your teeth on that one."
3. "I'm not trying to flatter you, chief, but I'll bet there aren't five men in U.S. industry who could have come up with a solution like that."
4. "So what if we did drop half a million, J.B.? Even Babe Ruth never knocked them all over the fence."
5. "No, J.B., it's just your imagination. I can't see it's getting any thinner on top."
6. "Some days, J.B., it just doesn't pay to be nice to people. You gave him a \$2.50 raise. What did he expect—the U.S. mint?"
7. "That last memo of yours on how the office is wasting too many paper clips was a model of executive tact, chief. It needed to be said, and no one else could have said it as well."

LOVE FIREPLACE SAVES FAMILY FROM FREEZING—Five children of Miles Taylor hover around the lone fireplace that saved the family from freezing to death in their bleak, drafty mountain cabin at Hiwassee, Ga., during a recent siege of snow, sleet and cold weather. A National Guard rescue truck inched its way through axel-deep snow and reached the cabin with food. Taylor and the older children chopped wood in a nearby forest to keep the fires going. Names of the children were not available. (AP Wirephoto)

Boat Numbering Law Is Outlined

WASHINGTON, D. C. — Effective April 1, 1969 boats of more than 10 horsepower operated on the navigable waters of the United States must be numbered under the Federal Boating Act of 1958, the Coast Guard announced today. Vessels documented by the Bureau of Customs are exempt from this Act.

On that date the Coast Guard will start receiving applications for numbers in those states which have not yet adopted their own numbering systems. These states are: ALASKA, CONNECTICUT, GEORGIA, HAWAII, IDAHO, IOWA, MAINE, MASSACHUSETTS, NEVADA, NEW HAMPSHIRE, NEW JERSEY, PENNSYLVANIA, TENNESSEE, WYOMING, WASHINGTON and the DISTRICT OF COLUMBIA.

Applicants for Federal Certificate of Number may obtain application forms at local Post Offices. The completed application form and a \$3 fee must be filed with the Post Office. At that time a blue \$3.00 Federal Boating Stamp will be affixed to the application and a temporary certificate will be returned to the applicant. This certificate will serve as proof of compliance with the law until such time as the application has been processed by the Coast Guard.

The permanent Certificate of Number will be an embossed plastic card similar to a gasoline credit card. The certificate will show the Coast Guard number to be affixed to each side of the bow of the boat by the owner and must be on board whenever the vessel is in use. A number awarded by the Coast Guard will be valid from the date of issuance and for 3 years from the date of the owner's birthday next occurring after the certificate is issued. Documentary proof of title and ownership is not required by the Coast Guard with application for number. Application blanks may also be obtained from any Coast Guard Marine Inspection Office, but the fees must be paid at the Post Office.

Even though boats have been previously numbered by the Coast Guard prior to March 31, application MUST be made for a new number on April 1 under the Federal Boating Act; however, the previous number and certificate may be retained for temporary identification until the new number is issued. Boat owners may continue to operate their craft legally if they have applied for re-numbering, paid the required fee and retained proof of payment.

For further background information as of March 10 the U. S. Coast Guard has approved the numbering systems adopted in 26 states. These states are: ALABAMA, ARIZONA, CALIFORNIA, CONNECTICUT, DELAWARE, FLORIDA, ILLINOIS, INDIANA, IOWA, KANSAS, KENTUCKY, LOUISIANA, MAINE, MASSACHUSETTS, MICHIGAN, MINNESOTA, MISSISSIPPI, MISSOURI, MONTANA, NEBRASKA, NEVADA, NEW HAMPSHIRE, NEW JERSEY, NEW YORK, NORTH CAROLINA, NORTH DAKOTA, OHIO, OKLAHOMA, PENNSYLVANIA, RHODE ISLAND, SOUTH CAROLINA, SOUTH DAKOTA, TENNESSEE, TEXAS, UTAH, VERMONT, VIRGINIA, WASHINGTON, WEST VIRGINIA, WISCONSIN, WYOMING and the DISTRICT OF COLUMBIA.

The following states have already enacted numbering laws and Coast Guard approval of their numbering systems is expected soon: NEW JERSEY, NEW YORK, PENNSYLVANIA, TEXAS, VIRGINIA, WISCONSIN, WYOMING, and the DISTRICT OF COLUMBIA.

Daily Crude Flow Down

TULSA (AP)—Texas and Oklahoma had the biggest cuts contributing to a 177,000-barrel decline in the daily average domestic oil production to 7,076,980 barrels during the week ended March 12, the Oil and Gas Journal said today.

Texas was down 52,725 barrels to 2,674,625 and Oklahoma fell 43,200 to 468,700.

The Journal estimated 1969 production at 519,907,000 barrels compared to 511,593,900 a year ago.

Other decreases were in Colorado, off 1,700 to 129,000; and Arkansas off 1,375 to 83,100. Increases were reported also for New Mexico, up 3,725 barrels to 319,700; and Louisiana, up 3,000 to 1,097,900.

STILL UNCHALLENGED! The Only Compact Luxury Car

AMBASSADOR V-8

by RAMBLER

If you are one of the millions of medium-priced car owners who want high performance with the extra luxury of compactness, there is only one car for you: Ambassador V-8 by Rambler. Just 9 inches longer than the Rambler 6—up to 2 feet shorter than the medium-priced cars—with luxury car performance: 250 HP engine, regular gas. Luxury car comfort for 6 broad-shouldered adults. Luxury car quality: workmanship characteristic of the world's finest cars. See and drive the Ambassador soon.

Stars Make Most Of Break During Strike

By JAMES BACON
AP Movie-TV Writer

HOLLYWOOD (AP)—How do movie stars on strike spend their extra leisure time?

A spot survey shows some following typically glamorous pursuits—others, the sudden break in film work has made possible long-awaited family reunions.

The idle performers for the most part are active—even if it is only the business of relaxation. Rock Hudson is off to a cruise at the helm of his yacht.

"You can reach me by radio when the strike is over," he told his agents.

Shirley Maclaine flew to Japan to visit her husband, Steve Parker, who spends most of his time there producing movies.

Simone Signoret, the French actress up for an Academy Award in "Room at the Top," holds court every lunch hour in the polo lounge of the Beverly Hills Hotel.

meeting Academy voters.

Elizabeth Taylor, another Oscar favorite, took off for a holiday in Jamaica with her husband, Eddie Fisher. Both were appearing in "Butterfield 8" when the strike suspended production.

Peter Lawford is studying for his final citizenship test. He wants to vote next November, he hopes, for his brother-in-law—Sen. John F. Kennedy (D-Mass.).

Of the "Let's Make Love" cast, Marilyn Monroe flew to New York; Yves Montand is helping his wife, Miss Signoret, in her Oscar campaign, while England's Frankie Vaughan is cutting records.

Shelley Winters, another Oscar nominee, took her husband back to New York with her. Anthony Franciosa was appearing in "Go Naked for the World" when the strike stopped that movie.

Alan Ladd's picture, "One Foot in Hell," got halted. The next day Alan broke his hand and is sidelined for several weeks anyhow.

One producer and striking SAG member made his own pact. Ray Kluge of MGM and actress Hilary Swank went up to San Francisco and got married.

How Kismet—on repeat.

Perry Como TV show.

Gina Lollobrigida journeyed to Toronto to take a look at her new Canadian home.

Charlton Heston is using the time to play openings of "Ben-Hur" in Washington and Tokyo.

Laurence Harvey, an Academy Award nominee who has already won the British equivalent of an Oscar for his performance in "Room at the Top," says: "My wife, Maggie Leighton, was going to accept it for me, but when my picture folded, I decided to fly to London and accept it myself."

Jerry Lewis is doing his night club act at the Sands Hotel in Las Vegas. Frank Sinatra is doing the same in Miami Beach.

Can Changes TV Channels

BAY SHORE, N. Y. (AP)—When hospital patient Edward McBride wants to switch television programs, he can press his remote control gadget—or squeeze a can of air deodorant. Either one does the job.

McBride was perfectly happy with the show on his remote control TV set Monday. He just wanted to freshen up his hospital room a bit. So he squeezed the air deodorant can. Presto, a few TV channels flicked on.

With each squirt, he found, a new channel popped up. The can worked on ten other TV sets in the hospital and failed on five. Other push-button cans did nothing except what they were supposed to do.

A TV specialist explained that through some fluke the deodorant can had created an ultra-high frequency sound wave that triggered the channel-changing mechanism in the sets.

Survivor Of Crash Seen

ELY, Nev. (AP)—A light airplane smashed into the side of a snow-capped mountain at 11,000 feet elevation in northeastern Nevada. One survivor—a woman—was spotted from the air.

Could there be more?

A ground party found its way through deep snow toward the crash site today.

Jack Going Back On Job

NEW YORK (AP)—Manhattan Borough President Hulan E. Jack, free of an indictment charging him with violation of the city charter, resumes his \$25,000-a-year job today.

The nation's highest Negro city official announced his return shortly after the two-month-old indictment was thrown out on a technicality Monday.

Charges of conspiracy and violation of the city charter grew out of Jack's acceptance of a \$4,000 remodeling job on his Harlem apartment from real estate operator Sidney Ungar. Ungar, Jack's one-time campaign manager, was seeking city approval at the time for a multimillion-dollar slum clearance project.

When he was indicted Jan. 12 Jack voluntarily gave up his job and salary pending a legal decision.

General Sessions Judge Gerald P. Cuklin ruled that the indictment was not properly drawn. But he said the district attorney could start a new grand jury inquiry into the 52-year-old Jack's conduct.

Dist. Atty. Frank S. Hogan promptly announced that he would drop the indictment, but would first appeal Cuklin's decision to the appellate division of the State Supreme Court.

Crash Kills Bus Driver

KANSAS CITY, Mo. (AP)—A Continental Trailways bus and an empty auto transport truck collided on a snow-covered bridge near here Monday night, killing the bus driver.

The truck driver and the four passengers aboard the bus en route to Dallas, Tex., were injured. Only Oscar Mack of Chicago, a bus passenger, was hurt badly enough to be hospitalized.

Police said the bus burst into flames. Driver O. H. Hinman, Kansas City, Kan., was pinned beneath the burning wreckage.

The accident occurred on U.S. Highway 60 in suburban Johnson County, Kan.
