

THE JUNCTION EAGLE

Volume 45

Junction, Kimble County, Texas, Thursday, September 20, 1928

Number 23

BERT FLEMING POST AMERICAN LEGION MEETS

On Monday night of this week, the largest number of members gathered at a well-attended meeting in the Court House in Junction that has been assembled for many years.

The occasion was primarily for the purpose of working out plans for attending the National Convention to be held in San Antonio October 6 to 12.

The meeting was presided over by Post Commander Buck and Adjutant Lowgren. The building plan was brought before the body in view of another proposition that had been presented and it was decided to give the entire energies of the membership to the completion of an American Legion home for Junction and Kimble County.

It was believed to divide our attention at the present time with any other undertaking would in all probability affect an early completion of our building plans and it was for that reason that the above action was taken.

A committee was appointed to endeavor to obtain a headquarters for our boys during the convention and they will be ready with their report for the regular meeting in October. Indications now are that more than fifty ex-service men will attend the convention from this county.

After the meeting the boys adjourned in a body to the City Cafe, where several old army songs were sung, just as a reminder of the old days, and a sumptuous banquet of fried chicken and the trimmings was thoroughly enjoyed by the assemblage. The boys were in high spirits and are looking forward to meeting their old buddies in San Antonio with pleasant anticipations.

JUNCTION FOOTBALL

Coach Earl Bowers reports that Schreiner High School has some very good football material among its students this year.

The entire student body is interested and is trying to make this the best of football seasons that Junction has ever had.

The first game of the season will be with Sonora on September 29, and will be played here. This game will be of double importance because Sonora belongs in this district and is one of our opponents for the district championship.

The boys have been practicing faithfully for five weeks and the line-up and the season's schedule was given to the Eagle for publication Tuesday.

The line-up from which the first team will be chosen is as follows:

King—Captain and quarterback
Johnson—halfback
Lavelle—halfback
Richardson—fullback

Newman—halfback
Blackburn—halfback
Ramsey—halfback
Jones—end

L. Ragland—center
Hubbell—left end
Dunderstadt—right end
Beasley—left tackle
J. Ragland—end

Alsup—right guard
Taylor—left guard
Gray—left guard
Dunbar—end

The season's schedule which has only one open date is as follows:

September 29—Sonora at Junction.
October 6—Del Rio at Del Rio.
October 12—open
October 19—Fredericksburg at Junction.
October 27—Rocksprings at Junction.
November 2—Menard at Junction.
November 9—Ozona at Ozona.
November 17—Mason at Junction.
November 29—Kerrville at Kerrville.

Louis and Reuben Loeffler of Alpine arrived Saturday for a visit with their father, E. A. Loeffler.

TWO JUNCTION BOYS FROM HOWARD PAYNE

Bill Wright, of this city who is attending Howard Payne College and is captain of the football team there this year, was elected last week as student body president at Howard Payne. This office is the highest given any student and is considered one of the greatest honors that can be bestowed on anyone. The president is elected by popular vote of the entire student body. Bill received an overwhelming majority over two other candidates.

This is Bill's fourth year at Howard Payne. Since his entrance he has been one of the most popular students and one of the best liked on the campus. He was elected this year as captain of the football team as a climax to his brilliant career as a player. He has taken a prominent part in all athletics, being all conference center in football for two years, a two-letter man in basketball, and last spring he won the Texas Conference championship in the shot put, tossing the 16-pound shot 39 feet.

Shelby Jones of this city who finished his college career last spring at Howard Payne where he was considered one of the best athletes that the school has ever turned out, has accepted a position at Rotan, Texas, as a member of the High School faculty there.

Jones was prominent in both football and baseball, being captain of the baseball team last spring, and conference tackle for two years in football.

P. T. A. PROGRAM

September 24, 1928, 4 p. m., school auditorium.

General subject, Safety.
Devotional service, Bro. G. W. Crabb.

Safety Do's—Christine Schraub.
Vocal solo—Mrs. M. F. Hill.
Safety Don'ts—Katherine Hodges.

Roll Call—Members answer: What do you want the P. T. A. to accomplish this year?

It is hoped that every mother and father in Junction will throw every effort into what the program for the year shall be, and do everything possible to advance the program.

Jot the date down—fourth Monday in each month—and be present at each meeting. Mrs. W. P. Riley is the president and it is hoped that each parent in Junction will sustain her and her executive board in all that the program holds.

BITTEN BY RATTLER

Jack Richardson was bitten by a rattlesnake while he was driving a bunch of goats across a cane patch. He finished driving the goats into a trap, got in his car and drove to Dr. Luehrs' office where he was given the anti-crotalus serum, just forty minutes after the accident. He was confined to his bed for several days but will soon be up and about as usual.

SHOWER

Thursday afternoon the ladies of the Missionary Society of the Methodist Church and a number of friends surprised Mrs. Georgia Furr, recently bride, with a shower at the home of the bride's sister, Mrs. Clarence McDonald.

The ladies were busily engaged in making a quilt. Miss Sutton, in the role of a saleswoman, appeared at the door and insisted on displaying her line of ladies ready-to-wear, but when her suit case was opened it was found to contain an assortment of packages for Mrs. Furr.

After the gifts were opened an original contest by Mrs. Walter Tinsley was enjoyed.

Iced fruit punch was served throughout the afternoon and at the close of the party sandwiches, cake and punch were served.

Kimble Polo Players Win

The Copperas Polo Team was well in the lead at the elimination series being played in San Angelo late Wednesday afternoon, having played nine chukkers out of a total of twelve to be played. The total score stood, Copperas 11, San Angelo 7, and Crooked Hollow 6. One more day will complete the series with Crooked Hollow due

to defeat the Angelo squad and the Copperas team with big chances as a Cup winner.

The boys are reporting a good time and state the Angelo teams are a bunch of good sports on the field.

We knew they would win. The only question now is, by how many goals.

JUBILEE PROGRAM

The following program will be presented at the Methodist Church Sunday evening at 8 o'clock by the members of the Woman's Missionary Society.

The Missionary Society was organized fifty years ago and this year has been acclaimed the golden year of jubilee.

Prelude.
Hymn—"All Hail the Power of Jesus' Name"—congregation.

Scripture lesson—Lev. 25: 8, 9.

10—Rev. M. F. Hill.

Prayer—Rev. M. F. Hill.

Song—"Forward Through the Ages."

Jubilee Posters—Mrs. Clarence McDonald and Mrs. Georgia Furr.

Jubilee Litany—Mrs. Joe Bissett and Missionary Society.

Our Jubilee Goals—Mrs. Roy Blackburn.

Reading—"Gather Us In"—Mrs. S. A. McDonald.

"Hark the Song of Jubilee"—Missionary Society.

Spiritual Cultivation of the Jubilee—Mrs. M. F. Hill.

Outstanding Achievements of the Auxiliary During its History—Mrs. Walter Tinsley.

The Story of the Early Struggle When Auxiliaries Were First Organized—Mrs. S. P. Bennett.

Song—"Our Youth to Thee We Bring"—Mrs. A. W. Loeffler.

Achievements of the Last Fifty Years—Mrs. Homer Livingston.

Song—"The Year of Jubilee is Come."

Advance in Membership.

Tithing song.

Jubilee Thank Offering.

Benediction—Rev. M. F. Hill.

THE VALUE OF HIGHWAYS

"Rome was only as great as her highways, a keen minded historian has pointed out. He was right," says the Grand Forks, North Dakota, Herald.

"As the roads spread the power and prestige of the nation spread. The Alps were sealed, the territory now occupied by the French republic was covered with a network of hard surfaced highways, and all roads led to Rome."

"The old roads of Caesar's day were built as military roads, of course, but they were used for purposes of the hour and served their end."

"In the United States hard surfaced roads are not needed primarily as military roads, but we are living in the age of the automobile and nobody is going back to the horse and buggy."

We travel by motor and move our supplies to a considerable extent by motor. The state with poor roads is behind the times and not abreast with the needs of the age. Progress depends to a considerable extent upon roads and so long as we burn gasoline and travel on rubber this will continue to hold true.

"Is the United States, or any state within the United States, only as great as its highways? An affirmative answer may be a trifle harsh and a bit overdrawn, but at that it would not miss the mark a great deal."

Gully Cowsett last week closed a deal whereby he delivers to the Texas Pipe Line Co. 20 acres of land lying just west of his filling station 15 miles out on the North Llano road. The Pipe Line Company will erect a pumping plant thereon, work to begin within a few days.

Mrs. J. Hayden Young and children have returned home to Houston after spending five weeks with Mrs. Young's parents, Mr. and Mrs. N. H. Skaggs.

KIMBLE RANCHMEN AND FARMERS WANT 1929 FAIR

Quite a number of our livestock men and farmers came to Junction Saturday in the interest of a 1929 fair, and interviewed the officials of the Kimble County Chamber of Commerce relative to plans for action.

It seemed to be the consensus of opinion that Kimble County could no longer afford to be without a fair with the increased interest in livestock production and intensified farming. The small farmer and grower of fine, high grade livestock is making more money than he did a few years ago with three times the farming space and grazing lands.

In the course of the day, representatives from every section of the county came into the city for discussion of this project and without exception, they seemed to be of the opinion that the project should be supported by a fair tax and that some immediate action should be taken for the 1929 fair.

A committee has been appointed to work out a plan of action and just as soon as their report is complete, more details will be given.

DEVELOPING THE NATIVE PECAN GROVE

A farmer with a native pecan grove has a gold mine which he can make yield forth real dollars if he will only take the trouble to convert it into trees bearing paper-shell varieties.

Probably no one in Southwest Texas will ever become vastly wealthy from producing pecans, but the native pecan grove can be made to yield a more or less steady income that will give lots of farm relief.

Thinning, top-working and budding are the three great means of converting native groves into paying propositions. By simply removing underbrush and cutting out the poorer trees to give the balance a chance to increase the yield of native pecans, and it will also pave the way for budding work.

Enough small saplings can be left to make the grove utilize all the pecan timber ground, leaving trees 80 feet apart for best results. These small trees can be budded in the spring of the year to good varieties, and within a few years will bear increasingly large crops.

The large trees can well be topped back to stubs in the winter and in the following summer the resulting sprouts budded to improved varieties. This process is more laborious, but the results are sure and quick. Many farmers throughout the country have done this with great success.

By thus improving native groves higher-priced nuts are gathered, bigger crops are produced, and crops are borne with regularity, provided a good selection of varieties is made. Texas has more pecan trees than any other State, but the process of making them very profitable has only well begun.

I believe that the pecan revenue will be a big one in the future agriculture of Texas, and that Texas will be famous for its pecans throughout the Nation.—J. F. Rosborough, Horticulturist, Texas A. & M. Extension Service.

WEIGHTS OF ANGORA BUCK FLEECES

Mr. Jack Hubbell has had the Angora bucks shorn and has reported to the Vocational Agriculture teacher the following weights of fleeces: Buck No. 3, 13½ pounds; No. 4, 11 pounds; No. 1, 10 pounds, and No. 2, 9 pounds. This is very close to the weights estimated by the boys who made the best grades on the class.

Two of these bucks were coming 3 years old and two were coming 2 years old. They were raised by Mann Wolf, and, as you can see from the above weights, are very heavy shearing goats.

We hope to get some classes to judge from Mr. Wolf's flock later.

Miss Alexa Browning spent last week-end in San Antonio.

SCHOOL NOTES

The enrollment of the Junction Public School has reached the number of 347. Of this number 103 are high school students. The fifth, sixth and eighth grades have forty-two pupils each. No room in high school had a seating capacity that would accommodate the eighth grade until special arrangements had been made. Now all their classes are recited in one room. Miss Blackburn says she has seats for all of her fifth-grade pupils but no room for the seats.

The majority of the students seem interested and ready for a year of hard work.

When the senior class organized September 12, they found they had twenty members, nine boys and eleven girls. This class is larger than any other that has graduated from Schreiner High in several years. The officers elected were:

Nevada Blackburn, president.
Fairlee Linn, vice president.
Frank Hubbell, secretary-treasurer.

Mrs. Earl Bowers, sponsor. Each week two members of the senior class are assigned to be responsible for the writing of the school notes.

A number of English classics have been received for those classes in English that are to study literature the first semester.

The entire school wishes to thank the Junction State Bank for so generously giving us book covers this year. We've had a difficult time getting all of our books covered, but now they are all ready for use.

The primary department has increased so rapidly that it was found necessary to withdraw the children under scholastic age. It is the opinion of the senior class that they will have ample time in school after they reach the scholastic age.

Mrs. Kendrick started early this year with the basket ball girls by getting them together and organizing Monday, September 10. There were seventeen girls, full of pep and enthusiasm, out to practice Tuesday morning. The date for the first game has not been set.

Mrs. Earl Bowers met with twenty-five members of the Pep squad September 18 to discuss the program for the year. Ruby Johnson was elected well leader with Mary Hubert as assistant.

A committee, composed of Vivian James, Kaleta Taylor and Elsie Bessant, was appointed for the purpose of investigating the question of uniforms. The girls have been practicing yells and expect to help the boys win their first football game September 29, with Sonora.

The boys have organized a basketball club with Mr. Albert Bierschwaile as their coach. They will all pay dues and as soon as their basketball is in condition practice will start.

The senior class was sorry to lose one of its members last week, when Buzz Motley withdrew from Schreiner High. He plans to attend Woodrow Wilson High School in Dallas.

Cora Kropff withdrew from school Wednesday and is going to Mason to attend school.

WEIGHTS OF ANGORA BUCK FLEECES

Mr. Jack Hubbell has had the Angora bucks shorn and has reported to the Vocational Agriculture teacher the following weights of fleeces: Buck No. 3, 13½ pounds; No. 4, 11 pounds; No. 1, 10 pounds, and No. 2, 9 pounds. This is very close to the weights estimated by the boys who made the best grades on the class.

Two of these bucks were coming 3 years old and two were coming 2 years old. They were raised by Mann Wolf, and, as you can see from the above weights, are very heavy shearing goats.

We hope to get some classes to judge from Mr. Wolf's flock later.

Miss Alexa Browning spent last week-end in San Antonio.

SHEEP BRING FAIR PRICE

The following letter was handed the Eagle some days ago by Mr. Mudge, and, by some means was misplaced for the time being. It was written by Callaway-Hurley Commission Co., of Fort Worth, Texas, and is dated August 29, and is as follows:

Mr. A. L. Mudge, Junction, Texas.
Dear Mr. Mudge:

Enclosed find account sales for the double deck of mutton sold today. They arrived about 7 o'clock this morning in good shape and we succeeded in selling them at 8c straight. They were certainly good and the buyers liked them alright. However, the price they brought was an exceptionally good one but not many fat sheep have been on the yards this week and the buyers were wanting some. Bulk of the good fat clipped wethers are selling around \$7.50. We wired you the sale and sent proceeds to the Junction State Bank for your credit. Have you any more good ones on hand like those shipped? We appreciate your business and will always do our best in your behalf.

Yours truly,
Callaway-Hurley Com. Co.

KIMBLE COUNTY BOYS FURNISH FEATURES FOR SAN ANGELO FAIR

The Copperas and Crooked Hollow Polo teams are upsetting the dope in San Angelo this week by out-playing their opponents. We knew this was going to happen, but the sport writers up there thought Angelo would easily cop the prizes. Our prediction is one of Kimble County's teams will be first and the other second in the series. We have the best horses, the best players and of course we will win.

In addition to polo, the football feature will be staged between the Angelo and Ballinger teams, both under the direction of Kimble County boys: namely, Bill Bissett and Felton Wright. We know one thing is sure, the spectators are going to see some hard riding polo players and hard hitting, fighting football players.

VOCATIONAL AGRICULTURE CLASS NOTES

The vocational agriculture work is coming along nicely, but we regret that three of our number had to drop out on account of not being able to get suitable home projects. We have, however, added James Hodges to our class and hope that he, like the others, will be a loyal worker.

Our school board has consented to buy us some new tools to do our farm shop work with and we hope to take pride in doing good work and in taking good care of our tools.

We judged a class of good Angora bucks at Mr. N. H. Skaggs' place last Friday afternoon. We thank Mr. Skaggs for his kindness. Mrs. Montgomery has kindly consented to furnish us a class of dairy cows to judge Thursday, September 19. This will be the first class of dairy cows that the boys will judge and we hope that they will learn to be expert judges of dairy cattle some time in the future.

Through the courtesy of B-C Music Shoppe the baseball fans of Junction were enabled to get the play-off series between Houston and Wichita Falls, which was broadcast each day. The games were given play by play and came in fine and clear over the Crossley at their Shoppe. They also have the schedule of the campaign speeches, both Republican and Democrat, which are being broadcast this month, beginning last Saturday. You may obtain this schedule by calling at the Shoppe.

Mr. and Mrs. Tommie Cowser and family and Mrs. Felix Watson were Kerrville visitors Friday.

Junction Trade Notes

Cotton Pickers are urgently needed in the farming section around London, said Robert Fritz, who was in Junction Tuesday marketing butter and eggs through Gann Grocery Company. The pay for picking is \$1.25. Fritz has fifteen bales open in the field. London had ginned around 400 bales up to Tuesday, Mr. Fritz said.

H. S. Kinsey of the Llano Valley around Streeter, marketed fine dry-land watermelons in Junction Saturday. The melons weighed up to 50 pounds and were as good as they looked. He is due in Junction Friday this week with another load of melons.

Chas. W. Henderson treated the Junction trade to home-grown corn-on-the-cob Monday.

Arrived Wednesday: Seed wheat, seed oats, alfalfa seed. Gann Grocery Company.

The assignment of new Fords for Junction during the month of September aggregates seven. Two of the seven were received last week and two will be received next week. Deliveries are expected to be more rapid in the future. Only four deliveries were made to Junction during August.

H. P. Rankin, recent purchaser of the Bradshaw ranch on the Junction-Kerrville divide, was attending business in Junction Tuesday, accompanied by Mr. Bradshaw who was looking around for a place to hang his hat. Mr. Rankin is in the market for a few saddle horses, if he hasn't already found them.

Walter Chadwell left Wednesday for Austin to enter State University, where he can keep in closer touch with the football scores. His job with Gann Grocery Company is being filled by John Lewis Barnes. Chas. Barnes, who recently returned to Junction from Beaumont, has employment with Junction State Bank.

Lipton's Coffee is now stocked at Gann Grocery Company, and it is said to be as good as Lipton's Tea.

Mr. and Mrs. E. T. Brown of London were buying and selling in Junction Tuesday. Mrs. Brown's farm-dairy is a favorite product with patrons of Gann Grocery Company.

The few remaining tourists on the Llano report fishing as good since the rains early in the week.

"Bean Hole Beans" is something new and different in the food line; rich and juicy with the flavor of sugar-cured pork, brown sugar and molasses. Two sizes, medium 15c, large 25c. Gann Grocery Company.

Now is tax-paying time in the city of Junction. Unpaid city taxes will carry a penalty after October 1st.

Gann Grocery Company
"Everybody's Store"

NORTH LLANO NEWS

Pete Doran has returned from the Tatum ranch where he has been working for some time.

School opened at Eight-Mile Monday with Miss Sallie Blackburn as teacher.

Arthur Smith returned home Monday from a business trip to Sonora.

Jeff Chapman ginned his first bale of cotton this week. We received a good rain Sunday night and Monday morning, amounting to about one and one-half inches. The ground is thoroughly soaked. It was much needed.

Mr. George Little of Chicago, Illinois, is visiting his parents, Mr. and Mrs. J. W. Little.

Mr. and Mrs. Cal Turner were in Junction Saturday.

Willie Smith spent a day with Mr. and Mrs. J. W. Little last week.

Marshall Alexander was a pleasant caller at the Wade Smith home last Saturday night. It looks very much like more rain. We need it.

FOR SALE or Trade—Improved plains land near Plainview, Texas. 5-21tp
John F. DuBoise.
Box 274 Plainview, Texas.

LONDON LOCALS

Again we are made to feel so sad. On Saturday, the 8th, the young life of Weymond Williamson was crushed out by the hand of death. On the night the Carol Brown barn burned young Williamson put forth heroic efforts to help a neighbor in time of need and in doing so sustained a wounded leg. This wound healed, but it seems it became infected, insomuch that the infection spread through his entire system, resulting in his death. Weymond was a bright young man of about 17 summers. It seems so sad to see a young life to be snuffed out. Among others who attended court at Boerne were E. H. Kothmann, E. I. Cummins, C. E. Weaver and R. B. Furr.

John P. Jones and daughter, Miss Virginia, spent a few days at Burnet last week. They report a real nice time.

Miss Dulcie Ellis, Miss Gladys Winn and Bro. Dick Winn returned from several days' visit to Rocksprings. These young people say that Rocksprings is a real town and they had a real time while there.

Mr. Russell Lavelle, one of London High School graduates, entered the Schreiner High at Junction. Russell is a bright young man and his class mates will find him true blue in all respects.

Mrs. Ralph Smith, who underwent an operation recently at the Brady sanitarium, is reported going well.

Miss Loree Kothmann and her younger brother and sister, Woodrow and Ruth, also Miss Jessie Hunter and four other former pupils of London school, Miss Loree and Miss Jessie, graduates have entered the Schreiner High for this term of school. These are excellent students and we regret to lose them.

Mr. Frank Price, a graduate of London school entered the Mason High for this term. Frank is a bright boy and manly in all his ways. His teacher and class mates will find him to be a congenial chum.

The Lion's Club of Menard paid London a call on the 7th. They came about 100 strong—men, women and children. They were welcomed by all. Mr. Edgar Furr extended the formal welcome in a few well chosen sentences, which was responded to by the Reverend Coker, a Presbyterian preacher, who said many good things and some funny ones. He was followed by John Clark on behalf of the Lions, the Chamber of Commerce and the business men of Menard. We were glad to have these good people visit us and hope they will come again. Their band rendered some excellent music.

Bill Cummins left the 9th to re-enter the San Marcos State school. Bill is ambitious and you will hear from him later. His chosen profession is an honorable one and he is ambitious to become highly proficient in that profession. This is why we think you will hear and know more of Bill later. The rains have retarded cotton picking.

Our gin had turned out 276 bales to Saturday night.

S. H. McCaleb has made some worth while livestock sales lately. He is in the market for lambs. Sam is using good headwork in selling grown up stock

and buying young stuff. If the market should decline his young stuff will grow him out.

The Baptists held services Sunday and Sunday night, the first since the revival in July. Bro. Ivans will meet his regular appointments from now on.

The uncomplimentary remark recently published in the Harper Herald about the popping of home brew bottles and the gathering of millions of flies, that gave the editor such annoyance while visiting this place recently was taken by our people as no offense at all, because we all realize it was only a dream of the poor editor, caused by an over-loaded stomach, and that he was only dreaming of "Home, Sweet Home," because no such condition exists or ever has existed in this little town. We all thank Mr. Hunter for the nice things he said about London, which materially outweighs his bad dream.

Speaking of dreams, Arthur Brisbane says, no man can prove he isn't dreaming as he talks to you, and many a man dreaming has been certain he was awake.

LARGER BODIES ANNOUNCED FOR VICTORY 6 LINE

Long and roomier bodies affording greater vision in all closed models of the Victory Six line have been announced by Dodge Brothers. The new type bodies now in the hands of all dealers are available in the sedan, sport sedan, coupe and coupe-brougham. In designing the changes, engineers have retained the Victory Six roadability featuring its low center of gravity and sweeping, graceful appearance.

Mechanical changes of the improved Victory Six models include an engine temperature indicator on the dash board, grouped under the glass panel with gas gauge, oil pressure indicator, speedometer and ammeter, and the location of the starting button on the dash

Physician & Specialist

If you have any of the following symptoms, I have the remedy, no matter what your trouble has been diagnosed: Nervousness, stomach trouble, loss of weight, loss of sleep, sore throat, pain in the back and shoulders, peculiar swimming in the head, frothy like phlegm in throat, passing mucous from the bowels, especially after taking purgative, burning feet, brown, rough or yellow skin, burning or itching skin, rash on the hands, face and arms resembling sunburn, habitual constipation, (sometimes alternating with diarrhoea) copper or metallic taste, skin sensitive to sun heat, forgetfulness, despondency and thoughts that you might lose your mind, gums a fiery red and falling away from the teeth, general weakness with loss of energy. If you have these symptoms and have taken all kinds of medicine and still sick, I especially want you to write for my booklet, Questionnaire and FREE Diagnosis. W. C. ROUNTREE, M. D. AUSTIN, TEXAS. BOX 1150.

Model T Ford Engine and Transmission overhauled

for a labor charge of only
\$20 to \$25

Don't sacrifice your Model T Ford, but bring it in and let us look it over. Maybe all you need is a complete engine and transmission overhauling to give you thousands of miles of additional service. We'll do that for a labor charge of only \$20. Other charges equally low.

Loeffler Motor Co.

board within easy reach of the driver.

Maximum vision for the driver and occupants of the front seat has been effected by an increase of 76 square inches in the area of the windshield. The height and length of the sedan models and coupe-brougham have been increased to the greatest head and leg room for all passengers.

Doors of the sedans have been widened approximately three inches, and are built lighter. Glass area of each front window has been increased by 80 square inches. In each rear door window, the glass area has been increased 52 square inches.

Improved interior appointments of all bodies have been matched with additional attractive color combinations and trimmings. No change in prices will be made.

P. T. A.

Last Friday evening the Parent-Teachers' Association celebrated with a party in the school auditorium.

An impromptu farce, depicting the old fashioned school pro-

vided hilarious entertainment for the spectators. The players, in costume and performing ridiculous antics, were most amusing. Those in the cast were: J. B. Randolph, teacher, Mrs. C. F. Burt, assistant teacher, Rev. J. S. Newman, Rev. G. W. Crabb and Rev. M. F. Hill, members of the school board, Mesdames Joe Bissett, Joe Ramsey, W. P. Riley, E. R. Borden, Roy Blackburn, Robert Loeffler and Mesdames Jas. A. Miller, H. B. Carls and Guy Wynne, students, Mrs. Conde Hardeman, elocution teacher, Miss Mary Ellis Blackburn, book agent, Kittrell Durr, school leader, Mrs. A. W. Loeffler, accompanist, Mrs. Guy Wynne, soloist.

Ice cream and cake were served at the close of the evening.

PARTY

Mesdames Alex J. Hamer and E. O. Holekamp entertained the members of the Ladies Afternoon Card Club and a number of friends with a bridge last Thursday afternoon at Mrs. Holekamp's residence. Mrs. Clifford Hamer, a recent bride, and Mrs. L. S. Chamberlain of Gal-

veston, were the honorees. Roses with regina corona and fern were placed about the room in baskets and bowls and the pretty tallies bore a floral decoration.

A quilted boudoir pillow went to Mrs. A. L. Mudge, who held high score for the Ladies Afternoon Card Club. Mrs. Pierce Hoggett won the guest prize, a pretty hand embroidered towel. A similar trophy went to Mrs. Henry Taylor for cut prize. Lace trimmed hand embroidered boudoir pillows were presented to the honorees.

Chicken salad on lettuce, olives, sardines, iced tea, cake and cookies were served to Mesdames Pierce Hoggett, Slater Fleming, C. R. Stevenson, H. G. Hubert, Henry Taylor, D. Kendrick, W. W. Buck, P. Riley, A. L. Mudge, A. S. Rieck, John Martin, H. W. Rieck, Clay Maddox, H. O. Danman, Joe Maddox, Clay Secret, H. E. Luehrs, Clifford Hamer, Brown King of San Angelo, L. S. Chamberlain of Galveston and Jas Taylor of Austin.

TRADE-IN YOUR OLD TIRES

TODAY—FOR NEW TIRES GUARANTEED FOR LIFE AGAINST ANY and ALL DEFECTS

Firestone

GUM-DIPPED TIRES

hold all records for speed, safety, endurance, mileage and economy. Never before have such high-quality tires been offered for so little money. No finer tires are made anywhere, at any price. Everybody is talking about our great Trade-In Tire Sale—people are amazed that we pay so much for the unused mileage in worn tires. Don't go into the Fall and Winter without a brand new set of Firestone or Oldfield Tires all around on your car. Remember, each and every tire guaranteed for life against any and all defects.

Wahl Bros. & Schraub

Diversification on Texas Farms

Forty-eight distinct Texas Crop premiums listed by State Fair at Dallas.

All crops that are grown in Texas cannot be grown with profit in Kimble County but there are several that can be grown at a profit. The State Fair of Texas offers 48 separate and distinct premiums on 48 such crops that are grown.

We believe that diversification on Kimble County farms will pay.

THE JUNCTION EAGLE

Volume 45

Junction, Kimble County, Texas, Thursday, September 20, 1928

Number 23

DEPT FLEMING POST

AMERICAN LEGION MEETS

On Monday night of this week, the largest number of ex-service men gathered at a called meeting in the Court House in Junction that has been assembled for many years.

The occasion was primarily for the purpose of working out plans for attending the National Convention to be held in San Antonio October 6 to 12.

The meeting was presided over by Post Commander Buck and Adjutant Lowgren. The building plan was brought before the body in view of another proposition that had been presented and it was decided to give the entire energies of the membership to the completion of an American Legion home for Junction and Kimble County.

It was believed to divide our attention at the present time with any other undertaking would in all probability affect an early completion of our building plans and it was for that reason that the above action was taken.

A committee was appointed to endeavor to obtain a headquarters for our boys during the convention and they will be ready with their report for the regular meeting in October. Indications now are that more than fifty ex-service men will attend the convention from this county.

After the meeting the boys adjourned in a body to the City Cafe, where several old army songs were sung, just as a reminder of the old days, and a sumptuous banquet of fried chicken and the trimmings was thoroughly enjoyed by the assemblage. The boys were in high spirits and are looking forward to meeting their old buddies in San Antonio with pleasant anticipations.

JUNCTION FOOTBALL

Coach Earl Bowers reports that Schreiner High School has some very good football material among its students this year. The entire student body is interested and is trying to make this the best football season that Junction has ever had.

The first game of the season will be with Sonora on September 29, and will be played here. This game will be of double importance because Sonora belongs in this district and is one of our opponents for the district championship.

The boys have been practicing faithfully for five weeks and the line-up and the season's schedule was given to the Eagle for publication Tuesday.

The line-up from which the first team will be chosen is as follows:

King—Captain and quarterback Johnson—halfback Lavelle—halfback Richardson—fullback Newman—halfback Blackburn—halfback Ramsey—halfback Jones—end L. Ragland—center Hubbell—left end Duderstadt—right end Beasley—left tackle J. Ragland—end Allsup—right guard Taylor—left guard Waley—left guard Dunbar—end

The season's schedule which has only one open date is as follows:

September 29—Sonora at Junction.

October 6—Del Rio at Del Rio.

October 12—open

October 19—Fredericksburg at Junction.

October 27—Rocksprings at Junction.

November 2—Menard at Junction.

November 9—Ozona at Ozona.

November 17—Mason at Junction.

November 29—Kerrville at Kerrville.

Louis and Reuben Loeffler of Alpine arrived Saturday for a visit with their father, E. A. Loeffler.

TWO JUNCTION BOYS

FROM HOWARD PAYNE

Bill Wright, of this city who is attending Howard Payne College and is captain of the football team there this year, was elected last week as student body president at Howard Payne. This office is the highest given any student and is considered one of the greatest honors that can be bestowed on anyone. The president is elected by popular vote of the entire student body. Bill received an overwhelming majority over two other candidates.

This is Bill's fourth year at Howard Payne. Since his entrance he has been one of the most popular students and one of the best liked on the campus. He was elected this year as captain of the football team as a climax to his brilliant career as a player. He has taken a prominent part in all athletics, being all conference center in football for two years, a two-letter man in basketball, and last spring he won the Texas Conference championship in the shot put, tossing the 16-pound shot 39 feet.

Shelby Jones of this city who finished his college career last spring at Howard Payne where he was considered one of the best athletes that the school has ever turned out, has accepted a position at Rotan, Texas, as a member of the High School faculty there.

Jones was prominent in both football and baseball, being captain of the baseball team last spring, and conference tackle for two years in football.

P. T. A. PROGRAM

September 24, 1928, 4 p. m., school auditorium.

General subject, Safety.

Devotional service, Bro. G. W. Crabb.

Safety Do's—Christine Schraub.

Vocal solo—Mrs. M. F. Hill.

Safety Don'ts—Katherine Hodges.

Roll Call—Members answer: What do you want the P. T. A. to accomplish this year?

It is hoped that every mother and father in Junction will throw every effort into what the program for the year shall be, and do everything possible to advance the program.

Jot the date down—fourth Monday in each month—and be present at each meeting. Mrs. W. P. Riley is the president and it is hoped that each parent in Junction will sustain her and her executive board in all that the program holds.

BITTEN BY RATTLER

Jack Richardson was bitten by a rattlesnake while he was driving a bunch of goats across a cane patch. He finished driving the goats into a trap, got in his car and drove to Dr. Luehrs' office where he was given the anti-crotoalus serum, just forty minutes after the accident. He was confined to his bed for several days but will soon be up and about as usual.

SHOWER

Thursday afternoon the ladies of the Missionary Society of the Methodist Church and a number of friends surprised Mrs. Georgia Furr, a recent bride, with a shower at the home of the bride's sister, Mrs. Clarence McDonald.

The ladies were busily engaged in making a quilt. Miss Sutton, in the role of a saleswoman, appeared at the door and insisted on displaying her line of ladies ready-to-wear, but when her suit case was opened it was found to contain an assortment of packages for Mrs. Furr.

After the gifts were opened an original contest by Mrs. Walter Tinsley was enjoyed.

Iced fruit punch was served throughout the afternoon and at the close of the party sandwiches, cake and punch were served.

Kimble Polo Players Win

The Copperas Polo Team was well in the lead at the elimination series being played in San Angelo late Wednesday afternoon, having played nine chukkers out of a total of twelve to be played. The total score stood, Copperas 11, San Angelo 7, and Crooked Hollow 6. One more day will complete the series with Crooked Hollow due

to defeat the Angelo squad and the Copperas team with big chances as a Cup winner.

The boys are reporting a good time and state the Angelo teams are a bunch of good sports on the field.

We knew they would win. The only question now is, by how many goals.

JUBILEE PROGRAM

The following program will be presented at the Methodist Church Sunday evening at 8 o'clock by the members of the Woman's Missionary Society. The Missionary Society was organized fifty years ago and this year has been acclaimed the golden year of jubilee.

Prelude.

Hymn—"All Hail the Power of Jesus' Name"—congregation.

Scripture lesson—Lev. 25:8, 9.

10—Rev. M. F. Hill.

Prayer—Rev. M. F. Hill.

Song—"Forward Through the Ages."

Jubilee Posters—Mrs. Clarence McDonald and Mrs. Georgia Furr.

Jubilee Litany—Mrs. Joe Bissett and Missionary Society.

Our Jubilee Goals—Mrs. Roy Blackburn.

Reading—"Gather Us In"—Mrs. S. A. McDonald.

"Mark the Song of Jubilee"—Missionary Society.

Spiritual Cultivation of the Jubilee—Mrs. M. F. Hill.

Outstanding Achievements of the Auxiliary During its History—Mrs. Walter Tinsley.

The Story of the Early Struggle When Auxiliaries Were First Organized—Mrs. S. P. Bennett.

Song—"Our Youth to Thee We Bring"—Mrs. A. W. Loeffler.

Achievements of the Last Fifty Years—Mrs. Homer Livingston.

Song—"The Year of Jubilee is Come."

Advance in Membership.

Tithing song.

Jubilee Thank Offering.

Benediction—Rev. M. F. Hill.

THE VALUE OF HIGHWAYS

"Rome was only as great as her highways, a keen minded historian has pointed out. He was right," says the Grand Forks, North Dakota, Herald.

"As the roads spread the power and prestige of the nation spread. The Alps were scaled, the territory now occupied by the French republic was covered with a network of hard surfaced highways, and all roads led to Rome.

"The old roads of Caesar's day were built as military roads, of course, but they were used for purposes of the hour and served their end.

"In the United States hard surfaced roads are not needed primarily as military roads, but we are living in the age of the automobile and nobody is going back to the horse and buggy.

We travel by motor and our supplies to a considerable extent by motor. The state with poor roads is behind the times and not abreast with the needs of the age. Progress depends to a considerable extent upon roads and so long as we burn gasoline and travel on rubber this will continue to hold true.

"Is the United States, or any state within the United States, only as great as its highways? An affirmative answer may be a trifle harsh and a bit overdrawn, but at that it would not miss the mark a great deal."

Gully Cowsert last week closed a deal whereby he delivers to the Texas Pipe Line Co. 20 acres of land lying just west of his filling station 15 miles out on the North Llano road. The Pipe Line Company will erect a pumping plant thereon, work to begin within a few days.

Mrs. J. Hayden Young and children have returned home to Houston after spending five weeks with Mrs. Young's parents, Mr. and Mrs. N. H. Skaggs.

SCHOOL NOTES

The enrollment of the Junction Public School has reached the number of 347. Of this number 103 are high school students. The fifth, sixth and eighth grades have forty-one pupils each. No room in high school had a seating capacity that would accommodate the eighth grade until special arrangements had been made. Now all their classes are recited in one room. Miss Blackburn says she has seats for all of her fifth-grade pupils but no room for the seats.

The majority of the students seem interested and ready for a year of hard work.

When the senior class organized September 12, they found they had twenty members, nine boys and eleven girls. This class is larger than any other that has graduated from Schreiner High in several years. The officers elected were:

Nevada Blackburn, president.

Fairalee Linn, vice president.

Frank Hubbell, secretary-treasurer.

Mrs. Earl Bowers, sponsor.

Each week two members of the senior class are assigned to be responsible for the writing of the school notes.

A number of English classics have been received for those classes in English that are to study literature the first semester.

The entire school wishes to thank the Junction State Bank for so generously giving us book covers this year. We've had a difficult time getting all of our books covered, but now they are all ready for use.

The primary department has increased so rapidly that it was found necessary to withdraw the children under scholastic age. It is the opinion of the senior class that they will have ample time in school after they reach the scholastic age.

Mrs. Kindrick started early this year with the basketball girls by getting them together and organizing Monday, September 10. There were seventeen girls, full of pep and enthusiasm, out to practice Tuesday morning. The date for the first game has not been set.

Mrs. Earl Bowers met with twenty-five members of the Pep squad September 18 to discuss the program for the year. Ruby Johnson was elected yell leader with Mary Hubert as assistant.

A committee, composed of Vivian James, Kaleta Taylor and Elsie Bessant, was appointed for the purpose of investigating the question of uniforms. The girls have been practicing yells and expect to help the boys win their first football game September 29, with Sonora.

The boys have organized a basketball club with Mr. Albert Bierschwald as their coach. They will all pay dues and as soon as their basketball is in condition practice will start.

The senior class was sorry to lose one of its members last week, when Buzz Motley withdrew from Schreiner High. He plans to attend Woodrow Wilson High School in Dallas.

Corra Kropf withdrew from school Wednesday and is going to Mason to attend school.

WEIGHTS OF AN- GORA BUCK FLEECES

Mr. Jack Hubbell has had the Angora bucks shorn and has reported to the Vocational Agriculture teacher the following weights of fleeces: Buck No. 3, 13 1/4 pounds; No. 4, 11 pounds; No. 1, 10 pounds, and No. 2, 9 pounds. This is very close to the weights estimated by the boys who made the best grades on the class.

Two of these bucks were coming 3 years old and two were coming 2 years old. They were raised by Mann Wolf, and, as you can see from the above weights, are very heavy shearing goats.

We hope to get some classes to judge from Mr. Wolf's flock later.

Miss Alexa Browning spent last week-end in San Antonio.

SHEEP BRING FAIR PRICE

The following letter was handed the Eagle some days ago by Mr. Mudge, and by some means was misplaced for the time being. It was written by Callaway Hurley Commission Co., of Fort Worth, Texas, and is dated August 29, and is as follows:

Mr. A. L. Mudge, Junction, Texas.

Dear Mr. Mudge:

Enclosed find account sales for the double deck of mutton sold today. They arrived about 7 o'clock this morning in good shape and we succeeded in selling them at 8c straight. They were certainly good and the buyers liked them alright. However, the price they brought was an exceptionally good one but not many fat sheep have been on the yards this week and the buyers were wanting some. Bulk of the good fat clipped wethers are selling around \$7.50. We wired you the sale and sent proceeds to the Junction State Bank for your credit. Have you any more good ones on hand like those shipped? We appreciate your business and will always do our best in your behalf.

Yours truly,

Callaway Hurley Com. Co.

KIMBLE COUNTY BOYS FURNISH FEATURES FOR SAN ANGELO FAIR

The Copperas and Crooked Hollow Polo teams are upsetting the dope in San Angelo this week by out-playing their opponents. We knew this was going to happen, but the sport writers up there thought Angelo would easily cop the prizes.

Our prediction is one of Kimble County's teams will be first and the other second in the series. We have the best horses and the best players and of course we will win.

In addition to polo, the football feature will be staged between the Angelo and Ballinger teams, both under the direction of Kimble County boys: namely, Bill Bissett and Felton Wright. We know one thing is sure, the spectators are going to see some hard riding polo players and hard hitting, fighting football players.

VOCATIONAL AGRICULTURE CLASS NOTES

The vocational agriculture work is coming along nicely, but we regret that three of our number had to drop out on account of not being able to get suitable home projects.

We have, however, added James Hodges to our class and hope that he, like the others, will be a loyal worker.

Our school board has consented to buy us some new tools to do our farm shop work with and we hope to take pride in doing good work and in taking good care of our tools.

We judged a class of good Angora bucks at Mr. N. H. Skaggs' place last Friday afternoon. We thank Mr. Skaggs for his kindness. Mrs. Montgomery has kindly consented to furnish us a class of dairy cows to judge Thursday, September 19. This will be the first class of dairy cows that the boys will judge and we hope that they will learn to be expert judges of dairy cattle some time in the future.

Through the courtesy of B-C Music Shoppe the baseball fans of Junction were enabled to get the play-off series between Houston and Wichita Falls, which was broadcast each day. The games were given play by play and came in fine and clear over the Crossley at their Shoppe. They also have the schedule of the campaign speeches, both Republican and Democrat, which are being broadcast this month, beginning last Saturday. You may obtain this schedule by calling at the Shoppe.

Mr. and Mrs. Tommie Cowsert and family and Mrs. Felix Watson were Kerrville visitors Friday.

The Modes of Autumn

FALL FROCKS

\$10.50 to \$25.00

Intriguing satin has again come to the fore as the leading material for fall frocks. The one sketched is typical of the lovely models we are offering for \$25. Note the tight, swathed girde, the front flare, the smart vestee.

The new purses, gloves, handkerchiefs and all accessories for your fall wardrobe are to be found in this store; also a complete line of costume jewelry that you will enjoy wearing.

FALL COATS

\$12.50 to \$75.00

When madame and mademoiselle step forth with fashion this fall, Coats very similar to the one sketched, will be worn. Every new autumn coat mode is here! Every new fur trimmed! Every new color!

We have a wonderful assortment of the new Metallic and Spangle hats. They are Fashion's newest in Millinery. Come in and get one.

Apparel for the School Girl

Our Juvenile Section is a very busy place these days—with little girls and mothers selecting school wardrobes. Quality, value and right prices are responsible for the popularity of our Juvenile Section

COATS
\$5.50 to \$12.50

DRESSES
\$3.50 to \$8.50

With huge collars and cuffs of fur—the kind every little girl just loves. Beautifully lined throughout. Sizes 6 to 14 years.

The frocks that school girls will wear this fall are smart because they are so simple. Of jersey, silk and wool crepe. Sizes 6 to 14 years.

We are offering at the very beginning of the new Fall Season a beautiful assortment of new winter coats. They are in the new shades, all elaborately trimmed in the best of furs. Our stock is complete as to sizes and styles, and it will pay you to come in early and get your choice of these new coats. They are priced just right, too, at prices exceedingly low.

TRAVEL BY BUS!

ASK ME ANOTHER

Questions

1. Who is responsible for 12 suggestions covering good manners in motoring?
2. In the terms of applied ethics, what constitutes a good driver?
3. What strikes some motorists as being a good joke?
4. What consideration should animals be given by motorists?
5. Is the horn a good instrument to use when you want to signal a pretty girl?
6. What attention should motorists give to headlights?
7. Should you pay much attention to traffic officers?
8. When does a motorist flirt with trouble?
9. What suggestion does the road-hog take literally?
10. When should an expert driver restrain himself?
11. What is one sure way to annoy pedestrians?
12. How do considerate drivers act?
13. Should people with bad tempers drive cars?

Answers

1. Robbins B. Stoekel, commissioner of motor vehicles of the state of Connecticut, is responsible for 12 suggestions covering good manners in motoring.
2. To be a good driver, in the terms of applied ethics, is to be a person of good manners, truly an altruist, ready to see and appreciate the problems of others, to make proper allowances for them and to exercise a little more patience, care and consideration than is actually called for by the letter of the law.
3. Driving an automobile thru water or mud so as to splash same on pedestrians is a common pastime with some motorists who have peculiar ideas of what constitutes a joke.
4. Give proper warning to pedestrians and other users of the highway. Even animals should receive reasonable notice.
5. The horn should be reserved for safety purposes; not to signal a person inside of a house nor to attract the attention of people passing.
6. Give proper attention to headlights. They often cause inconvenience and danger to others.
7. Disobeying the instructions received from traffic officers and trying to steal a few feet of space, instead of remaining in a proper spot, not only annoys pedestrians and other motorists, but is dangerous practice.
8. Starting an argument with a traffic officer is not only bad etiquette, but is courting trouble with the law.
9. "Keep in the middle of the road" is a tip that has been construed literally by the road-hog. Drivers of heavy vehicles should keep to the right side of the highway, where they belong.
10. The expert driver must tone down his skill by not weaving in and out of a stream of traffic moving moderately.
11. A common offense against road etiquette is committed when a motor car operator places his car at a crossing so as to obstruct pedestrian traffic, thus compelling pedestrians to walk around his machine.
12. Drivers who wish to be considerate of other people will concentrate on what they are doing, look where they are going, not attempt to gaze at passers-by and stay in line.
13. The exercise of kindness to others, consideration and true courtesy will prevent any operator from getting a wrong attitude of mind for driving in traffic. Any operator who loses his temper, who becomes sulky or is abnormal from any one of many different causes is unfit to drive, because his automobile provides a medium of expression for his personality. If that personality is upset, he is bound to make trouble for himself or for others, generally for both.

—N. P. May.

THE INCREASING NON-VOTING CLASS
Organizations on political par-

ty lines called "get-out-the-vote" clubs, are being pushed for the November election. In six states the last chance to register is already past and in 37 states registry rights expire 30 days before election. In a few states there is permanent registration for property owners whose taxes are paid. Indiana has repealed its registration laws. In many states registered voters lose their rights if they omit voting a certain number of times in each biennial period. The enormous volume of state and federal laws relating to naturalization, registration, primaries and elections proper, have all tended to increase the non-voting class. Doing away with manhood suffrage and increasing the ob-

stacles, difficulties and voting requirements cause uncertainty and chaos with the result that in many instances a minority of voters control election results.

Aggressiveness is the twin brother of achievement.

Another Slant on the Economical Question

Friends—for weeks letters have been pouring into my office congratulating Handy-Andy on running for the presidency of the U. S. A. (U Save Always). Thousands of his friends, people who are economically inclined, are behind him—behind his platform—for they realize that this country should be run more economically!

And, friends, you'll admit that if there is a man who has had the experience in handling the masses; in establishing economical households—it is Handy-Andy.

Upon his past record of being recognized as one of the world's foremost economic authorities—and upon his present record of offering the people of this country merchandise at prices they are glad to pay—I respectfully solicit your vote in his behalf.

SHOWER FOR MRS. G. W. CRABB

The members of the Fidelity class of the First Baptist church surprised their teacher, Mrs. G. W. Crabb, with a miscellaneous shower last Thursday night.

The class met at the parsonage, supposedly to hold their regular business meeting. Mrs. Crabb had charge of the meeting, and while the class business was being discussed, there came a knock at the door. Mrs. Roy Reynolds, attired in cap, overalls, and leather gauntlets, stood at the door with a large "parcel post" package and handed Mrs. Crabb a note, saying, "Open the box." Mrs. Crabb thought that the "parcel postman" was genuine until the class members began to laugh and called out "surprise." It is needless to say that she was surprised.

The gifts were then opened by Mrs. Crabb and inspected by all the others. She received many beautiful and useful gifts, from dainty boudoir pillows to a cut glass bud vase.

A very entertaining program had been planned by Mrs. U. D. Kindrick and Mrs. Roy Reynolds, who were the committee in charge of the festivities. Mrs. W. H. Baker played and sang a collection of popular songs. Mrs. Chas. W. McCarroll at the piano and Mrs. J. J. Croft playing the violin, rendered several numbers. The whole class then sang "John Brown's Ford Had a Puncture in the Tire," and had a hilarious time acting out the song.

Vanilla ice cream and white cake with pink pecan icing were served on paper plates which were lined with lace paper doilies over pink crepe paper. A beautiful buttonier of roses and ferns was placed on each plate.

The class members present were: Mesdames L. R. Hodges, W. H. Baker, Roy Reynolds, Wm. Mays, Chas. W. McCarroll, J. J. Croft, U. D. Kindrick, Jim Carpenter, Carl Glossbrenner, W. G. Crabb, M. Aubrey, W. T. Carpenter, W. S. Crabb, and Miss Cecelia Merchant.

KEEP THE CROOKS ON THE RUN

"Philadelphia is developing the same crime situation that cost hundreds of lives in Chicago's gang, gunmen and beer wars," says the Philadelphia Public Ledger. "The cowardly shoot-and-run type of murderer is increasing here. So-called 'gang shootings' are increasing. The frequency of these outbreaks, the growing use of machineguns, sawed-off shotguns and pistols and the comparative rarity of the arrest and punishment of the human rats who do the shooting demand imperative and drastic action on the part of the police."

"Closer control over the sale of firearms will not wholly meet the emergency. Firearms can be 'bootlegged' as easily as liquor. The underworld cannot be easily or wholly disarmed. Ending these 'gang wars' is a police job. It can be done by keeping the known 'gangster' continually 'on the run.' As the Public Ledger says, the underworld cannot be disarmed, and it is a fact that laws restricting the sale of small arms are observed only by the good citizen and act to his disadvantage."

PRAETORIANS, NOTICE!

You are requested to attend meeting and bring a friend Monday night, September 24, in the hall over Wahl Bros. & Schraub. We expect guests from San Antonio and Home Office in Dallas.

A short program will be rendered and refreshments served.
John Munn, Recorder.

Junction Hardware Co.

ENTERTAINS

Mrs. R. C. Tatum entertained a few friends with a spend-the-day party Thursday at her pretty ranch home. Marigolds and zinnias lent a note of cheerful color throughout the rooms. Several games of bridge were played during the morning. At noon baked chicken and dressing, English peas, potatoes, peppers and tomatoes, fruit and tea and cakes were served. The bridge games were resumed in the afternoon. After the scores were added the prize, a bath set, went to Mrs. Coke Stevenson. Mrs. Ovie Buster received the cut prize, a pair of bath towels. Mrs. Carl Wolf won the booty, a wash rag and a bar of soap.

Those enjoying Mrs. Tatum's hospitality were Mesdames Ovie Buster, Coke R. Stevenson, Clifford Hamer, Pierce Hoggett, C. T. Orth, Carl Wolf, Vann Martin, Ed Allen and Mr. and Mrs. Irvin Jarvis.

Iced fruit punch and cookies brought the afternoon to a pleasant close.

NEED GLASSES

Dr. Jones, the eye man, will be in Dr. Luehrs' office October 5. See him for glasses, eye strain and headache. 23-2c

SOUTH LLANO NEWS

Singing at J. W. Schuhardt's Sunday night was well attended. Misses Margaret Hubbell and Temple Boone and Frank Hubbell accompanied Miss Gussie Burris to Telegraph and to sing. Sunday night, Brit Allsup and mother went to Kerrville Saturday to visit Mr. Allsup and Miss Edith who are in the Secor Hospital. We were glad to report them doing nicely. Boone Allsup returned with Brit and mother Sunday. Carl M. Hodges was quite sick Monday.

Mr. Vernon Schuhardt was a week-end guest with his parents, Mr. and Mrs. J. W. Schuhardt, at Evergreen.

Mrs. Stafford Thomas and baby spent the week-end with her mother, Mrs. Masters, at Rocksprings.

Mr. and Mrs. Troy Fleming were business visitors to Junction Monday.

Mr. Will Thomas passed thru Telegraph Sunday.

Lane Hodges left last Friday for Brady to take up his work with the West Texas Utilities Co. after attending court last week at Boerne.

Mrs. Ed Hunger is critically ill in Kerrville. Hope to see her home again soon.

Messrs. Carl Taft and Weise and family had dinner and supper on the river Sunday. They were joined in the afternoon by Hilery Henderson and family for supper.

Mr. F. M. Hodges and son, J. R., are at the Rathbone ranch this week shearing goats.

SATURDAY, 22nd

See our Red Tag specials on Stringless beans, Navy beans, Toro bluing, World-Over olives. Skaggs Grocery.

Oil scouts are becoming quite numerous in Kimble County. There were some four or five here Monday and Tuesday.

There will be preaching service Friday night, Sept. 21, at the Church of Christ.

Oscar Brannan.

For dressmaking and designing, see Mrs. B. Babb, or phone 211; prices reasonable. 17-8p

FOR SALE—762 Acre ranch located on North Llano river. On O.S.T. 45 acres in cultivation, all sheep and goat proof fenced. One mile river front; lots of pecans; one half mile to post office and store. One mile to school. Well improved place. Better come and see or write Edwin C. Ahrens, Camp Allison, Tex. Sutton Co.

ICE, in a good ice box, pays for itself many times over in the saving of food, with its precious flavors intact. Ice keeps food in prime condition.

Not only is ice the cheapest refrigerant known, but it is the only refrigerant that constantly and automatically eliminates food odors and impurities. These are carried to and deposited on the ice cake, then out they go, through the outlet! The value of ice in safeguarding health is too great to be expressed in terms of dollars and cents.

Use ice freely—it pays big returns on a very small investment.

When the first Chrysler, the original "70" was announced over four years ago, it created a furor, and was regarded at that time as the greatest advancement in engineering and design to be produced.

The reception of the original "70" sinks into insignificance compared with the way the new models are taking the country by storm.

When The Snow and Ice Comes

Then, and not until then, will we be able to get sufficient Chryslers to stock again, as we like to do, and offer our customers a selection from our Sales Floor.

DON'T BE DISAPPOINTED

We are delivering in strict regard to orders on hand. We have lost many sales the past few months because our friends have come in wanting to buy—and found us with no Chryslers in stock. If you will need your new car soon, place your order today—and keep both you and ourselves from being disappointed.

IF YOU ARE NOT ALREADY A SINCERE BELIEVER IN CHRYSLER AUTOMOBILES—then all that we ask you to do is to "SHOP BEFORE YOU BUY"

Let no influence persuade you to buy ANY automobile until you have first seen the new Chryslers and learned the new low prices. The more you "Shop before you buy," the better pleased we are when you buy your Chrysler from us. Only by "shopping" will you get a true comparison of value, and appreciate more than ever the greater value in a Chrysler.

Mr. C. W. Arnot is our Sales Representative in Junction and vicinity. We will appreciate all courtesies extended to Mr. Arnot—and he will be glad to give you all possible information on Chrysler Automobiles.

Mrs. Leo Dressler returned from Sweetwater Sunday, bringing with her Mr. Dressler's parents, Mr. and Mrs. Gus Dressler, and sister, Miss Margaret, who will visit here for a few days and then make a trip to Comfort where they will visit relatives.

PARTY

Mrs. Meadames Coke R. Stevenson and Pierce Hoggett were joint hostesses Friday afternoon, honoring Mrs. L. S. Chamberlain of Galveston.

The affair was given at Mrs. Hoggett's home in the pretty sun-room which was very festive with baskets of pink and yellow zinnias placed about the room.

Bridge provided the medium of entertainment and Mrs. Dorothy Westmoreland made high score. A set of nut cups was her reward. The cut prize, a bath towel, went to Mrs. Watt Turner, while Mrs. Jim Carpenter was consoled with a silk handkerchief. Mrs. Chamberlain, the honoree, received a pretty night set.

A delicious ice and macaroons were served to Mesdames Guy Wynne, Ovie Buster, Ed Allen, Jim Carpenter, Clifford Hamer, H. E. Luehrs, U. D. Kendrick, Clay Secrest, Dorothy Westmoreland, Irvin Jarvis, H. O. Denman, Vann Martin, Trevor Wayne of San Antonio, L. S. Chamberlain of Galveston and the hostess.

Week after week and month after month the Bigger and Better Chevrolet has swept on to greater and greater heights of popularity—until today it stands acknowledged everywhere as first choice of the nation for 1928!

Never has any Chevrolet enjoyed such overwhelming public acceptance—for never has any low-priced car provided such an outstanding combination of distinctive beauty, thrilling performance and amazing economy!

Its beautiful bodies by Fisher—long, low and racy, and finished in colors that reveal to-day's mode for smartness and individuality—are far in advance of accepted standards in the field of low-priced cars. Inside

and out they prove anew that Fisher craftsmanship is a thing apart.

But Chevrolet performance is no less impressive than Chevrolet beauty and style. Never before was a low-priced car so easy to handle—for the steering mechanism is fitted with ball bearings throughout... the clutch and gear-shift lever respond to the slightest touch... and big non-locking 4-wheel brakes give a measure of braking control that is more than equal to every occasion.

Come in and see the car that has won the approval of more than three-quarters of a million buyers since January 1st. Learn for yourself why it is scoring the greatest success of this great automotive year!

JUNCTION IN 1911, OR SEVENTEEN YEARS AGO

S. L. Batchelor steps around now like a little boy with his first boots; certainly, he is now living in the new parsonage and the building is something of which we are all proud.

I. O. Weldon has bought the V. O. Copple ranch three miles north of town.

Clifford Hamer left Friday for San Antonio where he will enter school.

Mrs. Nabers has returned to Junction to accept a position in the Junction High School.

Bascom Stevenson left Friday for San Antonio where he will attend Draughon's Business College.

Miss Austin Durst returned home Tuesday from Brownsville where she has been spending the summer vacation.

Miss Ella Stevenson returned home Friday. She has been attending the State Normal at Austin and visiting at other points.

Henry Davis and family of San Angelo have been here visiting Mrs. Davis' parents, Mr. and Mrs. Reynolds. Mr. Davis thinks of locating with us.

Ernest Bode came in from Copperas and entered the Junction school again this year.

The Baptist people have bought the Davis place adjoining the church on the west. This gives one-half block altogether and is a very desirable piece of property. Rev. Jeffery moved to his new home this week.

Mrs. Will Hankins and Master Terry left Tuesday for Kerrville, San Antonio and other points to visit friends and relatives.

Bud Jarvis moved his family back to their Junction residence Monday.

Tate Jarvis and Miss Belle Ivy were married last Tuesday by Elder John S. Durst at his home.

Sayers Farmer was in from the ranch Wednesday.

N. H. Skaggs has returned from Sonora where he has been for some time.

Mrs. G. R. Ragland and children are visiting her parents in Concho County.

Rev. S. L. Batchelor returned Thursday from a trip to Fort Worth where he went to buy pews for the M. E. Church.

The hum of the Junction cotton gin is now heard and is turning out the staple in a way that isn't hard to look upon.

TO CLEAR UP THE TRAFFIC PROBLEM

The uniform traffic ordinance soon to be up for consideration here had its origin in the growing concern throughout the country over the mounting loss of life and property in traffic accidents. Along with that was recognition of the need of simplifying municipal regulations for the convenience of motorists and the expeditious handling of traffic itself.

The ordinance has been devised by the National Conference on Street and Highway Safety, which was organized several years ago on call of Herbert Hoover, as Secretary of Commerce. The conference is composed of traffic and safety officials representing every part of the United States. The suggested uniform ordinance is the

result of extended study by men who are familiar with the subject in hand.

Obviously, there are local conditions peculiar to the various cities which could not be dealt with adequately by blanket regulations. But due account of these can be taken and the proposed ordinance adapted to the needs of each locality. It has been framed with that idea in mind.

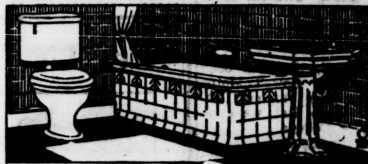

In the great majority of particular, however, the traffic problem can be handled similarly in cities throughout the country. It is not so handled now. And aside from the need of the communities themselves for simpler and more effective regulation, there is the confusion arising from the different practices from city to city. Each city should have in mind not simply the traffic originating within its own limits or vicinity, but that from distant parts of the country. With millions of motor car travelers today there are no city or county limits, or even state lines.

Control should be so devised that a motorist from New York need not be confused in California, or that a driver, in whatever part of the country, need not be left in uncertainty as to what the principal rules of traffic are. Until that condition is brought about and until the whole problem of regulation is worked out in a more satisfactory manner, there will continue to be preventable traffic delays, accidents and perils to life, limb and vehicle.—Kansas City Times.

A DAY'S WORK

Railroads right now are having their troubles about pay, labor and unit of work. That is one trouble that is worrying every plant and every office. What is a day's work? That question was asked a dozen times at the meeting of the editors and publishers at Alexandria last week. There is no answer to that question. Edison does a hundred years' work in a few hours; others of us keep up with the day by trying to solve the problem of a day's work unit. Most trouble with

men, plants and workers of all kinds, including Madame who runs the home, is that we are all afraid that we might do too much, work too hard. But as far as the records go very few people die from overeating and overworking. There was a student in a college once in the long ago who is supposed to have died from studying too much, but the record of the cause of his death is not proved. Few of us ever work too much excepting with our mouths and that works overtime.—Minden Signal-Tribune.

When You Want a PLUMBER you Want Him Quickly

Just phone 214 and we'll send one right to you. No delays! Good service expert workmanship—reasonable rates—we promise all of these.

The NEW BUICK is the NEW STYLE

A triumph in individual beauty... a refreshing and radical departure from the tiresome commonplace... a new style, a richer style, a more alluring style than the world has ever known!

Only one completely new motor car style in the past twenty-four months—only one truly original and beautiful development in body design—and, as the whole world realizes, it is the Silver Anniversary Buick with Masterpiece Bodies by Fisher! Here is an entirely new scheme of body lines and contours—arresting new color combinations—matchless new interiors—new appointments of comfort and convenience unapproached by any other automobile of the day! Here is a true distinction wedded to genuine good taste. Here is a new style—a richer style—a more alluring style—than the motor world has ever known. And here, too, is tremendous increase in power, in flexibility, in responsiveness—so outstanding as to amaze even those motorists who have long been familiar with Buick's superior performance. That is why America is according the Silver Anniversary Buick the most enthusiastic reception ever enjoyed by any line car. That is why this beautiful Buick is ready to become country wide vogue.

DOES YOUR CHURCH NEED THE MONEY?

Read our Mutual Self-Help Plan

Religious and Civic Organizations of Junction are to share in the profits of SCHREINER-HODGES CO'S. Large Dry Goods Department

As all of us are vitally interested in Junction and want to see and help our school and churches increase their scope of usefulness, we have decided on the following plan:

Beginning Saturday, September 1st, and continuing for seven consecutive Saturdays, we will give 5% of our cash sales on each Saturday as follows:

Saturday, Sept. 1, to Junction Baptist Church
Saturday, Sept. 8, to Junction Methodist Church
Saturday, Sept. 15, to Junction Church of Christ
Saturday, Sept. 22, to Fannie Dupuy Memorial Church
Saturday, Sept. 29, to Junction Episcopal Church
Saturday, Oct. 6, to Junction Parent-Teachers' Assn.
Saturday, Oct. 13, to Junction Cemetery Aid

We trust that all our schools and churches will co-operate with us on these days and make our Cash Sales as large as possible. We are for Junction first, last and always. So come ahead everybody and spend your money at home and with your home merchants. We appreciate it, and it will help Junction, the town you live in. By helping your home merchants you keep your money at home. When you send your money away from home it certainly does not help the town you live in and the town you should be interested in. We have a large stock of merchandise at all times to select from and can always supply your needs.

Our prices are always right. We buy our goods in large quantities and pay cash for them. By so doing we can always save you money. We sell everything that is to be found in a first class, up-to-date store.

We ask you, one and all, to boost this plan and everyone can help Junction and its churches and schools. Let's all boost it and put it over BIG for each church and school in Junction.

THE WASHINGTON MONUMENT

When approaching Washington by train or automobile two of the outstanding sights the travelers first behold are the Capitol Building and the Washington Monument.

The Washington Monument is an obelisk. It is 555 feet high and 55 feet square at the base, tapering to 34 feet at the top. It has a pyramid shaped section above, and terminates in a pyramid of pure aluminum. The walls are 15 feet in thickness at the bottom and taper to 18 inches at the top.

The Woolworth Building in New York is 60 stories and is 792 feet high. The Metropolitan Life Building is 700 feet high; the Singer Building is 612 feet high. They are often compared with the Washington Monument because they reach higher to the skies. Those who make these comparisons should stop to consider that the high buildings of New York are structures of steel, cement and stone. But the Washington Monument is wholly a work of masonry—the highest structure in which stone sits upon stone that there is in the world.

Soon after Washington's death, John Marshall, afterwards Chief Justice of the United States, caused Congress to pass a resolution providing for a marble monument to his memory. It was ninety years later, in 1888, that this monument was opened to the public, though it had been dedicated five years earlier.

The cornerstone was laid July 4, 1848, and in the next few years the sum of \$300,000 was raised by public subscription. The shaft obtained a height of 152 feet by 1856; then the funds having been exhausted the construction was suspended, and it was not resumed until 1878, a lapse of 22 years. The Government completed the Monument, and its total cost was \$1,500,000.

Visitors to Washington usually notice that the stone in the lower 152 feet is of a different quality than that in the upper portion of the Monument. This is due to the fact that the first stone came from the quarries of Quincy, Massachusetts, near Boston. The remaining stone came from quarries near Quantico, Virginia. Quantico is the base for the United States Marines.

The interior of the Monument is lighted by electricity, and visitors ascend to the lookout windows near the top by means of a large passenger elevator. They pass the memorial stones which are set in the inner face of the Monument. The inscriptions on most of these memorial stones can be read, however, only from the platforms. There are over 180 stones, contributed by practically all of the States, many of the large cities, and lodges of Free Masons, Odd Fellows, and the Sons of Temperance, besides numerous political organizations, debating societies, and other organizations.

At the time of Washington's death Congress requested the family to place his remains in the Washington Monument in the National Capitol. This was not done and Washington was buried at Mount Vernon. His will directed that a permanent tomb should be built to receive his body and that of his wife, Martha Washington. More than a quarter of a million visitors annually stand before this open tomb and view the caskets in which the bodies of George and Martha Washington were buried.

ABOUT YOUR HEALTH

(By John Joseph Collins, M. D.)

"Dropped Colons"
A very much alarmed patient sought a great specialist, and said: "Doctor, I have a 'dropped colon'; now, what's the worst thing that may happen, and, when may I expect it?" "It has already happened, my dear," said the doctor soberly; "it happened when the fool told you his diagnosis." Among my present clientele,

there are no less than three elderly patients with dropped colons—of twenty to thirty years' standing. They are neither dying, nor "running into cancer," as the esteemed charlatan would have them believe. The colon has become the veritable gold mine for the medical impostor, who will stave the "cancer" off for you, if you will tickle his benevolent palm with a sufficiency of cash—in advance!

You may have a dropped colon—"ptosis" we call it. Stop worrying; treat yourself as if you didn't have it; if it causes no discomfort, let it alone. If it annoys you, take gentle laxatives and unload it—gently at ways. "Mineral oil" every day until satisfactory effect. A well-fitting abdominal supporter, not too tight! You want support, not garroting. See that you maintain regular diet. Always soft, boiled food. No hard-fried. No heavy-seeded berries, either in pies, preserves or jam. Seeds are bad for colons; so are

skins—of baked apples, cherries, plums. Swallow no skins, if colitis gives distress. Sweet milk may clog the lazy canal; if it does, switch to buttermilk. Kraut-juice? Well, try it; whatever you do that is right, stay with it! You can't put a dropped colon back in place; neither can the blatant quack, even if you paid him a hundred—five hundred dollars. And even a dropped colon is a million times better than none. Be sensible.

WHY THE SMILE

Junction Trade Notes

The R. C. Bowen bus line of San Antonio has made application for permit to operate a line from San Antonio through Junction, Sonora, Ozona, Stockton, to Pecos City.

Approximately 100,000 pounds fall mohair has been received at Junction wool warehouse. This accumulation represents only the smaller clips; the larger clips are yet to be received. The mohair market will not become active until the warehouse accumulations are complete. Speculative prices now are said to be around 65c and 55c.

In stock: Seed Rye, Seed Wheat, Seed Oats, Alfalfa seed. Gann Grocery Company.

The Farmer Furniture Company of Junction is busy receiving and arranging its new furniture stock. The firm expects to be open for business within another week; then there will be no need of going away from Junction to buy furniture.

Luther McDonald has plans drawn for a modern bungalow home to be erected southeast of the courtyard square, directly east of Hodges Hotel. A new home, erected for Frank Randolph in the western part of the city, is nearing completion.

Mr. and Mrs. Rufus Nethery continue to supply the local trade with green corn, blackeye peas, okra and tomatoes, thru Gann Grocery Company. Jno. Crisp is supplying the local trade with fine home-grown yams and M. P. White is maintaining his reputation as "Pepper" White by reason of the magnificent bell peppers from his truck patch.

Rudolph Becker was tending his apiary in Mason county this week, preparatory to gathering his third crop of choice honey late in September.

Jas. E. Brown of San Angelo, interested in acquiring a ranch in this territory, was here on business during the week.

Pecans in some of the orchards of the Llanos are beginning to open and gathering of the nuts will be under way in a short time. Pete Graves who purchased the Alfred Bannowski orchard on Main Llano says he intends to begin gathering next week.

You will find your favorite "morning cup" in Lipton's vacuum-packed coffee, or in the Santos Peaberry ground to your order at Gann Grocery Company. Those who have tried Lipton's and the Peaberry, are praising them.

The concrete causeway across South Llano leading to Grande Courts is completed and ready for traffic. The roadway leading to the bridge is being widened to sixty feet and will soon be graded up. Extensive improvements will be made at Grande Courts during the fall and winter, including concreted swimming pool, bridge trails, tennis courts, and other recreation features for visitors who will choose the Llanos as their summer playground.

WHAT TEXAS DOES

For nine years Texas has led all other states in farm products, as a cattle producer, in new railroad mileage, and in several recent months led all states in oil production.

Texas, within recent years, has led in building large modern hotels, modern water works and purifying plants and in building oil pipe, natural gas and power lines.

Texas is the only state that has twice produced more than \$1,000,000,000 worth of crops a year, in 1919 and 1923, and increased values of farm crops from \$298,133,466 in 1909, to \$729,754,000 in 1927.

Meanwhile the value of its manufactured products kept pace, growing from \$361,279,303 in 1914, to \$1,237,952,469 in 1925. Next to Missouri it leads the South in the value of its manufactured products today, ranking twelfth in the Nation. The value of its mineral products was \$47,711,000 in 1916, and \$420,380,000 in 1926.

LONDON LOCALS

Lenville McKinney and Laurence Williamson left Saturday for Stephenville where they enter John Tarlton for the present term.

A. C. Chandler has entered the San Antonio Business College for a business course.

Mr. W. W. Williamson made a business trip to Sonora last week. Chick went along for the pleasure of the trip.

The writer had a blow-out at his home a few night ago.

While pouring hot water into a milk bottle the "blamed" thing exploded, or blew up or something. When we came to our right mind we were standing in the midst of a hundred pieces of broken glass and pretty well sprinkled with hot water. Don't try to wash 'em when the water is too hot.

Mr. Fenton Stewart and wife and Miss Dulcie Ellis went to Brownwood Saturday. Miss Dulcie is taking treatment for the throat.

Say, Folks, I believe we Londonites should be up and doing in the interest of the Kimble County Fair. It pays to advertise in a wise way and there is no better advertising than to have yours on display at a county fair. Think of it. I have nothing in view except our London interest in making mention of this matter.

Bro. Chas. Spire preached for the Christian Church last week on Tuesday night. His subject was The Christian Life. In our humble opinion, if we had more such preaching we would have more Christians; possibly fewer church members, but stronger churches and church influence.

Mr. and Mrs. Robert Fritz now drive a new Packard car. Mrs. A. E. Vance and daughters, Mrs. Onie McCollum and Miss Ethel Vance, came down last week. Mrs. Vance and Ethel are still here. Miss Ethel is assisting the Walton Grocery and Cafe.

The writer is not in any degree authority on finance nor the future, but it doesn't look bright just ahead a few months. One year at the farthest will decide whether there is danger ahead or not.

Mrs. S. H. McCaleb, Mrs. W. C. Jones and Miss Victoria Brewer, with Mrs. Connie Chandler driving for them, left Saturday for Breckenridge, Texas, in answer to a telegram stating that their brother, S. A. Brewer, underwent an operation for appendicitis at nine o'clock Saturday morning. Sam's many friends join his relatives in a hope for his speedy recovery. The last news he was doing very well.

For fear I should forget, or not have another opportunity to call the attention of the London people to the matter, I will now ask them to consider the fact that this community is yearly sending thousands of dollars to other towns in the way of tuition and other expense of keeping our girls and boys in school. Can't we beat that by incorporating our school or by a special act of the Legislature authorizing us to vote a further school tax and build our school up to at least another year at home and with credits to enter the higher institutions of learning. Think of it. If the thought is worth while, talk it. You will always find me ready to help.

Mr. W. V. DeSpain has returned from Burnett where he has spent several weeks with his daughter.

Mr. Robert O. Weaver left Monday for the A. & M. College where he enters for his second year. Bob is smart and is much interested and these two attributes give us a good reason to forecast his success.

Say, if you have a few thousand dollars on hand, don't put too much of it in sheep, goats, cattle nor cotton. If you have a few of these articles for sale, sell them while you can get a good price for them, then sit down, fold your hands and take your ease until the country again settles down to normal after the national election. It might make you good money to do this, however, if you just have to speculate, buy some Kimble County land. It will never depreciate and in a few years your investment will prove a profitable as well as a safe investment.

FOR SALE or Trade—Improved plains land near Plainview, Texas.
