Explains FBI Bank Protection

Robbing banks in this area is a very unprofitable business, according to John J. Schwartz, assistant special agent in charge of the Houston division for the Federal Bureau of Investigation. He described the FBI's role in protecting banks at a meeting of the staff of First National Bank October 17 in the bank.

He reported that 87 per cent of all bank robberies last year in the area covered by the Houston division were solved in the year they were committed. Rockport is included in the Houston FBI division, as is Corpus Christi and other nearby communities.

After reviewing protective measures maintained by First National, Schwartz said they were excellent and as complete as modern science can make them. In addition to an alarm system linking the bank with the Rockport police department and the Aransas County Sheriff's Office, the bank has hidden motion picture cameras which go into action and cover the lobby in case of a robbery attempt. In addition, elaborate electronic devices protect the bank's vaults 24 hours a day.

Schwartz also said First National's location on the coast drastically limited the number of possible escape routes. He added that this situation would make road blocks especially effective.

In additon to his talk to employees of the bank, Schwartz presented a motion picture illustrating the proper procedure for employees to follow in the event of a holdup. Both he and the film stressed the importance of becoming an effective witness by observing clues and remembering them.

Schwartz explained that a bandit leaves literally scores of clues which can be used effectively in capturing him and later convicting him in court. He said it also was important to follow him to the door as soon as it can be done safely to observe the get-away vehicle and the direction it takes.

With reference to the motion pictures which are taken automatically during a holdup, Schwartz said copies of the films are distributed state - wide to law enforcement agencies soon after the robbery.

Three Students Suspended in Marijuana Case

On Thursday, October 18th, the School Board met in a called meeting to provide a hearing for a student who had been suspended from school for the remainder of this semester for possession of marijuana.

The Board heard evidence as presented by the school administration and testimony from the student.

The Board sustained the suspension, thereby denying the student from re-entering school until the second semester.

Two other students were involved in the case but they did not request a hearing before the Board, and therefore remain suspended for the rest of the semester.

B&PW to Hold Christmas Bazaar

The annual Business and Professional Women's Club Christmas Bazaar will be held on Saturday, November 10 at the I.O.O.F. - Rebecca Hall. This annual bazaar is noted for the handcrafted items and homemade foods that are made by members for sale.

This year the bazaar will feature a drawing for a $50 grocery certificate at the store of the winner's choosing. The tickets for the chance are selling for $1.00 and may be bought from any of the following B&PW Club members: Loyce Ogle, Kathy Rogero, Myrtle Blocker, Virginia Shivers, Elsie Hawes and Patsy Parr.

Also featured will be a hand crocheted afghan which members will sell chances on the day of the bazaar. Myrtle Blocker, bazaar chairman, has chosen for the theme this year "Something for Everybody" and members have been working for months to guarantee that this will be so.

The club is appreciative of the strong support that the community has given them each year, especially as the proceeds of the bazaar are applied to the $500 scholarship given a Rockport graduating high school girl. They look forward to seeing everyone on November 10.

Bank Has Automatic Lobby Teller

An automatic lobby teller has been installed by First National Bank as a convenience for customers making deposits and payments of various types, including payments on personal loans.

The device is housed in a wood-grained cabinet. It provides deposit slips and envelopes which, when completed, are dropped into a slot in the face of the cabinet. Deposits and payments may be either checks or cash.

"This new convenience is similar in purpose and operation to the night depository on the outside of our building, which permits deposits to be made at any time, day or night", Charles La Bounty, executive vice president, explained.

"The lobby depository should prove to be a great time saver when customers are in a hurry and there are lines of people at all teller windows", he added.

Chamber of Commerce Places Ads Up North

Continuing its never ending campaign to attract more and more tourists and future residents to the Rockport-Fulton-Lamar area, the Chamber of Commerce has made arrangements to have outstanding advertisments published in the Minneapolis Tribune and the Des Moines Register, two top-flight newspapers which have a combined circulation of approximately one million readers.

The ads will appear in the Nov. 18 special travel and vacation issues of both papers.

The Chamber of Commerce ad was prepared by the advertising committee consisting of Gordon Stanley, Bill Janecek, Jim Fowler and John Kinsey. It features a good photograph that effectively illustrates that this is a great place for fishing and boating and it also shows the beauty of Aransas Bay.

The written material for the ad points out the numerous activities available here for vacationers or full-time residents and stresses that there are many fine motels, restaurants and other business establishments ready to welcome everyone.

The copy also points out that virtually every type of fun activity is available including fishing, tennis, golf, swimming, beachcombing, and art, plus mild weather and friendly people.

First Whoopers Arrive at Refuge

The first whooping cranes arrived at the Aransas National Wildlife Refuge October 17 and more are reportedly on the way from their Canadian nesting grounds.

A pair of the rare birds flew into their winter nesting grounds with the current cool front.

Frank Johnson, manager of the Aransas National Wildlife Refuge, said the two adults are the first of a flock of about 55 birds that are expected this year.

The Nebraska State Game and Parks Commission Thursday reported a pair of adult whoopers and a juvenile on a pond north of Crockston near the South Dakota line.

Several days ago, a pair of the cranes were sighted flying south through the Dakotas.

A total of 51 whoopers spent the winter here last year. The figure represented a loss of eight birds from the previous year's total.

A record high for the refuge was set in 1971 as 59 cranes were counted. From a low of 14 birds in 1938-39, the cranes have increased under the legal protection of the United States and Canada.

The birds leave spring and summer nesting grounds in Northwest Territory, Canada, in the fall and return to Canada in April.

The normal flight path of the whooping crane brings them across Saskatchewan, North and South Dakota, Nebraska, Kansas, Oklahoma and Texas en route to their wintering areas in the refuge.

Hugenberg Attends Insurance Meet

Joe Hugenberg of Hugenberg Insurance Agency attended the Young Agents Conference in Austin on October 14-16.

Among areas of the insurance industry discussed were insurance legislation covering workmen's compensation, recent automobile changes covering personal injury protection (PIP), comparative negligence and the newly revised guest statute.

In regard to the overall concept of the Young Agents Conference Hugenberg stated: "It was an inspiring opportunity as a result of meeting other young agents throughout the state of Texas and discussing with them their methods of operation, marketing and means of providing their clients with efficient, informative and personal service."

The conference came to a close with lunch at which time Joe Christie, Chairman of the State Board of Insurance, was guest Speaker.

Names omitted from High School honor roll last week were Dwight Mills, Danny Cox and Ricky Littleton.

Two Boating Accidents Here, Three Rescued, One Drowned

The Aransas County Sheriff's Department reported Monday the recovery of the body of a missing 29-year-old Houston woman who had fallen off a small sailboat in Aransas Bay late Saturday night.

The victim was Mrs. Gloria Salisbury who had been sailing with her husband, Edward Salisbury.

According to reports, the couple had sailed from the Goose Island area across to Ramada Inn for dinner and were headed back across the bay when Mrs. Salisbury fell off the small vessel.

Salisbury then jumped into the water in an attempt to save his wife. He was unable to locate her due to the darkness and found himself lost from his boat. He swam about 45 minutes before reaching land just north of Ramada Inn.

An immediate search began by Sheriff's Department officers, Parks and Wildlife officers and a U.S. Coast Guard helicopter. The sailboat was located by a crew boat and towed to Fulton Harbor. The Salisburys' dog was still aboard.

Mrs. Salisbury's body was recovered in Aransas Bay nearly a mile east of Key Allegro.

Over the weekend the Sheriff's Office received report of still another boating accident. This one occured in West Copano Bay.

Alton Ladewig of Cypress, Texas had swum to Copano Causeway pier and there reported that his boat had sunk and three persons were still hanging onto the boat. He had swum about five miles alone before reaching the pier.

The Parks and Wildlife and Coast Guard were summoned again and a search began. By 8:30 a.m. the three other persons, identified as Billy Jones of Houston, Richard Jones of New Orleans and Carol Willis, address unknown, were located on the beach near Joe's Bait Stand of FM1781.

They were met by the Parks and Wildlife boat manned by Wardens Jennings and Flores, and Deputy Sheriff Daniel Vargas. Soon the Coast Guard Helicopter arrived and transferred the victims to Memorial Medical Center in Corpus Christi. The three persons were reported as being in good condition.

Assisting in these two rescue operations which began at 11:18 p.m. Saturday night and lasted all night, were Deputies Daniel Vargas, Joe Williams, Mike Webb, Mike Swearengen, Constable Buddy McLester, Parks and Wildlife officers James Jennings and Valentine Flores.

Deep Water Harbor Urged

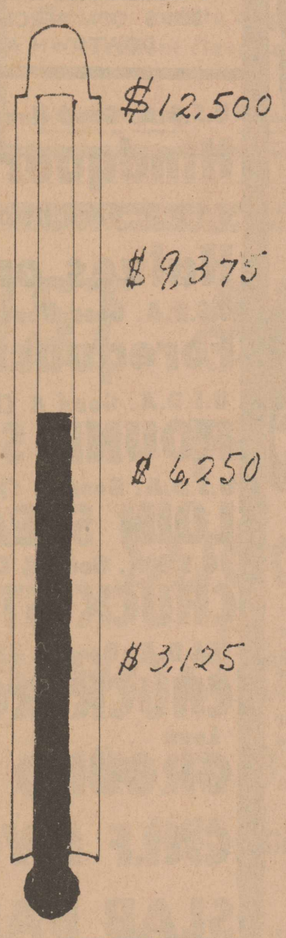

Construction of a deep-water harbor on Harbor Island and use of the dredged material to rebuild the south end of St. Joseph's Island and protect this area from hurricanes was recommended by M. W. Cochran, civil engineer and conservationist, at a luncheon meeting of Rotary Club October 17 at the Sandollar Restaurant.

Cochran said erosion of sand dunes on St. Joseph's Island during recent years has deprived the Rockport area of protection from high tides. He pointed out that Gulf water now washes over the lower end of the island, recently causing the highest tides we have experienced in 25 years, as well as gradually filling Aransas Bay and adjacent bays with sand.

He explained that a four-mile concrete bulkhead built on the lower end of the island many years ago has virtually disappeared, permitting Gulf waters to cover that part of the island and depriving mainland areas of the protection it once enjoyed from hurricane wind and water.

Unless this part of the island is rebuilt it will deteriorate further with possible, disastrous results, Cochran asserted. He said material dredged from the proposed deep water port would be ideal for this purpose. Admitting that many acres of marine life breeding grounds would be destroyed, in dredging the harbor, he asserted that the greater good for most of the people would be served by constructing the deep - water harbor on Harbor Island.

He added that a mono-buoy harbor in the Gulf off Port Aransas would endanger 100 miles of coastline in the event of an oil spill, while oil spills could be controlled and contained if the harbor is built on Harbor Island. Cochran estimated that approximately ten million cubic yards of dredged material would be required to rebuild the south end of St. Joseph Island and restore the protection it once afforded the Rockport area.

Pirates Face Taft Friday

By BOB CRAWFORD

Tomorrow night the Rockport - Fulton Pirates will go after win number 2 as they travel to Taft to meet the Greyhounds.

Both squads will go into the game with only one win, but the Pirates should have the edge after coming off their great effort last Friday night.

The Greyhounds have a win of 14-0 over Aransas Pass; while losing 7-0 against Sinton; 34-14 against Ingleside; 28-13 against West Oso, and 34-0 to Tuloso-Midway.

Taft is a small, quick team with passing possibilities, a phase of the game which has given the Pirates headaches since the Gregory - Portland game.

The Pirates will come into the game knowing they can play with the best of them, and a fine turn-out would help insure that the Rockport, Fulton, and Lamar folks know it too.

State Park Use Rules Changed

AUSTIN -- Visitors to all Texas state parks during the winter must now limit their stay to 28 consecutive days.

In their Sept. 27 meeting, the Parks and Wildlife Commission amended the overnight use period in the state's parks during the period of Sept. 16 to April 30.

The commission also added a clause whereby if a visitor stays in a park for seven consecutive days and then leaves it will be the same as staying the maximum 28 days.

At the end of the maximum time period, a visitor will not be able to use the overnight facilities of a park until a period of at least two Saturdays has elapsed beyond the date of his departure.

However, no person may be required to leave a park or facility at the end of the time limit unless in the opinion of the park superintendent the facility being occupied is needed for incoming park visitors.

According to Parks and Wildlife Department executive director Clayton T. Garrison, the overnight use rules will enable the maximum number of visitors to utilize state parks during the winter.

"Texas parks," said Garrison, "have experienced a tremendous increase in the number of visitors who arrive in enclosed recreational vehicles.

"Quite often they monopolize park facilities and prevent weekend guests from obtaining camping sites."

From May 1 to Sept. 15, the maximum use time remains the same: 14 consecutive days. A similar clause exists for summer usage whereby more than seven consecutive days of occupation in overnight facilities are the same as the maximum 14 days.

OUTDOORS 'n things

by L. D. NUCKLES

In the late 1800's an English-born resident of New York City was homesick for his native land so he imported a small number of starlings and released them in Central Park. He hoped they would live there and perhaps even reproduce so that he would have some birds that are quite common in England to watch. They did just what he wanted, and much more. They have multiplied and spead until today they are the most numerous bird in North America, and probably the most disliked. Now, wildlife officials are afraid that history may be repeating itself, except that this time the bird is the monk parakeet of South America.

This small, sub - tropical parakeet was originally brought to the United States as a pet, but now has been spotted free-flying, and sucessfully nesting and reproducing in 22 states. In spite of sub-freezing winter temperatures, some 200 to 300 are known to be living wild in the New York metropolitan area.

From 1968 to 1972, more than 50,000 monk parakeets were imported to the United States. They were sprayed and checked for disease as they were imported, so the wild birds we now have are exceptionally clean and free of disease. Without its traditional predators and diseases to control its spread, the only other limiting factor is food which they can locate quite easily. It appears, however, that, at lease at the present time, these parakeets are introduced into new areas by escaping from or being released by their owners rather than by population expansion or migration.

They are a handsome bird about 11 inches long. They have a light gray forehead, crown, and breast with light green upper tail coverts, wing coverts, and back feathers. The long tail feathers are dark green.

A sociable bird, the monk parakeet lives in small communities, sharing large common nesting structures. The nests are cylindrical in shape and three to four feet long by two feet deep with one or more entrances on the lower side that lead to small compartments. It is usually constructed of young twigs one to two feet long. The largest nest found so far was six feet long by four feet deep with eight entrances.

In Paraguay, Uruguay, Brazil, Bolivia, and Argentina, the monk parakeet is considered an agricultural pest. They have been known to damage up to 45 percent of such crops as sunflowers, corn, sorghum, millet, and citrus fruit. The Argentine Government has been trying to eradicate this bird since 1947, without a great deal of success.

Although the population in America is still too small to cuase severe agricultural damage, wildlife officials are taking measures to exterminate or control the birds before they become a serious threat. There have been some reports of damage to fruit crops and decorative lawn trees in the vicinity of nest sites. Wildlife biologists at the Wildlife Research Laboratory in Delmar, New York say that they are shooting the birds and destroying all the nests and eggs that they find.

For my part, they can just keep the monk parakeet in South America. We certainly have no need for them in Texas.

To Be Wed

Mrs. Annie Cox of Fulton announces the approaching marriage of her daughter, Miss Bobbie Lorean Cox, to William Alfred Mills, son of Mr. and Mrs. Melvin Mills. They plan a November 10 wedding at the First Baptist Church.

The Teagues Create Pottery

Bill and Virginia Teague are potters who recently moved here. Bill is from New Mexico and Virginia is from Maryland. They hope to get the community involved in clay and creating pottery.

Bill compounds all the glazes and does most of the firing of the pieces in the kilns. His specialty is making large decorative pottery.

Virginia makes more functional pots, dinnerware casseroles and hanging planters.

The couple met while Bill was in the Navy, stationed at Ft. Meade, Maryland, and Virginia was teaching arts and crafts in the Special Services at the same base.

Bill attended Baylor University, majoring in Math and Physics, before entering the service. He attended Towson State taking courses in ceramincs and kiln building.

Virginia graduated from MD Institute College of Art with B.F.A. in Interior Design and Crafts. She received graduate credit from Towson State in Ceramics.

Virginia and Bill will be joining Irwin and Betsy Tuttie at the Art Workshop on 406 S. Austin Street.

Virginia will be teaching classes in hand building and use of the potter's wheel. The hand-building will include various methods of creating decorative articles for the home using the hands, the preparation of clay, glazing and firing will also be included in the 6 week course.

For more information, see their accompanying ad.

Circle No. 2 Meets

The October meeting of Presbyterian Circle #2 was held in the home of Mrs. H.C. Thomas. Delicious refreshments were served to fifteen members and one guest, Mrs. Mary Clark, president of Women of the Church.

The new chairman, Mrs. Clifford Cox, opened the meeting with a prayer. Minutes were read by the secretary and the treasurer gave her report. Members reported on the lap robes being made for the nursing home for Christmas.

The lesson "Freedom - A Personal Experience" was moderated by Mrs. Bob Young. The meeting closed with the Mizpah.

Camehl, LaBorde Unite

Miss Veronica LaBorde became the bride of Ernest H. Camehl III October 13 in the First Presbyterian Church.

The bride is the daughter of Mrs. Bill Pendley of Rockport and Joseph LaBorde of Marksville, La. The groom is the son of Mrs. Henry Camehl, Jr. and the late Henry Camehl, Jr.

Given in marriage by her brother, Larry LaBorde of Houston, the bride wore a floor length dress of off-white slipper satin, with long fitted sleeves, a stand up collar of cotton lace and a lace panel extending from the neck to the hemline. Her bouquet was of miniature pink roses and net.

Rev. John Robert Bradshaw, pastor of the church, performed the double ring ceremony. Mrs. Larry LaBorde, sister-in-law of the bride, was matron of honor. Her dress was a floor length moss green full skirt with a pale rose top. The altar held tall white baskets of white mums and pink carnations.

Franklin D. Rowe served as best man. James Fully Clingman of San Antonio and Jackie Smith of Ganado were ushers.

The reception was held in the Fellowship Hall at the church. Mrs. Brooks Robbins attended the guest register. The bride's table was covered with pink and white net.

The bride's bouquet served as the centerpiece for the bride's table. The three-tiered wedding cake was served by Mrs. Bruce McMahn. The punch was served by Miss Denise Washburn.

The groom's table was covered with pale green net. Mrs. Jewel Moody served the groom's cake. Miss Johnnie Grossman served the coffee. Nuts and pink and white hand made mints were also served.

The bride's mother wore a street length double breasted dress of beige brocade with beige accessories. The groom's mother wore a 3-piece street length coatdress of fall print with a white blouse. Both wore white corsages. Mrs. Norman McLead played the traditional wedding music.

The couple will make their home at 1035 N. Wood in Rockport.

Out of town guests were Mr. and Mrs. Howard White, Mrs. Janara Thomson of Dallas, Mr. and Mrs. Wayne Shutts, Mr. and Mrs. Bob Marcus, Mr. and Mrs. Larry Dreyer, of Corpus Christi, Mr. and Mrs. Eddie Morrison of San Antonio, Mr. and Mrs. Jackie Smith of Ganado and Mr. and Mrs. Larry LaBorde of Houston.

The rehearsal dinner for the wedding party was given by Mrs. Henry Camehl at her home. A complete Mexican dinner was served.

Breeders have sought a true blue rose for years without much success.

Lamar Woman's Club Meets

The Lamar Woman's Club held its monthly luncheon meeting in the Emerald Room of the Sea Gun Restaurant. Hostesses were Mrs. R. E. House and Mrs. M.H. McKinsey.

Names were drawn for secret pals for the year. Plants and cuttings were exchanged, and a door prize of assorted plants was given.

There were 17 members present. Mrs. George Dunn was greeted as a new member, and Mrs. J. L. Anderson, Jr. and Mrs. Judy Commander were visitors.

LIBRARY NEWS

Mrs. A.C. Hamon, Librarian represented the local library at the workshop in Brownsville, October 19 in conjunction with the Texas Library Association convention. Representatives of the Corpus Christi public library system were in charge of the workshop. All area libraries were represneted at the convention.

*

New books for the local library shelves include H. Lincoln Foster's "Rock Gardening". This book will be of assistance to anyone interested in rock gardening. This form of gardening is now well within the reach of many with only small garden plots, and requires a minimum of professional help. The book has detailed instructions for selection, placement and drainage. The heart of the book is an alphabetical descriptive catalogue of many genera, comprising over 1900 individual plants with cultural directions for each. The range runs from spring flowering bulbs to autumn aster.

Also with the gardener in mind, the library has purchased a copy of Thalassa Cruso, "To Everything There is a Season." Within the pages of this book Cruso shares the pleasures she has experienced and the problems she has faced season by season in her own gardens and in her role as "gardener-at-large" to thousands of televison viewers.

*

Story Hour will be conducted by Mrs. Roger Bennett at the library Thursday, November 1, 10:30 - 11:00. All preschool children are invited to attend.

RFJH "Bucs" Split With Sinton Jr. High

Last Thursday the RFJH Bucs split their games with the Sinton Jr. High.

The 8th grade Bucs winning 30-6 and the 7th grade Bucs losing 12-0.

The 8th grade Bucs gave a complete team effort as everyone got into the game. The scoring was also spread among five differnt players. The Bucs were allowed only two plays the 1st quarter, but from the 2nd quarter on the game was all Bucs.

The Bucs scored 14 points in the 2nd quarter on a 62 yard run by Bobby Lewis and a short 3 yard plunge by Richard Mendiola. Bobby Lewis also scored a two point conversion to make the score 14-0 at half.

The third touchdown came in the third quarter on a recovered fumble in the end zone by Armando Galindo. The two point conversion was good by Leslie Jones to up the score to 22-0 late in the 3rd quarter.

Sinton Jr. High was able to break for a 30 yard touchdown, but the conversion failed leaving the score 22-6 at the end of the 3rd quarter.

Midway through the 4th quarter Leslie Jones punched across the final touchdown on a 4 yard drive, the conversion was made good by Ray De Los Santos, making the final score 30-6. The Bucs rushed for 19 1st downs and 242 yards. The leading rusher was Bobby Lewis with 122 yards, followed by Leslie Jones with 70 yards and Richard Mendiola with 61 yards. The entire Buc team played an outstanding game offensively and defensively.

The 7th grade Bucs found it tough going, as they were not able to get any offense going against Sinton. The Bucs were in the game all the way, but fumbles and miscues stopped any offensive drive the Bucs had going.

Defensively the Bucs had problems in containing the Sinton offense, as they gave up 12 points. Again, it was mistakes that hurt the Bucs defensively. The final score was 12-0, Sinton's favor.

The Bucs play their next game in Taft against Taft Jr. High. The game will be played this afternoon at 5:30 in the Taft High School Stadium.

Tennis Match Ends In Tie

A team tennis match played October 11 between women representing the Key Allegro Tennis Club and the Corpus Christi Country Club ended in a tie, with each team winning four singles and two doubles. The match was played on the courts of the Key Allegro Club and the Rockport Racquet and Yacht Club under supervision of James Langham, Key Allegro professional.

Singles winners were decided in eight-game sets, while 10-game sets were played in the doubles. Because of the number of players involved, it was necessary to use the courts of both clubs. Racquet Club courts were made available by Joe Couch and George Faulk, owners and operators of the courts and restaurant.

Corpus Christi winners in the singles were Loyce Ladewig who defeated Marcia Vander Witt, 8-6; Alice Sutherland, who won from Nancy Moran, 8-7; Jane Wilson who won, 8-1, from Jo Janecek, and Dottie Layton, 8-7 winner over Edwina Garrison. Key Allegro winners in the singles were Janet Langham who beat Kitty Renfro, 8-4; Louie Hill, winner over Jayme Boriack, 8-1; Lee Wideman who defeated Sherri Greenwood, 8-1, and Pat Evers who beat Eva Mae Smith, 8-5.

Key Allegro winners in the doubles were Vander Witt and Langham who won from Wilson and Renfro, 10-4; and Wideman and Evers who defeated Greenwood and Smith, 10-3. Corpus Christi doubles winners were Southerland and Layton who won from Moran and Janecek, 10-2, and Ladewig and Boriack, who defeated Pat Krueger and Hill, 10-5.

It is planned to have a return team match with the Corpus Christi players, according to Langham.

A women's round robin tournament in which eight Key Allegro Club players met each of the other entrants in 10-game sets recently was completed at the club. Winner was Marcia Vander Witt with a total of 65 points. Runner-up was Edwina Garrison with 60 points.

BEE COUNTY WESTERN WEEK CELEBRATION

Bee County's annual celebration, Western Week, will feature a Mexican rodeo on Saturday, October 27, in Beeville.

The Asociacion De Charros of San Antonio is coming to Beeville to stage La Charreada, the national sport of Mexico. Mexican charros (cowboys) will tail bulls, ride wild steers and bareback broncs, and rope mares and steers by the hind and fore legs. A Charroe dances El Jarabe Tapatio (Mexican Hat Dance) with a beautiful China Poblana (gayly dressed senorita) after the rodeo's bevy of performances while mariachis sing popular airs, jarabes and huapangos. The show will go on at 1 p.m. in the Bee County Coliseum.

Three gloved rooster fights are scheduled for 11:30 in the Coliseum Arena preceding La Charreada. Across town on Highway 59, the Beeville Livestock Association will sell Herefords and F1 female cattle judged the previous day. The Auction Barn will start the bidding at 9 a.m. for the F1 cattle and at noon for the Herefords.

Bus tours of the historical sites in the Beeville area and of NAS Chase Field will be conducted at 2 and 4 p.m. from the Coliseum. A wildcat Show of handcrafted items and St. Philips Art Fair are slated for 9 and 11 a.m. respectively. Coin and stamp collectors may review a range of valuable pieces while art connoisseurs note the talents of regional painters.

Huge tents will house a massive western-style Bar-B-Q with over 4,000 pounds of beef on hand.

A Western Week Committee sponsored Al Dean Dance, from 8 to 1 in the Coliseum, caps the evening and week's activities. The final judging of the week-long Beard Contest will take place during intermission.

Other activities of the week are: Kangaroo Court, where males (who wish to join in the fun) without hair on their face and a beardless permit or persons not in western attire may be thrown in jail or fined; Beard Contest, entrants on the streets of Beeville should have a mustache, goatee or full beard visible at 10 feet; "Midways of Tomorrow" carnival, rides for young and old; Western Parade, Gov. Dolph Briscoe presides as parade marshal; R.C.A. Rodeo, three performances on the first two days; and Mr. Reagan's Den, tales of the Old West narrated by Rocky Reagan and Anna Lee.

Questions and Answers

Q. My husband is 67 and gets monthly social security retirement payments. I'm 58 and totally disabled. Can I get disability benefits on my husband's work record?

A. No. You are not eligible to receive a wife's benefit until you're 62 unless you have a child in your care who is entitled to cash payments on your husband's work record. But, if you've worked long enough and recently enough, you may be eligible for disability benefits on your own work record if your disability will keep you from working for a year or more.

Q. My three children, all under 18, and I get monthly social security checks. If my oldest daughter works part time and earns nearly $2,000 during the year, does she have to make an annual report of her earnings to social security?

A. Yes. An annual report of earnings is required from every social security beneficiary who is under 72 and has earnings of more than $1,680 in 1972. The annual report is due by April 15 of the following year.

Q. My 18-year-old son has been getting monthly social security checks since his father died. He is going to get a job for the summer vacation this year. Will he stop getting his monthly benefit checks when he starts working?

A. It depends on his earnings for the whole year. A student can continue to get benefits for all months in a year in which he earns *$1,680 or less for the year* in wages. If he exceeds $1,680, then $1 in benefits is withheld for every $2 of earnings up to $2,880. Above $2,880, an additional $1 in benefits is withheld for every $1 earned. Regardless of how much his yearly earnings are, however, he can still receive a benefit payment for any month in which he neither earns $140 or more nor performs substantial services in self-employment.

Q. I'm a college student getting monthly social security checks. Since I've already told social security I would be in college until 1973, why do I have to fill out and send in a student reporting card?

A. Students sometimes have to change their plans. The End of the School Year Report verifies a student's current enrollment status and his continuing intent to attend school full time.

Sinton Eases By Pirates 20 - 18

By Bob Crawford

Rockport - Fulton fans had their hearts stopped with 2:13 remaining in last Friday's game as Sinton posted a go-ahead score and plucked the game from the Rockport team's grasps at Pirate Stadium.

The Pirates had fought from 13 points behind to take an 18-13 lead, only to have the only pass completed in the second half by Sinton go the distance for a score. The Pirates also failed to take advantage of any on the three points after touchdown tries which eventually spelled doom for the Pirates.

Sinton, coming into the game undefeated, took advantage of Rockport miscues from the opening series of plays to stay among the undefeated. A fumble late in the fourth quarter gave Sinton possession of the ball on their own 43, and in 4 plays the Sinton team had scored the winning TD.

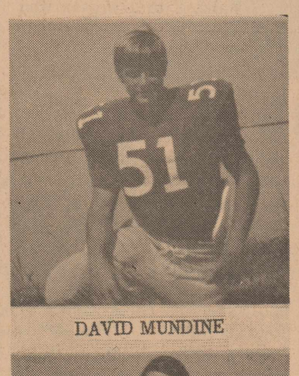

Sinton took the early lead in the game after the Rockport defense held on the first series of plays, forcing the Sinton team to punt. The punt touched a Pirate player after hitting the ground, and the Sinton team recovered, and in two plays pushed the first score in on a long pass.

After a short Pirate punt Sinton again mounted a drive to score and take the lead 13-0. Two plays following the kickoff to Rockport quarterback Scott Gillis threw a 61 yard bomb to halfback Bill Mercer and the Pirates were on the scoreboard before halftime, but as was the case on two later occasions, the Pirates could not score the extra points.

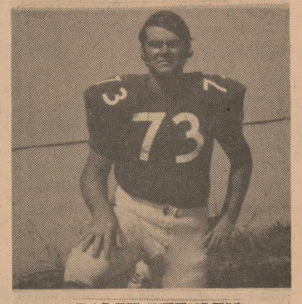

The Pirates stormed back in the third quarter with Rickey McLester running from 7 and 55 yards out for TD's, giving the Pirates the lead.

Quarter number 4 was a see-saw match until the last two and a half minutes.

McLester was the key ground-gainer for the Pirates with 123 yards in 17 tries. Many times McLester followed the blocking to the interior of the Pirates' line to gather his gains.

DAVID MUNDINE

RALPH WEEKLEY

PEDEN ROGERS

Ralph Weekley, logging more playing time than in any previous game, turned in a steady performance. Ernest DeForest and Bob Mundine were cited for big plays.

Cross Country Team Wins Beeville Meet

Members of High School cross-country track team are (back row, left to right) Raul Ramirez, Robert Hernandez and Keith Williams, and (front row) Charles Torres, Ruben Guerrero and Steve Lara.

The Rockport - Fulton High School Cross Country Track Team traveled to Beeville Saturday to take part in the first Cross Country Track Meet ever held there.

Twelve schools were represented at the meet with most being in the 4A and 3A classifications. Two divisions were offered with the Junior Varsity running before the Varsity.

Representing Rockport-Fulton in the Junior Varsity division were Keith Williams who placed second and Raul Ramirez who placed third. No team champion was recognized in this division but the first three finishers were given individual trophies.

Representing Rockport-Fulton in the Varsity division were Charles Torres who finished third; Robert Hernandez who finished seventh; Ruben Guerrero who finished ninth and Steve Lara who finished nineteenth.

Torres received an individual trophy and the team won the Meet Trophy in the Varsity Divsion.

The team will travel to Corpus Christi Saturday to take part in another meet.

Sinton Tops Pirate JV 46-0

By BOB CRAWFORD

The JV Pirates of Rockport-Fulton found the going tough in Sinton last week losing 46-0 to a powerful, junior-laden Sinton JV, but the score also indicates that three key people were out with illness for the Pirate team.

The Pirates trailed only 7-0 at the end of the first period, but by halftime the Sinton team had racked up 27 more points.

Rockport was forced to use the service of regular halfback Kevin Vannatter at quarterback due to illness to quarterback Jay Watkins, and Vannatter did a fine job. Vannatter directed the attack and passed 8 times completing four, three of which went to tight end Bobby George and one to John Brasher, the split receiver.

John Miller was the leading ground gainer for the Pirates with 80 yards in 14 carries.

Bill Smith and Vannatter were the team leaders on defense which was without the services of leading tackler Joe Harrington, and cornerback Johnny Washburn.

The Pirate JV and Freshmen teams play host to Taft this afternoon at Pirate Stadium.

Pirate Freshmen Team Fall 16 - 0

By BOB CRAWFORD

Sinton's freshmen team put together two solid drives for the only scores of the game to blank the Pirate Frosh 16-0 last week in Sinton.

After Pirate halfback Russell Pyle broke for 54 yards on the Pirates first play, the Pirates had trouble moving the football except on passes. Quarterback Dickie Ballou and company went to the air 23 times, connecting on 10 occasions. Mike Garcia turned in a long run to the Sinton goal line, but had the play nullified by a penalty.

Defensively the Pirates were led by Claudio Lara, Rey Guerrero, and Ronnie Ormand.

The Kinsey Report

Ten years ago, just before we moved from Chicago to Corpus Christi, my wife and I were talking to a woman who had lived in Corpus Christi when her husband was stationed at the Naval Air Station during World War II.

"I hated Corpus Christi," she said. "It was hot and humid and there were millions of bugs and insects everywhere. Let me give you a piece of advice: before you put your shoes on, pick them up one by one, turn them upside - down, and shake them to be sure there are no scorpions or cockroaches in your shoes."

As I recall, we didn't thank the woman for her advice. I believe I thought (but didn't say), "Oh, shut your big mouth."

We moved to Corpus Christi in 1963 and two years later moved to Rockport where we have lived ever since. Although there are times each summer when we wish it was a bit cooler and less humid, generally speaking we have enjoyed the climate much better than Chicago's weather -- and we sure have been happy to be far away from the long, tough winters, snow, icy pavements and cold winds that Chicagoans have to endure each year.

As for the bugs, we have found that by keeping your home clean, putting food away, and occasionally having your house treated by a bug exterminator, bugs are not a serious problem.

But, you know, that comment about shaking your shoes upside-down before putting them on has stayed with me all these years. And the thought of a scorpion being in a shoe does scare me.

And so, I'm ashamed to admit, every morning (even now) before I put on my shoes, I think, "Damn that woman," and then I pick up each shoe, turn it upside-down, shake it and then put it on.

PUBLIC NOTICES
"BECAUSE THE PEOPLE MUST KNOW"

(Editor's Note: Public Notice advertising plays a unique role both in American history and in the process by which this country's democracy is preserved. Its one premise is that people must be informed if they are to govern themselves competently. Public Notice advertising first came into being with the Congress of 1792. That body, recognizing its responsibility to the people, required the Postmaster General to advertise for bids for the construction of new post offices. From that inauspicious beginning to the complex publication requirements in federal, state and local laws today, government officials have come more and more to understand their obligations to inform the public through Public Notice advertising. Newspapers over the years have been the vehicle by which these obligations have been fulfilled. They will continue to be as long as the public demands that it be informed frequently and by the best means possible.)

Brownies Thank E. A. Stautzenberger

Brownie Troop #411 met Monday and had quite an eventful meeting. Since it was such a pretty day they decided to pick up some litter near Circle K on Hwy. 35 north.

Leaders called the Sheriff's Department to see if they could get a patrol car to come out and remain near during the clean up.

An off duty officer came out and aided. After the clean-up he invited the children to take a tour of the jail. One girl said "Do you think he will put us in jail?"

Another girl said "I don't want to go to jail". She was told not to worry about it and the girls sang the Brownie Smile Song to the officer.

He then invited the girls into the Circle K store where he treated them to ice cream. Outside they again thanked the officer.

One girl was in awe and said "I never saw a real live police man before". The little girl who earlier worried about going to jail said "He wouldn't put us in jail, he loves us".

How does one thank an officer for taking his afternoon off and doing such a wonderful deed that is well beyond and above the call of duty. Chief Deputy E. A. Stautzenberger, the Brownie hats are off to you. They think they are very fortunate to have such a fine officer as you to protect them and be a friend.

Mrs. Dan R. Shelton, leader, Mrs. Leslie Holcomb, assistant leader, Mrs. C. E. Gooding, a very helpful friend, Mark Holcomb, a mascot, Shelly Shelton, Shelly A. Morris, Mary Betancourt, Sandra Mott, Christine Canterbury, Teri Shirley, D'Weanna Koen, Aenin R. Anderson, Lorraine Koen, Mary Stricker, Helen Jenkins, Martha Johnson, Lisa Marie Shirley, Debra Jo Harbst, and Dee Anna White, say "thank you."

Kinsey, Allen Wed

Candlelight marriage vows on September 28th united Miss Rubie Gayle Allen and Stephen Douglas Kinsey, both of Farmington, New Mexico.

Parents of the couple are Mr. and Mrs. Orion C. Allen of Bloomfield, N.M. and Mr. and Mrs. J. D. Kinsey of Farmington, N.M. The groom is the grandson of Mr. and Mrs. E. J. Johnson and Mr. and Mrs. I. E. Allemang of Rockport.

The wedding ceremony, at the home of the groom's parents, was performed by the Rev. Larry Kemp.

Arrangements of daisies and baby's breath decorated the organ and candlelabra on each side of the fireplace, which was filled with pots of yellow mums.

Miss Cynthia Kinsey, sister of the groom was organist and presented a prelude of love songs and the traditional wedding marches.

The bride given in marriage by her father, wore a floor length gown of ecru India cloth, with long ruffled sleeves of matching cluny lace fastened with pearl buttons. Bands of lace trimmed the skirt and formed a yoke inset on the gown. She wore a short mantilla of ecru lace. Her bridal bouquet was of white daisy mums and blue baby's breath on a white Testament which had been a gift to the groom at his birth.

Mrs. Tommy Nelson served as her sister's matron of honor. She wore a floor length gown of baby blue velvet with an empire waistline and short puffed sleeves. She carried a bouquet of yellow daisies and blue baby's breath. Miss Laura Jo Allen served as her sister's bridesmaid. Her floor length gown was of brown, with bodice accent of embroidered daisies. Her bouquet was of yellow and white daisies and baby's breath.

Orion Allen, Jr., brother of the bride served as candlelighter.

David Kinsey was best man for his brother and Tommy Nelson served as groomsman.

Following the vows, a reception was held in the formal living and dining area of the home. The bride's table was covered with a floor - length cloth of white, featuring a ruffled flounce of white embroidered tulle. Narrow white satin ribbon and sprigs of blue and white baby's breath accented the table along the top of the flounce. A silver epergne centered the table and held blue tapers and an arrangement of yellow and white daisy mums, blue and white baby's breath and greenery.

The 3 - tiered wedding cake was white, trimmed in blue forget-me-nots and topped with a tiny cherub in a pedestal bowl. A white stairway spiraled down one side of the cake with tiny white candles on each step.

The table also held the crystal punch bowl, trays of finger sandwiches, mints and nuts. Coffee was served from a silver service on the sideboard. Serving in the houseparty were Miss Marie Painter, Miss Emily Lobato, Miss Lynn Kimmick, Miss Joy McLead, Mrs. Norman McLead and Mrs. Raulie Irwin, Jr.

Out of town guests included grandparents of the groom, Mrs. Norman McLead and Joy from Rockport and Mr. and Mrs. Raulie Irwin, Jr. and Pat McLead of Glenwood Springs, Colo.

After a wedding trip to Telluride, Colorado, the couple are at home in Farmington, New Mexico.

The bride is a graduate of Bllomfield High School and attended New Mexico State University. The groom is a graduate of Farmington High School and attended McMurry College in Abilene and the University of New Mexico.
