TEAR GAS TOSSED INTO STANDS—A Peruvian policeman tosses tear gas bomb towards spectators in the stands of a stadium at Lima in an attempt to control a riot that took place during the International soccer championship game between Argentina and Peru. At least 285 persons died and more than 500 were injured in the frantic rush to exits. The riot started when a fan jumped out of the grandstand to protest a referee's decision in the match. (AP Wirephoto via radio from Lima)

Red Spy Says Work Easy In US

STOCKHOLM, Sweden (AP)—Col. Stig Wennerstrom has testified that, as a spy for the Soviet Union, he had no difficulty in collecting information about U.S. defense industries.

"It was easy to get information if you indicated you were interested in buying," the 57-year-old airman - diplomat declared in secret proceedings made public in part today.

"This was no problem for me as I made purchases for the Swedish air force. The air force bought a great deal of material from the United States and I visited many industries. It was easy to make contact with the top executives."

He was Sweden's air attache in Washington from 1952 to 1957.

Wennerstrom said information on Polaris submarines was among material he turned over to Moscow.

Wennerstrom has admitted spying against his neutral homeland, the United States and the North Atlantic Treaty Organization for 14 years. Tried only for relaying Sweden's defense secrets to the Russians, he is to hear the verdict June 12.

In an open court session May 15 he said he acted from "idealistic motives." The prosecution demanded that he be sentenced to life imprisonment. His defense counsel suggested 12 years in prison.

Parts of the records of the police investigation and interrogation released today covered 900 of a total of 3,700 pages. The rest is marked secret and probably will never be published.

Nat'l Guardsman Shot In Cambridge Flareup

FATAL CROSSING—This is what was left of an automobile which Paul Gravil, 40, of Richmond, Ind., drove into the path of a freight train at a crossing. The train dragged the car onto a bridge over a street. Gravil, alone in the car, died in the wreck. (AP Wirephoto)

Tear Gas Used To End Riots

By HERB THOMPSON

CAMBRIDGE, Md. (AP)—One National Guardsman was shot and three others were injured Monday night in a new flareup between integrationist demonstrators and troops using bayonets and tear gas to disperse them.

State police said several demonstrators also were injured in the clash as bullets, bricks and bottles whizzed through the air in the city's Negro district.

Hundreds of whites milled along the edge of the district, heckling guardsmen and shouting taunts at integrationists across the street.

Further disorder was averted when Brig. Gen. George M. Gelston clamped a curfew on the town and guardsmen moved shoulder to shoulder down the main street to clear it of spectators. Ironically named Race Street, it divides the Negro section of about 4,000 from the 8,000 white population.

None of Monday night's injuries was described as serious, but the clash was the third outbreak in two weeks and the most serious in nearly a year. The guard was ordered into Cambridge by Gov. J. Millard Tawes last summer after a series of shootings and arsons. It has been there since.

In the latest eruption, a Negro guardsman was wounded in the left shoulder by a small-caliber bullet. Another, also Negro, suffered a burned hand when a grenade he was holding exploded.

A plastic fragment from the grenade hit the gas mask of an officer, cutting his face. A rock hit a fourth serviceman, possibly fracturing an arm.

Gelston said about 150 demonstrators, all but about four or five of them Negro, had begun marching and singing some two hours before the violence.

Guard details were assigned to key intersections to prevent Negroes from leaving the district and whites from entering it.

Several times groups of Negroes tried to march out, were confronted by guardsmen and turned back. As the number of whites along Race Street built up, so did the tension.

Johnson Inks Bill For IDA

WASHINGTON (AP)—President Johnson put the finishing touches on a major foreign aid victory today by signing legislation authorizing a $312 million U.S. contribution to funds of the International Development Association (IDA).

He called the measure "international sharing at its best."

The legislation assures IDA, a World Bank affiliate, of a $750 million replenishment of its loan capital from the United States and 16 other industrially advanced nations over a three-year period beginning July 1, 1965.

The $438 million pledged by other member countries would be lost in the absence of the U.S. contribution.

IDA was established in 1960, at the urging of Sen. A. S. Mike Monroney, D-Okla., to provide a source of capital for long-term, easy pay loans to underdeveloped countries unable to meet the cost of private capital or World Bank loans.

Originally passed by the Senate Jan. 20, the resolution ran into trouble in the House. After floor debate on Feb. 25 and 26, the House voted 208 to 188 to recommit it to its Banking Committee.

Following a special message to Congress by Johnson urging reconsideration, and testimony by Secretary of State Dean Rusk and Secretary of the Treasury C. Douglas Dillon, the measure was reported back to the House in language identical to the Senate version.

Then, on May 13, the House reversed its earlier stand and passed it by voice vote after a Republican motion to return it a second time to committee was rejected, 247 to 132.

Vehicles Hit Cotton Bales In Freak Mishap On Lubbock Highway

Two bales of cotton, knocked from the top of a truck, bounced wildly down the Lubbock Highway at about 8 p.m. Monday and each collided with a moving vehicle.

The bales were knocked off by the Santa Fe underpass just north of Snyder. The trailer truck headed south, was driven by Allen Cavitt of Lubbock.

A 1962 Chevrolet, driven by Josephine Wiley of California was going north at just the wrong time as the bales came bouncing down the highway. She told a Texas Highway Patrol officer who investigated the mishap, that she tried to avoid the bale but was unable to do so. Damgae to her car was estimated at $500.

A truck driven by Doyle David Chastain of Abilene was following the cotton truck. Chastain was unable to avoid the other bale, and damage to his trailer truck was estimated at $50.

There were no injuries.

Louisiana May Close Pavilion At Fair

BATON ROUGE (AP) — The Louisiana pavillion at the New York World's Fair was reported today in danger of being closed permanently. The exhibit failed to open Monday. Gov. John McKeithen said a New York group told him the pavillion was near bankruptcy and about to close.

Lima Police Alerted For More Riots

By THOMAS J. STONE

LIMA, Peru (AP)— Feelings ran high in the Peruvian capital today and police were on the alert for more disorders in the wake of Sunday's bloody finale to a soccer game.

Police announced an official toll of 328 dead in the panic after police fired tear gas to check a riot in Lima's National Stadium.

The police said 122 of the victims had not been identified.

It was the sports world's worst disaster, and the International Soccer Federation, with headquarters in Zurich, Switzerland, asked the Peruvian association for detailed information. The rioters were protesting a referee's decision against the Peruvian team in a Peru-Argentin apre-Olympic match.

The police used tear gas again Monday to break up a small demonstration by students in front of San Marcos University. The police said inflammatory speeches were being made.

Police reinforcements repelled a Lima mob headed toward the home of Commander Jorge de Asumbuja, whom they accused of ordering tear gas shells fired into the crowd pouring onto the soccer playing field.

Asumbuja said none of the gas grenades was fired into the stands. He blamed locked exit gates for the mass suffocation and trampling of the victims.

Argentina was leading 1-0 when Peru scored a goal on an accidental kick by an Argentine player. Referee Eduardo Pazos of Uruguay nullified the point because of a foul.

Fighting broke out among some of the 45,000 fans and police escorted Pazos and the players from the field. Pazos declared Argentina the victor.

As portions of the mob surged toward the playing field, police fired tear gas into the crowd.

In an attempt to escape the choking fumes, the mob surged toward exit gates, locked to keep non-paying youths from sneaking in to watch the game.

Absentee Voting Set

County Clerk Dan Cotton has announced that absentee voting in both the Democratic and Republican primary election run-offs will start tomorrow morning and will continue through Tuesday, June 2.

The absentee voting boxes will be located on the third floor of the courthouse in the same location where they were for the first primary election.

Those who will be out of town on election day may vote there in person. Those who will vote by mail may obtain instructions by contacting the county clerk's office.

Mrs. Joyce Dies Today

Funeral services will be held at 3:30 p.m. Wednesday for Mrs. Laura Sturdivant Joyce, 85, of 3106 Avenue U.

Mrs. Joyce died at 12:30 a.m. today at Cogdell Hospital.

Born Apr. 10, 1869 in Bell County, she was married in the home of her parents, Mr. and Mrs. W. L. Sturdivant, on Feb. 6, 1898. The Sturdivant home was just east of Hermleigh.

Mr. and Mrs. Joyce made their first home seven miles north of Hermleigh, and moved to Snyder in 1920. Mr. Joyce died in 1959.

The funeral services will be held at the East Side Church of Christ of which Mrs. Joyce was a member. Richard Williams, minister of the church will officiate. Burial will be in Snyder Cemetery under the direction of Bell - Seale Funeral Home.

Mrs. Joyce is survived by seven daughters, Mrs. Sam Nations of Cassville, Mo., Mrs. Schley Adams of Hermleigh, Mrs. Vern Gilmore of Rising Star, Mrs. Lee T. Stinson of Snyder, Mrs. H. C. McPherson of Big Spring, Mrs. George T. Vicary of Hermleigh, and Mrs. M. G. Polk of Austin; two brothers W. M. Sturdivant and John Sturdivant, both of Odessa; 15 grandchildren and 22 great grandchildren.

Brokers Attend Forum

HUNTSVILLE (AP) — More than 200 investment brokers are attending the Texas Municipal Advisory Council forum here.

TOM LEMASTER

Lemaster New Manager Of Anthony's

Tom Lemaster, manager of the company's store in Colorado City for the past two years, has been named manager of the C. R. Anthony Co. Department Store in Snyder.

He succeeds the late Olan Griffith as manager of the store here.

Lemaster has been associated with Anthony's for seven years, starting to work for the company's store in Slaton in 1957. Two years later he was transferred to the Big Spring store, where he remained for three years before being transferred to Colorado City as manager.

Lemaster is married and he and his wife have two children. They are members of the Methodist Church.

The new Anthony's manager said he would move his family to Snyder soon.

Red Troops Pushed Back

By TONY ESCODA

VIENTIANE, Laos (AP)—The Laotian neutralists claimed today that part of their army had launched a counterattack and driven the Communists back in the Muong Kheung sector northwest of the Plaine des Jarres.

Gen. Amkha Soukhavong, neutralist military adviser to Premier Souvanna Phouma, said the Communists had been stopped 12 miles short of their next objective, Muong Soui, on a main east-west highway from the plain.

Unofficial reports told of clashes only seven miles from Muong Soui.

Amkha said a battalion of neutralist infantry, 19 tanks and 8 armored cars, which had been routed from their headquarters at Muong Kheung, on the northwest fringe of the strategic plain recaptured two-thirds of the sector.

Prince Souvanna warned the National Assembly that if Muong Suoi fell, the Communists would threaten the royal capital of Luang Prabang and Vang Vieng on the main road south to Vientiane.

Some 2,500 right-wing troops were spread out in a defense line above Borikhane, about 25 air miles east of Vientiane. The village is the last major right-wing defense point between another Communist force and the rightist-controlled town of Paksane, on the Mekong River border with Thailand.

The Communists captured the town of Tha Thom 12 days ago and are using it as a base for a move against Borikhane less than 20 miles away.

Souvanna told the assembly he rejected an invitation by the Pathet Lao chief, Prince Souphanouvong, to go to his Khang Khay headquarters for peace talks. Souvanna said he asked Souphanouvong to meet with him at Luang Prabang.

Diplomatic sources said Britain is considering issuing invitations for a consultation here of ambassadors from the 14 nations of the Geneva conference on Laos to discuss steps to avoid further deterioration of the situation.

Communist countries are demanding a full-fledged Geneva conference be reconvened and are not expected to take part in local consultations.

Longview To Get Canning Company

LONGVIEW (AP)—A canning company employing several hundred persons will be established in Longview, said Robert Uilein, president of the Joseph Schlitz Brewing Co. which will build a $15 million brewery here.

The Longview Industrial Commission honored Uilein Monday with a banquet.

China's Attitude Is No Surprise

WASHINGTON (AP) — U.S. officials displayed no surprise today that Communist China had refused to use its influence in checking the Communist-led offensive in central Laos. Official comment was deferred until the text of the Peking note is seen here.

WEATHER

SNYDER TEMPERATURES: High Monday, 93 degrees; low, 64 degrees; reading at 7 a.m. today, 70 degrees.

North Central and Northeast Texas: Clear to partly cloudy and warm today and Wednesday. Low tonight 67 to 74. High Wednesday 88 to 95.

Coast: Southeast winds 10 to 20 knots today and Wednesday.

South Central and Southeast Texas: Cloudy today and Wednesday with widely scattered late showers. Low tonight 66 to 76. High Wednesday 80 to 95.

Southwest Texas: Cloudy today and Wednesday with isolated late thundershowers. Low tonight 62 to 72. High Wednesday 88 to 98.

Negro Truck Driver Shot In Corpus

CORPUS CHRISTI (AP) — A Negro truck driver was shot to death as he stood in front of a shoe shine stand Monday night. He was Harold Jones, 30. His wife said a man threatened her husband earlier.

CIVIL RIGHTS BILL

Hopes Pinned On Amendments

WASHINGTON (AP) — Senate leaders plan to introduce today the package of amendments they are counting on to win passage of a revised civil rights bill.

Republican Leader Everett M. Dirksen announced Monday after a fourth and final GOP conference on the proposed changes that they would be ready for introduction late today—the 64th day of Senate debate on civil rights.

He also predicted that the votes will be available to shut off a Southern filibuster against civil rights legislation. "I believe we can get cloture," he said. "And I think we have to have cloture now."

Dirksen said the changes will be discussed thoroughly and ample time will be allowed for rebuttal by Southern senators who already have pronounced the package completely unacceptable.

Some senators there said another attempt will be made the second week in June to get the two-thirds vote needed to invoke cloture and shut off the Dixie oratory that has blocked action on the House-passed bill.

Dirksen said this may be a little early.

He noted that a jury trial amendment has been before the Senate for three weeks without a final vote.

This issue must be decided before the leaders' amendment package can be put before the Senate. Dirksen said a consensus had not been reached yet on the best way to handle the jury trial question.

Many senators regard the floor discussion as a marking-time operation until the showdown—cloture—comes in June.

Dirksen said some additional language modifications were accepted as a result of the Republican caucuses on the bill, but that the package as disclosed last week remained pretty much intact.

Some GOP senators said after the session they believed that chances for passage of the bill had improved, but others voiced dissatisfaction.

Morton, Hatfield Expected To Head GOP Convention

WASHINGTON (AP) — The Republican National Committee meets today to approve Sen. Thruston B. Morton of Kentucky and Gov. Mark Hatfield of Oregon as the top officers for the party's 1964 convention.

The convention arrangements committee named Morton permanent chairman Monday. He had no opposition.

Overcoming opposition from some backers of Sen. Barry Goldwater, R-Ariz., the committee combined the jobs of temporary chairman and keynote speaker and gave them to Hatfield.

Generally Morton is considered a moderate Republican. Hatfield, who usually is associated with the party's liberal wing, had been recommended for permanent chairman by the Republican Governor's Conference.

Neither man has openly supported any of the potential GOP presidential nominees.

Some Goldwater supporters had said they would fight any move to combine the job of temporary chairman — for which Hatfield had been ticketed—and the post of keynote speaker, which was wide open after National Chairman William E. Miller withdrew from consideration.

After the committee voted 28 to 20 to combine the jobs and then picked Hatfield over Gov. Tim M. Babcock of Montana by an even wider margin, 28 to 10, spokesmen for Goldwater said they were satisfied.

Miller, announcing the selections, noted that Republicans had only two major convention officers prior to 1952.

With no contests for the nomination in 1956 and 1960, he said, the three-way split of top jobs, adopted in 1952, was retained to give more exposure to Republican leaders.

"Obviously our situation this time is entirely different," Miller said. He said convention planners are faced with the task of trying to squeeze the proceedings from San Francisco into prime television time for the East. He said there could be eight or nine nominations for president, each carrying four seconding speeches, thus lengthening the program.

Two others who had been mentioned as keynoter possibilities withdrew from consideration after the committee voted to combine the job with temporary chairman. They are Sen. Peter Dominick, R-Colo., the choice of some Goldwater backers, and Minnesota state Chairman Robert A. Forsythe, who served in the Eisenhower administration as assistant secretary of welfare.

Dear Abby...

By ABIGAIL VAN BUREN

DEAR ABBY: The letter from "ONE BOY'S MOTHER" has been on my mind ever since I read it. Four years ago my boy went into the Navy. He was a good Christian boy then. My neighbor told me he wouldn't be "good" long. Abby, he is a better Christian today than he was when he went in. He neither drinks nor smokes. The Navy doesn't make our boys do anything they wouldn't do if they were home. Don't blame Uncle Sam. He had him for only a few months. His mother had him for 17 years. The Good Book says, "Train up a child in the way he should go; and when he is old he will not depart from it." (Proverbs: 22:6)

ANOTHER BOY'S MOTHER

• • •

DEAR ABBY: I read in your column that a mother was upset because she believed that her 17-year-old son had been introduced to drinking in the Army. Your answer was A-OK, but I'd like to put in my two cents' worth:

First of all, none of the armed services encourages drinking of any type, and anyone who is under age, cannot legally buy drinks ON or OFF a Military Installation. Of course there are always some idiots who will buy drinks for kids. But that can happen in your own home town or neighborhood. As you said, Abby, "It takes two to violate the law — the buyer and the seller." And the Army sure isn't one of them.

OLE SARGE

• • •

DEAR ABBY: About the mother who thought she smelled spirits on her son's breath when he got off the bus from Fort Leonard Wood: She probably did! And somebody should tell her that a "boy" in uniform can get a drink anywhere in the world, which is as it should be. The uniform indicates that instead of a "boy" he is now a man, who, after training, may be called upon to have his 17-year-old guts dumped into a Viet Namese rice paddy. Three points will get you 15.4 that this is the same mother who makes her son wear his uniform to church when he's home on leave so she can show him off as a "man."

R. S. D. (ex-Sgt.)

• • •

DEAR ABBY: If "LOOKING" and others like him do not wish to do a hitch in one of the armed services, there is an alternative — the Peace Corps.

Respectfully,
A QUAKER

For Abby's booklet, "How To Have A Lovely Wedding," send 50 cents to Abby, Box 69700, Los Angeles, Calif., 90069.

Theft Of Battery Draws Jail Terms

Two men were convicted of theft in a non-jury case in county court this morning. Each received a 60-day jail sentence.

Defendants in the case were Billy Ray Hearn, 17, of Snyder, and Marion Paul Clairday, 22, of Coolidge, Ariz.

The men were charged with the theft of a 6-volt battery from a tractor on the Frank Wilson farm on the Ennis Creek Road. The arrest had been made by the sheriff's department.

Wife Charged In Shooting

RAWLINS, Wyo. (AP)— Mrs. Emma Kennedy, 49, of Sinclair, Wyo., has been charged with first degree murder in the shooting of her husband Saturday night.

Eugene Kennedy, 44, was slain by a .22 caliber pistol at his Sinclair home, Sheriff C. W. Ogburn said.

Kennedy, doing electrical work for a contractor, was shot as he opened the door of the home, County Atty. John Crow said. Mrs. Kennedy had been charged earlier in the evening with driving a vehicle while under the influence of alcohol. Her husband had put up the bond for her.

Crow said Kennedy told a neighbor woman his wife had locked him out of the house. The neighbor talked to Mrs. Kennedy and Kennedy started to unlock the door. A shot passed through the door and struck the man, Crow said.

Crow said Kennedy would be buried in Liberty, Tex.

LIGHTEST MEXICO

BY JOHN ABNEY

IXTAPAN, Mexico — Up to the Fifth Floor gymnasium of the Hotel Ixtapan today to watch the ladies get in condition. This is not the Sonny Liston type of exercise nor the gym work we did during my wrestling days.

The ladies now combine Yoga with stretching and bending to give them the chrome plated, streamlined look. Everything is done in a scientific manner.

So there was the class sweat suited out on the floor following the directions of an extremely well designed senorita in blue tights. Maybe she was painted blue. Anyway, it looked like that.

And the Blue Miss would extend a shapely leg and begin moving her foot back and forth, sitting on the floor. The Sweat Suit Ladies likewise; one, two, three, four. One, two, three, four.

This develops (or undevelops) something which makes it all right to wear clinging frocks. They curve instead of bulge.

Then everybody did the stick-push. In this one (sitting) they grasped the stick firmly at each end and put a foot in the middle. Then pushed the leg out straight without letting go.

I could not figure what this did except that it was part of the course. But a couple of draftees fudged a little and used a towel instead of a stick. The towels bent considerably.

I am pleased to report three ladies from Houston did not fudge one bit. They kept a firm grip on the sticks and a stiff upper leg.

After this one we (they) sat with their legs all Yoga-ed up and concentrated on something invisible.

Then across the carpeted floor to the bike races. Mr. Arturo San Roman nailed down a line of bicycles and rowing machines so the ladies could get at themselves from other angles.

And I asked one of the slender and elegant Houston ladies how come she was going through this murder when she already looked like she could hold her company anywhere?

And she said, "So I can stay that way."

Pretty and right to the point.

Whoever called them the Weaker Sex apparently never watched a class of fashion-minded females in a gymnasium of this type. One of them rowed her machine half-way across the Gulf of Mexico. The others pedaled the equivalent of up Mt. Everest and back.

This is not a half-hour session. It continues throughout the day, starting at 9 a.m. and ending in the late afternoon. And scattered through the performance are Turkish Baths, Russian Baths, massages and sitting pretzel-legged on the floor in Yoga meditation.

Probably thinking, "Five more pounds and I'll hammer Spencer for that dress which fits like a piece of skin."

Comes the end of the day and the ladies are ready to check out in a bikini (provided they started in reasonable shape). Or pick up a few whistles walking past a billiard academy in slacks.

However, I was beat from merely watching. And I got myself well mineralized in the thermal waters and slept for two hours, I was that exhausted.

Gorgeousness is an admirable quality. But getting it in this fashion is a matter for the Humane Society.

Stevenson To Make Reply

UNITED NATIONS, N.Y. (AP)—Adlai E. Stevenson replies to critics of U.S. policy in South Viet Nam before the U.N. Security Council today following France's rejection of American proposals to deal with the Cambodian border dispute.

The U.S. chief delegate was expected to answer France's call for a council resolution deploring recent violations of Cambodia's frontiers and proposing that "those who bear responsibility should pay reparations."

French Ambassador Roger Seydoux came out Monday against Stevenson's proposal that the United Nations police the disputed frontier if South Viet Nam and Cambodia cannot agree on joint border patrols linked to the U.N.

Splitting with the United States and Britain, Seydoux also supported Cambodia's request to reconvene the 14-nation Geneva conference on Indochina to guarantee Cambodian neutrality.

Peking Asks Meet Of 14 Nations

TOKYO (AP) — Red China proposed a 14-nation conference on Laos today, charging the United States is planning to send its troops to Thailand "from where they intend to enter Laos."

A note broadcast by Radio Peking declared that "The outbreak of a general civil war in Laos (is) touch-and-go."

Communist China rejected a British request that Peking use its influence in checking the Communist Pathet Lao offensive in the Plaine des Jarres of north-central Laos.

Foreign Minister Chen Yi sent the proposal to Britain and the Soviet Union, who were cochairmen of the 14-nation conference in Geneva that set up Laos as a neutral nation in 1962.

Chen proposed the meeting be held in Phnom Penh, capital of neutralist Cambodia, which has been leaning toward Peking in its war of words with the United States and South Viet Nam.

In London, a Foreign Office spokesman said Britain had received Peking's note and it is being studied.

Because Syria lies on the land bridge linking Asia, Africa and Europe, traders, warriors and religious leaders have long criss-crossed the region with new ideas, cultures and faiths.

Senator Goldwater Waging First Do-Or-Die Battle

SAN FRANCISCO (AP)—For perhaps the first time in his life, Sen. Barry Goldwater, R-Ariz., is pouring all his strength into an effort to win a political battle.

It is a grim and fighting Goldwater who is spurring his campaign into the stretch run with New York Gov. Nelson A. Rockefeller for the 86 California nominating votes that will garland the winner of this state's June 2 primary.

For Goldwater, running for office in the past has been something of a happy-go-lucky lark. He drifted into the contest for the Republican presidential nomination without giving much thought to the grind involved in primary campaigning.

In New Hampshire's first primary, Goldwater was accounted as something less than an enthusiastic campaigner. In Oregon he canceled out personal appearances a month before the voting when the polls indicated he wasn't doing so well. He was second to Henry Cabot Lodge in New Hampshire and third behind Rockefeller and Lodge in Oregon.

But California is a different story. Goldwater is showing for the first time that, shoved into a corner, he can fight hard.

This state, which once looked like a cinch for the Arizona senator, doesn't look that way any more. The reason is, in Goldwater's words, that other announced and unannounced contenders for the nomination have "joined in opposing me here in California."

There isn't much doubt, despite some public denials, that backers of every other potential nominee would like to see Rockefeller come out on top in the primary voting in the belief that this would stop Goldwater cold in his headlong accumulation of convention delegate strength.

Even the supporters of former Vice President Richard M. Nixon, who has had some nice things to say about Goldwater, obviously think their man's position would be bettered if the Arizona senator rode to a fall.

Former President Dwight D. Eisenhower's recent statement of Republican principles was assessed editorially by the New York Times as "plainly designed to throw the influence of the party's most distinguished leader against Goldwater."

Goldwater's response has been to come out fighting. He did it Monday night before a cheering, banner-waving crowd which overflowed the Oakland, Calif., auditorium.

Education Group Examines Draft

AUSTIN (AP) — The Governor's Higher Education Study Committee took its first look today, in secret, at a draft of their preliminary report.

The draft was issued to the committee behind closed doors without cost estimates on the group's possible recommendations to Gov. John Connally. Chairman H. B. Zachry said the subcommittee on finance probably will report today.

The final report is due on Connally's desk Aug. 31. It will include cost figures, Zachry said.

The final report must be to the printer early in July to meet the Aug. 31 deadline set by the 1963 Legislature.

Texas Postmasters Get Confirmation

WASHINGTON (AP) — The Senate confirmed today President Johnson's nominations of these Texas postmasters:

Rosale Trammell, Big Wells.
Milton Routt, Chappell Hill.
Craft Harrison, Copperas Cove.
Jack Humphries, Edinburg.
Robert Gilbert, Harlingen.
Clairene Dunn, Highland.
Dixie Odom Karnack.
Samuel Toney, La Vernia.
Ora Smith, Wellman.

One hazard to future moon visitors from earth may be almost constant showers of meteorites. Because there is no appreciable atmosphere to burn the particles they possibly could strike the moon with considerable force.

Now! 139 of America's quality products bring you

FREE GIFT STARS®

they're like your favorite trading stamps but come right in the products...for

free gifts...extra fast

Buy the brands that have GIFT STARS on or in the package.

GIFT STARS is the new kind of gift plan that brings you gifts just for buying famous quality products you are probably buying right now. Unlike other manufacturers' plans where you get a coupon on only one product, GIFT STARS give you gift coupons on 139 leading products.
This means GIFT STARS can shower you with gifts ...extra gifts in addition to what you can get with trading stamps. And you get GIFT STARS coupons wherever these products are sold.

Save the GIFT STARS in the handy saver-mailer envelope.

Think of it! Only 170 coupons can equal the gift power of a full book of trading stamps. That's because a single GIFT STARS coupon can be worth 5, 10, 40—even 130 GIFT STARS. Of course, at stores which give stamps, you get GIFT STARS in addition to trading stamps.
In fact for every dollar you spend on products with GIFT STARS, in addition to the 10 trading stamps you may get, you also get, on the average, an even larger number of GIFT STARS. In this way, you more than double your free gift power without investing an extra cent.

Select from hundreds of gifts in the valuable gift catalog.

It's in the mail to you. The valuable GIFT STARS gift catalog. Pages and pages of fabulous top quality, nationally advertised gifts.
SPECIAL BONUS OFFER: Look for over 1800 free bonus starter GIFT STARS in your gift catalog. Guard them! When matched with like product coupons, they can bring you a gift worth $3.75. Simply save, seal and send in your coupons—the postman delivers your gift at no cost right to your door.
NOTE: If you don't get the gift catalog by June 4, write GIFT STARS, Box 1155, Minneapolis, Minn. 55440.

Make the GIFT STARS list your shopping list... Now 139 products and growing every month!

JUNIOR HIGH SCHOOL STUDENTS of the Thirty-seventh Street Church of Christ and their guests were entertained Saturday night with a banquet at the Snyder Country Club. Parents and other interested persons were hosts for the 39 present. Special entertainment was by "The Bardsmen" of Anson. Maxie B. Boren, minister, was master of ceremonies. Local talent joined in the singing and an enjoyable time was reported.

GIFT TEA—Miss Jean Jeffress, bride-elect of Mr. Tommy Boothe, was honored with a gift tea Friday evening in the fellowship hall of Union Methodist Church. The honoree's chosen colors of blue and white were carried out in table and room decor, with appointments in crystal and silver. Over 60 guests registered. Pictured from left, Mrs. J. M. Boothe, grandmother of the prospective groom, Mrs. Roy Jeffress, mother of the bride-elect, Miss Jeffress, Mrs. Vestal Boothe of Amarillo, mother of the groom-to-be, Mrs. Lloyd Reeves of Hermleigh, grandmother of the prospective groom, and Mrs. Phillip Maines of Carthage, grandmother of the honoree. The couple will exchange vows on June 12 at Union Methodist Church.

LAYNEIGHA CHAPMAN

Expert Will Demonstrate Appliances

Miss Layneigha Chapman, home economist, will be in Roby on Thursday to present a demonstration on portable appliances in the Willie Wirehand room of the Midwest Electric Cooperative building.

Miss Chapman participates in promotional activities of dealers and distributors, conducts appliance demonstrations, works with other women in the home economics field and aids in merchandising products throughout the Southwest.

Miss Chapman will use and explain some of the outstanding features of the many new small appliances now on the market. She will show today's small electric appliances are newly designed and color-styled to be as handsome as other contemporary home furnishings.

Included will be information on proper use, care and cleaning of portable appliances, hints on food preparation and suggestions on how to get the most out of appliances. The program is being planned jointly by Jerry Robertson, member service advisor of Midwest Electric Cooperative, and the Fisher County Program Building Committee. Alice Kemp, county home demonstration agent, is assisting in making arrangements for the program.

Mother, Son To Graduate

ABILENE — A mother and her son from Snyder will be among those receiving degrees June 1 at Hardin Simmons University.

Mrs. Vesta Lightfoot, wife of Dr. A. B. Lightfoot, pastor of the First Baptist Church in Snyder, will received the bachelor of arts degree with a major in English and a minor in psychology. Her son, Richard Lightfoot, will be awarded the bachelor of arts degree with a major in speech and minor in journalism.

Mrs. Lightfoot attended Hardin-Simmons for two years, 1943-45, and returned to complete her degree requirements.

Also, a father - daughter combination will receive degrees at the H-SU commencement. Jack E. Thompson of Abilene will receive the bachelor of arts degree, while his daughter Patricia, will receive the bachelor of science degree. Thompson majored in English and minored in speech, and his daughter majored in speech therapy. Thompson started his college studies after retiring from military service.

Panhandle Dam Near Completion

BORGER, Tex. (AP) —Sanford Dam, symbol of the far-sightedness of 11 Panhandle and South Plains cities, is 71 per cent complete.

Finishing touches are due next spring, says Phil Kensley, resident engineer for the Bureau of Reclamation. Closure of the diversion channel will begin in November and is due to be completed by March.

An aqueduct system for taking water to Borger, Pampa, Amarillo, Plainview, Lubbock, Slaton, O'Donnell, Tahoka, Levelland, Lamesa and Brownfield is to be completed in 1967.

Pipe in first 56-mile link is being laid east of Amarillo toward the dam. Work on a second link 90 miles long will begin this summer southwest of Plainview.

The dam has been building for more than two years. With good weather virtually all the time, work is right on schedule.

It now rises 133 feet tail and could be higher but for the need of waiting on painstaking concrete work in the river outlet works, flood control works and spillway. More than 96,000 cubic yards of concrete and almost 14 million pounds of reinforcing steel have been used.

H. B. Zachry Co. of San Antonio and subcontractors have about 400 men on the job.

A big speedup will come in November, when the dam closure begins and Zachry must move three million yards of earth in about three months to fill the diversion channel before spring rains start.

Activity presently centers on the concrete structures. Workmen have resumed construction of the river outlet works, a 192-foot concrete tower that will draw water from any level of the lake. Work is continuing on the flood control outlet works, spillway and stilling basin at the base on the downstream side of the dam.

Workmen are clearing the reservoir of under growth to eliminate possible water taste effects.

The Parks and Wildlife Commission plans to stock reservoir-type forage fish such as red shiners and flathead minnows to provide food for game fish to be stocked as the lake fills.

Torres Cites Strong Ties

CIUDAD JUAREZ, Mex. (AP) —Opposition presidential candidate Jose Gonzalez Torres said here Suhday relations between Mexico and the United States were stronger than ever.

But he sharply criticized U.S. Ambassador Fulton Freeman for saying the government candidate, Gustavo Diaz Ordaz, was the strong favorite of the people to win the July election.

The Party of National Action (Pan) had criticized Freeman before, and the ambassador replied that he had merely commented that the press seemed to indicate that Diaz Ordaz of the government Party of Revolutionary Institutions (PRI) seemed to be favored.

The PRI has never lost a presidential election.

Farmer Captures Mental Patients

RUSK, Tex. (AP)—A retired farmer, aided by his neighbors, captued two escapees from the Rusk State Mental Hospital Monday.

Ed Duke, who lives in Gallatin, spotted the men near his farm. With neighbors' help, he captured them and held them at gunpoint until Sheriff Allen Dotsen arrived.

The patients, Barry Padgett, 24, of Temple, and Charles Jennings, 19, of San Antonio, escaped Sunday.

Archeologists have long thought the Vikings visited North America some 500 years before Columbus' voyage.

Citizenship In Question

MIAMI, Fla. (AP) — Is Barbara Benita Mejias, born in an open boat in which her parents fled Cuba, an American or Cuban citizen?

The decision may depend on the log of the British frigate Tartar, which plucked the refugees from the boat April 30.

Immigration officer Joseph Minton said Monday that Cmdr. B. C. G. Hutchings has been asked to report the longitude and latitude of the pickup.

If Barbara was born within three miles of the U.S. coast, she's American.

Barbara's parents, Mr. and Mrs. Andres Mejias, are hoping she'll be an American.

Heart Ailment Claims Noted Researcher

OKLAHOMA CITY, Okla. (AP)—Hugh Payne Sr., 60, head of the Oklahoma Medical Research Foundation since its formation in 1947, died Monday of a heart ailment.

Mallards May Find Themselves In Soup

GIBRALTAR, Mich. (AP)—A couple of dozen mallards are making themselves at home in this Detroit suburb, but their days as town characters may be numbered.

The ducks waddle around town quacking for handouts. They have been known to march down the aisles of a grocery store, sampling merchandise. They lay their eggs wherever they please.

One businessman said he was tired of having the ducks stop traffic at his store. He is fed up with having to hose down his parking lot every week.

He confided: "If I thought I could get away with it, I'd like to go out and wring a few necks tonight."

BIRTHS

Mr. and Mrs. Lawrence Hildreth, Sr., Route 1, are the parents of a 6 lb. 13½ oz. baby boy born at 11:48 p.m. May 25 at Cogdell Hospital.

Mrs. Kennedy To Tour With JFK's Mementos

By BERNIE GOULD

NEW YORK (AP)—Mrs. John F. Kennedy looked over mementos of her late husband and remarked, almost in a whisper, "I suppose the photographs are the hardest to look at."

The pictures showed the late President Kennedy with his family as a boy, playing with his own children, campaigning.

This Friday would have been the 47th birthday of Kennedy, killed by an assassin last Nov. 22. The birthday anniversary will be marked by an international television program, "JFK: May 29, 1964," in which his widow will take part.

Mrs. Kennedy was here Monday to inaugurate a traveling exhibit of his mementos. She made the comment about his photographs after a reporter asked what part of the exhibit impressed her most.

Atty. Gen. Robert F. Kennedy also attended the preview.

After a nationwide tour, the mementos will be put on display in the library planned at Harvard University to house Kennedy's papers.

The exhibit at the International Business Machines Corp. building will be open to the public today through June 6. It then moves to more than a score of cities. The tour ends Oct. 18 in San Francisco.

Helium is used to maintain internal pressure in missiles and rockets when their fuel is used up in flight.

Man Admits To Bank Robbery

BEAUMONT (AP) — Police Chief Willie Bauer said Monday night Billy Jarrett has admitted robbing a bank last Friday at Green Ridge, Mo.

Jarrett was captured late Saturday at a roadblock on U.S. 90 near Vidor.

Police discovered $8,949 in cash in the trunk of Jarrett's car. Bauer said his officers traced the money to the Missouri bank. Bauer also said about $13,000 of the $13,853 taken from the bank has been accounted for.

SPORTS

'500' Golf Meet Faces Fast Track

INDIANAPOLIS (AP) — The track may be just as fast for the $70,000 "500" Festival Open Golf Tournament starting Wednesday as for the Memorial Day auto race which interrupts it Saturday.

Booming shooters like Jack Nicklaus and George Bayer may have to ride the sun-baked, par 71 Indianapolis Motor Speedway golf course with governors on their drivers.

Nicklaus, top PGA money-winner, and three former Speedway champions head a cast of 150 pros seeking one of the year's more substantial top purses, $12,000.

Masters champion Arnold Palmer again has elected to skip this unique meet—certainly the first ever to delay its final round a day while 250,000 speed-minded patrons watch a 31-3-hour roadster chase.

They have nice hard retaining walls to keep the snarling metal monsters from going out of bounds in Saturday's big race.

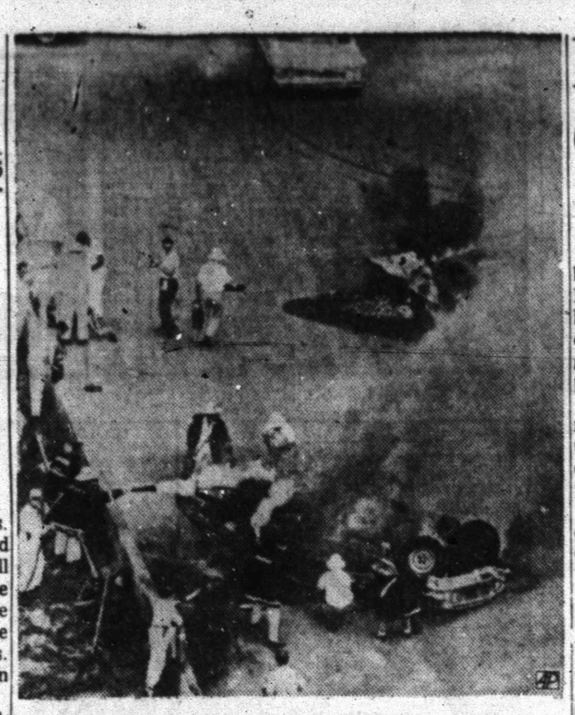

The 6,467-yard golf course which meanders partly into the vast infield of the Speedway's 2½-mile oval is another matter.

The tourney directors, at the suggestion of the pros, narrowed the fairways to 30 yards and let the rough grow to three inches.

But, with the turf as dry and as hard as it is, it probably will make little difference where the shots land for the more able gunners, among them 21 of the top 25 PGA cash collectors. Some may drive the greens on several par 4 holes.

The 72-hole record is a 20-under-par 264 by Billy Caspar, winner two years ago on rounds of 66-67-67-64.

Casper is back, along with two-time winner Doug Ford (1960 - 1961) and last year's titlist, Dow Finsterwald.

STOCK CAR RACE CRASH SCENE—Rescue workers attempt to extinguish the flaming auto of Glen (Fireball) Roberts, lower left, at the Charlotte, N. C. Motor Speedway. Roberts was in a collision with a car driven by Ned Jarrett, center, and another driven by Junior Johnson during the early laps of the World 600 stock car race. (AP Wirephoto)

Race Cars Are Silent

INDIANAPOLIS (AP)—Thirty-three of the world's fastest race cars were just assortments of high-priced parts today as the silence that precedes the 500 - mile Memorial Day race hung over the Indianapolis Motor Speedway.

Mechanics and crewmen were going over the temperamental brutes part by part, looking for defects and signs of wear that could mean the difference between victory and a place far down the finish list Saturday.

The loudest sounds were the mutterings of mechanics and the click of golf balls on the Speedway golf course, half of which lies inside the track.

The cars will get back on the track again only briefly Thursday for carburetion tests. Then the silence will fall over the old track again until race tmie—11 a.m., EST Saturday.

Landis Departs Doghouse With Heavy Hitting Spree

By MIKE RATHET
Associated Press Sports Writer

Jim Landis, the hitting man's Jim Brosnan, has closed the book on his squabble with the Chicago White Sox and started to author an impressive batting average.

Landis, only four days removed from the White Sox doghouse, led off the seventh inning Monday night with his first homer of the season, a pinch-hit job that triggered Chicago's American League leaders to a four-run rally and a 7-4 victory over Kansas City.

It was the fourth hit in seven at-bats for Landis since a peace parley with Manager Al Lopez settled a dispute that threatened to wind up in a cause celebre almost as big as the one that cost pitcher-author Brosnan his job with the club.

Landis got off on the wrong foot this season when he had an argument with General Manager Ed Short over fees for television appearances. Landis wound up asking to be traded. Lopez countered by keeping the 30-year-old outfielder on the bench.

Up until last Thursday, Landis had been to the plate only five times. Then Lopez and Landis, who hit .272 when the White Sox won the pennant in 1959 but only .228 and .225 the last two years, got together to work out the problem.

"I felt a little odd about being out for so long," said Landis after lifting his average to .417 with the homer. "But I wasn't worried about getting out of shape, because I'm thin anyway and I was taking batting practice every day."

While Landis boosted his average, Minnesota rookie Tony Oliva raised the league's leading average to .391 with a 3-for-4 performance and Jimmie Hall stroked four hits in a 16-hit attack that carried the Twins to an 8-1 triumph over the Los Angeles Angels.

Elsewhere, Bill Freehan drove in two runs with a homer and double as Detroit whipped Baltimore 5-3 and Boston turned two errors into three unearned runs and a 6-5 victory over Washington.

Cleveland and the New York Yankees were not scheduled while the entire National League was idle.

Landis, batting for starter Gary Peters, tied the score 3-3 and the White Sox took it from there. Al Weis then singled, moved around to third on a balk and an infield out and scored the tie-breaker on Pete Ward's single before Ron Hansen wrapped up the outburst with a two-run homer.

Ward and J. C. Martin also homered for Chicago while Peters brought his record to 5-2 with Hoyt Wilhelm's relief help.

Oliva scored three runs for the Twins and Hall drove in thre in support of Camilo Pascual, who brought his record to 6-2 with a four-hit, 10-strikeout performance. Oliva supplied the game's only homer, a two-run shot in the first inning that was actually all Pascual needed.

Freehan doubled home a run in the first inning and scored on a single by Don Demeter, then homered in the fourth as the Tigers chased Steve Barber. Barber, a 20-game winner for the Orioles last year, failed in his fifth attempt to post victory No. 1. Ed Rakow was the winner, limiting Baltimore to two hits over the final 5 1-3 innings.

Area NAIA Series Set

HUNTSVILLE (AP) — The Area 2 NAIA baseball championship goes on the line here Thursday and Friday when defending national titlist Sam Houston State meets Northeastern Oklahoma in a three-game series.

Both are regional champions and the winner of the series will advance to the national tournament at St. Joseph, Mo., June 8-12.

They play one game Thursday afternoon and will clash in a double-header Friday if more games are necessary to decide the issue.

Northeastern survived a protest to get here. The Redmen beat St. Joseph of New Mexico 4-3 Saturday but St. Joseph protested on grounds the umpire called time while the ball was in play because he thought two players were going to fight. Two St. Joseph runners who had scored were sent back to their bases.

P. E. Shotwell of McMurry College, Abilene, the area NAIA chairman, conferred with Bill Britt of Sam Houston, the area baseball chairman, and they decided that it was a judgment decision and upheld the umpire.

Northeastern has a 25-5 season record while Sam Houston is 24-6. It will be Sam Houston's fifth straight year to advance to the area playoffs.

Ford To Install Safety Devices

CHARLOTTE, N.C. (AP) — Ford racing mechanic John Holman says a fire safety device which may have prevented Glenn (Fireball) Roberts from being critically burned Sunday will be installed in all Ford stock car racers.

Charlotte Memorial Hospital reported early today that the 33-year-old Daytona Beach, Fla., veteran stock car driver was "holding his own" and "doing as well as can be expected." Doctors said the 6-foot-2, 195 - pound driver was responding to treatment.

Holman said Monday that the device, similar to one the Army uses in tanks, will be installed "before our race cars go to another track.

"We're going to install a carbon dioxide extinguisher in all the cars where, when triggered either automatically or manually, it will submerge the entire inside of the car with foam."

Holman said his cars will be equipped with the device for the June 7 Atlanta 400. He said he did not know much it will cost or weigh.

Fellow drivers, meanwhile, have tried to piece together circumstances surrounding Sunday's three-car fiery smash-up early in the World 600-mile stock car race at Charlotte Motor Speedway.

"Fireball tried to avoid hitting me and spun," said Darel Dieringer of Charlotte. "He knew he was going to crash."

Dieringer recalled how he was running behind the cars of Junior Johnson of Ronda, N.C., and Ned Jarrett of Camden, S.C., when "it looked like suction" caused the two to spin wildly.

"I did not see the two touch," Dieringer said. "I closed my eyes and shot through the hole between the two cars." He said Roberts "sensed" he would hit him.

"By the time I got past the two cars, Roberts had crashed into Jarrett and the cars were blazing." Dieringer said: Johnson's car also was involved and he and Jarrett received minor injuries.

Roberts, No. 2 money winner among NASCAR drivers last year, was burned over 70 per cent of his body, including 35 per cent in third-degree burns.

Arnie Speaks To Wake Forest Group

WINSTON-SALEM, N.C. (AP) —Golfer Arnold Palmer returned to his alma mater Monday night to help honor outstanding Wake Forest College athletes for 1963-64.

"There are no major or minor sports," Palmer told the 400 dinner guests. "The way a man participates in a sport makes it major or minor."

Basketball - baseball star Frank Christie received the school's inaugural award as the top athlete of the year and he and the other athletes received Palmer's personal congratulations.

Ike, Palmer In Charity Match

By WILL GRIMSLEY
Associated Press Sports Writer

ARDMORE, Pa. (AP) — Back before the turn of the century, President William McKinley, holidaying in Hot Springs, Va., created a national crisis by suggesting that he would like to play a round of golf.

"Horrors," was the shocked reaction of his advisers. "It's too undignified. It could tear down confidence in the administration."

Some 65 years later — today over the renowned Merion Golf Club—Gen. Dwight D. Eisenhower, the most avid of America's golfing presidents, takes to the tee in a charity exhibition match with Masters Champion Arnold Palmer, veteran pro Jimmy Demaret and dancer Ray Bolger.

Nobody is shocked. People paying $50 and $100 for admission to the 18-hole benefit for the Heart Association of Southeastern Pennsylvania are just curious.

Does Ike slice or hook, like the weekend duffer? Does he blow his stack when he flubs a three-foot putt? Does he mutter an expletive when he leaves a ball in the sand?

These were questions never answered during the eight years Eisenhower was president of the United States—1952 through 1960. The White House press was not allowed to watch him play. His score was classified information like the atom bomb or the moon shot. People only discussed it in muffled whispers.

Now everybody will know. The former chief executive, a hale 73 despite a heart attack and two other illnesses during his years in the White House teams with Palmer against Demaret and Bolger.

The match starts at 1 p.m. (EST).

Eisenhower was certainly the most-dedicated if not the best golfer ever to occupy the White House. To relax from pressures of his office, he took frequent golfing breaks at Augusta, Ga., site of the Masters tournament.

He played every chance he got. Golfing cronies said he was a fierce competitor who shut himself off from the rest of the world when he teed off. He shot as low as 79 and as high as 95. His big weakness, friends said, was impatience. He played too fast, putted without studying his assignment. But he loved it all.

It wasn't always easy for chief executives to indulge in the fairway sport without drawing criticism.

When McKinley wanted to play in 1897, shock reverberated through the halls of Congress. The Cabinet debated the propriety of the action. The Boston Evening Record published a copyrighted story that nothing was wrong with a president playing golf as long as he was shielded from "curious onlookers."

The bulbous, 300-pound William Howard Taft didn't care. He played regularly, even though it was hard for him to get the club around his expansive midsection. He often took 12 on a single hole in good humor.

J. Farquhar Paces Open Qualifiers

By The Associated Press

Eighteen players, led by amateur John Farquhar of Amarillo, reached sectional qualifying for the National Open in local qualifying in Texas Monday.

Farquhar, posting his score at Amarillo, did 36 holes in 140—even par over the Amarillo Country Club course.

Milo Clark, Dallas professional who posted his rounds at Fort Worth's Shady Oaks Country Club course, was second with 144.

Amateurs John Garrett and Jay Riviere led at Houston with 147's.

Sectional qualifying will be at Shady Oaks June 9.

Those qualifying in Texas were:

A—John Farquhar, Amarillo	69-71—140
A—Richard L. Yates, Corpus Christi	73-73—146
Bill Garrett, Amarillo	73-73—146
Gus Moreland, Pampa	73-73—146
Fred Atkins, Carlsbad, N.M.	73-74—147
Milo Clark, Dallas	74-70—144
Lee Trevino, Dallas	69-76—145
Joe Conrad, San Antonio	74-72—146
John Arreaga, Waco	74-72—146
Shelley Mayfield, Dallas	72-74—146
Don Cherry, Wichita Falls	73-74—147
A—John Kearns, Dallas	74-73—147
A—Earle Smith, Coleman	79-70—149
A—John Garrett, Houston	74-73—147
A—Jay Riviere, Houston	73-75—147
Kirby Attwell, Houston	75-73—148
Butch Baird, Galveston	71-78—149
Willard Wood, Houston	75-75—150

Hot Streak Not Moving Austin Ahead

By The Associated Press

It would seem futile for a club to win eight straight games and still rest next to last in the league.

That's the situation of the Austin Senators but a closer look indicates they are making progress. Ten days ago they were 9½ games away from first place in the Texas League. Now they are only 3½.

Meanwhile the three leaders are cutting each other up. Tulsa, which had taken over first place over the weekend on the heels of a five-game winning streak, lost the very first engagement with one of the second place outfits—San Antonio.

San Antonio beat Tulsa 5-2 and Albuquerque clipped Fort Worth 3-2 and the result is that Tulsa enjoys only a one-game advantage over San Antonio and Albuquerque.

Austin edged El Paso 3-2 to move within a half-game of the fourth place Sun Kings.

Glen Clark's homer in the sixth put Austin ahead to stay and relief specialist Bob Moorhead chilled any thoughts of a late rally by El Paso.

San Antonio scored four unearned runs as the result of three Tulsa errors to beat the Oilers. Tulsa did the unusual of stealing seven bases but still couldn't get enough runs to make up for its errors.

Albuquerque waited until the ninth inning to beat Fort Worth, with pinch-hitter Bill Parlier doing the honors. His sacrifice fly drove in the winning run and Fort Worth had lost its ninth straight game and was in the cellar by the margin of six.

Albuquerque again is at Fort Worth, El Paso at Austin and San Antonio at Tulsa tonight.

Geoffrion To Coach

QUEBEC (AP) — Bernie (Boom Boom) Geoffrion, third-highest goal-scorer in National Hockey League history, has called it a career after 13 seasons and as many crippling injuries.

The Montreal right - winger, whose lethal slap shot and Gallic temperament made him one of the game's most colorful performers, signed a one-year contract Monday to coach the Quebec Aces of the American Hockey League.

Geoffrion, 33, said he has had "so many injuries" in NHL play that he welcomes the opportunity to coach and insisted he will be a non-playing pilot "for the present."

Mishaps that included broken arms, legs, ankles and jaw limited Geoffrion to a single full-season stint, but he tallied fewer than 20 goals only once and has a career total of 371. Only Gordie Howe of Detroit (566) and former teammate Maurice Richard (544) have scored more.

THAR'S GOLDWATER IN THEM HILLS!

Empty Chair Still Awaits Succession To Presidency

By JAMES MARLOW
Associated Press News Analyst

WASHINGTON (AP) — That big hole at the top of the government—the empty vice presidency—is still there. Congress is making sounds about doing something and, as usual, it's all uncertain.

Equally important, perhaps more so, is the twin problem never yet settled by law: presidential disability. For instance: who decides the next in line should be president if the president refuses to admit he can't do his job?

If Congress does act this year—it may not be able to because the Southern filibuster on civil rights has everything gummed up—it will probably be in the form of a constitutional amendment.

Starting out, that needs a two-thirds vote by House and Senate. Next, three-fourths of the states' legislatures must approve. This could take several years.

Congress long ago tried to provide for the line of succession if the president died and there was no vice president. But it has never tackled the disability problem.

Here are some examples of what Congress has done to cover the situation if there's no vice president and the president dies:

By act of March 1, 1793, Congress provided for the Senate's president pro tempore (one of the senators) and the speaker of the House to succeed to the presidency—in that order. That lasted 93 years.

On Jan. 19, 1886, Congress passed another act. This knocked out the 1793 law and said the line of succession should be through the Cabinet, starting with the secretary of state. That lasted 61 years.

On July 18, 1947, Congress changed the law again. Now the line of succession goes this way: Speaker of the House, the Senate's president pro tempore and then the Cabinet.

But eight times—when presidents died in office and were succeeded by their vice presidents—the country has been left without a vice president, as it is now. It so happened that none of the vice presidents who became president died in office.

The assassination of President John F. Kennedy and the succession to the presidency of Vice President Lyndon B. Johnson, leaving the No. 2 spot vacant again, has forced the country to look at the problem again.

In a nuclear age like this, when an enemy attack might within a few minutes remove a president and vice president, the problem looks vivid.

But there is that other problem of disability. Since there was no law on the subject, President Dwight D. Eisenhower, and President Kennedy arranged with their vice presidents for them to take over if the president became disabled.

But suppose a president is too disabled to know it. How does the vice president step in? And what happens if a president can't carry out his duties but won't admit it?

A subcommittee of the Senate Judiciary Committee has been studying the problem for months and this week is expected to urge the full committee to approve this solution:

When there's no vice president, the president must nominate a vice president, but he can't take office unless approved by a majority of both houses. When a president says in writing he's too disabled to carry out his job, the vice president would become acting president until the president declared his disability ended.

If the president should not make known his disability, the vice president with the concurrence of a majority of the Cabinet could declare the president disabled and assume the powers and duties but not the office of the president.

If the president disputed the act of the vice president and a majority of his Cabinet, Congress would decide with a two-thirds vote of both houses for the vice president to continue as acting president. Otherwise, the president would resume his powers and duties.

But if this ever comes to a vote in House and Senate, amendments offered on the floor could change the solutions just outlined. So, as of now there is nothing definite either about the final form or the final action.

Columnist Is Educated By Mail

By HAL BOYLE

NEW YORK (AP)—Things a columnist might never know if he didn't open his mail:

The average U.S. family now has more than $15,000 in life insurance.

Over half a million kids are injured every year in this country in bicycle accidents.

If you live to be 70, you will have remembered more than 15 million separate things.

The longest foot race ever staged was the 1929 transcontinental run from New York to Los Angeles. Johnny Salvo won it in 79 days.

It costs a corporation $2.52 to send out a routine business letter.

If your wife is feeling blue, tell her to give herself a shampoo. It has been found that with some women washing their hair is as big a morale booster as buying a new hat.

Quotable notables: "Nothing but beauty and wisdom deserve immortality."—Will Durant.

The Eiffel Tower, 75 years old this year, has 12,000 prefabricated parts and weighs 1,543,000 pounds. For 50 years the 984-foot tower was the world's tallest structure.

By the time an American youngster receives a high school diploma he will have read or studied in some 432 books over a 12-year period.

Ice at the South Pole is 1½ miles thick and the ground level in places is 600 feet below sea level.

No matter how much comedians kid matrimony, they'll never make it unpopular with the majority of women. By the time they reach their early thirties, all but seven per cent of the ladies have been married at least once.

Folklore — If your ear burns, somebody is talking about you. White marks on your fingernails are a sign of the number of lies you have told. If the palm of your right hand itches, that means company is coming. It is a sign of good luck if a spider spins downward from the ceiling in your direction.

Some 80 per cent of stolen cars are taken by teen-agers seeking joy-ride thrills. But two out of every five such joy-rides result in either damage or injury.

As a good will gesture, a television and radio exhibit here started lending umbrellas to visitors on rainy days. In the first few weeks 87 umbrellas were borrowed—and all 87 were later returned.

Junior Editors Quiz on ATOMS

QUESTION: Why don't the whirling electrons inside an atom crash into the nucleus?

• • •

ANSWER: The structure of an atom is something like our solar system (1). The sun pulls at the earth through the force of gravity, but the earth doesn't fall into it because all the time it is swinging around in an orbit. When things are swung rapidly around a center, they tend to fly outward; because of "centrifugal force." That is why the water in the bucket the boy is swinging doesn't fall out. But gravity prevents Earth from flying away, as the boy's string holds back the bucket. Inside the atom, the heavy central nucleus has a positive charge of electricity; the much smaller electrons, whirling around it at terrific speed, have negative charges. These opposite charges attract each other, but centrifugal force keeps the electrons away. In this way electrons keep whirling around, like the hydrogen atom at right, first shown with the electron making a few turns around, then more, and finally so many that its revolutions make a kind of round shell, even if an atom is mostly empty space. It has been calculated that an electron can dash around a nucleus no less than 7 million billion times every second.

FOR YOU TO DO: Try swinging a bucket half full of water—but do it out of doors.

5-26

Mrs. Johnson Officiates At Art Gallery's Reopening

By FRANCES LEWINE

NEW YORK (AP) — In a glamorous party setting, Mrs. Lyndon B. Johnson reopened the newly enlarged Museum of Modern Art and declared this generation is in a war against poverty in general and "against poverty of man's spirit," as well.

"This museum is an open door for all who seek enrichment of spirit," said the First Lady Monday night. Then she pressed a button lighting up the museum's terraced sculpture gardens before an applauding crowd of 5,000 invited guests.

The museum celebrated its 35th birthday and its reopening after a six-month remodeling job that cost $7 million.

Mrs. Johnson officiated at the outdoor ceremonies and attended a dinner with 400 donors, art patrons and museum officials in a huge new gallery.

Champagne toasts feted the 800 artists, designers, photographers and sculptors whose works are among the 1,200 items on display. The evening was dedicated to these artists, but they had to wait until the dedication ended after 10:30 p.m. to take a look at the galleries.

Mrs. Johnson arrived at the museum at 7:30 p.m. to find 30 Greenwich Village artists picketing across the street in their campaign to continue to live and work in building lofts. Some city officials claim that using the lofts for living quarters is a possible fire hazard.

"Save our lofts," the pickets chanted, waving placards and white balloons as Mrs. Johnson stepped out of her limousine accompanied by U.N. Ambassador Adlai E. Stevenson. Others in the crowd cheered the First Lady, who wore a long off-white gown of corded silk with gold thread and rhinestone beading at the bodice.

State Spending Expands Rapidly

By SAM DAWSON
AP Business News Analyst

NEW YORK (AP) — The federal government's role in boosting economic growth often takes the spotlight. But there are 50 other performers without star billing who are contributing more to the show each year.

State government spending is expanding much more rapidly than is federal. And the total now is more than three-fourths the size of the federal outpouring for other than defense purposes.

The effects on home communities often is more stimulating than the outlays from Washington. And the constant increase in many states may do more than federal money to push the economy higher. This may be especially so next year when the federal role may be less.

The states also taketh away even as they giveth. Tax rates tend to rise. And borrowings mount, with their lien on future taxes.

The U.S. Bureau of Census shows the 50 states are now spending around $40 billion a year. The increase between 1950 —with 48 states—and 1962—with 50—was 170 per cent, compared with a 122 per cent rise in federal government expenditures for all purposes.

And the average annual growth in state spending also outstripped that of the Gross National Product. State outlays went up an average of about 9 per cent a year while the nation's total dollar volume of production of goods and services was rising at an annual rate of around 5 per cent.

State spending is for the traditional needs of growing populations, and also for many new service demands. Education, highways and public welfare get the biggest share. The money finds its way back into the economy quickly, through payrolls or construction or purchase of materials and goods.

Consumer spending remains the biggest prop of the economy, with the variation in business spending playing an important role in the ups and downs of the business cycle. But government spending — federal, state, or local—is a nearly constant growth factor that buoys the Gross National Product, even when other forms falter.

Although taxes went up, the Federal Reserve Bank of Richmond notes that spending rose faster than revenues. So gross debt of the states rose from $5.3 billion in 1950 to $22 billion in 1962. It's still rising.

Planting Progresses, But Slowly

AUSTIN (AP)—Despite a lag in the plains area, planting of Texas' cotton crop has passed the three-quarter mark, reaching 76 per cent last week, reports the U. S. Department of Agriculture.

"Early planted irrigated fields on the high plains are coming up with a uniform stand," the department said Monday in its weekly crop and weather report.

"Cotton in the lower valley reached the large boll stage," the USDA said.

The department said field work continued at an active pace except where rain caused delays in south central and southern counties.

Wheat harvest picked up in the low plains and cross timbers; field corn made good growth over the state; 20 per cent of the oat crop had been combined, and 61 per cent of the sorghum crop has been planted, the department said.

Barley harvest started in the low plains and moved eastward with 9 per cent combined. Flax combining picked up in South Texas as 70 per cent of the acreage is harvested. About 95 per cent of the rice crop is in the ground.

Vegetable harvest was held up by rain in South Texas and along the Gulf Coast.

Test Set For Moonship

CAPE KENNEDY, Fla. (AP) —The United States prepared today to start the test phase of its manned lunar landing program with an attempt to orbit an unmanned model of the Apollo moonship.

A Saturn 1 rocket was scheduled to blast off between 9 a.m. and 2:30 p.m. (EST) to propel a model of the spacecraft into an orbit more than 100 miles high.

The spacecraft is the same shape as the vehicle which astronauts one day will ride, but it carries none of the equipment which will be aboard the real thing.

Major purpose of the launching is to further qualify the Saturn 1 rocket, which has registered five straight test-flight successes. On its most-recent flight, the Saturn orbited the heaviest satellite ever sent aloft, a 37,700-pounder.

New Homes Are Damaged

PHILADELPHIA (AP)—About 100 men, swinging clubs, axes and sledgehammers, swept through eight houses in a non-union project near Independence Hall Monday, causing $15,000 damage.

Roy Fuiman, the developer, who made the damage estimate, said the gang had raced through in five minutes, breaking windows and frames, ripping out railings and rainspouts, and chopping holes in ceilings and walls.

Six men were hurt while trying to flee.

Fuiman told police he had been warned last weekend there would be trouble.

Police Lt. Michael Levin of the labor squad said members of the AFL-CIO Building Trades Council had picketed the project last March.

Riders Near LBJ Ranch

JACKSONVILLE (AP) —Members of the Jacksonville Youth Quadrille, travelling pony express style on horseback from the piney woods to the hill country, were due to reach the LBJ Ranch about noon today.

They are carrying a leather-bound scroll asking President and Mrs. Lyndon Johnson to attend the Jacksonville rodeo July 8-11.

Members of the quadrille, who are from 12 to 18 years old, left Jacksonville at dawn Monday and made their way westward in dense fog.

Each horse and rider gallops a half-mile, then is picked up and shuttled 16 miles ahead by motor trailer for another sprint.

The LBJ Ranch is 133 miles west of Jacksonville.

Raymond Teague, president of the Jacksonville Riders Club which sponsors the quadrille, said he has received word that "They're already cooking up a big barbecue for us at the LBJ Ranch."

The President will come to Texas Friday and deliver the commencement address at the University of Texas Saturday.

Plans Suit For Damage

MEXICO CITY (AP) — The National Farmhand Federation says it plans to sue the United States for salt water damage to land in the Mexicali area.

A spokesman said damages to 4,949,000 acres of lands amount to around $190,000,000 and that 300,000 farmhands and peasants have suffered financial loss.

Meanwhile, Alberto Salinas Ramos, president of the Mexican Federation of Agricultural Organizations, blamed the joint Mexican-U.S. committee now studying the situation for failing to come up with a solution.

He said that because of "indifference" of engineers who make up the committee, a solution has not yet been found despite talks by President Adolfo Lopez Mateos and President Lyndon B. Johnson.

Texas Party Decides On Policies

COLLEGE STATION (AP) — The Constitution Party of Texas wants the United States to retain control of the Panama Canal Zone and Guantanamo Bay Naval Base in Cuba even if it means sending additional troops.

This statement of policy was contained in resolutions adopted by delegates at the party's state convention.

Another resolution called for repeal of the 17th Amendment to the United States Constitution. The amendment provides for the election of U.S. senators by popular vote. The Constitution originally stated senators should be elected by the state legislatures.

The convention nominated Jack Carswell of Houston, the party's candidate for governor in 1962, as candidate for U.S. senator in the November general election.

In the 1962 governor's election, Carswell got 7,135 votes. Democrat John Connally and Republican Jack Cox had a combined vote of more than 1.5 million.

Nominated for other statewide offices in this year's election were John C. Williams for governor, Joseph M. Rummler for lieutenant governor, Derek C. Bounds for commissioner of agriculture, Bert Ellis for state treasurer, Rex C. Mitchell for congressman-at-large, and Bob Gray, congressman in the 22nd district (Harris County). All candidates are from Harris County.

Dallas Negro Named Library Trustee

DALLAS (AP)—Dr. J. L. Patton Jr., a Negro high school principal, became the second member of his race named to a major permanent city board Monday.

He was named a trustee for the Dallas Public Library.

Last year, George Allen, an insurance company executive, was appointed to the City Planning Commission.

CBS Cops Lions Share Of Awards

By CYNTHIA LOWRY
AP Television-Radio Writer

NEW YORK (AP)—The television industry honored its own Monday night by passing out statuettes which one winner—Chet Huntley—described as "a somewhat maligned and slandered young woman."

As television award shows go, the NBC program was long on irony and envelope-opening and short on entertainment. CBS, which officially turned its back on the ceremonies, scooped up the lion's share of the awards—13 in all, with five going to the "Dick Van Dyke Show," four to "The Danny Kaye Show" and three to "The Defenders."

CBS News, whose president kicked off the furor over the awards, failed to win any in the news and documentary categories. But "The Making of the President, 1960," which was broadcast on ABC, which also joined the walkout, picked up four awards, including "Program of the Year." The program was made by an independent packager, David Wolper.

NBC was second with nine awards and ABC had five. Even if the voting methods of the Academy of Television Arts and Sciences can be criticized, it would be hard to quarrel with the final results.

CBS, in a bit of enterprising broadcasting, will have Mrs. John F. Kennedy, Atty. Gen. Robert F. Kennedy, Sen. Edward Kennedy, Britain's former Prime Minister Harold MacMillan, West Berlin Mayor Willy Brandt and Irish Prime Minister Sean Lemass on a live transatlantic discussion of the late president's spiritual legacy. The half-hour program, using Telstar, will be televised here and abroad on Kennedy's 47th birthday anniversary Friday.

Showers Are Scattered

By The Associated Press

It was warm and cloudy in Texas today. Widely scattered showers fell along the extreme southern border of the state and were due to continue through the day.

Early today, ground fog was reported in Houston and Alice.

Temperatures, generally in the 70s, ranged from 64 degrees at Dalhart to 76 at Galveston and Childress.

The Weather Bureau said clouds would intensify in the north and south and would be visible in most all regions to some extent.

Two funnel clouds and at least one waterspout were sighted along the Texas Coast Monday, mostly over marshlands 13 miles southeast of Beaumont.

Schreiner To Be Feted

KERRVILLE (AP) — L. A. Schreiner will be honored by the Kerrville Chamber of Commerce Wednesday night at the "Man of the Century."

Schreiner, 93, is a Kerrville native and the son of the late Capt. Charles Schreiner, who founded the Hill country city.

Friends expected at the ceremonies include former Gov. Coke Stevenson of Junction, U. S. Rep. O. C. Fisher of San Angelo, state Sen. Dorsey Hardeman of San Angelo and state Sen. Louis Crump of San Saba.

Schreiner donated land for the city's first airport and recently gave money for a dormitory at chreiner Institute in Kerrville.

He got his first schooling in a one-room log building but later attended classes at Comfort and San Antonio. He went to business college in New York, and returned to take a position with his father at the Charles Schreiner Bank in 1891. He has remained with the bank since.

Dallas Boys Held For Armed Robbery

DALLAS (AP)—Police held two boys, 16, today for kidnapping and armed robbery of a service station attendant in suburban Carrolton.

The boys told sheriff's deputy Buddy Walders they fashioned two masks from a pair of their mothers' hose and borrowed a brother's shotgun.

Officers said they drove to a Carrolton service station and at gunpoint forced Thomas Carter, 20, into the car and stole $238

More Cuts Seen In Tax Future

WASHINGTON (AP) — The administration's long - range plans call for a cut in excise taxes in 1966 and another reduction in income taxes the following year, informed sources said today.

They said there is a strong possibility President Johnson will announce this tentative timetable during next fall's presidential campaign.

There have been a few public hints of further tax revision. On April 28, Johnson said he could "see another tax cut a few years down the road" if the $12-billion income tax reduction enacted this year stimulated the economy into providing enough revenue to balance the budget.

There are signs that the administration would consider clipping almost every category of excise taxes, although there may be both congressional and administration opposition to trimming some earmarked taxes, such as gasoline and vehicle taxes used for federal-state road programs.

In February, Secretary of the Treasury Douglas Dillon said at a news conference that reductions in excise taxes could come in 1965, but he indicated that such cuts might not be pushed until 1966 or later.

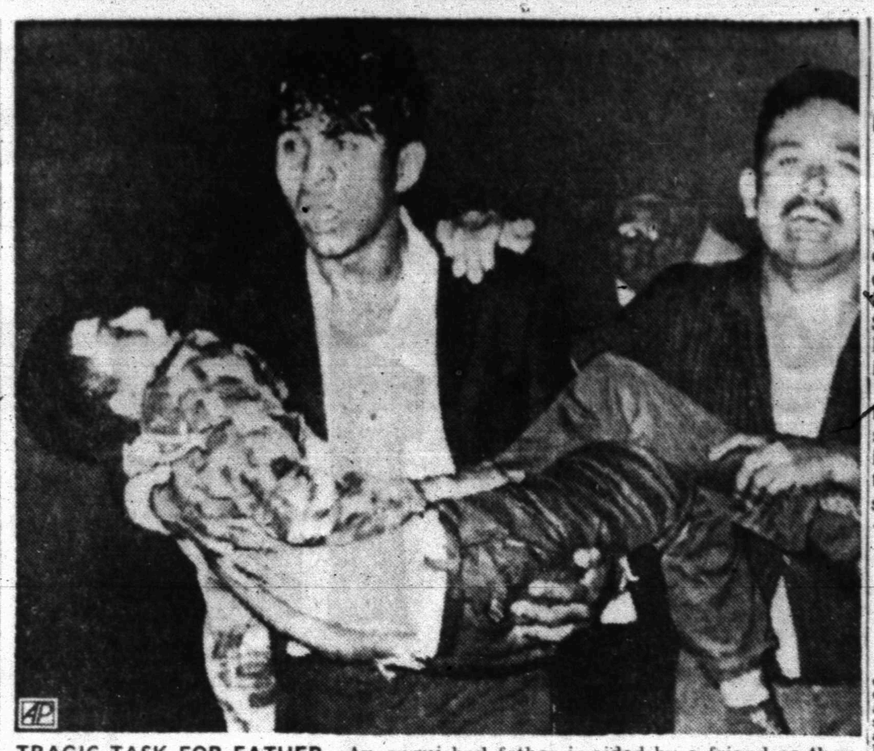

During Senate consideration of the tax cut bill some senators demanded reduction in excises along with the income tax reduction. Proponents of the tax reduction agreed then to future hearings on the excise taxes.

Excise levies cover a wide variety of products and services: cosmetics, jewelry, furs, telephone tolls, automobiles, gasoline, theater admissions, sporting goods, liquor and cigarettes.

These levies are expected to provide $14.6 billion in revenue during the fiscal year which begins July 1—an increase of $3 billion since 1960.

Proposals for further revisions in income tax rates obviously would be timed to coincide with the first balanced budget since 1960. Treasury officials talk about balancing the budget in fiscal 1967, which begins July 1, 1966, although they admit this is a tough target.

A dramatic improvement in federal finances obviously would improve the chances of persuading Congress to reduce taxes further.

TRAGIC TASK FOR FATHER—An anguished father is aided by a friend as they carry the body of his son who was killed in a riot at a soccer game in Lima, Peru. At least 285 persons were killed and more than 500 injured in the riot that followed a dispute over a decision against the Peru team. The crowd panicked when police fired tear gas shells to keep them from coming onto the field. Peru was playing Argentina in an International soccer game. (AP Wirephoto via radio from Lima)

Few Expect Court Order To Bring Real Integration

FARMVILLE, Va. (AP)—Few white and Negro students are expected to share the same classrooms next fall in Prince Edward County, despite a U.S. Supreme Court order that public schools be reopened on an integrated basis.

While reaction to Monday's historic ruling from county and state officials was scant, opinions were privately voiced that the net result would be a public school system attended almost entirely by Negroes and boycotted by white students who would continue to study at private, segregated schools.

In delivering the court's main opinion, Justice Hugo L. Black said "the time for mere 'deliberate speed' has run out, and that phrase can no longer justify denying these Prince Edward County school children their constitutional rights to an education equal to that afforded by the public schools in other parts of Virginia."

The case, which has journeyed through a maze of state and federal court decisions since its inception in 1951, was sent back to the Richmond U.S. District Court which was empowered to order the county's schools reopened.

Gov. Albertis S. Harrison Jr. discussed the decision with members of the state attorney general's staff and later told newsmen he could say very little because the case still awaits settlement of specific points in U.S. District Court.

Harrison termed the ruling "manifestly a far-reaching decision" in that it marks the first time a court has committed itself to order a legislative body to levy taxes.

This was in reference to wording in the decision that the district court is empowered to require the Prince Edward County Board of Supervisors to levy the necessary taxes to finance a public school system.

It was the refusal of the supervisors in the face of court-ordered integration to levy such taxes in 1959—and every year since — that resulted in the southside Virginia county becoming the only locality in the nation without public schools.

During the past five years the county's approximately 1,250 white children have attended private schools hastily set up in reaction to the court's integration order. About 1,600 Negro children went largely without formal schooling until last September when—at the urging of the late President John F. Kennedy—an experimental one-year educational program known as the Prince Edward Free School Foundation was established with private funds.

Mills Service Is Held Today At Ralls

Funeral services were set for this afternoon in Ralls for Roger Q. Mills, 58, who died Sunday night in a Post hospital.

Mr. Mills was the brother of Mrs. Freddie Elizabeth Faulkenberry of Snyder.

The funeral service was to be held in the First Baptist Church in Ralls at 2 p.m. Burial was to be in the Ralls Cemetery.

Today's Voting Draws Interest

By JOSEPH R. COYNE

WASHINGTON (AP) — Control of Florida's Republican party and the selection of a Democratic senatorial opponent for Republican Bud Wilkinson, former University of Oklahoma football coach, spiced primary elections in three states today.

Sen. Barry Goldwater was certain to pick up strength in his bid for the Republican presidential nomination no matter what the outcome of today's Florida primary.

Two rival slates were entered—one pledged to the Arizona senator and endorsed by him and the second unpledged but with most of its members favoring him for the nomination.

In Oklahoma, officials predicted 500,000 voters would turn out for the runoff primary to decide whether U.S. Sen. J. Howard Edmondson or State Sen. Fred Harris will oppose Wilkinson in the November election. Wilkinson was nominated by Republicans for the Senate seat now held by Edmondson in the May 5 primary.

Most observers rated the bitter Democratic match a tossup. In Kentucky, widespread voter apathy was reported in a primary election to select Democratic and Republican nominees for the U.S. House of Representatives.

Goldwater and Gov. Nelson A. Rockefeller of New York continued campaigning in California for that state's June 2 presidential primary and its 86 GOP convention votes.

Monday, they both praised former President Dwight D. Eisenhower's statement defining the views which he hopes the 1964 Republican presidential nominee will hold.

In San Diego, Rockefeller said his position falls within the framework of Eisenhower's statement and Goldwater's does not. Goldwater issued a statement in Redding applauding Eisenhower for what he called "a public rebuke to those who would rule or ruin" the Republican party. He reportedly does not believe Eisenhower's comments are designed to derail his conservative campaign.

McNamara Says Troops Get Priority

WASHINGTON (AP) — Secretary of Defense Robert S. McNamara said today that the South Viet Nam forces battling communism "have a blank check" and top priority on the arms, manpower and funds of the Defense Department.

"It's absolutely without foundation," McNamara said of reports that obsolete military aircraft or equipment have caused casualties among U.S. forces and the South Vietnamese.

And McNamara flatly denied the repeated charges of Sen. Wayne Morse, D-Ore., that the fighting in Viet Nam is "McNamara's war" and an illegal and hopeless battle.

McNamara's comments came after he spent nearly three hours briefing the Senate Armed Services Committee on his most recent visit to the battleground.

His statements with respect to the planes in use in the Southeast Asian country firmly backed up testimony by Secretary of the Air Force Eugene M. Zuckert in another congressional hearing.

Zuckert said faulty structure may have caused some plane crashes there, but he insisted the aircraft are the safest in the U.S. arsenal.

McNamara, talking with newsmen after the Senate hearing, said he is positive that the South Viet Nam people want to win and can protect their independence with the help of this country.

Sen. Richard B. Russell, D-Ga., chairman of the Armed Services Committee, said McNamara's secret testimony indicated the situation in Viet Nam is very serious.

"He was not as optimistic on his timetable as he had been before," Russell said.

The chairman said no members of his committee appeared to agree with Morse and a few other senators that U.S. forces should be withdrawn from Viet Nam.

But Russell said he and some other senators are "not too happy that we are involved out there."

Assistance Due For Crop Cover

WASHINGTON (AP) — The Agriculture Department will offer emergency conservation assistance to help repair damage to vegetative cover on farmlands in 29 Oklahoma counties as a result of prolonged drought.

The department allocated $730,000 to the Oklahoma Agricultural Stabilization and Conservation Committee for use in the counties in sharing with farmers the cost of emergency restoration measures under this year's agricultural conservation programs.

The counties are Adair, Atoka, Byran, Carter, Cherokee, Choctaw, Coal, Craig, Creek, Delaware, Haskell, Hughes, Johnston, Latimer, LeFlore, Lincoln, Love, McClain, McCurtain, McIntosh, Marshall, Murray, Ottawa, Pittsburg, Pontotoc, Pushmataha, Seminole, Sequoyah, Stephens.

Poverty Bill Ok'd Despite GOP Vote

WASHINGTON (AP) — The administration's $926.5-million antipoverty bill was approved today by the House Education and Labor Committee over solid Republican opposition.

The 19-12 vote, reflecting the committee's party makeup, climaxed more than two months' effort on the bill President Johnson has made one of his prime legislative efforts of the session.

Called the Economic Opportunity Act of 1964, the bill includes a variety of programs designed to "eliminate the paradox of poverty in the midst of plenty."

The bill includes several changes from the version sent up by the administration.

The chief ones would:

—Permit young women, 16-22 to take part in a proposed Job Corps. They would live in residential centers and receive vocational education or work on conservation projects.

—Eliminate both public and private schools from receiving direct federal support under community action programs. The administration had proposed funneling such aid to public schools.

—Write allocation formulas for distribution of a state's share of funds for the Job Corps and the community action programs. The administration had proposed a more flexible arrangement whereby the director of the program could set the amount each state would get.

Abilene Beef Prices Skid

ABILENE (AP) — Price cutting has driven the price of sirloin steak and other choice beef to near depression lows in Abilene. Some meat market managers predict that the war will spread in West Texas.

Current prices have ribs for a dime a pound, chuck roast at a quarter a pound and sirloin steak at 49 cents a pound.

One Abilene butcher said he wasn't breaking even on red meat sales. He said beef prices are off 50 per cent from the first of the year.

Several meat market managers say the low prices result mainly from competition among chain groceries. They said increased foreign beef imports and a glutted live market contributed to the situation.

The Abilene Reporter reported that one chain meat market operator sold 90,000 pounds of beef last week.

19 Perish As Fire Destroys Castle

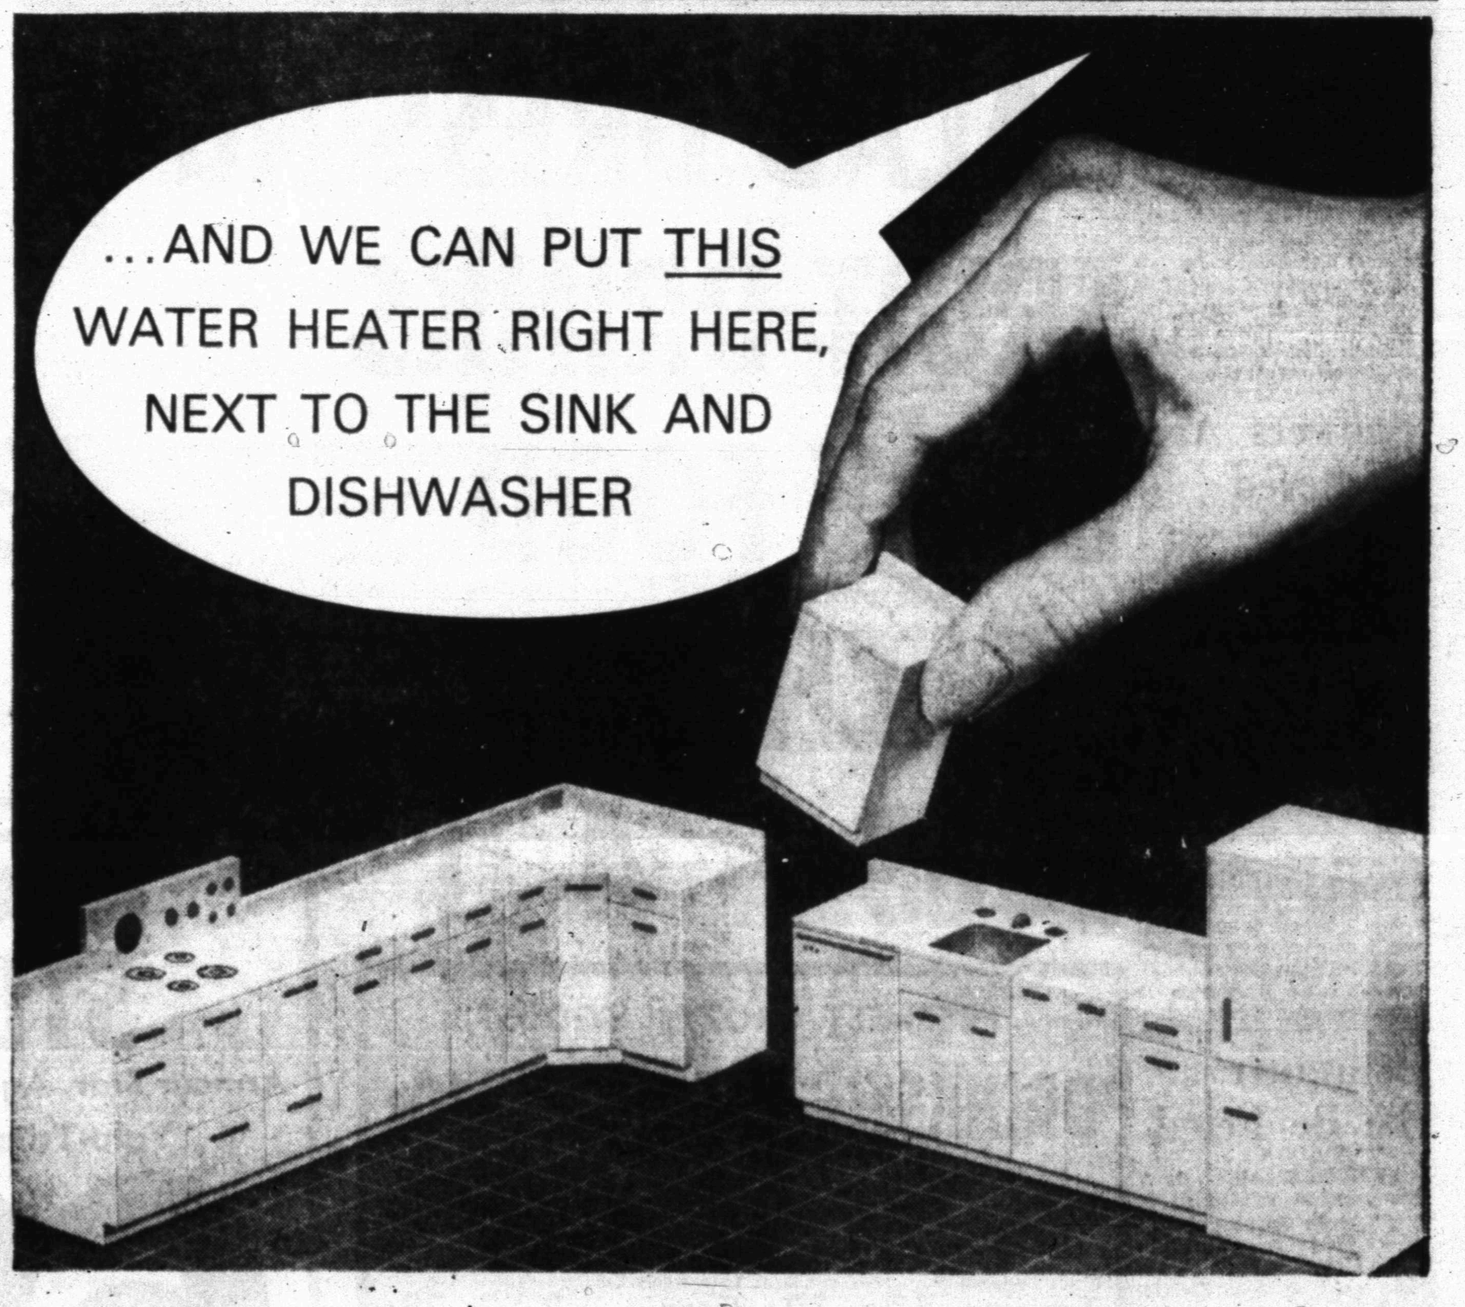

LIEGE, Belgium (AP)—Fire destroyed today the castle of Wegimont, a holiday center, and the Belgian radio said 19 persons perished.

Police said two of the victims died as they jumped out of windows in panic shortly after the fire broke out around midnight.

About 90 persons were housed in the vacation retreat.

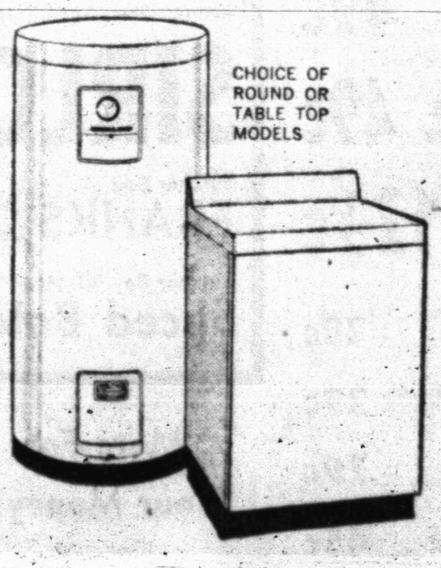

Fire broke out in the kitchen of the 18th century castle, police said, and quickly spread through wood-paneled rooms. Apparently the cause was an electric short circuit.

A flameless ELECTRIC water heater needs no flue... installs almost anywhere

You'll have greater flexibility in kitchen and home planning, when your water heater is flameless electric. Because an electric water heater needs no flue or ventilation, you can install it almost anywhere, close to the point of greatest use. You can put it under a counter top, beneath a stairway, in an otherwise wasted corner, even way back in a tightly enclosed closet. An electric water heater with immersed heating elements is fast and efficient, too. And because it's flameless, it's clean, safe and completely silent in its operation. See the new quick recovery water heaters at your dealer's soon.
