Sheriff's Posse of Area Invited to Join Parade

A giant street parade through downtown Ozona, with possibility of a number of West Texas Sheriff's Posse participating, will tap off the second annual Ozona Quarter Horse Show Friday afternoon of next week.

The street parade is set for 3:30 o'clock Friday afternoon, day before the official quarter horse show. The parade will include ropers here for the matched and jack-pot roping program to be unveiled at the fairgrounds arena Friday night before the horse show, the visiting Sheriff Possemen, and possibly a high school band if one in the area is found available for such participation on that date.

PUBLISHED BY STUDENTS OF THE JOURNALISM DEPARTMENT—OZONA HIGH SCHOOL

Last Days of O. H. S. 1950-51 School Year

It's in the cool dampness or the hot brightness you open your eyes to, in the morning. You think, "Just one more week. I've got to have my formal altered (or a suit cleaned) and graduation gifts, what can I give the boys — bath oil for the girls, but boys — Your mother is calling, soon you're dressed and fed and at school."

You try to keep your mind on Algebra but the problem of the gifts, other tests — you look at your watch, a breeze runs by you. The bell rings. Relief. I've got to clean out my H. E. locker and I'll never learn that Algebra.

Someone stops you in the hall. "Say, could you stay after school and —" There is a lull in the next period. The sun beats in with delicious hotness. "After school I'll get into shorts and take a sun bath." You don't even hear what the teacher is saying. You think about the summer, commencement and then you remember tests. "I wish I was a senior," and then you day dream — Mr. Yager comes in and makes an announcement. The bell rings.

You walk slowly down the hall. "Want to go to the show tonight? I'll be by about 7:30." You think, "I shouldn't go but —"

There are so many things to do after school. You run a million errands, decide the decoration for something, wonder if you could wear that green sundress if you had a pique jacket. You dress for your date.

The show was good, maybe, you parked afterward. But now, you are stopped in front of your house. Some music, your date telling you what he's going to do this summer. Your summer stretches before you, lazy, hot, wonderful. You think of all you're going to accomplish. You hear the trees rustle, you feel how wonderful a spring night is, it seems a prelude to summer. The year has passed so fast, you begin to realize how much you have learned, from books, about life.

END OF SCHOOL PICNICS

The Mothers of the Sixth Grade are planning a family picnic to be held Friday afternoon at Baker's Crossing on Devil's River. We are looking forward to a good swim, and plenty of good eats.

Mrs. Milton North and Janet were in Fort Worth the past week-end to visit Mrs. North's daughter, Mary Ann, a student in T. C. U.

FINALS

Things have begun to quieten down just a little in the library and everyone seems to have that certain little frown on their faces, as they go walking up the hall humming to themselves — maybe something like 16 square-root plus 2 square minus 3 square or 1420 Columbus discovered America. — 1880, let's see now what happened in 1880 — oh, well, what's one question more or less. Yes, final exams have begun and coming right along with them is the look-of-forward-to-closing-of-school. Hurray, sometimes thought I wouldn't live to see the day.

Seniors (spoiled characters) have taken their coats on Monday and Tuesday while all underclassmen have to slave away for three more days, taking their coats on Thursday and Friday. But after all is over, except of course, coming for our paper cards on Tuesday morning and going to Commencement next Tuesday night and the dance afterwards — and after that — well, good old school year 1950-51 will just be filed away in our memories for future reference.

ANNOUNCEMENT: Adding Machine at the Stockman office.

Fads and Fashions

For nine months we've reported what you wear. It's almost over.

First we watched lots of polished leather, lots of chunky jewelry being worn with tweeds and plaids sweaters and wool jersey. We wrote about new boots, new hats and new belts. Just as wardrobes were getting monotonous Christmas gifts pepped them up. Before we quite realized it, Spring was half way here. An artificial flower at the throat of a sweater, a tee shirt without another shirt over it. Then Spring was completely here. Loads of flowers and stiff, starched, fresh looking piques and chambrays and organdies. Ballet shoes, flat shell pumps, moccasins. And now summer.

Remember how shorts used to be straight and buttoned up on each side, a very military stripe up same? This summer, shorts are shorter, much shorter, tight, winging out on each side. Some of the shirts to wear with shorts are terry cloth, or partly so, some are ribbed at sleeves and waist.

Our last big fashion event of the year was the HE style show. One of the best we've ever had.

Jane and Camille Adams wore yellow embroidered organdy, ballerina length sister dresses. Camille's was a Jeannene original. Darren's Thompson's was too. Jeannene wore a Dior copy in lavender organdy. Juanita Vela modeled a formal that we thought was perfect for her olive skinned, dark eyed beauty. White nylon, polished with two huge red flowers and a lace jacket. Jo Ann Alan in yellow with her baby sister in a tiny pin-afore made for her by Jo Ann, almost stole the show.

There were many lovely cottons, also. We got a preview of what we'll have to report next year, a year or two from now, by watching the Junior High girls model.

Have a wonderful time this summer, play a lot, rest a lot, maybe travel or work a lot, but when the middle of August comes it would be a good idea to start planning wardrobes, smoothing sun and wind toughened skin, and taming weather dried hair.

Sixth Grade Pupils to Del Rio; Visit Acuna

Mrs. White's section of the 6th grade enjoyed a field trip to Del Rio Wednesday, May 9th.

The party, consisting of eighteen class members and seven adults left Ozona at 6 a.m. They arrived in Comstock in time for the 8:24 o'clock east bound train. The 5th and 6th grades of Comstock also made the trip.

The conductor and two M. P.'s conducted the classes through the train. The dining car, kitchen, pullman and observation car were of interest. The trip included Castle Canyon, Devil's River bridge and skirting the Rio Grande River.

The class was met in Del Rio by parents. They were shown through the roundhouse where engines are repaired.

A picnic lunch was enjoyed in San Felipe Springs Park. All went swimming in Del City City pool (We wish Ozona had one).

A trip over to Villa Acuna was enjoyed. The children learned about toll bridges and customs of our southern neighbors.

Those making the trip were: Mr. and Mrs. James Baggett, Mrs. C. B. Guthrie, Mr. and Mrs. Jesse Marley, Mr. and Mrs. J. S. Pierce, III, Mrs. Ted White, Ann Baggett, Lou Nolle Beal, Cecilia Cooke, Barbara Guthrie, Mary Lou Johnigan, Geri Dean Long, Beverly Moore, Janie Norris, Tommy K. Parisher, Jacqueline Williams, Tommy Greer, Don Lott, Jesse Carl Marley, Joe Pierce, IV, Tom Max Robinson, Roy Glenn Sutton, Frank Taylor and Durwood Wylie. Ted White joined the party in Del Rio. This was the culminating activity of a study on vacations and national parks.

The class made their money for this trip by giving a pet show on the Junior High School lawn.

According to word received this week from R. E. Shipman of the

San Angelo Municipal Airport, Mathis Field, Bob Childress and Laura Armentrout were named as winners in a letter writing contest. These letters were written in March following a field trip by the two second grades to Mathis Field. Each child wrote Mr. Shipman thanking him for the courtesies shown them while visiting the airport. The letters were judged on the basis of workmanship and originality.

This field trip was made under the supervision of the two second grade teachers, Mrs. Harold Lipford and Mrs. Wayne Matthews and several mothers of the second grade children as a culmination of a study on transportation.

Confidence in Sheep Industry Shown in California Ram Sale

Western sheepmen let their "dollars do the talking" in showing the nation their confidence in the future of our American sheep industry. The 31st annual California Ram Sale, in Sacramento, April 1 to May 1, broke existing sales records for the second year in a row after price roll backs played havoc with the beef industry and before wool price ceilings allowing good prices were announced. The average on 1719 registered and purebred rams and ewes of eight breeds was \$200.87 compared to a \$157.24 average on 1370 at the 1950 sale.

In addition to this great increase in average price, there was another very significant difference in the 1951 sale. This was the decided preference for fine wool production sheep — unusual since this sale has previously been dominated by mutton breeds. Experts claim this to be another indication that the sheep business is on an upswing as sheepmen want wool breeds for foundation ewe stock. In 1950 the first increase in stock sheep numbers since 1942 was shown, and the Rambouillet led in most sales during 1950.

The top breed average of the sale, though only three were consigned, went to the Australian Merino at \$566.66. Two of these rams were purchased to go to Chile, South America. The American Rambouillet followed with 54 rams averaging \$284.25. This was \$55.92 more than the next highest breed and \$179.57 more than the Rambouillet averaged at the 1950 sale.

Other breed averages per head were Columbias — 84 at \$288.33; Hampshires — 648 at \$214.88; Romedales — 54 at \$211.66; Corriedales — 149 at \$197.68; Suffolks — 704 at \$176.42; and Southdowns — 25 at \$164.00.

It is most encouraging to see this example of confidence in the future by sheepmen at the year's first major auction sale while governmental confusion and controls coupled with clouded world condition has most industries in a turmoil.

Here's Where the Pounds Pay Off

FIRST thing that people notice when they take over a Buick is the sure-footed stance this fine automobile has on the road.

You head into a curve and hold firm and true. You travel a turnpike without sway or wander.

While your wheels may dance when you hit a stretch of washboard gravel—your car holds its level course.

A lot of things account for this beautifully poised performance, but it starts with stalwart structure and ample weight—plenty of pounds where pounds are needed.

Please don't get us wrong. This isn't "deadweight." Though a Buick like the one pictured here tips the scales at more

than two tons, it's as nimble as an antelope at play.

It has a generous hoodful of valve-in-head Fireball power—packing a powerful punch of velvet velocity.

It comes with the smooth magic of Dynaflo Drive®—a lightness of steering that's gently responsive to a lady's hand—a front-end geometry that's pure genius—the finest brakes ever put on a Buick.

And every wheel rides on shock-eating coil springs that are carefree and trouble-free for the life of your car.

You'll also find—by a few moments of simple arithmetic—that the pounds in

this bounteous beauty pay off in another way. On a cents-per-pound basis, it will cost less to buy than anything else near its weight and power and size.

Why not visit us real soon—like the first thing tomorrow—and let us show you why you and your budget will both be happy with this Buick?

No other car provides all this:

DYNAFLO DRIVE® • FIREBALL POWER
4-WHEEL COIL SPRING • DUAL VENTILATION
PUSH-BAR FOREFRONT • TORQUE-TUBE DRIVE

ed them to office? Well, the people are doing the same thing. More than half of the people in the United States drink some kind of alcoholic liquor to some extent. Great sections of our people would not be caught dead at a liquorless party or convention. And how can the pot call the kettle black?

Meanwhile, as danger mounts in the world, we drink more and more to become oblivious of that danger. Here is what the F. B. I. says: In 1932, there were 831 arrests for drunkenness for each 100,000 of population; in 1949, there were 2,343 per 100,000. In 1932 there were 1,728 liquor-caused crimes per 100,000 population; in 1949 there were 3,193. It is, perhaps, only mildly interesting that the year 1932 was the last year of prohibition, while the year 1949 was the 17th year of repeal. Repeal was the glorious thing that was going to set us free of all trouble.

Give us another 20 years of drunkenness, and we will have given most of what we own away; those who are left will be fighting each other for what remains; and we'll be an easy pushover for any sober crowd who want to take us over.

4-H Boys Leave —

ment until Friday, June 1. The week-end from June 1 - June 3 will be spent either at Esche's Lodge or back in Canada, according to wishes of the boys. Mr. Bartlett promised. They will return to Chicago on June 3 and will start on their return trip the following day, Monday, June 4, arriving in Fort Worth at 12:55 noon on Tuesday, aboard the Texas Chief of the Santa Fe lines.

In telephone conversations with Bill Bergfeld, Crockett county agent, and local 4-H sponsor, Mr. Bartlett has instructed the boys on personal equipment required for the trip. A birth certificate is among the required items, necessary for passage into Canada, and he advised the boys to bring only Western style clothing for outer wear and warm clothing, including jackets and raincoats. Among the items specified was one "old" cowboy hat and lariar ropes, plus the usual Levis, boots and western shirts. No towels, sheets, bedding or fishing equipment are to be taken since all this will be furnished in the camps. Cameras, movie cameras, etc. will be welcome equipment, he said.

Some of the wonders to be seen by the three boys and the entertainment to be afforded them were described by Mr. Bartlett on a recent visit to Ozona where he was honored at a banquet staged by the 4-H Club committee.

Woman's Forum Winds Up Year With Report On Accomplishments

The Ozona Woman's Forum closed its 1950-51 season Thursday afternoon with a luncheon at the Ozona Country Club. Mrs. Austin Millsbaugh and Mrs. Pleas Childress were hostesses for the day.

Annual reports of officers were given and Mrs. N. D. Blackstone, president, summarized the year's activities of the organization. World Citizenship, the theme for the year, was stressed in all programs, several projects were carried to completion and others are in progress, and many of the members have written goodwill letters to club women abroad and interesting replies have been received, Mrs. Blackstone reported.

Five packages of food and clothing were sent to a needy 12-year-old English girl, whose letters of appreciation have more than repaid members for their effort, the president said. Each member of the Forum purchased and read a book on foreign culture to be presented to the public library at the close of school.

As sponsors of a Brownie troop here, the Forum decorated a float for the troop in the Homecoming parade. The troop prepared a scrapbook to be sent to Jamaica to people who want to learn the English language.

Generous contributions of money and livestock have been sent to West Texas Boys' Ranch, with each member donating a share. A benefit square dance was given by the Forum, and despite bad weather \$70 was realized for the benefit of the polio fund.

Plans of the organization for a Planned Parenthood group here were completed. Two groups of out-of-town speakers were secured, one for a club meeting and again for a public meeting. The Red Cross drive for Crockett county was assumed by the Forum and a house-to-house canvass was made to collect a total of \$483.60 over the county's assigned quota.

In April, the Forum sponsored a FLOOR POLISHER for rent. 50 cents per day. Ratliff Hdw. & Furn. Co.

Packards are built for priceless folks....like yours!

When the folks you love are involved... you could justify the purchase of a Packard on the basis of superior safety alone.

And if you're obliged to be budget-conscious — that still needn't deprive your family of a Packard. Bear in mind that the solid quality behind Packard safety has a dollars-and-cents payoff in many ways. For example:

• Packard Thunderbolt engines give you more than trustworthy reliability that keeps you in the clear... They pay dividends with: the efficiency of

America's highest-compression eights and the service-free simplicity of a design with up to 25% fewer working parts than in engines of comparable power!

• Packard's exclusive Ultramatic Drive gives you more than swift responsiveness, and complete control under all driving

conditions. It pays dividends with: No gas-wasting slippage when cruising.

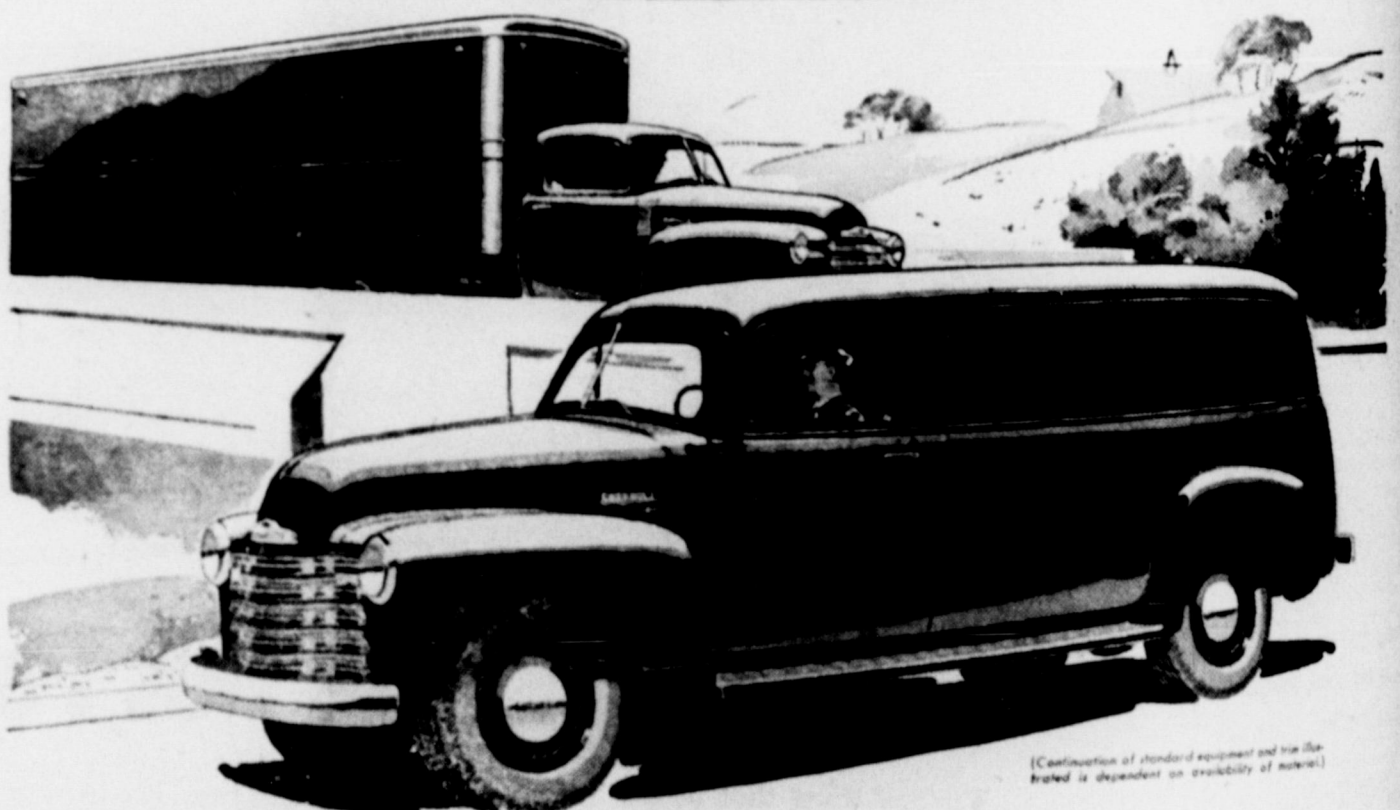

Those are just a few highlights of the mechanical-life story behind the humble life story of this new 1951 Packard. They help explain why, of all the Packards built—in the last 52 years—over 90% are still in service!

It's more than a car—it's a **PACKARD**

From where I sit... by Joe Marsh

"One For The Book"

Miss Reynolds, our town librarian, really put a smart-aleck motorist in his place last week — right in center of town, corner of Main and Walnut.

Her car stalled, tying up traffic. Most drivers just waited quietly — realizing she couldn't help it — but one fellow kept blaring away on his horn.

So Miss Reynolds gets out of her car, walks over and says sweetly, "I'm afraid I can't start my engine. If you'd like to try I'll stay here and lean on that horn for you." That stopped him!

From where I sit, a lot of us are sometimes a little overzealous to "sound off" before we really understand what it's all about. Let's try to see the other fellow's side in whatever he does — how he votes, what he thinks, whether his preference is for a glass of beer or buttermilk — rather than simply blast out anyone who "gets in the way" of our ideas in these matters.
