3 In State Contests

CHS Students To UIL Competition

Three Colorado High School students will be competing in state University Interscholastic League contest May 8-9 in Austin.

Debbie Hines, Stanley Bracy and Carl Devorce, all junior students, won first and second places in regional competition Saturday in Odessa giving each further than Fort Stockton the opportunity to enter state contest.

Devorce was the single first place winner for Colorado High.

And he left no room for argument as he hurled the shotput 59'4 1/2", almost five feet second place entrant whose distance measured 64'6".

Devorce, son of Mr. and Mrs. L. C. Devorce, is named sixth in all-state schoolboy ranks with his regional mark and is one of only two in Texas 3AAA schools listed in the shotput rankings.

The other is David Bartek of Belton who is rated fourth with a distance throw of 69-9.

Miss Hines, daughter of Mr. and Mrs. Bass Hines, won second in UIL typewriting by typing 61.8 words per minute with two errors. First place winner from Slaton typed 57 words per minute with 1 error.

Bracy came in second in 100-yard dash and 220-yard run. His time for the 100 yard race was 9.9 seconds, just .1 behind Estacado sprinter Jesse Lethredge.

That 9.9 count, by the way, was .4 slower than Bracy's record mark of 9.5 clocked in district competition in which he beat Lethredge.

It was about the same story in Saturday's 220-dash as Lethredge's 21.4 beat out the CHS runner again by .1 second.

He'll have another chance to race against Lethredge in state competition.

Son of Rev. and Mrs. Robert Bracy, he is listed as ninth in state schoolboy 100-yard dash - and at 9.5, he follows three-high school records of 9.4 and five with the same 9.5 time.

But that's not all for the local trackster.

He's listed No. 1 in state standings for 220 dash. His best record for the run is 21 seconds flat. Only one other in the state, Joe Pounicy of Dallas Lincoln High School, shares that time.

State UIL Contestants

"That's not right, Carl," says Debbie Hines, but then typing isn't exactly Carl Devorce's vantage. Looking on as the regional shotput winner gets a typing lesson is Stanley Bracy, first in state schoolboy rankings for 220-yard dash. The three Colorado High School students, all regional winners, will be in state UIL competition May 8-9 in Austin.

First vandalism at the Basshams was Friday when they reported a first break-in that had occurred April 22 and a second Friday.

The Basshams said that packages of cigarettes and a pencil had been taken, the commode used but not flushed, furniture thermostat turned up and

DR. JOHN T. MILLER,
Mental Health Center psychiatrist.

RAYMOND T. BENNERT,
Vocational Rehabilitation Counselor.

Each Case Unique, Different To Rehabilitation Counselor

"Every case is different, every case is individual", explained Raymond Bennert, Vocational Rehabilitation Counselor, from Big Spring State Hospital, Tuesday at Mental Health Center, here.

Bennert and Mrs. Veta Colvin, Rehabilitation Specialist, also from state hospital, said that Vocational Rehabilitation involves much more than finding employment for patients.

According to Bennert, he has counseled fifteen patients here in Colorado City since January, during his second and fourth Tuesday visits to Mental Health Center.

Patients who need plastic surgery, an artificial limb, or other physical repairs may receive these services if they show the potential for being "active, productive, independent members of society," explained Bennert.

Patients who have been referred to Bennert by a physician, case worker or by the state hospital are counseled after being tested and interviewed.

A person, if he shows potential, though he may be schizophrenic, paranoid, mentally retarded, physically impaired or just mentally

disturbed may receive guidance, according to Bennert.

Vocational Rehabilitation is set up to aid those, who heretofore thought they had no potential, discover it and counsel them in how to use this potential to the fullest extent.

Among his average Snyder and Lamesa clinic caseload of twenty-eight and full caseload at state hospital, Bennert has among his patients people with college degrees, high education, low education, those with organic brain syndrome, housewives, working people and the unemployed.

Bennert said that part of his job as Vocational Rehabilitation Counselor is to teach his patients to relate and communicate effectively with others and to become useful members of society.

Mrs. Jewell Richter, volunteer clerk at the Center, is in charge of the Circuit Riders who do volunteer work each week at Big Spring State Hospital.

Circuit Riders, according to the Circuit Rider contract, supplement activities of the regular (Big Spring State) Hospital staff by replacing professional personnel from duties not requiring professional training, thus broadening services to patients.

Contract describes a volunteer Circuit Rider as one who "helps bring the community

and hospital closer, and one who adds services that would be impossible through the routine program and budget of the hospital."

According to the contract the project proposes "to renew, strengthen and maintain the ties with patients in or destined for the hospital."

"To keep the community aware of its own members while they are in the hospital."

"To actively recruit and train volunteers from this area to go into Big Spring State Hospital to work with patients from their own county."

"To establish offices in Colorado City, Snyder and Lamesa to be manned on a half-time basis by a senior citizen."

Eleven Colorado City Circuit Riders are Mrs. Swan Cramer, Mrs. Ethel Hardegree, Mrs. Jim Jones, Mrs. Delmar Lowe, Mrs. J.P. Nunn, Mrs. Dona Reed,

Also Mrs. Jewell Simpson, Mrs. Roxie Witten, Miss Ruth Hightower, Mrs. E. T. Strain, and Mrs. C.G. Brinkley.

Circuit Rider program is in cooperation with Dawson, Scurry, Borden, Martin, and Howard Counties, providing services to all state hospital patients from these counties regardless of race, color, religion or any attendant circumstances as explained in the contract.

May is Mental Health Month. Circuit Rider contract suggests that in observance of this month, the best way to help patients is to "be a Circuit Rider—know the rewarding experiences of giving yourself in service to others."

Senator Ralph Yarborough

... He FIGHTS THE PEOPLE'S FIGHTS AND HE WINS FOR YOU!

Yes, Texas Needs Ralph Yarborough In Washington

It's that simple.

For more than 12 years Ralph Yarborough has been fighting the people's fight in the U. S. Senate. And in that time, he has made a lot of Texans proud—because, no matter how tough the legislative battle, they know they can count on his skilled legal mind and his dogged determination to produce victories whenever the people's interest is at stake.

He wins. And Texans can see the results of Senator Yarborough's efforts all around them—in school libraries and laboratories and lunch rooms, in new hospital wards across the state, in the vast unspoiled strand of Padre Island, in the peaks of Guadalupe Mountains National Park, in the studious concentration of Vietnam War veterans studying under the Yarborough Cold War GI Bill, in next year's bigger personal exemption from income tax, in

hundreds of achievements which have opened new doors of opportunity and enriched the quality of life of our people, from Presidio to Pasadena, from Pampa to Pharr.

But much more remains to be done, and Ralph Yarborough is now, as never before, in a position to do much more for Texas. His seniority in the current Congress has enabled him to become the first Texan in over 50 years to be a member of the Senate Appropriations Committee and at the same time to head a standing regular permanent legislative committee of the Senate, the powerful Labor and Public Welfare Committee, a committee responsible for all federal legislation in health, education, labor, manpower training, poverty and other vital fields.

In short, he is a Senate leader, in true Texas Democratic tradition. Senator Yarborough knows how to fight. And he WINS.

Birthdays are always special.

But for Sally Martinez her 10th birthday anniversary Sunday was extra special.

The pretty, brown-eyed, little miss was happy, playing and dancing with excitement as seven young neighborhood friends arrived to eat birthday cake Sunday afternoon.

And her gaiety lasted far into the evening.

Quite ordinary for a birthday party?

Maybe so, but not ordinary as far as Sally is concerned.

Because Sally has been blind since emergency brain surgery in Dallas last December - just six days before Christmas.

A third grade student at Kelley Elementary before her surgery, Sally is daughter of Mr. and Mrs. Ben Martinez of 1411 Oak Street.

Joining Sally in celebrating her birthday were her four brothers and sisters - Benito, 9, Tino, six, Lenor, four, and Norma, 2 - plus some party guests - Jill Jordan, Jill Jordan, Steven Chandler, David Chandler, Dianna Castillo, Cindy Castillo and Christina Castillo.

CONVERSATION CORNER

KEEP ON trying to go around reassuring little mothers of babies with chronic colic that the night will come when they can sleep.

As if it were a personal mission in life, keep trying to remind harassed parents of teenagers that chances are ten to one they will grow up to be decent, law-abiding citizens some day, and will bless the family with beautiful grandchildren.

Human development is as old as the ages. Keep on keeping on trying to cheer people (including me) with listing the benefits of maturing. Think sometimes that maybe people are like fruit. At their very best when the seasons of sun and rain have fully ripened.

ONE THING that becomes fun with the ripening process, while you're still clinging to the bough on the tree of life, is the fact that you have learned by then that you don't have to believe everything you hear.

You are no longer gullible and not so vulnerable, either. You don't have to believe everything you hear.

You no longer have to believe everything you read, either. Too much depends on what you read, who wrote it, and what the writer is trying to grind at the expense of less-discriminating readers.

CREW UP in a house of books, magazine, and newspaper lovers. During the immature years, as product of two book-

loving parents, took every single word ever read in print as the gospel truth.

That can be pretty confusing during an election year, specially if you see fit to read newspapers with opposite political viewpoints.

One of the best parts of being ripe at the proper time is the art of choosing for yourself what part of what you read you will and do believe.

SOMEWHERE along the line, and mostly because other people were always talking about horoscopes, started reading the daily horoscope.

The daily horoscope is a great little conversation piece, but decided long ago not to believe much in those "The stars impel, they do not compel" suggestions.

You can read anything you want to read in any of them. But the hints to people born under the sign of the fish, Pisces, all too often wind up with ultimatums such as "Be wise... Be happy... Be understanding."

GLANCED out of habit at one for the day this column is being written. Did not care to arrange the day to fit any of it.

"Find some quiet place to go," it said, "where you can think out those problems that have been bothering you for a long time. Get the future better organized. Then out for some fun in the evening."

How do you go on to some quiet place and think out the problem of defrosting the refrigerator? Try sitting in the library all day and you'll be home defrosting after supper.

"Get the future better organized" has a nice sound. But you spend the day in "some quiet place," and the present is gonna be disorganized all over. Just who is to watch the meat loaf and toss the salad while you sit around organizing the future?

IT WAS the "Then out for some fun in the evening" that alienated this horoscope reader for good and forever.

People born under the Pisces

sign who feel "impelled" to think out problems all day, instead of tackling them one at the time, and people who spend morning and afternoon getting the future organized will be in no shape to go out and have fun all night.

That's because thinking out problems never yet washed dishes in the sink, gathered the laundry, or smoothed the beds. And chances are the future will be not one bit better organized just because you will it to be.

You don't have to believe everything you read. You do have to live one day at the time, for you'll wind up doing two days work in one.

That is no way to "Be wise... Be happy." And it wouldn't do much for "understanding" around here, either.

SEEN LATELYS included Pauline (Mrs. E.L.) Ashford who was saying that daughter Bonnie Brown and her husband Jam's Brown are in Denver, Colorado, for additional medical tests for James. The Browns are houseguests of their daughter and her family who live in Denver.

Enroute, they stopped by to see their new granddaughter.

Rhonda Nicole, baby child of son Jimmy Brown and his wife of Colorado Springs, Colorado. Rhonda Nicole was born April 14 in Memorial Hospital at Colorado Springs where Jimmy is a public school teacher. Maternal grandmother is Mrs. Ruby Putman of Westbrook.

Saw Juanice Bruce and Mary T. Hart (Mrs. Bruce) sharing a coffee break. Bruce Campbell with his mid-morning cup. Mona Scott.

HEAR TELL that our Debbie Hines, daughter of Hontas and Bass Hines and granddaughter of the Witt Hines family, won second place honors in the Regional Interscholastic League typing tests at Odessa last Saturday.

Debbie will compete in state finals at University of Texas contests next weekend.

Hear, too, that our Esther (nee Elliott) Evans, her husband C.W. Evans, their 17-year-old daughter Linda, all of Carrollton, and Linda's teenage "girl friend" from California are just back from a three-week tour of Europe.

Esther, who grew up here as third daughter of Lewis and Elizabeth Elliott, met her niece in Paris, then visited her family in Madrid, Spain. The Evans party were seeing Notre Dame when Marilyn (nee Godwin) Brookshear, her husband Lt. Robert Brookshear, and their two-year-old Judy, surprised them by showing up. Small world, n'est ce pas?

Marilyn, daughter of Frances (Elliott) and Charlie Godwin, her husband and little daughter, are in Madrid for a three-year military tour. Esther's European tour included England, France, Germany, Holland, Belgium, Switzerland, Italy and Spain.

FAMILIAR FACES here and there places belonged to Bobby Lemons, Bob Ratliff, and Joe Bell in a coffee conference. Doug Simmons, Shep Compton, Wilma Womack and Vera Simpson together for refreshments. John Hale.

Did you know that Bob Ratliff's brother Hubert, his pretty wife Carolyn, and their small son Brad of Houston were in City on business several days last week? And that their mother, Isabel (Mrs. Harry) Ratliff visited in El Paso last weekend?

FLASH! Isabel's book of poetry "While The Irons Hot," is just off the Naylor press and is just beautiful!

BRIEF ENCOUNTERS brought chats with Inez (Mrs. Graydon) Howell, Eddie Piland.

Another time, another place, greeted Henry Bilberry. Lu-

ella Trulock and Betty Worrell on the shopping scene. Virginia Fuller. Lena Bullard, back home from the hospital in San Angelo.

Lena Porter of Elm St., was out working in her yard. Irene Robertson, Lela Price, Ruth Dozier, Pearl Northcutt, and Clorine Stewart were busy stuffing envelopes for the Mitchell County Red Cross drive, late Saturday, at the library.

MAIL CALL brought the Record a letter from Lois H. Kelly (Mrs. A. J. Kelly, Jr.) of Westfield, New Jersey.

Mrs. Kelly had been to the wedding of her son Kevin in Denton, recently. She expressed highest praise for the wedding soloist, our Eddie Ranne of Westbrook, sophomore student at North Texas University.

Eddie, son of the C.E. Rannes

of Westbrook, "Has one of the most perfect tenor voices we have ever heard," writes Mrs. Kelly, whose son Kevin Kelly took a bride named Kathy.

Eldon Smiths Return From Ten Day Trip

Airman Smith, a graduate of Colorado High School, is serving in the United States Air Force in Cheyenne.

LEADERS, INDEED

Don't you know Willie and Selma Landau at their house... Larry and Betty Kinard at theirs... especially enjoyed breakfast this morning.

Across the table from them were the valedictorian and salutatorian of Colorado High's 1970 graduating class.

You almost have to be a mathematician to add up to their four-year averages in grades. Jerry Landau, the valedictorian, with 96.6 Martha Kinard, the salutatorian, with 95.3.

Important, too, is the fact that both of the ranking students are active, popular in a variety of campus activities.

These two leaders deserve a cheer from us all and so do the other 8 honor seniors—Marilyn Ellis, Linda Banks, Jerry Hertenberger, Glenn Crosthwait, David Stubblefield, Dick Thomas, Alfred Guerrero and Rachel Garrett.

Theirs is a positive start for the future.

Gas heating: The beginning of gas cooling.

If you have central gas heating, you can buy central gas cooling. For less money than you might think. You already have a furnace blower and, probably, adequate ductwork. So there's a lot less to install.

And gas air conditioning is worth installing. It has fewer moving parts to break down, longer service life and lower month-to-month operating costs.

Begin to cool off by seeing your gas air conditioning dealer today.

Ask "the people's candidate" why he voted against balancing the Supreme Court!

Ralph Yarborough, who refers to himself as "the people's candidate," voted against confirmation of Judges Haynsworth and Carswell to the Supreme Court. Why? He had no choice. He owes his allegiance to a small band of ultra-liberal colleagues and backers.

His votes helped defeat the President's plan to balance the Court with the appointment of a Southern judge who believes the Supreme Court should interpret the law rather than write the law. The President has now been compelled to abandon the South and turn North for his appointee.

Ralph Yarborough's actions came as no surprise to Texans. He has turned his back on his own people time and again.

Here's where Ralph Yarborough stood on other key issues vital to you:

For	Against
☐	☒ Voluntary prayer in public schools (Sept. 21, 1966)
☒	☐ Eugene McCarthy for President
☒	☐ Vietnam moratorium demonstrations
☒	☐ A \$13,000 per year retirement and a 42% salary increase for himself
☐	☐ Wouldn't vote at all when there was a chance to stop forced busing of school children

It's time to retire Ralph Yarborough and elect Lloyd Bentsen to the U. S. Senate. Lloyd Bentsen—a prominent Democrat and former Congressman—is ready to put his ability and experience to work for all the people of Texas. He's ready to bring fresh ideas and fresh approaches to the problems we face.

Vote for new leadership in the May 2nd Democratic Primary. Help elect Lloyd Bentsen United States Senator.
