CUBA SENDS RELIEF TO HER STORM VICTIMS

HAVANA, Sept. 28.—Havana prepared tonight to rush relief to the south coast, stricken by the hurricane which tore across Santa Clara early today, causing damage of several millions. Casualties reported place the dead at 30 and over 300 injured in the city of Cienfuegos, where navy radio reported announced more than 1,000 buildings damaged or destroyed. At Miami, Fla., the winter playground area awaited the hurricane after it cut a path of death and destruction through Cuba. The storm was passing to the east of Key West, about 5 p. m., making a path for Miami and threatening the east coast as far north as West Palm Beach. Messages from the hurricane warning system—the latest estimate on the storm—placed the hurricane 120 to 140 miles south of Miami, moving northward. Residents of the threatened section were doing all they could to prevent loss of life and property.

Tithing Movement At First Baptist Meeting Success

The tithing movement recently launched by the membership of the First Baptist Church is already meeting with enthusiastic response. As outlined at present, the tithing test period will extend to Jan. 1. The list of those enlisting in the campaign is steadily growing. Workers in the church anticipate a unanimity of support heretofore inexperienced by the congregation in its financial affairs. A fellowship meeting is scheduled for next Tuesday night when it is hoped that the entire church family may be present. There will be a season of open forum followed by a brief inspirational address by a visiting speaker. The meeting will close with a "get-acquainted" feature in recognition of all new members. Thirteen of this number have been added to the church during the last two weeks. A five-day meeting will be held by the church Oct. 7 to 11. Services will be held at 7:30 each evening. The speakers will all be chosen from among the local membership. The meeting has been designated "The All-Church Week of Prayer for State Missions." Each department in the church is to be represented and will be responsible for its share of the attendance.

AUSTIN, Sept. 28.—Texas law for confiscation and sale of illegal oil is working, has earned the state more than \$700,000 at a cost of \$16,000 and hasn't hurt anyone, Attorney General William McCraw said today. Except for 32,000 barrels to be sold Oct. 8, for which there is no claimant, he said, "no human being, officer, legislator, individual, negro boy or anyone has reported the presence of a single barrel of illegal oil since May 11 when the law took effect."

OPINIONS ON HOG PROGRAM ARE VARIED

WASHINGTON, Sept. 28.—Sharply conflicting opinions of hog raisers, packers, meat dealers and consumers were offered Henry A. Wallace tonight for the basis of a 1936-37 corn-hog program. Corn and hog producers were unanimous in urging continuation of the program, with the processing tax retained during the two years beginning Nov. 6, when 1934 contracts expire. Packers and dealers asserting a shortage of pork is inevitable, urged that the AAA abandon its corn-hog program and encourage the greatest possible production of pork. Consumers, represented by heads of consumers' councils and housewives, took a middle course, recommending any renewal of the program for increases in pork. Wallace is expected to announce in the next 30 days whether a new 1936-37 program will be offered producers and if so in what form. His decision will be determined by evidence presented at the two-day hearing before the AAA.

Spooning on Their Honeymoon

"No cook but terribly in love with Joe," Marva Trotter described herself before becoming the bride of Joe Louis, sensational young negro heavyweight. Yet here she is, the morning after their marriage and his \$200,000 victory over Max Baer, in the kitchen of a friend's apartment in New York. Perhaps she's trying to prove to Joe that she's no cook, but ready to spoon with him anyway.

Wier was being sued by John Blackwell for the alleged poisoning of a "high grade" fox hound on the Wier ranch some two months ago. The sum of \$75 to \$100 was the amount asked in the case. ROOSEVELT IS USING ENEMY FIRE IN TALKS

ABOARD ROOSEVELT SPECIAL, EN ROUTE TO CALIFORNIA, Sept. 28.—Pledging a continuation of the New Deal farm policies justified by ideals embraced by the Constitution, President Roosevelt moved through the agricultural belt to the Pacific coast. The chief executive, lashing at critics who have turned their fire on administration reforms, told thousands of citizens at a rally at Tremont, Neb., that never again would the nation go back to old ways and methods. He extolled the AAA and the federal government monetary policies as steps bringing the farmer to recovery. He pointed to increase in farm incomes and charged the beneficiaries to guard the gains made. To observers his utterances were looked upon as a bid for the agricultural west's support in 1936 and use of enemy ammunition—that ammunition being the Constitution.

SMEDLEY BUTLER TO SPEAK 'Gimlet Eye' to Give African Lowdown IN EASTLAND WEDNESDAY OCT. 9

A national figure in military affairs and one of the most dynamic personalities of the United States, Gen. Smedley D. Butler, will speak on the African situation at the Connelley Theatre in Eastland, Wednesday night at 8 o'clock, Oct. 9. The announcement was made Saturday by Mrs. C. U. Connelley, acting president of the Civic League, organization sponsoring the address. General Butler is leaving West Chester, Pa., Oct. 4 with his mother, Mrs. Thomas S. Butler, for Eastland to visit Samuel, his brother and her son. General Butler is expected to arrive in Eastland Oct. 7. General Butler resigned from the Marine Corps in 1924 to become director of public safety in Philadelphia. After conducting a series of drives he found that he was doing the job too well. The restraining order came: "Lay off the lousy places." But they had picked the wrong man; elite places received the same attention as the ordinary transgressor. Forthwith, General Butler was relieved of his job. "A great and outstanding American," declared Senator Heflin, "utterly fearless." Known as "The Fighting Quaker," he is a descendant of an old Quaker family, distinguished through many generations for its service to state and nation. His father was Congressman Thomas S. Butler, chairman of the house naval affairs committee. During the Spanish-American War, as a cad of 16, he joined the Marine Corps. That was the beginning of a spectacular military career which moves rapidly from Cuba to China, the Boxer Rebellion, a march to the relief of Tientsin, the capture of Peking, to Panama during canal-building operations, to Honduras in the grip of revolution, to Nicaragua, to Vera Cruz, to Haiti, to Mexico as a spy. WILL ATTEMPT TO KEEP WAR FROM EUROPE

ROME, Sept. 28.—The Italian cabinet threatened to leave the League of Nations tonight if penalties are applied to Italy for making war on Ethiopia. The tone of a statement issued after a long meeting of Premier Mussolini and his ministers was one of plain notice to the world that Italy intends to subdue Ethiopia by force or arms. The cabinet declared it nevertheless was determined to keep the war from spreading to Europe if possible. It made a strong plea for an understanding with Great Britain, asserting Italy has no immediate or remote aims prejudicial to Britain and is ready to negotiate further accord with London dealing with Britain's interest in East Africa. The statement was friendly in tone to Great Britain and was a more or less bid for further talks. It expressed Italy's intention of warring with Ethiopia by citing Ethiopia's mobilization and charging the latter with preparing to attack the Italian colonies. It accused the emperor with disguising his preparations in the interior. The cabinet reiterating Italy's rejection of the proposals made by the league's committee of five, sneered at the league with the remark it is surrounding its procedure with ETAOIN.

Two yearling heifers found at Wright's place are alleged by the officers to have been stolen from near Stamford. Bond of \$50 has been set for Wright on the Eastland charge.

SESSION HALF GONE AND NO BILLS PASSED

AUSTIN, Sept. 28.—Texas legislators, with their special half through Monday, have settled none of the problems submitted by the governor. Wide differences have developed on the governor's four "must" topics. Senators had passed a no-drink liquor bill, but are yet to decide between a monopoly or license store for package sales, with most senators favoring licensing stores. The house is to consider its licensing bill reports by committee. The bill allows drink sales with meals and at cocktail bars. Senators had a committee working on "old aid assistance." The house received a pension bill from committee but sent it back, telling the committee to eliminate all kinds of features. One bill before the senate subcommittee carries a 3 per cent tax on retail sales. Substitution of salaries for fees of office have developed a free-for-all fight from office holders to see that they get all possible in salaries. Chief dispute was whether the legislature should set salaries or leave them to county courts.

Makes Direct Bid For Understanding With Great Britain in Crisis

ROME, Sept. 28.—The Italian cabinet threatened to leave the League of Nations tonight if penalties are applied to Italy for making war on Ethiopia. Arm—and the Man!

One of the oddest and strangest murder cases in modern criminal history blew up the other day when a court at Sydney, Australia, ruled that the arm of a dead man does not constitute a corpus delicti.

A man named Smith went fishing in the ocean with a man named Brady, and was not seen afterward. There were suspicions of foul play, but nothing could be proved.

Then someone caught a shark. The shark disgorged a human arm. On the arm were certain tattoo marks. Smith's relatives looked at them and said they were identical with marks Smith had on his arm. The police declared that Brady had killed Smith and tossed him overboard and that a shark had eaten the corpse.

All this makes up one of those far-fetched and rather creepy plots that detective story writers are so fond of. The only thing wrong with it is the conclusion. The court held that this identification was not sufficient to prove Smith dead—so Brady was released and the case fell flat.

Faster, Still Faster

After sitting by meekly for years and watching other forms of transportation take their passengers away from them, the railroads at last seem to be devoting their best brains and money to the job of fighting back.

The latest move comes from the New York Central and Pennsylvania roads, which announce that their crack New York-Chicago trains will make the run in 16½ hours, beginning Sept. 29.

Until comparatively recently, that trip was a 20-hour run. With the airplanes making the trip in something like a fifth of that time, the crack trains did not look quite so speedy.

On the new basis, they will be much better able to compete with planes; and the reduction is simply one more indication of the new energy and ingenuity which the railroads are at last injecting into the competition.

BULLDOGS ARE SWAMPED BY AMARILLO 47-0

BULLDOG FIELD, AMARILLO, Texas, Sept. 28.—The Ranger Bulldogs met a powerful Amarillo Golden Sandie eleven here today and were swamped 47 to 0. It was the largest score ever rolled up in a Bulldog-Sandie game.

Completely stopping Ranger's offensive, The Sandies exhibited a powerhouse attack with its first string to count once in the first and once in the second quarter. While under the constant pounding the Ranger line began to give way in the third period as two more touchdowns were counted, one coming as the result of the recovery of a Bulldog fumble on the nine-yard line. With reserves playing part of the third period and all of the fourth, the Sandie machine continued to grind out scores, displaying a speedy reserve backfield that simply outran the Bulldogs.

More than 5,000 fans turned out to see the Golden Sandies make their 1935 debut at Bulldog Field. They saw the defending state champions trot out several new players, all of whom today performed in championship style. The Bulldogs put-up a gallant fight in the face of overwhelming odds and at the end tried desperately to score by the overhead route.

While every Amarillo player showed up well, the linemen were especially alert on the defense, recovering fumbles and breaking through time and again to smother Bulldog backs for losses. Walsh and Payton bore the brunt of the attack for Ranger, while Bray, tackle, turned in a splendid game. Ranger's best offensive threat of the day came on the last play of the first half when Walsh got away for a 25-yard gain but was brought down from behind about 20 yards short of Amarillo's goal. The Sandies' starting backs, Clesson, Cochrane, White and Waggoner, were all effective, even Waggoner, the blocking half, carrying the ball now and then. In the Sandie line the work of the tackles, Ricketts, a letterman, and Miller, a rookie, was outstanding. Miller broke through twice to recover fumbles.

The score by quarters:
Amarillo 6 14 21—47
Ranger 0 0 0 0—0
The starting lineup:
Amarillo—Taylor, left end; Ricketts, left tackle; Williams, left guard; Goodwin, center; Crane, right guard; Miller, right tackle; Winslow, right end; Cochran, quarterback; Waggoner and White, halfbacks; Cresson, full.
Ranger—Rhodes and Fox, ends; Bray and Jones, tackles; Buntson, center; Mace and Donoho, guards; Walsh, quarterback; Adkins and Martin, halfbacks; Peyton, full.

SHEBOYGAN, Wis.—Mrs. Henry Scheele, 727 North Ninth street, reported to the police yesterday afternoon a man rapped vigorously at the door of her home and that when she opened the door he wedged his way in and asked for some rugs on which to demonstrate a vacuum sweeper. Mrs. Scheele furnished a description of the man, and the police are searching for him.

Smedley Butler—

(Continued from page 1)
France, he organized and administered the affairs of an embarkation camp improvised in a veritable hell hole of mud. In China, in command of 5,000 marines, he performed a service for peace which was referred to in a book prepared by the officer of naval intelligence—"Probably no finer example of successful arbitration by an American officer has been demonstrated in recent years than the peace-making achievement that crowned General Butler's efforts in China in 1927-28."

Butler is the only living officer who has ever been awarded two Congressional Medals of Honor. He is known as a student of military strategy and a skillful leader of men. Though his keen perception and rigorous activities have won him the name of Old Gimlet Eye, many stories are told of how he dashed through the lines to rescue a wounded soldier, or dismounted to let an injured man ride. Butler's picturesque adventurous personality brings to the lecture platform a wealth of personal experience in war and civil life, a tireless energy and unbounding enthusiasm, a rich vocabulary and a straight-from-the-shoulder manner of presenting his message.

COLONY LOSES TO A HEAVIER PIONEER TEAM

Pioneer's heavier and more experienced football team defeated Colony Friday afternoon at Colony by a score of 31 to 6 in a conference game played before a large crowd.

The heavier Pioneer team started scoring against their lighter, but scrappy, opponents in the first quarter and ran up a score of 25 to 0 at the half, but Colony came back with plenty of scrap after the half to hold Pioneer to one touchdown and put over their only score in the last period after marching the kickoff down the field to the goal line. The final 20 yards was made on a completed pass and a long broken field run.

Cecil Townsend, who played on the Ranger High school and Ranger Junior College football teams, is coaching the Colony team, and though his material is still green, they are learning fast and have the promise of making a good football team. Although outplayed in the first half, Colony showed plenty of fight against overwhelming odds, the power and drive of the Pioneer team telling time after time thru the light Colony line and around end, with the heavy backfield of the visitors blocking well and forming pretty interference. Though Colony's touchdown was made on a pass, more ground was gained through the line and when Colony develops a little more blocking and interference they should go far in their games this year.

OLNEY DEFEATS EASTLAND, 13 TO 0, FRIDAY

A twice defeated Eastland eleven went under for the third time this season against a defensively alert Olney Class B team at Olney Friday night by the score of 13 to 0.

Dauss Simmons, Eastland quarterback, Saturday faced the prospect of a broken leg although many were prone to believe it only sprained. An X-ray of the limb was scheduled today. Olney's first score came in the second quarter when the Cubs recovered a fumbled punt on Eastland's 50-yard stripe. Kelly took the ball over and Blackwell added the extra point.

At the opening of the last quarter, an Eastland punt went out of bounds, on the 10-yard line, and Buckalew went through right tackle for the second score. Blackwell missed the extra point. A defensive Olney line held the Mavericks back in the third quarter. Raymond Hamilton punted out of bounds on the Cubs' seven-yard line. The Olney team was penalized, taking them to the one-yard line where they punted out to their own 29-yard line. The Mavericks found efforts toward the goal futile.

Starting lineup:
Eastland—J. Sikes and Garrison, ends; Greer and Trantham, tackles; Dolberry and A. Taylor, guards; H. Simmons, center; D. Simmons, quarter; H. Taylor and Hamilton, halfbacks; Key, fullback.

Olney—McKinney and Jackson, ends; McWhorter and Blackwell, tackles; Vaught and Cox, guards; Williams, center; Kelly, quarter; Mercer and Patrick, halfbacks; Buckalew, fullback.

3 TONS per SQUARE INCH!

Do you know that some of the swiftly moving parts of your car engine are coated with an oil film less than one-thousandth of an inch thick? To protect, that film has got to be tough. Sinclair Opaline and Sinclair Pennsylvania Motor Oils each give a protective lubricating film that will withstand a pressure of more than 3 tons per square inch. This has been proved by tests on special Film-Breaking Machines in Sinclair's East Chicago Testing Laboratories. Look for the Sinclair dinosaur on the Tamper-Proof cans in which Sinclair Opaline and Sinclair Pennsylvania are sold.

Texas Officials Have Little Fear Of Assassination

By GORDON K. SHEARER
AUSTIN.—Texas officials have little fear of assassination. Occasional threats are received. The mislives usually go into waste baskets. Some, coming by mail, are referred to postal authorities.

Gov. James V. Allred threatened on the eve of his inauguration, accepted the explanation that the threat was "drunken talk," and pressed no charge.

Former Gov. Van Moody objected to a bodyguard. At times friends kept close to him without letting him know the purpose. Former Gov. James E. Ferguson at times was accompanied by rangers. Usually friends accompanied him and were close to him in the bitter moments of his political controversies.

"Lone Wolf" Gonzales, now assistant director of public safety, was in Gov. Ross Sterling's office at the time of the "hunger marches" on Austin, but the governor went about unguarded.

Rangers rushed to the executive mansion when the "hunger marchers" called there, but Mrs. Sterling brushed aside the rangers and welcomed the marchers in the governor's absence.

It is usual for the executive mansion to have a watchman or ranger guard. Three rangers are assigned on duty eight hours each. The mansion guard is for the protection of governors' families.

Governor Moody, returning at night from one of his trips, slipped into the mansion without disturbing the guard.

Gracious Bass Leaps Into Canoeist's Arms

BATH, N. Y.—Members of Miss Ruth Scripture's family dined on a free base.

A large fish, weighing nearly 2 pounds, leaped for an insect near a canoe in which Miss Scripture was riding, and landed in her arms.

She tossed the fish to the bottom of the boat and proudly displayed it as her "first catch without line or net."

Mayorality Rivals in Philadelphia

John B. Kelly

David S. Wilson

Philadelphia politics, long ruled by the Vare machine, promise an exciting campaign as John B. Kelly (top), former Olympic single sculls champion, and David S. Wilson, long an important political figure, emerged victorious in the Democratic and Republican mayoralty primaries respectively. Though a Democrat Kelly is considered an excellent chance to be elected mayor.

Dog Days Cause Family Troubles Judge Believes

BORGER.—That dog days cause many family troubles was a theory adhered to rigidly by Judge M. Farmer, of the City Police court, during the hot days of July and August.

"Now that cooler weather has come, people should feel better," Judge Farmer said. "During the hot weather we recognized that many people felt bad and made allowances."

"But now that cooler weather is here, we feel that the weather no longer is an excuse for family squabbling. Couples who are hailed into court for airing their troubles in public will have to face the consequences in the future."

City officers agree that in the majority of cases in which either the husband or wife calls the police to referee a quarrel, the affair ends with both the husband and wife jumping on the officer. Accordingly, they have learned to travel in pairs.

Going Nudist in a Fair Way

If golf isn't a skin game, you can't make these two girls believe it. The young lady at the left is just about to lose her shirt because she overestimated her skill at the ancient and honorable pastime, and the luckless duffer at the right is smiling out of a barrel she fortunately found at the sixth hole, her clothes forfeited for her lack of prowess. The scenes were snapped at the Cadillac, Mich., country club as women closed their season with a strip links journey, all males barred.

Auto Horn Din Over St. Louis Will Be Silenced

ST. LOUIS.—The on-again, off-again, excessively loud horn and the Sunday morning pest who drives up to a friend's house and then blows his horn until he appears, will find themselves the chief object of police attention in a drive against excessive noise, which has opened here.

Major Albert Bond Lambert, retired capitalist and member of the Police Board of Commissioners, deplors the fact that American cities have fallen far behind European centers in curbing excess noises. Stating his belief that the auto horn is doomed to retirement, he said:

"The law says that motorists must employ a uniform horn, and the driver whose horn exceeds the uniform volume is attempting to take advantage of the law-abiding motorists by using noise to his own advantage."

Among those who will receive stern police attention are:

Drivers with exceedingly loud horns, often of several tones, who cause confusion in city traffic.

Drivers who honk for minutes at a time before the residences of their friends.

Speeding drivers who keep up a

constant blaring of their horns. Drivers of heavy trucks who keep using heavy road horns when on city streets.

State Funds Moved As Solons Meet

AUSTIN.—Legislators are being kidded because State Treasurer Charley Lockhart moved \$4,000,000 in currency from the state treasury to Dallas as solons gathered for their special session.

When flood lights were installed to illuminate the state capitol dome several years ago, visitors were told it was done to prevent politicians from stealing the capitol.

The prize yarn is told of a North Texas banker. A candidate for governor was to speak in his town. Business people decided to make the day a holiday and get out a good crowd.

A committee visited business houses for that purpose. When they entered the bank and suggested it be closed because of the candidate's proposed visit, the banker exclaimed:

"You don't think he'd try to rob the bank right in the middle of the day, do you?"

BRITAIN MASSES MIGHTY ARMADA IN MEDITERRANEAN

Tremendous power of the fleets which Britain is massing in the Mediterranean sea at Gibraltar, Malta, and Suez is graphically shown in this picture, of warships at anchor in Gibraltar harbor during previous maneuvers held by the combined Atlantic and Mediterranean fleets. Ready also for one of the greatest sea battles in history if war comes, the Italian navy is massed on both sides of the peninsula between the Adriatic and Tyrrhenian seas. From home waters all the way to the waters of far-off China, British warships were ordered under forced draft to the zone of danger as the war threat grew more menacing.

SISTER MARY'S KITCHEN

SISTER MARY'S KITCHEN

BY MARY E. DAGUE
N.Y. Service Staff Writer

I DON'T know a single household, including my own, where cheese is used as regularly as it should be in cooking.

When you are buying it for cooking you want a well-aged cheese. A green one is stringy and tough and refuses to blend with other ingredients.

American cheddar, known variously as York State, full cream, stove cheese, and mouse-trap trap cheese was the first great success of the American cheesemaker and you can't beat it for cooking, though there is a new cheese made of whole milk that is creamier. Cheese has so little bulk and is such a concentrated food that the ballast foods, fruits and vegetables, must be well represented in a menu featuring it.

It should not be added to an extremely hearty meal. Nutrition experts tell us that one pound of cheese is a "fairly good equivalent of five quarts of milk," or 16 milk in solid form. So, to use more cheese is to use more milk, with its two valuable minerals, calcium and phosphorus. Cheese is also high in protein and vitamins A.

Hominy and cheese timbales make excellent headliners for luncheon or supper with grilled fresh tomatoes or canned tomatoes done in a sauce.

Cheese and Hominy Timbales
Two cups canned hominy, 1 cup grated cheese, 2 eggs, 1 teaspoon salt, 1-4 teaspoon dry mustard, few grains pepper, 1 tablespoon minced sweet green pepper, 2 tablespoons minced parsley, 1 cup scalded milk.
Drain hominy and combine with cheese and seasonings. Add

Tomorrow's Menu
BREAKFAST: Halves of grapefruit, cereal, cream, waffles, honey, milk, coffee.
LUNCHEON: Stuffed baked squash, ice-box rolls, apple sauce, milk, tea.
DINNER: Cheese and hominy timbales, grilled tomatoes, salad of Chinese cabbage in lime jelly, deep dish green sage pie, milk, coffee.

Early Birds Revue and Dance Hour Coming Attractions in Fall's Calendar

Just as many had come to the conclusion that unusual things never happen any more, there comes to the entertainment schedule for Ranger, the Early Birds of WFAA Artists, Dallas, who are to pay their official visit to our city on Wednesday night, Oct. 2, with a shapely musical revue at the Recreation building, followed with a dance at the American Legion hall.

Several days ago, the manager of the WFAA Artist, Miss Marjorie Lee Robison, came to Ranger for the purpose of arranging with some lively organization in sponsoring this entertainment and upon contacting the post commander, B. H. Peacock, and his active committee, the date and place were quickly entered into.

Ranger was chosen by WFAA as the only place to be visited between Dallas and Abilene. The revue, one which varies decidedly from the regular program you hear over WFAA each morning at 7 o'clock, is made up of song and dance artists, and specialty number by the orchestra. A trio composed of Sue Oliver, Abner Sage, and Doris McClain, is an outstanding feature, along with many other distinctive selections grouped together for this well known number of radio artists.

You will most assuredly miss a treat of a life time if you fail to attend the revue Wednesday night. A part of the proceeds are to go to the buying of chairs for the auditorium, and the tickets will be handled by members of both boy scouts troops and likely by a select group of Ranger High school and Junior college students.

Invitations have been extended persons in neighboring towns and no doubt there will be many from surrounding cities as Strawn, Eastland, Cisco and Breckenridge, who will attend the double attraction, the choice presentation of

high class entertainment of 1935. Dance floor of the American Legion hall is being thoroughly gone over, and will be in tip-top condition for dancers who are to dance by the much sought-after dance orchestra, and popular personnel.

Meet your friends at the spacious and attractive recreation building and thence to the Legion hall for the dance, make the evening one long to be remembered.

Smartly Appointed Buffet Luncheon Honors Members and Guests at Hagaman Place

The week just drawn to a close brought to the early series of autumn social happenings, a smartly appointed 1:30 o'clock buffet luncheon honorary to members of the 1920 club, and their limited number of guests.

The "Hagaman Place," was never more beautifully dressed in its floral note of roses, plucked from the rose garden, supervised by Mrs. Hagaman, and whose taster in roses runs along the lines of

"Becky Sharp" and Dearest Amelia

A poignant motivation in "Becky Sharp" is the friendship of Amelia Sedley for the heartless heroine, who often betrays her confidence but finally makes atonement. Becky Sharp Gains Heights of Luxury On Nothing a Year

Who would like to learn the secret of how to live on nothing a year and yet enjoy all of the luxuries of the more fortunate wealthy? Pioneer Pictures' full-color "Becky Sharp," with Miriam Hopkins in the title role, dramatically reveals the priceless formula.

Thackeray's famous character, who has come down through years of literature and drama to grace the first epoch-making color film, was humbly born but ambitious. She had a burning desire to possess social position and riches. And she was not in the least squeamish about the method by which to climb.

London's inner social circle was hard to crash in the early nineteenth century. Those within its sanctity looked down their noses at discrepancies in birth. Consequently they looked down their noses at Becky, who was employed as a companion to rich old Miss Crawley.

A less ingenious person would have succumbed to such an imposing obstacle, but not Becky Sharp. Not only was she resourceful—she was designing, smart, and heartless (except in the regard she had for her husband). Carefully she planned her campaign and, over all the barriers that women could place in her way, she won her first position. She won it through the men, whom she devastated. Later, with cunning strategy she conquered the women. But barely at the peak of her triumph her home of cards tumbled about

her. Becky said she could have lived honestly on five thousand pounds a year. She didn't have that income. In fact she didn't have a farthing she could depend upon, but she lived in a blaze of sparkling glory on next to nothing. How Becky's system prevailed is revealed in "Becky Sharp," coming to the Arcadia Theatre. Reuben Mamoulian directed this RKO Radio Picture, with color composition by Robert Edmund Jones.

Recluse's Will Makes Boys Heirs to \$8,000

BLOOMV. I. R. O. — Discovery of a will left by Milton O. Myers, Bloomville recluse, put an \$8,000 estate within grasp of two local school boys.

They attracted his attention when, as boys of 4 and 2, they romped about the house as he repainted the place 10 years ago. Neil and Don Siles were named in the will, discovered in a Tiffin, Ohio, safety deposit box just as preparations were being made to divide the estate between two sisters of Myers, Mrs. Estelle Faust, of Detroit, and Mrs. Clendorella Brook, of Cleveland.
