Innovations Are on Tap for Golf Tourney June 3, 4, 5

Several new innovations are on tap for the Sixth Annual Lone Cedar Country Club Invitational Golf Tournament set to begin its weekend run Friday, June 3, according to Jim Parks of Eastland.

Scores may be called in, but the $15 entry fee must be received by noon Friday, Pro-Am and Qualifying Chairman John Hart reports. And players must actually tour the course in the pro-am to be eligible for the $40 pair of shoes as top prize.

Newest twist for the '66 tourney will be a "shotgun start" to get the six flight-96-player field out and back in the shortest length of time and keep the waiting down, Hart says. Each entry will be given a $2.75 Lone Cedar Country Club souvenir golf cap, and clubhouse facilities will be available for players and guests.

Bob King is chairman for the Friday night barbecue to which all players will receive tickets, and tickets will be available to guests.

Joe Collings reports the greens to be in excellent condition and the competition will be stiff for the some $2,100 worth of tournament prizes. Flight winners will get Ben Hogan irons; runnersup, a Hogan set of four; and consolation winners, Hogan golf bags.

Bill Hart is tournament chairman and Neil Day will be starter. Other officials include John Bates, Dr. Ted Nicksick, both of Ranger and Buddy Haun of Eastland.

Financing Commitee, Chairman Frank Kurk of Gorman; Golf Course, Chairman Collings and Dr. Nicksick, both of Ranger; Rules, Chairman John Bates, Don Doyle of Eastland.

Also, Hospitality and Entertainment, Chairman Jack Germany of Eastland, Jack Arrington of Eastland, Glyn Gilliam of Ranger and Keith Whitt of Gorman; Barbecue, Bob King; Game Room and Sweepstakes, T C. Wiler, Ranger; Golf Course Concessions, Collings; and Qualifying and Pro Am, Hart, Eastland.

. . . be thou faithful unto death and I will give thee a crown of life.—Rev. 2:10.

"Dial 'M' for Murder" by Fredrick Knott was originally presented on stage by James P. Sherwood at the Westminister Theatre, London, England, on June 19, 1952.

Mr. Sherwood then presented it at the Plymouth Theatre, New York City, New York on Oct. 29, 1952. Maurice Evans and Gusti Huber played the broadway leading roles.

In the movie version a few years later, Ray Milland and Grace Kelly led the cast.

The Eastland Civic Theatre will present "Dial 'M' for Murder", beginning June 2, at Bell Hurst Playhouse with Kenneth Watson and his wife, Mary, playing the roles of Tony Wendice, an ex-tennis star and his wife, Margot Wendice.

Curtain time for the play, which will be presented June 2-3 and June 6-7, will be 8 p.m. for all performances.

Accent on Health

J.E. PEAVY, M.D., Commissioner of Health

As the outdoor swimmnig season approaches once again, the safety experts predict with certainty that more than 6,000 Americans will drown in the coming months.

They will drown in swimming pools, in lakes and streams, at ocean beaches. Some will drown while in for a refreshing swim and others will fall out of boats or off docks and piers.

Many, if not most, of these drownings need not happen.

Today's Health, the family magazine of the American Medical Association, offers some basic safety rules that will help to avoid a tragic water accident for your family.

Learn to swim and to relax in the water.

Never swim alone.

Do not swim when overly tired or when the water is extremely cold.

Do not overestimate your ability and endurance.

Swim at protected pools or beaches under the supervision of a trained lifeguard.

If a boat overturns, stay with it and don't try to swim a long distance to shore.

Never dive into waters of unknown depth.

Try new activities, such as water skiing or scuba diving, only after learning the skills from qualified instructors.

Many families will do most of their swimming this season in private pools, in their own backyards or in those of a friend or neighbor. There also are some special safety precautions for private pools —

Make certain the pool is kept clean and the water chemically purified.

Walk, don't run, about the pool. Horseplay should be forbidden.

Fence the pool and keep the gate locked to keep out small children.

Keep handy rescue equipment, such as long poles and ring bouys.

Keep bottles and glasses away from the concrete or metal pool deck.

A renewed emphasis by state health authorities is being placed on animal vaccination against rabies after a definite upswing in this virus disease has been noted since early fall.

Dr. J. E. Peavy, State Commissioner of Heath said there is definitely an increase in animal rabies cases in many parts of Texas since September. And in the first week of the new year at least 12 cases have been confirmed by the state health laboratory.

The confirmation came from animal head autopsies performed on dogs, livestock and some wildlife.

The number of cases back in the fall reached four or five, but the figure jumped to 12 in November and 27 through December 25. No single area of the state has been cited as leading the statistics, since the increase appears to be statewide.

In light of this, health authorities are stressing renewed animal rabies control programs at city and county levels of enforcement to protect the human population against having to take treatment or dying from the infection.

State health officials emphasize that a complete continuing rabies control program must include these phases: (1) Public education regarding the seriousness of rabies exposure and the relative ease with which rabies can be controlled in the animal population through concerted effort; (2) Vaccination of all owned dogs and cats; (3) Pick-and elimination of all stray dogs and cats; and (4) Wildlife control procedures in the county areas and the eradication of those in cities and their fringe areas.

Upstairs, downstairs, all through the house are deadly poisons, ready for the taking.

Catherine de Medici, says a new pamphlet from the American Medical Association, hid deadly poisons behind a secret panel in her boudoir.

Chances are, says the AMA, your supply of potential poisons is not so well hidden. Seemingly harmless household items—items which cause half a million accidental poisonings in our country each year—are probably stored in every room of your house. Before someone finds them accidentally, look for these items:

Kitchen killers may include household chemicals such as detergents, ammonia, silver and brass polishes, disinfectants, room deodorants and insect poisons. They may be under the kitchen sink in easy reach of children.

Medicines cause most accidental poisonings in children, and aspirin leads the pack. Cosmetics, deodorants, shaving lotion and unlabeled medicine can poison adults who take them in the dark without reading the labels.

The home workshop has its dangers, too. Children are curious enough to drink paints, lacquers, varnishes and turpentine, especially if you leave these chemicals in empty soft drink bottles.

Garden aids, such as insect sprays, weed killers and fertilizers may benefit your plants, but they can kill children. Store garden chemicals out of reach of children. When away from eyes, nose, mouth and skin.

In the bedroom, never leave cosmetics and pills on tabletops or in low drawers where children can find them. Mothballs are a hazard if you store winter clothes in a low chest or drawer that children can reach.

Some final precautions—label everything, keep medicine in a locked cabinet, never store chemicals in food or beverage containers or on food shelves, date medicines and discard old drugs, use only prescriptions ordered for you by a physician, do not contaminate food or utensils with insect sprays, aerosols, rat poisons, weed killers or cleaning agents, and, keep potential poisons out of children's reach.

Duke Family Is Honored Friday In Smith Home

An outdoor barbecue was held at the home of Mr. and Mrs. Charlie Smith on Friday evening, May 20.

The occasion honored Mr. and Mrs. Lee Roy Duke who are moving to Gorman where Mr. Duke has accepted the position as head coach of Gorman High School Football.

A delicious meal and musical entertainment directed by Dan Mitchell was enjoyed by a group of 16 friends.

Mr. and Mrs. Duke have lived in Ranger for the past five years where Mr. Duke was employed as teachrr of English and assistant football coach of Ranger High School. The couple are members of Second Baptist Church. They have one daughter, Anginette, age two years.

Friends Honor Dorotha Linn With Reception

Miss Dorotha Linn was honored with a reception from three to five o'oclock Sunday afternoon at Lone Cedar Country Club.

Hosts were Mr. and Mrs Kenneth E. Alford, Miss Nancy D. Coody, and Miss Sanya Sullivan.

Miss Linn has been head librarian of Cooper Library of Ranger Junior College for the past three years. She is leaving June 1 for Temple, where she has accepted a position as medical librarian at the Veterans Center.

A large arrangement of blue and pink daisies in a silver compote graced the refreshment table, which was laid with a blue damask cloth.

MR. GRIFFITH

Griffith Plans To Attend H-SU Next September

Thomas Griffith, sophomore elementary education major from Tomball, Texas, has been athletic trainer at Ranger Junior College for the past two years. In the fall he will attend Hardin - Simmons University, where he will complete his college training.

Tom spends his free time hunting, fishing, reading and writing poetry.

When asked about his duties and responsibilities, he replied, "Being a trainer is similar to being a nurse. You take care of everything from scratches to sprains. You use such instruments as the sonicator (ultra-sonic sound machine), whirlpool, and the heat lamp. On some injuries you work with the doctor following his instructions as to special care. The major purpose of a trainer is immediate first aid on the scene of the injury; then therapy, such as massage, bandaging, taping, etc., is continued until the athlete is able to return to play."

Being a trainer takes a lot of time, according to Tom, but he says he enjoys working with people and finds pleasure in helping them get well.

Seed and plant catalogs can serve as excellent references when you select plants you want in your garden this next summer.

Most of these firms have built their business and reputation on customer satisfaction and must give accurate information about their products or they won't receive the repeat business necessary for them to stay in business.

In order to plan an attractive and well-arranged flower bed, it is important to know the colors, heights and growth habits of the plants you intend to use. This information is usually free for the asking in most of your better seed catalogs.

As an interesting variation in your gardening, you might try planning a flower bed made up of plants with varying shades of pink or plan a bed with all white or all blue flowers.

When selecting seed supplies, remember that usually the rare or the new varieties are the most expensive. This doesn't necessarily mean that they are the best plants for your area. Those varieties which continue to appear in the seed catalog several years after their introduction are usually proven selections. These will give much more satisfaction to you than some of the new and rare plants.

Price doesn't always determine the best buy in seeds or plant products. The reputation of the firm handling the product is a better determinant of quality.

When tap water is used in steam irons, deposits of calcium and other minerals are almost certain to form. These deposits usually lead to sputtering irons, drops of water splattering on clothes and disgruntled housewives.

To correct the problem, follow these simple directions: Dissolve one tablespoon of a non - precipitating packaged water softener in one cup of distilled or demineralized water. Fill the iron with this solution and let it steam for five to ten minutes, shaking it constantly during this time.

Empty this water and fill the iron with a mixture of two tablespoons distilled white vinegar to one cup distilled water. Let the iron steam five to ten minutes, again shaking constantly. Pour off this water and rinse the iron with distilled or demineralized water.

Don't neglect to shake the iron while you're steaming it clean. This is the secret to success. If this does not completely clean the iron, repeat the procedure.

You should clean your iron every two months to keep it in proper working order. Use only distilled or demineralized water, available at most drug or grocery stores, in steam irons.

Honey Tips

To measure honey — measure shortening first and then measure honey in the same measuring cup — slides out with ease.

To replace other sweetening with honey — In a cake or cooky recipe that calls for other sweetening, the general rule is to reduce the amount of liquid one-quarter cup for each cup of honey used.

To liquify honey that has granulated or solidified — Place the container in a bowl of warm water (not warmer than the hand can bear) until all crystals are melted and honey is liquid. Unless otherwise specified, honey in recipes should be in liquid form. Granulated honey may be used with equal success in baked goods.

To purchase honey — Select the flavor you desire. The flavor depends upon the kind of flowers from which bees gather the nectar. If you have storage space, it is more economical to buy honey in large containers. A cup of honey weighs approximately 12 ounces, one-fifth of which is moisture.

To store honey — Keep liquid honey in a dry place. Freezing does not injure the color or flavor but may hasten granulation. Avoid damp places for storing honey as it has the property of absorbing and retaining moisture. Do not put honey in the refrigerator. Crystallized honey is just as good as liquid honey.

CARRIERS DISTRIBUTE RURAL SURVEY CARDS

Postmaster Marene Johnson reminds rural patrons of the Eastland Post Office to be on the lookout for June Livestock Survey cards. Next week, mail carriers will leave survey cards in a sample of boxes along their routes.

"USDA bases livestock and poultry estimates on replies to this survey," Mrs. Johnson explains. "It is important for everyone who gets a card to fill it out and return it to the carrier. This way, USDA gets a representative sample of the area's livestock and poultry holdings.

Survey cards will be forwarded to Cary D. Palmer, State Agricultural Statistician, in Austin. After adding and analyzing these cards, USDA statisticians are able to estimate the State's milk production, calf and pig crops, lamb and wool crops, and the number of hens and pullets.

Information from this survey will guide livestock and poultry producers in making important business decisions," Mrs. Johnson concludes.

Prize-Winner "...Miguel" Now at Public Library

By MRS. A. E. CUSHMAN

Eastland Public Library now has the book, "And Now Miguel," on its Newberry Award shelf and it has been widely read. Our own colorful Southwest serves as a background for this refreshing story of life on a high plateau in North Central New Mexico. The Chavez family has lived near the foothills of the Sangre de Cristo Mountains for generations and are sheep herders. The daily life of the Chavez family is eventful as they all go about their work and play.

The Newberry Prize winning book by Joseph Krumgold, has been made into a beautiful movie, produced by Robert Radnitz, who has made such award winning pictures as "Island of Blue Dolphins" and "A Dog of Flanders".

Actual filming of the story took place in the sheep grazing land of the Chama River valley of New Mexico, 65 miles northwest of Santa Fe, 6,900 feet above sea level and is spectacularly beautiful in technicolor.

Letters TO THE EDITOR

Editor:

This is written in loving memory of our mother, Mrs. Minnie Crosby, who passed away April 26, 1966, and was laid to rest in Oakwood Cemetery beside her late husband, W. M. Crosby, who preceded her in death several years ago.

A daughter, Iva Lou, also preceded her in death a few years ago.

Mrs. Crosby was a wonderful Christian example to her many friends, and all who knew her treasured her as a friend. She was faithful in church attendance and lived a devoted life to all the principles of Christian service. When asked how she could climb the high steps at the church she would smile and say, "My strength comes from the Lord." She possessed all the magnificent talents of kindness, truth, forgiveness and generosity, living all her life ready to help and serve others in any way she could. Letters by scores have come to the family from people in many states and cities whom she had done an act of kindness to in years gone by.

Two daughters survive her, Jewel Crosby Golson and Louise Crosby Trippet, and a foster son, Jack Shelton Williams of Abilene. Also David Sitton who loved and cherished Mrs. Crosby as "Mama." A sister, Mrs. Florence Irwin of Midland, and a brother, A. E. McKeever of Tyler also survive.

Mrs. Louise Crosby Trippet

EDITOR:

Just a note to let you know the Kincaids are pretty well settled in their new home.

We miss our friends and family but we like it out here very much. We have good neighbors, schools and churches. The weather is beautiful most of the time.

It's nice to be able to keep up with Cisco's activities through The Press.

I thought the 4-H leaders might enjoy knowing that Deneice is putting into practice many of the things she learned in Eastland County 4-H.

In Feb. 500 4-Hers participated in County "Judging Day." They judge everything from oranges to clothing construction. This activity brought a red ribbon.

More than 300 Ventura County youths presented demonstrations March 12. Deneice was the gold medal winner in the clothing division and will represent the county in the regional competition May 21, at The University of California.

April 23, 220 4-H girls participated in "Dress Revue." Deneice received a blue ribbon and gold medal for her coat and dress. There is no further competition for junior girls in this event.

None of this would have been possible if she had not gotten a good background in Texas.

Sincerely,
The Don Kincaids
