Final Long-Range City Plan Presented

New Water Supply Line To Rockport To Be Started Soon

Actual construction of the long delayed new water supply system for Rockport is anticipated by late June, now that approval has been received from the various state and federal agencies involved. Construction bids on the three phases of the project are being asked by June 17 by the Aransas County Water Reclamation and Conservation District.

First phase of the program is the laying of a 24" line, second phase is the construction of elevated storage facilities, and the final phase includes pumping facilities and ground storage.

Contracts will call for completion of the facilities for delivery of water from the soon-to-be completed water treatment plant near Ingleside to Rockport within 210 days of the start of construction, 360 days are allowed for completion of the entire project.

The project has been delayed several times by reviews for the agencies participating in the cost of the project. Of the estimated total \$1,800,000 cost a portion will be covered by a loan from the Texas Water Development Board. Additional funds will be provided by a grant from the federal department of Housing and Urban Development, and the balance by revenue bonds issued by the city of Rockport.

The entire project is planned to be self-liquidating from income received from sale of the water to users and no city taxation is to be involved, according to Harold Picton, president of the district board.

The new water supply line will be laid along Avenue A in Aransas Pass and it is anticipated that this city will take some water from it at a later date. Also to be served by the line is Fulton and areas to be developed outside the Rockport corporate limits.

The six winning floats are to be at the arena Saturday night, June 7, by 8 p.m.

Tickets for the freezer calf or a cash prize of \$75 may be purchased from any Riding Association member. The drawing will be at the rodeo grounds on Sunday, June 8. The winner need not be present. Tickets are available for a \$1 donation.

The final long-range plan for the city was presented to the City Council Monday night by Robert D. Grossman, associate partner of Harland Bartholomew and Associates, planning, engineering and landscape architecture firm from St. Louis.

The comprehensive plan for the next 20 years represents the thinking of the planning firm, the City Council and five planning committees composed of 54 leading local citizens.

Social Security Reports For Household Employees

Do you pay your household employee at least \$4 a week? If you do, she is probably earning social security credit, and you should report her wages. The social security law covers cash wages of \$50 or more paid in a calendar quarter, according to H. M. Cleveland, district manager of the social security office in Corpus Christi.

What should you do? Ask your social security office for the booklet "Social Security and Your Household Employee." This booklet explains how household employees should be reported. It also has a postcard form to request the simplified report forms.

When should you report? The returns are due in April, July, October, and January of each year. Each return is for a calendar quarter.

Make sure your report is complete. Show the name and social security number of your employee as those items are shown on her social security card. Only cash wages are reported, Cleveland said.

Shrimp Landings May Showers Reported Higher

Shrimp landings at Texas ports amounted to 1.8 million pounds in April, with a dock-side value of \$1.9 million. Current landings brought the January to April total landings to 6.9 million pounds compared with 6.8 million pounds during the corresponding 1968 period. The Brownsville-Port Isabel area accounted for 60 percent of the State's total current landings, followed by Aransas Pass and Galveston. The following represents landings of headless shrimp for specified areas and periods:

Port Arthur-Sabine Area, in April, 32,000 pounds, January to April, 1969, 119,300 pounds as compared to 191,000 in the same period of 1968;

Galveston - Seabrook Area, April, 121,400; Jan.-Apr., this year, 289,000 as compared to 223,300 last year;

Freeport Area, 115,100 in April, 648,800 pounds January to April, 1969, compared with 667,100 in 1968;

Matagorda - Palacios Area: April 40,100; April - January, 128,900; 1968, 97,200;

Port Lavaca - Port O'Connor - Seadrift Area, April, 60,200; January to April, 178,500 compared to 193,200 last year.

Aransas Pass - Rockport Area, 346,000 pounds in April; 1,49,000 pounds in January to April, compared with 1,256,000 in 1968. Brownsville - Port Isabel Area 1,083,200 in April; 4,029,800 pounds, compared to 4,044,100 pounds in 1968.

Totals of all areas, April, 1,798,200; January - April, 6,944,500 as compared to 6,873,000 for the same period last year.

All 1969 figures are based on preliminary reports.

Trawlers fishing Gulf waters made short, broken trips throughout April. Weather conditions were highly unsettled, and shrimp were scattered from the high seas off lower Mexico to southeast of Morgan City, La. Vessels working brown shrimp made trip averages of 10 pounds per 12 hours' efforts in waters beyond 30-fathoms—somewhat less in 20 to 30 fathoms. White shrimp catches of 100-200 pounds were reported adjacent to all major passes. In addition, at the close of April, egg-bearing female whites were noted in catches from 5 to 11 fathoms off the central and north Texas coast and mixed with small young-of-the-year pink shrimp.

The pink shrimp fishery on the distant Campeche - Contoy grounds continued fair to poor with trip averages of about 200 pounds per 12 hours' effort. In considering the number of "super trawlers" and their capabilities, the 1969 winter and spring volume landings must be considered poor compared with past records of smaller, less efficient fishing craft operating under comparable environmental conditions. In 1969, the number of vessels working Texas waters will approach 2,000, consequently some observers feel that the maximum profitable yield will be achieved even under the most optimistic production outlook.

Blue crab landings amounted to 270,000 pounds in April. This was 50,000 pounds above April landings in 1968 and included some 40,000 pounds from the upper Laguna Madre area. The blue crab fishery has been very active throughout 1969 and demand for picked crab meat is good. Crab fishermen received 8-11 cents per pound for live crabs.

Oyster landings of 18,000 barrels were some 2,000 barrels below April landings of 1968. The public oyster reefs in Galveston Bay were closed to commercial oystering on April 30, however, most units had stopped dredging prior to the statutory end of the spring season. Private reefs may be worked at the discretion of the owner.

Ten vessels were launched and made maiden trips in April. Nine were steel hulls and in the 65- to 72-foot class and all built for Texas firms. One vessel was lost at sea, several were assisted by the Coast Guard for various reasons.

W. S. C. S. To Meet June 3

The Women's Society of Christian Service will meet at 9:30 a.m., Tuesday, June 3, in the Fellowship Hall at the Methodist Church.

The program topic will be "Ancient Signs in Today's World." Members of the Fannie Townsend Circle will present the program. Nursery service will be provided for children.

May Showers Bring Out Blind Snakes

AUSTIN—If you have found what you thought to be earthworms in your house or on the patio—you should look again. They are probably snakes.

But there's really no danger; they aren't baby rattlesnakes or baby coral snakes or baby anything else — that's dangerous, according to Howard Lee, director for programs for the Texas Parks and Wildlife Department.

Lee said the snakes seldom reach eight inches in length but generally average around six and are not poisonous. Live specimens are semitransparent with a pinkish or purplish cast, and become opaque in preservative.

Lee said the small snake is called the blind snake or the Texas blind snake and belongs to the family Leptotyphlopidae.

Looking like earthworms to some extent, they also have many characteristics of the earthworm: they live in the top inch or inch-and-one-half of topsoil and eat insects, eggs and larvae.

And like the earthworm they serve a valuable function by aerating the earth as well as controlling insects. Lee said that recent heavy rains over most areas of the State have caused the small snakes to seek drier and warmer sites; thus the reason for such obvious numbers.

And also like earthworms, they are completely harmless. Lee suggests returning the small snakes to your flowerbed or lawn instead of killing them.

The term blind snake actually contains two families including the Typhlopidae which is not found in the United States proper. One species of the Typhlopidae known as the flower pot snake from its frequent transport with growing plants, has been introduced in the Hawaiian Islands, according to a field book of snakes, published in 1941.

KINDERGARTEN BEACH PARTY

Mother Goose Land Kindergarten and Pre-Kindergarten rounded out the school year with a beach party. The groups were sponsored by the Pre-Kindergarten teacher, Mrs. Frances Iles, and many mothers, and the Kindergarten teacher, Mrs. Pat Miculka. Everyone brought sack lunches to the Rockport Beach and had a very enjoyable time. The teachers would like to say "thank you, Mothers, for all the help you gave to us during the school year."

Mrs. Joe Slocum has accepted the presidency of the Woman's Club of Aransas County, succeeding Mrs. Lorene King who found it necessary to resign because of a recent illness.

WESLEYAN SERVICE GUILD MEETS

The Wesleyan Service Guild met May 27 in the United Methodist Fellowship Hall. The president, Mrs. B. W. Hamblin, called the meeting to order.

Mrs. Tom Jessee was leader of the program, "Days for Discovery, A Summer Experience with New Forms of Ministry." A discussion followed.

The meeting closed with the Guild benediction. Those present were: Mrs. Sam Cade, Mrs. E. G. Cooke, Mrs. C. L. Harris, Mrs. R. E. Hawes, Mrs. B. W. Hamblin, Mrs. Tom Jessee and Mrs. J. D. Donaldson. Mrs. Minta Lancaster prepared the refreshments and Mrs. Jesse served.

ARTHUR A. MOOTS DIES

Funeral services for Arthur A. Moots, 77, who died Monday in a Corpus Christi nursing home following a short illness were held Wednesday in Marshall Funeral Chapel with burial in Rockport Cemetery.

Moots, a native of Kirksville, Mo., moved to Rockport 10 years ago. He was retired from the postal service, and was a member of the Masonic Lodge in Holden, Mo.

Surviving are a son, Henry K. Moots, of Kansas City, Mo., and a grandson.

Mrs. Herman Johnson is a patient in Spohn Hospital undergoing a series of tests.

An angered local Irishman, tired of the noontime thunder from high-flying Strategic Air Command jets says he's going to write a nasty letter to the local lodge.

SECURITY REAL ESTATE

Incorporated

John A. Lewis, President

Lois Townsend Gurley, Office Manager

CONGRATULATIONS to the Aransas County Independent School District on the culmination of another successful school year. If you are wondering what is the connection between this and the real estate business we say that good schools, good churches and a low crime rate create a favorable impression on those looking for a place to live and those buying property for investment.

FOR THE SMALL INVESTOR—Lettered Blocks in the Manning Addition 'A' through 'L'. These blocks are 100 feet by 300 feet or the equivalent of four lots. The price is \$1,000.00 per block. They can be bought on contracts for deeds on liberal terms with 8% interest. This is a good investment for the younger generation.

ALSO FOR THE SMALL INVESTOR—Acreage tracts in the Fulton Outlots, for the most part tracts of about 10 acres. These tracts can be bought on terms and the price is \$500.00 per acre. The rerouting of Highway 35 in this area will increase the value of these properties.

FOR THE SMALL HOMEOWNER—Whether the same be a small cottage, mobile home, or house to be moved. Many lots in the Smith and Wood Division, The Doughty and Mathis Division and the Manning Addition lots sized 50 feet by 150 feet priced at \$400.00 each. These lots can be bought on liberal terms and are good buys even though one does not have an immediate need for them.

Aransas County is enjoying a mild boom in the real estate business. There is so much construction being done that one has to wait for carpenters, painters, plumbers, etc. SECURITY'S business is up an estimated 25% over that of the same time last year.

Police Dept. Is Praised

This is the kind of letter any police department likes to receive:

Mr. Everett Taylor,
Chief of Police
Rockport Police Department
Rockport, Texas

Dear Chief Taylor:

This letter is a brief attempt to express the appreciation of the Administration, Teachers, Parents and Pupils of the Rockport Elementary School for the fine manner in which you and Mr. Tommy Ochoa have provided for the Safety of the children of the Rockport School.

I know that a person in a position such as yours hears too many complaints and too little compliments. I want you

to know that I appreciate the fine job you are doing at the crossings and around school. There have been many comments made by the Teachers and Bus Drivers about the improved conditions at the crossings.

Thank you again for a task well done.

Sincerely
Albert R. Griffith, Jr.
Principal
Rockport Elementary School.

CARD OF THANKS

I would like to thank everyone for the cards, flowers, visits, telephone calls, prayers and other kindnesses shown me during my stay in the hospital.

JOHN KINSEY

Elsewhere in this issue you will find an article on the Comprehensive Plan for Rockport from Harland Bartholomew and Associates.

To give you some background on the recommendations, here is what the firm states early in its report under the title of "Abstract":

"Rockport, on the Gulf Coast 3 miles northeast of Corpus Christi and the New Padre Island National Seashore, will continue to urbanize rapidly as industrial growth and tourist-resort activities expand. With about 4,000 in the city and 8,000 in the planning area today, by 1990, the plan anticipates 18,000 and 25,000 respectively.

"The land use plan, based on long-range goals for the city, proposes residential, commercial, industrial and public areas needed to serve the future population. Proposals to turn poor drainage into a recreational asset are co-ordinated with plans to revive the commercial function downtown and expand convention, tourist, and community recreation facilities.

"The plan envisions full use of the extraordinary coastal environment for the employment of residents and tourists alike, turning liabilities into assets, while conserving important natural features such as groves of live oak trees, beaches, bays, and wildlife areas.

In the page one story, reference is made to the five planning committees composed of 54 leading citizens who analyzed the master plan and finally gave their O.K.

When Bob Grossman of Harland Bartholomew and Associates submitted the final comprehensive plan to the City Council, he commented that the advance publicity in out of town newspapers about the preliminary and tentative reports had been outstanding.

"As a matter of fact," he reported, "Four friends of

mine in Corpus Christi decided to make investments in the Rockport area as a result of these news articles."

News and articles were sent to and published in the Corpus Christi Caller-Times, San Antonio Express and Houston Chronicle. Some of the articles are picked up by the Associated Press and United Press-International News services and sent to papers all over the world.

And yet, no members of the local news media were appointed to any of the Planning Committees.

T.O.P.S. Ladies Lose 180 Lbs.

Another month has gone by, and the T.O.P.S. ladies have totalled a loss of 180 lbs. for the month of May. There are now 42 members on the roll and more applications coming in every week.

At Monday's meeting, Queen of the Month was Mrs. Freddie Ingersoll with an 11-pound weight loss. Also at this meeting the members enjoyed a delicious low calorie buffet supper.

The food was supplied by the ladies who were the losers in a two-team weight loss contest held over the past month. Great ingenuity and imagination had gone into the preparation of the varied, mouth-watering delicacies.

Some of the ladies dressed up either in the very baggy-new clothes they were wearing when they first joined the club, and some of them were dressed in the tackiest way imaginable.

Prizes for the tackiest and the baggiest were won by Mrs. Reba (Baby Jane) Vick and Mrs. Margaret (Droopy Drawers) Floyd respectively.

It is hoped that the Rockport T.O.P.S. can furnish a float for the forthcoming parade sponsored by the Aransas County Riding Association, on Saturday, June 7, but at the moment the club hasn't been able to find a suitable vehicle. Any offers to furnish same will be greatly appreciated.

Information on club activities can be obtained from the secretary, Mrs. Betty McMeredit, SO 4-6213.

Letters to the Editor

The purpose of this letter is to inform the citizens of Aransas County as to the quality of the young people in this county. Never before have I had the pleasure of working with and knowing such fine young people in my life. You should be proud of them.

Where some communities are plagued with youth riots and civil disorders, our young people are busy trying to make something better out of themselves and their community.

One incident which I speak of is the young people of this community binding themselves together and trying to obtain themselves a Youth Recreation Center. No one person in this community knows better than I the need for such a center and these young people instead of sitting on their hands and saying "YOU OWE IT TO ME" are working hard to do something for themselves. I for one am behind them 100 per cent and think that the entire community, whether you have children or not as these are our future leaders, should get behind these young people and give them our wholehearted support.

A second thing that brought to my mind their good qualities was the recent VFW Buddy Poppy program. As Commander of the local VFW post, I saw at least 62 young people, Boy Scouts and Little League ball players go out and work nearly all day last Saturday and take donations for the VFW Poppy program. These boys knew that they were not to be paid because all of the money goes to help those men who have fought for their country and have been disabled. I think of how little some of us have done for these men and then look at the young people and know that our community is in pretty good shape as far as young people are concerned. I say thanks to the young people of our community

ity and I want you to know that I for one am behind you and will do what I can to assist you in any way.

—Sheriff Bob Hewes.

Mr. and Mrs. Tommy Bradshaw, Freddie and Jeff, and Ed Bradshaw of Baytown, spent the weekend here visiting in the home of Mr. and Mrs. Edric Deason. Freddie remained in Rockport for the summer with his grandparents, Mr. and Mrs. Deason.

Rudyard Kipling wrote the stories for his "Jungle Books" while residing at Brattleboro, Vt.

VFW HOLDS REGULAR MEETING

At the VFW meeting Tuesday night Commander Bob Hewes announced that a special meeting will be held next Tuesday night at 7 p.m. at the VFW Hall to open bids on air conditioning the VFW Hall.

Commander-Elect Walter Falk is instructing bidders to have bids in no later than Tuesday evening. Future meetings will be held on the second Tuesday of the month only for the summer months. Various other items of business were discussed and the meeting was closed with a prayer.

Rockport Elementary Library Report

The library at Rockport Elementary School reports that 20,642 books were checked out and read during the school year. The children also bought 569 paper back books from the Scholastic Book Service and this gave the library 57 free paper back books.

A Book Fair was held for a week where the students were free to browse through the books sent by the Educational Reading Service and select books to buy for their own use. They bought 447 books and from the profits derived from this, the library was enriched by 52 books.

A "Book on Exhibit" week was held and students were allowed to look over the books and select ones they would like to have in the library. Librarians from the other two elementary schools also visited the exhibit and made selections—as did two librarians from the Aransas County Library.

Mrs. Virginia Shivers, Mrs. Willie Close and Mrs. G. S. Spinney of Aransas Pass spent the weekend in Pharr with Mr. and Mrs. Freddie Butler and children.

Lamar Woman's Club News

The monthly meeting of the Lamar Woman's Club was held May 21, in the Emerald Room of the Sea Gun Sports Inn. Decorations included daisies and blue statice. The daisy theme was carried out with the place cards, which were note cards.

Those present were asked to make a friend happy by writing a note. A lovely cake decorated with red hibiscus and blue candles was given the club, celebrating its third anniversary by the Sea Gun.

Installation of officers by Mrs. R. E. House followed the luncheon. Mrs. House commended the retiring officers for their excellent work.

Trees were chosen by Mrs. House as the symbol for the installation ceremony. Each officer as she was installed was given a miniature of the painting symbolizing her office. Mrs. D. L. Roberts as president was given "The

For Mrs. Prentice Owen as historian, "A Sign of Love" by Fraganar representing the artists "love of history, to read forever in the trunk of the lovely tree."

Mrs. House then charged the members of the club as the leaves of the trees to serve the officers with their time,

talent and cooperation.

In presenting the "blueprint for the future" to the City Council, Grossman said, "The preparation, adoption and implementation of a comprehensive plan for the City of Rockport is a major local undertaking. Basic economic aspects of the Rockport area indicate a most favorable future growth potential.

"The ability of local residents to capitalize on this potential will determine the character and extent of future growth. Recent expansion in the tourist-resort economy and new industrial development indicates substantial growth will occur. The undertaking of a comprehensive planning program recognizes the potential which exists and reflects local concern for the future."

He said the plan is designed

to accomplish fundamental goals and objectives which deal with the physical, economic and social changes which are anticipated.

There are six major elements in the Comprehensive Plan, Grossman explained. These elements include (1) the land use plan, based upon an evaluation of existing land use, economic base studies and population forecasts; (2) the thoroughfare plan, based upon an evaluation of highways and major streets and future facilities required to serve the growing community; (3) the downtown district plan, based upon an analysis of land use and conditions of structures in the downtown area and estimated facilities required to stabilize the business district as the heart of the city;

(4) The community facilities plan based upon an analysis of public buildings, public utilities, and parks and recreation facilities; (5) a capital improvement program identified from an analysis of existing financial resources and an identification of project priorities; and (6) suggested regulations required to effectively administer the plan.

The planning area includes the City of Rockport and all lands within five miles of the present city limits. The period covered by the plan is between now and 1990.
