

TWO U. S. MARINES KILLED IN NICARAGUA

MIDNAPPED SHERIFF SAFE AFTER HARROWING NIGHT

BATTLE AS OSSE CLOSES AIDS BREAK

OUR MEN ESCAPE BUT ARRESTS EXPECTED AS HUNT GOES ON

BROWNWOOD, Texas, Sept. 20.—While his captives, four alleged automobile thieves, believing him dead or wounded, fled unharmed, Sheriff Fred White of Brown county early this morning escaped and returned to his home here.

Hunts Auto Thieves

The sheriff was tipped late yesterday by Brown county farmers that automobile thieves were hiding in a house north of Brownwood. He accompanied his informant to the house and left them in front while he went to the rear of the house to investigate. A few minutes later a shot and scream were heard and the farmers rushed to the house, but found the floor and the men had disappeared.

Formed and early this morning encountered the band of

They were formed and early this morning encountered the band of the north-south highway battle ensued and the highway thieves escaped. Sheriff White was guarded by two of the men as if he had been shot by a bullet after the firing squad was executed. The captives were released and the sheriff returned to his home.

Kill Rebel Juan Leader

Sept. 19. (AP)—Machines have been encountered with which was directed by leader Francisco. The rebel leader was killed and his men scattered. The rebel leader was killed and his men scattered.

Cabbies Everything

Anything but a horse cab. The cabbies with the appeared in Poland. The two or three horse cabbies will board their "seats" to see how slowly down the city. The cabbies with the appeared in Poland.

New Building For Tech Starts Soon

Construction work on Texas Tech's \$240,000 engineering building will be started not later than Monday, September 26. J. W. Sampson of the Sampson Construction company, stated last night. Mr. Sampson's firm was awarded the general contract for the construction of the building yesterday afternoon when members of the Board of Regents' committee on buildings met at the college.

Schenck Home Here Is Damaged By Fire

Fire which broke out from the fire in a range stove in the home of W. Schenck, 1276 Main, did a damage of about \$400 to the interior of the residence yesterday. Forty gallons of chemicals were used by the fire department in extinguishing the blaze which was well under way when trucks arrived.

Two Permits For Residences Given

Building permits were granted to Sneed yesterday afternoon for the construction of a 5 room veneer residence in the Over-

Pershing And Foch, Leaders Of Allied Armies In War, Cheered By Legion As Envoys Of Peace

Pilot And Navigator Killed When National Air Derby Plane Falls In Fliers' Attempt For Altitude

(By The Associated Press) LONG VALLEY, N. J., Sept. 20.—Richard E. Hudson, of Marysville, Mich., piloting a plane in the national air derby, and his navigator, were killed today when the plane crashed in the woods two miles west of here. Hudson died on his way to a Morristown hospital. He was first to hop off at Roosevelt field today.

15 Planes Start Cross Country Hop

ROOSEVELT FIELD, Sept. 20 (AP)—Fifteen commercial planes set out between six and six-fifteen eastern standard time today for Spokane, Wash., in the second of the trans-continental races being held in connection with the national air races at Spokane.

Stop At St. Paul

The route to Spokane lies over a course of approximately 2,277 miles, with one overnight stop at St. Paul, Minn., and five minute compulsory stops at Cleveland, Chicago, Aberdeen, S. D., Mitchell, Mont., and Butte, Mont.

110 Cases Docketed For County Court

One hundred and ten cases are on the criminal docket with the opening of the first week of September term of County Court in Judge Charles Nordyke's office this morning. Cases which are not included in this week's schedule will appear for the third week of the term.

Dwight W. Morrow, New York Banker Named Ambassador To Mexico Today Facing A Most Difficult Situation

(By The Associated Press) WASHINGTON, Sept. 20.—Dwight W. Morrow, the New York banker, has been selected by President Coolidge to be ambassador to Mexico. The prospective ambassador, who will retire as a business partner of J. P. Morgan to accept the appointment, has long been a personal friend of the president. The choice was made by Mr. Coolidge personally, and there were indications that in his determination to seek the aid of his friend in the tangled and delicate Mexican problem, the president consulted only a few associates.

Prisoners Head Toward Oklahoma

WICHITA FALLS, Texas, Sept. 20 (AP)—Eight men broke jail at Big Spring Monday night and fled in a small roadster supposedly toward the Oklahoma line, according to a telegram received here by Sheriff W. G. Bralley. Other reports said nine had escaped.

BOTH SPEAK TO SESSION TODAY AT PARIS MEET

(By Associated Press) PARIS, Sept. 20.—General John J. Pershing and Marshal Foch, dominant figures together in the stirring war days of ten years ago, today brought the American Legion convention delegates to their feet once again in speeches at the second day American Legion session in the historic Palais du Trocadero.

NINE ESCAPE IN JAIL BREAK

SAN ANGELO, Texas, Sept. 20.—Nine men made a jail escape from the Howard county jail in Big Spring today. Three of the men had been taken to the jail in Big Spring a week ago from Tom Green county jail here.

TWO CARS STOLEN AT BIG SPRING AND ALL MAKE GET-A-WAY

(By The Associated Press) SAN ANGELO, Texas, Sept. 20.—Nine men made a jail escape from the Howard county jail in Big Spring today. Three of the men had been taken to the jail in Big Spring a week ago from Tom Green county jail here.

Prisoners Head Toward Oklahoma

WICHITA FALLS, Texas, Sept. 20 (AP)—Eight men broke jail at Big Spring Monday night and fled in a small roadster supposedly toward the Oklahoma line, according to a telegram received here by Sheriff W. G. Bralley. Other reports said nine had escaped.

Traditional Friendship

General Pershing, also paying tribute to Marshal Foch, spoke of the long traditional friendship between France and the United States. "The friendship of France and our country," he said, "has its roots in a history full of mutual help."

400 'Fish' Register For Work At Tech

With 259 first year students enrolled Monday and that number swelled to approximately 400 at 2 o'clock today, registration at Texas Tech went merrily on as college authorities prepared to open the school's third year on Thursday.

Cut In Smackover Crude Price Posted

SHEREVEPORT, La., Sept. 20 (AP)—The Standard Oil company of Louisiana and the Shreveport-El Dorado Pipeline company today posted a 10 cent reduction in the price of Smackover crude, meeting the Louisiana Oil Refining corporation's posting of Saturday by which Smackover heavy oil was cut to 36 cents and the light grades to \$1.15 per barrel.

Cotton Advances On Forecast For Frost Over South

(By Associated Press) NEW ORLEANS, Sept. 20.—A forecast by the weather bureau predicting frost for Oklahoma, Arkansas, northwest and northeast Texas caused the cotton market to advance suddenly here today. December jumping from 28.27 to 31.12 an increase of 28 points, or 14.25 a bale.

New York Prices Rally But React

NEW YORK, Sept. 20 (AP)—The first frost predictions of the season caused a buying spurt on the New York cotton exchange today and prices rose approximately \$2 above yesterday's closing quotations. The market reacted after the first rush to buy, however, prices declining \$1.50 to \$2.00 a bale under realizing or renewed liquidation.

Corn Advances On Reports Of Frost

CHICAGO, Sept. 20 (AP)—Prospects of heavier frost tonight than last night threatening serious damage to the corn crop led to fresh advances in corn values today. Trading developed broadly toward the last and the price of December delivery in particular made a swift ascent to well above \$1 a bushel, scoring an extreme jump of 7 1/2 cents a bushel compared with yesterday's finish.

Seaman Held For Smuggling Holds To Hunger Strike

(By The Associated Press) GALVESTON, Texas, Sept. 20 (AP)—Albert Saunders, seaman, held in jail as a material witness in an alien smuggling case, entered the sixth day of a hunger strike today. "Life is tough enough following the sea without being held in jail," the prisoner told jail attendants.

\$95,000 Taken From Cicero Messengers

CHICAGO, Sept. 20 (AP)—Two messengers at the First National bank of Cicero were held up by six men armed with shot guns today and robbed of \$95,000 which they were taking to another bank. Officials of the bank announced that the loot consisted of \$20,000 in negotiable bonds, \$13,000 in small bills and \$55,000 in checks.

Hunger Follows In Wake Of Flood With Adequate Relief Impossible As Heroic Rescue Efforts Continue

(By The Associated Press) MEXICO CITY, Sept. 20.—The phantom of hunger loomed in the flood stricken Lerma valley today. With the flood waters covering the district around Acumbaro in the state of Guanajuato, adequate relief work for the present is impossible. The federal government has been struggling heroically to rescue the people. Foodstuffs have been commandeered for distribution among the victims. The number of soldiers however, is limited and they could not attend the cries of agony which came from many families perched on their housetops imploring help as the raging torrents gradually sapped the walls of the houses beneath them.

German Flier Off On Distance Jump

COLIGNE, Germany, Sept. 20 (AP)—Otto Koenecke, German aviator who recently gave up his plan to make a trans-Atlantic flight to the United States, started on a long distance flight to the Far East at 2:42 p. m. this afternoon. The German aviator's plan is to fly to the United States by way of the Orient, making long hops in between. His first scheduled stop will be at Ankara, Turkey.

Dividend Rate Of Oil Firm Is Reduced

NEW YORK, Sept. 20 (AP)—The annual dividend rate on the common and class "B" stocks of the Pan-American Petroleum and Transport company was reduced from \$5 to \$4, a share today when directors declared a quarterly dividend of \$1 a share on each of the stocks.

REHEARING ON WATER PERMIT FIGHT REFUSED

BROWNWOOD REQUEST DENIED AND CLAIMED AS UNNECESSARY

(By Associated Press) AUSTIN, Sept. 20.—The request of the Brownwood water district for a rehearing before the state board of water engineers on its action in granting it a modified permit to impound water from tributaries of the Colorado river in Brown county was denied today by the board, two to one, A. H. Dunlap, member, dissenting.

Hog Shipments At Lockney Are Heavy

LOCKNEY, Sept. 20.—An average of four cars or approximately 15,000 worth of hogs are shipped out of Lockney every month, according to T. L. Griffith, local hog buyer. Griffith reports the farmers as having plenty of last season's feed crop this year with the section fairly well stocked with hogs. This condition, he said, should cause the hog industry to flourish.

Wolfarth Club To Open Foods Study

"Study of Foods" will be the text of discussion for the meeting of the Girls Home Demonstration club in the Wolfarth community this afternoon. Miss Louise Baird, county home demonstration agent, will be in charge of the meeting.

Roll Down Embankment

Mr. Raley was injured, fatally and his wife and son, Sherrill Raley, 17, were hurt slightly when their automobile rolled down an embankment three miles south of Roseland Saturday. Mr. Raley lost control of the automobile when a tire blew out on loose gravel. He was crushed by the steering wheel. Mrs. Raley received body bruises and the boy was cut on the arm.

Killing Frost In Iowa Is Reported

DES MOINES, Iowa, Sept. 20 (AP)—Frost, killing in some sections occurred generally throughout the northern portion of Iowa last night, reports received by the government weather bureau here today indicated.

German Flier Off On Distance Jump

COLIGNE, Germany, Sept. 20 (AP)—Otto Koenecke, German aviator who recently gave up his plan to make a trans-Atlantic flight to the United States, started on a long distance flight to the Far East at 2:42 p. m. this afternoon. The German aviator's plan is to fly to the United States by way of the Orient, making long hops in between. His first scheduled stop will be at Ankara, Turkey.

Tech Enrollment Pleasing To Him

PRESIDENT HORN

Estimating that the 1927-28 enrollment of Texas Tech will reach the 2,000 mark, President Paul W. Horn said today that he was pleased with the heavy enrollment of freshmen today and yesterday and that the registration of upper classes which starts tomorrow promised to be equally as satisfactory.

TWO DIE FROM WRECK OF CAR

A report from a marine officer said that the new national guard, "as on other occasions, put up a splendid fight." So far as casualties go, the fight yesterday appeared to have been the most serious since the Ocala battle, in which the Nicaraguan chief, Sandino was reported to have lost several hundred of his followers in an attack on American marines and native constabulary. American aviators dispersed Sandino's men at that time.

Winter Togs Are Much In Vogue As Mercury Tumbles

Felt hats, coats, vests and an occasional top coat, were replacing lighter togs today as an autumn sky demanded summer's resignation. There was scarcely any moderation from the cool wave of yesterday, the thermometer dropping down to 44 during last night and reaching up to 44 today, as compared to 60 yesterday.

Rehearing On Water Permit Fight Refused

(By Associated Press) AUSTIN, Sept. 20.—The request of the Brownwood water district for a rehearing before the state board of water engineers on its action in granting it a modified permit to impound water from tributaries of the Colorado river in Brown county was denied today by the board, two to one, A. H. Dunlap, member, dissenting.

Reaching Office By Raft

At Acumbaro the railway telegraph operators built a raft and succeeded in reaching their offices which the torrent had forced them to abandon Saturday. The fate of 150 guests at one hotel is not known. A brief telegram reported the building surrounded by water and the guests on the roof appealing for rescue. Later an equally brief dispatch announced that the hotel building had crumbled.

SALGADO BAND MAKES ATTACK ON GARRISON

MARINES OUTNUMBERED BUT KILL 20 AND WOUND FIFTY

WASHINGTON, Sept. 20.—One American marine and one member of the Nicaraguan national guard were killed and a second marine was fatally wounded in a fight yesterday between a detachment of 20 marines and 25 native constabulary and a force of about 140 members of the Salgado band.

Garrison Attacked

The dispatch said bandits had attacked thearrison of the town at 1 a. m. and that the fighting lasted until 5 a. m. when they withdrew. The Salgado force was well armed with rifles, machine guns, hand bombs and dynamite bombs. A report from a marine officer said that the new national guard, "as on other occasions, put up a splendid fight."

Miss Edith Aline Carter Is Bride Of David Garwood Bowers Today In Wedding At First Methodist Church

With simplicity marking the impressive ceremony, Miss Edith Aline Carter, youngest daughter of Mrs. K. Carter, 1412 Avenue 14, became the bride of David Garwood Bowers of Wichita Falls, this morning at 9 o'clock at the First Methodist church, with the Rev. E. F. White, pastor, officiating.

Following the entrance of the bridal party, Howard Hoffman, of Slaton, played "Salute d'Armenie" and "Traumecia" as violin numbers accompanied by Mrs. Maudie L. Neal at the organ, who continued with "Wedding Bells" during the ceremony, striking up the wedding march as the couple left the building.

The bride was accompanied in her brother-in-law, Howard Whedon, of Amarillo, who gave her in marriage. She was met at the altar by Mr. Bowers and the pastor and the ring ceremony was read.

The bride is a coquette and sportive model of Napoleon blue. Mrs. Bowers wore a corsage of pink roses and a metallic hat over blue. A single rhinestone ornament graced the hat and the dress bore rhinestone and pearl ornaments at the shoulder and waist. The ceremony was held before an altar flanked with ferns and with tall baskets of asters at either side of a table entwined with vines.

Immediately after the wedding, Mr. and Mrs. Bowers left for a motor trip to Houston and Galveston, after which they will be at home at 2609 16th street, Wichita Falls.

Sportsman's Wife Is Sportswoman Too; Mrs. Frank Navin Hurdles One

Mrs. Frank J. Navin, wife of the owner of the Detroit American league baseball team, entered several horses at the Michigan state fair and she knows how to ride them herself, as this picture of Mrs. Navin taking a hedge indicates.

NEW EVIDENCE OF MAN'S BIRTH PLACE CLAIMED

NEBRASKA FOSSIL BEDS YIELD PROOFS OF SCIENCE'S PLEA

(By The Associated Press)
AGATE, Neb., Sept. 20.—The quest for the origin of man has been carried in fanciful fashion, has yielded further evidence to support the contention of some scientists that it may have been the birthplace of man.

Expeditions of the American Museum of Natural History and of the Colorado Museum of Natural History have completed a summer of delving, and the scientists said they uncovered much valuable proof of prehistoric life.

Dr. Harold J. Cook, owner of the Cook ranch which contains the quarries and honorary curator of paleontology for the Colorado Museum, has dug into the quarries for years. He is convinced that evidence eventually will be obtained showing that man inhabited North America thousands of years earlier than had been previously accepted, and that the cradle of the human race was not in Asia or western Europe, but in this part of the United States.

A verified tooth was one of the most important finds made by Mr. Cook. Conclusions drawn concerning the nature of the tooth have mankind back millions of years to the lower Pliocene geological period. It is believed that the tooth was that of an anthropoid primate, possibly the immediate ancestor of man or the Dawn Man, Cook explains.

"Recent discoveries," Mr. Cook continued, "may show that man inhabited the plains of North America many thousands of years before he is known to have existed elsewhere in the world."

"He will have lived approximately 1,500,000 years earlier than the famous Pithecanthropus, previously considered to be the earliest human being of whom evidence has been unearthed. The Pithecanthropus lived in Europe and the British Isles from 100,000 to 300,000 years ago."

Masonic Monarch

The Earl of Castillejos is First Grand Principal of the Supreme Grand Royal Arch Chapter of the Scottish Rite. He was photoed upon his arrival at Boston on the S. S. Scythia to tour the United States.

DEAF HEAR BY SOUND'S WAVES IN NEW DEVICE

"FINGER AUDITION" IS METHOD CLAIMED BY CHICAGO MAN

(By Associated Press)
CHICAGO, Sept. 20.—Robert H. Gault, psychologist at Northwestern university, has devised a means whereby the deaf may hear by "feeling" sound waves.

The method is called "finger audition" and Gault has spent five years in research work. He perfected the "technique" which the deaf touch with their fingers and which intensifies sound waves in varying degrees.

"Finger audition" is the speaker in the Howard county jail break at Big Spring.

talks into a microphone. The sound waves then proceed through the televisor, which in reality is a vibrator. Different words set up different vibrations and the deaf "read" the sound waves by placing their fingers on the vibrator. Gault is working now to simplify both the instruments and the training.

The psychologist found that the fingers could detect up to 2,700 vibrations a second. Above that the vibrator seemed to be "standing still," but the rate is far above that essential to make speech understandable by the ear.

Interpreting the sound waves is a matter of practice, which the scientist describes as follows:

"Think of an infant with normal sense organs. Speech to him, is a series of bang-bangs. Before long, the series disappears and the bangs follow one another more rapidly. There is a pause between bangs, perhaps a heavy explosion and a succession of lighter ones. Every where there is rhythm. By and by the youngster will have learned there is a system about the recurrence of the bangs. He begins something about rhythm, tempo, emphasis and accent before he knows there are such things as words. In short, he has picked up some familiarity with the pattern of speech.

"The deaf subject gets his pat-

Good Rains Fall In Howard County

(By Associated Press)
BIG SPRING, Sept. 20.—Eight one hundredths of an inch of rain fell over Howard county Sunday night and heavy clouds are indicating that more may come. The rain and cool weather will retard the iron picking but will be beneficial to range and late feed crops.

Approximately 1,000 hales of cotton has been received at Big Spring commissary. This press will cover between 20,000 and 40,000 hales a season, according to Supt. Shuman.

Methodist Reception Welcomes Church Workers

Welcoming Mr. and Mrs. H. W. Richardson, who are returning to Lubbock as workers in the First Methodist church, a reception was attended last evening by adult members of the church at the home of Mrs. E. E. White, 1419 Broadway.

Members of the Women's Missionary society and the Mary Helm Auxiliary assisted the host and hostess and a program was carried out during the evening and punch was served.

Baptist Women Hear Y. W. A. Program Yesterday

Members of the Young Women's Auxiliary, of the First Baptist church, gave a program yesterday afternoon at a regular meeting of the Women's Missionary society and talks on medical missions were made by Misses Elsie Lawrence, Frances Stahl, Gladys Tyson, Richard Jackson, Edith Tyson, Gladwell Mullins, Marian Sansom, Marie Jackson and Mrs. W. M. Lawrence.

Miss Frances Stahl, president of the junior organization, presided after the new W. M. S. president Mrs. T. W. Sawyer, had announced an executive board meeting for 1 o'clock Friday afternoon and an all-day prayer service next Monday.

As musical numbers on the program, Misses Blanche Fann, Edna Mae Glover, Frances Stahl and Gladwell Mullins sang a quartet and Misses Marie and Ruby Jackson played a piano duet.

Bits Of News And Personal Mention

Hampton Rattan and Miss Sue Evelyn Rattan of McKinney are guests in the home of Dr. and Mrs. T. G. Bates, 1212 16th street, and Miss Rattan is enrolling in the Technological college as a student.

JAIL BREAK

(Continued From Page 1)
Strickland, 25.
Two refuse to leave the jail and notified Sheriff Frank House of the escape.
The break was effected by sawing through bars in the interior of the jail, then through bars of a window and by dropping to the ground from a second story window over a rope made of blankets.
Belief that saws were smuggled into the jail by the wife of a prisoner was expressed by Sheriff House.

Reports Here Say Eight Men Escape

According to a message received here this morning by Sheriff L. Johnston there were eight men in the Howard county jail break at Big Spring.
The telegram, giving names of those escaped, included the name of J. H. Barrows, which was not in the San Angelo dispatch.
Sentences were hanging over four of the prisoners, according to the wire from Sheriff Frank House of Howard county.
Mussolini has been on the job several years now, and that old tower at Pisa hasn't been straightened yet!
A man eluded thirty policemen in a department store. An argument there for women police. Women always were the only ones who could find anything in a department store.
We are interested in the fellow who chewed 112 sticks of gum only enough to wonder if he did it in an ice cream parlor and where he stuck it afterward.

COURT ACTION LITTLE WORRY IN FIGHT AS REFEREE IS SOUGHT

SUITS ARE NOT KEN TO MEAN SERIOUS TREND

ARE MENTIONED POSSIBLE THIRD MAN IN RING

By MASON E. TAYLOR
(Associated Press Sports Writer)
CHICAGO, Sept. 20.—Odds and ends of court preliminaries of the fight between Gene Tunney and Jack Dempsey, the legal status of the leading characters in this forthcoming drama, while their boxing impresarios discussed with the state athletic commission the vital questions of referee, judges and rules of the ring.

Suits Not Taken Seriously

Shadows of injunction suits in both state and federal courts were not taken seriously. One of these, U. S. Clements' action to hold Jack Dempsey to the letter of an alleged contract to meet Harry Wills has already been turned down once by the state court. The other, a federal court injunction plea by the Elmer L. Williams, well known promoter, was even more lightly regarded by Tex Rickard and his associates.

Manager Billy Gibson, piloting champion Gene Tunney, and Manager Leo P. Flynn, directing Jack Dempsey's comeback campaign, were to meet with the three members of the boxing commission in the regular weekly get together today, with five names, possibly more, up for discussion as candidates for the third man in the ring. The names of the referee and the two judges will be kept secret until the moment when Chicago's first heavyweight spectacle begins Thursday night.

McGraw Non-Committal

McGraw said he would take no part in the debate over the referee, George Lytton, wealthy Chicago business man, Walter Eckersall, football star of 20 years ago and now a sports writer, and three or four of the leading referees of Chicago bouts in the past 16 months of the sport in this state were the principal candidates mentioned.

Tunney and Dempsey did no training other than light bag and a bit of road work today while their managers were in the city conferring with the boxing solons.

Dempsey New Favorite

Coincidental with the arrival today of the vanguard of the ringersiders came an influx of "New York wise men" and other offers of not so much but equal negotiable money from the south, west and north, which put the odds of the battle in favor of Dempsey. The champion has been a 2 to 1 favorite up to last night, when the supporters of the challenger began to unstrap their bank rolls.

A record in gate receipts, even though the \$3,000,000 goal is not achieved was the solace today of the promoters, Rickard and George F. Olin, his Chicago sponsor. They sent telegrams far and wide today to their friends with the admission that a previous announcement of a sell out of ring side seats had been too optimistic. Large blocks of the ringside seats, once ordered and then turned back by Getz, the radio boss, and the "six hundred millionaires" of the Madison Square Garden corporation, were back in the box rack today.

Many Turned Back

Getz turned back 2,000 tickets, and then railroads and others nearby as many more, so that the actual total today was figured around \$2,250,000 with a total of \$2,500,000 as the ultimate of Rickard's hopes. The radio was blamed by Rickard for the decline in ticket sales. He said he would call in his lawyers after this fight and see if some way could not be devised to "make the fellows with the ear phones and the loud speaker pay."

Letter Episode Closed

The match was shorn of one of its new appellations today, for it was no longer the battle of the "open letters." It was generally believed that Rickard sent word to the Dempsey camp that his published interrogation of Tunney, about the Philadelphia fight situation a year ago, was distinctly impertinent. Dempsey's headside of Sunday night and Tunney's brief, blunt reply wound up that episode, for the promised second installment failed to appear. There were those who intimated that the letter was more the work of Stanger Flynn than of Dempsey, but none at the Dempsey camp would talk of the episode any more.

Interest High In Aggies' Fish Squad

COLLEGE STATION, Sept. 20.—With the opening of the fall term at the A. and M. college of Texas much interest is being displayed in the prospects of the freshman football squad for this year, for it is from among these men that the future Aggie teams will be picked. Under the tutelage of Freshman Coach H. G. (Little Big) Huggins, all-Southwestern halfbacks on the 1919 and 1920 Aggie eleven, assisted by J. C. McIntosh and Henry Eit, the freshmen will start to work about Sept. 26 when it is expected they will be through with the trials of registration and settling in their new surroundings.

In spite of all the efforts being made to preserve it, the Welsh language is being spoken by fewer and fewer each year.

Dempsey Believes He Will Swing A Haymaker On Gene To Win, Ex-Champ Tells Joe Williams, Boxing Expert

By JOE WILLIAMS
CHICAGO, Sept. 20.—"I can still hit hard enough to knock out any man I hit."

This was Jack Dempsey's answer to me today when I asked him if he thought he could win the title back from Mr. Gene Tunney, the social lion of the gold coast, this week in the Battle of the Big Dough.

The answer was also significant of the manner of fight he intends to wage against the present champion—he is going in for a knockout come what may, and how.

Not that this is surprising. Dempsey has always gone in to win by a knockout. This characteristic, partially explains his tremendous hold on the fight public. He has always been the magnificent number of the ring, a smashing, onrush fighter, habitually willing to take a punch on the beer in order to counter with a death dealing punch.

Dempsey is the Babe Ruth of the ring. There is no middle ground with him. Like Ruth, he either fans or hits it over the fence. Only once has he fanned. That was against

Billy Evans Says:

McGraw Admits Mistake

When it comes to trading, John McGraw is the "David Harum" of baseball. In adversity, McGraw believes in showing the home folks new faces. His theory is that new players make for increased interest and very often supply the desired spark to a burnt-out club.

McGraw, like great men in all branches of sports or business, makes mistakes. The commensurable thing about him is that he has the courage of his convictions. Neither is he unwilling to admit his errors, for any number of times he has traded some player, only to take him back later.

McGraw constantly seeks winning results. If it is apparent to him that a certain player on whom he once turned thumbs down has made the grade and will help his club, he immediately sets about to get said player if possible. I have known of managers who wouldn't try to get a player back, whom they once traded, simply because it "made it appear as if bad judgment had been used in the first decision as to the player's fitness for the majors."

Greenfield Hurt Bucs

Recently two trades by McGraw worked to the advantage of the Giants in a rather round-about way. Feeling that Larry Benton would help his pitching staff, McGraw made a trade with the Boston Braves for him. As part payment, Boston insisted on Pitcher Kent Greenfield, whom McGraw a year ago regarded as a great prospect.

Strangely enough, there was a double reunion to this deal, which in each case worked to the decided advantage of McGraw and his Giants. Benton, as McGraw figured he would, has pitched winning ball for New York, more than making up for the loss of Greenfield, who had been having trouble winning for the Giants.

Case of Mueller

Now for another break that came McGraw's way at a most critical spot in the race. The hero in this instance is Helmie Mueller, obtained by McGraw last season in a deal with the St. Louis Cardinals. Recently New York defeated the Chicago Cubs in an all-important double-header, which later events may prove was the turning point in the National League race.

In the first game of the double-header, with the Giants three runs behind, Mueller was sent in to start an inning as pinch hitter for the pitcher. He responded with a home run. It revived the spirits of the Giants. Before the inning was over New York had made seven runs. Mueller, in his second time at bat in the inning drove in the last two tallies with a single.

New York won that game 8-7, so it is easy to picture what those two pinch hits meant. The second game was won by a final inning rally of four runs, with the Cubs leading 1-0 at the time. Mueller drove in two of the four runs in his only time at bat.

John McGraw was entitled to a smile of smug satisfaction at the work of Mueller as pinch hitter in making possible two victories over the league-leading Cubs.

DEMPSEY SETS NEW RECORD IN COMING FIGHT

TIME IS SHORTEST OF RING HISTORY IN HEAVY CLASS

CHICAGO, Sept. 20.—When Jack Dempsey climbs into the ring against Gene Tunney the night of Sept. 22, he will have the distinction of having guided a crack at his last laurels sooner than any heavyweight champion in the game's annals.

Just a year to the night since Jack lost his long-held crown to the second dethroned king of the ring, Marine in the ring at the Squaw Bowl, Philadelphia, he battles his erstwhile conqueror in a return match.

Second to Get Chance

Moreover, Dempsey will be the second dethroned king of the ring to get the chance to win back his coronet from the fellow who deprived him of it. Only Fitzsimmons was the other, but where Dempsey obtains his golden opportunity in 12 months' time.

"A couple of days before the fight I read a headline in some newspaper—'Tunney's Youth and Stamina May Beat Champ.' Usually I don't pay much attention to what is in the newspapers. But somehow or other, I couldn't seem to get away from that one.

"Looking back now, I know what was wrong. I was beginning to crack. I was getting edgy. Subconsciously I was beginning to feel that maybe I might not be champion after this fight. Still on the day of the fight, I was more like myself, and when the going sounded I was thinking of nothing beyond getting over a haymaker as soon as possible."

I asked Dempsey if he honestly felt he could break through Mr. Tunney's fine defense with a finishing punch.

"I've got more than an outside chance, anyway," he answered. "Tunney admits I almost stopped him last year, not once but twice. He says the punch I hit him in the neck with in the fourth round, took his voice away for three days, and he says I hit him with a right hand that paralyzed his left arm in the same round."

"I was terrible last year. If I was able to hurt him then, I ought to be able to knock him out this year."

"Why didn't you follow those punches up?" I asked. Dempsey's answer was interesting and typical of the simple candor of the man.

"Say, I didn't even know I had hurt him. I didn't think I was hitting hard enough to break a piece of Melba toast."

With this a half smile broke across Dempsey's mouth. "This Tunney must be kinda brittle, ain't he?"

Girls now are six to nine pounds lighter in comparison to their height than girls of 20 years ago.

Weight Plentiful With Aggies For Coming Grid Card

(Special to The Journal)
COLLEGE STATION, Sept. 20.—Showing fifty-two men who tip the scales for a total of nearly four and a half tons, Coach Dana X. Bible's 1927 Texas Aggie squad is heavier than the usual run of teams. None of the men weigh more than 155 and only five less than 150 pounds.

Five players, four of them members of last year's varsity team, weigh 150 or more and eleven of the men will tip the scales for more than 150, making a total of sixteen who weigh more than 150 pounds. There are nine men in the 170-180 class, seventeen who weigh between 150 and 159, and only ten who show below 150.

Backfield Average 160
The average weight of all the men out for backfield positions is 160 pounds. The average weight of the man-killer from the west—rates with Fitzsimmons as the only defeated king to work into a return match with the fellow who took his crown from him, and with Fitz and Corbett as one of the few to obtain another crack at the championship wreath.

Dempsey, however, stands alone as the only heavyweight titleholder to lose his toga on a decision.

Chicago City Play Is Banned By Veck

CHICAGO, Sept. 20. (AP)—There will be no city series between the Cubs and White Sox this fall. President Veck of the Cubs decided today not to challenge for the Chicago title.

"The season of 1927 contained so many splendid possibilities that any series other than a world series would be an ill fitting climax," Veck said.

One-seventh of the population of Great Britain is employed in the clothing trade.

Feel Good

Joe Humphreys says: "Holbrook Blinn is right—Luckies are certainly good"

Noted sports announcer, talking to his son, George Cohan Humphreys, at their home in Fairhaven, New Jersey, recommends Lucky Strikes.

Holbrook Blinn, Noted Stage Star, writes:

"Each performance brings with it its attendant nervousness and I relish the opportunity for a soothing smoke while playing. During the course of 'The Play's the Thing' I am called on to smoke at frequent intervals. It is always a Lucky Strike. I know from many years' use of this cigarette that my throat is constantly protected and that it will give me the greatest enjoyment."

You, too, will find that Lucky Strikes are mild and mellow—the finest cigarettes you ever smoked, made of the finest Turkish and domestic tobaccos, properly aged and blended with great skill, and there is an extra process—"It's toasted"—no harshness, not a bit of bite.

"It's toasted"

No Throat Irritation—No Cough.

Grain Market

CHICAGO TRADING
CHICAGO, Sept. 20 (AP)—Decided not to open in the price of corn regulated early today from reports of frost, west and northwest, especially Iowa and South Dakota.

lower, influenced by southern hemisphere advices of rain. Opening at 11-4 to 21-4 cents higher, corn subsequently showed additional gains. Wheat started unchanged to 1-4 cent off, settled a little and then underwent material setbacks all around. Oats were firm. Provisions likewise tended upward.

Corn closed further, six to 7 1-4 cents higher, wheat 5-8 to 1 cent up, oats at 1 to 1 3-4 cent advance and provisions varying from 1 cent decline to 22 gain.

CHICAGO PRICES
CHICAGO, Sept. 20 (AP)—Wheat No. 2 red 1.28 1/2; No. 2 hard 1.29 1/2; No. 2 white 1.30 1/2.

KANSAS CITY PRICES
KANSAS CITY, Sept. 20 (AP)—Wheat No. 2 hard 1.24 @ 1.25; No. 2 white 1.37.

ST. LOUIS TRADING
EAST ST. LOUIS, Sept. 19 (AP)—Hogs 12.00; lower; top 12.00; packing sows 10.00; 10.15.

PLANE CRASH
(Continued From Page 1)
The pilot. The non-stop race starts tomorrow.

Drizzling Rain Hampers Take-Off
CHICAGO, Sept. 20 (AP)—As a cold drizzling rain which had soaked the municipal airport here stopped falling, and the first rays of the early morning sun drifted over the assembled lineup of 12 planes, the New York to Spokane air derby was renewed at 5:35 3-4 a. m. central standard time, today when Leslie Miller, of Des Moines, Iowa, leader of the race to date, hopped off in his single biplane for St. Paul and the first stop of today's run.

Seven Planes Hop Off From Ohio
BRYAN, Ohio, Sept. 20 (AP)—The seven planes in the air derby New York to Spokane, Washington, flight got away this morning after remaining overnight here.

Military Leaders Hold Spotlight
ST. PAUL, Minn., Sept. 20 (AP)—Fighting headlines all the way from Chicago, Pilot Leslie Miller of Des Moines, flying the "Spirit of St. Paul," continued to lead the class "B" air derby from New York to Spokane when he reached St. Paul airport today at 9:52 a. m.

Houston Flier Is Forced To Land
KANE, Pa., Sept. 20 (AP)—Frank M. Hawks, Houston, Texas, contestant in the trans-continent air derby, landed on the Kane Country club golf course at 10:10 o'clock this morning. He had lost his way in the fog and was north of his course. After taking an engine, Hawks hopped off for Cleveland, 200 miles west, fifty minutes later.

SHERIFF SAFE
(Continued from Page 1)
The flight began and White's race to escape succeeded.

Four Men Escape
After the gun battle about four o'clock this morning, the four men escaped, two of them on foot and the other two in a small car they were alleged to have stolen in Brownwood early Monday morning.

Believed Strangers
The men apparently were strangers for they asked the sheriff to guide them to Brownwood or some place where they could steal another automobile or catch a train, White said. He said that several times they saw posse searching for him, but he was forced to lie flat upon the ground and hide in bushes until danger had passed.

JAP BEETLE DAMAGE
Federal scientists believe the Japanese beetle, new insect pest in the United States, may be a menace to the corn belt. A recent inspection tour in New Jersey, where the beetle has appeared, revealed injury to sweet corn. By destroying the silk, beetles prevented the pollination of the grain.

California leads the United States in number of flying fields with 109. Texas is second with 84, Illinois 61, New York 50. Chicago has 13, the largest number for a city.

Lighting an American match in Peru may cause a fine of \$20. A Swedish match company has a monopoly on the sale of matches in that country.

FALL WOOLENS IN LIGHTER WEIGHTS

You'll like woollens this season for they are not at all like the woollens you have been accustomed to using. Almost as light weight as silk but with the advantage of the richness and comfort peculiar to woollens.

Dress Woollens

- WOOL GEORGETTE—a new material this season in the lightest of weight—truly a georgette weight in an all wool material—Navy, Black and Tan, per yard \$4.45
- WOOL CREPE in fall shades—an especially pretty weight and an ideal weave for fall garments—in 54 inch width, yard \$3.00
- CHARMENE WEAVES—always a popular cloth for either dresses or coats, in Tan shades—a fine weave, 54 inches wide, priced \$6.45
- 54-INCH WOOL FLANNEL—excellent for school or business garments and to be had in a varied color range, priced yard \$3.00

Coatings

- CAMELS HAIR COATINGS—genuine high quality materials shown both in solid and patterned styles, priced yard \$8.45
- SUEDE FINISHED COATINGS in the seasons correct color ranges—genuine Forceman & Hoffman materials, priced yard \$9.85
- SPORT WOOLENS for coatings in imported materials and varied color assortments—all decidedly smart, priced yard \$3.00 to \$10.45

Hemphill-Price Co.

PLANS OPENED TO LAUNCH 'Y' WORK AT TECH

NEW EXECUTIVE VERY MUCH IMPRESSED BY PRESENT OUTLOOK

Expressing favorable impression of his new field of work, Roy McCullough, secretary of the Tech Y. M. C. A., a department of student activities which will make its first appearance in Lubbock this year, made announcement this morning of tentative plans for the student organization during its introductory period.

No definite program of work has been outlined, Mr. McCullough said, explaining that he planned to study the personal needs of the student body before proceeding into organization methods. Home communities of the students will be studied in an effort to ascertain the individual needs of constructive work.

May Visit Home Towns

"Lubbock, home of the probable 1,400 male students, is the concentration point for moral endeavor of the 'Y,' but it will perhaps be necessary to visit towns of the South Plains to acquaint myself with the territory to be aided by spiritual development of the Tech students," he said.

The most influential students of the school will be enrolled for service during the early work of the Y. Whether a membership drive will be made or not will be left to decision of students interested in Y. M. C. A. work.

From Michigan Here

Mr. McCullough comes to Lubbock from Michigan where he was traveling representative of the Y among colleges in that state. He is a graduate of Cornell university, and during the world war was with the Y at Fort Collins, Colo., home of the Colorado Agricultural college.

Mrs. McCullough, who is now in Fort Collins, Colo., will arrive in Lubbock next week, accompanied by her two children.

Speaking of juries, some of them could be hung and you'd never miss 'em.

Recalls Booth

Mrs. Helen Brainerd Cole of Sheboygan, Wis., is one of the Grand Army nurses living today. For four weeks prior to the assassination of President Lincoln she nursed what at the same time was John Wilkes Booth.

Lacoste Laughs

Rene Lacoste's determined smile gave way to victory's laugh when he triumphed over "Bill" Tilden (right) in the deciding match of the Davis Tennis Cup matches at Germantown, Pa. You see them here "shaking" across the net after their respective battles by which Lacoste came into the prized trophy American held so long.

Flashes Of Life

(By The Associated Press)

Costly Battle

NEW YORK — Here's some material for anybody who wants to guess how many millions will be spent because of the \$3,000,000 battle to determine who is the greatest fighter: Wall street brokers estimate that wagers will total \$10,000,000, half of them abroad.

A Friendly Tip

STOCKHOLM — Here's a hunch for those who favor Tunney: Bud Gorman was so walloped by Harry Persson that the fight was stopped in the fourth round. Bud is one of Leo P. Flynn's fighters, so is Mr. Dempsey.

Quite A Hurry

NEW YORK — From Paley comes word that Marquis Henri is hurrying back to Hollywood and his Gloria Swanson. But as much as he wants to get to the coast he will make a stop over in Chicago Thursday night.

Blonde Is Bride

LOS ANGELES—The most beautiful blonde in Hollywood is a bride. So described by James Montgomery Flagg, Kathryn McGuire, movie actress, has married George W. Landy, film publicity director.

Ready For Death

ROME—Having resigned as a cardinal at 81 because, he said, he wished to prepare himself for death, the Rev. Ludovic Billot has retired to a monastery to edit theological works.

Unique Contest

NEW YORK—The winner of Thursday night's melee in Chicago is challenged to an endurance contest by Winifred Sackville Stoner, founder of the League for Fostering Genius. Offering to prove that she has more stamina for useful purposes than either Tunney or Dempsey she proposes that the champion do his stuff such as shadow boxing, knocking out, etc., while she plays musical instruments, rides a bicycle, drives a car, sews, knits, cooks, plays with children, crochets and composes music. The first to succumb to exhaustion loses.

Distressing SOS

NEW YORK—"Come home by boat at once" is the substance of a cablegram sent by Mrs. Charles A. Levine to her husband. At last accounts he was dining in a Russian restaurant in an exclusive quarter of Paris with Miss Mabel Boll, who is anxious to make a trans-Atlantic flight.

Old But Ever New

JERSEY CITY — Notwithstanding the automobile 70,000 fellows are making music at the swell in this country. As described at the annual convention of master horse shoers and blacksmiths, the blacksmith's art is not in his muscles. He's a musician. When he hammers a nail he doesn't look at it. He listens. If it sounds right he keeps hammering.

Lesson In Thrift

NEW YORK—And now another thrift story: There's \$2,539.60 in the bank for savings, the outgrowth of a \$10 deposit in 1919 and a \$5 deposit in 1920.

Makes Boast Good

NEW YORK—Challenging the army to make good its slogan that it "builds men," Harvey Turney, 18, of Houston, Texas, offered to serve one week without pay if the army could put eight pounds on him to make up his weight deficiency. The army made good with two pounds over.

Noble Oilman

New York has been having a milk graft investigation. It seems some of the politicians were getting the cream.

Cleaned the Deck

Viscount Cowdray, pictured here with the Cowdrays, is one of the world's leading oilmen. They were photographed when they arrived in New York from England on the S. S. Mauretania to see the International polo matches.

LION, STILL IN JENSEN PLANE, IS UNINJURED

FLIER FOUND ON SIDE OF MOUNTAIN AFTER SATURDAY CRASH

(By The Associated Press)

PHOENIX, Ariz., Sept. 20—Martin Jensen, ocean flier whose attempt to make a non-stop flight from San Diego to New York with a full grown lion as a passenger ended in a forced landing on an Arizona mountain side, rested today at Apache Lodge, 123 miles north of here, while plans were being made to extract the lion's cage from the wrecked plane.

Jensen, who had been missing since late last Friday, was found yesterday when he turned up at a ranch near Apache Lodge after a three day hike from the scene of the smashing plane. He left the lion unharmed by the abrupt landing, but thirsty and hungry.

Lion Is Disgusted

The lion, a veteran of the circus and long lured to motion picture work but a novice at flying, appeared highly disgusted with his pilot according to Jensen's story telephoned to the outside world yesterday.

The lion's steel cage came safely through the crash. The principal damage to the plane was in broken wings and propeller.

Mrs. Jensen at Yuma left the plane in which she had been searching for her husband and hurried to join him. The plane later may fly to the site of Jensen's fall to determine what damage was done. A motor truck carrying a cage has been ordered from Los Angeles to rescue Leo.

Tree Stops Plane

Jensen's flight started from San Diego Friday morning. That afternoon, while flying low up a canyon, he suddenly was confronted by the wall in which it ended. A tree top stopped the plane, in time to prevent his striking the wall of the canyon, but it rolled over twice after landing.

From then until yesterday morning, the aviator footed the mountain, circling about on his course to cover more than fifty miles of the Gilaes or twenty miles separated him from the H-Bar ranch. From the ranch forty miles from Roosevelt Dam, came the first word

Costly Geyser

Burning gases formed a real geyser at Hachberry Island in the Louisiana lowlands. Five minutes after the well caught fire the drilling rig and derrick were completely hidden by the leaping flames.

Noble Oilman

Viscount Cowdray, pictured here with the Cowdrays, is one of the world's leading oilmen. They were photographed when they arrived in New York from England on the S. S. Mauretania to see the International polo matches.

Storm Survivors Tell Harrowing Tales Of Damage

(By Associated Press)

SAN FRANCISCO, Sept. 20—The Panama mail motor ship City of Panama arrived here today with several of the American survivors from the recent hurricane that swept the western coast of Mexico with heavy damage and loss of life. They told of harrowing experiences of children separated from their parents, of waves that rolled landward at a height of 60 feet, of

winds that blew 400 pound roof off the Mazatlan breakwater. The City of Panama was tied at Mazatlan when the barometer started falling, an indication that hurricane was due. Though many of his passengers were ashore, sight seeing Captain Charles Holland could not wait for their his only hope was to get to sea and with parts of the families, mother crying for their children in the belief that certain death faced either those ashore or aboard ship. Blaming modern jazz on the jellyfish tendencies of men may be O. K., but some of the credit to holds you see on a modern dance must go to the monkey.

EXPERT DOUBT ELECTRICITY IS AID TO CROPS

OPINION OF AMERICAN DIFFERS FROM THAT OF NOTED GERMAN

(By Associated Press) WASHINGTON, Sept. 20—Electricity, a method of raising crops by electricity has commanded the attention lately of European scientists. Substantial claims have been made for it in England, and a German experimenter, Herr Fritzsche asserts that with wooden masts 25 feet high, carrying magnetic plates, he has attracted electric currents from the atmosphere and conducted them by wires into the earth, where they stimulate the roots of growing plants. Young growths, Herr Fritzsche is quoted as saying, were better able to withstand the attacks of parasites when grown by electrification. He declares he has secured a fuller yield of sugar beets, earlier maturity, a better aroma and a higher percentage of sugar. American agricultural scientists, however, do not share his enthusiasm over the "innovation." So far as federal experimenters have been able to discern, not a single plant has benefited materially by application of electric current, either in growth or productivity, and the process remains of no recognized importance to farm industry in this country.

"There is an indication of a slight increase in the yield of wheat," says G. N. Collins, chief of federal biological investigations, "when it is grown under a positively charged network of electric wires, but the observed increase is well within the experimental error of field trials. The use of electrocultural methods in their present state of development as a practical means of increasing the yield of crops in this country is not recommended."

Such an aerial network has been used to no particular avail on government experimental farms in Arlington county, Virginia. Because of difficulty in controlling the drift of electric current in an open field and the natural variation of soil fertility over a large expanse of

land, scientists now conduct the experiment in department of agriculture laboratories.

"At the end of several experiments with various plants," Collins declares, "we find treated plants sometimes growing better than the others, or as often, vice versa, and always with an inconsistency that neither proves nor disproves the theory."

English scientists make positive claims that electric current, either in the air or the soil, has notably increased both plant yield and growth.

Collins is interested in an English experiment with electricity which is said to lighten plow draft. A generator, carried on the tractor and so attached to the moldboard and coupler as to cause a continuous current, is declared to make the plow run more easily. It is believed the current produces a thin film of moisture on the moldboard, causing the earth to lose perceptible adhesion.

Recent reports of a plow invented in this country that generates an electric current to kill weeds at once, change the color of the soil and shorten by several days the period of seed germination, are said by government experts to contain so little scientific data that a correct definition of actual performance is impossible.

Herr Fritzsche declares that under electrocultural a crop of winter barley and oats has been reaped in the middle of July this year, the ground prepared, fresh, and new seeds sown which are sprouting well. Thus a second harvesting may be expected at the end of September or the beginning of October.

Maize and soy beans are also being cultivated by this method.

New Caldwell Well Gauges 5,010 Bbls.

SAN ANTONIO, Sept. 20 (AP)—The No. 2 Caldwell oil well in the Dale field drilled in Monday, flowed at the rate of 5,010 barrels daily on a half hour gauge. It is the highest well in the field thus far and entirely changes the situation in the new Caldwell county field east of Dale. The well is 800 feet southeast and 300 feet northeast from the discovery well.

The White House gets its name from the fact that after the first executive mansion, which was of bluff limestone, was burned by the British in 1814, the walls were covered with white paint to hide all traces of fire.

French Discover Wild West Tales

PARIS, Sept. 20 (AP).—No generation of American youngsters ever took more delight in the exploits of Alamo Dick, Old King Brady, or Buffalo Bill than do the growing youth of France. The "paper-backs" which gave a thrill to American youth now old to be fathers and grand-

fathers have been translated into French and are on sale at book stalls along the Seine and at kiosks throughout Paris. Many a butcher boy and messenger makes his rounds with nose immersed in the blood curdling tales of America's wild west. Statistics go to prove that New Zealand is the healthiest country in the world. The average expectation of life for men in that country is 62 1/2 years, and 65 years for women.

Thought For Today The devil, as a roaring lion, walketh about, seeking whom he may devour.—1 Peter v. 8.

"So Dull A Boy" Johnny and Mary are just slow, father says. They seem to be behind the neighbors' children in everything.

The mother is talking to the father. Not a very favorable report on the three children. Oh, well, it could be worse.

The best Goldsmith's teacher said of him: "There never was so dull a boy." It was recently stated that Daniel Webster was also slow as a boy.

Dr. Catherine Cox of Cincinnati, seeking to find the precious stuff of which geniuses are made, for four years studied the lives of 300 famous men.

"I found all through my investigation that poor schooling and poor home training, where they occurred, were undoubtedly a handicap to these geniuses.

In the two months they are with us they'll swell the faculty to at least 199,000. Your fiscal and work-

ers about the college will total \$120 and most of them have families. They will spend at least \$300,000 a year and already—without counting the students who find more than a million and a quarter dollars being turned loose in Lubbock every year as a direct result of Texas Tech.

The Plainsman doesn't care what city of 15,000—and that's a conservative estimate of Lubbock's population with the students—you may pick, but just choose one and see what \$1,200,000 would do for it in one year.

Parents should hold up models and heroes before their children, but should not try to make them into child imitations. The great thing is to bring out the individuality of each child.

Beauty Feminine grace and charm describe the woman who specializes in athletic contests, according to the dictum of a Chicago woman artist.

Man has always thought of business and sport as being his spheres. Woman has proved herself self the equal in the one, and now demonstrated on not a few occasions her ability to give him cards and spades in the other.

It seems a sort of mean way to get back at the sex, then, after they have shown up masculine pretensions to superiority, by saying they are less beautiful and charming than if they had left physical development alone.

Few get very excited, it must be confessed, over women sports champions, but on the other hand every one is glad to see that the girls of this generation are paying some attention to their bodies, that they walk correctly, breathe correctly and play gracefully.

Some of us suspect that never before this age were American women really so charming as in the one and now. We know that a lot of folk will want to disprove that, and claim that 25 years ago women, with their hour-glass shapes, trailing skirts and horrible corsets, were greater beauties, but we are going to stick to our opinion.

THE PLAINSMAN

Says: That Man on Avenue 'Q' says his brother recently cleaned up several thousand dollars on an investment of just a few hundred dollars and that his own wife had called his attention to the fact upon several occasions since.

That Girl on Broadway says that where there's life there's hope but she knows some people who seem to have more of the latter than they have of the former.

President Horn estimates that 2,000 students will enroll in Texas Tech during the 1927-28 school year and the way the youngsters are pouring in now it appears that his estimate is much too low.

Why shouldn't we be friendly toward them? They are just American boys and girls, exactly like we are when they, much the same age, too, are an economic factor in Lubbock which must be reckoned with.

These are the principal changes in the White House and it becomes obvious that the facilities and occupiable portions of the presidential mansion have been greatly expanded.

Whether or not this expansion was as important an aim of the "repair work" as any is a question, but the roof structure and its supporting wooden trusses more than 100 years old have been improved to be in poor condition for the last 50 years.

The second floor provides the living quarters for Mr. and Mrs. Coolidge. Even while Mr. and Mrs. Coolidge are away, and all their possessions and furniture are removed, the first or second floor is used for the most part as a dormitory.

When the builders went to work on the White House last spring the space above the second floor was little space. There were a few cubby-rooms for servants, but very small because they had to be built in between the trusses.

Waiting at the Church

"Without-Or-With, Offense To Friends Or Foes, We Sketch Your World Exactly As It Goes,"—Byron

President Can Promenade Or Entertain On Whitehouse Roof Garden; \$375,000 Spent To Repair Caf's Mansion

WASHINGTON, Sept. 20.—There seems to be some confusion as to just what was done to repair the White House at public expense of \$375,000.

The fact is that not only has the White House been given a brand new roof, but it also has acquired a new floor. In other words, instead of being a two-story building as in the past, it is now a three-story building.

Further, the new roof is so designed as to leave a large area on which the president can promenade or entertain.

These are the principal changes in the White House and it becomes obvious that the facilities and occupiable portions of the presidential mansion have been greatly expanded.

Whether or not this expansion was as important an aim of the "repair work" as any is a question, but the roof structure and its supporting wooden trusses more than 100 years old have been improved to be in poor condition for the last 50 years.

With Our West TEXAS BY JAMES L. DOW

There are three hundred and ten men in the U. S. Veteran's federal hospital at Lehigh, Texas. Few of our people realize the suffering and need of these men. The government is doing great things for them physically but their spiritual welfare is sadly neglected.

There is a great need for taking kindly of the men who have their lives in the cause of freedom. While the conflict was on, we were all on our toes. We were so thoughtful of the needs of the men, and concerned about their comfort.

Plans are being made to build a village in the near future, at Lehigh for the patient's wives. Many of their families are now living in and around Kerrville (where they pay enormous rent.)

SHOCKING THE SOIL Donald Woodward of Leroy, New York is experimenting with a plow that enriches the soil by plowing into it a high electrical voltage as the plow moves through the field.

Many a farmer will be interested in the statement that the use of this plow is a backward step and that the use of such crude methods in eighty hours and back-wheat plants grow twice as high as those in one-half the field that was plowed without electricity.

Education has been the reason for this, and the departments of agriculture in the Federal as well as the State governments must be given credit for much of it.

On the main floor, the walls of the Red Room and the Green Room have been recovered with damask—the old coverings having become faded.

Disabled Vets In U. S. Aided Much By Legion Board

PARIS, Sept. 20.—A total of \$1,679,043 was recovered by the National Rehabilitation committee of the American Legion for former service men of the United States through presentation of their cases to the United States veterans bureau and in other ways, in the period between August 16, 1926, and last June 30.

Adjusted Compensation The money was received, the committee reports, chiefly in adjusted compensation, insurance, disability compensation, discharge bonuses, liberty bonds and pensions.

BARRED FROM STUDY MOSCOW (AP)—Impelled by an unquenchable ambition, Madame I. N. Navelov, age 67, has written her application to be accepted as a student by the Leningrad Medical University.

LEGION URGES CABINET POST FOR AVIATION

NATION'S AIR SERVICE WOULD BE GUIDED BY NATIONAL HEAD

(By The Associated Press) PARIS, Sept. 26.—The American Legion's national committee on aeronautics will urge at the national convention in Paris this week that the Legion endorse establishment of a separate department in the president's cabinet for the direction of the nation's air service.

ment of such a department. The report says: "In view of the fact that no comprehensive program for the national defense of the United States has ever been promulgated (the so-called National Defense Act being but an army bill), aeronautics has been left to develop circumscribed by the limited budgets possible to the army and navy departments. The army and navy look upon aeronautics as auxiliary to their respective elemental functions. As a result there has been no development of the real air force in the United States. Distinctive Science "Your committee would in no way deprecate the work of the army and navy in aeronautics when it seeks to have aeronautics brought under a separate department with cabinet representation. It feels rather that aeronautics is a distinctive science in itself with so great import to the future of the nation that it should not be left to develop as a mere auxiliary power. The land is an element, the sea is an element and the air is an element of the signal corps, an air corps or an air service, and with equipment designed by people of no practical experience and placed on the front in a slipshod shape, there was little stimulus to encourage the men who flew."

U. S. Most Backward Concluding, the committee sums up: "The United States is the most backward of any first class power in the development of military air force. "Under the present plan the air service program of the United States will take five years to reach the present strength of our beloved ally and eternal friend, France. "The air service reserve of the United States is a paper force only. "Neither the army nor navy has developed or is developing any substantial body of pilots or observers. "The development of lighter than air craft in the United States is totally arrested. We have one dirigible whose every sortie from Lakehurst is a matter of press comment and whose safety in flight is a matter of public prayer. "Private Capital Interested "Three of the recent long distance flights which electrified the world were instigated and financed by private capital. These magnificent exploits are not to be taken as a barometer of military advancement in the United States but rather as a criterion of what American air men are able and ready to do when backed by interested organizations. "The far-flung coast and border lines of the United States demand exceptional mobility of military strength in time of possible invasion. Air force is peculiarly adapted to this situation."

Cotton Rates On South Texas Rail Line Are Raised

(By Associated Press) AUSTIN, Sept. 26.—Freight rates on cotton shipped from Brownsville to Galveston over the St. Louis, Brownsville and Mexico railway were increased today from 79 cents per hundred pounds to 80 cents by the state railroad commission on petition of the railway. On application of the Orient railroad, the commission fixed a rate of three and one half cents per 100 pounds on crude oil shipped from McCamey to Nickel Spur and a 12 cent rate from McCamey to Sweetwater. The committee also set 45 1/2 cents per 100 pounds as rate for shipment of fruit crates and hampers between Galveston, Brazos Port and other Texas points; authorized the Santa Fe to charge \$4.50 per car for round trip switching service on premises of the Dallas Boiler and Machine company, Dallas, and set down numerous other propositions for hearings later. Industrial disputes in England have caused the loss of 338,000,000 working days during the last eight years. The British trade in silk is five times greater than it was before the war.

'Puzzle Baby' Holds Cleveland Interest

CLEVELAND, Sept. 26 (AP)—Miss Ruth Meyer, a nurse at Fairview Park hospital is certain that Mrs. Sam Smith's "puzzle baby" is a girl and has assumed responsibility for saying it was a boy. Phillip Vollmer, superintendent of the hospital declared last night. Miss Meyer returned last night from Detroit where she had been spending a vacation. A habeas corpus action brought by Mr. and Mrs. Smith against the hospital was delayed last week pending her return.

Abilene Invites Citizens Of West To Greet 'Lindy'

The citizens of Abilene will be at home to all West Texas on September 28, when an informal reception will be held honoring Colonel Charles August Lindbergh, New York-Paris flier. Because of the number of guests expected to be on hand to greet "Lindy" no engraved invitations are being sent out but Mayor Thomas B. Hayden, Jr., of the Taylor county capital, has telegraphed The Journal asking that the invitation from all of Abilene to all of Lubbock and the surrounding territory be broadcast. The aerial ace, who has now become as much of an American institution as his mad eggs will be Abilene's guest next Monday between the hours of 10 and 12. Every one of the thousands who throng the city will be given an opportunity to see Colonel Lindbergh. Mr. Hayden promises "Lindbergh Day" will also be the opening day of the West Texas Fair. The smallest bird in the world is the fairy humming bird of Cuba, which is only two and one-fourth inches long. The first United States postage stamp, issued in 1837, bore the portrait of Benjamin Franklin.

Excursionists Held Waterbound Escape

WINNIPEG, Man., Sept. 24 (AP)—Three hundred excursionists, marooned for 36 hours by high waters of Lake Winnipeg on its eastern shore, arrived here last night on a relief train of the Canadian National railroad. Eight hours was required to make the 60 mile return trip over a dangerously washed road bed. The excursionists were trapped Saturday in camps at Victoria and Grand Beaches and isolated from the mainland by a violent gale. The bungalow got its name in India. Early British residents built one room, partitioned dwelling, calling them "bungalows" from the Hindu word "bangla," meaning thatched hut.
