

Ramblin 'Round

By BERT WEST

If some of the type in today's paper looks strange and if a news article you expected to see in the paper doesn't make it, then we'll blame it on ailing "Arnold" and some confusion-sounding cross country shipments.

"Arnold is the name of a tall blue-gray machine that is a very crucial part of our electronic, computer-like typesetting process. Arnold had a breakdown, probably from nervous fatigue, a week ago Tuesday, right in the homestretch time of preparing last week's paper, but with the kind assistance of The Paris News, we managed to get the final details typed out and went to press, almost on schedule.

When Arnold was stricken, the firm that manufacturers these various typesetting and producing pieces of equipment, spent some 2-3 hours in telephone consultation from the West Coast. Finally it was decided a little bulb in a box about the size of a half pack of cigarettes was the trouble. The firm, at the close of the phone consultation a week ago last Tuesday, said it would immediately quick ship a replacement box not from where we were talking to on the West Coast but from the firm's headquarters in Wilmington, Mass.

The box did not arrive Thursday, when first expected—hopefully. It did not arrive Friday. No one works in that firm on the weekends, so Monday we called Massachusetts. They didn't know anything about it, but said such items were usually shipped from their parts place in New Jersey.

The New Jersey place admitted it had shipped such a device, but said it was sent to the company site in Los Angeles, to replace the one Los Angeles was supposed to have sent winging to Deport. A call to Los Angeles located the gal who agreed she had, indeed, dispatched the device to Deport, but the shipment did not leave her place until last Friday.

Without Arnold's stricken innards working we were completely shut-down in setting the kind of type you are now reading. Hopefully, the device arrived with the U.P.S. delivery Tuesday afternoon, but even then there was no assurance it would be the correct device since Arnold is somewhat of an elder statesman among these type of machines and the original consultant from a week ago last Tuesday couldn't believe Arnold had the type of gadget that he indeed had. And, perhaps that wasn't even the problem.

So, as this is written, we have no idea as how all this type will finally get set. We're hopeful it will get set, that we will get to the press, and we sure hope Arnold is full of pep and words, lots of them after his deserving but wrong time vacation.

DEMONS TO DRAGONS...When the Redwater Dragons take the field at Rebel Stadium to do battle with the Rivercrest team Friday night, the man walking their sidelines as head coach has a background record as one of the most outstanding coaches in Texas high school football.

Although the Dragons haven't enjoyed too much gridiron success over the years, the same cannot be said for their coach of the past 2-3 seasons, Bill Spann.

Spann's years of wide acclaim and honors in the coaching profession started in 1962 and continued for a decade and more as he head coached the Dumas Demons of the then Panhandle district of 1-AAA.

Spann was an assistant Dumas coach in 1961 when the Demons won a district title for the first time in 30 years and parlayed that into the '61 state Triple-A championships. Burl Barlett, head coach for the '61 Ding Dong Daddies from Dumas, resigned after winning the state title and Spann moved into the top chair.

The Spann-coached Demons not only repeated as state champs in 1962, but they went on to win district every year through 1971, a string of 10 straight, and for seven straight years during that streak the Demons never lost a district game. Several times they were ranked No. 1 in the state.

Somewhere around the mid-70's after winning one more district title, Spann left Dumas.

If you ever go through Dumas on a trip to Colorado or other points and want to talk high school football, just stop at any place in town and mention the name of Bill Spann.

Homecoming Ceremonies Start At 7

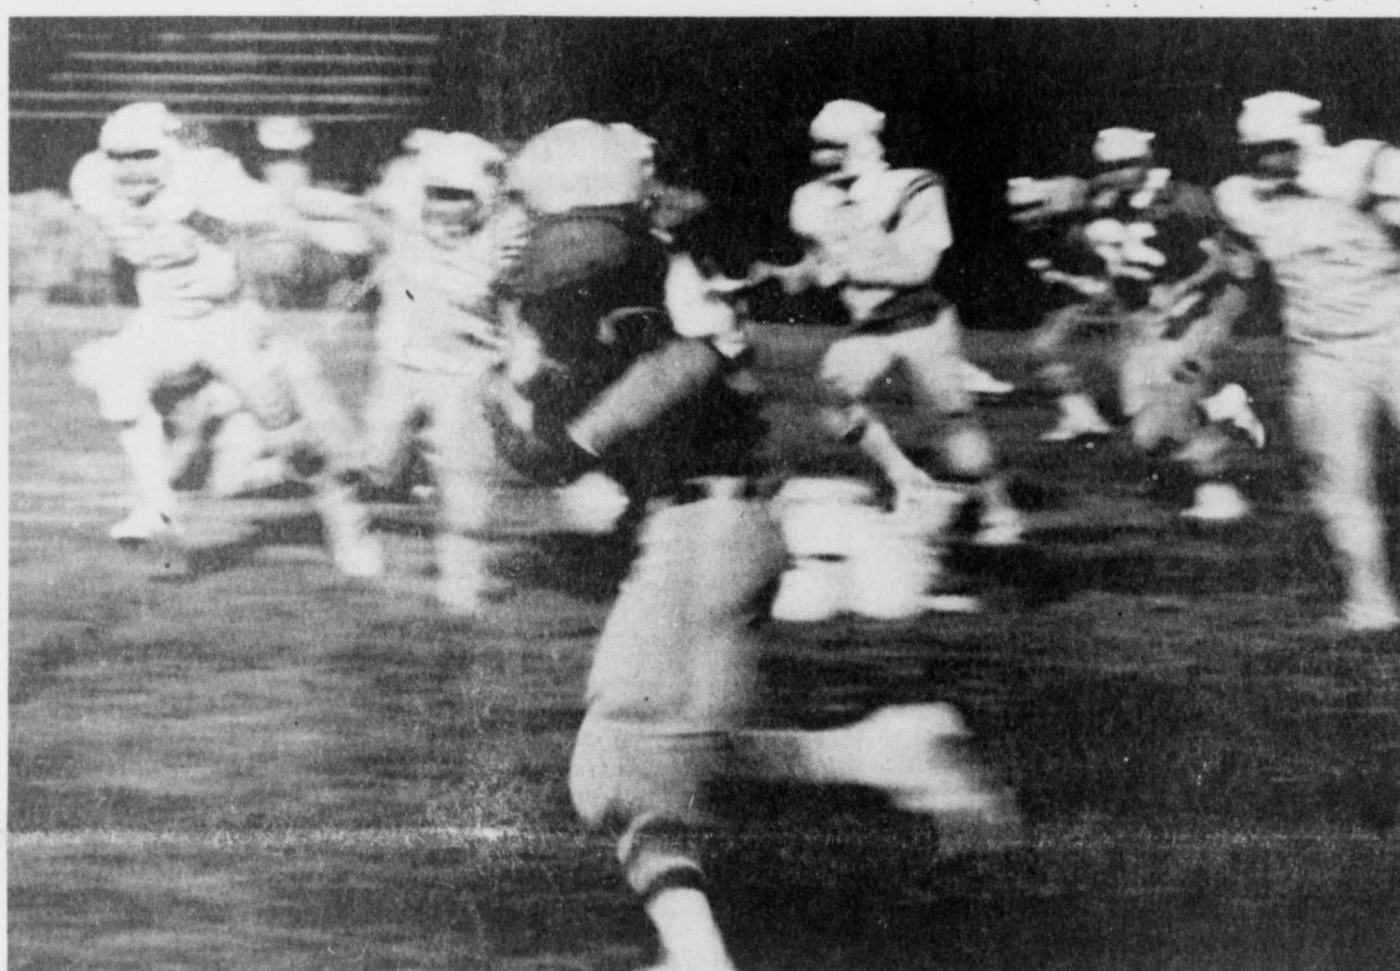

Pre-game ceremonies, including the crowning of the 1982 Rivercrest Homecoming Queen, will begin at 7 p.m. Friday in Rebel Stadium. Kickoff time for the football game is 7:30 p.m. this week, instead of the later 8 p.m. start that had been in effect through the first four games of the season.

In the pre-game ceremonies, the four nominees for homecoming queen Tessa Morgan, Stacy Spencer, Angela Tucker and Cindy Williamson and their escorts will be introduced when they appear on the field and announcement of the 16th annual homecoming queen, chosen by a vote of the Rivercrest student body, will be made.

A public invited pep rally will be held at the high school Friday afternoon, from 2:40 to 3:30.

All ex-students of the Talco-Bogata schools are urged to visit Rivercrest during the day of Friday, attend the game and also a Saturday night dance.

Registration for the ex-students will be at Rivercrest from 10 a.m. 2 p.m., Friday. The homecoming dance is booked for the Cattleman's Club in Clarksville, starting at 7 p.m. Saturday.

Grid Guessing Game....

Cox, Van Deaver, Wood Win Loot

In a weekend of numerous mild upsets on the college scene and no pro games, it was a rough week for contestants in the News-Times football guessing contest.

A contestant who could correctly guess the outcome on 20 of the 28 contest games was a winner and that was exactly the case for first week champion James VanDeaver of Deport and Andrew N. Cox of Bogata.

The two tied for first place honors, each with eight miscues. The fair sex

got back in the act with Denise Wood of Bogata all by her lonesome in second place and third money.

In going to the contest tie-breaker game in an effort to dissolve the deadlock between VanDeaver and Cox, that game was won by Big Sandy over Rivercrest, 13-0. Both VanDeaver and Cox had guessed the Rebels would win, so they remained tied on the first step. The second step in breaking ties is margin of victory but since both had the wrong winner, they still remained tied.

The third tie-dissolving step is total game points. VanDeaver had figured a total of 36 points between Rivercrest and Big Sandy, while Cox had calculated 31 points. So, Cox is awarded the \$12 first place money and VanDeaver takes down the \$7 second money.

Wood, who finished just a game behind with nine misses, lays claim

Grand Opening For Putt-A-Bout Course

Grand opening festivities for Bogata's newest recreational happening, the Putt-A-Bout Golf Course, on Highway 271 just north of the city limits, are scheduled to get underway about noon this Saturday.

In addition to introducing the miniature 18-hole golf course to the public, the grand opening also will serve as a benefit for the Bogata Lions Club. Co-owner Barney Gayler says all proceeds from the opening day will be given to the Lions Club for use in the club's community service projects.

Opening day festivities will continue throughout Saturday afternoon

and evening, Gayler says, with free entertainment and members of the Lions Club serving refreshments.

For Saturday only, the fee for playing the 18-hole course will be \$1 per person. Regular hours and fees will become effective Sunday afternoon, with the Putt-A-Bout course also expected to be open during early evenings on weekdays.

"This is a good family entertainment and we invite everyone in the area to come on out this Saturday and get acquainted with the sport," says Gayler. He and Harold Bogie are co-owners of the Putt-A-Bout course.

Fire Destroys Bogata Home

FIRE OF UNDETERMINED origin destroyed the Dale Rhodes home in Bogata early last Sunday morning. The Rhodes reportedly

Home-Heating Aid For Low-Income

Low-income Texans faced with home energy cutoff for heating or cooling may qualify for payments from \$3-million in federal funds set aside for energy crisis intervention (ECI), according to the Texas Department of Human Resources.

The money, made available to Texas counties, will be distributed to energy suppliers on behalf of eligible households.

One payment is allowed each household between Oct. 1 and March 31. Another payment is allowed between April 1 and Sept. 30. A maximum of \$90 per period can be paid if the household applies and is found eligible.

Officials at DHR explained that once the fund is exhausted, no further payments can be made.

The department has negotiated contracts with local agencies to handle

outreach, applications, eligibility determination, and payments to energy suppliers.

Qualification for ECI payments is limited to households with a total gross monthly income of less than \$305.50 for a one-person household; \$499.50 for a two-person household; \$684.50 for three; \$845.50 for four; \$998.50 for five; and \$1,166.50 for six.

At least one person in the household must be a U.S. citizen or a legally admitted alien. If a household's past due energy bill exceeds \$90, and funds from other sources are not available, the household might not qualify for ECI help.

GENEALOGY BEGINS WITH U

Geography an important principle

By MICHAEL CUNNINGHAM

Today, we can live pretty much where we would like to. Presently some people build houses in dry creek beds. Suburbs of our larger cities have sprung up where farmers used to plant their crops. We do not have to go very many generations back till we find a completely changed set of circumstances. This week we are going to test our knowledge on some principles of geographic location.

GENEALOGICAL ASSUMPTIONS

In the early days of our country which of the following acted as a hindrance or a help to our Western expansion?

1. Rivers
2. Mountains
3. Valley
4. Climate
5. Soil Conditions
6. Hostile Neighbors

7. True or False. Did the early immigrants, who came to this country, normally seek to find a place to settle that most reminded them of their home land?

8. Before the 1900's what was the general migration flow of the Americans who lived above the Mason Dixon line?

- A. West to East
- B. North to South
- C. South to North
- D. East to West

9. Before the 1900's what was the general migration flow of the Americans who lived South of the Mason Dixon line?

- A. North to South
- B. West to East
- C. South to North
- D. Northwest to Southeast
- E. Northeast to Southwest

10. Before the 1800's what was the general migration flow of Americans?

A. North to South

B. East to West

C. Southeast to Northwest

D. South to North

11. The states of Maine and Delaware were once part of what two different states?

12. When doing genealogical research and trying to obtain courthouse records for someone who lived in Gilmer, Texas in 1850 where would you look?

13. If you wanted to find out some information on one of your relatives who founded a town (for example Peter C. Boslow who founded Patterson Hardin Co. Ohio) would you go to

- A. A Local Library?
- B. Chamber of Commerce?
- C. Newspaper?
- D. U.S. Census Records?
- E. Historical and Genealogical Society?

What motivates a person to live

where they want to is a fascinating subject. A lot of times we can not tell what specifically motivated each of our relatives to live or move to a place, but we can however make some good general assumptions. Next week we will discuss answers to these questions.

Ancestor Line

Anita L. Evans, 1325 L. Canyon Abilene, Texas, 79605, wrote inquiring information on her great-grandfather, George W. Lawson. George was born in 1847 in Illinois and married Nancy C. Hill on August 6, 1875. Nancy was born Sept. 4, 1855, in Tennessee. She died Sept. 11, 1927, and was buried in the Colony Cemetery in Rains County, Texas. Anita is very anxious to obtain any information on these relatives.

1.) Lois Hale Pierson, 1404 N. 10th St., Colton, CA 92324, writes searching for information on Robert Hale and his brother, Thomas Hale. They were born in the 1850's near Bolint Co., Tennessee. In the 1860's they lived in Greene County, Missouri. Some of the Hales' moved to North

East Texas in the 1870's or 1880's. John Wesley (brother of Robert and Thomas) lived near DeKalb, Texas. Lois is looking for any information on this family or their descendants.

2.) Bonnie Patterson, Rt. 2 Box 106 D. Hawkins, Texas 75765, writes looking for information on Thaddus Warren McCulloch who lived in South East Oklahoma in the early 1900's. She is also interested in any information on the McCulloch and Hill family.

3.) Clare C. Gibbons, Corresponding Sec., Heart of Lakes Genealogical Society, Tr. 4 Box 79, Frazie, Minnesota 56544, writes to tell us she is very interested in our column. Her Society puts out a Quarterly Newsletter which contains a lot of information and facts of people who are researching in Minnesota. If any one is interested in future information on the great work of this Society, please contact Clare C. Gibbons.

4.) Coleen McKnight, Rt. 6 Box 645 Gilmer, Texas 75644, writes seeking information of the following families:

Alexander (Tenn. Ga., S.C.), Roberts (Tenn.), Burnett (Tenn., Texas), Gassett (Tenn.), Stokes (Ga. S.C.), Lee (Miss.), Burns (N.C.), Corn (Miss.).

5.) Delbert McKnight, Rt. 6 Box 645 Gilmer, Texas 75644, writes seeking information on the following families: McKnight (M.C., Tenn., Virginia, Tx.), Snellings (S.C., Tenn.), Dickerson (Tenn., La.), Roberts (I.), Collins (S.C., Miss.), Louthrip (Kentucky, Ala.), Brown (La.), Nash (S.C., N.C.).

Career Tips

By Dr. H. Don Pope, Ed. D., Coordinator Career Planning, Center for Student Development Services, East Texas State University, Commerce, Texas 75428.

Now that all of us are starting to settle into our routines for this academic year, it's time to take a look at a wide variety of different matters related to careers. First, I want to give some advice to high school students--don't let up on your studies.

Fairly often, many students (particularly high school seniors) tend to ease up with their studies as they get closer to graduation because some high schools allow these young people to skip some parts of the school day if they have completed the minimum requirements for graduation.

If this time off is used to get other educational-vocational experiences, the student stands to gain greatly. However, often this time is used to watch television, to hang out with friends and to do nothing. When this happens, everyone loses.

This extra time could and should be used in many worthwhile ways. If possible, students should take college-level courses under a concurrent enrollment plan. Most of these courses will be freshman-level courses which will go on the students' transcripts once they have actually enrolled in college. By doing this, the students will be able to go ahead with more difficult courses after they graduate from high school.

This extra time also could be used in high school by taking additional courses which might not be required for graduation. For example, I think that all high school students should complete four years of English--with the emphasis being on grammar and composition. I believe this primarily because the ability to write correctly is essential to success in college as well as in most careers.

Questions should be sent to the author at the above address.

For November Election...

Voter Registration Deadline Is Monday

Eligible voters who have not registered to vote must do so by Monday if they wish to cast their ballot in the Nov. 2 general election.

Registration is required of all citizens who are otherwise eligible to vote, but who may have changed their address since they last voted.

In addition, youths who have turned 18 or will be 18 on or before Nov. 2 are eligible to register as voters. State officials estimate some 188,000 high school seniors should be eligible to join the Texas voter power this fall.

Registration can be made at the voter registrar's desk in the county tax assessor-collector's office in each Texas county.

Along with numerous local county and precinct offices, Texas voters this fall will vote for U.S. Senator, U.S. Congressman, state representative, state senator, governor, attorney general and nearly every statewide office. In addition, there will be six proposed amendments to the Texas Constitution on the Nov. 2 ballot.

"It is important that all eligible Texans register to vote then to exercise that privilege on Nov. 2," says Joe Rothe, with the county of-

officials program of the Texas Agricultural Extension Service.

Rothe points out that only 24 percent of those eligible voted in the May 1 Texas primaries, the lowest voter turnout in 30 years for a gubernatorial primary election.

"Everyone eligible to vote but unable to do so on Nov. 2 should apply at the county voter registrar's office to vote absentee," says Rothe. Oct. 29 is the deadline for voting absentee in person while absentee ballots will be accepted in the mail as late as 7 p.m. Nov. 2.

Any of the following conditions can qualify an individual to vote absentee:

1. Absence from the county of residence on election day.
2. Age 65 or older on election day.
3. Inability to appear at the authorized polling place on election day due to sickness, physical disability or religious belief.
4. Service as an election clerk or a poll watcher in an election precinct other than the precinct of residence.
5. Under certain circumstances, voters confined to jail may be eligible to vote absentee.

Officials To State Session

W.H. Hammer, E.H. Hausler, and David Jackson, directors from the Red River County Soil and Water Conservation District will be in Austin, Oct. 4-6, to attend the 42nd annual state meeting of Texas Soil and Water Conservation District Directors.

Others attending from the Red River County S&WD

are Charles VanDeaver, district conservationist, Monnie Hammer, Mycle Hausler, Bonnibel Jackson, and Mry Helen VanDeaver.

The purpose of the meeting is to review developments affecting Texas conservation programs and to plan future conservation district programs and activities.

to the \$5 third place award. Three contestants, including one who failed to sign his name or address to the entry blank and who failed to guess the outcome on the Rebel-Big Sandy game, finished with 10 bobbles each. Joining "No Name" in this category were Lee King and Al Sessums, both of Bogata.

Had No Name made a guess on the tie-breaker game, he or she might have won the \$5 third place dough.

Lance Miller, first place winner the two previous weeks, was among 22 contestants to finish with 11 mistakes.

In addition to the No Name entry, one Bogata contestant turned in an entry with a guess only on the contest tie-breaker game and failed to pick the winners in the 27 other games on the page. His tie-breaker guess was wrong, too.

There's a new contest published in today's paper, with the entries due at either The Bogata News or Deport Times no later than 5 p.m. this Friday unless mailed. If mailed, entries must be received no later than the Saturday morning mail. Full rules and regulations are published on the contest page.

Winners of the games in last week's contest were Baylor, Paris, SMU, Okla. City Northeast, Texas, Atlanta, Arkansas, Hooks, Stanford, New Boston, Southern Cal, Daingerfield, Auburn, New Diana, Notre Dame, Carthage, UCLA, Penn State, Louisville, Winnsboro, Pittsburgh, Georgia Tech, Maryland, Duke, Boston College, Syracuse and Big Sandy. REBELS----

were not denied.

A pair of Glenn passes helped the Cats to a first down on Rebel 6. The next play got inside the 5, but then Big Sandy was penalized back to the 18. From there, 170-pound Sheyne Burgin took the handoff, powered his way through the left side of the Rebel line and smashed away from at least six would-be tacklers to go into TD land just as the first quarter ran out of playing time. Hitt tacked on the extra and it was 7-0 starting the second period.

The Rebels started from their 19 after the ensuing kickoff and moved out to the 36 in four plays. Then came Disaster No. 1.

Quarterback Kelley Jeffery completed his second pass in as many attempts, this one a six-yarder to Bradley Moore at the 42. That, however, was to be the last completed Rebel pass of the night, and it turned into trouble. As Moore caught the ball, he was slammed into by a couple of hard tackles, fumbled the ball and it was grabbed in mid-air by Big Sandy's John Strickland who ran it to the Rebel 45.

With Burgin getting some good gainers, the Cats swept to a first down on the Rebel 24 in five plays. On the next play, Burgin made it on to the 16, but fumbled and Rivercrest's Stanley Jessee grabbed the handle.

Sticking to the ground, the Rebels got their first good drive going after the fumble recovery. With Randy Galloway, John Hines, Jeffery and Greg Russell each having some good gainers, the Rebels marched out to the 41. A penalty moved the ball back to the 31, from there Jeffery went to the air and his pass was promptly picked off by Long at midfield and legged back to the Rebel 34.

After Burgin led a ground gaining surge to get Big Sandy a first down on the Rebel 9, Glenn tried his hand at the air route and Moore pulled off an interception in the endzone with 33 seconds left in the half.

Using the sidelines in the final ticks of the first half, the Rebels almost—but didn't. Starting from the Rebel 20, Galloway gained 30 yards to the endfield stripe in three running plays, going out of bounds at the end of each play to stop the clock.

Galloway crossed over to the Wildcat 49 on the fourth play. Then, with 11 seconds left and everyone expecting a pass, Moore circled around to take the handoff of a reverse and zipped all the way to the Big Sandy 23 where he was bumped out of bounds by the final defender, ending the first half.

The Rebels took the second half kickoff and Galloway's 38-yard runback carried to the Wildcat 47. From there, the Rebels had a perfection ground attack rolling as Hines, Galloway, Russell and Jeffery alternated at carrying, behind some tremendous blocking in the center of the line, to the Big Sandy 6. Then came disaster.

A penalty eased the ball back to the 11, from there Galloway gained back to the 9. Faced with a fourth down and 5 to go situation, Jeffery tried the first pass in the series and it was intercepted at the 4 by Big Sandy's

Buck Eakin, who stomped out to the 15.

The Wildcats bame back with a long drive of their own, going all the way to the Rebel 2. An apparent TD was erased by illegal motion that shoved the pighide back to 7. Glenn got four of those back then, on fourth down, Moore clobbered Burgin to the turf at the 2, stopping the assault.

Starting from their 2, with 8.31 left in the game, the Rebels moved out to the 9 in two plays, then Moore took over at quarterback to gain 15 yards in two keeper plays.

But the fortunes were about to turn of the Rebels. Faced with fourth down and 3 needed at the Rivercrest 31, the Rebels went for the gamble but Hines fumbled and the Wildcats took over on the Rebel 30.

On the first Wildcat play, it appeared that the Rebels had regained the ball on an interception by Larry Davis at the 5-yard line, but a penalty erased the play and gave Big Sandy first down on the 15. From there the Cats scored in six plays, including a crucial fourth down at the 6. Burgin smashed over from the 2 for the points. Hitt's PAT was wide, but Big Sandy had a 13-0 command with 2:26 left to tick.

Four straight "home run" pass attempts by the Rebels failed after the ensuing kickoff and Big Sandy took over to run out the clock with 1:48 left.

The Rebel defense kept the wraps on Big Sandy's highly-touted Long, who had a minus one yard in 4 carries, but Burgin more than carried the Wildcat ground attack with 121 yards in 19 carries.

The Rebels gained 185 yards in 44 rushing plays. Galloway was the leader with 85 for 18; while Moore netted 44 yards in 4 carries; Hines had 34 from 13 touches of the ball; Russell, 17 for 4; Jeffery, 5 for 4; and Davis, none for one.

Sunday Is Start Of 4-H Week

Encouraging 4-H members to become responsible, productive citizens is the purpose of "Pathways to the Future," the theme of National 4-H Week, Oct. 3-9.

"During National 4-H Week, nearly 5-million 4-H Members across the nation will rededicate their heads to clearer thinking, their hearts to greater loyalty, their hands to greater service and their health to better living," says Dr. John Pelham, state 4-H and youth leader with the Texas Agricultural Extension Service, Texas A&M University System.

Members of America's largest out-of-state youth educational organization and 568,000 volunteer leaders will celebrate with activities aimed at promoting individual growth and accomplishment, creativity, social responsibility and family involvement, Pelham says.

These boast about 140,000 members and has a support force of some 19,000 junior, teen and adult volunteer leaders.

Reviewing 4-H projects in Texas, Pelham points out that the top five projects the past year were food-nutrition, electric, safety, clothing and horse.

"In the past five years the top 10 projects have been about the same, though they frequently change positions," says the 4-H leader.

"4-H members learn far more than specific skills with projects such as food-nutrition, animal science, forestry or gardening," Pelham says. "They also learn to keep accurate records, make oral presentations and develop life-long management, consumer and communications skills."

Young people from 9 to 19 may participate in 4-H through organized clubs, special interest groups, nutrition education programs, television series, short-term activities and camping, he adds.
