KIMES STEALS AUTO TO MAKE GETAWAY

(By Associated Press)
TULSA, Okla., June 15.—After kidnapping Marshall Jennings of Oklahoma City and stealing an automobile in which a small child was sleeping, Matthew Kimes, bank robber, was the object of an extensive man hunt today. He apparently had eluded officers after having been chased to Hominy in Osage county. He headed for the Osage Hills after stealing a car at Drumright last night. George McAninch and Marshall Jennings were captured by Kimes when they attempted to stop the outlaw's car. Kimes tied McAninch to a tree. The bandit stole a car belonging to Orville Robb and apparently did not notice the child lying asleep on the back seat. The baby was found soon afterwards on a vacant lot still asleep.

"Dutch John," Pioneer Here, Died Wednesday

John Laager ("Dutch John") passed away Wednesday morning at 9:30 a. m. He had been sick and confined to his shack in the western part of the city for some time and physicians who had been attending him stated Tuesday afternoon that the end was near. Wednesday morning arrangements were made to move the old man to a room with a Mexican family where he would be taken care of and the only place that John would consent to be moved. Two undertaking firms of the city offered their ambulances but John refused to be moved any way except in K. V. Northington's car, so Mr. Northington and Bernie Ward went to the shack to take him and found him in a dying condition. The men used artificial respiration and everything possible to prolong his life until medical aid could be secured but he died in a few minutes

India Imports Old Newspapers; Merchants Wrap Wares in Them

MILADY IN AMERICA RETURNS HOME WITH BUNDLES WRAPPED IN GILDED TISSUE --

WHILE IN INDIA THEY USE NEWSPRINT --

(By Associated Press)
WASHINGTON, June 15.—Second-hand newspaper as wrapping paper has a very low social position in America, but in India necessity and custom have nourished a different viewpoint. If women go shopping there, particularly in the interior towns, they have no choice but to accept their parcels wrapped in old newspapers. Responsibility for this condition is attached to American and

British newspaper plants, whose overissue papers are shipped to the Orient in great quantities. Especially large markets for this type of wrapping material have been developed at Bombay and Calcutta. Virtually no other kind is used in the bazaars and native shops in the interior, while the innumerable street hawkers and vendors of seeds, nuts and other delicacies are equipped with the old newspapers torn into convenient sizes for wrapping their wares.

LINDY STILL IN NEW YORK

(By Associated Press)
MITCHELL FIELD, New York, June 15.—Officers at the army flying field made it known today that New Yorkers will probably not see Charles Lindbergh's plane before the flyer returns home.

They said that present plans call for Lindbergh to leave here for Washington Friday morning, immediately after receiving the \$25,000 Raymond Orteig prize. At Washington he will transfer to the Spirit of St. Louis and thence fly to St. Louis.

BYRD MAY FLY CROSS EUROPE

(By Associated Press)
NEW YORK, June 15.—The New York Evening Post says today that Commander Richard E. Byrd, who is expected to hop off soon on a trans-Atlantic flight, has such elastic plans for guiding his monoplane after it leaves America that he may even cross Europe and the Pacific Ocean before he ends his trip.

FRENCH FLYERS HAD 10 FLARES

(By Associated Press)
PARIS, June 15.—Captain Nungesser and Major Coli had ten flares with them on the White Bird when they hopped off on their trans-Atlantic flight, according to revelations made public today.

REVIVAL MEETING TO CLOSE TONIGHT

The revival which has been in progress at the Eighth Street Church of Christ for the past ten days will close with tonight's service.

The entire meeting has been marked with good attendance and the congregations have grown with practically every service. The members feel that much has been accomplished and that the series of meetings has been successful from every standpoint.

Despite the cool weather a good crowd greeted Rev. Dunn Monday night, and one of the largest crowds of the meeting is expected to hear his last message.

Misses May Dell and Bitsy Josey, of Dallas, are here visiting friends and relatives.

LONDON, June 15.—Rumors of new terrorism in Russia, with numerous executions and wholesale arrests, drastic military preparations, an impending declaration of martial law, and that crowds of foreigners are fleeing from Moscow, are current here today.

It is said that a strict censorship has been imposed on all telegrams from Russia, and that accounts for the inability to confirm sensational stories.

The population of Moscow is described as panic stricken with reservists being called out.

A dispatch suggests that these preparations are due to expected war with Poland.

BALLINGER BOY WRITES ARTICLES

A recent issue of the San Antonio Express carried the announcement of the beginning of a series of articles on "How to Take Care of Your Ford," by Monroe Vogelsang. Mr. Vogelsang, a former Runnels county boy, is manager of the service department of the Yantis Motor Company at San Antonio. The series of articles will give information that will teach the motorist how to fix his car in an emergency and will also be of interest to the tinker who likes to work with his car.

Mr. Vogelsang has been doing Ford service work for the past eleven years and for the past five years has been at the head of the service department of the above named firm.

WACO — The Waco Humane Society has begun a campaign to force all owners of mocking birds to release them from their cages. It is also announced a farm home for all aged horses in the county is open.

Sunday will be Father's Day all over the nation.

June 14th was Flag Day. In Ballinger one lone flag was placed in its holder on the street. Many people made inquiry to find out why this flag was flying, but very few could inform them. The Ledger carried an article on the flag and its origin and birth, but evidently the story should have been published the day before so the colors would have been unfurled on the anniversary.

The Overall ranch in Coleman county is being surveyed for the purpose of subdividing it into small farms. The ranch contains about 17,000 acres and practically all of it is excellent farm land that can easily be put in cultivation. These new farms will bring many families to that county and will help to place Coleman among the best agricultural counties of West Texas.

July 4th is only a short time off. An advertising car from Abilene spent the day in Ballinger Monday boosting the automobile races in that city on the holiday. The only event so far announced for Ballinger is a golf tournament for Country Club members. However, towns in all directions from this place are offering programs and citizens who wish to celebrate will have no trouble in finding a place to go.

De-Urbanizing America

The small town finds electric power a strong ally. As the evolution of industry turns into a new and brighter phase, factories are released from concentration in densely populated urban centers. As a substantial extent this has been made possible by the transmission of electric power from advantageously located generating stations efficiently operated and adequate in capacity, to communities for miles around; sometimes bringing electric service for the first time; sometimes replacing inadequate local plants.

With the assurance to the small community of ample and economical power, industry is enabled to realize the advantages of better and cheaper living conditions for workers, and in many cases closer proximity to raw materials and markets.

Development of the local demand immediately available—the grist mill, grain elevator, waterworks system, street lighting—justifies the initial investment by the utility company, which thereafter cooperates with the community in building up local industries and attracting new ones.

In this kind of healthy development, apparent throughout America, the West Texas Utilities Company is one of the most active participants.

NATIONAL GUARD GETS DRILL LOT

Work was begun Tuesday morning on the vacant lots at the rear of the Dooze building on Seventh Street to clean the premises off and put them in condition for a drill ground for the local National Guard company.

C. A. Dooze offered these lots to Company C free of charge for the purpose of furnishing the Guardsmen a place large enough where drilling could be done without interference by traffic that is encountered on the streets. A squad of boys began Tuesday morning picking up rocks and as soon as the "policing up" is completed Mayor Raby has promised to put a city grader on the lots and level them up.

Earl Morley, superintendent of the West Texas Utilities Company, has given orders for the placing of a string of lights over the grounds so that the place will be lighted for night drilling. It is pointed out that the Guard unit has needed a place of this kind ever since the company was organized, and not only can more efficient work be done, but the citizens who like to watch these drills at night can park along the curbing and see without interfering.

Capt. W. C. McCarver, company commander, stated Tuesday morning that some hard drill work would be done from now until time for the annual encampment at Palacios which will begin on August 5th. The captain expects to carry a full strength company, well drilled, to the camp this year, and the new parade grounds will prove a big help he thinks.

Capt. McCarver announced that Rex Gaither, regimental band master, wanted more musicians for the encampment this year. These men can enlist for the duration of the camp if they desire, but local bandmen planning to make the trip with the musical unit should see Capt. McCarver who will report same to the band master.

What Is a Diuretic?

People Are Learning the Value of Occasional Use.

EVERYONE knows that a laxative stimulates the bowels. A diuretic performs a similar function to the kidneys. Under the strain of our modern life, our organs are apt to become sluggish and require assistance. More and more people are learning to use Doan's Pills, occasionally, to insure good elimination which is so essential to good health. More than 50,000 grateful users have given Doan's signed recommendations. Scarcely a community but has its representation. Ask your neighbor!

Machine 70 Years Old

(By Associated Press)

A sewing machine that was transported across the western plains in an ox train in 1870 and caused Indian squaws to marvel, is still used by a Spokane, Wash., woman.

Mrs. Mary Jane Smith's antique is 70 years old, and is run by hand power. It has stitched rough pioneer clothing, heavy

Indian garments and household materials ever since her mother took it west with her.

BORGER—R. L. Daugherty is claimant for the title of champion hard luck victim. While steaming off a string of oil tools in Hutchinson he was severely burned and jumping from the truck he broke his leg.
