Forsan Buffaloes Stomp Bulldogs

The Forsan Buffaloes stamped over the injury-riddled Bulldogs last Friday night as the season ended in District 7-B for both teams. The Bulldogs ended the season with a 2-3 mark.

The Bulldogs played the game with a long list of injuries hobbling many in key positions. Terry Brewer, Stanley Hackfeld, Steve McCollum, Jesse Watkins, Ricky Walker, Mike Walker, and Mike Britton all were slowed and some were re-injured in the ball game Friday night, causing the Bulldogs to be less impressive than they normally would have been.

Clayton McKinnon scored first on a 2-yard carry and Larry Tolson added two points on the conversion.

First of three touchdowns in the second quarter was made by David Myers on a 6-yard run. Second TD came on a 2-yard pass from Tolson to Leon Hobbs. Tolson threw a screen pass to McKinnon who raced 53 yards to score.

The Buffaloes scored again in the closing minutes of the game on a 20-yard field goal, making the score 36-0.

Cotton Notices To Be Mailed

Cotton allotment notices and yields will be mailed to operators Wednesday, November 27, 1968. Allotments are the same as in 1968 but cotton yields have been changed on most farms. Preliminary yields were established for each farm in Mitchell County by setting them at the three year average for 1965, 1966 and 1967.

This information was available on 98 percent of farms in the county. Then an up factor of 1.1493 was applied to all preliminary yields so that everyone would have the same percentage increase for their 1969 projected yields and to use all the available pounds sent to the county. Since there were no adjustments made by the county and community committee-

Rash of Accidents Hit Loraine Community During Last Week

The quiet of the small community was shattered last week as Wednesday afternoon the quiet was broken by the sharp note of disaster.

Tommy Linam, who had started to work in the Roscoe Store of the Wes-Tex Grain and Milling Co. only Monday, was busy checking labels on several sacks of feed when they shifted and fell over on top of him, pinning him to the floor. He received injury to his back and was some improved at this writing. They hoped to be able to bring him to the Johnson Hospital early this week.

The shock had hardly worn off the community when the next day, Thursday, Wendell Banks, who recently bought out the Wells Welding Shop, was welding at the Co-op Gin and fell, breaking his arm. He had to be taken to Abilene to have it set. He is now back at home and doing as well as could be expected.

Thursday night, tragedy hit again as Daniel Alvarez, assistant ginner at the Co-op Gin on the night crew, let his hand get into the saws at the gin and part of his little finger was cut off.

It would seem that this would be enough for a community the size of Loraine to have to undergo, but it would seem that fate had another idea. Saturday night a trailer loaded with cotton, owned by Herman Miles, overturned just south of town. Herman Mitchell, son of Mr. and Mrs. Grady Mitchell, and a friend from Howard Co. Junior College of Big Spring, took a tractor and righted the trailer and were taking it back home Sunday when the tractor ran off the shoulder of the road and turned over, pinning Herman. Help arrived first of all when Bill Cornutt was summoned and the tractor was jacked up freeing Herman. He was carried to the hospital in Loraine where he was treated for cuts and bruises and a shoulder separation.

Sunday afternoon, Billy Cornutt and Lee Roy Cornutt were stripping cotton when the net they were using on a trailer became entangled with a highline wire, causing a flash and setting the cotton on fire in the trailer. The Fire Dept. was summoned and the fire extinguished before much damage was done.

It would seem that this should be enough excitement for one small community for one week, but it was learned that Mrs. O. C. Lucas fell sometime Sunday and broke her hip. She was in Roland Nursing Home, and was carried to Hendrick Memorial Hospital in Abilene for surgery.

Miss Spikes Home From Hospital

Miss Gladys Spikes was returned home Friday from Hendrick Memorial Hospital in Abilene, where she had undergone surgery there Wednesday. She is doing fine.

Weekend visitors of Miss Spikes and Mrs. Fay McCollum were Mr. and Mrs. Jack Guiley and Mary of Big Spring, and Mr. and Mrs. Ford Spikes of Snyder.

THE FIRST THANKSGIVING

By Beulah Hoake

When Pilgrims came to this fair land,
The year was Sixteen-Twenty,
They asked God for a helping hand
To assure them food and plenty.

For all was new, and things that grew
Were not their usual fare,
But a miracle would see them through . . .
Of this they were aware.

Then God sent a noble Indian Chief . . .
The great Samoset, his name,
With wisdom far beyond belief,
This wilderness to tame.

He came with precious fertile seeds
Of beans and squash and corn,
And taught them how to meet their needs,
Their table to adorn.

They tilled the soil and planted seed
From dawn till set of sun,
And nurtured it with care indeed
Till the battle had been won.

And when the harvest time was o'er
With it's bounty for good living,
Great thanks unto the Lord they bore
With the Pilgrim's First Thanksgiving.

Hunters Urged To Take Care

The beginning of the hunting season this year may find our forests and grasslands in a more flammable condition than in many years, Mitchell County Agent Bobby Lemons reported today in urging hunters to use utmost care with all fires in the outdoors.

Large accumulation of grass and other vegetation which exists today was brought about by abundant rainfall during the growing season.

Any careless fire, coupled with low humidity and high winds could well do extensive damage to valuable range, rural property, and endanger human life. Such fires could also affect hunting, Lemons said.

The conditions existing today are reminiscent of conditions which prevailed in 1959 when fires did extensive damage throughout the state and took three human lives.

In support of the fire prevention efforts of the Texas Forest Service, Lemons urged all hunters to be careful with their smokes, and warming and cooking fires. Hunters have a stake in fire protection, he concluded.

TELEPHONES, INCORPORATED

STATE CAPITAL Highlights AND Sidelights by Vern Sanford TEXAS PRESS ASSOCIATION

AUSTIN — Lt. Gov. Preston Smith is making arrangements to take office as governor on January 21.

He already has selected some of his official family. Jim Oliver of the Legislative Budget Board, which Smith now heads, will become director of the executive budget office. Oliver is working on the budget which the new governor will recommend to the Legislature.

Jerry Hall, chief of the Capitol Bureau for Newspapers, Inc. — the Austin, Waco, Port Arthur and Lufkin dailies — will become Smith's press secretary.

Certain to have a top job, either as secretary of state or as chief administrative assistant, will be Harold Dudley, who managed Smith's campaigns.

SCHOOL — New members of the Legislature came to Austin for two days to learn the ropes about the legislative process.

Speaker-to-be Gus Mutscher of Brenham, with the help of the Legislative Council, arranged the orientation sessions. Freshman legislators will thus have an insight into how the legislative process works when they start the 140-day session on January 14.

Turn-over in the legislature this year was low. Only 30 new members were named to the 150 member House, and only three new senators among the 31 member Senate. Two of the senators have been in the Legislature before, so there are only 31 in all who have not had legislative service.

POVERTY — With 28.8 per cent of the Texas families having incomes under \$3,000, well above the national average of 21.4 per cent, Gov. John Connally feels that Texas should continue to make every effort to find and cure the cause of poverty.

In his report on operations of

the Texas Office of Economic Opportunity, the governor said that \$113,038,642 in Federal money was allocated to anti-poverty program in Texas during the year ending August 31. Grants ranged from the \$18,055,846 used to operate the three Job Corps centers at San Marcos, McKinney and New Waverly to the \$8,345,358 allocated to 94 colleges to provide campus jobs for 28,073 college students who needed jobs to stay in school.

COURTS SPEAK — On January 8 the State Supreme Court will review an Amarillo man's suit against a TV station which identified him as a robbery suspect after he had been released as blameless by police. Lower courts held for the station.

High court will hear arguments January 15 in a suit wherein Ford Motor Company is charged as negligent in manufacturing a brake assembly on a new Ford truck that hit an Amarillo couple's car.

Trinity River Authority was loser in its efforts to enforce a condemnation award for property it sought in San Jacinto County. Supreme Court overruled the application for mandamus.

Another loser was a Lubbock man trying to collect damages for arm cuts suffered when he accidentally rammed a fist through a liquor store glass door. Supreme Court declined to reverse the Tyler court of civil appeals rejection of a jury award of \$2,524.

High court refused to order District Judge Woodrow Laughlin of Alice to throw out pre-trial findings of a retired special judge in a South Texas couple's suit against an Alice hospital.

Secretary of State Roy Barera recommended that Gov. Connally deny a request for an extradition warrant for Paul

Amos Sandblom, one-time Corpus Christi financier paroled to Arizona after serving a federal prison sentence for selling securities without a license. Barera argued that the state has no right to prosecute Sandblom further on state charges.

OIL YEAR BRIGHT — For the fourth straight month the Railroad Commission left the allowable unchanged at 41.3 per cent of potential, permitting a December maximum production of 3,027,299 barrels daily.

December pattern will average out the year at 44.9 per cent of potential which (by the old standard) means 164.3 million flowing days — highest since the 171-days of production during the 1956-57 Suez crisis.

Five of 14 major Texas crude oil buyers asked bigger allowable, three less and six the same.

LAND, BOOM — Buyers aplenty showed up at the Veterans Land Board's sealed-bid sale at which 233 repossessed tracts were offered to high bidders.

Total number of bids was 398, and the Board accepted the high bids on all the tracts except four. One 74-acre farm in Guadalupe County drew 90 bidders. High man was Marion A. Coulter, who bid \$22,502.

Board even managed to sell a 350-acre tract in Maverick County on which no bids were received the first four times it was offered. It was one of the "block deals" from the veterans land scandals of the 1950's, and this time it drew 10 bidders.

WELFARE — Social workers for the State Department of Welfare soon will begin to spend their time trying to help solve the problems of people on welfare, instead of checking on their income.

A new policy was announced by State Welfare Commissioner Burton Hackney, after the U. S. Department of Health, Education and Welfare decided to try the new system nationwide.

Persons applying for federal-state grants because they are needy will merely fill out a declaration form, and they will be accepted.

Hackney said states that have tried this system, and then tested it by spot-checking, have found that very few people

give untruthful information.

So the time of the highly-trained social welfare workers can be spent trying to arrange job training or other programs to help get recipients off the welfare rolls. In the past, much of their time has been spent in a "policemen's role," checking to make sure that those who get old-age assistance, aid to dependent children, aid to the needy blind or totally disabled, did not have hidden sources of income.

Medical certification from a doctor still will be required on those claiming benefits as being totally disabled.

A pilot program has been under way in Austin, Nacogdoches and Houston areas. It will be expanded statewide by July 1.

APPOINTMENTS — Governor Connally named Judge James F. Parker chief justice of the Ninth Court of Civil Appeals in Beaumont and picked Beaumont attorney Quentin Keith as an associate justice on the same court.

Glenn Biggs, former Abilene businessman, has been named president of National Western Life Insurance Co. of Austin and chairman of the board of Mid-West National Life Insurance Co. of Tennessee. Biggs served for two years as executive assistant to House Speaker Ben Barnes.

TELESCOPE DEDICATED — Ceremonies were held by the University of Texas Tuesday (Nov. 26) for the new 107-inch telescope at UT's McDonald Observatory on Mount Locke near Marfa in West Texas.

Built for the University by the National Aeronautics and Space Administration and the National Science Foundation, the huge telescope is expected to play an important role for NASA in investigating atmospheres on Mars and other planets.

Previously the main instrument at McDonald was an 82-inch reflector installed in 1939 when the observatory was dedicated.

AIR CONTROL STANDARDS — Air Control Board has suggested new regulations to ban industrial smoke which would cut visibility to less than three miles.

Rules on light-blocking characteristics of pollutants would prohibit emissions of greater than 40 per cent density.

SCREWORM INVESTIGATION ASKED — A Rockdale lawmaker, Rep.-elect Dan Kubiak, has called on House Speaker Ben Barnes to order an investigation of the screwworm spread in Texas.

Kubiak claims steps must be taken to eliminate the screwworm fly, which he said has returned to menace Texas cattle with vengeance after a seven year effort to stamp out the disease-causing pest. Kubiak said 5,000 cases reported last month are more than when the anti-screwworm program began.

HEALTH SURVEY SET — U. S. Public Health Service will conduct health surveys of 12-17 year olds in Cameron and Harris Counties early next year.

Cameron County visits by PHS teams will begin January 22 and last for three weeks. Harris County survey will begin February 24. About 8,000 youngsters will be given complete physical examinations.

SHORT SNORTS — Texas Parks and Wildlife Department has asked the U. S.

TAX MAN SAM SEZ:

The Commissioner of Internal Revenue, in his Annual Report Summary for the Fiscal Year of 1967, states "The mission of the Service is to encourage and achieve highest possible degrees of voluntary compliance with the tax laws and regulations and to maintain the highest degree of public confidence in the integrity and efficiency of the the Service. This includes communicating the requirements of the law to the public, determining the extent of compliance and causes of noncompliance, and doing all things needful to a proper enforcement of the law."

On the last page of the Commissioner's Report Summary, under the title "Investigations of Alleged Tax Fraud," there is listed "Plea of guilty or nolo contendere or conviction after trial . . . 1,173." Apparently, out of 100 million, there were still 1,000 who didn't volunteer.

Late in March of 1621 concluded a peace treaty with the Indians which was to last fifty years.

Farmers To Get Ballots by Mail

The following information should be of interest concerning the 1969 cotton program:

1. A referendum will be held by mail during the period of December 2 through December 6, 1968 to determine if marketing quotas and provisions of 1969 volunteer cotton program will be applicable for 1969. Ballots will be mailed Friday, November 29th.

2. Present skip row rule will be in effect for 1969.

3. Final date for filing application for transfer of cotton by sale or lease is December 31, 1968. If you have cotton to lease or want more cotton leave your name at the office.

4. The farm domestic allotment will be 65 percent of the farm effective allotment, same as in 1968. However, the price support payment rate to co-operators has been set at 14.73 cents per pound as compared to 12.24 cents in 1968.

5. There will be no diversion for 1969. The entire farm acreage allotment may be planted.

6. There are special provisions for small farms which have allotments of 10.0 acres or less or projected production of 3600 pounds or less. In addition to the price support payment on the domestic allotment they will receive payment of 11.26 cents per pound on projected yield of 35 percent of the farm allotment.

7. Price support loans will be available to program co-operators based on a National average Loan Rate of 20.25 cents a pound for Middling 1-inch cotton which is the same as in 1968.

8. Change in farm yields will affect program payments more than the change in the program. In 1968 the program payments averaged 10.29 cents per pound for the total allotment including diversion payments. In 1969 the price support payment on 65 percent of allotment will average 9.57 cents per pound for the entire allotment, which is only .72 cents per pound less than in 1968.
