Rockets Play
Quanah Indians
There Friday

Wellington's unaccountable Sky-rockets will meet the Quanah Indians, at Quanah, Friday night in the fourth conference tilt for both teams. The Indians have lost two, to Olney and Burkburnett, but two weeks ago defeated the Seymour Panthers 13-6. The Wellington Skyrockets have dropped all three of their district games with Electra, Childress, and Burkburnett, putting the Rockets on the bottom shelf with Seymour and one notch under Quanah.

The Indians will feature Quarterback Charley Richardson and Halfback Huey Whitmore, who have been outstanding offensive players for Quanah all season. On defense the Indians will have Adams, Jones, and other experienced linemen laying for the Rocket backs.

The new offensive formation that Coach Maxey McKnight had working last week will probably be in use against the Indians. Duncan, Holliman, and Wood, who turned in their best performances of the season in the Burk game, are expected to repeat at Quanah, and if the entire team can generate the same spirit that sparked them against Burkburnett, the fans will see a good game.

Improvements to
Quail School

The Quail school will resume classes Monday, November 9, after being dismissed six weeks for the students to help with the cotton harvest, Supt. Herman Moseley has announced.

During the fall vacation, considerable improvement has been made in the school plant, Mr. Moseley said. All rooms in the high school and grade school have been redecorated in pastel shades, using either blue, green or turquoise. Each color was selected for the room according to the amount of light reflection needed. All floors have been sealed and the hall in the high school painted with green concrete sea. All interior woodwork was varnished and the exterior woodwork painted light.

The cafeteria was painted white and two refrigerators, a new stove with a vent installed, and new light fixtures were put up.

A new roof was put on the grade school building, a hotwater heater installed in the gym, new fixtures were put in the shower rooms and these were lined with sheet metal. Nine new desks and teachers chairs were bought. A new pump was put on the water well. Two new buses were added to the fleet, which now includes nine vehicles.

"All parents are urged to send their children to school every day that is possible, as good attendance helps have a better school," Mr. Moseley pointed out.

A Program for Girls 7 through 18

Camp Fire Girls Open
Membership March Mon.

Wellington Camp Fire Girls begin their annual Membership March with a social meeting Monday night, November 2, at the community building, to which all present members of the Camp Fire Girls, Horizon Clubs and Bluebirds and their parents, prospective members of the groups and their parents are invited.

This will be an evening of fun, but also an occasion for the prospective members and parents to become acquainted with the Camp Fire Girl program, Mrs. Clyde Drake, who is helping with plans, announced.

All girls interested in becoming members are invited to the meeting, whether they have been contacted or not.

The juniors in the Camp Fire family are Blue Birds, who must be at least seven years old. Their program is designed to help seven, eight and nine year-olds become true members of a group. A ten-year-old girl, whether or not she has been a Blue Bird, is eligible to become a Camp Fire Girl. This group bases its program on the even crafts, home, outdoors, creative arts, frontiers, business,

Cotton Ginnings Mount to
10,437 Bales; Crop Half Out

Cotton ginnings for the season mounted to 10,437 bales by Wednesday morning, October 28, and for the county as a whole, it appears that around 40 per cent of the crop is gathered.

Pulling was resumed this week after around 10 days lost to the wet weather, but a lot of farmers have lost money by going into their fields, ginner's point out.

All agreed that the grade was damaged, but they added that the grade will improve when the cotton dries out.

Some cotton pulled early this week brought 6 to 7 cents less than it would have if it had been left in the field until it was dry, sell for as low as 21 cents, one gin manager reported.

"We have had every kind of grade since the rains," Dick Sweat, manager of the Farmers Co-op Gin, reported. This is costing from \$25 to \$50 per bale on cotton.

ginned in now.

Ginners today urged growers to let their cotton dry out as much as possible before they pull it.

Lester Hunter, manager of the Tindall Gin in Wellington, said he believed there would be a drop of at least one grade in the rest of the cotton. A drop from middling to strict low middling has been noted, and most of the cotton is light spotted or spotted.

Ed Crowder, manager of the Farmers Co-op at Dodson, reported that an estimated 800 to 1,000 bales had been lost in that section by cotton knocked out and beaten into the ground.

A number of farmers in the Dodson section still haven't pulled a bale, Bynum Hightower, book-keeper of the Davis gin said.

Both men said growers bringing in wet cotton were getting some very low grades.

Dink Barron, with the Farm

Labor Office here, said that the county was still short some pickers, but that few had left during the wet spell.

"We were fortunate in that we got a lot of Mexicans as they came back south from the sugar beet harvest in Colorado, Minnesota and Michigan. That's why you're seeing so many cars from those states around here now," he said.

On the other hand, while individual farmers may be asking for more pullers, any increase would bring in more cotton than the gins could handle, Mr. Sweat said.

While a number of farmers had defoliated their cotton and used strippers before the rain, the moisture brought out a new crop of leaves which in most cases has stopped mechanical harvesting.

These growers likely will wait until frost kills the leaves before using their strippers again.

Jerry Martin,
Prominent Dodson
Farmer, Dies

Jerry T. Martin, prominent Dodson farmer, died in St. Joseph's Hospital Thursday morning, Oct. 22, at 4:20 a. m., a few hours after he had suffered a heart attack at his home.

He was 57 years of age.

Funeral services were held at the Church of the Nazarene in Dodson, with the Rev. Amos Meador of Borger, a family friend, and the Rev. J. W. Douglas, pastor of the Dodson church, officiating.

Pall bearers were Fred Patterson, Elmer Hightower, Bynum Hightower, Joe Orr, Harry Lowell Patterson, and Charlie Grimes. Honorary pall bearers were Bill Patterson, C. F. Owens, D. C. Camp, A. T. Lewis, R. B. Young, and Mort Cornelius. Flower bearers were Mrs. Farris Cornelius, Mrs. Harry L. Patterson, Mrs. Billy Joe Grimes, Wanda Lemons, Johnnie Lou Baird, Johnnie Young, Mrs. Archie Lewis and Mrs. Murray Dodson.

Jerry Thurman Martin was born at Chico April 1, 1896. He came to this country with his parents, the late Mr. and Mrs. R. F. Wilson, in 1911. He attended Chico and Dodson, and the Navarene College and Academy at Hamlin, where he and Mrs. Martin met.

He served in the armed forces during World War I.

Mr. Martin was married to Miss Archie Ellis in Holtville, California December 21, 1919.

Mr. Martin engaged in construction work many years, and for several years was with the Goodyear Aircraft at Phoenix, Arizona. About five years ago he developed a heart ailment, and he and Mrs. Martin returned to Dodson.

He had been an active member of the Church of the Nazarene at Dodson since 1926 and he was also a member of the Veterans of Foreign Wars and long a member of The American Legion.

Surviving Mr. Martin are his wife; one daughter Mrs. Merle Whitfield of Dodson; three grandchildren, Vicki, Jerry Merle and Bryce Darrell Whitfield; and four brothers, Harry Martin of Chico; Burke Martin and Joe Wilson of Dodson; and Bruce Martin of Oakland, Calif.

Wallace Moves
To Fort Worth

Billie Earl Wallace, shop foreman of The Wellington Leader, has resigned and he, Mrs. Wallace and their daughters, Linda, John Ruth, and Shelah, moved to Fort Worth to make their home last week.

Mr. Wallace will be employed by a commercial printing firm in that city.

Taking his place is James O. Miller, a former Leader employee.

A long-time employee of The Leader, Wallace began as an apprentice while in high school. Later he attended Texas Tech, then served in the Navy during World War II. Upon receiving his release

Farm Bureau Elects Wood Coleman
President; Hears Walter Rogers

Farm Bureau Members, in the annual meeting and Barbecue Saturday night, October 24, elected officer; heard Congressman Walter Rogers pledge his continued work for the farmer and for support prices; passed 17 resolutions and tabled one; and chose the delegates that will represent them at the state Farm Bureau Convention in Mineral Wells November 9 and 10.

An estimated 600 members and their families ate barbecue before going into the business meeting and speaking.

In the election, Wood Coleman of Dozier was elected president to succeed W. R. Breeding of Abilene; Clyde Emmert, first vice president; Woody Wood second vice president; Riley Dunson, secretary. Directors were elected to represent the three district areas of the county, and this year were increased in number to 15: for the section north of Salt Fork: Mr. Breeding, Orville Cunningham, Riley Garner, J. C. Jones and A. S. Whitson. For the area west of a line running along the west side of the town section: Zook Thomas, Palo

Oct. Rains Send Prospects
For Wheat Crops Soaring

The best fall ground moisture Collingsworth County has had in recent years. That is the way the farmers and farm observers are describing the condition of the land since more than eight and one-half inches of rain, most of it slow and penetrating, has fallen from October 1 through 25.

Cotton growers have suffered.

Some have more than half their crop out some still have the bulk to pull, and cotton in the fields has been damaged to some extent. Wheat growers and alfalfa men are more optimistic for this reason than at any time in recent years. This applies to livestock men as far as future range conditions are concerned, although

they are aware of the damage the drought did to grass, and to prospects for winter grass.

The moisture has met in the sandy land, according to numbers of reports from over the county.

In the tighter lands, penetration was deep where the water held, but on the slope, in some places, it was not more than two feet, according to County Agent J. W. Thomas who has been over much of the county in recent days.

Quite a bit of the wheat is up and a lot of it is good, he reported. There still remains, however, a considerable acreage of wheat to be planted, and if it isn't up within a short time a lot of good winter pasturing will be lost.

On the other hand, growers who dusted in their wheat or planted after the first October rain, expect some of the best winter pasturing in recent years.

"This is going to give the wheat a chance to make a good root system," to carry it through the winter, one grower commented.

"This is the best moisture situation under wheat since I've been in this county," Mr. Thomas said.

The rain has been ideal on alfalfa, making this the best planting fall in a long time. Approximately 1,000 acres has been or will be seeded to alfalfa. Mr. Thomas estimates. A number of farmers, he added, are planting in view of restricted wheat and cotton acreage.

This will be an increase of about 10 per cent in the alfalfa over the 1953 crop. "But it should be 20 or 30 percent, Mr. Thomas added.

Wellington measured 2.15 inches of rain during the past week, according to Jim Williams. 1.85 inches fell Thursday and .30 in the early hours Sunday.

Prior to that, 6.46 inches had fallen in October, giving a total of 8.61 so far for the month.

Rainfall has been heavier in some areas, and lighter in others.

Considerable damage to cotton by the rain was reported around Dodson, where it was knocked out of the boll and beat into the ground by the rain.

Leaders Training
Program Set

A training program for Camp Fire leaders, sponsors and parents and other interested adults has been announced in an effort to increase the scope of Camp Fire work here.

The series will begin Tuesday night, November 3, and continue through the month, according to Mrs. Clyde Drake, who is in charge.

Those helping with Camp Fire work will attend any or all of the meetings.

The training program meeting schedule includes:

November 3, 2 to 3:30 p. m., First Methodist Church. Speakers will be Mrs. James Sullivan, discussing "Blue Bird, Camp Fire, and Horizon Club participation in Civic Affairs," and Mrs. Walter Winters, "Specific Ways Group's Can Help with the Chamber of Commerce's Christmas Decorations in the City This Year."

Wednesday, November 4, afternoon, First Christian Church. Speaker, Mrs. Walter Franks: "Metal Etching." Each person attending will make one small piece.

Monday, November 9: 7:30 Scout Hut at Ellison Park. "Outdoor Cookery," Miss Mary Trammell.

INTEREST GROWS AS PLANS FOR
"YOUTH FOR CHRIST" PROGRESS

Enthusiasm is growing among many Wellington "teen-agers" as plans progress for the "Youth For Christ" program in this community, according to the Rev. Russell Allen, one of the sponsors.

The program launched only two weeks ago under the sponsorship of four Wellington pastors received better response than expected at its first meeting. Around 75 were in attendance for the first meeting which was held in the Nazarene Church on October 17.

Plans are now underway to organize a "Youth For Christ Choir" which will consist of approximately 40 mixed voices. Try-outs for the choir will be held Saturday afternoon October 31. Those interested in trying for the choir should contact Maxine Uelson or Ja Ann Aaron at the High School. Earl Lynn Bartlett will be pianist for the group. Both boys and girls are urged to try for the choir. There will also be smaller organized such as quartet, trio, etc.

The next "rally" will be held on November 7 at 7:30 P. M. at the First Baptist Church. The speaker for this meeting will be announced at a later date. All age groups are invited to the meetings however, the emphasis is being placed on youth as the name implies. Ministerial Students from the various

Dodson School to
Open November 5

The Dodson school will re-open Thursday, November 5, T. E. Lennon, superintendent, announced this week.

"Since the school was dismissed on Wednesday, we are starting on Thursday to make up the remainder of the week," Mr. Lennon explained.

It is estimated the cotton is about two-thirds out on the section served by the Dodson School district, and pretty weather this week would bring in a considerable amount.

Bureau Studies
Cotton Allotments

Farm Bureau president and leaders from Collingsworth, Wheeler, Donley, Hall and Childress counties met in Wellington Tuesday morning, October 27, to discuss with state Bureau officials the cotton acreage allotment.

Meeting with the group were O. K. Hoyle or Seymour, district organizer for the Farm Bureau, and Stanley Garnett, Perryton, State director for District One.

"The average cotton farmer can expect an approximate 40 per cent reduction from his 1952-3 planted acreage," Monty Mitchell of Quail pointed out. "This is not anything Mr. Bensen or the Republican Administration has done. It is the law passed in 1949, which, due to the cotton surplus, is being invoked for the first time this year."

"What the Farm Bureau wants is a 20 per cent reduction for this coming year and another 20 per cent the next. In other words, we want the reduction more gradual."

Crown Carnival Queen

Hallowe'en Carnival to
Feature Fun and Fright

The traditional Hallowe'en Carnival, sponsored by the Wellington high school junior class, will be held Saturday evening, October 31, on the school lawn. The carnival begins at 7:00 p. m.

All types of booths will be set up, and every step of the way will be something to make the spectators laughs with delight or cringe with horror, the juniors promise.

Highlights of the evening will come at 10:00 p. m. with the coronation of the Carnival Queen. Her identity will not be revealed until the hour of her crowning, which will take place in the gaily decorated auditorium.

Queen candidates are Barbara Graves, senior; Nelda Terry, junior; Lindel White, sophomore; and Ada Carole Thomas, freshman.

Rocket B Team
Plays Quanah in
Last Home Game

By Don Scott

The Rocket B Team will play their last home game Thursday night, October 29, when they meet the young Quanah Indians at Powell field.

This is the game that will probably decide the conference on the B level, Coach Clifford Niles said. Quanah has won every game except the one to Childress, while the Rocket B's have taken all games except that with Childress which they tied.

Some good playing has been showing up among these younger football players during the season, and the public is urged to support them in their final home game.

The game starts at 7:30.

1954 Chrysler, On Display Here, Offers New Standards of Power and Luxury

The completely redesigned Chryslers for 1954 introduce a new 235-horsepower Fire Power V-8 engine — the most powerful and efficient passenger car engine in America today — plus many major engineering advancements combined with the smartest, most beautiful exteriors and interiors in Chrysler's 29-year history.

"Sales of Chrysler cars are at the highest peak in 29 years and with all the advances offered for 1954 we are proving Chrysler's power of leadership," E. M. Braden, general sales manager, Chrysler Division, Chrysler Corporation, said, in introducing the new models.

"In addition to new Fire Power V-8's and new, colorful styling, outstanding engineering features designed for luxurious performance include the new Power Flite fully-automatic transmission, fully proved by use in 1953 Imperials, a new Airtemp air conditioning unit, full time power steering and power brakes, new anti-roll front suspension and new 'solid feel' ride, all of which add up to a new high in driver control."

The 1954 Chrysler is offered in five models with a total of twenty body styles. The lines this year are the Windsor DeLuxe, New Yorker DeLuxe, all on a 125-1/2 inch wheelbase; Custom Imperial with a wheelbase of 133-1/2 inches and the Crown Imperial line with a wheelbase of 145-1/2 inches.

The Windsor DeLuxe is available in six-passenger sedan, club coupe, special Newport heart-top coupe, Town and Country wagon and 8-passenger sedan models. New Yorker DeLuxe models in six-passenger sedan, special Newport club coupe and convertible coupe.

The Custom Imperial is available in six-passenger sedan, Newport and six-passenger Town limousine models. The Crown Imperial is available in either the 8-passenger sedan or limousine model.

New Chrysler exterior styling features a fresh lightness of line beginning with the functionally designed grilles tastefully of heavy chromed horizontal bars which impart a road-hugging appearance. Grille treatments vary for all models but retain a family resemblance.

New grille medallions, hood crests, massive new bumpers and attractive new chrome trim "eye-

brows above the headlights add to the smart appearance of the cars. The directional lamps are in the chrome frame below the headlights. The lamp lenses feature a different idea in design with arrows set into the plastic lenses for clearer turn signalling.

The solid side trim is designed to high-light the graceful lines of the body. These bright metal trim parts are completely new and their distinctive shapes add a feeling of forward motion.

New moldings flare out thickly at the bottom to tilt more of their mirror surface toward the observer and reflect maximum light. The front and rear fender moldings and door moldings extend in a sleek, tapering spear more than half the car length. They are massively thick, and simple in shape, accenting length and richness.

New stone shields are handsome, flowing pieces completely plain in surface. Their swept-back curvature accents of motion.

All lines feature new covers of distinctive, light-reflecting design. Side name plates of gold or chrome provide swank identification of all models.

Eighteen standard and 28 two-tone color combinations are available.

The "K" rear door outline introduced in 1953 is continued. The larger door opening allows passengers to enter and leave the rear seat without awkward twisting. Rear passenger visibility is greatly improved since the rear pillar no longer cuts down through the line of vision.

Chrysler's rear bumper and tail lamps are new, as is the one-piece, wrap-around rear window which adds width and lowness to the car.

The separate tail, backup, and stop lights are combined into one large, vertical unit emphasizing maximum visibility. Thick bands of chrome that surround and hold lamp lenses do not block off light.

All models have new deck lid crests and deck lid lifts.

Fine fabrics and careful color coordination high-light the new interior and reflect the importance of close color harmony between interiors and exteriors. Each body color has color-related interior trim. The instrument panel and garnish moldings are painted to match the over-all color scheme.

Chrysler's comfort-level seats in-

duce a new automotive styling technique, the bolstered seat design. On the New Yorker, for example, the bolster material is medium-dark contrasting with the pastel-shaded seat cloth. Dark colored welt strips distinctively outline the bolsters and form "box sections" on the seat back. Both front and area seats on DeLuxe models have reclining center arm rests.

Chrysler's new instrument panel is the ultimate in style, convenience, and safety. The large double-tail instrument cluster with new instrument lighting is a great aid to visibility. Continued use of foam rubber padding is an aid to safety.

The flush-type recessed knobs and controls are smart and safe. An inverted U-shaped housing forms the instruments cluster standing out from the rest of the panel and overhanging the cluster face to prevent reflections. The cluster face is a rich burnished aluminum which makes an attractive background for the instruments. Two large circular dials are placed on the cluster face, slightly off center from the steering column for better visibility.

The conventional type gauges for oil pressure and amperes have been replaced by indicator lights. If either oil pressure or battery current should reach a low point, a red light flashes on the instrument panel attracting the driver's attention.

Chrysler instruments, including the radio and clock, are lighted by a new application of the edge-lighting principle. Oily the numerals, pointer, and dial graduations glow brightly on each instrument. The rest of the panel is completely dark providing maximum visibility and freedom from eye strain.

The new 235-horsepower Fire Power V-8 engine with hemispherical combustion chamber is the most advanced, most powerful automobile engine in the industry. Taking advantage of just a portion of the power potential of the Fire Power engine, new, higher horsepower engines are used on the Chrysler New Yorker, New Yorker DeLuxe and Imperial models providing a power bonus for swift, safe maneuvering and acceleration over the entire cruising speed range. To get more air into the engine and use it more efficiently for more power, the redesigned Fire Power uses an enlarged, wide-open intake system

and a free-flowing exhaust system. In the New Yorker Fire Power V-8 engine, the brake horsepower has been increased from 180 to 195 by enlarging the valve and port diameters.

New Yorker DeLuxe and Imperial models have adopted six major engine modifications, resulting in an increase from 180 to 235 brake horsepower. The torque has also increased from 312 to 330 pounds-feet. Among the revisions:

1. Four-barrel carburetor enables the engine to inhale a greater charge of air at wide-open throttle conditions.

2. Larger carburetor air cleaner provides more filter area and improves air flow.

3. Intake manifold size is increased and secondary pair of risers added.

4. Exhaust and intake valves and port are larger.

5. Exhaust manifold outlets have been enlarged.

6. A dual exhaust system using two mufflers reduces back pressure and improves silencing.

Windsor DeLuxe models are high-compression six-cylinder Spit-powered by Chrysler's economical fire engine which produces 119-horsepower at 3600 r. p. m.

Improved control, stability, and riding comfort on turns is achieved with new high-roll-center front suspension which reduces body-lean on turns.

Smoother operation at low speed is obtained by newly-designed "shear type" engine mountings with high vibration damping ability.

A smoother, more "solid feel" ride is provided by a stiffer frame, redesigned front and rear body mountings, new spring mountings, and added insulation for the cowl and underbody.

A new standard of transmission operation, featuring an unmatched combination of performance and smoothness, is provided by Power Flite, Chrysler's new, Fully-automatic transmission, which is standard equipment on all 1954 V-8 models, and optional on the Windsor DeLuxe.

Consisting of a new torque converter and two-speed planetary transmission, Power Flite represents years of research and development work with automatic transmissions. Its high level of performance may be largely attributed to its outstanding over-all torque multiplication ratio: 4.47:1, the highest in the industry for passenger car drive range operation. This is made possible by the high torque converter starting ratio: 2.6:1, again the highest for passenger car use, and the 1.72 starting gear ratio furnished by the planetary transmission.

Livestock Business All His Life

Joe Rountree Place At Lutie Identified as Mystery Farm 11

The mystery farm published in the October 15 issue of The Wellington Leader belonged to Mr. and Mrs. Joe Rountree, and is located on Highway 83 at Lutie.

First to identify the place was Dickie Dodd, while Leslie Oldham was the first to come to the Leader with the identification. Others with correct identifications were Mrs. Bill James, Mrs. John Simpson, W. L. Green, Mrs. E. W. Jenkins, Shelton Nunnally, Mrs. Buck-McKinney, Carroll Nunnally, Walter Deger, Mrs. Donald Coleman — who called the Leader Long distance, Mrs. E. L. Rankin and Shirley Montgomery.

This farm also brought the first guess to come from an out-of-trade territory reader. Riley Gardner, who is under treatment at Sanitorium, sent his identification by post card.

Mr. and Mrs. Rountree have owned this farm about eight years, and have the entire section. The place where the house is formerly belonged to Jason Young. The remainder was owned by Mr. and Mrs. C. L. Lowry. Other previous owners were Mr. Roark and Wesley Sparlin.

The Rountrees have put all the present improvements on the farm. The original house burned before they bought the farm and they replaced it with a modern, eight room, two bath home.

For a number of years, Mr. Rountree operated the Wellington Livestock Sales, but now he confines his stock activities to cattle raising.

"I've been in the livestock business ever since I could tell a cow from a horse," he commented.

Both Mr. and Mrs. Rountree are life-long residents of the Lutie community. She is the former Rachel Deger, daughter of Mr. and Mrs. John Deger. They were married May 23, 1936.

They have three daughters, Joyce, now Mrs. Pete Melton, the entrance to whose home is seen in the upper part of the picture; Joan, now Mrs. Bill James, who lives half a mile north of her parents; and eight-year-old Janice.

The Rountrees bought their first farm in 1930. They now own the home section; three quarters of what is known as the Darrow place at Aberdeen; the south half of the original Tom Wall place at

Aberdeen; a quarter they bought from Lewis Green; the quarter which formerly belonged to Mr. Rountree's mother, Mrs. M. E. Rountree of Wellington; the H. K. Willingham quarter; and 90 acres west of Lutie part of the old Bradley flat.

Mr. Rountree sows some wheat himself and rents the rest of the land.

Aside from looking after his farming interests, he has been a member of the Samnorwood school board for the past year and a half.

Mrs. W. W. Sugg and Miss Jewel Suggs spent several days recently in Sulphur, Oklahoma visiting with their daughter and sister, Mr. and Mrs. Frank Crawford. While there the rains were so heavy that they became water-mound, and had to stay longer than they had originally planned.

Mr. and Mrs. J. E. Boverie of Idalou visited Saturday and Sunday with Mrs. Boverie's mother, Mrs. Edith Estes and also with Mrs. Boverie's sister, Miss Katherine Boverie.

LOCO

By MRS. GEORGE ADKINS

Cloudy and cool weather with lots of wonderful rain has been the order of the week. The rain has done considerable damage to the cotton, but the wheat is really thriving.

We still heed cotton pickers here. The fields are white and many of the white locks are already on the ground.

Due to Thursdays heavy rains, everyone stayed at home Thursday night and enjoyed their pumpkin pie at home instead of at the Halloween party that was scheduled at the community center. It will be held Thursday night, October 29, at 7:30.

Cliff Campbell and son, Kirby moved a herd of cattle on pasture northeast of Loco to their home range Saturday morning.

Mr. and Mrs. M. L. Adkins, Morris and Elizabeth of Amarillo spent the week end here with Mr. and Mrs. G. W. Adkins and Mr. and Mrs. Jack Brown and family. Saturday afternoon they visited Mr. and Mrs. George Patterson and Judy and Mr. and Mrs. John Wolf and Jimmy in Wellington. The fall gardens here are really

fine. Lots of peas, beans, akra and turnip greens. The summer flowers have revived and are blooming.

Jim Downing was a business visitor in Childress Monday afternoon.

Mr. and Mrs. Howard Fike and daughter of Amarillo spent the week end with her parents, Mr. and Mrs. Tiffin Young, Sr.

There was some hail with the winds and rain of Tuesday night, but no damage was done.

Mr. and Mrs. Jack Brown and children visited Mr. and Mrs. George Patterson and Judy in Wellington Sunday.

Mr. and Mrs. Vernon Ratzlow and girls of Phillips visited recently in the home of her mother, Mrs. Pink Sullivan.

Its V8 puts new ROAD MASTERY at your hand

You must have heard about it.

But have you tried the greatest Buick yet built?

Have you sat behind the wheel of a 1953 ROADMASTER and felt the wondrous new road command that is yours?

If you haven't—if you have yet to know the rich exuberance that flows through you when a toe touch releases just a fraction of the velvet power-Niagara of the world's newest V8 Engine—then you are cordially invited to be our guest at this new experience.

We promise you these:

A new and wonderful mastery of hills, of distance, of traffic tangles—from the almost effortless power of this master Buick's advanced new V8 Engine—the highest horsepower and compression ratio in Buick history.

A new and instantly responsive getaway—with new quiet and completely infinite smoothness—from the drive magic of Twin-Turbine Dynaflo.

A new and exquisite handling ease—from the superb ride-engineering of this automobile, and the as-needed hydraulic assistance of Power Steering, standard equipment here at no extra cost.

A new and gracious luxury of interior styling and comfort—from a tasteful blending of deep foam rubber, lustrous nylon, rich broadcloths, sparkling colors.

But you need to experience firsthand the performance and the pleasure and the abiding satisfaction you will find here.

So we repeat a most cordial invitation to you—to drive a 1953 ROADMASTER—

World's only car with all these features:

He was recommended for the appointment by District 13 Commander Perry McMinn.

His duties as deputy chief of staff are to have charge of the organization and extension of new posts and to serve as inspector of posts in his district.

In addition to his present office with the Glynn Moore Post, Leach has served as quartermaster of the post two years, commander of Area 1 of District 13; adjutant of the area; quartermaster of District 13; surgeon of the district; and deputy inspector of the Department of Texas two years.

When Eisenhower Visited Texas

CLARK MEMBER OF HONOR GUARD FOR PRESIDENT AT LAREDO AFB

Laredo Air Force Base — Staff Sergeant John G. Clark, an airman at Laredo Air Force Base, was a member of the Honor Guard for President Dwight D. Eisenhower's departure from this jet pilot training base on October 19, 1953.

President Eisenhower and President Ruiz Cortinos of Mexico dedicated the 48 million dollar Falcon Dam, located on the Rio Grande River, U. S. Mexico border, at 3:00 pm on the 19th. President Eisenhower then drove to Laredo AFB. After introductions to Base Commander Colonel W. M. James and local officials, he was accorded full military honors by an Air Force band and troops. After a short inspection of the Color and Honor Guards, the President boarded his Constellation, the Columbine, for Washington D. C.

S/Sgt Clark is a member of the 3640th Air Police Squadron which furnished the Color and Honor Guards for the President.

He is the son of Mr. George E. Clark, 1108 Dalhart Street, Wellington, Texas and is married to the former Miss Peggy Riley of

Wellington.

Tommy Tollett of Borger spent Sunday with John Alvin Horton and Kern Pigg.

Mr. and Mrs. J. M. Grouch spent Friday in the home of the formers sister and husband, Mr. and Mrs. Cal Sugg.

QUAIL 4-H CLUB GIRL DESCRIBES GROUP TRIP TO STATE FAIR TEXAS

By Ellen Messer

On Friday morning, October 16, at 9:45, four 4-H girls and three leaders left for the State Fair at Dallas. Those going were Miss Trammel, Mrs. John Coleman, Miss Louise Fulcher, Lois Amerson, Sherrie Smith, Sara Baird and myself. At 12:00 o'clock we stopped at roadside park four miles east of Electra for lunch. We reached Camp ElHar at 5:30 p. m. We were to spend the nights there.

We went by the way of Childress, Vernon, Electra, Wichita Falls, Henrietta, Decatur and Fort Worth.

The cabin was like a screened in

CLUB WOMEN HEAR HARP DISCUSS PROPERTY RIGHTS OF WOMEN

Property rights of women were discussed for members of the County Home Demonstration Clubs by District Attorney Allen Harp when he was guest speaker at their quarterly meeting Saturday, October 24.

"The Lord, speaking through Moses, gave women their first property rights and laid down a law of descent and distribution," Mr. Harp said. This occurred when the daughters of Zelophethad asked that their father's property be distributed among them, since there were no sons, and the request was granted.

After tracing briefly the history of women's property rights, Mr. Harp explained the family homestead as, in a rural area, not more than 200 acres of land with the improvements there on, and in a city, town or village, a lot or lots not to exceed in value \$5,000 at the time of their designation as a homestead, without reference to the value of any improvements thereon, provided it is used as a place to exercise the calling or business of the head of the family.

"The following property shall be reserved to every family as exempt from attachment or execution and every other species of forced sale for the payment of debts; The homestead of the family; all household and kitchen furniture; any lot or lots on a cemetery held for the purpose of sepulture; all implements of husbandry; all tools, apparatus and books belonging to any trade or profession; the family

Friday: Chicken fried steak with milk gravy, mashed potatoes, seasoned green beans, hot rolls, cherry cobbler, half pint milk or chocolate milk.

Seventh grade students of Mrs. Jack Davis have chosen the steak lunch as their favorite and the teacher will take the children on a tour of the lunch room Friday and each will receive a free lunch. Parents are invited to patronize the lunch room any day of this week.

News of Men in Service

First Lieut. George Keller is now stationed at headquarters of the 46th AAA Battalion of the 4th Infantry Division at Hanau, Germany, on a four year assignment.

In a letter to his grandparents, Mr. and Mrs. J. A. Keller of Route 3, recently, Lt. Keller gave this account of his activities since he saw them at Christmas.

"Things have been moving along pretty fast. Of course we returned to El Paso after the holiday was over. March of this year I received orders from Washington to proceed to Fort Sill, Oklahoma, to attend the Field Artillery School. I was there from 1st April to 21st July. I then had twenty days leave, but very little time to rest. My wife's father just about the same time as my leave, bought and opened a new industrial business in Chicago, Illinois, and most of my time was spent helping him get set up. I left Joan with her family. Joan and Diane that is, until such time as they can join me over here. That should be about 1 January, 1954.

"I reported into Camp Kilmer, New Jersey, for overseas shipment. I was taken from there to Westover Air Force Base, Westover, Massachusetts. I was flown over from there. Took 15 hours of actual flying time to cross over. By ship it's a nine-day trip.

"After getting here I was assigned to the 4th Infantry Division, Division Artillery. We are located eight kilometers out of Hanau (pronounced Han-ow) and Hanau is 16 kilometers out of Frankfurt, Germany, one of the biggest cities over here.

"The country over here is beautiful. It's green all year round. Even with snow they say it still remains green.

"There are many Kellers over here in all parts. Could you tell me in exactly what part or what town Grandpa Keller (Note: this reference is the grandfather of J. A. Keller) came. I would like to see if I could trace any distant relatives that might have survived the war — or wars."

Lt. Keller is the son of Mrs. R. E. Petrick, 500 West 10th, Amarillo, and the late George Keller.

PENSACOLA, Fla. — Frank D. Graves, airman, USN, of 401 East 12th St., Wellington, Texas, is enrolled at the Naval School of Photography at the U. S. Naval Air Station here.

The school offers courses in basic and advanced photography, mo-

tion picture camera technique and camera repair. The courses run from 12 weeks to five months in length.

Fort Leonard Wood, Mo. — Pvt. Jimmie N. Brock, son of Mr. N. A. Brock, 500 8th Street, Wellington, Texas, is nearing completion of a 16-week training cycle here with a unit of the 6th Armored Division.

As a trainee, he received eight weeks basic training in the fundamentals of army life and the use of infantry weapons. He is now completing an additional eight weeks engineer training.

Pvt. Brock is being taught the use of pioneer and power tools, construction of fixed and floating bridges and related subjects besides additional combat skills.

At the end of the 16-week training cycle with the famed "Super Sixth" the men completing training here will be sent either to specialist schools or as replacements to other units.

Fort Leonard Wood, Mo. — Pvt. Kenneth L. Maxwell, whose wife is Mrs. K. L. Maxwell, 704 Bowie, Wellington, Texas, is nearing completion of a 16-week training cycle here with a unit of the 6th Armored Division.

As a trainee, he received eight weeks basic training in the fundamentals of army life and the use of infantry weapons. He is now completing an additional eight weeks engineer training.

Pvt. Maxwell is being taught the use of pioneer and power tools, construction of fixed and floating bridges and related subjects besides additional combat skills.

Early Resident Dies in Calif.

Alba Winney of Los Angeles, who lived here as a young man sixty years ago, died Saturday night, October 17, after several years of ill health. He was a brother of Mrs. L. T. Alexander of Wellington.

He was 84 years old. Funeral services were held at Los Angeles Monday, according to Mrs. R. R. Crawley, a niece.

Mr. Winney was the son of the late Mr. and Mrs. John Winney. The family came here in 1892, and he remained for a few years before moving away.

He is survived by two daughters and an adopted son, and also two sisters and three brothers: Mrs. Alexander; Mrs. T. T. Fain of Canyon; J. L. Winney of Seattle, Wash.; L. A. Winney of Denver, Colo., and T. A. Winney of Texhoma, Okla.

DOZIER

By MRS. ALEX COLEMAN

This community has plenty of moisture. The farmers are waiting for the ground to settle and dry so wheat planting will start for some.

Mr. and Mrs. Willard Ethridge of Ropesville visited with Mr. and Mrs. Orville Cunningham of Samnorwood and spent Saturday night with Mr. and Mrs. Wood Coleman. He is principal of the Ropesville grade school. They formerly lived at Samnorwood.

Mr. and Mrs. George Jones, Mr. and Mrs. Vernon Jones of Dumas, and Mrs. Lester Tennison of Wellington visited Mr. and Mrs. Bill Shields of Dozier.

Mr. and Mrs. Leo Massey, James and Bobbie, visited in Borger Sunday.

Alex Coleman and Wood Coleman attended the drawing held by the Mill Iron Ranch Sunday at Childress.

Relative of County Families Dies

Charles S. Bynum 72, of Zephyr, brother-in-law of Mrs. J. L. Cummings, died a short time ago after suffering a heart attack. He had visited relatives here many times and had a wide circle of acquaintances.

Mr. Bynum was a former County district clerk, having served from 1918 to 1930.

Born in Ellis County in 1881, he had lived in Brown county 68 years. He was a steward in the Methodist Church, former worshipful master and secretary of the Zephyr Masonic Lodge, secretary of the Democratic party at that town a number of years, a director of the Coleman Production Credit Association, and one of the first leaders in soil conservation work in that area. He was a farmer and rancher.

Those from here who attended the funeral were Mrs. B. B. Morris, Lewis Morris, Mr. and Mrs. J. P. Cummings, Fred Cummings and Wayne Cummings.

Mr. and Mrs. C. L. Brown Celebrate Golden Wedding Anniversary, Oct. 18

The children of Mr. and Mrs. C. L. Brown surprised them on their golden wedding anniversary by inviting relatives and friends for the occasion. The celebration and reunion was held at the family home in Wellington, Sunday, October 18.

Mrs. Brown, the former Miss Ella Brown was born at Dothan, Alabama and came to Texas with her parents at the age of seven, and received her education at Hamilton, near Austin.

Mr. Brown was born in Guadalupe County and received his education there and at San Antonio.

The couple met and were married near Austin in the home of the brides parents. After their marriage they made their home in Travis County until 1925, when they moved to Collingsworth County, and have lived here since that time, with the exception of four and one-half years spent in New Mexico and two and one-half years living near Hedley.

Mr. and Mrs. Brown were happy to have all of their children and grandchildren here for the reunion except one son, Oliver Brown and one grandson, Billy James Brown. Those of the family present were Mr. and Mrs. Tom Burnett, Mr. and Mrs. Jack Burnett and daughter, all of Texico, New Mexico, Mr. and Mrs. Morris Brown and daughter of Oklahoma City, Mr. and Mrs. Travis V. Brown and children of Fresno, California, Mr. and Mrs. Wilson Green and children of Bell, California, and Mr. and Mrs. Stanley Brown and son of Wellington.

Other out of town relatives were Mrs. Brown's sister, Mrs. Grace Read of San Antonio, whom she had not seen in 29 years, Mr. and Mrs. Dewey Brown of San Antonio, Mrs. Brown's brother and wife, she had not seen in 20 years; Mr. and Mrs. Richard Pring and Mrs.

Earl Denny of Houston; neices of Mrs. Brown's; Ernest Brown and Mr. and Mrs. Victor Brown and son Vestal, of Oklahoma City and Mr. and Mrs. Johnny Hart and children of Amarillo.

The couple received many lovely gifts. Punch and cake were served to the guests in the afternoon. Friends that called were Mr. and Mrs. Pete Chandler and son, Rev. and Mrs. S. L. Sparks, Mr. and Mrs. Clyde Emmert, and daughter, Mr. and Mrs. Buford Riley and children, Mr. and Mrs. Edgar Lockhart and Travis, Mr. and Mrs. Eldon Lockhart and son, Wanda Landress, Mrs. Freda Moody, Mrs. Glennie Peters, Mr. and Mrs. Ott Lester, Mr. and Mrs. Grady Phillips.

Out of town guests calling were Mr. and Mrs. Ross Bennett of Hollis, Mr. and Mrs. D. E. Herring and children, Mr. and Mrs. Buch Judd and children all of Ama, and Rev. and Mrs. Elvin Zell and children of Shamrock.

Sending gifts and congratulations were Mr. and Mrs. Sam Philpott of Hanford, California, Mr. and Mrs. D. E. Woods and children of Baytown, Mrs. J. M. Lendsey of Southernland Springs, Mr. and Mrs. Marion McQuigg of Tulsa, and Mr. and Mrs. Will Pace of Turlock, California.

It' Good Sportmanship to Be Careful

The keenest of all sport to many Americans is hunting, and already a good many Collingsworth county men have bagged doves here at home or are making plans to get bigger game during the remainder of the year.

There's not a hunter but who has heard a hundred times the rules of handling a gun safely. But in spite of this, 187 Texans lost their lives in hunting accidents last year. Hunters of this county were fortunate, but that is no indication such luck will continue. So serious has become the death and accident toll, not only in Texas, but over the country at large that the wise-crack is often heard that "It's getting so that hunting seasons are almost as hard on hunters as they are on the game."

This year, when you go out to hunt, why not agree with yourself and other members of your party that you will: Never carry a loaded gun in your car.

1954 Crop Prediction, Pro and Con

Some of the oldest of the oldtimers in this area are predicting that next year will be one with bumper crops. AS far as I can determine, they base their prophecy on the fact that a good year always follows an extremely dry period. none have shown proof that this year is the last dry one, though.

However, I am one who is eager for this prediction to come true in that I would like to get a little closer to even with my farming operations.

With the allotment left me by the government, every grain of wheat I raise would have to be gold plated to overcome the expense I have incurred raising no wheat.

Frankly I except it to remain dry. After a few showers, I will lose some wheat either to greenbugs or grub worms. After it showers again, I expect to pay for spraying cut worms. when the harvest comes and ends, my neighbor will take my yield for the cutting and hauling and I will be looking for seed to plant next fall. It will be complete waste of time for the P. M. A. boys to measure my crop, for allotment, large or small means little when an annual yield is about nothing.

Mail Those Christmas Parcels

The Defense Department says Christmas parcels for members of the armed services overseas should be mailed between October 15th and November 15th. This will insure that the parcels reach servicemen in distant areas in time for Christmas celebrations.

In addition, the Defense Department makes certain recommendations for those who intend to send large packages. All boxes addressed to Army or Fleet postoffices must not exceed seventy pounds in weight. They should not be more than 100 inches in length and girth combined.

For air parcels, the Department says they are not to exceed two pounds, or thirty inches around. It is also suggested that senders of Christmas parcels use good judgement in the selection of their gifts, avoiding sending goods which spoil if not delivered in two or three weeks.

It may be a big year for mechanical harvesters in Hockley County, despite drought conditions which have dropped Hockley crop estimates to as low as 95,000 bales.

Predictions as to the county's yield by a Lubbock cotton firm have varied from 95,000 to 125,000 bales during the season. Their prediction for Hockley County is down to 95,000 now while former county agent Artie Forehand is still sticking to his first estimate of 113,000 bales.

Three Needs for a Good School

I LIKED WHAT

School Superintendent Joe Hutchinson said at the Rotary club this week. He said, "There are three basic needs for a good school system: First a good teacher; second, a place to teach; and third, something to teach with." He elaborated somewhat and explained that the teacher should be well educated and competent and of high character—and with a zeal to teach, he said, should be a clean, comfortable school room, properly lighted and heated. Proper equipment, he said, would include buses to ride in, chairs to sit in, blackboards to write on, books and laboratory equipment to use etc.

HE REMINDED

his audience that the schools belong to the people and must be paid for by the people; that the school board is elected by the people to make the policies and conduct of the schools and that the people who teach and who administer the school program are hired to do their job. He concluded by saying that good public schools are the result of a three-sided team (people, board, teachers) working together harmoniously for the one purpose of properly educating and training the youth.

Beware of the Goblins

The Buck Creek Philosopher

Editor's note. The Buck Creek Philosopher on his Johnson grass farm on Buck Creek has completely misinterpreted the latest defense ideas, his letter this week reveals.

Dear editor:

I've notice in nearly every newspaper that turns up out here lately there's a lot of discussion once more over the atom bomb and how many cities in the United States are vulnerable to attack.

As I understand it, the experts have figured out there are 87 American cities important enough to bomb in case an enemy decides on a sneak attack, which only goes to show the goal of most towns to get bigger and bigger is not necessarily the safest goal you can have. When the bigger a city gets, the more it becomes a prospective target, there's some argument to my contention that backwardness has its place these days too.

But what has interested me about the discussion over the 87 cities is that the experts are arguing they've got to be dispersed, they've got to scatter their vital industries out in the country, to cut down on their chances of getting hit all at the same time.

I think this is a good idea and I'm proud to report that while my farm ain't exactly what you might call a primary target, I'm not taking any chances and I have already dispersed my operations.

For example, instead of bringin my planter back to the shed after I got through plantin last spring, I left it at the turnrow. I got my bedders over in another field, I got my trailer pretty well dispersed, one wheel fell off the last time I used it and I dragged it in on the axel. Some people have gotten in the habit of assumin my operations are based on laziness, but what it amounts to is far sightedness. I'm in the forefront, it's purely a defensive measure. Not only are the implements scattered all over the farm, they've pretty well camouflaged, covered up in weeds and rusted to keep the sun from glintin on em. In fact, I've even got my fences in such shape I can disperse my cattle on a moment's notice without usin a gate. Just cut one or two pieces of bailin wire and the way is clear.

I tell you, cities could learn a lesson from my farmin operations. What most people have considered

the height of laziness and backwardness has turned out to be in the forefront of modern thought. Yours faithfully, J. A.

Crossroads Report

Dear Mr. Ike:

You take the British people, for a long time now they have been deploring the rough and uncouth way we treat Communists which we find subverting this country. Asking the Reds embarrassing questions and printing their names in the papers, says the British, is inhumane and we had ought to have the valves ground on our toleration and quit worrying about these roaches in our pantry.

But I notice that when they caught some Commies messing with a little bit of their property down in South America, the Englishmen didn't fool around with just McCarthyizing them. They fixed bayonets and cleared the field, which I think is a superior method, but don't exactly conform to the broad-minded attitude they recommend to us.

Of course, the proposition of whose ox is being gored has modified the opinions of lesser institutions than the British gov't and more insignificant characters than Bro. Churchill from time to time. Even I have been guilty of bearing up nobly while the Internal Revenueurs peeled some of my neighbors down to a nub, but when it come my turn, the picture got 3-D all of a sudden. D. E. Scott

There Is No Place in Religion For Hate

Plausible philosophy of life has said, "Be good and you will be happy."

But if happiness consists in being free from danger and immune from pain, the sufferings of good men have revealed how false is that easy adage.

A deep mystery of life is that the innocent have suffered with the guilty. It is the mystery of the Cross and the suffering and sacrifice of Christ Himself.

The hostility that Jesus aroused in His prejudiced, fellow townsmen as He began His ministry in Nazareth continued on the part of many throughout His ministry.

Strange to say, it was the finest things that He did that aroused the most violent opposition.

Religion ought to make men humane, kind, considerate, ready and eager to help one another. But, unfortunately, it has often made them bitter and full of hatred.

It was not unnatural that the claims of Jesus should be questioned by some, as they had been by His own brothers. But why should His pronouncement of the forgiveness of sins have aroused such hatred?

If He had no power to forgive sins, the sins would not be forgiven. To question His authority was one thing—to hate Him was another.

The opposition of certain Scribes and Pharisees and official religious authorities had some justification. They were the official representatives of religion. As Jesus Himself said, they "sat in Moses' seat."

The mistake that they made was in ignoring the actual words and deeds, in being blind to the authority of goodness, and in hating One whom the people heard gladly.

Are we wiser than those of old? Is religion our response to the goodness of God, or is it dominated by prejudice and bigotry?

Looking Ahead With George S. Benson

TIME TO SWITCH

For the past 20 years government spending on war and defense preparation has been the major stimulus for the American economy. In those 20 years the government has spent \$775 billion, which is 10 times more than the total amount of money in circulation in the entire world. This huge spending made the federal government a tremendous factor in the nation's economic life. It cannot continue indefinitely to play this dominant role without breaking down the economic and political institutions that have made our freedom and prosperity possible.

Forty years ago the federal government spent two per cent of the national income. Twenty years ago it spent 10 per cent of the national income. Today it is spending 25 per cent. If the people of America were to permit it, this percentage would go on up, and our economic freedom would be correspondingly restricted. Studies have shown that when taxation goes much beyond 25 per cent all freedom is affected. And history shows that a government will grow constantly in size and power unless the people put in the brakes.

Paralyzing Rates

In order to get the big money it has been spending in recent years, the federal government has had to constantly push up the rate of taxation. It now has pushing tax rates up to as much as 92

LAWS ON CHANGE OF NAME EXPLAINED

Tired of your name? Perhaps you can change it. To most of us our name is too much an integral part of our everyday life to want to change it. There are occasions, however, when a legal change of name is desired, and Texas laws contain provisions of changing the names of individuals, business firms and corporations.

Being tired of a name is not sufficient in itself to warrant a legal change. There are occasions, however, when a change of name may be of sufficient benefit to a person to justify a change under the statutes. For example, a name may be so long and cumbersome or so difficult to pronounce as to become a business or social handicap.

A legal change of an individual's name in this state involves a procedure in District Court. The person desiring a change must file an application in proper form in the District Court of the county of his residence, setting forth the reasons for his desire for a new name. If the Judge is convinced that it is for the interest or benefit of the applicant to change his name, he may decree that the adopted name of the person shall be substituted for his original name.

In addition to the provisions for change of name in ordinary cases, our laws permit the court in entering a divorce decree to include an order changing the name of either party especially petitioning for such a change in proper manner during the proceedings.

Provisions for changing the name of a minor are the same as for an adult, except that the application for change must be filed by his guardian or "next friend." By this latter term is meant a parent or some other person who is

looking after the interests of the minor.

A change of name will not be allowed to injure third persons under our laws. The change does not operate to release the applicant from any responsibility which he may have incurred under his original name. Nor will it defeat or destroy any rights or property or causes of action which the person may have had or held in his original name.

Any person transacting business in Texas under any name other than his real name is required to file in the County Clerk's Office in each county in which he conducts his business an "assumed name certificate", giving the name of the business and the true full name and post office address of each person carrying on the business. Whenever there is a change in ownership or in the name of the business, a new certificate is required to be filed setting out the facts.

Whenever the name of a corporation is changed, Texas laws require that its corporate chapter must be amended and the amendment filed with the Secretary of State.

income groups earning \$25,000 or more a year. In other words, as the rate went up, the resulting revenue was proportionately less than the tax collecto might have expected."

Incentive Is Key

"Tax rates, when reduced," reports the magazine, "have ended to bring an expansion in taxable income and to result in less of income than the rate cut might suggest."

"Clearly, investment is discouraged by the present tax system. But if capitalism is to work, investment in riskbearing enterprises is essential to growth and expansion."

It is true that in the last 20 years American industry has expanded. But the expansion has been stimulated largely by the federal government's huge expenditures on war. We dare not accept a war economy longer than is absolutely necessary because of the danger of federal government dominance becoming permanent. The transition away from this dominance should begin at once. As the shift is made private enterprise can expand normally and wholesomely if tax rates are cut so that incentive for investment is restored. Given normal incentive the private enterprise system will carry our nation to higher and higher and higher living standard, whereas a government dominated system would shortly begin lowering our standard of living.

Study Made

Tax rate such as these put a heavy yoke on ambition and cripple the profit motive that has sparked our nation's progress. They would be permissible for a short time in extreme national emergency, but otherwise they are detrimental to freedom and progress. The U. S. NEWS, one of the top news weeklies, has just completed an intensive study of taxes and how they operate to strifle or stimulate the private economy. Here are some significant conclusions:

"Steep, progressive tax rates on income have resulted in diminishing returns in peacetime from all

District Leaders Squeeze By 18 to 14

Spirited Rockets Give Burk Run for Their Money

By Don Scott

A spirited Wellington Skyrocket team entertained the Burk Burnett Bulldogs in the Rockets' third district game of the season Friday night on Powell field, losing to the conference leaders by the narrow margin of 14-18.

Coach Maxey McKnight's team employed new offensive tactics which paid off in yardage and first downs, leading their opponents in both of these figures, but suffering bad breaks at the wrong time to miss converting these gains into counters.

The Bulldogs were highly favored over the Skyrockets, coming to Wellington with two conference scalps under their belts while the Rockets had lost two. Recovering a Rocket fumble on the third play of the game on the Wellington 41, they marched steadily downfield and Don Joe Prescott, well-advised Bulldog powerhouse, capped the drive by stepping over from the Rocket 4.

The rejuvenated Rockets held the surprised Dogs scoreless for the remainder of the first quarter, but in the second game the Burk Burnett team took another journey downfield for their second tally. Not downhearted, the Rockets set a drove of their own in motion about the 50 and climaxed it with a pitch-out pass, Wood to Duncan,

on the Bulldog 8 that put figures on the scoreboard. Doolen Starkey, Rocket tackle, back in the game after an injury suffered several weeks ago, kicked the extra point to make the half-time score 12-7.

One of the Bulldogs' passes clicked in the third quarter, found Richard Ragsdale for 20 yards in the air and he lugged it 38 more for the Bulldogs' third touchdown.

In the fourth, the Rockets went over for their second TD, with Douglas Duncan carrying from the 28-yard line to wind up the scoring in this game. It was the Rockets' best game of the season.

In on tackle after tackle to hold the strong Burk team to a tight score were Camel Dakil, Ed Bawcom, Billy Agee, Douglas Duncan and Ray Wauer, but every man on the Rocket team was carrying his part of the load.

FIRST QUARTER

For the first time this season, Wellington received the opening kickoff. Duncan took it on the Rocket 10 and followed good blocking for 21 yards to the 31. The Rockets were eager and Wood's first of a series of yard-gaining quarterback sneaks went for 6. Holliman went over right guard for 2, to the 39. Duncan tried the Bulldog line, but the Burk team was playing Duncan this evening. He was hit hard, fumbled and the Bulldogs recovered on the Rocket 41.

The Burk offensive play opened with Don Joe Prescott making 2. McCabe earned 3 at center and Prescott skirted the end for 19 and a Bulldog first down. With Billy Bean and Prescott running the ball on every play, the Burk team moved downfield to the Rocket 4, where Prescott carried for the remaining distance. The try for extra point was no good.

The Rockets received again and this time Wood hauled it from his 11 to the 35. Duncan took 3 yards out of the center. Wood tried a

pass which failed to connect, then picked up 7 on a quarter sneak for a first down. Duncan skirted end for 14 yards to the Bulldog 41. On the next play Duncan tried end again but his personal attention group on the Burk squad tossed him for a 4-yard loss. Another try at end lost another yard.

Wood made 3 at center while the Bulldog defense was playing with Duncan. On fourth down and short, Duncan kicked and the ball rolled dead on the Bulldog 27.

Burk was penalized 15 on their first play from scrimmage. A second try gained 2. Prescott's pass attempt found to many Rockets around him and went for a 9-yard loss. The Bulldog kicked out. The punt sailed to the Rocket 45 where Wood picked it up and threaded back to the Dog 45.

Rocket Fullback Duncan scotched around end for 7 and then tried the middle, where he again met his personal welcoming committee. Te ball was knocked out of his hands and Bulldogs pounced on it.

SECOND QUARTER

The Burk team started rolling for the second time Billy Bean took the outside rail and went around right end for 29 yards before he was hauled in by Dennis Holliman. Prescott carried for 9.

Garry McCabe was penalized on the next play, but picked up 7 on another try to give the Bulldogs another first. Prescott hit left tackle for 5, and Mean crashed the same spot for 11, to Wellington's 14-yard line. McCabe and Prescott covered 5 of the 14 in two plays, and Prescott made 8 and 1 in two tries, to score. Lewis McDonald's try for the extra point was no good. Score 12-0.

Fullback Duncan received the kickoff on his 10, carried it and some Bulldog resistance to the 35. Wood worked his quarterback sneak again and picked up 5. Holliman smashed left guard for a gain of 4. He found a bigger hole at the same place the next time and picked up 15, to the Bulldog 41.

Duncan could only find 1 in the middle as the Bulldogs continued to give him special consideration. Quarterback Wood again kept and toted around end for 16, Wood's next try with the keeper picked up only 3. A 5-yard penalty put the Rockets back on the Bulldogs 26.

A pass fell incomplete. Duncan took a handoff over left tackle, driving 8 yards with practically the entire Burk team around his neck, to the Bulldog 18. Holliman hit left tackle and picked up 3. On the next two plays, Holliman and Duncan laid the ball on the 8-yard line. Duncan was stopped for no gain, then took a pitch-out pass from Wood and crashed over the Burk goal for the first Rocket touchdown. Doolen Starkey put the oval between the uprights for the extra point.

The Bulldogs received for the first time. Duncan's kick was allowed to roll dead on their 25. Nearing the end of the half, the Bulldogs tried hard to score again before time ran out, but the Rockets held. On the first play, McCabe tried end for no gain. McCabe

again at left end picked up 3, then attempted a pass with only seconds left to play in the half. He felled back 14 yards and was smeared by Ed Bawcom, Billy Agee and Ray Wauer.

THIRD QUARTER

Starting the second half of the Bulldogs received the kick from Duncan on their 20, where McCabe took the ball and ran 15 yards back to the Burk 35. On the first play, Prescott went over right tackle for 6. At left tackle he got 5 more and a first down. The Rockets received a 15-yard penalty for over-enthusiasm, to the Rocket 39 where McCabe faded back to pass and was nabbed 12 yards behind the line of scrimmage. On the next play, Rocket Center Camel Dakil recovered a Bulldog fumble and the ball went to the Rockets on the 50.

Duncan covered 6 yards over right tackle. Holliman went over right guard for 4 and a first down. Duncan bucked the line at left guard for 5. A Rocket penalty made it second and 10 for a first. Wood sneaked again for 6. Duncan covered 3 and, fourth down and 1 to go, Wood fumbled and Bulldogs recovered.

Burk tried to start another touchdown drive, but after picking up 2, tried a pass and the would-be tosser slipped 10 yards behind the line. The Bulldogs kicked out of bounds on the Rocket 28.

The Skyrockets swarmed to the offensive again. Holliman went over right guard to pick up 3, and then another pitch-out pass went to Duncan who carried it 5 before being down by his personal bodyguard. Wood attempted to pass but missed again. Duncan kicked out of bounds on the Bulldog 30.

Burk took over and made short work of the job. Halfback Milly Bean skirted left end for 9 and McCabe got a yard at right guard. The Bulldogs started passing. The first was good for only 2 yards, but the second took Burk Left End Richard Ragsdale 58 steps and over the Rocket goal. Again the Bulldog try for point was blocked. The Wellington team received on their 20 and Quarterback Lonnie Wood carried 11 to the 31.

FOURTH QUARTER

Trying hard to get back into the game, Wood fooled them again with his quarterback sneak to go 8 yards. Duncan went end for 7, and Wood picked up 3 on a keeper over tackle, to the Wellington 49. Duncan, again skirting end, picked up 9 and Wood sneaked 3 for a first down. Holliman, at right guard, brought the ball to the Bulldog 37.

Duncan took a pitch-out and gained 9. Wood again tried a pass, which was incomplete, and Duncan took the ball through the large hole at tackle and ran the remaining 28 yards for the Skyrockets' second touchdown. Doolen Starkey repeated and the score was 14-18.

Duncan kicked to the Bulldog 30. Walter Schroeder returned to the 41. The Bulldogs picked up a 15

yard penalty on the first play and after three attempts failed to get it back and punted. The kick by McCabe was caught on the Rocket 25 by Duncan and returned to the 37. Wood worked his quarterback sneak for 7. Duncan lost his footing on the wet field 3 yards behind the line, made it back and 1 more, but not enough for a first. Duncan went into punt formation. Wood took the ball instead and took it up the center, only to be penalized back to the 31. Duncan again took the punt position, but passed instead of kicking. The pass was incomplete and the Bulldogs took over the Rocket 31.

The Bulldogs kept the ball for three plays before kicking, and the Rockets had it in their possession until the last few seconds of the game, with Duncan making another good run of 12 yards. The Bulldogs got the ball for one more play but could gain only 6 yards before the final whistle. Score: Burk Burnett 18, Wellington 14.

LILLIE

By MRS. G. D. THOMAS

Rev. Vernon Jone of Dumas, one of our former pastors at Lillie, preached here Sunday morning. Every one enjoyed his good message. It had been several years since Rev. and Mrs. Jone had been to church at Lillie.

Mr. and Mrs. Mrs. Elmer Haralson are the proud owner of a new 1953 Buick car they purchased last Saturday. The Haralson spent the week end in Canadian and Mobe-etie.

Mrs. Dede Bruce of Dumas is spending the week with her sister Mrs. C. R. Barnett.

M/Sgt. and Mrs. Joseph G. Thomas and children left Monday for Roswell New Mexico, where he will be stationed there in Air Corps.

Mr. and Mrs. Jack Black Block were out of town visitors at Wellington Saturday evening.

On the account of the rainy weather there were very few at the BYU Sunday night at Lillie.

Wallace Blasingame was home last week end from Arlington College.

The G. D. Thomases has a new metal roof put on their house last week.

It has rained most all week in the Lillie community.

Very few bores were pulled. Every farmer is in need of more cotton pullers.

Teachers to Visit Homes Of Students Next Week

Plans are complete for the week's home visitation program sponsored by the Wellington schools, according to Stanley Brooks, chairman of the arrangements committee.

This week is scheduled for November 2 to 6, when classes of the high school, junior high and elementary schools will be dismissed and the teachers will visit in the homes of the students.

The following schedule will be observed:

Monday, November 2, elementary teachers will visit in that portion of the school district lying east of the Shamrock highway and north of the Mangum highway. Junior high teachers will visit in the area south of the Mangum highway and west of the Childress highway. High school teachers will visit in Wellington.

Tuesday, November 3: elementary teachers — the area south of the Mangum highway and east of the Childress highway; junior high — Wellington; high school, all that part of the district lying west of Highway 83.

Wednesday, November 4: elementary — the area west of highway 83; junior high — the area north of the Mangum highway and east of the Shamrock highway; and high school: the area south of the

Mangum highway and east of the Childress highway.

Thursday, November 5: elementary — Wellington; junior high — the area west of Highway 83 — and high school, the area north of the Mangum highway and east of the Shamrock highway.

Friday, November 6 — return visits to homes where parents were missed.

The purpose of the program, Mr. Brooks remained, is for teachers and parents to get better acquainted and improve school and community relations, to gain a knowledge of the physical, intellectual and emotional environments in which the students live, to gain an understanding of the needs of problems of the pupils and of their families, and to get the parents ideas of what they want their children to learn.

Members of the committee assisting Mr. Brooks are Miss Sarah Jones, Mrs. Bernice Welch, Lee Plante, Miss Sandra Ainsworth. On the co-ordinating committee are Miss Fern Jones, chairman, Roland Jenkins and Miss Ainsworth.

ied. He mentioned manufacturing, which for years has been protected by a high tariff, and shipping lines, who are subsidized on cargo carried.

Comparing the current price drop in farm products to those of the past, Mr. Rogers said that those were followed by a drop in cost of other things. Now laws set minimum wages and maximum hours, and the cost of manufactured items are not going to come down, although fewer may be sold.

The attacked what he called the leadership's philosophy with reference to the farm program. "If the farm program is justified for political policy only, it should be done away with, but you know it is basically sound on our economy," he said.

"If that is the philosophy of the legislative branch of our government, little could be gained by the resignation of Benson, for it means that the farmer is a pawn in the political chess game."

In closing Mr. Rogers said to his Wellington audience: "I am not going to sit by and watch the wrecking of our economy by any such philosophy as that. I ain't going to take it lying down!"

Throught the resolutions they passed, the members:

1. Opposed a state and/or national sales tax and manufacturers tax.

2. Asked the secretary of agriculture to place a floor under cattle in line with other commodities.

3. Favored a wheat price support of 90 per cent of parity and asked that the wheat operator not be penalized on the historical wheat acreage because of failure to seed allotted acreage due to dry weather or when seeding would obviously not be in accordance with good

farming practices, and all new wheat growers be given historical average acreage equal to the community factor times his crop land acreage.

4. That cotton be supported at 90 per cent of parity and the same conditions apply on the historical acreage as on the wheat.

5. Asked the Secretary of Agriculture to direct the CCC to change cotton loan papers to eliminate the 2c penalty on light spot cotton.

6. Asked that Federal foreign aid be in the form of agriculture commodities instead of dollars, and that agriculture surplus be traded for strategic materials.

7. That the Secretary of Agriculture retain approved soil conservation practices.

8. That the present PMA, SCS, etc. be kept in their present form, except for more localized management.

9. Deplored efforts of the present administration to increase interest rates.

10. Asked the Texas Legislature and State Comptroller to revise the law so tractor gas rebate is deducted when the gas is delivered by the distributor.

11. Opposed the sliding scale form of price support on agriculture commodities and approved a rigid controls if necessary to keep at 90 per cent of parity.

12. Opposed the two-price system.

13. Asked that a minimum price be placed on natural gas at 10c a thousand cubic feet at the well-head.

14. That laws on seed certification be strengthened so that Texas no be a dumping ground for bad seed due to our lax laws.

15. That the Texas Insurance commission be censured for allowing worthless insurance policies to be issued and sold especially worthless health and accident policies sold by radio advertising.

16. That the A & M College Farm Bureau Institute be increased from one week to two, and the second week be held in the western part of the state.

17. The resolution was introduced from the floor that copies of

ly home about 5:30 p. m. Tuesday. The little girl, with other youngsters, was playing "dress up," wearing a long dress, when she came too near a fire and her clothing ignited.

The blaze was put out by the girl's 16-year-old brother, Vern, and she was rushed to a Shamrock hospital, where she died five and one-half hours later.

Joy Eulene was born July 19, 1943 at Silverton. The family moved to Lutie about four years ago.

Surviving are the parents and ten brothers and sisters: Mrs. J. E. Meadows and J. C. Kindrick of Childress; Mrs. Afton Teague, Liberal Kansas; Harri Kindrick, Camp Rucker, Ala.; and Sherry, Norman, Richard, Coy Vern and David Kindrick of Lutie. Her grandparents, Mr. and Mrs. J. J. Vardell of Silverton also survive.

Bureau Studies—

"If this is done, it will have to be through an act of Congress, and what we are trying to do is to get people acquainted with the facts," Mr. Mitchell explained.

Citing production figures for Collingsworth County, Mr. Mitchell reminded that last year \$8,512,910 worth of cotton was produced on 106,538 acres on 859 farms.

"You can figure for yourself what a cut of 40 per cent is going to mean — around \$3,000,000," he declared.

The Farm Bureau's aim is to secure sufficient membership so that it may speak as a representative of the cotton growers when congress convenes again, Mr. Mitchell said.
