Olton CoOp Gin Installs Huge Press Built In Brazil

A monstrous cavity in the floor of Olton Co-Op's recently enlarged gin building was filled Wednesday when 102,000 pounds of mechanized Brazilian steel was cautiously lowered into place.

The import, a Universal Density Press, is the second such press made in Brazil for Murray Gin Company of Dallas for American installation. The first was installed last year in a cotton gin in Mississippi. The Brazilian producers have made other installations in Israel.

When asked why Olton was chosen to receive the impressive unit Lloyd Graham, manager of the firm, stated "We did receive preferential treatment...we were adding it to a brand new high speed Murray Gin."

Graham continued by explaining that all machinery had been removed from the Co-Operative's oldest ginning plant. A big addition to the eastern side of the building has more than doubled its original space.

The building, now 70 x 142 feet, is being fitted with three 142-saw gin stands, with split stream delivery to stands and Signode Index automatic strapping. Its electric panel of controls and two suction devices per trailer promises to gin cotton at the rate of 18 bales per hour.

The new Universal Density press is really only the "icing on the cake" that brings this cotton processing plant to the forefront of the area, if not the state and the nation.

The new press will be sealed in its underground vault with a concrete covering, which will serve as the gin floor. The turntable and all other action of the press is contained beneath the floor.

The UD press will turn out uniform bales meeting all standards and specifications for shipment anywhere in the world without further compress treatment.

Graham stated that last year the other two gin presses were changed over to comply with the currently standard 24 x 54 size bale, but they do not have the density feature and will of necessity have to be hauled on separate trucks. This will in no way penalize the farmer who is selling the fiber, since compressing takes place after the bale leaves the hands of the producer.

Installation of the new machinery has been the work of the entire summer. It is now nearing completion. Graham says that he hopes to have it in operation by harvest time in mid-November.

In Olton to observe the installation of the new press

are Thadeu Medeiros and Nelson Belpiede, engineers from Sao Paulo, Brazil.

Mediros, who holds an engineering degree from a Brazilian technical institute, draws blue prints for this particular press. His firm completely assembled this unit in Brazil, proved its functional excellence, then tore it down and crated for shipping to Houston, via boat. Trucks completed the haul to Olton.

Married, Medeiros is the father of two children. He is visiting the United States for the first time.

Belpiede, a university engineering student, is also working on the project. Unmarried, he also is making his first visit to the United States.

The men will be in the Olton area for about one month and will spend a second month visiting and observing other gins throughout the cotton belt of the nation.

The Brazilians state that they see a vast difference in social and economic conditions between this country and their own, and they like what they see.

Accustomed to cotton plantations where the indi-

vidual owns the land, the fiber and the gin, they are impressed with the involvement of so many individual farmers of this area.

Viewing the countryside from the air, they were very surprised at the thousands of farms outlined in perfect pattern below.

The young engineers were in attendance at last week's Floydada-Olton football game. Both lovers of sports, they expressed much interest in all the action of the first gridiron spectacle they had witnessed.

Their statements brought a hearty and a hasty invitation to be present this weekend for the big Homecoming clash.

When questioned about cotton harvest outlook at the present time, Graham was optimistic. He pointed out that existing favorable weather conditions were doing much to help in maturity.

"The continued wet weather of a few days past may have done damage to our quality. We will never know how much it effected the "mike" reading. But if good weather continues, I think the yield will be good and we'll make a lot of cotton."

Post Entry Wins Grid Guessing

An old pro at picking winners in the Enterprise football contest takes top prize this week with just three misses. Charles Didway of Post, a past grand prize winner, was the sole contestant to miss as few as three games. He was upset by the Mustangs, Dallas Cowboys and Petersburg.

The tie-breaker had to determine second and third places for the week with 15

persons missing four games each. Jimmy Steele proved to be the best predictor of the bunch, missing the Mustangs-Whirlwinds score by just six points with a 20-26 guess. Joel Nelson of McLean, former Oltonite, was off eight points to claim third. His prediction was 14-22.

Others missing four games but inched out of the money with their guessing

were David Neinast, 10 points off, 14-20; Coy Gullett, 11, 12-21; David Turner of Canyon, 13, 22-21; Bobby Williams of Springlake, 14, 17-15; Dwain DePrang, 14, 16-14; Cecil Oursbourn, 20, 16-8; Mike Hodges, 20, 22-14; E.J. Houston, 21, 12-11; Gary David, 22, 12-10; Aubrey Oursbourn, 24, 6-14; Kathi Gullett, 25, 12-7; Roy Salas, 25, 13-6; and Tanya Meixner,

37, 0-7.

Gary Davis maintains his hold on the season lead and upped that to three points this week. He has 52 correct guesses for the season. Four persons share the runner-up spot with 49 points each, Didway, Martha Miller, Basil Sherman and Mark Williamson.

Self-Taught Mechanic Establishes Firm

Doctor's advice to leave his native Oklahoma back in 1952 prompted Rube and Ruby Powers to head west. Their plans were to stop in Olton for cotton harvest and then resume their journey to Arizona and a new home.

Rube recalls the lone person he knew in Olton was Frank Mandrell whose father was a neighbor at Carnegie. He began working for Straw-Burrow Gin and by the end of ginning season was feeling so well that the Arizona plans were forgotten.

"The good Lord and this community have been real good to us," he says. Ruby adds, "This is home and it always will be. People here are the best I've ever seen."

She says it doesn't take long to get ready for Olton and home again when they visit in Oklahoma. "Maybe it's because we no longer know everyone there that it seems folks there aren't as friendly. I just know though the people here are the friendliest folks anywhere."

Rube and Ruby "grew up with the kids" since they were only seventeen and fourteen when they were married. Ruby was just 16 when their first son, Leroy, was born. Leroy and his wife, Patty, and their family live in Plainview where Leroy is supervisor of the Coca Cola Bottling Company. They have two daughters and a son.

Raymond works with his dad and has his own business, "Raymond's Auto Parts." He and his wife, Debra, are parents of two sons.

The youngest Powerses, Diane and Rusty, are students in Olton Junior High. Diane is an eighth grader; Rusty, a seventh grader.

Ruby came to work at the shop when Raymond and Debra lived in Lubbock a year and has been there

ever since. She "chases parts" - making innumerable trips to pick up parts that they might not have in stock and need "right now" to complete a job.

"I'd never have made a go if it hadn't been for her," Rube says with humble praise of his "help-mate."

All sorts of tasks fall Ruby's lot from keeping books, answering the phone and two-way radio, running errands and countless other jobs even holding a flashlight while Rube checks an ailing irrigation motor that he's been called to repair in the night.

Just as people become ill "after hours," motors are prone to fail at any hour of the day. It is not unusual to be called out of bed to restore an irrigation well in its vital work.

Rube recalls when he came to Olton he had never worked on an irrigation motor and, after applying for a mechanics job, confessed to his would-be employer that he was afraid he could not do the work. So, for two years, he worked at

farming and at the gin before he began practicing his real profession.

"After watching a mechanic overhaul an irrigation motor, I knew I could do what he did and do it just as good so I've been doing it ever since."

Irrigation motors and truck repair are the major part of Rube's work. He readily admits he is not sufficiently trained for some of today's cars. "There are some I won't even try to fix," he says.

His first major mechanics work was a Model A, he recalls, and a complete overhaul was about \$300 if I remember right." The biggest job he's had was a twelve cylinder, industrial engine for a Hart gin.

Son of a farmer-blacksmith-mechanic, Rube remembers he was about 13 years old when he really began his career. "I got started by working on one cylinder motors on old washing machines."

"I thought when I got my own business, I could go to work when I wanted and

quit when I wanted," Rube says with a grin but admits he found the opposite.

"Folks have asked us how can we stand to work together," Ruby says. "I tell them we're too busy to fight while we're working and too tired to fight when we're home."

Irrigation season is the busiest time for Rube and Son Garage with the truck season coming right afterwards. "Then we have a slack time and then folks begin to get everything ready to go again."

Farmers are hesitant to have needed overhaul work lined up today since costs of parts have spiraled upwards so much. Equipment, too, has increased in an almost unbelievable rate.

"We just have to make estimates on labor and tell them we don't know about the parts," said Rube. Parts, too, have been hard to get especially one of the most used motors for irrigation.

Rube worked as a mechanic for Floyd Gray for nine years before putting in his own shop in a quonset

building on Highway 70 near the Dairy Mart. They have been in their present location, further west, for four years.

For some time, Rube says, he had to take well motors that operated on natural gas or butane into Plainview to have hard seats replaced. He now has his own head machine so that all can be done in his own shop.

No stranger to hardship, Rube has a compassion for others that often comes out in his work. Ruby recalls one night when Rube came home from work. Although she had left his supper on the table and stove, she got up and went into the kitchen to join him only to discover he had brought home the customer and his family.

"He was fixing them plates when I went in. I'd never seen much dirtier people and Rube asked them to spend the night! They didn't but I told him when they'd gone, 'If they'd stayed, I would have made them take a bath first' but that's the way Rube is - they were hungry so he was feeding them."

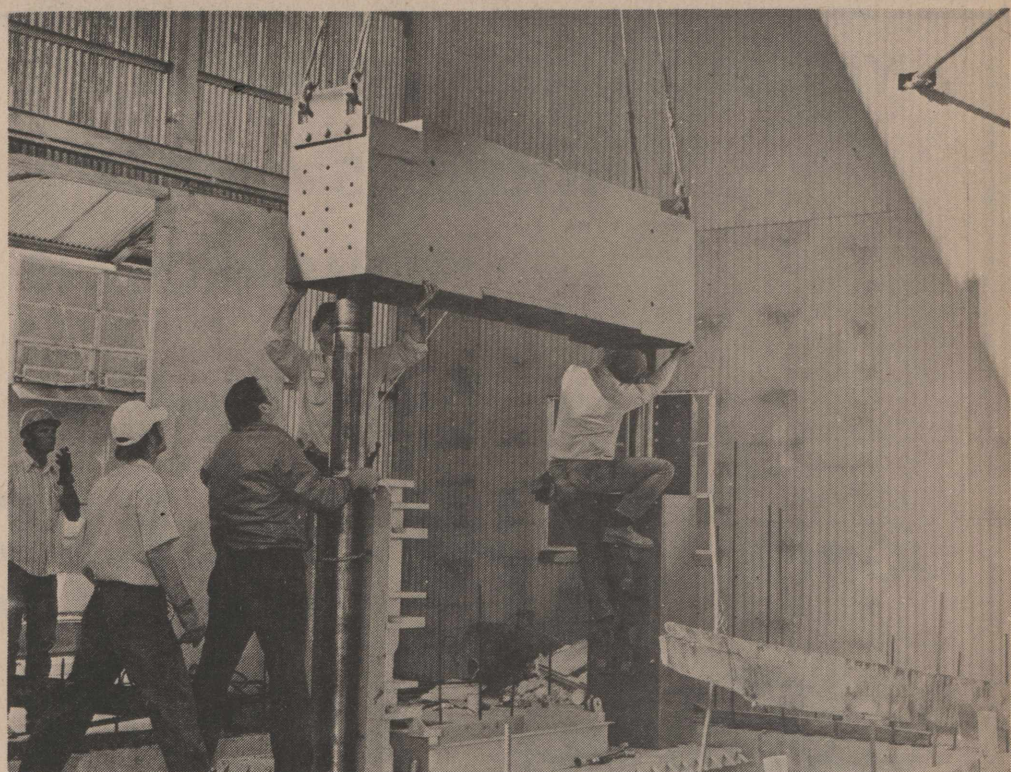

Able to laugh at himself, Rube recalls a couple of embarrassing times which bring smiles today but failed to be humorous at their happenings.

"When I was working for Floyd, we had two identical trucks to fix for one fella. I went out and got one and completely overhauled it. When I went back to get the other one, I got the one I'd already fixed, pulled it into town and had it tor: down before I realized it was the one I'd already fixed!"

The second involved irrigation motors which Rube had in his own shop awaiting overhaul work.

"We had six or seven in the shop at the time and I fixed Devurn Mandrell's and

NEW ADDITION to Olton CoOp Gin is lowered into place under the watchful eyes of several engineers of the huge press. When all is completed, according to Lloyd Graham, manager of the gin, the gin will be able to turn out 18 bales of cotton per hour.

OHS Students Receive Letters Of Commendation

Pat Britton and Virginia Daugherty have been named Merit Program Commended Students by the National Merit Scholarship Corporation and have received Letters of Commendation, says OHS Principal Robert Sivley.

The two seniors are

among the 38,000 commended students named on the basis of their high performance on the 1973 Preliminary Scholastic Aptitude Test/National Merit Scholarship Qualifying Test (PSAT/NMSQT).

Commended students are in the upper two percent of

those who are expected to graduate from high school in 1973. Edward C. Smith, president of NMSC, said: "The high standing of Commended students in the Merit Program shows their great promise, and their attainment in this nationwide program deserves public recognition. The Commended students should be encouraged to continue their education. Both these students and our nation will benefit from their further educational and personal development."

To increase their scholarship opportunities NMSC reports the Commended students' names to the regionally accredited colleges they named as their first and second choices when they took the PSAT/NMSQT in October, 1973. The reports include home addresses, test scores and anticipated college major and career intentions of the commended students.

Election Of Officers To Be Held By SWCD

Everything But The Kitchen Sink

BY MOZELLE TROTTER

One of these days - oh, what a well-worn phrase! Ripley wouldn't believe it (neither do I) but maybe one of these days we'll turn out an errorless newspaper. Typographical errors have a way of evading the scrutiny of all eyes and the other kind of goofs really plague us.

If we happened to turn out a flawless job though we'd disappoint everyone who thinks we're "only human" and that would never do.

Boss Lady said last week, "This may be when we find out if our libel insurance is any good, putting these old pictures in here." So far, we haven't been run out of town so there are more this week.

That's lots of fun, digging into the past and finding the old pictures and records of by-gone days. There's bound to be a good many old photos about town and we'd love to use them now and then in the "This Was Olton" caption. Everyone liked those, it seemed, but nearly everyone must have waited for "George" to share his pictures.

Thanks to Margaret Burrus and to Charlie Fay and Dubbs Granbery we've had a number of oldies-but-goodies. (Others, too, and we appreciate them, too). Come on, y'all, share with us. The pictures are not hurt and we'll return them safely

and soundly - and surely but probably slowly. We're that way, too.

Housewarming Honors Couple

Mr. and Mrs. Luis Lopez Sr. were honorees Monday night at a housewarming in their new home in Olton. They recently moved here from Hart Camp.

The refreshment table, covered in white, was centered with an arrangement of red roses. Fruit punch, coffee and cookies were served using silver and crystal appointments.

Some thirty-five friends and relatives were in attendance. Individual gifts were presented.

CLUB MEETS

Mrs. Jerry Goheen of Littlefield was hostess last week to Springlake Thursday bridge club. Guests were Mrs. Kay Pace and Ms. Myrlene Bridwell, both of Littlefield and Mmes. J.T. Gibson, Ed Jones, K.B. Parish, Hollis Cain and Jim Winder.

OUT OF HOSPITAL

Mrs. L.D. Amerson was dismissed early this week from Methodist Hospital where she had been a patient more than a week.

"I said, 'Sure it is, it's got your name on it.' And then his hired hand came up and said, 'That's not our motor.'

"It was already set up and running so I told Devurn, 'You go ahead and use it and I'll find yours.' Well, I called Landon Smith and had him look at the motor that had his name on it and asked him, 'Is this your motor?'"

"Landon said, 'No, my motor is out yonder running on Devurn Mandrell's well.' They'd already discovered my mistake. They were both real nice though and didn't get mad."

Helping the Powerses at the garage are Lupe Saldivar and Tony Valdez. Busy though he is, Rube still finds time for hobbies. An excellent marksman, he enjoys hunting. He likes to fish and his latest hobby is using his new buzz saw to cut firewood.

HAS SURGERY

Mrs. Floyd Banister had surgery Monday morning in Plainview Central Plains Hospital where she had been a patient several days.

MRS. IRA WELCH

Cook Of The Week

Cooking, our Cook of the Week says, "Is something I've always loved to do." The recipes Mrs. Ira Welch shares with Enterprise cooks are some that have won the approval of her family and become favorites. The pumpkin-pecan pie, Hazel says, is one that "even folks who don't like pumpkin will like this."

Hazel grew up at Muleshoe and Plainview. It was at Muleshoe that she met her husband. Ira was born and grew up at Earth. Ira, who has more than 20 years experience with John Deere, is service manager for Thompson Implement.

The Welches have three sons and a daughter. Their daughter, Sandra Settle, and youngest son, Carrol, both make their home in Lubbock. Jimmy, the eldest, lives in Amarillo. Dwayne and his family

moved to Olton soon after his parents.

Sewing is also a hobby for our cook. Senior director for Mary Kay cosmetics, Hazel genuinely loves her work, especially because of being with people and meeting new persons. She has been with the company seven years.

The Welches are Methodists.

EASY FRUIT CAKE

3 c. dates

75 candied cherries

8 slices candied pineapple (green and yellow)

4 c. pecans

2 c. walnuts

1 4 oz. can coconut

1 can Eagle Brand milk

Cut up fruit, mix all ingredients together. Pack in tube pan and bake 2 hours in 250° oven. Garnish with pineapple cubes, cherry halves and pecan halves 30

minutes before baking time is over. (There is no flour or other dry ingredients in this recipe.)

PUMPKIN PECAN PIE

1/2 c. chopped pecans

1/4 c. brown sugar

1/4 c. melted butter

2 eggs

1 1/4 c. pumpkin

3/4 c. brown sugar

1/2 t. salt

1 t. cinnamon

1/2 t. ginger

1/2 t. nutmeg

1/2 t. cloves

1 1/2 c. evaporated milk

Combine pecans, 1/2 c. brown sugar and melted butter in small bowl and set aside. Beat eggs slightly in large mixing bowl; add 3/4 c. brown sugar, pumpkin, salt and spices. Mix well. Stir in evaporated milk; pour into pastry shell. Bake in hot oven (425°) 15 minutes. Reduce heat to 375 and bake 30 minutes. Arrange nut mixture around edge and in center of pie and bake an additional 10 minutes or until knife inserted half way between edge and center comes out clean. Garnish with whipped cream in circle created by pecan mixture.

HOT ROLLS

1/2 c. warm water

1/2 c. sugar

2 pkgs. dry yeast

2 c. mashed potatoes

2 eggs, slightly beaten

1 stick oleo, melted

4 1/2 c. all purpose flour

Sprinkle yeast over top of warm water with sugar. Let stand 10 minutes. Mix together potatoes, yeast mixture, eggs and salt. Add 2 c. flour and mix well. Add melted oleo. Turn onto floured board and knead in remaining flour. Put in greased covered bowl and let rise until doubled. Shape into rolls and let rise again. Bake in 450° oven till golden brown. Can be stored in freezer and used when needed.

Leftover potatoes may be substituted but decrease salt accordingly.

Mr. and Mrs. Hilton Moore of Bovina were Sunday afternoon callers of Mrs. Tom Stansell.

Luncheon

Slated Soon

Retired teachers and teachers planning to retire in the near future will find TSTA sectional meeting scheduled for Lubbock very important, according to Mrs. Edna Buster secretary of the organization.

Slated as a luncheon, the meeting will be held in First Christian Church, Fellowship hall, 2323 Broadway, Lubbock, at 12 noon.

Dr. Grady St. Clair, past president of TSTA, will discuss "State and National Legislation for Retired Teachers."

Tickets for the luncheon are \$3. Reservations should be made with Mrs. Buster, 3312 43rd St., Lubbock, 79413, by Monday, Oct. 21.

Of Thanks

We wish to express our thanks to everyone for their kindness in the loss of our mother. The prayers, words of comfort, cards, visits and flowers means so much to each of us.

Family of Mrs. C.H. Smith

I wish to express gratitude to friends who have been so kind during my illness and surgery. Your concern as shown through prayers, cards, foods and visits has been of much comfort. Art and I are very grateful for progress toward good health and ask God's blessings upon you all.

Mrs. A.S. (Pauline) Nafzger

you get it all with

NATURAL ENERGY

Gas Heating

Fresh, warm air gently circulating from floor to ceiling... so nice to take for granted. Comfort is clean gas heat.

And that dependable comfort is such a bargain here in West Texas. Though gas energy costs a little more than it used to, gas furnaces still **cost less than one-third as much to operate** as similar electric furnaces.

And at the same time you're saving money with gas heating, you can also have a warm feeling knowing that you're helping conserve energy. Gas heating uses **only half as much energy** as an electric system doing the same job.

Comfort, efficiency, and economy... you get it all with natural energy gas heating.

Whirlwinds Down The Mustangs

Olton won the battle of the trenches in last week's contest with Floydada, but the Winds used their outside quickness and a hurricane named Donzell Minner to explode for 28 first half points and then they outlasted the Mustangs for a 28-16 victory. Over 2500 football fans witnessed the game which was named one of the top two AA games in the state.

Olton won the toss of the coin and returned it to around the 30 yard line. The Floydada defense held the Mustangs for three straight plays so they had to punt.

Floydada got the ball and came out throwing. On their very first play from scrimmage, QB Mike Vickers called "the bomb", to Donzell Minner, but the pass was incomplete. After that play and a short run, the Whirlwinds were faced with a third and long situation. Vickers went back to pass and threw a perfect strike to Minner who ran an "cut" route enough for the first down. Then, Floydada steadily drove the ball downfield, with Vickers completing three more passes to Minner-the last one for a touchdown. The extra point was good, and the score stood 7-0.

After ensuing kick-off, the Mustangs began a little drive of their own, with Glen Johnson capping the drive with a two yard plunge. Johnson also ran the try for two, and then the score was 8-7; Olton.

Olton didn't have the lead long, however, because ol' Donzell took the kick-off, got a few blocks, made it to side line, and raced all the way for his second touchdown. Score-14-8; Floydada.

After this kick-off, the Mustangs tried to get back in the game. Facing a passing situation, Mustang QB Jimmy Parker tried to pass, but the ball deflected off one Whirlwind and landed right in the arms of another Whirlwind. In just

a few plays later, the Floydada fullback scored to make the score 21-8; Floydada. The rest of the half was a stand off until, with four seconds left, vickers threw "the bomb" to Minner for Floydada's fourth and final touchdown. Score-28-8; Floydada.

The Olton Mustangs, helped by you great fans, came out after a halftime fired-up. The linemen blocked great and the Mustangs outgained Floydada

day in yardage, but could only put one more Johnson touchdown on the board, and the final score was Floydada 28 and Olton - 16.

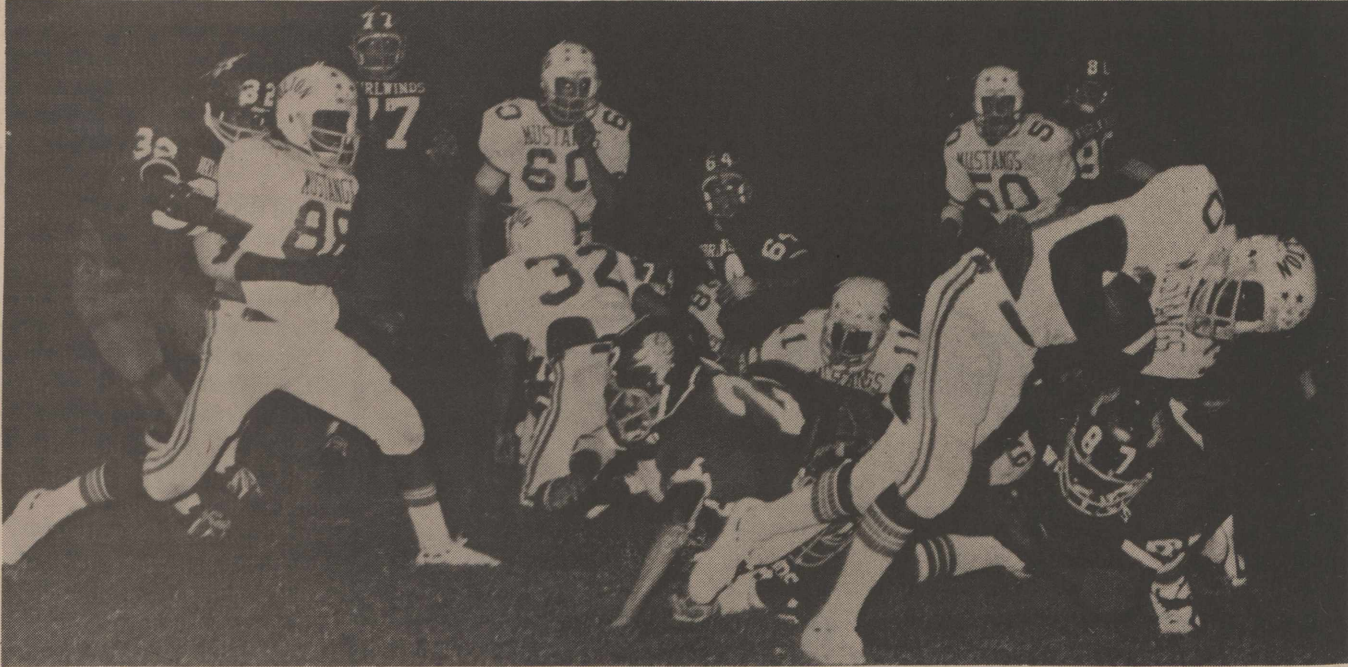

For their fine blocking, all of the starting linemen were awarded a star. Johnson and Ray Rodriguez were given defensive awards, and Glenn also received one for his outstanding running. J.D. Caudle was named Mustang of the Week for his all-around performance.

Looking at last week's

scores, we see that Dimmitt blasted Tahoka 41-6; Friona nipped Tulia 6-0; Littlefield got by Muleshoe 8-0; and Frenship scalped Morton 9-6.

This week's action finds Dimmitt against Tulia in the Bobcat's first real test of the season. We think that the Bobcats will win, but it won't be as easy as their other ones have been. Next, we have Floydada at Littlefield, in an annual exciting contest. Floydada

just has too much quickness for Littlefield, and their defense should be able to stop the Wildcats' Turner-prone offense. Friona should be able to win their contest with Big Hart. Idalou travels to Morton to take on the Indians. This should be Morton in a fairly easy contest. Last, but not least, Olton should get back to their winning ways with a decisive HOMECOMING victory over the Abernathy Antelopes.

DISTRICT'S LEADING SCORER Glenn Johnson is downed by a Floydada player during action in the game Friday night.

Johnson made more yards rushing against the Whirlwinds than did the entire Floydada team.

A Look At District 3-AA

By Don Windle
(Sports Editor - Friona Star)

After four weeks of play, there are only two teams left undefeated in the District 3-AA. Dimmitt continues to overpower its opponents with a relentless offensive attack that has accumulated 1,381 yards on the ground and Friona continues to play shutout defense as the Chieftains have yet to allow an opponent across their goal line.

Olton was the latest district team to go down to defeat as the Mustangs fell victim to a 28-16 defeat at the hands of a powerful Floydada team. Mental mistakes by the Mustangs proved to be their downfall. The Mustangs were playing without one of their backfield aces, Joe Alcorta. The offensive spark suffered a back injury two weeks ago and was not ready to play. Littlefield, the defending district champion has now won two victories back-to-back after opening the season with a loss and playing Levelland to a 7-7 deadlock. However, the Wildcats of Coach Jerry Blakely have been hit hard as their ranks have thinned considerably by injuries. The Cats got Buddy Jungman back for the Littlefield victory over Muleshoe, but lost Rick Hopping for a spell. Stanley Patterson, Ronald Parmer, Kent Elms, and Jungman have lost playing time because of injuries.

The Morton Indians bite the dust for the third straight time this week falling to Frenship, 9-6. Coach Roy Winter's crew is having difficulty moving the football and making mental errors like fumbles and blocked kicks. Against Frenship, the Indians dropped the football four times. Morton is missing a key player in Tony Soliz, who injured a knee two weeks ago.

The Friona Chieftains got one of their starters back this week when fullback Davy Carthel reported to the starting lineup. He has missed two straight games, but came back against Tulia to rush for 42 yards and score the games only touchdown as Friona defeated the Hornets, 6-0.

Defense is the name of the game for the Chieftains of Coach Bob Owen. Friona has yet to yield a point in season play as they blasted Farwell, 44-0, nipped Muleshoe by a 13-0 count and held Tulia scoreless, 6-0. Defense is the name, but scoring will probably be the difference in winning and placing second in the tough

district 3-AA competition. When it comes to scoring, everyone can look to the Dimmitt Bobcats. Dimmitt has scored 131 points in four games for an average of 32.8 points per contest. The Bobcats have averaged 444.0 yards per game on offense. Mayberry, Veals, Morton, Lawson and Brad Sanders

compose the Bobcat scoring attack and they are great.

Littlefield's Bill Turner continues his assault for the rushing title as he has pounded for 603 yards, but Robert Mayberry of Dimmitt and Glenn Johnson of Olton are giving the Wildcat a run for his money. Mayberry has 570 yards while

Johnson has ground out 545 yards.

Johnson is the district scoring leader with eight touchdowns and two extra points for 50 markers. Mayberry is second with seven six-pointers and a two-point PAT for 44 points. Veals, of Dimmitt, is third with five touchdowns for 30 points.

a good word for a GOOD IDEA

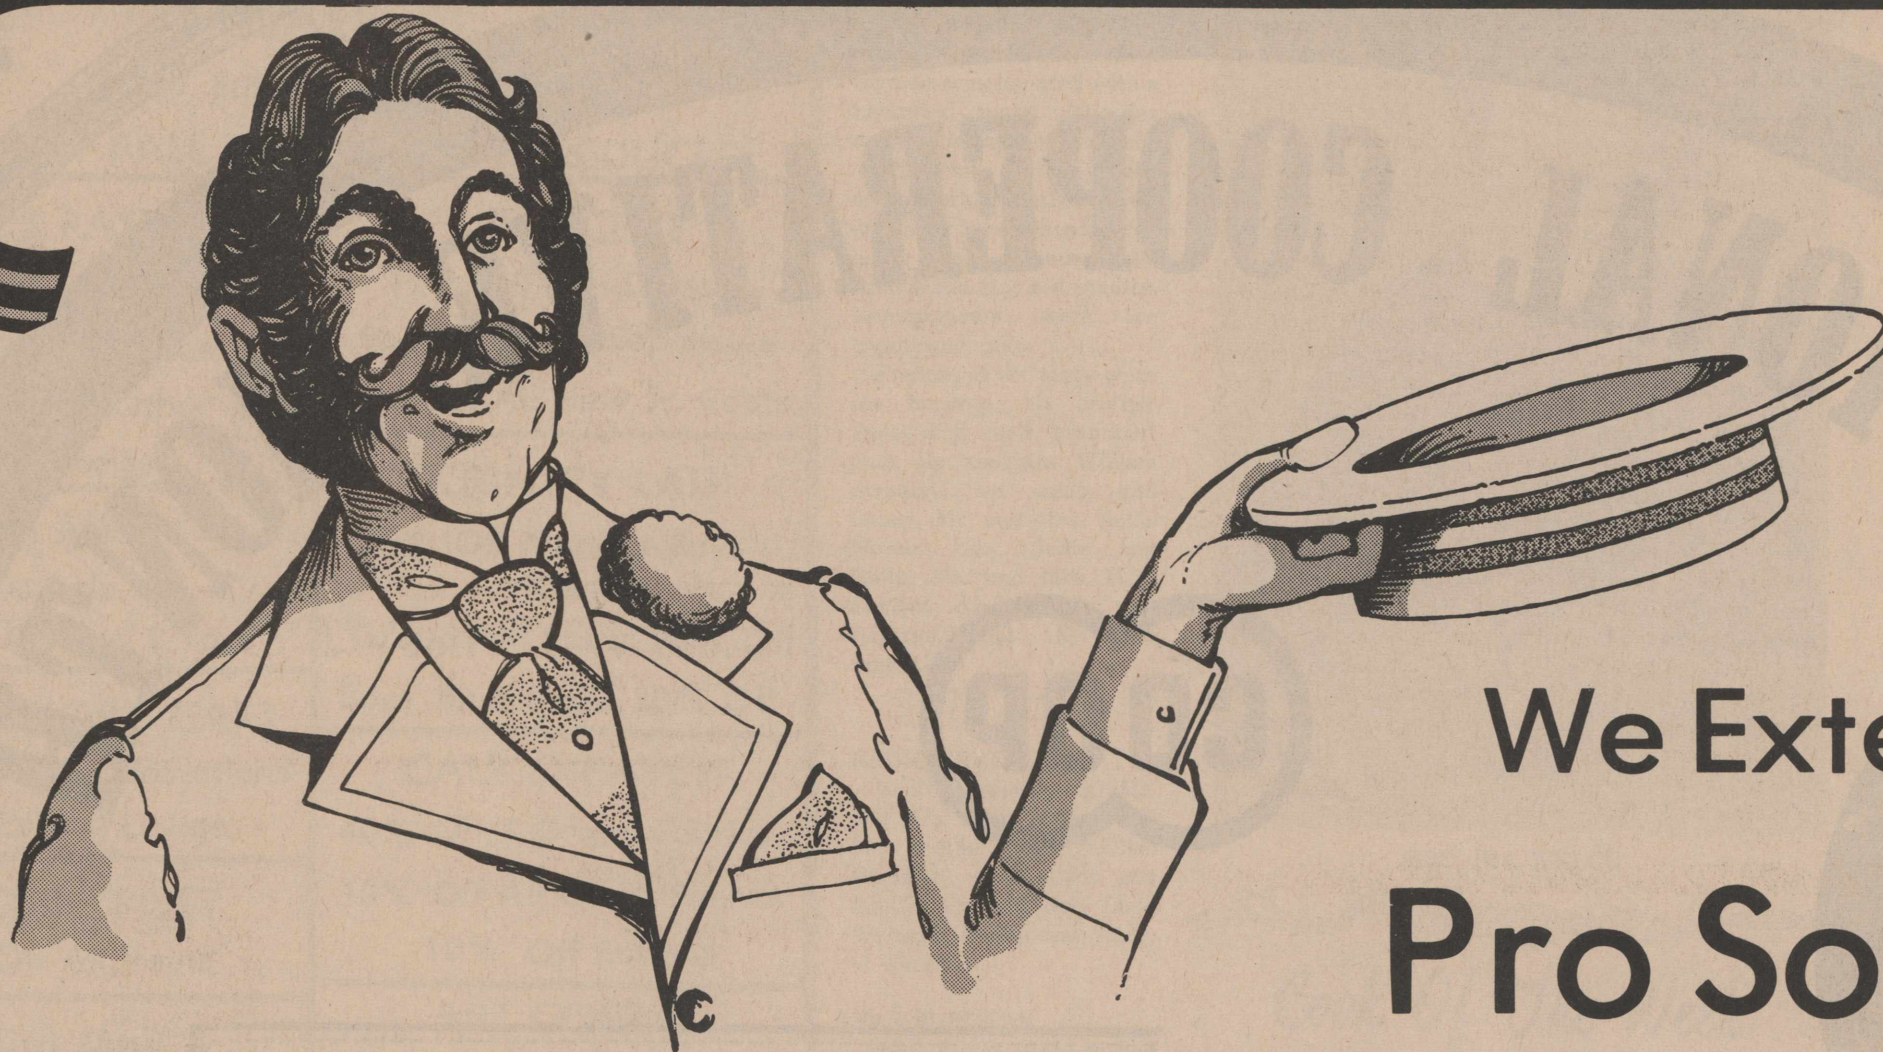

And you can't keep a good idea down. All over the world people are working together, to make life better for themselves and others.

In our own country, millions share ownership in cooperatives of all sorts—from city apartment co-ops to rural electric co-ops.

So what makes a co-op different? This: it serves the people who own it at cost. Each consumer-owner has a voice in running the co-op; one member, one vote.

October is Co-op Month. All over the country, the people of America's cooperatives are committed to working together for a better tomorrow. We are proud to help carry out this pledge.

BRYAN ALLCORN AND FREDDY STOCKDALE

What a week! As most of you know Floydada out scored Olton by a score of 28-16. We came out of the game with no injuries. Then, while traveling to Lockney for supper, Leslie Gary had a break down and on the band bus Vicki Kennedy had a blow-out. What some people will do to get attention!

Boy this is fun, isn't it Kevin?!

Speaking of attention, the homecoming tradition of Olton got it last week. We even had sophomores ripping off the seniors kleenexes or should we say "dead sophomores."

This is a blast! Right Kevin?

The seniors are getting the halloween skit rigged up for Nov. 2. This year, we're letting out secret information on the "Watergate Comedy Hour!" And also as a special treat, we have a very special secret guest coming. No, it's not Richard Nixon - it's more like the name B.B. Rebozo. We said it's like the NAME B.B. Rebozo, plus the added attraction of the break-in of the Watergate Hotel, and even a few homemade commercials. Remember, that's November the second, Nineteen hundred, seventy-four. Drive a little, save a lot! Thanks a million!

Kevin Workman, Olton, Texas; real clown!

Comments:

Carla C. - training already?
Scott R. - Did you get the English award?
Ricky S. - By gosh, I swear.
Kevin W. - Workin' on a groovy thing.

Senior of the Week - Vicki Kennedy
Junior of the Week - Kevin Workman

WEEKEND VISIT

Visiting Saturday until Tuesday with Mr. and Mrs. J.A. St. Clair were their daughter and family, Mr. and Mrs. Wilton Cox and Trenton of Coynosa.

REGIONAL QUALIFIERS OF 1936 - Dub Hair, Vernon Nixon and Robert Bryant scored 26 points to finish second back of Lames. Bryant was high point man with 17 points, he won second in high hurdles and discus and Nixon was second in low hurdles. Both went to state. Oldtimers, note background - old red school to left, white building for first grades back of boys, and small buildings reached by paths to right. Far right background, windmill back of superintendent's house.
