Vandalism

Wreeked kitchen (top photo) and smashed bedroom (bottom photo) show the heavy damage caused by vandalism in a house owned by Mr. and Mrs. John Bruton at 704 Chestnut. The wreckage was discovered here Tuesday by relatives of the Brutons. Police and Sheriff's officers are investigating the vandalism believed to have been caused by juveniles over a period of months.

Shattered Door

The smashed door shown in the above photo was removed from hinges and thrown into a bedroom of the vandalized Bruton house here.

Residence Ripped Apart By Vandalism

One look inside and you would think a storm struck the two-story house on the corner at 704 Chestnut.

But it was vandalism, not a tornado.

And it will not be until the owners, Mr. and Mrs. Bruton, return here that the hundreds of dollars in damage can actually be counted.

The toll, however, includes shattered doors, broken windows, smashed mirrors, ripped mattresses, broken dishes and lamps, wrecked furniture, stolen food, and debris scattered in every room.

Mrs. Irene Fowler of Phoenix, Ariz., visiting here in the home of her brother and sister-in-law, Mr. and Mrs. Rance Dockrey, discovered the wreckage Tuesday.

She had gone to check the condition of the house for her sister, Mrs. Bruton.

The residence, fully furnished, has been occupied by Mr. and Mrs. Bruton during the last two years only on summer visits when they return to Colorado City from their small farm at Alamo.

"They were here last summer," said Mrs. Fowler, "and getting ready to come back this summer.

"And then I found this . . . terrible!"

Mrs. Fowler had trouble opening the front door because of the wreckage and debris inside the house.

But the back door, on the northwest side of the house, had been broken open. The rear screen door was torn away and two planks and a large piece of plywood nailed over the door had been ripped off.

In the downstairs front living room three bed springs were piled into the floor along with three ripped and torn mattresses.

A sewing machine was torn apart, the mantel mirror smashed, a lamp broken and scattered. And a picture painting had been stabbed full of holes.

In a downstairs bedroom dresser bed springs were taken from the bed, dresser drawers ransacked, letters and clothes strewn on the floor, dresser mirror smashed, furniture overturned.

The same destruction was in two other downstairs rooms—an electric toaster thrown into a pile of ripped and torn bedding and clothes.

You were reminded of the devastation of a flood or tornado in the kitchen where debris was piled two feet high in the middle of the floor.

Cabinets and shelves were bare with broken dishes scattered through-

General Rain Soaks Most Mitchell Crops, Pastures

Best Moisture Since Spring

Mitchell County farmers, ranchers and business men Thursday smiled under clouds that dumped the finest general rain on the county since last spring.

Moisture, measuring up to almost three inches late Wednesday night and early Thursday, soaked just about every area in the county.

In many areas it fell on the heels of showers that already had dampened thirsty soils Tuesday.

Only areas west of Westbrook and south of Iatan were reported missed by the rain.

Farmers counted the rain as a life-saver for young cotton and just right for late feed crops and all pasture lands.

It could mean a million dollars in cotton alone, some emphasized.

Right here in Colorado City—the wettest spot in the county during the last few days—the official measurement on Courthouse lawn amounted to 3.02 inches of moisture since Tuesday.

Colorado City's rain between Tuesday with .79-inch Tuesday, .30-inch Wednesday evening and 1.93 Wednesday night.

However, the downpours varied in sections of the city with some residential areas receiving only light sprinkles Wednesday evening, but registering more rain than the downtown section later in the night.

Most rain reported Wednesday night in the county was in the Loraine vicinity.

K. L. Taylor, the Loraine banker, reported 2.5 inches for Loraine Wednesday night with no washing, all soaking. The rain varied from 2.3 to 2.8 inches north and south of town, he said.

"It all soaked in and is just wonderful for this area," Taylor emphasized.

More than two inches of rain soaked the Buford area Wednesday afternoon and night after skipping Tuesday.

Raymond Watlington said his Buford rain gauge measured 2.25 inches.

"Cotton already in bolls will be helped to maturity," Watlington said, "and the moisture certainly will help those bolls just developing.

1,200 Expected To Vote Saturday

A light turnout of approximately 1200 voters is expected here Saturday for the Democratic Primary runoff election.

Only three races will be on the Mitchell County ballot. And one of those three will be strictly for voters of Precinct 2.

The race for the State Legislative post is attracting the most attention here. That race matches Temple Dickson of Sweetwater against Max Carriker of Roby.

The only state race on the ballot is between Robert W. Hamilton of San Angelo and J. Edwin Smith of Houston for Associate Justice of the Supreme Court.

The Precinct 2 race — for County Commissioner — pits incumbent W. N. (George) Bacon against Louis (Choppy) Rees, both of Westbrook.

County Clerk Gilbert Leach made the estimate of 1,200 voters on the basis of the absentee ballots already turned in.

Leach said Thursday evening that 44 absentee ballots had been cast with approximately eight or 10 more due to come in by noon Saturday.

The polls will open at 8 a. m. Saturday and close at 7 p. m.

Both runoff candidates in the race for the state representative's post of the 91st Legislative District have waged hot campaigns here.

Both Dickson and Carriker have conducted house-to-house hand-shaking campaigns since the first primary July 26.

Dickson led in the first primary in Mitchell County with 1,139 votes to Carriker's 890. The incumbent—L. L. Armor, received only 451.

The race between Bacon and Rees was extremely close in the first primary. Bacon counted 134 votes to Rees 131. The third man in the race, L.L. Messimer, garned 26 votes.

Renewal Talk Friday For Luncheon

Urban Renewal—which goes before Colorado City voters Tuesday in a special municipal election—will be talked Friday at a combined civic group luncheon in Civic House.

Speaker for the special luncheon program—open to all interested citizens — will be Frank Von Zuben, a ranking engineer with State Health Department in Austin.

Sponsoring the luncheon is Chamber of Commerce with cooperation of Lions, Jaycees and Kiwanis, Business & Professional Women.

The luncheon combines all noon meetings of the civic clubs this week.

More than 150 persons are expected to attend and interested persons not affiliated with Kiwanis, Lions or Jaycees should make reservations for the luncheon early Friday morning at Chamber of Commerce office.

Von Zuben will explain how Urban Renewal can be utilized within a communities to redevelop blighted areas—combining private business or municipal development with special federal funds.

The election Tuesday will decide whether Colorado City, under new enabling statutes authorized by State Legislature, goes ahead with study and planning for actual Urban Renewal redevelopment or drops the opportunity for the program.

The election Tuesday will be for qualified city voters and has been called by City Council, who has studied Urban Renewal for several months.

MISSIONARY RUSSELL, . . . preaching Sunday.

FOR SUNDAY SERVICES

Guest Speakers For 4 Churches

At least four principal Colorado City churches will have guest speakers for worship services Sunday.

Visitors will be in the pulpits at First Baptist, Oak Street Baptist, First Presbyterian and First Christian.

Two of the speakers will be from the Far East — Thailand and India.

Conducting morning and evening services at First Baptist Church will be Rev. Rudalph Russell, Southern Baptist missionary to Thailand now in the U. S. on a year's furlough.

Russell, a graduate of Baylor University, and his wife went to China as missionaries in 1948. Forced to flee because of the Communist revolution, they were reassigned to Thailand.

The Russells now have served two terms in their mission, centered principally in Bankok.

Speaking at the morning service of First Christian Church will be Samuel Dayal, an elder in the Japalpur Christian Church in India.

Dayal, a teacher in India schools, is studying for a master's degree in education at Texas Christian University. Here Sunday he will present a layman's viewpoint of missions in the layman's own country.

Conducting Sunday services at Oak Street Baptist will be Dr. Lindal O. Harris, professor of Bible at Hardin-Simmons University.

Dr. Harris will serve as interim pastor of Oak Street and will conduct mid - week and Sunday services indefinitely at the church.

Dr. Harris is serving as interim pastor since the recent resignation of the Oak Street pastor, Rev. James Carraway, who is organizing another Baptist church here with services at Primary School.

Rev. Don Meghan, associate pastor of First Presbyterian Church in Lubbock, will speak at the 11 a. m. Sunday service at First Presbyterian Church. He also will speak at the Aug. 31 service.

BAND CONCERT AND CEREMONY

320 Youngsters Get Swim Awards Friday

More than 320 special gold and blue certificates are ready for presentation to youngsters in Colorado City's 1958 Learn-to-Swim program.

The certificates, 11 by 8½ inches in size and suitable for framing, will be presented Friday night to youths who have succesfully completed either non - advanced or advanced swimming courses under direction of City Recreation Department.

Awards ceremony for the presentation of certificates will be in Ruddick Park Amphitheater at 7:30 p. m. The program — open to the public—will be postponed in case of rain or inclement weather.

A special band concert by more than 140 musicians from Colorado City, Loraine and Silver will be a feature of the awards night program.

Dwight Tomb and Warren Thaxton, Colorado City band directors, will direct the band concert — a closing feature of Colorado City's Summer Band School which has been conducted here the last two weeks.

The awards ceremony and concert is a climaxing feature of the giant Learn-to-Swim campaign which attracted an all-time record participation this summer in free swim courses at Ruddick Park Pool.

Sponsoring the campaign jointly were Colorado City Parks & Recreation Department and Colorado City Record, which is furnishing the special certificates.

Swimmers will receive their individual certificates from Roy Fox, chairman of City Parks & Recreation Board and co-publisher of the Record, and City Recreation Director James Poe.

The certificates, blue lettering on gold background, will certify that each individual has satisfactorily completed necessary requirements in the Learn-to-Swim program. Each certificate will specify whether the course was in non-advanced or advanced swimming.

More than 200 youngsters are eligible to receive non-advanced certificates and more than 120 youths are eligible for advanced swimming certificates, according to Poe.

Fire Truck Sent To Snyder Blaze

A Colorado City fire truck was dispatched to Snyder at 3:30 a. m. Thursday to provide aid in fighting a two-story store fire in that city's business district.

Fireman J. A Sadler Jr. drove the pumper to the scene after Snyder radioed here for assistance.

The fire destroyed a former theater building and the Owens Department Store. Both were located on west side of the square.

Wrecked Living Room

Ripped mattresses, wrecked sewing machine and smashed pictures are heaped in the living room of a two-story residence at 704 Chestnut. The vandalism took place over a period of months while the owners, Mr. and Mrs. John Bruton, were living in Alamo.

OIL DEVELOPMENT

Two Wildcat Tests Staked in County

Two new wildcat drilling tests have been spotted in opposite areas of southern Mitchell County.

The prospectors added new interest to Mitchell oil drilling operations, slowed almost to a halt during recent weeks.

Texas Company will drill its No. 1 J. H. Nail as a deep wildcat test in the county's southeast area.

Ray A. Albaugh of Big Spring will drill the No. 1 H. J. Bice as a shallow project in the southwest area of the county.

Albaugh No. 1 Bice will drill to 2,500 feet at a site 14 miles northeast of Otis Chalk. The test will be 330 feet from north and west lines of the east half of southwest quarter, Section 5, Block 17, SPRR Survey.

The shallow project is approximately two miles east of the Albaugh Field and five miles east of the Howard County line.

There were only four days during 1957 in which a motorcide did not occur in Texas.

There are 4,174,990 motor vehicles registered in the State of Texas.

Master Degree to Wallace Principal

The principal of Colorado City's Wallace High School has added another degree to his studies in education.

Master of education degree was conferred upon W. D. Harris Sunday during summer commencement on the campus of University of Wichita, Wichita, Kan.

Previously, Harris had obtained the bachelor of arts degree from Paul Quinn College in Waco, majoring in mathematics and minoring in English.

The Wallace principal, who obtained a school administrator's certificate in 1954 at University of Wichita, also has done graduate study at the University of Chicago.

Harris has 20 years of experience as teacher, coach and principal in Texas public schools. His teaching experience has covered major subject areas in high school — including, first and second course algebra, plain and solid geometry, physics, biology and high school English.

In the field of sports he has coached football, boys and girls basketball, track and tennis.

It was five years ago that Harris became principal of Wallace High. And those five years have marked a period of expansion and improvements at the school.

The faculty, in the five-year period, has been increased from six to nine teachers. The curriculum now includes required courses approved by Texas Educational Agency and public-school music, shop training, vocational homemaking, typing and special education.

Local school board is studying an additional broadening of the Wallace curriculum with driver education and general science.

Harris, in addition to his school administration, has been active in civic programs of the community. He has served as a trustee and worker for Mitchell County United Fund, a member of the board of Mitchell County Cancer Association, institutional representative for Boy Scout Troop No. 29, member of Colorado City Chamber of Commerce and Quarterback Club, and leader in Mt. Zion Baptist Church.

D. W. HARRIS, . . . adds another degree.

CONSTITUTIONAL AMENDMENT TO BE VOTED ON AT THE GENERAL ELECTION ON NOVEMBER 4, 1958.

HJR #31—Number Four on the Ballot.

PROPOSED CONSTITUTIONAL AMENDMENT TO BE VOTED ON AT AN ELECTION TO BE HELD ON NOVEMBER 4, 1958.

HOUSE JOINT RESOLUTION NO. 31 proposing an Amendment to the Constitution of Texas to provide that all county officials for whom four-year terms of office were authorized in 1954 must resign such office prior to announcing for a different office when more than one (1) year remains unserved of the term for which they were elected, and providing for the filling of such vacancies in the manner now provided by law.

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:

Section 1. Section 65 of Article 16 of the Constitution of the State of Texas is hereby amended so as hereafter to read as follows:

"Section 65. STAGGERING TERMS OF OFFICE.—The following officers elected at the General Election in November, 1954, and thereafter, shall serve for the full terms provided in this Constitution:

"(a) District Clerks; (b) County Clerks; (c) County Judges; (d) Judges of County Courts at Law, County Criminal Courts, County Probate Courts and County Domestic Relations Courts; (e) County Treasurers; (f) Criminal District Attorneys; (g) County Surveyors; (h) Inspectors of Hides and Animals; (i) County Commissioners for Precincts Two and Four; (j) Justices of the Peace.

"Notwithstanding other provisions of this Constitution, the following officers elected at the General Election in November, 1954, shall serve only for terms of two (2) years: (a) Sheriffs; (b) Assessors and Collectors of Taxes; (c) District Attorneys; (d) County Attorneys; (e) Public Weighers; (f) County Commissioners for Precincts One and Three; (g) Constables. At subsequent elections, such officers shall be elected for the full terms provided in this Constitution.

"In any district, county or precinct where any of the aforementioned offices is of such nature that two (2) or more persons hold such office, with the result that candidates file for 'Place No. 1,' 'Place No. 2,' etc., the officers elected at the General Election in November, 1954, shall serve for a term of two (2) years if the designation of their office is an uneven number, and for a term of four (4) years if the designation of their office is an even number. Thereafter, all such officers shall be elected for the terms provided in this Constitution.

"Provided, however, if any of the officers named herein shall announce their candidacy, or shall in fact become a candidate, in any General, Special or Primary Election, for any office of profit or trust under the laws of this State or the United States other than the office then held, at any time when the unexpired term of the office then held shall exceed one (1) year, such announcement or such candidacy shall constitute an automatic resignation of the office then held, and the vacancy thereby created shall be filled pursuant to law in the same manner as other vacancies for such offices are filled."

Sec. 2. The foregoing Constitutional Amendment shall be submitted to a vote of the qualified electors of this State at an election to be held on the first Tuesday after the first Monday in November, 1958, at which election all ballots shall have printed thereon:

"FOR the Constitutional Amendment providing that any District, County, or Precinct official serving a four-year term must resign before announcing for a different office if there remains unserved more than one (1) year of the term for which he was elected."

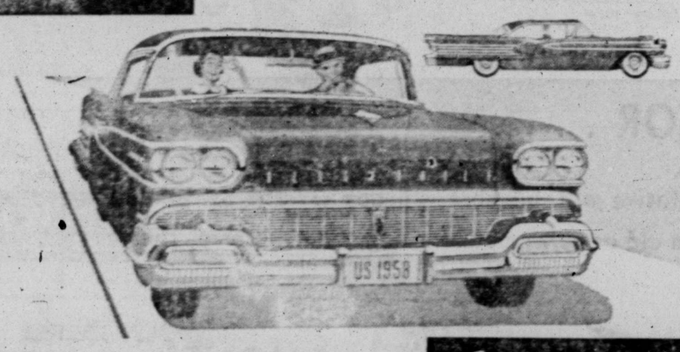

"AGAINST the Constitutional Amendment providing that any District, County, or Precinct official serving a four-year term must resign before announcing for a different office if there remains unserved more than one (1) year of the term for which he was elected."

If it appears from the returns of said election that a majority of the votes have been cast in favor of said Amendment, same shall become a part of the Constitution of the State of Texas.

Sec. 3. The Governor of Texas shall issue the necessary proclamation for the election herein provided for and shall cause this proposed Amendment to be published in the manner required by law and shall cause said election to be held as required by the Constitution and laws of this State.

CONSTITUTIONAL AMENDMENT TO BE VOTED ON AT THE GENERAL ELECTION ON NOVEMBER 4, 1958.

SJR #3—Number Nine on the Ballot.

PROPOSED CONSTITUTIONAL AMENDMENT TO BE VOTED ON AT AN ELECTION TO BE HELD ON NOVEMBER 4, 1958.

SENATE JOINT RESOLUTION NO. 3 proposing an amendment to Article IX of the Constitution of the State of Texas, by adding thereto a new section to be known as Section 5, to provide that the Legislature may authorize the creation of a Hospital District coextensive with the incorporated limits of the City of Amarillo, Texas; authorizing the County of Potter to render financial aid to and participate in the operation of such Hospital District; authorizing the Commissioners Court of said county to assess and levy taxes on property outside the incorporated limits of such city; further authorizing a countywide Hospital District for Wichita County, Texas, and authorizing the creation of two districts in Jefferson County; and further providing that any enabling Acts shall not be invalid because of their anticipatory character.

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:

Section 1. That Article IX of the Constitution of the State of Texas be, and the same is hereby amended by adding thereto another section to be designated as Section 5, which shall read as follows:

"Section 5 (a) The Legislature may by law authorize the creation of two hospital districts, one to be coextensive with and have the same boundaries as the incorporated City of Amarillo, as such boundaries now exist or as they may hereafter be lawfully extended, and the other to be coextensive with Wichita County.

"If such district or districts are created, they may be authorized to levy a tax not to exceed Seventy-five Cents (75¢) on the One Hundred Dollars ($100.00) valuation of taxable property within the district; provided, however, no tax may be levied until approved by a majority vote of the participating resident qualified property taxpaying voters who have duly rendered their property for taxation. The maximum rate of tax may be changed at subsequent elections so long as obligations are not impaired, and not to exceed the maximum limit of Seventy-five Cents (75¢) per One Hundred Dollars ($100.00) valuation, and no election shall be required by subsequent changes in the boundaries of the City of Amarillo.

"If such tax is authorized, no political subdivision or municipality within or having the same boundaries as the district may levy a tax for medical or hospital care for needy individuals, nor shall they maintain or erect hospital facilities, but the district shall by resolution assume all such responsibilities and shall assume all of the liabilities and obligations (including bonds and warrants) of such subdivisions or municipalities or both. The maximum tax rate submitted shall be sufficient to discharge such obligations, liabilities, and responsibilities, and to maintain and operate the hospital system, and the Legislature may authorize the district to issue tax bonds for the purpose of the purchase, construction, acquisition, repair or renovation of improvements and initially equipping the same, and such bonds shall be payable from said Seventy-five Cents (75¢) tax. The Legislature shall provide for transfer of title to properties to the district.

"(b) The Legislature may by law permit the County of Potter (in which the City of Amarillo is partially located) to render financial aid to that district by paying a part of the expenses of operating and maintaining the system and paying a part of the debts of the district (whether assumed or created by the district) and may authorize the levy of a tax not to exceed Ten Cents (10¢) per One Hundred Dollars ($100.00) valuation (in addition to other taxes permitted by this Constitution) upon all property within the county but without the City of Amarillo at the time such levy is made for such purposes. If such tax is authorized, the district shall by resolution assume the responsibilities, obligations, and liabilities of the county in the manner and to the extent hereinabove provided for political subdivisions having boundaries coextensive with the district, and the county shall not thereafter levy taxes (other than herein provided) for hospital purposes nor for providing hospital care for needy individuals of the county.

"(c) The Legislature may by law authorize the creation of a hospital district within Jefferson County, the boundaries of which shall include only the area comprising the Jefferson County Drainage District No. 7 and the Port Arthur Independent School District, as such boundaries existed on the first day of January, 1957, with the power to issue bonds for the sole purpose of purchasing a site for, and the construction and initial equipping of, a hospital system, and with the power to levy a tax of not to exceed Seventy-five Cents (75¢) on the One Hundred Dollars ($100.00) valuation of property therein for the purpose of paying the principal and interest on such bonds.

"The creation of such hospital district siall not be final until approved at an election by a majority of the resident property taxpaying voters voting at said election who have duly rendered their property for taxation upon the tax rolls of either said Drainage or said School District, nor shall such bonds be issued or such tax be levied until so approved by such voters.

"The district shall not have the power to levy any tax for maintenance or operation of the hospital or facilities, but shall contract with other political subdivisions of the state or private individuals, associations, or corporations for such purposes.

"If the district hereinabove authorized is finally created, no other hospital district may be created embracing any part of the territory within its boundaries, but the Legislature by law may authorize the creation of a hospital district incorporating therein the remainder of Jefferson County, having the powers and duties and with the limitations presently provided by Article IX, Section 4, of the Constitution of Texas, except that such district shall be confirmed at an election wherein the resident qualified property taxpaying voters who have duly rendered their property within such proposed district for taxation on the county rolls, shall be authorized to vote. A majority of those participating in the election voting in favor of the district shall be necessary for its confirmation and for bonds to be issued.

"(d) Should the Legislature enact enabling laws in anticipation of the adoption of this amendment, such Acts shall not be invalid because of their anticipatory character."

Sec. 2. The foregoing constitutional amendment shall be submitted to a vote of the qualified electors of this state at the general election to be held the first Tuesday after the first Monday in November, 1958, at which election all ballots shall have printed thereon:

"FOR the constitutional amendment authorizing the Legislature to create a Hospital District coextensive with the incorporated limits of the City of Amarillo, Texas, and authorizing Potter County to lend financial aid to and participate in the operation of said Hospital District, and further authorizing the Legislature to create a county-wide Hospital District in Wichita County, Texas, and Hospital Districts in Jefferson County, Texas."

"AGAINST the constitutional amendment authorizing the Legislature to create a Hospital District coextensive with the incorporated limits of the City of Amarillo, Texas, and authorizing Potter County to lend financial aid to and participate in the operation of said Hospital District, and further authorizing the Legislature to create a county-wide Hospital District in Wichita County, Texas, and Hospital Districts in Jefferson County, Texas."

Sec. 3. The Governor shall issue the necessary proclamation for said election and have the same published as required by the constitution and laws of this state.

CONSTITUTIONAL AMENDMENT TO BE VOTED ON AT THE GENERAL ELECTION ON NOVEMBER 4, 1958.

SJR #6—Number Two on the Ballot.

PROPOSED CONSTITUTIONAL AMENDMENT TO BE VOTED ON AT AN ELECTION TO BE HELD ON NOVEMBER 4, 1958.

SENATE JOINT RESOLUTION NO. 6 proposing an amendment to Subsection (b) of Section 62 of Article XVI of the Constitution of Texas, authorizing each county to provide retirement, disability and death benefits for appointive officers and employees of the county or precinct, or for appointive and elective officers and for employees of the county or precinct; providing for the submission of the proposed amendment to the voters qualified to vote thereon, and providing for the necessary election, form of ballot, proclamation, and publication.

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:

Section 1. That Subsection (b) of Section 62 of Article XVI of the Constitution of Texas be amended so as to read hereafter as follows:

"(b) Each county shall have the right to provide for and administer a Retirement, Disability and Death Compensation Fund for the appointive officers and employees of the county or precinct, or for the appointive and elective officers and for the employees of the county or precinct, provided same is authorized by a majority vote of the qualified voters of such county and after such election has been advertised by being published in at least one newspaper of general circulation in said county once each week for four consecutive weeks provided that the amount contributed by the county to such Fund shall at least equal the amount paid for the same purpose from the income of each such person and shall not exceed at any time seven and one-half per centum (7½%) of the compensation paid to each such person by the county.

"All funds provided from the compensation of each such person, or by the county, for such Retirement, Disability and Death Compensation Fund, as are received by the county, shall be invested in bonds of the United States, the State of Texas, or counties or cities of this state, or in bonds issued by any agency of the United States government, the payment of the principal of and interest on which is guaranteed by the United States, provided that a sufficient amount of said funds shall be kept on hand to meet the immediate payment of the amount likely to become due each year out of said Fund, such amount of funds to be kept on hand to be determined by the agency which may be provided by law to administer said Fund; and provided that the recipients of benefits from said Fund shall not be eligible for any other pension retirement funds or direct aid from the State of Texas, unless the Fund, the creation of which is provided for herein, contributed by the county, is released to the State of Texas as a condition to receiving such other pension aid."

Sec. 2. The foregoing Constitutional Amendment shall be submitted to a vote of the qualified electors of this state at the General Election in November, 1958, at which election each ballot shall have printed thereon the following words:

"FOR the amendment of subsection (b) of Section 62 of Article XVI of the Constitution, to authorize each county to establish, after approval by its voters, a retirement, disability and death compensation fund covering the elective officers of the county or precinct, as well as the appointive officers and employees of the county or precinct."

Leaders Win Extra-Inning Softball Tilts

First Baptist and First Methodist Church softball teams had trouble downing their opponents in games this week with both games Monday going into extra innings.

First Baptist edged by Westbrook Methodist, 7-4, while First Methodist squeezed by St. Luke Methodist, 4-3.

The games Tuesday were rained out and it was a possibility that the Thursday games would not be played due to wet grounds.

Two close contests are on tap Friday night with First Baptist meeting First Methodist in the first game. The Methodists are now tied for second place with Mt. Zion Baptists while First Baptist and Oak St. Baptists are tied for first with perfect records.

In the second game Friday, Austin St. Baptists tackle the Buford Baptists.

In the Monday game between First Methodist and St. Luke, the score was tied 3-3 at the end of the regular game. In the eighth, Eldon Mahon led off with a triple for First Methodist and then raced home for the winning run.

First Methodist had led 3-2 from the second inning onto the seventh until St. Luke rallied for one run in the seventh.

Raymond Uzzle handled the First Methodist hurling for the initial two frames with Bennie Franks taking over in the third.

Jimmy Cawthron hurled for St. Luke.

First Baptists had to rally for four runs in the eighth stanza to whip the Westbrook Methodist. The score was tied 3-3 at the end of the regulation game.

Baptists had only one hit off the Westbrook hurler Womack going into the sixth inning.

Bob Fehrmann hurled the first three frames for the Baptists while Ted Vinson finished the game.

Pointers for New Coach

Win Talley, left, points out the features of Wolf Stadium to Jerry Reynolds, new seventh grade coach. Reynolds, ex-McMurry College track star, is one of two new junior high mentors hired this year.

JERRY REYNOLDS

McMurry Sprinter To Coach Seventh

Jerry Reynolds, one of Colorado City's new Junior High coaches, was a track standout at McMurry College for four years.

Reynolds will coach seventh grade Pee-wee football and basketball, but move up to the ninth grade boys when the track season comes around.

While at Slaton High School, Reynolds was an ace halfback on the football team in addition to a top sprinter on the cinder team. He played his senior year of football under Dillard Adair, former head coach here.

Reynolds lettered four years on the McMurry track team, serving as captain last year. His top mark in the 100-yard dash was 9.6 seconds. His 9.6, incidentally, was a non-winning time in a race against Bruce Land of Cisco Jr. College who won the event with a 9.3.

In addition to the 100 and 220, Jerry ran a leg on the sprint relay. The foursome composed of Reynolds, Doug Ford of Hamlin, Paul Rankin of Portales, N. M. and Bob Gay of Abilene, turned in a 41.8 for their best time of the year.

Reynolds was responsible this past season for giving McMurry one of its finest track records in history.

The 22-year-old coach is married to the former Wilma Anderson of Colorado City.

He has seven games lined-up for his seventh grade team this fall. They open with Snyder on Sept. 18 at Snyder. Other games are Oct. 2 in Winters; Oct. 9 with Lamesa here; Oct. 16 in Lakeview; Oct. 23 with Snyder here; Nov. 6 at Lamesa and Nov. 13 with Lakeview here.

Another game may be added before the season opens.

OPENING GRID CONTEST

Light Bobcats Host Wolves in 22 Days

It will be a lightweight crew of Bobcats that take the field against Colorado High School football team on Friday, Sept. 12 in San Angelo.

If you look at the calendar, that's only 22 days away.

Preseason dope on the San Angelo High School—C City's first opponent of the '58 season — was released by Bob Harrell, SHS head coach.

If Harrel's scales aren't off a little, the Wolves will outweigh the Bobcats.

Figures show that the starting Bobcat line will average 160 pounds, the backfield 149 for a team average of 156.

The team from District 2-AAAA has 17 lettermen returning with four returning regulars in that group.

The regulars are quarterback Bobby Lowry, 150; halfback Charley Starkey, 145; ackles Carl McCormick, 160, and Emery Martindale, 200.

The starting lineup—featuring an all-letterman crew that compiled a 3-1-6 record last year — will probably be:

Ends — David Senter, 150 and Dick Denman, 155; tackles Martindale and McCormick; guards Joe Johnson, 155 and Jerry Wallace, 150; center Joe Marsala, 150; quarterback Lowry; halfbacks Starkey and Tommy Ford, 150; fullback Wedge Turner, 150.

Martindale, the only player on the starting lineup over 160, is a potential all-stater according to Coach Harrell. He was All-District last year.

The experienced squad boasts 21 seniors, 18 juniors and only one sophomore.

Harrell says his main weaknesses are size, speed and depth with their strongest point as "desire".

The Bobcats last year whipped Waco, 26-20; Big Spring, 34-20, and tied Midland 0-0.

And this year, after opening with C-City, the Bobcats travel all over the state in playing Corpus Christi Ray, Amarillo High, Waco, San Antonio Jefferson, El Paso Austin and then the district opponents.

It will be Colorado City's first game ever against a Class AAAA grid team and if they use their weight advantage against the light Bobcats, they might come off the field victorious.

This year's, edition of the Wolf team is expected to average about 180 pounds in the line and 160 in the backfield.

Sec. 3. The Governor shall issue the necessary proclamation for said election and have the same published as required by the Constitution and laws of this State.

Safety Success Spurs New Campaign

Taking their cue from the 25 per cent reduction in the Fourth of July holiday death toll, three statewide organizations are joining with the Texas Safety Council, headed by Governor Price Daniel as Chairman, to make September one of the safest months in the history of the Texas traffic tragedy.

The September safety story begins unfolding with a three-day "Deathless Days" campaign over the Labor Day weekend.

Governor Daniel has requested school superintendents and principals throughout Texas to observe the week beginning September 1 as "Back-to-School Highway Safety Week." He suggested special programs, the completion of safety messages to school children.

In Connection with this program, the Governor has also proclaimed the week as "Safety Education Week" at the request of Bob Kercheville of San Marcos, safety chairman for the 300 Kiwanis International Clubs in the Texas-Oklahoma district of that organization. Governor Raymond Gary of Oklahoma has issued a similar proclamation in his state. Kiwanis will devote special programs and other efforts to school-child traffic safety.

Governor Daniel has also accepted the offer of more than 300 milk and ice cream companies throughout Texas to stage a month-long "Crusade Child Safety" under the direction of the Dairy Intitute of Texas. George M. Clarke of Austin, executive vice-president of the institute, said the companies' 5,000 salesmen, using over 6,000 vehicles, have pledged themselves to safe driving and will conduct special accident-prevention training programs during the month. They will distribute special safety tags to a million school children and will send special safety messages into millions of Texas homes by various means during the month.

The Texas traffic safety crusade, begun early this year, is now credited with helping SAVE 117 lives in 1958 as compared with the same date last year, a reduction of 13 per cent in Texas motorcides. The nation-wide reduction for the same period was seven per cent.

Check The Dates

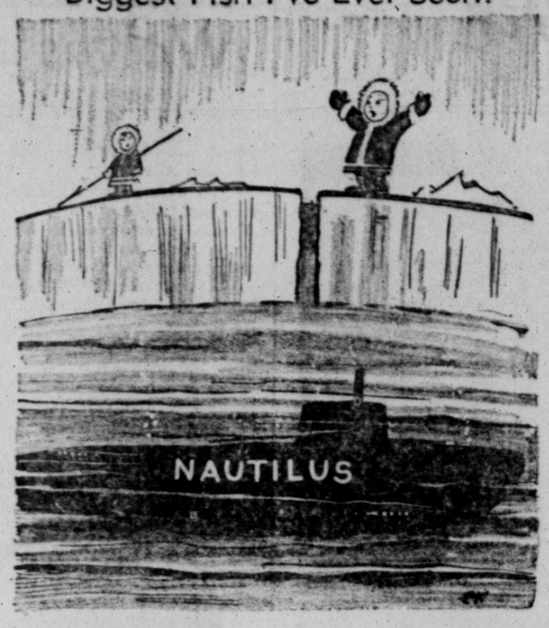

Two important dates are on the calendar for citizens here within the next five days. Both are balloting dates, too, which are likely to be overlooked by too many qualified voters.

Saturday is the Second Democratic Primary, which has extremely few races to interest Mitchell County voters, important just the same.

Tuesday will be the Colorado City's municipal election to determine if the city begins thorough study and planning for possible Urban Renewal development program — a new plan with federal financing that allows private business to work hand in hand for better community living. Urban Renewal, by the way, has the support of real estate, lumber and builders in Texas who have opposed other federal-aid programs.

So mark the calendar and be sure to vote both dates. You'll select a state representative and Supreme Court associate justice on the ballot this week end.

IN WASHINGTON

Congress' Work Draws a Salute

By CLINTON DAVIDSON

THE 85th Congress heads for home and the election campaigning with a record of accomplishments that has earned the respect of everyone who has worked closely with it.

Few Congresses in history have faced up to more critical problems, or worked more strenuously to solve them. At the start of the second session early this year the most urgent problems were the Russion sputniks and the deepening economic recession.

Congress was caught in a dilemma between the two. There were urgent demands for more government spending to meet the Russian missiles threat and, at the same time an insistent public clamor for tax reduction to counter the recession.

Growing unemployment was a serious problem. More than five million people were without jobs. Industrial production was declining. There were demands for increased unemployment and other social security benefits.

* * *

WITH ENONOMIC troubles at home and growing cominunist activities in nations friendly to the U. S., Congress debated whether to continue spending billions of dollars to bolster the alliance of Western nations.

The decision to expand our missiles research and, at the same time, continue economic and military assistance to friendly nations, meant (1) no general tax reduction and (2) as substantial increase in the national debt.

Those were difficult decisions, and more especially in a year in which all of the House members and one-third of the Senators must face voters in re-election campaigns. It took statesmanship of a high order to make them.

The crisis in which we sent troops into the Middle East during the latter days of the session brought closer the threat of World War III.

The decision to defend the freedom of friendly small nations was one in which the Congress concurred with the President.

* * *

EVEN WITHOUT those major decisions to be made, the 85th would have been one of the busiest on record. More than 17,000 bills were introduced during the two years it served.

Among them were bills to re-organize the Pentagon defense setup, raise the pay of government workers, new farm legislation, extension of the Reciprocal Trade Agreements Act, a $2.5 billion national defense budget.

Each of those bills received careful consideration by committees. Some involved weeks and months of hearing, then long debate in the Senate and House. Congress did a tremendous amount of work in the seven and a half months between convening in January and the end of the session.

'BUMPING' STILL A SORE SPOT

Harmony Is Easier Said Than Done at Demo Convention

By VERN SANFORD
Texas Press Association

State Capital NEWS

Everyone wants harmony at the State Democratic Convention Sept. 9 in San Antonio.

Gov. Price Daniel, U. S. Sen. Ralph Yarborough, National Committeeman Byron Skelton, and Speaker Sam Rayburn—all say they want harmony.

Even Nationl Committeewoman Mrs. R. D. Randolph, who has tirelessly neddled Governor Daniel and the state committee for two years, more or less joined in by predicting "a spirit of good will" among delegates.

Despite all the expressions of good intent, harmony among Texas Democrats is hard to come by. Like a huge household of relatives and in-laws, the party always has many clashing personalities and viewpoints under one roof. In the past, there've been rump conventions and separate rival delegates to the national convention.

It is the hope of avoiding this in 1960 that lies behind the cementing efforts. Many leaders contend that a unified Texas delegation could have a key role in naming the next presidential nominee.

All the above-mentioned leaders are presently agreed on one issue — support of the party nomihees. Point on which they part is whether the governor should have a veto over the state committee members selected by vote of district delegations.

Governor Daniel, following the practice of past governors, bumped some of the district-selected committee members in 1956 and submitted people more in line with his program.

Mrs. Randolph and Senator Yarborough, now joined by Rayburn, insist the governor has no right to do this.

But Governor Daniel has not promised he wouldn't He said he felt no district should propose a committee member who is "dedicated to the sabotage of . . . duly elected officers of the party." This almost certainly refers to members of the Democrats of Texas (DOT), an ultra-liberal group that has heckled and hindered the governor and other official party leaders at every turn for the past two years.

Delegates from each of the 31 senatorial districts are allowed two state committee members — a man and a woman. It is estimated that perhaps six of these districts may be controlled by anti-Daniel forces. Therein lies the possibility for discord. If any of these districts proposes a DOTer for the state committee, the governor is not likely to "harmonize."

* * *

HIGH HOPES — Mr. Wilson went to Washington, his saddlebags full of multi-million-dollar hopes for Texas school children.

Atty. Gen. Will Wilson pert that Texas had spent "a big sum of money" marshalling its facts, that a bevy of top-notch legal minds from over the state, nation and two foreign countries had spent some 2,000 hours on the 400-page brief.

"We feel like we have an overwhelming case," he said. "We feel like we will win it."

Exploration indicates that sonally delivered the Texas brief in the upcoming U. S. Supreme court case on Texas tidelands. At issue is whether the state or federal government owns submerged lands between the points 3 miles out and 10.5 miles out.

Wilson carried the arguments for Texas ownership in 40-year old saddlebags that belonged to a heroic Texas Ranger. He deelares optimistically that the case is jinxed in Texas' favor — because the brief is dated Aug. 13, trial is set for Oct. 13, oral arguments will last 13 hours and 13 people worked on the research.

More seriously, he noted the 7.5-mile band of disputed land is exceptionally rich in oil and gas. If Texas is successful in holding its claim, revenue from these resources would go into the Permanent School Fund.

* * *

PLACE IN THE SUN — Texas Republicans have served notice they will demand an even break at getting their candidates in the favored position on the general election ballot.

Desired place is the first column on the left. GOP leaders say people automatically begin reading in this column, and some never go any further.

Republicans hope to work things out on the local level with some sort of coin tossing arrangement. But they say they'll go to court, if necessary.

CITIES WIN OUT—Cities and utility companies won the first round of a court battle to determine who pays the cost of re-locating utilities for new interstate highways.

An Austin district court ruled that the cost can be paid from federal-state highway funds, as provided in a law passed by the last legislature. State Highway Department is challenging the constitutionality of this law.

Ultimate decision will, of course, be made by the Supreme Court. Some estimate the re-location costs could run as high as $100,000,000.

* * *

PAROLE STAFF COMPLETE — Board of Pardons and Paroles has announced the appointment of 10 new parole supervisors, rounding out the 40-man statewide staff.

Adult parole staff was authorized by the last Legislature to allow for release of prisoners who show promise of "going straight." About 3,000 persons are now on parole in Texas, and more are expected to be released as the new supervisors go to work.

Latest appointees to the parole staff are Louis Bramblett of Dallas, Julian Chaffin of Sherman, Cecil Smith of Jourdanton, Walter Williford of Houston, Massey Herrera of Corpus Christi, Thomas Casso of El Paso, Herbert Gnepper of Lubbock, Alfredo Garcia of Austin, Terry Cromwell of Fort Worth and Charles Davis of Goldthwaite.

PHILOSOPHER SAYS

His Farming Is On Global Plane

Editor's not: The Shinnery Flats Philosopher on his Johnson grass farm on Bone Hollow Creek apparently is making excuses for the way he farms, his letter this week indicates.

Dear editor:

Every once in a while somebody asks me why I don't do a better job of farming.

How come you've got more weeds in your crops, they'll ask me. How come you're always late in breaking your land, late in planting, late in plowing, late in gathering, late in starting over again? How come your fences are down, your gates sagging, etc.?

Well, now, I'll tell you. When a man spends as much time as I do thinking on the international level, he naturally adapts his farming methods to the international plane, and I consider my farm a perfect example of international diplomacy.

For example, say it's time for me to do some plowing and time for the leaders of the world to hold a summit meeting.

Do we jump right in?

Anybody who knows me or the world knows better. Nobody holds a summit meeting until he knows what's going to be discussed and what the answers are and what conclusions can be reached. Just like when I start out on a crop. I don't just climb on the tractor and start. I sit down and figure out how much I think I can make, how much plowing it'll take, what the price may be, what I'll do with the money, etc.

To some people this may sound like over-caution, but that's because they don't think in international terms. In the last 15 or 20 years the world has had eight or ten summit meetings, and if the world is any better off than it was before the leaders met, it's hard to tell, and consequently it doesn't matter how long it takes to get ready to meet at the summit.

Rushing into a summit meeting is like me rushing into a farming year. Not going to get anywhere anyway, so me and the world leaders both might as well take our time.

The way I figure it, the world and this farm both are going to be here, whether the statesmen are at the summit or I'm under a shade tree.

Yours faithfully,
J. A.

LOCAL BUSINESS

Don't Ever Take 'em For Granted

By JOE ED BOATRIGHT
Record Advertising Mgr.

A PERSON may consume a product for years and still not know much about it. His use of the product may be limited because he is not fully aware of its value.

Milk is a good example. Since most of us consume milk from infancy, it could be assumed that we know what we are getting when we buy a quart of milk. Yet, a study in Washington, D.C. shows otherwise.

Several years ago, the milk producers in the Washington area decided that they would do something to sell more milk rather than waiting for the government to control production.

The result was a strong newspaper advertising campaign which increased milk consumption in the Washington area by 5.4 per cent.

* * *

A SURVEY made before the campaign showed that many people knew very little about the true value of milk. Knowledge gained from the advertising campaign caused them to increase their consumption of milk.

A year after the campaign started, the number of families who regarded milk as a good food for nerves had increased 20 per cent; the number of families who felt that milk bettered the mental alertness of children had increased 53 per cent; the number of families who used no milk was reduced six per cent.

Ten per cent more families came to recognize milk as an important food for older people.

* * *

THE EXPERIENCE of the Washington area milk producers provide an important lesson for any retail merchant — that is, the consumer can never be taken for granted.

No matter how commonplace a product is, there is a good chance that the public is ignorant of some of its worth. Thus, for any product, continued education through advertising is a necessary step for attaining maximum sales.

It's the same way, too, with a store or business. No matter how long the firm has been in business — even at the same location, people must be reminded constantly of its services if they return regularly . . . and if the new residents are attracted.

BIBLE COMMENT

Sinners Have Become Saints

WITH ALL Jacob's evil tendencies and qualities, there was that in him on which something substantial could be built. This provides the greatest contrast with his brother, Esau.

Good natured, easy going Esau was the more likable of the two but how could anything stable or permanent be built upon him?

He showed little sense of values or capacity for responsibility and was completely weak where Jacob was strong.

* * *

THIS SHOWS what the vision of God may do with men who have positive force and strength, though there may be a great deal wanting in their conduct. Take a man of worldly ambition whose thoughts are taken up with material success and who is willing to exert great energy and undergo privation to get what he wants.

Give that man the vision of something more worthwhile. Above all, let him see God and the standards of success that Christ showed in His life. Then, such a man may become a tremendous power for good. St. Paul is certainly an excellent example.

* * *

IT HAS been said that the greatest sinners make the greatest saints. Though this is obviously not always so.

This symbolism has taken hold very strongly in the world's literature and in its religious life. Jacob's Ladder is the typical means of communication between earth and heaven.

The vision that Jacob had has become intimately associated with the experience that is possible for every Christian who seeks God's guidance and God's help.

Lot of New Brooms

There's a big sweep coming from Arcola, Ill., where the broom corn harvest is brought in from the fields to be stored and dried. The corn-like grass is manufactured into enough brooms to "sweep half the country," according to Arcola residents, who make the finished product as well as grow the raw material.
