

Buffaloes Kick Dogs 15-0

By DALTON WOOD

The Tahoka Bulldogs, more green than blue in their opening game at

Stanton last Friday, nonetheless played a creditable game against the experienced Buffaloes before turnovers and a couple of defensive errors did Tahoka in, 15-0.

The Dogs turned over the ball six times, three each on fumbles and interceptions in the game. Three times in the game the Bulldogs drove within striking distance, but the Buf-

faloes 28 was the closest they could get.

The Dogs get no rest this week, journeying to Slaton to take on the arch-rival Tigers, who started out by beating Colorado City 26-0 last Friday. The Tigers are no longer in District 4-3A, having been moved with Post into 3-3A.

Defensively Coach A.D. Shaver's crew did well against Stanton most of the time, and running back Steve Pierce, 165-pound junior, gained 117 yards on 26 carries, an average of 4.5 per carry.

Ball Goes Over

Tahoka took the opening kickoff downfield only to lose the ball on downs at the Stanton 31 as the Buffs' James Bass tackled QB Tony Garcia for no gain.

Later in the first, Stanton drove to the 10-yard line. Here the Bulldog defense did a superb job of holding for three straight downs, with two measurements, to stop Stanton. The fourth down and inches run by Stanton was halted by a surge led by linebackers Pierce and Curtis Ferguson.

Stanton did get on the board in the second quarter after a low snap was bobbled by punter Johnny Morin of Tahoka, and the Buffs took the ball on the Bulldog 7. Even here, the Dogs held them out of the end zone, though, on stout defense led by Ferguson and Robert Munoz. Stanton went ahead 3-0 on a 29-yard field goal by Scott Church.

Montford is the Lubbock district attorney.

Montford's opponent, Republican Jim Reese, an Odessa businessman, also will speak and answer questions at the high school assembly.

Both candidates will be honored at an informal reception at 10:30 a.m. in the front entry hall of the high school, and will speak and give their views on various issues starting at 10:55 a.m.

The public is invited to attend and ask the candidates about any pertinent issues.

Long Run

On the first offensive play of the third quarter, Maurizo Iaquaniello of Stanton escaped on a 72-yard run down the sideline for the game's first touchdown. Church's kick was wide and it was 9-0. Later in the period, Stanton drove about 65 yards for a touchdown, with the biggest play in the drive being a 35-yard pass caught by End Ernest Ruiz. Robby Barnes ran 17 yards for the TD. A running try was stopped and it was 15-0.

Later in the quarter Stanton threatened again after recovering another Tahoka fumble, but the Dogs' Doug Lawson pounced on a Buffalo fumble to stop that one. With one of the big plays being a 22-yard pass from Garcia to Otis Pendleton, the Bulldogs then drove to the Buff 28, but lost the ball on downs.

In the fourth quarter, Tahoka appeared to be moving well as Pierce ripped off a 27-yard run, and then caught a screen pass from Garcia and gained 24 more yards. But an interception at the Stanton 2 stopped Tahoka.

Defensive end Jesse Vega was one of Tahoka's leading tacklers in the game.

Crime Line Offers Rewards On Thefts

Crime Line this week offered rewards of \$300 each in two burglaries which occurred Monday night in Tahoka.

Louder Gin reported to Tahoka police that someone had broken into the gin during Monday night and had stolen an electric welder valued at \$700-\$800. Entry was made by tearing a piece of tin loose. Also, on the same night, Lynn County Elevator was burglarized, possibly by the same persons. According to Police Chief Jack Miller, footprints matched from both locations. Five cases of Cotoran Herbicide valued at \$1900 were stolen from Lynn Co. Elevator. Entry was gained by cutting a chain on one of the doors. There are no suspects at this time, and Crime Line has posted a reward of \$300 in each case.

Anyone with any information on either break-in is asked to call Crime Line, 998-5145. The caller should not identify himself or herself, and will be assigned a number and asked to check back later to see if the information has led to the arrest of a suspect. When a crime is cleared by a Crime Line call, the reward is paid through a third party.

Wesley Boone of Tahoka reported that someone on Saturday night had stolen his prescription sunglasses valued at \$150 from the dash of his pickup.

Police also answered a couple of

family disturbance calls and one prowler call during the past week.

In jail during the week were two persons charged with public intoxication and disorderly conduct and one each for aggravated assault on a police officer and unauthorized use of a motor vehicle.

Lynn County sheriff's officers last week recovered some furniture in O'Donnell which had been reported stolen in Lubbock. The furniture had been purchased by an O'Donnell resident at a flea market in Lubbock.

WOODWORK

by DALTON

AT THE TIME this is written, nobody knows for sure if the professional football players in the NFL are going to strike or not. Most of the wives I know are hoping they will, so their Sundays and Saturdays and Mondays and Thursdays won't be lousy up by old Dad staying glued to the TV set for all those dumb games.

Surprisingly, most of the avid football fans I know are saying that as much as they like to watch the games, they'd rather not see them at the expense of letting the players' union get the ridiculous demands they are making, mainly the 55 per cent ownership thing.

I agree fully. These guys hired out to play football, and now they want 55 per cent of the gross of the teams. If they strike on that demand, the owners ought to tell them to go find another job loading trucks or something.

Some of the players don't want to strike, so the games might go on, with these and perhaps some less talented players (Randy White of the Dallas Cowboys said recently he wouldn't want Ed Garvey, the union negotiator, "to negotiate me across the street.")

Anyway, we football fans will have more time to do other things if some games are cancelled. And the wives will get their husbands back (remember the story about the guy who turned off the TV set

with a sigh after the last game of the season in mid-January, and then discovered his wife had left him in November?).

ORDINARILY I can eat almost any combination of things and not get queasy; on a couple of occasions everybody except me who ate a certain thing got sick later. But once in awhile I do get sick, and when I do, it's a lot more serious (to me) than when others are ill.

This happened the other night, and I woke up about 2:30 a.m. with the most awful feeling a human could have. It didn't last over 30 minutes, but for a time I was sure it was the big one, as Sanford says.

I never would have made it without the tender sympathy of my wife. My agonizing woke her up.

"Are you sick?" she asked. In my condition, such a question deserved no answer, but I managed to tell her, "I'm afraid I'm dying."

"Well, do it in the living room or someplace. I'm trying to sleep."

Actually, those weren't her exact words, but I got that impression. I don't know how she could tell that I really was going to get over it. Wives just have a way of knowing things like that.

Family Focus

By Harriett Pierce

Where can a person over 55 "getaway to" for *three days and nights of fun-filled activities, *learning opportunities, *other lively, life-loving people, *fantastic food and *natural surroundings--with all the modern conveniences *all for \$58.50? There may be many places in Texas that offer such fare but not many can match "Octoberfest," a new Extension camp for people over 55, says Harriett Pierce, Lynn County Extension Agent.

Four are scheduled this fall for Sept. 21-24, Oct. 5-8, 19-22 and 26-29. Feature presentations will include: your nutritional needs with special diet consultation, plants in the home, communication skills and game cookery. Learning centers will offer a variety of "hands-on" experiences including miniature oil painting, pottery making and picture framing. Some camps will have such additional centers as wind chimes, chair caning, homemade games, color and fashion, and selling the family farm, the agent says. Cards and table games, tennis, horseshoes and volleyball will be available at all times.

Evenings will be filled with such social activities as sing alongs, dances and a cabaret where camp participants present their talents. Each camp is limited to 100 participants, so contact your County Extension agent for details now!

With school starting your clothing budget may be strained at the seams. Maybe your wardrobe is too-high quality. That may sound "funny", but it's true. All clothing need not be of the same quality -- high quality-- to give good value. Several factors can help you decide quality levels for various clothing items.

Quality VS Price Before looking for high quality or lower quality, it's wise to understand a basic quality-price fact of life: quality and price are not always related.

For example, an expensive fabric or garment may be of poor quality but costly because of some unique characteristics. You can't always rely on a manufacturer's brand name, either. Although the maker may have a reputation for a certain quality level, it still varies from garment to garment. And everyone can make a mistake now and then.

Wearable Time Span In deciding on quality needs, consider "wearable time span" as a major factor -- how long the item will be worn.

This depends, also, on who will wear it and for what kind of activities. Then you can determine how "good" the quality must be to meet your needs. For example, a pre-school child's play clothes receive hard wear. The child's activities strain every seam and button and grind soil into the fabric. So, even though children outgrow play clothes quickly, the wear, tear and many washings make high quality in these items a good value. That means high quality construction and high-quality fabric.

On the other hand, adult party clothes may not require such high quality. These items usually are not worn often, and they're worn in dimly lit rooms in many cases. So the best buy in formal wear (usually) may be the

least expensive, even if that means poor construction and not-very-durable fabric.

Fashion Trends Fashion trends are another major factor in deciding quality level for various wardrobe items.

A garment that is faddish or highly fashionable today may not be so tomorrow. Buy knowing that these will need replacing more quickly than the more basic styles in your wardrobe.

Finally, here's a rule of thumb: Invest more time, money and effort in searching for good quality when it comes to clothes you'll wear the most.

Select lower-quality items -- usually less expensive -- for spice and variety.

When you follow this rule of thumb, your clothing budget will "fit" better.

INSIGHT INTO EYESIGHT

EYE COORDINATION When your eyes are working the way they should, they're both looking directly at an object with the same intensity and precision. But if they're not, there may be a problem in the muscles of one or both eyes. Each eye has six muscles that control movement and position. They must be in good working condition to give you proper eye coordination. If there's a weakness or defect in any one of these muscles, your eyes are not getting the help they need to see well. This can cause problems. Your vision won't be as clear as it should be. You'll probably be putting extra strain on the weak muscles to try to bring them into line. This can cause headaches, fatigue, and

sometimes double vision. It also affects your depth perception, your ability to judge the size of things seen at a distance. To be in good health, you should be able to control all of your muscle movements, including the muscles of your eyes. If you've noticed any weakness in your vision, it's time to have an eye examination.

Get Off High Center

"High Center" is a term some truckers use when they reach the top of a hill and "bottom out." In other words, the curve of the hill is so sharp that their vehicle can't make it over. So they sit there and suffer until someone comes along and pushes them ahead. It's much that way in today's business world. You go along fairly safely for awhile, but then you hit a snag. Something unexpected comes up that throws you for a loop. That's where the

financial expertise of First National Bank of Tahoka can help you out. We stand behind you and help you over the rough spots. We help generate results. And that's what Results Banking is all about. Get in touch with the professionals at First National Bank of Tahoka today and put Results Banking to work for you. It will come in handy when you really need it.

John R. Collard Jr. of Spearman, governor of the 573rd District (NW Texas) of Rotary International, made his official visit to the Tahoka Club last Wednesday and Thursday. He was accompanied by his wife, Marjorie.

Speaking before the club Thursday noon, Collard praised its members for several of its activities, but recommended members do a better job of making up at other area clubs after missing a local meeting. Also, he urged more participation financially in Rotary Foundation's scholarship program.

Wednesday night, preceding the Governor's conference with 21 local club officials, committee chairmen, and members in the Lyntegar meeting room, a fish fry was served those attending by Horace Rogers, Jim Solomon, Calloway and Gerald Huffaker.

Club President Joe Hays and wife, Glo, were hosts to the Collards while they were here.

Watch Out For Children

With the opening of schools, Texas drivers are strongly cautioned to be alert for students on their way to and from schools. Motorists must exercise extreme care in school areas and along school bus routes. Texas law requires motorists to stop for any school bus loading or unloading passengers. To warn drivers, such buses will have alternately flashing red lights on the front and rear. Motorists must remain stopped while these red lights are flashing.

The Texas Department of Public Safety's statistics for 1981 showed there were 17 deaths and 925 injuries in 1,698 school bus-related accidents.

Safety officials say that drivers should also be alert at railroad crossings since school buses are required to stop, look and listen before crossing the tracks.

To remind drivers that special alertness is needed around schools and school buses, most cities will increase police surveillance.

RIF GROUP CELEBRATES — The Reading Is Fundamental (RIF) classes sponsored by Texas Migrant Council had a costume party Aug. 20 at St. Jude's Catholic Church. Non-Union Education Groups Rap TSTA

Two non-union Texas education associations have denounced statements made by the largest teachers' union in the state as deliberate distortions of fact. The Texas Classroom Teachers Association (TCTA), and the Association of Texas Professional Educators (ATPE) have charged that the Texas State Teachers Association (TSTA) has circulated false and misleading information to teachers throughout the state.

The two associations have provided the Consumer Protection Division of the Attorney General's office with information, materials and evidence indicating the false and misleading nature of the TSTA membership

recruitment material which is being billed as a "fact sheet." They have asked that this potential violation of the Deceptive Trade Practices Act be investigated, and that an injunction be sought against further publication and distribution of the handouts.

ATPE and TCTA claim that the documents are being circulated in an apparent attempt to boost TSTA's declining membership totals and divert attention from its escalating dues. The document in question compares the materials, services and benefits offered by the State's four major teacher organizations, including the Texas Federation of Teachers.

It's Harvest Festival time again and the County Fair will be held on Saturday, September 25, from 9 a.m. to 4 p.m. Each division will be judged and first, second and third place ribbons will be awarded. This year there is a single entry fee of 50-cents which allows each participant to enter as many items as he chooses.

An entry blank accompanies this story and several entry blanks will be placed in various businesses in town for your convenience. The divisions (each with a youth section) to be included in this year's Fair are:

Textile: Includes needlepoint, crewel, quilts, bedspreads, wall hangings, children's clothing, women's clothing, men's clothing and embroidery.

Crochet, Knitting, Tatting and Weaving: Entries may display afghans, baby items, hand weaving, knitted articles of all types and tatting.

Culinary: This will include bread, cakes, decorated cakes, cookies, candies, canned fruit and vegetables, pickles, preserves and jellies.

Crafts and Hobbies: Holiday items, metal craft, wood-carving, ceramics, decoupage, tole painting, dolls, macrame, and miscellaneous.

China Painting: Includes all hand painted china items.

Art: These entries will include landscape, still life, pen and ink, tole painting, and Norwegian rose making.

Antiques and Relics: Cut glass, china, porcelain, ironstone, stoneware and crockery jars, depression glass, metals, jewelry, and miscellaneous items may be entered. There will be a special section for antique quilts.

Creative Art: This will be shown by school students and will have been completed in the classroom (except for junior and senior high students). All art entered should have a Harvest Festival or Homecoming theme.

Produce: This includes all produce items and also tallest cotton stalk and cotton stalk with most bolls. Sunflower growers are also encouraged to show samples of their crop.

Plan now to enter something in the County Fair to make this the best fair ever. This is an event the entire family can participate in and enjoy together. Information will be available next week on where the Fair will be held. If you have any questions or require more information call Melody Dawes, 998-4060 or Harriett Pierce 998-4650.

GET INTO ACTION WITH 4-H

How would you like to join 4-H? You can, you know, if you really want to, and we'd be glad to have you.

4-H is a national youth program for all youth between the ages of 9 and 19 regardless of race, color, ethnic background, economic status or cultural differences. The Texas 4-H program is administered by the Texas Agricultural Extension Service, a part of the Texas A&M University System.

The purpose of 4-H is to develop leadership and character in young people. 4-H'ers learn by doing through actively working on projects and participating in club meetings and 4-H activities, says Brent Drennan, county Extension 4-H program coordinator.

4-H clubs are organized in such places as rural, suburban and urban neighborhoods. Groups

may be organized among neighborhood families in one or two city blocks, housing complexes or anywhere they are needed.

Youth can participate in a variety of projects in 4-H, such as foods, clothing, animal projects, electricity, photography, arts and crafts, and many, many others. In fact, almost anything you want can be a project.

Most important and most of all, 4-H is a lot of fun! Where else can you get together with other people your age and have fun while you learn? Boys and girls in 4-H are always on the move doing something and participating in various activities.

For instance, the 4-H shooting sports project attracts numerous youngsters each year who are interested in learning to shoot and observe gun safety.

Livestock projects give youngsters a chance to be responsible for an animal and enter stock shows where they learn competitiveness and sportsmanship.

4-H'ers can even learn to make their own clothes through clothing projects.

Besides projects, other activities such as the share-the-fun give youngsters a chance to participate in organized recreation. County 4-H Fun Day, Day Camp or Rally Day is the time for playing games and making new friends. Members in 4-H can go on trips, take tours of interesting and educational places, and help finance their college education with scholarships awarded through 4-H.

Remember, you are what you want to be in 4-H, emphasizes Drennan. It is educational, interesting, challenging and lots of fun.
