

U. S. Envoy Gets Mixed Greetings

By ROBERT BERRELEZ
HAVANA (AP)—U.S. Ambassador Philip Bonsal got a cheering welcome back from 500 Cubans Sunday but ran into a new barrage of anti-American blarney from two top Castro government officials.

Arriving with a smile, the American envoy made no mention of finding the official atmosphere as hostile as when he left Havana in a protest two months ago. "I am glad to be here," Bonsal told an airport crowd that included some foreign diplomats. Prime Minister Fidel Castro's government did not send an official representative, but this was not unusual.

Bonsal said he would "do everything possible" to improve Cuban-American relations, now at a dangerously low ebb.

Only a few hours before the ambassador's plane landed, Cuba's economic czar, extreme leftist Ernesto Guevara, told a radio audience the nation faces "economic war" with the United States. Guevara hailed the trade agreement Fidel Castro signed recently with the Soviet Union as the best trade pact Cuba has ever had. Guevara insisted it had no political implications. Guevara asserted that American

representative, but this was not unusual. Bonsal said he would "do everything possible" to improve Cuban-American relations, now at a dangerously low ebb.

representative, but this was not unusual. Bonsal said he would "do everything possible" to improve Cuban-American relations, now at a dangerously low ebb.

president told a crowd of 17,000 at a rally to raise funds for arms and planes.

The crowd of 17,000 chipped in 250,000 pesos—\$250,000 at the official rate in Cuba but a lot less on the world money market—and thunderously cheered "Dorticos' assertion that Cuba would buy arms and planes 'from whatever country makes and sells them'."

There have been unconfirmed reports here that Cuba already has received MIG-17s from Communist Czechoslovakia.

exceptions, is "so intimidated it cannot be considered a free press."

The Cuban president charged the IAPA was an "instrument of imperialism" and "privileged interests" of the United States.

Bonsal's return to Cuba—opposed by some U.S. congressmen—came generally as a surprise to the American colony in Havana. Some Americans here claimed it would be interpreted as weakness on the part of the U.S. government.

Ernesto Guevara came home for a Christmas vacation and stayed. Informed sources say he will be replaced by Jose Miro Cardona, who was the revolutionary government's first prime minister before Castro took over the job. Miro Cardona was made an ambassador to Madrid but was recalled when Castro got in a hassle with the Spanish ambassador and ordered him out of the country.

In Washington Sunday Secretary of State Christian A. Herter said there were Communist sympathizers high in the Castro regime and "some of the acts look like they were following the Communist pattern."

Senate Gets Rival Voting Rights Plans

By JOHN CHADWICK
WASHINGTON (AP)—A combination of rival plans for protecting Negro voting rights was put before the Senate today as it began its sixth week of debate on civil rights legislation.

An amendment offered by Sen. Joseph S. Clark (D-Pa) and a dozen other senators would provide alternative methods for preventing denial of the right to register and vote because of race or color.

Under one method federal district courts could appoint referees to register Negroes qualified under state law and to make sure they were allowed to vote and have their vote counted.

As an alternative, the President could appoint federal enrollment officers to carry out a similar function.

Clark described the amendment as a compromise designed to

reconcile the views of those who favor judicial administration of plan for court-appointed referees and those who advocated the appointment of administrative officers by the President.

In the House, where civil rights legislation also is up for action, backers of the referee plan predicted its approval there. A vote on it may come Tuesday after further attempts by Southern opponents to modify it.

Before buckling down to the civil rights issue, however, the House planned to handle routine business that has begun to pile up. Clark's amendment was called up in the Senate after the 53-24 rejection Friday of a proposal to let the President appoint federal referees in areas where he believed there was discrimination against Negroes seeking to register and vote.

The proposal, offered by Sen. Paul H. Douglas (D-Ill.), was based on a recommendation of the Civil Rights Commission but was broadened to cover state as well as federal elections.

Under Clark's amendment, the President could name enrollment officers only after a federal judge found a pattern of racial discrimination.

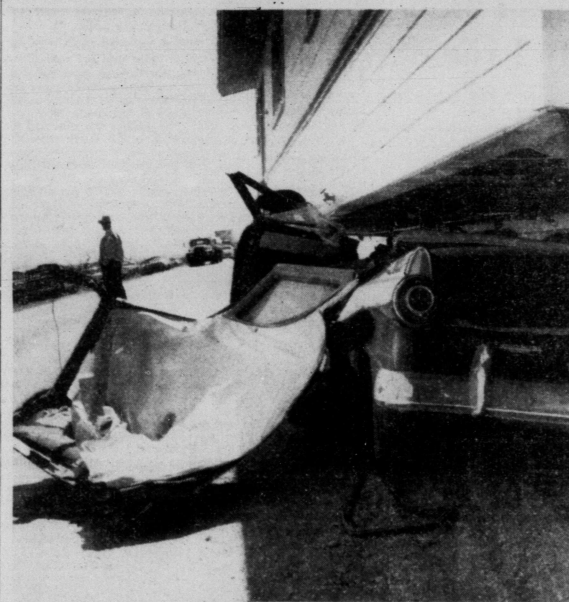

Clark called this requirement for a judicial finding "a very real concession" by senators who believe that voter registration should be handled as an administrative matter.

On the other hand, Clark's amendment would eliminate what Douglas has described as "a crucial defect" in the administration's referee plan.

Douglas said that even after a judge found a pattern of racial discrimination in an area, Negroes would have to go before local registrars and be turned down before they could apply to federal referees for enrollment under the administration's proposal.

Under Clark's amendment, Negroes could go directly to the referees and apply to be registered.

Sen. Hubert H. Humphrey (D-Minn) said Sunday he has "grave reservations as to the possibilities of registering large numbers of Negroes" through court-appointed referees.

WRECK SCENE—Sheriff Earl Abercrombie stands in the background directing traffic around the wreck where DeWayne Derwood Carter, of Gregory, was killed this morning as his car plowed under a house being moved down the highway at Dermott. The top of the car is at left.

Health Care Battle Looms

WASHINGTON (AP)—A party-splitting battle, with organized labor taking an active hand, starts in the House this week over proposals to add government-paid health care to social security coverage.

After a week of preliminary discussions, the House Ways and Means Committee gets down to cases Wednesday when it receives administration recommendations for social security law revision from Secretary of Welfare Arthur S. Flemming.

There were weekend indications these may include some form of government payments for health care of older persons.

Many influential Republicans as well as conservative Democrats in the House have opposed a plan advocated by Rep. Aime J. Forand (D-R.I.). This plan is backed by labor union forces headed by President Walter Reuther of the United Auto Workers, an AFL-CIO vice president.

Strong conservative opposition that is expected also to any administration-backed health plan, and the American Medical Assn. is actively fighting any such proposal.

On the other side are election-year political pressures for broadening social security benefits.

Forand said today he will try to by-pass House leaders and the Ways and Means Committee if necessary to bring his government old age hospitalization bill directly to the floor.

Forand gave the Ways and Means Committee an April 1 ultimatum, saying: "I have served notice that I will file a discharge petition by April 1 if I don't get some favorable action on my bill. One way or another, I'm going to get a vote this session."

Forand's bill would provide up to 120 days a year of government-paid hospital and nursing home care for old-age social security pensioners. It would be financed by an additional 1/2 per cent social security payroll tax.

The Ways and Means Committee is considering a number of other social security law revisions—chief among them being repeal of the requirement that disabled workers must be 50 years old before they can qualify for disability benefits. This, faces little or no opposition.

Gregory Man Is Killed In Freak Mishap

A freak accident claimed the life of a Gregory man and completely demolished his car on a rolling highway at Dermott at 10 o'clock this morning.

DeWayne Derwood Carter was killed instantly when he lost control of his 1956 Ford on a slight curving rise at Dermott when his car spun in the gravel and crashed into a three-bedroom house that was being moved down the highway.

According to the driver of the moving truck, C. H. Bigham Carter was going north following another car. The car ahead slowed as it met the truck and Carter pulled off on the gravel and went into the spin that threw him into the house. The car traveled almost the entire length under the house, before stopping against the plumbing from the bathroom.

Carter was thrown from the car as the door was torn open by the impact. The front of the car was completely smashed and the top ripped off as it plowed under the house.

Only minor damage was done to the house.

Highway Patrolmen, Ivy Daniels and Will Cleveland, and Sheriff Earl Abercrombie investigated.

Funeral arrangements are pending at Bell Funeral Home.

Blaze Claims Author's Life

HOLLYWOOD (AP)—Best-selling author Tom T. Chalmers, 35, due to appear in court today to answer charges that he beat his wife, singer Helen O'Connell, died Sunday in a violent end to a violent life.

He died in his smoke-filled apartment despite a desperate effort to find his way to safety.

Firemen said he was asphyxiated while trying to escape. Struggled hand-prints on the wall showed where he had sought to feel his way to a door or window.

Miss O'Connell was in a state of shock after she was told the news.

Police Fire On Negroes In Africa

VEREENING, South Africa (AP)—Police opened fire on 12,000 African Negroes besieging a police station today. Brig. C. J. Els of the Witwatersrand police said 30 Negroes were killed and at least 100 wounded.

The police station was at Sharpeville, near Vereeniging, 30 miles south of Johannesburg, where police called in jet fighters and armored cars in an effort to disperse thousands demonstrating against South African pass laws.

Els said that his figure of dead was conservative. Witnesses saw at least 11 ambulances leaving the scene for hospitals, but hospital authorities refused information.

About 25 police were besieged inside the police station by the Africans. When the Africans began to stone the station, the police opened fire.

The rioting was part of the start of a Negro passive resistance campaign to tie up the nation's commerce and industry.

Demonstrators in Johannesburg, Capetown and other cities marched to police stations without their passes and dared police to arrest them.

Drastic measures were taken in Vereeniging after tear gas failed to break up the crowd, enraged by the killing of one African leader and the wounding of at least four others. The mob had tossed stones and injured several policemen.

Then thousands of men and women, shouting the nationalist cry "Africa" besieged Sharpeville police station. Sharpeville is a native location where thousands of black Africans live.

Jet aircraft screamed down in an attempt to frighten away the Africans. At Booibos, which lies nearby, police made baton charges and used tear gas against demonstrators.

Police described the situation as tense and sent armored cars to patrol African townships.

\$150,000 In Jewels Stolen From Couple
NEW YORK (AP)—Jewelry worth an estimated \$150,000 and \$15,100 in cash were stolen from the bedrooms of a Fifth Avenue penthouse while the occupants—a Florida real estate operator and his wife—entertained guests at dinner Sunday night.

Victims of the burglary were Robert L. Wilson, 52, and his wife, Mrs. Wilson, 48. Police said Mrs. Wilson is the widow of David T. Bonner, president of the Dynamics Corp. of America.

Russian Bid Under Study

By TOM OCHILTREE
GENEVA (AP)—New Soviet proposals for a partial ban on nuclear weapon tests came under close American and British study today.

The two Western powers sought enlightenment on safety provisions which the Soviets maintain are contained in their plan. This would be accompanied by a moratorium on the excluded underground tests while a joint scientific study of this difficult problem was undertaken.

The Soviet government proposed Saturday that the three powers enter into a treaty banning all atomic and hydrogen weapon tests except small underground tests. This would be accompanied by a moratorium on the excluded underground tests while a joint scientific study of this difficult problem was undertaken.

Washington and London want to know exactly what the Soviet government has in mind to guard against a violation of the moratorium.

The partial ban was first proposed by President Eisenhower Feb. 11. Wastern sources said that if the Soviet actually favor safety provisions acceptable to the U.S. and British governments, the 17-month-old nuclear test ban conference may be on the threshold of achieving a treaty.

After introducing the Soviet proposal, Soviet delegate Semyon K. Tsarapkin told the Western delegates his government would allow some on-site inspections to guard against the small underground explosions.

The Soviets said their plan also included acceptance of a Western proposal for joint East-West scientific studies of ways to detect the small underground blasts, which the West says give seismic readings that cannot be distinguished from those given by the numerous small earthquakes the earth experiences constantly.

Tsarapkin's move shifted the whole emphasis of the conference back to an old and difficult problem—the fixing of quotas for the three powers, on the surface of the earth and in the oceans to remove any health danger from fallout. The ban also would apply to all underground tests having a seismic reading of 4.75 or more.

The factor added by the Soviets is the moratorium on underground tests, below that 4.75 threshold. Without such an agreement by the three powers, Tsarapkin said, a partial treaty would be an invitation to conduct small underground tests. If any tests at all were allowed, he claimed, the treaty itself ultimately would break down.

WEATHER

SNYDER TEMPERATURES: High Saturday, 72 degrees; low, 38 degrees. Sunday, 73 degrees; low, 39 degrees. Monday, 74 degrees; low, 40 degrees. Forecast for all Texas: Rain to possibly snow through Tuesday. Mild afterwards, cool again tonight.

Federal Encroachment On Tax Sources Hit By Daniel

ODESSA (AP)—The federal government should keep its hands off state tax sources, Gov. Price Daniel said today.

Texas needs federal encouragement of private enterprise rather than grants of federal money, Daniel told a joint meeting of service clubs and the Chamber of Commerce.

"Daniel said Washington should 'keep hands off state tax sources and permit the development of private domestic industry.' He added:

"For instance, the future of the oil and gas industry, from which the state and most Texans profit directly or indirectly, depends on these federal actions."

"Retention of the present depletion allowance on income taxes, more adequate restriction of foreign oil imports, freedom of independent gas producers from federal price fixing regulations."

"As a member of the United States Senate and as governor, I am fought for these programs, and I shall continue to do so, because they are necessary not only for the prosperity of our state but for the security of our nation."

Daniel said the federal government has its hands full of the responsibility of national defense and foreign affairs.

"Why should it be called upon to enter such new fields as the financing of public schools?" the governor asked.

"Federal tax dollars are collected from the same people as state and local dollars, and if Washington will only stay away from state sources of revenue, we can meet our obligations without the dangers of federal controls."

"By the same token, state and local governments must raise the money at home to meet their growing needs of this decade, especially in the field of education, if we expect to preserve the rights of local operation and control."

Daniel said the Odessa-Midland area has a bright future for continued growth and the potential for greatly increased manufacturing.

"Here, as in other parts of Texas, assurances of adequate water supplies will be a determining factor. You have moved far ahead of many other cities in making more water available, and the people of Odessa are planning for future growth as never before."

"Great industries such as Odessa Botadine, General Tire and Rubber, and Portland Cement have already made economic investments in the future of Odessa, and few cities anywhere in America can equal the population growth of this city and its 100 new industries in the past 14 years."

At Midland an estimated 300 persons attended a morning coffee arranged in his honor.

Questioned about a statement released by his Austin office that he saw no move to repeal the so-called "right-to-work" law, Daniel said:

"I have heard of no move to repeal the law. The good relations between management and labor in the state has been a plus factor in attracting new industry to Texas."

"Here, as in other parts of Texas, assurances of adequate water supplies will be a determining factor. You have moved far ahead of many other cities in making more water available, and the people of Odessa are planning for future growth as never before."

"Great industries such as Odessa Botadine, General Tire and Rubber, and Portland Cement have already made economic investments in the future of Odessa, and few cities anywhere in America can equal the population growth of this city and its 100 new industries in the past 14 years."

Former Prisoners Of Nazis Gather

NEW YORK (AP)—On the surface, the gathering Sunday night in a Bronx hotel looked like any other reunion—clusters of men in a smoke-filled room, shouting happy greetings, slapping one another on the back, and drinking toast.

Inside their sleeves, each of the men wore the mark of their bond—a number tattooed in blue on the left forearm.

The numbers were burned there more than 13 years ago when the men were prisoners at Auschwitz, Buna in Poland, one of the most horrible Nazi concentration camps.

They didn't know our names, recalled Leon Kerstein, who now owns a butcher shop in Brooklyn.

"They called us by numbers. Kerstein's mother, father, six brothers and two sisters were exterminated in Nazi concentration camps.

The gathering was the first—and probably the last—reunion of the former prisoners. Some of them carried photo showing young cadaverously thin men with shaved heads in blue and white striped uniforms. The pictures were of themselves as slave laborers in 1945.

Most of the men were in their 30s and 40s. Many had entered the concentration camp as teenagers.

"Those who survived had to be chairman," said Ernest W. Michael, youngest of the dinner. "If you were old, you almost stand a chance."

The group — almost 1,000 men

and their wives—plans to start a drive for a scholarship fund for children of former inmates. A court-directed settlement resulted in payment of more than seven million dollars to the former prisoners by the I. G. Farben Co. of Germany during World War II.

"We would like to enable as many children as possible to have the education we were denied in the Hitler era," Michel said.

The numbers were burned there more than 13 years ago when the men were prisoners at Auschwitz, Buna in Poland, one of the most horrible Nazi concentration camps.

They didn't know our names, recalled Leon Kerstein, who now owns a butcher shop in Brooklyn.

"They called us by numbers. Kerstein's mother, father, six brothers and two sisters were exterminated in Nazi concentration camps.

Satellites To Be Big Help

DALLAS (AP)—The benefits of satellites in the field of communications were outlined Sunday by Sen. Lyndon Johnson.

The senator, chairman of the Senate Space Committee, said communications across the world may be aided by the use of satellites.

Johnson said scientists are "hard at work on studies involving what are known as communications satellites." These satellites would orbit the earth and bounce radio signals from earth back to the selected destination "possibly halfway around the world."

In his recorded talk over Texas radio stations Johnson said: "This type of satellite would contain no electronics equipment. Instead, it would deflect the radio signal from space back toward earth."

"Another type of satellite might contain electronics equipment to beam the signal to its destination. These are developments that are virtually here," he said.

Johnson said the satellites could also help provide information on weather.

"With these satellites, scientists could watch storms form, move and finally disappear. They could do this around the world on a 24-hour basis."

Wanted Man Surrenders

CHICAGO (AP)—The third man wanted for the slaying of two postal inspectors surrendered to police officers Sunday because "things were getting too hot."

Postal inspector R. J. Dunne said Allen Goslon, 32, came to his office and identified himself as the third member of the gang which killed the inspectors last Monday night after they were arrested for mail theft.

Shortly before Goslon surrendered, 40,000 posters were distributed throughout the nation urging "extreme caution" in apprehending him.

Police last Friday night arrested William Perkins, 36, and his half-brother, George Wilson, 37, in connection with the slayings. Both men signed statements, police said, admitting the slayings and named Goslon as their accomplice. The three men, all Negroes, were described by police as dope addicts.

The Post Office department had offered a reward of \$12,000 for the arrest and conviction of the slayers.

The postal inspectors, John McLaughlin, 36, and Benedict Spizziri, 42, were shot to death in McLaughlin's car after they had seized the tin for stealing two bags of mail from a postal station.

17 Survive Plane Crash

BOGOTA, Colombia (AP)—Seventeen women survived the crash of a Colombian airliner which went down in a rainstorm with 46 Colombians aboard while bringing vacationers back from an island resort.

The accident occurred Saturday. The twin-engine C46 was en route from San Andres Island, off Nicaragua's east coast, to Medellin, northwest Colombia.

Eight survivors of a Catalina flying boat which crashed in Colombia's Meta department a week ago were rescued from the jungle Sunday by helicopter of the U. S. Coast and Geodetic Survey.

All 14 persons aboard the plane survived the crash, but six died in the five days before the wreck was spotted and medical aid lowered.

In neighboring Peru, a cargo plane with four persons aboard was missing and feared down in the mountainous Maranon River area.

Pair Die In Crash Of Plane On Ranch

FORT WORTH (AP)—A pilot who telephoned friends and said he would fly over their ranch home and wave to them died Sunday with his woman companion when the plane crashed on the ranch.

Killed were J. R. Fleming, 40, Duncan, Okla., and Mrs. Mina Tillery, 35, also of Duncan.

Fleming's single engine plane hit a telephone line and power cable near the ranch home of Mr. and Mrs. Floyd Davidson, southwest of here.

The victims had visited the Davidson home earlier in the day and were headed for Oklahoma when the plane crashed.

Fleming, former resident of Mineral Wells and Fort Worth, worked for the Mobil Oil Co. in Duncan.

Warmer Weather Due For Next Five Days

DALLAS (AP)—The Weather Bureau issued today its 5-day forecast for March 21-25.

Eastern and Central Texas temperatures 3 to 6 degrees above normal in southern Texas and near or a little below normal elsewhere. Mostly minor day to day changes. Precipitation light or none.

Western Texas: Temperatures 4 to 8 degrees above normal. Mostly minor day to day changes. Precipitation light or none.

KEEP 'EM BRIGHT

Brass household ornaments may be difficult to keep bright. Keep them gleaming by cleaning minor dust and drying, then spraying the surface with shellac.

Companion Of Keller Dies

BRIDGEPORT, Conn. (AP)—Polly Thomson, companion of Helen Keller, died in Bridgeport Hospital Sunday night after a long illness.

Miss Thomson, 75, entered the hospital in December.

She lived with Miss Keller at the famous blind author's home in Easton, Conn.

She was born Mary Agnes Thomson in Glasgow, Scotland, but became generally known as Polly.

In 1913 she came to the United States to visit an uncle in Swampscott, Mass. In October of the following year, she was brought to the attention of Anne Sullivan Macy, teacher of Helen Keller.

Mrs. Macy hired Miss Thomson at their first meeting and a few months later set out with both Miss Keller and Miss Thomson on a tour.

In 1921, in Toronto, Can., when Mrs. Macy became ill, Miss Thomson made her first appearance on the lecture platform with Miss Keller. Miss Thomson did so well that, afterward, it was she rather than Mrs. Macy who stood beside Miss Keller and interpreted the latter's broken speech to the audience.

After Mrs. Macy died in 1936, Miss Thomson and Miss Keller became inseparable.

Violence In Texas Claims 29 Lives

By The Associated Press

Car accidents and shootings took the lives of 23 persons in Texas during the weekend as violence took at least 29 lives.

The Associated Press count started at 6 p.m. Friday and ended midnight Sunday.

At least 17 persons died in car accidents, 6 died in gun shots, 3 in plane crashes, 1 drowned, 1 in a fall and 1 died when a horse fell on him.

The collision of a station wagon and a milk truck killed five Corpus Christi Negroes Saturday 10 miles north of Bryan.

They were Mrs. Tennessee Ollison, 43; Philetus Johnson, Willie Johnson, 13; Van Johnson, 15, and Mrs. Beatrice Hopkins, 33.

J. R. Fleming, 41, and Mrs. M. Tillery, 35, both of Duncan, Okla., were killed Sunday when their Moody Mark 20 plane crashed on a farm near Mineral Wells.

James Long, 66, a retired railroad worker, died Sunday when hit by a car in Houston.

Henry Plemons, 71, a retired Hamlin farmer, was found drowned in a Hamlin lake Sunday and a justice of the peace ruled the death accidental.

The body of Mrs. Kenneth Covington, 30, of Graham, was found in her home Sunday. She had been shot in the chest and a gun and note were found by her body.

A Fort Worth high school student, James Holmes, 17, died Sunday night of injuries suffered in an auto accident in Fort Worth Saturday.

Fank Bauchaw, 20, of Brownwood, died Sunday night in a car accident just outside Brownwood on U.S. 47.

John Larish of New York City died Sunday when his station wagon collided with a truck near Killen.

Charles Ship of Dallas was killed in a 2-car collision in Dallas Sunday.

Burt Ashby, 56, of Dallas, died Sunday when the horse he was riding reared, threw him and then fell on top him. The accident occurred at Irving.

Mrs. Nancy Mitchell, 24, Fort Worth, was killed Sunday when she was riding overturned in Dallas.

La Paz Back To Normal

LA PAZ, Bolivia (AP)—Bolivia's capital was back to normal today and the government of President Hernan Siles Ziazo in complete control after crushing a police revolt.

Sixteen persons were killed and 100 wounded in sharp fighting Saturday between a police regiment led by Col. Hermogenes Rios Ledezma and government forces.

Ledezma fled and escaped capture. His second in command, Col. Burgos Navia, was slain in the five-hour battle.

The motive for the revolt was not clear.

But President Siles said it was "blood proof" of the government's charge two weeks ago that former President Enrique Hertzog was conspiring with former tin magnate Carlos Victor Aramayo against the Socialist-inclined government.

There was speculation that Ledezma was the front man in an attempt to install a police government or force the removal of labor leader Juan Lechin as the vice presidential candidate on the government ticket in the May 22 elections.

Rabbit Drive Set Saturday

A rabbit drive will be held Saturday in the Strayhorn community east of Snyder.

Those participating will assemble at the Bill Jordan place between 7:30 and 8 a.m.

Lunch will be served during the noon hour at the Weldon Perry place.

Ammunition will be available at wholesale prices at the site of the drive, and all area residents are invited to participate.

HOUSTON (AP)—The tugboat F. R. Hauber sailed with a 200-foot barge in tow Sunday on a 12,000-mile voyage to the island of Tierra Del Fuego off the foot of South America.

Tennessee Gas Transmission Co. plans to use the barge in laying two, three-mile pipelines from the island to an anchorage in San Sebastian Bay for the Argentine government. Tierra Del Fuego is rich in oil.

Speckmen say it will take the 100-foot tug about 60 days to reach its destination.

Ike Flies Back To Work In Helicopter

WASHINGTON (AP)—President Eisenhower came to work by helicopter today. He flew to the White House from his weekend retreat at Camp David, near Thurmont, Md.

A Marine Corps whirlybird landed at the President at 8:29 a.m. on the south lawn behind the mansion. The flight from Maryland's Catoctin mountains, 65 miles north, took 31 minutes.

Eisenhower had been at Camp David since Friday evening.

Paintings Displayed At Lincoln School

The art exhibit on display at the Scurry County Library was put on exhibit today and tonight at the Lincoln School Library.

Daniel Johnson, Lincoln principal, said the public was urged to view paintings at the school.

Mamie Is In Denver

DENVER, Colo. (AP)—Mathie Eisenhower arrived in Denver Sunday afternoon for a brief visit with her mother, Elvera S. Doud.

The presidential plane-Columbine III brought the First Lady here after a two-week vacation at Phoenix, Ariz.

Priority For Disarmament May Be Proposed At Summit

By JOHN M. HIGHTOWER

WASHINGTON (AP)—The United States may propose to its allies and the Soviet Union that disarmament be given top priority in negotiations at the May 16 summit conference in Paris.

Officials, considering this possibility, believe the result might be to take some of the heat off the dispute with the Soviet Union over West Berlin and to concentrate attention on the one subject which offers the possibility of important agreement.

A priority for disarmament was discussed by top U.S. leaders with West German Chancellor Konrad Adenauer during his visit last week.

It was further pointed up by the new Soviet conditional acceptance of a U.S. proposal for a limited rather than total treaty ban on test explosions of nuclear weapons.

The Soviets made their offer Saturday. U.S. officials are skeptical about their purpose but note they now have narrowed the gap between their own and the Western position on a nuclear test treaty.

If they are acting in good faith, officials said, it might be possible to work out most of the problems involved in agreement on a treaty in time for final decisions at the summit.

If the Soviets are not acting in good faith—if they are simply maneuvering for immediate advantage by splitting the United States and Britain—U.S. leaders hope to find this out well in advance of the summit.

Before a U.S. stand can be taken, Eisenhower may have to decide among other things whether the nation's security makes it vital to resume underground testing of nuclear weapons next fall. Some atomic and military officials say such tests are needed.

The possibility of an East-West agreement on a ban of the testing of nuclear weapons is now the brightest among disarmament issues, but at the moment it is far from a probability.

So far as the Berlin dispute goes, however, there is presently no prospect of agreement whatever at the summit conference.

Soviet Premier Nikita Khrushchev has said that sooner or later

Navy Seeks Cause Of Ship Crash

NORFOLK, Va. (AP)—The Navy today sought the reason for a baffling, clear-night collision in which a Swedish freighter rammed a destroyer escort and almost tore it in two.

Two reservist crewmen of the USS Darby died and another was seriously injured when the prow of the SS Sova-Atlantic knifed into the naval vessel Saturday at the mouth of Chesapeake Bay.

The weather was clear and the captain of the Darby reportedly was on the bridge at the time.

Lawyers for the Sova-Atlantic, which had been outbound for Venezuela, said the merchant ship came at the Darby from the starboard side, was showing her port light, and that the Darby's task was "to keep out of the way."

The Navy, however, detained the slightly damaged freighter until it can complete an inquiry by a special board that began after the Darby was towed into drydock before dawn Sunday.

Aboard the destroyer escort as she returned from a 16-day training cruise with 120-odd reservists were Rep. James E. Van Zandt (R-Pa.), Assistant Navy Secretary Richard Jackson, and the commander of naval reserves, Rear Adm. Robert T. S. Keith.

The Sova-Atlantic, a 16,266-ton tanker and ore carrier, was empty except for 10,000 tons of water ballast in her oil tanks.

Those killed were enlisted men Charles Edward Crandall, 37, of Westminster, Md., and Thomas Edward Johnson, 50, of Annapolis, Md., both naval reservists.

James D. Trusty, 27, of Baltimore, one of 36 regular Navy crewmen on the Darby, was hospitalized with a possible fracture of the right knee.

Chiang Back Without Any Opposition

By SPENCER MOOSA

TAIPEI, Formosa (AP)—Generalissimo Chiang Kai-shek was reelected without opposition today in a third six-year term as president of Nationalist China.

Flags of the republic-blossomed in Taipei. Firecracker barges were set off throughout the country.

The National Assembly, sitting as the nation's electoral college, gave the 73-year-old leader a rousing 1,481 votes out of 1,509 ballots cast. The remaining 28 ballots were blank—an anti-Chiang expression—and were declared invalid.

This amounted to 98.14 per cent of the vote when he was first elected at Nanking in 1948 and 95 per cent in Taipei in 1954.

As an unopposed candidate, he needed only 789 votes for election. As soon as this number was reached, announcement of the election was broadcast over the nation's radios.

The National Assembly will meet again Tuesday to elect Vice President Chen Cheng, 62, to his second term. He also is unopposed.

The Nationalist constitution prohibits a third term for the president and vice president, but in order to keep Chiang in office the prohibition was suspended until the national regime recaptures the Communist-held mainland.

Chiang has been top man in China since the death in 1925 of Dr. Sun Yat-sen, founder of the republic.

In the event of Chiang's death or incapacity, Chen will automatically succeed to the presidency for the remainder of the unexpired term. He would also become leader of the Kuomintang, the ruling party of which he has been deputy leader since 1957.

Gen. MacArthur's Condition Excellent

NEW YORK (AP)—Gen. Douglas MacArthur is recuperating from an operation for removal of an enlarged prostate gland.

The 80-year-old five-star general underwent the operation Saturday at Lenox Hill Hospital.

Dr. George W. Slaughter, who performed the operation, described MacArthur's condition as "excellent."

Barge To Be Used In Laying Pipeline

HOUSTON (AP)—The tugboat F. R. Hauber sailed with a 200-foot barge in tow Sunday on a 12,000-mile voyage to the island of Tierra Del Fuego off the foot of South America.

Tennessee Gas Transmission Co. plans to use the barge in laying two, three-mile pipelines from the island to an anchorage in San Sebastian Bay for the Argentine government. Tierra Del Fuego is rich in oil.

Speckmen say it will take the 100-foot tug about 60 days to reach its destination.

Science Shrinks Piles New Way Without Surgery Stops Itch—Relieves Pain

New York, N. Y. (Special)—For the first time science has found a new healing substance with the astonishing ability to shrink hemorrhoids, stop itching, and relieve pain—without surgery.

In case after case, while gently relieving pain, actual reduction (shrinkage) took place.

Most amazing of all—results were so thorough that sufferers made astonishing statements like "Piles have ceased to be a problem."

The secret is a new healing substance (Bio-Dress) discovered by a world-famous research institute. This substance is now available in suppositories at a special low price under the name Preparation H. At your druggist. Money back guaranteed.

LAMAR SUB-DEBS—These young ladies known as the Lamar Sub-Debs, under the direction of Nan Lee, will present several numbers at the Junior High School Parent-Teachers meeting tonight, and join in with the Lamar Girls choir and the mixed choir. The girls have just received new costumes in pale blue that are very chic. Final plans are being made for the contest Thursday in Brownwood. Front row from left: Margaret Zeck, Jan McLeod, Joyce Yoast and Nina Proctor; second row: Jane Boren; Connie Zimmerman, Diane Ator, and Anita Holt; third row, Martha Hunt, Ann Patterson, Lynn Holt and Sally Wade. Four girls not pictured will also attend the contest.

SENIOR BANQUET—"The Last Roundup" was the theme of the Senior Banquet held Friday night at the First Baptist Church. Approximately 65 were in attendance. Virgil Mott, educational director was master of ceremonies and Verbal Bartlett, soloist, entertained with western songs. Rev. Walter Mitchell gave the message titled "A Challenge To You." A chuck wagon menu was served with everyone in western attire. Above from left to right are: front row, Judith Gladson, Patsy Ramsey and Kenneth Haught; back row, Verbal Bartlett, Joe Scott, Mrs. Walter Mitchell, and Walter Mitchell, pastor.

COLORADO CITY MEETING—The homemaking department of the Colorado City High School was the setting for the meeting of Beta Epsilon Chapter of Delta Kappa Gamma Sunday. Stiga Fernstrom (left) was guest speaker. With the speaker are: Miss Bess Johnston of Snyder, Mrs. Ethel Dawson, Colorado City and Mrs. Estha Coffee, Lorraine.

Stiga Fernstrom Speaker For C-C Teachers Meeting Sunday

Forty-one members answered roll call when Beta Epsilon Chapter of Delta Kappa Gamma was called to order by Mrs. Lida Rhoades president, in Colorado City Sunday afternoon.

The collect was read by Miss Mabel Smith followed by the group singing the Delta Kappa Gamma song led by Miss Zaida Brown.

lock; corresponding secretary, Mrs. Hontas Hines; treasurer, Mrs. Mrs. Ruby Anderson; and parliamentarian, Mrs. Lida Rhoades. An announcement was made concerning the State Convention which meets April 29-30 in Fort Worth.

The program chairman, Miss Maydelle Burns, presented Miss Virginia Grove, who explained about the American Field Service program and presented Stig Olof Fernstrom of Finland, the Foreign Exchange Student who is attending high school in Snyder this year.

Stig Olof very pleasantly told of many interesting things concerning his country, educational system, religions and religious observances, and several unusual customs.

"Much of the culture of Finland comes from the West and Finland is considered a Western nation, but she receives much influence from the East. In the politics of today Finland has a position between West and East."

"In Area it is fifth largest nation in Europe, but less than half the size of Texas."

"At the age of seven all children begin the elementary school, where all are together through the first four grades, then an entrance examination to high school is given. Because of lack of teachers and schools it is very hard to enter high school which means eight more years of elementary school and then go to work or attend trade school."

"Ninety-five per cent of the people of Finland are members of the Lutheran Church. The church is closely connected to the state for the ministers are educated in government operated universities, bishops chosen by President, and paid by the government."

In conclusion Stiga said, "Even if there are differences between our two countries, the United States and Finland have always been very close, and I wish that our nations always will remain close in brotherly love."

After this very inspiring program the Colorado City hostesses served delicious refreshments. A beautiful white linen cutwork table cloth was used with the centerpiece very artistically arranged of white carnations and stock with green bells of Ireland. The lime frosted punch added much to the color scheme of green and white.

Attending from Snyder were: Miss Vela Bell, Mrs. Mabel Brock, Miss Zaida Brown, Miss Maydelle Burns, Mrs. Leola Burris, Mrs. Johnnie Cogdell, Mrs. Mary Devenport, Miss Mary Lou Devenport, Miss Virginia Grove, Mrs. Hazel Hanback, Mrs. Laura Holladay, Miss Bess Johnston, Mrs. Lillian Jones, Mrs. Marcella McCollum, Mrs. Delia McPherson, Miss Vestal Maner, Mrs. Lida Rhoades, Mrs. Allene Stephens and Miss Anna Belle Hinch, a prospective transfer member.

Officers are: Mrs. Floyd House, chairman; Mrs. Howard Sterling, vice-chairman; Mrs. Mack Kruse, secretary; Mrs. Ann Kruse, treasurer; and Mrs. J. L. Byars, reporter.
The newly elected officers will convene the Ira community starting Thursday to raise money for dishes needed at the center.
The next game night meeting will be held April 1, at 7:30 p.m.

Miss Stinson Back From Workshop

Miss Louise Stinson, instructor-coordinator at Cogdell Memorial Vocational School, was among 38 nurses who on Friday completed a two-week course for instructors of vocational nurses given at The University of Texas, March 7-18. The workshop was designed to improve the teaching skills of nurse instructors and training coordinators in the licensed vocational nurse training program of Texas.
By attending classes all day and doing homework at night the students compress into two weeks what would normally be a four-week course. The workshop was designed to improve the teaching skills of nurse instructors and training coordinators in the licensed vocational nurse training program of Texas.
The workshop was designed to improve the teaching skills of nurse instructors and training coordinators in the licensed vocational nurse training program of Texas.

Mike Todd Jr. Does Well As Heir Of Flamboyant Empire

By INEZ ROBB
Just two years ago, a young man of 29 was suddenly thrust into the shoes and flamboyant empire of Mike Todd Sr. when he died in a plane crash.

Among the chief items in his father's legacy, Mike Jr. counts a gold mine called "Around the World in 80 Days," a stepmother named Elizabeth Taylor, a sharp mind, a lively sense of humor and a sure instinct for show biz.

"I've got a half-dozen properties that would make sensational teevee or movie spectaculars," he said. "I'd like to revive 'The Hot Mikid,' the best musical that ever did in my opinion. And in less than two weeks, the first draft of a musical version of 'Around the World in 80 Days' for either screen, stage or teevee, will be completed. Then, I'd like to do a show called 'Mike Todd's Broadway,' featuring the smash numbers from all his musicals.

"Sarah and I don't come to town five nights a year," he said. "The last time we came to town was to see a hockey game, and it was over at 8:30 p.m., which is kind of late for us. I don't know anything that's more fun than your own children.

"You might say that we collect old furniture. The kids make it

that way as they go along. Sarah and I don't have much social life. But we like a lot of people at the dinner table and we're well on the way to achieving that goal.

Right now, Junior is wrestling with a problem not yet resolved: Shall he take the plunge into a medium, strange to him, called teevee, or shall he stick with stage and screen?

"I've got a half-dozen properties that would make sensational teevee or movie spectaculars," he said. "I'd like to revive 'The Hot Mikid,' the best musical that ever did in my opinion. And in less than two weeks, the first draft of a musical version of 'Around the World in 80 Days' for either screen, stage or teevee, will be completed. Then, I'd like to do a show called 'Mike Todd's Broadway,' featuring the smash numbers from all his musicals.

"Sarah and I don't come to town five nights a year," he said. "The last time we came to town was to see a hockey game, and it was over at 8:30 p.m., which is kind of late for us. I don't know anything that's more fun than your own children.

"You might say that we collect old furniture. The kids make it

ably the only son in America for whom his father was named. When his father chose the name "Mike Todd Jr." for him, he liked the name so much that ultimately he had his own name changed to the one he made world famous: Mike Todd Sr.

Mail Brings Some Odd Bits Of News

By HAL BOYLE
NEW YORK (AP)— Things a columnist might never know if he didn't open his mail.

What is the price of capital punishment in America? In the last 30 years more than 3,500 persons have been executed for major crimes, a tenth as many as are killed each year in highway accidents.

Are you afraid of lightning? Then plant maple or birch tree in your yard. They are less likely to be hit by lightning than an elm or chestnut tree.

NAACP Has Some Second Thoughts

By JAMES MARLOW
Associated Press News Analyst
WASHINGTON (AP)— One of the most significant turns in the Negroes' fight for civil rights and it doesn't suggest racial quiet in the South—seems to be second thoughts by officials of the National Assn. for the Advancement of Colored People.

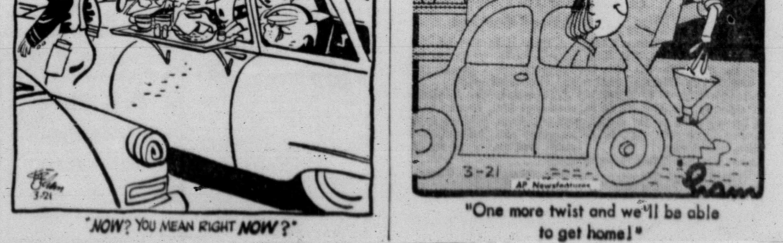

Second thoughts, that is, on whether they have been wrong over the years in concentrating their efforts for civil rights almost entirely on the quiet legal approach, depending mostly on the courts to break down the racial barriers.

Now there is evidence the young, educated Negroes of the South are impatient with the slow approach. They have shown it in their demonstrations, their marches through the streets, their sit-downs at chain store lunch-counters which serve only white customers.

More than 1,000 of them have been arrested in the South for these activities. Over the weekend some leaders of the NAACP began to show signs of wondering whether their long-established slow, legal approach is all that is needed.

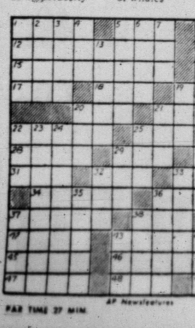

Thurgood Marshall, NAACP chief attorney and the real guiding force in its long court fights, said of its young Southern Negroes: "They have made us re-examine our sights. The least we can do is support them."

He conferred here for two days with 60 lawyers called in from every Southern state and then announced that the Negro demonstrators who get arrested in the South will have the legal help to fight their cases.

LBJ Praised By Hawaiian

WASHINGTON (AP)—Sen. Oren Long (D-Hawaii) described Sen. Lyndon Johnson Sunday as a man with the necessary qualifications for president.

"The qualities of leadership needed in our nation today are particularly characteristic of our great majority leader in the Senate," Mr. Johnson said in a speech at the Texas State Society of Washington brunch honoring Hawaii as the 30th state.

Mrs. Charles Cabell, wife of the deputy director of the Central Intelligence Agency, was elected society president. She formerly lived in San Antonio and Dallas.

Scientific Proof: Three's A Crowd

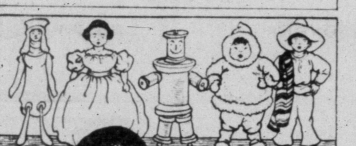

BALTIMORE (AP)—A Johns Hopkins University professor says there is scientific truth in the old proverb, "Two's company, three's a crowd."

When three persons are thrown together, two pair off in a closer relationship and the third is sort of left out in the cold, according to Dr. James S. Coleman, an associate professor of social relations.

Dr. Coleman said an electronic brain determined this to be the case, even if all three persons are alike in personality and temperament. The machine didn't say why.

The Prekash will be run for the 84th time on Saturday, May 21 at the Pimlico course in Baltimore, Md.

Junior Editors Quiz on TOYS

QUESTION: When were dolls first made?

ANSWER: Dolls are much older than their name. The word "doll" was first used about 1750. Before that they were called puppets, babies, or little ladies. Dolls actually have been in existence for at least 3,000 years. No one knows who made the first one. The first dolls were not toys. In fact children were not allowed to touch them. They were believed to bring good luck and some were thought to have magic powers. Perhaps the oldest dolls are the paddle dolls made by the Egyptians more than 3,000 years before the birth of Christ. These were made from thin pieces of board carved like a canoe paddle. Lines were carved on them to represent clothing. They were made without legs so they could not run away. These dolls were placed in the tombs of the dead.

FOR YOU TO DO: Among the collection of old dolls in our picture is a homemade spool doll—in the center on shelf. See if you can make a spool doll.

(The \$10 award for this question goes to Jo Nell Jones of Euclid, Ohio. Mail your question on a postcard to Violet Moore Higgins, AP Newswriters, in care of this newspaper. If duplicate questions are received, Mrs. Higgins will choose the winner.)

Postman To Give Census Taker Lift

By FRANK CORMIER
WASHINGTON (AP)—The postman gives a lift to the census taker this week, delivering advance questionnaires for the 1960 census to every occupied dwelling in the land.

Sixty million copies of the four-page form have been delivered to 35,000 post offices. The Census Bureau is paying the Post Office Department about 1 cent to handle each piece, a total of \$1,200,000.

The forms are to go into the mail next Friday and Saturday. Every household should get a copy by next Monday. Each postman will get a stack of the undressed forms, enough to leave one at every dwelling on his route.

Each family is to fill out the form before the arrival of the census taker. The census begins April 1, and will continue through the month. Most families will be visited during the first two weeks of April.

The census taker will copy on forms of his own the information given on the advance forms. The idea behind the advance questionnaire is to give everyone time to ponder the questions and provide accurate information.

Some post offices jumped the gun and delivered the forms last week. This was a mistake but census officials say no damage was done.

On the first page of the form is a message from Census Director Robert W. Burgess asking co-operation with the census. Burgess also points out that the information collected is kept confidential by law and "cannot be used for purposes of taxation, investigation or regulation."

The next two pages ask about all residents of the dwelling plus anyone who stayed overnight on Thursday March 31. The questions: name, relationship to head of household, sex, race, month and year of birth, and marital status.

CONTINENTAL IS THE STYLING . . . Easter the key-note . . . Spring the season for dressing him up . . . and ROGERS BOYS SHOP is the place to coordinate his spring outfit. The slogan "when he looks his best — he does his best" causes one to stop and realize just how important it is to that young man to dress him correctly. In recognition of this, the buyers at Rogers have shopped the market to bring you the very finest in quality . . . at prices you can afford.

Rogers, Inc., Getting Set For Easter Season Shoppers

The Boys Shop at Rogers Inc. is getting all ready for the Easter Season. Most of the white Botany sport coats are in. These are continental styled and priced at \$13.95 and 16.95. The size regular boys suits have arrived; these are mid-night blue, continental styled, and priced at only \$21.95 and 27.95.

The fabrics are highly wrinkle resistant. In boys sportcoating, burnished olive and charcoal colors are compatible with medium grey and charcoal slacks. These also are of the continental model. To accessorize the suits and sport ensembles, Rogers has white wash and wear dress shirts, con-

vertible-cuffs so that cuff links can be worn, Texan belts, Fabites, and Stevens dress hats.

Looking toward the warmer season, Rogers has a plentiful supply of those cool knit shirts that mother and son both love. Donmore and McGregor have several new ideas that the personnel at Rogers Boys Shop are anxious to show. Those boys favorites, Texan Jeans, are ready and waiting to take on the challenge of rough and hard wear the average boy can give. Don't forget boys' lucky underwear for comfortable fit and long wear.

Swimtime is almost here! A complete and comprehensive line of Catalina swimwear awaits your selection. There are even father and son matching trunks. The boy will be proud to have one "like Dad's."

Rogers has other merchandise that hasn't been mentioned that would make a boy proud and happy. Bring him to Rogers Boys Shop today.

Firm Is Working On Missile Detector

BALTIMORE (AP)—The Martin Co. is working on a long-range heat detector to be used in spotting and destroying intercontinental ballistic missiles.

A company spokesman said Sunday the infra-red scanner being developed is sensitive enough to detect small temperature differences at long distances.

A missile cone in outer space would be enough warmer than its subfreezing surroundings to be detectable. The scanner could be used in an antimissile to guide it to its target, the spokesman said.

YOUR FUN IS OUR BUSINESS is the motto of the Canyon Reef Sports Center located at 1908 Thirty-seventh Street. Mr. and Mrs. Marvin Vincent are shown here with their Top Notch Cross Country Shoes.

Canyon Reef Sports Center Is New Corporation Here

Canyon Reef Sports Center, Inc. located at 1908 Thirty-seventh Street in the Highland Shopping Center, is a newly organized corporation with Marvin Vincent of Snyder, D. V. Maroon of Lufkin and Claude Morrison of Corpus Christi being the principal stockholders.

Vincent is the traveling representative of the company, calling on a vast school territory from Pflugkuch to San Angelo and from Lamesa to Breckenridge.

"Red" London of Mathis has been hired recently to travel the

southern part of the state from Corpus Christi to Brownsville. All shipments will be made from the Snyder store where Mrs. Marvin Vincent is the store saleslady. Canyon Reef has a complete line of nationally known brands such as Rawlings, MacGregor, Sand, Spaulding, Wilson, Riddell, Southern, Converse, Top Notch, Cramers, Neuma, Bear Archery, Southland Red Fox and many others.

Along with the school merchandise, Canyon Reef features the best in archery with the Best True

Flight equipment, along with Ben Pearson Hickory bows and arrow assembly kits.

Looking forward to the vacation season, Canyon Reef is expanding into camping, fishing, water sports, sleeping bags, hunting clothing, and many other items needed to make your summer more enjoyable. So no matter what your sport is you will be right at home at the Canyon Reef Sports Center where the motto is "Your Fun is Our Business."
