Funeral Rites Held Today For Mrs. Campbell

Funeral services for Mrs. Laura F. Campbell of Turkey were held at the Turkey Methodist Church Thursday afternoon at 2 o'clock. Burial will be at the Wellington Cemetery, and graveside rites will be held there.

Conducting the services was Rev. Fred Brown, pastor of the Turkey Methodist Church. Seigler Funeral Home of Turkey had charge of arrangements.

Mrs. Campbell died in Hall County Hospital early Wednesday morning after a lengthy illness. She was 77 years of age. She is the mother of Mrs. Tom Salem of Turkey and Lester Campbell of Memphis.

Pallbearers will be Gordon Bain, Bert Degan, Harry Barnhill, David Guest, E. L. Hill Jr., Jim Majors, and Pat Brittain, all of Turkey, and Gary Barnhill of Clarendon.

Mrs. Campbell was a member of the Methodist church, and the Order of the Eastern Star. She was a charter member of the Nuevo Study Club at Turkey.

Mrs. Campbell was born January 26, 1889, in a small community near Corsicana, Texas. She moved in a covered wagon at an early age with her parents to a farm near Hollis, Okla., and was reared there. On June 25, 1911, she was united in marriage to Lester J. Campbell at Hollis. Her husband preceded her in death January 5, 1936.

In 1920, she moved to Wellington and made her home there until 1938, when she moved to Turkey. She had been a resident of Turkey since that time, except for a period of time during World War II when she lived in Memphis and again in Wellington.

Survivors include the two children; a granddaughter, Chris Campbell of Memphis; two grandsons, Tim Salem of Turkey and Jay Ed Campbell of Memphis; a brother, C. A. Wolfe of Hollis; and a sister, Mrs. Eula Gambill of Pawhuska, Okla.

Slow drenching rains that began last Thursday afternoon but really got underway in earnest Sunday left Hall County the wettest it has ever been in August in many, many years.

August is a month when residents and farmers can hope for about 1.60 inches of rain all month (the monthly average), but many times they get far less.

The Hall County average of rain during the past week would be somewhere in the neighborhood of 6 to 6.5 inches, reports indicate.

Here in Memphis, the official rain gauge recorded a total of 5.33 inches since last Thursday morning. These amounts included Friday, .57, Sunday .53, Monday 1.87, Tuesday .86 and Wednesday 1.50. Rayford Hutcherson, the official weather observer, was out-of-town so brother, Wayne, handled the weather recording for him.

This is one rain in which glass-tube rain gauges were quite feficient as the rain fall was straight down and slow. The rain gauge behind The Democrat Office caught a total of 5.3 inches during this spell.

The heaviest rain was recorded in the Lesley-Brice area where up to 9 inches total was recorded. This area received a three-inch rain and damaging hail Thursday afternoon. Hail was especially damaging on the Paul Montgomery farm, Joe Montgomery farm, Leon Fowler farm, W. O. Clark farm and the Hughes farm. Estimates of damage were as high as 100 percent from this hail.

Out in the Deep Lake area rainfall was around 4.5 inches during the entire week. Other areas received from 5 to 6 inches across the entire county.

In the Newlin area, reports ranged as high as seven inches

Robert Montgomery Named President Of Memphis Cyclone Booster Club

Members of the Memphis Cyclone Boosters Club met with the coaches and members of the 1966 Cyclone squad in the Travis Cafetorium Monday night for a watermelon feed and business session.

The group elected officers and directors for the coming year, highlighting the business session.

Robert Montgomery, Memphis attorney, was elected president of the Booster Club, while T. O. Pounds was elected vice-president. Joe B. Browning was named secretary-treasurer.

Directors voted to purchase 15 water repellent capes for the Cyclone squad to use on the side lines when the weather was wet or cold. Across the back of these will be stenciled "Memphis Cyclones." The colors will be the team colors of black and gold.

Out-going President Leroy Gaston reported to the group on the membership drive which is presently in progress. Also, the group decided to meet again at 7:30 p. m. Monday, Sept. 5, in the Jr. High School building. At this meeting, scrimmage reports will be made and an interesting program is planned to preview the coming season.

Those present Monday night enjoyed the ice cold watermelon. The crowd was smaller than expected due to rainy weather.

Before eating, Coach Bert Glascock introduced the members of the coaching staff and the members of the Cyclone team. He explained the lineups and formations the squad will use this season.

After eating, a film of the 1965 Memphis-Clarendon football game was seen and Coach Glascock pointed out Clarendon's key personnel who will be back this season.

Other topics under discussion were reports that 11 tentative sites for retention dams have been picked out to survey. Six of these have already been surveyed.

The entire survey of the Lakeview Watershed is expected to be completd in Novmber, it was reported.

If the Oaks Creeks dam site is made into a recreational facility it would back up about 300 surface acres of water when the dam is full. Facilities would be suitable for boating, skiing, picnicking, fishing and sight seeing. The dam would be one-half mile long across the Oaks Creek.

Endorsement Of The Democratic Nominee

Recently, this editor had opportunity to sit down and discuss certain vital issues with newly-nominated Dee Miller, seeking election to the office of U. S. Representative of the 18th Congressional District of Texas.

The conversation took place within a few days after the 30 county chairmen of the Democratic Executive Committee met and voted Mr. Miller as the nominee. As a result of this meeting, and further investigations into the character and integrity of Mr. Miller since that time, we are editorially endorsing Dee Miller's candidacy for Congress from the 18th District.

Mr. Miller presents the public image of being a clean-cut young American who has youth, ability, personality and

We were able to find an almost universal opinion among some of the more experienced attorneys around the area, that Dee Miller is capable, energetic, personable, and hard working.

Miller, working with his Campaign Chairman Attorney a lot of energy at his disposal to tackle whatever job he goes about. Although he hasn't been in politics long enough to establish political allies, he certainly has made many friends among former classmates who have voluntarily stepped forward to support his in his candidacy.

Mr. Miller, along with his twin brother, were star athletes at Borger High School not too many years ago. A law school graduate, he has held the District Attorney's post at Amarillo long enough to establish the image of a hard-working young prosecutor doing a capable job.

Jewett Huff, who has offices in the First National Bank Building in Amarillo, is planning an active schedule of campaigning which he hopes will carry him through each and every town in the 18th Congressional District. He has assured us that Hall County and Memphis will be among his stops.

Democratic Party elders feel that Dee Miller is the up-and-coming politically-moderate young man who deserves the solid support of Democratic voters at the polls in November.

What of the future? Should Hall County have a Democratic or a Republican in the House of Representatives replacing Congressman Walter Rogers? In losing Mr. Rogers, the Texas Panhandle is losing a lot of seniority. Ability is important but in Washington in the House of Representatives, seniority is also important.

If the Democrats can elect Dee Miller this November and he "has what it takes" to get elected again two years from now, although many realize no freshman congressman is going to set the world on fire his first two years, then the Panhandle of Texas could well look forward to establishing seniority in U. S. House of Representatives within a short time.

We hope Mr. Miller wins the election for we feel the party will be able to develop this young man into a valuable asset for his district, his state and his nation. We wish him luck, and we intend to give him the most effective support we can toward making a start on the job by voting for him at the polls in November.

Texas Highway System— Our Transportation Lifeline

The Texas Highway Department recently released information contained in a new study in which it was stated that Texas will need to invest more than one-half billion dollars a year in new highway construction by 1985 to keep pace with the growth of the state.

This forecast was contained in a 24-page brochure entitled, "The Great Challenge . . . Texas Highway Needs." By comparsion construction expenditures in Texas in 1965 were $358 million.

A plan of this magnitude to build a highway system to meet the challenge of the future will require active, alert public support and sound adequate financing. We, as citizens of this state, most constitantly be alerted to many movements whereby necessary funds to de the needed jobs would be taken away from highway revenues through diversion or dispersement.

Have you really stopped to consider how really vital our transportation systems are to our state and nation. How we excuse the shocking traffic accident toll each year by thinking, "Well, that's the price we must pay for moving about like we do." Failure to build better, afer highways, we feel, will be costly in huamn life and suffering as more and more automobiles and trucks use our highway system.

The brochure pointed out that Texans will drive a total of more than 77 billion vehicle miles each year by 1985, as compared with 52 billion vehicle miles rolled up in the state in 1965. Vehicle registration will also more than double—from 6.2 million to about 14 million in the next two decades. This means that crowded two-lane highways are expected to grow to a total of 79 thousand miles. Presently 66.5 thousand miles of highway are under state maintenance. The State foresees building more miles of high-type highways to carry ever-increasing burdens of traffic. The new type highway figure is in the neighborhood of 17,000 miles.

All existing highways will require one reconstruction and two resurfacings before 1895. All bridges built prior to World War II will require to be replaced.

Here in Hall County, we are seeing U. S. Highway 287 expanded to handle four-lane traffic. The State Highway Commission has approved construction of additional surfacing on State 256 from Memphis to Mulberry Creek.

Citizens of our state can take pride in what has been done in the past to improve and update our highway system. We must not become satisfied but continue to work for yet better means of transportation.

What to do while the line is busy

1 Take for granted that whoever is talking on the line will hang up soon.

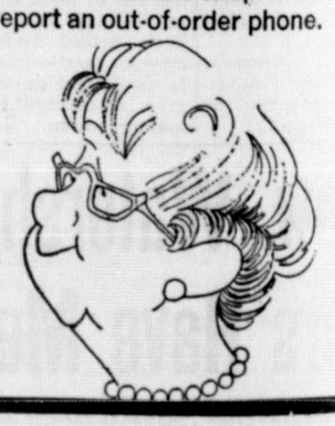

2 Hope that no one left his receiver carelessly off the hook.

3 Think about how reliable a telephone connection is once you get it. And how Gen Tel is constantly at work to modernize and improve service.

4 Be patient. After all, you may have talked for 20 or 30 minutes once yourself. So decide not to call the telephone company to report an out-of-order phone.

5 Think again about trouble-free telephone service. Then, when you get a line, think of the other party, too.

The separation of powers of the Legislative, Executive, and Judicial branches of the Government is delicate and subtle; many of us believe that the Constitutional powers of Congress have been repeatedly infringed by the other two branches and we have repeatedly battled against these intrusions. No threatened assault, however, has been as blatantly aimed at the hear of Congress' right to act as was the ill-advised (and promptly set aside) ruling by the Federal judge in the instance of the hearing scheduled by the House Committee on Un-American Activities.

In 1867, Chief Justice Chase wrote these words in the Supreme Court decision in State of Mississippi vs. Johnson, turning aside an application for an injunction to forbid President Andrew Johnson from enforcing the Reconstruction Acts: "The Congress is the legislative department of the Government; the President is the executive department. Neither can be restrained in its action by the judicial department; though the acts of both, when performed, are, in proper cases, subject to its cognizance." After they are performed, then the acts of the President and Congress are in proper cases subject to judicial review and disallowance. The separation of powers set forth by Chief Justice Chase has never been denied by a subsequent court decision.

It is important to note that while the courts do not have the power to curb—before the fact—the actions of the President or Congress, the courts do have the power to nullify their actions. Congress, however, possesses no such power in relation to the Judiciary; it cannot nullify the actions of the Supreme Court. I have long held that Congress, as the body representing the people and their wishes, should be empowered to overturn a decision of the Supreme Court it finds to be against the interests of the people. In this Congress, as in past Congresses, I have introduced an amendment to the Contitution to accomplish this end, to permit the House and Senate, by two-thirds votes, to nullify decision of the Supreme Court. The courts have the power of nullification and one Federal judge, at least, appears to favor a tartling new (and, in my view, unconstitutional) doctrine that might be termed "advance nullification." Now that the debate has been joined, let us consider anew the merits of providing the people's arm of Government, the Congress, with authority to nullify unwise acts of the Judiciary.

By the way, I am in full support of the efforts by the House Committee on Un-American Activities to strip the veil of mystery from those persons who oppose efforts of their country in Viet Nam by pursuing tactics and methods giving aid and comfort to our Communist enemies.

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:

Section 1. That Section 18, Article VII, Constitution of the State of Texas, be amended to read as follows:

"Section 18. For the purpose of constructing, equipping, or acquiring buildings or other permanent improvements for the Texas A & M University System, including Texas A & M University, Prairie View Agricultural and Mechanical College of Texas at Prairie View, Tarleton State College at Stephenville, Texas Agricultural Experiment Stations, Texas Agricultural Extension Service, Texas Engineering Experiment Station at College Station, Texas Engineering Extension Service at College Station, and the Texas Forest Service, the Board of Directors is hereby authorized to issue negotiable bonds or notes not to exceed a total amount of one-third (1/3) of twenty per cent (20%) of the value of the Permanent University Fund exclusive of real estate at the time of any issuance thereof; provided, however, no building or other permanent improvement shall be acquired or constructed hereunder for use by any part of the Texas A & M University System, except at and for the use of the general academic institutions of said System, namely, Texas A & M University, Tarleton State College, and Prairie View A & M College, without the prior approval of the Legislature or of such agency as may be authorized by the Legislature to grant such approval; and for the purpose of constructing, equipping, or acquiring buildings or other permanent improvements for The University of Texas System, including The Main University of Texas at Austin, The University of Texas Medical Branch at Galveston, The University of Texas Southwestern Medical School at Dallas, The University of Texas Dental Branch at Houston, Texas Western College of The University of Texas at El Paso, The University of Texas M. D. Anderson Hospital and Tumor Institute at Houston, The University of Texas Postgraduate School of Medicine, The University of Texas School of Public Health, McDonald Observatory at Mount Locke, and the Marine Science Institute at Port Aransas, the Board of Regents of The University of Texas is hereby authorized to issue negotiable bonds and notes not to exceed a total amount of two-thirds (2/3) of twenty per cent (20%) of value of the Permanent University Fund exclusive of real estate at the time of any issuance thereof; provided, however, no building or other permanent improvement shall be acquired or constructed hereunder for use by any institution of The University of Texas System, except at and for the use of the general academic institutions of said System, namely, The Main University and Texas Western College, without the prior approval of the Legislature or of such agency as may be authorized by the Legislature to grant such approval. Any bonds or notes issued hereunder shall be payable solely out of the income from the Permanent University Fund. Bonds or notes so issued shall mature serially or otherwise not more than thirty (30) years from their respective dates.

"The Texas A & M University System and all of the institutions constituting such System as hereinabove enumerated, and The University of Texas System, and all of the institutions constituting such System as hereinabove enumerated, shall not receive any General Revenue funds for the acquiring or constructing of buildings or other permanent improvements, except in case of fire, flood, storm, or earthquake occurring at any such institution, in which case an appropriation in an amount sufficient to replace the uninsured loss so incurred may be made by the Legislature out of General Revenue funds.

"Said Boards are severally authorized to pledge the whole or any part of the respective interests of Texas A & M University and of The University of Texas in the income from the Permanent University Fund, as such interests are now apportioned by Chapter 42 of the Acts of the Regular Session of the 42nd Legislature of the State of Texas, for the purpose of securing the payment of the principal and interest of such bonds or notes. The Permanent University Fund may be invested in such bonds or notes.

"All bonds or notes issued pursuant hereto shall be approved by the Attorney General of Texas and when so approved shall be incontestable. This Amendment shall be self-enacting provided, however, that nothing herein shall be construed as impairing any obligation heretofore created by the issuance of any outstanding notes or bonds under this Section by the respective Boards prior to the adoption of this Amendment but any such outstanding notes or bonds shall be paid in full, both principal and interest, in accordance with the terms of such contracts."

Sec. 2. The foregoing Constitutional Amendment shall be submitted to a vote of the qualified electors of this state at an election to be held on the first Tuesday after the first Monday in November, 1966, at which election all ballots shall have printed on them the following:

"FOR the Constitutional Amendment withdrawing Arlington State College from participation in the Permanent University Fund."

"AGAINST the Constitutional Amendment withdrawing Arlington State College from participation in the Permanent University Fund."

Sec. 3. The Governor of the State of Texas shall issue the necessary proclamation for the election and this Amendment shall be published in the manner and for the length of time as required by the constitution and laws of this state.

Insect Report Says Rain May Increase Weevils

During the past week rains were reported in all parts of Hall County. In fields where boll weevils and bollworms have not been controlled, populations should continue to increase due to the increased moisture. Populations of boll weevils and bollworms are increasing in some parts of the county and have decreased in other parts. This is probably due to the use of control measures and the deceased emergence of boll weevils from squares.

Bollworm damage of one percent to two percent was observed in two or more fields near Turkey the past week.

Control measures for bollworms should begin when bollworm eggs and four to five young worms are found per 100 terminals, or five percent of the small squares and bolls have been injured by small bollworms. Control measures hould be applied at five day intervals, or less. Fields should be checked closely two to three days following each application to insure effective control.

Populations of boll weevils ranging from 6 per cent to 27 precent were found on the farms of Crump Ferrel, Troy Phillips and J. B. Byars. Boll weevil populations were reported in the Turkey area. Punctured green square counts of 15 percent to over 30 percent were observed on one or more fields in the county.

Boll weevils are capable of causing significant losses if left uncontrolled. Growers should inspect fields regularly and make insecticide applications if 15 to 25 percent or more punctured squares are found.

Light infestations of plant bugs (lygus, stinkbugs and rapid plant bugs) were observed in some fields in Hall County. Light infestation of cotton square borers were also reported. Grasshoppers continue to damage the margins of cotton fields and native pastures have been destroyed by them.

The Area Entomologist and County Agent wishes to remind producers, whose fields are being checked by the Rolling Plains Survey Teams, that they should fill out their molsture and insecticides use records currently. This information will be very important in the final analysis of the survey program.

For control recommendations, please refer to L-508, Texas Guide for Controlling Cotton Insects in the Rolling Plains of Texas. Copies of this guide may be picked up at the office of your county agricultural agent.

The information used in this report was compiled from reports received from the Rolling Plains Survey Teams, Extension Entomologist, and the County Agricultural Agent.

Fish, Game Licenses Ready At State Dealers

At the same old price, and the earliest ever!

The hired hands at the Texas Parks and Wildlife Department contributed that much to sportsmen's kickoff success for the new fiscal year September 1. And it's all a part of the painless routine of financing the State's unmatched game management program.

In other words, replacements for the old hunting and fishing license that are invalid after August 31, have been distributed to approximately 2,500 dealers in all 245 Texas counties well in advance of the deadline.

A spokesman for the Department pointed out that persons hunting or fishing beginning September 1 should have the new licenses.

But until that time the law requires all participating in either sport to have a license on their person.

The Department observed that recent year efforts to expedite distribution of the licenses in advance of the new fiscal year have work out so well that an even earlier shipment schedule was adopted this year.

A spokesman credited the news media, particularly the growing number of regular outdoor writers, for contributing to the accommodation of license buyers by publicizing details. Cooperation of the hundreds of dealers naturally has been a major factor.

Individual fishing licenses cost $2.15 for both residents and non-residents. Resident hunting licenses cost $3.15.

Non-resident hunting licenses cost $25.00.

There is a five-day non-resident license for hunting migratory game birds, costing $5.00. This, of course, applies to the white-winged dove hunt, September 3-5 and September 9-11, that attracts many out of staters.

Basically, persons 17 years of age and under 65 need the regular Texas resident licenses.

Big-Game-Rifle Caliber

That caliber of rifle slub to be used on big game largely is determined by experience. However, the 270, 243 are hard to beat when used for most big game.

When hand-loaded with 43 grains of No. 4350 powder, using No. 120 primers, and 100-grain portion soft pointed bullets, the 243 is ideal for such big game as polar bears, grizzlies, etc.

Proposed CONSTITUTIONAL AMENDMENT

NUMBER ONE ON THE BALLOT

PROPOSED CONSTITUTIONAL AMENDMENT TO BE VOTED ON AT AN ELECTION TO BE HELD ON NOVEMBER 8, 1966.

HOUSE JOINT RESOLUTION NO. 79 proposing an amendment to Article VIII, Constitution of the State of Texas, by adding Section 1-d to provide that all land owned by natural persons designated for agricultural use shall be assessed for all tax purposes on the consideration of only those factors relative to such agricultural use.

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:

Section 1. That Article VIII, Constitution of the State of Texas, be amended by adding Section 1-d to read as follows:

"Section 1-d. (a) All land owned by natural persons which is designated for agricultural use in accordance with the provisions of this section shall be assessed for all tax purposes on the consideration of only those factors relative to such agricultural use. 'Agricultural use' means the raising of livestock or growing of crops, fruit, flowers, and other products of the soil under natural conditions as a business venture for profit, which business is the primary occupation and source of income of the owner.

"(b) For each assessment year the owner wishes to qualify his land under provisions of this Section as designated for agricultural use he shall file with the local tax assessor a sworn statement in writing describing the use to which the land is devoted.

"(c) Upon receipt of the sworn statement in writing the local tax assessor shall determine whether or not such land qualifies for the designation as to agricultural use as defined herein and in the event it so qualifies he shall designate such land as being for agricultural use and assess the land accordingly.

"(d) Such local tax assessor may inspect the land and require such evidence of use and source of income as may be necessary or useful in determining whether or not the agricultural use provision of this article applies.

"(e) No land may qualify for the designation provided for in this Act unless for at least three (3) successive years immediately preceding the assessment date the land has been devoted exclusively for agricultural use, or unless the land has been continuously developed for agriculture during such time.

"(f) Each year during which the land is designated for agricultural use, the local tax assessor shall note on his records the valuation which would have been made had the land not qualified for such designation under this Section. If designated land is subsequently diverted to a purpose other than that of agricultural use, or is sold, the land shall be subject to an additional tax. The additional tax shall equal the difference between taxes paid or payable, hereunder, and the amount of tax payable for the preceding three years had the land been otherwise assessed. Until paid, there shall be a lien for additional taxes and interest on land assessed under the provisions of this Section.

"(g) The valuation and assessment of any minerals or subsurface rights to minerals shall not come within the provisions of this Section."

Sec. 2. The foregoing Constitutional Amendment shall be submitted to a vote of the qualified electors of this State at an election to be held on the first Tuesday after the first Monday in November, 1966, at which election all ballots shall have printed on them the following:

"FOR the Constitutional Amendment to provide that all land owned by natural persons designated for agricultural use shall be assessed for all tax purposes on the consideration of only those factors relative to such agricultural use.

"AGAINST the Constitutional Amendment to provide that all land owned by natural persons designated for agricultural use shall be assessed for all tax purposes on the consideration of only those factors relative to such agricultural use."

Sec. 3. The Governor of the State of Texas shall issue the necessary proclamation for the election and this Amendment shall be published in the manner and for the length of time as required by the constitution and laws of this state.

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:

Section 1. That Section 49-d of Article III of the Constitution of the State of Texas be amended to read as follows:

"Section 49-d. It is hereby declared to be the policy of the State of Texas to encourage the optimum development of the limited number of feasible sites available for the construction or enlargement of dams and reservoirs for conservation of the public waters of the state, which waters are held in trust for the use and benefit of the public. The proceeds from the sale of the additional bonds authorized hereunder deposited in the Texas Water Development Fund and the proceeds of bonds previously authorized by Article III, Section 49-c of this Constitution, may be used by the Texas Water Development Board, under such provisions as the Legislature may prescribe by General Law, including the requirement of a permit for storage or beneficial use, for the additional purposes of acquiring and developing storage facilities, and any system or works necessary for the filtration, treatment and transportation of water from storage to points of treatment, filtration and/or distribution, including facilities for transporting water therefrom to wholesale purchasers, or for any one or more of such purposes or methods; provided, however, the Texas Water Development Fund or any other state fund provided for water development, transmission, transfer or filtration shall not be used to finance any project which contemplates or results in the removal from the basin of origin of any surface water necessary to supply the reasonably foreseeable future water requirements for the next ensuing fifty-year period within the river basin of origin, except on a temporary, interim basis.

"Under such provisions as the Legislature may prescribe by General Law the Texas Water Development Fund may be used for the conservation and development of water for useful purposes by construction or reconstruction or enlargement of reservoirs constructed or to be constructed or enlarged within the State of Texas or on any stream constituting a boundary of the State of Texas, together with any system or works necessary for the filtration, treatment and/or transportation of water, by any one or more of the following governmental agencies: by the United States of America or any agency, department or instrumentality thereof; by the State of Texas or any agency, department or instrumentality thereof; by political subdivisions or bodies politic and corporate of the state; by interstate compact commissions to which the State of Texas is a party; and by municipal corporations. The Legislature shall provide terms and conditions under which the Texas Water Development Board may sell, transfer or lease, in whole or in part, any reservoir and associated system or works which the Texas Water Development Board has financed in whole or in part.

"Under such provisions as the Legislature may prescribe by General Law, the Texas Water Development Board may also execute long-term contracts with the United States or any of its agencies for the acquisition and development of storage facilities in reservoirs constructed or to be constructed by the Federal Government. Such contracts when executed shall constitute general obligations of the State of Texas in the same manner and with the same effect as state bonds issued under the authority of the preceding Section 49-c of this Constitution, and the provisions in said Section 49-c with respect to payment of principal and interest on state bonds issued shall likewise apply with respect to payment of principal and interest required to be paid by such contracts. If storage facilities are acquired for a term of years, such contracts shall contain provisions for renewal that will protect the state's investment.

"The aggregate of the bonds authorized hereunder shall not exceed $200,000,000 and shall be in addition to the aggregate of the bonds previously authorized by said Section 49-c of Article III of this Constitution. The Legislature upon two-thirds (2/3) vote of the elected members of each House, may authorize the Board to issue all or any portion of such $200,000,000 in additional bonds herein authorized.

"The Legislature shall provide terms and conditions for the Texas Water Development Board to sell, transfer or lease, in whole or in part, any acquired storage facilities or the right to use such storage facilities together with any associated system or works necessary for the filtration, treatment or transportation of water at a price not less than the direct cost of the Board in acquiring same; and the Legislature may provide terms and conditions for the Board to sell any unappropriated public waters of the state that might be stored in such facilities. As a prerequisite to the purchase of such storage or water, the applicant therefor shall have secured a valid permit from the Texas Water Commission or its successor authorizing the acquisition of such storage facilities or the water impounded therein. The money received from any sale, transfer or lease of storage facilities or associated system or works shall be used to pay principal and interest on state bonds issued or contractual obligations incurred by the Texas Water Development Board, provided that when moneys are sufficient to pay the full amount of indebtedness then outstanding and the full amount of interest to accrue thereon, any further sums received from the sale, transfer or lease of such storage facilities or associated system or works may be used for the acquisition of additional storage facilities or associated system or works or for providing financial assistance as authorized by said Section 49-c. Money received from the sale of water, which shall include standby service, may be used for the operation and maintenance of acquired facilities, and for the payment of principal and interest on debt incurred.

"Should the Legislature enact enabling laws in anticipation of the adoption of this Amendment, such Acts shall not be void by reason of their anticipatory character."

Sec. 2. The foregoing Constitutional Amendment shall be submitted to a vote of the qualified electors of this state at an election to be held on the first Tuesday after the first Monday in November, 1966, at which election all ballots shall have printed thereon the following:

"FOR the Constitutional Amendment authorizing the issuance of an additional $200,000,000 in Texas Water Development Bonds and providing for further investment of the Texas Water Development Fund in reservoirs and associated facilities."

"AGAINST the Constitutional Amendment authorizing the issuance of an additional $200,000,000 in Texas Water Development Bonds and providing for further investment of the Texas Water Development Fund in reservoirs and associated facilities."

WTU NOTEBOOK—PATTERNS FOR PROGRESS

INDUSTRIAL FOUNDATIONS

. . . to finance industrial growth

Competition between states and cities to improve their competitive abilities to attract new payrolls has increased the forming of Industrial Foundations in Texas. Many industries want and need someone else to own the land, brick and mortar, keeping their money available for plant operations. Industrial Foundations indicate the interest and desire of a community for new industry. Local citizens who participate usually figure that they get a return on their money in a Foundation by having an additional payroll circulating in their community.

— PURPOSE — is to give a community a corporate entity to assist industry to create jobs within the community — can be an existing industry as well as a new one. Foundations usually assist industry that cannot or will not use normal commercial financial institutions.

— EXTENT OF ACTIVITIES — usually are to acquire and develop industrial property . . . construct buildings for lease . . . provide funds for training workers . . . purchase machinery and equipment . . . prepare promotional material and prospecting expenses and any other function that would give the community a **competitive advantage for a new payroll.**

— ORGANIZATION — is usually by a group of businessmen who are interested in the economic growth and development of their community. A local **attorney** should prepare the application for the charter and by-laws in order to conform to state laws and internal revenue service regulations. The **local bankers'** support is very **helpful in** forming an Industrial Foundation.

— TYPE — **of Industrial** Foundations vary — profit or non-profit — stock or contributions — the type a town needs depends upon the attitude and characteristics of the local people and its competitive position with other towns to attract new manufacturing payrolls. In most cases, Industrial Foundations are only used to assist industries where labor cost is a big factor in the operation, as the payroll provided is the important thing to the economy of the community.

Sunday morning we left for San Francisco. We crossed two of the city's most famous bridges—Oakland Bay and the Golden Gate. We also saw Alcatraz Island, which is located in the bay between San Francisco and Sausolito. Alcatraz Island, known as "The Rock" was made a federal penitentiary for incorrigibles in 1933.

Also in the San Francisco Bay area, we saw a Japanese Tea Garden, Monterrey Bay and Santa Cruz. We took a tour of Henry Cowell Redwoods State Park where we saw the famous trees that are centuries old.

We had dinner at the famous Cliff House Restaurant. The restaurant is built on a sheer cliff overlooking the picturesque seal-inhabited rock formation a few hundred feet offshore in the Pacific.

On the return trip to Fullerton, we visited with relatives in Fresno and Bakersfield. Back in the Los Angeles area, we dined at a Japanese restaurant where we ate sukiyaki and drank green tea. A very interesting sight in Los Angeles was a high-rise apartment which rotated once every twenty-four hours.

On our return trip to Memphis we took the southern route. One of the first stops outside Los Angeles was beautiful Palm Springs, the desert playground of movie stars.

We visited with relatives in Cathedral City, just outside Palm Springs. Our return trip took us through the area of Arizona populated with tall and very beautiful pines.

We spent the night in bustling Phoenix. Unfortunately the city was in the midst of a desert thunderstorm and we didn't get to see as much of the city as we had wanted.

The last evening of our trip was spent in Socorro, N. M., a beautiful city south of Aubuquerque.

SENATE JOINT RESOLUTION NO. 4 proposing an Amendment to the Constitution of Texas by adding to Section 62 of Article XVI a new subsection to be denominated subsection (c), of said Section 62; authorizing the Legislature to enact laws establishing, subject to the limitations stated, a State-wide System of Retirement, Disability and Death Compensation benefits for the officers and employees of the counties and other political subdivisions of the state, and of the political subdivisions of any county.

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:

Section 1. That Section 62 of Article XVI of the Constitution of the State of Texas be amended by adding thereto a subsection (c) which shall read as follows:

Sec. 3. The Governor of Texas shall issue the necessary proclamation for the election and this Amendment shall be published in the manner and for the length of time required by the Constitution and laws of this State.

with alcohol. If the wound is wet or "weeping", it may be necessary to wait until it dries before applying the dressing.

Do not use tar or creosote compounds for tree wounds. They are toxic to the cambium layer beneath the bark and may prevent the wound from healing over, adds Hooser.

Keep an unbroken film or dressing over the pruning wound. One coat of tree wound dressing should last 2 to 3 years. On larger wounds it may be necessary to recoat them several times until they heal over, concludes Hooser.

Parasites Can Rob Cattlemen Of Profits

Internal parasites can rob you of profits on cattle, reminds county agent W. B. Hooser.

Even though your cattle don't "look" wormy they may be. Internal parasite infestations often get pretty far along before the animal shows any obvious symptoms. Probably the number one cause of internal parasites in Texas beef cattle is malnutrition. Although cattle have an inherent high resistance to parasite damage, this resistance is lowered by malnutrition.

The animal's immunity mechanism cannot function properly if the diet doesn't provide enough fuel.

Another case is sanitation. Keeping water clean, feed clean, and grazing areas clean goes a long ways toward reducing internal parasites. A third cause of internal parasites is improper pasture management. This comes from overgrazing, and from high stocking rates. With overgrazing, animals are forced into grazing near the ground where more larvae are likely to be on each mouthful of forage.

On highly developed pastures where high stocking rates are used, you have another problem—contamination of pasture from excessive manure. Manure is often where the eggs hatch into larvae.

Once the parasite larvae are inside the stomach, they reach maturity in two to three weeks. They mate and lay eggs that are passed out in the manure. The eggs hatch in the manure or on the infective larvae stage in another week or so. They they are ready to repeat the cycle.

(Next week: Control and treatment of internal parasites.)

Conditioners Improve Hay

"When cutting hay, cure and bale it as quickly as possible," says County Agent W. B. Hooser. "By curing and baling almost immediately, you keep most of the leaves, color and nutrients—and conserve the quality."

The moisture content of hay plants when cut ranges from about 60 to 80 percent. They must be dried to 12-18 percent for safe storage. Curing time for large-stemmed hay plants such as alfalfa and Sudan may be reduced by one-third to one-half with a hay conditioner. The machines are most effective when used immediately after hay is cut. Hay should be put through a conditioner no more than 15 to 20 minutes after it is cut.

Some people also use a conditioner on Bermudagrass hay because the fluffing action causes faster drying.

Hay conditioners are two general types: one cracks the stems of plants lengthwise, while the other type crimps the stems at close intervals. Conditioning hay permits moisture to evaporate quickly from the stems. This means less exposure of the hay to sun, wind, dew, and possible rain.

Hay quality is often lost by baling hay too wet. This results in excess heating or molding. Hay allowed to dry too long also is lower in nutrients than hay baled at the proper time.

"Timing is important — don't wait too long, but don't bale too wet for highest quality hay," concludes Hooser.

Weeds Can Cut Pasture Yields In Half

"Weeds can reduce pasture yields by as much as 50 percent," says County Agent W. B. Hooser. "They reduce pasture and hay yields by competing with the desirable plants for nutrients, moisture and light. They lower hay quality, harbor insects and diseases and increase labor and equipment costs."

Unpalatable weeds, such as sanbur and bullnettle, are low-quality forage and unpalatable—this prevents proper utilization of pasture and hay by animals.

Weed control by chemical or mechanical methods can up forage quality and yields. But weed control is no substitute for proper fertilization and management of adapted plants.

There are some cases where weed control is not profitable:

When desirable grasses or legumes will not replace weeds killed, the soil fertility level is too low to support a good stand and growth of desirable grasses or legumes, the plants are kept grazed or cut so close they are not vigorous enough to resist weed invasion or when removal of the weed canopy results in damage to the grass and soil from severe sun baking.

The best weed control is weed prevention. Some ideas for preventing weeds in pastures are:

Plant the right amount of seed at the proper time, management is important, keep fence rows and road sides clean, clean combines thoroughly to prevent bringing in weed seed, do not buy feed containing live weed seed, rotate crops, and mow, spray or cultivate to kill any weeds that get started; most weeds are killed easily when they are young and have small root systems.

Weed control is a good investment—it can pay off with better pastures and forage, concludes Hooser.

Properly Serviced Motors Produces Efficiently

On today's farms, dozens of electric motors provide the mechanical energy for countless devices that help the farmer get his chores done faster, more efficiently, and at less cost.

The electric motor is probably the most reliable piece of machinery found on the farm, and is often located in hard-to-reach places and easily overlooked at maintenance time, points out County Agent W. B. Hooser.

An electric motor like other farm equipment, needs a periodic checkup. Keeping open motors clean and dry and properly lubricated are two preventative maintenance procedures recommended to help assure reliable operation of your electric motors.

In general, sleeve-bearing motors require re-oiling after three years of normal or one year of heavy-duty service. Ball-bearing motors should be re-lubricated after 10 years of normal service or every five years under heavy-duty or severe temperature use. Severe-duty, explosion-proof, and motors with low or high temperature grease should be lubricated in accordance with manufacturer's instructions, explains the county agent.

Belt-drives should be checked to be sure belt tension is not taut at standstill, and mounting bolts should be checked to assure tightness and proper motor alignment.

Your electric motors should be service by qualified shops that have the experience and equipment to provide fast, dependable service, advises Hooser.

Salt Water Weights

The size sinker to use when surf fishing is determined by the strength of the wind and what weight of sinker the rod will cast.

Many fishermen prefer a 4-oz. weight for the usual size rod. But when the wind is high, nothing less than a 5-oz. lead is recommended.

A lot also depends on the action of your rod.

Carry weights from one to five ounces in your box to be on the safe side.

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:

Section 1. That Section 6, Article XVI, Constitution of the State of Texas, be amended to read as follows:

"Section 6. (a) No appropriation for private or individual purposes shall be made, unless authorized by this Constitution. A regular statement, under oath, and an account of the receipts and expenditures of all public money shall be published annually, in such manner as shall be prescribed by law.

"(b) State agencies charged with the responsibility of providing services to those who are blind, crippled, or otherwise physically or mentally handicapped may accept money from private or federal sources, designated by the private or federal source as money to be used in and establishing and equipping facilities for assisting those who are blind, crippled, or otherwise physically or mentally handicapped in becoming gainfully employed, in rehabilitating and restoring the handicapped, and in providing other services determined by the state agency to be essential for the better care and treatment of the handicapped. Money accepted under this subsection is state money. State agencies may spend money accepted under this subsection, and no other money, for specific programs and projects to be conducted by local level or other private, nonsectarian associations, groups, and nonprofit organizations, in establishing and equipping facilities for assisting those who are blind, crippled, or otherwise physically or mentally handicapped in becoming gainfully employed, in rehabilitating and restoring the handicapped, and in providing other services determined by the state agency to be essential for the better care or treatment of the handicapped.

"The state agencies may deposit money accepted under this subsection either in the state treasury or in other secure depositories. The money may not be expended for any purpose other than the purpose for which it was given. Notwithstanding any other provision of this Constitution, the state agencies may expend money accepted under this subsection without the necessity of an appropriation, unless the Legislature, by law, requires that the money be expended only on appropriation. The Legislature may prohibit state agencies from accepting money under this subsection or may regulate the amount of money accepted, the way the acceptance and expenditure of the money is administered, and the purposes for which the state agencies may expend the money. Money accepted under this subsection for a purpose prohibited by the Legislature shall be returned to the entity that gave the money.

"This subsection does not prohibit state agencies authorized to render services to the handicapped from contracting with privately-owned or local facilities for necessary and essential services, subject to such conditions, standards, and procedures as may be prescribed by law."

Sec. 2. The foregoing Constitutional Amendment shall be submitted to a vote of the qualified voters of this state at an election to be held on the first Tuesday after the first Monday in November, 1966, at which election all ballots shall have printed thereon the following:

"FOR the Constitutional Amendment authorizing assistance to the blind, crippled, or otherwise physically or mentally handicapped, in the form of grants of public funds obtained from private or federal sources only, to local level or other private, nonsectarian associations, groups, and nonprofit organizations for establishing and equipping facilities to assist the handicapped in becoming gainfully employed, for their rehabilitation or restoration, or for providing other services essential for the better care and treatment of the handicapped."

"AGAINST the Constitutional Amendment authorizing assistance to the blind, crippled, or otherwise physically or mentally handicapped, in the form of grants of public funds obtained from private or federal sources only, to local level or other private, nonsectarian associations, groups, and nonprofit organizations for establishing and equipping facilities to assist the handicapped in becoming gainfully employed, for their rehabilitation or restoration, or for providing other services essential for the better care and treatment of the handicapped."

PROPOSED CONSTITUTIONAL AMENDMENT TO BE VOTED ON AT AN ELECTION TO BE HELD ON NOVEMBER 8, 1966.

HOUSE JOINT RESOLUTION NO. 48 proposing an Amendment to Article IX of the Constitution of the State of Texas, providing the method and manner for dissolution of hospital districts created under Article IX of the Constitution.

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:

Section 1. That Section 9, Article IX of the Constitution of the State of Texas be amended to read as follows:

"Section 9. The Legislature may by law provide for the creation, establishment, maintenance and operation of hospital districts composed of one or more counties or all or any part of one or more counties with power to issue bonds for the purchase, construction, acquisition, repair or renovation of buildings and improvements and equipping same, for hospital purposes; providing for the transfer to the hospital district of the title to any land, buildings, improvements and equipment located wholly within the district which may be jointly or separately owned by any city, town or county, providing that any district so created shall assume full responsibility for providing medical and hospital care for its needy inhabitants and assume the outstanding indebtedness incurred by cities, towns and counties for hospital purposes prior to the creation of the district, if same are located wholly within its boundaries, and a pro rata portion of such indebtedness based upon the then last approved tax assessment rolls of the included cities, towns and counties if less than all the territory thereof is included within the district boundaries; providing that after its creation no other municipality or political subdivision shall have the power to levy taxes or issue bonds or other obligations for hospital purposes or for providing medical care within the boundaries of the district; providing for the levy of annual taxes at a rate not to exceed seventy-five cents (75c) on the One Hundred Dollar valuation of all taxable property within such district for the purpose of meeting the requirements of the district's bonds, the indebtedness assumed by it and its maintenance and operating expenses, providing that such district shall not be created or such tax authorized unless approved by a majority of the qualified property taxpaying electors thereof voting at an election called for the purpose; and providing further that the support and maintenance of the district's hospital system shall never become a charge against or obligation of the State of Texas nor shall any direct appropriation be made by the Legislature for the construction, maintenance or improvement of any of the facilities of such district.

Provided, however, that no district shall be created except by act of the Legislature and then only after thirty (30) days' public notice to the district affected, and in no event may the Legislature provide for a district to be created without the affirmative vote of a majority of the taxpaying voters in the district concerned.

The Legislature may also provide for the dissolution of hospital districts provided that a process is afforded by statute for:

(1) determining the desire of a majority of the qualified voters within the district to dissolve it;

(2) disposing of or transferring the assets, if any, of the district; and

(3) satisfying the debts and bond obligations, if any, of the district, in such manner as to protect the interest of the citizens within the district, including their collective property rights in the assets and property of the district, provided, however, that any grant from federal funds, however dispensed, shall be considered an obligation to be repaid in satisfaction and provided that no election to dissolve shall be held more often than once each year. In such connection, the statute shall provide against disposal or transfer of the assets of the district except for due compensation unless such assets are transferred to another governmental agency, such as a county, embracing such district and using such transferred assets in such a way as to benefit citizens formerly within the district."

Sec. 2. The foregoing constitutional amendment shall be submitted to a vote of the qualified electors of this State at an election to be held on the first Tuesday after the first Monday in November, 1966, at which election all ballots shall have printed thereon the following:

"FOR the constitutional amendment providing the method and manner for dissolution of hospital districts.

"AGAINST the constitutional amendment providing the method and manner for dissolution of hospital districts."

Sec. 3. The Governor of the State of Texas shall issue the necessary proclamation for the election and this amendment shall be published in the manner and for the length of time as required by the Constitution and laws of this State.

SALVATION

"And it shall come to pass, that whosoever shall callon the name of the Lord shall be saved."
-Joel 2:28-32

Salvation will not be bestowed in a shower of thunder or a flash of lightening.

When Peter repeated the words of the prophet Joel to the multitudes he was not suggesting they climb to the mauntain top and cry out for salvation.

We must conclude that Peter had more in mind an acceptance of the risen Christ and adherence to the principles of Christianity.

The road to salvation is clearly marked and each man needs only to search his heart to determine if his footsteps are properly directed.

Swine Short Course For Farmers To Be Held At Lakeview High School

A swine short course for adult farmers will be held Sept. 5-8 under the sponsorship of the Lakeview High School Vocational Agriculture Department, according to A. J. Jones, superintendent, and Barney J. Bevers, teacher of Vocational Agriculture.

Joe Tocquigny, swine specialist with the Vocational Agriculture Division of the Texas Education Agency and the Department of Anmal Husbandry at Texas A&M University, will do the instructing in the course. He is headquartered at Texas A&M University.

Tocquigny holds a B. C. Degree in Agricultural Education from Texas A&I College, and an M. S. Degree in Agriculture from Texas A&I. He has been a Hampshire breeder and commercial feeder for the past ten years maintaining a fifteen sow herd.

"Many swine short course in various parts of the state have been taught by Mr. Tocquigny and all have met with outstanding success," according to Walter Labay, area supervisor of vocational agriculture. Arrangements for the adult education short course in swine husbandry and in other fields are made through Labay's office.

The short course at Lakeview is scheduled to begin Sept. 5 at 7:45 in the vocational agriculture building. Tocquigny will be available to assist students with individual problems and to provide on-the-farm instruction, according to B. J. Bevers.

Farmers interested in attending the short course should write or call the superintendent of schools, A. P. Jones, or the teacher of vocational agriculture, B. J. Bevers. An entry fee of $2.00 will be charged. Swine Production Short Course Certificates are to be presented to each student who attends all the training sessions.

Tocquigny states that the short course will be adjusted to wishes and interests of farmers enrolled.

EARNS AWARD—Mrs. Pauline Knight, office clerk of the local Farmers Home Administration is shown receiving an incentive award from the District Supervisor, Lev O. Connor, right, and County Supervisor, E. Leon Thurman. These awards are made to employees in the U. S. Department of Agriculture who have done an outstanding job. Incentive awards are made by the State Office to employees annually who have done the most in carrying out the objectives of the Farmers Home Administration. Mrs. Knight was employed by the Administration in 1955 as office clerk and has served the local FHA office since that time.

Bountiful Rains—

all the way down to 5 inches.

Crop prospects over the entire county after the gentle soaking rains are as bright as they have been in many years.

One farmer said that even "though we haven't had a lot of rain this year, the largest part of the rainfall has been during the growing season." Many feel this rain will make the 1966 cotton crop.

Runoff was not a problem during this spell as most of the rainfall soaked into the ground. Red River did not run bank-to-bank even during the heaviest of spells. Club Lake northeast of Memphis rose only two feet, it was reported.

All in all, the five inches plus in Hall County received the last few days is one fourth of the total rainfall this county can expect during any given year and falling as it did it was a tremendous economical blessing.
