Lockney Post Office Robbed Monday Night

Monday night about 7 o'clock the post office at Lockney was robbed of \$228 in cash, Postmaster Homer Howard discovering the robbery within a few minutes after it was done. No arrests have been made as yet, however.

The cash taken was a part of the day's business and represented funds for money orders and similar transactions. It was left in the office for a few minutes by Postmaster Howard while he went to supper. He was absent from the office about 20 minutes.

The safe in the office was undamaged and all money orders, stamps and post office supplies were accounted for, only the cash being taken by the robber or robbers.

CHICKENS MAKE THE LIVING ON THIS FARM

How a flock of chickens is making the living leaving the rest of the farm production as "velvet" is an interesting story that may be told of Mr. and Mrs. D. S. Battey.

The new yard will be opened at an early date, Mr. Cannaday said.

NORMAL SCHOOL OF MUSIC TO BE HELD DURING MARCH

Beginning March 2 and continuing for four weeks, Prof. R. M. Morgan of Floydada, assisted by Prof. V. O. Stamps of Jacksonville, Texas, will hold a Normal School for Vocal music in Floydada. Both of these men have had great experience in the realm of vocal music work. This is a splendid opportunity for all persons who are interested in pursuing a study of any, or all, phases of song work. There will be a department for beginners, as well as for intermediate and advanced work.

In this connection I wish to state that the study of vocal music is one in which our people as a whole should take greater interest. Some of our states require that vocal music be taught in the public schools. Where this is done all children have the opportunity of at least learning the rudiments, and fundamental principles of correct singing.

In placing the above mentioned normal during March, we did so with the realization that the school children would be unable to attend even a part of this school. It was not children we were thinking of when we placed this school, however. In our convention work over the county for the past few years we have seen the need of a school so placed that the older people who wish might attend school also.

Think of this, friends. A high class normal school, by first class teachers for our town Floydada. Yet it will mean little to those who do not take advantage of the instruction offered.

Price Scott, Pres. Floyd Co. Singing Convention

Prevalance of Flu Reported Over County

Influenza is having its day over many sections of Texas, and in Floyd County reports of physicians indicate that the disease, in a less aggravated form than in 1918-19, has been going the rounds for nearly two weeks. Hardly a family in the territory, reports have it, but has had at least one mild attack of la grippe.

Not a great deal of pneumonia has been reported, however.

J. G. Wood had the flu for about two weeks, having been sick most of the time he spent at Olney. He returned home last week and after spending several days in bed is now up at business again looking much the worse for wear.

Jeff Welborn had pneumonia; but he is now convalescing.

FAIRVIEW CLUB

Feb. 16.—Our Club met this afternoon with Mrs. G. M. Bullard. On account of so much sickness the attendance was lighter than last time. Only eight ladies were present. As Miss Faulkner could not be with us we couldn't have the lesson plan. We talked informally on things of interest to our club. The plans for supper Friday night, February 20 were also perfected. Let everybody come and bring a pie, the proceeds to go towards lighting the school auditorium.

Ladies, if we expect our Club work to be what it should we will have to plan to attend every meeting, unless circumstances which cannot possibly be avoided keep us away. Plan to go the same as we plan any other part of our week's work; haphazard attendance won't help us much. We meet with Mrs. E. C. Austin next meeting day. We will have the same lesson that we were to have had today.

Mrs. F. M. Faulkner of Canyon visited her daughter, Miss Mabel Faulkner, Home Demonstration Agent from Friday of last week until Tuesday, during the latter's illness. Miss Faulkner was another flu victim; she is better now and will soon be on the job again.

Mr. and Mrs. J. D. Farmer leave this week for Lampasas to spend several weeks with relatives and friends.

Program at Sand Hill Enjoyed by Good Crowd

The program at Sand Hill Friday evening of last week, sponsored by the Floydada Chamber of Commerce upon invitation of the Sand Hill P. T. C. Society, was enjoyed by an auditorium full of Sand Hill and Floydada people. The program consisted of an address, musical numbers, and readings: Maury Hopkins, secretary of the Chamber of Commerce, presided.

Influenza and prior engagements made it necessary to re-vamp the program several times from the date of its first preparation until the time it was presented. Several persons who had promised to take part in the program were at home sick when program time came.

An interesting thing about the meeting, to be noted, is the fact that the audience was there waiting when the performers arrived.

Judge L. G. Mathews, who made the principal talk of the evening, told of the work the Floydada Chamber of Commerce is doing, how its activities are of value to all the people in the county, and of how its efforts are reflected in the general good.

O. S. Miller, principal of the Sand Hill School, welcomed the visitors and said the invocation.

Johnny Owen, junior jig dancer, did his stuff with Ogie Johnson "at the banjo."

Miss Joye Mills, teacher of English in Floydada High School, rendered Booth Tarkington's "Here Comes the Bridegroom" effectively and was followed by Mrs. G. E. Bond, who sang, "Mother Machree" and as an encore, "Little Gray Home in the West."

The Floydada Orchestra furnished music during the evening.

Thirty or more Floydada people attended or took part in the program.

OVERLAPPING TERMS OF CITY OFFICIALS

With the early approach of the time for choosing city officials, we are reminded to mention a thing that should have been mentioned by somebody sometime ago. This thing is that the city government is in need of overlapping terms for its aldermen. As at present every alderman goes out unless he is retained by a vote of the electorate, whereas the terms should overlap so as to prevent a complete turnover in the aldermanic council.

Floydada is growing. Its city government is getting too large to turn over to men, however substantial, who have no idea of the problems they are tackling. Even one old member retained by means of overlapping terms might save the city much money.

NEW BANKING LAW

Texas has a new banking law, passed by the legislature now in session, and already approved by the governor. It will be in operation just as soon as the Commissioner of Banking can get all the details of the law worked out. The new law makes it possible for all state banks to operate under the bonded system, instead of the guaranty fund, which has been a heavy drain on the state banks which have been members of the guaranty fund system.

Out of 941 state banks in Texas 900 adopted the guaranty fund system, when the law was first enacted, and 41 adopted the bonding plan. The new law was necessary to make it possible for any other banks so desiring to change to the bonding plan. The new plan does not reduce the safety of the customer's deposit, it is stated, but it makes it possible for the individual bank to guarantee, by means of a bond, the deposits of its customers, instead of having to help guarantee every state bank depositor.

GOOD NEWS

An unofficial announcement to the effect that the Treasury Department is going to issue more silver dollars and fewer dollar bills will be received with considerable interest by West Texans, who in the past few years have been having to take dollar bills because they were offered.

The report says the department expects to save a lot of money issuing dollars in silver instead of in bills. The high cost of issuing and re-issuing the latter is said to be the reason. And hereafter, when the bills are sent in for redemption two silver dollars and three bills will be issued in return for every five dollars sent in. Nobody in West Texas will get mad about such a rule. Dollar bills ought to be against the law.

SUITS AT LORENZO

J. L. Suits, formerly with the Lockney Beacon at Lockney, and well known to many Floyd County people, is located at Lorenzo now, where he is editor-proprietor of the Tribune, successor to the Enterprise.

For several weeks Suits was at Ralls, associated with Dick Hyatt on the Banner. The Lorenzo territory offers a splendid newspaper opportunity, which Mr. Suits' friends are glad to see him have.

LIVING QUARTERS SHORT

Although scores and scores of new homes have been built in Floydada the past twelve months and many homes have been opened up for light house-keeping quarters for the new people who are moving here, the shortage of living quarters is really more marked at this time than it has been in many months, if complaints of people who are looking for living quarters may be taken as evidence.

Well-constructed and properly completed modern rental property in Floydada is a good investment. When "dull times" come it will still be bringing revenue. It is the poorly located rental property with no conveniences that fails to bring in the revenue when the demand grows less.

Build more homes in Floydada.

FRIENDLY ENEMIES

Friends are our downfall, says the philosopher, while our enemies are the incentives which keep us on our toes. Follow this philosophy out and, of course, we'd have all enemies and no friends, to be successful. Since we must have friends to succeed, the idea is wrong somewhere.

At that, if you have any enemies they may be a blessing in disguise. Complacency in the presence of your friends is easy. If you're inclined to be lazy, then too many friends might spoil you. In the presence of antagonistic persons or influences you perk up your ears. Which argues that all friends and no enemies is not good for you.

"Bless your enemies and despise them not." A few first class enemies have been the making of many a man.

RUNAWAY BOYS

During the past few weeks Floydada has had a rather large percentage of runaway boys—lads who have the running fever, or must needs get out and get rich quick, like the "old man" hasn't done.

Every man who has been in the teens ought to know how to sympathize with the boys. Some of them need laying across a barrel, some need to be left alone for awhile, while others need other kind of treatment—all depending on the temperament of the boy and the kind of home he is from.

The general statement that a boy finds out it's a longer distance back home than it was away from home will usually apply, if he's left alone.

HELP!

You read the advertisements in The Hesperian. You are constantly on the lookout, as you read it, for ideas and suggestions for newer and better things, for bargains and opportunities.

As you find the things that are worth while to you and file them (in your mind) for future reference, do us a favor to remember to mention The Hesperian (casually, of course) to the advertiser, when you have come to trade with him.

Advertising solicitors for The Hesperian tell the advertisers that we have a wide circulation over the Floydada country; that this circulation has a tremendous influence in the trade territory, and that advertise-

ments with a "kick" in them get big results.

Just a word from you occasionally would help a lot. It would furnish the proof of the statements we make to our advertisers.

MALE QUARTETTE DRAWS GOOD LYCEUM CROWD

One of the best crowds of the season in regard to size attended the Lyceum Concert last Thursday night given under the auspices of the Senior Class at High School. The program was excellent and greatly enjoyed by all present. The California Male Quartette with their varied program of musical numbers, readings, and instrumental numbers presented one of the finest entertainments that has ever come to town. On the same evening that the Lyceum Concert was held a wrestling match in the City Auditorium was going in full blast, but despite this handicap folks turned out to support the high school kids in their next to the last lyceum number for the season.

The next program will be given very shortly and it is up to all of us folks to turn out in big numbers and prove to the kids that we appreciate their efforts to bring to this town such clean and wholesome entertainment. Besides, they need our financial support in order not to come out short at the end of the season.

New Way to Quickly Stop Worst Cough

A remarkable new and simple method for treating a cough gives relief with the first doses and usually breaks a severe cough in 24 hours. The treatment is based on the prescription known as Dr. King's New Discovery for Coughs. You take just one teaspoonful and hold it in your throat for 15 or 20 seconds before swallowing, without following with water. The prescription has a double action. It not only soothes and heals soreness and irritation, but it quickly loosens and removes the phlegm and congestion which are the direct cause of the coughing. People have been astonished how quickly the coughing stopped with this new treatment, and the whole cough condition goes in a very short time. The prescription is for coughs, chest colds, hoarseness, bronchitis, spasmodic croup, etc. It is excellent for children as well as grownups—no harmful drugs. Economical, too, as the dose is only one teaspoonful. At all good druggists. Ask for

Should Be Honored

All Citizens Would Profit by Study of Words and Deeds of Father of His Country

Few of the days in the calendar have been permanently allotted by the Author of Days. There are very few days which may not be appropriated by the national or world achievement and fame of men or women of the present or coming generations, even though held for the time being by some of local or ephemeral fame. There are two days in February's calendar that for America at least are pre-empted for as long as this republic exists, or at any rate remains true to the liberty in which it was conceived and brought forth and to the institutions which have nourished it. It is hardly conceivable that anyone will be born in future generations who can ever "bid" more by word and deed than Washington has given for the twenty-second of February.

It is stated by McMaster, the historian, that when Washington resigned his commission and made his journey from New York to the seat of congress in Annapolis, he received assurances all along the way of the "undying love and gratitude" of his fellow-citizens for what he had done and presages of a glory that would "continue to animate the remotest ages." Even the American Philosophical Society at Philadelphia, of which Franklin was the founder, turned from the consideration of learned papers on the Improved Methods of Quilling the Harpsichord and Observations on the Torporific Eel to pay homage to the great chief. We need ourselves to pause, as if he were again passing, to think not only of what he did as the First in War, but of the things for which he stood as First in Peace in the establishment of our independent national life.

It is unfortunate that, since we have made this day a holiday, there is not a widespread observance of it in the contemplation of the character and service of Washington and of the foundational principals of freedom and order on which the structure and life of our republic have arisen. It would be better that the schools were open not only for the children, but for the adults as well, for we need all, learned and unlearned, to turn from our individual vocations, not to rest or to find recreation, but to think seriously upon our common heritage and obligations which have come to us by way of George Washington. In one great city of our land at least this is done. It should be universal. "Washington's Day" should in our thoughts be given to Washington and to the country which he above all others gave into our keeping.—New York Times.

Mr. and Mrs. J. F. Hudson and son, E. C. Hudson and Ed Hodges of Winters, Texas were out here prospecting last week. While here they visited their old friends and neighbors, Mr. and Mrs. E. M. Bond, formerly of Winters.

Mr. and Mrs. P. M. Smith returned home last week from Mineral Wells where they have been sojourning for the winter. Mr. Smith's health is somewhat improved.

At Commissioner's Court last week the following matters were disposed of:

The substitute bond by bonding company presented for J. R. Maddox, Sheriff, was approved.

Warrants for payment of fire and tornado insurance on the Court house for the next five years were issued. The Quarterly Report of G. C. Tubbs, District Clerk, was approved. John C. Newton of Rankin Audit Company, Houston, was employed to audit accounts for the year 1924. He is at present working at Plainview, and as soon as his work there is completed, he will commence his audit at Floydada.

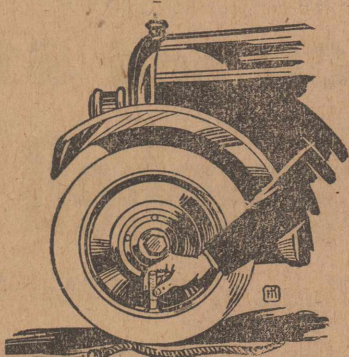

Warrants were issued in payment for Road Grader recently purchased for Precinct No. 1.

The room formerly used as a Grand Jury Room but has been used for the past two years as an office by the County Agent and the Floyd County Farm Bureau, is now to be used again as the Grand Jury Room. The Floyd County Farm Bureau was given permission to use a room on the third floor of the Court House.

VALENTINE PARTY FOR CLASS

Mrs. E. B. Massie was hostess to her Sunday School Class, The Willing Workers, at a Valentine Social held at her home Monday evening. Assisting Mrs. Massie were Misses Mildred Carter, Arle Gamble and Grace Porterfield.

The house was charmingly decorated in the St. Valentine idea with red hearts, cupid's and festoons, and many contests and games were played including the shooting of a huge heart with arrows from Cupid's bow, won by Annabelle Thagard, and a very interesting musical guessing contest.

At the close of the evening's entertainment refreshments consisting of red jello and whipped cream and cherries and chocolate cakes were served to the guests.

At the beginning of the evening there was a short business session of the class at which time the class voted to do mission work and to meet every Tuesday for study.

Why Buy Land

in a ONE CROP COUNTRY where cotton is the only money crop. It's all right when it brings 25 cents per pound, but when it goes to six cents, LOOK OUT.

The deep rich soil of the Hereford Country is especially adapted to such crops as WHEAT, OATS, BARLEY, MAIZE, KAFFIR CORN as well as COTTON and its lands can be bought reasonable because we have no BOOM here.

We offer choice plains land, free from blue weeds and ready for the plow at from \$20.00 per acre, and up owing to location. We also have a few good tracts to trade for other property.

Gained Ten Pounds

Mrs. George S. Hunter, of Columbus, Ga., says she suffered severely with female troubles.

"I had to go to bed and stay sometimes two weeks at a time," says Mrs. Hunter. "I could not work. My . . . were irregular and I got very thin. I went from 126 pounds down to less than 100. My mother had been a user of

CARDUI

The Woman's Tonic

and she knew what a good medicine it was for this trouble, so she told me to get some and take it. I sent to the store after it and before I had taken the first bottle up I began to improve. My side hurt less and I began to mend in health. I took four bottles in all during the last ten months. Cardui acted as a fine tonic. . . I am well now. I have gained ten pounds and am still gaining. My sides do not trouble me at all and my . . . are quite regular. I know that Cardui will help others suffering from the same trouble." Take Cardui. E-101

Protein Factors in Wheat Production

"The present value of hard wheat is being controlled by the percentage of protein, very much the same as the value of milk and cream is controlled by the percentage of butterfat," says H. M. Bainer, Director, The Southwestern Wheat Improvement Association. Continuing, he says, "Wheat that produces the best grades of flour must contain from 12 to 12 1-2 percent protein. But when we stop to consider that the bulk of our wheat contains less than 12 percent, we can readily understand why high protein wheat must sell at a premium."

"General run of wheat contains from 9 to 12 percent protein. The miller, in order to maintain his best grades of flour, is compelled to pur-

chase considerable quantity of higher than 12 percent protein wheat to bring up his average to 12 percent or more. And it often happens that the miller is not able to secure enough of this high protein wheat at home and is forced to ship some of it in from the outside. The premium now being paid for high protein runs from about 7 cents a bushel for 12 percent protein to 18 cents a bushel for 14 percent protein."

"It is true that climatic conditions have a great deal to do with the protein content of wheat but there are several things the farmer can do to increase its percentage. It is generally known that higher protein is produced in sections of limited rainfall than in humid sections and that dry seasons decrease yield but increases the percentage of protein. Sandy and bottom lands produce less protein than up-

lands. It is also known that protein is controlled to a large extent by the amount of available soil nitrogen. Lands that have been in rotation of have grown legumes like alfalfa clover, sweet clover, cow peas and soy beans produce high protein wheat. Good seed makes more protein than poor seed. July and early August preparation of the seedbed insures more protein than later preparation. Some varieties of wheat are richer in protein than others."

Under the Capitol Dome

(By J. G. Burr, Austin, Texas)

With charges of graft and allegations of scandalous debauchery, the prison probe now being conducted at Austin by a joint legislative committee is proving to be the most sensational of the many investigations of the state prison system.

Refusal of Representative Irwin to act with the committee if the hearings were held secretly resulted in lifting the lid, but when Irwin offered to prove that a black land farm had figured in connection with the release of a prisoner there was objection made by Senator Witt that they would never get through if they went back more than two years. The committee then moved to go into executive session requiring Irwin to prove charges to the committee before permitting publicity. Irwin left the committee, pending a vote of confidence by the House, declaring that he would agree to nothing but public hearings. The House gave Irwin a vote of confidence and he returned to the committee.

A sordid story of illicit relations with her by former Commissioner H. L. McKnight was told by Mrs. James Cade, wife of an inmate of the penitentiary. McKnight promised to aid her in getting her husband out of prison, she said, and induced her to go to a hotel in Houston and register under an assumed name. McKnight appeared on the stand and denied charges of illicit relations. A mass of evidence charging irregularities is being brought before the committee with columns of details appearing daily in the newspapers.

Reinstatement of Former Governor
Two methods for restoring former Governor James E. Ferguson to full political rights are submitted in majority and minority reports of the Senate committee, the majority holding that it can be done by legislative act and the minority report by Senator Price offering the constitutional amendment route. A resolution by Senator Wood of Granger proposes the amendment plan and Vestch of the House will offer the same measure Monday. Discussion of the committee report is set for February 10. The attorney general declined the suggestion that he offer a plan to the committee but agreed to pass upon the legality of any plan which the committee might submit in writing.

Drug Store Liquor
Legislation against abuse of liquor prescriptions is meeting with stubborn opposition by druggists and doctors who claim that added restrictions would make impossible the use of liquor for medicinal purposes.

Evolution
Teaching evolution in any of its phases in state schools would incur a fine from fifty to five hundred dollars in a bill offered by Harper of Mount Pleasant. A bill less drastic on this subject was defeated in the 38th legislature.

Child Labor
While both houses have turned the child labor amendment proposed by congress a House bill would prohibit employment of children under 15 years of age in certain occupations providing for permits to be issued by county judges for children between 12 and 15 to labor in certain occupations and limiting the hours.

Consolidation
The bill consolidating the Warehouse and Markets Department with that of Agriculture has passed the House but is to meet strong opposition in the senate, according to well founded rumor.

A Senate concurrent resolution calls upon congress to repeal the Esch-Cummins Law and secure reduction of freight and passenger rates.

A tax on cigars and cigarettes to be devoted to educational purposes is proposed by Representative Teer.

Municipal bands are provided for in Senate Bill 77 passed to the third reading.

State Song
The judgment of the committee of artists and experts who selected "Texas Our Texas" as the state song from 300 songs submitted, is not trusted by the legislature: a joint committee has been recommended to again review any and all songs submitted for the state award. Whether the House member of the 38th, who proposed to invite Paderewski to sing for the legislature, will be on the committee was not learned.

State Parks
Some 50 parks donated to the state will not be accepted unless the donors agree to guarantee upkeep and beautification, according to resolutions which have been introduced in both houses, one of which would repeal the law creating the state park board through which the parks were secured.

Game Laws
The general game bill has passed the Senate and will come before the House on the 11th. It is understood a number of counties will ask for closed seasons on certain game and Capt. Downs of San Augustine will offer an amendment cutting down the deer season to one day in Newton, Jasper, Sabine and San Augustine counties.

The Texas Press Association has been the guest of Austin for two days and every thing has been done by the capital city to merit future conventions of members of the fourth estate.

ROVER'S FRIEND

Rover, the pet dog owned by Walter Pratt of Bowdoinham, Maine, gets along famously with the family cat and the cat always sleeps at night between the paws of Rover. One night, after the family had retired, it was aroused by a scratching and a low barking at the front door. When the door was opened in walked the cat, with one foot caught in a trap; behind came Rover, carefully holding up the chain of the trap. Far up a neighborhood stream trappers had set traps for muskrats, and Kitty evidently walked into one. Rover must have heard her cry and gone to the rescue, for he had evidently searched, found the trapped kitten and lifted the trap from the water; then, freeing his friend as much as possible, carried the chain all the way home.

A BOY'S POCKET

by Gertrude Friend Scoggins

He comes to me to fix the holes,
That will come in his pocket;
He's losing his treasures one by one,
And he wants his Ma to stop it.

I sew the tears up for the boy
And he goes on his way;
But only a week or two go by,
Until I hear him say:

"I've got a big hole in my pocket,
I can't run out and play;
For I lost my rubber ball and top,
At school this very day."

I take the little pants to mend
The hole with my stout thread
I gasp aloud when I lift the suit,
It weighs as much as lead.

I find his treasures manifold,
They are many and varied too;
There's a ball and stamp and pencil
And a good piece of a shoe.

There is a knife with one blade gone,
A Jew's harp and a string;
Some marbles and a toothless comb,
A button and a ring.

A fish hook and a sinker
A top string and a stone;
Were tangled in a hopeless mass
Beside an old wish bone.

Jack Takes 2 Straight Falls From Gorman

Jess Couch of Matador, took two straight falls from Jack Gorman, of Plainview, in their wrestling match at the City Auditorium here Thursday night of last week. Wrestling fans of Floydada and from neighboring cities agreed that it was one of the hardest fought wrestling matches they had witnessed recently. The first fall came after fifty minutes and fifty-eight seconds and the second in 56 minutes and fifty-six seconds.

The match was staged under the auspices of the McDermott Post, American Legion, and drew a fair crowd. Couch was announced as weighing 159 pounds and Gorman 140 pounds. Couch's superior weight gave him an advantage that was evident in the second fall, although Gorman took the offensive at the beginning of the match.

As opening cards of the evening Roy Jameson and Frank Luttrall boxed three rounds to a draw and Vernon Abbott and Ernest Carter also boxed three rounds to a draw.
