The SDN COLUMN

A big load of mail which had been enbargoed in San Francisco and Seattle was cleared out recently when the U. S. Army notified the Post Office Department that it had no objection to delivery of the mail to PFC William Rice, an American soldier in Vietnam.

The mail (28,200 letters and 614 parcels) had accumulated in response to a letter from PFC Rice to Abigail Van Buren, whose "Dear Abby" column appears in scores of daily newspapers, including The Snyder Daily News. Delivery was held up because of an Army regulation which prohibits the delivery of mail addressed to anonymous servicemen in the war zone. This regulation was imposed to keep mass derogatory material from being sent to soldiers in Vietnam by peaceniks, who in some cases had sent cans of dog food. Rep. Bob Wilson of California finally got the situation straightened out with a phone call to the Pentagon, and the requested mail went on its way to Vietnam.

If there is as much speculation and second guessing on a successor to Defense Secretary Robert S. McNamara as there has been on the question of whether he is a "hawk" or a "dove," we are in for a lot of speculating.

The approval rate in city sales tax elections in Texas continues to amaze most observers. When the legislature approved a measure permitting cities to levy one per cent sales taxes, provided they got local voter approval, few believed that city voters would go for it. As it developed, owners of property in the cities apparently are giving all-out support to the city sales tax proposals. Heretofore, the ad valorem tax has provided the financial support for city governments. The sales tax offers an opportunity to spread the support. In some cities the sales tax will not mean lower ad valorem taxes, but will forestall increases to keep the city governments going. In others, ad valorem taxes actually will be lowered when the sales tax revenues begin to arrive.

How bright is Snyder? That question will be answered next Monday evening, Dec. 4, when our town pushes into the thick of the Christmas shopping season. The holiday decorations and lighting for streets in the business area are due to be ready for the switch that evening, and everybody in business areas is being asked to leave lights turned on (in stores, offices, etc.) until 9 p.m. Stores will be open until that hour for shoppers. The "light up" is a pre-holiday project of the Chamber of Commerce, through its retail committee.

Earth Tremor Destroys City

BELGRADE (AP) — An earthquake thundering across the Yugoslav-Albanian border wrecked the town of Debar in western Yugoslav Macedonia today, killing at least eight persons.

Belgrade Radio said it was feared the wreckage concealed many more dead. The official Tanjug news agency said about 80 per cent of the buildings in Debar, a town of 8,000 people, were destroyed.

There were no immediate damage reports from Communist Albania and none likely for some time.

In Uppsala, Sweden, the seismological institution said the quake registered 6.5 on the Richter scale, half a point stronger than the 1963 earthquake which destroyed Skopje, the capital of Yugoslav Macedonia.

The seismological institute at Skopje said the quake today was centered 65 miles to the west, an area just over the Albanian border. No damage was reported in Skopje, which was rebuilt after the 1963 quake.

Aid to Debar was delayed by transport difficulties. Landslides blocked roads in the area, and special teams had to be sent to open them. There is no railroad to the town, in a deep valley at the foot of a mountain, and bad weather grounded army helicopters in Skopje.

However, army teams from border stations made it to the town and began the search for dead and injured and the transfer of survivors to the lakeside resort of Ohrid.

Debar was reported without food electricity or water, and trucks set out with supplies.

The region where the quake was strongest has about 16,000 residents, mostly farm workers. A radio request for 10,000 tents was received in Belgrade.

Macedonia has Greek Macedonia on its south and Albania on its west. The quake was felt strongly on the Greek island of Corfu and in northwestern Greece around Igoumennitst, the Athens seismological institute reported, but there was no immediate word of casualties there.

Cyprus War Threat Past

ATHENS (AP) — The peacemakers headed home today, reporting that the threat of war between Turkey and Greece over Cyprus is over.

U.S. envoy Cyrus Vance flew from Cyprus to Athens and a reliable source said he would return to Washington shortly, having completed his mission.

Secretary-General Manlio Brosio of the North Atlantic Treaty Organization told newsmen substantial understanding between the Greek and Turkish governments had been reached and the danger of conflict no longer exists.

Mail Rate Hikes Almost Certainty

WASHINGTON (AP) — Congress has nearly completed favorable action on bills to give federal employes and servicemen about $3.5 billion in pay raises while hiking postal rates.

The Senate passed two bills Wednesday, one dealing with the postal rate hike and civilian pay raises and the other with military salary hikes.

Both measures are virtually the same as those passed earlier by the House. A House-Senate conference is expected to encounte. little difficulty in ironing out minor differences.

Both bills call for these postal hikes, making it all but certain they'll take effect in January:

First class letters—from 5 to 6 cents.

First class cards—from 4 to 5 cents.

Airmail letters—from 8 to 10 cents.

Airmail cards—from 6 to 8 cents.

Postal workers would get a 6 per cent pay boost and all other federal workers would get a 4.5 per cent raise, retroactive to Oct. 1. The hikes will be in three stages.

Basic pay of the military forces would be raised by 5.5 per cent. But after subsistence and quarters allowances are taken into account the actual compensation would amount to 4.5 per cent said Chairman Richard Russell, D-Ga., of the Senate Armed Services Committee.

SPECIAL FORCES CAMP HIT

Battle Near Dak To Costly To Viet Reds

By GEORGE ESPER
Associated Press Writer

SAIGON (AP) — South Vietnamese paratroopers reported killing 130 North Vietnamese in a new battle near Dak To Wednesday. while American forces flown in as bait repelled an attack by Viet Cong and Communist regulars today near the U.S. Special Forces camp at Bu Dop. American firepower stopped the Red assault in a cemetery 50 yards from the U.S. lines.

About 800 government paratroopers fought elements of the 24th North Vietnamese regiment for six hours during a sweep operation six miles northeast of Dak To, the central highlands battleground where the costliest battle of the war ended last week. South Vietnamese casualties were reported light.

The victorious government battalions were the same units which seized Hill 1416 near Dak To during the bloody campaign to drive the North Vietnamese from strategic heights in the area. In that three-day battle, the South Vietnamese said they killed 256 of the enemy.

At Bu Dop, 80 miles north of Saigon, the enemy ran afoul of a battalion from the U.S. 1st Infantry Division. It had been flown in Wednesday after a mortar attack on the Special Forces camp and a ground assault on a South Vietnamese district headquarters compound at Bo Duc, 10 miles to the north, indicated a major battle might be in the offing.

Associated Press correspondent John Wheeler reported ffom Bu Dop that U.S. commanders sent the infantrymen in as bait, hoping to entice an enemy attack that would be vulnerable to the superior firepower from U.S. artillery and planes. This was the formula that gave the enemy heavy losses at nearby Loc Ninh earlier this month.

Wheeler said 20 enemy bodies were found on the battlefield after the Communists retreated at daylight, and one wounded man was captured. He said many blood trails also were found, indicating the enemy dragged away a large number of dead or wounded.

Seven Americans were killed and 13 wounded, Wheeler reported.

On Tuesday night the pattern was an enemy ground attack at Bo Duc and mortar attack on Bu Dop. Wednesday night it was reversed. While the Americans were beating off the enemy, Communist mortars hurled more than 200 mortar rounds at government positions near the district headquarters.

The defenders reported only light casualties and said the district headquarters was not touched. Part of the compound had been overrun during the earlier attack, with 15 South Vietnamese and 65 Viet Cong reported killed.

H. J. Hodnett Service Set

Funeral service has been set for 2 p.m. Friday at the Hermleigh Methodist Church for H. J. (Hap) Hodnett, 70, who lived at 1204 Twenty - ninth Street.

Mr. Hodnett, a retired trucker, died at 5:30 p.m. Wednesday in Codgell Memorial Hospital. A native of Langdale, Ala., he had been a resident of Scurry County for 47 years.

The Rev. Claude Nixon, pastor of Hermleigh Methodist Church, will officiate at the funeral service. Burial will be in the Hermleigh Cemetery, under direction of Bolger Funeral Home.

Mr. Hodnett is survived by his wife; three daughters. Mrs. Howard Jones of Snyder, Mrs. C. B. Stroud Jr. of Dallas and Mrs. Dale Williams of Port Arthur; a son, Don H. Hodnett of Santa Fe, N. M.; a brother, Jeff Hodnett of Lamar County; 17 grandchildren and two great-grandchildren.

Viet Policy Closed Issue, Says Johnson

WASHINGTON (AP) — President Johnson says major U.S. defense policies are clearly defined for the man who will succeed Defense Secretary Robert S. McNamara, quitting the Pentagon for the World Bank's presidency.

But a triple play of announcements by the World Bank, White House and McNamara Wednesday night left in a fog some of the more intriguing aspects of the defense chief's switch in assignments. The statements reported:

—McNamara will take over the presidency of the 107-nation World Bank after he finishes his work on the fiscal 1968 defense budget next year, probably sometime in February or shortly after.

—President Johnson maintained "the course of our participation in the war in Vietnam is firmly set, major defense policies are clearly defined" and McNamara's successor—not yet named—can carry on in McNamara's tracks "without loss of momentum or effectiveness."

—Outgoing President George D. Woods of the World Bank sounded out McNamara last April 18. McNamara indicated his interest in the post. He discussed it with Johnson, offering to stay at the Pentagon "as long as he felt it necessary."

—About mid-October, Johnson asked MCNamara if he still was interested. Treasury Secretary Henry H. Fowler had prodded Johnson for the U.S. nomination for the World Bank presidency.

—McNamara told Johnson he was still interested. The nomination went forward to the bank. Its 20 executive directors voted unanimously Wednesday night to offer the $40,000-a-year job to McNamara, after the French representative reportedly delayed to check with Paris. A delegation headed by Woods called on McNamara at the Pentagon.

A White House aide said it was fair to assume Johnson's aim was to counter allegations that McNamara's depature will signal a major escalation of the bombing offensive.

Arthur Schlesinger, onetime aide to President John F. Kennedy, said in Upper Montclair, N.J., that McNamara's departure is "ominous."

McNamara's statement said he had worked with Johnson "in complete harmony and with the highest regard." This may have been intended to scotch rumors of disagreement between the two men.

But reporters were rebuffed in attempts to gain clarification.

McCravey Service Set For Friday

L. D. McCravey, 83, well - known Snyder service station operator who lived at 2401 Fortieth Street, died at 8:40 p.m. Wednesday in Cogdell Memorial Hospital where he had been a patient for several days.

Mr. McCravey, a veteran of World War II, was a native of Floydada, but had lived in Scurry County since 1938. He was a member of the Baptist Church.

He was married to Mary Bess Abercrombie on March 2, 1946, in Snyder, and she survives.

Also surviving are a daughter, Belita McCravey of the home; his mother, Mrs. J. T. McCravey of Corpus Christi; two sisters, Mrs. L. L. Crain of Bishop, and Miss Jessie McCravey of Corpus Christi; and three brothers, L. B. McCravey of Snyder, Jack and Thurston McCravey, both of Corpus Christi.

Funeral service has been set for 3 p.m. Friday at the First Baptist Church, with Dr. A. B. Lightfoot, pastor, to officiate. Burial will be in the Snyder Cemetery, under direction of Bell - Seale Funeral Home.

Four Die In Stream

FAIRFIELD, Tex. (AP) — Four persons died in a water-filled creek and one survived Wednesday night after their car plunged into the stream four miles south of here.

All the victims were from Houston.

Highway Patrolman Mack Glass said the dead were Mrs. Mary N. Follett; two of her children, Joseph Bernard Pensek, 5, and John Gerard Pensek, 2; and Mrs. Follett's mother, Mrs. Eloise G Herman, 69.

Sen. McCarthy To Challenge Johnson

WASHINGTON (AP) — Sen. Eugene J. McCarthy announced today he will challenge President Johnson on the Vietnam issue in four Democratic presidential primaries and possibly two others.

"There is growing evidence a deepening moral crisis in America," the Minnesota Democrat told a crowded news conference.

He said he will enter primaries in Wisconsin, Oregon, California and Nebraska.

He will decide within two weeks on Massachusetts and New Hampshire, McCarthy said.

He said his determination to challenge Johnson "has been strengthened by recent announcements from the administration of plans for continued escalation and intensification of the war in Vietnam."

On the other hand, he continued, there has been an "absence of any positive indications or suggestions for a compromise or negotiated political settlement."

He expressed concern that "the administration seems to have set no limits on the price it will pay for military victory."

McCarthy said he did not see his opposition to Johnson as a threat to the unity and strength of the party.

"The issue of the war in Vietnam is not a separate issue but is one which must be dealt with in the configuration of problems in which it occurs," McCarthy said.

He said he was not advocating peace at any price but wanted "an honorable, rational and political solution to this war."

NOW SIX MONTHS OLD

Future Uncertain For Biafra

By ARNOLD ZEITLIN
Associated Press Writer

LAGOS, Nigeria (AP) — Biafra today completed its first six months of independence amid signs the next six months may be the hardest and last.

Nigeria's former Eastern region, which seceded in May after a year of tribal suspicion and murder, so far has survived the "swift, surgical operation" launched by Maj. Gen. Yakubu Gowon, head of Nigeria's military government, in an effort to put Nigeria together again.

News from the area is scarce but there are few signs of cracking, despite the federal army thrust which has occupied a third of the 29,000 square miles of Africa's newest but still unrecognized republic.

Lt. Col. C Odumegwu Ojukwu, 3?, the bearded Oxford history graduate who declared independence at 3 a.m. on May 30, still governs a going concern. Its major exports include Nigerian bank notes which the federal government claims are being offered at half price, 10 shillings ($1.40) to the pound. These pay for the major imports, weapons to fight the civil war which started July 6.

Although unrecognized, Biafra maintains a busy office in Lisbon, Porugal, from where it is believed planes loaded with military equipment fly to Biafra via the Porguguese island possession of Sao Tome off the African coast.

It has an advertising agency, Ruder and Finn, in Manhattan, as well as an agent in the United States. Its diplomats continue to move relatively freely through Great Britain and several East African countries.

The new country's most wearing enemy appears to be time.

Surrounded by a federal sea and land blockade, it has only one link with the outside world —an airfield at Port Harcourt through which a trickle of fresh military equipment is channeled.

According to reports reaching Lagos, Biafra is slowly running out of material to fight a war.

Sees Serious N-Challenge

WASHINGTON (AP) —Sen. Henry M. Jackson today termed recent Soviet nuclear developments a "serious challenge" to the missile superiority he said the United State counts on to maintain world peace.

Jackson, chairman of Senate Armed Services and Atomic Energy subcommittees, said the Soviets have nearly doubled their operational intercontinental ballistic missiles and are providing them with warheads larger than the United States can launch.

In addition to developing the capability to orbit nuclear bombs, the Washington Democrat said the Soviets are planning expansion of their antiballistic missile system.

Adding that Communist China is emerging as a nuclear power, Jackson said:

"This recent developments constitute a serious challenge to the strategic superiority of U.S. power on which our defense planners have counted to maintain political stability and to keep the peace."

Jackson aired his views in a prepared Senate speech.

Light Damage In Wednesday Mishap

Minor damage resulted from a two - vehicle collision in the 2400 block of Avenue R at 12:31 p.m. Wednesday.

Involved were the 1956 Model Ford truck of Odell Colbert Cowan, Sweetwater, and the parked 1961 Model Cadillac of Roy Hambright Bonner, Route 2.

Damage to the Cadillac was set at $15, and damage to the truck was negligible.

UNCLE To Depart In January

By BOB THOMAS
AP Movie-Television Writer

HOLLYWOOD (AP) — Was it the supremely diabolical plot by the agency of evil, Thrush? Or was it merely anemia of the ratings that killed "The Man from Uncle"?

Robert Vaughn, who has been thwarting Thrush for 3½ years in the title role of the MGM-NBC television series, suspects the ratings were the real culprit. Whatever the cause, "UNCLE" makes an ignominious midseason departure from the network in January. The series will shortly be popping up on local stations via syndication.

It was fun while it lasted. Vaughn as Napoleon Solo and British actor David McCallum as Illya Kuryakin became the television equivalents of matinee idols and were mobbed on personal appearances. They made many such tours in the first season, and their efforts played a big role in assuring a renewal for the series, which took time to build its audience.

Teen-agers and collegiates provided the core of "UNCLE's" popularity. Some were fooled by the phony tag at the end of the show acknowledging the cooperation of the "United Command for Law and Enforcement." The United Nations headquarters in New York was flooded with inquiries about the organization.

Commenting on the show's closing, Vaughn opined: "I think the fad dissipated itself, just as all fads must. The movie market was inundated with spy satires of the 'Our Man Flint' type. Television had its own cycle of satires with 'Get Smart,' 'Wild Wild West' and others."

Vaughn agreed that the switch of time periods from Friday to Monday did not help his show's chances—"Our audience wasn't able to find us."

His personal reaction to "UNCLE's" end: "I'm glad it's over, but I'm sorry for those who were put out of work because of it. As for myself, I profited career-wise, money-wise and otherwise because of the show. I have now put in almost five years in television—I did 'The Lieutenant' for a year before 'UNCLE'—and that's enough.

"Now I want to do feature films. I can work half the time for twice the money that I earned in television. If I made two pictures a year, I would have six months left for my other activities."

Bonsai Society Is Organized

An Americanization of an ancient Japanese science and art, the shaping and growing of miniature trees known as bonsai, is urged by the newly formed American Bonsai Society.

At a recent meeting culminating six months of organizing, officers from throughout the country were named and a national membership society launched. The group will publish a quarterly magazine, "Bonsai: Journal of the American Bonsai Society."

It is hoped that the Society will give focus to the rapidly spreading interest in bonsai, according to Jerald Stowell of New York, the Society's president.

Popularity of the shapely little trees has mounted steadily since their introduction from Japan, but has made particular strides in the past ten years, Mr. Stowell said. He pointed out that there are now 40 local or regional clubs devoted exclusively to bonsai in the United States and Canada, as well as hundreds of garden clubs and horticultural societies which include bonsai in their programs.

Membership in the Society, is entirely on an individual basis. Information may be obtained from the American Bonsai Society, Bedford, New York 10506.

FHA Girls Give Thanksgiving Basket

The Snyder High School Chapter of Future Homemakers of America helped sell cakes to raise money for the American Field Service recently.

The club divided into groups, each brought a different type of food for a Harvest Festival Basket, which was to be given to a family. Money from the treasury was taken to furnish the turkey. The basket was delivered for the Thanksgiving day feast.

Sweet Pumpkin Pie

2 large eggs
1 cup firmly packed light brown sugar
½ teaspoon salt
1 teaspoon pumpkin - pie spice
1½ cups mashed cooked pumpkin
1 cup undiluted evaporated milk
9-inch pie shell with high fluted rim, unbaked

In a medium bowl, beat eggs slightly; stir in the sugar, salt and spice to blend, then the pumpkin and milk. Pour into pie shell. Bake at 425 degrees until a knife inserted 1½ inches from side of filling comes out clean — about 40 minutes. Cool on wire rack; serve warm — with or without whipped cream.

Big Cage Tourneys Set

The Snyder High School varsity and junior varsity basketball teams are entered in important tournaments this weekend.

The junior varsity, coached by Jerry McLeod, will be hosts for a big tourney that has attracted several Class AAAA teams. The varsity, under the direction of Coach Ned Underwood, will be at Irving. Both tourneys will be held Friday and Saturday.

"We expect the competition to be real tough," declared Coach Underwood, "you know, most of those teams are in Class 4A."

Pairings at Irving find the Tigers meeting Richland Hills of Fort Worth at 5:30 p.m. Friday in the first round. Other first round matches: Sunset vs. MacArthur at 7 a.m., South Oak Cliff vs. Bonham at 4 p.m., and Irving vs. Paris at 8:30 p.m.

If Snyder wins, they'll play the winner of the Sunset-MacArthur clash at noon Saturday. Should they lose, they'll play the loser of the same game at 9 a.m. Saturday. Other second round tilts are set for 10:30 a.m. and 1:30 p.m. Saturday. The battle for third place is on tap for 7 p.m. Saturday with the finals slated for 8:30 p.m. Consolation finals are on tap for 5:30 p.m. Saturday with the battle for 7th place at 4 p.m.

The big "B" tournament in Tiger gym begins at 3:30 p.m. Friday with a tussle between Monterey and Big Spring, followed by a 5 p.m. clash between Midland Lee and Odessa. In the lower bracket, Seminole takes on Abilene Cooper at 6:30 p.m. while the Snyder Kittens test Lubbock High in the feature attraction at 8 p.m. Friday.

If the Kittens win, then they'll take the court against the Seminole - Cooper winner at 12:30 p.m. Saturday. If they lose, then they'll tangle with the loser of the same match at 9:30 a.m. Saturday. Other second round tilts are on tap for 8 a.m. and 11 a.m. Saturday. The battle for third place will be unreeled at 6:30 p.m., the consolation clash at 5 p.m., and the championship at 8 p.m. Saturday.

The Bengal varsity will stay at Hinton's Motor Lodge in Irving.

EAGER LONGHORNS — These Bronte Longhorns are ready to do battle for the regional Class B football crown. Their opponent will be Wilson in a 7:30 p.m. match Friday in Tiger Stadium. Bronte has rolled over 10 opponents and will be seeking the regional title for the third straight year.

BRONTE COACHES — Hoping they will be presented the game ball after winning the regional gridiron title here Friday night are Bronte coaches Cecil Toliver (left) and Tommy Walter.

BRONTE VS. WILSON

Balanced Teams Collide Friday

When Bronte's Longhorns and Wilsons Mustangs collide here Friday night for the Regional football Crown, it will be a meeting between two irresistible forces. Kickoff is set for 7:30 p.m. in Tiger Stadium.

The fireworks produced by that collision could be many and varied. Both teams have well - balanced attacks and strong defenses. Bronte, the District 4-B champ, is undefeated in 10 outings. Last week, the 'Horns clobbered Fort Hancock, 48-0, in bi - district play. Wilson also attracted attention with its 41-0 waxing of Vega in bi-district. The Mustangs came out of the nine - team District 2-B with a co-championship.

Coach Cecil Toliver's Longhorns are rated 20 points favorites, according to the Harris Rating System.

The 'Horns build their running attack around Doug McCutchen, 193-pound senior tailback, who has averaged over 10 yards per carry. He scored 186 points in regular season games, then added seven touchdowns in the romp over Fort Hancock. Doug made all state as a junior last season.

Bronte has one of the most experienced elevens in the state. In addition to McCutchen, the 'Horns have six lads who are seeking their fourth letter: quarterback David Glenn, end Davis Corley, tackles Brian Richards and Bob Bell, guard Victor Brock and center Don Hageman. Corley made all - district last season and Glenn and Richards (6-1, 225) were honorable mention.

Charles Masterson, 158-pound senior fullback, is a two-year letterman. He's averaged over six yards per carry.

Glenn, a capable passer, has hit about 60 per cent of his aerials this season. In the first nine games he threw 14 touchdown passes, including nine to Corley.

David Scott, 190-pound sophomore tackle, is outstanding on defense.

Wilson is no slouch at moving the ball either. The Mustangs, tutored by Coach Bobby Davis, have three talented ball carriers — fullback Delton Moore, Jerry Crews and quarterback Johnny Scott.

Scott, a slick ball - handler, also has top aerial credentials. He completed 7 of 11 passes for 113 yards (including a 73-yarder) against Vega.

Wilson scored against Vega three of the first four times it had the ball. Vega didn't get beyond the Mustang 25 in the first half and was inside the Wilson 20 only once in the second half.

Tickets are on sale at the Chamber of Commerce office and can be secured at the gate tomorrow night.

Give Reds New Chance?

NEW ORLEANS (AP) — The Amateur Athletic Union is pondering the possibility that the United States and Russia may resume dual sports event rivalry.

David A. Matlin, AAU president, said a proposition had been received from Russia for the repayment by Russia, over a period of years, of the some $125,000 in losses to the United States due to cancellation of the 1966 dual track meet at Los Angeles.

Russia said its athletes backed out of the meet as a protest against U.S. involvement in the Vietnam war.

Baseball Expansion?

MEXICO CITY (AP) — Expansion was expected to be the big subject today when American and National League club owners started their sessions during the 66th winter baseball meetings.

The owners opened the day with a joint meeting presided over by Commissioner William D. Eckert, then split into league meetings which continue through Friday. They are to end the dscussions with another joint meeting Saturday.

Expansion was expected to be the top subject for both leagues. The American League already has decided to expand to 12 teams in 1969 with the addition of Seattle and a replacement for the Kansas City Athletics, who moved to Oakland. But it has not yet been decided which interested parties will get the Seattle and Kansas City franchises or how the teams will be stocked.

Warren Giles, president of the National League, has said his circuit probably will not entertain any serious expansion plans for 1969 and take a cautious approach toward the subject.

SPORTS

Houston's Pass Stealing Cornerback Is Honored

HOUSTON (AP) — Miller Farr, Houston Oiler cornerback, says "You don't try for interceptions, you just let them happen."

Farr was named the American Football League's defensive player of the week by The Associated Press Wednesday for his performance last Sunday in Houston's 27 - 6 victory over Boston.

He is the first player to receive player of the week honors twice this season.

Farr made two interceptions against Boston, returning one 62 yards for a touchdown. He also recovered a Patriot fumble that Houston turned into a field goal.

He said he does not try for the interceptions.

"You just concentrate on breaking up the play," he said. "That's one of the things you're really paid to do. Of course, the interceptions look good."

After last season, Oiler Coach Wally Lemm decided Houston was hurting the most at left cornerback.

"We gave up 25 touchdowns over the left cornerback position last year," Lemm said. "That had to stop."

So the Oilers obtained Farr, trading linebacker John Baker and tackle Scott Appleton to get him away from San Diego.

The Oilers, now contending for the AFL Eastern Division title are more than happy with the trade.

Only one touchdown has been scored in Farr's zone this year and that by San Diego's great flanker, Lance Alworth.

The Oilers, who trail the New York Jets by one game in the Eastern Division title chase, have surrendered only 12 touchdowns all year, less than half the number scored over the left cornerback zone alone last season.

Farr's two interceptions in the Boston game gave him a league leading eight for the year. He has returned three for touchdowns and has registered 258 yards running them back.

Wet Utes Apologize

SALT LAKE CITY (AP) — The University of Utah has apologized to Texas at El Paso for the watering of the field prior to last Saturday's game between the Utes and the pass - happy Miners.

The Miners, who lead the nation in passing with 301-1-yard average, overcame the sloppy field and passed their way to a 28-8 victory. The Utes ended the season 3-7 and UTEP 6-2-1.

UTEP coach Bobby Dobbs complained after the game of "terrible" playing conditions.

A Utah athletic department statement put the responsibility on head coach Mike Giddings, who was quoted earlier by Salt Lake Tribune sports editor John Mooney as saying, "I don't know who ordered the field watered. I don't know who even handles the sprinkling of the field."

The university statement said Giddings requested the water be turned on briefly before the game because he feared injuries. The water reportedly was on four hours.

Cooper, Brownwood Hope To Get Into Semifinals

By HAROLD V. RATLIFF
Associated Press Sports Writer

Sixteen games Friday and Saturday bring the surging Texas schoolboy football race to its semifinals in all four classes with 11 undefeated, untied records on the line.

But in only one instance do teams with perfect records meet each other - Austin Reagan at San Antonio Brackenridge in Class AAAA - and that means there can be only three at the most left with undefeated, untied slates in that class when the firing is over Saturday night.

Just two teams are undefeated and untied in Class AAA, where El Campo risks its unsullied record against twice - beaten, once - tied Silsbee, and Seguin throws an 11-0 mark on the line against Donna, which also has lost twice.

The big game, however, comes in Class AAAA where Abilene Cooper, unbeaten and untied, rolls against Amarillo Tascosa, a four - time loser. While the Tascosa record isn't good, this team has been coming on like the wind of late and Cooper should be worried about playing the Panhandle powerhouse on its own field at Amarillo Saturday afternoon.

Another, unbeaten, untied team goes against one that arrived late when Dallas Adams, with Scotty Miles passing high, wide and handsome, hits twice - beaten Richardson at Dallas Friday night. The winner will meet the Cooper - Tascosa victor in the semifinals.

The other AAAA game, setting up the Reagan - Brackenridge foe, matches Houston Bellaire with Beaumont Hebert at Beaumont Saturday night.

The Reagan - Brackenridge clash is Friday night.

Class AAA also has a split schedule with two games Friday night and two Saturday. The headliner throws Dumas against Brownwood at Amarillo Saturday night. It is the clash of two former champions who have had some ups and downs getting to the quarterfinals.

McKinney, with only a tie to mar its record, plays Palestine at Arlington Friday night at the same time that unbeaten, untied Seguin is clashing with Donna at Alice.

The other game is the El Campo - Silsbee affair scheduled for Saturday night at Houston.

Sweeny, the last defending champion in the field, tangles with San Antonio Randolph in a headliner of Class AA, the teams meeting at Schertz - Cibole Friday night.

Plano, a former champion, tests No. 1 - rated Daingerfield at Longview - also Friday night, as is the clash of Phillips with Crane at Lubbock.

Undefeated, untied Del Valle, in the state playoffs for the first time, runs into tough Kountze at Brenham Saturday night.

Seagraves, the championship favorite of Class A, battles Sudan at the top of this division. They meet at Lubbock Saturday night. Ranger goes against Clifton at Stephenville and Tidehaven clashes with Odem at Victoria Friday night. Brownsboro takes on Rogers at Mexia Saturday night.

While the big boys of the A classes are moving toward state championships, Class B will be winding up the season with regional title games.

All seven are Friday night with Bronte vs. Wilson at Snyder, Celina vs. Chillicothe at Nocona, Hawkins vs. Aldeo at Terrell, Bruceville - Eddy vs. Tatum at Waco, Wall vs. Salado at Belton, Shepherd vs. Brookshire Royal at Cleveland and Blanco vs. Runge at Luling.

Sixteen out of 32 last week is not very impressive. Here goes this week:

CLASS AAAA

Friday night — Dallas Adams over Richardson, Austin Reagan over San Antonio Brackenridge: Saturday afternoon — Abilene Cooper over Amarillo Tascosa: Saturday night — Houston Bellaire over Beaumont Hebert.

CLASS AAA

Friday night — McKinney over Palestine, Seguin over Donna: Saturday night — Brownwood over Dumas, El Campo over Silsbee.

CLASS AA

Friday night — Phillips over Crane, Plano over Daingerfield, Sweeny over San Antonio Randolph: Saturday night — Del Valle over Kountze.

CLASS A

Friday night — Ranger over Clifton, Tidehaven over Odem: Saturday night — Seagraves over Sudan, Brownsboro over Rogers.

CLASS B

Friday night — Bronte over Wilson, Chillicothe over Celina, Hawkins over Aldeo, Bruceville - Eddy over Tatum, Salado over Wall, Brookshire Royal over Shepherd, Blanco over Runge.

Britain Battles To Stop Hoof And Mouth Disease

By GODFREY ANDERSON
Associated Press Writer

LONDON (AP) — The smoky reek of death rises over Britain's russet countryside this fall. The nation is burning infected livestock.

The worst epizootic of foot and mouth disease this island has ever known has brought the destruction of more than 200,000 animals—cattle, sheep, pigs, goats.

More than 1,000 farms and 14 northern counties are directly affected. The rest of the nation is in a state of virtual siege in an attempt to keep the disease from spreading.

Standstill orders prohibit the movement of cattle, sheep or pigs. The markets are silent and deserted, their stalls empty.

The 500 veterinarians fighting the epizootic—animal version of an epidemic—say the virus is the most virulent encountered yet. They aren't sure of its origin but they believe that a farmer's boot, a truck tire or a sudden change of wind can spread it.

Since the accepted method of control is slaughter, each new outbreak means another farmer's livestock is wiped out.

The farmer gets market value for his lost stock. He gets nothing for the consequential losses—milk yield, butter sales, the cost of building a new herd.

To some the spread of the disease, which first showed at Oswestry near the Welsh border five weeks ago, is reaching alarming proportions. There have even been suggestions it is out of control.

Minister of Agriculture Fred Peart calls such talk irresponsible. Even with the current proportions of judicial carnage, he says, Britain is losing less than one in every hundred of her 9 million cattle, 5½ million pigs and 20 million sheep.

But the blow to badly needed exports is severe. Rudi Steinberg, chairman of the Agricultural Export Council, has reported the loss of a $297,600 order from the Soviet Union for British cattle.

While many farmers are forced to live virtually isolated on their farms, windows closed against the stench from their burning stock, each countryman's life is affected.

Fox hunting, favorite winter sport of landowner and farmer alike, is completely stopped. So is horse racing.

The famed Smithfield Fatstock Show will have no live animals—just farm machinery. London's Christmas poultry show is off; while the disease does not affect poultry, officials discourage large meetings of farmers.

Southern England's 104 square miles of New Forest, once William the Conqueror's favored hunting ground, has been cleared of all grazing stock for the first time in 700 years. Several zoos have closed. Stately homes are barred to visitors to protect deer in their parks.

The 30,000 Irish who usually go home for a Christmas visit are asked by the republic's government to stay away this time. Those who travel have to walk through an atomizer mist of disinfectant on arriving at Dublin Airport.

Disinfectant baths for vehicles have been set up on roads at strategic points to protect southern England from possibly infected traffic from the north.

The Farmers' Union points out that the foot and mouth virus can live six months in a marrow bone and is asking people not to give their dogs bones, lest the dogs spread it further.

Some farmers suspect that the outbreak started with infected meat, possibly imported, being fed as swill to pigs.

There are plenty of other theories. Some blame migrating starlings for starting it all. The plain truth seems to be that the experts don't know.

There's been no noticeable effect on milk production but meat prices are up. Part of the rise, however, is blamed on a dock strike which held up frozen shipments from New Zealand.

Bank Post Position Of Responsibility

By JOHN CUNNIFF
AP Business Analyst

NEW YORK (AP) — Robert McNamara's departure from the position of defense secretary may not remove him entirely from the problems of Vietnam. It could, eventully, involve him deeply, but in a far different role.

As president of the World Bank, McNamara would hold a highly responsible position in the economic development of smaller nations. After the war ends in Vietnam, the bank conceivably could be a financier of the nation's development.

The 21-year-old World Bank is unique. Its members come from all parts of the world and its financial resources do also; it lends money for projects in all parts of the world and its staff is drawn from all nations.

Owned by shareholder governments, it makes long term loans at regular interest rates to developing nations for electric power, transportation, agriculture, industry and education.

From its headquarters at 17th and L Streets, Washington, it already has lent $10 billion, of which $3 billion has already been repaid. This leads to the question of where the money comes from.

Member countries put up some capital, but the larger part of the bank's resources comes from borrowing in the capital markets, much as any corporation would. It is a profit-seeking venture. Last year it made $170 million.

It also has a mandate to stay out of politics, although of necessity it has become deeply involved in giving advice on economics, engineering and administration along with its money.

The term World Bank is actually the popular designation for a group of three institutions centered on the International Bank for Reconstruction and Development, which by itself is also called the World Bank.

Allied with it is the International Development Association, or IDA, which handles the same type of business as the IBRD but on easier repayment conditions. It deals with the very poorest countries, and more than 70 per cent of its $1.6 billion of commitments have been in Asia.

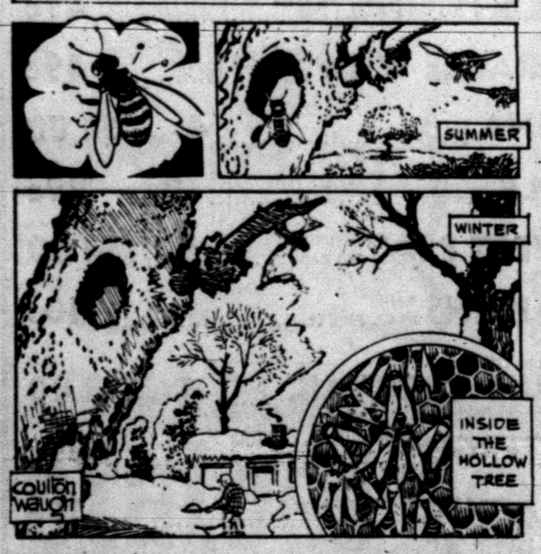

The third institution in the World Bank group is the International Finance Corporation, or IFC, which lends directly to private parties rather than to governments. Most of its $200 million commitments in Latin America.

Since the World Bank president heads all three institutions, it isn't difficult to imagine the power of that office. In the possession of a man who understands power and administration, such as Robert McNamara, that office can be even a larger world force than it was under the very able George Woods.

Under Woods, advice as well as money has become more and more important in World Bank activities.

In his annual report, Woods included some very significant comments, including the statement that bank officials find themselves talking increasingly with members about "fundamental policies to govern their day-to-day economic decisions."

A Junior Editors Quiz About HONEYBEES

QUESTION: *Where do honeybees go in the winter?*

* * * *

ANSWER: At the upper left we see a worker bee sucking nectar, which, along with a lump of pollen, she carries to the home hive, located, in this case, inside a hollow tree. The nectar is carried in a special "honey stomach," which contains chemicals that help it to turn into honey. Honey and pollen are stored in the wax comb cells and used in various ways during the summer. As fall comes, the honey flow stops. But the bees collected and stored more honey and pollen than they needed. As the cold weather comes, they gather inside the hive in clusters over the cells stored with food which can be used in the winter. Huddling together for warmth, and moving their wings, they can keep the temperature of a cluster at between 50 and 60 degrees, warm enough so they can survive. Beekeepers who keep their bee colonies in hives are careful to see that the bees have enough food available and that the hive boxes are sheltered. Hive boxes are frequently placed inside larger boxes, with insulating material between.

SANTA and the PIGWIDGEN

By LUCRECE BEALE

CHAPTER ONE
SANTA AND THE PIGWIDGEN

MANY YEARS AGO there lived a man who had an extraordinary love for children.

He was always giving them little gifts — especially at Christmastime. He was so good and kind a man he was made the patron saint of children. He is called Saint Nicholas or Santa Claus for short and he is the spirit of all our Christmases.

No one knows how it came about that today Santa Claus lives at the North Pole and has flying reindeer and is able to bring toys to children all over the world. No one knows but many stories are told, and here is one of the most interesting.

Claus, as he was then called, lived in a village on a mountainside in a far-away land. He and his wife had no little ones of their own but their house was always filled with boys and girls.

Claus liked it that way. He told stories. He made up songs. He kept the cookie jar filled. He carved tiny wooden toys and gave them to the children. He scarcely had time to do his real work which was to make shelves and chairs and beds to sell to the villagers.

People could not understand how Claus could spend so much time playing with the children. He never seemed to worry about making a living.

Then one day some boys playing in Claus' attic found a fat black purse. The purse clinked when the boys shook it. They went home and told their parents that Claus had a treasure of gold in his attic.

Now gold had never been seen in that far-away place and everyone was amazed. All the villagers, men, women and children, went to Claus' house and told him what they had heard. They asked if they could see the treasure and merely feel the gold with their fingers.

"I have no gold!" exclaimed Claus.

"But the purse?" urged a villager. "Can't we even SEE the purse?"

Claus went to the attic and came back with the black leather purse. The sides bulged and the contents truly jingled like gold.

"If it's not gold, what is it?" asked an old man eagerly.

"I do not know," said Claus. "Many years ago a traveler stayed the night in my father's house. He left the purse and said he would return for it some day. He made my father promise never to open it. My father kept his promise. When he died he made me promise the same thing and the purse has been forgotten all these years."

"Open it!" cried the villagers. "Surely such a promise was not meant to stand forever!"

"For me it was," said Claus stubbornly.

The village elder spoke up shyly and said, "But Claus, WE didn't make any such promise. Surely I can open the purse just for one little peek."

"Yes, why not?" cried everyone, moving closer. "Yes, yes!" chorused the children. "Just a peek!" And suddenly the elder leaned over the purse and opened the clasp.

There was a hiss and a screech. The lamps sputtered. A strange warm breeze blew through the house. The villagers stumbled back against the walls and Claus cried out, "Mercy me! What have you done?"

By ABIGAIL VAN BUREN

DEAR ABBY: I am a 15-year-old girl with a big problem. Please don't laugh, Abby, but my problem is that I am ticklish. And I mean like if someone just tickles me a little bit, practically go into hysterics.

Of course nearly everyone who knows me knows about how ticklish I am, but my uncle in particular takes advantage of this, and he will get a hold of me and tickle me until I am so played out from laughing and screaming that I always end up crying.

My parents aren't much help, Abby, and I can't handle this alone. Please tell me what to do.

TICKLISH

DEAR TICKLISH: Being ticklish is no laughing matter, and I sympathize with you. Your uncle sounds like a first class nincompoop, who's probably sadistic to boot. When you see him next, give him fair warning that if he so much as puts a hand on you, you will clout him with a lamp, or whatever is handy. Then go ahead and do it. No jury would convict you.

* * *

DEAR ABBY: I am 38, have four practically grown children, and I have a problem, the likes of which you've never heard. I guarantee you.

Six months ago I married a 47-year-old man also divorced with three children. I had been a divorcee for six years. My husband assured me I had nothing to worry about because he had had an operation nine years before that made it IMPOSSIBLE for him to father any more children. Naturally I took his word for it. Well, something went wrong because I am four months pregnant. My doctor confirmed it. I am just furious, Abby. My husband went back to the doctor who performed that operation on him, and the doctor said that the operation is 100 percent foolproof, there are no failures, and if I am pregnant, the baby can't be my husband's. Abby, I KNOW the baby can't be anybody else's.

Tell me, are those operations on men always successful? If so, how come I am PG? Can a blood test prove that my husband is the father of my baby? If he is, can by husband sue his doctor?

PG AT 38

DEAR PG: The operation your husband had is called a "vasectomy." It, properly performed, it IS 100 per cent foolproof, but unfortunately it is not always properly performed. If your husband IS indeed your baby's father (and I believe you when you say he is) then he should to to a urologist for a "sperm test." This will show beyond a doubt whether he is able to produce children or not. A blood test can be taken only after the baby is born, and can determine only who the baby's father is not . . . NOT who he IS. Your husband CAN sue his doctor. Whether he can collect is another question.

* * *

DEAR ABBY: My husband is a pilot for a big air line, and on layovers in different cities the stewardesses frequently go out with the fellows, and on occasion they go to dinner, movies or sightseeing. My husband says this is the accepted thing.

I am consumed by jealousy and tied up in knots just thinking about it. I need advice on how to handle the situation so I don't question him too much and get into fights with him when he comes home.

I don't have any reason to doubt my husband but I can't rid myself of the jealous feelings I have. I love him very much, and am so afraid of what might happen as a result of the pretty new young faces that surround him. Can you help me?

JEALOUS

DEAR JEALOUS: Jealousy is a "sickness." The twin germs which usually cause it are lack of self-confidence and mistrust. Don't quiz him, but let him know (good humoredly) that you think he is quite a prize and are slightly jealous. (This will be his cue to reassure you, as anyone with sense enough to fly a plane must surely know.) Frankly, I don't think you have anything to worry about. The husband who swings away from home avoids mentioning other girls.

SUBWAYS ARE FOR TALKING — Two women argue with a New York City Transit Authority information aide and a patrolman about the new subway routes at the DeKalb Avenue station in Brooklyn. Most New Yorkers weathered the change, but the transit system "lost" one train, disgorging its 800 passengers far from where they had hoped they were headed. (AP Wirephoto)

Pilot Study Group Meets

Local county teachers heard Mrs. Sue Ashwood, consultant from West Texas Media Center at Midland, discuss the "Discovery Method of Teaching Science" at the meeting of the Pilot Study Group of the Texas Small Schools Association Monday night when about 100 teachers, administrators and school board members met at their regular meeting on the campus of Howard County Junior College, in Big Spring.

The administrators and board members heard a discussion by Dewey Baker on accreditation standards. Guests of this group included three members of Texas Education Agency, Charles Merrill Mrs. Donna Townsend and Dale Carmichael.

Member schools include those from Dawson, Borden, Scurry, Midland, Glasscock, Fisher, and Gaines Counties who have an enrollment of less than 500 pupils:

Those attending from this area were: superintendents, principals, teachers from Fluvanna, Ira and Borden County schools.

To Block Troop Use Of Marijuana

By JOHN T. WHEELER

SAIGON (AP) — Military officials ordered an intensified crackdown following a survey showing use of marijuana by troops.

A bulletin issued in one division said the Viet Cong are supplying marijuana to GIs "because they know it makes American soldier inffective" in combat.

The U.S. command has begun using an anonymous questionnaire among departing troops in an attempt to check on use of marijuana.

Spot checks carried out for the Army provost marshal's office showed that statistically almost one of every 200 men was smoking marijuana, informed sources reported. Senior officers said earlier they did not know how extensively marijuana was used but charges involving it ranked as the single largest major offense in Vietnam.

Those arrested have included military police, young officers, guards on duty and combat men. For a time marijuana was being smuggled into the jail not far from the U.S. Army's Vietnam headquarters at Long Binh.

Military police have been ordered to press efforts to get Vietnamese police to crack down on sellers and to pick up American GIs who use marijuana.

However it is still easy to buy marijuana cigarettes all over the country.

The 1st Air Cavalry Division's crackdown on marijuana traffic included a troop information bulletin which warned GIs that marijuana decreases effectiveness and makes soldiers subject "to unpredictable and unusual actions which may involve them in neglectful and criminal actions such as shooting, grenade throwing, etc."

Solon Beats Traffic Jams

By PAUL ALBRIGHT

WASHINGTON (AP)—A freshman representative from Texas has his own way of beating the traffic jams that entangle the nation's capital.

Rep. Robert C. Eckhardt, D, a husky, first-term congressman from Houston, frequently pedals a bicycle several miles to the Capitol and back to his Georgetown residence.

The 54-year-old Eckhardt uses Washington's central parkways to avoid most of the heavy traffic which streams along bordering streets.

Eckhardt, the fourth member of his family to serve in the U.S. House, has pedaled his $40, second-hand bicycle from Georgetown to his office in the Sam Rayburn Building in 30 minutes. That is about as fast as a car can make the trip during rush hour.

But I'm not in a hurry," Eckhardt says.

"A person is burdened by automobiles today," he said in an interview, adding that in small communities many things are within walking distance and in large communities parking problems are too complex. To overcome the problems, Eckhardt began bicycling to Capitol Hill last spring.

"It's more pleasant to see a city from a bike and not an automobile," he said. "It's generally invigorating and pleasant."

From Georgetown, Eckhardt skirts heavy traffic by pedaling along a walk near the Potomac River to the Lincoln Memorial. Then he heads along another tree-shrouded walk beside the Reflecting Pool to the towering Washington Monument.

Circling the monument, he reaches the Mall, another park that stretches to the approaches of the Capitol. By riding through parks, he avoids most of the downtown traffic.

"The biggest hill I have to pull up is up the parking garage ramp," he said.

Eckhardt found the hot, muggy weather caused him to perspire and he was required to shower and change clothes at the Rayburn Building before beginning his day's work.

But exercise and health benefits were not the prime aim for Eckhardt, who is 6 feet 1 and weighs 220 pounds. His bicycling hasn't worked off any pounds, he said.

Eckhardt said he carries a raincoat with him but has his wife drive him to the office if the weather is too bad.

"He just doesn't like to drive," one of Eckhardt's aides said.
