KIDWELL MADE STAR WITNESS FOR GOVERNMENT IN TEAPOT CASE AS 'APPROACH' CHARGED

(By The Associated Press)

WASHINGTON, Dec. 9.—Edward J. Kidwell, known as the talkative juror in the Fall-Sinclair case, was made a star witness for the government today when he appeared at the district attorney's office with a statement which the government will introduce to prove that he was "approached" during the case by persons whom the district attorney declined to name. The juror is the man accused of having boasted that he expected to obtain an automobile a block long from his participation in the trial.

Affidavits regarding his remarks secured in the ordering of the case and the institution of contempt proceedings against Harry F. Sinclair, William J. Burns and others.

Closed for Over Hour

Kidwell was closed with the assistant district attorney for more than an hour after which a stenographer was busy typing his statement for more than two hours. He had previously denied that he had been approached after evidence was introduced yesterday in the criminal contempt proceedings against Sinclair and his associates that he was the member of the panel in the oil case in whom the Burns detectives were interested.

Details Withheld

Mystery was thrown about the details of Kidwell's statement and beyond the fact that it was said to be "approached" there was no official information. The government has charged that Sinclair had intended to let juror who he hired Burns agents to shadow them.

District Attorney Gordon declined, however, to say that any actual offer of bribery had reached Kidwell.

Evidence was introduced in the contempt case yesterday that Frank J. O'Reilly, a Burns man, had talked to Kidwell's father.

Eaton To Speak At Ralls On Saturday

David F. Eaton, county agent will go to Ralls tomorrow morning where he will make an address on "Poultry Raising" at the Ralls Poultry Show and short course which is being conducted there today and tomorrow. Poultry men from all over the South Plains are exhibiting their birds at the show according to word from Ralls.

The show is being held to develop interest in poultry in this section, an industry which is expected to play a great part in the development of the South Plains.

W. L. Stangel, head of the Tech department of animal husbandry, was a speaker in the program there yesterday, his subject being "Hogs, feeding and breeding."

Many Expected For Farm Bureau Meet

Five hundred and sixty members of the Lubbock Farm Bureau Cotton association are expected to meet at the court house tomorrow afternoon at 2 o'clock for the election of officers of the association for the coming year. Douglas Pounds, present president of the association, will preside at the meeting in which six delegates to the state convention at Dallas, January 11-13, will also be selected.

M. E. Hays, field supervisor and J. D. Cochran, state representative, of Dallas, are scheduled speakers on the program. Other speakers from the county are also on the program.

WINTER'S BLASTS AND GALE IN EAST LEAVE HEAVY TRAIL OF SUFFERING; RELIEF SEEN

(By The Associated Press)

CHICAGO, Dec. 9.—More than 33 persons met death in the sub-zero blast and blizzard which fanned the continent from coast to coast yesterday.

Abatement of the snow fall and high speed wind which piled drifts so high in Minnesota, Wisconsin and Iowa as to delay trains and block highways, and which sent rescue boats scurrying along the Great Lakes' shores to aid crews of foundering vessels, does not mean the mercury will begin a quick climb, weather officials said.

They predicted the cold spell would reach its peak today but would remain of sufficient intensity for a few days to keep the weather a constant topic of conversation.

Nine Die in Chicago

Chicago reported nine deaths directly attributable to the cold, and the remainder of Illinois (four); Canada's blizzard toll reached eight today with the finding of bodies of two unidentified sheep herders, Iowa reported four dead, Wisconsin three, Minnesota two, and New York three. While northern Minnesota and Wisconsin remained partially snow bound, lower states were gradually clearing communication and traffic.

Missouri, Illinois and Indiana, and surrounding states experienced the cold without snow. The frigidity was severe as far west as California and south to the Gulf states, taking in virtually the entire nation.

Slight Relief Promised

Chicago and vicinity were promised slight relief after today's early morning below zero mark, and higher temperatures were promised for western Iowa, where the temperature dropped as low as 14 below.

St. Paul schools were closed yesterday for the second successive day, while street cars pushed unglaciously through the city.

The mercury hit the bottom of the glass in some British Columbia and Alberta cities, where the readings were as low as 51 below zero.

DALLAS, Dec. 9 (AP)—Texas temperatures were still low Friday.

LEAGUE OF NATIONS SHRIVELING UP, BRONNER SAYS; OPEN COVENANTS FOR SMALL NATIONS, NOT WORLD POWERS

The rushed last minute shoppers. Make delivery men all grove. Cause they're the ones who keep him out. Till late on Christmas eve.

EDITOR'S NOTE—This is the fourth in a series of articles by Milton Bronner, foreign correspondent for The Journal and NEA Service, discussing the situation in Europe today.

BY MILTON BRONNER

LONDON, Dec. 9.—"That there is always the League of Nations."

That is the reply one is apt to get when one talks about how Europe is still an armed camp and about how powder barrels in the shape of new Alsace-Lorraine are scattered all over the map of Europe awaiting only a spark to start an explosion.

But the plain truth is that the league is shriveling up. It started out to be a world league. But that dream ceased abruptly when America would have none of it.

Then the most populous country in Europe—Russia—with the biggest Asiatic possession in the world—Siberia—refused to have anything to do with the league. Then Spain gave notice that it in-

FIGHTS RACES

The war in Kentucky over horse racing is not over. Attorney General Frank E. Daugherty (above) has filed suit to dissolve the Kentucky Jockey club and forfeit its charter. The club, capitalized at \$1,000,000, a powerful influence in state politics, is violating state and national laws through operation of the pari-mutuel betting system at its tracks at Louisville, Lexington, Latonia and Chicago, Ill. The suit is an echo of the recent election when Judge Flem D. Sampson, friend of racing, was elected governor.

San Antonio, Texas, Dec. 9.—Four persons, one a woman were wounded about noon today when shots were fired suddenly in the Guaranty State bank of this city. William Schneemann, jr., president of the bank, and Karl Word, at present cashier, but former state bank examiner may not recover. Ira Swope, assistant cashier was the other man wounded. The woman was a customer and her name is not yet known. There were no witnesses other than those hurt, it was said. The three men were talking when the shooting started.

THREE BANK OFFICIALS AND WOMAN INJURED; CASHIER IS ACCUSED ON INSANITY PLEA

(By The Associated Press)

SAN ANGELO, Texas, Dec. 9.—Four persons, one a woman were wounded about noon today when shots were fired suddenly in the Guaranty State bank of this city. William Schneemann, jr., president of the bank, and Karl Word, at present cashier, but former state bank examiner may not recover. Ira Swope, assistant cashier was the other man wounded. The woman was a customer and her name is not yet known. There were no witnesses other than those hurt, it was said. The three men were talking when the shooting started.

T. N. Robbins, former president of the bank said he believed the shooting resulted from temporary insanity. He and President Schneemann had talked to Word about making Mr. Swope cashier. He said:

Doesn't Answer Question

When asked who did the shooting Word nodded his head and became unconscious. Later District Attorney D. I. Durham attempted to get a statement from Word. No charges had been filed an hour after the shooting.

Schneemann, Word and Swope were at Schneemann's desk and others in the bank before the shooting. No sounds were made to indicate anything unusual. Four shots were fired in quick succession.

Schneemann Under Desk

Schneemann was found under his desk. Word was sitting in a chair at his own desk a few feet away. Under his hat there was a revolver with four empty shells.

One of those who helped pick up President Schneemann asked him what was the trouble.

"I don't know," was the reply. When asked who did the shooting Mr. Schneemann said "Word." Mr. Schneemann also answered questions as to whether he had a gun or pistol in the negative.

Swope rushed from the bank when the shooting started and fell on the street.

Neither Schneemann or Swope had a gun on them. There was no gun in Schneemann's desk.

Schneemann is a rancher and banker, and has only recently devoted any time to the active banking business. He has a large ranch west of San Angelo and is one of San Angelo's wealthy citizens. He is married and has one child.

morning, in the wake of the most severe winter yet, but relief is due Friday night and Saturday. At 8 o'clock today temperatures ranged from 20 degrees at Texline and 21 at Dallas to 44 at Galveston.

Eastern Section Of U. S. Paralyzed

NEW YORK, Dec. 9 (AP).—A northwest gale sent temperatures to sub-zero in some places today left the eastern section of the country to recover from flood conditions and restore paralyzed shipping.

Damage estimated at hundreds of thousands of dollars and at least three deaths were caused by the storm as it swept toward the sea, endangering the lives of four score men on the Great Lakes and leaving a trail of disabled ships, flooded highways and sea beaten shore property in its wake.

84 Mile An Hour Wind

The gale, attaining a velocity of 84 miles an hour along the eastern ends of the Great Lakes, lashed western New York and sent scores of vessels aground.

Two-run runners said to have left Port Colborne, Ontario, and two package freighters headed up the lakes, were unreported as the storm abated.

Best houses, cottages, summer homes and fishing tugs were demolished on the south shore of Lake Erie as heavy waves pounded up over the beach.

Swollen Streams Break Over

Swollen rivers and streams along the Canadian side of the border and in northwestern New York state went over their banks and inundated sections of several towns.

One hundred families were taken in row boats from their homes on one of the main highways out of Buffalo. Truck drivers blinded by

snow killed two persons, one in Buffalo and another at Windsor, Ont. One death resulted from the storm in New York city.

Valley Fruit Men Escape Damage

BROWNSVILLE, Dec. 9 (AP).—After escaping the second consecutive night from a freeze which had been forecast by the government observer, lower Rio Grande valley fruit and vegetable growers are wearing broad smiles today. The lowest temperature recorded here last night was 40 and heavy clouds prevented any frost damage. The clouds still are present.

ABILENE AND CLEBURNE BATTLE TODAY IN SEMI-FINAL ROUND

EAGLES OFFER MUCH HEAVIER CREW IN SCRAP

YELLOW JACKETS HAVE ONE ADVANTAGE IN PLAYING AT HOME

(Special To The Journal)
CLEBURNE, Dec. 9.—Closing a book of hard practice, Coach Barker and Jordan of the high school Yellow Jackets, faced with the hardest task of the season in pre-arranging against the mighty Abilene Eagles, Cleburne meets the Eagles this afternoon here.

The game with Forest High last Saturday, which resulted in a 6 to 0 victory for Cleburne, was a great disappointment to the school mentors. Making allowances for the fact that the Forest Lions played the best game of the season and that the local eleven was off to a start, the fact remains that the Yellow Jackets were not at all the height of the season and put up a worthy battle against the Eagles.

Cleburne Outweighed
The Yellow Jackets will be outnumbered approximately 20 pounds per man by Abilene, and when in addition the Eagles are quick and smart, it can be seen that Cleburne is going into the game as underdogs.

Hard work until after dark was the order of the day at Rhomine this week. Not resting now, but practicing the present week in trade, that for some reason or other did not work against the Eagles, was the task of the Yellow Jackets until today.

Play on Home Field
One thing in Cleburne's favor is that the game is to be played on home field where seven years ago the Yellow Jackets defeated the Eagles. That year as now a big heavy Abilene team invaded Cleburne for the semi-final game of the Yellow Jackets' round. Abilene, that also played against the Corsicana Tigers, the contest should be one of the most spectacular seen this year.

Excellent Coaches
Both teams have excellent coaching staffs, are smart football machines, and with the winner playing in the state finals, an interest regarding the game from all points of the state, a record breaking crowd is looked for.

Spot writers from practically every large paper in the state will be taken care of in the newly erected press stand. Seating accommodations for 7,500 have been arranged, and fully that number should be present this afternoon at Rhomine Field, when the referee's whistle sounds at 2:30 for the first kick-off.

FLUFFY ICING
White icing can be made fluffy if you set the pan in which you have beaten it in boiling water, until it looks like marshmallows.

ENGINEERS OF TECH WIN OVER LIBERAL ARTS

SECOND CHAMPIONSHIP HUNG UP AS BLUE MACHINE RALLIES

Showing superior strength in the final quarters after they had been rushed from their feet in the opening periods, the big blue eleven of the Tech Engineering school romped away with their second annual intramural football title yesterday afternoon on the Tech field by crushing the hopes of the Liberal Arts school, 19 to 6 in a game packed with shifty brisling play.

Sams Leads Mates

To Ted Sams, engineer half, goes the credit for putting the game on ice after the score had been tied by his mates in the third quarter. Taking a punt at about mid-field, the elusive back sped through the entire Liberal Arts team for a touchdown to down the offensive spirit of the opposition. The other score came with almost apparent ease in the last quarter.

The Liberal Arts boys showed better football in the first two quarters, gaining more ground, completing more passes and making more firstdowns than the Engineers did during the entire game. The six points was the only score that they were able to mark up, however. With a backfield of Sid Hopping, Jackie Alexander, A. V. Moore and Buster Honey, the team functioned almost to perfection, long runs being made by Hopping and Moore, and Alexander, tossing several neat overhead gains.

Engineers Rally At Half

With the score six to nothing against them, the Engineers came back in the last half with much fight and were able to score in the opening minutes with the aid of several penalties and fumbles by

the Liberal Arts backs. McWilliams and Bergfeld, Engineer backs, showed their regular form and went through the line "and around ends for repeated gains.

The Liberal Arts line was the feature of the day, however, and were like a stone wall through the first three quarters of the contest, awakening with their loss of energy.

The Liberal Arts team suffered heavily from penalties and during the contest had something like 100 yards assessed against them.

Second Championship

The win gives the Blue eleven their second championship, they having won it in a decisive manner last season. The Aggies and Liberal Arts teams are scheduled to play Saturday but officials indicated yesterday that the game would be called off, leaving the two teams tied. The game Saturday was played in a severe cold wind. Coaches Winfield Nicholas, of the Engineers and Elson Archibald and Preacher Calloway, of the Liberal Arts, deserve much credit for the teams which they placed on the field. Each showed excellent form and organization, considering their short preparation periods.

Officials of the game yesterday were: Ingerton (Centre) referee; Jennings (Texas Tech) umpire; Corley (Texas Tech) headlinesman; Schober (Texas Tech) timekeeper.

Texas Corporation Buys Pure Acreage

NEW YORK, Dec. 9 (AP).—The Texas corporation is reported in Chicago dispatches to Wall street to be closing negotiations with the Pure Oil company to take over part of its properties in West Texas consisting of 3,100 acres in Winkler county, 407 acres in Pecos county and 2,000 acres in Crane and Upton counties, in addition to equipment valued at \$300,000.

HERB PENNOCK

NEW YORK, Dec. 9.—Babe Ruth and Lou Gehrig, back in the home town after a baseball jaunt that carried them through nine states, are both glad they have the happy faculty of hitting home runs.

"Nothing in baseball seems to give the fans quite as big a kick as a home run, particularly if it is a drive that carries over the fence," says Babe.

"Over a quarter of a million fans paid fancy prices to see Lou and me in action. They came to see one of us, if not both, hit a home run or two and, fortunately, we seldom failed them."

Asked who is the greatest pitcher in the majors, in almost the same voice they answered:

"Herb Pennock. If you don't think so, write any of the Pittsburgh boys."

Ruth, who has made more than 100 home runs since the start of the spring training trip, thinks his 60 home runs will stand the test.

of time unless someone invents a rubber ball for baseball.

"No one was more surprised than yours truly when I made 60 home runs last season. I didn't think my mark of 59 would be broken," he says.

DELANEY MEETS BERLENBACH IN CHICAGO SCRAP

(By Associated Press)

CHICAGO, Dec. 9.—Jack Delaney and Paul Berlenbach, both former light heavyweight champions, mix in their fourth meeting tonight, with considerable more at stake than a mere ten rounds of milling. The match is one of the steps in Chicago's effort to build up an opponent for Gene Tunney, and Delaney is the likely opponent, if he can convince his audience tonight.

Tunney has said he would like to fight again in Chicago. He likely will talk terms with Promoter Jim Mullen here next week, and Delaney may get the big "shot" if his showing is impressive.

Renner Is At Home From Texas Meeting

Prof. K. M. Renner, head of the department of dairy products and manufacturer of the Tech college, returned this morning from San Antonio where he has been attending a meeting of the Texas Ice Cream Manufacturers association. While there he delivered a series of lectures to the group on the various phases of the work and aided in the conducting of a school and sampling contests which was

held in conjunction with the convention.

Prof. Renner has had a number of years' experience with the work and is planning an extensive program in the department of the college. The meeting at San Antonio was attended by several hundred ice cream manufacturers.

Deficiency Bill Passed By House

WASHINGTON, Dec. 9 (AP).—The house today passed the \$200,000,000 first deficiency bill providing funds for various government needs for the current and prior fiscal years. It was the first bill to pass in the new session of congress. The house then took up immediately the \$222,735,000 tax reduction measure.

SIGNAL LIGHTS IN CITY GIVEN OFFICIAL OK

EFFORTS FOR A BETTER CONTROL OF TRAFFIC IS STARTED HERE

Keeping step with the other phases of progress of the city, Lubbock is to have traffic signal lights in the near future. The city commissioners voted in their regular meeting yesterday afternoon. The lights will be placed into use as soon as possible, officials said this morning.

Secretary Named

Other business of the commission included the appointment of W. H. Rodgers as city secretary, the letting of a contract for the purchase of fire department equipment, the authorization of placing street lights on Tenth from Avenue K to Avenue G and on Broadway from the square to the railroad crossing east and the passing of an ordinance granting right to the Panhandle Construction company, W. H. Meador and the P. and S. F. railway, to build a switch across Eighth Street, beginning at the alley in Block 57 and extending to the property line in Block 78.

The signal lights, ordered erected by the commission will be of the usual type used by larger cities throughout the United States, officials said this morning. Five were ordered installed by the commissioners. They will be suspended in the center of the intersections

and places where they will likely be placed are on Broadway at the intersections of Avenue G, Texas J. and K. and possibly on Main street at Texas. These locations are not definitely settled.

Rodgers Here Three Years

W. H. Rodgers, the new secretary, takes the place of Gus W. McCleary, who was recently elected to the city manager's post. Mr. Rodgers has lived in Lubbock for the past three years, coming here from Lampasas where he was connected with the G. C. and S. F. railway for several years. He has been in the employ of the city for the past four months, serving in various capacities, for a time superintendent of the warehouse and later with the light department.

A number of other minor business matters were transacted by the commissioners which included the acceptance of the paving recently completed on Avenue L between Broadway and Thirteenth, the acceptance of the plans and specifications for the new fire station, the ordering of replacement of old and inadequate light cable around the square from Broadway to Avenue K and purchase of repair parts for tractors.

MILTON BRONNER

(Continued from Page 1)

tended to withdraw, because it was not given a permanent seat in the council and some of the South American states grow cold towards the league. The league tends more and more to be a league principally of European states dealing with European matters. Also it tends more and more to be a debating society.

"Open Covenants"

But that is not all. When President Wilson was battling for the principle of the League of Nations and a new diplomacy, he spoke of "open covenants openly arrived at." That meant full publicity, dealing in the open in front of witnesses who represented press and public.

No longer were a few old men sitting in secret session, to decide the fate of nations. The League of Nations, in solemn convocation assembled, was to prevent wars. The league, by its massed opinion and its massed power, was to force nations to keep the peace.

Well, the plain truth is that the league is bold where small nations are concerned and timorous where the big ones are the principle. More and more the tendency is to keep away from the league some of the greatest European problems. Instead of these being discussed in the open by the League of Nations they are discussed in secret by the ministers for foreign affairs of the big four—England,

France, Italy and Germany. These ministers attend the meetings of the League of Nations, but their most important work is done outside the league. It's the old diplomacy all over again.

Albania vs. Yugoslavia
Take the recent dispute between the little state of Albania and the bigger state of Yugoslavia. Albania never would have dared make faces at Yugoslavia if big brother Italy was not at her back. And because Italy was there, the matter was not taken up by the League of Nations.

The big powers advised that the matter be settled outside the league. There have been other matters in which Italy has had an interest where the league has abstained from interfering. It is abstained because it was known that Italy would not hesitate to use force and declare its intention to have freedom of action.

Henry de Jouvenel, prominent in the French Parliament, former head of the French delegation to the League of Nations, has refused to serve this year, because, as he puts it, he has the double regret of not seeing France submit to the league international difficulties which he thinks can only be resolved by it, and also because he sees France lending itself to an adjournment of the grave and serious difficulties of the future.

Aristide Briand, French minister for foreign affairs, has replied in a querulous tone in which he admits that there are questions that have been settled outside the league. He thinks there is an advantage in this.

Briand cites matters which the league has successfully undertaken and which have never been disputed.

The settlement of the delicate dispute between England and Turkey, which was only settled by the placing of Austria on its feet for the time being.

The clearing up of Hungary's financial situation.

The settlement within 24 hours of the dispute between Greece and Bulgaria, which looked as if it might lead to a war between the two countries.

The settlement of Greek refugees from Asia Minor in Greece and of Turkish refugees from Greek territory into Asia Minor.

That's Not the Question
Nobody disputes that these matters are all to the good, but they don't reply to de Jouvenel's main charge that the big disturbing questions are settled not by the league, but by the Big Four.

Nor is it only in France that such criticisms are heard. Recently in the House of Commons, Arthur Ponsonby, formerly under secretary of state for foreign affairs in the British Labor government, said practically the same things.

And just as Foreign Minister

Briand defended himself in France, so did Foreign Minister Sir Austen Chamberlain do in England. He said tartly it was not the affair of the league to interfere here, there and everywhere as soon as they saw any sign of disagreement.

The league, he said, must be "restrained, moderate and conciliatory."

There, in the replies of Briand and Chamberlain, you have the same old diplomacy speaking. The big questions are for the big men of the big nations. When it comes to the little questions, the little disputes between the little nations, the league, with its overwhelming membership of little countries, can have a finger in the pie.

League Steps Out
The league has never interfered with Italy from Rome to Corfu. The league has never lessened the grip France has on the Saar. The league has never interfered with Poland's grab of the city of Vilna. The league has done little or nothing.

CONSTIPATION IS THE ENEMY OF HEALTH

Kellogg's ALL-BRAN brings prompt, natural relief!

Rid your system of constipation and help yourself to health. Headaches, bad breath, insomnia, muddy complexion are only a few of the symptoms of this widespread evil.

Constipation is the actual cause of more than forty diseases. No wonder good health is impossible when it is present. Guard against it! Protect your health!

Kellogg's ALL-BRAN is guaranteed to relieve constipation. Two tablespoonsful eaten daily—in chronic cases, with every meal. Doctors recommend Kellogg's because it is 100% bran. Because it works as no part-bran product can do.

Delicious with milk or cream—and add fruits or honey. Mix it with other cereals. Use in cooking. Sprinkle over soups. Recipes on the package. Made by Kellogg in Battle Creek. Served by restaurants, hotels, cafeterias. Sold by all grocers.

ing for the racial minorities who find themselves in the new Alsace Lorraine. The league has accomplished practically nothing for international disarmament.

Where the big powers have allowed it to function, it has done its work splendidly well. But the big powers tell it too often that certain matters are none of its business. The big powers are too inclined to want "open covenants openly arrived at" only for the small nations.

DAILY MARKETS

Cotton Markets

NEW YORK FUTURES
NEW YORK, Dec. 9 (AP)—Cotton futures opened steady, December 18.50; January 18.75; March 18.95; May 19.15; July 19.12.

NEW ORLEANS FUTURES
NEW ORLEANS, Dec. 9 (AP)—Cotton futures opened steady, December 18.50 bid; January 18.85; March 19.10; May 19.15; July 19.07 bid.

NEW ORLEANS TRADING

NEW ORLEANS, Dec. 9 (AP)—The cotton market was steady, early today and advanced 16 to 18 points over the previous close, but lost practically all the gain later on a renewal of speculative selling. Towards the end of the first thirty minutes of trading a technical rally due to the overall condition of the market carried prices to within one to two points of the highs.

The market became steadier as the morning progressed and when shorts endeavoring to cover found offerings scarce January touched 19.05, March 19.26 and May 19.36, 23 to 24 points above the lows, and about the same gain over the previous close.

Towards noon prices eased off 9 to 11 points from the highs on realizing and some selling induced by the rather disappointing mill takings for the week.

LIVERPOOL SPOTS

LIVERPOOL, Dec. 9 (AP)—Cotton spots quiet, strict good middling 11.23; good middling 10.52; strict middling 10.78; middling 10.68; strict low middling 10.58; low middling 10.48; strict good ordinary 10.18; good ordinary 9.88. Sales 5,000 bales, 4,500 American. Receipts 11,100, all American. Futures closed easy, December 10.25; January 10.27; March 10.26; May 10.26; July 10.21.

NEW YORK TRADING

NEW YORK, Dec. 9 (AP)—The cotton market opened steady at an advance of 4 to 8 points on relatively steady cables. Selling was renewed at the advance, but it was in comparatively small volume and after setbacks of a few points prices firmed up again on trade buying and covering.

Fresh buying also was reported, supposedly on belief that yesterday's selling had left the market in a better liquidated position and that trade was likely to buy more freely at the lower level of prices.

January sold up from 18.75 to 18.85 and May from 19.12 to 19.27, or about 10 to 18 points net higher, with the market steady at the end of the first hour.

The early advance extended to 18.95 for January and 19.30 for May or about 21 to 22 points above yesterday's closing quotations. There appeared to be a little more for sale at these figures, however, while the demand tapered off somewhat and there were reactions of 8 or 10 points from the best under realizing or renewed liquidation during the middle of the day.

Morning Joy Coffee

"Truly the Aristocrat of Coffees"

An Enthralling Tale of a Great and Lasting Love

Bitterness was in his heart as Tony Harrison rode away from the Bar K ranch and Rita Moore, and he told himself passionately that he had seen the last of both of them.

He saw himself once more as the orphan boy who had come to the Bar K a few years before and found a home. He saw himself and Rita, as careless youthful comrades, riding over the trails of the Cherokee Strip.

But the marching years had seen that comradeship ripen into something stronger, and less than half an hour ago he had blurted out the thing he had been trying to hide—he had told her he loved her. And Rita had kissed him—had kissed him and then told him to go.

He did not know, of course, of the supreme sacrifice Rita was making in telling him to go—did not know that behind him, as he rode sadly away, Rita lay sobbing on the ground.

And so he left—with the memory of that kiss burning his brain. The years to follow would see him fighting on the side of her father's enemies, and he would be one of that mad horde to swarm across Oklahoma's borders in the first of the Indian Territory land rushes.

Eventually, though, there would come a day when misunderstandings would be brushed aside. But Tony Harrison did not think that far ahead as he rode away that night toward the twinkling lights of Caldwell.

The love story of Rita Moore and Tony Harrison furnishes the plot for The Journal's newest serial release, THE BLAZING HORIZON, Ernest Lynn's splendid romance of the opening of Oklahoma. It is the first historical novel to be written for first publication in newspapers, and you will want to read it, beginning Sunday in the Journal.

Agent D. F. Eaton this morning at 11 o'clock the group was escorted to the Tech cafeteria where a luncheon amid Christmas decorations was served them as guests of the Lubbock chamber of commerce. W. L. Stangel, chairman of the committee, welcomed the group in behalf of the college and A. E. Davis, manager of the chamber of commerce, assured the group that Lubbock was behind every progressive step taken by the people of this section. He introduced R. Sherrard and F. A. Norman, R. A. H. Davis, F. A. Norman, B.

who will work with the committee in any way possible in starting the show.

To Inspect College
Following the meeting this afternoon, the group will make a complete tour of the college plants and buildings.

Members present at the meetings today were: Maurine Hopkins, Plainview; O. L. Stansell and Ed Bishop, Plovidale; R. C. Nicholl and Bob Anglin, secretary of the association, Tulsa; Charles B. Martin, Lamesa; E. W. Foster, Odessa; Dr. J. W. Underwood, Hale Center; R. B. Davis, Seminole; W. M. Courley, Slickerton; P. C. Bennett, Amarillo; Frank R. Phillips, Canyon; D. F. Eaton, president of the association; W. L. Stangel, A. H. Davis, F. A. Norman, B.

Sherrard and G. O. Reeves, Lubbock.

Oklahoma Solons Counter To Action

Attempts of state officials and their employees to hinder the investigation of the self-convened session of the Oklahoma house of representatives will be deemed ground for the filing of impeachment charges against the officials and discharge of the employees under a resolution adopted today by the main investigating committee of the house.

LINDY ACCEPTS INVITATION TO VISIT MEXICO

NON-STOP FLIGHT NOT CONTEMPLATED AND TIME NOT SET

(By Associated Press)
WASHINGTON, Dec. 9.—American's special ambassador of good will Colonel Charles A. Lindbergh, is to undertake another spectacular mission—this time a flight from Washington to Mexico City.

Accepting a telegraphic invitation from President Calles of Mexico, which reached him here yesterday, Lindbergh will add 2,000 more miles to the log of his "Spirit of St. Louis" which already includes a New York to Paris hop and a long jaunt around the United States.

Time Not Decided
The time of the flight, its route and other details await the flying colonel's decision after he has had opportunity to examine conditions. He does not now contemplate a non-stop flight.

"I have not studied the project," he said last night, "and the route depends on flying conditions. Whether any stops will be made on route also must be decided later." He believes now, however, that his course will not take him over the Gulf of Mexico. The land route is only about 100 miles longer and without the gulf's dangers in event of a forced landing.

Plane To Be Inspected
Use of the trans-Atlantic "Spirit of St. Louis" also is contingent upon final inspection finding its motor in satisfactory condition. The engine motor has been overhauled, he said, although it still is functioning perfectly.

Possibility that Lindbergh's Mexico City flight might be extended to Cuba and Central and South America has not yet entered Lindbergh's calculations. At present, he said, "I do not know what will follow the Mexico trip."

Plays to be presented are "The House of the Heart" and "On Christmas Eve."

MRS. W. E. BASKIN RETURNS AFTER FATHER'S BURIAL

Mrs. W. E. Baskin, 1506 Avenue O, has just returned from Hope, N. M., where she attended the funeral of her father the Rev. R. H. H. Burnett, who died there Monday after Mrs. Baskin had gone to his bedside on the Wednesday before.

The Rev. Burnett, who was 83 years of age at the time of his death, is familiarly known as "The Children's Bishop" in many parts of Texas. He traveled over the United States for many years with Abe Mulkey, another evangelist, and the two held many revivals in Texas. For the last 15 years Mr. Burnett

GEARS SHIFT HARD THESE COLD DAYS?

If they do, it's a sign that you should come here and let us drain the transmission and differential of your car, and put in Winter weight grease. You'll find it easier to shift gears and lubrication will be better.

It doesn't cost a great deal, either and you're treating your car right.

MANUFACTURES BIG FACTOR IN TEXAS CITIES

**HOLDS FUTURE OF AT
LEAST 12 TOWNS WITH
LUBBOCK AS ONE**

(By Associated Press)
SUGARLAND, Dec. 9.—Twelve Texas cities, with an exception here and there, have their future bound up in the development of manufacturing, according to E. H. Brown, statistician and analyst, who sets forth his views in a publication here devoted to the development of the state.

Waco—Rail center, agriculture. Particularly suitable for the development of industries with north and south markets.

Houston—Ocean transportation. Should develop manufacturing, and especially concentrate on manufacturing for export.

Dallas As Center
Dallas—Agriculture, population concentration and rail center. Already important jobbing and distributing center. Should increase in manufacturing which is not primarily dependent upon proximity of raw materials.

San Antonio—Agriculture and rail center. Should develop manufacturing with emphasis on exporting.

Corpus Christi—Ocean transportation. Should concentrate on securing greater agricultural development as a feeder for its ocean transportation lines. Competition with older ocean ports will be severe and it should attempt to create its own back ground. With the entire southern section of the state conveniently accessible, Corpus Christi should become a great port city.

Lufkin—Raw material, rail center. Should concentrate on securing industries to use its raw materials. Limited wholesale market may also be developed.

Palestine Needs Rails
Palestine—Agriculture. Should develop as a jobbing and distributing point within a limited territory. Needs additional rail lines to the north and, until they are secured, competition with Jacksonville will be severe.

Jacksonville—Agriculture, raw material, population concentration and rail center. Opportunity to develop an important manufacturing center.

Brownwood—Agriculture. Needs rail connection north to Cisco and south to San Antonio thru Llano county. At present can develop as small jobbing center. With the north and south railroad has opportunity to develop into important

wholesale and distributing market and manufacturing center.
Lubbock Needs Jobbing
Lubbock—Agriculture. Should strive for wholesaling and jobbing. Possibility of some manufacturing as minerals in West Texas are developed. As population increases will undoubtedly secure better rail connections.

El Paso—Raw materials, isolation. Greatest opportunity lies in manufacturing for export.

Fort Worth—Agriculture, population concentration and rail center. Should give attention to development agriculturally of territory immediately west of it. Already one of the most important manufacturing centers; this development in Parker, Wise, Jack and other counties will give it fresh impetus.

Students Victims Of Bad Paymaster

DALLAS, Dec. 9 (AP)—A number of students at a university here recently returned to their rooms at a variety hotel to find that a furniture dealer had played a college trick upon them. They found personal belongings and other things piled upon the floors and their rooms cleared of all furniture. The proprietor of the hotel, it was learned, had left the city unexpectedly without paying several overdue instalments of the furnishings. A number of the students who had paid their rent in advance were forced to sleep upon the floors.

CRAWLS WITH INJURY

DALLAS, Dec. 9 (AP)—Mrs. Polly Record suffered a broken thigh bone in a fall in her yard here recently. She was five hours crawling from the scene of the accident, 200 feet away, to her house.

FORT WORTH IS MARKET CENTER IN ALL TRADES

(By Associated Press)
FORT WORTH, Dec. 9.—Fort Worth is a primary market in which all wants of all classes of persons may be filled, is the finding of Dr. W. J. Reilly, in charge of the market division of the Bureau of Business Research, University of Texas, based on a one-week investigation of buying here.

This was his report to the key men of the "Know Fort Worth" campaign and industrial survey. His survey of the market situation will be used by the chamber of commerce of Fort Worth as part of the industrial survey being made by that organization.

Personal interviews with the housewives of this city, extensive enough to be representative, established the fact that Fort Worth is a market within itself, independent of any larger market, inasmuch as it is able to satisfy the wants of all classes of people Mr. Reilly said.

Fancy candle and other electric bulbs that are dingy can be cleaned perfectly by soaking in heavy hot suds with ammonia added.

Beets or other vegetables can be kept from boiling over by buttering the inside of the sauce pan for about two inches below the rim.
