CARNIVAL

The Collingsworth County Fair carnival lights up the night sky in an aerial photo of the rides and games at Marian Airpark this week.

County Fair Opens 2-Day Run Friday

From the time the Collingsworth County Fair Parade rolls onto the court house square until the last bite of chili is eaten at the cookoff and the last bed raced down East Avenue alongside Ellison Park, it will be nothing but fun and entertainment, such as comes to town just once a year.

The 1983 version of the Collingsworth County Fair will be held Friday and Saturday, Sept. 9 and 10, with all the traditional events and some exciting new ones.

One major change was announced.

All Fair events that are held downtown will close at noon Saturday, and the Home Grown Fun Fair will open in Ellison Park with just one thought in mind: FUN!

Some business district merchants and several on Highway 83 say they will close at noon Saturday so they and their employees can go to the Fun Fair.

Check-out time for downtown exhibits will be 12 noon to 1 p.m.

Ellison Park events will remain open until some of the longer contests are finished.

Jest Amusement Co. opened the Fair carnival Thursday, Sept. 1, and will play each evening through Saturday, Sept. 10, in its location east of the National Guard Armory.

"If you want to visit the marvelous exhibits we will have downtown, be sure to come before noon Saturday--then come on down to Ellison Park and spend a fun-filled afternoon."

Chairmen have announced plans for these events:

PARADE

Billy Jackson, chairman, said the Parade will begin moving at 10:30 a.m. starting from the Post Office, travel to the southwest corner of the square, where it will move along the south, east, north and west sides of the square, returning to the southwest corner. It will travel west along 9th St. to Amarillo, turn south and disband.

Sheriff Kenneth Maxwell will precede the parade.

The Veterans of Foreign Wars Color Guard has been invited to be the first parade unit, and music will be furnished by That Skyrocket Band. Parade divisions will include Commercial Floats, adult organization floats, youth organization floats, antique cars, decorated bicycle brigade, mopeds, motorcycles, dozens of horses, horse-drawn vehicles, Wellington and Samnorwood Volunteer Fire Department vehicles, Volunteer Ambulance Service vehicles, farm equipment, and other categories as the need arises.

Jackson said the parade will form at the Post Office, with the entries in various categories forming on the side streets leading off West Avenue. They will feed into the parade as it moves forward. Locations will be given those entering as they arrive. Divison winners will receive awards or ribbons.

Chairmen assisting Jackson are Benson Long, antique cars; Jim Morgan, mopeds; Jake Maxwell, motorcycles; Jack Campbell, horses; and Mrs. Ronnie O'Rear, bicycles.

Billy Jackson, parade chairman, announced the order in which the parade divisions will appear as they travel around the court house square, as well as the location where each division willlineup.

Anyone wanting information can call Jackson at 7-2990

The parade itself will form in front of the Post Office on West Avenue. Sheriff Kenneth Maxwell will be in the lead car. Next will be the Color Gaurd, made up of representatives of the National Guard and Veterans of Foreign Wars.

That Skyrocket Band and Cheerleaders come next.

In order, there will be the Wellington Volunteer Fire Department, Sheriff's Reserves, and Volunteer Ambulance service.

Floats come next.

Commercial floats will line up on 11th street, west of West Ave.

Adult Organizations, 12th street, west of West Ave.; Bicycle brigade, form in front of Post Office.

Youth Organizations line up on 12th street, east of West avenue. Mopeds and Antique cars line up on 13th street, east of West Ave.

Miscellaneous floats and farm equipment will form on 13th street, west of West Ave.

The large contingent of horses will come last, forming on both sides of 14th Street.

Judges will be Kirk Woodward, membership director, West Texas Chamber of Commerce, Abilene; John Burrow, farm and ranch director, KGNC; and Mindy Rubenthler, director of public affairs, KAMR-TV.

Rainey Resigns from City Council Tuesday

In a surprise announcement to fellow members of the City Council Tuesday evening, Sept. 6, Councilman John Rainey submitted his resignation from that body, effective immediately.

Rainey expressed his pleasure and enjoyment at having been a member of the city council and thanked fellow-members for their co-operation.

The resignation was accepted reluctantly. "I move we accept the resignation if that's what he wants," said Sam McGill, who went on the council at the same time as Rainey.

Rainey was asked to reconsider and stay on the council a while longer.

He said any public statements as to future plans would come later. Rainey, who retired Jan. 1, 1981 after serving 25 years as Collingsworth County Sheriff, has completed one term on the City Council and was re-elected for his second term in the April 1983 election.

The council will now have the option of appointing someone to fill the vacancy, or of calling a special election. In either case, under Texas law, the successor will have to run for the remainder of the unexpired term at the April 1984 election.

In other business, the council held the required budget hearing, with no visitors attending, and then adopted the record $777,000 fiscal year 1984 budget, which it had approved one week earlier. Only minor changes were made from the budget as it was presented last week by City Manager Glenn Taylor.

Bids on fuel for the coming year were opened and the low bid from Langford Conoco was accepted. This calls for 95.5 cents per gallon for gasoline and 88 cents per gallon for diesel, subject to increases in the cost of fuel to the bidder, and subject to 1.5½ interest on accounts not paid in 30 days. Taxes are additional. The only other bid was submitted by John Holton Oil and Butane, the Exxon dealer.

City Manager Glenn Taylor reminded the council to think of someone to nominate to the Tax Appraisal Board, supported by 5 taxing entities.

The council set the 1984 FY tax rate at 24 cents per $100 valuation unchanged from the 1983 rate.

Rockets-Canadian to Play Here Friday

Wellington Skyrockets play their first home game of the 1984 season Friday, Sept. 9, when they host the Canadian Wildcats.

Game time will be 8 p.m.

This is the first of only three home games that will be played at Powell Field this season.

Canadian, a former district contender with the Skyrockets, now plays in District 1-AAA, along with such teams as Perryton.

Last year, the Wildcats had a 5-5 season, but this year they have been picked by some of the polls to win their district.

They opened last week with a 20-7 loss to Clarendon.

The Wildcats are always a big team, and this year is no exception. "They will outweigh us a lot," delcares head coach James Williams.

He cited two defensive tackles: Kevin Hunt weighs 249 and Jimmy Hoobler 210. "The overall size is large, also," says Williams.

Not only are the Wildcats big, they are experienced.

"They have 15 seniors and 8 juniors, but only four sophomores, according to Williams. The Wildcats also have that third quality that makes for a strong team, depth, for they usually have an unlimited number of boys to pick from.

The Skyrockets will not only play a big experienced team, but they will have two injured players, whose playing Friday night is still questionable. Rosendo Villanueva was injured in the Hollis game, and Eugene Mote is still troubled by a shin injury from scrimmage.

"As far as the other kids, they're all ready to go," declares Williams.

Home-Grown Fun Fair Has Entertainment for All

"We invite everyone to come and have lunch at the Home Grown Fun Fair Saturday, Sept. 10. Bring a folding chair and sit back and enjoy the afternoon's activities," declares Loretta Wright, Fun Fair chairman.

This will be the Second Annual Fun Fair, starting at noon and based in Ellison Park and all the surrounding streets.

There will be activities covering the entire park, and again this year, such events as the 2nd annual Collingsworth County Chili Cookoff, the bed race, bucket brigade, also in their second year, will be standout events, but there's lots of entirely new activities for every age group, Mrs. Wright points out.

Food booths open at 12 noon.

These will include hot dogs, by Country Club; brownies and rice crispies and drinks, Cub Scouts; snowcones, Little League; ice cream, the GATE program and Cancer Society; cold drinks, Hospital Auxiliary.

Chili from the cook-off will be sold.

Country Cuisine will sell barbecue sandwiches and nachos; Methodist Youth, red beans and onions; and there may be others.

Rita Owens of the Cancer society announced their booth is accepting donations of freezer of ice cream and baked goods, and will pick them up if Mrs. Owens or some member of the society is notified.

Everyone with a booth of any kind is urged to make it as attractive and colorful as possible. "You may use signs and posters. You can have clowns, hawkers and barkers," declared Mrs. Wright. It is up to the booth operators to determine how much they want to sell and how long they want to stay open.

There will be musical entertainment beginning at noon, with King Bowen playing the piano from 12 to 12:30, and the RSVP Kitchen Band playing from 12:30 to 1.

Retired Teachers will sponsor a "first aid booth" offering popular antacids, including bicarbonate ot soda.

Timed events were announced:

Beginning at 1 p.m. and running continuously will be: Face painting, Methodist Pathfinders; Punt-Pass and Kick, Booster Club; balloons, Satellite Center; cart rides, Jake's Cycle Shop; mini-bucket brigade and a stretcher race, GATE; dunking board, Fire Department Auxiliary and watermelon seed spitting contest.

There may be others.

Timed events include:

12:30 p.m. tire race, Cub Scouts.

1:30 - Terrapin race, Lions Club

Sign-up for Lemon Roll Sack race, with Scouts

2:00 - Lemon Roll by B&PW Club

2:30 - Water polo, Fire Department

3:30 - Bed races and bucket brigade

County History to be Published

Publication of a comprehensive Collingsworth County Book will be sponsored by the Chamber of Commerce, with Evelyn King as chairman, and with every family in the county having an opportunity to tell its story.

Contents of the book will include family histories, the stores, past and present of 51 communities that have made up the county, the story of county and city governments, the schools, businesses, churches, organizations and the fraternal organizations and resources. There will be a complete chapter on the county's involvement with volunteerism, said Mrs. King.

Memorial and tribute pages are planned.

Family histories are limited to 500 words without charge, but there will be a charge for longer articles.

Professional consultants will assist the county workers.

A county book committee has been formed of volunteers for this non-profit project. Chairman is Mrs. J.B. (Evelyn Ball) King and co-chairman is Mrs. Billy Mac (Lennie Coleman) Sims.

Others on the committee include Mrs. Hugh (Ineva Cudd) Bowen, Mrs. Boyd (Ruth Jackson) Derryberry, Mrs. L.C. (Olivia Templeton) Hill, Mrs. Lois Ratliff, Henry Wells, Tommy Hudson, and Louis Graham.

Area representatives are needed to contact people in the various areas of the county. The first steps have been to collect mailing lists and begin an art contest. Further information will be announced at a later date.

ART CONTEST

An art contest to design a logo depicting Collingsworth County for the cover of the hard-bound 8½ x 11 book begins with the issue of this paper and will end two weeks from now, on Sept. 22, 1983, Mrs. King announced.

The contest is open to residents of the county, with no age limit, and must depict symbols of things that made Collingsworth County what it is today. This could be cattle, agriculture, cowboys, whatever is in the history of the county. Each logo is to be in pencil, on 8½ x 11 typing paper, and brought to the Chamber of Commerce office, 914 West Avenue, or mailed to their P.O. Box 267, by 4:30 p.m. on Sept. 22, 1983.

The winner of this contest, whose logo is used for the cover of the county book, will receive a free book when they become available.

Updating a county history fills a need that has been expressed by many in the last 5 years. It will give interested persons an opportunity to be part of this major project.

Lennie Sims Named to WTSU Board

Lennie Coleman Sims has been named to a 6-year term on the West Texas State University Board of Regents. The appointment was announced Tuesday, Sept. 6, by the office of Governor Mark White.

This will be the second 6-year term she will serve in that office. She was also the first woman to serve on the WTSU board when she was appointed in 1975 by then governor Dolph Briscoe.

Mrs. Sims, whose strong support of education is well-known through the Panhandle, expressed pleasure at the appoint-

Daughters of the American Revolution will have a booth.

There will be a booth for the benefit of Ricky Martinez, injured recently in a motorcycle accident.

Arrangements will be made to keep a portion of 16th Street open for the ambulance, and for parking by those on ambulance duty.

The bed races, with teams of 6 persons competing, will be held on East Avenue side of the park. The Bucket Brigade will be in the park.

GATE is sponsoring the new events for youngsters.

In the stretcher race, teams of 6 will carry old time canvas stretchers holding two persons, in timed events. There will be several age brackets but any youngster must be big enough to help carry a stretcher with two people.

The bucket brigade, for children 12 years and under, will be run along the same plans as the adult bucket brigade, but with smaller buckets and ladders.

Samnorwood Parent-Teacher Organization announced a balloon Toss as a continuous event.

Food will be on sale all afternoon.

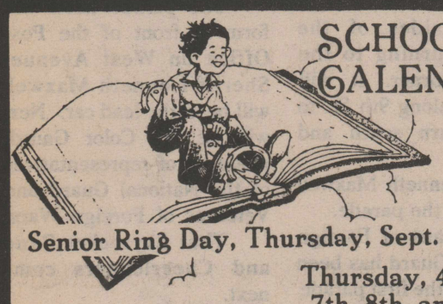

The final event of the 1983 edition of Home Grown Fun Fair will be drawings for various door prizes and for a shot gun which Wellington Fire Department is giving away.

There may be other prizes and gifts awarded.

WHS Students Awarded WTSU Honor Scholarships, for 83-84

WTSU--More than 400 beginning freshman students at West Texas State University from seven states have been awarded a $200 Don and Sybil Harrington Scholarship for the 1983-84 academic year.

Scholarships are awarded each year to students who will attend WTSU as freshmen and who were members of high school National Honor Society chapters or similar organizations.

Wellington High School's honor scholars are Susie Barnett, daughter of Donnie and Patsy Barnett of 1101 El Paso Street; Elizabeth Brewer, daughter of Yvonne Brewer of 1602 Childress Street; and Camille Smith, daughter of Tex O. and Betty S. Smith.

Receiving the scholarship for the second year is Valerie Van Pelt, daughter of Don and Deanna Van Pelt of 1706 Ellison. She also is a President's Honor Scholar.

Don and Sybil Harrington Honor Scholarships were begun in 1979 with an endowment from the Don and Sybil Harrington Foundation of Amarillo. Additional grants have grown to a total endowment of $1.2 million and students are eligible to retain the scholarship for four years

The scholarships are renewable each year if the student maintains a 3.0 grade point average on a 4.0 scale.

Don and Sybil Harrington honor scholars may receive an additional President's Honor Scholarship if they score 28 or more of a possible 36 on the American College Test or 1,220 points of a possible 1,600 on the Scholastic Aptitude Test college entrance examinations. They receive an additional $100.

A competitive scholarship of $200 or more at WTSU waives out-of-state tuition which often is 10 times greater than in-state costs.

Provisions of 1984 Wheat Program Given

Collingsworth County farmers who participate in the 1984 wheat acreage reduction program will be eligible for target price protection at $4.45 per bushel, price support loans at $3.30 per bushel and payment-in-kind at 75 percent of the program yield, according to Bob Weatherly, county ASCS director.

Recently announced by USDA, the 1984 wheat program contains a 30 percent acreage reduction requirement and a 10 to 25 percent PIK option for farmers who divert additional land, It does not contain advance deficiency payments. The signup period begins January 16 and ends February 24. Weatherly said program participants will be required to limit their 1984 wheat planted acreage to no more than 70 percent of the farm's wheat base, and devote to conservation uses eligible cropland equal to 42.86 percent of their planted and payment-in-kind acres. "The 1984 acreage base will be the average of the acres planted and considered planted to wheat in 1982 and 1983."

Farmers participating in the PIK program will not receive wheat from Commodity Credit Corporation stocks. Producers who signup in the program will agree to use their outstanding reserve loans first and regular price support loans second, and those with no outstanding loans will agree to harvest for PIK. Weatherly said that producers with no outstanding loans and who are unable to harvest for PIK will not receive a PIK payment.

As in the 1983 crop program, land designated for conservation uses must have been devoted to row crops or small grains in two of the last three years except for a summer fallow farm. "Under summer fallow rules, the land must be acreage that would have been planted to small grains or row crops in 1984 in the absence of the wheat program," said Weatherly.

Haying will not be permitted on the conservation use acreage. However, the acreage may be grazed except during the six principal growing months. He said that offsetting and cross compliance will not apply to the 1984 program.

The 1984 wheat crop will not be eligible for immediate entry into the grain reserve. The ASCS official said the size of the reserve will be reviewed before regular price support loans for the 1984 crop reach maturity and a ceiling may be placed on the size of the wheat reserve at that time which will preclude entry of the crop into the reserve.

The acreage reduction and payment-in-kind contracts are binding and liquidated damages will be assessed for failure to comply with program requirements.

Fire Damages Rainey Home Near Lutie

A fire that broke out shortly before noon damaged the kitchen area in the home of Mr. and Mrs. Selba Rainey north of Lutie Sunday, Aug. 21, according to Samnorwood Fire Chief Kenneth Martindale.

There was smoke damage through the house, especially in the living-dining-kitchen area.

Martindale said the fire started while Mr. and Mrs. Rainey were attending church, and they found the kitchen around the electric cooking top beginning to blaze.

As this is located only a few miles from Samnorwood, Volunteer firemen arrived in a few minutes.

The Wellington Volunteer Fire Department was called and responded, but the blaze was under control before they could arrive.

"We appreciate the fact that we can make that call and they will respond," said Martindale of the Wellington department.

Damage to the house will amount to several thousand dollars he said.

3rd Quarter Estimate Due

Some wage earners and other individuals who have income other than wages may be required to file estimated tax payments, the Internal Revenue Service says.

You are liable for filing a declaration of estimated tax if you have income not subject to withholding of more than $500 and you expect to owe at least $300 on next year's return. The IRS states that you are also liable if you expect to owe at least $300 and your gross income is more than:

$20,000: if you file as single, head of household, qualifying widow or widower, or married, can file a joint declaration and your spouse has not received wages for 1983.

$10,000: if you are married, can file a joint declaration, and both of you have received wages for 1983.

$5,000: if you are married and cannot file a joint declaration.

Just like withholding by employers, the IRS says, estimated taxes are paid in advance of the actual tax return, Form 1040, due for the year. Estimated taxes are normally paid in four installments (the first two were due April 15 and June 15), and there is a substantial penalty for underpayment of estimated taxes.

Prison Film at Nazarene Church

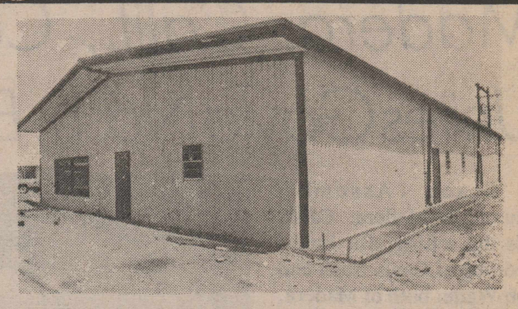

"God's Prison Gang," a newly released film featuring Al Capone's getaway driver, the last member of Bonnie and Clyde's gang and two other notorious criminals who have become Christians will be shown at the Church of the Nazarene Sunday, Sept. 11 at 6 p.m.

The film, shot behind the walls of New York's Attica prison, is hosted by Art Linkletter. It tells the story of how the work of International Prison Ministry is accomplishing what more guards, higher prison walls and greater financial expenditures have failed to do-keep released inmates from returning to lives of crime.

Telling their stories in the 44-minute film are George Meyer, Al Capone's favorite driver; Floyd Hamilton, (Public Enemy No. 1) the last of the Bonnie and Clyde Gang; Jerry Graham, the "robber king" of California; and Ted Jefferson, convicted of crimes from drugs and robbery to murder.

Also featured is "Chaplain Ray," whose Dallas-based International Prison Ministry has changed the lives of thousands of inmates over the past 18 years.

The first U.S. Coast to Coast airplane flight was completed in 1911. It took 49 days with stops.

In the past, your electric bill was "just another item" in your family budget, but that is not true anymore. However, as a consumer of electricity, YOU can make a difference. How you use electricity is an individual matter — it is in your hands — and in your pocketbook.
At West Texas Utilities we are working to provide dependable service at reasonable rates. Unfortunately, the costs of producing and supplying electricity have soared. WTU has had no choice but to raise its rates to pay for the high cost of fuel to generate electricity.
We know you are concerned about your electric bill, and we suggest a few things that can help you save money and energy.
Make it a family project to learn more about conservation. Keep your thermostat set at 78 degrees or higher in the summer and 68 degrees or lower in the winter. Operate your washing machine, dryer and dishwasher only with full loads. Turn off the television and lights when you leave a room. And check around your house to find other energy-saving measures that can mean dollar savings on your electric bill.
WTU is working to ensure an adequate supply of electrical power for YOU and all of our customers, while trying to assure the most value for your energy dollars now and in the future.

HOME CANNED PICKLES ADD CRUNCH

Pickles add zest and excitement to meals, not to mention eye appeal, flavor and an irrestible crunch! Scores of Texans make their own pickles each year from cucumbers grown in their own gardens, given to them by friends or purchased from local farmers markets.

Pickles fall into three basic categories: fresh pack, salt pack or brined and geniune dill.

Fresh pack pickles are made from fresh cucumbers to which vinegar and salt, sugar and spices are added. The jars are sealed and pastuerized. The characteristic flavor of the pickle develops in the jar. Fresh pack pickles are the most popular variety for home canning because they are easy to prepare yet high in quality when prepared with modern recipes, good ingredients and proper processing.

Salt stock or brined pickles are more difficult to produce at home because it's difficult to maintain a cool brining temperature in our hot Texas climate and the brining process is lengthy. However, brined pickles do have a unique and delicious flavor.

Genuine dill pickles are cured in salt, dill and other spices and have a unique mellow flavor which is different from quick dill varieties.

There are a number of steps home picklers should take to assure a quality home-prepared pickle. First, select a cucumber that is a pickling variety such as National Pickling, Explorer, Salty or Crispy. Do not make the mistake of trying to pickle salad cucumbers by selecting the fruits when they are small. Small salad cucumbers are immature fruit and will not yield a quality product.

Process as soon as possible after pickling. If fruits and vegetables cannot be packed immediately, store them in the refrigerator and pickle within 24 hours. Use high quality, four to six (40 to 60 grain) vinegar, fresh spices and soft water. Heat processing in a waterbath canner is recommended for all pickle products to destroy spoilage organisms and enzymes.

Whether you enjoy making your own pickles or prefer to purchase them at your local supermarket, refrigerate them after opening to maintain their best quality.

Mrs. Dodgen also read the Preamble to the Constitution in recognition of Constitution Week, September 17-23.

Grandparents Not as Close

Because family structures are changing, "grandparents often aren't as close physically or emotionally to grandchildren as in the past," says Dee Stegelin, family life specialist withthe Texas Agricultural Extension Service, Texas A&M University System. Society focuses on the nuclear family, which does not include grandparents. Yet grandparents are now healthier and better educated, able to enjoy shared activiies with grandchildren and to provide emotional support than they were in the past, notes Stegelin.

Seal Carries Drought Message

Doug Seal, Democratic County Chairman whose crops are bearing the brunt of the weather, accompanied Gov. Mark White and Jim Hightower, Commissioner of Agriculture, to a drought meeting of 26 other governors with Secretary of Agriculture John R. Block and other USDA personnel.

The meeting was held in Chicago Friday, Sept. 2. Seale came home frustrated.

"They said the drought is not as big or as severe as it is," he said of the USDA speakers.

Of the weather assessment, he declared, "They gave us a weather report, and we could have had that at home." He called USDA top level people "unsympathetic. They offered no hope at all."

"They said they are going to loan money through FmHA, and we can't pay back what we've borrowed now.

"They said go buy Federal Crop Insurance.

"There was one little thing that might have helped us. They may change CUA (Conservation Use Acres) to where farmers can bale and sell hay off the CUA acres and lease these acres to a neighbor or someone else. Now, if you have CUA acres, you cannot let anyone else graze it."

The governors were almost unanimous in asking Secretary Block to implement the disaster provisions of the 1981 Farm Program as they did last year when 2.5 million acres on the high plains was destroyed by hail and high wind. The governors are asking for the same disaster provisions, and the Secretary of Agriculture has the descritionary authority to implement the disaster provisions of the 1981 farm program.

Seal said Block refuses to do this because of budget problems.

Concerning additional loans through FmHA, Seal reminded that this county has not been declared a disaster county, "but it needs to be."

USDA speakers and their topics were in addition to Sec. Block: Weather Assessment: Horton D. Strommen, chief meterologist, world agriculture outlook board, USDA; economic impacts: William G. Lasher, Commodity Programs: Daniel Amstutz, undersecretary for international affairs and commodity programs; Crop production protection programs: Frank W. Naylor, Jr., under secretary for small community and rural development; and SBA financial assistance, James C. Sanders, administrator, U.S. Small Business Administration.

Grain As A Weapon

The news that the Russians had shot down a civilian airliner was shocking. The USSR has again showed the world the reality of a totalitarian government and its total disregard for human life.

The reaction of some of our political leaders in calling for a new farm commodities embargo against the Russians was more predictable.

Our farm commodity exports are a lever that some people in government seem ready to pull at a moment's notice. They regard the commodities as a political tool, just as they view the squadron of F-15 fighter planes that the United States sent to northern Japan in the days after the tragedy.

It is easy to see why the produce of our farms is considered a political weapon.

The world wants and needs the things that American farmers are producing--food and fiber. It doesn't take much of a look at our foreign trade figures to see that farmers are in the forefront of the U.S. export business.

It is also easy to see a big difference between the F-15's and the farm commodities. The government paid the companies which produced the airplanes an amount of money equal to their cost of production plus a profit. The government did not pay farmers an amount of money equal to their cost of production plus a profit. In fact, farmers have been producing at less than their cost of production for several years, partly as a result of embargoes in the past by the Nixon, Ford and Carter administrations.

If the government decides that it is in the best long-term interest of the American people to halt trade with the USSR, and it may be, then the government should have the courage to tell the American people that all of us, not just the three percent of us who are farmers, are going to have to bear this cost of defense, just as we all bear the cost of new fighter planes.

We are spending billions of dollars on military hardware. If we are going to use farm commodities as a tool of war and diplomacy, perhaps some of the defense budget should be allocated to our farmers to that they can continue to produce those tools.

COLLINGSWORTH COUNTY AGENT REPORT

by DON REEVES

TEST FORAGE FOR FEEDING VALUE

Just how "good" is the hay you harvested this year? It's really hard to tell without a forage test. The forage test is the only way that a definite feed value can be assigned to a particular lot of hay.

While a forage test may cost a few dollars, it can save you dollars in supplemental feed or livestock condition.

Feeding low quality hay without supplementation can result in livestock weight losses and reduced rebreeding percentages. At the same time, feeding supplement with top quality hay may not always be necessary.

Only when your hay's feeding value is known can you make a useful decision on the necessity of a protein or energy supplement. The hay's feeding value might be such that no supplement is needed or it might be such that the animal is slowly starving without a supplement.

A forage test can give a positive value on which to base a feeding program, and with the high cost of feed, that's essential for a sound management program.

Anyone interested in getting hay tested for protein, fiber, nutrient and mineral content can bring samples to the county Extension office where information forms and mailing containers are available. Forage samples will be sent to the Extension Forage Testing Laboratory, Soil and Crop Sciences Department, Texas A&M University, College Station, Texas 77943.

The first cigarettes were commercially produced in France in 1843.

Junior High Teams Open Here Friday

Wellington 8th and 7th grade teams will open their season against the Clarendon teams here Thursday evening, Sept. 8.

The 7th grade game will start at 4:30 p.m. and 8th grade about 5:30 or 6.

"We have 27 kids out," said 8th grade coach Gano Wilson. "Coach Ronny Williams and I have divided the squad into three offensive teams and three defensive teams. All three are competitive and getting with it. They're ready to play."

"We intend for every kid to play in every game. We want to win the games, but we want to get everybody involved that we can," said Wilson.

His probable offensive starters are Dudley Owens, James Reynolds, Britt Schmidt, Grant Gray, Raul Torrez, Arthur Pennon and Danny Davis, line; and Brad Long, James McIntosh, Alex Johnson and Curtis Nash, backfield.

7TH GRADE

Coach Tommy Johnson has 26 7th graders out this year, down from 30 in 1982.

"They look pretty good and are learning their plays. We have a few who were held back from last year, and played last year and know what they're doing.

His possible starting lineup includes:

Thomas Crytser, quarterback; Denny Ray and Carter Nash, running back; Ronny Mote, split end, Kevin Kerlee, wingback; Ronny Heisler or Rex Henard, tight end. In the line are James Sherwood and Clay Holland, tackles; Allen Duncan and Oran Starkey, guards; Bobby Wilkerson, center.

JV Hosts Clarendon

Wellington Junior Varsity will host Clarendon JV Thursday, Oct. 8, at 7:30 p.m.

Among those returning this year are Michael Mackey and Chuck Brown, both linebackers and running backs; Scotty Hale, guard; Neal Duncan, end and defensive back; Ruben Cantu, guard; Tracy Day, end both offensively and defensively. All of these are sophomores.

Victor Willingham is a junior guard.

Up from last year's 8th grade are Kelly Goforth, who will start at quarterback; James Patterson, wingback; Jimmy Carroll, tackle, Mario Villanueva, running back who has worked as quarterback; and Benny Encinia, center.

Other players include Derek Seale and Lee Munyon, a new student who played football in Montana.

We have 11 good starters, but beyond that we don't have much depth, Taylor said.

Bob and Barbara Cochran, with their children, Gaylon and Lisa, visited relatives recently in Goodland, Kansas and Burlington, Colorado. They also went to Minden, Neb. where they visited the Harold Warp Pioneer Village.

This village is so authentic you feel as though you are there, living and watching America Grow.

Buildings are restorations of real buildings wherever possible, or else built with exacting fidelity to the specifications of their day.

Harold Warp, a Minden native and for more than 50 years a Chicago industrialist, began his Village in 1948. His childhood rural one-room school became the nucleus for a truly unique preservation. One item of each of the tools and toys and trappings that build the nation are included.

Warp, whose company manufactures Flex-O-Glass and other Warp plastics first opened the Village in 1953 located in a two-block area. It now covers 20 acres, housing 30,000 or more historic items in 24 buildings, plus a motel, restaurant and camp grounds.

As "living history" most of the machines have been restored and still operate just as they did when their proud owners first purchased them.

The 1st Sunday singing was held Sunday at the Church of the Nazarene.

Mr. and Mrs. Kenneth Stallings and children of Abilene, Mr. and Mrs. Jerry Mercer and family and Mr. and Mrs. Ed Skates of Hollis visited the Tom Brown family last weekend. Some of the group fished at Lake Hall.

Visitors in the Lynvel Black home for Labor Day holiday were Mrs. Nona Renfro, her daughter, Janice, and her grandson, Mr. and Mrs. Dub Mims, Dana and Glendon, of Amarillo.

Mr. and Mrs. Clarence Black attended a two-day reunion at the VFW building in Mangum, where the 3-T Reunion of the Trout, Tyler and Talley families met.

The group of about 50 discussed family history. Some of the group sang also.

Hollis Roars Back in 2nd Half to Down Rockets 27-15

The Hollis Tigers staged a second half comeback to defeat the Wellington Skyrockets 27-15 in the traditional season opener at Hollis Friday, Sept. 2.

The Rockets played a good first half, holding a 7-0 lead at halftime, but they took it on the chin from then on.

Hollis came back with two touchdowns in both the third and fourth quarters to put the game away before the Rockets got their final points on the board.

It looked like two completely different ball games.

In the first half, the Rockets racked up nine first downs and controlled the ball most of the time, including a 70-yard drive that put the Rockets on the scoreboard at the beginning of the second quarter.

That drive was keyed by a 55-yard pass from Joe Bill Munn to Jimmy Barber, who fought off two defenders to grab the ball. Three downs later Dewayne Culpepper carried the ball in from the nine yard line to put the Rockets in the lead 6-0. Mark Hunnicutt kicked the extra point o make it 7-0.

In the first half the Rocket defensive team showed good effort in stopping a powerful Hollis running game. The closest the Tigers came to scoring was a field goal attempt which fell short on the last down of the half.

But after the half, Hollis got their act together in the form of tailback Michael Williams, fullback Darin Gee, and halfback Robert Whitman.

Hollis moved 72 yards, all on the ground, on their opening possession in the third quarter, to score. Robert Whitman made the three yard scoring run. An extra point pass failed and Hollis trailed 7-6 with 6:54 to play in the third quarter.

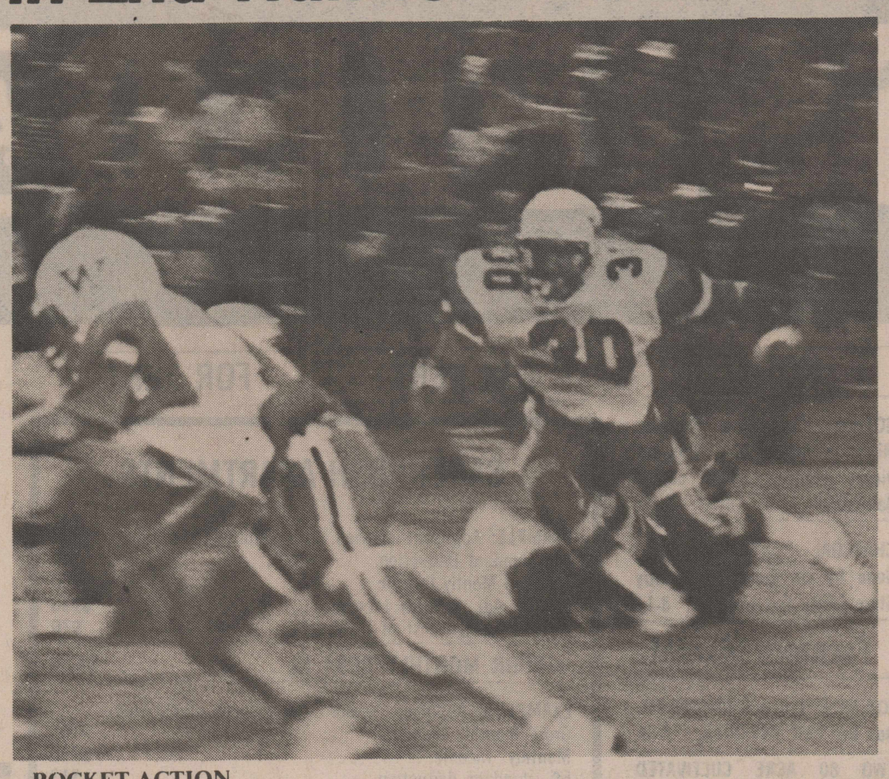

Hollis scored again the next time they got their hands on the ball, moving 80 yards on the ground. Michael Williams took the ball in from the 2, and Kent Metcalf ran the extra points to give Hollis a 14-7 lead with 1:48 to play in the third quarter.

Hollis scored a third time on their third possession. The big play in this 57 yard drive was the 23-yard touchdown scamper by Michael Williams. An extra point kick failed, leaving Hollis with a 20-7 lead with 7:54 to play in the game.

The Tigers put their final score on the board following two big gains by Kent Metcalf. Darin Gee broke from the 34 yard line on a trap and scored with 2:22 to play Kent Metcalf's extra point kick made the score 27-7.

With two minutes lett to play, the Rockets, whose offense hadn't put together a first down in the second half, got going again with the help of an interference penalty. Then Jamie McKay caught a tipped pass for a 33 yard gain to the Hollis 10.

James Benton carried from the 3 for the Rockets final TD with 17 seconds to play. Joe Bill Munn passed to Jamie McKay for the extra points to make the final score 27-15.
