The Scurry County Times

"YOUR HOME COUNTY PAPER"

VOLUME 53 NUMBER — SNYDER, TEXAS, THURSDAY, MAY 8, NINETEEN HUNDRED FORTY-FOUR — NUMBER —

Army Units Pass Through Snyder En Route to Secret Maneuvers

One of the biggest displays of U. S. Army might Snyder has yet seen was evidenced here Wednesday morning, when the 158th Field Artillery and Battery E from the 45th Division, Abilene, passed through Snyder en route to secret field maneuvers.

Included in the 158th Field Artillery and Battery E units were three of the latest model anti-tank guns, and a trio of 75 mm. guns—all mounted on rubber-tired trailers and hooked on the rear of six-wheel army trucks.

An army official who acted as spokesman for the 158th Field Artillery boys, said the destination of this unit from Camp Barkeley remained a military secret—so far as the public is concerned—but stated that regular field maneuvers now occupy the attention of Uncle Sam's army units.

All regular detachments of the U. S. Army are being placed on a war footage basis, and it was revealed, by informed sources, that the units of the army are getting actual experience in moving army equipment through West Texas cities without advance notice.

The army boys who passed through Snyder stated they wanted some experience in handling civilian traffic—and they got a nice taste of that. Civilian traffic was particularly heavy at the time the army hit town.

Soldiers in the 158th Field Artillery and Battery E were conveyed to field maneuvers in 34 six-wheel army trucks, six service cars and two scout machines. An army ambulance also accompanied the unit.

It was almost too early Wednesday morning for Snyder folks to get a glimpse of them, but two army cars, carrying the unit's radio and communication equipment, passed through town in advance of the regular army detachment.

One thing about the 158th Field Artillery that interested local people was the six-wheel army truck that housed the machine shop equipment of the entire unit. In this truck was housed the necessary tools and parts to make almost any type of repairs in the field that might become necessary.

Local people who gathered on the street corners Wednesday morning to watch the 158th Artillery unit go by marveled at the rapid clip with which the six-wheel army trucks took the northwest corner of the square.

Loaded with soldiers and supplies such as bedding, canteens, etc., the six-wheelers took the square's northwest corner at an average of 36 miles per hour—a speed far greater than the ordinary automobile or truck could stand without serious consequences.

Asked if a theoretical enemy might possibly be spotted in the breaks around Post, an army spokesman declared no enemy had been reported in that vicinity, but that some theoretical enemies were spotted at various places on the Plains the 158th Field Artillery had to check on.

The spokesman for the army unit stated that the radio cars, which are the "eyes and ears" of the army these days, was reported at 6:30 a.m. to have broken through the early morning haze that surrounds the Cap Rock, and was 30 in advance of fast moving field units from the 158th."

Lest some reader accidently draws the wrong conclusion from the above paragraphs, we state again that the 158th and Battery E were on the trail of a theoretical enemy on the Plains.

Such practice in getting through civilian traffic as the army boys got here will come in handy later on, when the various units of the army will be called upon to move great distances at a moment's notice.

Erwin Named to Defense Bond Job In Scurry County

A. D. Erwin, president of Snyder National Bank, was named Scurry County chairman this week of the Defense Bond Committee by Frank Scofield, state administrator of the Treasury Department's Internal Revenue Service, Austin.

Complete list of Defense Bond Committee members for Scurry County, as announced by Scofield, follow:

A. D. Erwin, chairman of Snyder's committee; Dr. H. B. Towle, G. B. Clark Jr., F. G. Sears, Maurice Brownfield, I. A. Joyce, Roy O. Irwin, E. L. Farr and Warren Dodson.

J. O. Leach was named bond committee member for Hermleigh, J. E. Murphy for Ira, N. W. West for Dunn, W. V. Jones for Camp Springs and Oliver Wills for Fluvanna.

Scurry County people are showing a considerable amount of interest in the National Defense stamps and bonds which went on sale officially May 1.

Committee members of the Defense Bond group will be glad, Erwin states, to furnish prospective bond or stamp purchasers with all information about the new issues they need.

As one means of creating interest in National Defense Bonds and Stamps, Erwin points out that the local Lions Club is sponsoring an essay and poster contest at Snyder Schools, winners in which will receive defense stamps as prizes.

Bill Fink Takes Place As Times Linotyper

New linotype operator for The Times is Bill Fink, who has been associated for some time with The Coconino Sun at Flagstaff, Arizona. Mr. and Mrs. Fink and their three children moved here early this week. Names of the children are Patsy Marie, Daisy Jean and Bill Fink Jr.

Fink has been introduced to a number of local people this week, and has had his right hand almost shaken off, but says he likes Snyder and Snyder people "mighty well." The newcomers state that Scurry County looks not unlike a flower garden at this time of the year.

Who's New In Scurry County

Mr. and Mrs. H. B. Lemons of Fluvanna, a boy, Hurston Boyce, at the local hospital Monday. Weight six pounds one ounce.

A daughter, Mr. and Mrs. Jimmie Parker of Houston, recently. Mrs. Parker is the former Jessie Mae Knight of Fluvanna.

Baptists of Two Counties Meet at Wastella Church

Scurry County Baptist Churches were invited this week to send sizeable delegations Tuesday to the May Mitchell-Scurry worker's conference, which will be held at Wastella.

Theme of Tuesday's gathering will be built around "Evangelism."

Formal program for the day follows:

10:00 a.m.—Song and praise service, directed by Rev. J. F. Fields.

10:20 a.m.—"Christ, Our Example in Evangelism," by Rev. D. A. Jones.

10:40 a.m. — "The Churches as Christ's Agents in Evangelism," by Rev. T. L. Nipp of Fluvanna.

11:00 a.m.—"The Holy Spirit in Evangelism," by Rev. W. C. Williamson.

11:20 a.m.—Sermon by Rev. G. W. Parks of Roscoe.

Dinner "on the grounds" at 12:00 noon will precede board and WMU meetings at 1:13 p.m.

2:00 p.m.—Song service, directed by Rev. J. F. Fields.

2:15 p.m.—"Vacation Bible School and Our State Worker in Evangelism," by Rev. M. H. Godfrey.

2:40 p.m.—Report of missionaries, business session.

3:00 p.m.—Closing address by Rev. G. A. Elrod.

Junior Chamber of Commerce Sponsors Joe Buzze Program

Sponsored by the local Junior Chamber of Commerce, Joe Buzze and his radio famous orchestra will play here at the skating rink for a Barn Dance given under Jaycee auspices.

The Buzze orchestra recently played an engagement at Casino Park in Fort Worth and one at the Rice Hotel in Houston. The musicians appeared this week on program at the Panhandle-Plains Dairy Show in Plainview.

Jaycee officials state that Monday evening's dance, open to the public, will be conducted strictly on the up and up. No rough stuff of any kind will be tolerated.

Those who cannot behave at a gathering of Monday evening's nature will not be given admittance. Tickets will be on sale at the skating rink.

W. W. Smith Goes to Midland Express Job

W. W. Smith, local Railway Express agent for many years, and Mrs. Smith moved to Midland last week, where the veteran express man has received appointment as Railway Express agent at Midland.

Effective this month, the Santa Fe is handling Railway Express business in Snyder, H. T. Seffort, local agent, reports. Those desiring Railway Express service are asked to contact the local Santa Fe depot.

AGENT WARNS OF BIG WEEVIL CROP IN AREA

Weeds and Other Heavy Growth to Give Insects Fine Breeding Places Before Cotton

It is believed by county agricultural leaders and others that Scurry County is in for an "insect year."

Boll weevils, flea hoppers and cotton bollworms are expected to be abundant unless weed rows are thinned out regularly, X. B. Cox Jr., county agent, states.

And the probability that cotton leaf worms—or "army worms as they are widely called"—will appear in outbreak proportions in late summer must be faced in Scurry and adjoining counties.

Evidence of thrips injury to the leaves may occur, but these insects are not expected to severely retard the development of young plants.

County farmers who plan to protect their cotton are advised to make arrangements to secure supplies of insecticides early, and see that their dusting machinery is in good condition.

If new dusting equipment is contemplated, Cox urges farmers to secure all the information possible concerning the type best suited to their conditions.

Boll weevils are expected to cause more damage than any other insect in 1941. A large number of weevils were in the fields last fall, the winter mortality rate was low, and the spring emergence has been above the average in spite of cool weather.

With moisture and temperature conditions favorable to quick growth of cotton, there is good reason to expect early and continued boll weevil damage throughout this county and most of the state.

The wise Scurry County cotton grower this year will obtain early the supplies of insecticides that he is almost certain to need, Cox continues.

In past years, much of the arsenic used in county fields for insect poisoning has come from abroad. This supply is now shut off. In case of heavy demands of arsenicals, prices will undoubtedly sky-rocket when the demand reaches a peak.

Stevenson & Pitner Selling Ford Autos At Snyder Garage

Newest automobile partnership formed in Snyder is that of Frank Stevenson and Ted Pitner, who are specializing in the sales of Ford automobiles. The duet of veteran car salesmen is located at Snyder Garage, just west of Snyder National Bank.

"We're in business here to make a living and sell automobiles at let-live prices," Stevenson stated Tuesday, "and we will be happy for our friends to visit us any time."

W. E. Doak, local Conoco wholesale agent for many years, is maintaining his wholesale office in the front of Snyder Garage. He and Joe Palmer operate the garage's service station department.

In the back of Snyder Garage are J. B. Early and Ira Farmer, who specialize in automobile repair work. Ford V-8 car and truck repair work will receive their special attention.

Abilene Minister to Open Revival Sunday

J. L. Musgrave, Abilene Church of Christ evangelist, announces that he will begin a revival meeting Sunday, May 18, at the corner of Avenue R and 18th Street, seven blocks north of the square.

The revival, to which churchgoers and non-church-goers alike will be invited, will continue through Sunday, May 25. Evening services will begin at 8:00 o'clock, Bro. Musgrave states.

Flying Cadet

Max E. Duncan, son of Mrs. M. M. Duncan of Hermleigh, who is shown in the above picture, is one of approximately 175 young cadets who recently completed basic training at Moffett Field, California. He will report this week to Stockton Field, California, for his final 10-week period of the training, concentrating on pursuit work. Young Duncan, 1937 graduate of Hermleigh High School, has returned to his army training after several days of vacation spent in the Yosemite National Park.

Wade & Crenshaw Buy Magnolia Stand From H. E. Hicks

New operators of the Magnolia Service Station, located a block north of the square on Avenue S, are Dick (Rip) Crenshaw and Clarence Wade, who bought out Earl Hicks, former operator, last week.

Both Crenshaw and Ware are experienced service station operators, and are prepared to care for the gasoline and oil needs of folks in this trade area. They specialize in Magnolia gasoline, oils and lubricants, and correct washing and greasing.

Hicks, a veteran Magnolia station operator, had been operating stations in Snyder since 1926. Hicks has gone to Roswell, New Mexico, where he is reportedly putting in a modern service station in the New Mexico city.

N. W. Autry, local Magnolia wholesale agent, is maintaining his office at the Crenshaw and Wade station, as under the former operatorship, and invites friends to drop by for visitations.

Second Payment for County Buses Arrives

The second payment of transportation money for Scurry County Schools, totaling $3,714.48, for the current year was received at the county superintendent's office Tuesday.

Tuesday's payment brings transportation funds received to date to 80 per cent of the amount set aside for the 1940-41 school term by the State Department of Education.

Trusstes for Three Schools Are Named

Naming of trustees for three county schools featured a meeting Monday afternoon of county board members at the courthouse.

Pete Clark and Roy Barrier were named trustees of the Bison School, Elza Rollins trustee at Crowder and John Woodward trustee of the Plainview School.

During the business session of board members, classification of county schools was completed. All schools now have the same classification they had last year.

PLANS BEING MADE FOR 1942 STOCK EXHIBIT

Animal Classes Will Be Expanded to Provide Addtiional Premiums For Boys' Prize Animals

Mapping of active plans for Scurry County's 1942 Fat Stock Show featured a meeting Tuesday afternoon of county vocational agriculture instructors, the county agent and Chamber of Commerce officials at the local Chamber of Commerce office.

Interest in next year's show reached such a high level that attendants at the confab voted, with Chamber of Commerce officials, to add two classes in hogs and two classes in lambs to the 1942 show.

Present at Tuesday afternoon's gathering were five vocational agriculture instructors, E. W. Baldwin of Ira, Buford Browning of Fluvanna, Dale McWhirter of Pyron, C. B. Bentley of Hermleigh and W. O. Swindall of Dunn; X. B. Cox Jr., county agent; R. G. Dillard, CC manager, and other Chamber of Commerce officials.

Scurry County 4-H Club boys are requested by the county agent and Chamber of Commerce officials to clip the following adopted rules and regulations for the 1942 Fat Stock Show, and keep them for handy reference:

Dates for next year's Fat Stock Show will be determined in the fall, when it will be possible to tell the progress club animals are making.

Committee members agreed unanimously to make the 1942 show strictly a boys' show. The state office has been asked for a ruling on such a restriction.

Those eligible to exhibit will include any boy under the supervision of the Scurry County agricultural agent, any FFA boy living in Scurry County, and all FFA members under the supervision of a vocational agriculture teacher in the county.

Classes have been selected as follows:

Calves—Milk feds, dry lot heavies, dry lot lights and heifers.

Hogs—Barrows under 200 pounds, and barrows from 200 to 300 pounds.

Lambs—Fine wool, and cross breeds. Entries must be lambs which can be so determined by the teeth.

A complete prize list will be available later this year.

Each boy will be allowed two individuals in any one show class, and one group of three entries.

All calves scheduled for shipping must be dehorned.

There can be only one individual handling of each entry in the show ring. This means that each calf entered must be taught to lead, obey and show.

Arrangements will be made for either selling or shipping.

All entries must be in writing in the Chamber of Commerce office at least one week previous to the show. This includes both those animals which are only going to show and those which are going to ship.

Snyder Hospital Will Observe Open House

Snyder General Hospital will observe National Hospital Day Monday by holding open house from 9:00 in the morning until 5:00 o'clock Monday afternoon.

People of Snyder and surrounding communities are invited to call and inspect the hospital facilities, and to visit any time during the eight-hour period. Joe Caton, business manager, states.

Members of the staff of doctors and nurses will be on hand to greet visitors and conduct them through the hospital. In excess of 325 visitors called in 1940 on Hospital Day, and an even larger number is expected Monday, hospital staff members state.

Three Supervisors for Soil Area to Be Named

BURNEY WELL FLOWS AFTER SHOT TUESDAY

Pearson-Sibert Well, Also on Burney Place Looks Good Following Nitro Dose Monday

D. & R. Oil Company's No. 9 W. F. Burney well, located in the north one-half of Section 143, was shot Tuesday afternoon with 750 quarts, and made a good flow over the mast. Hole of the new completion filled rapidly with oil after the shot, thus insuring D. & R. of another good producer.

Pearson-Sibert Oil Company's No. 3 O. L. (Jack) Burney test, located in the northwest corner of the southwest quarter of the southwest one-fourth, Section 149-97 H & T C Survey, was shot Monday with 900 quarts to give the California operators another good producer.

Shooting of Pearson-Sibert's No. 3 Burney was delayed for over a week by the high waters of Bull Creek, which went out of banks because of heavy rains the past 10 days.

Pearson-Sibert's No. 3 Bishop was fishing Wednesday night for a bit that was lost at 2,200 feet in hole full of oil. Well will be shot when the fishing job is completed.

Coffield & Guthrie's No. 1 W. F. Burney test, located in the northeast part of the northeast one-fourth, Section 144-97-H & TC, was drilling at 1,281 feet.

Magnolia Petroleum Company marked up this week the completion of the firm's No. 5 W. R. Sterling producer, northeast one-fourth of Section 130-97-H & TC Survey.

Dunn Youth Takes Third Place in State Class B League Tilt

Frank Martin, one of three Dunn School youths Coach W. O. Swindall accompanied to Denton for the state Interscholastic League meet Friday, copped the state championship third place award for Class B schools.

Young Martin, who made the district and regional league meets, placed first in high jump and second in pole vault events, and was third point man at the meet.

The two other Dunn youths that made the Denton track and athletic meet were T. E. Grimes and Othal Ellis.

Othal Ellis had 44 contestants in his event, the 440-yard dash, and came out of the race with a time of 57 seconds. Grimes contested 32 other youths from over the state. He did not survive the preliminaries, but ran the 880 in two minutes and 17 seconds.

The Dunn team placed seventh as a unit in the state meet, a good record for a school Dunn's size. Coach Swindall expects to furnish some real competition at the 1942 league meet in Denton, since all three youths that made this year's trip return to Dunn next year.

City Water Receipts For April New High

Members of the city council learned Monday evening, at their regular monthly meeting, that water collections for April reached a new high for the year to date—$2,025.90.

Building permits for the month just past amounted to $6,200, and $15,950 for 1941 to date. Tax collections reached the $31 level, and bills approved totaled $1,572.59.

Snyder's football stadium, by vote of council members, will be allowed a water rate throughout the summer of 10 cents per 1,000 gallons, with the understanding that bills must be paid promptly.

Report of the city secretary showed that receipts for the month of April totaled $2,830.23. Disbursements for the month just ended were $2,539.04.

Lions to Give Stamps To Essay Contestants

Members of the local Lions Club voted at Tuesday's regular weekly luncheon in the Manhattan Hotel to purchase several National Defense stamps that will be given as prizes to winners in an essay and poster contest underway at Snyder Schools.

Theme of the essay and poster contest will be "National Defense," a subject of vital importance at present.

Announcement was made that the local club will be strongly represented this (Thursday) evening in a zone Lions Club meeting that will be held at Post.

Announcement was made of the candidacy of H. C. Pender of Lubbock for 2-T Lions International governor.

No Trade

Business was turned backward Tuesday at the county clerk's office by several months when a county youth brought back a marriage license issued last August, and wanted to trade it for a brand new one.

Despite the fact the youth desired a license for the same girl he had in mind last August, the cash value of the old document had gone down so far on the redemption scale that a new license, at the regular cost, had to be obtained.

Journal Presents Background For 142nd Infantry

Copy of the Unit Journal of the 142nd Infantry, Texas National Guard, of which Snyder's Company G is a unit, came from the press this week and has created a considerable amount of interest among 36th Division attaches at Camp Bowie, Brownwood.

The publication, a 40-page booklet, contains complete information of the regiment and is highlighted by a message from the commanding officer, Colonel Nat. S. Perrine of Fort Worth. The booklet contains an outline history of the 142nd Infantry, a roster of company members and of the various officers in the companies of the 142nd Infantry.

Scurry County relatives and friends of Company G boys will be interested in data revealing that the roots of the 142nd go back to the Seventh Infantry of Texas in the Civil War.

The 142nd Infantry came into existence, officially, October 15, 1917, when it was consolidated with the First Oklahoma Infantry. It trained in Camp Bowie, Fort Worth, until July of 1918, when it embarked for France.

Among its many achievements during the World War the 142nd Infantry gained its major fame when, in face of terrific resistance and in spite of heavy casualties, it took St. Etienne and held it after the village had been taken and retaken by the French and Germans.

The Unit Journal points out that the 142nd Infantry remained in France until May of 1919, and was demobilized at Camp Bowie, Fort Worth, a month later.

Of interest to Scurry County folks is the naming, in the journal, of the Battalion Headquarters units and the commanders. Lieutenant-Colonel John E. Sentell is listed as the commander of the Second Battalion, and Homer M. Spence, another Company G boy, as one of Sentell's first lieutenants. Captain Tim O. Cook, formerly head of the local company, is now captain for Company I.

Senator Smith Says New Bill Will Solve Vital State Question

"Recent passage of the $23,600,000 tax bill solves the most important question in Texas politics, social security," John Lee Smith of Throckmorton, senator of the 24th District of which Scurry County is a part, stated Tuesday.

"Under the terms of this bill, which the House has accepted as the Senate's substitute for House Bill No. 8, $19,000,000 is allocated for old age assistance, an increase of more than $11,000,000 over the present allocation," Smith continued.

"This tax bill provides $3,100,000 for teacher retirement, $400,000 for the blind and $1,500,000 for aid to neglected children. It should be remembered by Scurry County taxpayers and others in the state that this bill is purely a tax measure and not a cold check appropriation," Smith concluded.

Smith was a member of the Senate committee which reported the $23,600,000 tax bill.

Farm Bureau Meet Set at Pyron Tonight

Of interest to farmers of the Pyron and surrounding communities will be a joint meeting of the Scurry and Fisher County Farm Bureau Associations, that will be held at Pyron School this (Thursday) evening.

Ross Williams, chairman of the Scurry County Farm Bureau, and Demp Kerney, chairman of the Fisher County Farm Bureau, will preside at the joint gathering.

Attending this evening's confab will be representatives of the AAA, the Farm Security Administration and the Texas Extension Service.

LAND OWNERS IN SCURRY AND BORDEN VOTE

Ballots Carry Names of Giles Bowers, Hoyt Murphy and Nolan von Roeder as Candidates

Considerable interest is being shown by Scurry and Borden County people in Saturday's soil conservation district election, at which time Scurry and Borden County landowners will name three supervisors for the Scurry-Borden Soil Conservation District.

Giles Bowers, Hoyt Murphy and Nolan von Roeder compose the trio of supervisor candidates whose names will appear on Saturday's ballot.

Each and every Scurry and Borden County landowner is urged by X. B. Cox Jr., county agent of Scurry County, and Frank W Medley, Borden County agent, to participate in Saturday's election.

The trio of supervisors who will be officially named Saturday for the Upper Colorado Soil Conservation District, which is the correct name of the Scurry-Borden district—will administer, locally, soil conservation district business and make possible the inauguration of a soil conservation program in the near future.

Eligible voters residing in the soil conservation district that encompasses all of Borden and Scurry Counties, except a small portion in Southwest Scurry that is included in the Mitchell district, are asked to cast ballots in the designated voting box in their precincts.

Voting boxes in Saturday's election were designated this week by the State Soil Conservation Board as follows:

Voting Box No. 1, Snyder, county court room—Qualified voters residing in general election voting precincts of Snyder No. 19, Southeast Snyder No. 21, Southwest Snyder No. 22, Northeast Snyder No. 1, Dermott No. 4, Ennis Creek No. 3, Cottonwood Flat No. 2 and Lloyd Mountain No. 17, Turner No. 6, Bethel No. 10, Arah No. 18, and Crowder No. 23.

Voting Box No. 2, Camp Springs Church House—Qualified voters residing in general election precinct of Camp Springs.

Voting Box No. 3, Hermleigh Schoolhouse—Qualified voters residing in general election precincts of Lone Wolf, Pyron and Hermleigh.

Voting Box No. 4, Dunn Schoolhouse—Qualified voters residing in general election precinct of Dunn and China Grove.

Voting Box No. 5—Ira Schoolhouse—Qualified voters residing in general election precinct of Ira.

Voting Box No. 6, Knapp Schoolhouse—Qualified voters residing in general election precincts of Bison and Canyon in Scurry County, and, in Precincts No. 3, 7 and 9, of Borden County.

Voting Box No. 7, Fluvanna, Bill Sims' Store—Qualified voters residing in general election Precinct No. 5, Fluvanna, in Scurry County, and Precincts No. 4 and 5 in Borden County.

Voting Box No. 8, Gail, district court room—Qualified voters residing in general election Precincts No. 1, 2, 6, 8, 10 and 11, in Borden County.

If wisdom becomes exhausted in Washington the country store whittlers club remains.

Cyrella Fish Tells Abilene Contestants and Audience Some Things about Her Home Town of Snyder, Texas

The speech that Cyrella Fish, Snyder's "My Home Town" speaker, gave at Abilene Monday afternoon in the district contest sponsored by the local Chamber of Commerce and the WTCC is reproduced below because it contains facts of interest to Scurry County people:

My home town is Snyder, Texas, the county seat of Scurry County. It is out west where the Mesquite and Deep Creek meet, mix, mingle then wind onward to the Colorado River.

My home town is 80 miles from Abilene and 80 miles from Lubbock, located on Highway 80. It is also located on the R. S. & P. Railway which is less than 60 miles long, and on the Santa Fe, one of the most progressive in the United States.

Snyder, my home town, is perhaps like your home town—it has a life of routine. The people that live in Snyder are the best in the world. Their generosity is very outstanding. Red Cross appeals are met cheerfully. The unfortunates are always aided.

The climate of my home town is mild, and most of the time very pleasant. The water is good because it comes from deep wells.

Snyder has a modern, well equipped fire department housed in a building with new equipment. The personnel is composed of volunteers.

In my home town we have a fairly new hospital. It is modern and adequately equipped and fully staffed.

Snyder has over 10 miles of paved streets. Two miles of white way, in addition to numerous other well lighted streets.

The business establishments are well stocked and progressively modern. We have a bank with deposits of over $1,000,000. We have an active Chamber of Commerce, and a recently organized Junior Chamber of Commerce working together for the good of the town and community. Our laundries, dairies, and printing plant are up to date. We have a weekly paper and a bi-monthly school paper. My home town has six active churches and two missions. These churches are well attended because the people are church-going people.

In Snyder we have plenty of entertainment for both the young and old. We have for the young folks Tennis courts, a permanent skating rink, two swimming pools, two modern picture shows, numerous plays, and school activities. For the older ones there are several federated study clubs, social clubs, movies, a country club, lodges, and Chamber of Commerce.

Snyder has an annual Scurry County Rodeo. It is one of the best shows in the west, with plenty of fun and excitement for everyone.

In Snyder we have an excellent public school system. We have a new building with a large auditorium, a modern gymnasium, and a

See MY HOME TOWN—Page 10

Ginnings BY COTTON JOE

The Lord must like cotton, too—He made so much of it. I like to believe He was thinking of all the folks who need it—an' was countin' on us to find a way to get the transfer made.

The WOMAN'S Page

Mrs. J. T. Whitmore Elected to Life Membership on District Club Board

Mrs. J. T. Whitmore of Snyder, past president of Seventh District, Texas Federation of Women's Clubs, was honored last week at the annual district convention in Plainview when she was elected to life membership on the district board. The local club woman attended the convention along with 10 other Snyder delegates and convention visitors.

Another feature of the convention for the local women was the recognition gained by Ingleside Study Club of Snyder for its outstanding Child Welfare program the past year. The local club barely missed highest honors on the report.

Local attendants at the convention besides Mrs. Whitmore were: Mrs. Wayne Boren, state fine arts chairman; Mrs. H. G. Towle, appointed member of the district board; Mrs. John R. Williams, district chairman of comparative government; five delegates and two other visitors.

Representing Ingleside Club at the convention was Mrs. Carl England, who gave her club's outstanding report. Besides Mrs. Whitmore were Mrs. J. C. Dorward, Altrurian Club; Mrs. W. H. Cauble, Twentieth Century Club; Mrs. Ixon Joyce, Alpha Study Club; Mrs. Harry Ward, Altrurian Daughters. Mmes. H. J. Brice and W. J. Ely were the other local attendants.

The convention was outstanding in every way, local women report—attendance, program, cordial hospitality of the Plainview hostesses and club reports. Registration, which reached over 600 for the three-day gathering included one national officer, Mrs. Joseph M. Perkins of Houston; seven district officers including Mrs. J. W. Walker, state president; 17 state chairmen.

Program topics that appealed most to the local delegations were those dealing with relations of North and South American people and countries.

A panel discussion Tuesday by foreign students from Texas Technological College and West Texas State Teachers College students was especially interesting, the local women said. Topic for the discussions, with speakers introduced by Mrs. William Dingus, was "The Americas—North and South."

Following the international American topic, the convention presented W. S. Izzard, Amarillo news commentator and editorial writer, who addressed the group of women on the subject, "Current Problems Shared by South American Countries and the United States." Izzard, said to be entertaining and of brilliant idea and thought, presented novel views of the present situation between our own country and our neighboring continent to the south.

Most enjoyed fine arts program for the Snyder delegation was the presentation of "The American Way" by the Amarillo Little Theatre on fine arts evening, Wednesday. The patriotic drama was preceded by a concert by the Amarillo Philharmonic Orchestra.

Mrs. H. F. Godeke, district president, presided at all business sessions, one writer said, "with the poise and dignity that are two of her greatest characteristics. Her knowledge of parliamentary procedure kept the convention running smoothly, and we doubt if Roberts, himself, knows more parliamentary law than Mrs. Godeke."

Reports from the convention are being given at local club meetings this week and next by the delegates. Visitors and delegates brought home to their clubs and friends opinions and views of the leading clubwomen of the entire state.

ENJOY AUSTIN TRIP

Mrs. P. C. Chenault and daughter, Vivian, accompanied by the T. A. Faver family, enjoyed a week-end visit with the Sam N. Wilborn family in Austin and other friends there. The Wilborns are former Snyder residents. In spite of local rains both Saturday and Sunday, the local people found warm sunshiny weather in the Austin vicinity. Wild flowers and other native vegetation near the state capital are beautiful now, Mrs. Chenault says. The group witnessed a rare sight in watching the opening of flood gates at the Buchanan Dam on the Colorado River, near Austin.

MOTHER

You'll surely want to remember Mother on her day with a gift that is as pleasing and appropriate as you can make it. Beauty services from Every Woman's make ideal gifts.

Mrs. Woodie Scarborough

Mrs. Ixon Joyce Gives Report Tuesday

Mrs. Ixon Joyce, Alpha Study Club delegate to the annual convention of Seventh District, Texas Federation of Women's Clubs, in Plainview last week, gave her convention report before members of Art Guild Tuesday evening. Mrs. Wilmeth Wade was hostess to the club at the home of her parents, Mr. and Mrs. E. Joyce, Jr.

Edith Grantham, program leader, introduced the speaker and later gave a talk on "Golden Jubilee News." Mrs. Joyce's report was enjoyable and instructive to the Art Guild members.

Mrs. Wade was assisted by her small daughter, Mary Jim, in passing refreshments to the guest speaker and the following club members: Mmes. Herman Trigg, L. H. Butler, M. E. Stanfield, Ivan Hill and W. E. Holcomb Rayolene Smith, Effie McLeod, Rose Marie Clawson, Estella Rabel, Frances Boren and Edith Grantham.

May Breakfast Is Held by Century Club

Annual May breakfast, which always proves one of the most enjoyable club affairs of the year, was held by Twentieth Century Club last Thursday morning on the terrace at the home of Mrs. H. J. Brice.

No guests were invited to the outdoor affair, and a business session followed the morning meal. Final plans were made for the group's annual Grandmothers' Party that will come next Tuesday. Older women of the town, who never go to other social affairs during the year, look forward to the annual party with eager anticipation. Again this year the party will be at the Joe Strayhorn home.

Attending the Thursday morning breakfast were the following: Mmes. J. E. LeMond, W. J. Ely, J. Nelson Dunn, H. M. Blackard, P. C. Chenault, Allen Warren, B. M. West, Joe Strayhorn, I. W. Boren, Hubert C. Travis and Brice.

New Study Begun By Methodist Society

Twenty-five members and two guests attended the Monday meeting of the Methodist Woman's Society of Christian Service at the church to begin the new Bible study, "Jesus and Social Redemption" by John W. Shackford. Mrs. T. M. Howle is study leader, and she brought the call to worship Monday on "Through the Prophets to Jesus."

Other members taking part on the program were: Mmes. R. L. Martin, Harry Lee, Ora Wells, R. M. Stokes, R. H. Odom, M. W. Clark and A. M. Curry. Mrs. C. V. Morris was pianist for the song service.

Other women of the church are invited to attend weekly meetings of the Methodist society. Next Monday, 3:00 o'clock, the group will meet in circles, and new members as well as visitors will be welcomed.

Bride-to-Be of Fred Wolcott

Mr. and Mrs. Lee J. Darby are announcing the engagement and approaching marriage of their daughter, Margaret, pictured above, to Fred Wolcott, son of Mrs. F. W. Wolcott of Snyder. The marriage will take place in Houston in the early summer.

Miss Darby, who recently visited in Snyder, has studied in the University of Texas two years. Wolcott, nationally famous track star in the hurdle events, will take his degree in physical education from Rice Institute in June.

Lynelle Martin Birthday Honoree

Six-year-old Lynelle Martin, daughter of Mr. and Mrs. Buddy Martin, celebrated her birthday Monday at a party given by her mother and grandmother, Mrs. A. C. Martin, from 3:00 to 5:00 o'clock. The 11 guests brought daintily wrapped birthday gifts to the honoree.

Games were enjoyed by the group of youngsters, and the birthday cake was cut and served with ice cream and punch at tea time. Balloons were guests favors for the following: The honoree, Annetta Jeanne Jones, Patsy and Betty Clements, Joyce Wellborn, Rose Marie Roe, Helen and Lois Campbell, Louise, Dorothy Jean and Doris Pierce, Carolyn Sears and Jacquelyn Martin.

Mmes. Hugh Taylor and Joe Monroe and Jeanne Taylor were tea guests for the birthday affair.

University Girls Guests of LeMonds

Nell Verna LeMond, freshman in Hardin-Simmons University, Abilene, was hostess over the week-end to a houseparty of other university freshman girls at the home of her parents, Mr. and Mrs. J. T. LeMond, here. The party was an early celebration of the local girl's 18th birthday that falls on May 13.

In the houseparty of girls were the following: Elsie Murphree, local girl, Virginia Parkhill of Knox City, Maurine McBeth of Weinert, Carline Parker and Joyce Poinder of Abilene, Mary Taylor of Tuscola and Dorothy Stevens of Roby.

Mr. LeMond drove to Abilene for the group Saturday afternoon and returned them there Sunday. Midnight show, making of inside pictures and chatting furnished Saturday night diversion for the college group, and they accompanied the LeMonds to Sunday School and church Sunday morning.

Honesty is one part of eloquence. We persuade others by being in earnest ourselves.—Hazlitt.

Wake Lazy Insides All-Vegetable Way

Thousands turn to this way to get relief when they're lazy intestinally and it has them headachy, bilious, irritable, listless: A quarter to a half-teaspoonful of spicy, aromatic, *all-vegetable* BLACK-DRAUGHT on your tongue tonight, a drink of water, and there you are! Thus, it usually allows time for a night's rest; acts gently, thoroughly next morning, so relieving constipation's headaches, biliousness, bad breath.

BLACK-DRAUGHT'S main ingredient is an "intestinal tonic-laxative," which helps impart tone to lazy bowel muscles. The millions of packages used prove its merit. Economical, too: 25 to 40 doses, 25c.

James O. Beck Weds Hamlin Girl

James O. Beck, associated with the Record-Link Company store for the past year and a half, and Miss Laura Martin, teacher in Hamlin High School, were united in marriage Saturday evening, 9:30 o'clock, in the Abilene home of Rev. E. B. Surface, Presbyterian minister.

Rev. Surface read the marriage vows to Beck and Miss Martin in the presence of a number of close friends to the couple. Miss Elma Joy Wilson of Hamlin was the bride's attendant, and Billy Pigman, a local friend of Beck's, was best man.

Wedding attendants included Misses Geneva Albritton and Clydine Wilson, Mmes. Don Dean and Weldon Johnson, John D. Ferguson and We'don Johnson, all of Hamlin; Willie Pearl Glen of Snyder, Leon Thurman of Anson, James Owen of Brownwood, Mary Sue Davis of Sweetwater and Dick Leasson of Abilene.

Mrs. Beck, daughter of Mr. and Mrs. Q. Martin of Hamlin, will complete the present term of teaching at Hamlin, and after finishing the term will move to Snyder.

The newlyweds returned Monday from a week-end trip to San Angelo.

Beck, son of Mr. and Mrs. O. J. Beck of Roscoe, has resided at the Manhattan Hotel since moving here in April of 1940. He is tractor service man at Bryant-Link.

Elaborate Wedding For Former Residents

Anna Ruth Laster, daughter of Mr. and Mrs. W. A. Laster of Colorado City, became the bride of Otho Harold Gillmore, son of Mr. and Mrs. Thomas J. Gilmore of Winters, in an elaborate wedding held at the Lakewood Belmont Baptist Church in Dallas April 12 Rev. P. M. Curry, church pastor, was the officiating minister.

Families of both bride and bridegroom are former Scurry County people, and both Mr. and Mrs. Gillmore attended Snyder Schools. The families lived in the Bethel community, west of Snyder.

Hazel Laster of Dallas, the bride's sister, was maid of honor, and in the group of bridesmaids was Sibyl Gillmore of Dallas, sister of the bridegroom. Best man was Gillmore's brother, William Curry Gillmore, of Dallas.

Mr. and Mrs. Isom hosted a reception honoring the couple at their home after the wedding.

The couple left immediately for a wedding trip to San Antonio and points south. At their return the couple will live at 5515 Lindell in Dallas. Gillmore is connected with the Star Tire & Rubber Company there. For traveling Mrs. Gillmore wore a suit of pastel blue with black and white accessories.

Borens, Merritts Guests of College Sons

Mr. and Mrs. Clyde M. Boren and Mr. and Mrs. D. V. Merritt were in Stephenville Sunday for annual Parents' Day at John Tarleton Agricultural College. Also making the trip was young Donald Boren.

The local people were guests of their Tarleton student sons, Fred Boren and D. V. Merritt Jr., both of whom are doing college work at the school. The joined hundreds of other parents in festivities of the day that were special compliments to them and other visitors.

State Executive in Instruction School

Mrs. E. F. Lyon, state executive secretary of the Baptist W. M. U., was in Snyder last Thursday for an all-day school of instruction for women of the Mitchell-Scurry Baptist Association. Covered dish luncheon was served at noon.

Approximately 30 women from four W. M. U.'s of the Mitchell-Scurry Association attended. Representatives were at the local First Baptist Church from Colorado City, Hermleigh, Ira and Snyder.

Mothers Guests at Alathean Meeting

Alathean Class of the First Baptist Church, invited mothers of members and other mothers and grandmothers of the town to their class meeting last Thursday afternoon. The party was held in the H. J. Brice home with Mmes. Brice, Lora Millet, John Watts and Dell Williams hostesses.

Attending the Mothers' Day party were the following guests: Mmes. L. E. Rogers, J. D. Isaacs, R. W. West, T. J. Thompson, L. D. Green, P. C. Chenault, Zack Taylor, Mattie B. Trimble, J. M. Doak, J. W. Woody, T. B. Faver and W. H. Patterson. Other guests were: Marva Nell Curtis, Helen Jo Graham, Durell Stokes, Joan McGlaun, Louise Belcher, Ruth Letcher and Mrs. D. V. Merritt.

Class members present were the following: Mmes. J. D. Belk, John Pierce, R. D. English, J. W. W. Patterson, John Spears, Will Murphree, John Taggart, R. C. White, Jewel Moffett, A. C. Martin, B. P. Moffett, H. A. Mullins, J. O. Spears, J. S. Bradbury, C. T. Glen, J. Nelson Dunn and Otto S. Williamson.

Wesleyan Guild Meets Monday Night

Monday evening in the Wesleyan Service Guild of the Methodist Church, Mrs. F. L. Pierce, president, was in charge of the business session.

Second lesson in the study of "Uprooted Americans" was the subject for the lesson with Mrs. H. H. Odom leader. Mrs. T. M. Howle was guest speaker for the evening, and others taking part in the program were: Mmes. H. T. Sefton, Billingsley, Joe Caton and R. L. Martin.

Eleven members and three guests attended the meeting. Next meeting will be with Mrs. W. P. King Monday night, May 19, at 7:30 o'clock.

Names of Mrs. S. R. McMullen, mother of Connie Jean McMullen, one of the piano pupils, and Frances Senfell, a guest, were unintentionally omitted recently from the group of people making a trip to Tahoka. Piano pupils of Mrs. L. A. Chapman and a few others drove to the Plains town recently to appear in a music festival of young West Texas artists.

It's the easiest contest I ever heard of!

GET FULL DETAILS AND OFFICIAL ENTRY BLANK AT YOUR FOOD DEALERS

Just finish this sentence in 50 words or less: "My happiest moment was . . ."

HERE'S ALL YOU DO:
Just write your happiest moment (in fifty words or less) to the Admiration Happiness Club. Your happiness story doesn't have to be fancy or dramatic . . . just a few lines in your own words will do. For example, your happiest moment may have been in: your romance, your wedding, the baby's first word, an achievement . . . just any of a thousand happy memories. It's easy . . . just think of your happy moments—jot one down—attach a coupon (or facsimile) from Admiration Coffee and mail it to the Admiration Happiness Club, Box 2079, Houston, Texas, today. It may win the equivalent of $1,100.00 for you!

HINTS THAT WILL HELP YOU WIN
Don't try to be dramatic or fancy . . . just write your story in your own words. In this easiest of contests—sincerity, not letter-writing ability, is the basis for prize awards.
Remember, just a very commonplace incident may have been your "happiest moment" and may win as much as $1,100.00 in trade certificates for you. Everybody has "happy memories"—you have many—so, write one down now and enter this simple easy contest.

Sweetwater Firm Again to Sponsor Essay Contest, Offers Pigs as Prizes

C. B. Cox Jr., county agent, announced Tuesday that the Sweetwater Sears, Roebuck & Company store, through Manager J. C. Rowland, will sponsor again this year an essay contest among 4-H Club boys of Scurry and five other counties.

The Sears cow-hog-hen program for 4-H Club boys will be limited [illegible] and Nolan counties.

The program for club boys will begin with the distribution of eight purebred gilts in each of the six counties named above.

A county-wide essay contest will be held in Scurry and the other designated counties to select boys to receive the purebred animals. The boys selected in the essay contest will raise the pigs given them as demonstration projects in their respective communities.

Subject of this year's essay, Rowland states, will be "Advantages of the Cow-Hog-Hen Plan of Farming."

In all, the Sears, Roebuck & Company store of Sweetwater will place 6 purebred pigs, 425 chickens and six fine dairy cows among farm boys of Scurry and the five other adjacent counties.

County 4-H Club boys who win in the essay contest, and who receive registered pigs, will take their swine to Sweetwater this fall for a six-county judging contest. This contest will be based on the development of hogs at the time of the show.

Also at the fall show, a winner from each county will be picked and a coveted award of a fine, purebred heifer made to each county champion. Baby chicks will be the prize for the other boys in each county in order of their show ranking.

[illegible] cooperation [illegible] cash crops greatly," Rowland stated Tuesday, "and we realize the importance of increased feed crop production. One of the most profitable ways to turn feed into cash is through the feeding of pigs and chickens."

Citing some results of last year's essay contest conducted in Scurry and adjacent counties by Sears, Roebuck & Company, X. B. Cox Jr., county agent, states that all boys entered in the contest were exceptionally well satisfied.

Of the eight gilts awarded Scurry County 4-H Club members, those that have farrowed to date had 49 pigs in all. At present market prices the 49 pigs are worth well over $302. County youths from 12 to 20 years of age who are not taking vocational agriculture work, and who wish to become 4-H Club members are urged to contact the county agent immediately.

The Soil Conservation Service says a traveller can drive from the Potomac to San Antonio and never be outside of a legally organized soil conservation district except for a short gap along the Mississippi River.

The Winter Haven substation of the Texas Agriculture Experiment Station has bred several new strawberries, including Alamo and Ranger, which are being grown successfully under irrigation in South Texas.

Glad to Get Back

G. M. D. Garner, Scurry County's only surviving Confederate veteran, returned Saturday afternoon from Aransas Pass, where he spent the winter.

"I feel a little bit older than when I left last fall," Garner said, "but I'm glad to get back to Snyder and be with the friends I've known many, many years.

"Scurry County looks like a flower garden to me, and it looks as though this county will make a bumper crop—if moisture supply can be taken as an accurate measuring stick," Garner declared.

Draftees Reveal Lack of Correct Dental Attention

High prevalence of faulty dental conditions among draftees when they report for physical examinations is cited by Dr. George W. Cox, state health officer, as emphasizing the need for early and regular dental care for children both at home and under professional care.

Dr. Cox stated that disease has resulted in the rejection of as high as 10 per cent of the draftees for military service. He attributed these defects to failure to the draftees to avail themselves of dental care—even when properly advised—during childhood. Another probable factor was the period of economic depression during which a great deal of needed preventive dental service was allowed to go unattended.

"When the majority of the present draftees were elementary school age there was little or no development in the present-day dental school health program. These programs, still not as nearly universal as they should be, aim at the double goal of educating the child in the importance of good teeth and securing needed dental care for the child from his family dentist or through school dental clinics. By the first of these two aims it is hoped that children will be led to continue regular dental care in their later years.

"Had the draftees received the initial care that results from this school program, the ill effects of the depression period would probably not have been so markedly reflected in the present day condition of their teeth. Every dental defect that results in the loss of a tooth had a small beginning. Had these and subsequent defects been noted early and corrected, the number of necessarily extracted teeth would have been materially reduced, with, in turn, reduction of the number of draft rejections because of dental defects.

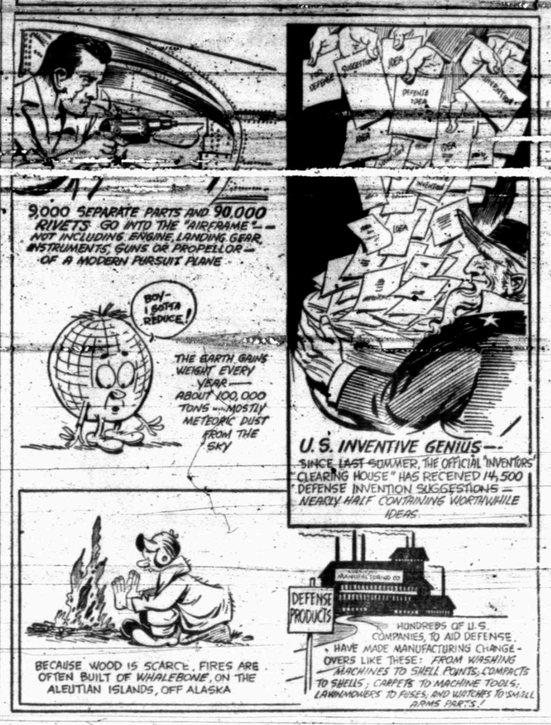
"There is no cure for dental decay once it is started, other than prompt corrective service by a dentist. It is believed that the effects now being made to accustom the children to early and regular dental care will prevent the developement of conditions similar to those that are now influencing the rejection of draftees. If it does this, it will result in the improved health of our adult population whether or not a national emergency is faced.

"And good teeth in healthy bodies are as essential in normal as in emergency periods."

Mr. and Mrs. Rex Smith and daughter, Betty, of Abilene, spent Sunday in the D. P. Strayhorn home.

THE POCKETBOOK of KNOWLEDGE

BY TOPPS



New Rail Bridge on Highway 101 Ready

Scurry and Mitchell County motorists were cheered Tuesday by the announcement that the new railroad bridge for the Highway 101 underpass under construction at Colorado City is virtually complete.

H. C. Rolley, construction superintendent for R. W. McKinney Construction Company, reports that the bridge now lacks only waterproofing before being complete.

The Colorado River bridge which will connect with the underpass on the south has been finished for some time. Laying of concrete paving, which will connect the two structures and also connect the underpass with U. S. Highway 80, is approximately 40 per cent complete.

SNYDER STUDENTS CONTEST

Spring election of student leaders at Hardin-Simmons University, Abilene, is claiming attention of the entire student body the past few days. Votes were cast Wednesday, but announcement of winners will be held until Saturday. Leon Autry, Snyder junior at the university, has been nominated for vice-president of the student body and also is a nominee for the intramural council. Louise LeMond, also a junior from Snyder, is in the run-off for student secretary.

Scott Primes for Golf Try at Sweetwater

Considerable interest is being shown this week by Snyder Country Club members in the 17th annual West Texas Golf Tournament, which will be held at Sweetwater Thursday, May 15.

Only representative of the local country club selected to date to compete in the Sweetwater tourney is Donald Ray Scott, who has been shooting some good games lately on the local greens.

H. M. Rogers of Sweetwater, general tournament chairman, reports that as many flights at 32 each will be held at Sweetwater as the entries justify.

Local sports fans consider the Sweetwater course a sporty one, due to the fact it crosses the 22-mile shoreline of Lake Sweetwater several times. It is an 18-hole course with grass greens.

Eldon Birdwell of Abilene spent the week-end with his parents, the Henry Birdwells, here. Mr. Birdwell, local business man who has been in the hospital for major surgery the past few weeks, is doing well.

The courtesies of a small and trivial character are the ones which strike deepest to the grateful and appreciating heart.—Henry Clay.

AAA Officials Go To Big Spring For Wheat Quota Meet

Members of the county AAA committee, accompanied by a clerk from the county agent's office and Claud D. Cotten, county administrative officer, will be in Big Spring Monday, where they will attend a Triple-A wheat quota meeting.

Triple-A representatives from the [illegible] and state offices will be present at Monday's gathering, and will discuss details of wheat marketing quota provisions.

Scurry County wheat growers, along with grain producers in other counties of the Southwest, will vote May 31 on wheat marketing quotas.

All county wheat growers, whose normal yield, times their 1941 planted acreage, equals 200 bushels or more, will be eligible to vote in the quota referendum.

All interested parties who are eligible—both landowner and tenant—will be urged to ballot in the wheat quota election.

If carried, wheat marketing quotas will be put in force by the AAA for a period of three years. Washington Triple-A officials are very anxious that each and every eligible grain producer cast a vote in the May 31 balloting.

County grain producers who vote May 31 will do so at Snyder or Hermleigh, the two places named this week as the voting boxes.

Mr. and Mrs. W. M. Scott of San Angelo visited locally with the J. D. Scotts and the J. W. Scotts Monday en route home from a vacation trip to the West coast. The former lowater before going on to San Angelo couple planned to spend a few days with their daughter in Sweetgelo.

Blitz Buggy

A number of Snyder people took the opportunity late Tuesday afternoon to inspect one of the U. S. Army's latest creation of mobile transportation units, when one of the new "blitz buggies" parked first at the northwest, and later at the southeast corner of the square.

The army buggy, one of many attached to the 45th Division at [illegible] route back to Abilene after a reconnaisance trip in this territory.

"Pushed" by two 45th Division staff sergeants, the "blitz buggy" was equipped with shovels, spades and the other necessary kinds of "artillery" for negotiating muddy roads — just in case it rained again.

ANOTHER SNYDER WINNER

Another Snyder woman was named among the winners in the ninth week of the Admiration Happiness Contest. She was Mrs. Orphia Beeler, who was awarded a prize of Admiration coffee for her brief essay on "My Happiest Moment." Details of the contest are announced in advertising space in The Times and other newspapers of this section.

Merit System Exam Schedule Will Open In Austin May 19

In reply to numerous requests received the past few days from interested persons, County Clerk J. P. Billingsley states that examinations for positions under the recently adopted Merit System Council for Texas [illegible] May 19.

The Merit System Council, recently approved by Texas, provides the merit basis for posts in state departments. These include the Department of Public Welfare and other agencies operating under the Federal Social Security Act.

Positions for which examinations will be held throughout the state include those for:

Junior clerk, clerk, senior clerk, junior stenographer, PBX operator, interviewing clerk, accounting clerk junior accountant, field auditor, placement interviewer and others.

Application blanks, Billingsley states, may be secured by writing the Supervisor of the Merit System, or by applying at the nearest office of either the Texas State Employment Service or the Texas State Department of Public Welfare.

Mrs. J. P. Morgan and Miss Sula Scogsin are in Oklahoma City, visiting with their sister and brother-in-law, Mr. and Mrs. C. R. Hairfield.

TOUGHER STRONGER SAFER

THE NEW *Safti-Sured* Firestone

DeLuxe CHAMPION TIRE

HERE, is a tire entirely new—Firestone's 1941 contribution to highway safety! Here's more of everything you NEED in a tire — more non-skid safety, more protection against blowouts, more mileage than we've ever built into a tire — and at a NEW LOW Trade-In PRICE:

MORE NON-SKID SAFETY

The new Gear-Grip Tread has 3,456 scientifically placed sharp-edged angles that wipe the road dry and grip it firmly for emergency stops and non-skid starts.

LONGER NON-SKID MILEAGE

The tread is flatter, wider, deeper and made of a new type of rubber compound so tough, so durable that it adds thousands of safer miles to the life of the tire.

GREATER PROTECTION AGAINST BLOWOUTS

The new Safety-Lock, Gum-Dipped cord body gives greater protection against blowouts.

BUY AS YOU NEED PAY AS YOU USE AS LITTLE AS 75¢ PER WEEK

Big Spring Horse Show To Feature Blooded Animals

One of the most varied programs in this section of the state will feature the Big Spring Rotary Club's second annual Horse Show, which will be staged at Big Spring May 16, 17 and 18.

C. T. McLaughlin, Diamond M Ranch owner; Dr. M. H. Bennett, and Frank Kelley of Colorado City, are in charge of the program for the three-day events. McLaughlin, in charge of entries, has sent information on the forthcoming show to all major stables of the state and information to West Texas breeders of throughbreds, quarter horses and Palominos that will be exhibited in halter classes.

McLaughlin reports that the main event of the Big Spring show will be the $500 gaited stake event. All stake events will be slated for the final afternoon, which falls on Sunday. On the show's final afternoon exhibition the champions will be determined.

On May 17, when the second afternoon's program is presented, there will be a Pony Express contest in which cowboys will use three mounts stationed in relay fashion and will be obligated to unsaddle and saddle each mount in the chase.

There will be classes, McLaughlin reports, for fine harness classes, Palominos, throughbreds, quarter horses, walking horses, park or pleasure mounts, and three and five-gaited mounts.

The Big Spring Rotary Club is sponsoring the May 16-18 show, and the show has been underwritten by a group of business men to insure its success.

SWEETWATER COUNCIL

Genevieve Yoder, daughter of Mr. and Mrs. D. P. Yoder, was in Sweetwater Monday evening to attend an executive meeting of Methodist young people of the Sweetwater district. Mrs. Yoder, secretary of the district young people's group, and other district leaders gathered at the home of Rev. E. B. Bowen, district superintendent, and Mrs. Bowen for the meeting of officers. She was accompanied to Sweetwater by her sister, Mrs. Henry O. von der Hoff of Dallas, the former Ruth Yoder, and Allene Curry, who visited with friends.

More than half of the 3,200 frozen food locker plants in the United States are owned by individuals. Commercial corporations own 22 per cent, partnerships own 16 per cent, and cooperatives 14 per cent.

Stamp Plan Helps Cotton Producer Help Himself

Scenes such as the above will be familiar sights in Texas this summer when cotton farmers and their families take the stamps they receive for reducing cotton acreage and exchange them for finished cotton products in the stores. Cotton farms all over the state are being signed for participation in the supplementary cotton program, according to Agricultural Adjustment Administration officials. The plan has already been put to use in Scurry County.

Snyder and Scurry County Share Well In WPA Programs

Vendors of building materials, supplies and equipment in Scurry and other counties of the state have had a $100,450,806 customer in the Works Projects Administration during the past five years, H. P. Drought, state WPA administrator, declared Tuesday.

Producers and distributors of many products have sold $28,017,467 worth of materials to the federal government and to local sponsoring agencies for use in WPA construction activities, Drought continued.

Snyder and Scurry County have been enriched financially as a result of furnishing materials, such as sand, gravel, cement, lumber, paint and other materials for WPA-sponsored projects — ranging from street paving in Snyder's new $145,000 school plant.

Textiles have been bought for use in the Snyder and other sewing rooms of this area at a cost of $7,235,759, Drought declares.

Largest single item reported on the WPA program non-labor expenditures was $37,715,148 for the rental of such equipment as motor vehicles, teams and wagons and construction machinery.

The 1940 production of wool in the United States both shorn and pulled, totaled 449,763,000 pounds and was the largest on record, the Agricultural Marketing Service reports.

Stoking buffalo grass seed for two to four days in water and drying it immediately, overcomes the delayed germination and prolonged dormancy characteristic of this seed.

High-Speed Living Is Telling in Lives Of American People, Official States

"The term speed-up repeatedly is heard these days in connection with defense production. Under the present international pressure the speed with this defense units can be manufactured in this country is almost phenomenal. However, an acceleration in mass production of war and allied material is one thing and the persistent high-speed living indulged in by many thousands is a different matter," states Dr. George W. Cox, state health officer.

"Hard work in itself is seldom harmful. The physical and mental breakdowns, which in ever increasing numbers are being brought to the attention of physicians, usually occur in men and women who are far removed from the exactions of an assembly line. The recruits for shattered nerves are generally from those who do not lead physically strenuous lives. Habits which tend to devitalize plus misdirected use of leisure time represent the background for the majority of physical and mental crackups. In many cases, where the consequences are less pronounced, supreme vitality has surrounded to false conceptions of the value of high-pressure practices upon which nature frowns.

"This speed-up results in habitually robbing one's self of the required amount of sleep each night, which demands the stimulation of the excessive use of stimulants of any kind, which involves whipping up the nerves by constant excitement, and which consequently refuses to recognize the reconstructive and health-building advantages of outdoor exercise and relaxation, can and frequently does end in serious and sometimes in permanent physical trouble. It is a scientific fact that over-living man's capacity is a definite predicate for high blood pressure and other ills of advanced life. That these effects of ill-advised living usually take time to assert themselves definitely, perhaps is one of the real reasons for many persons to continue half-blissfully on their merry way.

"Quite aside from the personal responsibility to one's self in the development and maintenance of maximum health, is the added obligation in these uncertain days to conserve physical resources for whatever may be ahead.

"It follows that, however proud the United States and Texas may be of its high speed productive capacity, there is a patriotic duty for everyone to review his or her customary daily life, discover if any of the habitual speedy practices are affecting one's maximum health possibilities, and eliminate those which violate nature's basic laws.

Approximately a quarter of a million evergreens have been planted in the shelterbelts of northwest Texas.

Corduroys look best after laundering when merely brushed along the direction of the ribs while slightly damp.

Crumbs grated directly from a fresh loaf of bread gives a more delicate color for frying than dried salt to prevent insipidity and to crumbs.

Trainees Warned to Avoid "Deferment Insurance" Fraud

Prospective trainees in Scurry, Fisher and other counties of this area were warned Monday by members of the local draft board against subscribing to "deferment or exemption insurance."

"It has come to the attention of the local board and state headquarters," J. T. Brice, member of the local draft board, stated, "that swindlers are operating in various sections of the state, particularly among colored registrants, selling for a cash fee policies or papers which are purported to insure the registrant against military training.

"Some swindlers offer to procure for the draftee deferment of service under the Selective Service Act. It is reported that some of those racketeers are impersonating army officers, and in one instance investigation developed that a colored 'sergeant' was threatening hesitant victims with induction into the army on a moment's notice."

Local draft board members point out that, with the exception of ministers and students of divinity, there is no such thing as "exemption" under the Selective Service Act. Local boards alone have the authority and responsibility for determining whether a registrant may be deferred for military training.

To bread fish for frying, dry fish slightly and dip in sweetmilk and then in flour. Fry in hot fat to golden brown.

Stale bread makes a very good and inexpensive wallpaper cleaner. Just rub over paper as if it were an eraser.

Spring Smarty

A fresh idea for young spring wardrobe is this white pique blouse. With it is a smart rayon-suede turban with yarn loops.

An enforceable driver's license law for motorists isn't new. Massachusetts passed a driver's license law for automobile owners back in 1903.

The custom and fashion of today will be the awkwardness and outrage of tomorrow—so arbitrary are these transient laws.—Dumas.

If Hitler were to read his horoscope carefully it might reveal his star must soon set.

Customer—"Does a man with as little hair as I've got have to pay full price to have it cut?"

Saddle Display to Be At Blackard's Store

Melvin Blackard, operator of Blackard Grocery & Hardware, announces that Douglas Manning and P. M. McKinley, representatives of the Texas Tanning & Manufacturing Company, Yoakum, will be at his store all day Saturday.

Manning and McKinley will bring with them a mule and buggy, in which will be displayed the famous Texas Tanning "Herford" saddles and riding equipment. Herford's display this season is said to be larger than ever before.

First Baptist Church

Morning and evening services at the First Baptist Church will be in charge of Rev. Doyle of Anson, Sunday, church leaders announce. Services for the day will be held at the regular hours, and leaders hope good crowds will attend.

Mrs. Roy Howell of Big Spring, former Snyder resident, spent a few days this week with her father, J. Deere, here. Mrs. Deere is in Hillsboro to spend several weeks with another daughter, Mrs. Paul Yarborough, the former Pauline Deere.

SAM MORRIS TO SPEAK IN CITY NEXT FRIDAY

Candidate for United States Senate Place, Militant Dry, Will Be Center of Political Rally

Led by H. C. Wren, chairman of the Scurry County Drys, and D. E. Yoder, secretary, one of the largest political rallies held here in many moons will be staged Friday afternoon, May 16, on the courthouse lawn when Sam Morris of Del Rio, nationally known as "The Voice of Temperance," addresses voters of this trade area.

Morris, a well known leader of the dry forces via the radio, is announcing his candidacy for United States Senator to succeed the late Morris Sheppard.

In a message to The Times, "The Voice of Temperance" states he wants one of the largest temperance rallies staged in Snyder that will be held anywhere in West Texas this year.

A public address system will be installed on the courthouse lawn, and will carry the message of Sam Morris to all parts of the square. People located around any section of the square can hear every word that the well-known temperance leader will say.

Wren is joined by other temperance leaders in the county in urging "voters of this trade area to turn out 100 per cent for the Morris appearance here."

Morris is scheduled to make his address at the band stand, on the northwest corner of the courthouse lawn, and will be introduced by a local civic leader.

S. J. Robinson, another dry leader of the county states "a man like Sam Morris will have a message of vital interest to voters throughout this trade zone. We want Snyder to go on record as one West Texas town that does advocate temperance — a time when many other towns are brim full of alcoholic beverages of all kinds."

Dates for Products Show Set Oct. 16-18

October 16, 17 and 18 were selected this week as the dates for Scurry County's 1941 Products Show.

Members of the Products Show central committee state that this year's show will be greatly enlarged over last year's exposition to care for an increased number of entries.

A called meeting of Products Show officials will be held in the near future, central committee members state, at which time rules and regulations for the triple-day festivities will be worked out.

Complete Roster of Scurry County's Company G Given as in Camp Today

Due to the fact Scurry County relatives and friends of Company G boys have requested The Times to run a complete roster of "home" company members, the roster, as taken from the Unit Journal, 142nd Infantry, follows:

Tom B. Clay, captain; Roy O. Irvin and Clyde L. Martin, first lieutenants; John H. Eisenberg and Edwin M. Sayre, second lieutenants; Kenneth O. Pitner, first sergeant; and Clarence T. Merritt, staff sergeant.

Sergeants—Ralph A. Bates, Max C. Baugh, Clarence H. Brush, L. A. Crenshaw, Robert A. Groves, James W. Headstream, Onice Holdren, William H. Hudson, Hugh H. Merritt, Willie T. Morrow, John C. Fortis, Cecil H. Reynolds, Robert W. Shield, Leonard W. Spence, Winfield S. Starnes, Robert B. Taggart and J. C. Williamson.

Corporals — Harry R. Chapman, Robert B. Etheredge, Robert L. Keller, Allen C. Hargrove, Ferrell W. Hollis, Shelton K. Holmes, L. B. McCravey, Lance P. Mullins, Thomas B. Roberts, T. Jay Roberts, Raymond M. Rucker, Robert L. Swint; Wyatt A. Swint and John E. Truesdale.

Privates first class Don Adams, Welton W. Bentley, T. C. Bills, Doyle B. Blakely, Lester Brown, Jesse E. Bunch, Earl F. Clinkenbeard, Ernest Corley, Raymond Curnutte, Hugh L. Fargason, Allen L. Felton, Albert L. Fowler;

James A. Greer, Arvel Hall, Lester T. Hasback, Chesley W. Horsley, Robert W. Huckabee, Heather B. Ivy, Alvin B. Johnson, Jesse H. King, Herbert L. Lewallen, Jack L. Hine, John P. Lloyd, Loyce D. McCravey, Robert L. McKinney;

Guy O. Moore, Henry D. Moreland, Kenneth W. Panter, Joseph D. Parsley, William L. Partain, Lowell Prince, Raymond C. Rainwater, J. D. Reynolds;

Charles V. Rhodes, Raymond B. Robinson, John H. Rogers, Grady L. Sellars, Nathan M. Shepherd, Thurman R. Shultp, C. W. Stimson, Henry D. Stokes, Buck Taggart and H. B. Thurman.

Privates Jose Aguirre, Leslie O. Anderson, Loyd D. Bailey, Charles W. Barnes, Clint C. Bavousett, Ancil S. Blalock, Durwood B. Brown, Howard A. Brown, L. B. Budrow, William R. Byrd, Gregorio Calderon, James E. Chesshire, Thurman R. Craig, Charles L. Cropper, Elby A. Crumly;

John B. Dawson, Frank O. Dybowski, Nemesio J. Escamilla, Dolores Flores, Roy G. Franklin, Conrad Garcia, Sam H. Gingles, James G. Goff, Loraine F. Goss, Ernest Hall, J. D. Herd, Rogerio Hernandez;

Victor H. Herrera, Grady L. Hester, Woodrow W. Hicks, Archie W. Holman, Richard D. Holt, Jerry J. Hubenak, Grady L. Ingram, Wilmer W. Jenkins, Leon G. Jetton, Russell A. Kelley;

Clarence A. Krause, Rollie H. Lesher, Augustin U. Longoria, William C. Lothridge, William W. Lowry Jr., Robert L. Luna, Dan W. Mallett, Beasel T. Marchbanks, Granville G. McCullough, Robert M. McHaney, Sylvan R. McMullan;

Amado Mendez, Herbert T. Miller, Howard J. Miller, Ursio M. Mirando, Boyd H. Mitchell, Jack L. Mize, Loyd L. Mize, Ramon R. Muniz, William R. Neal, Herbert H. Nolte, Troy O. Pinkerton, Edward P. Pyhorisky, Buford A. Preston;

Rupert T. Ramage, Arthur E. Richey, Alfredo Rios, Salvador Rios, William O. Roe, Dock F. Rogers, Robert Rollins, Delos L. Santos, Lewis L. Seay, Edward E. Seitz, Billy E. Simmons, Alvis B. Sims;

Hunley B. Tallant, Tomas A. Tejeda, Enrique M. Trevino, Clarence H. Turner, Jose Valle, William H. Walker, Marvin M. Wilson, Clarence C. Whatley, Milton J. Whitehead Jr., U. L. Winkler, John N. Wishert and Woodie C. Wofford.

Mrs. Smith—"Did you mail my letter, Liza? It was most important, you know."

Liza—"Yes, ma'am, I did."

Mrs. Smith—"Then why did you bring back the three cents I gave you for the stamp?"

Liza—"I didn't have to use it, ma'am. I just slipped the letter in the box when no one was looking."

Do your work, be honest, keep your word, help when you can, be fair.—J. P. Morgan.

Hobbs School Group Gives Program for Rotan Civic Club

A varied program ranging from a declamation number to vocal selections was given Tuesday at the Rotan Business Men's Luncheon Club by members of the Hobbs School student body and several faculty members.

Declamation reading was given by Lorean Holmes and Lynn Hudman, and some popular songs by an octet that consisted of Nelta Davis, Alice Black, Willie Mae Neely, Maudell Carney, Dochia Chism, Mildred Anthony, Bennie Jean Beavers and Lucille Jones.

Barton Willingham, another Hobbs student, gave a talk on "Sheep Raising for Profit" and Carl Guinn one on "Bombing of English Towns." Andrew Williams gave an outline of the FFA activities which recently resulted in his winning a trip to Chicago.

Mrs. N. J. Guillet drew hearty applause with chalk drawing and Guillet, Hobbs School superintendent, gave a brief talk on the friendliness of Rotan business men.

Nearly 700,000 farms and other rural users in the United States are connected with REA power lines operated by farmer cooperatives.

There are seasons when to be still demands immensely higher strength than to act.—Channing.

Blitz Hits Town

A unit of the army's motor blitzkrieg hit Snyder Saturday morning.

The "Blitz" consisted of 15 U. S. Army trucks, en route from Camp Barkeley, Abilene to Ada, back. When the tough drivers hit the stretch of good pavement that crosses Scurry, they opened up with nice speeding speed.

In fact the fellow, who last crossed the square and turned north, went through so fast that only a fleeting glimpse of them was sighted by local residents. The buggies passed back through late Saturday night with supplies for Uncle Sam's expanding army.

Hobbs Rhythm Band Will Get Uniforms

Hobbs School faculty members reported Tuesday that materials have been received for the rhythm band uniforms that will be made for first, second and third grade pupils.

The uniforms for rhythm band members, which will be red and white, will be made by the mothers of the children that will be in the newly organized band, N. J. Guillet, Hobbs School superintendent states.

Get office supplies at The Times. Buy your typewriter at The Times.

Keeping Foodstuffs Fresh Requires Just Little Kitchen Care

The keeping quality of foodstuffs, such as flour, sugar, raisins, dried corn and rice and other cereals, depends chiefly on the fact that they are dry.

In the home, these foods should be kept dry and clean, and protected against insects and rodents. For best results, the containers should be as nearly airtight as possible.

Dried meats, such as smoked hams, strips of bacon and jerked beef, and home dried fruits and vegetables are best kept in muslin bags hung in a clean, cool, dry storeroom. If dried meats are hung in the cellar or dried fruits or vegetables are stored in the steamy kitchen, they are likely to mold.

Jellies, jams and home canned fruits and vegetables should be kept in a clean, dry, cool closet or storeroom, preferably on narrow shelves so that the supply can be looked over easily and spoilage quickly detected.

If canned goods must be stored in the kitchen cupboard, they should be placed on the lower shelves where they will be least exposed to heat and steam.

Heat and excessive moisture tend to injure the texture and favor the growth of molds on jellies and preserves that are not sealed in airtight containers.

Wedding invitations at Times.

Mann's-the-Man Club Organized in Snyder

An enthusiastic group of local business and civic leaders, in a called meeting Tuesday afternoon, perfected the organization of a full-fledged "Mann's the Man for Senator" Club. Members from all parts of Scurry County are being resolved by club officials.

[illegible] was made responsible for the "Mann's the Man for Senator" Club, Herman Darby was elected, unanimously, club secretary.

When the heart speaks, however simple the words, its language is always acceptable to those who have hearts.

In love one has need of being believed, in friendship of being understood.—Abel Bonnard.

Notes from Midwest News Flashes Reveal Plenty of Action Along REA

Highlight from the current issue of Midwest News Flashes, a periodical published by Midwest Cooperative, of Rotan, are given in the following paragraphs since the news published is of interest to all Scurry County REA customers.

"All C Section members are urged to wire their homes at once. Lines in this area cannot be energized until 95 per cent of the customers' homes are wired.

"If you are on the C Section routing, and have not yet wired your residence, please do so at once.

"John Dewey, resident engineer for the Midwest Engineering & Construction Company reported Tuesday that 33 miles of poles have been erected and aligned to date on the C Section highline, that 60 miles of holes have been dug and 100 miles of poles hauled.

"Walco Engineering & Construction Company, contractors on the new line, are showing good progress considering the amount of rainfall received the past two weeks.

"From indications at present, the entire C Section will be ready to energize before the required completion date of July 2.

"It sounds rather queer for an REA firm to be saying so, but every farm home in Scurry, Borden, Fisher, Jones, Mitchell and Nolan Counties should have a garden this year. Gardens pay higher returns than any crop that can be raised. Those who shop for vegetables in their own garden can not only save the cash difference, but have fresh vegetables on the table throughout the summer months ahead.

"He are happy to report," Troy Peeples, Midwest superintendent, states, "that 636 members were billed for the month of April. A total of 200 members used the maximum amount of current for the past month, with 32,471 kilowatt hours used by all consumers. April revenue totaled $2422.59.

"New REA members added during the past month included J. G. Reed of Hermleigh, H. R. Curlee of Roby, Douglas Tyler and Charles Webb of Longworth.

"Members who used 100 kilowatt hours or more electricity during April include:

Fluvanna School, 181; N. J. Guillet of Camp Springs, 162; Pyron Teacherage, 132; Fluvanna Mercantile Company, 135;

"B. O. Stavely Store at Fluvanna, 155; Etheredge Hobbs Store, 134; Dr. H. E. Rosser of Snyder, 195; Beavers Store at Camp Springs, 164

"Sterling Willingham of Hobbs, 443; Cleveland Littlepage, Hobbs vocational agricultural instructor, 339; Ohlenbusch Store at Inadale, 593; W. B. Willingham of Hobbs, 369.

"Pyron School, 148; John B. Stribling of Hobbs, 714; Walter Cave, 132; and Robert Schulze, 110."

New Singer Agency Opens on 25th Street

New Singer Sewing Machine agent for Snyder is L. J. Jungman of Abilene, who took over the local agency last week. Ray Tudor was formerly Singer agent for Snyder.

Jungman and his associate, Glenn Holland, have opened a machine shop at 1817 25th Street, and have on hand a full line of new and rebuilt machines.

Beginning Thursday, May 15, Jungman and Holland will conduct a free sewing school at their office. Ladies interested in the free instruction course are asked to contact the agents as soon as possible.

There is a courtesy of the heart; it is allied to love. From it springs the purest courtesy in the outward behavior.—Goethe.

Hamlin Girl Wins "My Home Town" Speaker Contest

Accompanied by R. G. Dillard, Chamber of Commerce manager, Cyrella Fish, Snyder's "My Home Town" entry in the district wide speaking contest sponsored by the Junior WTCC, [illegible]

Cyrella, 17, a local high school senior and Tiger Band member, didn't bring back first place in the home town speaker's contest, but she made a fine talk and received some genuine encouragement from the contest judges.

As Snyder's "My Home Town" speaker, Cyrella was up against entries from such cities as Sweetwater, Hamlin, Abilene, Breckenridge, Eastland and Ranger. Entries from these towns had worked many months on talks that were made in favor of their home towns.

First place in the contest went to 16-year-old Joyce Hudson of Hamlin.

A member of the local school's Honor Society, Cyrella has made A's throughout her current year's school work. She is, in addition to being a band member on the Tiger's Tale staff.

Next year's home town speaker contest so far as Scurry County is concerned, will be county-wide, local Chamber of Commerce officials stated Wednesday.

Those who wish to enter the local contest, which will be held prior to the district WTCC contest, will find prizes of $10 and $7.50, respectively, posted for first and second place winners.

Low-Cost Menus Will Be Available Soon

County farm families with limited food budgets who want to get the most for their food dollars will soon be benefitting from extensive research by scientist members of the Texas State Nutrition Committe, the county agent's office reports.

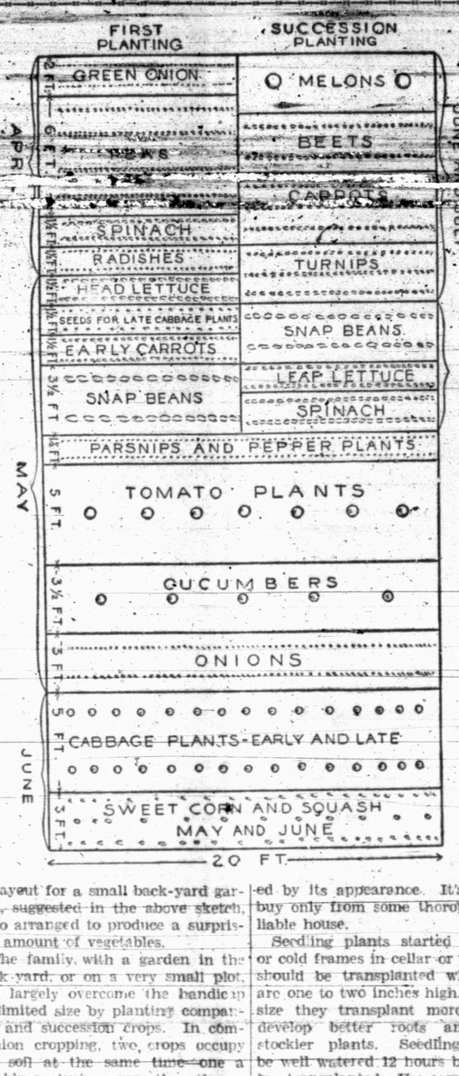
Safe and satisfying menus for Scurry County rural families, which can be prepared for as little as from 10 to 35 cents per person each day are being developed now, the agent's office declares, and will soon be available for county-wide distribution.

The Agricultural Adjustment Administration has announced that a farmer can increase his acreage of tomatoes for canning this year without taking a loss in his Triple-A payments.

Some people exert themselves so much trying to stay young that the effort makes them old.

According to the Census Bureau, there are fewer sharecroppers in the U. S. now than at any time in the last two decades. The 1940 census found 541,291 sharecroppers in 16 states—234,987 less than in 1930.

Back-Yard Grden Will Py Well



Layout for a small back-yard garden, suggested in the above sketch, is so arranged to produce a surprising amount of vegetables.

The family with a garden in the back yard, or on a very small plot, can largely overcome the handicap of limited size by planting companion and succession crops. In companion cropping, two crops occupy the soil at the same time—one a quickly maturing crop, the other a crop that requires longer time to develop and, when grown, more space. The earlier crop is harvested before the later crop matures. In succession cropping, one crop is harvested, then the ground is again prepared and planted to a second crop. A letter to most any state agricultural college will bring a pamphlet telling in detail how this is done.

Of first importance is the use of good seed. Good seed can't be picked by its appearance. It's best to buy only from some thoroughly reliable house.

Seedling plants started in boxes or cold frames in cellar or basement should be transplanted when they are one to two inches high. At this size they transplant more readily, develop better roots and make stockier plants. Seedlings should be well watered 12 hours before being transplanted. Use care in keeping as much earth around the roots as possible and planting in freshly made holes.

Most home gardeners plant seed too thickly. Thinning to proper distances will hasten maturity, increase yields and insure higher quality. The best time to thin out seedlings is soon after they are up.

When watering, either with hose or other means, soak the soil thoroughly. During drought, watering in evenings is most beneficial.

Rabies for Texas Showing Decline Report Indicates

Reports from the Pasteur Institute of the Texas State Department of Health indicate that positive examinations of animals for rabies [illegible] during the first four months of the year, period for the past two years, according to Dr. George W. Cox, state health officer.

The Pasteur Institute reports that 164 animals have been shown to have had rabies since the first of the year, out of 474 examinations. During 1940, 1,488 examinations were made, revealing 394 positive cases of rabies in animals and 1,094 negative. This was a decrease from 1939's cumulative 1,975 cases, of which 583 were found to be positive and 1,392 negative.

Rabies in man is rare but highly fatal unless Pasteur treatment is promptly instituted. It is significant that one death in 1939 and one death in 1940 were reported from rabies in Texas, so successful was the Pasteur treatment in the cases of persons bitten by the rabid animals.

Rabies in man usually results from the bite of infected dogs, though rabies may be spread by calves, sheep, squirrels, skunks and horses. As a precaution against the spread of rabies, Dr. Cox advises penning up all dogs suspected of having rabies and keeping the animals under observation for at least 10 days, but not destroying the animal. This holds true for other animals similarly suspected of rabies.

If a dog dies within the observation period, arrangements should be made to send the head of the animal to the Pasteur Institute, Austin, for rabies examination. The family physician or local health officer can make arrangements for shipping the head of the animal.

"Promptly after rabies has been established in animals, persons who have been bitten should begin treatment to prevent development of symptoms. Treatment should be begun before laboratory examination has been made in case a person has been bitten in the face or on the hands, or has received extensive wounds," Dr. Cox advises.

Station KGNC, Amarillo, and KRIS, Corpus Christi, recently carried a national Extension Service radio program devoted to the cotton mattress demonstration program in Alabama.

Soil Conservation Service surveys show that 282,000,000 acres of crop and range land in the United States have been ruined or severely impoverished by erosion.

Letters From Our Readers

Editor
Scurry County Times:

I am a believer in the philosophy of Senator Dies because he is the champion of the rights, privileges, duties and liberties of the American citizen. He is a champion of the rights of the laboring man, and also a champion of the rights of capital. He is a champion of the rights of the farmer, and also a champion of the rights of the manufacturer. He is a champion of the rights of the white man, and also a champion of the rights of the negro. He is a champion of the rights of the Protestant, and also a champion of the rights of the Catholic. He is a champion of the rights of the Democrat, and also a champion of the rights of the Republican. He is a champion of the rights of the native born, and also a champion of the rights of the naturalized citizen. He is a champion of the rights of the Christian, and also a champion of the rights of the Jew. He is a champion of the rights of the journalist and [illegible] and has a deep love and devotion for his native land, and also an intelligent, sincere and loyal allegience to the principals of our political partners. Send Martin Dies to the United States Senate and he will instill in our rising generation a veneration for and faith in the moral grandeur of America.

The perpetuity of our government depends upon the moral character of its officials, their high sense of honor, duty, respectability and their love and fidelity to truth, honesty and justice. Only by steadfast devotion to these ideals can the heart of America remain sound and its body politic incorruption.

Ed C. Ra[illegible]m,
May 3, 1941. Snyder, Texas.

It a bomb fails to [illegible] it's a dud.

The U. S. Department of Agriculture bought 554 tons of grapefruit and 12,936 boxes of oranges on the open market during the week of April 13-19.

• A full 6¾ cu. ft. of room—a Vegetable Crisper—beautiful cabinet—and the "Glacier" Sealed Unit to cut current costs. See this big, new Leonard and the 7 other 1941 Leonards today.

LEONARD
FROM EVERY ANGLE THERE'S NOTHING BETTER!

Roe's Home & Auto Supply

It's Just Plain Horse Sense to Insure—

Bombs may be new to warfare, but they're no novelty to crops. For as far back as recorded history goes we read of Hail Storms. When Hardy Hailstone rides the skies, dropping his bombs on defenseless fields, there are no "fighting planes" to rise and drive him off.

When there are no crops, there's no money. That is, unless you have Hail Insurance. Get your insurance before your crop has been "bombed" for it's too late after hail has fallen on it.

HUGH BOREN & SON
Basement Times Building

Fruit Bearing

Two of the heaviest loaded fruit tree limbs seen here in many moons were exhibited Monday by Dee Robison, prominent farmer of the Ennis Creek community.

One of the fruit tree limbs was a 14-inch section from a Burbank plum tree, a limb that had 39 well developed plums on it. The second limb, 16 inches in length, was from a Yellow Cling peach tree, and had 42 peaches on it.

Robison has 150 trees in his orchard, 100 of which are plum trees. He reports prospects for a fruit crop, not only in the Ennis Creek community, but over the county, are the best they have been in many years.

And there was the Scotchman who bought only one spur. He figured if one side of the horse would go the other would surely follow!

Boys of Snyder May Join 4-H Club Now

Boys in Snyder schools who are interested in becoming 4-H Club members are asked to contact X. B. Cox Jr., county agent, as soon as possible.

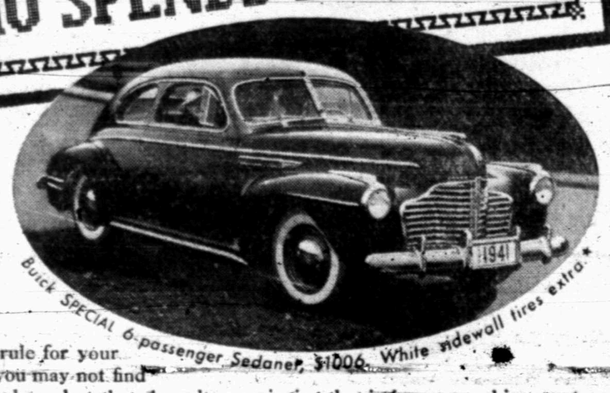
"We want every boy interested in club work to have an opportunity to join a 4-H Club this year," Cox states. "We feel that our young men of the Snyder and surrounding communities will be interested in club work this year, since some very beneficial prizes will be given outstanding members."

Young men of other county communities, beside Snyder, who are desirous of joining a 4-H Club are urged to contact the county agent's office immediately.

Justice, honesty, cannot be adjured; their vitality involves life—calm, irresistible, eternal.

Freedom is the privilege to do what one should and not what one should and not what one likes.

"HE SAVES MOST NOW WHO SPENDS ENOUGH"



Buick SPECIAL 6-passenger Sedaner, $1006. White sidewall tires extra.*

THERE'S a rule for your guidance you may not find in the copybooks — but that doesn't subtract one whit from its truth.

Because when you buy a new car this spring you want one that will see you through many a summer.

So while you're trading it's good sense to trade *up* — up to something solidly good through and through.

Trade up, for instance, to the FIREBALL power of Buick's more efficient valve-in-head straight-eight.

Trade up to the thrift of Compound Carburetion† — exclusively Buick's, and as much as 10% to 15% more economical of gasoline than last year.

Trade up to a splendiferous big Body by Fisher — to Buick's all-coil springing that is forever cushiony yet forever free from service attention — to stout, ride-steadying torque-tube drive with nothing about it to go wrong.

Buick's bodies are roomier, its frames huskier — its steering gears go three to four times as long without adjustment and its main bearings have half-again the service life in them.

Things like that really *count* these days — yet they're yours in a Buick for a trifle more at most than you'd spend in any event.

Go call on *your* Buick dealer now!

BUICK PRICES BEGIN AT $915 for the Business Coupe

Your ELECTRIC REFRIGERATOR IS NOW PAYING YOU INCREASED DIVIDENDS....

• All winter long, your electric refrigerator has been plugging along, doing the minimum amount of work necessary to keep your food fresh and wholesome in cold weather. But now warm weather is here and your electric refrigerator is buckling down to a *real* job, keeping perishable food safe from spoilage, and paying you *daily dividends* in food savings.

The pennies you spend for electric refrigeration save food that is worth dollars. No matter how hot the weather, you can depend upon your electric refrigerator to provide constant, food-saving cold. And, if your electric refrigerator adds a little to your monthly electric service bill, that is just a sign that it is paying you far more in food savings.

TEXAS ELECTRIC SERVICE COMPANY
J. E. BLAKEY, *Manager*

Young Mother Is Called by Death Tuesday Morning

Death entered the Earl Rinehart residence, five miles west of Snyder, early Tuesday morning and claimed Mrs. Earl Rinehart, 26, only two years after her marriage.

Funeral services for Mrs. Rinehart, prominent in civic and community affairs of the Union community, were held Wednesday afternoon, 2:00 o'clock, at Odom Funeral Home chapel. Burial was in Snyder Cemetery.

Rev. I. A. Smith, local Methodist pastor, conducted final rites.

Survivors include the husband and two sons, Wallace and two-weeks-old William, and five brothers, Hunter and Cecil Wood of Oklahoma City, Carl and Otner Wood of McFarland, California, and Charlie Wood of Camp Springs.

Born in Florence, Alabama, October 24, 1904, Mrs. Rinehart had resided in Scurry County almost two years. She had lived in Texas 21 years. She professed Christianity several years ago.

Pallbearers were George Smyrl, F. M. Addison, Paul Collins, Bill Leatherwood, O. C. Moses and Glenn Huffman.

Mmes. Ollie Vaughn, F. M. Addison, D. T. Pierce and Gwendolyn Head were in charge of floral offerings.

Odom Funeral Home was in charge of funeral arrangements.

Snyder General Hospital

Scurry County people are invited to attend Snyder General Hospital's open house Monday from 9:00 in the morning until 5:00 in the afternoon. Occasion for the reception is annual observance of National Hospital Day.

In the hospital late Wednesday were the following patients: Mrs. Frank Willon, medical; Mrs. H. B. Lemons of Fluvanna and her young son, born Monday; Mrs. Jim Sullenger, surgery; Mrs. J. M. Greenfield of Dermott, surgery; Mrs. Garfield Ball of Dermott, medical; E. S. Stringer of Ira, accident; and Jodell Golden, three-year-old boy, medical.

Hurston Boyce Lemons, six-pound one-ounce son of Mr. and Mrs. H. B. Lemons of Fluvanna, arrived at the local hospital Monday.

Jack Snider and G. K. Giddens of Ira, both medical patients during the past week, were dismissed earlier this week.

Induscteers to Be Given More Time To Adjust Affairs

Selective Service regulations have been amended so as to allow industries ample time to adjust themselves to the withdrawal of key employees of Scurry County's Selective Service Draft Board announced Wednesday.

Previously, board members said, at least five days had to elapse between the time a registrant received his order to report for induction and the actual date of induction. The amendment extends this period to 10 days and authorizes local boards to increase it to 60 or more days when they deem such extensions justified.

Texas' 351 local boards have been advised by State Headquarters bulletin that in any case where unusual individual hardship would otherwise result, they may, in accordance with the regulations, postpone the induction date "for a period of not to exceed 60 days from the date of such postponement, subject, however, to further postponement upon good cause therefor being shown."

The new amendment, board members point out, gives local boards full authority to afford individual registrants an opportunity to make adjustments in their business affairs, take examinations required of certain professions by state laws, and otherwise make satisfactory arrangements in their private lives before entering upon service with the nation's armed forces.

Interest Growing in August Rodeo to Be Staged at Snyder

Announcement last week of August 8 and 9 as the dates for Scurry County's Fifth Annual Rodeo has resulted in several inquiries being received the past few days about the forthcoming boots and saddle roundup.

Officials of the Scurry County Rodeo Association stated Tuesday that details of the 1941 rodeo will be worked out at the next directors' meeting.

Contestants in this section of West Texas indicate they will be on hand in larger numbers this year at the rodeo than ever before.

Local citizens knowing of rodeo contestants that would like to have detailed information on the county's forthcoming rodeo are requested to leave the contestants' names and addresses at the local Chamber of Commerce office.

Courtesy is love in trifles and where love is not, though its counterfeits may abound, courtesy itself is not.—George Jackson.

Members of the visiting band rhythm band gave a 30-minute were attired in red and white uniforms. Newly organized rhythm band of the Hobbs School gave the concert's concluding numbers.

HOME DEMONSTRATION CLUBS

Estella Rabel, County Home Demonstration Agent

The Union Home Demonstration Club met last Thursday at the home of Mrs. Jess Hall.

Mrs. Ida Carroll gave the council report and insisted that a delegate [illegible] be elected so that a little campaigning might be done. Mildred Hall was named the Union delegate.

Cakes were frosted and decorated and the county's mattress demonstration program discussed.

A lovely plate luncheon was served at noontime to the following members:

Mmes. J. L. Carrell, Della McPherson, Earl Gladson, J. B. Adams, Jessie Hall, R. L. Jones, Lester Gladson, Flura Palmer, Cecil Hall, Bill Head and Misses Mildred Hall, Ruth Barnett, Marian Jones, Gwendolyn Head and Estella Rabel, county home demonstration agent.

Ina Lou Carmichael, a member of the Fluvanna 4-H Club says: "I made my clothes closet last week out of the box our refrigerator came in. I made a hat rack, shoe rack and a dandy belt rack."

At a called meeting of the Midway women it was decided to reorganize the Home Demonstration Club and call it the Midway Club and invite the Camp Springs ladies to join if they so desire. The club will meet at 8:30 p.m. on the second and fourth Wednesdays of each month. The agent will be present May 14 at the home of Mrs. T. B Knight. Officers elected were Mrs. Guy Casey, president; Mrs. Clyde Brown, secretary; Mrs. Willie White, council delegate.

The China Grove Home Demonstration Club met at the home of Mrs. Jim Merket Tuesday. A cotton comfort demonstration was held and four pounds of cotton were divided into three rolls and tacked into the cover. Miss Rabel stressed the care of these comforts—use a protector at the head, and switch these comforts to keep them clean. Making comforts will help us to use more cotton. Tacking them makes them lighter and fluffier.

During the business hour the China Grove ladies turned in nine of the 10 Red Cross garments which the club agreed to make. It was voted to have a social for the entire community at the school house May 6.

Since there were only five mattresses approved for the China Grove community—letters will be written asking these families to come to Snyder center to make their ticks Saturday afternoon and to return to make their mattresses next Thursday.

Present were Mmes. Joe Wilson, Frank Wilson, Cliff Steveson, J. M. Templeton, Roy Allen, Jess Brown, Bill Hairston, Jim Wood, O. N. Lester Jr., Roy Lee Merket, Jim Merket and Stanley Merket and Miss Rabel.

Scurry County has never been prettier than this spring—there are flowers of every description—wild daisies, wild larkspur and every color. Some of the rural ladies have transplanted these flowers — they have them growing in their own yards—and why not—if they grow with no petting in the fields they would be much prettier with little attention in the yards.

A very pretty sight are phlox, which Mrs. Jim Merket has in her yard. They are two feet high and are of a soft velvety color. She planted them September 14. Mrs. Merket has a pretty home in the China Grove community. She is council delegate for her club.

Mrs. Wiley Eubanks, president of the Bison Home Demonstration Club, is another of our enthusiastic poultry raisers. She reports she purchased $14.61 worth of mash and $9.00 of grain in January and sold eggs to amount to $73.53. She realized a profit of $49.42. In February she spent $23.13 for feed and sold $87.45 of eggs, making $34.32. In March she spent $25.88 for feed and 60 cents for oyster shells, and sold $91.20 worths of eggs, making $64.82. In April Mrs. Eubanks spent $16.55 [illegible] 60 cents for oyster shells, $2.00 for tonic, $9.00 for maize and [illegible] of eggs, making [illegible] figures a profit of $261.34.

She says, "We mix our own feed, we set to the hatchery, have 270 white leghorn hens and 800 little white leghorn chickens. We use eggs and chickens for food and as much as we like. We added a $36.00 brooder house and are planning to build to the hen house. We sold $25.00 worth of culled hens to help pay for this. Little roosters will go a long way toward paying the food of pullets. I usually start the chicks on startena, and when they are a month old I put them on home-made mash."

The Women's Home Demonstration Club of Fluvanna met in the home of Mrs. A. D. Dotson Thursday, April 24. Twelve women gathered for a very enjoyable as well as instructive afternoon.

Mrs. Oliver Hughes was in charge of the entertainment and two amusing games were played.

Miss Estella Rabel gave a demonstration of cake baking. The members can certainly vouch for that cake and most of them took the recipe for use in their own homes.

Mrs. Robinson gave the members each some article on Invalid Cookery to report on at the next meeting.

Meeting was then adjourned.

"A first aid kit is a very useful thing to carry on a trip at all times," Mrs. Idis Allen told members of the Turner Home Demonstration Club Monday afternoon, at the club's meeting in the home of Mrs. J. M. Glass.

In giving the program on first aid and invalid cookery, Turner club members stressed cleanliness and special diets.

During the business session which followed, Mrs. Idis Allen was named club secretary to succeed Mrs. A. R. Turner, who tendered her resignation several days ago.

Delicious punch and cake were served to the following members:

Mmes. Nellie Williamson, A. R. Turner, Maude Wright, Idis Allen, Joe Clinkenbeard, Umphrey, Ab Williamson, J. M. Glass and Misses Leona Turner and Alma Williamson.

Next meeting of the Turner Home Demonstration Club will be held Monday, May 19, at the home of Mrs. Ab Williamson.

FIRE AT HOLLYWOOD.

Fire of undetermined origin, which broke out shortly after midnight Tuesday in the back of the Hollywood Shop, south side of the square, did considerable damage, despite the prompt action of Snyder Vvlunteer Fire Department in fighting the flames. Mrs. John Keller, operator of the ladies' shop states that she will be in a new location, east side of the square, ready to serve the ladies of this trade area, in the near future.

Skilled Men Will Be Placed in Line Of Work Suited

General J. Watt Page, state director of the Selective Service system, early this week put the machinery of the system into motion that will result in the Selective Service rolls here and other parts of the state being combed to insure that every skilled man in the operation of a defense production machine be engaged in that activity.

The telegram received by local draft board members Tuesday from General Page reads:

"Your attention is called to the President's announcement of May 2 that because of the critical situation which confronts our nation and the new 24-hour, seven-day machine production schedule, the rolls of the Army and of Selective Service and the manpower of the nation as a whole will be combed to insure that every man skilled in the operation of a defense production machine be engaged in that capacity.

"Direct that you call the attention of all Selective Service registrantss to the President's announcement and take immediate action to again recheck the lists of Class 1-A men and men awaiting physical examination to assure conformity with our policy as emphasized by the Presidential announcement.

"The burden of making the necessary determination is on Selective Service, and reluctance of an individual or his employer to claim deferment must not be allowed to defeat the paramount national interest. Proceed without delay to carry out instructions herein."

FOR RENT—Furnished or unfurnished apartment; east exposure. Phone 229J. 1c.

FOR RENT—Furnished or unfurnished apartment.—Forest Sears, at store.

Lyndon Johnson

Presented in this picture is Lyndon Johnson, who has opened his campaign in this territory for United States senator. Johnson, a congressman from the Austin district since 1937, is seeking the place left vacant by the recent death of Senator Morris Sheppard.

Cemetery Working at Ira Reset Saturday

Postponed from the set date each year of the first Saturday in May—because of inclement weather—Saturday has been renamed as the date for the all-day working of the Ira Cemetery.

Mrs. O. M. Miller, secretary of the Ira Cemetery Association, urges those who will participate in the working to gather at the southern county cemetery early Saturday morning. Graves will be reworked and weeds cleared from unused lots.

An old time basket dinner will be spread at noontime.

Pegged Egg Price To Help Poultry Raisers to Profit

Adding chickens for more eggs provides a real opportunity for the farm people who have been asked to aid defense and add to their income, W. D. Cox Jr., county agent and Estella Rabel, county home demonstration agent, stated this week.

The county and home demonstration agents point out that plenty of feed for farm poultry flocks means more eggs, and more eggs help assure ample food supplies for the country. Many county commercial poultrymen are already feeding their flocks to get the most possible eggs.

The U. S. Department of Agriculture announced this week a price pegging program to support the market price of eggs during the next two years.

Here are some tips for Scurry County poultrymen that George McCarthy, extension poultry husbandryman at A. & M. College, passes on for what they may be worth.

"Feed plenty of mash, either home mixed or commercial, and all the grain the hens will clean up at night.

MONEY in the ground

Billions of barrels of Texas oil reserves mean money in the bank for you as a Texan.

On constant deposit in underground vaults, they assure continued wages for Texas workers, lease and royalty payments for Texas farmers and ranchers, and tax revenues for our State and local governments.

Nearly 11 billion barrels of known oil reserves are on tap in 161 counties of our State. Texas oil men are now searching for new fields in 90 additional counties. They discovered last year almost three times as much oil as they produced.

These oil reserves can be cashed only through their production and processing by Texas workers.

As a means of safeguarding this backlog of economic security, you as a Texas citizen can and should expect:

(a) Sound conservation practices, (b) A reasonable taxing policy by State and local governments to permit healthy development without loss of employment through abandonment of properties, (c) Increased use of this great fuel source through creation of new Texas industries.

These oil reserves provide security for you and every other Texan

STATE SOIL CONSERVATION BOARD OF TEXAS

NOTICE OF ELECTION OF SUPERVISORS TO BE HELD FOR THE UPPER COLORADO SOIL CONSERVATION DISTRICT.

To all persons holding legal or equitable title to land within the Upper Colorado Soil Conservation District, who are otherwise qualified voters under the general election laws of the state, and who reside within the Upper Colorado Soil Conservation District:

Notice is hereby given that on the 10th day of May, 1941, between the hours of seven a. m. and seven p. m. an election will be held for the election of three supervisors of the Upper Colorado Soil Conservation District in the State of Texas. All persons who hold legal or equitable title to lands lying within the boundaries of the said district, who live within the district, and are otherwise qualified voters, under the general election laws of the State, are eligible to vote; only such persons are eligible to vote.

Eligible voters who will be absent from their voting precinct on the day of the election may apply in person or in writing to the State Soil Conservation Board, 613-22 Professional Building, Temple, Texas, for absentee ballots. Each absentee voter shall states his name, residence, location, and acreage of land to which he holds legal or equitable title, and such other information as is required under the general election laws of this state.

Eligible voters residing within the district shall cast their ballot at the designated voting box within precinct or territory as below described in which they reside.

Voting divisions and polling places for the election are as follows:

SCURRY COUNTY

Voting Box No. 1, Snyder, County Court Room—Qualified voters residing in general election voting precincts of Snyder No. 19, S. E. Snyder No. 21, S. W. Snyder No. 22, N. E. Snyder No. 1, Dermott No. 4 Ennis Creek No. 3, Cottonwood Flat No. 2 and Lloyd Mountain No. 17, Turner No. 6, Bethel No. 10, Arah No. 18, and Crowder No. 23.

Voting Box No. 2, Camp Springs, Church House—Qualified voters residing in general election voting precinct of Camp Springs No. 15.

Voting Box No. 3, Hermleigh, Schoolhouse—Qualified voters residing in general election voting precincts of Lone Wolf No. 12, Pyron No. 15, and Hermleigh No. 14.

Voting Box No. 4, Dunn, Schoolhouse—Qualified voters residing in general election voting precinct of Dunn No. 11, and China Grove No. 8.

Voting Box No. 5—Ira Schoolhouse—Qualified voters residing in general election voting precinct of Ira No. 9.

Voting Box No. 6, Knapp, Schoolhouse—Qualified voters residing in general election voting precincts of Bison No. 7 and Canyon No. 16, in Scurry County, and Precincts No. 3, 7 and 9 in Borden County.

Voting Box No. 7, Fluvanna, Bill Sims' Store—Qualified voters residing in general election voting precinct of Fluvanna No. 5, in Scurry County, Precincts No. 5 and 4 in Borden County.

BORDEN COUNTY

Voting Box No. 8, Gail, District courtroom—Qualified voters residing in general election voting precincts No. 1 and 2, 6 and 11, 8 and 10.

By direction of the State Soil Conservation Board. V. G. MARSHALL, Administrator. 48-2c

FIRE BOYS, THANK YOU.

Our fireboys were wonderful to me and my shop in our first of the week experience with fire next door, and I want to publicly thank them for their courteous assistance to us. Woodie Scarborough. 1c

NOTICE IN PROBATE COURT

The State of Texas:

To all persons interested in the estate of Gus Walls, insane, No. 600 on the probate docket of the County Court of Scurry County, Texas, you will take notice that W. V. Jones, guardian of said estate, has filed in the County Court of Scurry County his final account, settlement and application for discharge, which said final account, settlement and application for discharge will be heard by said court on the second Monday of May, A. D. 1941, the same being the 12th day of May, A. D. 1941, at the courthouse thereof in Snyder, Texas, at which time all persons interested in the estate of said insane person may appear and contest said final account, settlement and application for discharge if they see proper to do so.

Given under my hand and seal of said court at office in Snyder, Texas, this the 21st day of April, A. D. 1941.

J. P. BILLINGSLEY, Clerk of the County Court of Scurry County, Texas. 47-3c

One Year, in advance $2.00
Six Months, in advance $1.25
Elsewhere:
One Year, in advance $2.50
Six Months, in advance $1.50

Beauty Everywhere

A drive any direction from Snyder reveals that beauty is everywhere these days, so far as the county's wild flowers are concerned. The flowers, ranging from delicate pinks and blues to brilliant red and scarlet, are lovelier now than they have been at any time in the past decade.

People in all walks of life have a mutual love for wild fowers. Some, of course, are interested in wild flowers merely to the extent that they want to pluck the rare varieties and let the world go hang so far as preservation of our flora is affected.

Not only are wild flowers blossoming in pasture and ranch land over the county, but are sending forth their aromatic scents in every nook and cranny that will sustain plant life undisturbed.

A survey conducted last week by a national magazine reveals that we have an unusually large number of nature lovers in Scurry County—people who delight in seeing wild flowers, trees and shrubbery growing on hills and dells. Such people are the ones who take the lead in educating the public to regard our wild flowers as a permanent asset, and not a liability to be destroyed without sense or reason.

More on Cotton

One of the most interesting booklets on cotton that has come to our attention in recent weeks is one received from the AAA, Southern Division, on "Around the World with Cotton." The booklet, illustrated with up-to-the-minute pictures, gives everyone concerned with cotton production a fresh viewpoint on what will have to be done to keep King Cotton on his throne.

"Have you ever thought about all the things that may happen to a load of cottonseed as it comes from the fields of our cotton farms," the booklet inquires. "Have you considered how far a load of cottonseed may travel? Do you realize how it affects you and your neighbors—and even persons in far away lands.

"Out of the seed, which make up approximately 65 per cent of the cotton by weight, you may have a dressing for your salad, or perhaps have some shortening to use in the preparation of your foods. You may even have a spread for your bread.

"The paper on which you write letters to your friends may be made from linters—the little fibers that cling to the seed as it comes from the gin. Cotton linters help make possible your entertainment when you go to the picture show, for the action reflected on the silver screen is recorded on one of the many products of cotton.

"Cottonseed products," the booklet points out, "are used in the making of smokeless powder, house paint and varnish, cattle feed, fertilizer, washing powder, cosmetics, hats, phonograph records, oilcloth and linoleum, and a very long list of other useful articles.

"The cotton crop of 12,399,000 bales harvested in the United States in 1936, including $141,289,000 for seed, yielded a cash return of $905,682,000 to the growers. This exceeded the value of any other crop grown in the United States except corn, and exceeded the combined value of the wheat and tobacco crops of the country by over $30,000,000.

"Why is cotton so important? Cotton is important because it enters into the daily life of every person in the nation. It is a necessity of the rich and poor alike. It is found in every home. It is used by dozens of America's most important industries.

"It makes little difference what you are doing—sleeping, dressing, eating, reading, working, riding in an automobile, going to school, or enjoying some form of recreation—cotton probably enters into the activity." Around the World with Cotton concludes.

Editorial of the Week

DRUG STORE LIQUOR

In its resolution on drug store liquor, the Baptist State Sunday School Convention picked up a live subject. Local prohibition of liquor sales in many Texas counties has been made almost a farce by the common practice of selling whiskey prescriptions in drugstores, often at the low rate of 25c each. Thus the only penalty for living in dry territory is the addition of two bits a bottle to the retail price.

Most doctors, of course, refuse to engage in this evasion of the law. But almost every town of any size has at least one physician of little practice and few scruples who doesn't mind spending his declining days as a drug store liquor prescription writer. He can take in several dollars a day by writing liquor prescriptions; and that is as much as he might make—with a great deal more effort—in the practice of his profession.

When the majority of citizens in any community vote to keep their territory dry, they have a right to expect their decision to be put into effect. The present drugstore outlets for outlawed beverage liquor are loopholes that need to be plugged. There still may be some evasions of this kind, as in prohibition days, but if the Texas Senate follows the House's action in tightening restrictions on the sale of drug store liquor, considerable improvement may be obtained.—The Colorado Record.

The heart of the giver makes the gift dear and precious.—Martin Luther.

Happiness is neither within us only, or without us; it is the union of ourselves with God.—Pascal.

Current Comment

By LEON GUINN

Editor's Note—Expressions or opinions contained in this column are those of the writer and do not necessarily reflect the opinions or policies of The Times. Current Comment is merely carried as a feature column.

In spite of all efforts, even by our Federal Government, to discourage as far as possible the "price going up" argument by retailers, one can look forward to a wave of early sales emphasizing this argument one way or another. . . . Retailers, whether grocers, dry goods store operators or household appliances are very anxious to move merchandise while the selling is good and before taxes and savings drives hurt future business. . . . Due to this fact, many are already advancing for sales they usually hold in late summer and early fall.

★

Distributors are getting so ticklish about the forthcoming "business situation" that the usual August "fur sales," for example, will be held in May and June . . . We realize, of course, that business of any kind depends on the volume of goods moved on to consumers, and we realize, with . . . that business men always have to plug sales at the right time, but present indications are that there will be a great deal of confusion when people really get to purchasing savings bonds unless business and government agree on when to—and when not to—push the "purchase now" slogan.

★

The growning feeling in Washington is that another Far East crisis, which isn't expected to result in war immediately, is in the making. . . . Japan, a chronic trouble maker for the past three years, hasn't made an overt move within the past few days, but fleet maneuvers off Shanghai and intensification of the China blockade may well prove to be the preliminaries for another war of nerves. . . . There remains no doubt, in the opinion of astute observers that Hitler would like to involve the United States in the Pacific and is redoubling pressure on Tokio to move southward, hinting rather broadly that he may otherwise claim the Dutch East Indies for himself.

★

One of the most interesting magazines that has come to the attention of The Times in recent weeks is the current issue of the Texas Commercial News, a smartly made up publication of the Texas Payrolls Association. . . . "It seems," the magazine states, "that one of the greatest pieces of work all of us can do is sell Texas. . . . Now, that sounds like someone stuttering or as though it were a gramatical error. It isn't either. It is a command all of us should obey."

★

Continuing, the editor of the Texas Commercial News states the publication "has watched the progress of this state for many years. . . . Several decades ago, Texas was almost entirely an agricultural state, producing new products and sending them East and North—and depending on them for their manufactured products at the great industrial centers of those sections. . . . A little later, Texas became the leading oil producing state of the union and also began the intensive development of several other resources, including sulphur, salt and building materials.

★

"The tremendous revenue from these developments has proved to be a great stabilizing factor in the economic prosperity of the state. . . . The one thing, however, that is missing is an adequate industry to use up a large portion of both the agricultural and mineral resources produced annually. . . . A great deal of progress has been made along this line and some progress is being made in the natural course of events. . . . It is equally true that most of us are not alive to the possibilities that exist for the development of a program that is gaining momentum every day, helped along fortunately by the pouring of millions of dollars into the state through defense projects.

★

West Texans are becoming interested in an announcement this week from the New York State Agricutural Experiment Station, indicating that corn sugar, through a new process, may replace approximately one-fourth of the cane sugar now used in the manufacture of ice cream, ices and sherbets . . . The bulletin, issued by Dr. A. C. Dahlberg, declares that highly satisfactory results were obtained with ice cream when 25 per cent of the cane sugar content was repaced by corn sweeteners.

★

"Based upon sweetness alone," Dr. Dahlberg said, "a pound of cane sugar is equal to 1.1 pounds of corn sugar or dextrose; and two pounds of corn syrup solids. . . . When used in the right proportions, corn sweetener show slight but fine improvement in body and texture of ice cream, which can be detected by consumers . . . Consumers are unable to tell whether corn sweeteners are used in ice cream, if the mixture is correctly proportioned."

★

It is almost a certainty that somebody would do it sooner or later, but it remained last week for a Cornell student to sit down in a pasture and watch a cow for 24 consecutive hours. . . . The Cornell student found that a cow works at grazing eight hours a day, lies down 12 hours and spends four hours "standing up." . . . Getting a cow's daily life down to such a fine point ought to prove interesting to county dairymen.

Draftees Urged To Cooperate with Local Officials

The advantages which accrue to a Selective Service registrant who cooperates closely with his local board were stressed Tuesday by General J. Watt Page, state director of Selective Service, in a message to The Times.

"We want Scurry County people to know," General Page pointed out, "the importance . . . [illegible] keeping in touch with his local draft board and immediately notifying it when he changes his address and moves from one place to another cannot be exaggerated."

The reason for this is obvious. The registrant who fails in this violates the law, places himself in needless jeopardy, does himself an injustice and causes the local board all kinds of needless trouble.

"Our Scurry County Selective Service Board, as well as all others in the state, has an advisory," General Page continued, "and the registrant who is in doubt as to how to answer any given question should consult his board and follow all instructions. The advisory board is for the draftee's personal service, and we want all draftees to take advantage of this offer for help on puzzling questions."

Members of the Scurry County Selective Service Draft Board emphasize the fact that the registrant who believes he has been placed in the wrong classification and wants to make an appeal has at his service the Government Appeal Agent attached to his local board.

"The government appeal agent," local draft board members state, "is charged with the duty of protecting the interests of the registrant, as well as those of the government. It is the appeal agent's duty to assist and advise the draftee in making an appeal."

Rains Slow Planting Over Santa Fe Area

Times readers will find the following crop report, issued this week by the Santa Fe Railway Company, of general interest:

"Speaking for Scurry, Borden, Garza and other counties of this territory as a whole, too much rainfall has been received during the past few days. This has resulted in planting of early feed and cotton being behind schedule.

"In some areas of Texas, corn is being cultivated, while other sections of the state find that corn has been greatly retarded by excessive rainfall.

"Small grains have improved, but both wheat and oats are showing the effects of too much moisture. Some rust and green bug damage is reported," the report concludes.

Humanity is a duty made known and enjoined by revelation, and ever keeping pace with the progress of Christianity.—Sydney Smith.

PALACE Theatre

Thursday, May 8—
"That Night in Rio"

Blazers for Mother-Daughter

What could be more dashing than these twin flannel blazers for sisters or mothers and daughters. They come in dark green or gray blue, piped in white and display a very definite sporting British air. Many women and girls are wearing them.

Relatives Urged to Clean Cemetery Lots

Attaches of the Snyder Cemetery Association issued an appeal this week to those with loved ones and friends interred in the local cemetery to remove weeds from their lots as soon as possible.

Due to the fact that recent rainfall has caused weeds of all kinds to grow at an unprecedented rate, graves in both the Snyder Cemetery and the city's first cemetery, located on Highway 15 just northwest of the Littlepage Service Station, are urgently in need of immediate working.

Cemetery association officials report that a two-inch water line is being laid in Snyder Cemetery, but that no funds are available to hire a regular hand to keep the graves in order.

"Coming events cast their shadows before them" and often leave dark ones behind them.

Martin School Will Be First One to Close

Martin School will become Friday the county's first school to close for the 1940-41 school year.

Mrs. Gaston Brock and Mrs. Ivan Gatlin, teachers in the progressive county school, report that the current year's work has been highly successful from many angles.

Concluding event at Martin will be an outdoor picnic, to which residents of the Martin community are invited to attend. This two-teacher school has been in operation for the past eight months.

Tabernacle Baptist Church

The Tabernacle Missionary Baptist Church is now going to full time. Each Sunday there will be:

Sunday School, 10 o'clock. A class for every child. Morning worship, 11 o'clock. Bible preaching. The pastor will use more scripture in one sermon than the average preacher will use in 12.

Young people's meeting, 7:30 p.m. Evening services, 8:00 o'clock. These services will be highly evangelistic, messages to the lost. Our motto: "The Bible just as it is, to people just as they are."

Prayer meeting each Wednesday at 8 p.m. Bible teaching. Now studying the book of Revelations.

At the close of the Sunday evening service the pastor was asked to deliver the sermon preached Sunday night on the courthouse lawn. The entire congregation voted for this. So Saturday afternoon, May 10, at 3 o'clock from the band stand the pastor will call this county together for an old-fashioned "Patriotic-Christian Rally." There will be the singing of "America" and the "Star Spangled Banner," after which there will be a message on "What Will America Do in an Hour Like This?" — Rev. Clymer C. Evans, pastor.

Make yourself an honest man, and then you may be sure that there is one rascal less in the world.

Honor is worth its danger and its cost, and life is worthless without honor.—George Bernard Shaw.

HERE IS MORE CONCERNING

My Home Town

CONTINUED FROM PAGE ONE

good football stadium. Our factulty consists of 34 teachers.

A rapidly developing oil field is located 18 miles southwest of Snyder, my home town. We had oil production of 52,000 barrels the past 12 months. The oil is pumped into free air.

The trade territory surrounding Snyder is composed of farmers and ranch-farmers. The principle crops are cotton, wheat, feed. Cattle and sheep are the livestock raised about the country.

When I walk down the street in my home town, I meet friends with a smile and call them by name. Often we stop and chat about a sick neighbor, a recent marriage, or a tragedy. The people are interested and sympathetic toward each other. Snyder, my home town, is small enough for one to know everyone else, yet it's large enough for vast opportunity and growth.

I have never heard anything about the resolution of the apostles, but a great deal about their acts.—Horace Mann.

When the late J. P. Morgan was asked what he considered the best bank collateral, he replied, "Character."—Ramsey MacDonald.

The planet on which we live revolves all the time which probably explains why so many are dizzy.
