

WATER SOUGHT BY ROTAN—Mayor J. M. Morrow and City Council Secretary Mrs. R. R. Gray of Rotan, discuss the possibility of Rotan purchasing water from Snyder at a called meeting of the Snyder City Council last night. From left are Snyder Mayor John Hamblen, Snyder Councilman Russell Yorgensen, Mrs. Gray and Morrow. (Staff Photo by Gerry Burton)

ROTAN SEEKS WATER

Election Ordinance Signed By Council

An ordinance setting machinery in motion for an election on the city charter was signed by city councilmen in a special meeting last night with a second reading on the ordinance set for Dec. 20.

Present for the meeting were members of the Rotan City Council exploring the possibility of buying water from Snyder.

Snyder councilmen heard the ordinance read and signed it without comment, having instructed City Attorney W. W. Park to prepare the paper to call an election in accordance with the petition presented to the council by Snyder residents. The petition asks that the city-manager type government be revoked, that the position of police chief be abolished in favor of an elected city marshal, and that no land be annexed to the city without full consent of residents of the area.

A city election would be cheaper than fighting the issue of additional names being added to the petition after the petition was in the process of being refused for lack of sufficient names, councilmen agreed in accepting the additional names at a called meeting Monday.

Park told the council that no precedent had ever been set on that point on which Robert Patterson, attorney for the petitioners, had filed for a preceptory mandamus, ordering the city to call the election, in 132nd District Court.

Following the ordinance session, the Rotan City Council dumped their future water problems in the lap of the Snyder council in a request that they be allowed to buy water from Snyder.

In appealing for the grant, Rotan Mayor J. M. Morrow stated that so far they had enough water, getting their municipal supply from wells in the Camp Springs area. However, Mayor Morrow said that as each well went dry, the problem was getting worse and they would rather have a definite commitment to ease future worry.

Discussion centered upon the cost of water should Snyder be allowed by the water district to make arrangements with Rotan, with all council members agreeing that all indebtedness being paid off by the citizens of Snyder concerning the filter plant and cost of maintenance at the lake and production of water at Lake J. B. Thomas should be included in the price Rotan would pay for the water.

By buying more water from the lake, Snyder water rates would be lower as water rates are proportioned to amount used. The cost to both would fluctuate.

"There's one thing, though," Mayor John Hamblen stated, "if we get in a tight about water, you

have to share the tight with us."

This statement followed expressions of concern by the council over shortages which could arise in the future.

City Manager Roy Dunlap told the assembly that in the future water in West Texas would be worth whatever it cost to get it, adding that the three cities (Snyder, Big Spring and Odessa) comprising the Colorado River Municipal Water District had more wa-

ter commitments should need arise than any three cities in the world. The problem was left for future discussion with the CRMWD, with arrangements to be worked out if at all possible.

Other Rotan council members present were C. E. Atwell, Lon Adams, C. J. Thornton, Carlton Burrow, and Mrs. R. R. Gray who is council secretary.

They were accompanied by Snyder Attorney Arthur Blanchard.

Louisiana Interposition Action Is Swept Aside

Ruling Made By 3 Judges

NEW ORLEANS (AP)—Three federal judges—ignoring catcalling demonstrations for segregation—today swept aside every state-raised barrier to school integration and enjoined nearly all Louisiana officials from interfering.

"The conclusion," read the opinion, "is clear that interposition is not a constitutional doctrine."

Interposition is a theory by which a state puts its sovereignty between the federal government and the people of the state.

And, later added: "Without support of the interposition act, the rest of the segregation package passed by the Legislature falls of its own weight."

Further, the tribunal knocked out what it called "a series of measures which purport to abolish the Orleans Parish School Board."

State Rep. John Garrett of Claiborne Parish in the Louisiana Delta country in northeast Louisiana where segregation sentiment runs high, said the Legislature would continue to fight despite the decision.

Gov. Jimmie H. Davis declined immediate comment.

State Sen. French Jordan of Gretna, across the Mississippi River from New Orleans observed: "I don't know what we are fixing to do, but we are fixing to do something and I'm going to be for it. Our work is cut out for us."

Atty. Gen. Jack Gremlington left the state capital hurriedly for New Orleans.

The court made public its decision, angry housewives and mothers thronged outside the home of a white Methodist minister whose five-year-old daughter continues to attend one of the city's two integrated schools, William Frantz Elementary.

The women jeered and yelled but the Rev. Lloyd Foreman already had spirited his daughter into her kindergarten class by the back door.

Foreman was target of similar demonstrations Tuesday when he took his daughter to school by the front door.

The three judges had been asked to rule on two motions: One by the Orleans Parish School Board asking suspension of integration until differences between state

and federal governments had been resolved.

Another by the state asked abandonment of all integration permanently.

The judges said: "Though, we be persuaded of the school board's good faith, there can be no question of delaying still further the enjoyment of a constitutional right which was solemnly pronounced by the Supreme Court of the United States more than six years ago."

Sitting on the tribunal were Chief Judge Richard T. Rives of the Fifth U.S. Circuit Court of Appeals; U.S. Dist. Judge Herbert W. Christenberry, and U.S. Dist. Judge J. Skelly Wright.

Judge Wright issued the original integration order and set Nov. 14 as the final effective date to comply with it.

In its sweeping decision, the judges issued temporary injunctions against Gov. Davis, a number of state officials and the State Legislature to prevent them from stopping integration.

These individuals had been under a similar temporary restraining order.

The women demonstrators in front of Foreman's home crowded into an adjoining yard under police pressure and soon dispersed.

A bit later they went to the home of Mrs. James Gabrielle, a white mother whose daughter also attended William Frantz School Tuesday.

Mrs. Gabrielle became incensed under the shouting and insults and banged one demonstrator over the head with her pocketbook.

The continuing boycott of William Frantz and McDonogh No. 19 schools held firm at Tuesday level, news observers believed. Four white girls and one Negro girl attended William Frantz Tuesday; three Negro girls and no white students attended McDonogh.

An old state law may be used to close the two schools. The law, passed in 1922, says schools with less than 10 students may be kept open through a motion of the parish school board approved by the State Board of Education.

The women demonstrators in front of Foreman's home crowded into an adjoining yard under police pressure and soon dispersed.

A bit later they went to the home of Mrs. James Gabrielle, a white mother whose daughter also attended William Frantz School Tuesday.

SETTING THE EXAMPLE—Workers set the example by making their own contributions to the Scurry County United Fund campaign this morning, as the Advance Gifts Division launched its drive. From left are Wendell Shifflett, Nolan von Roeder, Mark McLaughlin, Mel Gilbert and John Boren. Gilbert is president of the United Fund, while Boren is general campaign chairman and McLaughlin heads the Advance Gifts Division.

United Fund Units Launch '60 Campaign

The Advance Gifts division of the Scurry County United Fund campaign went into action this morning at a kickoff breakfast, and another unit will join the campaign tomorrow.

The Advance Gifts division, headed by J. Mark McLaughlin, is the first division to begin its work in the current campaign.

Bob McAlister heads the Employe Gifts division, the next unit scheduled to begin its work. McAlister has called a meeting of 64 captains and workers for 7 a.m. Thursday at the Village Restaurant.

Some 45 volunteer workers will join in the Employe Gifts division. They will call on all firms with four or more employees in the city.

Meanwhile, as action was getting underway, John Boren, chairman of the campaign to raise \$41,000 for local, state, and national agencies, said the remaining divisions, some five other groups involving over 200 volunteers would hit the ground running, next week.

Time and place of these meetings are to be announced daily, Boren said.

Action in the United Fund drive

this year is being condensed into a campaign which is to end Dec. 16.

To delegate assignments and to give more local residents a part in the campaign, chairmen of the two "early-bird" divisions this week announced their lieutenants.

Employe Gifts division team captains include Doyle Gallman, Ernest Sears, George Stewart, Tommy Ivison, Roy Dunlap, Benny Pinell, and Paul Sizemore.

Mark McLaughlin, Advance Gifts division chairman, has appointed Dr. John Blum, Lyle Dettelbach, Nolan von Roeder, Bill Wilson, and Hubert Cargile as Group Chairmen.

Announcement of other team captains and dates for the additional division kickoff events will be made soon, Boren said.

Goal for the more than 250 volunteer workers which devote their time as well as their money in the campaign is \$41,000, which is \$1,500 less than last year but approximately \$4,500 more than was actually raised last year, when the Fund failed to meet the needs of our young and aged.

Funds go to national, state, and local agencies in order to combine most annual recurring fund raising into a single drive.

Groups participating include the local Boy's Club, Boy Scouts, Girl Scouts, Heart Fund, Medical Research Program, Red Cross, Salvation Army, and Texas Rehabilitation Center (formerly known as the Gonzales Warm Springs Foundation).

The Medical Research Program is the newest addition to the group. It is chartered by the national congress and obtains money through participation nationwide in United Funds and Community Chests, for work in trying to find cause and cure of all diseases, especially such mysterious killers as cancer and muscular dystrophy, Boren said.

The government said the uprising in the north was similar to the one put down at Rosario. This indicated that Peronistas also were involved there.

In both cases, the uprising was staged by armed civilians.

Insurgents in the north cut railway tracks and telephone lines, first reports from Salta said.

The army declared the uprising at Rosario had been crushed.

The government said the uprising in the north was similar to the one put down at Rosario. This indicated that Peronistas also were involved there.

Bergeron And Loyola In Contest Tie

Two contestants tied for the top spot in the final Daily News grid contest of the season, as the last big weekend of football breathed its dying gasp.

Gary Bergeron of Box 1221 and John Loyola of 2206 1/2 Street each missed the call on three occasions in deadlocking for the prize money, which will be divided equally between them. The 26-16 upset as sprang by Tulsa over a favored Houston team was the only game which both failed to hit.

Just behind that duo, with four misses, was Robert Force, 188 Milburn.

Rightist Revolts Erupt In Argentina; Town Recaptured

BUENOS AIRES, Argentina (AP)—Rightist revolts erupted today at Rosario near Buenos Aires and in two oil towns of Northern Argentina. The army said the Rosario revolt was crushed and unofficial reports said at least one of the oil towns was recaptured.

Reports from Salta in the north said armed civilians occupied oil installations and offices of the State Oil Monopoly northeast of there in the towns of Tartagal and Vespicio.

Later advices from Salta said the rebellion at Tartagal, 35 miles from the Bolivian border, had

been stamped out. There was no official confirmation here. Nor was there later word on the situation at Vespicio, 20 miles south of Tartagal.

Earlier in the day, civilian followers of ousted Dictator Juan D. Peron tried to seize the military barracks in Rosario near this capital, but were routed by troops after four hours of fighting, the government announced.

Unofficial reports said 10 persons were killed and 50 wounded. An army communique mentioned only four dead, three soldiers of the Rosario garrison and a re-

tired colonel, who was an aide to one of Peron's military chiefs. The communique said 33 persons were arrested.

The government said the uprising in the north was similar to the one put down at Rosario. This indicated that Peronistas also were involved there.

In both cases, the uprising was staged by armed civilians.

Insurgents in the north cut railway tracks and telephone lines, first reports from Salta said.

The army declared the uprising at Rosario had been crushed.

GIFT TEA—Pictured above at the gift tea held Saturday at Martha Ann Woman's Club are: Mrs. Leo Harris, left, Miss Camille Cloud, and Mrs. P. W. Cloud, mother of the bride-elect.

New Deal Washboard Cookies

HAVE A Christmas rehearsal. Make the acquaintance of these delightful cookies now. Our guess is you'll want them around for the holidays.

Why do they recommend themselves? They're thin, crisp, bland but flavorful. Just the sort of nibble that's perfect for snacks, plain or fancy, to serve with punches and egg nog at holiday parties, with simple fruit or frozen desserts or creamy custards at festive meals.

How did they happen? Last summer a reader asked us for a recipe for Washboard Cookies, describing these as "crisp with prominent coconut flavor rather than the obvious texture of coconut strands."

Beguiled by the name we tested a recipe labeled "washboard" and gave the rule, using short-cut flaked coconut. When fingered coconut recently appeared we were reminded of the original request and put it into a new and richer washboard. This one beats the other and here's the recipe:

NEW WASHBOARD COOKIES
1 cup butter
1 1/2 cup firmly-packed light brown sugar
1 egg
1 teaspoon vanilla
2 cups sifted flour
1/4 teaspoon salt
1 cup fine-grated coconut

Cream butter and sugar; beat in egg and vanilla—stir in well the flour and salt; then coconut. Chill. Form thin rectangular ridged cookies by pressing through the saw-tooth plate of a cookie press. Bake on ungreased cookie sheet in hot (400 degrees) oven for 8 minutes or until edges are browned. Makes 48.

Note: If you haven't a cookie press, roll pieces of chilled dough, about as big as walnuts, into ovals between your palms; place several inches apart, on ungreased cookie sheet. Wrap a piece of muslin, wrung out in cold water, around the bottom of a glass tumbler and press cookies thin. With sharp tines of a fork, dipped in cold water each time, draw over cookies to mark "washboard" lines. Bake in hot (400 degrees) oven 10 minutes.

Camille Cloud Honored With Gift Tea Here Saturday

The Martha Ann Woman's Club was the setting for a gift tea Saturday afternoon at 4 o'clock honoring Miss Camille Cloud, bride-elect of Mr. Alan Louis Chavis of San Antonio.

Miss Cloud, daughter of Mr. and Mrs. P. W. Cloud, Clairmont Road will exchange vows in an evening

ceremony December 28th at Trinity Methodist Church.

In the receiving line Saturday afternoon were Miss Cloud, the bride's mother Mrs. P. W. Cloud, and the bride's aunt, Mrs. Leo Harris of Big Spring.

Decorations for the tea were white, accented with red, the bride's choice. The tea table was covered with a white ruffled cloth, silver appointments, and centered with a fluted silver compote filled with red roses. Guests were seated at smaller tables, each of which was decorated with white carnations.

Mrs. Novis Rodgers presented piano selections during the afternoon.

Hostesses were: Mrs. Herman Doak, Mrs. Lee T. Stinson, Mrs. Wayne Boren, Mrs. William Alwood, Mrs. Theo Lamb, Mrs. Wilson Connell, Mrs. N. N. Rodgers, Mrs. Harry Ward, Mrs. Harold Brown, Mrs. G. B. Clark, Mrs. Weldon Johnson, Mrs. Ophelia Blackard, Mrs. Hilton Lambert, Mrs. Amos Joyce, Mrs. Ross Carroll—Mrs. R. J. Randall, Mrs. Badger Robertson, Mrs. M. L. Brogan, Mrs. B. L. McKinley, Mrs. Gene Best, Mrs. Myron Roe, and Mrs. Garrett Harrell.

Members of the faculty, junior and senior representatives to the Student Council and students formerly named to the group selected the 26 students this year for the honor.

Qualifications for "Who's Who" are leadership in extra-curricular activities, scholastic ability ("2" point grade average), possibility of usefulness in society and business and character.

Members of the faculty, junior and senior representatives to the Student Council and students formerly named to the group selected the 26 students this year for the honor.

All In The Games Etiquette For Yule Giving

AP Newsfeatures

You can wrap up a lot of vicarious living this year and put it under somebody's Christmas tree.

Whatever the ambitions of Walter Mitty-type dreams of people young or old, they come packaged this year as games. Also boxed for giving are some sugar-coated education.

Here is a run-down on packaged thrills, competitions and "think" contests on the market this year for certain people you know:

SPORTS MINDED. Athletic skills in miniature are on the upgrade. Hockey, basketball and football have a wide variety of parlor versions. Little League baseball provides 200 umpirechecked decisions for father and son to work on during winter training. Small duck-pin setups for young bowling enthusiasts are available in variations. New this year is a safe dart game with suction caps on the darts' tips that stick to a fleecy target.

SUPER-SLEUTHS. Who dunnit with plenty of clues are wrapped up with everything but the solution. Each game has a famous paperback or TV hero, such as Quick Draw McGraw, as the private eye to the rescue.

FRONTIERSMEN. Good guys, bad guys, damsels in distress, rustled cattle, crooked bankers, and angry Indians, of course, are

distributed in a number of challenging ways. Any TV addict will recognize Wells Fargo, The Rifleman, Shotgun Slide, and the like. WHIZ K! S... Outsmarting, each other is the object of games such as Concentration. A package called Puzzle, Changer produces 30 feet of men! Twisters for brainy Busters.

TEACHER'S PETS. For any age, any class, any problem is happy homework when designed around some kind of a game. There is a legal numbers game which makes fractions as easy as pie. America is divided into 50 flash cards for geography students. For potential linguists are French, Spanish cards.

Miss Wienke Performs First Duties

One of the first duties performed by Miss Joan Wienke as 1961 South Plains Maid of Cotton was participation in the coronation ceremonies at the Annual District FFA Banquet in Littlefield Monday night. She led the promenade of 17 Chapter FFA Sweetheart candidates and presented a bouquet to the winner, Miss Marilyn Nix, daughter of Mr. and Mrs. Matt Nix, Jr. of Amarillo.

First alternate was Miss Nonnie Taylor, daughter of Mr. and Mrs. A. G. Taylor, Muleshoe. The two runner-ups were Miss Laurie Shaffer, Box 283, Sudan and Miss Carol Bellamy, Box 406, Littlefield.

Leadership banners were presented to the many chapters in the district who have won various contests throughout the year. There were 300 people in attendance, the full capacity of the Littlefield High School Cafeteria. Proceedings were kept in hand by young Max Ball, President of the Littlefield FFA Chapter, who served as Toastmaster.

TWEEDY PIE — wears popcorn feed touched with velvet for chilly outings. The infection feed coat sweeps out prettily over leggings that match her costume.

FRIDAY BURGERS

Two piping hot fish sticks, plus a well buttered frankfurter bun equals a Fish - Stick Burger that makes good fare for Friday. Bake the fish sticks in a hot oven (about 400 degrees) for 20 minutes or until heated through and crisp. Toast the frankfurter buns under the broiler. Butter them generously then add the fish sticks and garnish with tartar sauce or well seasoned cole slaw.

HERE! THE TRUCKS THAT RIDE SMOOTHER, WORK HARDER, LAST LONGER!

Just a year ago, Chevy came up with independent front suspension and has already put some 300,000 Chevrolet trucks with it out on jobs.

The ride that results from Chevy's suspension design is making life a lot easier for drivers. (Just ask them.) It's taking better care of loads, the fragile kind that cost somebody money if they are bounced around. Chevy's ride also enables truck owners to revise their buying habits and work their trucks longer before they trade. This follows naturally. The trucks take less of a beating. There's less stress on sheet metal. Less abuse to tires. Less pounding that wears out parts before their time. The upshot of it is, you either save money or earn more of it or both. And you couldn't ask a truck to do more than that. See your dealer.

AS IF HE DIDN'T HAVE TROUBLES ENOUGH

Europe Ripe For Ambitious Electric Blanket Salesman

By INEZ ROBB

There is a great fortune, and perhaps his statue in the public parks, to look, awaiting the enterprising American salesman who can convert Europe to the electric blanket.

It is amazing, come to think of it, that no shrewd Yankee peddler has yet hit on this easy way to fame and fortune. True, the European, North to South, has been wedded for some time to that postage-stamp feather bed or comforter under which he sleeps summer and winter. (Yup, summer as well as winter I have had to fight that feathered enemy, and never won a decision yet.)

Americans for generations before the invention of the innerspring mattress slept on feather beds, but never under them. So the European habit of putting the feather bed on top and the body under, death is disconcerting to begin with. It leads to nightmares of smothering in a hon house.

Furthermore, the feather quilt is always a meter wide and a scant five feet long. The consequence is that a six-footer like my husband must nightly make the difficult choice of keeping either his feet or his Adam's apple toasty. It's impossible to do both.

Nor is this all. The feather coverlet has a life of its own and goes independent way, usually to the floor. No one has ever been able to obtain any purchase or governance over it. That is aggravated by the European habit of covering such bedding in sleek satin or silk.

Again, if the darned things stay put, they are much too heavy, a real weight. And if they don't, they are more likely, the guest spends the night coaxing them up off the floor and onto the bed.

Now, with the Americanization of Europe, amid great lamentations, going on apace, is the time to advance the electric blanket. Every place the American turns he is met by American signs and institutions. The words "quick" and "sell," in a sort of neon shorthand all over Europe, proclaim (1) quick service and (2) self service. And it is sometimes discouraging to look for a quiet little native luncheon place that doesn't proclaim itself a "snack bar."

"Grand standing" on the sign in front of a new apartment house means the joint is very high class. The new American drug store on the Camps Elysees near the Eiffel is so sensationally popular with the French that an American can hardly shoehorn his way in. Furthermore, this store, with its soda fountain, turning out horrendous ice cream concoctions that begin where the royal banana split leaves off, kills once and for all the conviction that the average Frenchman is an exquisite gourmet with an educated palate no American can ever hope to develop. The average Frenchman is in the American drug store in force, eating monstrous preparations that would choke an American teenager at the Sugar Bowl.

The esthetes abroad may deplore this Americanization, but the average European citizen loves it—which makes me believe he is ripe for the electric blanket, positively the greatest invention since cotton candy.

There is also another fortune to be made. (I'm not really a philanthropist in giving away these rich ideas; I'm just the world's worst promoter.) The American in Italian who first decides to stock American cities with the new Fiat 600 taxicabs is going to come up a Croesus.

These little cabs, which we first encountered in Milan, look a bit like a shrunken Volkswagen station wagon. Yet some genius has designed these small taxis so that the passenger has more head and leg room than in any taxi I have been in for years, except the old fashioned, high-backed cabs that make a visit to London such a joy.

The Fiat turn on a lira, too. They are a boon to traffic and passengers. Speed the day.

(Copyright, 1960, by United Feature Syndicate, Inc.)

Salesman Doesn't Need Second Look

ONTARIO, Calif. (AP)—Answering the doorbell, a housewife tripped over her son's toy gun and picked it up.

The salesman she confronted turned pale and ran, vaulting a 3-foot fence.

Mrs. Bernard Pennino told police Tuesday she then discovered her son, Jimmie, 15, had put on the front door a sign reading: "We shoot every third salesman, and the second one just left."

Shoppers Given Early Yule Gift

VENTURA, Calif. (AP)—Downtown shoppers get a Christmas gift—no parking meter fees—starting Dec. 7.

Decorative bags covering meters will explain there's still a two-hour parking limit.

Merchants suggested the idea, to which the city agreed, though noting it will lose about \$2,750 in meter revenues.

Trellis Mae Has Formula To Get Fur

By HAL BOYLE

YOURVILLE, U.S.A. (AP)—Trellis Mae Peeble, America's most average housewife, is getting a new fur coat for Christmas. Listen to her tale, ladies—it may show you a way to get a fur coat, too.

One evening early last week Wilbur Peeble was lying on the sofa, dressed in his pajamas and robe, and drinking a can of beer as he watched a posse on the television screen riding to head off the rustlers at Eagle Pass.

The doorbell rang. Wilbur grunted, rose and opened the door.

There stood Miss Hortense Schlemm, the pretty blonde secretary who lived in the apartment overhead with her widowed mother. Hortense was clad only in a filmy pair of pajamas.

She stepped quickly into the room and asked, "Where's Trellis Mae?"

"Playing bridge with some of her biddy buddies," replied Wilbur. "But she should be back any moment. Why, what's up?"

"Well, silly me!" said Hortense. "I went out in the hall to put something in the incinerator, and the darned old door locked shut after me."

"My mother's asleep in the bedroom. I rang and rang the doorbell but I can't wake her up. I hate to go down in the elevator—dressed like this—to borrow a key from the superintendent. I wonder if you'd mind doing it for me."

"Sure thing," said Wilbur. "Soon as I toss on a few clothes. Here, let me fix you a beer while you're waiting."

He got Hortense the beer, then disappeared into the bedroom. Wilbur had time only to slip into his pants and one slipper when the bell rang again.

He hurried to the door carrying the other slipper in his hand. It was his wife, Trellis Mae.

"Well, aren't we cozy?" she said cooly.

Wilbur accidentally looked himself out," he said lamely. "I was just going down to get a key."

"You sure thought that one up fast, didn't you?" said his wife. When Wilbur returned later after letting Hortense into her apartment, Trellis Mae was already in bed with her face turned to the wall.

For days she gave Wilbur the silent treatment. On Saturday, just before he was leaving for the golf course, he crumbled.

"You know that fur coat you been wanting for 15 years," he pleaded. "I'll give it to you for Christmas if you'll just tell me you believe me. Honest, there's nothing between Hortense and me."

"Okay," said Trellis Mae, majestically. "I forgive you—this time."

As soon as Wilbur left, Trellis Mae ran like a squirrel to the apartment above, where Hortense and her mother were having coffee.

"It worked!" she cried. "He's going to give me the fur coat!"

Delayed By Weather

SAN FRANCISCO (AP)—The U. S. Weather Bureau's San Francisco office Tuesday night transmitted this advisory note on its teletypewriter network: "Forecast delayed by bad weather."

MODEST MAIDENS

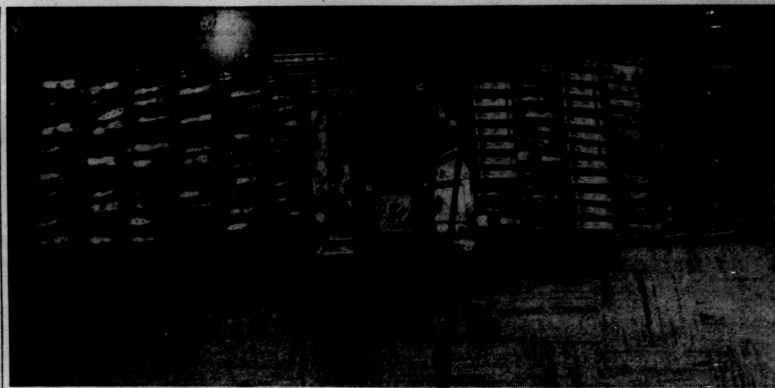

BETTER LIVING, INC., HEADQUARTERS—D. M. Cogdell Sr., who has developed properties in the Cogdell Center area of South Snyder, looks over the new building he has constructed to house Better Living, Inc., a new business firm which opens its doors for a grand opening event tomorrow at noon. The huge building provides 15,000 square feet of space for Better Living, Inc., plus space for other facilities.

TOYS GALORE—There's little if anything left to consider when a youngster looks over the spacious toy department at Better Living, Inc., which opens tomorrow. The firm has everything from large wheel goods to the smallest play items made.

PARADISE FOR SHOPPERS—Television and Hi-Fi sets take over in the foreground, with gift items and home accessories at the midway point and displays of crystal in the background of this scene at Better Living, Inc. The view here represents only a "corner" of the huge store which takes in 15,000 square feet. Better Living, Inc., has scheduled its grand opening for tomorrow.

TEXAS SIZE TACKLE BOX—Yep, that's a tackle box, and what a tackle box! It opens up to a width of 154 inches, has compartments for 132 separate fishing lures, along with space for reels and other equipment. It is one of the standouts in the sporting goods department at Better Living, Inc., which has its grand opening tomorrow.

Opening Event Set By 'Better Living'

Better Living, Inc., this area's newest shopping mecca, will open its doors tomorrow in modern new quarters at the Cogdell Center in South Snyder.

The store with practically everything an American shopper might desire from home appliances to toys and gift items and sporting goods, is one of the most spacious establishments in West Texas.

Some 15,000 square feet of floor area is divided into departments filled with new merchandise.

Many of the items in stock represent merchandise that has not been available before in Snyder, according to Dan Warren, manager of Better Living, Inc.

Warren said the store was established to fill a vacancy which has existed in shopping facilities in this immediate area. It brings together a wide variety of merchandise which the management hopes will enable Snyder area shoppers to purchase in their home town for the first time.

Moreover, Warren said Better Living, Inc., will welcome suggestions from Snyder citizens on the type of merchandise they would like to see the store carry.

Many famous brands are on hand, of course.

Most shoppers will recognize such nationally-known products as fishing equipment by Shakespeare, Mitchell - Garcia and Bronson; Black and Decker power tools; Motorola TV and Hi-Fi sets; Admiral TV sets; Kelvinator home appliances, along with gas ranges by Roper and Hardwick.

Also, there is a well-stocked record department for the Hi-Fi and all other type of record-player fans.

Gift items are plentiful in displays which make for convenient shopping, and the toy department is stocked and arranged to delight the youngsters. There are numerous small toys, dolls, etc., along with all types of wheel goods.

Of course items designed for the Christmas season add a colorful atmosphere to the opening-day stock, but there will be scores of gift ideas on hand for year-around shopping. Such things as artificial fruits, brassware, wicker basketware, woodware, lamps, luggage, pottery and crystal are featured.

There is a complete home decorations department, featuring Pittsburgh paints, drapery and upholstery fabrics and all types of floor coverings, including carpeting and tile.

Local sportsmen will find plenty to attract them. The new firm boasts the biggest selection of fishing lures, plugs, etc., in this section of Texas. Other items, of course, are stocked on a comparable basis.

Passenger Train Runs Out Of Fuel

SPRINGFIELD, Mo. (AP) — A Frisco Railroad passenger train ground to a halt 12 miles west of Springfield Tuesday. A short time later an embarrassed crew told passengers there was no fuel for the diesel engines.

Engineer R. Cochran of Tulsa, Okla., got word to Springfield and a fuel truck was dispatched to the stalled train.

JUNIOR EDITORS QUIZ ON CONSTRUCTION

QUESTION: Why do we call it "Portland cement?"

ANSWER: Cement was known in the ancient Romans and the word itself comes from the Latin "cementum," which means pieces of rough uncut stones. Some of the roads, bridges and buildings constructed of cement in the time of Julius Caesar are still fairly sturdy today. The cement made by the Romans was a mixture of the ashes of lava from volcanoes and lime obtained from burnt marble. When the Roman Empire ended, it seemed the art of cement making ended with it. Then in 1756, it was rediscovered by an Englishman who was trying to find a substance which would harden under water—just as the Roman cement did. Portland cement—the most widely used in the world—was invented in 1824 by Joseph Aspdin of Leeds, England, who discovered he could make a better cement by powdering, burning and grinding the materials which he himself mixed than by using the materials in their natural form. He named his cement "Portland" because the concrete resembled a hard stone quarried on the Isle of Portland. Cement is made of lime, silica and alumina, which have been ground into a fine gray powder.

FOR YOU TO DO: See if you can discover the number of uses for cement in your home area.

(Barbara Muller of Windsor, Pa., wins \$10 for this question. Mail your question on a postcard to Violet Moore Higgins, AP Newsfeatures, in care of this newspaper.)

Tragedy Is Described By Boy, 12

LAMONT, Ala. (AP)—"I heard a bang and the next thing I knew I was sitting in a ditch. Then Keith Tompkins, 12, described the moment when 16 of his high school classmates were killed Tuesday as a Canadian National Railway freight train slammed into their school bus.

"Only one of the 42 persons aboard the bus was uninjured. Twenty-five were injured, 10 seriously.

"The train was traveling about 50 miles an hour, railroad officials said, when it struck the bus at a crossing a quarter-mile outside this central Alabama town.

"The breaking train pushed the wreckage ahead of it into town, streaming some of the victims along the snow-covered tracks in subzero temperatures.

"Keith's brothers, Tom, 13, and Robert, 15, were in the rear of the bus when the train struck it squarely in the middle.

"I found Tom in the wreckage," Keith said. "He didn't know where he was. Robert was walking up the tracks, looking a little dazed."

Rescuers needed a tractor and

acetylene torches to release some of the injured.

Citizens near the crash scene said the driver, Frank Butney, 27, one of the survivors, may have been blinded by the sun as he drove up the inclined approach to the crossing.

Jimmy Winnick, the only student to escape injury, told reporters he did not remember the bus stopping.

10 The Snyder (Texas) Daily News, Wed., Nov. 30, 1960

Conley And Ward Address QB Club

The curtain was rung down on the final Quarterback Club meeting of the season here in the high school cafeteria last night, with a business session and basketball briefing sharing the agenda for the evening.

Grid coach John Conley expressed thanks and appreciation in behalf of the coaching staff to club members for the support shown the team over the past season, and also lauded the team itself for the combined effort as displayed in the 26-29 bi-district loss of last week at the hands of Brownwood.

He announced that with only one probable exception the 1961 Tiger grid slate would be identical to that of the year just past. Insertion of Kermit in the place of Odessa Permian is in the offing, although confirmation is still forthcoming but expected in the next few days. Permian, a team which has encountered Snyder this year and the last, winning both games, is being placed on a stricter schedule as far as any non-district play is concerned, as this coming year will see two new teams representing Abilene and Midland making their debut in District 24A along with the present "old hands."

Cape coach J. P. Ward presented a sketch on the basketball prospects for the season at hand, commenting that, "I believe that our ball club will be better since we've got quite a few lettermen returning whose experience should help considerably."

He commented that the varsity squad now numbers 12, while "B" team mentor V. V. Shearburn has as a working nucleus 20 performers at present.

"We're going to have quite a bit of competition for positions," he mentioned further, "and that close competition should help our club."

Of the 12 varsity players out as of this date, eight are seniors and four juniors. Of that total, only four are returning lettermen.

Who's the "one to beat" in District 24A this year?

"Lamesa looks to be the strongest," Ward opined. "They've got three starters back from their state championship team and also their number six, seven, and eight men from the squad. They should be able to replace the two starters they lost adequately, too. I would think."

The next toughest?

"Sweetwater," he countered, "as they've got two very good players over there plus (Billy) Belew. He (Belew) may not have the basketball ability of some of the others, but he's a big enough where he can work the boards well and should help the team a lot."

Pears should be picked while still a little green, allowed to ripen in a cool basement.

MOVE NOT UNEXPECTED

King Named To Top Tech Post

By HAROLD V. RATLIFF
LUBBOCK, Tex. (AP) — Texas Tech had a new football coach today—J. T. King—but it was no surprise that the assistant coach had been promoted to the head job.

Dewitt Weaver, head coach and athletic director at Tech for 10 years, started talking about resigning last summer to go to Mobile, Ala., to enter private business.

King, Weaver's first assistant and chief recruiter, was immediately projected as Weaver's successor. In fact, he was to have taken over the job if Weaver quit before football season.

But Weaver waited until the season was over before resigning. Polk Robinson, the basketball coach who had been with Tech for 25 years, was made athletic director. He, in turn, recommended the 47-year-old King as coach and Tuesday night Dr. R. C. Goodwin, president of Texas Tech, announced the appointment.

King becomes the head coach after 15 years as assistant at Texas Tech.

Coaches Ned Underwood of Lamar Junior High and Bill Hartsfield of Travis gave thumbnail sketches of the prospects and turnouts as registered in their respective schools at the start of the cage season, both indicating that a large number of boys are participating in the sport at present.

The meeting was capped off with the filming of the Snyder-Brownwood game as narrated by Coach Conley.

HEISMAN TROPHY WINNER

Lunch With JFK

Joe's Objective

By HERR THOMPSON
ANNAPOLIS, Md. (AP)—Personal note to Sen. John F. Kennedy, president-elect and sometime touch football player.

Navy halfback Joe Bellino would like to have lunch with you. He figures it would be the perfect end to an unbelievable football season.

Bellino Tuesday won the Heisman trophy as the nation's outstanding college football player of 1960, outpacing Minnesota guard Tom Brown, Mississippi quarterback Jake Gibbs and Auburn fullback Ed Dyas in national balloting.

The day before he had won the Maxwell trophy, given for the same honor.

He also is making a host of post-season honor teams as a result of scoring 110 points, leading Navy to a 9-1 season record. No 11 national ranking and an invitation to the Orange Bowl.

The flood of honors has Bellino, a Sicilian immigrant from the Boston suburb of Winchester, Mass., in something of a spin. But he said there is just one more thing that would make his season complete.

"I'd like to be invited to have lunch with another Boston resident who also has had a good year — President-elect Kennedy," Bellino told newsmen.

He capped an outstanding season by starring in Navy's 17-12 victory over Army last Saturday. Later, in New York for an appearance with the coaches. All-America team on the Ed Sullivan show, the stocky midshipman was surprised to find people recognized him on the street.

Bellino remarked, "I still can't believe it. It's hard for me to realize that Joe Bellino from Winchester, Mass., walks down Broadway."

First round action will begin tomorrow at 3 p.m., when the Ira "B" team girls go up against the Gail girls. Rounding out the first day's firing will be Forsan vs. Gail at 4:15, Hermleigh girls vs. Fluvanna at 5:30, Hermleigh vs. Fluvanna at 6:45, Ira Girls vs. Flower Grove at 8, and Ira vs. Flower Grove at 9:15.

Completion of first round play will be accomplished Friday afternoon, when the Highland and Westbrook girls clash at 9 o'clock, to be followed by the boys game between the same two schools at 4:15. Four consolation and championship semi-final tilts will be staged Friday following those two games.

Finals in both the championship and consolation brackets will be staged Saturday night.

BOWLING

King, Weaver's first assistant and chief recruiter, was immediately projected as Weaver's successor. In fact, he was to have taken over the job if Weaver quit before football season.

WHAT'S MY LINE? — Frank Minton, instructor at Tiger Bowl here, recently distinguished himself in rolling a 720 series during open bowling competition. In coping the steller series, he marked up individual lines of 269-266-183.

The 26th annual award by the Downtown Athletic Club of New York will be presented at a dinner there Dec. 8. Bellino is the first Navy player to win it. It was won last year by Billy Cannon of LSU.

Bellino received a total of 1,793 points, including 436 first place votes—in the balloting by 1,130 selectors. His total was more than 1,000 points over Brown, the runnerup.

Adm. Davidson, who described Bellino as "tops in the football world and 3rd in the finest organization in the world," summed up a typical academy attitude when he told Bellino: "I wish we could hug (hunk) you and keep you another year."

WATER SOUGHT BY ROTAN—Mayor J. M. Morrow and City Council Secretary Mrs. R. R. Gray of Snyder, Texas, in a meeting of the Snyder City Council last night. From left are Snyder Mayor John Hamblen, Snyder Councilman Russell Yorgensen, Mrs. Gray and Morrow. (Staff Photo by Gerry Burton)

ROTAN SEEKS WATER

Election Ordinance Signed By Council

An ordinance setting machinery in motion for an election on the city charter was signed by city councilmen in a special meeting last night with a second reading on the ordinance set for Dec. 20.

Present for the meeting were members of the Rotan City Council exploring the possibility of buying water from Snyder.

Snyder councilmen heard the ordinance read and signed it without comment, having instructed City Attorney W. W. Park to prepare the paper to call an election in accordance with a petition presented to the council by Snyder residents. The petition asks that the city-manager type government be revoked, that the position of police chief be abolished in favor of an elected city marshal, and that no land be annexed to the city without full consent of residents of the area.

A city election would be cheaper than fighting the issue of additional names being added to the petition after the petition was in the process of being refused for lack of sufficient names, councilmen agreed in accepting the additional names at a called meeting Monday.

Park told the council that no precedent had ever been set on that point on which Robert Patterson, attorney for the petitioners, had filed for a preeminent mandamus, ordering the city to call the election, in 132nd District Court.

Following the ordinance session, the Rotan City Council dumped their future water problems in the lap of the Snyder council in a request that they be allowed to buy water from Snyder.

In appealing for the grant, Rotan Mayor J. M. Morrow stated that so far they had enough water, getting their municipal supply from wells in the Camp Springs area. However, Mayor Morrow said that as each well went dry, the problem was getting worse and they would rather have a definite commitment to ease future worries.

Discussion centered upon the cost of water should Snyder be allowed by the water district to make arrangements with Rotan, with all council members agreeing that all indebtedness being paid off by the citizens of Snyder concerning the filter plant and cost of maintenance at the lake and production of water at Lake J. B. Thomas should be included in the price Rotan would pay for the water.

By buying more water from the lake, Snyder water rates would be lower as water rates are proportioned to amount used. The cost to both would fluctuate.

"There's one thing, though," Mayor John Hamblen stated, "if we get in a tight about water, you

have to share the tight with us. This statement followed expressions of concern by the council over shortages which could arise in the future.

City Manager Roy Dunlap told the assembly that in the future water in West Texas would be worth whatever it cost to get it, adding that the three cities (Snyder, Big Spring and Odessa) comprising the Colorado River Municipal Water District had more water commitments than they could share than any three cities in the world.

The problem was left for future discussion with the CHMWD with arrangements to be worked out if at all possible.

Other Rotan council members present were C. E. Atwell, Lon Adams, C. J. Thornton, Carlton Burrows, and Mrs. R. R. Gray who is council secretary.

They were accompanied by Snyder Attorney Arthur Blanchard.

Louisiana Interposition Ruling Made By 3 Judges

NEW ORLEANS (AP)—Three federal judges ignoring catcalling demonstrations for segregation today swept aside every state-raised barrier to school integration and enjoined nearly all Louisiana officials from interfering.

"The conclusion," read the opinion, "is clear that interposition is not a constitutional doctrine."

Interposition is a theory by which a state puts its sovereignty between the federal government and the people of the state.

And, later added: "Without support of the interposition act, the rest of the segregation 'package' passed by the Legislature falls of its own weight."

Further, the tribunal knocked out what it called "a series of measures which purport to abolish the Orleans Parish School Board."

State Rep. John Garrett of Chalmette Parish in the Louisiana Delta country in northeast Louisiana where segregation sentiment runs high, said the Legislature would continue to fight despite the decision.

Gov. Jimmie H. Davis declined immediate comment.

State Sen. French Jordan of Gretna, across the Mississippi River from New Orleans observed: "I don't know what we are fixing to do, but we are fixing to do something and I'm going to be for it. Our work is cut out for us."

Atty. Gen. Jack Gremlion left the state capital hurriedly for New Orleans.

While the court made public its decision, angry housewives and mothers thronged outside the home of a white Methodist minister whose five-year-old daughter continues to attend one of the city's two integrated schools, William Frantz Elementary.

The women jeered and yelled but the Rev. Lloyd Foreman already had spirited his daughter into her kindergarten class by the back door.

Foreman was target of similar demonstrations Tuesday when he took his daughter to school by the front door.

The three judges had been asked to rule on two motions: One by the Orleans Parish School Board asking suspension of integration until references between state and federal governments had been resolved.

Another by the state asked abandonment of all integration permanently.

The judges said: "Though we be persuaded of the school board's good faith, there can be no question of delaying still further the enjoyment of a constitutional right which was solemnly pronounced by the Supreme Court of the United States more than six years ago."

Sitting on the tribunal were Chief Judge Richard T. Rives of the Fifth U.S. Circuit Court of Appeals, U.S. Dist. Judge Herbert W. Christenberry, and U.S. Dist. Judge J. Skelly Wright.

Judge Wright issued the original integration order and set Nov. 14 as the final effective date to comply with it.

In its sweeping decision, the judges issued temporary injunctions against Gov. Davis, a number of state officials and the State Legislature to prevent them from stopping integration.

These individuals had been under a similar temporary restraining order.

The women demonstrators in front of Foreman's home crowded into an adjoining yard under police pressure and soon dispersed.

A bit later they went to the home of Mrs. James Gabrielle, a white mother whose daughter also attended William Frantz School Tuesday.

Mrs. Gabrielle became incensed under the shouting and insults and banged one demonstrator over the head with her pocketbook.

The continuing boycott of William Frantz and McDonogh No. 19 schools held firm at Tuesday level, news observers believed. Four white girls and one Negro girl attended William Frantz Tuesday; three Negro girls and no white students attended McDonogh.

An old state law may be used to close the two schools. The law, passed in 1922, says schools with less than 10 students may be kept open through a motion of the parish school board approved by the State Board of Education.

SETTING THE EXAMPLE—Workers set the example by making their own contributions to the Scurry County United Fund campaign this morning, as the Advance Gifts Division launched its drive. From left are Wendell Shifflett, Nolan von Roeder, Mark McLaughlin, Mel Gilbert and John Boren. Gilbert is president of the United Fund, while Boren is general campaign chairman and McLaughlin heads the Advance Gifts Division.

United Fund Units Launch '60 Campaign

The Advance Gifts division of the Scurry County United Fund campaign went into action this morning at a kickoff breakfast, and another unit will join the campaign tomorrow.

The Advance Gifts division, headed by J. Mark McLaughlin, is the first division to begin its work in the current campaign.

Bob McAlister heads the Employee Gifts division, the next unit scheduled to begin its work. McAlister has called a meeting of 1 captains and workers for 7 a.m. Thursday at the Village Restaurant.

Some 45 volunteer workers will join in the Employee Gifts division. They will call on all firms with four or more employees in the city.

Meanwhile, as action was getting underway, John Boren, chairman of the campaign to raise \$41,000 for local, state, and national agencies, said the remaining divisions, some five other groups involving over 200 volunteers would hit the ground running, next week.

Time and place of these meetings are to be announced daily, Boren said.

Action in the United Fund drive this year is being condensed into a campaign which is to end Dec. 16.

To delegate assignments and to give more local residents a part in the campaign, chairman of the two "early-bird" divisions this week announced their lieutenants.

Mark McLaughlin, Advance Gifts division chairman, has appointed Dr. John Blum, Lyle Delfebach, Nolan von Roeder, Bill Wilson, and Hubert Cargile as Group Chairmen.

Announcement of other team captains and dates for the additional division kickoff events will be made soon, Boren said.

Goal for the more than 250 volunteer workers which devote their time as well as their money in the campaign is \$41,000, which is \$1,500 less than last year but approximately \$4,500 more than was actually raised last year, when the Fund failed to meet the needs of our young and aged.

Funds go to national, state, and local agencies in order to combine most annual recurring fund raising into a single drive.

Groups participating include the local Boy's Club, Boy Scouts, Girl Scouts, Heart Fund, Medical Research Program, Red Cross, Salvation Army, and Texas Rehabilitation Center (formerly known as the Gonzales Warm Springs Foundation).

The Medical Research Program is the newest addition to the group. It is chartered by the national congress and obtains money through participation nationwide in United Funds and Community Chests, for work in trying to find cause and cure of all diseases, especially such mysterious killers as cancer and muscular dystrophy, Boren said.

who, in turn will use approximately five workers to make 25 calls.

Employee Gifts division team captains include Doyle Gallman, Ernest Sears, George Stewart, Turney Iverson, Roy Dunlap, Benny Pinnell, and Paul Sizemore.

Mark McLaughlin, Advance Gifts division chairman, has appointed Dr. John Blum, Lyle Delfebach, Nolan von Roeder, Bill Wilson, and Hubert Cargile as Group Chairmen.

BOB McALISTER Employee Gifts Chief

Bergeron And Loyola In Contest Tie

Two contestants tied for the top spot in the final Daily News grid contest of the season, as the last big weekend of football breathed its dying gasp.

Gary Bergeron of Box 1221 and John Loyola of 2306 1/2 3rd street each missed the call on three occasions in deadlocking for the prize money, which will be divided equally between them. The 26-16 upset as sprung by Tulsa over a favored Houston team was the only game which both failed to hit.

Just behind that duo, with four misses, was Robert Forre, 108 Milburn.

WEATHER

SNYDER TEMPERATURES: High Tuesday, 35 degrees; low, 25 degrees; reading at 7 a.m. today, 25 degrees.

North Central Texas: Fair this afternoon; increasing cloudiness tonight and Thursday. A light breeze; low tonight 30 to 35; high Thursday 40 to 47.

Northwest Texas: Considerable high cloudiness and a little warmer through Thursday. Low tonight 32 to 35; high Thursday 40 to 47.

Northeast Texas: Fair and cool this afternoon and tonight. Thursday morning cloudiness and a little warmer. Low tonight 28 to 35; high Thursday 40 to 47.

Coast: Small craft warnings are displayed for northerly winds 15 to 30 knots this morning and gradually diminishing tonight and Thursday.

South Central Texas: Fair through Thursday. Rather cool again tonight with near freezing temperatures in extreme north and scattered frost elsewhere about extreme South Texas. Lowest tonight 28 to 32; high 40 to 45 in south. High Thursday in 40.

Southeast Texas: Fair and continued cold through Thursday. Near freezing with scattered frost early Thursday. Lowest tonight 30 to 40; high Thursday 35 to 40.

Southwest Texas: Fair and not quite so cold through Thursday. High temperatures in north tonight with scattered frost elsewhere. Lowest tonight 25 to 30; high 35 to 40 in south. High Thursday in 40.

Rightist Revolts Erupt In Argentina; Town Recaptured

BUENOS AIRES, Argentina (AP)—Rightist revolts erupted today at Rosario near Buenos Aires and in two oil towns of Northern Argentina. The army said the Rosario revolt was crushed and no official reports said at least one of the oil towns was recaptured.

Reports from Salta in the north said armed civilians occupied oil installations and offices of the State Oil Monopoly northeast of there in the town of Tartagal and Vespucio.

Later advices from Salta said the rebellion at Tartagal, 35 miles from the Bolivian border, had been stamped out. There was no official confirmation here. Nor was there later word on the situation at Vespucio, 20 miles south of Tartagal.

Earlier in the day, civilian followers of ousted Dictator Juan D. Peron tried to seize the military barracks in Rosario near this capital, but were routed by troops after four hours of fighting, the government announced.

Unofficial reports said 10 persons were killed and 50 wounded. An army communique mentioned only four dead, three soldiers of the Rosario garrison and a retired colonel who was an aide to one of Peron's military chiefs. The communique said 33 persons were arrested.

The government said the uprising in the north was similar to the one put down at Rosario. This indicated that "Peronistas" also were involved there.

In both cases, the uprising was staged by armed civilians.

Insurgents in the north cut railway tracks and telephone lines, first reports from Salta said.

The army declared the uprising at Rosario had been crushed.

21 SHOPPING HITS ALL CHRISTMAS

TO BE A FOOTBALL HERO, you first of all have to know which end of the shoulder pads are up as Judy Huddleston, assistant director of the Snyder High School Junior Play set for Thursday and Friday, found out at dress rehearsal Tuesday night. One of the football players in "Ever Since Eve" failed to show up and it was a dress rehearsal—so Judy dressed with the "help" of Charles Lieb and Riley Booth. A five minute tug of war finally got the shoulder sections in place complete with jersey.

Payment To Creditors Of ICT Okayed

AUSTIN (AP)—Dist. Judge Charles Betts authorized today a dividend payment of 35 per cent on the claims of general unsecured creditors of the defunct ICT Insurance Co.

As of Nov. 29, state receiver C. H. Langdon informed the 10th District Court that he had \$1,106,118 cash and that approved claims classified as "general unsecured" total \$3,332,057.

Langdon reported he has pending claims of \$386,973 which if approved would also fall into the general and unsecured classification.

The order by Betts also established a reserve of 35 per cent against all pending claims and to pay such dividends on pending claims as they are approved.

Former Resident Of Hermleigh Dies
 Funeral services for Mrs. J. H. Marshall, 69, a former resident of Hermleigh, were to be held this afternoon in Rockport, where she died Monday night.

Mrs. Marshall came to Scurry County with her parents, Mr. and Mrs. T. J. Peterson in 1900.

She is survived by three sisters, Mrs. W. L. Murphy of Amarillo and Mrs. Arlie McMillan and Mrs. W. L. Elmerage, both of Snyder and three brothers, George, Joe and Woodrow Peterson, all of California.

Science Shrinks Piles
 New Way Without Surgery
 Stops Itch—Relieves Pain

New York, N. Y. (Special)—For the first time science has found a new healing substance with the ability to shrink hemorrhoids, stop itching, and relieve pain—without surgery.

In case after case, while gently relieving pain, actual reduction (shrinkage) took place.

Muscleman of all—results were so thorough that sufferers made astonishing statements like "Piles have never been so bad."

The secret is a new healing substance (Bio-Dyne)—discovery of a world-famous research institute. This substance is now available in apposition or ointment form under the name Preparation H®.

At all drug counters.

Two's a crowd in your laundry... save space with a Duomatic

New Philco-Bendix Duomatic washes and dries clothes... fits anywhere a washer will

Only 26 1/2 inches wide, it's like a magic hamper that fits in any convenient spot in your kitchen, bathroom... wherever you wish. Washes and dries in one continuous operation... saves time, work, space, money. Duomatics priced as low as \$329.95.

Nearly half a million homemakers now laundries the modern Duomatic way.

Pack 34 Meeting Set For Friday

Members of Den 3, Pack 34, are reminded of the weekly Friday meetings held at 3008 Avenue J by den mother Mrs. Louise Holland.

A special pack meeting in which achievement awards and pins will be presented is scheduled for December 13.

Pack members include Buck O'Neal, J. L. Holland, Richard S. Jones, Dennis Palmer, Pat Smith, Jon Holdren, Bruce Allen, Tony Alvarez, Albert Alvarez, Wayne Holdridge, Bobby Watson, Dennis Watson, Bobby Smith, Tony Minor, and David Sager.

Davis Conviction Upheld By Court
 Conviction of Anderson Davis Jr. in County Court here on a liquor count has been affirmed by the Texas Court of Criminal Appeals.

Davis was convicted and assessed a \$300 fine and 60 days in jail in each of three cases heard by County Judge J. Ray Martin here last Aug. 9. Davis had changed his pleas in the cases to guilty after pleading innocent on the cases at the original hearing on July 23, July 29 and Aug. 1.

Blasts Hit Havana
 HAVANA (AP)—Eight bombs exploded in various sections of Havana early today. There was considerable damage to electric and water installations and one man was injured seriously in this sabotage, attributed to forces of Prime Minister Fidel Castro.

At the sound of an alarm an operator seated himself at a console of flashing lights and dials with nervous needles. Centered in the middle of the Pacific Missile Range at Point Mugu, the pictures and the infrared data had been received by microwave radio and were being processed and studied.

Within two hours, the photographs of clouds snapped by the satellite would be in the hands of Navy, Air Force and civilian weather forecasters thousands of miles away.

Fantastic as all this may seem, Tires II actually has not accomplished much so far because one of its two TV cameras—the one which was supposed to cover an area of 30,000 square miles—wasn't working properly.

Eventually after many of these satellites have been launched, weathermen will know what's brewing upstairs all around the world. This will mean safer travel, quicker storm warnings and better odds that you need never be caught in the rain without a slicker.

A sister, Lois T. Everett, said she tried to telephone Mrs. Hannah several times and finally went over to the house with a friend. When nobody answered the door they called police who forced an entrance.

"I'm so glad you came," said Mrs. Hannah. "I'd about given up."

At the push of a button the 280-pound satellite began radiating pictures it had taken and stored during its previous orbit. This finished, it began chattering into the giant ear what it had learned about the way the earth absorbs and radiates the sun's heat rays.

Forty minutes later it was all over. The satellite had rushed on beyond the southern horizon. Fifty-five miles away, in the headquarters of the Pacific Missile Range at Point Mugu, the pictures and the infrared data had been received by microwave radio and were being processed and studied.

Giant Ear Keeps Eye On Satellite

By RALPH DIGITON
 SAN NICOLAS ISLAND, Calif. (AP)—On this barren, gullied clod of earth 55 miles off the California coast man has cupped a giant ear to the heavens.

Today this ear, a dish-shaped antenna 60 feet in diameter, is listening to a satellite 450 miles high which photographs the world's weather and measures the heat the earth receives from the sun.

Sometime next year it will begin listening to another kind of satellite—one with a man in it. This antenna and others in the network around the globe will keep ground scientists informed around the clock when America's astronauts venture into orbit.

Newsmen got their first look at this new and heretofore secret tracking facility of the National Aeronautics and Space Administration Tuesday as the robot weather man, Tires II, made its 92nd circuit of the globe.

At the sound of an alarm an operator seated himself at a console of flashing lights and dials with nervous needles. Centered in the middle of the Pacific Missile Range at Point Mugu, the pictures and the infrared data had been received by microwave radio and were being processed and studied.

Within two hours, the photographs of clouds snapped by the satellite would be in the hands of Navy, Air Force and civilian weather forecasters thousands of miles away.

Fantastic as all this may seem, Tires II actually has not accomplished much so far because one of its two TV cameras—the one which was supposed to cover an area of 30,000 square miles—wasn't working properly.

Eventually after many of these satellites have been launched, weathermen will know what's brewing upstairs all around the world. This will mean safer travel, quicker storm warnings and better odds that you need never be caught in the rain without a slicker.

A sister, Lois T. Everett, said she tried to telephone Mrs. Hannah several times and finally went over to the house with a friend. When nobody answered the door they called police who forced an entrance.

"I'm so glad you came," said Mrs. Hannah. "I'd about given up."

Hopes For Coed Fade

PORTLAND, Ore. (AP)—Hopes slowly faded for the life of Beverly Ann Allan, 19, a Washington State University sophomore from Port Townsend, Wash., who disappeared while on a Saturday night date with Larry Ralph Peyton, 19, a Portland State College student.

Police said they were going on the theory that at least two men attacked the young couple as they sat in the front seat of his car. His skull had been fractured and he had been stabbed 23 times.

Police said they had found no trace of the girl in two days of combing the woods in that area.

At the push of a button the 280-pound satellite began radiating pictures it had taken and stored during its previous orbit. This finished, it began chattering into the giant ear what it had learned about the way the earth absorbs and radiates the sun's heat rays.

Forty minutes later it was all over. The satellite had rushed on beyond the southern horizon. Fifty-five miles away, in the headquarters of the Pacific Missile Range at Point Mugu, the pictures and the infrared data had been received by microwave radio and were being processed and studied.

GIFT TEA—Pictured above at the gift tea held Saturday at Martha Ann Woman's Club are: Mrs. Leo Harris, left, Miss Camille Cloud, and Mrs. P. W. Cloud, mother of the bride-elect.

New Deal Washboard Cookies

HAVE A Christmas rehearsal. Make the acquaintance of these delightful cookies now. Our guests in you'll want them around for the holidays.

Why do they recommend themselves? They're thin, crisp, bland but flavorful. Just the sort of nibble that's perfect for snacks, plain or fancy, to serve with punches and eggnog at holiday parties, with simple fruit or frozen desserts or creamy custards at festive meals.

How did they happen? Last summer a reader asked us for a recipe for Washboard Cookies, describing these as "crisp with prominent coconut flavor rather than the obvious texture of coconut strands."

Regulated by the name we tested a recipe labeled "washboard" and gave the rule, using short-cut flaked coconut. When finegrated coconut recently appeared we were reminded of the original request and put it into a new and richer washboard. This one beats the other and here's the recipe:

NEW WASHBOARD COOKIES

- 1 cup butter
 - 1/2 cup firmly-packed light brown sugar
 - 1 egg
 - 2 teaspoons vanilla
 - 2 cups sifted flour
 - 1/4 teaspoon salt
 - 1 cup fine-grated coconut
- Cream butter and sugar; beat in egg and vanilla. Stir in well the flour and salt; then coconut. Chill. Form thin rectangular ridged cookies by pressing through the sack-tooth plate of a cookie press. Bake on ungreased cookie sheet in hot (400 degrees) oven for 8 minutes or until edges are browned. Makes 48.

Note: If you haven't a cookie press, roll pieces of chilled dough, about as big as walnuts, into evals between your palms; place, several inches apart, on ungreased cookie sheet. Wrap a piece of muslin, wrung out in cold water, around the bottom of a glass tumbler and press cookies thin. With sharp tines of a fork, dipped in cold water each time, draw over cookies to mark "washboard" lines. Bake in hot (400 degrees) oven 10 minutes.

Camille Cloud Honored With Gift Tea Here Saturday

The Martha Ann Woman's Club was the setting for a gift tea Saturday afternoon at 4 o'clock honoring Miss Camille Cloud, bride-elect of Mr. Alan Louis Chavis of San Antonio.

Miss Cloud, daughter of Mr. and Mrs. P. W. Cloud, Clairmont Road will exchange vows in an evening ceremony December 29th at Trinity Methodist Church.

In the receiving line Saturday afternoon were Miss Cloud, the bride's mother Mrs. P. W. Cloud, and the bride's aunt, Mrs. Leo Harris of Big Spring.

Decorations for the tea were white, accented with red, the bride's choice. The tea table was covered with a white ruffled cloth, silver appointments, and centered with a fluted silver compote filled with red roses. Guests were seated at smaller tables, each of which was decorated with white carnations.

Mrs. Novis Rodgers presented piano selections during the afternoon.

Hostesses were: Mrs. Herman Doak, Mrs. Lee T. Stinson, Mrs. Wayne Boren, Mrs. William Atwood, Mrs. Theo Lamb, Mrs. Wilson Connell, Mrs. N. N. Rodgers, Mrs. Harry Ward, Mrs. Harold Brown, Mrs. G. B. Clark, Mrs. Weldon Johnson, Mrs. Ophelia Blackard, Mrs. Hilton Lambert, Mrs. Amos Joyce, Mrs. Ross Carroll, Mrs. R. J. Randals, Mrs. Badger Robertson, Mrs. M. L. Brogan, Mrs. B. L. McKinley, Mrs. Gene Best, Mrs. Myron Roe, and Mrs. Garrett Harrell.

Majoring in secondary education and history, she is studying toward the bachelor of science degree.

Qualifications for "Who's Who" are leadership in extra-curricular activities, scholastic ability ("2" point grade average), possibility of usefulness in society and business and character.

Members of the faculty, junior and senior representatives to the Student Council and students formerly named to the group selected the 26 students this year for the honor.

WHAT'S GOING ON

Holiday guests in the home of Mr. and Mrs. Cecil Osborne, 5716 Austin Avenue, were their children, Mr. and Mrs. Cecil Osborne, Jr., Karen and Linda of Plainview; Mr. and Mrs. Charles Osborne of Canyon; Mr. and Mrs. Hardy Burrow and Steve of Tulsa; and Mr. and Mrs. Keith Filbaugh of Prescott, Ariz.

Miss Wienke Performs First Duties

One of the first duties performed by Miss Joan Wienke as 1961 South Plains Maid of Cotton was participation in the coronation ceremonies at the Annual District FFA Banquet in Littlefield Monday night. She led the promenade of 17 Chapter FFA Sweetheart candidates and presented a bouquet to the winner, Miss Marilyn Nix, daughter of Mr. and Mrs. Matt Nix, Jr. of Amberst.

First alternate was Miss Nonnie Taylor, daughter of Mr. and Mrs. A. G. Taylor, Muleshoe. The two runners-up were Miss Laurie Shaffer, Box 293, Sudan and Miss Carol Bellamy, Box 406, Littlefield.

Leadership banners were presented to the many chapters in the district who have won various contests throughout the year. There were 308 people in attendance, the full capacity of the Littlefield High School Cafeteria. Proceedings were kept in hand by young Max Ball, President of the Littlefield FFA Chapter, who served as Toastmaster.

FRIDAY BURGERS

Two piping hot fish sticks, plus a well buttered frankfurter bun equals a Fish - Stick Burger that makes good fare for Friday. Bake the fish sticks in a hot oven (about 400 degrees) for 20 minutes or until heated through and crisp. Toast the frankfurter buns under the broiler. Butter them generously then add the fish sticks and garnish with tartar sauce or well seasoned cole slaw.

WOMEN'S CALENDAR

FRIDAY
Women's Auxiliary to Canyon Reef Medical Society Christmas party.

Altruism Club will meet at 3 p.m. at Martha Ann Woman's Club.

Tri - Community Home Demonstration Club is sponsoring a Dresden painting school starting at 9:30 a.m. at the clubhouse, two miles north of Sunray Oil Camp. Those participating are requested to bring a sack lunch.

Ladies Golf Association will meet at Country Club at 11:30 for luncheon and business meeting. Golf at 1 p.m.

All In The Games Etiquette For Yule Giving

AP Newsfeatures

You can wrap up a lot of vicarious living this year and put it under somebody's Christmas tree. Whatever the ambitions of Walter Mitty-type dreams of people young or old, they come packaged this year as games. Also boxed for giving are some sugar-coated educations.

Here is a run-down on packaged thrills, competitions and "think" contests on the market this year for certain people you know:

SPORTS MINDED. Athletic skills in miniature are on the upgrade. Hockey, basketball and football have a wide variety of parlor versions. Little League baseball provides 200 umpirechecked decisions for father and son to work on during winter training. Small duck-pin set-ups for young bowling enthusiasts are available in variations. New this year is a safe dart game with suction caps on the darts' tips that stick to a fleecy target.

FRONTIERSMEN. Good guys, bad guys, damels in distress, rustled cattle, crooked bankers, and angry Indians, of course, are distributed in a number of challenging ways. Any TV addict will recognize Wells Fargo, The Rifleman, Shotgun Slade, and the like. WHIZ K! S... Outsmarting each other is the object of games such as Concentration. A package called Puzzle Changer produces 30 feet of men! Twisters for brainy busters.

TEACHER'S PETS. For any age, any class, any problem is happy homework when designed around some kind of a game. There is a legal numbers game which makes fractions as easy as pie. America is divided into 50 flash cards for geography students. For potential linguists are French, Spanish cards.

HERE! THE TRUCKS THAT RIDE SMOOTHER, WORK HARDER, LAST LONGER!

Just a year ago, Chevy came up with independent front suspension and has already put some 300,000 Chevrolet trucks with it out on jobs.

The ride that results from Chevy's suspension design is making life a lot easier for drivers. (Just ask them.) It's taking better care of loads, the fragile kind that cost somebody money if they are bounced around. Chevy's ride also enables truck owners to revise their buying habits and work their trucks longer before they trade. This follows naturally. The trucks take less of a beating. There's less stress on sheet metal. Less abuse to tires. Less pounding that wears out parts before their time. The upshot of it is, you either save money or earn more of it or both. And you couldn't ask a truck to do more than that. See your dealer.

AS IF HE DIDN'T HAVE TROUBLES ENOUGH

Europe Ripe For Ambitious Electric Blanket Salesman

By INEZ ROBB

There is a great fortune, and perhaps his statue in the public parks, to boot, awaiting the enterprising American salesman who can convert Europe to the electric blanket.

It is amazing, come to think of it, that no shrewd Yankee peddler has yet hit on this easy way to fame and fortune. True, the European, North to South, has been wedded for eons to that postage-stamp feather bed or comforter under which he sleeps summer and winter. Yip, summer as well as winter I have had to fight that feather-bed enemy, and never won a decision yet.

Americans for generations before the invention of the interspersing mattress slept on feather beds, but never under them. So the European habit of putting the feather bed on top and the body underneath is disconcerting to begin with. It leads to nightmares of smothering in a hen house.

Furthermore, the feather quilt is always a meter wide and a scant five feet long. The consequence is that a six-footer like my husband must nightly make the difficult choice of keeping either his feet or his Adam's apple toasty. It's impossible to do both.

Nor is this all. The feather coverlet has a life of its own and goes on an independent way, usually to the floor. No one has ever been able to obtain any purchase or governance over it. That is aggravated by the European habit of covering such bedding in sleek satin or sateen.

Again, if the darned things stay put, they are much too heavy, a real weight. And if they don't, which is more likely, the guest spends the night coaxing them off the floor and onto the bed.

Now, with the Americanization of Europe, amid great lamentations, going on apace, is the time to advance the electric blanket.

Every place the American turns he is met by American signs and institutions. The words "quick" and "self" in a sort of neon shorthand all over Europe, proclaim (1) quick service and (2) self service. And it is sometimes disconcerting to look for a quiet little native lunch-place that doesn't proclaim itself a "snack bar."

"Grand standing" on the sign in front of a new apartment house means the joint is very high class. The new American drug store on the Camps Elysees near the Ecole is so sensationally popular with the French that an American can hardly shoehorn his way in. Furthermore, this store, with its soda fountain turning out horrendous ice-cream concoctions that begin where the royal banana split leaves off, kills once and for all the conviction that the average Frenchman is an exquisite gourmet with an educated palate no American can ever hope to develop. The average Frenchman is in the American drug store in force, eating monstrous preparations that would choke an American teenager at the Sugar Bowl.

The esthetes abroad may deplore this Americanization, but the average European citizen loves it—which makes me believe he is ripe for the electric blanket, positively the greatest invention since cotton candy.

There is also another fortune to be made. I'm not really a philanthropist in giving away these rich ideas; I'm just the world's worst promoter. The American or Italian who first decides to stock American cities with the new Fiat 600 taxicabs is going to come up a Croesus.

These little cabs, which we first encountered in Milan, look a bit like a shrunken Volkswagen station wagon. Yet some genius has designed these small taxis so that the passenger has more head and leg room than in any taxi I have been in for years, except the old fashioned, high-backed cabs that make a visit to London such a joy.

The Fiat turn on a lira, too. They are a boon to traffic and passengers. Speed the day.

(Copyright, 1960, by United Feature Syndicate, Inc.)

Shoppers Given Early Yule Gift

VENTURA, Calif. (AP) — Downtown shoppers got a Christmas gift—no parking meter fees—starting Dec. 7.

Decorative bags covering meters will explain there's still a two-hour parking limit.

Merchants suggested the idea, to which the city agreed, though noting it will lose about \$2,750 in meter revenues.

Trellis Mae Has Formula To Get Fur

By HAL BOYLE
YOURVILLE, U.S.A. (AP) — Trellis Mae Peeble, America's most average housewife, is getting a new fur coat for Christmas.

Listen to her tale, ladies — it may show you a way to get a fur coat, too.

One evening early last week Wilbur Peeble was lying on the sofa, drinking a can of beer as he watched a posse on the television screen riding to head off the rustlers at Eagle Pass.

The doorbell rang. Wilbur grunted, rose and opened the door.

There stood Miss Hortense Schlem, the pretty blonde secretary who lived in the apartment overhead with her widowed mother. Hortense was clad only in a flimsy pair of pajamas.

She stepped quickly into the room and asked, "Where's Trellis Mae?"

"Playing bridge with some of her biddy buddies," replied Wilbur. "But she should be back any moment. Why, what's up?"

"Well, silly me," said Hortense. "I went out in the hall to put something in the incinerator and the darned old door locked shut after me."

"My mother's asleep in the bedroom," Wilbur said, "and the doorbell but I can't wake her up. I hate to go down in the elevator—dressed like this—to borrow a key from the superintendent. I wonder if you'd mind doing it for me."

"Sure thing," said Wilbur. "Soon as I toss on a few clothes. Here, let me fix you a beer while you're waiting."

He got Hortense the beer, then disappeared into the bedroom. Wilbur had time only to slip into his pants and one slipper when the bell rang again.

He hobbled to the door carrying the other slipper in his hand. It was his wife, Trellis Mae.

"Well, aren't we cozy?" she said cooly.

Wilbur reddened to the ears. "Hortense accidentally locked herself out," he said lamely. "I was just going down to get a key."

"You sure thought that one up, didn't you?" said his wife. When Wilbur returned later after letting Hortense into her apartment, Trellis Mae was already in bed with her face turned to the wall.

For days she gave Wilbur the silent treatment. On Saturday, just before he was leaving for the golf course, he crumbled.

"You know that fur coat you been wanting for 15 years," he pleaded. "I'll give it to you for Christmas if you'll just tell me you believe me. Honest, there's nothing between Hortense and me."

"Okay," said Trellis Mae, majestically. "I forgive you—this time."

As soon as Wilbur left, Trellis Mae ran like a squirrel to the apartment above, where Hortense and her mother were having coffee.

"It worked!" she cried. "He's going to give me the fur coat."

MODEST MAIDENS

BETTER LIVING, INC., HEADQUARTERS—D. M. Cogdell Sr., who has developed properties in the Cogdell Center area of South Snyder, looks over the new building he has constructed to house Better Living, Inc., a new

business firm which opens its doors for a grand opening event tomorrow at noon. The huge building provides 15,000 square feet of space for Better Living, Inc., plus space for other facilities.

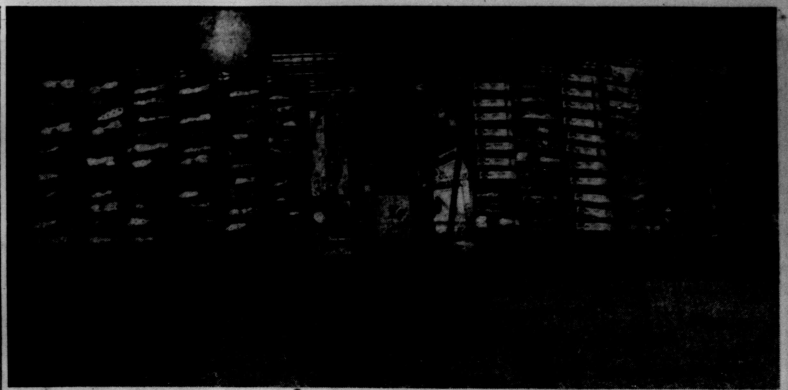

TOYS GALORE—There's little if anything left to consider when a youngster looks over the spacious toy department at Better Living, Inc., which opens tomorrow. The

firm has everything from large wheel goods to the smallest play items made.

PARADISE FOR SHOPPERS—Television and Hi-Fi sets take over in the foreground, with gift items and home accessories at the midway point and displays of crystal in the background of this scene at Better Living, Inc. The

view here represents only a "corner" of the huge store which takes in 15,000 square feet. Better Living, Inc., has scheduled its grand opening for tomorrow.

TEXAS SIZE TACKLE BOX—Yep, that's a tackle box, and what a tackle box! It opens up to a width of 154 inches, has compartments for 132 separate fishing lures, along with space for reels and other equipment. It is one of the standouts in the sporting goods department at Better Living, Inc., which has its grand opening tomorrow.

Opening Event Set By 'Better Living'

Better Living, Inc., this area's newest shopping mecca, will open its doors tomorrow in modern new quarters in the Cogdell Center in South Snyder.

The store with practically everything an American shopper might desire from home appliances to toys and gift items and sporting goods, is one of the most spacious establishments in West Texas.

Some 15,000 square feet of floor area is divided into departments filled with new merchandise.

Many of the items in stock represent merchandise that has not been available before in Snyder, according to Dan Warren, manager of Better Living, Inc.

Warren said the store was established to fill a vacancy which has existed in shopping facilities in this immediate area. It brings together a wide variety of merchandise which the management hopes will enable Snyder area shoppers to purchase in their home town for the first time.

Moreover, Warren said Better Living, Inc., will welcome suggestions from Snyder citizens on the type of merchandise they would like to see the store carry.

Many famous brands are on hand, of course.

Most shoppers will recognize such nationally-known products as fishing equipment by Shakespeare, Mitchell, Garcia and Bronson; Black and Decker power tools; Motorola TV and Hi-Fi sets; Admiral TV sets; Kelvinator home appliances, along with gas ranges by Roper and Hardwick.

Also, there is a well-stocked

record department for the Hi-Fi and all other type of record-player fans.

Gift items are plentiful in displays which make for convenient shopping, and the toy department is stocked and arranged to delight the youngsters. There are numerous small toys, dolls, etc., along with all types of wheel goods.

Of course items designed for the Christmas season add a colorful atmosphere to the opening-day stock, but there will be scores of gift ideas on hand for year-around shopping. Such things as artificial fruits, brassware, wicker basketware, woodware, lamps, luggage, pottery and crystal are featured. There is a complete home decorations department, featuring Pittsburgh paints, drapery and upholstery fabrics and all types of floor coverings, including carpeting and tile.

Local sportsmen will find plenty to attract them. The new firm boasts the biggest selection of fishing lures, plugs, etc., in this section of Texas. Other items, of course, are stocked on a comparable basis.

Passenger Train

Runs Out Of Fuel

SPRINGFIELD, Mo. (AP) — A Frisco Railroad passenger train ground to a halt 12 miles west of Springfield Tuesday. A short time later an embarrassed crew told passengers there was no fuel for the diesel engines.

Engineer R. Cochran of Tulsa, Okla., got word to Springfield and a fuel truck was dispatched to the stalled train.

SPORTS

10 The Snyder (Texas) Daily News, Wed., Nov. 30, 1960

Conley And Ward Address QB Club

The curtain was rung down on the final Quarterback Club meeting of the season here in the high school cafeteria last night, with a business session and basketball briefing sharing the agenda for the evening.

Grid coach John Conley expressed thanks and appreciation in behalf of the coaching staff to club members for the support shown the team over the past season, and also lauded the team itself for the combined effort as displayed in the 20-29 bi-district loss of last week at the hands of Brownwood.

He announced that with only one probable exception the 1961 Tiger grid state would be identical to that of the year just past. Insertion of Kermit in the place of Odessa Permian is in the offing, although confirmation is still forthcoming but expected in the next few days. Permian, a team which has encountered Snyder this year and the last, winning both games, is being placed on a stiffer schedule as far as any non-district play is concerned, as this coming year will see two new teams representing Abilene and Midland making their debut in District 2-4A, along with the present "old hands."

Cape coach J. P. Ward presented a sketch on the basketball prospects for the season at hand, commenting that, "I believe that our ball club will be better since we've got quite a few lettermen returning whose experience should help considerably."

He commented that the varsity squad now numbers 12, while "B" team mentor V. V. Shearwater has as a working nucleus 20 performers at present.

"We're going to have quite a bit of competition for positions," he mentioned further, "and that close competition should help our club."

Of the 12 varsity players out of this date, eight are seniors and four juniors. Of that total, only four are returning lettermen.

Who's the "team to beat" in District 3-4A this year?

"Lamesa looks to be the strongest," Ward opined. "They've got three starters back from their state championship team and also their number six, seven, and eight men from the squad. They should be able to replace the two starters they lost adequately, too, I would think."

The next toughest? "Sweetwater," he countered, "as they've got two very good players over there plus (Billy) Belew. He (Belew) may not have the basketball ability of some of the others, but he's big enough where he can work the boards well and should help the team a lot."

Peers should be picked while still a little green and allowed to ripen in a cool basement.

MOVE NOT UNEXPECTED

King Named To Top Tech Post

By HAROLD V. RATLIFF
LUBBOCK, Tex. (AP) — Texas Tech had a new football coach today — J. T. King — but it was no surprise that the assistant coach had been promoted to the head job.

Dewitt Weaver, head coach and athletic director at Tech for 10 years, started talking about resigning last summer to go to Mobile, Ala., to enter private business.

King, Weaver's first assistant and chief recruiter, was immediately projected as Weaver's successor. In fact, he was to have taken over the job if Weaver quit before football season.

But Weaver waited until the season was over before resigning. Polk Robinson, the basketball coach who had been with Tech for 26 years, was made athletic director. He, in turn, recommended the 47-year-old King as coach and Tuesday night Dr. R. C. Goodwin, president of Texas Tech, announced the appointment.

King becomes a head coach after 15 years as assistant at Texas Tech.

Brown, Plum Hold Offensive Edges

NEW YORK (AP) — Jimmy Brown and Milt Plum, the Cleveland Browns' 1-2 ground and air attack, continued to lead the top individual offensive departments in the National Football League today.

Brown has gained 912 yards running in nine games for the Browns, who are tied for second place with New York in the Eastern Conference. He has carried the ball 164 times for a 5.6 average.

Plum's accuracy is further demonstrated in these departmental statistics: (1) per cent completed, (2) per yard completed and (3) average gain.

Coaches? Not Underwood of Lamar Junior High and Bill Hartsfield of Travis gave thumbnail sketches of the prospects and turnouts as registered in their respective schools at the start of the cage season, both indicating that a large number of boys are participating in the sport at present.

The meeting was capped off with the filming of the Snyder-Brownwood game as narrated by Coach Conley.

HEISMAN TROPHY WINNER

Lunch With JFK

Joe's Objective

By HERB THOMPSON
ANNAPOLIS, Md. (AP) — Personal note to Sen. John F. Kennedy, president-elect and sometime touch football player — Navy's halfback Joe Bellino would like to have lunch with you. He figures it would be the perfect end to an unbelievable football season.

Bellino Tuesday won the Heisman trophy as the nation's outstanding college football player of 1960, outpolling Minnesota guard Tom Brown, Mississippi quarterback Jake Gibbs and Auburn fullback Ed Dwyer in national balloting.

The day before he had won the Maxwell trophy, given for the same honor.

He also is making a host of post-season honor teams as a result of scoring 110 points, leading Navy to a 9-1 season record, No. 4 national ranking and an invitation to the Orange Bowl.

The flood of honors has Bellino, a Sicilian immigrant from the Boston suburb of Winchester, Mass., in something of a spin. But he said there is just one more thing that would make his season complete.

"I'd like to be invited to have lunch with another Boston resident who also has had a good year — President-elect Kennedy," Bellino told newsmen.

He capped an outstanding season by starring in Navy's 17-12 victory over Army last Saturday. Later, in New York for an appearance with the coaches' All-America team on the Ed Sullivan show, the stocky midshipman was surprised to find people recognized him on the street.

Bellino remarked: "I still can't believe it. It's hard for me to realize that Joe Bellino from Winchester, Mass. walks down Broad-

way and people yell 'Hi, Joe.' Joe was still riding his pink cloud Tuesday when he got out of class and received a note to report in dress blues to the office of Rear Adm. John P. Davidson, academy superintendent, who was waiting to notify him of his selection as the Heisman trophy winner.

"I can think of a lot of reasons for midshipmen coming to the Superintendent's office, but this is one of the happier moments," Adm. Davidson said as he congratulated Bellino.

The 26th annual award by the Downtown Athletic Club of New York will be presented at a dinner there Dec. 8. Bellino is the first Navy player to win it. It was won last year by Billy Cannon of LSU.

Bellino received a total of 1,793 points — including 436 first place votes — in the balloting by 1,130 voters. His total was more than 1,000 points over Brown, the runnerup.

Adm. Davidson, who described Bellino as "tops in the football world and tops in the finest organization in the world," summed up a typical academy attitude when he told Bellino: "I wish we could hug (hunk) you and keep you another year."

Ira Slates Cage Meet

IRA (special) — The annual Ira Invitational Tournament, a 20-game affair with representatives from eight area schools, will be unreeled this Thursday, Friday and Saturday in the Ira High School gym, with entries from Gail, Fluvanna, Flower Grove, Hermleigh, Highland, Westbrook, and Fortson fielding teams in addition to the host community.

First round action will begin tomorrow at 3 p.m., when the Ira "B" team girls go up against the Gail girls. Rounding out the first day's firing will be Fortson vs. Gail at 4:15, Hermleigh girls vs. Fluvanna at 5:30, Hermleigh vs. Fluvanna at 6:45, Ira Girls vs. Flower Grove at 8, and Ira vs. Flower Grove at 9:15.

Completion of first round play will be accomplished Friday afternoon, when the Highland and Westbrook girls clash at 3 o'clock, to be followed by the boys game between the same two schools at 4:15. Four consolation and championship semi-final tilts will be staged Friday following those two games.

Finals in both the championship and consolation brackets will be staged Saturday night.
