Another GI Claims Part In Jap Case

MAEBASHI, Japan (U) — A Japanese police officer said today a Michigan soldier has told Japanese authorities that he — not Specialist S.C. William Girard — tossed empty shell casings onto a U.S. Army range before a Japanese woman scrap collector was shot and killed Jan. 30.

The officer, who would not be quoted by name or rank, said the statement of Specialist S.C. Victor Nickel of Inkster, Mich., that he scattered the empty shells "at Girard's suggestion" has been included in a secret police file on the shooting.

Japanese court officials said it was not among court records in the case, in which Girard has been charged with "inflicting bodily injury resulting in death." Conviction could carry a sentence of up to 15 years in a Japanese prison.

The U.S. decision to turn Girard over to Japan for trial has stirred a storm of protest in the United States and court action seeking to return Girard there.

U.S. Army officials in Tokyo refused to discuss reports that

Congressmen Want To Reduce Overseas Trials

WASHINGTON (U) — Two top House Democrats gave momentum today to a congressional drive aimed at cutting down on foreign court trials of American servicemen overseas.

Chairman Gordon (D-Ill.) said that despite an indefinite postponement of hearings on the subject, the House Foreign Affairs Committee will take up the question before voting on President Eisenhower's \$3,855,000,000 foreign aid request.

Rep. Burleson (D-Tex.), chairman of the Foreign Affairs Subcommittee which considers agreements allowing foreign trial of GIs, said he favors bringing out a status-of-forces resolution now.

The full committee originally was slated to hear today from Rep. Bow (R-Ohio). He is the sponsor of a resolution which calls on Eisenhower to seek revision of the criminal jurisdiction part of the status-of-forces agreements, or renounce them altogether. The session was canceled because of the House fight over the civil rights bill.

It was learned that the House group will not seek Bow's testimony again until after the forthcoming June 19-27 visit of Japanese Prime Minister Kishi to the United States.

Burleson said he doesn't see the need for further extended hearings on the much-discussed status-of-forces resolutions.

"I'd be for bringing one out now," he said. "I'd take it to the floor and defend it."

Navy Unconcerned Over Plane Attack

WASHINGTON (U) — Navy officials described as an isolated incident today the shots fired by a Communist Chinese shore battery at an American plane which they said apparently strayed off course and was damaged slightly.

They expressed the opinion, based on early dispatches, that the incident is not likely to produce any significant military repercussions.

The Navy announced yesterday that the plane, flying from the carrier Hornet, was "fired on and slightly damaged by Communist Chinese anti-aircraft" in the area of the Formosa Strait.

"It appears that the aircraft

Would Like To Have 6 More

This Herald Want Ad user sold the listed property the second day, had several more calls. Said she: "If I can get that good results, I wish I had six more to sell."

10 ROOM HOUSE to be moved. Located 511 West 4th. See owner 609 Aylford.

That's the kind of quick selling that Herald Want Ads perform — consistently. Put them to a test. Just dial AM 4-6344.

Mayflower II Arrives

The Mayflower II rides at anchor at a mooring in Provincetown Harbor as she is greeted by small craft. In background is Provincetown and tower at left is famous landmark, Pilgrim's Monument. (AP Wirephoto.)

Mayflower II Ends Atlantic Journey

PLYMOUTH, Mass. (U) — Mayflower II, replica of the original Pilgrim ship, ended her long voyage from Plymouth, England, today.

She entered the harbor shortly after 11 a.m. towed by a Coast Guard craft and surrounded by a big fleet of yachts and other small craft.

Her skipper, famed windjammer Alan Villiers, had furling sails just outside the harbor before attempting the narrow channel up to the mooring basin.

G-Men Injured In Chicago Raid

CHICAGO (U) — Two federal agents and a gunman were shot and seriously wounded during a raid on a tavern in suburban River Grove, described by the agents as a hangout for drug sellers and addicts.

Four men, including the proprietor of the tavern, the Triangle Inn, were arrested. The proprietor, Dominic Argentine, was said by agents to have shot one of the four men.

Albert E. Aman, district supervisor of the Federal Bureau of Narcotics, said six of his agents trailed a known drug peddler to the tavern and that agents John Ripa and Ralph Eckhardt entered, posing as customers. Aman said Argentine shot Ripa in the back as the agents left. Eckhardt dragged Ripa to safety and called to the other agents.

A gunman exchanged shots with the agents and was wounded in the head and arm. He was identified as Carlo (Bananas) Urbani.

In this exchange, agent Jack Love was shot above the heart.

Argentine barricaded himself in the tavern. Fifty police from other suburban communities pumped tear gas shells into the tavern and riddled the place with bullets. When officers entered they found that Argentine had fled. He was arrested later.

Joe Bruno and Tony Matas, both of Chicago, and Steve Argentine, brother of Dominic, were arrested and held for questioning. Agents described Bruno as a major narcotics wholesaler and Matas as a seller for Bruno. They had left the tavern before the Matas as a seller for Bruno. They had left the tavern before the shooting.

Small Plane Crash Kills Four Men

BROKEN BOW, Okla. (U) — Four Harrison, Ark. men were killed last night when their single-engine plane crashed three miles south-east of here.

The dead were William E. Hudson, 33, president and manager of the Save-A-Stop Cosmetics Corp.; Harrison; Dorvin Smith, 24, the pilot; William J. Cromwell, 35, personnel director of Save-A-Stop; and William R. Weedman, 31, the company's sales director.

The men left Harrison yesterday morning on a business flight to Dallas and apparently were returning home when the crash occurred.

Crippled Ship Is Taken In Tow

AUCKLAND, New Zealand (U) — A crippled British ship with 673 persons aboard was taken in tow today after wallowing helplessly in heavy Pacific seas since yesterday.

The British freighter Port Macquarie got a rowline aboard the 8,300-ton Captain Hobson 570 miles east of Auckland without any difficulty.

The two ships are expected in Auckland Monday.

Rain Delays Golf

TOLEDO, Ohio (U) — A terrific rain and wind storm struck the Inverness Club today and forced the USGA to suspend play 70 minutes in the first round of the National Open Golf Tournament.

Senators Open Fire On Foreign Aid Bill

Conductors Win 3-Year Contract With Wage Hike

CHICAGO (U) — Major railroads and the 20,000-member Conductors Union last night settled an eight-month wage dispute with a three-year contract calling for pay hikes totaling 25 cents an hour.

The agreement was announced by the National Railway Mediation Board after negotiations between the railroads and the Order of Railway Conductors and Brakemen.

A mediation board member, Leverett Edwards, said provisions of the new contract follow a "pattern of those accepted by unions representing about 94 per cent of all railroad employees."

Under the terms of the new contract, road conductors will receive an immediate raise of 12 1/2 cents an hour. This boost is retroactive to Nov. 1, 1956, the end of the last contract period.

An additional 7 cents hourly will be made effective Nov. 1, 1957, and another 7-cent raise will go into effect Nov. 1, 1958. The new contract also contains an escalator clause that provides for cost of living adjustments.

Road passenger conductors averaged \$639 monthly under the previous contract. Road freight conductors earned an average of \$647.

Contract negotiations began last Oct. 17 between more than 100 carriers and the union. The union had asked a 25 per cent wage hike when it announced its requests last July 2.

Railway workers in nearly every railway terminal city in the country are affected by the agreement. Some 2,000 union members work in the Chicago area. About 1,000 each are employed on train runs from such cities as St. Louis and Buffalo, N.Y.

RECOGNIZES HIS CAREER

LOS ANGELES (U) — A woman who divorced her architect husband on grounds of extreme cruelty is going to give him \$1,200 a month for the next 10 years to help him in his career.

"He has a great talent and should have the opportunity to develop it," said Mrs. Julianna Kemper Beckett yesterday in court. She said the support payments for William Sutherland Beckett would come from a trust fund established for her by her family.

Mrs. Beckett was awarded the contested divorce after testifying that Beckett had "an ungovernable temper" and struck her on several occasions. They were married in 1948 and have three children.

Program Is Dubbed A 'Gigantic Hoax'

WASHINGTON (U) — Sen. Morse (D-Ore.) said today "a senseless waste of millions" on foreign aid has contributed to "a rising tide of anti-Americanism throughout the world."

Morse joined Sen. Long (D-La.) in an attempt to cut 390 million dollars from the \$3,857,000,000 foreign aid bill over the opposition of both party leaders.

In the Senate's second day of debate, Morse described a committee-recommended cut of 277 million dollars in administration requests as "but a spit in the ocean of foreign aid waste."

Morse said the administration is seeking to "perpetrate a gigantic hoax on the Senate and the people of the United States" by its proposals for long-range, flexible spending authority.

And, he said, the administration is hiding from the people under the label of "top secret" the full story on its use of the funds.

"They are to be spent to supply arms and ammunition to nations from one end of the globe to another," Morse said. "They will be used to build up armed forces of both democratic nations and totalitarian nations."

Democratic Leader Lyndon B. Johnson of Texas told his colleagues he hopes for final action on the bill by Saturday night.

Johnson said earlier he thought it would be "dangerous" to make any "meat ax cuts" in the authorization bill since a subsequent appropriations bill providing the money to finance the program will be revised downward.

Republican Leader Kefauver of California took a similar position.

Sen. Long, leading the effort to cut 390 million dollars from the bill's total, filed a written report arguing that those opposing cuts "are too willing to tolerate widespread waste and inefficiency."

He proposed to cut military assistance for the fiscal year starting July 1 from \$1,800,000,000 to 1 1/4 billions and defense support from 800 millions to 710 millions.

Long's figures for the year starting July 1 are the same as those recommended by the Senate Foreign Relations Committee for the following fiscal year.

Long's amendments, and another series planned by Morse

Western Arms Plan Rejected By Khrushchev

HELSINKI (U) — Nikita Khrushchev today rejected Western proposals for control of disarmament and nuclear weapon production as a "screen to mark plans to continue the arms race."

However, the Soviet Communist party boss told a two-hour news conference the Soviet Union would agree to the establishment of international inspection posts in the Soviet Union, the United States, Britain and other countries if this would facilitate agreement on the banning of nuclear tests.

Khrushchev's remarks, made in answer to a reporter's questions, indicated a stiffening of the Soviet attitude of disarmament. Western delegates to the current negotiations in London of the U.N. Disarmament subcommittee had indicated that the Russians there were showing signs of wanting to reach at least a limited agreement with the West.

The Russian proposal for inspection posts is an old one, first put forward by the Soviets May 10, 1955, at the disarmament negotiations. The Russians proposed that international inspection teams be stationed at key ports, airports and road and rail junctions to check on movement of troops and military supplies.

Three months later Harold Stassen, the U.S. delegate to the arms talks, told newsmen that all five nations on the subcommittee — the United States, Russia, Britain, France and Canada — had agreed on ground inspection as a necessary part of disarmament.

Khrushchev told the news conference, which he held with premier Bulganin, that "no system of control can solve the problem of disarmament because it cannot prevent any state from planning aggression if it wants to."

6-Year-Old Girl Found Slain In Detroit Dump

DETROIT (U) — Six-year-old Mary deCassian was found slain today in a dump two miles from her home in Ecorse Township in Detroit's downriver area.

The girl's head was almost severed and her hands were tied behind her back. The body was unclipped.

A resident of the neighborhood, Paul Panter, found the body when he went to the dump to throw out a basket of rubbish. The dump is near the heavily traveled Dix and Trenton roads.

Police roped off the area, hoping to keep it clear until they searched for footprints and tire tracks.

The finding of the body ended an overnight search aided by nearly 1,000 volunteers. The girl had been missing from her home since 5:30 p.m. yesterday.

Panter had not taken part in the search for the girl but he knew she was missing. He said he saw her body as he walked back toward the road after throwing away the debris. He telephoned Ecorse Township police.

Police said the girl apparently was killed at the scene. Her arms were blood smeared.

Mary was the daughter of Mr. and Mrs. Edmund de Cassian Jr. The child's mother reported her missing after she failed to return home.

The father said bitterly, before the body was found, "Assuming the worst has happened, I wouldn't blame the man as much as the society which produces such men. It's a society that allows sex magazines on news stands for kids to read; a society that measures Hollywood stars by their bosoms, and a society where the telling of dirty stories and the use of foul language is commonplace."

"These things produce sex pervers out of people who have the slightest abnormal tendencies. They are encouraged by everything around them."

"Until the day society changes its fundamental moral principles and re-asserts a belief in God, we will have sex pervers."

Money Bills Go To House

WASHINGTON (U) — The last of 12 regular appropriation bills was sent to the House today by its Appropriations Committee, which boosted to about \$4,940,000,000 total cuts it has recommended this year in presidential money requests.

The bill allows \$814,813,023 to finance government public works programs during the fiscal year starting July 1, a reduction of \$61,639,977 from the amount President Eisenhower requested.

As it has on the past 11 bills, the House is expected to follow closely the committee's recommendations. Not all of the House-passed measures have been passed by the Senate, but that body has adhered generally to House figures on bills it has considered.

The goal of congressional budget-cutters this session is to cut close to five billion dollars from the President's over-all money requests totaling \$73,300,000,000.

Stassen Denies Dulles Rebuke

WASHINGTON (U) — Harold Stassen denied today that he has been reprimanded by Secretary of State Dulles for his private dealings with the Russians on disarmament. But he acknowledged he is returning to London with new "procedural" instructions.

Property Owned By Godfrey Yields \$100,000 In Loot

MIAMI, Fla. (U) — An ocean front plot owned by television star Arthur Godfrey has yielded slightly more than \$100,000 in stolen stocks and bonds.

Police said yesterday they had found \$75,825 in war savings certificates and more than \$25,000 in utility stocks buried in a steel box 200 yards north of the Kinilworth Hotel, of which Godfrey also is part owner.

Questioning of three men who recently pleaded guilty to house burglary charges in Mobile, Ala., led to recovery of the loot, said Sgt. Lee Graham of the North Miami police force.

The securities were stolen Feb. 5 from the home of John W. Marks, retired Coast Guard commander, in North Miami.

Graham identified the men as James Murray, 24, Brockton, Mass.; Eugene Pollard, 21, Miami; and Elbert W. Ogle, 20, formerly of Hialeah, Fla. Murray and Pollard were sentenced Monday on the burglary charges. Ogle will be sentenced a week later.

France Accepts New Premier, But Not With Enthusiasm

PARIS (U) — A resigned, reluctant National Assembly early today confirmed Maurice Bourges-Maunoury as France's 22nd post-war premier by a majority of less than 50 votes. The action ended a three-week Cabinet crisis.

Both the preballot debate and the 246-194 vote itself reflected the Assembly's lack of enthusiasm. Seventy-three deputies abstained.

Bourges-Maunoury fell 58 votes short of an absolute majority of the Assembly's 595 members. But only a majority of those voting was needed to install him.

Bourges-Maunoury's program on which he took office virtually duplicates that of his predecessor, Socialist Guy Mollet. The new Cabinet chief, who was Mollet's defense minister, promised the Assembly continued vigorous military action against the Algerian rebels, limited political reforms in

the rebellious North African territory, new taxes and fewer imports to rebuild France's almost-gone stock of foreign exchange.

The new Premier got the support of all but eight members of his own Radical Socialist party, a middle road group. He also was backed by the Socialists and most of the conservative Independent Republicans.

Opposing him were the Communists, the extreme right-wing Poujadists and the Assembly's lone wolf, former Premier Pierre Mendes-France. The other parties abstained.

Bourges-Maunoury at 42 becomes the country's youngest premier since 1883. The average age of his 14-man Cabinet is less than 50 and includes 37-year-old Felix Gaillard in the key post of finance minister.

The selection of Gaillard was an important factor in gaining the support of the conservatives, who acknowledged publicly their faith in his economic background and policies. But the real test will come when they find out on what sections of the business community new taxes will fall.

Bourges-Maunoury warned the Assembly that the government will soon be forced to dip into the Bank of France's billion-dollar gold reserves to make ends meet through the summer. He also said nonmilitary expenditures must be cut by about 700 million dollars while new taxes must be levied to raise an additional 400 million dollars to help pay for the war in Algeria.

Bourges-Maunoury's first big test will come when the new tax program is presented. That was the issue on which the conservatives toppled the Mollet government because it wanted to put new taxes on big business.

Atlas In Seaward Plunge

Going down in flames, the Atlas plunges toward the Atlantic Ocean after reaching an estimated altitude of 10,000 feet at Cape Canaveral, Fla. The intercontinental ballistic missile exploded and went out of control in a test firing. (AP Wirephoto.)

Crash Kills Workers

A shattered truck lies along the Santa Fe Railroad tracks near Rocky Ford, Colo., after it was struck by a freight train. Twelve farm workers riding in the truck were killed in the worst vehicular accident in Colorado history. (AP Wirephoto).

District DeMolay Conclave Slated Friday At Lamesa

LAMESA — The DeMolay District Conclave will be held Friday in Lamesa with Leon P. Moffett chapter of Big Spring, Vernon W. Bryant chapter of Lamesa, Tahoka Extension Club and E. Y. Lee Chapter of Lubbock participating. More than 100 are expected to attend with guests also being present from Midland and Odessa. Glen Woody of Lubbock, the West Texas Master Counselor will be a special guest. Registration is scheduled for 8 a.m. at Lamar Forrest Community Center. At 8:45 athletic competition will be held with the winners representing the group at the state conclave. This will include track, swimming, golf, table tennis, basketball and bowling.

More Charges Due In Galveston Drive

GALVESTON (U)—More charges were promised today in the state's anti-vice campaign here. An official said the war would continue until all illegal establishments are closed. Special Asst. Atty. Gen. James Simpson of Texas City said more restraining orders would be filed the next few days against gambling dens, illegal liquor establishments and heavy houses. City police cracked down last night on two more clubs they said were ignoring Atty. Gen. Will Wilson's Galveston County war. Authorities said a gambling device was found in one of the places closed and an officer was served a drink in the other.

Lake Nearing Record Level

Put your fist down on the table and you will have a pretty good idea how near Lake J. B. Thomas is to its all time peak level. Run-off from Tuesday night's brisk shower had just about ceased coming into the lake Thursday morning, and the elevation was 2,255.45, or within .3 of a foot of the peak of 2,255.75 reached on Oct. 2, 1955. Spillway level is 2258.00. The latest catch amounted to .49 of a foot, or approximately 3,500 acre feet of water. The current content is 188,000 acre feet or 62.7 billion gallons. Lake Colorado City, the Texas Electric Service reservoir four miles southwest of Colorado City on Morgan Creek, gained slightly to elevation 2,070.80, which is .3 of a foot higher than spillway level. Today marks exactly one month since the lake started going through the spillway, a condition that has continued without interruption. Both Powell Creek and Moss Creek lakes in southeast Howard County were spilling gently into the service drains.

Man Is Charged In Death Of Wife

HOUSTON (U)—Raymond Banks, 48, a laundry truck driver, was charged yesterday with the murder of his 46-year-old estranged wife. The shooting was seen by Raymond Lee Jr., 11, son of the couple. Officers said Banks turned his pistol on himself after shooting his wife, but that he only grazed his head.

Violent Storms Sweep Over State

By The Associated Press
Violent hail and wind storms lashed North and Central Texas Wednesday and torrential rains posed new flood threats. The turbulence tapered off during the night. At least five twisters were reported as a squall line swept across the north central part of the state and into Louisiana. A weak cold front trailing behind the squall line dissipated, but the Weather Bureau forecast scattered thunderstorms and thundershowers Thursday.

Low cloudiness covered the eastern two-thirds of the state Thursday morning, with the only clear areas in extreme West Texas and the Panhandle. Light rain or drizzle fell at Galveston, Austin and Dallas. Wind, hail and rain caused extensive damage to crops and buildings in scattered areas. Two persons were injured by falling debris at Dallas.

Up to 6 inches of rain soaked the Central Texas town of Butte, 30 miles northeast of Austin. Winds up to 90 miles per hour ripped roofs off two stores. The Lower Colorado River Authority closed five of the six flood gates on Mansfield Dam above Austin to control runoff from heavy watershed rains up to 4 inches. Some minor flooding was expected along lowlands below Smithville. Flooding hail near Granger, 45 miles northeast of Austin, wiped out corn, maize and cotton in a 16-square-mile area. Violent winds in other areas damaged a number of buildings. The worst of the five reported twisters unroofed a barn and damaged small buildings near Joshua, south of Dallas. Another damaged crops on a farm west of Hermleigh in Scurry County in West Texas. A third was reported in Southeast Dallas County and tunnels were sighted near Groom and Skellytown in the Panhandle. Rains and hail in other West Texas areas damaged wheat and cotton. Rains up to 3 1/2 inches fell in ranch areas around San Angelo. Up to 2.80 inches fell on the watershed of the Colorado River in Brown County and Pecan Bayou rose 4 feet. Hailstones the size of golf balls.

Contestants are needed in the Miss Howard County Division of the Fourth of July beauty pageant. It was announced Wednesday evening at a meeting of the pageant committee chairman. Members of the B&PW Club are sponsoring the pageant as they

A Bomb Per Month

LONDON (U)—The Daily Telegraph today said Britain now can produce one megaton H-bomb per month. A megaton is equivalent to a million tons of TNT. In addition, the newspaper said, the British can turn out "at least one, and probably several" ordinary atomic bombs in a week.

In Dallas Hospital

Ronnie Ray Neil, 5-year-old son of Mr. and Mrs. Raymond Neil of Big Spring, was admitted to the Scottish Rite Hospital for Crippled Children in Dallas June 5.

Spent Some Money, Burned The Rest

LOS ANGELES (U)—A woman bookkeeper who had a taste for "nice things" told detectives who arrested her on suspicion of embezzling \$20,000 that she spent about \$5,000 of it on clothes and a car — and burned the rest. Miss Paige Marjorie Wright, 31, an employee of a transfer company, was quoted by officers as saying she burned the money, fearing additional spending might make her friends suspicious.

License Examiner On Reserve Duty

If you planned on applying for a driver's license some time this week or next, you'll have to wait. License Examiner Jack Johnson becomes M-Sgt. Jack Johnson, U. S. A. F. reserve, effective today and will continue in that role for two weeks. Officially, he is listed as being on "military leave." His office will be reopened for drivers' examinations on June 28. Johnson will do his required two week reserve hitch as an air mechanic at the Webb Air Force Base.

Insurance Board Is Now Complete

AUSTIN (AP)—A temporary Commissioner of Insurance was to be appointed today by the old board as the Texas insurance industry came under regulations of a re-organized administration.

Membership on the new three-man board was completed yesterday with Gov. Price Daniel's selection of David Irons of Fort Worth. Irons and Judge Penn Jackson of Cleburne will take office July 1.

The other members of the re-organized board is Joe P. Gibbs, who was retained after appointment several months ago by Daniel. The two other present members, Chairman John Osorio and Commissioner Mark Wentz, will leave at the end of this month.

The governor signed into law late yesterday the bill which re-organized the department with a commissioner to run the day to day duties under the policies of the board. The three board members will get \$15,000 for their first year's services and be on part time thereafter. The part time vs. full time board was one of the hottest issues of the 55th Legisla-

ture and was not finally passed until the final day.

Irons, 41, is serving as first assistant, criminal division of the Department of Justice in Washington. He served six years as administrative assistant to the attorney general of Texas before joining the Justice Department in 1955.

Daniel said Irons "has one of the finest records in the country as an administrator, investigator and law enforcement attorney. He will contribute greatly toward respect and enforcement of the laws designed to protect the public and the insurance industry."

The present board will appoint a commissioner to serve until salary for the permanent Commissioner of Insurance becomes effective Sept. 1, start of a new fiscal year.

Jackson's appointment was announced Tuesday. He was District Judge of the 18th District and presiding judge of the Third Administrative Judicial District. Gibbs served for 11 years on the board before being recalled this spring to replace Morris Brownlee of Houston, whose term expired.

Big Spring 'Mystery Girl' Performs On Welk Program

Who is Julie Sutton? A number of Big Springers are asking this question after seeing and hearing Miss Sutton perform on the Lawrence Welk show.

Welk, who incidentally once played in an orchestra here, introduced the young vocalist, who gave her home as Big Spring, Texas.

Some saw the program live when it went over the national network a week ago. Then, in the pickup over MID-TV at Midland on Tuesday night, many local people saw her perform.

Immediate efforts to identify her were unsuccessful, but the appearance has certainly stimulated interest in who is Miss Sutton.

Johnson Says Congress Is Reaching 'Pay-Off' Stage

WASHINGTON (AP)—Sen. Lyndon B. Johnson (D-Tex.) said today the congressional session "has now entered the payoff stage."

"The months that have been spent in careful, thorough committee work are now paying off in terms of rapid, decisive action," the Senate majority leader said in an interview.

Johnson obviously was hitting back at recent comments by Eisenhower administration spokesmen that the Democratic-controlled Congress had been lagging on parts of the Eisenhower program.

He noted that the Senate had passed four major appropriations bills this week and said it will

take prompt action on other money bills.

Two passed yesterday. One carries \$378,594,900 for the Veterans Administration and some 24 other independent federal agencies. The other contains \$2,885,290,781 to operate the Labor and Health, Education and Welfare departments.

Both totals were less than President Eisenhower requested. The Senate voted less than the House for the VA and other agencies, but it added to House allotments for the Labor and Health-Education-Welfare departments.

So far the Senate has cleared eight appropriations bills. It still must act on five money bills for the next fiscal year.

To date the Senate has cut about \$1,400,000,000 out of the President's budget requests and some 32 million dollars below House totals.

9 Teachers Resign, 19 Employed

Resignations for nine teachers have been accepted and school trustees have approved the employment of 19 faculty members for the next school year.

Submitting resignations were Betty Joyce Gray, Park Hill; Elby J. Hutto, Park Hill; Mrs. Leida Crabtree, Airport; Mrs. Theda Wedgeworth, Kate Morrison; Mrs. Lily May Pinson, West Ward; Roy Pinson, Kate Morrison; George Curry, Junior High School; Fred Bass, Washington Place; and Mrs. Buena Bass, special education.

Teachers employed and their assignments are Curtis Kelley, junior high social sciences and football line coach; Mrs. Horace Bailey, junior high English; L. B. Brackeen, junior high mathematics; Mrs. Fred Phillips, junior high typing; Patsy June Solomon, junior high physical education; Mary Anne Ataway, fifth grade, College Heights; Mrs. Alice Bryson, North Ward fourth grade; Mrs. Paula D. Creagh, College Heights fourth grade; Darlene Day, College Heights fifth grade; Mrs. Thetus Boyd Dunagan, College Heights fifth grade.

Also, Mrs. Mattie C. Hines, Airport sixth grade; Mrs. Edith L. McBride, Airport third grade; Mrs. Laura Jane McDonald, North Ward third grade; Mrs. Bobbie McWhorter, West Ward second grade; Mrs. Frances Pharis, Washington fifth grade; Mrs. Rose Marie Powell, Airport first grade; Mrs. Neva Springfield, North Ward sixth grade; Charlene Wasson, Kate Morrison second grade; and Mrs. Dorothy Winans, North Ward third grade.

Supt. Floyd Parsons said only "about eight or nine" teachers are needed to complete the faculty for the next school year.

Two Persons Die In Hotel Blaze

GALVESTON (AP)—Josie Hale, about 68, and William Dabney, 71, were burned to death yesterday when the three-story Rio Hotel was destroyed by fire.

One fireman was overcome by smoke.

The man who had just taken over its management, Henry Woodruff, 68, collapsed from a heart attack after the fire had been extinguished. His condition was said to be fair.

Persons living in the 73-year-old building once known as the Marble Palace, said the Hale woman screamed and ran into her room when the fire started. Woodruff said the fire started in her room and he tried to drag her from it. She died while trying to rescue her small dog.

Prizes Posted For Best Roper Of Howard County

Howard County's top amateur roper will have something to remind him pleasantly of the 24th annual Big Spring rodeo.

R. O. Fielder, in charge of this special added event of the rodeo, said that more than a score of Big Spring merchants had posted a grand prize of a complete riding outfit.

This will consist of a special made saddle, a bridle, blanket, etc. The grand prize is in addition to the heavy end of the entry fees which 17 contestants have posted for this division of the program. Each roper will get a chance at two calves, and the lowest time on the two will qualify him for this handsome prize. Fielder expressed appreciation to all merchants who had made the gift possible.

Post Office To Get Paint Job

Fred W. Thompson, Dallas contractor, is apparent low bidder on a job to repaint the Big Spring Post Office outside and inside and lay asphalt tile on the basement floor.

Elmer Boatler, postmaster, has been advised by the Post Office Department that Thompson's bid of \$4,070 for the job has been accepted.

It was believed that work would be started in 30 days or less. There were eight bids submitted for the job. The offers ranged from Thompson's low of \$4,070 to one bid of \$7,485.

Boatler said that the last time the post office got a paint job was in 1951. The low bidder that year was R. M. Flagg of Lubbock.

Basement floors of the building are concrete, Boatler said, and the department has decided to cover them with asphalt tile.

First Swimming Course Will End
The first session of the YMCA summer swimming program will end Friday morning. Registration for the next term, which begins June 24-July 6, will start Saturday at the Y.

The first term began on June 3 and had a full enrollment of 161 boys and girls. Twenty instructors helped with this group.

Pennsylvanian Wildcat Set In Dawson, Field Try In Martin

Fort Worth operators have staked a Pennsylvanian wildcat in Dawson County. At the same time, Pan American announced location of a Devonian try in the Brede-love field of Martin County.

Aldrich, Lee & Peeler Brothers of Fort Worth located the No. 1 John Cox about 19 miles northwest of Lamesa in Dawson County. It is an 8,750-foot Pennsylvanian test.

The Martin venture is Pan American No. 1 Offit and is about 20 miles west of Ackerly. Drilling depth is 12,700 feet.

Borden

Tidewater No. 1-B Clayton-Johnson flowed new oil on tests after being shut in for 10 hours. Operator is testing the Canyon from 6-212-23 feet. After being shut in 10

hours, it flowed 11 barrels of oil in an hour through a quarter-inch choke. Then through an 11-64-inch choke, it flowed 38 barrels of oil in eight hours. Tubing pressure gauged 150 pounds.

During 15 hours, using an 11-64-inch choke, it flowed 15 barrels of new oil. The wildcat is 10 miles southwest of Gall, 660 feet from south and 2,019 from east lines, 9-32-4n, T&P Survey.

Texas No. 1-E Clayton, an Ellenburger wildcat 14 miles southwest of Gall, waited on cement to set 13 1/2-inch casing at 440 feet. The venture is 2,063 feet from north and 613 from west lines, 44-32-4n, T&P Survey.

Continental No. 1-45 Good, in the Arthur field, deepened to 5,850 feet in lime and shale. Location is 1,954 from south and 1,414 from

east lines, 45-33-4n, T&P Survey, five miles northwest of Valmore. Gulf No. 15 C. C. Canon is located in the Jo-Mill field as a new location 13 1/2 miles southwest of Gall. It is 660 feet from north and 1,980 from east lines, 39-33-5n, T&P Survey. Drilling depth is 7,800 feet.

Gulf No. 16 Canon is staked 1,980 feet from north and 660 from east lines, 39-33-5n, T&P Survey. 13 1/2 miles southwest of Gall. It will drill to 7,800 feet.

Dawson

Robert Aldrich, William, Lee, and Peeler Brothers No. 1 John Cox is a wildcat 1,980 feet from south and 660 feet from west lines, 77-M, EL&RR Survey. It is about 19 miles northwest of Lamesa and will project to 8,750 feet to explore the Pennsylvanian.

Glasscock

Shell No. 1 Currie, wildcat six miles north of Garden City, made hole at 9,650 feet in lime and shale. The location is 665 from north and 951 from east lines, 24-34-3n, T&P Survey.

Howard

Cosden No. 5 Barnett - Connally pumped 66 barrels of 32-degree oil in 24 hours. The well is in the Moore field 990 feet from north and 2,310 feet from east lines, 28-33-1a, T&P Survey. Total depth is 3,712 feet, and oil string is bottomed at 3,080 feet. Top of the pay section is 3,090 feet.

Pan American No. 5-B H. R. Clay is a new location in the Howard - Glasscock field 12 miles southeast of Big Spring. It is 990 feet from north and west lines, 19-29-2, W&N Survey. Drilling is 3,500 feet.

Martin

Pan American No. 1 L. D. Ofutt is a 12,700-foot operation in the Brede-love (Devonian) field 20 miles west of Ackerly. Drilling is 600 feet from north and west lines, Labor 3, League 259, Borden CSL Survey, on a 177-acre lease.

Mitchell

Standard of Texas No. 11 Sam Smart completed in the Westbrook (upper Clear Fork) field for a pumping potential of 80 barrels of oil and 21 per cent water. Gravity of oil is 23 degrees. The well is 2,130 feet from south and 1,670 feet from east lines, 21-29-1n, T&P Survey. Perforations in the Clear Fork extend from 2-436-64 feet, total depth is 3,131 feet.

Ambassador - Ultra No. 1 Wallace, a wildcat 12 miles south of Lamesa, drilled to 323 feet in red beds. Location is C NE NE, 36-12, H&TC Survey.

Telegraph Union Contract With The AP Expires

NEW YORK (AP)—The AFL-CIO Commercial Telegraphers Union contract with The Associated Press last night was extended for 24 hours until midnight tonight.

Harry Leimbach, general chairman of The Associated Press CTU division, said the union committee would accede to no further extensions.

Leimbach also told reporters at the Federal Mediation and Conciliation Service Building that the union had offered to settle for a one-year contract with a wage package increase of \$6.24 weekly.

The Associated Press previously had agreed to accept an advisory arbitration award of \$4.35 weekly, plus 27 cents weekly for deferred insurance benefits.

The award was rejected by the union.

Leimbach also said the strike vote taken by the union had not yet been tabulated and that he was unable to say whether the count would be completed before tonight.

Actor Is Injured

TOKYO (AP)—Film actor Robert Wagner slipped in his hotel room bathtub last night and hurt his foot. A studio official said Wagner, star of the film "Stopover Tokyo", now being made here, wouldn't be able to work for the rest of the week. He suffered a broken blood vessel and severely bruised muscles.

5 Hospitalized Following Three Wrecks In Area

Five persons were hospitalized in three traffic accidents in the Big Spring area on Wednesday night.

Only one of the five was still in the hospital on Thursday.

H. C. O. Stricklin, 46, driver for Gillette Trucking Company, Big Spring Hospital reported that he has a broken right arm, abrasions and cuts and that his condition is regarded as satisfactory. His home is in Dallas.

Stricklin, driving a big van, was hurt when his vehicle rammed into the rear of another truck a mile east of Coahoma at around 11 p.m. Wednesday.

River Funeral Home ambulance was summoned and brought him to the hospital.

State Highway Patrol officers said that John C. Baker 51, McCamey, was driving west on U. S. 80 in an oil truck. His truck developed trouble and he permitted it to coast to a stop. He left the cab to put out fires.

Stricklin came on the scene, rammed into the rear of the halted truck. The impact telescoped the big van and threw the driver from the seat. The oil tanker was ruptured and the paving was covered over with oil.

Wrecking crews summoned to the scene had difficulty in separating the two vehicles.

The second accident occurred on Milhollon Hill, a long slope to the east of Stanton. It involved a car and a truck.

The car was occupied by Bob Welch, his wife, Zella; Benny Welch and Carlene Eades all of Stanton. They were in a 1955 Chevrolet enroute home after attending the Big Spring rodeo.

Welch, son of Mrs. Ervin Welch, was said to be driving and Green was seated beside him. The women were in the rear seat.

The highway patrol said that Welch dropped off to sleep and the car crashed into the rear of a semi-trailer driven by William Henry Stout of Fort Worth. The Chevrolet was demolished but the truck only slightly damaged.

The patrol said that the scene was 1.4 miles east of Stanton.

All were brought to a hospital but none suffered serious injuries. They were released from the hospital Thursday morning.

Green was the most painfully hurt. He suffered lacerations and abrasions about the head and face.

The third accident, which in reality was the first of the evening, occurred at 8:30 p.m. 6.7 miles north on Lamesa highway. Sam Sheen, 60, Gall, was alone in his car. He lost control and it rammed into a culvert. The front of the car was caved in but Sheen was not believed injured.

Chain Is Used To Break Car Windows

A teenager broke out glasses of an airman's car early today with a chain.

A-3C William McKinney, Webb, reported that he pulled up and stopped for the light at Fourth and Gregg. He said a teenager got out of a 1952 Oldsmobile and broke out the windows of McKinney's car with the chain.

MARKETS

WALL STREET — Stocks opened higher in fairly active trading today, leading issues rose fractions to around a point. There were a few small losses.

Boston Stock up 1/4 at 49 1/2. New York Central up 1/4 at 24 1/2. Radio Corp. off 1/4 at 27 1/2 and Westinghouse Electric up 1/4 at 64 1/2.

Small issues were taken by Paramount, Union Carbide and Consolidated Edison. Gains were made by Amstar, Chrysler, Douglas Aircraft, Baltimore & Ohio, Allied Chemical, Sinclair and Boeing.

Deer Yearlings 21.50 down; feeder steers 20.00 down. Hogs 300; strong to 25 higher; choice 30 1/2.

Sheep 1,400; steady; good and choice spring lambs 16.00-17.50; ewes 6.00-7.00.

COTTON — NEW YORK (AP)—Cotton was 10 to 25 cents a bale higher at noon today. July 25.75, October 24.46, December 24.46.

Highest temperature this date 105 in 1907. Lowest this date 30 in 1903. Maximum rainfall this date .76 in 1935.

Sterility, Deformed Children Are Claimed Results Of Wartime Tests

BRIDGEPORT, Conn. (AP)—A lawyer claimed today that at least a dozen soldiers who worked on a top-secret wartime experiment are either sterile or have fathered deformed children as a result.

Atty. Raymond Lyddy represents four Connecticut soldiers. One of them is sterile, Lyddy says. Wives of the others have had six miscarriages, three deformed children and two apparently normal children.

He said the 100 or so members of the tank ordnance company which worked on the project were warned that exposure to rays from the equipment could make them sterile. He said he only had information on about 30 of the soldiers, but about half of those reported some trouble.

He said "the instances of sterility, malformations and deformed children were just tremendous."

The New York Daily News, which first reported the story in a copyrighted dispatch from Washington, said Army Secretary Wilber Brucker has been asked to make a full investigation. The request came from the former company commander, Marshal White of Chicago.

The News said the experiment consisted of mounting brilliant arc lights on tanks to blind gunners. The operation was carried out in the 9th Armored Division, which was fighting along the Rhine.

About 456 of the tanks were sent into action, the News said, but they had only limited success in combat and the idea was dropped.

The News added that the lights were 13-million-candlepower carbon arc lamps, and "there is strong reason to believe that something more than carbon arc was involved."

In Washington, the Army said no complaints of this type "officially have been brought to the attention of the Army. If any are received they will naturally be investigated."

Lyddy gave these facts about the four men he represents:

John J. Zawesza, 42, Fairfield, a carpenter; His wife had three miscarriages, then delivered a child with a cleft palate. They have no other children.

Peter Decerbo, 35, Milford, a bottling firm worker; One miscarriage, and one child, a girl of seven, with a club foot.

Harold Saunders, 38, Bridgeport, a plastics firm executive; Two miscarriages, then a child with a cleft palate and a hare lip, then two apparently normal children.

Joseph Vanacore, 42, Hamden, a postal worker, who says he found out from a doctor in 1950 he

is sterile. He said he twice applied to the Veterans Administration for compensation, and was turned down. He and his wife adopted a son two years ago.

Lyddy said the men of the 9th Armored Division's 638th Ordnance Heavy Maintenance Tank Company "were assigned to this. They had no choice in the matter. They were told by the Army that overexposure to the rays from the equipment could produce sterility."

He said the four men got together about a year ago and started comparing notes. Then they got in touch with some of the other men, in different parts of the country, and swapped information about 30 members of the company.

Said Lyddy: "Pretty close to 50 per cent of them reported miscarriages, sterility or deformed children."

Cosden-Cabot Water Rate Talks Delayed

Negotiations between the city and Cosden - Cabot officials over water rates have been postponed until next week.

E. B. McCormick, Cosden's chief engineer, was called out of town unexpectedly Wednesday, which caused the delay. H. W. Whitney, city manager, said Cosden officials informed him that McCormick would not be back until the end of the week and thus the firm asked that the talks be postponed until early next week.

McCormick had represented Cosden in talks prior to the city commission meeting Tuesday night. At the Tuesday meeting, Cosden vice president Dan Kraus was spokesman for the Cosden and Cabot groups.

The city has been charging the firms 47 1/2 cents per 1,000 gallons for raw water, and this water has been costing the city about 16.2 cents. The industries asked that the profit be removed and that the price be dropped to about what the city pays for water.

Cosden and Cabot also are seeking a sliding scale whereby if the city's water cost drops, the Cabot-Cosden bill would drop accordingly.

The city commission Tuesday night authorized the city manager to draw up the contract with the firms.

Lake Featured By Magazine

Fishing and a new boat basin at Lake J. B. Thomas are given good play in the current issue of the Texas Parade magazine.

This is the second time that the publication has carried articles about the lake, the first being a descriptive piece by Lewis Nordyke on the lake's function as a water supply for the member cities of the Colorado River Municipal Water District (Big Spring, Snyder and Odessa).

The current article, with a picture, describes excavations for the new boat basin at Lake Thomas Lodge, operated by Ned Sanders on the south side of the lake near the dam. It also points out that the lake is fast becoming a mecca for sportsmen all over West Texas.

Magnolia and its dealers in Big Spring are supplying a cartooned filmstrip for use by local schools in teaching bicycle safety.

A copy of the new filmstrip titled "How to Ride Your Bicycle Safely" has been sent to the Big Spring Public School Library which serves schools in this area. The strip will be distributed on a loan-out basis to schools requesting it.

Auditory-visual libraries throughout the state of Texas are receiving copies of the strip as a public service move by Magnolia. The filmstrip compares bicycle safety rules with those practiced by jet airplane pilots. It has been praised by national reviewing boards as well as by the Texas Education Agency, according to Magnolia.

Housing and Military Affairs Committees of the Chamber of Commerce were to meet at 3 p.m. today to discuss Webb AFB plans to request additional military housing here.

Webb officials were expected to attend and outline plans for the proposed housing. Already authorized for the base is a 460-unit housing project, and Chamber officials said the new proposals will cover additional dwellings.

The Junior Rifleman's Club will meet at the Western Sportsman Club range on the Andrews Highway at 7 o'clock this evening, rather than at HCCG.

Plans for a rifle shoot will be discussed during the session, Leslie Snow of the sponsoring organization announced.

Berliners Love Film On California

BERLIN (AP)—Berliners are so curious about life in California that several hundred are willing to get up every Sunday morning, go downtown and pay hard cash to see a documentary film on the subject.

They've been doing it for three years now.

The film has been run off at a downtown theater every Sunday at 11 a. m. since Jan. 30, 1954. It is still drawing customers.

"If business stays like it is," says Theater Manager Kurt Broschke, "we'll show the film for several more years."

The movie was made in 1953 by a German, Hans Domnick. It looks at California in an amused, somewhat sarcastic manner. It conveys the impression that California is the land of the automobile.

In fact, more than half of the 20-minute film is given over to showing view after view of rushing traffic, underpasses, overpasses, drive-in theaters, drive-in restaurants, filling stations, auto laundries, and acres of parking lots.

Or, as the film's commentator puts it: "In California, a man without an automobile is lost."

Domnick tried to emphasize this by taking his camera out into the suburbs of Los Angeles and shooting long views of empty sidewalks, with not a pedestrian in sight. But the streets are filled with autos.

The auto is depicted as a powerful force which controls nearly all phases of life. Houses are torn down to make way for parking lots and highways. Huge bridges are thrown across San Francisco Bay and the Golden Gate.

Teen-agers pile into hopped up jalopies and roar around dirt race tracks. Wheels fly off, two racers smash into each other, a third one roars into the wreckage, an ambulance charges up, and the mad race whirrs on.

But there are also peaceful moments. If a Californian wants a snack, he jumps into his car and dines at a drive-in restaurant.

Wayne Smith, local Chamber of Commerce manager, will be guest speaker for an officer installation and ladies' night program of the Brownfield Lions Club next Monday. Smith is a former resident of Brownfield.

Daniel Vetoes Juvenile Bill

AUSTIN (AP)—Gov. Price Daniel late last night vetoed a bill re-codifying the juvenile laws following an opinion by Atty. Gen. Will Wilson.

The bill would repeal another measure creating the Texas Youth Council or nullify provisions of both, the opinion declared.

The governor penned his way through a midnight deadline to approve or disapprove bills passed by the 55th Legislature. Measures left untouched automatically became law.

One of these untouched bills deals with the power of the San Antonio River Authority to take lands not heretofore used but merely dedicated for cemetery purposes.

The attorney general said the bill was unconstitutional. He wrote that although the Legislature may create a river authority and prescribe its powers, it cannot enact a local law which deals with a subject specifically prohibited by its provisions. The constitution prohibits the Legislature from enacting any local law relating to cemeteries not owned by the state.

To Open Bids On Furr Building Next Tuesday

Eight contractors have taken out plans for possible bidding on the Furr Store building to be constructed here.

Bids will be opened here next Tuesday at 2:30 p.m. for the 21,000 square foot structure estimated to cost around \$195,000.

Among contractors checking plans from G. R. Billingsley, Lubbock, architect, are Rose Construction and Boyd J. McDaniel, both of Abilene; James E. Walker & Co., both of Lubbock; Basic Construction Company of Midland; and A. P. K. & Sons, Construction Company and Suggs Construction Company of Big Spring.

Funeral Pending For Lyon Baby

Funeral services are pending at Nalley-Pickles Funeral Home for the infant son of Mr. and Mrs. Joe M. Lyon Jr. of Big Spring.

The child was stillborn in a local hospital Wednesday evening. Survivors, in addition to the parents, are a sister, Vicki Jo, Big Spring, and maternal grandparents, Mr. and Mrs. L. J. Tidwell, Waxahachie.

Drunken Driving, Forgery Charged

Charges of DWI second offense have been filed in the court of Walter Grice, justice of the peace, against Melvin Eugene Howell, 17, announced Thursday.

Charges were filed against Robert Lee Cotton, alleging forgery, in the same court.

Only Seven Colts In Belmont Run

By JOHN CHANDLER
NEW YORK (AP) — A field of seven colts, smallest since the great Native Dancer beat five rivals in 1935, appeared to be about the size of it for the 99th running of the \$100,000-added Belmont Stakes Saturday.

Narrowing it down further, it looks like a two-horse duel between the Wheatley Stable's Bold Ruler and Ralph Lowe's Gallant Man, plus a battle of skill matching a veteran Belmont combination against a trainer and jockey taking their first stab at the famed classic.

Trainer Sunny Jim Fitzsimmons, 82, and jockey Eddie Arcaro each will be shooting for their seventh Belmont with Bold Ruler. Johnny Nerud, who trains Gallant Man, and his rider Willie Shoemaker, have never had a colt in the mile and one-half race.

Way Out Front

Clear Day (No. 3), owned by Mr. and Mrs. E. C. (Bud) Tucker of Big Spring, is shown racing first across the finish line in a six-furlong race at Ruidoso Downs, N. M., last Saturday. Second, almost a length behind, is Pigeon Patter. The ten-year-old Clear Day's jockey was E. Garza. Clear Day paid \$3.40 to win and earned \$383.28 for his owners.

Ruidoso Futurity Trials Are Scheduled Saturday

RUIDOSO, N. M., (SC)—A talented field of ten thoroughbreds, headed by Sistory, Smooth Tony, Spurred and Mesa H., tops Ruidoso Downs feature race Saturday, the "J. L. Taylor Purse," at 5 1/2 furlongs.

Sistory, third in the recently run Inaugural Handicap, needed an out over this oval, and should prove tough with this band of horses.

Smooth Tony, the consistent son of Two Ton Tony, is always to be reckoned with in any race. Mesa H., owned by O. M. Lee Jr., of Alamogordo, is back for another try at Ruidoso's top races and seems to thrive in this climate.

Although he has not started since the State Fair at Albuquerque, this sturdy son of Alex The Great can run with the best of them when he is in top form. The competition is not limited to the four horses mentioned. Also to run are Papagayo, Hemstitch, Hand Stamp, Andra Fair, Kansas Cy-clone, and Stone Free.

The first Ruidoso Quarter Horse Futurity Trials, for two-year-olds which are eligible for the Ruidoso Quarter Horse Futurity, will be run this Saturday.

Sandy Bar, owned by James L. Finley, is slated for favorite in the trials which should prove to be New Mexico's richest purse ever awarded.

Sandy Bar, winner of two at the current meeting will go postward with jockey Jack Brown aboard.

This final number in the Derby-Preakness-Belmont triple crown is to be televised and broadcast nationally from 2:30-3:00 p.m. (CST).

It probably will determine the 3-year-old championship, as it has done in ten of the last 11 years.

Nerud said he planned to enter Bold Nero, another colt owned by Lowe, so actually there will be only six betting interests. Bold Nero and Gallant Man both were bred overseas by the Aga Khan.

Others expected to be entered officially tomorrow morning are the Greentree Stable's Cohoes, the Cain Hoy Stable's Lucky Dip, a French-bred colt, the D. & M. Stables' Inside Track, and Mrs. Jules Schwartz's Nah Hiss.

With seven facing the starter, the Belmont will have a gross value of \$114,350, the winner netting \$78,300. Second, third and fourth place is worth \$20,000, \$10,000 and \$5,000.

Bold Ruler rules an even money favorite at the moment, with the Lowe entry 7-5, and Cohoes with Ted Atkinson up, 8-1.

Robert Todd New Midland Coach

MIDLAND (SC) — Robert Todd, 28, former junior high school mentor in Abilene, has been named head basketball coach at Midland High School.

He succeeds Glen Selbo, who resigned recently to return to his native Wisconsin.

Todd coached at Lincoln Junior High in Abilene the past school year. He signed for a salary reported at \$5,750 per annum.

Eight Ex-Champions Seek Crown In National Open

TOLEDO, Ohio (AP)—Amid some murmuring among the athletes about closely cropped greens and uncropped rough, a field of 162 started today in quest of the 57th National Open Golf Championship at historic Inverness Club.

Eight champions were on hand. The others ranged in age from 17-year-old amateur Jackie Nicklaus of Columbus, Ohio, to 62-year-old wee Bobby Cruickshank of Pittsburgh, who tied for the title 34 years ago but lost the playoff to Bobby Jones.

The Inverness course measures 6,919 yards of treacherous terrain, windswept as a rule, and studded with 117 traps and hundreds of trees. A small stream meanders across seven fairways.

"Old Man Par" is 70. But the experts are picking him to whip the field.

Everyone seems to think the new champ, at the end of the 72-hole medal play test which winds up with Saturday's 36-hole marathon, will come from a talented bracket including four-time cham-

Ben Hogan, four-time runner-up Sam Snead, Masters champion Doug Ford, PGA champion Jack Burke whose dad tied for second here 37 years ago, and Peter Thomson of Australia, three-time winner of the British Open.

The big hazard is the small and the ball, then tap the ball lightly with the shadow.

day's last free fling around the course, most of the field failed to find the answers.

One pro, after three-putting from 12 feet, said: "The best way to handle these greens is to hold the putter a bit above and behind the ball, then tap the ball lightly with the shadow."

Ben Hogan withdrew from the 57th National Open Golf championship today after stricken with severe back and chest pains.

After receiving a 54-minute delay in his starting time to permit diathermy treatment, the four-time champion from Fort Worth, Tex., returned to the Inverness course, dressed and took some practice shots.

Then, obviously in great pain, he turned to officials of the U. S. Golf Assn., and said:

"I'm afraid I can't make it."

HOGAN FORCED TO WITHDRAW FROM NATIONAL OPEN TOURNEY

TOLEDO, Ohio (AP) — Ben Hogan withdrew from the 57th National Open Golf championship today after stricken with severe back and chest pains.

After receiving a 54-minute delay in his starting time to permit diathermy treatment, the four-time champion from Fort Worth, Tex., returned to the Inverness course, dressed and took some practice shots.

Then, obviously in great pain, he turned to officials of the U. S. Golf Assn., and said:

"I'm afraid I can't make it."

Dusters Leave For Big Meet

Eight members of the Webb Air Force Base track and field meet leave today for Wichita Falls, where they take part in the World Wide Air Force meet, scheduled for Friday and Saturday.

The eight going from here include Bruce Sweeney, William Nottingham, Richard E. Strickland, Mike Alexander, Steve Marcinko, Sheddick Washington, Jim Sewell and Dan Dixon.

The Webb team warmed up for the meet by capturing first place in the Southwest Air Force Conference meet last week, also held at Sheppard Field in Wichita Falls.

Sweeney scored 30 points and emerged as the high point man of the meet. However, he has been favoring a bad leg and quite probably will not be able to enter as many events this week.

Two members of the United States Olympic team, discus thrower Desmond Koch and distance runner Bill Dellinger, head the entry list.

Comedian Joe E. Brown is honorary referee of the meet. Olympic trainer Elmer Brown of Texas Christian University will be the official referee.

St. Louis In Thick Of Nat'l Loop Race

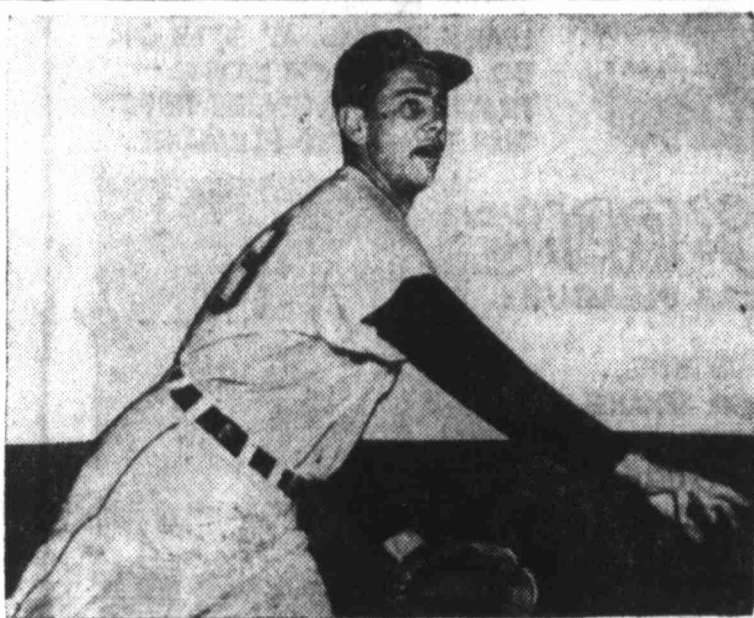

By ED WILKS
The Associated Press

The St. Louis Cardinals, rocketing along while the rest of the hot-shots fizzled, finally have themselves a spot in the National League's first division—a fourth-place berth that's only a game removed from the lead.

In a week's time, the Cards have won eight in a row, making up 5½ games on the leaders in a rush that's been carried by three pitchers and a couple of old pros named Stan Musial and Del Ennis.

Last night they defeated Philadelphia 4-0 to gain a share of fourth with the falling Phillies.

First-place Cincinnati was slugged a third time in succession by seventh-place Pittsburgh, this time in a 4-3, 10-inning decision. That left the Redlegs half a game ahead, five percentage points in front of Milwaukee and Brooklyn, deadlocked for second after the Dodgers put an end to a four-game skid with an 11-9 victory over the Braves.

DUKE MAAS

Maas Found Key To Success After Losing 11 In Row

DETROIT (AP)—In one of the most drastic about-faces of the 1957 baseball campaign, a 26-year-old righthander who had lost 11 straight decisions in two American League seasons has suddenly blossomed into one of the league's top pitching stars.

Duane Frederick (Duke) Maas is the least surprised man around after compiling a 6-2 mark in the early stages of the race. He lost his opening decision then won five in a row, two of them shutouts.

It never has been a matter of ability, or lack of ability, with the easygoing Maas. He was equipped with fine pitching tools: A strong arm, a live fast ball and good breaking pitches. Up to now, he never was able to find out quite how, and when, to use that talent.

Maas came to Briggs Stadium back in 1949 with his high school coach, asked and received a try-out and signed a \$150-a-month contract.

He lost seven straight decisions in 1956 before being shipped to the minor leagues. He had a 5-6 record with the Tigers in 1955, but lost

his last four decisions and went back to the minors.

"Two things were needed to turn Duke from a fair minor league pitcher into a top-flight major league pitcher," says Tiger Manager Jack Tighe. "Willis Hudlin, our pitching coach, got the job done."

Maas needed confidence and control. Hudlin, a former major league pitcher star who joined the Tigers this season, worked long hours during the Florida training season to force Maas to use the fine tools that are his.

"Duke never relied too much on his breaking pitches," says Hudlin. "He had a real good fast ball but he failed to change speeds on his pitches. We worked hard. He wanted to learn."

"Duke finally was convinced that a pitcher doesn't have to overpower a batter, that he doesn't have to fool the batter on every pitch. All he has to be able to do is keep the batter a little off-stride. By changing speeds, by using a slider and a curve along with a fast ball, Duke finds now that he can do just that."

LOOKING 'EM OVER

With Tommy Hart

Big Spring's bowling impresario, George Steakley, expects to have his kegling palace, Clover Bowl, open inside of three weeks. Bowlers and would-be bowlers will have no excuse once the doors of the South Highway 87 palace are open—there'll be an uninterrupted 72 hours of free play for everyone, first come and first served.

There'll be no summer league program—Steakley first wants to get the kinks out of the automatic pin-setting equipment. The lapse will also give him plenty of time to get the winter leagues organized.

Floor sanders have completed work on eight of Steakley's 16 lanes.

Ever watch the western program, "Gunsmoke," on television? Then you'll recognize the name Chester, chief deputy to Marshal Matt Dillon (James Arness).

In real life, Chester is Dennis Weaver. The limp he uses isn't genuine. Fact is, he was quite an athlete in his day. A University of Oklahoma ex, Weaver was the first student there in seven years to qualify for the Olympic decathlon.

If the El Paso Southwestern Baseball League franchise is moved, chances are it will go to neighboring Lamesa rather than come here.

Jim O'Brien of the Lamesa paper says it would require about \$800 to get the lighting system in the Lamesa park in working condition.

O'Brien adds the Lamesa city council may favor the proposal to make the repairs if Tom McHugh, owner of the franchise, will agree to keep up the park after he moved in.

Any racing car enthusiast who'd like to put a vehicle in the 500-mile class at Indianapolis can count on an initial investment of \$35,000.

Pretty Nita Beth Farquhar, daughter of Mr. and Mrs. C. H. Farquhar of 903 Scurry Street, picked up the girls' singles championship in the "18 and under" bracket of the Midland tennis tournament last weekend.

The feat is a bit unusual, considering the fact that Nita Beth concentrated on volleyball rather than tennis all spring, didn't turn to the game until after school was out (although she had played it in junior high school).

Although small in stature, Nita developed fast as a "set-up" in volleyball, good enough to be named to several all-star games.

She still has a year of high school eligibility remaining, will probably play volleyball again next spring before turning to tennis.

Dixie Faulkner, one-time Big Spring netter, visited here recently. Dixie was taken out of competition several years ago when she underwent an operation on her mouth. Her doctor hasn't OK'd a return to tennis yet. She's now living in Shreveport.

Although big league clubs saturate minor league territory with play-by-play broadcasts and television, no team pipes its games into another big league club's territory.

It's another practice that may go against the cartel when the law-makers decide whether or not the game is monopolistic.

Bill Frank, president of the Teen-Age Baseball Association here, attended umpiring school with Vic Delmore, who is now calling balls and strikes in the big leagues.

Pace-Setting Eagles Back On Right Track In Race

By The Associated Press

Dallas, which was almost run out of its park by the last place club, got back into the groove against a top division outfit Wednesday night and increased its Texas League lead to 5½ games.

The Eagles, shelled by cellar-dwelling Oklahoma City four out of five, whipped second place Houston 4-3 in the opener of an important series.

San Antonio edged Oklahoma City 4-3 in 12 innings in the only other game. It was the Missions' fifth straight and pulled them within two games of Houston.

Dallas slammed two runs across in the eighth and two more in the ninth to clip Houston.

Ed Mierkiewicz singled with two out in the twelfth for the deciding tally as San Antonio beat Oklahoma City.

Thomas Is Big Man In Surge Of Pittsburgh

PITTSBURGH (AP)—Manager Bobby Bragan said today the main reason his hustlin' Pittsburgh Pirates have beaten the Cincinnati Redlegs three consecutive games is Frank Thomas, whom he called "one of the most versatile and best players in the majors."

"The worm is turning just a little," said Bragan. "We're getting a few breaks that went the other way earlier in the season. Now we've tied our season's longest winning streak at four games and one of the big reasons is Thomas."

In last night's game, won by the Pirates 4-3 in 10 innings, Thomas had two singles in three times at bat to boost his batting average to .338, fifth best in the National League. His hits drove in two runs to give him a total of 29 RBIs.

"And look what he did in the 10th when Dee Fondy got a lead-off walk," Bragan continued. "I knew Thomas might be a pinch to get a hit but the strategy called for a sacrifice and Frank laid down a good one. It paid off because Gene Freese came through a moment later with the game-winning single."

Thomas, who has to take a look at the lineup daily to determine where he's playing, was in left field last night. He turned in a brilliant play in the second when Ed Bailey was on first when Don Hoak sent a scorching liner toward Thomas, who caught the ball at his shoetops and threw to first to double Bailey.

"That's the kind of an arm the boy has," Bragan said. "In the infield he's terrific, especially getting that ball over from third to first."

Carlsbad Perking Up In SW Lead

By The Associated Press

It's time for the Southwestern League to take note of Carlsbad. Carlsbad won its eighth straight victory Wednesday night in whipping Hobbs 4-2 and the Potashers are closing in on second place Ballinger.

Clovis, the first place club, still is seven games ahead of Carlsbad but the Potashers have been inching up for more than a week. Clovis took a 14-9 thumping from Midland while Ballinger was being clouted 11-1 by last-place San Angelo.

Plainview and El Paso divided a double-header, with the Ponies taking the first game 5-3 and El Paso coming back for an 8-5 triumph in the nightcap.

Schuetz, Bartzen Lead Tennis Play

HOUSTON (AP)—Defending champion Richard Schuetz and top-seeded Bernard Bartzen of Dallas today led the way into the quarter-finals of the 44th Texas Sectional Tennis tournament.

Only one mild upset was registered in men's fourth round play yesterday. Ron Bunning, Eddie Fisher, a freshman, defeated fifth-seeded Bernard Gerhardt of Austin, 6-2, 5-7, 6-2.

Bartzen downed John Newman of San Antonio 6-0, 6-1. Schuetz was extended again but defeated Doug Bashrum of Baytown 9-7, 6-3.

Cabot Carbon Strengthens Hold On American Lead

Cabot Carbon strengthened its hold on first place in the American Little League standings by edging out Piggy-Wiggle, 2-1, here Wednesday evening.

The Pigs scored first when Terry Isbell led off in the 'hello' round by singling, Mike Houston walked and the Cabot first sacker dropped a fly ball, enabling Isbell to scoot home.

The Cabot team tied it up in the second when Bobby Lovell swatted a home run, then scored what proved to be the winning run in the third when Ronnie Dodson singled and Ronnie Cunningham doubled.

Neal Robison gained credit for the win, although Cunningham had to come in to face the last man. Ronnie notched a strikeout then to end the game.

In the evening's other game, the Flicks won a slugfest from the Cubs, 10-9, scoring what proved to be the winning run as early as the fourth.

Bobby Brown, the winning hurler, gave up six hits and fanned seven.

Trotline Fishermen Have Good Luck At Lake J. B.

Trotline fishermen have been reporting fairly good catches at Lake J. B. Thomas.

O. B. Warren and Claude Hodnett used cut shad to bait their lines and came in with 14 good sized channel cat.

Jack Owens of Big Spring reported a catch of eight large channel cats, which averaged out from two to four pounds.

One fisherman, using young frogs, reported an uncanny percentage—out of 35 baits, he boated 13 large catfish.

Crappie have been biting fairly well. Ross Woodson and his party from Lamesa got a nice catch on the north side of the lake. They

also strung up a number of nice cat.

Just to show that young folks can catch fish, too, Gloria Reid, Rhonda Reid and Jeannie Rhoton came in with 14 crappie ranging from a half to a pound each.

White bass are beginning to show in increasing numbers. Patrolmen reported two unidentified young men took 30 while trolling on Sunday afternoon.

The white bass and black bass as well as crappie appear to be about through with the spawning season. Yellow cat are still spawning. When water from the latest rise settles out a bit, Hiram Reid, patrolman, looks for some of the best catches of the season.

At Least Four Records Due To Fall In NCAA

AUSTIN (AP)—The nation's top tracksters today worked out in rain-soaked Memorial Stadium in final preparation for tomorrow's preliminaries in the NCAA meet. A heavy rain poured into the home track of the University of Texas late yesterday but the forecast for the prelims and Saturday's finals indicated fair weather.

With a fast track and suitable weather, four records appear certain to be broken with four more as possibilities.

The most likely to fall is the half mile. Tom Courtney of Fordham set the record of 1:49.5 two years ago and California's Don Bowden and Villanova's Ron Denary are favored to snap it this weekend.

Bowden has a 1:47.8 in chalking up a new Pacific Coast Conference mark and Delany whipped Courtney last Saturday in Houston in 1:48.4.

Bobby Morrow, the great sprinter from Abilene Christian College, could lower the standard in both the 100 and 220-yard dashes. The records are 9.4 and 20.9 and the ACC flash has matched the 9.4 on several occasions and smoked in with a 20.6 at Compton, Calif., last week.

The pole vault record of 15 feet 1 inch, the high hurdles mark of 13.9 and the two mile record of 9:01.9 also appear in jeopardy, with several threats entered in each event.

Local 826 Wins Over Cosden

Roy New pitched the Locals 826 team to an 11-8 victory over Cosden in a Texas Little League game here Tuesday night. He helped his own cause by slugging two hits.

Tigers, Rotary Win In Tests

Tommy Whaley pitched the KP Tigers to a 2-0 victory over the Big Spring Herald Reporters in Junior Teen-Age baseball league play here last night, setting the losers down with two hits.

After playing into the third inning, the two teams discovered they were playing on a diamond of wrong dimensions and had to start over.

In the other game, the Rotarians won a slugfest from the Kiwanis, 13-12, scoring the winning run in the sixth inning when Parker tripled and scored on a passed ball.

PLAINVIEW (AP)—The board of directors of the Plainview Baseball Assn. met today to decide if the club is to remain in the Southwestern League.

Monday night, the stockholders and fans recommended the club quit after Saturday and it's up to the board of directors to decide.

President W. J. Green of the Southwestern League said he thought the club would continue.

NYLON SALE!

Select and Save from our new stock of 3-T Nylon DeLuxe Super-Cushions

by GOOD YEAR

SAFER, STRONGER NYLON...SALE PRICED!

\$19.95

670 x 15 Tube-Type Plus tax and recappable tire

A real vacation find for safer turnpike travel this summer. A tremendous buy for in-town driving, too! Stronger-than-steel heat resisting 3-T Triple-Tempered Nylon Cord is exclusive with Goodyear. Processed by precisely controlled Tension, Temperature and Time, it makes this tire stronger, safer and longer lasting. And these low sale prices on Goodyear's exclusive 3-T Nylon DeLuxe Super-Cushions make this a tire value you can't afford to pass up. Stop, see us and save!

As low as \$17.5 a week puts you on 3-T Nylons in time for your vacation trip!

PROVED BETTER BY DRAMATIC TESTS!

Unharmful by pounding. A mounted jack-hammer pounded it for 34 hours. Over a million blows couldn't break or harm a single 3-T Nylon Cord.

Unharmful by crushing. We applied 31,150 lbs. of pressure and managed only to crush the rim. The tire came out undamaged and ready for road service.

Safer traction every way! For sure-footedness Goodyear combines (1) saw tooth rib edges with (2) deep Sipes. You get superb traction from 3-T Nylon DeLuxe Super-Cushions.

Peggy Hopkins Joyce Dies; Known For Many Marriages

NEW YORK (AP)—Peggy Hopkins Joyce, glamorous girl of the 1920s whose marital ventures brought her fame and fortune, died last night of throat cancer. She was about 64.

Miss Joyce entered Memorial Center for Cancer and Allied Diseases June 1 and fell into a coma a few days ago. At her bedside was her sixth husband Andrew C. Meyer, retired banker of New York and Woodbury, Conn.

Born near Norfolk, Va., as Margaret Upton, Miss Joyce was first married at the age of 16, and soon after shone on Broadway as a blonde beauty in the "Ziegfeld Follies" and Earl Carroll's "Vities."

Wide publicity attended her marriages and subsequent divorces, especially when she broke up with her third husband Stanley Joyce of Chicago, a multimillionaire lumberman. Details of her divorce suit against Joyce disclosed that, during their marriage, he had given her jewelry valued at \$1,400,000, a Florida home with a marble swimming pool, and a villa on the French Riviera.

PEGGY HOPKINS JOYCE

During the course of journalistic ventures—she wrote a novel, and an autobiography, covered the Ruth Snyder-Jerry Gray murder trial as a reporter and conducted a newspaper column—

Miss Joyce penned: "The modern woman is a domestic pet which can be nourished with checks, which can be tamed with jewels, and of which, one can be rid of with alimony."

Although engaged some 50 times, Miss Joyce once said an inviolate rule of her philosophy was: "Don't keep a man guessing. Men don't like to be harried or confused."

During her heyday, Miss Joyce appeared in several legitimate Broadway plays as well as a couple of movies. Between marriages she was linked romantically with members of the English and French aristocracy as well as financiers and industrialists.

Her first marriage, to Everett A. Archibald, was annulled. She then married Sherburne Philbrick Hopkins, a wealthy Washington socialite. Next was Joyce and then, in order, came Count Gosta Morner, a Swedish nobleman, and Anthony Easton of Palm Springs, Calif., an English-born manufacturing engineer.

Among survivors are a sister, Mrs. Clyde L. Gerhart of Lynchburg, Va.

20 Adult Education Courses May Be Organized At HCJC

Butcher, baker, candlestick maker—all these and others could fit into the adult education program shaping at Howard County Junior College.

The final offerings will depend upon demand, but Dr. Marvin Baker, in charge of the night school and adult education program, sees the possibility of some 20 courses aside from those in the

commercial department.

One course which found favor last year and is due to be organized in the autumn is interior decoration as an aid to housewives and others interested.

GIFT WRAPPING

The Christmas gift wrapping instruction will be repeated, and this time there will be a special course for those who wish to train

for seasonal employment in commercial establishments, he said.

Already the driver education training has proven popular with adults, and this is due to be offered on a continuing basis.

There have been several inquiries about special instruction in drapery making, he said. Similarly, classes may be organized to instruct in the fundamentals of gardening.

Several clubs have asked the college to lead in a discussion group program, and Dr. Baker said this had some real possibilities. Another course which is contemplated as a help to various organizations is that of parliamentary procedure. This might be offered in the early autumn as a means of assisting clubs in handling their schedule of business during the next year.

Art and ceramics are two other definite possibilities, Dr. Baker added.

Daniel Signs Some Bills, Vetoes Some

AUSTIN (AP)—Gov. Price Daniel penned his way through the midnight deadline yesterday to approve bills passed by the 55th Legislature. Measures left untouched automatically became law.

He vetoed one bill of general statewide interest and indicated he would knock out two others.

Reorganization of the State Insurance Board became final as Daniel placed his signature on the controversial measure and completed naming replacements for appointments made by former Gov. Allan Shivers.

Daniel had indicated he would veto a bill which the attorney general said was unconstitutional and another held in conflict with another new law.

The attorney general said a House bill which would recodify juvenile laws and re-establish the State Youth Development Council

was in irreconcilable conflict with a Senate bill setting up a Texas Youth Council. The governor signed the youth council bill several days ago.

A second opinion held another House bill unconstitutional. It would give the San Antonio River Authority the right to condemn lands not in use but merely dedicated as cemeteries. The attorney general said the bill violated a section of the state Constitution which prohibited the Legislature from enacting any local or special laws relating to cemeteries not owned by the state.

Daniel vetoed the Texas Food, Drug and Cosmetic Act at the request of the State Health Department. It protested the bill would "combine and confuse" its activities.

Daniel signed another so-called insurance reform measure which would make signers of false financial statements to the State Insurance Department liable to perjury charges.

Insurance Commission Chairman John Osorio had asked the bill also require companies to report when they become insolvent, but this provision was not included.

The governor signed another bill which he said he had been urged to veto. It allows cities to purchase and operate bus transportation systems.

Daniel said persons asking him to veto the measure claimed it would repeal an article of the penal code which allows half-fare bus tickets for school children. Daniel said he did not agree.

Another measure made law with Daniel's signature creates the Texas Traffic Safety Council to coordinate a safety program.

Daniel said the council's executive committee would meet at 11 a.m. tomorrow to "make preliminary plans . . . to reduce traffic deaths during the approaching Fourth of July holidays."

The council will be composed of representatives of state and local traffic agencies and organizations.

SHOPS COURSES

Facilities and instructors are available for more courses in woodworking and in metal shop work, as well as a general course for the household handyman.

The electronics courses, which proved surprisingly popular last winter, will be repeated in primary and secondary levels.

There is a possibility that auto mechanics may be offered, although specialized equipment is a problem here. The same problem exists for some fields of study in home economics and for those who would like to qualify as housemaids.

Remedial spelling will be offered again, both for adults and on the secondary level. This program gained widespread participation last year.

OCCUPATIONAL GROUNDING

A banking fundamentals course for new bank employees may be repeated, too, and this opens up the field for other occupations for courses to ground new workers in special terms, procedures, etc.

There will be courses in conversational English, both for those learning to speak English as well as natives who wish to improve their speech, and there will be other courses in conversational Spanish. If the demand warrants, there will be a repetition of the citizenship course which is designed to help those who are studying to qualify for citizenship papers.

Of course there are any number of offerings in the commercial department, including non-credit typing and shorthand.

Dr. Baker pointed out that the entire adult education program is flexible and is designed to meet specific needs. Anytime anyone wants a special type course, they should contact him. If a minimum of 10 can be signed for the course, they college will try to offer it.

'Liquidations' Run To 800,000

NEW YORK (AP)—The New York Times said today that Mao Tse-tung has admitted 800,000 persons were "liquidated" by Chinese Communist security forces between October 1949 and the beginning of 1954.

A Times dispatch from Warsaw said Red China's top leader disclosed that figure in his much-discussed speech to party leaders in Peking last February.

The text of Mao's speech has not been published, but a condensed version has been circulated among Polish Communists and parts of it previously have been reported by Western correspondents in Warsaw.

The latter included Mao's new Marxist theory that contradictions exist, not only in the ranks of the masses but also between the masses and the party. This represented a departure from Soviet doctrine which long has held that conflicts between the rulers and the ruled existed only under capitalism and vanished in a Communist society.

The Times said the 800,000 figure given by Mao was believed to include mainly opponents of the regime killed in civil warfare after 1949, as well as persons executed on charges of spying and counter-revolution.

Trotsky Assassin Loses Appeal

MEXICO CITY (AP)—The man who assassinated Leon Trotsky has lost another bid for freedom.

The 1st Circuit Court ruled yesterday Jacques Mornard cannot be freed from prison before his 20-year sentence is completed in 1960 because foreigners who enter Mexico illegally are not eligible for parole.

Mornard fatally injured the exiled Russian Bolshevik in 1940. His 20-year prison term was the maximum under Mexican law. He would have been eligible for parole in 1955, after serving two-thirds of his sentence, under ordinary Mexican practice.

Rains Sweep Mid-Continent

By The Associated Press

June's steady brand of wet weather showed no change today after another day of storms pounded areas in the mid-continent.

The violent weather yesterday and during the night extended from Texas to Iowa. Funnel clouds were sighted in parts of Texas, Missouri, South Dakota, eastern Kansas and southwestern Iowa. Heavy rain and hail drenched many sections, with strong winds lashing areas in the middle and lower Mississippi Valley.

More than 3½ inches of rain doused Shreveport, La., in a six-hour period. Wind gusts were clocked at more than 50 m.p.h. Similar blows were reported at Champaign, Ill. Heaviest rainfall hit areas in southwestern Missouri and most of Arkansas.

Space Travelers Facing Problem Of Staying Alive

SAN FRANCISCO (AP)—There won't be any space travel until scientists perfect auxiliary power systems to keep occupants of the craft alive, healthy and happy, three rocket experts said today.

Development of these systems will require about as much effort as the main engine of a rocket ship, D. G. Burdick, P. I. Wood and J. S. D'Abuso told the American Society of Mechanical Engineers.

Simple auxiliary power systems already are in use in rockets for steering, pumping fuel, sending radio signals and receiving instructions from control points.

However, the big space ships additionally will need independent power sources to supply heat, cabin pressure and even a substitute for gravity, said the three, from Aerojet-General Corp. Aerojet is a producer of large rockets.

Rocket builders at present are thinking about using small gas

Ready for the Summer shopping stampede?

June, July and August are busting out all over—in sales. Last year summer retail sales were \$1,400,000,000 more than spring sales. Summer sales gains in 1956 over 1955 were 32% greater than gains for the average quarter for the rest of the year.*

Summertime is shopping time because shopping's easier. Days are longer and the weather is better. Our booming economy has given more people more money to spend. Last year civilian employment averaged an unprecedented 65 million and went as high as 66.8 million at the seasonal peak in the summer!*

Daily newspaper circulation is highest ever, too—now up over 57,000,000. And, important for advertisers—it remains practically constant throughout the year. There is no summer replacement for the newspaper!

Each summer more and more advertisers—national, regional and local—are rushing their ads into newspapers to take advantage of the surge in summer buying. Make sure you get your share of summer sales. Use the daily newspaper this summer—all summer.

All business is local...and so are all newspapers.

*U.S. Department of Commerce.

Nicky Rocha Will Visit Sick Father

Nicky Rocha, 13-year-old Big Spring boy, under commitment to Gatesville reformatory as a delinquent, will be permitted to visit his sick father here before he is sent to the state training school. G. C. Murrell, Sterling County judge, announced Wednesday that he would grant the boy permission to come to the hospital in Big Spring to see G. R. Rocha. Murrell said that he issued the order after he was informed that the older Rocha had been confined to the hospital ever since soon after May 7—the date that Nicky and three companions staged a wild rampage which left a Sterling City man dead. Murrell said the delinquency judgment will become final in five days. After that time, he said that Rocha and Herman Lee Wright, another of the quartet in the case, will be removed from Tom Green County Jail juvenile ward to Gatesville. Doyle Hall, third member of the group, was also ruled delinquent by the Sterling County jury on Tuesday but Judge Murrell probated his sentence and will remand him to custody of his parents. Micky Martinez, the fourth of the boys, who admitted he fired the gun which took the life of Taylor Garrett, Sterling City station attendant, is already at the Gatesville school. He was removed to the institution soon after a hearing on May 17. Murrell also said that the commitment orders against the boys issued Tuesday will be effective until they are 21 years of age.

Walter George Is Seriously Ill

ATLANTA (AP)—Walter F. George, President Eisenhower's special ambassador to NATO and a former Georgia senator, is in serious condition with a coronary disease at Emory University Hospital. An attending physician said the 79-year-old statesman was suffering with "coronary atherosclerosis, or hardening of the coronary artery which nourishes the heart." The physician, who asked that his name not be used, said George was receiving anticoagulants, drugs used to prevent the blood from forming clots. George arrived in Atlanta by train from Washington yesterday and entered the hospital for a series of diagnostic tests. Before entering the hospital, the statesman said his future as an ambassador to the North Atlantic Treaty Organization would depend on the results of the examinations. George served in the Senate for 34 years. He did not seek re-election in 1956. Patients' Party Set A bingo party will be held for patients at the VA Hospital to-night. The party is being sponsored by the American Legion Auxiliary of Lubbock. Refreshments will also be served.

Loses Bet
The body of Harvey Ray Anderson, 31, of Detroit, Mich., is brought to shore at Ascarate Lake Park, El Paso, Tex., after he drowned while attempting to swim to the shore in the background. Anderson had bet companions on an outing to the park that he could swim across the lake at its widest point. His body was recovered 45 minutes after he disappeared. (AP Wirephoto).

Double Ring Vows Read In Anton Home Wedding

LAMESA — Standing before basket arrangements of white gladioli, amaranth palms and white lilies, Kenneth Low Jackson and Van Buren Welch exchanged double ring wedding vows Monday evening. The Rev. O. A. McBrayer of Paudah officiated for the ceremony which was read at the home of her parents, Mr. and Mrs. Herbert W. Jackson, Route 2, Anton. The bridegroom is the son of Mr. and Mrs. Martin E. Welch of Odessa and formerly of Lamesa. The bride, given in marriage by her father, wore a sculptured gown of silk chiffon over taffeta. The bodice featured a linen inset, adorned with clusters of lace petals sprinkled with pearls and rhinestones. Her long, bell-shaped skirt alternated rows of silver beads and iridescent sequins. Her veil of silk illusion was attached to a tiara of lace, embroidered with beads and seed pearls. The bride carried a white orchid surrounded by stephanotis and white feathered carnations atop a white ribbon. Mrs. C. P. Young Jr. of Wolf-orth attended her niece as matron of honor. She wore a street length dress of pink with matching accessories. She carried a cascade arrangement of pink and white carnations. The bridegroom's father was best man, and Joe L. Young, cousin of the bride, lighted the tapers. Following the exchange of vows a reception was held, with Mrs. E. O. Holland, Mrs. M. L. Young, both aunts of the bride, and Mrs. W. O. Moore assisting with the serving. The refreshment table was laid with a pink linen cloth and featured the tiered wedding cake topped by a miniature bride and groom. Following a wedding trip to New Mexico, the couple will make a home in Fort Worth where the bridegroom is employed by Travelers Insurance Co. For travel, the bride wore a navy printed cotton chiffon dress with navy accessories. The bride was graduated from Friendship High School and her husband from Lamesa High School. Both are graduates of Texas Tech.

Water Board In Squabble Over Counsel

AUSTIN (AP)—State Board of Water Engineers Chairman R. M. Dixon said he hoped today that a ruling could be made on firing the board's legal counsel, Joe Carter. A squabble yesterday prevented a board decision on Carter's status, also postponing action on whether to allow construction of the multimillion-dollar Canyon Dam on the Guadalupe River. Dixon said he wanted Carter to resign because of "disloyalty and uncooperativeness." He said Carter worked against his (Dixon's) confirmation before the Senate in the 88th session. Carter refused to resign and board approval is necessary to fire him. One of the most controversial appointments of former Gov. Allan Shivers, Dixon finally was approved. Carter would not comment. He worked at his desk during the day, and came back later with board member O. F. Dent, who has supported Carter. Dent tossed in the first dissent yesterday on firing Carter. He took a six-hour coffee break, keeping the board from holding a special meeting to decide on Canyon Dam or Carter. Dixon said the law required all three members be notified personally about a special meeting, but he did not notify Dent. After Dent returned, member H. A. Beckwith was absent. He came in, and told a reporter: "Big boy, I didn't know anything about a special meeting and I'm not present." Then he stormed out of the state building. He returned a few minutes later and crossed words with Dixon about information released to the press on the meeting and the upcoming decision on the Canyon Dam project. San Antonio and the Guadalupe Blanco River Authority presented applications before the board last summer to construct Canyon Dam. San Antonio would build the dam larger in order for it to get an extra 100,000 acre-feet of water for its own use.

NAACP Can't Find Lawyers

TYLER (AP)—The National Assn. for the Advancement of Colored People sent a telegram to Dist. Judge Otis T. Dunagan yesterday stating it had been "unsuccessful" in a search for new lawyers to represent it in Texas. The telegram was signed by Robert L. Carter, general counsel for the NAACP in New York, and Thurgood Marshall, attorney for the Legal Defense and Educational Fund, Inc. of the NAACP. They requested a 90-day extension of time given the NAACP to file exceptions to Judge Dunagan's findings in a permanent injunction case against the NAACP. The last day to file was Tuesday and Dunagan said he knew of no rule permitting an extension. The NAACP was represented by two Dallas Negro lawyers, C. B. Bunkley Jr. and W. J. Durham. Both gave notice they had withdrawn from the case. Judge Dunagan prohibited the organization to practice law, solicit lawsuits or engage in political or lobbying activities. The injunction also ordered the NAACP to pay the state franchise tax required of all corporations. The NAACP has appealed and posted \$5,000 appeal bond to cover possible court costs. The appeal would go to the Court of Civil Appeals in Texas and perhaps to the Texas Supreme Court. Bunkley said he and Durham "thought they had accomplished everything that could be accomplished" when Dunagan handed down his ruling on the permanent injunction. He said they "were satisfied with the judgment that was entered because it only enjoined us from doing what the law prevented us from doing anyway."

Helpful Example

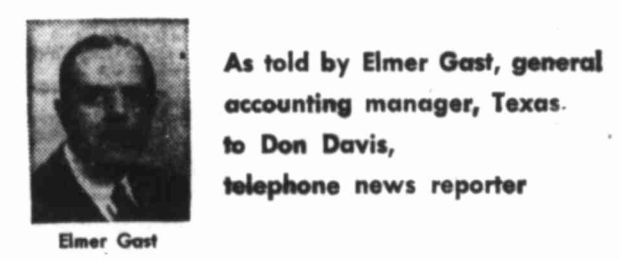

TEMPLE, Okla. (AP)—W. Noblett's beagle hound was obviously unhappy when his master missed a couple of shots while on a rabbit hunt. Late in the dog went out alone—and returned with two rabbits he caught.

Stuffed Piggy Bank

DETROIT (AP)—Nobody laughed at Vernon police station when Mrs. Kathryn Brown reported to police a piggy bank was stolen from her home—not after she told them it contained 15 hundred-dollar bills.

Behind your telephone bill...machines that can "read"...1,450 conscientious people

1½ million customers' bills,
75,000 employee pay checks
...all in a month's work for
telephone accounting people

As told by Elmer Gast, general accounting manager, Texas, to Don Davis, telephone news reporter

PAYING bills will never be the most popular American pastime. Even so, there's something a lot more satisfying about paying a bill if it's clearly stated, easy to understand—and above all, accurate. That's why Southwestern Bell's accounting people bear down hard on accuracy in preparing your telephone bill.

"Aside from using the telephone, a telephone bill may be the only direct contact a customer has with our company for months in a row. So we try to make sure it leaves as favorable an impression as possible," says Texas accounting head Elmer Gast.

JET AGE METHODS
Getting out a million and a half bills a month accurately and on time takes an efficient, fast-moving system—and some amazing new accounting machines.

One such marvel is part of Direct Distance Dialing. It keeps track of charges for Long Distance calls that can be dialed direct by customers in some cities.

The number of the calling telephone, the city and number of the called tele-

BRaille-like TAPE helps make new Direct Distance Dialing possible. Billing information is recorded for out-of-town calls that customers in some cities can dial themselves.

THE CONFIDENCE you have that your telephone bill is correct is well-founded. For behind the scenes, with aid from some amazing machines, Texas' telephone accounting people do everything possible to make sure your bill is right and on time.

phone, the date, time of day, and length of call are automatically recorded in code on a three-inch wide paper tape.

Later, in the accounting center, the tape is fed through another machine that "reads" the information and summarizes it so that it may be billed properly—all with built-in safeguards against mistakes.

TAKE IN, PAY OUT

Telephone accountants have many other duties besides preparing your monthly bill.

"For one thing," Gast laughs, "we certainly enjoy the fond regard of our fellow telephone employees, come pay-day. Every month we send out 75,000 pay checks to Texas' telephone people. We also arrange to pay 4,600 suppliers' bills each month. In both these jobs, accuracy is a must."

Some other important Accounting Department jobs: Keeping the company's books according to the accounting system set up by Federal and state authorities. Maintaining records on the cost and progress of hundreds of engineering and construction jobs. And keeping inventory of millions of tools

GETTING OUT PAYROLL for 26,000 employees is big job. This machine prepares pay checks, making individual deductions for taxes and other items automatically.

and individual pieces of equipment.

How would he explain the goal of telephone accounting? "Easy," says Gast. "Even though we seldom meet or talk to customers, our work is just as important to good telephone service as the job of installers, repairmen, or operators."

"So we make every effort to issue bills correctly and on schedule... and to keep abreast of technical advances in the business. In short, we do our best—to help keep telephone service good, and improving every day."

Public Invited To Attend Lectures On Book Of Job

A series of studies of the Book of Job, to which all the public is invited, will be presented at the First Baptist Church for the six-day week beginning June 24. The lectures will be given by Dr. P. D. O'Brien, First Baptist pastor, who has made a specialty of this book of the Bible, and has conducted special meditations on Job no less than 55 times. The lectures will be held each morning, Monday through Saturday, from 7 to 7:40 a. m. They will start promptly, and will be

concluded in time for working people to be at their jobs by 8 o'clock. While the presentation of Job is under sponsorship of the Men's Brotherhood of the First Baptist Church, leaders of that organization stressed that the program is for every interested person, men and women. "We invite people of all faiths to join us in this study," said T. B. Atkins, president of the Brotherhood. "Dr. O'Brien's expert knowledge of the book of Job, and in this book, people who are

Fears Complacency On Road Program

HOUSTON (AP) — Federal Highway Administrator Batram D. Tallamy predicts that "complacency of progress" in highway building. Tallamy, speaking yesterday to the 38th annual conference of the Western Assn. of State Highway Officials, said the success of the largest road program in the nation's history depended on many things. He said integrity, imagination and a lack of complacency are vital to the success of the new 50 billion dollar federal highway program. Tallamy said the year old program is facing problems because of the shortage of engineers, occasional shortages of materials, delays in purchase of rights-of-way, and financial problems within the states.

the 38th annual conference of the Western Assn. of State Highway Officials, said the success of the largest road program in the nation's history depended on many things. He said integrity, imagination and a lack of complacency are vital to the success of the new 50 billion dollar federal highway program. Tallamy said the year old program is facing problems because of the shortage of engineers, occasional shortages of materials, delays in purchase of rights-of-way, and financial problems within the states.

School Calendar For 1957-58 Set

The 1957-58 school calendar, extending from Aug. 19 through next May 26, has been approved by the board of trustees. Principal change from past calendars is the shortening of the Christmas vacation period to one week. Actually, the period will cover nine days, for two weekends are involved.

Classes will be dismissed at the close of school Dec. 20 and will not meet again until the morning of Dec. 30. After two more days of school, the New Year's holiday will be observed. First on the schedule is the administrators' workshop, Aug. 19-23. Next comes the general faculty workshop, Aug. 26-30. Labor Day, Sept. 2, will be a holiday and classes will begin on Sept. 3. Business - Education Day (no classes) is set for Nov. 14, and the

Thanksgiving holidays are to be Nov. 28-29. Christmas holidays are officially listed as Dec. 23-27, and the first semester will end Jan. 10. Second semester starts Jan. 13. March 7 is the date for the District TSTA convention and no classes will be held. Classes also are to be suspended March 21 for the ABC Relays and April 4-7 for the Easter holidays.

Californian Here For Graduation

Mr. and Mrs. Larry Freeman and daughter, Lynn, of Chula Vista, Calif. are here for the graduation of their son, Lt. Davis L. Freeman, at Webb AFB, La. Freeman is a member of Class 57-0 which gets its jet pilots wings Thursday evening. Freeman is publisher of three newspapers in the Chula Vista area.

Uncle Ray:

Cotopaxi Is Tallest
Volcano Now Active

By RAMON COFFMAN
Ecuador looks rather small on a map of South America, and it is small when compared to Argentina or Brazil. On the other hand it has a larger area than the island of Great Britain. The name of Ecuador is of Spanish origin, and refers to the equator. The country is cut by the line of the equator. The capital city is Quito (pronounced KEE-toe).

We may expect hot weather in the Torrid Zone, and people usually have it there. Some places, however, have cold weather even when they are located on, or close to, the equator. Those places have a high elevation. Quito, for instance, has a cool climate even though it is only a few miles from the equator: the reason is that Quito is almost two miles above sea level.

The city of Quito was named after ancient Indians. These Indians held power in the area for a long time before they were conquered by the Incas. Later (425 years ago) the Incas were overthrown by soldiers of Spain. The streets of Quito are narrow and winding. Many of them slope steeply. It is a task to walk from one end of the city to the other!

Ecuador may be called an Indian republic. Ninety per cent of the people are Indians or persons of mixed Indian and Spanish

A view of Cotopaxi.

stock. The women of the capital city wear bright colored shawls, the colors including green, yellow and red.

Thirty miles from Quito is the tallest active volcano in the world. It is called Cotopaxi (pronounced KO-toe-PACK-see), and rises almost four miles above sea level. Around the cone are fields of snow which last all through the year.

Several times during the past century Cotopaxi has thrown out lava, flames and hot ashes. In a few cases the lava has melted so much snow that flooding waters rushed down the slopes, like large rivers on a rampage.

strict TSTA convention and no classes will be held. Classes also are to be suspended March 21 for the ABC Relays and April 4-7 for the Easter holidays.

The 1957-58 school term will end May 23. Junior high commencement is set for that date. The high school baccalaureate is scheduled for May 25 and commencement is slated for May 26.

STANTON RIDERS IN RODEO PARADE
Ralph Hendricks on wagon, Mike Anderson in saddle.

Lynn Posse, 4-H Club Win In Parade

Several thousand people lined Big Spring streets yesterday afternoon as the Rodeo parade opened the 1957 western affair. Eight floats and six sheriff's posses along with almost 200 riders took part.

The trophy for the best posse went to Lynn County riders who were dressed impressively in green shirts and gold chaps. Receiving honorable mention for second and third places respectively were Ector County, dressed in turquoise and brown and Lamesa, in black and gold.

Other posses in the parade were Martin County, Mitchell County and the Big Spring Mounted Patrol. The posse trophy was awarded to the winners during last night's performance of the Rodeo.

First place for floats went to Howard County 4-H Club. This entry depicted different types of 4-H work. Second prize of \$30 went to a float entitled "Summer Theater", sponsored by Big Spring Evening Lions Club and Civic Theater. A \$20 prize for third place went to Junior Women's Forum for their float, "Ferdinand the Bull."

Other entries were Desk and Derrick, "Come to the Rodeo"; Toastmasters Club; Mu Zeta Chapter of Beta Sigma Phi; "Judge Roy Bean Court and Trial"; Seba Tri-Hill-Y Club, "Yellow Rose of Texas"; and Beta Omicron Chapter of Beta Sigma Phi, "Yellow Rose of Texas."

Prizes were awarded by the Big Spring Rodeo Association and judges for the parade were members of the Business and Professional Women's Club. Judging was based on portrayal of subject, originality of ideas and artistry.

The parade was led by the Webb Air Force Band. Following behind in open convertibles were officials from the Rodeo, Webb Air Base, and city and county.

Also taking part were members of Big Spring Junior High Band. Over 300 Little Leaguers in baseball uniform marched and rode throughout the parade.

The review moved quickly and immediately after it disbanded, members of the various sheriff's posses moved to the City Park where they were guests of the Big Spring Mounted Patrol at a barbecue.

Nixon Taking Hand In Civil Rights Bill

WASHINGTON (AP)—Amid indications he may play a leading role in Senate maneuvering over civil rights, Vice President Nixon discusses racial problems today with a Montgomery, Ala., Negro pastor.

Nixon, as the Senate's presiding officer, would be in a strategic position to help or hinder a reported effort to bypass the Senate Judiciary Committee with a civil rights bill the House may pass tomorrow. The Senate's own bill now is tied up in that committee.

The Rev. Martin Luther King, a leader in Montgomery Negroes' long boycott of buses in that city, reports to Nixon on conditions in the South as he sees them.

King's conference with Nixon grew out of conversations they held in Ghana on the vice president's African trip last March. King had invited Nixon to visit the South to study what the Negro pastor called "the extent of violence" there so that Nixon might report to President Eisenhower.

Southern senators planned a caucus on what they can do in case a Nixon ruling is called for on routing the House civil rights bill.

They accepted Nixon's meeting with King as further evidence that he would side against them if the parliamentary situation arises.

Sen. Knowland of California, the GOP leader, said that when the House bill reaches the Senate, supporters of President Eisenhower's civil rights program are considering raising a technical point that it should go directly to the calendar.

This would have the effect of bypassing the Judiciary Committee. If a point of order is raised, Nixon either could rule on it or could submit the question to the Senate. If he ruled the House bill should go before the Senate without committee consideration, this decision undoubtedly would be appealed to the Senate itself.

Any Nixon ruling to put the bill on the Senate calendar could touch off a Southern filibuster.

At a point of order is raised, Nixon either could rule on it or could submit the question to the Senate. If he ruled the House bill should go before the Senate without committee consideration, this decision undoubtedly would be appealed to the Senate itself.

Budget Parleys For United Fund Set For July

Hearings with various welfare agencies, to determine budget requirements for the 1957-58 United Fund campaign, will be held probably the week of July 8.

This tentative schedule was announced by Dan Krause, chairman of the UF's budget committee, at a meeting of the organization's board of trustees Wednesday afternoon.

All agencies participating in the coordinated fund campaign will be given official notice of the hearings, and requested to have representation for budget studies. Krause's group will then arrive at an over-all budget for the United Fund campaign.

UF trustees Wednesday also gave approval for the employment of professional services, to assist in directing the fund drive this fall. The organization's board of directors was authorized to negotiate a contract.

The fund drive last year was conducted without professional assistance, but UF leaders said this put an unreasonable burden upon volunteer leaders, and that experience over recent years has demonstrated that a campaign can be conducted more efficiently with use of established organizational methods.

BIG SPRING DAILY HERALD

4,000 Watch Fast-Moving Opener Of Annual Rodeo

Big Spring's 24th annual Cowboy Reunion and Rodeo got off to a brilliant beginning Wednesday night.

More than 4,000 fans were in the stands; ideal weather prevailed and the initial night's program was staged without hitch or accident.

Second performance of the four day show opens at 8 tonight. The show closes Saturday night. One hundred and 20 rodeo performers are listed as entrants and officials in Big Spring believe this year's event will be one of the most successful in the long history of the rodeo in this city.

Hottest competition of the evening was in the calf roping with competitors showing raw skill and excellent time. Top man was Buddy Groff, Bander. He roped his calf in 10.5. Only a few spectators saw Groff's performance. The calf roping event was continued after the show had ended and the crowd had gone, due to the large number of entries. A handful of spectators stayed in the stands for the eliminations.

Through coincidence, none of the ropers who performed while the crowd was on hand were in the top four in official fast time. In second place was Olin Young, Lovington, N.M., with a time of 11.2. Third and fourth place winners, tied with 11.3 were Tuffy Cooper and Rag Wharton.

In steer wrestling, Bill Lowe, Crane, was top man on opening night. His time was 10.5; Danny Daniels, of Fort Worth was second with 11.7 and Buck Boyce, Helena, Mont., third with 12.8.

Top riders in the cowboy's bareback bronc riding were Bill Weeks, Abilene, who was high man; Elliott Calhoun, Las Cruces, N.M., and Ira Akers, San Antonio.

Buck Boyce riding Old Shot was high man in the saddle bronc event with Bill Weeks taking second honors. Neal Gay of Dallas was third.

C. C. Evans, Dublin, took top spot in wild cow milking. His time was 26.3. J. L. Sawyers, Garden City cowboy, was second

with 33. In third place was Monroe Tumlinson with 39.2.

Elliott Calhoun, Las Cruces, was top bull rider of the evening. Tex Martin, Clifton, was second and Harry Tompkins of Dublin was third man.

Local calf ropers had their own first round of competition in the Howard County calf roping contest. Pete McKee with 14.1 was tops. Derrell Hewitt was second with 16.1. Bill McElvain came in third with 20.2.

Local riders, during the show proper, had bad luck in that but McKee failed to lasso their calves. The times scored were in after-performance eliminations.

The audience liked the inter-acts offered by Jay Slater and his remarkably well trained dogs. They also applauded the antics of the rodeo clowns. Carolyn Colborn and her wonder horse, Dixie, pleased the audience. The appearance of a team of matched Shetlands pulling a small model stage also caught the interest of the spectators, particularly the small fry.

Better scores in the events are anticipated tonight as performers become better acquainted with the arena and its conditions. Competition, rodeo officials say, steps up sharply as the show moves toward its grand finale on Saturday night.

Ticket sales continue brisk at the office of the rodeo in the Howard House and it is anticipated that as good a turnout as was on hand Wednesday night will be present at 8 tonight.

Enter Joy's \$32,000 contest! You may WIN A SGT. BILKO MONEY TREE

Laugh with Sgt. Bilko on the Phil Silvers Show each Tuesday night on the CBS Television Network

- 1st Cash Prize... \$15,000 Money Tree
- 2nd Cash Prize... \$7,000 Money Tree
- 3rd Cash Prize... \$3,000 Money Tree
- plus 7 additional Money Trees each worth \$1000 cash

Write a last line for the JOY jingle in the entry blank below!

At last money does grow on trees! And the guy who's done it (wouldn't you guess?) is Sgt. Bilko. Fact is, Bilko's gone and raised 10 lovely Money Trees with a total of \$32,000 in real cash sprouting on 'em. And you may win one just by writing a last line for a jingle about new gentle Joy—the one liquid that makes dishwashing almost nice.

It's easy to enter! Lots of fun, too. The first thing to do is buy a can of Joy and read the label. Then try Joy and see how it takes the greasiness out of dishwashing. You'll get lots of ideas that can help you write a winning last line. So take the money-saving Joy coupon below to your dealer today and get started. Print your last line in the entry blank below.

- FOLLOW THESE EASY RULES**
1. Complete the JOY jingle shown at the right. Print your last line in the entry blank on one side of a sheet of paper. Print your name and address plainly.
 2. Mail to "Money Tree," Dept. C, Box 24, Cincinnati 99, Ohio. You can enter the contest as often as you like, but each entry must be accompanied by the number you copy from the bottom of any size JOY can.
 3. Entries must be postmarked no later than midnight, September 30, 1957, and must be received not later than October 15, 1957.
 4. Entries will be judged for originality, rhyme, meter and aptness in completing the jingle. The judge's decision will be final. Except for incidental help from family and friends, entries must be wholly the work of the person in whose name the entry is submitted. Entries prepared in whole or in part by professional or compensated contest writers, schools, or services will be disqualified.
 5. Only one prize will be awarded to any person. Duplicate prizes awarded in case of ties. No entries returned. Entries, contents, and ideas therein belong unqualifiedly to Procter & Gamble for any and all purposes.
 6. Any resident of the continental United States (including Alaska) and Hawaii may compete except employees of Procter & Gamble, its advertising agencies, and their families. Contest subject to governmental regulations.
 7. There will be one first prize of \$15,000, one second prize of \$7,000, one third prize of \$3,000, and 7 additional prizes of \$1000 each. All winners will be notified by mail.

ENTRY BLANK—clip and mail

JOY is gentle, JOY is fast;
JOY makes suds that last and last.
Suds that chase the grease away

(Print your last line here to rhyme with "away.")

In this box copy the number stamped on the bottom of your can of JOY (any size).

(Write your dealer's name here.)

Mail to "Money Tree," Dept. C, Box 24, Cincinnati 99, Ohio. Read rules carefully. All entries must be postmarked before midnight, September 30, 1957.

Your Name _____ Address _____

City _____ Zone _____ State _____

(Please print plainly)

Take this coupon to your dealer! SAVE 8¢ ON JOY

whether you enter contest or not

Let's face it. Nothing can make dishwashing fun. But new gentle JOY does make it—well, almost nice. JOY, you see, puts an end to greasy dishwashing. Takes the greasy look and smell and feel out of dishwater. And JOY is gentle to your hands—it's been changed, you know—JOY is now milder than any other leading liquid. There's nothing else like JOY. Try it and see.

Ike's Recovery Said 'Complete'

WASHINGTON (AP)—President Eisenhower's doctor today pronounced him "completely recovered" from his stomach upset.

The physician, Maj. Gen. Howard Snyder, reported the President "almost" recovered on Tuesday and again yesterday.

James C. Hagerly, presidential press secretary, told newsmen he had talked to Snyder this morning and "He says I can now take the word 'almost' out. He says the President has completely recovered from his stomach upset."

Eisenhower was stricken Sunday evening and was confined to bed all day Monday with what three attending physicians described as a "mild" case of stomach distress.

The doctors attributed the illness to "slight overindulgence" in some types of food.

The President bounced back quickly. On Tuesday, he spent an hour and 45 minutes at his office desk. However, his business engagements for that day—as well as those which had been scheduled Monday—were canceled.

Yesterday Eisenhower resumed business appointments, but spent only half a day in the office.

Today he was at his desk by 8 a.m. and had a business-as-usual list of engagements.

Yesterday Eisenhower resumed business appointments, but spent only half a day in the office.

Today he was at his desk by 8 a.m. and had a business-as-usual list of engagements.

Yesterday Eisenhower resumed business appointments, but spent only half a day in the office.

Traveling Secretary

A compact desk is regular and necessary equipment for this rodeo secretary, Mrs. Rosemary Tompkins. The desk houses all the necessary papers, files and ledgers that are required to work an efficient business. Mrs. Tompkins is office manager for her father, Everett Colborn, rodeo producer. The desk is made from a trunk and can be managed accordingly—shut and packed at a moment's notice. In case the desk should ever be out on route to a new destination, Mrs. Tompkins says she could manage the office with two articles—a cigar box and a ledger in which most of the business is kept.

Mrs. Rosemary Tompkins, Rodeo Secretary, Manages Compact Office

By DEIDRA HENTON
Can you imagine a secretary who could manage to have her entire desk in one ledger and a cigar box? Sound impossible? Not according to Mrs. Tompkins, office manager for her father, Everett Colborn, producer of the rodeo. Mrs. Tompkins says that she could literally have those two things and set up for business any place. Although this could be done and she sometimes works at a fast pace, it isn't often necessary to be caught with just the two articles.

For the traveling secretary neatness and efficiency are most important. She must know at all times where to "put her hands" on anything that is called for.

A portable desk, made from a trunk, is standard equipment for the rodeo secretary, Mrs. Tompkins says. In a moment's notice all that needs to be done is shutting and locking the trunk—and a new office is ready to be set up.

In a town many miles away, the rodeo business is nothing new to Mrs. Tompkins, of course, since her father is one of the best-known among rodeo producers. She began to work for her father about eight years ago and usually follows the circuit during the summer months.

Her husband, Harry, has been in the rodeo circuit for a number of years and was the 1952 all-around champion cowboy and four times champion bull rider and was at one time the champion bareback bronc rider.

Mrs. Tompkins says she is not actually a rodeo performer but does ride in the quadrilles. When she isn't working with her father, she makes the family home in Dallas. The Tompkins have three children. On the present circuit, they have two of the children with her.

For the past four years Mrs. Tompkins has been bookkeeper for the organization, included in her

work is the registration of rodeo entries and collecting the entrance fees; along with the judges, she helps draw for stock and places of the entries and makes up the program. She keeps a record of the official times and winners and makes and distributes the payroll.

Moving at such a fast pace doesn't seem to disturb Mrs. Tompkins one bit. The reason can be summed up with one statement Mrs. Tompkins makes, "I love the rodeo!"

Catholic Group Plans For Youth

A listing of the youth of St. Thomas Catholic Church was made Tuesday evening by the Confraternity of Christian Doctrine. The group met in the church hall, with Mrs. Bernard Huchton in charge of the session.

Groups according to age were worked out and leaders appointed. These include Mr. and Mrs. O. Schuerger, Mrs. R. L. Anderson, Mrs. Thurman Gentry, Mrs. W. E. Blanchard, Mr. and Mrs. Harry Jordan, Huchton, Mrs. W. O. Wade and Mrs. L. D. Gilbert. A religious and recreational program was adopted for summer activities, with the group leaders to report on plans at the next meeting, which was set for Monday at 8 p. m. Fifteen attended the Tuesday meeting.

Mrs. Rogers Serves As Head Of DOEs

Mrs. W. R. Rogers presided for the meeting of the BPODEs Wednesday evening in the absence of the president, Mrs. Grace Grandstaff. Other pro tem officers were Mrs. Keith Brady, Mrs. Bill Gray and Mrs. Bill Draper when the group met at the Elks Club.

Mrs. Bill Ragdale served as conductress pro tem. A telegram was sent by the group to Mrs. Grandstaff, who is attending the national convention in Idaho Falls, Idaho.

Mrs. Cletus Piper was named for the attendance award. Since she was not present, the prize is to be held until the next meeting. Eight attended the meeting.

Frosty Robison Parents Of Son

Mr. and Mrs. Carlisle (Frosty) Robison of Dallas are the parents of a son, born this morning in St. Paul's Hospital in Dallas. The baby, who weighed 7 pounds 9 ounces, has been named Douglas Carlisle.

The mother is the former Judy Douglas, daughter of Mr. and Mrs. Dale Douglas, Old San Antonio Highway. The paternal grandparents are Mr. and Mrs. Jack Robison, 610 Caylor.

Give Chrysanthemums Summer Food, Water For Fall Blooms

By ANNE LEFEVER
June is the time of the year to give attention to your chrysanthemum plants if they are to reward you in the fall. They are always hungry and thirsty; and an application of liquid fertilizer every two weeks is a good rule to follow.

Roots of chrysanthemums grow rather close to the top of the ground, and if the plants are allowed to dry, the roots may come through the soil in search of water. For this reason, they should have a mulch, especially during the summer months.

Keep pinching back the tops of the chrysanthemum plants to make them grow bushy and strong.

A mulch should also be used on strawberry plants, as they, too, suffer from the heat. This mulch may be a thick layer of straw, peat moss or grass clippings.

This is the month to clean up the plants which have finished blooming. Pull up larkspur, poppies and cornflowers to make room for zinnias, periwinkles, petunias, portulaca and other summer blooming annuals.

Two plants which require very little water are portulaca and periwinkles. For this reason, they may be planted above the tulip bulbs without danger of having the bulbs rot from too much water.

Take the hint of Nature and plant when the blooms are going to seed. At the present time, bluebonnets, larkspur and poppies are included in the list.

Cut back the stalks of snapdragons, coreopsis and calendulas if you would have them bloom again.

If you dig your tulip bulbs to store them for the winter, be sure to look several inches below the bulb for the little bulbets. These should be set in a bed where they will not be disturbed for two or

Mrs. Jones Hostess For Elbow Club

"Responsibility walks hand in hand with capacity and power," was given as the thought for the day Wednesday at the meeting of the Elbow Home Demonstration Club.

Mrs. Floyd R. Jones was hostess for the club in her home. Mrs. Ray Shortes brought the thought for the day.

The council report was given by Mrs. Ross Hill. Roll call was answered by 12 members telling of a favorite way to prepare a frozen food.

Mrs. Shortes and Mrs. Denver Yates presented a demonstration on making hats. They had attended the hat demonstration day held by Elizabeth Pace, county agent. Two visitors attended the meeting. They were Mrs. M. W. Rupp and Mrs. Bill Todd.

Mrs. V. R. Tomlinson was announced as hostess for June 26 when the meeting will be held at the Elbow school gymnasium.

Herman Jeffcoats Have Guests In Knott Recently

KNOTT — Recent guests of Mr. and Mrs. Herman Jeffcoat have been Mr. and Mrs. Bill Mings and children of Kellogg, Idaho; Mr. and Mrs. Y. D. Jeffcoat of Big Spring and Mrs. Earl Digby and O. B. Nichols of Lamesa. Mrs. Mings is the former Dicey Nichols, who was reared in this community.

Mr. and Mrs. Leo Lawson and Shirley have returned to their home in Big Lake after visiting in the Larry Shaw home.

Universal-International I noticed what a trim figure Phyllis has.

"Mona Freeman, who is my neighbor, and I go to a ballet class once a week," she told me. "It is only for an hour but I find I feel so much better for the exercise and I do think it keeps one from getting soft."

"I think it is terribly important to keep your body tone," Phyllis declared. "I have friends who have dieted and lost a lot of weight but they really do not look well if they are flabby."

Phyllis is in much demand on TV and told of how she liked to sit home quietly and look at herself on the screen.

This objectivity has made me realize how important every little detail of grooming is and how foolish it is ever to adopt a fashion that is not becoming.

"I think it takes time to learn how to buy clothes. In the beginning I made plenty of mistakes. I have learned not to fall for that 'cute little dress' and fill my closet with clothes that I later feel like giving away."

"When I was first starting my career on Broadway I was fortunate enough to be in a play with Alfred Lunt and Lynn Fontanne," she continued. "Lynn was beautifully dressed and pointed out to me that if you buy a good dress, it never seems to wear out and is in style for years."

"There is a simple stream of fashion that flows unchanged from one year to another. I try to find this basic line. The dresses I am wearing on TV now are in fashion although most of them were purchased several seasons ago."

The talk turned to make-up and Phyllis admitted that the more natural she was the better she looked.

"I have one lipstick, a true red. I wear with everything night and day. I've tried others but I always come back to this shade."

"There is nothing more charming to me than complete naturalness," she concluded. "I don't mean that you should not take advantage of every way you can to improve on nature, but artificiality and superficiality always detract."

Keeps Her Figure

Phyllis Thaxter has two children but her figure is still that of a teen-ager. Her secret lies in a weekly attendance of a ballet class. She is soon to be seen in "Man Afraid" for Universal-International.

Coffee Is Honor For Kay Wiggins

LAMESA — Kay Wiggins, bride-elect of Tommy Beal, was complimented with a coffee Wednesday morning at the home of Mrs. W. A. Stephens.

Assisting with the hostess duties were Mrs. Ed Tinsely, Mrs. DeWitt Jordan, Mrs. Robert Dixie Kilgore, Mrs. F. P. King, Mrs. Kenneth Dulaney, Mrs. Ray Braswell, Mrs. Ray Berringer, Mrs. Aubrey Davis and Mrs. Carl Barton.

The table was laid with a white cutwork linen cloth. A silver epergne filled with white roses and flanked by white tapers formed the center arrangement. Silver appointments were used on the table.

'ROUND TOWN

With Lucille Pickle

MR. AND MRS. MAX HARE and their children are guests in the home of her mother, Mrs. T. J. Brown, and other relatives.

As Dixie Dean would say, "I slipped" when I wrote that the new grandson of Mrs. Edith Murdock was her first. As a matter of fact JEFF MURDOCK, son of

Flattering Style

Feminine and lovely as can be, and flattering to the matron. Brief sleeved afternoon style with neat collar in a blending shade. No. 1575 with PHOTO-GUIDE is in sizes 36, 38, 40, 42, 44, 46, 48, 50, 52. Size 36 bust 34 1/2 yards of 35-inch; 3/4 yard contrast.

Send 35 cents in coins for this pattern to IRIS LANE, Big Spring Herald, Box 438, Midtown Station, New York 18, N.Y.

Send 25 cents now for Home Sewing for '57, a new, different sewing manual with styles for every season. Gift pattern printed inside the book.

Mr. and Mrs. Jack Murdock holds that honor.

EDNA LEE HOWARD, daughter of Mr. and Mrs. Truman Howard, is visiting her grandmother, Mrs. W. O. Crawford, in Belen, N. M. Edna Lee joined her aunt, Mrs. Jack Storrs, in Clovis and the two went on to Belen.

MR. AND MRS. A. C. JENSEN and their children, Jo Carolyn and Peter Marshall, spent the past weekend in Stamford. They took Mrs. Jensen's mother, Mrs. M. A. Dunn, back to her home after she had spent several weeks with them here.

MR. AND MRS. ELMO JONES and son, Brandon, of Sweetwater spent Wednesday here with his parents, Mr. and Mrs. Grady Jones.

MR. AND MRS. ARTHUR LEONARD have returned from Tyler where they visited their daughter and her family, Mr. and Mrs. Farris Benham and sons. En route home the Leonards stopped in Snyder and spent some time with another daughter and her family, Mr. and Mrs. Hood Jones and Cindy.

Getting all set for the national American Business Club convention are MR. AND MRS. GARNER McADAMS and MR. AND MRS. J. G. LEWIS. They plan to leave next Wednesday for the meeting, which will be held in Augusta, Ga.

MRS. MATTIE McADOO and MR. AND MRS. WAYNE ALLEN plan to leave Friday to spend several days in Dallas with Mrs. McAdoo's grandson and his family, Mr. and Mrs. Leslie Don McAdoo and Michael.

Guests in the home of MR. AND MRS. JAMES A. MEREDITH are his brother and wife, Mr. and Mrs. J. O. Meredith, of Fort Worth.

BELVA WREN, who underwent emergency surgery recently, is convalescing at the home of her parents, Mr. and Mrs. Bob Wren.

Sew & Chatter Club

Six dozen cancer bandages were made Wednesday afternoon by members of the Sew And Chatter Club when they met in the home of Mrs. W. W. Mooser. The hostess for the meeting on June 26 was announced as Mrs. Jack Lightfoot. Twelve members were present.

MRS. ALTON UNDERWOOD
... practice makes perfect.

Mrs. Underwood Gives Recipe For Fancy Or Family Cookies

If you've ever spent the day making over 950 cookies, try this recipe next time. They're quite simple to make, according to Mrs. Alton Underwood.

For a recent tea, at which she was a hostess, Mrs. Underwood did just that — mixed, rolled, baked and decorated over 79 dozen cookies!

The party-type cookie that Mrs. Underwood makes is called thumb print cookies and are a light crisp cookie, filled in the center with a delicious icing.

For formal entertaining or just family refreshments Mrs. Underwood thinks you'll like these cookies.

THUMB PRINT COOKIES

Ingredients:
1/2 cup shortening
1/2 cup soft butter
1/2 cup brown sugar
2 egg yolks
1 teaspoon vanilla
2 cups flour
1/2 teaspoon salt

Method:
Cream butter and shortening; add sugar and egg yolks and beat. Add vanilla, flour and salt and beat. Shape into balls a little larger than marbles and place on cookie sheet. Mash center with thumb. Cook four minutes at 375 degrees. Take from oven and make large indentation in center of cookies. Bake again for about 12 minutes. Cool and fill centers with powdered sugar icing. Icing

may be tinted with cake coloring, or chocolate centers may be used.

It seems that nothing is better appreciated by a family than hot buttered homemade rolls. Just try Mrs. Underwood's recipe, and you won't have to wait long for compliments from your family.

ICE BOX ROLLS

Bring to boil 1 quart milk, 1 cup shortening and 2-3 cup of sugar. Take from heat and cool to lukewarm.

Add 1 package of dry yeast, dissolved in 1/2 cup water, or 1 square of active yeast. Add enough flour to make a batter. Set aside and let rise for two hours.

Next add 1/2 teaspoon soda; 2 teaspoons baking powder and 4 teaspoons salt; add remaining flour to make a stiff dough.

Cover and store in refrigerator until ready to use. Shape into rolls and bake at 350 degrees.

Mrs. Underwood likes to vary this recipe by sometimes making the dough into sweet rolls or cinnamon rolls.

Mrs. Underwood, who moved to Big Spring with her husband in 1929, is active in many civic affairs.

She is a member of the Cancer

Society; director of the TB society; a member of the Citizens' Traffic Commission; a member of the juvenile screening board; chairman of a First Baptist WMS circle; vice president of the City Home Demonstration Club and has always been active in P-T-A activities.

She is a member of the First Baptist Church, where she is a choir member. For a hobby Mrs. Underwood enjoys painting, but admits that she wouldn't consider herself an artist.

She is, most important of all, a grandmother. Her daughter, Mrs. Bill Newsom and daughter, Julie Jean, 6, live here. The Underwoods have one son, James Lee, who will be a senior pre-law student at the University of Texas next fall.

Her husband is a salesman for C. & H. Distributors.

Tea Punch Ideal For Summer Fun

Now that summer approacheth many minds will be thinking of cool drinks to quench the family thirst. Iced tea is one beverage that's hard to beat when it comes to drinking something that's really cool and doesn't leave a sweet cloying after-taste. For diet-minded folks, it's superb because it has no calories to speak of. In addition, iced tea is wonderful as a base for party punches.

To make iced tea: bring one quart of cold water to a full rolling boil in a saucepan. Remove from heat and immediately add 1-3 cup loose tea (or 15 tea bags). Brew, uncovered 5 minutes. Stir and strain into pitcher holding one quart of cold water. When ready to serve pour into ice-filled glasses and serve with lemon and sugar.

To make the punch you add 1 stick cinnamon and 10 whole cloves to the water, and bring it to a boil. Remove the boiling water and spices from heat and immediately add the tea. Brew, uncovered 5 minutes. Stir and strain. Add 1/2 cup sugar and stir till dissolved.

Pour one 6-ounce can lemonade concentrate, two cups cold water, one quart ginger-ale and one No. 2 can pineapple juice into a punch bowl. Stir to blend. Add special tea. Place block of ice or ice cubes in bowl. Add one cup cultivated blueberries. The ginger-ale will make the berries bounce up and down like bubbles. This recipe makes 25-30 punch-cup servings.

Dill Adds Flavor To Vegetables

Such a good vegetable combination!

NEW POTATOES AND PEAS WITH DILL

Ingredients:
One pound small new potatoes, 2 cups cooked green peas (fresh or frozen or canned), minced fresh dill, butter or margarine, salt and white pepper.

Method:
Scrub potatoes but do not peel. Cover with salted boiling water; use 1/2 teaspoon salt per cup of water. Boil until tender when pierced with a fork in a covered saucepan — about 25 minutes.

Drain and peel. Mix with hot cooked peas and sprinkle liberally with minced dill. Add a couple of tablespoons (or more) butter, and salt and pepper to taste. Reheat gently in saucepan to blend flavors. Makes 4 to 6 servings.

Note: If canned green peas are used, be sure to buy the tiny very early peas that are now packed French-style in this country.

Amateur Cooks Can Prepare Souffle

Take a leaf from the French and lunch a la francaise on a cheese souffle.

Don't think only an expert chef can prepare one. A dieter's delight (225 calories per serving) and high in protein, calcium and iron too, this airy Swiss cheese souffle stands up proudly for all to admire. Serve immediately while it's still flying high.

Method:
Pour one cup water into top of double boiler. Sprinkle with one-third cup instant dry milk powder, three tablespoons flour and three-fourths teaspoon salt. Beat with rotary beater until just blended. Stir over boiling water until slightly thick. Add one-half pound processed Swiss cheese, shredded, one-fourth teaspoon Worcestershire and one-fourth teaspoon nutmeg. Stir until cheese melts; remove from heat. Beat four egg yolks until thick. Stir a little cheese sauce into yolks, then stir mixture back into cheese sauce. Beat four egg whites until stiff but not dry. Fold in cheese sauce. Pour into ungreased one-quart casserole. Bake at 300 F. (slow oven) forty-five minutes. Serve at once. Six small servings.

Easy Way to Kill Ants and Roaches

JOHNSTON'S NO-ROACH: Simply brush Johnston's No-Roach on baseboards and cabinets to control cockroaches. Brush the colorless, odorless liquid on window and door sills to stop ants. Stays effective for months. No need to move dishes, or breathe harmful sprays. Johnston's No-Roach is preferred by good housekeepers. 3 oz. 89c; pint 1.69; quart 2.98.

Hull & Phillips Food Stores

If He's Not Always King, Honor Dad On June 16

In the days when Father, with a capital F, ruled the family, everything was cooked to his taste. If he didn't like vegetables, then they were omitted from the family fare. If he wanted hot breads, he got them three times a day. And woe unto anybody who suggested shrimp if the head of the house didn't like sea food!

Such stern attitudes seem to have passed. Today most men have a beautifully uncomplicated attitude toward food. Yet, they have their favorites, and do give voice to their preferences now and then. June 16 is Father's Day the day when the head of the house is to be especially honored. Maybe it's genuine old-fashioned strawberry shortcake Dad longs for—or perhaps it's spicy muffins straight from the oven for breakfast—or is his weakness for home-made yeast rolls? These are just a few suggestions. The main thing is to serve the man of your house his favorites on Father's Day.

SHORTCAKE BISCUITS

Ingredients:
1/2 cup whole bran cereal
1 egg, well-beaten
1/2 cup milk
1-2 cups sifted flour
4 teaspoons baking powder
1/2 teaspoon salt
3 tablespoons sugar
1-3 cup shortening
1 tablespoon butter or margarine, melted

Method:
Combine whole bran cereal, egg and milk; let stand until most of moisture is taken up. Sift together flour, baking powder, salt and sugar. Cut in shortening until mix-

ture resembles coarse corn meal. Add bran mixture and stir only until combined. Turn dough out on lightly floured board and knead gently a few times. Roll out to 1/4-inch in thickness; cut with floured 2 1/2-inch biscuit cutter. Place half of the biscuits on ungreased baking sheet; brush with melted butter and top with remaining biscuits. Bake in very hot oven (450) degrees F. about 10 minutes. Serve hot or cold, split and cover with fruit.

BRAN REFRIGERATOR ROLLS

Ingredients:
1 cup shortening
1/2 cup sugar
1 cup whole bran cereal

Cooking Steak

When you broil flank steak, cook it no more than four to five minutes on each side. In carving, slice diagonally across long fibers or the meat will be tough.

For Better Taste

Your fish chowder will taste particularly good if you add a small chopped carrot to it along with the usual onion. Season with parsley and thyme.

Serve With Meat

Next time you have a jar of preserved orange slices in the house, serve them with chicken, duck or ham.

2 teaspoons salt
1 cup boiling water
2 cakes compressed or 2 packages dry granular yeast
1 cup lukewarm water
2 eggs, well-beaten
6 1/2 cups sifted flour

Method:
Measure shortening, sugar, whole bran cereal and salt into large mixing bowl; add boiling water, stirring until shortening is melted. Let stand until lukewarm. Soften yeast in lukewarm water; stir into shortening mixture together with eggs. Add half of the flour and beat until smooth; add remaining flour and beat well. Cover bowl tightly and place in refrigerator overnight or until ready to use. Shape balls of dough to fill greased muffin pans about half-full. Let rise in warm place 2-3 hours or until double in bulk. Bake in hot oven (425) degrees F. about 15 minutes.

QUICK MUFFINS

Ingredients:
1 cup sifted flour
2 1/2 teaspoons baking powder
1/2 teaspoon salt
1/2 cup sugar
1 1/2 cups whole wheat flakes
2-3 cup milk
1 egg
1/4 cup soft shortening

Method:
Sift together flour, baking powder, salt and sugar. Combine whole wheat flakes and milk. Add egg and shortening; beat well. Add sifted dry ingredients, stirring only until combined. Fill greased muffin pan 2/3 full. Bake in moderately hot oven (400 degrees F.) about 25 minutes.

Yield:
8 muffins, 2 1/4 inches in diameter.

Big Spring (Texas) Herald, Thurs., June 13, 1957 3-B

Poppyseed Noodles For Savory Taste

Prepare this menu on the top of the range.

Tomato Bouillon Crisp Crackers
Veal Chops Poppyseed Noodles
Fruit Salad Beverage

POPPYSEED NOODLES

Ingredients:
One package (8 ounces) medium-wide egg noodles, 3 quarts boiling water, 1 tablespoon salt, 4 tablespoons butter or margarine, 2 teaspoons poppyseed, salt, pepper.

Method:
Add noodles slowly to boiling water to which 1 tablespoon salt

has been added. Boil, uncovered, until just tender; stir often. Drain in a colander. Return to kettle with butter; sprinkle with poppyseed and salt and pepper to taste. Toss and reheat. Makes 4 to 6 servings.
Note: 8 ounces of the medium wide dry egg noodles will measure 6 cups; after cooking you will have about the same measure.

June is Dairy Month

June is the month to salute the wonderful dairy foods which are vitally important to good health. Dairy farmers in this area merit special recognition for making Borden's the best-tasting milk in town. To produce milk for Borden's is to produce fresh milk that more than meets the highest stand-

ards of wholesomeness, richness and purity. Fresh milk with plenty of cream for finer flavor. Borden's strict quality control won't have it any other way. That's why for 100 years, people have been saying... if it's Borden's, it's got to be good!

Girls, You Won't Believe What's In Store For Homemakers Of 1976

By VIVIAN BROWN
AP Newsfeatures Writer

This is the age of the unreason. But don't let it fool you. Things aren't what they seem, at all.

Take the home, for instance.

Men are the planners for the little cottage or big manse that women spend their lives in, and thereby is the snag.

Women want more closets,

handier work space, nursery centers, recreation space, laundry

centers in ordinary homes and apartments, not just in show

place establishments and in ad-

dition, but what do the men give them, meanwhile: Picture windows.

Ah, yes, but just wait until 1976, one group urges.

At that time, they predict, your

bedroom will feature radiant pan-

els suspended above the bed to

keep you comfortable without

blankets. The bed will push into

the wall when you aren't sleeping

in it. There will be a TV screen

in the bedroom so that Mom may

check on Junior in the nursery

while she reclines.

There'll be a television tele-

phone in the kitchen so Mom can

keep tabs on Dad all day, if she

likes. An electronic device will

enable her to plan menus, specify

the number of servings for each

meal and select the time when it

will be automatically prepared

and served. Bed sheets, table

linens, dishes and cooking utens-

ils will all be the disposable

kind, so there'll be no storage

problems. (That's the way they

solved that one.)

Oh, yes, if Junior gets out of

hand, all you do is push a button.

Out comes an electronic retract-

able padder to do the spanking

job for the lazy or bashful parent.

A new light source will make

its appearance, too — electronic

light. It'll be panel, no thicker

than window glass, will line

ceiling and three walls, one com-

pany predicts. Two control knobs

will help you adjust to any level

of brightness.

But what have we got coming up

now?

Some people are enjoying the

new electronic range and futur-

istic-type kitchens that contain

every type of electric appliance

that will do almost everything ex-

cept shop for the food. And more

of this atomic-age equipment will

be on hand soon.

One home shown recently is

built with attention to conversa-

tion and entertaining. The ceiling

is high in the middle and low

around the sides so that tete-a-

tetes will be cosier. The fireplace

has a polyester resin bonded to

bricks above it, and around it the

low-built ceiling gives the illusion

of more space.

There is more concentration on

tranquil room settings. Medical

researchers recently showed a

room designed for "peace of

mind," guaranteed, as one doctor

put it, to soothe "harried

emotions."

You may achieve it, the experts

say, by avoiding use of two dif-

ferent soft or cool colors togeth-

er, as these will only irritate one

more, hardly a desired reaction

after a tense day. Red speeds the

reactions, but leads to nervous-

ness, they claim. Blue is quieting

but may be depressing after long

periods of time. Avoid novelty,

heavy nubby fabrics or highly con-

trasting textures if you are the

nervous type.

New colors will be to the liking

of nerve specialists. Expert Be-

atrice West predicts that citron,

flame, aqua and clear Caribbean

shades will lead the color palette

in home furnishings. Hyacinth

blue is the new popular hue.

Beige tones will outsmart grays.

At windows we'll have scallop-

ed, hemmed and tasseled pull

shades that won't give us that

closed-in feeling. There are the

new silhouette lace-type draw

curtains especially for the large

picture window, says designer

Beniah Chariat, who utilizes lace

tablecloth looms to give home-

makers 15-foot width curtains for

larger windows.

Hot Rolls Add Zest To Breakfast Menu

By CECILY BROWNSTONE
Associated Press Food Editor

When Sunday morning rolls

around, serve a hot bread break-

fast treat to your family.

You don't have to get up real

early to prepare these rolls if

you sift and measure the dry in-

gredients the night before. Cut in

the shortening then, too, to save

time next day. While the oven

preheats on Sunday morning, stir

in the milk and orange juice and

roll out.

This hot bread has a filling and

you can get that ready ahead, too.

Grate the orange rind called for

and mix it with the brown sugar

and chopped nuts; cover and

store in the refrigerator. While

you are rolling out the dough,

the butter needed for the filling

can be melted. When the rolls are

in the oven you can mix up the

filling.

Let these rolls rest for about

5 minutes when you take them

out of the oven so the filling in-

gredients have time to set, but

do serve the rolls while they are

still pretty warm. If there are

any rolls leftover, try splitting

and toasting them; we like them

even better this way than first

time around!

QUICK ORANGE SWIRLS

Ingredients:

One and one-half cups sifted

flour, 1/4 cup enriched yellow or

white cornmeal, 3 teaspoons dou-

ble-acting baking powder, 1 tea-

spoon salt, 1/4 cup granulated sug-

ar, 1/4 cup milk, 1/4 cup orange

juice, 2 teaspoons butter or mar-

garine (melted), grated rind of 1

orange, 1/4 cup firmly-packed dark

brown sugar, 1/4 cup chopped wal-

nuts.

Method:

Sift together the flour, corn-

meal, baking powder, salt and

1/4 cup granulated sugar into a

medium-sized mixing bowl. Cut

in shortening with pastry blender

until it is in tiny particles. Stir

milk and orange juice together;

gradually add to dry ingredients;

tossing gently with a fork; mix

only until dry ingredients are

slightly dampened. Turn out on a

lightly floured board or prepared

pastry cloth and knead a few

seconds. Roll out to form a rec-

tangle 8 by 12 inches. Spread

dough with melted butter. Mix

grated orange rind, brown sugar

and nuts; sprinkle over

dough. Starting with 12-inch side,

roll up as for jelly roll. Mark

off 16 slices about 3/4-inch apart

and cut. (A string or thread about

10 inches long placed under the

roll, crossed on top and pulled in

opposite directions, does a neat

and quick job of slicing.) Place

swirls in a greased 8-inch

square pan. Bake in a hot (425

degrees) oven 20 to 25 minutes.

Spoon Orange Frosting over hot

rolls in pan. Let rest about 5

minutes, then serve at once.

Notes:

For Orange Frosting, mix to-

gether 1/4 cup sifted confectioners'

sugar and 2 teaspoons orange

juice.

Tomatoes Layer Macaroni Dish

Entertaining the easy way, with-

out fuss and bother, is a must for

busy homemakers; that's why pot-

luck buffets are so popular. To-

matoes provide the surprise for

this zippy macaroni casserole.

Ingredients:

2 cups raw macaroni, broken in

pieces

1/4 bar margarine

1 1/2 tablespoons finely chopped

onion

1/4 cup flour

1/4 teaspoon salt

1/4 teaspoon paprika

1/4 teaspoon mustard

2 cups milk

1 1/2 cups grated American

cheese

4 tomatoes, skinned and sliced

1/4 cup grated cheese.

Method:

Cook macaroni in boiling salted

water until tender. Drain. Put

margarine and chopped onion in

saucepan and let margarine melt

over low heat. Stir in flour, salt,

paprika and mustard and blend.

Stir in milk gradually and cook

until thickened. Add 1 1/2 cups grad-

ed cheese and stir until melted.

Add drained macaroni. Arrange

macaroni mixture in greased 2-

quart casserole with alternating

layers of sliced tomatoes, finish-

ing with tomatoes.

Sprinkle 1/4 cup grated cheese on

top. Bake in 375 degree oven 45

to 50 minutes. Serves 6.

Six Kinds Of Cookies From One Recipe

Did you ever make six kinds of cookies from one recipe—with the same batter. There's a six-way recipe calling for sweetened condensed milk that works out in six different ways for tender, flavo-

some drop cookies, each one bet-

ter than the other.

The recipe makes four dozen

cookies. The six variations are

made by adding one of the fol-

lowing ingredients: raisins, corn

flakes, coconut, dates, nuts and

chocolate.

One of the basic rules of cookie

baking is this: Don't bake them

too long. They are so thin they

bake quickly—these bake in from

eight to ten minutes. Overbaking

makes them hard. Another thing

to remember is to take them from

the pan as soon as they come out

of the oven. Use a spatula,

and transfer them to a wire rack.

They will cool sufficiently in a

few minutes to stack lightly on a

plate or platter if you are short

of racks for cooling forty-eight

cookies.

MAGIC PARTY COOKIES

Method:

Sift together flour, baking pow-

der and salt into a large bowl.

Add remaining ingredients; blend

thoroughly. Add only one of the

following ingredients:

1 (6-oz.) package semi-sweet

chocolate pieces

1 1/4 cup raisins

1 1/4 cups cornflakes

1 (4-oz.) package (1 1/4 cups)

shredded coconut, toasted

1 1/4 cups chopped dates

1 1/4 cups chopped nut meats

Mix well, drop by tablespoons

on well-greased baking sheet. Bake

in moderate oven (350 degrees F.)

about 8 to 10 minutes or until deli-

cately browned around edges. Re-

move from baking sheet immedi-

ately.

A Bible Thought For Today

Who is wise, and he shall understand these things; prudent, and he shall know them; for the ways of the LORD are right, and the just shall walk in them: but the transgressors shall fall therein. (Hosea 14:9)

The Stimulus Of A Stomachache

President Eisenhower's latest upset stomach attack is calculated to stir still further congressional interest in providing the machinery by which an incapacitated Chief Executive could be eased out of office to make way for someone else.

Mr. Eisenhower himself has been insistent upon creating this machinery, the need for which has been twice historically demonstrated: in the case of James A. Garfield, who lingered for weeks before dying of a bullet wound—he signed only one official document during that time—and Woodrow Wilson, whose almost total incapacitation lasted much longer.

Senator Fulbright (D-Ark.) introduced a resolution Monday which would answer the question of what to do. Under it the vice president would take over until the end of the current presidential term if the Supreme Court decided the President could not discharge his duties. The bill requires a two-thirds majority of both houses, submitting a constitutional amendment. The amendment would call for ratification by three-fourths of the state legislatures.

This is a slow process, and it falls to answer a number of pertinent questions. Presumably the Supreme Court would act only on competent medical advice. Would the transfer of power to the vice president be temporary or permanent? (Wilson, among many others, feared that once laid down the authority of the President never could be recaptured.)

What happens if a President fought removal and brought his own competent medical advisers in to contradict the Supreme Court's panel of experts?

The Constitution sets forth very clearly that in case of removal of a President from office or of his death, resignation or inability to discharge the powers and duties of his office, the same shall devolve on the vice president. It also gives Congress power to provide the necessary machinery. This Congress has never done. While a President may resign of his own free will and accord, none has ever done so.

A Lively Time—You'll Want To See

Once more, as has been the case since 1933 (with the exception of one year during World War II), the Big Spring Cowboy Reunion and Rodeo is unleashing its western show.

While this one certainly fits into the category of "World's Championship Rodeo" because points earned here count in the Rodeo Cowboys Association annual contest for champions, Big Spring has never made any lavish claims about its production. Rather, the backers of the association have concerned themselves with trying to give the fans a full dollar's worth of entertainment.

In the early days the association secured its own stock or contracted for it, furnished the help for feeding and attending to the stock, operating the chutes, judging the events, etc. But for more than a decade now the pace has become so fast

that professional producers have been employed, and in this respect the association has not sought out the most attractive deal but rather the man whom it believed could produce the type of show fans would welcome. That accounts for the continuity of contracts with Everett Colborn, who handles many of the country's major rodeos.

This year Colborn has as good or better stock than before—which is going some. He also has some good specialty acts and a large field of contestants. The association has the plant—one of the best in the entire Southwest because every seat is a good one and relatively close to the action—in excellent shape. Both cowboys and their adversaries in the arena seem to be energized by the recent rains—so it all points to a lively time. Of course you'll want to see it.

David Lawrence

Propaganda Against H-Bomb Tests

WASHINGTON—Will the Communists be successful in their conspiracy to scare America into halting tests of weapons vital to the protection and survival of the American people in a nuclear war?

The answer is that they will not succeed if President Eisenhower and the officials of the Atomic Energy Commission can have the help of loyal Americans in exposing and refusing to participate in the propaganda which Communist sympathizers, as well as their unwitting stooges here and abroad in the scientific world, have been stimulating now for more than three years.

Over and over again reputable scientists with access to all the official data and information derived from the tests and from authoritative reports on the "fall-out" have assured the American people that the risks involved are negligible compared to the knowledge gained to assure the defense against nuclear weapons of the enemy. But, despite this, the propaganda of confusion has persisted. Members of Congress and leaders of the British Parliament have denounced it as Communist propaganda.

President Eisenhower himself told his press conference last week that there are many honest people engaged in the controversy but many of them "seem to be out of their own field of competence" and that it "looks almost like an organized affair." He said that he would rather accept the report of the National Academy of Sciences, "which has no axe to grind of any kind and is not looking for publicity."

This report, after an exhaustive investigation, stated that the dangers of "fall-out" due to tests were not as much as from ordinary X-rays and such radioactivity as results from the sun's rays and other natural phenomena.

Attention has been called by high officials here and abroad to the fact that the agitation against nuclear tests grows vociferous only when the British and Americans engage in them and not when the Russians explode their test bombs.

The reading public as a whole doesn't know one scientist from another, and the newspapers, of course, have to print the news as it arises. Just the other day big headlines announced that 2,000 scientists had signed a petition against further tests, and a few days later Dr. Joel Hildebrand, professor emeritus of chemistry at the University of California and a past president of the American Chemical

Society, said that not one per cent of those who had signed the petition has a specialist's knowledge of the subject. Last week Representative Lawrence H. Smith of Wisconsin, Republican, and Representative Francis E. Walter of Pennsylvania, Democrat, chairman of the House Committee on Un-American Activities, lashed out at Dr. Linus Pauling, head of the chemistry division of the California Institute of Technology, who announced the petition of the 2,000 scientists to the press.

Mr. Walter read into the proceedings of the House of Representatives a list of organizations alleged to be Communist fronts. Among them was a petition signed in behalf of the "Civil Rights Congress," which was cited by the attorney general's office as "subversive" in December 1947 and was included in the list issued by the Department of Justice late in September 1954. Representative Smith also denounced Dr. Pauling's activities and made this statement:

"The Communist conspiracy is seeking to disarm America. By clever propaganda it is seeking to create a national hysteria so the people will demand that our H-bomb testing be stopped. The campaign is under way and its objective is to spread fear among Americans and thus eventually disarm our country."

Former President Truman a few days ago said that the dangers from "fall-out" tests involved "a small sacrifice" compared to the advantages, and added:

"We must not be panicked by the Soviet campaign of fear incitement either through threats of the use of the bomb or by their propaganda of the horrors of the 'fall-out' intended primarily to cripple the defense efforts of the West."

Why, it might be asked, should it be assumed that President Eisenhower, former President Truman, the members of the U. S. Atomic Energy Commission and the outstanding scientists of the National Academy of Sciences, are not as solicitous about guarding the future health of everybody's children, including their very own, against any harmful effects from the tests as are the self-appointed spokesmen for all the scare stuff? Conceding that all of the critics are loyal in every sense, they have not given a logical or convincing answer to that question.

Dulles Disclaims Any Part In Girard Decision

WASHINGTON (AP)—Secretary of State Dulles, never accused of talking too little, doesn't want to talk at all about William S. Girard, the American soldier charged with killing a Japanese woman in Japan.

But probably a more unusual side to the story is the fact that Dulles, in charge of America's foreign relations, says he wasn't consulted about a decision that very

seriously concerned foreign affairs.

That was the decision on whether to turn Girard over to the Japanese for trial or keep him in custody. The decision to let the Japanese have him was made by the Defense Department, Dulles later approved.

The Japanese insisted they should have him for trial on a charge equivalent to manslaughter. On May 16, after weeks of

Four Front Teeth — All New

NEW YORK (AP)—All I don't want for Father's Day is four front teeth.

But come Sunday I'll be wearing four new store ones—although at the moment I'm not sure whether I'll be wearing them in my face or my back pocket.

Other happy fathers will be proudly showing off the presents showered on them by their loyal kinfolk—rainbow neckties, dazzling robes, beach shoes, peacock sport shirts, new power lawn-mowers.

And what'll I be doing? Standing in front of a bathroom mirror, making faces at myself, and by nightfall I'll be able to ring the bell once loud and clear and say "Mississippi!"

When my dentist first proposed about a year ago to take out my four upper front teeth, I ran out of his office, figuring the guy either had delusions of grandeur or else was taking money from Moscow to sabotage the American way of life.

"Rover," said my heartless wife "every time you get an ingrown toenail you think it is a conspiracy on the part of the medical profession to destroy you."

Frances then went to the dentist and got his side of the story. Naturally she came home battling for the dentist. In any battle between a husband and science, the wife always turns her back on her man and fights shoulder-to-shoulder with science.

"The dentist is really doing you a favor," she said. "Those teeth have to go, or else you could get something real serious."

"Let him do you the favor," I snarled. "These fangs have served

me 40 years, and I'll not desert them now."

But in adopting this attitude I found I had bitten off more than I could chew. Everytime I sneezed Frances would shake her head and say: "It's your four front teeth." "They're getting worse, you know."

After 11 losing months of this war of marital nerves, I gave up and agreed to let the dentist have his fun this week.

The night before the scheduled pulling out party, Frances threw a farewell banquet for my four doomed front teeth. We had all my favorite foods: steak, ice cream, watermelon and good old corn on the cob.

"Enjoy the corn on the cob," urged Frances. "You won't feel like eating any more for at least a few days."

I picked up a big golden ear, covered it with butter, salted and peppered it thoroughly, then took a big bite.

Crack! I suddenly felt an empty space in front of my mouth, and something popped out on the floor. It was one of my four front teeth.

"Now do you think your dentist is a fraud?" asked Frances.

"No," I had to admit. "Any guy who can predict the natural life of a 40-year-old tooth to within 24 hours must be a genius."

Well, at the office this morning, all my false friends with false teeth are grinning at the empty space in my gums and saying helpfully: "Getting old, eh?"

The answer, of course, is yes. But I'm reconciled. There comes a time in any man's life when most of his remaining adventures are dentures.

My time is now.

arguing and on instructions from the Defense Department here, the Army in Japan decided to let Japan have Girard.

On May 17 Secretary of Defense Wilson blocked the release of Girard to Japan until he checked the case. On June 4 the Defense and State departments issued a joint statement backing up the original decision to let Japan have Girard.

Girard's family sent into federal court and asked the judge not only to block the soldier brought back to this country but to bring Dulles and Wilson into court so they could be questioned about the case.

The Eisenhower administration almost bluntly admitted in court that the reason for turning Girard over to the Japanese was to pacify them and maintain good relations with Texas beaches.

The judge decided Dulles and Wilson didn't have to be called.

Lost Seal Herds Returning To Texas Beaches?

ROCKPORT, Tex. (AP)—The discovery of a seal on the Bolivar Peninsula has raised the question of whether the lost seal herds of the Gulf of Mexico may return to Texas beaches.

Seals were once so abundant along Texas shores that Spanish conquistadors slaughtered them for hides, oil and meat.

The seal was spotted by Mr. and Mrs. William K. Reynolds, amateur naturalists from Maine who were here for a few days of birdwatching. They saw it while driving down Bolivar Peninsula, headed for Rockport.

Told that appearance of a seal on Gulf beaches was a sight so rare that many naturalists would have traveled many miles to see one, Reynolds said:

"I wouldn't know whether they were rare or not. This is our first trip to Texas, but we've seen seals many times in Maine."

The animal seen by the Reynolds fits into the description of the West Indian seal which used to inhabit these waters, before sealers wiped out the great herds.

These seals were supposed to be practically extinct many years ago, but persistent rumors have said that there were scattered individuals and herds still inhabiting the Gulf.

A small herd of these was seen off Galveston 25 years ago, and in the same year workmen patching the jetties at Port Isabel said seals crawled out on the rocks.

Lot Of Walking

LA CROSSE, Wis. (AP) — Ray C. Mossey apparently is going to do a lot of walking this summer.

He reported to police that the battery was stolen from his car, and that a pair of eight-foot, green oars were stolen from his boat.

Unrepentant

HOUSTON (AP) — Judge Byron Johnson listened to several prisoners plead guilty to theft charges and sentenced them.

When the courtroom was cleared of defendants, he reached into his pocket for his fountain pen. It was gone.

Duet For Strings

OKLAHOMA CITY (AP)—When George and Shirley Woodall got married and set up housekeeping, they faced more than the normal amount of problems.

Both play the bass fiddle. They had to move out all the furniture so they could rehearse together.

Around The Rim

Too Soft And Too Lazy

They say you can tell a whole lot about a person by looking at his hands.

After pushing the lawn mower most of an afternoon, I'll agree you can. Just look at mine.

They tell me I'm a softy! Not fittin' to be called a male!

Imagine all those blisters, swollen places and red spots, just from a few hours of hanging onto a mower handle.

Never thought I'd get in that condition.

Used to be, a few years ago, I could grip hoe handle, pick or shovel for weeks at a time without ever getting a blister. Of course, I got callouses. I've still got 'em.

But where they used to be hard, scaly pads that protected the palms of my hands and bends of my fingers, now they're soft, cottony lumps that turn into blisters the first time I grab onto a grass mower.

I think the state of my hands is a reflection of the condition I'm getting into all over. Soft and flabby, every place I've got meat on my bones. Every time I do any kind of chore that involves a little bending or lifting, I'm forced to creep

around for days, muscles aching with every little movement.

Now I know how to sympathize with the town boys, who used to suffer so from the Army's basic training. Fresh off the farm and pretty well conditioned by that kind of living, I wasn't bothered much by the things the drill instructors made us do.

But the city boys let on like they were suffering constantly, and I'm sure now that they were. Just plain soft. Like I am now. Boy, I'd like to have to go through the Army routine in the shape I'm in today.

Fellow ought to try to do something to get himself back in a respectable physical condition. But I've grown lazy, while I've been growing soft. Suggestion of any kind of exercise leaves me faint. I'll probably go on getting softer and softer until some day the mere strain of getting out of bed brings on a heart attack, stroke or something.

I didn't used to mind the muscular movement. I think it would have been a good idea to have stayed on the farm—where I had the habit.

—WAYLAND YATES

Marquis Childs

Canada May Liberalize China Policy

OTTAWA, Ontario.—In the early fall Canada will reverse its policy on Communist China and follow the lead of Great Britain. While in the first phase this may not mean recognition of the Peking regime, the Canadian government certainly will join Britain in a liberalized trade policy with the China mainland.

This is what Lester B. Pearson, Minister of External Affairs, has been saying privately as he found himself in the election campaign berated for following the United States down a blind alley.

This criticism has come for the most part from Conservative sources. Therefore, if the Conservatives should ultimately form a government, they would join the British in what Pearson has called a more "realistic" position.

Short of recognition of Peking, a step the British took seven years ago, the Canadian government may wait until the issue of Red China comes up in the United Nations, as it is certain to do in the fall. Then instead of voting against admission, as in previous years, at the behest of the United States, Canada will abstain.

In view of what has been happening in recent months, admission of mainland China would almost certainly carry the day, and particularly if America's closest ally and partner, Canada, should abstain.

Nothing could illustrate more forcefully than this prospect the rigidity of American policy. Canadians like to think, and with considerable justification, that as members of the British Commonwealth and at the same time as joint tenants with the United States of the North American continent, they have helped to build a bridge of understanding, demonstrating how to get along with the great power that must take the leadership of the Western alliance.

In the talks in Paris on China trade that ended with the British insisting on following the same trade policy for Communist China as for Soviet Russia, Canada sought a compromise. At that conference the Canadians put forward a revised embargo list for China that went half way

toward scaling down the items forbidden in trade with Peking. But the United States held out for no change whatsoever, and so Canada's efforts to serve as an honest compromiser between the two principal Western Powers inevitably failed.

Although Canada does not recognize Communist China, leading Canadian newspapers have sent able reporters to the China mainland to report from the Canadian viewpoint what is happening in the vast effort to make over 600,000,000 Chinese in the image of communism.

Here the contrast with the United States is sharp. The President and Secretary of State John Foster Dulles have refused to let American reporters go to China, Dulles giving a variety of reasons with the stress on their lack of protection in view of the non-recognition of Red China. The conservative Globe and Mail of Toronto is running a Page 1 series by William Kimmond. It is a serious effort to appraise the successes and failures of the huge transformation going on behind the bamboo curtain.

In many respects, Kimmond finds China deviating from the course followed by Soviet Russia. Blair Fraser, one of the editors of MacLean's Magazine, reporting on an Asian tour that took him to Communist China, finds that in the ideological war for the allegiance of the Asian people, China appears to be the winner, making startling gains in every field.

The rigidities of American policy have been a source of strain on the essential partnership between Canada and the United States. At times it has seemed to Canadians that they were being forced into a satellite role. The partnership is vital to Canada as this country expands in every direction, with immigration taking place at an unprecedented rate.

But the great gains that come from the unwritten alliance between the two neighbors will seem too costly if they are at the expense of a growing Canadian conviction that the big power takes it for granted that the smaller power must follow in its wake.

Inez Robb

All God's Chillun To Have H-Bombs

Scarcely a day passes that some customer fails to write in, complaining bitterly that the conflicting opinions of experts on every conceivable subject under the sun make it evermore difficult for John Q. Public to arrive at a fair evaluation of any public problem.

Such correspondents must feel that confusion is confounded by the experts to day on two of the world's major problems: (1) Fallout from nuclear weapons and (2) disarmament.

You pay your money and you take your choice of whether fallout is going to be the death of all of us or is just dandy for mankind. And it's six of one and half dozen of the other whether the world is or isn't nearer limited disarmament than at any time since World War II.

But it is one woman's opinion that one message is clearly written between all the lines of fallout and disarmament. That is the harsh fact that tomorrow all of God's chillun are goin' to have nuclear weapons. And then the fat is really in the fire.

Ten years ago the United States had a monopoly on atomic weapons. Eight years ago the U. S. S. R. shattered that monopoly, by hook or crook, and joined us. Only a few weeks ago the United Kingdom shattered the U. S.-U. S. S. R. monopoly and became the third power with a hydrogen bomb on its belt.

Tomorrow a fourth power, probably France will develop its own bomb. And the next day it will be a fifth power, and the day after that a sixth. And who can safely predict that Communist China will not successfully enter the race? Surely, this possibility must be even more of a nightmare for Russia than for us.

From here on in, the race for nuclear weapons is open to the weak and the irresponsible, to the little dictators and the wild men filled with flaming nationalism and hatred of the West.

It is axiomatic that a secret shared by three persons or three nations is no secret. It is fair to assume that there are brilliant scientists in many lands today who could, if they had the money and the materials, glue together a workable atomic bomb, at least of the kind that leveled Nagasaki and Hiroshima. They know by training and intuition, and not because the secret has been traitorously leaked to them.

Scientists are men trained to put two and two together and get six. We are deceiving ourselves if we refuse to face up to the fact that nuclear knowledge today is everywhere and if we go on

believing nuclear weapons will always be in the hands of a power elite.

In this case it may be salutary to remember that even file clerks now wear mink coats. When mink is in the public domain, anything, including the split-level atom, is certain to be reduced to this common denominator.

Unless the great powers now in possession of nuclear weapons can get together and work out a feasible disarmament agreement for such weapons, an agreement based on a fair and iron-clad system of mutual inspection, it could be too late.

If nuclear weapons are allowed, by default, to enter ever more arsenals, the jig is up. The task of control and eventual abolition will become increasingly difficult, if not impossible, and the job will end in a real dance macabre.

(Copyright, 1957, by United Feature Syndicate, Inc.)

What Others Say

(From Christian Science Monitor)

George Harrison, president of the Brotherhood of Railway Clerks, urged informally the other day that the Taft-Hartley Law should be amended to permit discharge of an employee for non-payment of union fines as well as union dues or initiation fees. His object, he explained, was to fine union members for failure to attend a minimum number of union meetings during a year.

The purpose of obtaining more participation by members in organization affairs is a worthy one. It is a necessary part of working democracy which might extend from union meetings, to corporate stockholders' meetings and to voting in local and national elections. But the legal proposal involves a host of difficulties.

One variant of the idea might make it somehow a degree more acceptable—in a trade union or elsewhere. Instead of a fine for absence from a meeting, why not allow a small credit for attendance, perhaps against a slightly increased dues assessment? The difference between a penalty and a bonus may be in this case only psychological, but it could be significant.

Hot Soup

WEST FRANKFORT, Ill. (AP) — The soup was so hot at John Marble's home it started a fire. Police Fred Harkins said the \$2,500 blaze began when the soup boiled over causing the gas stove to flare up.

Who Has Four Eyes?

It would take that many—and more—if prospects for advertisers are to be expected to catch an advertising message on a TV channel. Four or five channels are available right here in Big Spring, to divide the viewer's time. This puts a restriction on the exposure factor of an advertising message, to say nothing of the many interruptions that can occur at the very time a message is on the screen.

Newspaper Advertising Stays -- And Stays!

Your Newspaper gets the undivided attention of its readers, and even if interruptions do occur, these only delay, and do not lose forever, the exposure of an advertising message. The printed word is there to be read at the convenience of every member of the family . . . and there is no chance of misunderstanding any good ad . . . for it is there for ready reference again and again!

To be positive of the exposure of your advertising message, insist on the only media which can guarantee that exposure to an exact number of homes . . . your

Turncoat GI Is Returning To Homeland

HONG KONG (AP)—The U.S. consulate general today said American turncoat Andrew Fortuna of Ionia, Mich., is leaving Red China Saturday.

Fortuna was one of 21 U.S. soldiers captured in the Korean War who refused repatriation after the fighting stopped in 1953. Seven of the 21 previously returned to the United States and one died in Red China.

The most recent returnee was Samuel David Hawkins of Oklahoma City, who crossed into Hong Kong last Feb. 27.

The Defense Department ordered dishonorable discharges for all the turncoats Jan. 25, 1954. The Supreme Court subsequently ruled that because of this they could not be prosecuted for their actions while in the armed forces.

Fortuna told an interviewer in 1955 he had been brought up in a poverty-stricken area of Detroit. Fortuna probably will be on his way back to the United States a few days after his arrival here.
