Food Sale at Red Cross Room, Saturday

A cooked food sale will be held Saturday afternoon, December 20, at the Red Cross work room. Items for sale will include fruit cakes, cookies, dressed chickens, pies, homemade pickles, jelly, butter, eggs, etc. Here is your opportunity to get your Sunday dinner. Save time during this busy season! Mrs. Mark Boehning will be in charge of the sale. All proceeds will go to the Red Cross fund. You may also help by donating some item for the sale. Mrs. Boehning asks that persons have all food donations at the Red Cross room by 1 o'clock Saturday afternoon.

Volunteers For Service

Declaration of war and the attack on us by Japan brought a flood of enlistments in all branches of the armed service. The first to offer their services since that tragic Sunday, Dec. 6 from Ochiltree county are Harold Witt and H. D. Stone, Perryton young men, who enlisted in Aviation Ordnance Department of U. S. Navy for the duration.

These young men enlisted at the Amarillo recruiting office and were sent to Dallas Monday to be sworn in and will be forwarded at once to San Diego, where they will be stationed.

Fred Albright, Amarillo, formerly in the Perryton CCC camp and well known here also enlisted as apprentice seaman in the navy and left with the boys.

Bill Philyaw, son of Mr. and Mrs. W. L. Philyaw, Perryton, was rejected for defective eyesight when he applied for the air service.

Ochiltree County Home Defense Appointed By County Judge Shanks and Mayor Lance

Acting on instructions from Gov. Coke Stevenson, a tentative Ochiltree County Home Defense Council has been appointed by the County Judge Dave Shanks and Mayor W. H. Lance. The council will hold its organization meeting Saturday afternoon, December 20, four o'clock, at the courthouse.

While the exact duties of the council are not set forth in detail, it is understood that the council will serve as a co-ordinating agency for the various defense set-ups so that full cooperation from every organization in the county will be available to every program, be it stamp and bond sales, waste paper collections, organization of defense guard, Red Cross work, fire prevention, air warning, or any other defense measure.

Members of the council are County Judge Dave Shanks, Mayor W. H. Lance, M. W. Truax, Post Commander American Legion; Mrs. E. B. Gyger, Unit president American Legion Auxiliary; Aldon Bell, president Chamber of Commerce; Mrs. A. J. Kelly, president Sorosis Club; Dan E. Archer, president Rotary Club; Oscar C. Flowers, president Lions Club; C. Wedgeworth, superintendent Perryton Public Schools; Dr. Manse Wood, president Ochiltree County Red Cross Chapter; Miss Moina Caldwell, president Beta Sigma Phi; Audie Conley, chairman Ochiltree County Agricultural Conservation Association; Mrs. J. S. Slaughter, president Ochiltree County Women's Home Demonstration Council; W. M. Deck, president Ochiltree County Farm Bureau; Van W. Stewart.

First Honors To Perryton Utility Office

Awarded President's Trophy, Community Public Service Co.

C. E. Whippo, manager and his fellow employees of the Perryton division of the Community Public Service Co., are very proud of the beautiful President's Trophy that was awarded to them Monday evening by R. L. Bowen, Fort Worth, president of the Community Public Service Co. The award was made at a banquet at the Hotel Perryton.

The trophy is awarded annually to the division in the organization that does the most outstanding job. Points are determined on the basis of merchandise sales, collection of consumer and merchandise accounts, and killowatt hours per customer increase for the period from Jan. 1 to Nov 30.

The Community Public Service maintains division offices at Perryton, Clifton, Pecos, Breckenridge, Farmersville and Texas City, Texas; Silver City, N. M. and Winchester, Ky. General offices are in Fort Worth. Their utility properties in-

High School Again Rates Highest

Superintendent C. Wedgeworth of the Perryton Public Schools has been notified that the Perryton high school has again been elected to membership in the Southern Association of Colleges and Secondary Schools with the highest possible rating.

The following letter of notification is from the offices of the State Department of Education to Mr. Wedgeworth:

"Please let me advise that during the annual session of the Southern Association of Colleges and Secondary Schools held in Louisville, Kentucky, Dec. 1-5, your high school was again elected to membership in that organization for the current year. The selection of your high school to membership in the Southern Association is particularly significant in that no adverse criticism was expressed against your high school. This emphasizes the constructive leadership of the public schools of your city."

School Christmas Starts Friday Noon

The Perryton Public Schools will close at noon Friday, Dec. 19, for the Christmas vacation period. Classes will be resumed again on Tuesday, Dec. 30. Many faculty members will leave Friday afternoon for holiday visits with home folks. The extra day, Monday, Dec. 29, will allow students and teachers who go out of town for the vacation to remain over the Sunday following Christmas before starting the trek back to Perryton and school on Monday.

First Perryton Youth to Die In Line of Duty

Goulden Johnston, age 28, is the first youth from the Perryton area to give his life in line of duty in World War No. 2. Goulden was killed in a plane accident on the east coast according to word that was received in Perryton Wednesday from his base at Norfork, Va. He was a radio operator with the United States Navy Air Service and had been on patrol duty in the northeast for several months.

An Associated Press dispatch from Norfork Va. states that Goulden and five other crew members were killed when a navy patrol plane crashed on the take-off at Elizabeth City, N. C. at 6:50 a. m. Wednesday. The bodies of all six were taken to the naval hospital in Norfolk.

Goulden had been in the service for about six years, four with the Marines and two with the Navy. He obtained much of his schooling in the Perryton schools, moving with his family to Edinburg, Texas where he graduated from high school in 1931. He later attended college at Edinburg, Goodwell and Stillwater, Okla., before enlisting in the Marine Corps.

Surviving relatives are his mother, Mrs. S. D. Johnston, who lives near Gray; two sisters; Mrs. Trulen Gooch, Perryton, and Mrs. John Weeden, Guymon; three brothers: Wesley, Red Wing, Colo., and David and Joe of Perryton.

Mrs. Johnston, mother of Goulden, was visiting in Pampa when the word was received here. She returned to Perryton late yesterday. Mrs. Johnston stated this morning that she had requested that the body be shipped to Perryton but that no announcement regarding funeral arrangements could be made until definite word had been received from the naval authorities.

JUST HERE and THERE

It appears to us that too many of our young men of military age are more concerned about how much pay Uncle Sam is going to give them than about what they can do for their country. While we admit that $21 a month, board and clothing and medical attention is not a whale of a lot of money, yet we will say that it's more than a lot of young men are making in civil life.

The soil is the farmer's manufacturing plant. Consider ways to put more and better guards, more and better conservation measures, on our farms to protect the soil. Erosion is sabotage, weakening our nation just as any other form of sabotage does.

When Congressman Lyndon Johnson waived his deferment as an officer of the government and asked that he be called to active duty in the United States Navy, he showed that he was true to the tradition of his native state.

During his campaign for the United States Senate last summer, Mr. Johnson promised that he would go to war himself if he were forced to vote in favor of war. The Congressman has ful-

Chairman Shanks and His Workers to Continue Drive to Give All Opportunity to Give

Ochiltree county folks responded just like the one hundred per cent American citizens they are in the campaign to raise the county's first assigned quota of $900 for Red Cross war relief. When Drive Chairman Dave Shanks checked up his books on Wednesday night at the end of three days work by his committees, he found that the quota of $900 had been over subscribed by over two-thirds and that a total of $1,507.10 had been collected.

Even though the quota has been over subscribed by six hundred dollars the drive will be continued through the coming Saturday so that every person in the county who is able to give can do their part. A full and complete list of all donors with the amount of their subscription will be published in next weeks Herald.

Without question, this is only the first of many such calls for Red Cross funds that will have to be met so even though the assigned quota of $900 is doubled in this drive, the local Chapter will probably only send in the assigned $900, less the 15 per cent that will remain in the county for local Red Cross use.

This has probably been the most efficient county wide campaign ever staged in Ochiltree county but it is just humanly impossible to contact every single person in such a short time, so if you have not been solicited, send or bring your subscription to Chairman Shanks at his office in the courthouse or to Miss Myrtie Conley at the Herald office.

Chairman Shanks has issued the following final appeal for all-out co-operation in this campaign drive.

"America is calling you!

Rangers Play Two Games This Week

The Perryton basketball squad defeated the Darrouzett cagers 28-21 Tuesday night, Dec. 16, in the Perryton tournament.

The return engagement of the Darrouzett was their third defeat by the Rangers, one in Darrouzett and one in the tournament. The Perryton B team also won over the Darrouzett B squad by a score of 18-6.

Allen was the high point man of the B game with 9 points to his credit. McClung led both teams running up 10 points in the senior game.

The Perryton team will meet the Spearman squad tomorrow night, Friday, Dec. 19, in Spearman.

Public Library Will Close December 21-28

The Perryton Public Library will be closed during the week of December 21-28, conclusive, announced the Library Board today. This is due to a WPA ruling, allowing the library workers to have a vacation with their families Christmas week. Fines will not be charged for that week.

Pool Halls In Perryton Are Closed

Perryton's pool halls have been closed on the recommendation of the grand jury for the November term of the district court of the 84th Judicial District. Pool halls are illegal in the state of Texas, with the exception of private clubs. The enforcement of this law has been lax over the Panhandle, where pool halls have been operating on their good behavior, so to speak. All pool halls in the city have complied with the order of the county officials, that they close.

Martin Makes Appeal Bond

M. C. Martin, convicted by an Ochiltree county jury of the murder of Ernest Anderson on September 13 and sentenced to four years in the penitentary, has filed notice of appeal and was released Saturday on $10,000 bail furnished by two brothers, J. H. Martin, Stratford; R. E. Martin, Spearman; and Ollie Morris and Dave Wilson, Ochiltree county farmer-stockmen.

Martin has ninety days in which to perfect his bill of exception and present them to the court.

Second row from left to right: Bobby Cheek, Freddie Pshigoda, Jerry Mullins, Ronald Hendry, Vincent Engleman, Marion Smith, Sammy Phelps, Billie Rae Chase; Third row from left to right: Albert Black, Paul Harbaugh, Bill Stephenson, Wayne Sharpe, Jerry Key and Duane Youngblood.

Old Paper Drive In World War I

With the announcement this week that the Boy Scouts were cooperating in the campaign to collect old magazines and newspapers, two Perryton men, Leroy Hartman and J. W. Payne Jr., were reminiscing when they were Boy Scouts during World War I. A similar drive was conducted by the Scouts at old Ochiltree, then the county seat of this county. Mr. Hartman, Mr. Payne and several other men still living here were Scouts at that time and vividly recall one incident especially. The paper was being stored in a large cement block building and then hauled to Glazier free of charge by the freighters. When the war ended, a large amount of old paper was on hand. The Scouts decided to clean the building and burn the paper. Much of the paper was loose and in carrying it from the building, the boys had paper scattered from the building to the bonfire. It seems that the boys thought they had entirely extinguished th fire, but in the night the wind fanned the sparks into flame and the fire spread into the building, completely destroying it. The intense heat caused the walls to buckle and collapse.

Naval Air Station On Seven-Day Week Schedule

War and weather have combined to put the Naval Air Stations at Corpus Christi on a seven day week flying schedule, according to the Office of Public Relations at the "University of the Air." The new schedule, which will go into effect immediately, provides for continuous operation of the Aviation Training Department in order to increase the number of Navy fliers graduated from the school and to counteract the flight hours lost through inclement weather.

The seven day week schedule affected most departments at the Naval Air Station in that they will be required to remain partially staffed at all times to accomodate the needs of the flyers. However, persons working Sundays because of the schedule will be allowed liberty on days when the weather prevents flying.

Concurrent with the new flight schedule were instructions received December 11 from the Assistant Secretary of the Navy calling for a 48 hour week for civil service employees on the station. This increases by eight hours the former work week of these persons who are spread throughout the clerical, administrative, and fiscal branch of the service. A full eight hours of work on Saturday or Sunday is now required. Formerly this had entailed overtime payment.

Huge Christmas Feasts Served in Old Castles

Christmas dinners served in medieval castles were in reality "feasts." The meal lasted usually from three in the afternoon until midnight.

One of the dishes always on the table was meat pie. In delving into history we find that Sir Henry Grey in England ordered one baked that was nine feet in circumference. It weighed 165 pounds and was served from a four-wheel cart built for the purpose.

Here's the recipe:

2 bushels flour	6 snipes
20 pounds butter	4 partridges
4 geese	2 neat's tongues
2 rabbits	2 curlews
4 wild ducks	6 pigeons and
2 woodcocks	7 blackbirds

Making a Doll Buggy

The amateur carpenter of the family can make a doll carriage easily and cheaply. A jumbo grape basket may be fastened on wooden axles for wooden wheels. Handles can be made from discarded yardsticks or window-shade sticks, with a piece of broomstick for a hand rest. Paint any desired color, and mother, aunt or sister will be glad to make a pad for the inside. It makes a dandy Christmas gift for any little girl.

Milton "Turk" Freeman, who is in the armed forces, Reconnaisance Company, 1st Armored Reg., Fort Knox, Kentucky, came in Monday to visit a few days with his parents, Mr. and Mrs. W. M. Freeman and friends here. He will return to duty on December 24.

Labor Pledges Full War Support

With The United States forced to fight the war in two oceans, American labor must meet the challenge with courage and faith similar to that of our armed forces already engaged at sea and in the air, Sidney Hillman, Associate Director General of the Office of Production Management, declared in a special messabe to American workers. Mr. Hillman's message follows:

"War is upon us. Our armed forces are already engaged at sea and in the air, waging war with courage and faith in the cause of freedom, as well as with guns and ships and planes.

"Labor must meet the callenge with similar courage and faith, by supplying more guns and more and more planes in a steady, ever-increasing flow, until the war is won.

"Already the guns you have made and the planes you have built and the ships you have launched are blasting the foe, in defense of our shores. Our victory depends on greater production from the workshops of democracy. Today our soldiers, sailors, airmen, and industrial workers share the front line of battle.

"Our fighting forces rely on your skill and your energy for the implements of war. The workers of this nation will prove that free Americans can outproduce, as they can outfight, any combination of slave peoples. Ours is a sacred task to which we must consecrate mind and heart and hand.

"We will have to do the best possible job on the assembly line, in the pit, at the throttle. No obstacles must be allowed to interfere with our war ffort. We will face hardships and make sacrifices.

"This is war—a people's war—a war of the comman man against old tyranny and new barbarianisms. Labor is more united than ever before in this great undertaking.

"All labor has pledged its fullest cooperation and participation. Ours is a labor movement unswerving in its devotion to the aims of freedom and in its determination to keep America strong and free. Joined in this high purpose, labor can help not only to crush the Axis aggressors, but also to build a new world of peace and security. The time is now. Democracy's destiny is in the balance. Labor will never fail the cause of freedom."

Not Duty of Amateurs To Investigate Fifth Column Activities

San Antonio, Texas., Dec. 20—Local defense councils and coordinators in the Eighth region, including Texas, Oklahoma, New Mexico, Arizona and Colorado were urged today by Regional Civilian Director R. E. Smith to discourage all amateur investigative efforts in connection with suspected cases of espionage, sabotage, and "fifth column activity."

The President of the United States and National Defense Director LaGuardia have directed that all such investigative work be conducted by the Federal Bureau of Investigation with the cooperation of local peace officers, so that it can be correlated on a national basis, Mr. Smith said.

Some local defense councils in various sections of the nation are reported, Smith said to have organized "intelligence divisions", and enrolled "secret observers" to do investigation work. This, he declared, is in violation of the national plans for Civilian Defense.

"Director LaGuardia has specifically requested that local defense councils and individuals refrain from such activity," said Mr. Smith. "Individuals who observe suspected cases of espionage or sabotage are asked to turn over whatever information they may have to local police authorities, or to communicate with the nearest local office of the Federal Bureau of Investigation."

Xmas Cheer for Needy Children by Navy Men

Plans for a gala Christmas party with needy and underpriviledged children of the city as guests of the Station personnel are rapidly being formulated by the Chaplain's office and the city welfare department. Plans call for a Christmas fantasy, with 30 children of the station's personnel participating; tricks of wonder by a magician; a strolling violinist; and the largest, most gaily decorated Christmas tree in Corpus Christi. Old St. Nick himself will be present to wish the kiddies a happy holiday. The entertainment of the 300 children will be made financially possible by voluntary contributions from the Navy men stationed here.

Yule Dinner Merits Novel Table Setting

Christmas dinner, of course, is a very special one. To add to the merriment for both homefolks and guests, here are ideas for the table setting.

Make place cards of big red apples, the name written on with icing from a tiny pastry tube.

For tree motifs for table or wall decoration, use cellophane straws,

paper doilies, pipe-cleaners, screen wire, old boxes and plywood . . . a most amazing array of trees will result. Keep them simple and surprising. Try graduated funnels stacked up, with a star-shaped cookie cutter on top.

For the table centerpiece, have an acrobatic act of gingerbread men or cookie clowns balanced at precarious angles, held together with cake icing. Or for more seriousness, the whole manger scene may be made from cookie figures.

Another centerpiece can be formed by using a tall candle or wooden standard and placing pine cones around it.

Candles in a log holder are very effective. Drill holes in a small curved pine log, then place the candles in these. Seal the ends with paraffin to prevent the pitch from dripping. Arrange sprigs of pine, hemlock, holly or cones around the candle holder.

Buy Christmas Tuberculosis Seals

Austin, Dec. 15 (spl)—As a result of the emergency existing because of the war, the Texas Tuberculosis Association is urging all citizens of this state, who have not yet made their contribution for Christmas seals mailed them on November 24, to do so now.

"When the world is on fire," said Dr. Z. T. Scott, managing director of the Association, "tuberculasis in our state seems to be a small problem. But let us keep our perspective. National defense, of course, needs money, machines and material. But machines and material need men and men need health.

"The lesson learned about tuberculosis in the last war must not be forgotten now. We cannot afford to weaken on the home front by giving the silent foe, tuberculosis, a chance to destroy what the people of this nation have built—as happened when the tuberculosis death rate rose throughout this country during World War I.

"Our first duty to national defense is to learn the quality of our manpower; our second to set about improving it as a major requisite for national protection.

"By January 1, the tuberculosis associations must complete their plans for assisting in the national emergency, as well as carrying on their normal-time activities toward the eradication of tuberculosis.

"Citizens who would share in this all-out effort to prevent and control tuberculosis in our military forces, as well as in our civilian population, should mail their contributions to their Christmas seal headquarters promptly."

Many Aeronautic Jobs Now Open At Duncan Field

Texas men and women, who the between 18 and 25, heve the opportunity of contributing toward Uncle Sam's victory in the war, learning aeronautics, and jumping from $50 a month to $1.10 a month in 180 days.

Duncan Field, nation's largest air depot is anxious to receive applicants for several technical jobs and is willing to train hundreds of young people for the positions, Major A. T. Economy, officer in charge of the field's civilian training program, announces.

Trainees are paid while they learn.

Lieutenant-Colonel Clements McMullen, commanding officer of the field, is directing the program.

Any young person with a high school education or its equivalent is eligible. Applicants need only pass general intelligence, aptitude and emotional test conducted by the San Antonio Air Depot and the civil service commission.

Persons accepted for training are placed immediately on Duncan Field pay roll. They began a basic course which covers depot organization, regulations, air corps material, air corps tools, drawing and air corps forms. Other schooling covers shop mathematics, blueprint readings, physics, the elementary theory and practice of the specific trade.

When a student completes his three-month course, he is given a certificate and "graduated" to an advanced course, which is divided into two sections: a course in theory and practice of the trade for juniors mechanics and another for journeymen mechanics.

At the end of a six-month period students are rated as helpers. They then earn $110 a month.

Men who are in advanced courees are rated as mechanics and paid up to $175 a month.

The Duncan Field courses include: aircraft mechanics, aircraft engine mechanics, aircraft machinist, sheet-metal mechanics, radio mechanics, drafting, instruments, parachute mechanics, supplies, administration, accounting, welding and propeller mechanics.

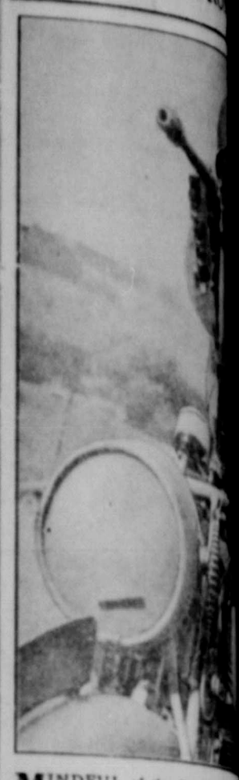

"Men and women can do a big share in helping us win this war," Mayor Economy declares," and they can learn invaluable trades while they earn good pay."

Modern Toys Offer Children Varied Appeal

Gather in the parlor, folks, and have a skeet shoot.

Or, if you're militarily inclined, become a chair strategist with new games "suggested by air and naval warfare and army maneuvers."

You can do either or both and much else, too, according to Santa Claus, whose bag contents reveal just such a variety of toys for Christmas, 1941.

"The desire of adults to forget wartime jitters in relaxing fun at home is reflected in an increased demand for easy-to-play games," say toy manufacturers. "Parlor versions of bowling, skeet shooting and skeeball are being featured on Christmas toy lists everywhere."

You also can shoot darts with rubber-band guns, build model airplanes, or, if you're the kind that would, swipe junior's miniature submarines and watch them dive in the bathtub.

The main point, says Santa Claus, is that "the American toy industry is geared to give children their full quota of happy play hours in 1941, unshadowed by war."

That wasn't so in 1914 when Germany was the world's greatest toy-producing country. American-made toys were a poor substitute. But all that is changed. For the past 20 years virtually all new designs and improvements have been initiated in the United States' toy shops.

Patriotic and national defense themes are carried out in this year's toys. The latter includes coast defense guns and the like, all "scientifically tested," in the interests of society.

There will be the usual scientific toys, dolls, and things-on-wheels, but with improvements. In the first category is a microscope using a polaroid light; in the second, China maidens with "Hollywood glamour set-coiffure"; and in the third, motorized army equipment of the "latest designs."

Defense isn't the only government function reflected in toy designs. The FHA's influence is apparent in a new double-decker bunk calculated "to eliminate crowding in doll houses."

St. Francis Started Use of Yule Crib

It was St. Francis of Assisi who gave the Crib the tangible form in which we know it today. In 1223 he visited Rome and told Pope Honorius III his plans of making a scenic representation of the place of the Nativity. The Pope gave his sanction and on Christmas eve, St. Francis constructed a crib and grouped round it the figures of the blessed Virgin and St. Joseph, the ass and ox, and the shepherds. He used live animals in a real stable.

The custom spread from Italy to Spain, Portugal, France, the Netherlands and Germany, and from these countries it has spread to all corners of the earth.

Museums throughout the world possess very ancient cribs. The Metropolitan Museum of Art, New York, has a group which dates from before 1478.

The custom of placing cribs out of doors as Christmas decorations in the yard has become popular the past few years.

P. T. A. Presents Recording Machine To the School

The Perryton Parent Teachers Association Monday night, December 15, presented to the school a combination radio, phonograph and recording machine.

The machine will be used in the music and public speaking classes to record voices and will show students how their individual voice sounds and what mistakes they make. This is said to be one of the best ways to help students improve their speaking and singing tones, pronunciation, etc.

Otis E. Burk, chairman of the P. T. A. finance committee, reported that the machine has been received and will b installed immediately.

Parent-Teachers Met December 15

The Perryton unit of P.T.A. met Monday, December 15, in the H. S. auditorium. Mrs. Kenneth Crisp, president, presided over the business session.

Following the business session, the High School Speech Choir under the direction of Miss Verna Harris rendered the following numbers: "The Bells of Paradise," "The Flag Song," "The Flag," "I Saw Three Ships," "A Prayer," and "The Twenty-third Psalm."

Mrs. W. B. LaMaster, president of the Eighth District, was the main speaker of the evening, speaking of the subject, "Not by Bread Alone." Rev. G. S. Farmer, pastor of the local Christian Church, gave the closing Christmas benediction.

Twelve Bands Participate in Perryton's Christmas Parade

Pictured above are the twelve organizations that took part in the Santa Claus parade in Perryton on December 2. Prior to the parade, the bands marched in mass formation up Main street and gave a concert, directed by Perryton's bandmaster, Glenn A. Truax. The 546 brilliantly uniformed members of these organizations added color to the parade. Interspersed among the various bands were Biblical floats and divisions of the pet parade. Bands were here from Higgins, Spearman, Canadian, Follett, Borger, Laverne, Beaver and Liberal. Perryton organizations in the parade were the Grade School band, Junior Band, Ranger Band and the Drum and Bugle Corps.

FARM AND RANCH NEWS

Ochiltree Lambs Top Kansas City Market

Herman Hargrove and Merton Smith of Farnsworth community topped the market in Kansas City Tuesday of last week with three decks of 90 pound crossbred Hampshire Rambouillet lambs. The lambs brought $11.75 per cwt. with only three lambs cut back at a lower price.

Others who shipped lambs to the Kansas City market recently are: T. M. Osborne, W. D. Thompson, C. S. Nowlin, Claud Bowen, L. R. Conner, R. H. Holland and John Rogers.

Some forty men handled sheep in 1941 in Ochiltree county either by raising lambs or purchase of feeder lambs and the business is adding materially to the farm income of the county.

A good grain mixture to use when dairy cows are grazing on small grain pasture is 600 pounds of ground ear corn and 100 pounds of cottonseed meal. Feed a cow three pounds daily for each gallon of milk she gives.

The annual meeting of the Ochiltree County Agricultural Conservation Association will be held Saturday, December 2, at the courthouse in Perryton at 2 p. m. for the purpose of electing three county committeemen and two alternate committeemen to administer the AAA program in Ochiltree county for 1942.

It is hoped and urged that every producer in the county who possibly can do so, be at this meeting. "Now that we are at war with the Axis nations makes it all the more important that Texas farmers elect the best county and community AAA committeemen they can find to carry on next year's farm program," says George Slaughter, chairman, Texas AAA committee.

"The chairmen will not only serve as leaders of the AAA farm program in his county but will have the grave responsibility of leading the USDA defense board in the Food-for-Freedom campaign," Slaughter said.

"Open hostilities give added impetus to our whole AAA farm and Food-for-Freedom programs. We must continue soil-building practices through which we will meet our Food-for-Freedom pledge; we are all-out for victory. While our armed forces meet force with force, farmers will fight the foe with food," the state chairman declared.

Election of AAA committeemen will be similar to procedure used in former years, the AAA official explained.

Present committeemen are Audie Conley, chairman; H. C. Brillhart, vice chairman; C. B. Mears, member; and C. O. Roach, alternate.

Every man interested in farming either as operator or landlord in Ochiltree county in 1942 is eligible to vote in the election.

Following the election the meeting will be given over to a discussion and explanation of the 1942 Farm Program. It is pointed out that there program from 1941 in that the Special Program for Wind Erosion Counties has been adopted.

December 31 Is Final Date For CCC Loans

December 31, is the final date for securing CCC loans on 1941 wheat and barley, advises Earl Waide, wheat loan inspector for Ochiltree county. If grain is stored on the farm an application should be made by December 22, in order that a sample can be sent to a grading labratory and returned by December 31.

Several loans have been completed this month even through the market price is highr than the loan value of 93c per bushel plus 7c storage for No. 1 wheat and 45c for No. 1 barley. The majority of the farmers are expecting a higher market after the first of the year and are taking a CCC loan in order to guarantee this price.

Grain sorghum loans will be available until January 31, 1942 with a loan rate of 40c per bushel on No. 1 grain.

Galen Murphy Experimenting With Flax Production for this Area

Galen Murphy's test plot of flax showed promising results this year, reports County Agent E. W. Thomas. Seven acres of this crop was sown on the Murphy farm, six miles east of Perryton, in March, which is considered about a month later than the best date to sow. It was also sown on land that did not have any particular preparation.

In spite of these handicaps a yield of 14 bushels per acre was secured.

Mr. Murphy will sow the seed secured from the test on a larger acreage next February.

Flax seed usually sells for about twice the price of wheat and the U. S. Experiment Station at Woodward finds the yield at that point to be about half that of wheat on the average.

Due to this experiment Ochiltree county may develop into an important flax growing center.

Farmers Urged To Save Part of Increased Income

Farm families will have more money to spend for living and for investment than in 1940 or 1941, but at the store they will find higher prices on many things they want to buy. And they will find shortages of some kinds of goods.

For that reason, money management in relation to obtaining a good living for the family is now one of the most important phases of homemaking, according to Louise Bryant, specialist in home management for Service. Pointing out that the Extthe A. and M. College Extension Service seeks to advise farm families about economic trends as well as help them with more tangible farm and home problems, she says:

"It's important that families not put all of their net income increases into current family living. They will need to pay off old debts, pay increased taxes, build up the farm business, and lay aside savings for an uncertain future.

Even though farm families will have more money to spend this year, they'll be helping themselves if they refrain from buying. Since prices tend to go up when people with money to spend compete for a limited supply of goods, inflation likely will result. The wise family will refrain from buying, use some of the extra money to pay debts and taxes, and buy more savings stamps and defense bonds to aid in this country's war effort.

Delaying purchases does two things. It eases the present situation, and it builds up a back-log of future demand that will give factories and workers jobs after the war is over."

HOME DEMONSTRATION CLUB NEWS

Ochiltree Club Christmas Lunch

Mrs. Leonard Wright, southeast of town entertained the members of the Ochiltree Home Demonstration club with a lovely Christmas luncheon and party Friday, December 12.

The house was appropriately decorated throughout with appropriate colors of the season. After the delightful luncheon, "Santa" presented the guests with gifts from the Christmas tree arranged in the living room. Various card games were then enjoyed.

Those present were Mrs. Claude Crouch, Mrs. Robert Thurman, Mrs. Chas. McCartney, Mrs. Kirt Williams, Mrs. A. L. Carter Jr. and daughters, Mrs. Nellie Schwab, Mrs. Lloyd Black and Joy, Mrs. James Blasingame and Jerry, Mrs. Dell Wilson, Miss Elizabeth Huffhines, Mrs. N. P. Dear and Donald, Mrs. A. A. Engleman, Miss Evelyn Engleman, and the hostess.

Missouri Ave. Club

"My daily prayer is that each of us shall have room in our hearts for the Christ Child" were impressing words of Mrs. D. D. Shanks as she spoke at the Christmas party of the Missouri Ave. Home Demonstration club held Friday, December 12 in the home of Mrs. J. S. Slaughter.

The program was held immediately after an enjoyable pot luck dinner. Each member and guest was invited to contribute her favorite story, poem or Christmas thought. The story of Jesus, the tradition of the poinsetta, the true meaning of Christmas, and the cutting of the Christmas tree, were some of the subjects discussed.

After the program, a gift exchange was held. Lloyd Dean Slaughter read the numbers while Melvin McGarraugh and Ellen Ackley delivered the gifts.

Guests present were Mrs. L. E. King, Mrs. J. D. Copeland, Mrs. G. M. Dietrich, Mrs. C. E. McGarraugh, Mrs. James Slough, Miss Eula Copeland, Miss Lyla McAughtry, and Miss Elizabeth Huffhines. Members present were Mesdames Earl McGarraugh, Albert Ackley, C. O. Roach, J. H. Kershaw, D. D. Shanks, Fred Huston, E. W. Witt, A. W. Henry, J. E. Johnson, and Mrs. Slaughter.

Merry Workers Club

The Merry Workers Home Demonstration Club of Gray, Okla., met on Thursday, December 11, in the home of Birdie Tregellas. The group tacked a nice comfort for the hostess. At noon a lovely dinner, to which each member contributed a covered dish, was served.

Plans for the new year were discussed. Work in connection with the American Red Cross will be taken up as a major project at our all day meeting, which will be the fourth Tuesday in the month. The demonstrator will meet with the group on the second Thursday of each month.

After the business meeting every one became especally interested in the gaily decorated Christmas tree. Those present received a gift corresponding to the number each had drawn. Mrs. Wentworth sent a gift from Enid and a number was drawn for her. She also sent a greeting card with a personal message to the club.

Present at the Christmas meeting were: Mildred Leatherman, Mrs. P. F. Brickley, Ethel Pittman, Mrs. C. H. Stewart, Mrs. Wm. McCartor, Clara Stubblefield, Johnnie Wilson, Birdie Tregallis, Ethel Seago, Audry Bohling, Mrs. F. L. Bell, Mrs. T. W. Gary and Mrs. H. A. Cassity. Visitors were Mrs. C. B. Leatherman and Gladys Thomas. Loella Delano and Jeane Mounts became new members of the club.

The next meeting will be with Mrs. F. L. Bell on Thursday, January 8, 1942.—Agnes L. Cassity, reporter.

Assistant Director Elianor Roosevelt of the Office of Civilian Defense recently announced that the OCD is planning to organize a "women's land army" to help harvest next year's crops.

Perryton Club Has Christmas Party

The Perryton Home Demonstration Club entertained their families and guests Tuesday evening, December 9, with a supper and party at the Legion Hall.

After the supper a radio was installed and the President's address to the nation was heard. Pitch and 42 were the entertainment features until Santa arrived and presented every one a present from the gaily decked Christmas tree.

Those present and enjoying the evening were: Mr. and Mrs. Curtis O. Roach, Miss Elizzabeth Huffhines, Mr. and Mrs. Sibley Jines, Mrs. Mark Beohning, Mr. and Mrs. Chas. Hobbs, Mr. and Mrs. George Rupprecht Jr. Mr. and Mrs. Ivan Lovett, Mr. and Mrs. Roy Bell and son E. R., Mr. and Mrs. W. S. ... Austin, Texas, December 13—In a ...ecial message from Washington, ...ere he had gone to confer with ...tional officials on civilian defense, ...ector Geo. W. Cox, State Health ...fficer, who was recently named ... Governor Stevenson as Chairman ... Defense Health and Emergency ...dical Care, today urged that every ...izen of Texas register immediately ... some type of civilian defense ...tivity.

"The urgency of immediate civil... defense training is surely ap...rent after what has happened ... the peaceful civilian population ... our Pacific Island possessions. "The grim reality of a total war ...ainst our people by a treacherous ...my changes vague plans for ...ture defense into a present and ...ent necessity for immediate act...

"The time for good intentions has ...ased," Doctor Cox stated. "This ...ergency makes action imperative. ...now the peope of Texas are ready ...d eager to serve, and the time ... service has arrived."

Outlining the three phases of civil... defense that he believes should ... instituted at once, Doctor Cox ...luded first aid training, the or...nization and training of nurses' ...es, and emergency sanitary corps ... every community.

"These duties are the personal ...ponsibility of every man and ...man," Doctor Cox said. "No one ... can shoulder them for you. Com...unicate immediately with your ...ayor or County Judge, both of ...om are acting as civilian de...se coordinators."

...n cities and incorporated towns, Mayors are serving as civilian defense coordinators, while in rural districts, or unincorporated towns, the County Judges are acting in that capacity, Doctor Cox disclosed.

"Every resident of every community in Texas should communicate immediately with his civilian defense coordinator, and accept those duties which will enable him to best serve his country during this crisis.

"In order to afford yourself, your family, and your country adequate protection," Doctor Cox asserted, "these activities must begin today."

Doctor Cox is expected to return to Austin by the end of this week.

Restrictions at Naval Air Station Result of War

Puttng aside all obstruction to its primary function of turning out 300 cadets a month with all possible speed, skill and safety, the Navy "University of the Air,, went on a war time footing this week.

Main change on the station was the installation of air raid sirens to be used for blackouts. Procedure for air raid warning will be set in motion by sixty-second blasts from sirens and air whistles. Immediately the Officer of the Day and Duty Officers of each unit will douse all lights. All hands will break up gatherings, man their stations and stand by for action unti the "all clear" signal, three 15 second blasts, is given.

Other noticable changes were the posting of armed sentries on embankments formed by dredging operations, and the searching of all cars and trucks as they enter and leave the station.

There has also been a reduction in the numebr of people admitted to the base. No more sight-seeing tours will be permitted and approximately 600 commercial passes were revoked by the Naval Air Station officials. Passes were issued only to those whose business was considered essential. All passes issued to dependents other than Naval Personel Departments were cancelled.

Cadets and V-5 men must wear uniforms when ashore from now on, but officers and sailors may change into civilian dress when at their homes or taking part in recreational activities. This change in shore attire for cadets has caused some of them to cancel their orders for new clothes for the holiday season.

Most of the 25 officers away on leave when the surprise attack was launched have returned. Officials said that henceforth no leaves would be granted except those on orders from Washington in line with official

Because of the present war emergency, plans to send a Naval Air Station team to the servicemen's boxing tournament in Houston opening Thursday and continuing through Saturday, have been postponed. The Navy team was to compete with teams from six Army camps.

Since the war news was received several officers and sailors have tried to check into means for transferring to a type of active duty which would move them into the area of operations in the Pacific.

In the Navy colony news from friends and relatives in Hawaii or Phillippines and the general "tightening down" policy caused parties ...rips and other holiday plans to be ...ancelled as the whole station set...led into a war time routine.

Italian Woman's Dolls Famous Around World

TURIN, ITALY. — A lonely war mother has created one of the world's foremost doll factories here, managed by Madame Lenci in a fashion that would gladden Santa Claus' heart. Madame Lenci's real name is Signora Elena Konig di Scavini. Born an artist, and developing a passion for dolls as a child, she started making them when her husband was killed in the World war. Now her Lenci dolls are made by 360 workers and she maintains a sales exposition in the heart of Turin. Madame Lenci's ideas come from a big collection of historical and geographic costume designs. ...most famous order for dolls was from Premier Mussolini for ... figures to be presented to Japan as gifts. They cost him more than $100 each.

Mayors to Aid in Enforcement of Order Prohibiting Sale of New Tires

Dallas, Texas, Dec. 15—Mayors of Texas cities have received telegrams requesting their assistance in the enforcement of the order prohibiting the sale of new tires and tubes except on priority ratings District Manager of the Dallas Field of A-3 or better, J. B. Crockett, Office, Division of Priorities, said today. The telegram was from Leon Henderson, U. S. Director of Civilian Supply. Mr. Henderson also sent telegrams to all State Governors and to 42 State leagues of the American Municipal Association. Telegrams also were sent to State and municipal police departments and sheriffs.

of public officials in notifying the

Mr. Henderson asks cooperation dealers of the temporary prohibition on sale of new tires and tubes between Dec. 11 and Dec. 22. These officials and agencies also were asked to report violations of the OPM order to the nearest field office of the Priorities Division. In Texas, these field offices are located in Dallas, San Antonio, Houston and El Paso.

Simultaneously with the telegrams asking cooperation in the enforcement of the tire order, Mr. Henderson issued a statement explaining that the temporary prohibition became necessary due to the outbreak of the war in the Pacific which threatens the flow of crude rubber into the United States.

"Because of the fact, it has become absolutely imperative that this country limit in every possible manner the consumption of rubber, particularly the very large amounts required for automobile tires and tubes," Mr. Henderson said. We do have substantial stocks of crude rubber and tires in this country, but no one knows over how long a period we will have to spread the consumption of these stocks. In the meantime, we will be needing large amounts of rubber for the manufacture of tires and other products for the armed forces."

No limitation has been placed on the sale of used or retreaded tires. The ban on tire sales is designed to stop scare buying and hoarding while details of a rationing plan covering the distribution of tires and tubes are being perfected. This plan will be announced within a few days.

Mr. Henderson urges that any violations of the temporary ban on new tire and tube sales should be reported promptly by the public. In the meantime, every American citizen has an opportunity to do his part in conserving rubber.

Here are a few rules which every motor vehicle operator should follow as his patriotic duty: (1) When the original tread is worn smooth have the tire **retreaded by a reputable dealer or tire rebuilder**. This is done by vulcanizing a new strip of rubber around the outer periphery of the casing. The Government, many commercial vehicle operators, and some private car owners have been doing this for years with nearly 7,000,000 tires being retreaded in 1940. Retread of a tire requires only about one-third as much rubber as a new tire. In many cases, such retreaded tires give up to 85 per cent as much mileage as new ones. (2) Every vehicle operator should, furthermore, do his share in conserving rubber by making sure that his tires are properly inflated, by avoiding quick starts and stops and by avoiding injury to his tires through bumping of curbs or other obstructions.

Some Swishing!

Rocketing from Denver to New York, a distance of 1800 miles, in 4 hours 43 minutes, Capt. James Philpott swished through the air at 6 1/3 miles a minute. He flew a P-34 pursuit interceptor plane.

Christmas Anyway

With the approach of another Christmas, Britons recall last year's celebrations when they observed the holiday underground where they could be safe from Nazi bombers. Mothers and their children gathered in shelters like the one above to celebrate the Christmas season. Last year hostilities were ceased for three days during the Christmas observance.

THAT'S HE

I know a fat reddish face bloke,
And I tell you this tale is no joke
He comes once a year
And is supposed to bring cheer—
But when he's gone I'm invariably broke.

Men in Army, Navy Await Yule Season

For men in the army and navy the Christmas holidays are gala days. Army furlough privileges permit many men to visit their homes while active field training is suspended. Railroads last year cut their rates drastically for the men in uniforms, and it is expected the same will hold true this Christmas season.

For those who remain in the camps special Christmas dinners, religious services and holiday festivities will be arranged. The same arrangement will be made for men in the fleet, few of whom will be able to spend the holidays at home.

THEY WANT TO FIGHT—Long lines formed before recruting offices for all branches of the service, as word of Japan's attack flashed through the nation. Bostonians flock to the colors at the Naval Recruiting Station, and the scene was repeated in every city.

Industry on the March

"American lives have been lost in bombings; ships sunk; planes destroyed. These lives will be avenged through uninterrupted production on the factory front. The munitions of war can and will be replaced."

In those words Walter D. Fuller, President, and William P. Witherow, President-elect of the National Association of Manufacturers, pledged America's industrial might to our country's fight for freedom.

"Industry will build two battleships for every one that sinks.

"It will match every bomb with a dozen.

"It will blacken the skies with planes to replace the ones shot down.

"Industry's production to arm our fighting forces will be limited only by the human endurance of the men who man and manage its facilities.

"We Americans have not always seen eye to eye among ourselves. But, as always, aggression from without fuses our family differences in unity of purpose. The enemies of our democratic way will find us one unbreakable phalanx in which class, creed and petty politics are forgotten.

"With every other patriotic element in the country, industry is on the march! It will produce, produce, and produce to the end that victory shall be swift and sure."

* * * * * * * * * *

Freedom is an American Word

What are these freedoms that we Americans are determined to defend at all cost, against any aggressor?

Little things, mostly—all the little things we do and want to keep on doing. Freedom is our right to speak our mind. It's reading what we want; going to church—any church—or not going to church, as our choice may be. It's working for whom we want, on the terms we want. It's spending or saving; putting savings into a small business and seeing it grow; running that business as we want. It's all the friendly little "howdy's" along life's pathway, to whom we please and as we please without kowtowing to any one.

These and a hundred and one things of daily individual choice make up the precious quality of personal liberty—the liberty that all loyal Americans today refuse to yield.

* * * * * * * * * *

Success Stories

The America we're defending today is still the land of opportunity. Scarcely a day goes past without some additional proof of the fact that no matter what we do, everyone of us has plenty of chances to do it better—and to better ourseves in doing it. Recent news stories have brought to light several cases that prove the truth of that.

One man in a large manufacturing firm had the job of installing and caring for machine belts—a task that would seem to have little opportunity to contribute to industrial progress. Yet he developed a method of treating cotton belts that makes them last several times longer than leather belts, even though they cost less to make, and he received a large bonus for doing it.

Another man perfected a way to stop leakage of oil from tank car valves. A shop superintendent in a third firm, working with machine tools that junk dealers had previously refused to buy, finished a large Government order for gun mounts two and a half days ahead of schedule.

And there are many other similar examples. In all of them one fact stands out: these improvements were made by average American employees with a practical turn of mind and a determination to make the most of their jobs. To anyone who claims that there is no chance for him today, that no opportunities exist, such stories supply the proper answer.

There's a Great Day Coming!

Commenting on a recent story in the Ochiltree County Herald anent the ever increasing use of farm products in manufacture of plastic automobile bodies, wool, glycerins, dry ice, building boards, paint, enamel, linoleum, etc., Dr. J. J. Taylor breaks forth in his "State Press" column in the Dallas News with the following observations about what the man for whom Ochiltree county was or was not named would think about that future era when manufacturers will look to the farms for much of their raw materials.

"Wouldn't it have been something to think about for the man for whom Ochiltree County wasn't named? It wasn't named for Tom Ochiltree, although he was much in the public prints when there wasn't much to print. Tom Ochiltree was a wit and a publicity seeker, although a Republican, when Republicans were scarce in Texas. He would have been good on the radio if the radio had been ready for him, which it wasn't forty years ago. Ochiltree County was named, not for Tom, but for W. B. Ochiltree, an Attorney General when Texas was a republic. Maybe Tom was of the same family. This column, being a poor hand at composing family trees for the Ochiltrees, just doesn't know. Anyhow, when the farms shall become the source materials for much of our manufacture it will be a glad day for agriculture. Heretofore farmers haven't been able to offer much competition to miners, foresters, steel makers and shepherds. When we start making nearly everything out of farm crops, the farmers will ride in limousines and wear long-tailed coats, while the rest of us will stand around and gape at their grandeur."

SINGAPORE—British stronghold, will furnish base for American ships, and is in the thick of the fight against Japan.

Picking Pansies

Snowballs are usually associated with December, but Frederick Meining, 6, of Wyomissing, Pa., picks pansies instead on the grounds of the Reading Public Museum, during the recent unusual warm spell.

Red Cross Room Notes

The Red Cross rooom will be closed all next week in observance of the Christmas holidays. If you need work to do at home during this time be sure and make arrangements for your materials this week.

A food sale will be held Saturday, and if possible all ladies are asked to have thier items of donation there by one o'clock. Dressed chickens, fresh country eggs, butter, fruit cakes, pies, home-made pickles and jelly are some of the items promised. Your help is needed and will be appreciated, Mrs. Mark Boehning is in charge of the sale.

The Cedar Bluff community are to commended for their fine spirit of cooperation. County Council Of H. D. Clubs Have Christmas Lunch

The Ochiltree County Council of Home Demonstration clubs held its annual Christmas luncheon, Saturday, December 13, 12:30 o'clock, in the Hotel Perryton.

Guests for the occasion were council members who served during 1941 and the new members for 1942. Mrs. Flathers, Mrs. Sharpe and Mrs. McGarraugh had charge of the decorations. The tables were centered with groupings of white tapers banked with spruce, holly, mistletoe and pine cones. The place card program were decorated with hand painted holly sprigs. Corsages of holly and spruce were placed at each plate.

Mrs. Tandy, council vice chairman, was mistress of ceremonies. Mrs. Slaughter, program chairman, presented the following numbers: vocal trio, "It Came Upon A Midnight Clear," Ann Herndon, Marcelia Frittz and Arline Truax; reading, "The Day After Christmas," Mrs. Jim Davis; accordian solo, "Silent Night," Rubye Ann Patton; "Our Responsibility for 1942 as Club Members," Mrs. Curtis O. Roach; "Christmas Medley," Mrs. Fred Tarbox.

Council officers of the new and old year were introduced. Mrs. C. U. Pope, year book chairman, presented the year books which she and her committee had planned for 1942.

Those present were Mrs. Marvin Groves, Mrs. Pete Wermske, Mrs. Jim Davis, Mrs. Dan Manning, Waka club; Mrs. W. E. Tandy, Mrs. Errol Flathers, Notla; Mrs. Fred Tarbox, Mrs. Hollis Gossett, McMillen; Mrs. Dolph Daniels, Mrs. E. D. Clement, Mrs. C. U. Pope, Black; Mrs. J. S. The guests included Eleanor Witt, Tommy Jean Weldon, Barbara Pletcher, Jeanine Seymour, Coleen Milledge, Arline Red, Patsy Adams, Billie Ball, G. C. Carter, R. W. Taylor, Lloyd D. Slaughter, Harold Williams, Doyle Robinson, Max Replogle, Buddy Dillingham and LaVerne Hoy.

Sorosis Club Aid in Defense

The Sorosis club announced in last weeks paper plans for the collecting of old newspapers and magazines. Upon investigation it was found this work had been begun by the Boy Scout and F. F. A. organizations, so the Sorosis gave way to them.

The club recently purchased a $25 defense bond and have sent a contribution to a maturnity home in London. They are now making plans to sponsor a Home Nursing Course. Definite plans will be announced soon.

The W. F. Taylors Celebrate Golden Wedding on Wed.

Mr. and Mrs. W. F. Taylor, residents of this county for the past forty-two years, celebrated their golden wedding anniversary on Wednesday, December 17, and were happy to have all their children home for the day.

At noon a bountiful turkey dinner was enjoyed, in the afternoon many friends called to pay their respects to the happy couple. Miss Helen Short of Ruthledge, Mo., became the bride of W. F. Taylor at Bowie, Texas on December 17, 1891. They made their home on his ranch near LeFores for eight years before coming to Ochiltree County.

The Taylors have five children, eleven grandchildren and two great-grandchildren. All were present Wednesday with the exception of a granddaughter, Mrs. Carson L. Tank and her son, Richard of Detroit, Mich.

Relatives fortunate to be present for this celebration were Mr. and Mrs. W. C. Cotner, a daughter, and their children, Wilbur and Pauline of Notla and Mr. and Mrs. W. G. Dunn and son, Billy of Canadian; Mr. and Mrs. Will D. Taylor of Hollywood, Calif., a son; Mr. and Mrs. M. R. Merdith, a daughter and Betty Ruth of Higgins; Mr. and Mrs. Reece Taylor, a son, and children, Laura Frances, Reece Jr., John, and Gary of Perryton; Mr. and Mrs. Otis Kizziar, a daughter, Carmen and Nellie Kay of Spearman; Mr. and Mrs. J. W. Short, brother of Mrs. Taylor; and Mr. and Mrs. A. W. Henry, a niece of Mrs. Taylor, and their children, Patsy and Jim.

Protein Vital In U. S. Health Defense Effort

An army of nutrition workers, scientists, physicians and others in the public health field are engaged in an all-out health defense effort to conquer malnutrition, now recognized as America's No. 1 health problem.

In this program to make America strong by making Americans stronger, feeding the family is the homemaker's most important task. It is a task made easier by a knowledge of good nutrition and of the factors necessary in an adequate diet.

Value of Protein

Among the diet factors, protein ranks first as a body-builder. About 18 per cent of the human body consists of protein. No life exists without it. Protein is necessary for building and repairing body tissues. It furnishes energy and it also enters into the structure of certain hormones which have a specific action on vigor and general efficiency.

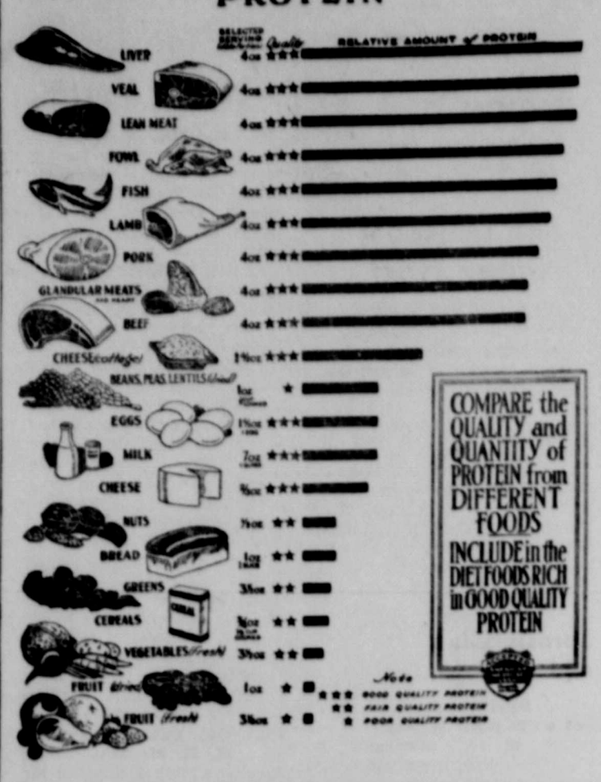

The word, "protein" was coined in 1838 by Mulder, a Dutch chemist, from the Greek word, "proteois," meaning "in first place." Proteins differ greatly because they are made up of various amino acids known as "building stones." When protein is digested these amino acids are set free and are reconstructed to fit the needs of each body cell.

A plentiful protein supply is imperative for good health. Persons subsisting on low-protein diets show slowness in mental reaction, lowered resistance to disease and other ill effects. Authorities recommend about ½ gram or preferably 2/3 gram per pound of body weight as the daily protein requirement. Thus a man weighing 155 pounds requires about 100 grams of protein daily—about 3.5 ounces. Children require two to three times as much protein per unit of body weight as adults.

Protein in Reducing Diet

Contrary to former beliefs that high protein diets cause kidney disease, physicians now use such diets in treating kidney ailments. Dr. Leo K. Campbell, Rush Medical College, Chicago, has shown that on diets high in protein, over-weight persons lost 8 to 12 pounds monthly. He also proved the value of a high-protein diet for weight gaining.

Protein Content of Common Foods

Because they contain all necessary amino acids, proteins of animal origin—meat, milk, cheese and eggs—rank highest nutritionally and are called "complete" proteins. Half of the daily protein intake should be of animal origin. Glandular meats, such as liver and kidney, contain protein of exceptionally high value.

Sources of Protein

The accompanying chart, carrying the seal of acceptance of the Council on Foods and Nutrition of the American Medical Association, shows the relative amounts of protein furnished by different foods, based on average servings. Three stars opposite a food indicate that its protein is of high quality.

A sufficient daily protein supply of animal origin is furnished by 2 servings of meat, or by 1 serving of meat, 2 glasses of milk and 2 eggs. The additional protein needed in the diet may be obtained from more of these foods and from cereals, legumes, etc.

"Is the Universe, Including Man, Evolved by Atomic Force?" is the subject of the Lesson-Sermon which will be read in all Churches of Christ, Scientist, on Sunday, December 21.
The Golden Text is: "God hath spoken once; twice have I heard this; that power belongeth unto God" (Psalms 62:11).
Among the citations which comprise the Lesson Sermon is the following from the Bible: "In the beginning God created the heaven and the earth . . . . And God saw every thing that he had made, and, behold, it was very good" (Genesis 1:1, 31).
The Lesson-Sermon also includes the following passage from the Christian Science textbook, "Science and Health with Key to the Scriptures," Mary Baker Eddy: "The spiritual universe, including individual man, is a compound idea, reflecting the divine substance of Spirit" (page 468).

Women Make Good Mechanics

Passed by Censor.

MANY thousands of Canadian women are engaged in the production of the munitions of war in plants scattered throughout the Dominion. They have proved themselves to be careful, quick, intelligent workers and they have won high praise from industrialists for their skill and devotion to duty. They have made their worth felt in airplane and small arms manufacturing particularly. Two pictures of typical Canadian women in industry are shown here. On the left is one of the many girls who are building the cabins of Bolingbroke bombers, and on the right is a scene in the Bren Gun plant where nearly thousand women are employed.

Army Drill, Co-Ed Style

In an artillery camp "Somewhere in England," the first mixed army unit of men and women in British history is now in training to repel the long-delayed German invasion. Women already have proven themselves highly efficient in operating anti-aircraft predictors and other complicated military apparatus, but this is the first time they are actually marching and drilling with their men as part of the regular Army.

SUNDAY SCHOOL LESSON

Christmas Story Assumes Added Significance Now

International Uniform Sunday School Lesson for Dec. 21
Text: Isaiah 9:6, 7; John 1: 1-4, 10-14; I John 4:9-11.

* * *

THE Christmas story never grows old. We have read it again and again, but we read it ever with new interest and with new thrills.

Here in our lesson we have the story in its varied aspects. We have, first of all, the prophetic hope voiced by the prophet Isaiah. The very names in which Isaiah expresses that hope are enough to stimulate human interest.

Isaiah listed these names centuries before the birth of Jesus, yet how aptly and truly they pertain to the life of Him, whose birth as a babe we celebrate! "His name shall be called Wonderful, Counsellor, Mighty God, Everlasting Father, Prince of Peace."

How clearly did Isaiah see the details of that Messianic kingdom? How definitely was it fixed in his mind as a historic event? We cannot know but we do know, after Jesus has come into the world, how gloriously that prophecy was fulfilled. Possibly Isaiah foresaw Jesus as an earthly ruler.

From the prophecy of Isaiah we turn to the words written, after the life of Jesus on earth, by John in his Gospel. Here is an interpretation of the meaning and significance of the divine life in human form, of the Word made flesh, of the Son of God who came to mingle with men to share their sorrows, and to die for their sins.

And then comes the final word of the lesson in St. John's Epistle, which reveals all this as the expression of God's love. This is the heart of the Gospel. This is the meaning of the Gospel story. And as Jesus brought heaven to earth and God to man, so John tells us we must incarnate that love of God in our lives toward fellowmen.

Decorate Yule Tree To Fit Your Taste

Before trimming your Christmas tree this December, study the following ideas and decide which yours will be. The six Christmas trees described below, are trimmed in amazingly new and different ways.

The "Coronado" is typically southwestern. A tree trimmed in cowboys and cactus . . . Indian relics and dazzling yellow lights.

"Colonial" is early American in every detail, trimmed with miniature wooden churns, log cabins, candle sticks, Indians, turkeys and colonial dolls. Green colored lights and silver tinsel complete the color interest.

The "Student" does everything but say "Rah, rah." Various colored lights shine on gaudy trimmings and erasures, crayons, pencils and slates for classroom touch.

The "Maritime" is nautically trimmed with clipperships, anchors, sloops and buoys. Blue lights gleam through clouds of angel hair.

"Victorian" is brilliant with white lights and tinseled branches and is decorated all over with unique ornaments of every shape, size and color.

The "Canine" is an amusing idea to please the canine member of the family. Decorated with bones, dog toys, fire plugs, dog biscuits, and vari-colored lights . . . a real "fun" tree.

Bayberries Contain Good Candle Wax

rowing in the sandy soil from aska to Florida is a shrub known the Bayberry. The branches are kly beset with gray, wax-giving ries. In early Colonial days ani-l fats were rather scarce, so that children gathered these berries making candles. Today, the light-of Bayberry candles on Christ-mas eve is a custom the country over.

These candles are more brittle and less greasy than those made from tallow. They are translucent green, and when the flame is extinguished, the resulting odor is as sweet and pungent as incense.

In the event that some may want to make their own candles, here are directions:

Cover the berries with water and boil for an hour. The oil comes to the top but it is often soiled with leaves and small twigs, so it should be strained through a cloth. When this wax becomes cold, it will form a cake at the top of the water. It should be heated again, preparatory to molding the candles. If you have candle molds you will, of course, use them, if not, you may fasten several wicks to a piece of wood, which can be dipped into the hot wax, using a tall container of small diameter. Each coat should chill and become hard before dipping again, and the dipping should continue until the desired diameter is obtained.

Celebrations Mark Christmas in China

In China the Christmas festival among Christians is known as Sheng Dan Jieh, the Holy Birth festival. This celebration has gradually penetrated inland.

Various paper decorations and evergreens adorn the churches and homes. Paper chains are made of green, red, yellow and blue and are suspended in interlocking festoons from the ceiling. On the white walls, large posters are hung. On them are elaborate characters meaning peace and joy.

No candles are used, but the trees are decorated with paper flowers, colored paper chains and cotton snowflakes.

There is usually an early service. The church is kept dark except for lanterns carried by the worshipers. Carolers wend their way along the road before dawn, singing the Chinese words to such melodies as "Hark, the Herald Angels Sing." The service consists of reading the Christmas message from the Bible, music, dramatization of the manger scene, and an offering for the poor.

Gifts are distributed to the children. The packages contain such things as tangerines, peanuts, pretty picture cards (sometimes used cards sent from America), candy and western lead pencils.

Christmas Watched History in Making

Almost throughout the world, people are looking forward to a merry Christmas. This day, so significant to us, has seen great events occur in the history of the world.

Following is a list of important events which occurred on Christmas day:

DECEMBER 25

Year	Event
800	Charlemagne, French king, crowned at Rome, Emperor of the West.
1066	William the Conqueror crowned at London.
1642	Sir Isaac Newton born. He discovered the law of gravity.
1776	Washington crossed the Delaware to attack Trenton.
1777	Vermont declared its independence from England.
1821	Clara Harlowe Barton born. She founded the American Red Cross in 1881.
1837	Gen. Zachary Taylor defeated the Seminole Indians in Florida.
1840	Peter Tschaikowsky born. Famous Russian composer.
1868	Unconditional pardon and amnesty proclaimed by the President to all inhabitants in Southern states.

YOUNG MEN AND WOMEN of many nations met in bomb-torn London recently for an International Youth Rally, at which groups of singers from the United States, China, Britain, Poland, Belgium, Norway, Holland, Russia and other nations discussed the problems which war and conquest had brought to their peoples and reaffirmed their faith in the ideals of democracy. Many of the participants, girls as well as boys, showed up in uniform, thus testifying to the condition to which the world has been brought by wanton fascist aggression. Shown in this photo between two tall British guardsmen are: a French girl serving in the French Ambulance Corps, a Jugoslav girl, a young French sailor now fighting in the Free French Navy of General de Gaulle, a Chinese student, a boy from India, and an Austrian refugee girl—all out for a cheerful stroll past world-famous Albert Hall, where the rally was held.

Jeers Change to Cheers in Quarter Century Crusade

TWENTY-FIVE years ago this month, the news featured plans for a New York to Chicago test plane flight. The cost of living was reported mounting beyond the rise in wages. In Mexico, a campaign was being planned to stamp out Villa. In Brooklyn, New York, the first birth control clinic in the United States was opened in two rented rooms, and prominent figures were voicing their approval of votes for women.

Plane service has expanded until it no longer is an experiment; women have their vote; and birth control has progressed to the point where it no longer is an idea, but

Mrs. Sanger as she is today

BRAVING JEERS OF HOODLUMS, Mrs. Margaret Sanger is pictured as she left courtroom just 25 years ago during her famous trial for operating a "public nuisance." Undaunted, she continued fighting, and years later—for the very same activities—received the American Women's Association medal of honor. The citation read in part: "She has opened the doors of knowledge, and thereby given light, freedom, and happiness to thousands caught in the tragic meshes of ignorance . . ."

a vast social movement which has brightened the lives of thousands of American families.

The lone Brooklyn clinic was raided and closed by police nine days after it opened, and courageous Mrs. Margaret Sanger arrested and sentenced to serve 30 days in jail. But from that tempestuous beginning, the Planned Parenthood movement has steadily marched ahead—with Mrs. Sanger as its standard-bearer, until today there are 625 clinics throughout the United States. In 1940 alone 46,582 women, who could not afford their own doctor, received medical information from competent physicians in 202 of these centers.

The Birth Control Federation of America is now marking its twenty-fifth anniversary, not by pausing to look back over a turbulent quarter century of accomplishment, but to prepare for the fight which still lies ahead.

There are now 625 clinics throughout the United States, 192 of them in public health centers. Birth control is now part of the public health programs in North and South Carolina and Alabama.

D. Kenneth Rose, national director of the Birth Control Federation of America, stated:

"This seems a particularly appropriate occasion to challenge recent attacks, both upon the birth control movement and upon our civil liberties. Today, with the nation facing a world crisis upon which the future of American liberties depends, public attention is being diverted from threats to civil liberties which are now occurring. Opponents of progressive movements, such as the birth control movement, now are emboldened to strike. The issue today is broader than birth control. It reaches to the roots of the American way of living, and birth control is only a symbol of a fight to protect those roots."

Backed by doctors, clergymen, educators, scientists, business men, leaders in social welfare, prominent women and the public—such men and women as Rev. Harry Emerson Fosdick, Rev. John Haynes Holmes, Mrs. Newton D. Baker, Mrs. Dwight W. Morrow, Ernest M. Hopkins, Thomas S. Lamont, Albert D. Lasker, Louis Bromfield, Hendrik Willem Van Loon and others—planned parenthood, through birth control, moves forward to its next quarter century.

Christmas Carols

Each holiday season the familiar words of the tuneful Christmas Carol ring out all over the country. The origin of these songs is both interesting and colorful. While some of them were composed here in America, others were written and set to music in other parts of the world. Below, with illustrations, and a brief history of origin are presented some of the better known of these songs.

O LITTLE TOWN—

O little town of Bethlehem,
How still we see thee lie;
Above thy deep and dreamless sleep
The silent stars go by . . .

• These words were written in 1868 by Phillips Brooks, young rector of Philadelphia, after a visit to Palestine. His church organist, Lewis Redner, wrote the melody. It came to him "in a dream" on Christmas Eve.

I HEARD THE BELLS—

I heard the bells on Christmas Day
Their old familiar carols play,
And wild and sweet the words repeat
Of peace on earth, good will to men.

• When Henry Wadsworth Longfellow wrote the words to this song, the United States was experiencing its second year of the Civil war. The words, "peace on earth," gave expression to the hope of millions.

IT CAME UPON THE MIDNIGHT—

It came upon the midnight clear,
That glorious song of old —
From Angels bending near the earth,
To touch their harps of gold.

• Here is another beloved carol which was composed in America. The words were written in December, 1849, by Rev. Edmund Sears. It was sung to an old hymn-tune until its present melody was composed by Richard Willis in 1851.

O COME, ALL YE FAITHFUL —

O come, all ye faithful
Joyful and triumphant,
O come ye,
O come ye to Bethlehem.

• Origin of this hymn is controversial. When introduced in England about 1800 it was known as the "Portuguese Hymn." Its lines do not rhyme because they were translated from the Latin.

THE FIRST NOEL—

The first Noel the angels did say
Was to certain poor shepherds in fields as they lay,
In fields where they lay keeping their sheep
On a cold winter's night that was so deep.

• This is a true folk-song, claimed by both France and England. According to tradition, the verses are sung by the shepherds and the refrain by the angels.

Santa's Costume

Here is an inexpensive way to make Santa's costume. Make the knee-length coat of an old night shirt cut down and dyed red, but if this is too much work, use a red mackinaw. Border it with priceless ermine consisting of white cotton flannel splotched at the proper intervals with ink or black shoe polish. Santa should wear red golf stockings and heavy boots, plus a stocking cap and bright mittens. Put a scarf about his neck. When he is done there is no need of a mask; his own mother would not know him under those beetling eyebrows.

List Suggests Gift Variety For Christmas

Christmas-giving becomes more fun and less of a chore each new Yuletide season. Time was when "what to give a woman" came under what man termed "a nerve-wracking" problem! That's all changed now.

To prove it, here's a list of Christmas gift suggestions for the fairer sex, compiled especially for husbands, brothers, fathers, sons, sweethearts.

If the lady-to-be-gifted is socially minded, she undoubtedly will appreciate a gift that will enhance her party clothes—an evening bag perhaps . . . a sparkling piece of costume jewelry . . . a pair of gloves . . . sheer hose, or perfume.

But perhaps she is a homemaker, busy from morn til night with the problems of a house and family. A stunning quilted robe for her few hours of relaxation . . . a pair of house slippers that are casual and colorful . . . a crystal salad set for luncheon entertaining . . . all these will be appreciated!

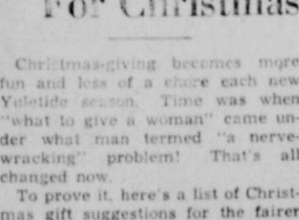

For the high school or college miss . . . a sweater in one of the new youthful pastel colors . . . a pair of mittens . . . a peasant kerchief to wear for sport or dress . . . a tiny compact for important dates . . . or one of the latest indoor games to bring her friends around.

For the invalid whose daily life is centered about her bed . . . a gay bed jacket . . . or a new china breakfast set with a tray, which, after meals, can serve as a comfortable prop for books and writing paper.

For the career lady in your family, you might buy hose that can't run . . . pigskin gloves for sports . . . a rhinestone star to wear in her hair . . . a manicure kit . . . or a pair of frilly slippers.

For the gray-haired lady in your house, a smart envelope handbag would "hit the spot."

BAD SYMPTOM

"Bob didn't call last night."

"He didn't! What's the matter?"

"I don't know whether he's sick or just dodging a Christmas present."

County Judges and Mayors to Direct Organization of State Fire Defense

Austin, Dec. 17—Texas Fire Insurance Commissioner, Marvin Hall, member of the National Defense committee for Texas and state coordinator for fire defense, announced measures for organization of the statewide fire defense organization.

This fire defense organization will be based upon official agencies. Specific plans will be made for the enrollment of citizens as volunteers in this service. Enlistment will be definite, and all those taken in this defense service will be assigned specific tasks.

Co-Ordinator Hall announces that under the state fire defense mobilization plan 26 districts are being created, each supervised by a district co-ordinator. All the district coordinators now have been designated, the state official announced, and are functioning.

Fitting into the entire state civilian protection defense program, definite responsibility is placed upon the fire department officials of cities in the local defense organizations. County judges are county coordinators for the entire program, outside city limits, and mayors are coordinators of all phases of the activity within the cities. Fire chiefs will serve as city, and in most cases, county fire defense co-ordinators.

For the fire defense program, Mr. Hall announced local volunteer offices will be organized; and the local and county coordinators will call for the enrollment of all citizens, who will be assigned their various tasks. From this source will come the men for fire defense work under the supervision of the local fire chiefs, as fire defense co-ordinators.

When separate fire defense activities are set up outside city limits, in some cases the city fire chiefs will be given responsibility for county-wide fire-defense co-ordination. In some cases, specific appointment will be made separate county fire defense co-ordinators.

The program thus fits into the entire state defense program through the governor, as state chairman, the fire insurance commissioner as state fire defense co-ordinator; 26 district fire defense co-ordinators; and the fire chiefs as city co-ordinators, and either the city fire chiefs or additional county co-ordinators for the rest of each county.

The local and county defense co-ordinators will, in general, organize, train and supervise all auxiliary firemen, rescue squads and fire-watchers, in line with prepared plans.

A seperate service, the air raid warden service, is under supervision of the police officers. It will work in cooperation with the fire defense service. The fire defense officials, at the request of the police coordinator, will carry out certain instructional work in fire defense and first aid, but otherwise the air raid warden service is in seprate hands.

State Co-Ordinator Hall stressed the need for the close cooperation of the fire department officials and the fire defense service with the police officials at all times.

Mr. Hall pointed out that while the fire defense set-up is extensive, it places specific duties and responsibilities on designated individuals; that these individuals are definately assigned their duties, and will be trained in them. It offers no opportunity for conflict of authority or responsibility, and no loop-hole for failure to perform the required duties he stressed.

State Co-Ordnator Hall said: "The fire departments are called upon to perform a task whch they are capable of meeting in this period of emergency. The citizens of Texas are requested to cooperate in this vitally important work which is before us now, and which must be accomplished without the loss of time.

"We have been asked to remain calm, and that all wild rumors be handled intelligently, so as not to create trouble. With utmost confidence we will, and must, uphold and defend the third line of defense of our country."

Ochiltree County is in District 1. Other counties in District 1 are Dallam, Sherman, Hansford, Lipscomb, Hartley, Moore, Hutchinson, Roberts, Hemphill, Oldham, Potter, Carson, Gray, Wheeler, Deaf Smith, Randall, Armstrong, Donley, Collingsworth, Parmer, Castro, Swisher and Briscoe.

Antituberculosis Seals Sold in Forty Nations

Besides the United States, more than 40 different countries throughout the world now have, or have had, Christmas seals or stamps that are sold wholly or partially for tuberculosis work. Little did Einar Holboell realize, when he conceived that first Danish Christmas seal, launched in 1904, that his simple idea would in a generation circle the globe.

Claiming the honor of having originated the Christmas seal sale, Denmark has, with its neighboring country, Sweden, held seal sales annually since 1904. In the United States, seal sales began in 1907.

Up to 1934, the sale of Christmas seals in the United States alone totaled $75,000,000, all of which has been devoted to the control of tuberculosis.

FSA Has Plan for Assisting in Purchase of Farm Machinery

With farm machinery becoming more difficult to purchase because of the defense program and in view of increased costs, farmers in Ochiltree county are being encouraged to consider the plan of joint purchase and ownership of equipment that has aided many small operators in this area, according to Arthur R. Turner, rural rehabilitation supervisor for the Farm Security Administration.

This plan, it was said, is in line with a suggestion made recently by Secretary of Agriculture Claude R. Wickard encouraging both the practice of custom work and the joint ownership of farm machinery to insure maximum use and efficient operation.

Under the Farm Security Administration's program of assisting farm families, community and cooperative service groups have been established and are operating successfully. Joint purchase and ownership of expensive machinery makes it possible for small operators to have the use of the labor-saving devices at a cost within the ability of the small farm unit to pay.

Mr. Turner said it has been estimated that farmers next year would buy, if it were available, 40 per cent more machinery than they purchased in 1940 and that is was probable only 90 per cent of the 1940 amount would be available because of the shortage of metals.

"This means farmers will have to get along with 50 per cent less machinery than they figure they'll need to carry out their operations in the Food for Freedom program, Mr. Turner said. "And that means we'll have to buy together and work together to get the maximum use out of what we have," he continued.

"By buying and using heavy equipment in groups, the supply would be sufficient to go around and enable us to meet the increased production goals."

Although farmers in Ochiltree County may not need new machinery until spring, the FSA supervisor said now is the time to plan to purchase.

"We don't konw what the future holds for us, but we have every reason to doubt that macninery will be less costly or as plentiful as it is at the present time," he said.

To help small farmers who cannot get adequate credit elsewhere, the Farm Security Administration of the United States Department of Agriculture, makes loans for necessary farm equipment and supplies. These loans are made only when farm and home plans show the equipment is needed and that the farm income will be sufficient to repay its cost over a period of from one to five years at five per cent interest. Where farm machinery needs are purchased and financed jointly by two or more farmers. The rate of interest is three per cent per annum. Frequently farms unable to carry the whole cost of a needed piece of equipment can support a share of the cost.

"In these cases, even when machinery is plentiful, it is more practical the equipment together, use the for two or more farmers to buy equipment jointly and spread the cost over all the farms," Mr. Turner said.

The supervisor mentioned several of these groups now operating in Ochiltree County.

To assist the small operator who will need additional equipment for the next season, Mr. Turner will be glad to discuss the FSA's plan for financing these purchases on a group basis. He suggests that interested farmers contact him soon at his office in the court house in Spearman, Texas.

filled that campaign pledge now and has been ordered to report for active duty.

Texas is proud of the record of its soldier-statesmen, of which Marvin Jones, who resigned a little over a year ago after 24 years of distinguished service as 18th District Congressman, was a World War No. 1 example. Marvin Jones resigned from his high position as United States Representative and enlisted in the army as a buck private.

Either in a spirit of prankness or downright thievery, dozens of bulbs from the Christmas lighting on Perryton streets have been removed. Regardless of the reason for the theft, it is nothing but plain stealing and the guilty culprits should be arrested and subjected to the same treatment as any other thief. There should be an open season the year 'round on "Smart Alecks" just as on other varmints.

Just a word asking people to refrain from racing their motors and honking their cars while in the vicinity of the Perryton Hospital. We do not believe that any person does this deliberately. Just remember that there are sick people in the hospital and that unnecessary noises only add to their discomfort.

Ochiltree county folks are responding most generously to the first appeal of the American Red Cross for War Relief Funds. All committeemen appointed by Chairman Dave Shanks are working hard but it will be impossible to see every single person, so if you are not contacted, bring or send your contribution to Judge Shanks at the courthouse or Miss Myrtle Conley at the Herald office.

Workers report that there are some that are just not financially able to give. There have been very few refusals from persons able to give. A complete list of all donors with amount of subscription will be published in the Herald next week.

The Herald "missed a bet" last week when we ran a picture received in one of our regular news picture services, not knowing that the two youths featured were former Ochiltree county boys. Depicted were Ed and Justin Motter, Santa Monica, Calif., students at UCLA.

The young men are nephews of Mrs. E. L. George. Their father, George Motter, a brother of Mrs. George, at one time farmed in the Missouri Avenue neighborhood. They moved to California eight years ago.

In the news feature, Ed, age 22 and sightless, is supported by his brother in a difficult hand balance. The sightless athlete is a letter man on the USLA gym team and participates in intercollegiate events. He lost his eyesight in two seperate accidents, losing an eye each time.

Robert Lee Bobbitt, member of the Texas State Highway Commission and chairman of Defense Roads Committee of the Western Association of State Highway officials, reports that all federal funds available to Texas and not under contract must be placed on military access roads or the strategic military highway network.

This means that counties like Ochiltree whose highways are not included in the above classification, will not be allowed federal funds for highway construction until the war is over. This will not apply to the work on Highway No. 117 as this contract was let before the emergency.

We just want to hand a bouquet to "The Perryton Playboys" that musical organization of prominent real honest to goodness farmers and stockmen who get a "kick" out of their side-line orchestra and they "dish out" real music.

Here's a bunch of fellows that are just about as civic minded a group of citizens as we have in the entire county. They are donating their services without charge for the big Red Cross dance at the Hotel Perryton on January 9. They also have sent in a check for $5.00 to the American Legion to help out on the Legion's Christmas Cheer program. You'll always find them ready and willing to assist with any worthwhile community movement.

The American Legion also acknowledges a $10 donation from Judge Geo. M. Perry for the Christmas baskets. The Legion is not making a direct solicitation for funds but volunteer subscriptions will be appreciated.

With two proud papas of first child on his force Gene Barnett has just about been out of help this week. W. H. McClung, father of a girl; and Dempsey Malaney, father of a boy, both born Sunday at the Perryton Hospital, have put in much of their time at the bakery arguing about the relative merits of the male and female. At last reports the argument was a draw with nobody losing but Gene.

Perryton Lions Attend Spearman Zone Meeting

Lions and their ladies from McLean, Pampa Borger and Perryton were guests of the Spearman club Monday evening at the Zone meeting. Arthur Teed, Pampa, is chairman of this Zone.

Irvin R. Buchanan, Ochiltree county district and county clerk and past president of the Perryton club, was toastmaster for the program which consisted of "acts" sponsored by each of the visiting clubs.

Contributions of the Perryton club were that popular junior trio, Arlene Truax, Pauline Cotner and Ann Herndon and Mary Frances Crowe in an original Americanism address.

Attending from Perryton in addition to those on the program were Mr. and Mrs. Irvin R. Buchanan, Mr. and Mrs. Oscar Flowers. Mr. and Mrs. J. S. Slaughter, Mr. and Mrs. A. P. McCelvey, Judge Dave Shanks, W. B. LaMaster, C. E. Woods, Sam Hergert, Rev. William E. Fisher and James F. Bray.

Junior Bright Writes His Grandmother Here

Preston Bright or Junior Bright, as he is known to his many friends in Perryton, has been in the United States navy for the past two years or more. While in Perryton, he made his home with his grandmother Mrs. J. B. Smith, who is just in receipt of a letter from Junior written December 11, at Coronado, Calif. He writes as follows:

"Dearest Grandmother:

"Will try to answer your letter. We are having a black-out and I am writing by candlelight. Guess you know we are having war with Japan, but I don't want you to worry about me for I am okay.

"Guess we won't come home as we had planned Christmas but hope to some day. I can't tell you much because of the censor. But don't worry about us. We are swell. Madeline says hello and don't worry. Answer soon.

As ever, your grandson

P. T. A. Presents RecordingMachine To the School

The Perryton Parent Teachers Association at its meeting Monday night, December 15, presented to the school a combination, radio, phonograph and recording machine. Mrs. Kenneth Crisp, president, was in charge of the meeting and program.

The speech class directed by Miss Verna Harris gave four choral readings during the program. Mrs. W. B. LaMaster spoke on "Not by Bread Alone." She stated that if we teach our children to have dynamic faith in God, dynamic faith in our fellowman and dynamic faith in ourselves, we will come out of these troubled days unharmed. Rev. G. S. Farmer, pastor First Christian church, closed with a Christmas benediction.

During the business session it was decided to have the faculty play, sponsored by the P. T. A., January 30. Otis Burk, finance chairman for the P. T. A., is in charge of arrangements.

with their blood and life.

"On and over six thousand miles of ocean, on the waves and in the jungles, under the sea and in the air, unafraid and undaunted, our boys are stationed . . . fighting, wounded, sick and dying . . . giving a full measure of the stuff it takes . . . blood and life . . . to get and keep liberty.

"Around the world, wherever our boys go, so goes the Red Cross to help the wounded, the sick, the dying American boys. If our boys go into India or Iceland, Japan or Java, Burma or Britain, Honolulu or Hong Kong, so goes the Red Cross.

"Our boys are fighting in Asia today . . . perhaps in Africa or Europe tomorrow, but wherever they go, in whatever country or clime, so goes the Red Cross . . . aiding the sick, the suffering and the dying American defenders.

"Will you help the Red Cross? What are you going to do, Americans?

"Let no unit of the Red Cross be hampered for want of money to go with our boys to the ends of the earth to aid and care for the game American boys that fall wounded fighting for all of us!

Wes Izzard is Main Speaker C. of C. Meet

With Wes Issard, Amarillo News-Globe newsman and KGNC comentator, as the main speaker, the annual membership banquet of the Perryton Chamber of Commerce was one of the most successful in the history of the organization. It was held last Friday evening at the Hotel Perryton.

Coming shortly after the start of the war with the Axis powers, Mr. Izzard, an astounding authority and student of world affairs, took as his subject the entrance of the United States into the world conflice. After a very enlightening discussion of the war situation as he saw it, Mr. Izzard turned the meeting into a question and answer period which held the attention of the large crowd for over 60 minutes.

M. W. Truax, Ochiltree county farmer-stockman, presided as master of ceremonies. Following the group singing of "America" led by Glen A. Truax with Mrs. Truax at the piano, J. E. Mullins, pastor of the Perryton Church of Christ, pronounced the invocation.

The Misses Betty Jean Hill and Barbara Jean Daily accompanied by Mrs. F. J. Dailey at the piano, all of Spearman, rendered two violin duets that added much to the occasion.

J. H. Stephenson Jr., retiring president of the chamber, presented the other retiring officers and directors, W. B. Reid and H. C. Sanford. He then introduced the new chamber president, Aldon Bell, who presented the following fellow board members for 1942: R. T. Shindler, vice-president; directors: Louis Bryan, W. E. Castle, Harold Hawk, John Sammons and L. D. Stinson.

The guest speaker was introduced by W. B. LaMaster. After Mr. Izzard's address, the program closed with the group singing the national anthem.

District Court and respectfully submits this the final report of such body for the term.

We have carefully examined into such matters coming to our attention which we deemed to be within the preview of our duties as grand jurors. We have, during the term, been in session for a period of approximately three days and have returned into court five indictments charging an offense of the grade of a felony. Other matters have been investigated by us, but no definite action under the circumstances was taken at this time.

We, the Grand Jury, have investigated the operation of the Pool Halls in Perryton and find that they are operating said Pool Halls in violation of the laws as prescribed by the Statutes, and hereby recommend that such action be taken by the proper officials to see that the operation of said Pool Halls are discontinued.

WHEREFORE, having completed our labors as such body at this time we respectfully request that we be allowed to adjourn finally for the term.

Respectfully submitted,
J. H. Callihan,
Foreman of the Grand Jury

Flyers Must Renew Certificates

Perryton's two flying clubs are grounded until they are able to present satisfactory evidence of their citizenship and loyalty to America. The following CAA order concerning all private licenses were sent to Frank Shaw, manager of the Texhoma Flying Service:

"Reference order grounding all pilots except scheduled aircarriers. You are hereby designated CAA representative to reinstate Pilot Certificates upon personal appearance of pilot and only after he presents satisfactory evidence of citizenship and loyalty and positive identification. Proof of citizenship shall consist of birth certificate or final naturalization papers or affidavits as to date and place of birth by substantial citizens.

"Positive identification may be obtained by personal acquaintance of long standing or other evidence which is conclusive of identification beyond reasonable doubt. When reinstating certificates advise pilot certificate will be valid only when certificate is accompanied by positive proof of identification. If there is any doubt whatever as to compliance with these requirements, reinstatement should be refused."

All local pilots should get their data and contact the secretaries of the Perryton flying club to find out when and where to report for reinstatement of their pilot certificates.
