IN THE NEWS the other day was a report on the arrest of two men with what was described as a half-ton of quaaludes, a drug I never heard of, but one which is obviously illegal.

The story went on to say that after the two men were nabbed, drug agents went on their boat and found 1,000 pills packed in boxes, and worth, they said, about \$2 million.

What gets me is the reference to a half-ton of drugs and 1,000 pills. If 1,000 pills weigh a half ton, the pills must weigh a pound each. Anyone who would try to swallow a pill that big must have a serious addiction problem.

The story also commented that the drugs are depressants. I can't imagine anyone needing a depressant, anyway. Just reading the daily news or watching television surely is depressing enough.

LOOKING through Sunday's Landslide-Diary I discovered a lot of material about politics, violence, differences in Christian beliefs, finances, sports, weddings, and such. But possibly the most interesting story I read had to do with the sex life of alligators.

According to this Florida curator of reptiles at some museum, he and a bunch of other volunteers have been getting their kicks from spying on male and female alligators. Apparently they haven't learned much, except for a few basic rules of alligator society.

He says male alligators start each April on a series of tests of strength in the water to establish a social ranking. While they do this, he says, the females sun themselves on the banks. This all sounds terribly familiar.

Pretty soon the females slide off into the water and join the males, but it's hard to learn much after that, since they're 'way out there in the water and the last scientist who waded out neck-deep to see what was going on has not yet reported back.

Voting List Funds Cited

State Comptroller Bob Bullock said Texas counties were paid \$627,542 in state funds under a new law designed to encourage voter registration and accurate voting lists.

Lynn County received \$224,80.

He said 219 counties shared in the funds which represent reimbursement for county voter registration efforts.

The Texas Election Code permits the Comptroller to pay counties 40 cents for each new registered voter and 40 cents for each cancellation made to update lists.

Bullock said the payments were made to help reimburse registration activities from Feb. 1, 1980 through Jan. 31, 1981.

Class of 1971 Meeting Set

The class of 1971 of Tahoka High School will have a meeting to begin planning the 10 year class reunion. The meeting will be at 7:30 June 9, at the home of Mr. and Mrs. Randy Erickson, 1814 North 8th.

All class members are urged to attend.

Cotton Seminar Set May 28

There will be a seminar on "Hedging Cotton" to be held in the Peka-Lambro meeting room at 7:30 p.m. Thursday (today) May 28.

Jim Clary of Conti Commodities will teach the class.

SHE'S RETIRING—Mrs. Lennie Cox, teacher in the Tahoka School system for 25 years, is congratulated by Supt. Jim Coulston on her retirement. Most recently a junior high English teacher, she plans to spend more time with her granddaughter and in travel, having already visited 41 states, Mexico and Europe and taken a Mediterranean cruise. She plans to go to Australia and New Zealand in the fall. (LYNN COUNTY NEWS PHOTO)

County Reviews 1980 Finances

Almost halfway through the year and with tax collections from last winter running at about 86 per cent of what was billed out, Lynn County still could wind up this year slightly in the black, county officials indicated this week.

Judge Melvin Burks offered such a cautious comment as the commissioners heard auditors go over the fiscal report for the previous year ending in December 1980.

Buster Abbe and Joe Hays of the CPA firm of Thomas, Love, Hays & Schaffner presented the audit report which showed that the county had a year's total in all funds of \$981,094.91 and disbursements of \$883,818.69, with other funds committed at the end of the year, when there was a book balance of \$57,430.

It was noted that actually all of the money collected from tax notices sent out last fall was supposed to be used on this year's budget, but that much of it had to be used last year.

Judge Burks observed that unusual expenses last year included more than \$20,000 in getting the new property valuations, more than \$8,000 in legal fees related to a lawsuit against the county and a payoff of a \$50,000 note previously borrowed to meet expenses.

Abbe lamented the fact that the county has no inventory of equipment owned, either in machinery or other

physical property in the offices, equipment owned and all other property owned by the county needs to be tagged and recorded, and indicated that some kind of inventory system will be considered.

After the discussion, the commissioners voted to accept the audit report.

At Tuesday's meeting, the commission also voted to seek bids from local insurance agents on insurance of county vehicles and accepted the resignation of Glenda Krause as dispatcher at the sheriff's office, with Donna Gail Whitley approved as new dispatcher.

All commissioners were present.

Local Scouts Given Awards

Along with presentation of the charter for Boy Scout Troop 721 to the Rotary Club last Thursday noon, local scout leaders were given special honors.

E. B. Gaither, who has worked with local Scouts in various capacities for 40 years, was presented a pin and a plaque from the South Plains Area Council.

Rush Dudgeon, a scout member and worker since youth, was also recognized. Both Dudgeon and Gaither hold the Silver Beaver

Attack On Police Chief Charged

An 18-year-old former Tahoka High School football star was charged with aggravated assault on a police officer after an altercation here Saturday night sent Police Chief Jack Miller to Lynn County Hospital for treatment of eye and face injuries.

Felony charges presented to Justice of the Peace Ed Hamilton named Tracy White, an All-South Plains running back last season, as the person who allegedly struck Miller when the chief was called to an east side

spot Saturday to investigate a report of fighting involving two or three persons.

Hamilton set bond at \$5,000 on the charge, and White was released from jail Monday after posting bond. The case is being investigated by the Lynn County Sheriff's Dept. and is scheduled to be presented to the next district grand jury.

Six bicycles were reported stolen during the week in the city, a pickup was stolen and later found, and three vehicle accidents were investigated. Bicycle thefts were reported

by Fred Martin, 2500 N. 3rd, Emily Jordan, three bikes stolen from 2025 N. 6th; Gerald Huffaker and Jim Solomon, both of whom live in the 2500-block of N. 1st.

Melvin Edwards reported a pickup stolen and it later was recovered in San Antonio.

Arrested in San Antonio as the 1972 Chevrolet pickup was recovered was Teodoro Lopez.

Parked cars were involved in two minor collisions. On N. 8th Wednesday a car

driven by L.F. Williams struck a parked car owned by Taylor Knight. And at S. 1st and Ave. J Tuesday a parked 1979 Pontiac owned by Ruth Brashear of Tahoka was struck by a 1968 Mercury driven by Mrs. J.L. Hyde of Wilson.

A third wreck at 1:40 a.m. Saturday on U.S. 87 east access road south of U.S. 380 resulted in heavier damage to both cars, a 1979 Chevrolet driven by Daniel Garcia and a 1976 Pontiac driven by Terry Botkin. Both drivers are of Tahoka.

During the week city police arrested one 18-year-old for disorderly conduct, and the Tahoka youth later paid a fine of \$126 in city court. Also fined in the city court of Judge Mel Leslie were one person for public intoxication, fined \$51, and two young men who paid fines of \$28.50 each for drag racing.

A neighbor of Allen Lester, 3 1/2 miles from Wilson, Monday attempted to apprehend two men who were burglarizing the Lester home and was roughed up somewhat as the two jumped him after he had halted them with a pistol.

After they got the gun, they fled, but his description led to the arrest Tuesday of Robert Vasquez Parra, 40, of Lubbock, by Lubbock Police. Lynn Sheriff's Dept. reported the other suspect was being sought. Parra posted \$5,000 bond on a burglary charge.

The sheriff's office also was investigating damage to about a dozen mailboxes and some concrete stands in the area of the Lakeview Community.

In jail other than those mentioned earlier were four for public intoxication.

RECEIVE PINS—These Tahoka school employees received pins at a luncheon Monday for 10-25 years of service to the schools. From left are Mrs. Lennie Cox, Barbara Jaquess, Jeannette Harvick, Ann Adams, Dicie Newsom and Mozelle Smith. (LYNN COUNTY NEWS PHOTO)

Memorial Services Set

Dinner on the ground at the Mini-Park followed by memorial services at the Tahoka Cemetery are planned Sunday at noon following church services.

Everyone is asked to bring lunches to the park, where ice cream and soft drinks also will be available, according to the sponsoring Cemetery Assn. At 2:30 the activities will move to the cemetery for a memorial service at which Donald Dawes, minister of Tahoka Church of Christ, will speak.

Rev. Newton Starnes Retiring Next Week

Rev. Newton Starnes, pastor of Tahoka First United Methodist Church for the last four years, is retiring and will preach his last regular sermons in the Tahoka church Sunday.

A special covered dish luncheon will be served by Faith Circle of the church following the morning wor-

ship service Sunday, with friends invited to join with members of the church to honor Rev. and Mrs. Starnes.

Their daughters, Mary and Beth Starnes will sing a duet, "I Waited for the Lord," at the morning service. A conference retirement service will be on Tuesday afternoon at First Methodist Church in Lubbock.

Rev. Starnes' topics Sunday will be "In the Name of the Lord" at the morning worship and "Always in Debt" Sunday evening. Scripture basis of each will be 1 Samuel 17:41-47 for morning and Romans 1:11-17 for evening.

Starnes joined the Northwest Texas Conference in 1939 and first served as associate pastor of First Methodist Church in Big Spring. He was a U.S. Navy chaplain from 1942 to 1946 and served at Sweetwater, Lamesa, Canyon and Stamford before coming to the Tahoka Church in 1977.

A member of Rotary Club, he has been a Little League baseball coach, won the T-Bar Partnership Golf Championship in 1978 with Art Ayres of Lamesa, and is currently the conference ministers golf champion.

Rev. and Mrs. Starnes will move to 3502 48th St. in Lubbock (79413), and after retirement he will continue to serve as pastor of the Wilson Methodist Church and also the Canyon Church east of Lubbock.

The Tahoka church will have a visiting minister on June 7, and a new minister will be appointed to serve after that.

"These complaints should be referred to the appropriate governing bodies," he said.

Graeber noted that in a number of counties, the new countywide appraisal districts are providing 1981 appraisal rolls to one or more local taxing jurisdictions. In those counties, the appraisal district will appoint the board of equalization for the taxing jurisdictions being served.

"Information will be made available locally on when and where the BOE will meet, regardless of whether it is named by a taxing jurisdiction or by the appraisal district," Graeber noted.

Taxpayers Have Right To Be Heard

Kenneth Graeber, executive director of the State Property Tax Board, has reminded Texans of their right to appear before local Boards of Equalization (BOE) to appeal values assigned to their property for ad valorem tax purposes.

"The right to appear before the BOE is the single most important remedy that is available to taxpayers regarding the value which is placed on property," Graeber said.

"The board is the taxpayer's opportunity to be heard in an informal setting and without incurring expensive court costs," he added.

Each local government which collects property taxes must have a board of equal-

ization to hear taxpayer appeals on values. Most BOEs meet during May until about mid-July, Graeber said.

Taxpayers who rendered their property to the local assessor must be notified of the time and place of the BOE meeting if the assessor increased the value rendered.

Graeber said those who did not render still have the right to appear before the BOE, but persons in this category will have to learn on their own when the board will convene.

BOE sessions are open to the general public. Time and location of the meeting must be posted in the administration office of the jurisdiction and with the appropriate county clerk. A city

BOE, however, is not required to file notice with the county clerk.

Additionally, at least 10 days prior to the BOE meetings, notices must be published in a general-circulation newspaper that serves the local area. The information is also available from each tax office by telephone.

Graeber said there are two basic situations in which taxpayers are entitled to receive an adjustment in their tax value:

--If it exceeds local market values. If the property owner finds and submits to the BOE the kind of evidence which indicates the value assigned to that parcel of property is too high, then the taxpayer would be entitled to a reduction in the valuation.

--If it is valued higher than similar property. Regardless of what other property like yours is selling for, the value of property on the tax roll should be about the same as the value for all similar properties in the jurisdiction.

Graeber added that tips on presenting an appeal are outlined in the agency's booklet "Taxpayer's Rights, Remedies, Responsibilities" which is available to local taxing units.

He reminded taxpayers that BOE's sole authority is over the value of property. "The board must limit the taxpayer's discussion only to matters concerning property values. Discussions regarding the amount of taxes or the injustice of taxation

merely waste the taxpayer's time.

"These complaints should be referred to the appropriate governing bodies," he said.

Graeber noted that in a number of counties, the new countywide appraisal districts are providing 1981 appraisal rolls to one or more local taxing jurisdictions. In those counties, the appraisal district will appoint the board of equalization for the taxing jurisdictions being served.

"Information will be made available locally on when and where the BOE will meet, regardless of whether it is named by a taxing jurisdiction or by the appraisal district," Graeber noted.

THS Graduate In Teenworld Competition

Amy Porterfield, 17, daughter of Mr. and Mrs. Jim Bob Porterfield of Tahoka, has been selected for competition in the 1981 Teenworld State Finals to be held at the Hyatt Regency at the Convention Center in Fort Worth at 7:30 p.m. on July 4.

Teenworld has selected 43 outstanding young women from all over the state to participate in three days of activities. The program is designed to recognize young women, 14 to 18, who excel in scholastic achievement and community involvement. Contestants are judged on poise, personality, grooming and a speech or talent presentation, as well as scholastic and civic achievements. Entrants must have a "B" or better cumulative grade average and document at least ten hours of volunteer service to a community or charitable organization.

The competition is the official state preliminary for the Teenworld National Finals to be held in Atlanta in December. Finalists from all 50 states will compete for \$18,000 in cash and scholarship awards and other awards.

Miss Porterfield is sponsored by McDuff Chemical Co. of Lubbock.

She is a graduate of Tahoka High School.

Her activities include Karate, basketball, track, to be a cheerleader at South Plains College, honor graduate of class of '81, regional qualifier in Feature Writing, Girl Scouts for 10 years, Annual Staff-won Best Photographer at Texas Tech Camp, and was a member of various organizations, UIL journalism.

She plans to attend summer school at South Plains College at Levelland for extra credits and will attend in the fall on a Cheerleading Scholarship.

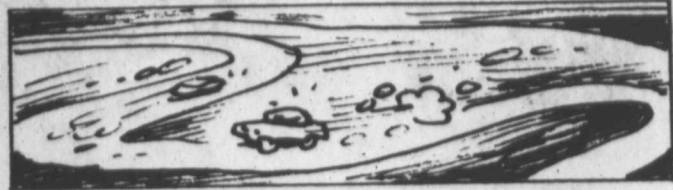

She is currently doing volunteer work at the Senior Citizen's Club.

Right now, we're overstocked from top to bottom with light-duty GMC trucks. And with that many trucks on hand, we're in a much better position to offer a lot more in the way of a deal. On GMC pickups, Caballeros, vans,

Suburbans, and Jimmys. We're making the kinds of deals it takes to sell a truck these days.

Check the prices. Then come on in for a Super Sellin' deal—not just on any truck. On a GMC.

Trucks are what we're all about.

WE HAVE A GOOD SELECTION OF GMC PICKUPS RIGHT NOW including some in stock before the recent price increases went into effect! An example of the special prices:

Letter to the Editor

I am leaving Turlock, California for my twelfth trip to the old timers reunion on June 13, 1981. Always before I would come as straight to Lynn County as possible, but, this time I'm going by Lake Tahoe, Nevada, Salt Lake City, Utah, Montrose, Colo., Farmington, N.M. (To see my friend (Claude Crouch). We went to school at New Home together about five years. Then, to Amarillo, Plainview, then, Tahoka. My plans are to be at the Echo Motel June 19. The 12 trips will be over 38,952 miles because, of going by way of Salt Lake City.

I get the greatest "lift" of the year to my over all feelings at the "Reunion". To me it's worth the time and money just for that. I am not an old settler but, in the New Home area the old settlers knew me well enough to call me by my given name. Mr. Elton George, Mr. Jim Smith, Mr. Sam Smith, Mr. Renfro and Mr. Depreist, and others. They were the

"first people to settle New Home area". They could have called me "Griffin" but they always called me Raymond. I'm so proud to have known those good men. They made me feel good. Thinking of these people makes me think of my mother and father too. Maybe this is why I just have to come back there.

I have something that has happened to me in the last month, my hair (what I have left) has turned white as cotton. I wish as others do that come to the reunion that more of you would come there so we could see them and have a visit. Heart attacks, cancer, etc. take some of us every year who knows who will be next... There are so many that have been younger than me that are gone. Already my nephew, Jesse Anderson, Luke Halford, Floyce Smith and many others. This is why I would like to see many more come. I hope to be there on time

STATE OF TEXAS

To Diane Acosta, Respondent, GREETINGS:

"YOU ARE HEREBY COMMANDED to appear and answer before the Honorable District Court, 106th Judicial District, Lynn County, Texas, at the Courthouse of said county in Tahoka, Texas, at or before 10 o'clock a.m. of the Monday next after the expiration of 20 days from the date of service of this citation, then and there to answer the petition of Rudy Acosta, Petitioner, filed in said Court on the 6th day of February, 1981, against Diane Acosta, Respondent, and said suit being number 3952 on the docket of said Court, and entitled 'In the matter of the marriage of Rudy Acosta and Diane Acosta and In the Interest of Gilbert Acosta and Michael Acosta, minor children' the suit is a request to divorce, division of property and determination of custody of minor children.

"The court has authority in this suit to enter any judgement or decree of divorce, division of property, and determination of custody in the child's interest which will be binding upon you.

"Issued and given under my hand and seal of said Court at Tahoka, Texas, this 26th day of May, 1981.

Lynn Girl In Volume On Twirling

Shana Edwards of O'Donnell, will be featured in the 29th edition of Who's Who in Baton Twirling, a 499-page volume compiling biographies and pictures of the most prominent participants in the specialized art of baton twirling.

The editors of the publication in union with the editors of Drum Major Magazine have published the book as a biographical tool that can be used in public and school libraries, offices and homes. In addition to heralding America's baton twirling champions, the volume includes records and facts of the history of twirling. Baton twirling originated from the ceremonial dances and celebrations of the natives of Siam, Arabia and the Samoan Islands who would manipulate their knives and spears much as the majorettes and drum majors do today. Until the 1930's baton twirling was practiced almost exclusively by men. Today it is a field involving both men and women.

Shana is the daughter of Mr. and Mrs. B.W. Edwards. Don't cook the nutrients out of potatoes, advises Marilyn Haggard, a foods and nutrition specialist.

Attention, Children:

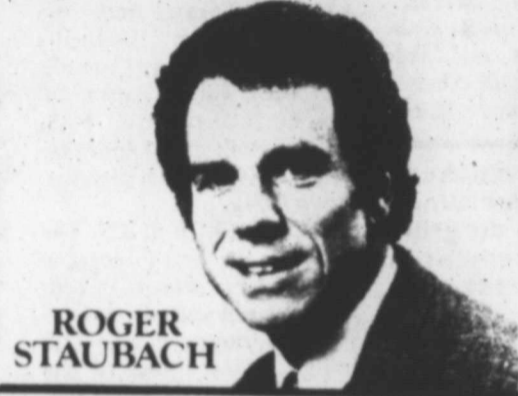

DONALD DAWES

DID YOU KNOW...

...That the Bible tells of a man who had twelve toes? In "Samuel 21:20-21, the Word of God says, "And there was yet a battle in Gath, where was man of great stature, that had on every hand six fingers, and on every foot six toes, four and twenty in number; and he also was born to the giant. And when he defied Israel, Jonathan the son of Shimea the brother of David slew him." God used this man with twelve fingers and twelve toes to show the power that David's men had over the Philistine giants. If you would like your children to learn more about the Word of God, the

Bible, why not send them to VACATION BIBLE HOUR this coming week (June 1-3)? We will have classes for children ages 2 through the sixth grade from 10:00 a.m. until 11:30 a.m., each day. Our theme for this year's VACATION BIBLE HOUR is "God's Promises." This ad is paid for by the Church of Christ and we meet in the building located at 2320 Lockwood.

Bible Studies Are Planned

Tahoka Church of Christ will have a 3-day Vacation Bible study for youngsters age 2 through the sixth grade June 1-3, next Monday-through Wednesday.

The program will be offered from 10 a.m. to 11:30, according to Don Dawes, minister. Schedule of activities in 10- to 20-minute segments, include devotional, Bible story, study stations, refreshments, Bible activities and a closing devotional.

Kong. The team will include William F. Dugan, Memphis, and Raymond V. Cooper, Dallas, both representing the American Cotton Shippers Association; William Stanford, Lubbock, AMCOT; and Frank Jones, Lamesa, Texas, from the National Cotton Council's Producer Steering Committee. They will be accompanied by Ed Deariso, FAS, Washington, and John Maguire, CCI's Far East director, Hong Kong.

BIGGER CROP SEEN: The USDA, in its first forecast of the 1981-81 season, estimates world cotton production in a range of 65.5-72.5 million bales. Most of the projected gain is attributed to a slightly larger harvested area and sharply higher yields in the U.S., where crop is forecast at 13.8 million bales, or 24 percent above last year.

MAID RETURNS: Maid of Cotton Karie Ross returned this week to the U.S. after an eight-week fashion and goodwill tour of the Far East, Italy and Spain. She will participate in Memphis Cotton Carnival activities, then begin preparations for speaking appearances before

Nothing beats the smoked flavored taste of something from the grill... and no grill can beat the fun, convenience and economy of a versatile gas grill.

Gas Grilling is versatile.
You can sizzle a steak, grill a burger, smoke a ham, barbecue a bird, roast an ear of corn, a potato... You can cook many different foods, a variety of ways, many at the same time on a versatile gas grill.

Gas Grilling is delicious.
You get that great outdoor smoked flavor without the charcoal mess. No lighter fluid is needed and a gas grill requires very little clean-up. There's no wait either, because gas grills reach cooking temperature... fast.

Gas Grilling is economical.
You can cook a full family meal for just pennies. Gas grilling costs less than a third of what it would cost on an electric grill and less than a tenth of the cost for charcoaling. A national survey proved it.

Gas Grilling is cooler.
It keeps the heat out of the kitchen so your air conditioning won't have to work so hard. That's important during the summer... plus a gas grill is the perfect meal-maker for any season of the year.

And, Gas Grilling is now 20% off!
Buy now and you'll save 20%. The purchase price has been reduced 20% but only until August 1, 1981... and you have eight styles and sizes to choose from, with all the features to make grilling fun, convenient and economical.

PROPER EQUIPMENT FOR DEFENSE

It's safe to say that if insects and diseases are not a problem in your garden right now, chances are they will be before long.

You may or may not want to use chemicals for pest control. This is one of the real advantages of growing your own vegetables. You can do it any way you want to! Plant by the moon, sprinkle irrigate, choose your own varieties, or garden without pesticides. It's your garden and you make the decisions.

For the sake of today's column, let's assume that you're one of the large number of local gardeners who will choose to control garden pests using cleared and recommended chemicals. Proper use of chemicals poses no threat to you or the people who enjoy eating vegetables from your home garden. However, if the label on the chemical product you use says to wait three days after spraying before harvesting, it doesn't mean you have to wait a week or more. Follow directions on the container to the letter. If you do this, you won't have any problems with possibly dangerous chemical residues.

Using chemicals for pest control generally means "spraying" to most gardeners. Therefore, you are going to need a sprayer of some type depending on garden size, location, layout and intended use.

Sprayers used most often in local gardens are compressed air and hose-on sprayers. Compressed air sprayers are mobile, self-contained units that are pressurized by periodic pumping. They come in various sizes and are made of either plastic, galvanized steel or longer-lasting stainless steel.

An obvious advantage of compressed air sprayers is that they are completely portable. However, this portability is directly proportional to your strength. In other words, a 5-gallon compressed air sprayer is heavy and unless you're physically able to lift and tote it around, don't try it. If your garden is small, a 2-gallon sprayer is probably all you'll need.

A hose-on sprayer is attached to the end of a hose, from which it receives its pressure. It's popular because it's light and doesn't need repressurizing by periodic pumps.

The main disadvantage of a hose-on sprayer is that it can only reach the length of your

garden hose. Another problem arises in mixing ingredients. These sprayers operate on the principle of siphoning a concentrated amount of material and mixing it with a stream of hose water. To be easily siphoned, the mix must be liquid; yet many insecticides and fungicides are in the wettable powder form. Although these materials are meant to be suspended in water, thorough mixing is difficult sometimes. To avoid some of the problems of plugging up the sprayer, it's a good idea to pre-mix wettable powder pesticides in a small bowl. This helps assure that large particles are broken up and will not clog the siphoning hose.

Regardless of the type of sprayer you use, it's important that you keep it in good condition. Rinse it thoroughly after each use to avoid future problems. If you use a compressed air sprayer, store it bottom side up with the hose drained.

Safe and proper use of garden chemicals can help most of you have a more productive garden. However, you must always use only recommended chemicals, treat only when necessary, follow label directions, and remember to take care of your equipment.

Cotton Farmers Advised To Take Time Evaluating Hail Damage

Planting of the 1981 cotton crop on the Texas High Plains is progressing rapidly under generally favorable conditions. But already, cotton farmers in the area are much like the resident of a downstairs apartment who has been awakened by one shoe tossed onto the floor of the apartment above, and now waits anxiously for the other shoe to drop.

The farmers know that this is the time of year when needed rains are often accompanied by high winds and hail. Resulting damage may range from a few punctured leaves to destruction of this land, necessitat-

ing replanting. Since the High Plains has a short growing season, cotton farmers who have suffered hail damage must decide quickly whether to save the damaged stand or replant, noted Dr. James R. Supak, area cotton agronomist with the Texas Agricultural Extension Service. "Unfortunately, the extent of damage and potential yield loss is usually difficult to evaluate until several days after a storm," Supak said.

The best procedure for dealing with a hail damaged cotton crop is to provide immediate protection against blowing sand, wait three or four days and evaluate the damage, and decide if the remaining stand (an average of at least two plants per foot of row without too many stems) is adequate to make an acceptable yield, the Extension agronomist recommended.

Experienced cotton farms and research scientists with the Texas Agricultural Experiment Station at Lubbock generally agree that the worst time to decide the fate of a damaged crop is on the day following a storm, the agronomist said.

"They suggest that producers first concentrate on protecting the damaged crop from further injury by blowing sand," Supak said. Frequently, a day or two after a hailstorm, high winds accompanied by blowing sand wipe out a damaged but acceptable stand of cotton, he noted. The first priority following a storm is to run a sandblower, rotary hoe or other equipment to prevent sand damage, he stressed.

"Delay the critical examination of the damaged field until three to five days after the storm to insure a more accurate estimate of how many plants will survive," Supak urged. He advised farmers to inspect the entire field to determine if the damage is uniform or more severe in a certain area. It may be that only part of a damaged field will require

replanting, he noted. He recommended that farmers closely examine the plants to determine the extent of leaf loss, stem bruises and the number of buds remaining that are capable of starting new growth.

"If as much as 25 percent of the leaf tissue remains, including portions of damaged leaves, and the stem is not badly damaged, the crop has a good chance of recovering and producing a near-normal yield," the Extension agronomist said. On the other hand, if it is totally defoliated and the bark on the stem is stripped or broken, recovery will be slow and many plants will die, he said.

The appearance of new leaf tissue four or five days after injury is a good sign that the plants will recover. But if the stems are bruised and this new tissue is turning black, it indicates that the plants are unable to supply adequate moisture to sustain growth and will probably die. This condition frequently occurs when the storm is followed by a period of low humidities, high temperatures and strong winds. "In this case, replanting will be necessary," Supak said.

Loss of the terminal bud does not necessarily mean the plant is doomed, he noted. "As long as at least one undamaged bud remains, the plant can recover fully. If, however, the plant was cut off or heavily damaged (shattered stem) below the first leaf buds, it has no chance of recovery."

The final part of the evaluation process is estimating how many plants will survive and whether their spacing constitutes an adequate stand. To do this, the Extension specialist advised farmers to count the number of plants likely to survive in 25 feet of row at various spots in the field. Numerous research studies have shown that if at least two plants remain per foot of row and if skips greater than two feet in length occur on less than 15 percent of the row, then the stand is adequate to produce optimum yields, he said.

"Cotton is an extremely hearty plant with a tremendous capacity for recovery from injury, especially if it occurs fairly early in the season. A May planted crop

with damage often has a better chance of producing a good yield of well developed seed and fiber than a June-planted crop."

In most years, the last practical date for replanting cotton in the northern counties of the Texas High Plains is June 10 and in the southern counties June 15-20. Early maturing, determinate varieties should be used for June plantings.

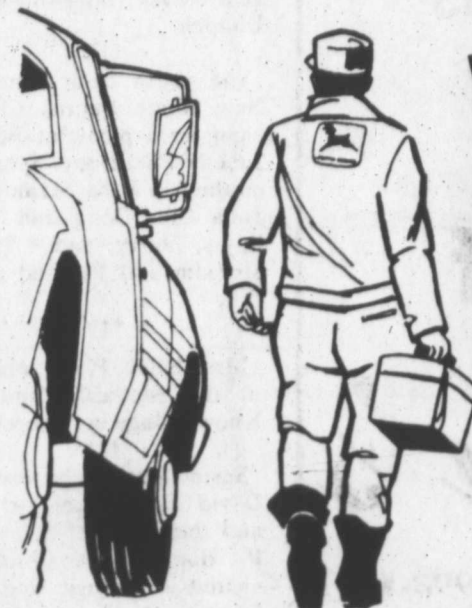

"Unless extreme moisture stress develops, summer irrigation of late planted cotton is generally not profitable. If watering is necessary, alternate furrow irrigation is re-

Thank You

I want to thank all my former students who helped to compile the lovely book of letters you wrote to me. I appreciate each and every one of them.

Thank you very much.
Mrs. Lennie Cox 22-1tp

We want to say "Thank You" for all the love and concern shown us during the death of our husband, father, and grandfather, Horace E. Wood.

We appreciate so much your words of Kindness, prayers, food, flowers, mem-
