MEXICO SEEKS TROUBLE WITH U. S.

Miners Accept Proposal of Secretary Wilson as Basis for a Settlement

WASHINGTON, November 22.—Secretary Wilson's proposal for a wage advance of 31.61 per cent for day laborers and 27.12 cents per ton for coal diggers, was accepted today by John L. Lewis, acting president of the United Mine Workers of America on behalf of the miners.

Mr. Lewis declared the miners stood on their demands, submitted yesterday the sub-scale committee for a seven-hour day, a Saturday half holiday and reference of internal disputes back to the districts in which they arise for settlement. The announcement followed a two-hour session of the miners' wage scale committee.

Explaining the basis of the wage scales he had suggested Secretary Wilson issued a statement saying that cost of living in mining regions had advanced 75.50 per cent and the increase would just equalize the situation for the miners.

PRESIDENT IS NOT CRITICISING MR. HITCHCOCK

Such Intimation Meets With a Prompt Denial From Secretary Tumulty.

WASHINGTON, Nov. 22.—Secretary Tumulty issued a statement today emphasizing the fact that no breach had occurred between President Wilson and Senator Hitchcock. He characterized the latter's leadership in the treaty fight as "masterly" and "satisfactory to all friends of the administration."

The secretary also denied that the President was taking sides in any contest over the leadership of the Senate in wholly without foundation. The object of such a statement can only be to create discord among the friends of the treaty.

LETTISH FORCES HAVE CAPTURED CITY OF MITAU

Report States That the Letts Are Continuing Their Victorious Advance

LONDON, Nov. 22.—Lettish forces yesterday captured Mitau, capital of Courland, according to the Lettish legation here. The Letts continued their victorious advance.

Mitau was the headquarters of General von Eberhard, who was sent by the German government to relieve Colonel Avaloff-Bernhardt of command of the German Baltic forces and supervise their orderly return to Germany. The Letts were reported in a Copenhagen dispatch, November 15 to be encircling the town.

Advices from Mitau, per date of November 19 stated that the Lettish commission was arranging with the Letts and Lithuanians to permit the withdrawal of the German troops without interference.

SENATOR HITCHCOCK BELIEVES TREATY COMPROMISE POSSIBLE. ISSUES STATEMENT SATURDAY

WASHINGTON, Nov. 22.—Democratic Leader Hitchcock in a statement replying to the declaration of Republican Leader Lodge that the peace treaty issues should be settled in the coming campaign said today that he was confident a compromise would be worked out by which ratification could be secured.

Senator Hitchcock's statement follows: "Senator Lodge expresses an ardent wish to carry the treaty and the reservations which the Senate defeated into the campaign as an issue.

"I regret to say that Senator Lodge is evidently thinking more of politics than he is of patriotism.

"To my mind the highest interests of the United States and of the world demand ratification of the treaty.

"The reservations to which Senator Lodge refers do not even receive a

STANDING ARMY OF 260,000 IS PLAN OF MARCH

This Number Backed by Military Training For Peace-Time Requirements.

RECOMMENDATION MADE IN HIS ANNUAL REPORT

Judgment Made on Lessons of the World War States the Chief of Staff.

WASHINGTON, Nov. 22.—A standing army of about 260,000 men, backed by a universal military training system to supply reserves, would meet the peace time requirements of the United States, General Peyton C. March, chief of staff, declared in his annual report, made public today and which probably forecasts recommendations to be made by the war department when congress reconvenes.

General March founded his judgment on lessons of the world war. That proved conclusively, he said, that ability to be self-sustaining for an indefinite period, provided the army was adequately prepared, was the nation's greatest military asset.

So far as purely naval operations are concerned, he added, the United States has nothing to fear from "any conceivable combination of naval powers; but must be prepared to prevent seizure of bases by an enemy controlling the sea and intent on landing troops."

"Without the possession of such bases in France," the report said, "we could not have landed our army. In respect of the fact that the Allies had control of the sea."

General March recommended fixing of the regular army at five army corps, maintained at half strength in peace times. The proposals, the department presented tentatively to congress during the special session, called for 248,000 men and the statement of the chief of staff was taken to indicate that this would be scaled down to 260,000.

The report defended the present staff system with authority centralized in the chief of staff.

The war produced new practices but not new principles, the report said, and "was not won, as some predicted, by a new and terrible development of modern science," but by "men, munitions and morale."

The American military achievement was possible only "because of the assistance of our Allies," General March said.

SEEK TO ARRANGE FOR THE RETURN OF BODIES TO THE U. S.

WASHINGTON, Nov. 22.—The American embassy at Paris has been instructed by the state department to make "the strongest representations possible" to the French government for the return of American soldiers now buried in France. The hope was expressed that an understanding would be reached to enable the war department to undertake as speedily as possible the return of the bodies to the United States, where it is desired by relatives.

COTTON SEED MILLS SUPPLIED WITH COAL

WASHINGTON, Nov. 22.—Special authority to supply cotton seed crushing mills with coal to meet their immediate needs was given the regional coal committee at Atlanta today by the railroad administration.

Each application for coal will be handled on its merits and to obtain coal the manufacturers must show that uncrushed stocks on hand would be damaged if held longer without crushing.

Manufacturers from Tennessee and other southern states complained to the railroad administration that their stocks were threatened with serious damage, if not destruction, because of the coal shortage.

RUMOR COMPLAINTS GOING TO BE FILED AGAINST PROMOTORS

Special to The Times. WASHINGTON, Nov. 22.—A special investigator of the Federal Trade Commission is now working in Wichita, Falls, and Fort Worth looking into the operations of certain oil companies and their promoters. It is rumored that some complaints will be filed against these trade methods by these concerns.

Fifty Dead Result Of Louisiana Fire

VILLEPLATTE, LA., Nov. 22.—Fifty persons are believed to have perished in a fire here tonight, when a building in which a dance was being held on the second floor caught fire and a frenzied crowd fought its way over each other. Nineteen are known to be dead and the search for bodies continued through the night.

The identified dead are: Miss Anna Robiero, Mrs. Octave Barre, Miss Etta Barre, Miss Lena Ouilley, Mr. and Mrs. Curley Soliman and daughter, Andre Vidrene, Mrs. Zelma Johnson, Culver West, Bernadot Fotenot, and Miss Ozetta Dullion. The other bodies have not been identified.

The number of injured is mere guesswork as many of the people were from the country.

A narrow stairway leading from the dance hall became a death trap when it collapsed before half of the crowd had fought their way down it, the only exit. Several of those who were cut off from escape by the stairway, perished when the burning building collapsed although "some" were rescued.

Explosion of an oil heater in Martin's Dry Goods Store on the first floor of the Deville building started the fire. The dancers, many of whom had come from the rural districts of Evangeline Parish, were upstairs in the building but did not heed the alarm until the dance floor was in danger.

Villeplatte, the parish site of Evangeline Parish is about sixty miles west of Baton Rouge and on the Texas & Pacific railroad, between Eunice and Bunkie.

The majority of the bodies had not been removed from the burning ruins of the building tonight and it is believed that most of these are of girls and boys.

Fathers and mothers, many of them who can speak only French, from the Parish countryside, which is famed because of Evangeline's romance, and from the town are roaming the streets searching for their sons and daughters.

The fire department of Bunkie, La., and the Villeplatte department and confined the flames to the building in which it is estimated that between fifty and sixty were burned to death.

Assistance was rushed from Eunice, La., and other neighboring towns. Red Cross aid has already arrived from some towns.

It was estimated that more than one hundred young people were at the dance and that less than half of them escaped. Many of the older people were shopping or attending the movies while their sons and daughters were dancing and are searching the town to find if their children survived the disaster. The damage in dollars to buildings and stocks was estimated at \$50,000.

Many of the victims were of the most prominent families here.

When the crowd at the dance realized the danger, a mad rush for safety jammed the stairway and while men and women and children screamed and fought, the stairway collapsed beneath many and hurled several victims into the flames.

From the Martin store, which was in a far end of the building from the dance hall, the flames spread rapidly to a motion picture theatre, a confectionery and a restaurant.

When the crowd at the dance realized the danger, a mad rush for safety jammed the stairway and while men and women and children screamed and fought, the stairway collapsed beneath many and hurled several victims into the flames.

Burleson Enroute to Texas; May Be Political Mission

Special to The Times. WASHINGTON, Nov. 22.—Postmaster General and Mrs. Burleson left tonight for Texas, going direct to Austin. It was said at his office that Mr. Burleson was going on a private mission only to look after some personal matters. It was vigorously denied that his trip had any political significance whatever, or that it had anything to do with the talk of an anti-administration Democratic party organization in Texas, which he is generally understood to be strongly opposing because of his identification with the Wilson administration and his antagonism to former Senator Joseph W. Bailey.

General Burleson is expected to return to Washington in a week or ten days.

THREE KILLED TWO WOUNDED IN LOUISIANA

Result of a Battle Between Labor Union Men and Members of Loyal Legion

BOGALUSA, LA., Nov. 22.—Three men were killed and two were wounded here today in a battle between labor union men protecting a negro and members of the Loyal Legion, which has been conducting a campaign against radical agitators in this section. The negro was alleged to have been stirring up members of his own race.

The dead: L. E. WILLIAMS, ably leader. A. BOUCHILLON and THOMAS GAINES, carpenters.

The wounded: A. J. O'Rourke, labor leader; Jules Le Blanc, member of the Loyal Legion and formerly a captain in the army.

The fight took place at a garage where the labor representatives, who were armed, had surrounded themselves with the near Saint Belchier. Le Blanc is said to have been hit first, a bullet striking his arm. When police, attracted by the firing, stopped the fight, the three dead were found in the garage.

Loyal Legion members recently drove an alleged radical agitator out of town, and yesterday boarded a train looking for another.

FIRST WOMAN CASHIER OF TEXAS STATE BANK

AUSTIN, TEX., Nov. 22.—Mrs. M. M. Henshell became the first married woman in Texas to be an official and director of a state bank when the charter of the Frisco State Bank, with a capital stock of \$20,000 and Mrs. Henshell as cashier was approved today by the state banking board.

MARRIED WOMEN MAY BE DIRECTOR STATE BANK

AUSTIN, TEX., Nov. 22.—Married women may become incorporators, stockholders or directors of state banks or trust companies under the same laws as men, according to an opinion from the attorney general's department today. This opinion is an interpretation of an act of the legislature which removes disabilities of married women and provides that they may be stockholders or officers of any organization incorporated under Texas laws without being joined by their husbands.

CASUALTY LIST SHOWS LONDONER MAN KILLED

WASHINGTON, Nov. 22.—A casualty list today shows Corporal Payette Bagneton, London, Texas, as killed in action.

SUCH IS INFORMATION BROUGHT TO THE BORDER FOLLOWING AN INVESTIGATION OF SITUATION

EL PASO, Nov. 22.—The positive assertion that information is in the hands of the foreign relations committee of the United States Senate to the effect that the Carranza government is deliberately seeking to affront the United States in connection with the kidnapping and subsequent arrest of William O. Jenkins, American consular agent at Puebla, Mexico, and the simultaneous promulgation of the oil properties nationalization decree, was made tonight by a member of the sub-committee who has arrived here to investigate international conditions.

The committee member declared that formal request for the withdrawal of the oil decree had been forwarded to Mexico City in addition to the previous notification to the Mexican government that the United States regards the nationalization order as one amounting to virtual confiscation.

It also was pointed out that the Carranza government is in effect the oil manifesto was issued in the midst of negotiations between the American government and the Mexican government over the kidnapping and subsequent arrest of Consul Jenkins.

This action, the committee member, who stated that for obvious reasons his name could not be divulged before the formal opening of the investigation construed as direct defiance to the wishes of the United States government.

NO INFORMATION TO SUSTAIN THE CHARGES

WASHINGTON, Nov. 22.—Although the note sent by the American government to the Mexican government Wednesday demanding the immediate release of William O. Jenkins, American consular agent at Puebla, was delivered to the Mexican foreign office the same evening, the Mexican City press yesterday said that Jenkins still was in the penitentiary. It was announced today at the state department.

No reply to the American note has been received and there was no indication when one would be made.

Officials reiterated today that the department received no information that the Mexican government was taking action in the case of Eugene Luck, the American citizen who was shot at Mexicali on November 14 and who died later at El Centro, Calif. The Mexican note said the proper authorities had been notified of the shooting with a view to early "administration of justice."

The state department announced that Luck was an official connected with the office of the sheriff of Imperial county, California, and that a dispatch to the department said the shooting was unwarranted.

DISORDERS FEATURE A FOOTBALL CONTEST

PITTSBURGH, PA., Nov. 22.—One policeman was seriously hurt and many persons sustained minor injuries in disorders which marked the University of Pittsburgh-Carnegie Tech football game at Forbes field here today. Students of the two institutions clashed during the rest period between the first and second halves of the game, when, according to the police, members of the Pitt student body made an effort to remove a Czech flag. Police reserves stationed about the field "swept the Italians" into the stands. A man who had climbed the flagstaff was placed under arrest but a crowd from the Pitt side of the field rushed the police and another fight started. Finally the police fought their way from the field, taking with them five men who registered at the police station as Pitt students. They were held on charges of disorderly conduct.

CHARGE TWO OIL REFINERIES AND FIVE RAILROADS DEFRAUD GOVERNMENT OUT OF MILLION

MOCKE, OKLA., Nov. 22.—Charged with defrauding the United States government out of more than \$1,000,000 in freight rates, two oil refineries and five railroads were indicted by a federal grand jury here today.

The indictments were returned against the Gulf Refining Co. of Kiefer, Okla., its manager, Charles B. Ellis, the Oxyoil Oil Co. of Tulsa, and the Pryor, the Kansas City Southern the Santa Fe, the Midland Valley and the Texas & Fort Smith railroads.

The government charged that the railroads had shipped gasoline upon which the rate from the Oklahoma fields to Port Arthur, Texas, is 30 cents a hundred, labeled as naphtalene, upon which the rate is 19 cents. The loss to the government under federal control of the railroads amounts to more than \$1,000,000, it is charged.

REPORT EXECUTION OF FELIPE ANGELES WITHOUT A TRIAL

SAN ANTONIO, TEX., Nov. 22.—General Felipe Angeles, who was reported captured several days ago when a strong force of Mexican federal troops surrounded him and his villa force near Olmito, in the Conchos River valley, was executed without court martial, according to information received here today by Martin Garcia, secretary to Pancho Villa, who is residing in San Antonio. This report is also generally circulated here today in all Mexican circles.

CALLAN IS RELEASED ON A \$20,000 BOND

SAN ANGELO, TEX., Nov. 22.—James Callan, charged with killing V. R. Billings near Menard on November 12, was granted bail in the sum of \$20,000 by County Judge J. T. Scruggs at Menard late tonight, after a two-day preliminary hearing. Callan, a well known cattlemen and former head of the Texas Cattle Raisers' Association, furnished the bond amounting to \$20,000.

LITERATURE OF RED RADICALS CONFISCATED

Secure Newspaper Urging Seizure of American Ships Through Mutiny

NEW YORK, Nov. 22.—Radical literature, including a Russian language newspaper urging seizure of American ships for the Soviet government through mutiny on the high seas, was taken in a raid on an east side Communist party headquarters here today. The newspaper urged Communists to procure work on "any kind of transport vessels of the United States," giving the address of the United States transport service in Manhattan, as the place to apply for the jobs. Plans for mutiny after the ships had reached the open sea, included concerted action upon a pre-arranged signal, seizure of all arms and ammunition aboard; imprisonment of the ship's officers; hauling down the American flag; hoisting the Soviet emblem; and taking the captured vessel to the nearest Russian Soviet port.

A "roving reception" awaited successful mutineers when they reached Russia with their craft, the newspaper said, and their achievement would gain for them the "favor of Lenin and Trotsky."

Manifesto, programs, constitutions and reports to the "Communist International" were among the papers confiscated. Portraits of Lenin, Trotsky, A. Joffe, Bolshevik ambassador to Berlin, Maxim Gorky, Rosa Luxemburg and Karl Marx were found in numbers, as were Communist coat lapel buttons and a huge red banner inscribed "The Flag of the Soviet Government."

The headquarters occupied two floors of a loft building, one of which was divided into class rooms for use in teaching the principles of Soviet government, the police said.

ALLEGED RADICAL IS GIVEN A \$200 FINE

DALLAS, Nov. 22.—A. W. Palmer, alleged radical, was fined \$200 on a vagrancy charge in police court here today.

After Mrs. W. L. Mayfield, frightened, had made a pot of coffee for him, Palmer demanded sugar and jam. Palmer confessed he was a bad man and "would kill somebody or shoot the American flag full of holes," if he didn't get what he wanted, according to the police.

He came from the Wyoming oil fields, he said, and had proceeded to Texas when he found Oklahoma miners striking.

AUSTRIAN REPUBLIC HAS BIG DEFICIT

VIENNA, Friday, Nov. 22.—The first year of the new Austrian republic has closed with a deficit of 15,000,000,000 crowns.

NOT REJECTED TREATY ALIVE SAY OFFICIALS

Diplomatic Representatives Are
Advancing Governments of
the Situation

NATIONS RATIFYING TO
ORGANIZE THE LEAGUE

Expected That Meeting of Four
Allied and Other Nations
Will Be Held Dec. 1

WASHINGTON, Nov. 22.—The peace treaty controversy apparently entered tonight upon a week of waiting while sentiment crystallizes for a compromise or for a final fight in the 1915 political campaign.

Most of the few senators who remained here after the closing of the session, left for home during the day and there was no indication at the White House that the president had changed his decision to let treaty issues stand where they are until he sends his message to the new session of Congress a week from Monday.

powers here have been communicating to their governments their own accounts of what happened and the prospects for the future.

The department takes the ground that technically the treaty is still alive, not having been rejected in the senate, and that therefore it only is subject to revival and further action. No doubt is entertained by the various entente embassies that without action by the United States on the treaty, the four principal powers which already have ratified it and also Germany will call in the several smaller states which have given their ratification and proceed to organize the league of nations immediately on the publication of the "promissory verb" now set for about December 1.

Yet the first step in that direction, it is pointed out, must be made by President Wilson, who will find himself in the position of being obligated to call the initial meetings of the league, although he may not participate in its deliberations.

As the treaty remains unratified by America, there is no exact legal obligation on President Wilson to convene the league, but the other powers have ratified the treaty with a provision included regarding the first meeting to be called by the President of the United States and it is thought here that he will perform that function soon as a matter of international courtesy, if not of obligation.

In Japanese circles it is considered that the door is still open to China to recover Shantung, and that although not one of the signatories of the Versailles treaty, China's first step is to indicate to Japan her willingness to begin negotiations.

The officers and employees of the National Bank of Commerce welcome every opportunity to familiarize themselves with the problems of customers. Such service is of value to men and women in every walk of life.

VICTOR BURGER MAKES KNOWN HIS PLATFORM

Socialist Candidate for Congress
Announces Principles For
Which He Stands

MLWAUKEE, WIS., Nov. 22.—The platform of Victor L. Burger, socialist candidate for Congress in the fifth district, in brief, is as follows:

For representative government and against the impertinent presumption of any clique or party of the house of representatives to dictate whom the district is to elect as its representative.

Against militarism and imperialism. Against race hatred and against mob rule of any kind or description.

Against government by injunction and against any law that would enslave labor and against using the army of the United States to intimidate the working class.

Against prohibition. Against the so-called "espionage" act and against any other new law to oppress the people.

Against meddling in the internal affairs of any foreign country, Russia, Germany and Mexico.

Against national bankruptcy and national hunger.

For aiding the starving peoples of Europe, including the Germans and Austrians with food, raw materials, or machinery as the case may require.

For old style liberal Americanism and against 100 per cent profiteering.

masquerading as "100 per cent Americanism."

For freedom of speech, press and assembly.

For compelling the profiteers to pay the cost of the war.

For freedom of conscience and for religious liberty.

For the right to use any language in church services and also for the right to teach besides English, any language in public or church schools that the patrons may desire.

For national ownership of trusts and for the public ownership of public utilities in nation, state or city as the case may be.

HOLDS PROHIBITION
ACT CONSTITUTIONAL

MR. WAUKEE, WIS., Nov. 22.—The prohibition enforcement act is constitutional, Judge Geiger of the United States district court held today.

He enjoined the J. P. Kinsinger Company, wholesale liquor dealers, from using its premises for the sale of liquor until the civil suit against the company is tried.

MAJORITY ST. LOUIS
BREWERS TO OPEN

ST. LOUIS, Nov. 22.—The majority of brewers here will resume the making of beer of 2.75 per cent alcoholic content Monday, it was announced today following notification from Kansas City, Kan., that Federal Judge John C. Pollock had signed the order making effective the temporary injunction issued yesterday, restraining federal officials from interfering with the manufacture or sale of this beer. The beer was sold freely here today.

REPORT ON PROGRESS IN MONTAGUE COUNTY

NOCONA, TEX., Nov. 22.—The Red river valley test on the W. W. Jones farm is starting with the 3-inch at 1,325 feet. It is the intention to carry this size down by underdrilling through the water sand level. This, according to the Nocona well log, should come in about 1,600 feet. No objection will be found to striking an oil or gas sand before that depth is reached, and this may be possible, as the Marion Oil & Gas company test in section 10-47-7S and located about five miles northwest, across Red river, found a good showing of gas around 1,600 feet. These wells are believed to be on the same structure. The drill will soon start on the Nocona Consolidated Oil & Gas company has been organized by local people with the intention of entering the leasing and development branch of the oil industry. The organization is starting off with leases in Montague and Wichita counties and shareholders in Texas, Oklahoma, Alabama and Georgia.

AN interested in the oil game here were more than pleased to learn of the advance in the price of oil in Texas and mid-continent crude to \$2.50. Now is a good time to open the Montague county fields. The price is now a golden opportunity exists for the prospector, as the boom "wild" say, and there may be more truth than poetry about this in old Montague.

Banking service that is never perfunctory but is always characterized by a spirit of friendly co-operation—this the National Bank of Commerce affords its customers, and it welcomes small accounts as cordially as large.

NO REDUCTION IN HIGH COST OF LIVING

WASHINGTON, Nov. 22.—Despite the government's campaign against the high cost of living, the average family expenditure for food in fifty cities was approximately the same in October as in September, labor bureau statistics disclosed. A decrease of two-tenths of one per cent in the retail price of 23 staple food articles is reported.

Including potatoes, 12 per cent; sirloin steak and cabbage 8 per cent; hard six per cent; bacon and ham five per cent; pork chops, four per cent; round steak, chuck roast, plate beef, beans and chicken, three per cent; with bread, lamb, corn meal and coffee, two per cent each; oatmeal, farina, cheese, canned corn and peas one per cent each.

High-cost articles increased, including eggs 1 1/2 per cent; butter and raisins 8 per cent; rice, five per cent; salmon, sugar and prunes, four per cent; oranges, three per cent; fresh milk and bananas, two per cent; canned milk, macaroni, navy beans and canned tomatoes one per cent.

Your banking relations should be characterized not only by efficiency in banking routine, but also by co-operation which is founded upon understanding. The National Bank of Commerce aims to supply intelligent service and to have its customers grow with it.

SPOTTING OF CARS NORTH OF RIVER CAUSES COMPLAINT

DISTANCE CAUSES DELAYS IN
UNLOADING AND DRAYAGE
CHARGES PROHIBITIVE
IS OF DOUBTFUL BENEFIT

Shipper Gives Statement Calling
Attention to Results of Rail-
road's Practice.

Complaint of a very bitter nature is being registered by many shippers on account of the spotting of their cars on the Denver team track beyond the Wichita River, the shipper claiming that the road spots cars on this track without discrimination as to the location of the plant of the consignee, resulting, in many cases, in almost prohibitive drayage charges for handling of the shipments from this track, this charge in many cases even amounting to more than the original cost of the commodities, plus the cost of freight to Wichita Falls.

The installation of this track, made by the Denver during the summer as a means of clearing up the freight congestion in the local yards, is a very doubtful benefit, these shippers maintain, some of them even going so far as to assert that the situation could be cleared up more quickly without the use of this track than through its constant use.

Figures kept on the comparative cost and time for unloading a car load of household goods show that two teams can unload the car from the downtown team track in three hours, while from the river team track a whole day is necessary, says one local shipper.

"In unloading gravel these records show what the hauling of the gravel to town from the river track costs more than the gravel and freight combined. Gravel at the pits 123 miles from here is \$1.25 a yard, the freight to Wichita Falls is \$1.80 a yard, making the total per yard \$3.05 in this city. It has been found that if two six ton trucks are used to haul the gravel from the cars, the following results are obtained: The salary of the driver, depreciation on the truck, fuel, and tire cost of the two trucks are \$48 a day. Four laborers to load and unload the trucks are \$22 a day, a total of \$70 a day for hauling. Each truck can make four trips a day carrying about two and a half yards per load, or a total of 20 yards a day. This shows the cost of hauling from the river team track, two miles from the pavement, to be \$3.50 a yard or 46 cents more than the combined cost of the gravel and freight.

"The same two trucks can carry 15 loads from the downtown track, or three full yards a load, due to the fact that they do not have to cover the 2-mile dirt stretch to the pavement, and do not have to contend with the mud on the tracks. Hauling 84 yards a day instead of 20 the cost is brought down to \$1.20 a yard. Shippers are compelled to unload from this river track, in spite of the fact that the costs are greater, and work much slower, and that many of the local teamsters refuse to accept contracts to haul from the river track, due to the practical impossibility of the roads. If the supply of teamsters was unlimited here more freight could undoubtedly be unloaded using both tracks, than if just the downtown track was used, but at this time there are not enough teamsters here to work both tracks to their capacity.

"There are real cases where local lumber men have been compelled to unload from the river track when they have truckage with a few hundred feet of their own yards, due to the railroad refusing to place the cars at any track but the river. A remedy for this is to make out an intra-city switch way bill at a cost of \$5, which compels the railroads to move the cars to any track within a radius of five miles from the center of the city. Railway Commission's Circular No. 2358, 'Shipments Between Points in the Same City or Town'.

"The Katy also has two team tracks, one being what is called an express track with a capacity of 14 cars, making their total capacity 28 cars when it should be about 100. In justice to this road it must be said that they have no more available space here, but intend to convert their repair or rip track across the street from the express track, into another team track. Although this was promised to be completed by the middle of October, however, it has not been started yet. The congestion on their express track seems to be due to the fact that the warehouse houses are inadequate, so merchandise is left in the cars and placed on this track."

CONDITION OF ROADS FAIR EXCEPT LOCALLY

The following road report is issued by Fred W. Hammer, reporter of weather and road conditions:

From Fort Worth to:

Brownwood: Passable entire route, but quite rough.

Burkburnett: Bad about Decatur, heavy rain at Wichita Falls, slick traveling.

Hanger: Passable entire journey but rough.

Southward points, via Waco: Scarcely passable about Navasota, detour by Iola advised.

Northward points: Improved materially, generally passable but rough.

Wichita Falls: Heavy rain Wichita country, no intervening blockade reported.

No precipitation is probable over the above routes next 24 hours.

FIRE IN MINES BUILDING ON SATURDAY AFTERNOON

A small fire in an office in the Mines building Saturday afternoon caused by a leaky gas motor, which on fire was extinguished by the fire department before the damage amounted to anything more serious than scorching the walls and burning some furniture in the room slightly. Use of the hose equipment was not necessitated as the fire was put out by the use of chemicals alone.

Satisfactory banking connections have played a large part in the success of oil men operating in Wichita and adjoining counties. The National Bank of Commerce has contributed and is contributing to the development of this most important industry.

Paints at Decorators Co., 715 Ninth street.

NEW LABOR TEMPLE IS NEARING COMPLETION

With the brickwork and lathing practically finished, wiring done and the building about ready for the plasterers, indications are that the new \$50,000 Labor Temple, on Travis near Seventh street, will be completed before the first of the year.

The building, two story brick with basement partially above ground, is constructed of brick, finished with a dark red face brick. On the first floor will be the office rooms for the various locals and for the officials of the Trades and Labor council, with meeting rooms for the smaller locals. The upper floor will be the auditorium, with a seating capacity of about 1,000. This room will be equipped with a stage, and will also serve as a meeting room for the larger locals.

The basement will contain the printing plant, belonging to the council, equipment for which has already been ordered. A weekly paper devoted to the interests of organized labor in Wichita Falls will be printed here.

The building is already being used as a meeting place by many of the locals.

WEATHER RETARDS PROGRESS CLEARING LOCAL CONGESTION

Special effort on the part of consignees of both car load lots and merchandise shipments toward the speeding up of unloading of consignments will be necessary during the coming week if the freight situation in Wichita Falls is not to receive a several days setback by reason of the rainy weather prevailing during the latter part of the week. It was pointed out Saturday by local railroad officials. The rains, while not extremely heavy, were sufficiently heavy to make the going rather hard on the downtown team tracks on both roads, and coming as they did, in the latter part of the week, they have meant practically a loss of several days in unloading shipments, with additional cars rolling in all the time. Unloading from Denver team track north of the river was practically impossible during the latter part of the week.

GAMBLERS OUTFIT IS FOUND IN A TRUNK WHEN ROOM IS RAIDED

With the raiding of a rooming house Saturday afternoon which resulted in the capture of one man and the seizure of a large supply of material which officials believe has been used by gamblers, county officials are certain that the headquarters of a shrewd gang of professional gamblers and crooks which has been operating in the North Texas oil fields for months has at last been broken up.

A trunk seized in the room by officers was taken to the sheriff's office, where investigation disclosed that it contained a poker table together with all the equipment that goes to make up a professional crook's gambling outfit. The police had so arranged that when the trunk was closed it would fold into the bottom and escape notice if a careful examination was not made. But perhaps the most interesting feature of the entire discovery were two small boxes under the table and so arranged as not to look suspicious. Small holes just large enough to allow a card to slip from the table downward into the boxes were discovered at opposite ends of the table and when the boxes were opened by means of a screw driver, officers were astonished to find them both filled with cards that had been "gumped" through the table at the will of players. Each box was provided with a crude looking machine with a very delicate spring, which could be operated in such a manner as to throw certain "choice" cards upon the table at the will of the player. Officers are certain that the table was arranged for the use of two confederates who occupied opposite ends in order to make use of the secret boxes.

The raid was conducted by Sheriff Bob McFall and Assistant John M. Martin, assisted by several deputy sheriffs. A man who gave the name of A. H. Donley, who was found in the room, was taken into custody and is being held for investigation.

Officials who have made a study of various gambling devices stated Saturday that "the magic table with the disappearing card-confederates" was far the most clever scheme they had ever witnessed. So neatly had the owners of the device concealed their real purpose that the table would never be suspected unless a close examination was made.

The trunk looked very similar to those used for storing clothing and had it been found elsewhere than in the rooming house would, no doubt, have escaped exposure.

LABOR TEMPLE MAY FURNISH SITE FOR MUNICIPAL MARKET

MAYOR MARLOW AND EXECUTIVE
COMMITTEE TRADES COUN-
CIL NEGOTIATING.

WOULD HANDLE MANY LINES

As Proposed Market Will Handle
Meats Groceries, Canned Goods
and Vegetables.

Wichita Fall's municipal market will be located in the basement of the new Labor Temple on Travis street, now nearing completion. If the plans of Mayor Marlow and the members of the executive committee of the Trades and Labor Council are realized, it was learned Saturday. Plans for the new market embrace not only the handling of home killed meats, which will enable their sale at a materially lower price than is the case at present, but the handling of all lines of groceries, canned goods and vegetables.

The new market will not be designed as in any sense a profit making institution, nor will the benefit of it be confined to members of the ranks of organized labor, being planned for the benefit of the entire public, the labor organizations giving the room for the market at a nominal charge as their contribution to the success of this movement.

As at least half, and possibly more, of the basement of the large building, about 50 by 150 feet in dimensions, will be available for the market, it is believed that the space will be sufficient to permit the carrying on of an enormous business, and the establishment of a market of sufficient size to accommodate the needs of the entire city. Funds for the purchase of the stock of goods will be raised, it is planned, through the sale of coupons entitling the holder to a certain amount in trade in the new establishment, probably to be issued with coupons to the value of \$25 to the book, which will be sold in advance.

The goods will be marked at such prices as will clear only such profit as will take care of the small overhead running expenses of the plant, said Mayor Marlow. If the market makes a profit one month, prices will be reduced accordingly for the next month.

The plans for the market are to be brought before the Chamber of Commerce and other civic organizations within the near future for the purpose of enlisting the aid of these bodies in the project.

The greatest effort of the new market will be devoted to the handling of home killed meats, arrangements having been made with ranchers of the community, through Glen Wilson, to supply a sufficient quantity of meats for the market. Through the handling of meats killed here, it is pointed out, a saving will not only be effected in the railroad rates to and from the packing houses, but a ma-

terial conservation of meat will result from the saving of the shrinkage in weight which the cattle undergo while on their way to the market. Adding to this saving the fact that the meat will be sold at a figure which provides for no profit, those back of the enterprise believe that they will be successful in their plans to sell meat at a figure greatly under the present retail prices.

Estimates on the construction of a cooling plant, which, it is planned, will be erected on the Luke Wilson ranch in Archer county, to take care of the surplus meat, after killing, until needed for the market, are expected within the next day or two.

**SHIPMENTS ARE LIKELY
TO COME QUICKER BY
FREIGHT-THAN EXPRESS**

J. W. Chatham Jr., manager of the traffic department of the Chamber of Commerce, states that just at this time a serious congestion exists in the express shipments in this city, due principally to the fact that more receivers of less than car load freight are ordering their goods by express. The express company is now handling more of such shipments than formerly, whereas the railroads are in better shape to handle this class of freight than they have been for some time.

For this reason he suggests that it might be well for less than car load receivers of freight to order some of their shipments by freight rather than by express, thereby relieving the serious congestion in the express company, and also obtaining faster service than heretofore.

The traffic department of the Chamber of Commerce is ready and willing to assist receivers of freight in this matter.

DR. HATTON WILL ADDRESS TRADES LABOR COUNCIL

EXPERT WILL DISCUSS CITY
MANAGER FORM AT MEETING
MONDAY NIGHT.

STUDIES LOCAL SITUATION

Dr. Hatton Also Spends Time in
Going Over Charter Now in
Operation.

Results of his observations here, and the needs of the local situation with respect to the new charter, will be dealt with by Dr. A. R. Hatton, charter expert, who is in Wichita Falls assisting in the writing of the new city charter, in an address before the members of the Trades and Labor Council at their regular meeting Monday night.

"I intend to speak especially with regard to the city manager form of government, or some form embodying substantially the same idea," said Dr. Hatton in discussing this talk. "Such a form of government, I think it can show, has proved not only the most successful form, but is really more closely under the control of the voters than any other form of municipal gov-

ernment which has as yet been devised." The large number of errors in the wording of many of the articles in the present charter, which render the meaning of many of the provisions either ambiguous or entirely opposite in effect from what was obviously intended, is the first thing noticed in a reading of the present charter. Dr. Hatton stated Saturday afternoon.

A study of the present charter, together with an investigation into local conditions, has occupied all of Dr. Hatton's time practically since his arrival.

**THANKSGIVING PROGRAM OF
EPWORTH LEAGUE TONIGHT**

"How We May Practice Thanksgiv-
ing" is the subject of the Epworth
League program of the First M. E.
Church, to be held tonight. Mrs. H. E.
Taylor is the leader, and the program
is announced as follows:

Song service, led by J. W. Akin, Jr.
Scripture lesson Ephesians 5:20;
Psalms 67:1-7.
Vocal solo—Mrs. Gambel.

"Practice Thanksgiving by Prayer"
—Robert McCulloch.

Piano solo—Mrs. J. W. Akins, Jr.
"Practice Thanksgiving by Cheer-
fulness"—Miss Lulu Smith.

Reading, (selected)—Miss Hallie
Adams.

"Practice Thanksgiving by Faithful
Stewardship"—J. W. Thorne.

Talk—Dr. Hubert D. Knickerbocker.
Closing Remarks—Leader.

Epworth League Benediction.

OLD MAN SANTA CLAUS IS GETTING RIGHT BUSY

Every day our magnificent stock is attracting hosts of early Christmas buyers, who are putting away gems of diamonds, gold and silver for their best gifts.

THE STOCK IS REALLY IRRESISTABLE

From the best diamond cutters, silver and goldsmiths, glass cutters and jewelry manufacturers we have gathered the very choicest of their products, and offer it now for your approval, feeling safe that when you have inspected you will feel as we do that to Wichita comes only the best.

COMPARE WITH ANY THESE INCOMPARABLE LINES:

DIAMONDS

Gems of absolute purity in size from 1-2 carat to 12 carats, in rings, studs, pins and lavallieres, with mountings of old gold, white gold and platinum.

SILVER

Reed & Barton's and Gorham's—the two best makes in the world—in chests of 250 pieces, open sets and single pieces, all in exclusive designs.

CUT GLASS

Hawkes and Pierpont. Deep, heavy cuttings of heaviest crystal glass, in every possible piece from small nappies to vases more than two feet high.

JEWELRY

Every article you could choose for personal adornment. Pins, chains, rings, lavallieres, studs, brooches, cuff links and emblems—and all of purest gold.

And Silver Plated Ware, and Ivory Goods. Electric Lamps, Mantle Clocks, Leather Bags, Silver and Gold Mesh Bags, and Novelties of Every kind—A choice for every person.

WE URGE YOU TO TRADE NOW

So you won't be disappointed later. You will want these things. Everybody does. But you know as well as we do that after the first stock is gone it is hard to repeat on these orders—harder this year than ever because of the great demand and the congested traffic conditions. You can choose any article you wish and if you are not ready to pay for it we will be glad to put it aside until you are ready.

ENCAMPMENT DEGREE OF ODD FELLOWS TO BE ORGANIZED 29TH

The Odd Fellows are expecting an unusually large attendance at their hall Monday night, as letters have been mailed to each member urging them to come out and line up with the encampment. This is almost the last opportunity to get in for the class which it is thought will exceed 100, as some 75 have already made application, and this only includes about one-third of the membership. To say nothing of the many other Odd Fellows residing here.

The Fort Worth team captain writes that the team is in fine shape, and will be here on the afternoon of Monday night, and will have some 25 in their party. Many other noted members are expected to be here. It is expected to have a parade through the principal part of the city upon the arrival of the train from Fort Worth, and all encampment members, candidates or Odd Fellows are expected to take a half day off and get in the parade at the depot.

The ladies of the First M. E. Church, Seventh and Lamar, will serve a turkey banquet to all candidates and members and visitors, at which Odd Fellows may attend, but they will have to be at the meeting Monday night to learn how. It begins at 6:00 p. m.

The big class initiation of Encampment members will start on Saturday night promptly at 7:00.

The Third Degree will be conferred on a number of candidates at the hall Monday night, and the big day and night is the 29th of November.

JUDGE FINDS IN FAVOR LULU PEARL OIL COMPANY

In the 75th district court Saturday afternoon on the final hearing of the case, Judge Scully found for the defendant in the suit of J. M. Damon against the Lulu Pearl Oil Co. The plaintiff had sought to enjoin the company from drilling. The court declined to grant the order on the hearing of the case.

HENRIETTA TEAM HERE THANKSGIVING

Henrietta has been selected as the meet to grace the local high school gridiron bounds "festive board" on Turkey Day. Manager Robinson of the local H. announces The Wichita Falls footballers were rained out last Saturday when they were scheduled to meet the high school team from Gainesville and the enforced absence will be utilized by intensive training in an attempt to finish up a satisfactory season with a decisive victory over a team that is said to be fast and heavy.

The Thanksgiving day game will end the local season and will give the field to the basket ball coaches to train the hopefuls for the coming season.

Satisfactory banking connections have played a large part in the success of oil men operating in Wichita and adjoining counties. The National Bank of Commerce has contributed and is contributing to the development of this most important industry.

At the Churches Today

Christian Science Society.
Lodge Hall 1, O. O. F. Swartz-Wood building, corner 603-605 Scott avenue. Morning service 11:00. Sunday school 9:45 a. m. Subject, "Soul and Body." The public is cordially invited to attend services. All children up to age of 30 years welcome to Sunday school.

First Christian Church.
Corner Tenth and Travis.
Bible school, 9:30 a. m.; morning worship, 10:40 a. m.; Y. P. S. C. E., 6:45 p. m.; evening worship, 7:15 p. m.
The evening service will be a special Thanksgiving service with special music and a sermon on the Thanksgiving season. All residents and visitors to our city are invited to attend. Let us all give thanks for His wonderful works.—J. LEM KEEVIL, Pastor.

Floral Heights Baptist Church.
Corner Tenth and Kemp Blvd.
Bible school at 9:45, preaching at 11 a. m. and 7:15 p. m. The topic for the morning service will be: "The Test of a Man or the Underlying of Character," for the night sermon: "Silent Voices." The Junior B. Y. P. F. will meet at 6 p. m. the Seniors at 8 p. m. The ladies of the church will meet Tuesday at 2:30 p. m. Prayer and lecture Wednesday at 7:30 p. m. Everybody is cordially invited to attend all of these services.—R. W. McCANN, Pastor.

Central Presbyterian Church.
Corner of Eleventh and Bluff.
Preaching at 11 a. m. Sunday school at 9:45 a. m. Rev. Lowrance will preach both morning and evening. A congregational meeting has been called to take place immediately following the morning service for the purpose of calling a supply for the church, also to elect an elder and a deacon. All members are requested to attend this meeting and the general public is cordially invited.—A. F. KERR, Supt.

Epworth League.
The Epworth League of the M. E. Church, South, is still a live one, even though about half of its members have formed the Floral Heights league. A new cabinet has been nominated covering the places made vacant, and selections will be made Sunday night.

A very fine Thanksgiving program is arranged for Sunday night's service starting at 6:15, and the members predict that the league room will be filled to overflowing, and that is all the combined forces could accomplish.

As the preacher has guaranteed to over-run the church at the evening service, and we think his topic will do it, we advise all to come early and attend the league service, and thus be sure of a seat, as all doors will be closed when the room is filled.

First Baptist Church.
Sunday school 9:45 a. m. 11:00 a. m. preaching service; subject, "The Challenge of a Great Opportunity." 5:00 p. m. Junior B. Y. P. F. 6:15 p. m. Senior B. Y. P. F. 7:15 p. m. preaching service; subject, "The Law of Nature Against Sin." Miss Inez Rudy will sing at both services. The church is lining up in a great way for the \$75,000.00 drive on the 30th of November and the pastor is anxious that all the members and resident Baptists may be present on Sunday to hear the final arrangements for going over the top next Sunday. The public is cordially invited to attend all these services.—O. L. POWERS, Pastor.

The Evangelists Are Here.
Dr. E. E. Hendrick and party arrived yesterday afternoon and are ready to begin the revival at the First Presbyterian church this morning. Dr. Hendrick will preach both morning and night. Laurie Mallard will sing at both hours and Dale Haven will give a 15 minute concert before the evening service. He is an artist with the piano and you cannot

afford to miss the treat in store for you. Everybody is invited to these meetings.

First Methodist Church.
Corner Tenth and Lamar.
Morning: Prelude: Largo—Handel. Offertory: Pastoral—Flager. Anthem: "O, Come Let Us Sing"—Blumenbach.
Evening: Sermon—Dr. Knickerbocker. Offertory: Narcissus—Karpasch. Offertory: Narcissus—Nevin. Anthem: Holy Be, (Mass in G)—Miliard.
Sermon—Dr. Knickerbocker. Mrs. E. L. Fulton, choir director; Ila B. Cook, organist.

BIG PAVING CONCERN MAY MOVE TO CITY

Negotiations are under way between E. A. Van Dan Broeck, manager for the Wichita Falls Realty Association, and A. J. Glover, representative of one of the largest paving contractors in the country, which may result in the company moving its entire organization and equipment to Wichita Falls with a view to undertaking a good deal of the paving work here in which it has been difficult to interest local contractors. Mr. Van Dan Broeck states that these people, whose organization is just now finishing up some large paving contracts in Georgia, will be in a position to undertake a large amount of paving, and their coming here, if this is arranged, will give an impetus to paving plans on many of the streets in the newer residence districts.

BANK CLEARINGS LESS THAN FOR PRECEDING WEEK

A decrease of \$466,892.81 in the bank clearings for the week ending Saturday is shown by figures of the clearing given out Saturday, amounting to \$5,573,274.02. Monday led the week with \$1,280,336.87.

The figures for each day are as follows:
Monday, \$1,280,336.87.
Tuesday, \$954,889.87.
Wednesday, \$889,291.50.
Thursday, \$917,564.10.
Friday, \$908,844.02.
Saturday, \$882,357.26.
The total for last week was \$6,159,967.83.

RED CROSS DRIVE BRINGS IN \$6,946.51

Totals for the third roll call by the Red Cross in Wichita county, which came to a close Saturday night, now stand at \$6,946.51, \$5,745.51 for Wichita Falls and \$1200 from Burkburnett,

with Iowa Park and Electra yet to be heard from, according to latest reports from the Chamber of Commerce, where the details of the campaign were handled.

While their results of the campaign did not quite come up to the expectations of the campaign officials, it is stated that the amount is about in line with the quotas fixed by the state headquarters. Wichita Falls quota being placed at about \$6,000.

Two outstanding examples of individual work cited by the campaign leaders are those of O. H. Katz, of the Ball Brothers Glass factory, who, after the committee from the Red Cross

campaign headquarters had gone through the plant, made a second trip and secured 35 memberships, and D. W. Shivers, proprietor of a grocery store located in a tent in Block 35, Northwest field, who secured 48 memberships.

GARAGE AND AUTOMOBILE BURNED FRIDAY NIGHT

Fire of undetermined origin Friday night destroyed a barn, garage, servant house and an Oldsmobile car, belonging to J. C. Joplin, at Marshall

and Lucile streets Friday night. The fire was discovered at 8:30 o'clock and by the time firemen reached the scene several buildings in the vicinity were in great danger. Prompt arrival of firemen, however, prevented the spread of the fire to adjoining buildings. Mr. Joplin estimated his loss at approximately \$1,800.

STREET SURFACING WITH ASPHALT OIL FAVORED BY MAYOR

EQUALLY AS SATISFACTORY, HE
SAYS, AND IS A GREAT DEAL
CHEAPER.

HAS BEEN GIVEN A TEST

In Support of City's Results on Eighth
Street and Brook Between
Eighth and Tenth.

Street surfacing with the heavy asphalt oil such as is being used on the road to the factory and certain other streets in the city is advocated by Mayor Marlow in lieu of paving, plans for which are at present under consideration on many of the streets of the city.

Treatment with this oil, in addition to being a great deal cheaper, is equally as satisfactory with the paving, says the mayor. In support of this he cites the condition of Eighth street, that part of Brook between Eighth and Tenth, and several of the cross streets passed on Tenth driving toward the city from Brook.

"These streets have stood up and shed the water every bit as satisfactorily as the paving, in spite of the fact that the most of them have only been treated with a single coat of the oil when three or four are supposed to be applied," said the mayor in this connection.

Treated with Heavy Oil.
"The street which have stood up best," he says, "are those which have been treated with the heavy oil, which is 45 per cent asphalt, and not with the light oil which we have obtained around here. The heavy oil can be secured and shipped in here in a fraction of the time that it will take to get paving materials, should they be obtainable at all."

"Furthermore, I consider it extremely ill advised to undertake any paving at all this time, even aside from the question as to the possibility of securing the materials, for the reason that the price of materials and the cost of the work at this time are such as to make it almost prohibitive. I believe they will be lower in the future."

Cost Much Less.
"In the meantime this oil can be applied to the streets for almost what the interest on the money it would require to pave would amount to. One car of this oil will be sufficient to give three or four thorough coats about 10 blocks, and, including the freight, its cost will be about \$400 per car, making the cost of treating the street about \$40 to the block. Divide this between property owners on both side of the street, and the cost for each side between the various lot owners, and you will see how reasonable this cost is."

"Another factor which should be considered in this connection is the fact that very little paving could be done during this winter, even if the materials were available, while the oil can be applied during the coldest weather, as it is superheated in the surfacing machine when it is applied."

"Bad weather has thrown us far behind in our treatment of the streets, but I believe that if we could get 30 days of good clear weather we could go far toward catching up with this work, and put the streets of the city in first class condition."

EASTERN STAR HOLDS DELIGHTFUL RECEPTION

The reception of the Order of Eastern Star given Thursday evening in the meeting rooms at the Masonic Temple, proved one of the most successful social affairs of the order's history, there being a large number of their members and their families and friends present to enjoy the excellent program. The reception committee were dressed to represent the different points in the Star, and miniature stars, bearing the date and occasion of the reception formed the souvenirs.

Refreshments of chicken salad, plimeto sandwiches, pickles, olives, hot chocolate, and apple pie also made.

The program was carried out as follows, supplemented by a humorous reading by W. S. Willis, the Worthy Patron, and an address by Colonel Stillman, a visitor.

The program follows:
Address of welcome—Worthy Patron W. S. Willis.
Piano solo, selected—Mrs. J. W. Atkins, Jr.

Violin solo, selected—Miss Marion Maer.
Vocal solo, "June Rose," (Lillian Craig Coffman)—Mrs. Clifford Green.

Reading, selected—Mrs. T. A. Hicks.
Quartet, selected—Miss Jessie Mae Agnew, Miss Underwood, R. S. Shepherd and J. W. Bradley.

Mrs. R. E. Shepherd, accompanist.
Piano solo, "Autumn"—Mrs. Roy Marquardt.

Violin solo, "Souvenir"—Mrs. F. A. Howard.

Piano solo, "Cradle Song"—Harriet Bradley.

Quartet, selected—Misses Agnew and Underwood, Messrs Shepherd and Bradley, Mrs. Shepherd, accompanist.

Reading, selected—Mrs. Will Marquardt.

Violin solo, "Mazurka," (Lehrer) Walter Friberg.

Piano solo, selected—Mrs. D. J. Carothers.

Vocal solo, "Joy of the Morning," Harriet Ware—Miss Catherine Cook.

Piano solos, "Thanksgiving," "I've Been Roaming"—Mrs. H. M. Young.

Violin solo, selected—Pauline Rutledge.

Vocal solo, selected—George C. Taylor.

AMERICANS ATTENTIVE
TO GERMAN FRANCHISE

WITH THE AMERICAN FORCES
in Germany, Nov. 12—Americans, the civilians in the American occupied area complaints, originating with the German men, are often heard to the effect that the American soldiers are "spoiling" the German girls by heaping luxuries upon them and by spending money recklessly for presents, wines and good things to eat.

Since the anti-fraternization regulation was revoked by army headquarters several weeks ago, the cafes in Coblenz have been crowded each night with soldiers and frauleins, and many of the German men have openly asserted that the Americans were entirely too considerate of the German women and girls.

Cafes in Coblenz and other towns in the zone held by United States troops have been doing lately the greatest business of their existence. One in Coblenz which is conducted by two Americans who recently obtained their discharge from the army, seats twenty-two hundred persons. Yet on Sunday afternoons and evenings, the crowd becomes so great, Americans and Germans all together, that on several occasions the military police had to be called to maintain order.

The counsel and co-operation of a progressive but soundly conservative bank are essential to any business interest. The National Bank of Commerce is such an institution and is organized and equipped to furnish specialized service in every line of business building.

PLANS NOW READY FOR JEWISH TEMPLE

Completed plans and specifications for the new Jewish temple to be built at the corner of Burnett and Eleventh streets, will be turned over to the building committee by E. Stanley Field, the architect some time this week. It was stated Saturday. The contract will be let as soon as possible, and all possible haste made in the construction. Dr. David Goldberg, the rabbi, is to be in Wichita Falls for services the first Sunday in December, and until the temple is finished services will be held in a temporary meeting place, to be announced later.

A meeting of the building committee is scheduled to be held some time this week. Philip Kleinman, Leo Markowitz, Louis Pink, Sam Kruger and Morris Marcus, with I. Marowitz, the president of the congregation, compose the building committee.

Women's and Misses' Dresses, Suits and Coats at Special Prices for the Week

The very active selling for the past few weeks has left many of the finer modes (not again obtainable) depleted in size, color and fabric range—but all sizes, colors and materials are included. These are all new garments, recent shipments, and the prices are specially attractive.

DRESSES—There are in this lot of dresses wonderful satins, Georgettes, plain and dropstitch Tricolettes and some most superior serges and tricotines.

COATS—The coats in this lot are all of the popular materials. Some duvetyne, some bolivia cloth, warm, comfortable and attractive in appearance. This array of separate coats and wraps is unequalled in the west.

WOMEN'S SUITS—These suits are all recent arrivals, models that you have not seen before, and the new touches in trimming, of braid, button and embroidery, will appeal to the artistic taste. These garments were well worth the price asked for them, and at the present reduced price they are exceptional bargains.

NEW ARRIVALS

Shipments received yesterday include many new hats, some of them beautifully trimmed with choice furs—new coats, rich in material and novel in trimming—Leather coats in both long and short lengths, made made of the softest calf-skin and lined with silk or chamois.

A visit to this store Monday will really repay you.

WELFARE SOCIETY TO BE ORGANIZED THANKSGIVING DAY

THIS WILL FEATURE UNION
SERVICE AT FIRST PRESBY-
TERIAN CHURCH.

SERMON BY REV. POWERS

Welfare Society to be broader in
scope than former charity
organization.

Organization of a Welfare Society, to take the place and perform the duties of the United Charities, will feature the Union Thanksgiving Services, which will be held Thursday, November 27, at the First Presbyterian Church. It has been the custom of the Wichita Falls church for years to make Thanksgiving Day the day in which the annual fund for the care of the poor of the city, was subscribed, and the officers of the organization, which with the Salvation Army administered the fund, were elected on this day and this is again followed.

Rev. O. L. Powers, pastor of the First Baptist Church will preach the Thanksgiving sermon, and the choir of the First Presbyterian Church will supply the music. The devotional program will precede the business meeting.

A new and broader organization is to be formed at this Thanksgiving service, tentative plans for which have been made at meetings of various civic organizations last week. In forming plans for the new Welfare Society, J. C. Hunt, president of the United Charities, visited Dallas and studied the plan of organization in that city, and on Thursday a committee of representatives of the churches and civic organizations will be named to form a city organization, which will have a wider scope of activity than the old organization.

In the past, years the Salvation Army has very efficiently administered the funds given by the people of the Wichita Falls churches, said Mr. Hunt Saturday. "Now, however, the sudden growth of the city has enlarged the Salvation Army's task to such an extent that we can no longer burden them. There are other responsibilities placed on the churches, not only charity, and now is the time to form an organization, to meet the increased demands of the church people of Wichita Falls. In Dallas there are many branches of the Welfare Society, which do not administer charity, but help people help themselves. It is our plan to have some of the experienced men, or women, in work of this sort in other cities, come to Wichita Falls and give us some assistance in organization. There is a very pressing need for an organization of this sort in Wichita Falls, and Thanksgiving day is considered as a fitting time for it to be started. The Rotary club has already named representatives on the committee for this society, and the Wichita Club and Civic League are also expected to do so, and a successful organization, with backing of the various forces for good in the community, a successful organization is assured."

COMMON SENSE DRESSES DISPLAYED BY DOMESTIC ART DEPARTMENT OF H. S.

The domestic art department of the local high school has a very pleasing and interesting display of common sense dresses made by students in this department as a part of their regular work on display in Anderson's show window. One thing that impresses men in this exhibit is the useful designs that are shown—there are none of the frills and furbelows that are so easy to look upon but so utterly useless as wearing apparel. Most of the garments were made by girls in their first year of this sort of work and shows the department, supervised by Miss Zelma Miller, is teaching something "that is of real value."

BLAIR'S COMEDIANS PLAY "LITTLE GIRL OF THE SEA"

Saturday night Jesse Blair's Comedians gave their final performance of "Let Jimmie Do It" to a good sized house. The bill selected for Monday, Tuesday and Wednesday of this week is the beautiful farce-comedy drama, "The Little Girl of the Sea," a story of heart interest constructed along melodramatic lines and in such fashion as to exhibit its literary merit together with its dramatic worth.

The story deals with a man who for a score of years has labored under the hallucination that he has committed a murder. So positive is his belief in his own guilt that he surrenders himself to the authorities and is given a prison sentence. In order that his daughter, "Flores," be spared the ignominy of being the child of a murderer, he declares he is not her father, but that she is a waif of the sea. The child does not waver in her devotion and allegiance, but insists that she is his child.

The intermingling of comedy and pathos makes the whole four acts of the play team with attractiveness. The interest never flags.

Jesse Blair in the role of Edward Elmer and Hazel Blair in that of "Flores," the little girl of the sea, are given excellent support. The scenic equipment and electrical effects are complete and aid in giving a thorough presentation of a truly meritorious play.

Dr. G. H. Allen of the city food and dairy inspection department, was again in the city hall Saturday after being confined to his home for five days from a slight touch of grippe.

Lenzie Barons, negro, who resides at 1500 Burnett street, reported to the police Saturday night that his house had been entered and \$10 in money taken. Police are investigating the case.

Art Supplies, Decorators Co., 715 Ninth street. 172-11c

Your banking relations should be characterized not only by efficiency in banking routine, but also by co-operation which is founded upon understanding. The National Bank of Commerce aims to supply intelligent service and to have its customers grow with it. 173-11c

JEWEL V CO. HAS A 1500 BARREL WELL

A flowing well, which has now been shut in, while the standardization is in process, was completed on the Jewel V Oil Co.'s ten acres in block 37, this week, by the Marigold Oil Co., which has bought the Cannon and Hobbs contract on 7.12 acres of the lease. The well is estimated to be in excess of 1,500 barrels.

In the northwest corner of the lease Cannon and Hobbs have the No. 3 Jewel V down 1,000 feet and state they will have a completed well by the last of this week. The same contractors are working on the No. 1 hole of the Jewel V and have a prospect of bringing in a good well at an early date. In the old hole, which was practically abandoned some time ago, this Jewel V property early in the development of the northward trend of the field, was unfortunate in losing the first hole, and this being at a time when there were no wells past the property, there was fear expressed that the land was dry. It was only a short time until some of the biggest wells in the field were brought in in the neighborhood and the opinion that the oil was in the company—A. J. Viets—had maintained that the hole was ruined, and was not dry, was borne out by the developments. The contract to develop 7.12 acres of the 10, Cannon and Hobbs retained the remaining 2.12 acres, on which the old hole is located and where the third well is now nearing completion. Two other new holes are going down.

ADVANCE IN OIL PLAYS HAVOC WITH SHORT LINES

Advances in crude posted by the big pipe line companies is playing havoc with the business of the short lines, according to local operators, and has seemingly brought home to them the fact that the days of \$1 to \$1.50 oil in the Burk Burnett field, during which they reaped a veritable harvest, has gone not to return. "They are getting practically no oil except that they have tied up in contracts," said one of these operators. "They realize that the game they have been playing in the last few weeks is up, and are now making an effort to hedge against a time when they may have to pay a premium to get oil by buying production before the prices of such properties has made any particularly notable advance."

The approaching completion of several of the big lines has also served to help bring this situation home to the short lines. Their oil contracts are fast running out, and several which have run out since the fight against the low prices were on have not been renewed, so they realize that they must either own the production themselves, or prepare to meet the posted prices with a premium on top of the field. The prices they are offering have been climbing fast toward the levels set by the big companies, but failure to secure oil has made it evident that they still have some to climb.

GENERAL OIL CO. TO SOON TEST ITS WELL

Material is now being hauled to the General Oil Company's lease for a three inch gathering line from the well to the Texas Company line, about three miles distant, it is reported from the General Company's office. The oil is to be taken to the General Refinery, formerly the Power refinery, just outside Wichita Falls, the pipe line company agreeing to transport the oil to the refinery if it was delivered to the main line. It was stated Saturday. At present there are no pipe line facilities closer than three miles, and the company with prospects of still other production, from the new operations, is building its own line to the pipe line.

The tanks are reported completed at the well, and a test run can be made in a short time.

The General Company is in the midst of extensive construction at the refinery, which will increase the capacity to 6,000 barrels. It is stated, was the intention originally to increase the capacity to 3,000 barrels, and this construction work has been practically completed. The 500 barrel agitator has been practically completed, and other extensive additions are either completed or under construction. A great quantity of material to be used in the future enlarging of the plant is in transit, and still more has been ordered.

COX FILES ANSWER TO CHARGES OF COMMISSION

Special to The Times.
WASHINGTON, Nov. 22.—S. E. J. Cox of Houston, against whom the Federal Trade Commission filed a

complaint last October charging him with unfair trade competition in promoting various oil companies in Texas, has filed his answer with the commission. He denies the charges in the complaint in toto regarding the charge that he advertised that one of his companies had paid a 200 per cent dividend. He declares the dividend was paid legitimately and not for the purpose of unlawfully promoting the interests of other concerns in which he is interested. He says he can prove that he has performed greater services to holders of stock in his companies than he has advertised and that he has made no assertions in his advertisements that he has not carried out. The commission cited him for advertising payment of 200 per cent dividends by one of his companies and for advertising payment of 2 per cent monthly dividends in another. This he says, he has done and in the second instance actually paid three instead of two per cent.

Mrs. Cox recently attracted national attention by making a flight from Houston to New York and return with her young son in a giant aeroplane.

MORE OF COMPANIES RAISE PRICE OF OIL

Posted prices of Burkburnett crude were more firmly fixed in the new high level of \$2.50 Saturday when the Gulf and Humble companies posted advances bringing their prices to that figure, effective Saturday at 7 a. m., and meeting the price announced by the Magnolia on Friday. An advance in the Texas Company price from \$2.25 to \$2.25 was announced late Friday night. The price of the Sinclair Consolidated remains at \$2.25, the new price announced by them at the time of the first advances.

CHARTER IS RECEIVED FOR SECURITY BANK

The charter for the Security National Bank, capitalized at \$400,000, was received Saturday from the U. S. Comptroller of Currency, W. Newton Maer, first vice president of the new financial institution, stated Saturday night. Mr. Maer was instrumental in organizing the new financial institution, of which J. I. Staley is president, and C. C. Cabless, vice president. The board of directors includes a number of prominent oil operators, but has not yet been made public.

The new bank will probably not open for business for two or three months, R. Maer stated Saturday. The quarters at present occupied by the City National Bank, in the Kemp & Roll building, now owned by Mrs. Lillis Morgan, have been reserved for the home of the new bank.

TO REMODEL WHEELS OF HOSE TRUCK NUMBER 2

The Southern Tire and Vulcanizing Co. has been given the order to remodel the wheels of the hose truck number 2 of the local fire department so as to make it possible to equip them with 8x7 Firestone Non-Skid Cords. This work is necessitated by the blowout suffered at the fire Friday night of the last tire of the 40x6 size possessed by the department and the impossibility of securing any more tires of this size, due to the fact that the tire companies have discontinued the manufacture of tires of this size.

The Times Job Printing Company wants your printing. We offer you good service and good work. Phone 2175. 177-11c

OPEN HEARING IN THE POLICE CONTROVERSY EXPECTED THIS WEEK

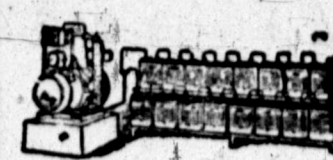

An open hearing in which all underlying facts in connection with the controversy between the council and Fred K. Smith, chief of police, and the reasons which impel the council to name Robert Goodfellow assistant police commissioner, is considered a probability for one day during the coming week, the exact date is announced later. A special effort will be made to secure the attendance of all interested in the matter to be present at this time, in order that the council's position on the matter may be made clear to the public.

Chief Smith announced Saturday night that he was still engaged in drawing up his report in regard to the finances of the police department, and would be able to make this public early in the week.

W. J. Bullock who is now located at Bentonville, Ark., arrived Saturday to spend a week in Wichita Falls.

C. A. Bryant, Jr., of Dallas is in the city on business connected with the installation of the seats in the local schools.

The counsel and co-operation of a progressive and soundly conservative are essential to any business interest. The National Bank of Commerce is such an institution and is organized and equipped to furnish specialized service in every line of business building. 177-11c

Harvard Defeats Yale 10 to 3

ANNUAL FOOTBALL
CLASSIC WITNESSED
BY 50,000 PEOPLE

CAMBRIDGE, MASS., Nov. 22.—Harvard today defeated Yale by a score of 10 to 3 in their annual football classic before 50,000 spectators in the stadium which was crowded as never before. Spectators will long remember the field goal kicked by Braden for Yale's only score in the last period. The ball carrier 53 yards with a 25 mile wind through the center of the Harvard goal, after Braden had booted it with his line bending under a strong crimson attack.

Scarcely less notable was Casey's touchdown for Harvard, gained in the second period through the surprise accomplishment of a forward pass. The Harvard star, catching a pass thrown 16 yards by Quarterback Felton, ran from Yale's 22 yard line to the goal, using all his qualities of elusiveness and speed to avert overtaking by the Yale pursuers, Kempton and Reinhardt. The Crimson touchdown was completed by a goal kicked by Ralph Horween. The latter, in the first period, had sent Harvard ahead with a field goal booted from the 40 yard line.

Backfield Delivers.
Harvard's backfield, as represented by Casey and Ralph Horween, furnished the punches which registered the Crimson victory. The Crimson line supplied a defense, which, under menace of a Blue touchdown in the third period held fast six inches from its goal and robbed Yale of a tie and of the ball. It was virtually the only sustain show of strength by Yale, in the game.

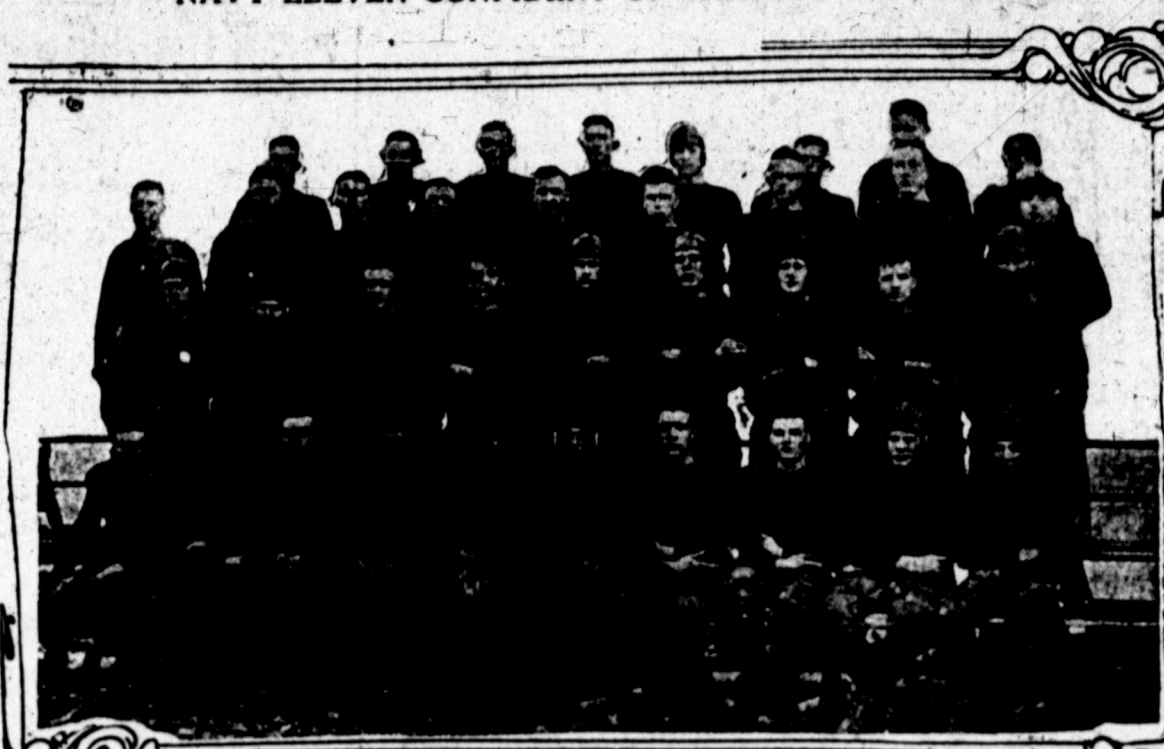

The Blue team was its own greatest enemy today. It fumbled frequently. Four times the ball halted for the Harvard goal was lost to Yale and turned against the Blue by fumbles in the Yale backfield. On four other occasions, Yale players lost the pigskin but their errors were retrieved by fellow players. Men who have followed football for years said there had never been so much faulty handling of the ball in any other big game.

Summary of Play.
The point to which Yale fumbles cost the Blue the advantage of its rushing strength today is shown in a summary of the play. Yale gained 207 yards in 57 rushes, as compared with 32 yards advanced in 29 Crimson rushes. Harvard lost 12 yards in five negative attempts and Yale forfeited 12 yards in two unsuccessful efforts.

Kicking honors were virtually even, the several men kicking for each team averaging 33 yards. Yale losing the ball so frequently by fumbles, punted only 11 times as compared with 20 Harvard kicks from scrimmage. Running back to punts gave Harvard a total of 29 yards and Yale 75, but much time the receiving player either elected a fair catch or was downed without gain.

The forward pass, medium of Yale's successful touchdown thrust, gave

NAVY ELEVEN CONFIDENT OF WINNING BIG GAME

NAVY FOOTBALL SQUAD WHICH MEETS ARMY NOV 29

With Navy cocked and primed to lift the Army's tawny toupee in the farewell football struggle of the autumn at the Polo Ground, New York, on November 29, confidence of victory in the big game is growing among the midshipmen at Annapolis. And at West Point, too, optimism is soaring as the Army sweeps on with encouraging progress through a campaign turning out far better than it had promised two months ago.

MIKE GIBBONS DECLARES HE'S THROUGH WITH RING

ST. PAUL, MINN., Nov. 22.—Mike Gibbons, the St. Paul phantom, today announced through the Associated Press that he has decided to retire permanently from the ring. Gibbons, who is considered quite wealthy and who has a family, said today he gave his promise to Mrs. Gibbons that he will never again participate in a ring battle.

Gibbons gave the following statement to the Associated Press: "For a long time Mrs. Gibbons has urged me to give up boxing. I realize, of course, that I might stay in the game for a little while longer, but I have decided that such a course would not be practical. This is to announce my permanent retirement."

OKLAHOMA DEFEATS THE KANSAS AGGIES

MANHATTAN, KANS., Nov. 22.—In a game featured by a number of long runs by members of both teams, the University of Oklahoma eleven defeated the Kansas Aggies here today, 14 to 3.

The Aggies played a strong defensive game against the Sooners, who averaged 15 pounds heavier to the man, and frequently resorted to punts to save their goal. The only

score for the local team was made in the third period when Huston placed a drop kick from the 25 yard line after Quinlan had picked up an Oklahoma fumble and ran 50 yards. Huston made a spectacular run of 30 yards from the Oklahoma kickoff and started the Aggies toward a touchdown, but an intercepted forward pass stopped them.

Oklahoma's first score came in the first when Tyler caught a forward pass and ran 25 yards, starting a series of end runs that put him across for a touchdown. In the second period the Sooners reached the end zone by a series of end runs and forward passes but the Aggie line held.

PATE BREAKS 50 TARGETS WITHOUT MISSING SATURDAY

The big turkey put up as a prize for the high gun at the weekly shoot of the Wichita Gun Club Saturday afternoon went to Joe Pate with a perfect score of 50 straight targets broken out of 50 thrown from unknown angles. Under the club's sliding handicap rules any shooter who breaks 50 straight wins over handicap scores so the number of others who scored 50 with the aid of their handicaps were saved the excitement of a run-off by the consistent and unerring shooting of the said Pate. Williams took second place with 48 out of 50 targets shattered and Sheldon, Pope, Loveland, Gallagher and Mankin all scored 50 breaks with the aid of their handicaps.

Secretary Nabb and Charlie Greenberg had their weekly battle, this time made interesting by the fact that a valuable oil lease which Charlie had relieved some out of the market at stake. One way of expressing the outcome of the contest is to say that Mr. Greenberg is indifferent whether they find oil on this particular lease. Mankin of the Dallas club was present and upheld the reputation of the Dallasites have for trapshooting by breaking 47 out of 50.

A shoot to consist of 100 targets, the prizes to be awarded consisting of merchandise, is being arranged for Thanksgiving, to start promptly at 9 o'clock so that the shooters will be home in time to "put their feet under the mahogany" for the turkey feed. Further details will be announced later.

Saturday's scores were as follows:

Shooter	Score
Pate, C. J.	50
Williams, F. P.	48
Mankin	47
Sheldon, C. P.	46
Teatherage	46
Nabb, J. L.	44
Gallagher	43
Adams	41
Goatcher, J.	40
Remming	39
Sheldon, Ray	38
Pope	37
Adrian	36
Loveland	35
Greenberg	34
Terry	33
Kerr, S.	32
Cully	31
Kniff, G.	30
Koonen	29

GOLF TOURNAMENT HERE ON THANKSGIVING DAY

Much interest is being taken in the tournament scheduled to be given under the auspices of the Golf Club here on Thanksgiving Day. The "Golfers' Magazine" of Chicago is offering a silver cup for the ensuing golf season and scores will be kept at the local tournament in connection with the Chicago paper's contest.

Donald Mackay, widely known professional golf player of Springfield, Ohio, has arrived in Wichita Falls and is giving instruction to members of the local golf club.

GOAL FROM PLACEMENT PRICKED THE BUBBLE OF OHIO STATE'S HOPE

COLUMBUS, OHIO, Nov. 22.—With half a minute left to play and the Buckeye leading by one point, a goal from placement pricked the bubble of Ohio State's hopes, and tonight Illinois stands supreme in the western conference football world by virtue of a 3 to 7 victory over the Ohio eleven. Illinois quarterback, won for himself a lasting niche in the Orange and Blue hall of fame by successfully negotiating the try for placement from the local team's 26 yard line.

Fighting bitterly from the first minute of play, both levies displayed ragged football in the first half, while brilliant play marked the final two periods. Unable to gain through the Ohio line, the Illinois team effectively used long forward passes, which eventually cost the Buckeyes the game.

SUBSTITUTE WINS THE GAME FOR WISCONSIN

CHICAGO, Nov. 22.—A brilliant sixty yard dash by Allen Davey, who entered the game as a substitute quarterback in the last three minutes of play, gave Wisconsin a 19 to 3 victory over Chicago, before a crowd of 26,000 persons who turned out to witness the final game of the western conference race today. Davey squirmed through the entire Chicago team for the touch-down.

ALABAMA DEFEATS GEORGIA UNIVERSITY

ATLANTA, GA., Nov. 22.—The University of Alabama team defeated the University of Georgia here this afternoon, 6 to 0. While O'Conner's educated toe sent the oval over for the two field goals that made up Alabama's score, it was the dashing style of attack that enabled the Alabama team to hold the Georgians in check and keep them from getting within scoring distance.

KING JOHN WINS THE MANCHESTER CUP EVENT

MANCHESTER, ENG., Nov. 22 (via Montreal).—King John, owned by Captain Giles Loder, won the Manchester cup event, run here today. The odds were 13 to 2 against.

MICHIGAN HELPLESS BEFORE MINNESOTA

ANN ARBOR, MICH., Nov. 22.—Michigan was virtually helpless before the powerful line plunges of Minnesota today and wound up a disastrous football season with a 34 to 7 defeat at the hands of the Gophers. The Wolverines were outclassed.

BAYLOR UNIVERSITY AND SOUTHERN METHODIST TIE

WACO, TEX., Nov. 22.—In a game with honors as evenly divided as possible, Southern Methodist University and Baylor University played a 7 to 7 deadlock here today. Dotson and Kitta were the outstanding stars.

ELECTRA AND CHILDRESS PLAY THANKSGIVING DAY

ELECTRA, Nov. 22.—The Electra high school will play the Childress high here Thanksgiving day. The game between the Plainview and Electra teams scheduled for today was postponed on account of the bad weather. This game will be played at a later date. Both teams are claiming the championship of Northwest Texas.

Notice to W. O. W. 456.

All members are urged to meet at I. O. O. F. Hall, 621 1/2 Street on Friday night, November 28, at 8 p. m.—J. P. Detlers, clerk.

Great Thanksgiving Service.

CIVIC LEAGUE PLANS "PAY YOUR POLL TAX" DRIVE AMONG WOMEN

The Civic League will make plans for a "Pay Your Poll Tax" campaign among the women of Wichita Falls and Wichita county at the December meeting, to be held December 2. Mrs. T. B. Smock, the president, stated Saturday, and the other clubs of the city will have the movement presented to them at their regular meetings this week or Mrs. S. H. Burnside. This movement is one of the principal results of the 22nd annual convention of the Texas Federation of Women's Clubs, held at Port Arthur this past week, at which Wichita Falls clubs were represented by Mrs. Smock and Mrs. Burnside.

"Development of the women of Texas into a powerful political factor, and the Americanization of the children, through a better and more thoroughly patriotic education, were the two main issues at the Port Arthur meeting," said Mrs. T. B. Smock, who returned Friday afternoon. "Practically every man and woman who took part on the program brought out the fact that the women must act now, if they wish the privileges of suffrage, and that they must prepare to vote despite the allegations that are made that their enfranchisement even in the partial sense of state primaries, is illegal and that they will not be permitted the exercise of the ballot. This is but an effort of the enemies of women's suffrage to defeat the measure, by making the women believe they can not vote, and then using their apathy and failure to pay poll tax as an argument to show that the women do not want to vote, and take an interest in enfranchisement, and consequently should not have the vote. The Federation of Women's Clubs has undertaken to combat this, and to start a movement to elect men who are for suffrage, and every club woman at the federation meeting is pledged to be an apostle of this movement. We will present the matter to the various clubs of the city, and county, and hope that there will be a large number of women who have paid their poll taxes before the time expires."

Better pay for teachers, as a very potent factor in maintaining a high standard of education, was also strongly advocated at the federation. Mrs. Smock added. The fundamentals of good citizenship to be taught in the schools from the beginning grade up, as a potent factor in the Americanization of children, was stressed. Mrs. Smock visited the municipal market in Houston, before returning home, and also visited the municipal abbatoir at Port Arthur and at Beaumont. All three of the institutions were found to be very successful, and since both the abbatoir and the municipal market have been endorsed by various civic organizations in Wichita Falls, as an end to which to work, Mrs. Smock, as president of the federation meeting, must be interested in the details of operation.

ROADS TO ARCHER CITY AND ELECTRA ARE BAD

Roads between Wichita Falls and Archer City are impassable, with at least six cars stuck in the mud, according to Fred W. Hammer, government road reporter. Roads to Electra are stiff and clayey, but passable.

Your banking relations should be characterized not only by efficiency in banking routine, but also by co-operation which is founded upon understanding. The National Bank of Commerce aims to supply intelligent service and to have its customers grow with it.

TWO ARE ARRESTED IN ACT OF TAKING BUICK AUTOMOBILE

A neat piece of headwork by Chief of Police Fred Smith Saturday night resulted in the arrest of two men,

giving their residences as Wagoner, Oklahoma, on a charge of attempted theft of an automobile, the arrest having been made by the chief, assisted by Detectives Overby and Aldridge just after the men had climbed into the car, a Buick, which was parked at the postoffice, and were attempting to get it started.

Chief Smith's attention was directed toward the men, and his suspicions aroused, by observing an over-careful examination of a number of parked cars. He followed the men over much of the business district, and when, spotting the Buick, they evidently found a car which suited their purpose and climbed in, the

chief halted the two detectives and with their assistance made the arrest. The prisoners were turned over to the county authorities.

VISIBLE RESULTS OF CLEAN-UP CAMPAIGN LITTLE IN EVIDENCE

With the first week of the clean-up campaign past the results in the downtown district, at least those

which strike the eye, are seemingly about nil. An occasional attempt to sweep a sidewalk in front of a business house may be in evidence, but in most cases stands out as a solitary example in its block of a deathly attempt to achieve a state of cleanliness.

So far as can be learned there has been one complaint filed in the police court on a charge of failure to sweep a sidewalk in front of a business house in the downtown district, and this case was passed by the court and the defendant told that if he were wanted again he would be sent for. He has evidently not been wanted, for he has not been sent for since, as far as can be learned.

Drilling Contracts Wanted By WEAVER-KOWNSLAR DRILLING COMPANY

We now have 2 good rotary rigs idle at Burkburnett and would like to get in communication with party or parties with good acreage they want drilled. We prefer taking contracts on good acreage near K. M. A. or General Oil Company's new well near Red River.

OUR RECORD

We have drilled 38 wells in the Burkburnett field.
Have never lost a hole.
Have had only one fishing job that held us more than 24 hours.
That job held us only 5 days.

TIMES DAILY MARKETS

New York Stocks, Grain and Provisions, Cotton and Livestock.

COTTON MARKET.

NEW YORK, Nov. 22.—While showing some further nervousness and irregularity, the cotton market was less active today and the tone was decidedly steadier on more bullish spot advice, prospects for large exports again next week and rumors late in the morning that important announcements from international banking interests regarding exchange rates might be expected on Monday. January contracts sold up from 34.23 to 34.50 and the market closed firm at a net advance of 26 to 34 points.

The opening was steady at a decline of 1 point on January, but generally 15 to 25 points higher on the increased spinners' takings shown by the weekly figures and the larger spot business reported in the southwest yesterday.

After selling up to 36 cents on December and 32.50 on March, there were reactions under realizing or renewed liquidation, but this soon ran its course and the market turned firmer into the morning on covering by near-month shorts and Wall Street was a particularly good buyer on the late advance to 36.50 for December and 32.50 for March. Closing prices were within a few points of the best.

New Orleans Cotton.

NEW ORLEANS, Nov. 22.—Prices were higher from the opening to the close in the cotton market today, last prices showing net gains of 35 to 60 points. At the highest—the trading months were 57 to 59 points up. Buying of the session was mainly in response to a better feeling regarding both the coal strike and the money market. Throughout the session the demand for covers from shorts who wanted to even up over the week end was persistent.

The export movement again attracted attention, total clearings for the day being 30,145 bales against 15,727 the day last year.

GRAIN AND PROVISIONS.

CHICAGO, Nov. 22.—Buying of corn received a stimulus today from talk of export business at the seaboard and from attempts to anticipate market effects of a settlement of the coal strike. Closing prices were unsettled, 14 cent to 15 cent not higher, with December \$1.35 1/2 to \$1.37 1/2 and May \$1.23 1/2 to \$1.25 1/2. Oats gained 1/8 to 1/4, 1/2 cent. In provisions the outcome varied from 10 cents decline to 25 cents advance.

Corn traders at first showed a disposition to favor the bear side owing to fresh moves which the government had put into effect to reduce the cost of living. Word that purchases of corn had been made at the seaboard for distilling interests caused a rally in the market here which gained further momentum from gains in a settlement of the coal strike which would be interpreted bullishly. Week-end covering on the part of shorts did a good deal to give values a lift.

Oats were ruled almost entirely by the action of corn.

Provisions averaged higher owing in the main to higher quotations on hogs.

NEW YORK STOCKS.

NEW YORK, Nov. 22.—Trading in stocks today was dull and altogether professional. The only interesting features were presented by several highly speculative issues in which further covering of short contracts was under way.

Foremost among the shares were General Motors, Pierce Arrow, Crucible Steel

Market Review

NEW YORK, Nov. 22.—Stocks suffered further drastic liquidation in the first half of this week but made measurable and, in several important cases, more than full recoveries later.

Aside from the violent effect of successive tumbles and recoveries in foreign exchange and in general securities, the main influence on the corn market was the rapidly growing shortage of coal.

For the most part, oats merely paralleled the changes in the corn market.

Talk of foreign repudiation of purchases of lard was a special source of weakness in provisions.

LIVESTOCK.

Fort Worth Live Stock.
FORT WORTH, TEX., Nov. 22.—Cattle receipts, 1,500; steady. Horses, 3,000; 11:00; stockers, \$7.75@9.75; cows, \$6.00@8.00; heifers, \$7.50@10.50; bulls, \$5.00@7.00; calves, \$7.00@11.50.

Hogs, receipts, 2,500; quarter lower. Light, \$14.00@14.25; medium, \$13.50@14.00; heavy, \$13.00@13.50.

Net changes for the week here: Corn 1/2 cent decline to 1 1/2 cents advance; oats a shade to 1/2 cent down, and provisions varying from 1/10 lower to a rise of 30 cents.

Aside from the violent effect of successive tumbles and recoveries in foreign exchange and in general securities, the main influence on the corn market was the rapidly growing shortage of coal.

For the most part, oats merely paralleled the changes in the corn market.

Talk of foreign repudiation of purchases of lard was a special source of weakness in provisions.

COUCH-
WINFREYDIVIDENDS
SUCCESSThe Bankers and Merchants Petroleum Company Fortified
By the Brains of These Men Forges Ahead to Triumph

In the Great Homer Field There are Twenty Acres of the Very Best—Where the Great Gushers are roaring in nearly every day—enriching thousands of worthy and far-sighted investors. This twenty-acre tract in the Claiborne Parish, Louisiana, is the property of the Bankers and Merchants Petroleum Company—just think of the value of this property—even before it is drilled, IT IS TREMENDOUS. Look it up on the map—Section 22-20-4. The acreage as a single asset is greater than many that have been combined.

The Burkburnett Northwest Extension—Literally Starbled the World. A Great Gusher Came in One day—rather unexpectedly—flowing 7,000 barrels of oil from the sands, nearly beyond belief it seemed! This well that came to be known as the Texas Chief! But greater still, others followed and so they continue to follow in rapid succession—the Hartford and the Waukena right in the very heart; in the very shadows of these million makers, is the drilling site of the Bankers and Merchants Petroleum Company. Five acres in block 96 is the site of wells 3 and 4. Every one believes these wells will be equally as good as their close neighbors.

The Acreage of This Company Covers the Proven and Defined Oil Areas of Texas and Louisiana Like a giant checker board—the increase in the valuation of these leases may in itself mean fortune. 40 acres out of the Holloway tract, in block 61, Parker county school lands located in Clay county about three miles southeast of the town of Petrolia, Texas; 3 acres about 2 miles a little east of south of the town of Petrolia, Texas; 144 acres out of subdivision Nos. 29 and 30 of Calhoun county school lands located in Montague county, Texas; 120 acres in Section 33, San Saba county, Texas, (this tract being about one-half mile from the Marion Oil Company's well which is now drilling); 320 acres in Section 34, Knox county, Texas, and is but a short distance west of DeLeon Petroleum Company's well, now drilling; 40 acres of the John W. Harris subdivision of the club ranch, in Archer county, Texas, and there are a number of wells drilling in this vicinity; 10 acres out of the T. M. Broad subdivision of the H. J. Harmon survey, located in Baytown county, Texas.

Couch and Winfrey, Two Names That Are on the Lips of Hundreds of Stockholders. They are the men who PAID 100 per cent in dividends to their stockholders since November, 1918. Known the world over as one of the most successful oil companies in which the public were privileged to participate. These two men were the driving force behind that company—they are as well the men behind the Bankers and Merchants Petroleum Company.

R. T. Couch Holds the Chair of President of the Bankers and Merchants Petroleum Company, While M. F. Winfrey is the Secretary—under their administration consensus of opinion is free in stating that Bankers and Merchants will be one of the largest producing and dividend paying companies of the great Southwest.

The Bankers and Merchants Petroleum Company Paid—Beginning November 10, 1919—a 2 Per Cent guaranteed dividend—equal to 24 per cent per annum. These are not profits in the making but are profits from the present settled production. A guarantee is given that you will receive a monthly dividend of 2 per cent on the par value of your stock on the tenth of the month beginning the present month. You will note that the coupon if your temporary guarantee.

The Next Guaranteed Monthly Dividend Will Be Paid December 10. In Order to Qualify for this Dividend your subscription must be sent in early. Otherwise, the issue may be oversubscribed, in which event we reserve the right to return your subscription.

1,480 Per Cent Per Annum or 123 Per Cent Per Month Are Possibilities—If Well 3 or 4 in the Burkburnett Northwest Extension should by chance be NO BETTER than the TEXAS CHIEF which was reported in at 7,000 barrels, this additional production would enable BANKERS AND MERCHANTS PETROLEUM COMPANY to pay a dividend upon their present guarantee plan of 1480 per cent per annum. Make your checks payable to either THE SOUTHWESTERN TRUST COMPANY, THE NATIONAL BANK OF COMMERCE of Fort Worth, or the FARMERS AND MERCHANTS NATIONAL BANK, and mail them, attached to the application below:

Invest your money in this great dividend paying company which links the fortunes of Burkburnett and Homes.

PRINCE SAYS GOODBYE
TO AMERICAN PEOPLE

NEW YORK, Nov. 22.—The Prince of Wales said goodbye to America today and sailed for his own land. The cheers of thousands of New Yorkers whose friendship he had won during his brief visit rang in his ears as the great battle cruiser Renown weighed anchor and steamed down the North River. Edward Albert waved his farewell from the fighting top of the vessel to the great crowd gathered on the banks of the Hudson to bid him Godspeed.

REJECTION OF TREATY
MEANS A BIG NAVY

ARRON, O., Nov. 22.—Rejection of the League of Nations covenant by congress will be the signal for a great naval program, Secretary of the Navy Daniels said in an address here today, before the Chamber of Commerce. The United States will need a navy large enough to oppose the best navies in the world, he said. "If the League of Nations is defeated," Daniels announced, he would ask congress to appropriate \$5,000,000 for the construction of lighter-than-air craft at the Wingfoot Lake Naval Air Station.

ELECT OFFICERS FOR
CONSUMERS LEAGUE

LOUISVILLE, KY., Nov. 22.—At a session which closed late last night, the convention of the National Consumers' League unanimously re-elected Secretary of War Baker as its president for the ensuing year. Resolutions were adopted calling for an eight hour day for women, and placing the league on record in favor of the Kynon-Kendrick bill which proposes licensing the packing industry.

PRINCE SAYS GOODBYE
TO AMERICAN PEOPLE

NEW YORK, Nov. 22.—The Prince of Wales said goodbye to America today and sailed for his own land. The cheers of thousands of New Yorkers whose friendship he had won during his brief visit rang in his ears as the great battle cruiser Renown weighed anchor and steamed down the North River. Edward Albert waved his farewell from the fighting top of the vessel to the great crowd gathered on the banks of the Hudson to bid him Godspeed.

REJECTION OF TREATY
MEANS A BIG NAVY

ARRON, O., Nov. 22.—Rejection of the League of Nations covenant by congress will be the signal for a great naval program, Secretary of the Navy Daniels said in an address here today, before the Chamber of Commerce. The United States will need a navy large enough to oppose the best navies in the world, he said. "If the League of Nations is defeated," Daniels announced, he would ask congress to appropriate \$5,000,000 for the construction of lighter-than-air craft at the Wingfoot Lake Naval Air Station.

TO AMERICAN PEOPLE

EMMA GOLDMAN

Submitting a bill to Congress for the suppression of anarchy and violence, the Department of Justice has prepared a complete record of the activities and writings of Emma Goldman. Connected with the story of Emma Goldman is part of the record of Alexander Berkman, who, with Emma Goldman, has been sentenced to deportation for obstructing the draft. This document was given out in reply to a debate inquiry as to what has been done to deport the pair.

TESTIFIES PANDOLFO
PAID SMALL DIVIDEND

CHICAGO, Nov. 22.—S. C. Pandolfo's Pan-American Investment Company of Texas only paid A. T. Mills of the Mills Engraving Company of San Antonio, Texas, a few cents dividends, according to an affidavit read by government counsel today at the trial of President Pandolfo and 12 other officials of the Pan-Motor Company charged with using the mails to defraud. Mills declared in his affidavit that he considered his stock in the investment company worth less than he paid for it.

Griddle Cakes

Light, tender, golden brown—no other griddle cakes are like those baked with Calumet. No substitute will give you the same result as

CALUMET

BAKING POWDER

Its purity contributes to the wholesomeness of your bakings. It's pure in the can and pure in the baking.

This superiority—this exceptional quality of Calumet—does not cost you a cent extra—not a cent. In fact it saves you money.

Calumet is the most economical of all Baking Powders. You save when you buy it—moderate in price. You save when you use it—has more than the ordinary leavening strength—therefore you use less. You save materials it is used with—never fails.

Made in the world's largest, finest, most sanitary Baking Powder factory. And made in a way that does away with all bake day worry and waste. Contains only such ingredients as have been approved officially by United States Food Authorities.

It is the largest selling brand of baking powder in the world and it is used by millions of housewives.

Sold by your grocer under guarantee of "Money Back" if it does not prove "Best by Test." Try it.

Calumet Griddle Cakes

2 level cups flour	1 level tablespoon sugar
2 level teaspoons Cal-	2 level tablespoons
umet Baking Powder	melted shortening
$\frac{1}{4}$ teaspoon salt	2 eggs—yolks
$1\frac{1}{2}$ cups milk or water	

Don't Overlook This

When you buy a pound can of Calumet you get a full pound—16 ounces—no short weights. Some baking powders are now being put on the market in 12 ounce cans instead of pound cans. Be sure you get a pound when you want it. Remember—Calumet is not made by the Trust, not sold at Trust prices.

How to Make Them

Mix dry ingredients in flour. Beat egg yolks and melted shortening in the liquid, add only a part of the liquid mix until smooth. Then add gradually the balance of the liquid until batter is of the proper consistency. According to the strength of the flour more or less liquid is required. Bake on hot griddle well greased. Paste in your Recipe Book for future reference.

Valuable 72-Page Cook Book

Handsomely illustrated in colors. Most complete and dependable recipe book ever published. Hundreds of helps in reducing household expense. Scores of selected recipes—new and better ways of making better foods. Send slip found in can of Calumet and three 2¢ stamps to help cover cost of packing and mailing. Calumet Baking Powder Co. 4100-4124 Fillmore St. Chicago

With
the ClubsELKS DANCE PLANNED
FOR THANKSGIVING NIGHT

The Thanksgiving season this year will be marked, according to the usual custom, by a semi-formal dance at the Elks Club on Thanksgiving night.

BUSINESS GIRLS PHYSICAL
CLASSES OPEN THIS WEEK

Monday evening at 7 o'clock the Business Girls Physical Classes of the Y. W. C. A. will be organized, meeting in the basement of the First Presbyterian Church, corner of Tenth and Bluff. All business girls interested in this physical training are urged to be present at the organization meeting. The classes will be held Monday and Thursday evenings and instruction will follow the same lines of the Matrons Classes which have been organized for several weeks.

JUNIOR HIGH TAG DAY
SATURDAY, NOV. 23

Saturday, November 23, will be Junior High School Tag Day, and the public will be given its first opportunity to assist the Mothers Club of the new school in its work of supplying library, school room and play ground equipment. Arrangements have been made for this tag day, also for a school carnival, which will be held on December 5, on the Junior high school grounds.

A cafeteria and luncheon will probably be established by the club, and the purchase of a moving picture machine to be used in connection with the school work, was definitely pledged at the meeting held Tuesday afternoon, when the organization was completed. The club also planned as a part of its work the equipping of the playground and the school library. The officers elected are: Mrs. P. P. Langford, temporary president; Mrs. John C. Kay, first vice president; Frances Glass, second vice president; Miss Hall, secretary; Mrs. Charles E. Anderson Jr., treasurer; Mrs. Thomas Allen, press reporter.

MUSICIANS CLUB IS TO
ORGANIZE THE JUNIORS

Organization of a Junior Musicians Club will be undertaken in a short time, according to plans made at the meeting of the club Thursday morning. The extension committee, composed of Mrs. Wade Walker, chairman, and Mesdames T. P. Adams and F. R. Colvard, will be in charge of this junior organization, and will make announcement of their plans in short time.

The club also decided to form an associate members roll to the club, the fee being \$3 annually. The regular program was under the leadership of Mrs. F. R. Colvard. The fourth chapter in the study book on American music and its source was taken up. The newly purchased piano was in place and used for the program. Songs illustrating the compositions of Victor Harris, C. Whitney Woods and F. Hastings were given by Mrs. Fred C. Barron, and Mrs. J. Myrtling gave sketches of the composers. Mrs. H. A. Waller gave sketches of the following composers: Remington Fairbanks, D. M. Loris, M. Fairfield and Frank Taft. The members answered roll call with names of famous American artists and conductors.

"HOUSE WANTED!"

By E. A. BRINNSTOOL.

First Week
HOUSE WANTED! Must be large and fine. With hardwood floors and closets deep; Must get the early morning sunshine; The rent of same must not be steep; Not over twenty bucks I'll pay; It must be up-to-date and neat; And elegant in every way— Address: J. P. 10 Umpty street.

Second Week
HOUSE WANTED! Bungalow will do, Providing it is nice and clean. I might pay twenty-five, if new, With a garage for my machine. I want a lawn both front and rear, With flowers, plants and furnace heat. And with a stove and schoolhouse heat— Address: J. P. 10 Umpty street.

Third Week
HOUSE WANTED! In some quiet place Where forty bones will rest the joint. I might cut down on closet space And sacrifice some other point. I do not care about a lawn; Most any house would be a treat; If you have one that isn't gone, Address: J. P. 10 Umpty street.

Fourth Week
HOUSE WANTED! Never mind the price! To find one everywhere I've tried; The rent of it will cut no ice If only I may move inside! The roof may leak—and never mind If there are some things not complete; Just write, if you will be so kind— Address: J. P. 10 Umpty street.

Fifth Week
HOUSE WANTED! Any kind or size! A mansion or a cottage goes! 'Twould be a treat for tired eyes, If you've a shack you can disclose. Just name the price you want for it, I'll rush the check with flying feet, And never, never, make a kick— Address: J. P. 10 Umpty street.

SPENDING WEEK END
IN MINERAL WELLS

Misses Ellen Adele Robertson, Marion Maer and Adele Adickes are the guests of friends in Mineral Wells for the week end.

FORT WORTH VISITOR
HAS RETURNED HOME

Mrs. Charles Kahn, who has been visiting the home of her sisters, Mrs. Lazarus Cohen and Mrs. Phil Kleinman, 1205 Taylor, has returned to her home in Fort Worth. While in Wichita Falls, Mrs. Kahn was the recipient of numerous pleasant hospitalities.

UNITY CLUB MEETS
FRIDAY AFTERNOON

Meeting Friday afternoon with Mrs. R. L. Miller, the Unity Club studied the new nations of the world. Mrs. Eugene Sherrerd being leader. The program follows: Palestine, Mrs. Sherrerd; Poland, Mrs. E. B. Goraline; Czechoslovakia, Mrs. P. P. Langford. The customary social half hour was pleasantly passed, the hostess serving a dainty refreshment plate. The members present were: Mesdames G. A. Anderson, E. B. Goraline, P. P. Langford, O. E. Maer, Newton Maer, R. L.

Miller, W. M. Priddy, W. L. Robertson, Eugene Sherrerd, Claude Woods and H. M. Young. The Club will meet next week with Mrs. O. E. Maer.

FIRST CHRISTIAN AID
SOCIAL MEETING MONDAY

Monday afternoon at 3 o'clock the Ladies Aid of the First Christian Church will be entertained in social session at the home of Mrs. J. W. Pond, 1619 Tenth street. All members of the society are urged to be present and a cordial invitation is extended to visitors. Mrs. Pond will be assisted in entertaining by: Mesdames Freeman, Tyson, Parker, Wheeler, Klein, A. A. Young, Lucy Young, Clara Reid and Derden.

ENTERTAIN IN HONOR
OF MRS. GREENWOOD

Numbered among the pleasant affairs of the past week in honor of Mrs. E. P. Greenwood of Dallas, was the bridge party on Thursday afternoon at the home of Mrs. Morris Harvey, 2404 Tenth, in which Mrs. Herb Moore was joint hostess. Ten tables were arranged for the game in the reception suite, attractive in a dainty decoration in pink and white color scheme. The high score favor, a guest room door marker, was won by Mrs. H. A. Allen, who presented to the

guest of honor. The honoree's favor, presented by the hostess, was a dainty telephone shield. An attractively appointed refreshment course was served.

HAS RETURNED FROM
SAN ANTONIO VISIT

Mrs. J. B. Stokes has returned from San Antonio, where she visited her daughter, Mrs. D. Walter Murphy. Mrs. Murphy was formerly Miss Tula Stokes of Wichita Falls. Miss Zula Stokes is also at home from C. L. A. for a short visit, and Mr. Stokes has returned from a business trip in Central Texas.

POPULAR VISITORS RETURN
TO THEIR HOMES SATURDAY

Mrs. E. P. Greenwood, who has been the guest of Mrs. Mack Thomas and other friends for the past 10 days, and has during that time been the inspiration of numerous delightful social events, returned to her home in Dallas Saturday. Mrs. G. S. Morris, sister of Mrs. W. E. Norton, who has also been a popular visitor here for two weeks, returned to her home in Lockney.

DOUBLE BIRTHDAY PARTY
GIVEN FRIDAY AFTERNOON

Mrs. B. H. Robinson entertained Friday with a birthday party for her two small daughters, Mary Ruth, aged five, and Frances, aged three. Various games entertained the children until late in the afternoon, when refreshments were served and the two birthday cakes, one for each little honoree were cut. Herbert Chesire Jr. cut one of the dimes, and Frances Robinson the other. Those enjoying the party were: Dorothy Basham, Pauline Davis, Forrest Baber, Lon Haber and Hub Cheshire, and Frances and Mary Ruth Robinson.

Y. W. C. A. WANTS BOOKS
AND RECORDS: NEW GIFTS

More books and music records are still desired for the Y. W. C. A. Recreation room, and the suggestion is repeated that those desiring to make gifts to the Y. W. C. A. have them take this form. Any good current fiction, and any good music records will be greatly appreciated.

Miss Evelyn Coffield has recently presented the recreation room with several potted plants, which add much to the coziness and attractiveness of the room.

BETA DELPHIAN SOCIETY
MEETS THURSDAY AFTERNOON

The French Revolution formed the study of the Beta Delphian Society, meeting Thursday afternoon at the Kemp Library. Mrs. John C. Kay was leader, and the following program was carried out: Causes Leading to the French Revolution, Mrs. Waller; The French Revolution, Mrs. E. P. Bass; Beginnings of the Revolution, Mrs. Kay; Progress of the revolution, Mrs. Ross Corlett.

The members present were: Mesdames Bass, Barron, Thornberry, Curris, Waller, Corlett, Conn, Davenport, Kay and Chaucery.

TRAVEL CLUB HOLDS
ENJOYABLE SESSION

An especially interesting session of the Travel Club was held Friday afternoon at the Kemp Library, from 3:00 to 5:00, the program being preceded by a talk on the art exhibit at the library given by Mr. Yunt. The special beauties of each picture were pointed out, and a very enjoyable and profitable time spent with the collection. The afternoon's program was made

up of a review of topics studied at previous meetings, The Declining Birthrate, Eugenics and Defective, by Mrs. C. N. Alexander, followed by a round table discussion. The members present were: Miss Blanche Potter, Mesdames Glen G. Oneal, F. T. Dutton, C. N. Alexander, C. H. Clark, James H. Barnard, H. G. England, T. A. Hicks, Shepherd and Luther Hoffman.

TRICE-MONTGOMERY
WEDDING ON WEDNESDAY

On Wednesday evening, November 13, at the home of the bride's mother, Mrs. M. M. Montgomery, 704 Travis, the marriage of Miss Irene E. Montgomery to Mr. Leon N. Trice, was solemnized, Dr. N. F. Grafton of the First Presbyterian church reading the ring service. The home was decorated in chrysanthemums, carnations and wedding bells, a color scheme of pink and white being used.

To the strains of the Mendelssohn Wedding March, played by Mrs. Hardy, the bride entered on the arm of the groom, unattended save for little Miss Nadine High, cousin of the bride, who carried the wedding ring in a white chrysanthemum.

The bride wore her traveling suit, a dark blue tailored model, with tailored hat, and all accessories to harmonize. She carried a large bouquet of American Beauty roses. The

groom wore a dark business suit. Following the ceremony a buffet luncheon was served, in which the bridal colors were carried out. Mrs. C. Stroube and Mrs. Herbert Mathewson served the luncheon.

There were present only the relatives of the contracting parties and a few intimate friends, including: Mr. and Mrs. Thornton Carlisle, Mr. and Mrs. Herbert Mathewson, Mr. and Mrs. C. Stroube, Mr. and Mrs. Butler, Mrs. A. L. High of Burkburnett and children, Mark, Nadine and Kamie Gene High, Miss Bessie Dohline of Sagerton, Texas, Misses Mamie and Alice Copeland and Mesdames F. L. Orr and Walter of Oklahoma City.

Both young people are well known in Wichita Falls, and their wedding is the occasion of many congratulations. The groom was formerly from Ardmore, Okla., and is now employed by the Wichita Falls Motor Co. Mr. and Mrs. Trice went to Oklahoma City, Ardmore and other Oklahoma points on their wedding trip, and will be at home on their return with the bride's mother, 704 Travis, until their new home is completed.

The counsel and co-operation of a progressive but soundly conservative bank are essential to any business interest. The National Bank of Commerce is such an institution and is organized and equipped to furnish specialized service in every line of business building. 177-11c

Orig

A ROTARY "AT HOME" ON TUESDAY EVENING

On last Tuesday evening the board of directors of the Rotary Club became thoroughly convinced that their president, Charles Hartsook, deserves no personal credit for being a good Rotarian and that the secret of his professional and Rotarian success is due to his home influence. The regular semi-monthly meeting of the board was scheduled for that evening in the offices of the president, but Mrs. Hartsook, without consulting Charles and without his knowledge and consent, invited the board to meet at his home. The board, preliminary to the business meeting, is needless to say that they accepted to a man, Bert Bean, Bob Collier and Harry Bray not being considered human as they permitted out of town business to interfere with such an invitation.

All arrived on the hour set by the hostess, even Marvin McFall who had butted in on the strength of being a past president of the club. When Charles drove up and was greeted at his own door by Secretary Ira Brown, who had hastily grabbed a kitchen chair on which to stand the giving of the glad hand of greeting, Rotarian Charles was greatly surprised, in fact, he said so several times, but whether pleasantly or otherwise none of the guests, much to their indifference, were able to determine. After allowing her husband a few moments in which to recover from the shock and regain his usual poise, not avoidable, Mrs. Hartsook invited their guests, unexpected by at least one member of the family, into the dining room and instructed them to find their table locations by their place cards.

Then was discovered, or uncovered if you prefer the word, a conspiracy compared to which Russian Bolshevism, which merely destroyed a nation, was as nothing for these place cards upset and absolutely destroyed the last vestige of that much vaunted dignity, past, present and future, which the directors of the Rotary Club have fondly imagined was their own personal characteristic. The aforementioned cards were presumed to portray the various guests and were conceived in the mind of a bitter iconoclast and brought into being through the genius and pen of that reprehensible cartoonist, Joe Mears.

After the first shock to his system had been somewhat relieved each guest reached for the other fellow's card to see if it could possibly be worse than his own. It was almost painful to see the vain attempts made by everyone to prove how he had been maligned by the artist (7), emphasis on the (7), and how the other fellow's card was more nearly true to life than his own. John Bradley's card showed him as being a cross between a head waiter and a cabaret singer emitting a bunch of jumbled notes from a well puckered mouth. Jack Barnard was made to appear as a real merchant, real because of the pronounced Jewish cast of his cherubic countenance, which cast is so prevalent among the merchant princes of our day. Herbert Volker was working at a draughtsman's board, then, which is nothing further from his thoughts; Harry Bray was supposed to be seated at his desk, at work and absolutely quiet, an impossible situation for Harry; Irvin Roberts seemed in doubt as to whether his roach or his trowel, claimed by him as an emblem of his trade to prove that he did sometimes work, was most conspicuous; Albert Myles was sitting enthralled by a vision of the good old days prior to July 1, which was palpably a slander for no man, not even a good natured fat one, could be enthralled by anything when he was portrayed as being all neck and stomach and no hair; Burton Staiton was made into a perfect carpenter's square, and loafing at that, when every one knows that he is energy personified and that any kind of an accurate measure is the last thing he wants when cutting draperies; Quincy Lee was the only one really flattered by the artist for he was shown armed with a 16-inch spike and mallet in the act of operating upon a bound man, later identified by his pugnacious chin and generally disgusted expression as Marvin McFall, alias Butinski, when it is common talk that Quincy had to join the war to learn what surgery meant; Bert Bean was absent in the flesh but his second self card continued to bore everyone with the question that no one even attempts to answer, "Who can beat it?" Bob Collier left town to keep from admitting that the late arrival at his house was responsible for his agonized expression as depicted by Mears; Tom Smock was all there, collar de limber, small hat, much hair and still much nose and after gazing dreamily at himself he softly quoted, to the artist, the words, "Was some power the little gie us."

To see ourselves as others see us." Whereupon, Burton Staiton looked Tom squarely in the eye and completed the immortal line in a terrific manner. Thus Bobbie Burns sang years ago. But little recked he then that now there would have come from out the race.

A creature wearing such a face. (Apologies to Bobbie.) The unexpected host was shown in bed at Waco, that is he was partially in bed for about four feet of his two feet were gracefully draped over the foot board, and this too was entirely inappropriate, not to say false, for it is a notorious fact that when Charles Hartsook leaves his home town, on business, he never goes to bed. As a punishment for long delaying the club's individual members buttons Ira Brown was treated with silent contempt by the artist and the other guests thereby escaped the infliction of his second self.

After strenuous efforts on her part, Mrs. Hartsook finally obtained a semblance of quiet, but not until she had threatened to send Charles to bed without his supper, and then, assisted by Miss Florence Jackson and Mrs. Evans, served:

Cocktails (oyster)
Sautéed Almonds
Individual
Fruit Salad au gratin
Roast Turkey a la white
and Fixings
Baked Apples: Inside Goodies
Yams: Marshmallow Bonnets
Creamed Asparagus
French Peas au family
String Beans au naturel
Hot Biscuits
Cherry Pie a la mode
Coffee
Stripped Candy
Cigars

The writer has seen some of the so-called wonders of the world but never before has he seen such amazing capacities for storing food as were exhibited by all present, except the writer, and if at least 10 of the physicians of the city did not receive urgent calls before morning that is itself is an additional world wonder. After the diners had been surfeited, or choked off as in the case of Jack Barnard, our hostess further demonstrated her familiarity with the fact that "Men are only boys grown tall," and some of them not so darn tall at that, by providing each with a pulley thing that held many surprises for they contained a shooting contraption, a paper cap, such as are sometimes worn by dull school boys and entirely appropriate for this occasion. Rings, pins and other trinkets were further confirmed by a supply of whistles, horns and rattles which might not have any proper place in a souss band but could give his best men cards and spades and then beat them making a fuss.

Mrs. Hartsook then announced that we would have "movies" and the poor stupid boob about her tables posed themselves for the camera, concealed as they thought in the darkened living room, each man being fully convinced that he was making the others look like 30 cents from a standpoint of his own gracefulness. In lieu of the click of the camera Mrs. Hartsook then calmly announced that the "movies," as far as she was concerned, were over and that the next move was up to us. Charlie Chaplin in his greatest effort never looked as foolish as did the guests, save the writer, but it finally dawned on us that we were expected to leave the table, that

being about all there was to leave, and after John Bradley and Charles Hartsook had gobbled the balance of the candy, on the grounds that they were really entitled to it as they did not smoke, we passed to the formal business of the meeting but because Mrs. Brown was too full to read his minutes and proceed in an intelligible manner we accomplished but little.

If it be true that the proof of the pudding is in the eating and that actions speak louder than words, then we feel sure that Mrs. Hartsook understands how thoroughly we enjoyed and appreciated this delightful evening in her home, however halting our verbal expressions of thanks may have been.

"One Who Wuz Thar."
WALKER FAMILY IS MOVING TO CALIFORNIA
Mr. and Mrs. D. B. Walker and daughter, Mrs. Dot Shepherd, are

moving to Long Beach, Calif., where they will make their home. The Walker family has been in Wichita Falls for more than 30 years and the best wishes of many friends will accompany them to their new home.

ROYAL NEIGHBORS TO MEET THURSDAY AFTERNOON

The Royal Neighbors will meet Thursday afternoon at the I. O. O. F. Hall on Scott avenue. There will be important business considered, and all members are urged to be present. The meeting will be called at 2:00 o'clock.

WICHITANS GOING TO GALVESTON AND HOUSTON

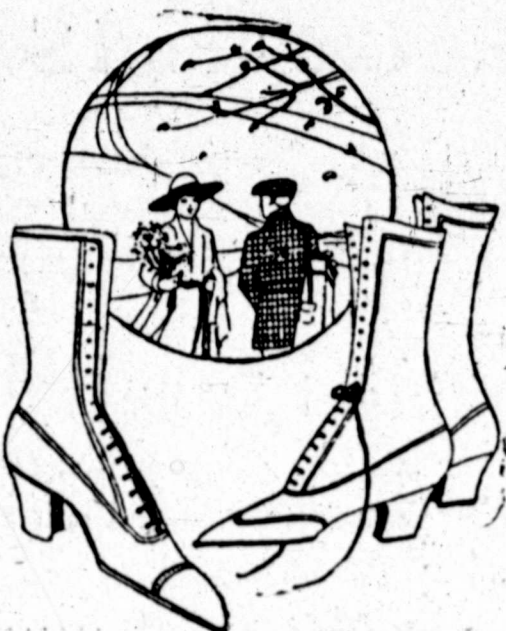

Miss Kate Haynes and Mrs. Ed Howard will leave Monday for Galveston. Mrs. Howard will visit her son, Leslie, who has been in a Galveston sanitarium for several weeks, and Miss Haynes after several days

in Galveston will go to Houston to attend the State Teachers Convention.

SOCIETY BRIEVITIES.

Mrs. A. E. Monk will return the first of the week to Sioux City, Iowa, after a visit with Mr. and Mrs. J. A. Picholt, 1108 Austin.
Miss Lois Fitzgerald is at home from C. I. A. at Denton, for a week end visit with her parents, Judge and Mrs. W. E. Fitzgerald.
Miss Pauline Taylor, student at C. I. A. at Denton, is spending the week end with her parents, Mr. and Mrs. John Taylor, Huff avenue.
Captain and Mrs. Wangle Bartley and baby daughter returned Friday from Dallas. Captain Bartley has just returned from five months overseas service, and with Mrs. Bartley will be in Wichita Falls for a week with Mrs. Bartley's mother, Mrs. S. H. Burnside. They will be stationed at Douglas, Ariz.

A New Store With the Right Spirit—

New shipments of black and brown suede in both boots and oxfords have just arrived. Our stock of brown, patent, black, combination and moleskin is complete in every detail. You'll find the exact shoe that you want in our store; we spare no pains in visitor becomes a customer—no getting things just right. Every wonder, our values speak for themselves.

Don't forget we have a complete stock of men's furnishings, as well as shoes for the entire family.

EXQUISITE DIAMONDS

In Artistic Platinum Mountings—The Choicest to be had in the Diamond Markets

In making our diamond purchases we had in mind the fact that the people of Wichita Falls demand the best in quality, and in consequence the customer will find in this store gems that are as exquisitely cut and as richly mounted as are shown by any jewelry house in the large cities.

It will be a pleasure to show you our magnificent line of diamonds.

FINE WATCHES

We make a specialty of fine watches and have an assortment of excellent quality and superb workmanship time-pieces that will keep accurate time and of a design and finish that will be a credit to the owner.

We call special attention to the celebrated Gruen and Longines lines of imported watches. They are novel in design—some in octagon shape—others square and others egg-shaped, all high-class and exquisitely finished. Ask to see them.

SILVERWARE

A set of handsome silverware makes an ideal birthday, holiday or wedding gift. Our assortment is as large and as attractive as you will find anywhere.

CENTRAL PRESBYTERIAN AUXILIARY MEETS MONDAY

The Woman's Auxiliary of the Central Presbyterian church will meet with Mrs. Frank Johnson at 1207 Eleventh street Monday afternoon at 3:00 o'clock. "Christianity and Unity" is the subject for the study with Mrs. J. G. Fain as leader. The lessons have been found very helpful and interesting and all members are urged to be present.

MISS MYRL STIMPSON WEDS CECIL O'HARA

In a quiet home wedding Thursday evening, November 20, Miss Myrl Stimpson, daughter of Mr. and Mrs. Charles Stimpson, became the bride of Cecil F. O'Hara, formerly of Sherman, now employed in the local M. K. & T. offices. Immediately following the ceremony Mr. and Mrs. O'Hara left for a short wedding trip.

to Texas points. They will make their home in Wichita Falls. The bride is a very attractive and accomplished girl, very popular in her circle of friends, and the groom since making Wichita Falls his home has won many friends, who unite with those of the bride in congratulations.

Mrs. Tom Simmons of Fort Worth is spending the week end as the guest of Mrs. J. A. Richolt. Judge Simmons has been in Wichita Falls the past week on business.

Miss Annie Lea, daughter of Mr. and Mrs. J. A. Lea, is at home from C. I. A. at Denton, for a short visit. Miss Dot Forshee, one of the Wichita Falls girls at the Denton College of Industrial Arts, is spending the week end with her parents, Mr. and Mrs. J. A. Forshee.

Miss Ola Stover of 1007 Burnett, has been visiting in New York City for the past two weeks. After making short visits in Niagara Falls and Chicago, she will return to this city the latter part of the week.

Ruffles Here and Ruffles There

Written for the United Press by Margaret Robe.

RUFFLES HERE AND RUFFLES THERE.

BY MARGARET ROBE.
(Written for the United Press.)

Belinda is very much ruffled these days. Up one side, down t'other and devious ways. And not just her garments are ruffled in true Belinda's sweet temper is oft ruffled too.

NEW YORK, Nov. 22.—An eruption of ruffles has become almost a universal epidemic in the fashionable world. They are breaking out on all sides—feminine sides of course—and flaunting their flamboyant fineness with fetching fascination.

Ruffles are used most effectively as a first aid to hips—sort of reinforcements on the side lines. They run up and down, in diagonal cascades and foregather in clusters and tiers. They present a diversity of edges—pinked, raveled, scalloped, piped, blanket-stitched in wool, silk or metallic threads and even finished with an ordinary selvage.

Accordion pleating is a new wrinkle, or rather an old one revived and entire skirts composed of three deep accordion-pleated ruffles are very smart in serge with dense little daisies—edged basques buttoned down the front to top them off. Knife pleating of the narrow ruffles that are omnipresent as his trimmings cut quite a figure in the ruffle finish, and they are apt to be used up side down as right side up when they finish the bottom of a skirt or sleeve. In fact you can't go wrong on what you do to a ruffle. The more perverse and eccentric and even bizarre it is the better to break

the monotony of a hitherto unruffled existence.

Ruffles are no more confined to light and fluffy materials either. Designers this season are ruffling duvetyens, velveteens, serges and gabardines with unbiased impartiality but often biased ruffles. A pompelien red duvetyen with cascade ruffles over each hip extending to the knee shows the edges of the ruffles raveled to a depth of an inch and a half. The short skirt is raveled on the edge as are also the edges of the short tight sleeves.

A mahogany velveteen has three short ruffles piped in orange over each hip while an orange piped panel of the velveteen extends plainly down the front and back to give the necessary flat effect to the fore and robe. Something to fasten out best ruffles to is the cartridge silk that is a left over from the war, the government is now offering to the best dressers for a piece of peace dress goods. Of purest silk weave and of natural color it offers great possibilities as a perfect dress material since it takes to dye as a duck to water. As most, if not all, of our regular dress silk is practically all tin and tint, a silk that is anything save that the silkworm spun, as it this cartridge silk, is sure to hit the bull's eye of popular favor and fire both in serge with dense little daisies—edged basques buttoned down the front to top them off. Knife pleating of the narrow ruffles that are omnipresent as his trimmings cut quite a figure in the ruffle finish, and they are apt to be used up side down as right side up when they finish the bottom of a skirt or sleeve. In fact you can't go wrong on what you do to a ruffle. The more perverse and eccentric and even bizarre it is the better to break

NOW TOO LATE TO PROVIDE RELIEF FOR CHRISTMAS MAIL RUSH

With the Christmas mail rush only a few weeks away, officials of the local post office, which is already overcrowded and congested to a degree which makes the handling of the daily volume of business a pressing problem, are at their wits end for expedients with which to meet the situation.

Nothing has as yet been heard from Washington in regard to the latest offer of local parties to build a post office annex, so badly needed as a relief for the overcrowded conditions prevailing. Delay in taking action on this matter in the department makes it impossible for this relief to be provided in time to help in the Christmas rush.

Get off the earth today and see where we all live. Ride with Aviator Hall in a new Curtiss Airplane at Call Field. 177-41p

LOCATION IS MADE FOR OFFICERS HEADQUARTERS

Location of the headquarters to be built by the county for the corps of officers who are to be stationed in the Northwest field in an effort to put an end to oil field thievery will be on the Texas Company's Lillis Morgan lease, just west of Waggoner City. If a lease can be obtained from the owner and a permit from the lease, it was announced Saturday. This place, a small frame residence of temporary construction, will be the headquarters for two deputy sheriffs, for the corps of detectives to be employed by the Wichita Falls Producers and Refiners association, and for the deputy conservation agent for the railroad commission stationed in this field. Telephone connections will be installed to various parts of the field to assist the officers in their work.

THANKSGIVING

Wonderful changes have taken place since last Thanksgiving. The dark and sullen clouds of war have been driven into oblivion by the bright and glorious sunlight of peace. From out the trenches in battle torn Europe have come our boys, bringing with them the proud assurance that they have made the whole world a safe place in which to live.

Should we not stop then, in the mad rush for business, and give thanks, not only for the wonderful wave of prosperity that is sweeping our land, but for the fact that the mothers of our country will have their VICTORIOUS HEROES home again for Thanksgiving.

Perkins Timberlake Co.

Perkins Timberlake Co.

Soft jade green crepe chiffon and stately gold thread brocaded in the same shade is peculiarly draped over an almost transparent gold cloth. The very lines as well as the fabric leads one's thoughts to the mystery of India, and no doubt caused Lady Duff Gordon to name this ideal evening gown "Jade and Gold." Antique gold fringe finished the hem and a careless soft drape which suggests a tucked up train, completes the Hindoo effect. The very simplicity makes this gown more than just attractive.

EXPERTS ARRIVE TO BEGIN HEALTH WORK IN COUNTY

DR. A. W. WEST AND J. A. LITTLE
OF STATE HEALTH BOARD
ON GROUND.

ORGANIZE COUNTY BUREAU

Wichita, One of Two Counties in
State in Which This Work
Being Done.

Dr. A. W. West, and J. A. Little, representatives of the State Board of Health, have arrived in Wichita Falls to take up their work in behalf of the health of the public in Wichita county. They have opened headquarters in the basement of the court house. They will co-operate with Dr. M. M. Walker, county health officer, and also with the officials of the several towns and cities in the county.

The State Board of Health has developed into a very large organization in recent years and is constantly extending its operations. Some of the most widely known medical and sanitation experts in the entire Southwest are working under the auspices of the State Board of Health and the local bureau will receive the advice and assistance of the entire department in its fight against disease and poor sanitation in Wichita Falls and other towns of this country.

With the discovery of rich oil deposits in Wichita county the population of Wichita Falls and nearby towns and cities has increased with such rapidity that health officers realize that dangerous situation might develop if the proper precautions were not taken and it is with the welfare of the people in view that representatives of the State Board of Health have been urged to open headquarters in Wichita county.

Wichita county is one of the five counties in Texas maintaining a bureau of the State Health Department. Other counties having similar service are Tarrant, Jefferson, Bell and Williamson. Dr. West stated Saturday that he had not been in Wichita Falls sufficiently long to make a statement regarding health conditions here. He announced, however, that he would begin at once upon a survey of health conditions here.

Satisfactory banking connections have been made in the success of oil men operating in Wichita and adjoining counties. The National Bank of Commerce has contributed and is contributing to the development of this most important industry.

The next time you have some printing that you are in a real hurry for give it to the Times Job Printing Co. You will be surprised to find out how good our service really is. Phone 1175.

NOTICE ELECTION WATER DISTRICT BEING PUBLISHED

FIVE DIRECTORS TO BE CHOSEN
IN ELECTION SET FOR
DECEMBER 20.

HAVE FOUR POLLING PLACES

Directors Will Handle Details of
Bond Election And Other
Matters.

Notice of the election on the question of organizing the proposed water improvement district and for the election of five directors for the district is now being published.

The election will be held on December 20. On the issue of the organization of the district the proposition will be submitted in the following form:

For Water Improvement District.
Against Water Improvement District.

Five directors for the district are to be elected at the same time. There will be space on the ballot for writing the names. No names have yet been suggested for these directors.

There will be three election precincts.

Precinct No. 1 will embrace all the territory within the incorporated limits of the city. Voting places for this precinct will be at the court house and at the city hall.

Precinct No. 2 will embrace the territory within the water improvement district north of the Big Wichita River, not included in the corporate limits of the city. The voting place in this precinct will be at the superintendent's office of the American Refining Co.

Precinct No. 3 will embrace all the territory within the water improvement district as described in the petition that is south of the Big Wichita River and not included within the incorporated limits of Wichita Falls.

The voting place in this precinct will be on the public road adjoining the street car depot near Call Field.

With the organization of the water improvement district all subsequent details in connection with the voting of the bonds for the building of the dam and other matters will be handled by the board of directors. It is likely that the election to vote the bonds to build the dam will follow soon after the organization of the district and will probably be held early in 1920.

Satisfactory banking connections have been made in the success of oil men operating in Wichita and adjoining counties. The National Bank of Commerce has contributed and is contributing to the development of this most important industry.

The next time you have some printing that you are in a real hurry for give it to the Times Job Printing Co. You will be surprised to find out how good our service really is. Phone 1175.

KNIGHTS OF PYTHIAS GOING TO FT. WORTH FOR SPECIAL DEGREE

Twenty five tyros will leave Wichita Falls Tuesday night for Fort Worth to take the initiatory work of the Dramatic Order of the Knights of Khorassan. The tyros will be accompanied by at least 25 Wichita Falls Dokes and the entire party will charter a pullman in order to make the trip. Wichita Falls Dokes and tyros will be joined by 25 fellow lodgemen from El Paso and it is understood that Dokes from various towns in Northwest Texas will also send delegations.

Dr. J. W. DuVal, prominent Wichita Falls Doke, said Saturday that approximately 500 tyros from various parts of west and northwest Texas would take the initiatory work at Fort Worth next week. The ceremony will begin with the ritualistic ceremony at the auditorium of the Chamber of Commerce Wednesday afternoon at 1:30 o'clock. The big Doke parade will be staged through the principal streets of the city between 3:00 and 4:00 o'clock with a banquet in the basement of the First Christian church at 7:30 o'clock. At 8:30 o'clock the eighth order will be given and, the big hall will begin in

the Chamber of Commerce auditorium at 9:30 o'clock.

While in Fort Worth visiting Dokes will be the guests of Asotus Temple No. 175.

Wichita Falls tyros taking the work will be L. L. Dixon, T. W. Parker, J. M. Dooley, W. E. Muldrow, T. W. Scott, H. A. Boyles, S. E. Terrell, W. P. Wiest, W. D. Gant, Guy C. Riley, T. J. Schley, R. L. Owens, N. F. Freeman, Dr. C. E. Bailey, Dr. D. D. S. S. C. V. Reynold, T. N. Ragsdale, E. V. Leasley Jr., Angelo Pappas, J. A. Alderson, I. H. Simmons, J. A. Ferrell, L. E. Stewart and others.

Among Wichita Falls Dokes scheduled to attend the ceremonial will be W. T. Harris, E. H. Nicholson, Harry Ingram, Dr. J. W. DuVal, W. B. Reeves, Dr. William R. Garrison, Walter Nelson, J. M. McFall, O. T. Corraline, H. P. Hodge, T. B. Smock and others.

Mayor also selling pears to break H.C.L.

Kiefer pears, price \$1 per bushel, is the latest commodity to be added to Mayor Marlow's stock of food stuffs which are on sale at the Central fire station in an effort to force down local food prices in these certain commodities. The pears are packed, about one bushel to the sack, and will not be sold in quantities of less than a sack at a time.

Other cases filed in the Thirtieth district court Saturday were: Beatrice Adams vs. Herman Adams, divorce.

George Finberg vs. J. B. Jamison, suit on contract and debt.

Arthur Lyons et al. vs. Munger Farm Oil company, suit to cancel assignment.

SUIT GROWS OUT OF POOLING OF WELLS

The opportunity you have been waiting for: An Airplane Ride in a new Curtiss Airplane, piloted by Aviator Hall, with 10 years experience. Call Field, Hangar Six. 177-11c

L. E. Sheldon, W. J. Sheldon and A. H. Sheldon, who are named as trustees of the Electro-Bark Oil company and the Thompson Oil company and who reside in Wichita Falls, are named as defendants in a damage suit and suit for debt totalling \$16,268.26, which was filed by the Mann-McPhail Oil company and the Lucky 7 Oil company in the Thirtieth district court Saturday. Plaintiffs named in the case are: W. L. Mann and Van McPhail, trustees of the Mann-McPhail Oil company and the Lucky 7 Oil company, and H. L. Neal, trustee of the Lucky 7 Oil company.

The plaintiffs allege in their petition that the defendants have failed to carry out certain obligations provided for in a contract entered into more than a year ago. The suit is the outgrowth of several oil wells which were scheduled to have been drilled as "community wells" on the Burk Burnett townsite.

Other cases filed in the Thirtieth district court Saturday were: Beatrice Adams vs. Herman Adams, divorce.

George Finberg vs. J. B. Jamison, suit on contract and debt.

Arthur Lyons et al. vs. Munger Farm Oil company, suit to cancel assignment.

Use Famo Every Day If You Want Healthy Hair

The daily use of Famo on the scalp is as necessary as the tooth-brush three times a day.

FAMO does not irritate the sensitive scalp that causes dandruff, after a few applications.

But that is really not enough. Unless the scalp is kept absolutely clean, the dandruff germ will return.

We know of nothing but the daily use of FAMO that can make it impossible for the dandruff germ to grow and FAMO is the one hair preparation that you can safely use daily with beautiful results.

This regular use of Famo means not only a clean, healthy head.

It saves skin, scalp, hair, and hair roots are dead.

FAMO prevents falling hair and itching scalp.

It has given relief to thousands of sufferers from dandruff.

It retards grayness. Alcohol dries the scalp and hardens grayness.

NUMBER OF WICHITA TEACHERS TO GO TO HOUSTON MEETING

SALARY FIXING PROPOSAL BY
FORE STATE ASSOCIATION AT-
TRACTS MUCH INTEREST.

3 AMENDMENTS PROPOSED

Local Officials Will Spend Several
Days Inspecting Public Schools
in Houston.

What promises to be the most im-
portant convention of the Texas
Teachers Association that has been
held for a number of years and one
that will have the responsibility of
considering three proposed amend-
ments to the constitution of the as-
sociation will meet at Houston, Tex.,
Thanksgiving. Superintendent Lee
Clark of the local schools, who is also
district member of the executive com-
mittee of the association, W. W.
Brown, business manager of the city
schools, and a number of delegates,
including nearly all of the principals
of the city schools, will be present at
the convention. The proposed amend-
ments to be considered by the con-
vention amount to the following:
First, a move to raise the membership
fee of the association from \$1.50 to
\$2.00; second, the creation of a paid
secretary of the teachers' association
to serve for a term of four years;
and lastly, the most revolutionary of
three, a proposed salary schedule for
teachers based upon training and ex-
perience and making provision for
city town and country teachers. It
is also proposed to subject the teach-
ers who violate the terms of the
schedule to a fine to be decided upon
by the convention.

Superintendent Clark and Business
Manager Brown intend to leave for
Houston Monday in order that they
may study conditions in the Houston
schools and attend a meeting of the
executive committee. The following
is a list of those who have signified their
intention of going to the convention: H.
A. Glass, principal, junior high; S. H.
Rider, principal, high school; J. A.
Clark, principal, Alamo school; E. A.
Jarrett, principal, Alamo school; Miss
Bessie Stewart, principal, Austin
school; Miss Jennie Robinson, acting
supervisor of art; Miss Kate
Hayden, primary teacher at Alamo
school; Miss Zilman, history de-
partment, junior high; V. H. Robin-
son, commercial department, high
school; Miss Johnnie Colbert, his-

tory department, high school, and
Miss Mary S. Clark, music depart-
ment. Practically all of the depart-
ments of the school system will be
represented at the convention as well
as several delegates from the mothers
club and Superintendent Clark is con-
fident that the meeting will be a
great influence in local educational
circles on account of the momentous
questions which will be considered by
the convention.

PAST WEEK BUSY ONE FOR NEW CHURCH

The new Floral Heights Methodist
church has gotten away to a good
start and is going strong. Here are
some of the activities of the new
church during the past week:
Raised \$33.50 for building fund
for the new church, bought parsonage
at 2110 Tenth street, bought site at
Tenth and Polk streets for new build-
ing, raised \$550 for current expense
fund and presented pastor with new
touring car.
Rev. W. L. Little, the new pastor, is
hard at work and is leading in the or-
ganization of a splendid membership.
He will preach Sunday at the high
school auditorium at 11:00 a. m. and
7:30 p. m. Sunday school and Ep-
worth League will also be held in the
high school building.

YOUNG WOMAN CONFESSES VIOLATION NARCOTIC LAW

A young woman, who is being held
in the county jail in default of bond
on a charge of violating the federal
anti-narcotic act, has confessed to be-
ing a drug addict and also to having
forged a narcotic prescription, United
States Commissioner J. A. Lantz
stated Saturday. The young woman
was taken into custody Thursday by
federal authorities. She at first stead-
fastly denied being a drug user, but
a few hours confinement in the
county jail increased her craving for
morphine so much that the young
woman first cried, then made a full
confession of her guilt and at last
begged jail attendants to furnish her
with "just a few grains of dope," ac-
cording to Commissioner Lantz.

A charge alleging violation of the
Harrison anti-narcotic law was filed
Friday afternoon against the woman
in United States district court by
Commissioner Lantz. She was re-
manded to jail in default of bond to
the extent of \$500.

SPECIAL TERM OF DISTRICT COURT CONVENES MONDAY

CONDUCT OF OFFICERS IN OIL
FIELDS TO BE INVESTIGATED
BY GRAND JURY.

MANY IN JAIL AWAIT ACTION

Jail Overcrowded With Prisoners and
Relief from Situation
Is Sought.

Developments of a somewhat sensa-
tional order are possible results of
the deliberations of the special grand
jury called for the special term of the
10th district court, which convenes
here Monday, the question as to the
conduct of certain officers in the Bur-
kett fields being down for investi-
gation by the jury.
The county attorney's office is in
charge of considerable evidence bear-
ing on this question. It was learned
Saturday, and the investigation into
this is expected to take a good part
of the week during which the grand
jury will be in session.
L. Buckalew, an operator of the
Burlington Detective Agency, who was
arrested at Wagoner City early in the
week by officers in that district, is
understood to have been in the em-
ploy of certain Burkett citizens for
the purpose of gathering evidence
as to the alleged misconduct of some
of the officers at that place, and to
have placed much of the evidence
which he has gathered in the hands
of the county attorney.

Aside from this feature the prin-
cipal reason for the calling of this term
of court is to allow early disposition
of the cases of the prisoners who are
overcrowding the Wichita county jail
and those cases otherwise might not
be disposed of until late in the regular
term which begins just before Christ-
mas.

The sessions of the court will not
begin until Monday week, the first
week being devoted exclusively to the
work of the grand jury. The court
itself will be in session three weeks,
working through to the beginning of
the regular December term.
Names of those summoned for serv-
ice on the special grand jury follow:
R. E. Golden, Iowa Park; O. L. Clark,
Burkett; George B. Ansell, Elec-
tra; E. J. Hunt, Wichita Falls; H. H.
Sanders, Burkett; W. L. Hodges,
Iowa Park; J. R. Brewer, Electra; B.
M. Bullard, Wichita Falls; Jim Owens,
Iowa Park; C. H. Clark, Wichita Falls;
Walter C. Smith, Wichita Falls; J. M.
Alexander, Wichita Falls; Robert R.
Brubaker, Iowa Park; W. W. Gardner,
Wichita Falls; J. L. Lee, Jr., Wichita
Falls; O. H. Tinsley, Burkett.

THREATS INEFFECTIVE.

It is too early as this is written to say finally if Dr. Garfield's act in rubbing the heads of miners and operators together and telling them to "get busy" on adopting a wage scale has brought the desired result. But it at least shows that the abjection of Mr. Gompers of the administration, the threat of Mr. Fitzpatrick to establish a labor party with the single purpose of defeating the democrats, or the possibility of a general strike threatened by the Federation of Labor—that none of these has caused the administration to change its mind for a moment about forcibly ending the coal strike if it is in the government's power so to do.

Dr. Garfield flatly told the conferees that he purposed merely the presentation of data to them regarding what the public could stand in the way of increased fuel costs; the intimation was virtually direct that no agreement of increases to be passed on by the operators to the public could be approved if it went beyond the consuming public's ability to pay, in other words, a price that was fair to the consumer as well as to the other parties at interest.

The threat of a nation-wide freight embargo with all its possibilities of industrial disaster to industries concerned not at all in the coal strike has caused general realization, to both miners and operators, let us hope, that there are other parties at interest in this controversy, and that the administration has constituted itself for the nonce the representative of this big element hitherto ignored, with the intention that it shall not be ignored this time in any settlement of the controversy between miners and operators.

Premier Clemenceau has been given a great popular victory, his political enemies have been swamped, and the extreme socialists—the organization in France which seems to have included the rank and file of the bolsheviks—have been ingloriously defeated with a net loss of thirty-seven seats in the Chamber of Deputies. It is a very good sign, too, that the vote cast was unusually heavy, practically every qualified voter participating, for that indicates that every citizen of France recognized the issues and realized their tremendous importance. It was a full French vote, then, that showed finally the "Reds" in France—who, as elsewhere, have been making much noise—are only a loud minority at most and that we have been prone to magnify their importance and influence because of their aggressive noise-making proclivities. Bolshevism, it is growing increasingly evident, makes its chief appeal to the illiterate and the untutored—do we except a few of our own parlor bolsheviks who are so because of nothing else to do. The nation with an educated citizenship has little to fear from this red madness, and even Germany, where disappointment and discontent might be expected to follow the ground well for the seeds of bolshevism, seems to have thrown off the miasma just as the recent election shows France to have done.

Washington dispatches confirm our prediction that the Senate will undertake to secure the re-writing of the Each railroad bill in conference by passing the more drastic Cummins bill and then letting the conferees reconcile the differences. The Senate bill will probably include the prohibition of strikes and lockouts, and it probably will give more satisfaction to the states by extirpating some of the powers conferred upon the Interstate Commerce Commission by the Each (House) bill. There is good reason to hope that the conference bill will be an improvement over the Each bill as it finally passed the House, and that the resultant legislation will be the means of real betterment of the railroad situation and of railroad service.

It would seem that the peace conference ought to call on D'Annunzio to sign the final ratification of the peace treaty, for the Italian government seems to cheerfully admit its impotence in dealing with him and that it cannot even prevent its soldiers from deserting to join the poet's forces. If Italy cannot control D'Annunzio, why should it continue the pretense of being supreme in Italy? If, as many suspect, Italy is merely putting D'Annunzio forward to rake its chestnuts out of the fire, why should it not be forced to drop the pretense of trying to live up to the peace conference's decrees?

COMPARATIVE COST OF FARM PRODUCTS.

Farm products cost 478 per cent more today than they did 25 years ago.

Comparing average prices today with those of 1894 we find the following differences:

Wheat	1894	1919
Eggs	60	2.05
Corn	30	1.25
Oats	14	1.25
Butter	10	2.00
Beans	40	2.00
Peas	40	2.00
Lard	2.50	17.50
Meat	3.25	15.00

Just Folks
by Edgar A. Guest

THE CHOICE.

What matters most in life to you?
The splendid deeds that you may do,
The fortune or the bit of fame,
Which you may win in the future claim,
And for a brief few years enjoy—
Or all the lifetime of your boy?

If some one came and said: "I'll give
You fame and fortune while you live
If in return you'll give to me
The man your boy will some day be,
You shall be great, but he shall fail—
Would you consider it at all?"

What are that youngster's prospects worth?
Would you sell them for all this earth?
Would you for all that could be had
Barter the future of the lad,
And sell him to a life of shame
That you might know the touch of fame?

Would you not rather never know
The clink of gold or glory's glow
Yourself, and have the guarantee
That in the future there would be
Unto your honor and your fame
A son that's worthy of your name?

Side Talks
by Ruth Cameron

TRYING TOO HARD

To try too hard to get a thing sometimes defeats the end you seek. And of nothing is this more true than of trying to get to sleep. I had that truth driven home to me this morning in a rather interesting way.

When I am going anywhere that requires rising early I set the alarm clock, and then I always wake up an hour (almost to the minute) before the alarm is to go off. I look at the clock and see that I have an hour more to sleep and I say, "Now, I must get right to sleep." And behold I am wide awake and remain so until it is time to get up. I went to bed at half past five. Until six fifteen I lay there trying my hardest not to go to sleep. Then I opened my eyes and saw that it was six fifteen. I decided that there was no use trying any longer, and turned over on my back (I always lie on my side to sleep) thinking "I will give up the struggle and just lie here and rest this last fifteen minutes." As I lay there I was so tired that I fell asleep almost instantly and slept the full fifteen minutes.

And the reason was simply that I had stopped trying so hard as to defeat my own end.

Another object lesson in relaxation. I related to my sleeplessness and thereby conquered it.

Doctors say that it simply doubles

the harm sleeplessness does to fretting minds. It is never think of ways of treating those wakeful hours without remembering what a beautiful middle-aged friend of mine once said "I don't mind trying awake nights because I always start thinking of all the lovely things that have happened to my children."

Now, many nice things have happened to her children, but a great many unpleasant things have happened to them and to her, too—enough to take every bit of courage out of most of us.

I used to marvel at the things that woman has accomplished. But after that I felt I had the master key to her wonderful personality.

HEADLINE HISTORY
WORLD WAR

(Clip and paste this in your copy book)
WHAT HAPPENED NOVEMBER 23

Copyright, 1919, New Era Features.

1914
Germans retreat in Poland; Army attacking between the Vistula and Warthe Rivers split by Russian attack; in the south Russians again bombard Cracow—British defeated in East Africa; attack railway terminus but are driven off with heavy loss—American Army withdrawn from Vera Cruz; our troops withdraw and Carranza's troops occupy the city; two battleships remain to protect Americans.

1915
Allies abandon program of coercion of Greece; British Foreign Office repudiates blockade of Greece but suspends trading privileges of the Greeks; other Allies join—Bulgars capture Mitrovitz latest Serbian capital and 8,000 prisoners; French forced back by Bulgars; attacks on the Cerna River—French troops who aided in defense of Belgrade reach Monastir; have marched entire distance.

1916
Emperor Charles of Austria in proclamation to his people says he will continue war until peace can be had with honor—Lord Northcliffe, owner of London "Times" warns all that the proposal of peace can only be hostile to Britain—Russian reinforcements join Rumanians on Transylvanian front; Rumanians destroy Danube bridge near Corabia—Allies advance north of Monastir; two more villages taken as Serbian-French-Italian line advances.

1917
British renew assaults in Cambrai region; General Byng vainly attempts to retake Fontaine; hard fighting at Mouerres—Von Ludendorff, German envoy to Russians; Trotsky says they will not have separate peace but that proletariat of all nations will immediately end the war—Italian line on Asiago Plateau holds against all attacks; also repulse assaults on Monte Grappa; invaders make small advances along the upper Piave.

1918
American casualties in war 236,117; deaths 53,169; first units start for home—Bolsheviks resist Allies on the Volga; also battle for the Volga-Archangel railway; Bolsheviks aided by battleships—Padewski sails for Poland; thanks Americans for their aid to her; says Poland will now be free—Polish troops capture Lemberg.

"The stars incline, but do not compel."

HOROSCOPE.

(Copyright, 1919, by the McClure Newspaper Syndicate.)

This should be a fairly fortunate day, according to astrology. The Sun, Neptune and Venus are all in benefic aspect. Saturn is adverse.

It is a day most auspicious for all who woo or wed, for Venus is in a place foreboding fortune as well as happiness to those who are in love.

The rule is favorable for all who would win public acclaim from pulpit or platform, and the stars presage a great flow of oratory that will flood the land in the coming months.

Women who have favors to ask would do well to make the best possible use of the opportunities that this day offers.

Ancient lore interpreted a planetary rule similar to this as most favorable to the bestowal of gifts.

There is a lucky sign for the navy and those who belong to it. Honors

to its head are forecast.

During this direction of the stars political ambitions are supposed to be strongly encouraged. It is a propitious government of the stars under which to make initiative.

Neptune gives promise of a period of clear thinking and right vision on many public questions.

GENE GAUNTIER TELLS OF THE ENTRY OF MARY PICKFORD AND D. W. GRIFFITH INTO "MOVIES"

When a reporter for the Times dropped casually into the office of the Wichita Falls Film Company, (doesn't that sound interesting to you fans who have never before come in personal contact with the people of the screen and certainly have never dreamed of possessing a film company of our own, distinguished by the name of our home town?) he inadvertently became one of a group of actors and technical men who were listening to an eager conversation carried on by two of the leading actors, Gene Gauntier and Mr. Males, who plays what in the show business is known as the "character heavy" whatever that may be. The conversation was not at all a casual one, but a serious one, and the two men were talking of the "character heavy" whatever that may be. The conversation was not at all a casual one, but a serious one, and the two men were talking of the "character heavy" whatever that may be.

Movie Calendar for Week

MAJESTIC CALENDAR.
Monday: Harry Carey in "Riders of the Law."
Tuesday: Corinne Griffith in "The Climbers."
Wednesday: Elane Hammerstein in "The Country Cousin," and Charlie Chaplin in "The Bank."
Thursday: Anita Stewart in "Her Kingdom of Dreams."
Saturday: Dorothy Dalton in "Other Men's Wives."

PLAZA THEATRE CALENDAR.
Gene Cobb's Honey Gals, tabloid musical comedy, all week.
Monday and Tuesday: Marion Davies in "Cecilia of the Pink Roses."
Wednesday: William Desmond in "Mint of Hell."
Thursday: Arthur Ashley in "Forerunners."
Friday: Madeline Travers in "Splendid Sin."
Saturday: "By Stork's Delivery," Keystone Comedy.

ADDED ATTRACTION COMES TO EMPRESS THANKSGIVING WEEK

The dangerous breezes of California will be wafted into Wichita Falls all next week at the Empress theatre when a very of the most popular and beautiful of the Pacific coast's screen musical numbers introduced by Miss Madeline Lee, who is often called the nightingale of the studio, always singing, always happy, even when the naughty director has shot a scene for the 11th time. Miss Lee sang her way into the hearts of everyone around the studio as she will do when she appears in person here.

MAE MARSH IS STAR OF "SPOTLIGHT SADIIE"

Mae Marsh comes to the Gem theatre Monday in what is said to be without question the best Goldwyn Picture in which she has yet starred. It is "Spotlight Sadiie" and presents the appealing star in precisely the sort of role she is best equipped to play.

Contrasting sharply with her innocence is the worldly wisdom of her associates. This is cruelly brought to her attention when she falls in love with a young man claimed as the special property of the leading lady. This girl is a trap for Sadiie into which the girl promptly falls and her sweetheart is made to believe that Sadiie's saintliness is only a pose. Then Sadiie learns that her natural tastes have been used to exploit the company, through the press agent's activities. A startling solution comes out of this tangle in which Sadiie finally triumphs.

BEACH MODELS and BATHING BEAUTIES
APPEARING IN PERSON
VISIONS OF LOVLINESS! NATURE'S CHOICEST SPECIMENS! SEE THEM IN THE LIVING FLESH
ENTIRE WEEK BEGINNING MONDAY, NOVEMBER 24th
NOT CHORUS GIRLS. NOT MUSICAL COMEDY PERFORMERS, BUT THE PRETTIEST OF THE MYRAIDS OF MOTION PICTURE BATHING GIRLS THAT YOU HAVE SEEN IN COUNTLESS COMEDIES UPON THE SILVER SCREEN OF THE LEADING PHOTOPLAY PALACES.
NOW SEE THEM IN PERSON FOR THE FIRST TIME.
These athletic girls are not professional stage beauties, the kind that is greased painted and artificially eye-browed. They are youthful queens of nature, selected after an exhaustive country wide search of the bathing beaches and natatoriums, from the Atlantic to the Pacific, in an effort to discover the most beautiful and startling beauty of REAL bathing beauties in all America.
Each girl is a superb diver and swimmer, being possessed of astonishing prowess in mastering the water. Each one is a medal winner in aquatic competition. And then add youth, beauty, personality, shapeliness, grace with a perennial smile, and you have the perfect bathing girl—the girls that will appear.

PROTEST RAISING MINIMUM WEIGHT OF GRAIN SHIPMENT

AUSTIN, TEX., Nov. 22.—A protest against the raising of the minimum weight of grain shipment was made by Allison Mayfield, chairman of the Texas railroad commission, in a telegram addressed to the office of S. P. Bush, Mr. Mayfield said: "This proposed increase in minimum weight of grain products to sixty thousand pounds is going to have a very bad effect in my opinion on the mill man and merchants in small towns. The minimum has been raised two or three times in the last few years. In the first place it is hard on the mill men because the small merchant does not want to buy that much at one time, and if he did the mill man does not want to give him that big line of credit and of course of H. C. L. movement is out of the question. You know the situation in Texas as well as I do and I wish you would take this up with Mr. Bush and see if there cannot be some modification of the rule so far as Texas is concerned. I think it is a theory that looks very good but in its practical application will have a bad effect and not accomplish what the theory expects."

TEXAS SCHOOLS TEACHING VOCATIONAL AGRICULTURE

AUSTIN, Nov. 22.—Texas has a larger number of schools teaching vocational agriculture than any other state in the union, according to an announcement from the state board of vocational education which recently approved applications of 76 schools for federal aid in this work. Of these 76 were for whites and six were for negroes.

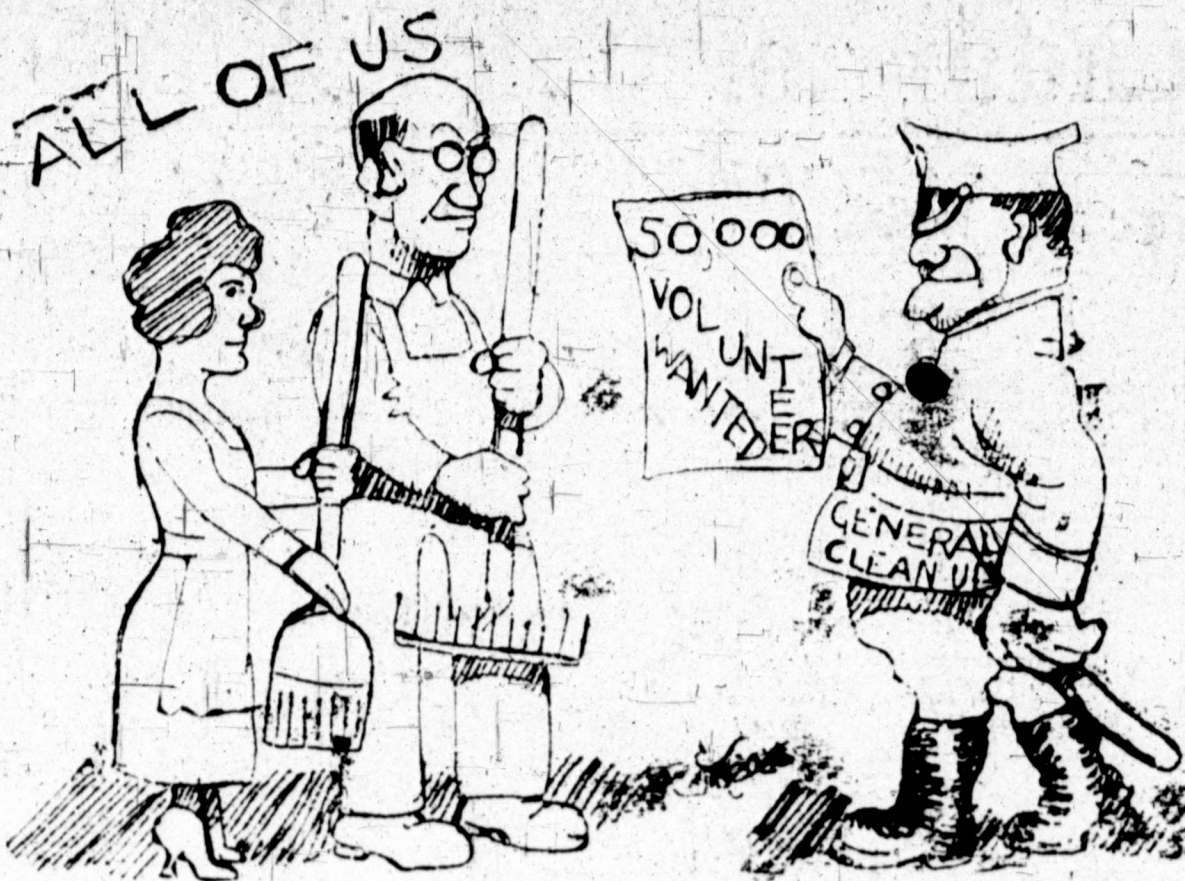

Approximately 800 students have enrolled in the course and each has selected a one-fourth acre vegetable project and an acre crop project, or the animal project.

Satisfactory banking connections have played a large part in the success of oil men operating in Wichita and adjoining counties. The National Bank of Commerce has contributed and is contributing to the development of this most important industry.

Great Thanksgiving Service.
First Christian Church, corner of Tenth and Travis streets, Sunday night 7:15. Special inspiring music by great choir. Sermon subject: "Our Greatest Ground For Thanksgiving."

DON'T WAIT UNTIL YOU ARE DRAFTED

THIRTY-TWO MOUNTS FOR EACH TROOP OF THE TEXAS CAVALRY

AUSTIN, TEX., Nov. 22.—The militia bureau of the war department has authorized the issuance of thirty-two mounts to each of ten cavalry troops of the Texas National Guard, and the horses will be sent out as soon as they are received, according to an announcement from the adjutant general's department today.

The troops designated to receive mounts are: troops A and L, third cavalry; Waco and El Paso; troops B and L, fifty cavalry; McKinney and Greenville; troops A, B, C, D, seventh cavalry; Houston; troops H and I, seventh cavalry; Columbus and Nacogdoches.

RAILROADS MUST REVIVE RATE HANDLING MACHINERY WARNS THE COMMISSION

WASHINGTON, Nov. 22.—Railroads under federal control were warned by the interstate commerce commission today to revive their rate handling machinery because of the impending return of the properties to private operation.

APPOINTMENTS ARE MADE BY GOVERNORS

AUSTIN, TEX., Nov. 22.—An act of the last special session of the legislature increased the membership of the state library and historical association to five, and the governor today announced the appointment of Dudley K. Woodward, Jr., of Austin, and R. L. Burgess of El Paso, as the two additional members. The three original members are Mrs. J. B. Dittrell and Miss Emma Burleson of Austin, and Miss Kate Hunter of Palestine.

HAWAIIAN VOLCANO IS SHOWING GREATEST ACTIVITY IN YEARS

HILO, T. H., Nov. 21.—Kilauea, said to be the most constantly active volcano in the world, is showing the greatest activity in ten years.

Mauna Loa, which recently overflowed its crater, the lava stream flowing into the ocean, is quiet.

Kilauea is a crater at an altitude of about 4,000 feet on the lower slope of Mauna Loa, on the island of Hawaii, nearly eight miles in circumference and 600 feet deep. It encloses 2,465 acres of solidified lava, in the center of which is a pit more than 1,000 feet in diameter, called "The House of Everlasting Fire."

MAY POSTPONE DATE TO BEGIN PEACE TREATY

Date Agreed Upon Was Based on Assumption United States Would Ratify

LEAGUE OF NATIONS MEETS DAY TREATY IS EFFECTIVE

Pointed Out That This Meeting Can Be Called Legally Only by President

By HENRY WOOD
(United Press Staff Correspondent)
PARIS, Nov. 22.—The peace treaty may not be declared effective December 1, unless ratification is completed by the American Senate before that time, it was indicated today.

The tentative decision of the supreme council announced Wednesday to make the treaty operative December 1, was based on the assumption that the United States upper house would reach some compromise and according to reliable information (The Senate does not reconvene until December 1.)

It is imperative that the first meeting of the League of Nations be held the same day the treaty becomes effective, it was pointed out today and this meeting can be called legally only by President Wilson.

Delay May Result.
It was feared here the Senate's rejection of the treaty during its recent session, has indefinitely postponed the date of making the treaty effective, likewise organization of the League of Nations.

While those in official circles refused to discuss formally the situation created by the failure of the United States Senate to accept the treaty, there was no doubt it is receiving grave consideration.

The sentiment prevailed here that if the league does not materialize the allies will demand additional guarantees from Germany. These demands were expected to include:

Cession of the left bank of the Rhine and the Saar Basin to France.
Rectifications of the Belgian frontiers.

Further German disarmament, with the surrender of all Germany's war materials.

New arrangements for payment of reparations by Germany.
Possible annexation of Heligoland by Great Britain.

Newspapers here published little comment upon the Senate's action. France generally seemed inclined to adopt an attitude of "watchful waiting."

The officers and employees of the every opportunity to familiarize them with the National Bank of Commerce welcome.

Such service is of value to men and women in every walk of life.

HIGH TRIBUTES PAID TO DEAD HEROES AT MILITARY FUNERAL

COFFIN BEING CARRIED BY CAISSON ON HUDSON STREET

The above picture is a scene in the event of the return to the United States of the ship of the dead, the Lake Daraga, bringing the bodies of American soldiers who made the supreme sacrifice in the late war. A military funeral was held at Hoboken, N. J., where these victims of fighting along the Archangel front were draped in Old Glory and impressive funeral rites were held.

THE VIRGINIA COMPANY

\$200,000 ISSUE

25% Guaranteed!

Subscribers to stock of the first \$200,000 whose applications are mailed before December 10, will not only receive Guaranteed cash dividend of 25%, but will be returned the entire amount of their investment AND THEIR STOCK WILL GO MARCHING ON—EARNING DIVIDENDS on the production proceeds of our

PAR VALUE \$1.00

THE VIRGINIA COMPANY

48,000 Acres of Valuable Oil Leases in 29 Texas Counties

IN THE ORGANIZATION OF THE VIRGINIA COMPANY investors are afforded one of the most exceptional opportunities for profitable investment which have yet arisen out of the great oil development activity of the Greater Texas Fields. The element of risk is reduced to an almost irreducible minimum.

THE FIRST TWO HUNDRED THOUSAND DOLLARS to be realized from subscriptions to stock will be used immediately in securing production in addition to what we now have.

AS A BONUS to early subscribers THE VIRGINIA COMPANY guarantees to pay a cash dividend of TWENTY-FIVE PER CENT on the first \$200,000 subscribed. FIVE PER CENT of this cash dividend will be paid on January 10, 1920, and the same amount on the first of each succeeding month until the full sum has been paid. This is positively guaranteed.

BUT THAT IS NOT ALL. THE VIRGINIA COMPANY, by special order, has set aside one-half of its present production as well as one-half of the net production to be acquired in future for the payment of dividend to the early subscribers until their full amount subscribed has been completely returned to them. They will also share in all other revenue which may be derived from the sale of any of our leases and all profits from any other source whatever. To this extent the first subscribers will be preferred.

BUT THE END IS NOT YET. You are probably asking yourself, "Well, if I invest with THE VIRGINIA COMPANY, is this special bonus all I get? Will my stock not go right on when the bonus is paid to me?"

HERE IS THE ANSWER. When you are among the subscribers of the FIRST TWO HUNDRED THOUSAND and your cash dividend of 25 per cent has been paid, and you have been paid back the full amount of your investment your stock ownership to the amount of your subscription goes right on just the same. Once a stockholder always a stockholder—that is, as long as you choose to hold your stock. Our 25 per cent cash dividend and return of your complete investment is a SPECIAL BONUS to early subscribers.

We already have practically 48,000 acres of lease holds in the counties of Stephens, Eastland, Comanche, Brown, Throckmorton, Shackelford, Young, Haskell, Baylor, Archer, Wise, Jack, Montague, Wichita, Harrison, Gregg, Rusk, Smith, Martin, Howard, Mitchell, Brewster, Reeves, Ward, Glasscock, Erath, Bosque, Tarrant and Hidalgo.

WHEN THE COMPANY IS INCORPORATED FOR SIX MILLION DOLLARS, the corporation will take over the assets of THE VIRGINIA COMPANY with this same agreement. We are getting leases very much faster than we figured on and it now looks like we will be able to have our company incorporated for at least \$6,000,000 at \$1.00 par value before the first day of January next. Only those who sign and return the application below will be entitled to the dividend above set forth. Fill out and return it to us at once.

SPECIAL REFUND CONTRACT BLANK WE ALREADY HAVE PRODUCTION

We ask you carefully to examine the following paragraphs setting out a few of the choicest pieces of property embodied in the vast oil holdings of THE VIRGINIA COMPANY. All our leases are paid for and several of them are close to producing territory and consequently advancing in value.

We own in fee one-third of the shallow oil production on 220 acres in the Moran Field. There are five producing wells on this tract.

We have under lease 2 1/2 acres adjacent to the tract upon which the Thorpe well came in with a reported initial flow of 1,500 barrels a day.

Thirty-eight acres in the Deedemans field adjoining the Harrington well and other big producers.

One-half interest in the drilling contract of one-quarter of production on 80 acres immediately adjacent to the Thorpe well tract.

Two acres south of Breckenridge surrounded by many producing wells. On the advice of geologists we contemplate drilling in this tract right away.

Ten acres on Sunshine Hill in the famous Burk Burnett Field. This is proven territory and the lease is very valuable.

These are only a few of our leases which are diffused over 29 counties of Texas. Many others are considered by oil men and geologists located in districts where indications of oil already have been found and concerning which favorable reports have been made. It is the intention of THE VIRGINIA COMPANY to add several more leases to its present holdings.

THE VIRGINIA COMPANY

BRECKENRIDGE ROYALTY SYNDICATE
(Underwriters)

HEAD OFFICE, FORT WORTH, TEXAS
4 Dundee Building

THE VIRGINIA COMPANY is the outgrowth of the Breckenridge Royalty Syndicate, one of the most successful organizations growing out of the oil business of Texas. On July 20, 1919, Mr. E. B. Whittington, Secretary of the Syndicate took a two weeks' leave of absence from the Crouch Hardware Company, of Fort Worth, and, together with James B. Turner, Fort Worth attorney, went to Longview, Texas. They at once conferred with Mr. T. C. Morgan, of that place, a practical banker who established the First National Bank of Longview and developed it into the strongest banking institution of that section, and R. A. Skipper, a well known Longview real estate dealer. In less than six days they organized the Breckenridge Royalty Syndicate. The entire capital stock of \$100,000 was subscribed and paid in, except \$12,000. WHEN THE BALANCE OF THE TREASURY STOCK OF THE SYNDICATE WAS OFFERED FOR SALE SIXTY DAYS LATER, IT WAS TAKEN UP IN LESS THAN TWO DAYS AT TWO FOR ONE. None of this stock is now for sale.

BY A THOROUGH AND ECONOMICAL ADMINISTRATION of the business affairs the Syndicate has been able to pay in less than six months 25 per cent in cash and a stock dividend of 15 per cent of the Guaranty Abstract Company, of Breckenridge, and 25 per cent in the stock of THE VIRGINIA COMPANY.

THE OFFICERS OF THE BRECKENRIDGE ROYALTY SYNDICATE will be associated with THE VIRGINIA COMPANY. James B. Turner, active vice president and director of the Northwestern Security Company, of Minneapolis, will be one of our directors. Mr. J. P. Brunton, a practical geologist and oil operator for the last 28 years, will be a member of the Board and will have charge of the production department. Another worthy director will be Mr. J. H. O'Brien, of Mineral Wells, a capitalist and practical oil man of long experience.

The Virginia Company, Room 4, Dundee Building, Fort Worth, Texas.

Please enter my subscription for _____ shares of Capital Stock of The Virginia Company, at \$1.00 per share (par value) fully paid and non-assessable, for which I herewith hand you \$_____ in full payment.

I am making this subscription with the understanding that I am to receive in addition to my stock certificate a "Special Refund Contract," the conditions of which are as follows:

1. THE VIRGINIA COMPANY guarantees a cash dividend of 25 per cent to be paid on January 10th, 1920, and on the 10th day of February, March, April and May respectively, in such amounts on each date as the company may have profits on hand with which to pay, but in all events the company will either pay the full amount of this production or the sale of some of its leaseholds by the last named date.

2. One-half of the net proceeds from the oil produced from all the wells owned by the company shall be prorated and distributed quarterly beginning June 1st, 1920, among the subscribers to this fund until the entire cash investment of each subscriber has been returned in full.

3. A statement of the production and net proceeds therefrom shall be prepared each quarter and a copy thereof shall be mailed to the last known address of each of the subscribers to this fund, together with remittance for his or her pro-rata part of the proceeds as herein outlined.

4. This special "Refund" contract shall be issued only to the purchasers for cash of treasury stock.

5. The total of all such "Special Refund Contracts" so issued shall not exceed \$200,000.00.

The interest of the foregoing "Special Contract" is, that those who furnish this \$200,000.00 of working capital for early development of the company, will receive a special bonus as above outlined, in addition to their share of the regular profits of the company. The ownership of the stock purchased above gives the subscriber his full proportionate part of the profits of the company, from whatever source received or made by the company, so long as the subscriber may retain his stock in the company, even after having received back the entire investment in cash, through the "Special Bonus" as outlined in this contract.

WELLINGTON PLANS ENCOURAGEMENT FOR OIL DEVELOPMENTS

Special to The Times.
WELLINGTON, TEX., Nov. 22.—Collingsworth county farmers and business men will invite the oil men to this section of Texas. A meeting will be held under direction of the Wellington commercial club, the coming week when plans for boosting the oil game will be outlined in detail.

There are five deep tests now being drilled in Collingsworth county. A contract for the sixth deep test, the No. 1 well of the Barnes-Buster Oil Co., has been let. The seventh deep test is expected to start near Dodsonville, which is almost on the Oklahoma-Texas line. George Dale and Elmer Dodson have taken up fifteen thousand acres near Dodsonville.

N. S. Clark of Wichita Falls, who has been operating extensively in the Burkburnett and Estelita fields for several months, has taken both contracts to drill the Barnes-Buster tests. The No. 1 well is located nine miles south-west of Wellington. The derrick is up and the tools are said to have been shipped several days ago to Wellington. The Barnes-Buster company has twenty thousand acres in its block of leases.

Growing Activity.
Activity in oil development in Collingsworth county is growing rapidly. This is evidenced by the large number of visitors who are flocking into Wellington and looking for oil lands. The Wilkerson hotel, one of the largest in Wellington, has been forced to place beds and cots in the dining room in order to care for those in search for sleeping quarters during the last week. From six to eight persons have occupied one room. In other hotels at Wellington, cots in hallways have been in great demand. And still some travelers have had to walk the streets at night because there was no place to be found.

There is scarcely a farmer in Collingsworth county who has not either leased his land or had an opportunity to do so in the last few days. Many farmers have become rich in cotton this year as Collingsworth is claimed to be the banner cotton county of Texas this year. These same farmers now are anticipating much greater wealth from oil which geologists claim lies under their land.

FORMER METHODIST PASTOR SAYS GOOD-BYE IN LETTER WRITTEN FROM NEW CHARGE

The Times has received the following communication from Rev. S. A. Barnes, lately pastor of the First M. E. Church, South, Good-bye Two Hundred and Fifty Miles Away.

"If that good paper The Times, will spare me a little space, I want to say 'Good-bye' as we parted in the last rushing hours to bid our good friends all alike farewell, and we did it purposefully too because good-byes have never been a pleasant task to me, and especially so to those who had been so kind and good to us during our three years residence in that city. Some-how, bumps come in my throat, water in my eyes, and talking is hard, so I thought I would just wait until I was two hundred and fifty miles away. We have never found any where more favorable people and the many kindnesses and tokens of appreciation shown us will never be forgotten. I shall count them among my very best, and dearest friends, those I have left in Wichita Falls, and for them I only wish the greatest happiness, prosperity and usefulness.

"We reached Paris in due time and will say for the benefit of those who are interested that we have found a beautiful town, fine business, and especially clean. We already feel at home and well satisfied. Am down at work already. We sincerely pray that the coming year may be the very best for the religious good of this city and for my successors, only wish them good things possible, and now in the quietness of this midnight hour all alone I want to say 'good-bye' to each and every one, and God bless you.

"S. A. BARNES."

EDUCATIONAL REFORM LABOR PARTY PROGRAM

LONDON.—The labor party intends to make educational reforms one of the problems to which its legislators will direct attention during the forthcoming session of Parliament.

Some provisions of the Education Act of 1918 have aroused opposition from labor representatives in the House of Commons. Chief among these is authority given local officials to recognize "works schools" organized by private firms and conducted on the firms' premises which are approved in the act as offering "suitable and efficient" part-time instruction. These schools are designed for boys and girls between fourteen and sixteen years of age.

to the "works schools" on the ground that they may mean that instruction there "will be biased by the commercial interests of the firm conducting them." A demand is also made that instruction, as far as possible, shall be in the morning hours, it being contended that "it is useless to compel boys and girls to attend school when they are tired out by a day's work."

Labor party candidates are making their party's stand on this subject prominent among their campaign arguments.

TABLOIDS

Below Alcohol Limit.
NEW YORK.—James White was arrested for trying to sell a barrel of "whiskey" for \$400. It contained two quarts of the real stuff; the rest was rain water.

Dangerous Business.
CLEVELAND, OHIO.—It's dangerous to take a drink, let alone a jug full these days. Joe Davis got two bullets when he was discovered taking a jug of whiskey from James Duffy's cellar.

Juror Is A. W. O. L.
KANSAS CITY.—Twelve jurors filed out of Federal court Friday noon. Eleven filed back two hours later. Juror J. Gillan was still "A. W. O. L." today.

Outside Looking In.
DALLAS, TEX.—Let's in on the outside looking in. County Jailer Yeager has ruled no more jail marriages will be permitted in Dallas.

The Times Job Printing Company prints your printing. We offer you good service and good work. Phone 175. 177-17c

QUARTER OF A CENTURY IN THE OIL BUSINESS

W. L. CONNELLY

W. L. Connelly, who has been recently re-elected as vice president in the newly constructed Sinclair Consolidated Oil Corporation, has been in the oil business since he was 19 years of age. He began with the Wood Company, of Ohio, operating in northwest Ohio. He then turned up on the scene in Kansas, in 1902. Where after a few years, he became superintendent of production with the Sinclair interests.

Apart from his official rating with the Sinclair concern Mr. Connelly is also vice president of the Freeport & Mexican Fuel Oil Co. He is acknowledged to be the walking encyclopedia of "oildom," and has obtained all his knowledge at "first hand."

LOCAL DELCO DEALER MAKES A FINE RECORD OF SALES

Winning a diamond ring and a free trip to Dayton, Ohio, also an honorary membership in the Killowatt Club in competition with agents all over the country in a selling campaign inaugurated by the Domestic Engineering Co., of Dayton, is the enviable record made by F. H. Brooks, local dealer in the Delco Light system. Mr. Brooks won the prize sold the highest percent of his quota of Delco Light equipments despite the discouraging weather and the unsettled business conditions.

The officers and employees of the National Bank of Commerce welcome themselves with the problems of customers. Such service is of value to men and women in every walk of life. 177-17c

"Would Not Be With-out It," Says Mrs. Bailey

"Orgatone has done me so much good that I would not be without it in the house, because I know its worth," said Mrs. M. A. Bailey, 1512 Taylor street, Wichita Falls, Texas, recently.

"I suffered with stomach trouble and nervous indigestion for several months," continued Mrs. Bailey, "and nothing I ever took helped me like Orgatone has done. I didn't have any appetite to speak of and it actually seemed like even the little I did eat just lodged in my stomach in a lump sometimes and felt like lead. I suffered a lot with headaches and dizzy spells and would often get so weak and run-down I was hardly able to do my house work and, while I tried different things for my trouble I didn't find the relief I was looking for."

"Then I began reading about Orgatone and saw where others, who seemed to be troubled like I was, claimed they had been relieved by taking Orgatone, so I thought I would give it a trial, and after I had finished my first bottle, I noticed a wonderful difference in my condition. My appetite began to pick up and I didn't feel so weak, and I continued to improve right along until finally I got so I could eat just anything I wanted and found that everything I ate agreed with me perfectly and I haven't been troubled with my stomach a particle since. I am not a bit nervous anymore and feel just like a new woman in every way. In fact, Orgatone has helped me so in every way that I am only too glad to make this statement and hope it will be the means of helping others that suffer like I did to find relief."

Orgatone is not a so-called patent or secret remedy but a new scientific treatment absolutely free from alcohol in any form and is sold in Wichita Falls by the T. F. Young Drug Company, exclusive, under the personal direction of a personal representative. —Adv.

TEXAN STILL HOLDS RIVER BED WELLS

Holding that he could not surrender his jurisdiction, gained by the original suit filed by the state of Texas against Tom Testerman and associates on August 18, in the Travis county district court, Judge George C. Calhoun at the conclusion of the conference of Governors Hobby and Hobson, and other Texas and Oklahoma officials at Fort Worth, declined to enter into any agreement with the Oklahoma judge for the appointment of a joint receivership. Judge John C. Hornsby, the Texas receiver, returned to Wichita Falls Friday afternoon, with orders to keep his force in possession of the well. The matter was left to the two judges after conference between the governors and attorneys general, with the above stated result. Texas attorneys supported Judge Calhoun's contention of original jurisdiction, bringing out the fact that Judge Jones' court had jurisdiction only over Cotton county, and that if the disputed wells were in Oklahoma they would be in Tillman county, and henceforth the Cotton county district court would have no jurisdiction. The Travis county court has venue by reason of the state of Texas being plaintiff in the suit.

MANY ACCIDENT CASES REFERRED TO BOARD

AUSTIN, TEX., Nov. 22.—The loss of a leg between the ankle and knee is tantamount to the loss of an entire leg, according to a holding of the Industrial Accident board in the case of Ira Womack vs. the Maryland Casualty company, in which the plaintiff was awarded compensation upon that assumption.

A number of cases arising from injuries to workmen in the new oil fields are coming before the board, and while they present a series of new accidents in which men are injured basic principles involved have been, in the main, previously passed upon by the board and by the courts.

The officers and employees of the National Bank of Commerce welcome every opportunity to familiarize themselves with the problems of customers. Such service is of value to men and women in every walk of life. 177-17c

MODEL FB SEDAN

A closed car gives more in value because it gives greater service with comfort. It is the one type of car that ideally meets present-day needs for all-time utility.

The new Chevrolet FB Sedan presents a value you will find hard to equal in other closed cars selling at anywhere its price. In mechanical efficiency, detail of appointment and appearance, they compare favorably with even the high priced closed cars which not only cost more to buy than the average man feels he can afford, but much more to operate.

Call at our store and inspect this model. Such a visit places you under no obligation and is certain to prove to your satisfaction the truth of our claims.

BUDGET SYSTEM IS PROPOSED AS AN EARLY BILL

Will Be One of First Measures Introduced in Senate at Next Session

PLAN IS TO TRIM THE APPROPRIATION BILLS

Similar Measure Has Already Passed House With But Three Dissenting Votes

WASHINGTON, Nov. 22.—Creation of a national budget bureau, vested with authority to cut down or reject completely all requests for appropriations taken up by congress, next session, Senator McCormick, Republican, Ill., chairman of the Senate budget committee, announced today. Under the present system of Federal finance, McCormick declared, there can be little expectation of a curtailment in the increasing cost of governmental expenditures.

The need of a national budget which might be vested with the necessary authority to curb Federal expenditures is shown by the statistics given the house budget committee in the hearings on the "Good budget measure," said McCormick. "Figures furnished the committee showed that the cost of federal administration during the past forty years had increased 1,336 per cent, a considerable percentage of which is due to the inefficient method in which estimates for appropriations are handled."

Comparison is made. According to figures submitted to the House Committee the cost of Federal government during Hayes administration was \$578,609,336; Garfield and Arthur \$758,000,000; Cleveland's first term \$818,000,000; Harrison's \$1,134,321,000; Cleveland's second term \$1,228,000,000; McKinley's \$1,300,000; Roosevelt's first \$1,388,000; Roosevelt's second \$2,221,900,000; Taft's \$2,563,800,000 and Wilson's first term \$3,216,841,000. The two essential features in the House's budget measure, passed with but three dissenting votes provide, first: For centralization in the President of authority and responsibility for submission of the budget; second for creation of an accounting department appointed by the President and which will be independent of any department having authority to spend Federal money.

Accountable to President. Under provisions of the House bill the national budget bureau, the head of which would be appointed by the President at a salary of \$10,000, would be accountable only to the President. However, under the bill which will be introduced in the Senate by McCormick the budget bureau would be a part of the treasury department and under the secretary of the treasury. The offices of comptroller and assistant comptroller of the treasury would be abolished and the bureau of public health service war risk general supply committee and office of supervision architect, all now in the treasury department, leaving the treasury department the functions only of collecting revenue and dissemination of public funds. Under such a plan McCormick predicted the government would save many millions of dollars each year.

The counsel and co-operation of a progressive and soundly conservative bank are essential to any business interest. The National Bank of Commerce is such an institution and is organized and equipped to furnish specialized service in every line of business building.

Wichita Consolidated Oil Co., P. O. Box 723, or apply Booth Pico 623 Ohio Avenue, Wichita Falls, Tex.

CARTER GLASS

GOVERNOR WASHINGTON, Nov. 22.—Carter Glass, Secretary of the treasury, to succeed the late Senator Thomas C. Martin and announced that Mr. Glass will accept the appointment. Mr. Glass lives in Lynchburg, in the western part of the state, not far from Mr. Martin's home in Charlottesville. He was a member of Congress before taking the treasury portfolio and as chairman of the House Banking Committee took a leading part in framing and passing the Federal Reserve law, his business is that of a newspaper publisher.

CHICAGO PROFITEERS ARE TO BE PROSECUTED

CHICAGO, Nov. 22.—District Attorney Charles F. Cline announced today his intention to prosecute profiteers in clothing, butter and eggs. The federal investigators investigating the high cost of living are reported to have obtained evidence of collusion between wholesale and retail manufacturers of clothing which has made it possible for some dealers to exact profits running as high as 600 per cent in a few instances.

Westcott

The Car With A Longer Life The Larger Six Even the Looks Last Longer

Even the paint adds to Westcott's long life. For—the way Westcott paint is applied—it is a protection as well as a beautifier. All wood sills, floor boards and frame work are thoroughly saturated with boiled linseed oil giving complete protection against the dampness of the roadway. The exterior body finish is applied in a series of coats, each spread in an even and uniform film, thoroughly dried under carefully regulated atmospheric conditions and hand-rubbed to a wonderfully smooth, even surface. The final varnishing process is given similar care, with the result that a most beautiful and lasting finish is assured.

In a long-lasting car, even the detail of least importance to the actual operation must be permanently satisfactory. Westcott upholstery for example is responsible in no small degree for the superb riding quality of the car. By proper design and extreme care in the selection of materials, a soft, support for the body and does not sag or lose its firmness during the entire support for the body and does not sag or lose its firmness during the entire life of the car.

Likewise, the Westcott top has the reputation of being the real one-man top. Besides being self-acting it has the advantage of unusual rigidity, avoiding the loose flapping that is so common and so annoying. The top and curtains are designed to give not only the maximum service but also the maximum of refinement and distinction to the appearance of the car.

YAQUI INDIANS ARE USING WOOD BULLETS

NOGALES, ARIZ., Nov. 22.—Yaqui Indians are using wood for bullets, made of mesquite wood, in their campaign in Sonora, it was learned today.

Dr. E. G. Moore, American physician, who has been caring for Mexican federal wounded at Cumpas, brought this information here. The Yaquis and federal troops have been fighting for four days between Cumpas and Sahupis, Sonora, on the Chihuahua-Sonora border south of Nogales. Colonel Manuel Limon has telegraphed to Nogales for reinforcements. The Indians are reported in large numbers headed for the north from the Yaqui delta lands.

YOUR CHANCES OF LOSING ON Your Texas Oil Investment

SHOWN BY OUR FREE STATISTICAL MAP

Experts have been busy for weeks preparing the most complete Geological and Statistical Map of Texas ever compiled.

This Map is Now Ready For You. It Costs \$10,000 to Prepare and Is Worth It

On the face of the map, which measures 15x24 inches, are shown geological surface structures, with brief explanation of their character in every day language.

All known oil and gas fields, accurately located, with average production of each field.

Location, size and ownership of all refineries operating or under construction.

Location of all principal pipe lines and ownership.

Railroads, county lines and principal towns.

On the reverse side appear the following tables and charts:

Table showing increase in crude oil and gasoline consumed and number of automobiles in use from 1914 to 1918, inclusive.

Chart showing increase in production of crude oil from 1910 to 1918, inclusive, comparing production of United States, Texas and the world.

Table showing number of wells drilled and number producing for each field, from 1912 to July 1, 1918.

Table showing approximate production for each of the principal Texas fields in 1918 and first five months of 1919.

Table showing dividends paid by principal North Texas Companies from date of organization to March 1918, inclusive; also dividends paid by large, old-established oil companies over a long period of years.

N. O. Monroe

An Established Realty Firm

Homes and Investments

ON HUFF AVENUE

A very attractive north front, two-story home, consisting of eight rooms and in every respect a very attractive home. Has hardwood floors throughout the first floor and has every built-in feature that could be desired in a home; has also good garage and servant house. If desired we can sell you this home on very easy terms.

ON MONROE STREET

An east front, consisting of five nice rooms, with good garage and driveway, \$9000. This place is situated in the 1100 block and an exceptionally good buy for this money.

ON TENTH STREET

A south front, strictly modern five-room home in the best of condition throughout, \$10,000.00. We only ask the opportunity of showing you this property if in the market for a nice home of this size.

ON ELEVENTH STREET

The cheapest buy on the pavement in the city, \$9500 buys this property. If in the market for a nice little home on the pavement, call us about this place.

JUST COMPLETED

A south front consisting of six nice size rooms, with hardwood floors and every built-in feature desired in a nice home. This place is also situated on the pavement and has never been completed.

ON TAYLOR STREET

An east front, consisting of six nice size rooms, \$8,000. You cannot buy this lot and duplicate the house for the price. Will also handle some very easy terms on this place.

CLOSE IN ON TRAVIS

An east front, practically new house with also good garage and driveway, on a corner lot, \$10,500. Completely furnished; if preferred will sell you this home unfurnished.

ON TWELFTH STREET

A practically new six-room south front home, with hardwood and edge-grain floors throughout the house, \$11,000. If a good roomy home that is convenient and comfortable is your desire call us about this place.

NORTHEAST FRONT CORNER

With a new six-room house, \$9500. This place will sell to any one in the market for a home of this size and that appreciates construction and location.

ON COLLINS STREET

\$7250 buys an extra nice north front, new five-room house, has three oak floors, and is in every respect a very attractive little home.

ON BAYLOR STREET

An east front, consisting of six nice size rooms, with hardwood floors throughout, nice breakfast room, built-in features and in every respect a very attractive home, \$10,000.00.

1116 MONROE STREET

Six extra large rooms, newly papered and painted and now ready for occupancy. If desired we will give you very reasonable terms on this property and this street will be paved in a very short time and this is only the second block off of Tenth.

ON BURNETT STREET

An east front, consisting of nine rooms and in the best of condition throughout, with also a 7x150 foot lot, \$17,500.00. This property will show for itself as to the value for this price upon inspection by anyone.

\$4,500.00

Buy a 7x150 foot lot close in. If you want a building site for an apartment house, or any other building requiring a close-in location will be glad to show you this lot.

VACANT LOT ON LUCILE STREET

West of Brook, a south front lot in one of the best resident blocks on this street, \$2500.00.

ON ELEVENTH STREET

A south front lot on the pavement, \$4000. This lot is situated on one of the highest resident blocks on this street.

GRANT, SUTHERLAND AND TILDEN STREETS

We have several nice resident lots on these streets which needs no introduction to the people of Wichita Falls as to the growing popularity of these streets as resident streets. If in the market for a nice pair of lots on these streets call us.

108 FEET ON TENTH

A south front corner, with a nice brick home, good servant house, garage and driveway, \$25,000.00. This is the best buy on this street considering the location, improvements and the amount of ground you are getting.

ON ELIZABETH STREET

An eight-room two-story home that was planned and built for a home. This is no representation for the sake of selling the place and this property will bear close inspection as to the construction and is for business reasons only that it is offered at the price, \$15,000.00. If in the market for a buy, worth the money, let us show you this property.

A SOUTHEAST CORNER

On Tenth street, a home that has never been priced or offered for sale previous to this, and a home that we feel sure in saying has attracted as much attention as any one on this street. This house consists of seven nice rooms, all on one floor, with also breakfast room and every built-in feature that any one would like. If in the market for such a home as this, we will be glad to show you this property and after inspection we rest assured that you will readily say that it is worth the money.

2800 BLOCK ON LUCILE

A six-room house with all nice size rooms, also good garage and servant house, \$10,500.00. There is not a necessity of the expenditure of any money on this place until you move in. And it is one of the most convenient floor plans to be had.

NEAR THE AUSTIN SCHOOL

A new five-room house with a south front and is extra nicely furnished. We only ask for the buyer on this property and assure you that the price is far under the market of anything else to be had in this location. Will also sell you this house furnished or unfurnished.

ON DENVER STREET

An east front, aeroplane brick bungalow with 7x150 foot lot, \$11,500.00. This place is extra nicely furnished and this location is neither too far out nor too close in for a nice residence.

\$1,000.00 CASH

Buy a south front, five-room strictly modern house, on a corner lot on McGregor street. Will give you immediate possession and very easy terms on the balance and will sell you this house for \$8,000.00.

1900 BLOCK ON ELIZABETH STREET

A north front, practically new five-room house, \$4,400.00. Will handle this place if desired with a cash payment of \$1,000.00.

ON LUCILE STREET

A north front, very attractive, practically new five-room house, \$7500.00.

ON INDIANA STREET

A corner lot, \$12,500.00. If a choice investment is your desire investigate this as this lot will sell for \$50,000 in less than six months from today.

ON SCOTT STREET

50x150 feet, \$20,000.00. This street needs no introduction to Wichita Falls people as to the value of property on the street as there has been more property sold on this street in the past six months than all the balance of the business property as investment that have been sold on any other street.

If in the above ads you do not see a home, lot or an investment in the location or the price that you want, remember that we have it and will appreciate very much a call from you as we make it our business to always have the best selections of all the buys in Wichita Falls property, as this has been our business exclusive for several years. We are furthermore glad to give as reference as to our mode of handling business hundreds of our regular customers here in the city.

HISTORY OF OBSERVANCE OF THANKSGIVING IN TEXAS DATES TO DAYS OF REPUBLIC IN 1842

By CORINNE FLOOD.
AUSTIN, Nov. 22.—The practice of Thanksgiving observance is not so long established or bounded by such fixed customs as some people may think. Thanksgiving is connected in our minds with the "turkeys and with early New England days, but it was not until the presidency of Lincoln that there was a fixed day for general thanksgiving, and only after the Civil War did there come anything like a universal observance of the day. Before that time it was celebrated only in some sections and at varying times.

In Texas the first recorded mention of Thanksgiving came during the days of the Republic in President Houston's suggestion that March 2, the anniversary of Texas independence, be observed as a day of praise throughout the new nation. The Austin City Gazette for January 19, 1842, has this to say:

Suggests Thanksgiving.
"In today's paper will be found a recommendation by the President that the anniversary of the declaration of our national independence shall be especially set apart for a day of solemn thanksgiving. No day can with more propriety be dedicated to the Supreme Ruler of the universe than the birthday of liberty. Then let the whole nation on that day from which it dates its existence as among the republics of the earth unite in tendering the thanks of a grateful people."

Whether or not this day was actually observed it is impossible to say. The journals and papers of early March make no mention of the fact; there is much notice of Indian raids during that period, and these perhaps distracted the attention of the press, if not the people in general, from the day of thanksgiving.

Recommendation Made.
In November, 1849, after Texas had come into statehood, Governor George T. Wood issued a "recommendation" that the first Thursday in December be observed as a day of thanksgiving, urging that "all people of the state abstain from all secular employments, and all officers close their offices and transact no business." But here, again, there is lack of evidence that the day was actually observed with any universality.

Six years later the Galveston Daily News for November 6, 1855, states in its editorial column that "Thursday, the 29th of November, has been appointed by Governor Pease as a day of thanksgiving and praise throughout the state. The action is commended and the readers are urged to comply; evidently the procedure is looked upon as a desirable innovation."

The idea of the last Thursday in November seems to have become fixed not only in Texas, but elsewhere, for when in 1864 President Lincoln was called upon to name a permanent day for a national Thanksgiving he set that date. The proclamation he issued has served as a precedent for all presidents since that time, and within a few years it became customary for the governor of each state, likewise, to set apart this day by proclamation.

Scant Attention.
During Civil War days, however, these proclamations of Thanksgiving, originating with an unpopular Republican president, were received with scant attention and, on one or two occasions at least, with very ill grace. The Houston Union for November 5, 1864, published the proclamation of Governor E. M. Pease in which Thursday, the 29th, is designated as Thanksgiving day; and editorial comment of the same date commends the action. But on the day following this Thursday, Editor Robert Joseph of the State Gazette inquires what there is to be thankful for—"air, ground water, food? What else is left us?" he asks. "Our civil liberty is gone; our constitution trampled in the dust; self-government denied us; the negroes made our superiors by law; that we must all give thanks—maybe that we have not got a matter to be thankful for—we haven't the yellow fever or the small-pox." He concludes: "Let us be thankful, then, for congressional reconstruction, the 14th amendment and nigger voting. Let us all be thankful, let us have Peace" and Grant and Vold—poor victuals and mean whiskey, and plenty of nice dirt to eat and grow fat on." At any rate it would appear that feasts were not synonymous with Thanksgiving in Texas in those days following the war. In the next year, 1865, the day after Thanksgiving brings forth this comment: "Yesterday, Grant's Thanksgiving day, passed off in our city without any military arrests or shooting of rebels by the patriotic soldiery." Perhaps this may be taken to indicate that the soldiers, at least, celebrated the day; but it surely does not indicate any great amount of festivity or worship.

Change Following Year.
The following year, however, there was a change. Early in November the Austin Daily State Journal calls attention to the published proclamations of Governor Edmund J. Davis and Mayor Leander Brown, and announces that services will be held in the House of Representatives. Later it is stated that the union service was well attended and that a number of the business houses closed till after the service. In Houston, according to the Daily Telegraph, the postoffice was closed from 9:00 till 4:00, no paper was issued, and the board of aldermen cancelled its meeting; the train brought many visitors to the city; the recorder's court was kept busy all day (mayday houses); and a Main street dealer celebrated to such an extent that he attracted much interest.

By 1871 Thanksgiving observance had become the rule in Austin, at least, judging from the Journal. "Thanksgiving has become a recognized and most welcome institution in Austin. Our city on that day wore its most hospitable New England look. Numerous were the generous dinners, and numberless the invitations—while for the religiously disposed there were services at the capitol and at one or two churches, which were by no means so fully attended as the dinners."

This sounds more like the Thanksgiving of later years, and there is a still more familiar ring in the news papers of 1873:

"Don't forget those fat turkeys and chickens at John's stall for your Thanksgiving dinner tomorrow" admonishes an advertisement. The editor in another place thanks "John" for a fine, fat turkey. Services were held and several running parties went out and had very good success, especially among quail. Only by the date may it be known that this was written 46 years ago, for it shows the beginning of Thanksgiving observance according to present day ideas.

W. C. T. U. CONVENTION
IN LONDON NEXT APRIL.

LONDON.—New significance will be attached to the Triennial World's Convention of the Women's Christian Temperance Union to be held in London next April. For the first time in the history of the organization, delegates from many countries will assemble in possession of voting power and able to bring direct political weight to bear on their problems.

The British Women's Temperance Association is preparing for the meeting. The last world's conference was held in the United States six years ago. In the years that have passed since, it is claimed, the movement has made marked strides though its routine work has been partly checked by the diversion of many members to war activities.

Miss Agnes Black, who is supervising arrangements for the London conference, has been assured that, in connection with the meeting, temperance sermons will be preached in St. Paul's cathedral, Westminster Abbey and Westminster Cathedral. The Salvation Army intends dealing with the organization's work in special services in every one of its halls throughout the world.

The home office has instructed British consuls in South America and Eastern countries to give facilities for the delegates coming to England.

GREAT SALT LAKE SALTIER SINCE 1909

SALT LAKE CITY, UTAH, Nov. 22.—Great Salt Lake is saltier now than at any time since 1909, but a good rain will freshen it again, according to J. Cecil Alter, government meteorologist.

"The level of the lake is now lower than it has been since January 15, 1909," said Alter today. The absolute amount of salt in the lake probably does not vary appreciably, and has not varied since it was first seen by white men, but since the amount of water varies with evaporation and precipitation, the relative salinity increases as the level falls.

Alter said the low stage of the lake usually occurs in January when the feeder streams are frozen at their source, and that the high stage usually occurs late in June, shortly after the season of heaviest precipitation, and after the period of rapidly melting snow.

UNIVERSITY OF TEXAS HAS SUPPLY OF FUEL

AUSTIN, TEX., Nov. 22.—The University of Texas has sufficient coal to last until the first of next year and after that date the power and heating plant can be run with fuel oil, according to a statement by I. P. Lochridge, business manager.

Last year this institution expended between \$8,000 and \$9,000 for fuel, but this year's expenditures are expected to reach \$12,000 because of high prices and additional buildings to be heated.

SOLDIERS MAY BUY ALCOHOL IN FRANCE

PARIS.—Alcohol may now be ordered in Paris cafes and restaurants by French soldiers, the military government having revoked his decree of prohibition.

FEDERAL RESERVE BANK ACCOMMODATES 471 OF THE 755 MEMBER BANKS

DALLAS, TEX., Nov. 22.—Out of 755 member banks, 471 have been accommodated by the loan department of the Dallas Federal Reserve Bank, according to a statement by R. L. Van Zandt, governor of the parent institution here.

The maximum line of rediscounts of these 471 banks during the period, January 1 to November 2 was \$55,855,000, the statement shows. These figures, Governor Van Zandt explained, do not include loans to banks on their notes with government securities as collateral.

"While 471 of our member banks had paper under rediscount with us during this year," the statement continues, "235 of that number have entirely liquidated their lines, leaving only 239 banks having rediscounts with us on November 2. Only four banks in the entire district on November 2 had rediscount lines in excess of their capital and surplus."

In passing it might be noted that convincing evidence of the liquidation which has taken place in this district is furnished by the fact that on May 3, 1919, after rediscounting more than \$2,000,000 of its receivables with other federal reserve banks we had a legal reserve of only 42 per cent, while at the close of business that night our legal reserve was 56 per cent, with no rediscounts outstanding.

"It is interesting to note that out of the total of more than 50,000 items offered to us for rediscount by our member banks during the first ten months of the present year, more than 92 per cent were accepted by our executive committee, and the aggregate of the rejected items was only 7 per cent of the total offerings. These rejections were for various reasons, such as the technical irregularities in the manner in which the notes were filled out—in some instances by the credit showing of the borrower not meeting our requirements, and in a very few

instances because the items were not eligible under the terms of the federal reserve act.

"The benefit which the Federal Reserve bank of Dallas has been to the business interests of the Eleventh district during the recent trying times is so great that its value cannot even be roughly estimated."

THANKSGIVING DAY ON STATE PRISON FARM

AUSTIN, TEX., Nov. 22.—Copies of the Thanksgiving day program to be held at the Eastham state prison farm have reached Austin, and the celebration by the convicts of their acquisition of a home in the new fireproof and sanitary prison there promises to be a unique event in Texas history.

Special music will be rendered by the Huntsville prison band, and Frits S. Smith, a member of the board of pardons, said that there is no scarcity of talent in the penitentiary. Eastham farm inmates will stage a comedy, while Billie Still, Gamblin' Dick, Willie Kidwell and Panama Kid appear in vaudeville program. Then comes broncho riding and a number of mounted races.

Champions of the Huntsville prison and the Eastham farm will appear in boxing and wrestling matches.

Proceeds arising from admission charges go to a convict entertainment fund, and it is easy to believe that the statement, "There may never be an

other show like this in this part of the country," appearing on the program, is true.

According to Mr. Smith, prisoners will be given the run of the big baseball park on that day, and guards will be as inconspicuous as is consistent with the safekeeping of the men.

At Eastham farm the convicts have their own motion picture show, baseball park and athletic gear. They are allowed a half holiday on Saturdays and encouraged in entertaining them.

selves with clean sports and amusements, according to Mr. Smith.

ARMENIANS HOPE MANDATE WILL BE ACCEPTED BY U. S.

SENTIMENT OF PEOPLE IS OUT-
LINED BY THE PRIME
MINISTER.

PROTEST AGAINST THE TURKS

Declares His People Prefer Death to
Rule Under That People in
the Future.

ERIVAN, CAPITAL ARMENIAN
Republic, Nov. 22.—The Prime Minis-
ter of the republic, M. Khatlian, today
received the correspondent of The
Associated Press and talked freely
concerning the proposal of a United
States mandate for Armenia.

"If we manage to live through the
winter and receive the recognition of
the Allies, together with the help of
America," said the Prime Minister,
"then other Armenians scattered the
world over will come to us and we
shall make our republic a prosperous
one."

"It is now being proposed, I hear,
to rule us together with the Turks.
We prefer death to rule under the
Turks. In the past we lived together
as master and slave. Now we want
the right to live alone, away from the
Turks. We want the Peace Confer-
ence to set aside a section of territory
for us and then the Turks will leave
us right alone. The only solution pos-
sible is to define our frontiers and if
the United States, with whom we
place our case and in whom alone we
trust, will help us morally and ma-
terially for twenty years we will pay
back money expended with the
wealth of our land. If such help is
not given, then we must wander over
the earth like slaves, without a home."

Was Formerly Mayor.
Premier Khatlian, who appears to
be the ruling force in Armenia, was
formerly mayor of Tiflis for a period
of ten years, serving as a Russian of-
ficial. He is a physician by profes-
sion. Short, bald, black-eyed, with
close-trimmed beard, he looks as much
Russian as Armenian, and differs in
appearance from the familiar Turkish
Armenian type. He inspires confidence
in his statements by a reserved, firm
manner. While not a commanding
figure either physically or intellectu-
ally, he seems to do the best he can
for his country, fully realizing the
fragile thread by which it hangs to
life.

Regarding the question if Armenia
submit to be ruled under a blanket
mandate, as part of Asia Minor, he
said: "Whatever America decides is
best for us we will follow out. We are
satisfied America has only our inter-
ests at heart. However, we believe our
frontiers should be determined now,
no matter when we are set free to
walk alone as an independent state.
If Americans will consent to rule us,
to establish order in our country, to
take over the administration of our
affairs, we shall be satisfied. We love
in this world but three things, free-
dom, work and education. When we
are given the chance to earn these
we will show America what we are
capable of. We are now a tottering
little government, we realize that we
are weak, that the fire we have gone
through has crippled us mightily, that

the citizens here are worn out or are
not our best material, but with time
we shall improve.

Plan to Return.
"It must be recognized that both in
Turkey and in Russia, Armenians
have always furnished a large class
of intelligent public officials, bankers,
traders and farmers, and those of us
who are left, from massacres, together
with our educated people now in
Egypt, France, England, Bulgaria, will
form a good nucleus for a prosperous
state. I have here a long list of names
of those Armenians in America repre-
sented by a half billion dollars capital
who have declared their intention of
returning to live here when circum-
stances will permit."

Asked whether, if the United States
took a mandate for Armenia, meaning
thereby practically a military protec-
torate, the Armenians would not soon
be tired of their rulers, who would be
quite different from missionaries, Pre-
mier Khatlian said: "There is a big
colony of our people in America who
fired all classes, and there are none
of this city and if America had not
helped feed our hungry there would
have been a half million Armenians
dead of starvation. After such rela-
tions it is our dream to have Ameri-
cans here, and if they don't come it
will be our end."

Asked if reconstructed Russia would
not demand back any territory, the
Peace Conference might now set aside
to form an Armenian state, he said:

Claims Distinction.
"Distinctions must be made be-
tween Georgia, Azerbaijan and Ar-
menia. Old Russia wanted an Ar-
menia reaching to the Mediterranean
sea so they might have the outlet they
couldn't get except by possession of
Constantinople. New Russia might not
wish to oppress a state so different
in population, also she might not have
an interest in troubling us, whereas she
would need the Caucasus because of
the railway to Batoum and also the
oil riches of Baku which have their
outlet at Batoum to the world markets.
Besides, we have assurances from
Denikine that we will not be disturb-
ed."

Regarding the League of Nations,
the Premier said that, surrounded by
Russians, British in Persia and the
Turks, the League would be a partial

protection but that if America guar-
anteed the existence of Armenia no
neighbor would dare disturb her. "If
America will take the mandate for
fifteen or twenty years, we are sure
the republic will live; surely a race
that has kept itself alive 500 years
under Turk rule is worthy of help,"
said Mr. Khatlian.

Turning to immediate affairs, he
continued: "There is no Bolshevism
among us because of our patriotism.
Under our greatest trials, our soldiers,
serving in the Russian army, were not
affected. The general lawlessness now
prevailing throughout the Caucasus
may be over within a year and if Deni-
kine reaches Moscow it will die out
of itself. The Bolsheviks may yield
this winter as they will be short both
of food and fuel. Denikine's occupa-
tion of Moscow, however, is not the
final solution of Russia's difficulties
since he will follow the policy of the
old empire, and thereby create a new
revolution. Here among us, it is
astonishing to note that despite starva-
tion we have neither Bolshevism, mur-
der nor violence."

"Our people will need relief until
next summer only, if matters are ad-
justed so they can return to their
homes and begin working the fields in
April. We can grow enough because
we have two harvests."

INTERESTING FIGURES IN CONNECTION WITH IMMIGRATION TO U. S.

WASHINGTON, D. C. Nov. 18.—High hopes for the proposed American study of the remarkable way the United States has absorbed the amazing large foreign element of its population, says a bulletin from the National Geographic Society.

In describing the volume of this influx, not generally realized, which was halted by the European war, the bulletin quotes from a communication to the Society as follows:

"Who can estimate our debt to immigration? Thirty-three million people have made the long voyage from alien shores to our shores since it was proclaimed—all men born are free and equal, and liberty's eternal fire was kindled first on American soil! It is as if half the former German Empire should embark for America, or all of pre-war England except the county of Kent. It is as if all the population of all of the States of the United States west of the Mississippi, plus that of Alabama, should have come bodily to America."

No Similar Movement.

"Historical records no similar movement of population which in rapidity or volume can equal this. Compared to it, the hordes that invaded Europe from Asia, great and enormous as they were, were insignificant."

"Of the 33,000,000 who have come, more than 14,000,000 still live among us, and their children and children's children are now in good truth bone of our bone and blood of our blood."

"Not long ago America crossed the hundred million line in the number of its citizens, and it is interesting

to note the composition of that population. To begin with, there are 11,000,000 colored people, including negroes, Indians, Chinese, etc. Then there are 14,500,000 people of foreign birth among us. In addition to these, there are 14,000,000 children of foreign-born fathers and mothers and 6,500,000 children of foreign-born fathers and native mothers, or vice versa. When all of these have been deducted from the 100,000,000 only 54,000,000 remain of full white native ancestry."

Only One Ancestor.

"Yet the 35,000,000 American people who are of foreign stock—that is, foreign-born or the children of a foreign-born parent—include some of the most illustrious citizens of our Republic. Even the President of the United States himself has only one ancestor who was in America, and the list is long and notable of statesmen, captains of industry, leaders of finance, inventors, makers of literature and progress, who have strains of blood not more than one generation on this side of the sea."

An examination of the statistics of American immigration shows that since the foundation of our government the United Kingdom of Great Britain, Ireland, Germany, Italy, France, Sweden, Norway, Denmark, and the Netherlands have contributed more than half of the total immigration to our shores since the beginning of the Revolutionary War.

German Immigration.

"When we take the German immigration of the United States between 1776 and 1890 and compare it with that from other countries, a somewhat startling result, and one usually unsuspected, is disclosed. The total arrivals of aliens in those 114 years aggregated 15,689,000, of whom more than 6,000,000 were British and 5,125,000 were Germans, which shows that one alien out of every three arriving in America during more than a century of our existence was a German. Only the United Kingdom shows a greater proportion."

"Since 1890 the trend has been very different. With more than 17,000,000 immigrant arrivals since that date, only 1,023,000 have been Germans. If from this number a proper deduction is made for those who returned to their homeland and those who have died since their arrival, it will be seen that there are fewer than a million former subjects of the Kaiser in this country who have been here more than twenty-six years. Of more than 8,000,000 people of German birth and immediate ancestry among us, less than 1,000,000 fail to have the background of birth or long residence in America behind them."

Ireland Contributes.

"It is interesting to note the other foreign elements that have entered into the make-up of American population since 1776. What a wealth of blood that wonderful little island, Ire-

land, has given us! More Irish people have crossed the seas to become part of us than remained behind. It is remarkable that so small an island—smaller, indeed, than the State of Maine—could in a century and a half send us enough people to duplicate the present population of seven of our States, having an aggregate area as large as the United Kingdom, France, Germany, and Austria-Hungary together."

"Austria-Hungary stands next on the list of contributors to the immigrant stream that has flowed from Europe to America. Although Austro-Hungarians began to immigrate in considerable numbers only when the arrivals from western Europe had begun to fall off, sufficient have come from the dual monarchy to populate the State of Texas to its present density. Italy has sent us enough of her people to duplicate the population of Montana, Wyoming, Idaho, Oregon, Nevada, Utah, Colorado, Arizona, and New Mexico, while England's and Scotland's contribution, 3,889,000 in all, together with Ireland's 5,125,000 gives a total of 9,014,000 or plenty to populate all the States lying west of Texas and the Dakotas. The Russians who have come to our shores number 2,419,000. They could replace one-half of the population of New England."

MANY JAPANESE ARE MARRIED IN HONOLULU

HONOLULU.—About 1,400 Japanese "picture brides" have entered the port of Honolulu every year for the past ten years, according to the statement made by one of the United States immigration officials here.

"These women, it is stated, are nearly all laborers. They are married to their arrival here. In addition about 200 wives, who have been married in Japan come yearly to the islands. In Honolulu alone, the records show a hundred marriages monthly between Japanese residents of Hawaii, giving a total, official estimates says, of more than 2,800 Japanese families started in the islands in a year."

TWENTY-SIX DEATHS FROM STARVATION

LONDON.—There were twenty-six deaths from starvation or accelerated by privation in England and Wales the past year, though wages were never higher and employment never less, according to an official statement. Six of the deaths occurred in London.

CENTURY-LONG CUSTOMS MONTENEGRO CONTINUES

CETTINJE, MONTENEGRO.—While the Allied statesmen at Paris are deliberating on the fate of the nations of Europe, Montenegro continues its century-long customs of feuds, vendettas, shooting frays and internal strife, and seems outwardly to give little attention to the fate reserved for it by the Great Powers. There is a semblance of a local government, but Serbia exercises a pondering influence in the affairs of the country.

There is a faction of the people which desires a return of King Nicholas and the restoration of the monarchy. There is constant strife between the royalists and the republicans, the disorders usually taking the form of fatal shooting combats in the mountains. Feeling runs high. The republicans accuse the monarchists of hiring members of the Comitate, desperate mountaineers who respect neither law nor life, to kill the leaders of their party. These shooting and stabbing affairs usually take place in sections where the royalists are the strongest. The casualties sometimes are serious. Not a day goes by but the American doctors attached to the Red Cross Mission at Cetinje, Podgoritz and Kolacin are not called upon to treat victims of these encounters. At Podgoritz there have been as high as 20 wounded combatants at the Red Cross hospital at one time.

There also are occasional border fights between the Montenegrins and the Italian and Albanians. The feeling between these races is extremely violent. When the Associated Press correspondent was passing through the small frontier town of Uvaliza, at the head of Lake Scutari, there was a massed company of 250 Montenegrins preparing to attack an Italian garrison on the opposite side of the lake. Many of these Montenegrins were poorly clothed and equipped, were mere boys of 16 and 17. Some of the older soldiers had been to the United States and boasted American citizenship. All professed a desire to give up fighting and return to America. The attack on the Ital-

ians took place the next day, and many casualties on both sides are reported.

Slightly smaller than the state of Connecticut in area, Montenegro has a population of less than a quarter of a million. Even this small number find it difficult to get enough out of the soil to support life. The country is rocky, desolate and barren. It might be called a huge pile of stones. An American visitor remarked that its national emblem should be a tombstone. Its mountains for the most part are woodless and bare, and its valleys are made productive only by careful husbandry of the soil and its tensive farming.

JUDGE P. A. MARTIN DISCUSSES WAYWARD DEMOCRATS AND THE DEFEAT OF THE PEACE TREATY

It is with the most poignant regret that I see men like my friend Orville Ballington, leaving the party of his ancestors and going off after the strange gods of republicanism. I have been most intimately associated with him for over five years, almost daily, and have always endeavored to keep him in the straight and narrow way of sound democracy and in the faith of our fathers but it seems from his interview in Thursday's paper that he has at last broken away from the fold and has joined himself to the cohorts of the enemy. I love him still and when he returns, (and he will return when he gets a taste of the hanks of republicanism), I will kill for him the fatted calf and place a ring upon his finger in due and ancient style.

These democrats are quitting the party because of fancied grievances against the Wilson administration and are joining hands with the dissatisfied and disgruntled elements to whom the word democracy is a poison. They are quitting too at the flood-tide of magnificent democratic achievement. Of course the administration has made mistakes; we admit it when we admit that the President and his advisers are but human, but look, if you will, at the achievements of the last six years of democratic rule; the Federal Reserve, and Farm Loan Bank and the successful prosecution of the greatest war in history, and at the same time an era of commercial and industrial prosperity unequalled in the history of the world. President Wilson and his advisers have found a way to meet and overcome all the difficulties that have confronted the government in this most perilous time and surprised the world by raising and equipping an army sufficient to turn the tide of battle in the old world and crush the power of the Kaiser in a few short months. No President ever had so many difficult problems to meet and no man ever met them more courageously and successfully than he. And I venture to assert that no living man could have done what he has done and made fewer mistakes than he.

And yet, after it is over, after America has proclaimed to the world the altruistic object of our entry into the war, after the boys have won it, "On Flanders field, where poppies grow," a republican senate, aided by a few Wilson haters like Reed and Gore, has refused to reap the fruit of the glorious victory won by them, and we are left in company with Germany and China, without membership in the League of Nations and the parliament of the world. The men who put this shame upon the fair name of America are being applauded and endorsed by this new Texas republicanism. We are left to depend upon that militarism which we have been fighting for, we will have no standing and no voice in the international courts of arbitration now and some of our Texas democrats, (ignorantly I think, not willfully), have been led to endorse the men who did this unspeakable thing and stand with them for the overthrow of a league for world-wide peace.

Oh, they say they have arranged it to be a "white man's party," all right. Many of us are old enough to remember the same old game played out in the days of the "Lily Whites," and the "Black and Tans." Many of our Texas democrats, disgruntled because of some fancied grievance, joined the "Lily Whites," and loudly proclaimed the radical integrity of their party, but when the republican national convention met, the "Black and Tans" were there and were set alongside the "Lily Whites," and Goose-neck Bill McDonald, Charlie Ferguson and Wright Cuney were still the big three of Texas politics, just the same as before. It is the same old game, played with different cards and a new set of players, who either never knew or have forgotten. These Texas democrats who are joining this re-organized republican party will lie down with a money crew before they get through a presidential campaign. The Jim Ferguson "Americans" will lie down on one side; the Bailey Aid Society will occupy the back side of the bed and, if I am any political prophet at all the "colored brother," will crawl in at the foot and all join in the same song of "How We Hate Wilson."

I want to see the campaign open, with the League of Nations as the great issue. I want to see if the sleep beneath the sod will have given their lives in vain. I want to see these prodigals come and if they will not, as an old democrat, I throw down the gauntlet to any and all who endorse, think they endorse, the shameful course of the Senate last Wednesday, which left us in a state of war with the central powers and in a state of ignominious and contemptible disagreement with our brave allies, and with the one exception of Germany, I hope the most friendly nation on earth.

I am not at all perturbed about the future of Texas democracy. It needs a housecleaning. It is true, but it will have it in due time. It will be found when the votes are counted and its nominees are duly elected, as usual, but I trust that its nominees will be the strongest and best men who can be had for places of public trust. In the meantime, let democrats hold open the doors for these wandering ones and invite them to return. They are really not bad men at heart; they have been led astray by the wiles of scheming enemies of the party and when they have seen where they are drifting they may repent and return before it is everlastingly too late. So mote it be.

P. A. MARTIN.

CUT RATE FIRE COMPANY INCREASES BUSINESS 100 PER CENT IN SIX MONTHS

The Cut Rate Fire Company of 616 Ohio has enjoyed a 100 per cent increase in business during the past six months. It was announced at their office Saturday.

The local firm is composed of A. E. and E. S. Segall and is one of a string of four stores, the others being located in Dallas, Fort Worth and Shreveport. The reason they can undersell other concerns in times

LIFT OFF CORNS

WITH FINGERS

Few Drops of "Frozone," Then
Corns Lift Off—No Pain!

A tiny bottle of "Frozone" costs no more at any drug store; apply a few drops upon any corn or callus. Instantly it stops hurting, then shortly you lift that bothersome corn or callus right off with your fingers. Truly! No rubbing!

HANDLED MILLIONS

DANIEL J. CALLAHAN

Daniel J. Callahan, of Washington, D. C., general manager of the Norfolk and Washington Steamboat Company and supreme treasurer of the Knights of Columbus, has handled more real war cash, perhaps, than any other man in the country, outside of the mint men and the gentlemen who print and count the greenbacks. As supreme treasurer of the Knights of Columbus it has been Mr. Callahan's task to hold stewardship of the many millions which the Knights have received from the American public. He has held the purse strings of the original "K-C" war fund, amounting to more than a million dollars collected from the members of the organization of the Knights of Columbus independent drive fund, amounting to more than \$14,000,000, and, finally, of the K-C portion of the United War Fund Drive—amounting to more than \$20,000,000; \$25,000,000 when it is all collected.

tubes and automobile accessories, they say, is due to the fact that the chain of stores gives them a superior buying power. As soon as arrangements can be made they will install a free tire roads service and an up to date vulcanizing department which will enable them to take care of their growing business. This firm has only been in business in Wichita Falls for about nine months, having been opened by A. B. Segall last February in one-half of the space they now occupy at 616 Ohio.

Obstructed Traffic.
NEW YORK—Albert Johnson, gentleman of color, was arrested for "obstructing traffic." He stopped his coal chariot in a busy street to "pick up fo-bits" in a crap game. Fined \$2.

BARCUS MEETS WARM WELCOME AT TYLER

Rev. J. Sam Barcus, formerly presiding elder in the Wichita Falls district, who was assigned to the First Methodist church at Tyler at the recent conference, met with an enthusiastic reception at Tyler, according to the Tyler Courier-Gazette. The Tyler paper contains the following account of the services last Sunday at Rev. Barcus' church:

"The First Methodist Church starts out auspiciously in the new conference year. The Rev. J. Sam Barcus, who was assigned to the First Church at the recent annual session of the North Texas Conference held at Terrell, who arrived in McKinney Saturday evening, preached at both hours Sunday. The membership of the church gave him an excellent welcome by coming out in large numbers at each service. The Rev. Mr. Barcus preached exceptionally strong sermons and had the closest attention of every one throughout his entire discourse at each service. At the close of his sermon Sunday morning there were three additions to the church.

"The Rev. Mr. Barcus was present at Sunday school and spent the hour in visiting the various classes. There were three hundred and fourteen present at Sunday school. Both the Junior and Senior Epworth League rendered excellent programs in the afternoon.

In fact, the day was a splendid day for the First Church.

"Rev. J. Sam Barcus is one of the ablest and foremost ministers in the North Texas Conference—he is one of the ablest preachers, most efficient and an ardent worker in the furtherance of the Master's work. He is a profound thinker, able orator and fluent speaker. When in the pulpit expounding the word of God his delivery is such that it commands the very keenest hearing of his audience. He is a man of most pleasing personality, a good mixer and a progressive citizen. The members of the First Methodist church are grateful indeed to Bishop Ainsworth because he saw fit in making his appointments to send such a man of God to this church and to this city. The members of the Board of Stewards and the membership of the church in general are looking forward to one of the most prosperous and harmonious years for Methodism that this city has ever experienced. For the past four years the Rev. Mr. Barcus has been Presiding Elder of the Wichita Falls District.

Rev. Barcus comes of a family of teachers—there being four of the brothers prominently identified with the Methodist Episcopal Church, South. The Fort Worth Star-Telegram of recent date, in speaking of the aged mother of the new McKinney pastor, says: "Mother Barcus, who has contributed several sons to the ministry, was one of the most interested visitors at the Central Texas Conference held last week at Waco. She has just passed her eighty-seventh year and has been a member of the Methodist church since she was about 7 years old."

THE NEXT ONE--TEXAS PACIFIC OIL COMPANY 300 Acres

First Public Offering of Stock in a Company which We Believe Will Be the Next Big Sensation in the Texas Northwest Field

200 Acres on the Famous Piper Structure in Wilbarger County on What All Who Have Seen It Agree Is as Near a Sure Shot as They Have Ever Seen

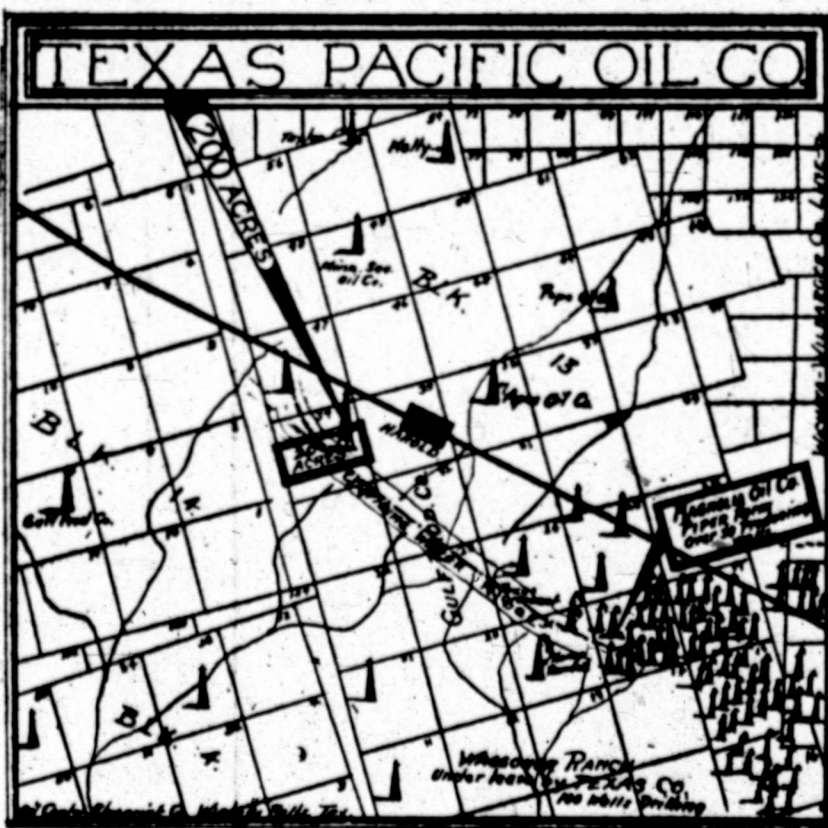

OUR HOLDINGS

200 Acres in Section 34, Block 13, H. & T. C. Ry. Co. Survey, Wilbarger County, Texas.

100 Acres in southwest part of Nolan County, around which several deep tests are now drilling.

TITLES

Are all vested in the Company, duly registered and passed on by competent attorneys.

Mr. Ben F. Robie who is drilling the well, drilled in Thrift No. 1 well in the town of Burkburnett, one of the largest wells ever brought in, in the townsite and in the past three months has drilled and brought in two large wells in Block 98 in the Northwest field, he is using the same drilling equipment on our location and to confirm his faith in our property has purchased heavily of the company's stock. The other men who are working on the rig have also purchased considerable stock, which all goes to insure the company against any sands being passed or anything else being done, except to get us a well.

Actual Drilling Operations Were Commenced November 20, Insuring Our Stockholders Quick Action

The men behind this company are practical oil men and know the field and their standing is an assurance to the stockholders that their interests will be safeguarded at all times; there will be no experimenting.

We Give Fair Warning We Expect to Get a Big Producer and This Before Xmas

Do you want to get in on the ground floor now or do you want to wait until Texas Pacific is selling at 20 to 1? It's up to you.

Our friends have purchased large blocks of this stock. The amount left to be sold is limited, and our books will close December 6th.

REMEMBER

That the companies who have paid their stockholders from 20 to 1 and up were all with low capitalization and large acreage. We call your attention to Texas Pacific Oil Company.

CITY'S SIXTH BANK OPENS DOORS FOR BUSINESS MONDAY

EXCHANGE NATIONAL IS LATEST
ADDITION TO FINANCIAL
INSTITUTIONS.

OFFICERS ARE EXPERIENCED

Come Here With Successful Banking
Records at Other
Places.

Wichita Falls' sixth banking institution, the Exchange National Bank, will open its doors for business at the corner of Seventh and Indiana Monday morning. It is announced by H. L. Quiet, cashier of the new institution.

The working personnel of the new bank, as announced by Mr. Quiet, is made up of men of long and successful banking practice. The president of the bank, R. B. Ferris, is also president of the First National Bank of Drumright, Okla., and has had a number of years banking experience in Oklahoma. Mr. Quiet, who will be cashier, was for a number of years the principal owner of the First National Bank at Clinton, Okla.

F. L. Jennings and Guy Henderson, who are to be assistant cashiers, were connected for several years with the Tradesman's State Bank of Oklahoma City and with the First National Bank of Drumright, Okla., respectively. No vice president has yet been named, and the officials of the bank are not yet ready to announce the members of the board of directors, the board not yet being definitely completed.

Much of the experience of the bank officials has been in the oil fields of Oklahoma, and they are therefore well equipped to look out for the needs of oil men, whose business will receive special attention from the new bank, in addition to the general banking business which they are prepared to handle.

EXPERIMENTING TO
INCREASE PRODUCTION

BERLIN.—To induce labor to greater production, German scientists are experimenting in the Kaiser Wilhelm Institute for Labor Physiology the so-called "German Taylor System" patterned after the Taylor System in use in America.

Paints at Decorators Co., 715 Ninth street.

BELGRADE SHELL-SHATTERED BOMB-TORN AND DESOLATE

BELGRADE, SERBIA.—Belgrade remains today as the Germans and Austrians left it—shell-shattered, bomb-torn and desolate. Owing to lack of materials, money and labor, no steps have yet been taken by the authorities to restore the scores of residences, public buildings and other property that fell under the enemy bombardment. Nothing has been done to repair even the royal palace, which, window-less, scarred and neglected, looks like a vast empty barack.

The Serbian capital has a gloomy, depressing air about it, and this atmosphere is shared to some extent by the people who go about with somber faces. Belgrade never amuses itself. There are few cafes, restaurants, theaters, cinemas, or places of diversion or entertainment in Belgrade. At night the city has all the stillness and repose of a tomb. It may be, quite naturally, that the country is still mourning its losses, for it has been continuously at war for seven years.

The retail stores display only scanty stocks. Some of them are closed entirely. Cheap articles of jewelry and their kind are sold from Austria and Germany, while silk stockings come from Paris. Wearing apparel of all kinds is high in price. The Serbian franc has fallen to low purchasing value.

As in most war-affected countries, there is a tremendous amount of reconstruction work to be done in Serbia. Broken bridges, shattered railways, ruined factories and destroyed machinery will have to be replaced. Serbians say the material and, to some extent, the money and labor, will have to come from the outside, for Serbia, straitened and straightened by seven years of war, is almost destitute of the means to accomplish this task herself. She is looking hopefully to the United States to help her in this direction. There is a constant plea for American engineers, business men and materials.

TELEPHONE DIRECTORS
IN SESSION AT HOUSTON

HOUSTON, TEX., Nov. 22.—Traffic chiefs and chief operators of the Southwestern Telegraph and Telephone Company from all over South Texas assembled in Houston today for a two-day conference on methods of bettering the telephone toll service. A majority of those in attendance are women.

THIRTY THOUSAND TO THE UNIVERSITY OF ILLINOIS

URBANA, Ill., Nov. 19.—Thirty thousand dollars has been given to the University of Illinois from the research work in obtaining metal more resistant to the severe strain put upon crank shafts and other metal parts of an aeroplane than at present employed.

Prof. H. F. Moore, of the department of theoretical and applied mechanics, will have charge of this investigation which will extend over two years and which is deemed one of the most important ever undertaken by the Engineering Experiment station. The fund is said to be the largest ever devoted to a single engineering project at Illinois and is one of the largest ever devoted to any research work here.

Apparatus and material for the work are now arriving and the second floor of the old floor of the boiler house at the University will be fitted with special testing machines and used as a testing laboratory. The University will furnish Professor Moore's service light, heat, power and a laboratory room and the use of the standard testing equipment of the materials testing laboratory.

Mr. Swasey, who established the fund is a member of the Warner and Swasey Company of Cleveland, and in 1915 gave a fund of several thousand dollars, the income to be used for the advancement of arts and sciences connected with engineering. Last spring it was decided to center upon one major project and the National Research Council, organized abroad to coordinate war-time scientific research, was asked to recommend a subject for investigation of the resistance of metals to fatigue under repeated loading and urged that Professor Moore be asked to take charge of the work.

KILTS NOT GENERALLY
WORN IN SCOTLAND

EDINBURGH.—Scores of American visitors to Scotland have wondered by whom and on what occasions the picturesque native dress of Scotland, kilts, are worn nowadays.

Upon inquiry it is learned that apart from actual Highland gatherings, where everyone is expected to "dress the part," there are only four classes of kilts: the first, the "gentry," which includes Englishmen, Welshmen and anyone who owns land or uses land as a playground; in the South, the public pipers; and all over Scotland, the soldiers. As an evening dress it also has a degree of general popularity.

KAISER ATTRACTS MANY UNWELCOME VISITORS

AMERONGEN, HOLLAND.—American officials whose task is to guard the safety of the former German emperor were surprised into activity the other day by a German who said he was "Prince Friedrich Hohenzollern" and a brother of the former emperor. The visitor registered at a hotel at Gustavus Cyrus of Berlin. He wrote to the former emperor at Bentinck castle demanding an interview on important "family matters." The police were informed and investigation revealed that the man had in some way actually reached Holland from Germany the night before without any papers to identify him, and he was speedily sent back over the frontier.

When the exiled monarch first came to Amerongen the village was visited by many persons who were mentally unbalanced. Among them one man who said that he was the king of England, and tried to prove it.

Stop That Cough
Don't torture the stomach
with violent chemicals. The

You Don't Need a Big Roll To Play the Oil Game in the Big Man's Way

THE OIL & LEASE INVESTMENT SYNDICATE OF THE OIL EXCHANGE AND BOARD
OF TRADE, INC., FORT WORTH, TEXAS

The Oil & Lease Investment Syndicate of Fort Worth, now being organized by the Investment Department of THE OIL EXCHANGE AND BOARD OF TRADE, INC., offers the conservative investor a REAL BUSINESS INVESTMENT, and the Five Hundred to Five Thousand Dollar man a chance to play the oil game THE BIG MAN'S WAY.

ARE YOU AMONG THOSE WHO SIGH BUT CANNOT ACT?

How many hundreds and thousands of men all over the land read the daily page of oil news from Texas and lay it aside with a sigh of regret, knowing only too well that the opportunities pictured out there in the fields, where the big gushers are coming in almost daily, mean nothing to him with his small means, as it takes the BIG MONEY to really get in on these things and play the game where the winning is sure. How many times have you said to yourself, "Oh well, it's easy enough for the Big Fellow to make money." The trite old saying "To them as have gits" seems more applicable to the oil business than any other. It is said that John D. Rockefeller's favorite maxim is "Opportunity comes only to the man with ready money." Witnessing this condition every day, the officers and directors of the Oil Exchange and Board of Trade, Inc., have determined to do what they can to change this situation and make it possible for the small investor to profit on his five hundred or a thousand dollars just as the big fellow does with his big roll.

NO MONEY WILL BE COLLECTED UNTIL \$50,000 HAS BEEN SUBSCRIBED

To this end and purpose we are organizing the OIL & LEASE INVESTMENT SYNDICATE, and ask you to join us with any amount from \$100 up. To make it a big success, the SYNDICATE will have to have not less than \$50,000 in the treasury to start with. For that reason we are not going to accept or collect any money until at least \$50,000 in bonafide subscriptions are received. We want to make this plain, as we are confident many would GLADLY subscribe to a fund of \$50,000 and up, who would not be interested in a smaller sum.

OUR PURPOSE IS PROFIT. OUR MANAGEMENT SOUND

The management of the Oil & Lease Investment Syndicate will be vested in the following well known business men as trustees: D. W. Young, W. H. Brown and Col. J. O. Williams, owners and active members of the Oil Exchange and Board of Trade, the Pioneer institution of its kind in Texas, having among its members the leading banks of the city of Fort Worth. We are also owners of Peoples Stock Exchange of Wichita Falls, Texas. Our purpose will be to keep a close watch on developments all over the fields and be READY WITH THE CASH to take advantage of opportunity WHENEVER and WHEREVER it presents itself.

SEVENTY FIVE PER CENT OF PROFITS GO TO MEMBERS OF SYNDICATE

Our policy will be to charge no commission for the organization of the Syndicate and the collection of funds, but leave this wholly intact for investment; to give the Syndicate our time, experience and full benefit of the unparalleled connections afforded by our daily touch with developments over the whole field through the extensive private wire service of the Oil Exchange and Board of Trade, Inc. As compensation for this service the trustees are to have twenty-five per cent of the profits that accrue from the investments made with the Syndicate's funds. In other words, we agree to back our time, experience and connections against your money for twenty-five per cent of the profits.

ALL MONEY SUBSCRIBED WILL BE USED FOR INVESTMENT

We just want to emphasize this feature right here and then leave it to your own judgment as to what to do.

In the organization of an Oil Company—and it is absolutely necessary that companies be organized, else there would be no new development or expansion in the oil business—it is necessary to set aside a large portion of the money derived from the sale of stock for organization expense. The percentage, of course varies; but, taking them as a whole, a fair average would be about 50% for organization expense, the balance going toward development. This is unavoidable, necessary and legitimate, but the inevitable result is that the investor is paying practically two for one for his stock, as only half the money is actually put to work on the proposition he buys into. Understand we do not mean by this to discourage the purchase of original stock. We often buy it ourselves and encourage our friends to buy it if it appeals to us as being especially attractive. But by calling your attention to this, we feel that you will more fully appreciate the advantage to you of an investment in the OIL & LEASE INVESTMENT SYNDICATE when we agree to use ALL the money subscribed for investment and wait until we have made you a profit before we ask for compensation for our services. As a further evidence of our good faith to act honestly and squarely in this capacity we will have made for you a monthly certified accountants' statement of our purchases, sales and profits. In this you get the longest run possible for your money, and in addition get to play the game the BIG MAN'S WAY.

We believe that within a radius of 100 miles of Fort Worth there is at least 100 men with \$1000, \$500, \$250, \$100, and \$50 ready and waiting right now to place their money with us for investment with this syndicate. If you are one of them fill out the subscription blank and mail today to the Farmers and Mechanics National Bank, Fort Worth, Texas, Depository.

BUSINESS IN THE AMAZON VALLEY IS RESUMING NORMAL

IS BEGINNING TO RECOVER FROM
DISTURBANCE CAUSED BY
THE WAR.

RAISING MORE FOODSTUFFS

Said to Be the Greatest Undeveloped
Region in the World
Today.

PARA, MOUTH OF AMAZON RIVER.—Business conditions in the Amazon Valley are beginning to recover from the disturbance of commerce caused by the war. Rubber estate owners, and business men generally, realize that the competition of Oriental "plantation" rubber which has forced the market price of that article down to about the actual cost of gathering "wild" Amazon rubber is really a blessing in disguise, since it is bringing about the development of the other natural resources left untouched so long as rubber monopolized all attention in the valley. Foodstuffs that used to be imported from abroad, or from other parts of Brazil, are now being raised locally.

Older people who have had trouble with their eyes will give you proper advice and you should listen to them. They will tell you that at the first sign of sight dimness you should consult a capable optometrist who will prescribe lenses of the needed strength. Attend to it at once.

WOOLSEY OPTICAL CO.
621 EIGHTH ST.
WICHITA FALLS, TEX.

A party headed by Henry S. Fleming, of New York, which has been investigating the commercial possibilities of the Amazon Valley has returned to this city after a two-month tour of the Amazon and some of its principal affluents, nearly 8,000 miles of rivers being covered in the course of the trip. Mr. Fleming is receiver of an American company with extensive docking, shipyard, and navigation property at Para.

The main river was ascended for over 2,500 miles, as far as Iquitos, Peru, and also the Javary, Purus, Negro, Xingu, Moju, Tocantins and other rivers for varying distances. A vast amount of valuable information and data has been gathered as a result, which is being placed free of charge at the disposal of American manufacturers, importers, exporters and others interested in the development of the Amazon Valley. Many inquiries have recently been made by Americans seeking information regarding lands available for cattle raising, grain growing and minerals, which indicates an awakening interest in the United States in regard to the Amazon country.

Produce More Foodstuffs. According to Mr. Fleming the most encouraging sign noted on the trip was the increase in the production of foodstuffs of all kinds. Mandioca, corn, sugar cane, rice, beans, bananas, melons, fruits of many species, and occasionally tobacco and cotton, have fruits of many species, and occasionally tobacco and cotton, have been planted in small patches along river banks near the towns and settlements. Before the war practically all foodstuffs had to be imported as high as to make labor unavailable for agricultural work. Most of this planting is done on the low-lying banks of rivers, at least two crops of corn, beans, mandioca, etc., are gathered between floods.

One of the staple products most affected by the rubber boom was cacao. When labor was attracted by the lure of high wages in the large cacao plantations had to be abandoned; today they are being cleaned and restored and new trees are being planted. Local cotton men are optimistic as to the future of Amazon cotton, which is said to be of excellent quality and long staple. There are large, immense areas of the Amazon Valley suitable for cotton growing, and in many places, notably Iquitos, Peru, Santarem, Monte Alegre, this is now being produced in increasing quantities. Last year was the first that any concerted effort was made to grow cotton, but the idea seems to have taken on with many land owners.

Great Country. The Amazon Valley is said to be the greatest undeveloped region in the world today, on every side there are natural resources, of immense value, with commercial possibilities, which are as yet untouched. The soil is said to be extraordinarily fertile. The forests offer woods in inexhaustible variety, many of them cabinet woods of rare value. Of vegetable oil nuts, a tenth part only is known to the outside world. Resins, gums, spices, medicinal plants, fibres abound, in infinite variety. Kapok grows along the banks of most of the main rivers, but not a pound of it is exported to the United States, although America imported 7,000,000 pounds last year from far away Java. There are mineralized areas said to contain coal, iron, gold, silver and precious metals of many kinds. They have not yet been prospected. Many merchants up river, with

whom the Associated Press correspondent spoke, in Iquitos, Manaus, Fonte Boa, Itacoatiara, Obidos, Santarem and Monte Alegre look for close business relations with the United States. They point out that foreign financial and technical assistance and machinery are necessary to help develop the immense resources of the valley, and they believe they are more likely to receive help from the United States than from any other of the great powers. There is a strongly pro-American feeling in Brazil.

The principal stores in the towns of Obidos and Santarem, for instance, are displaying highly-colored posters depicting Uncle Sam arrayed in stars and stripes smoking a certain cigarette of native manufacture, a contented smile on his genial face. In another store a shoe made in Brazil had the American flag as a trade mark. The use of our flag in such a manner would, of course, be officially frowned upon in the United States, but the use of it in a South American country may be regarded as a hopeful sign of the time, pregnant of good for the future commercial relations of our countries. It is eloquent of the absence of any anti-American feeling, such as once existed in many Latin-American countries, that manufacturers here should consider Uncle Sam "good advertising."

CURIOUS COMMENTARY ON "DRY" AMERICA

LIVERPOOL.—"A curious commentary upon 'dry' America," says the Liverpool Post, "is contained in the following cable which has been received from the states by a well-known British whiskey firm: 'Could dispose of 20,000 to 25,000 cases if they arrive by November.'"

"Each case referred to in the cable contains a dozen bottles of whiskey," and therefore indicates a capacity on the part of America to dispose of whiskey in spite of her prohibition laws.

SARCASTIC COMMENT ON FAILURE TO REMOVE THE ROYAL AND KAISER SIGNS

BERLIN.—The socialist newspaper Vorwaerts comments sarcastically on the failure of Germany to remove the "royal" and "kaiser" signs that abound everywhere.

It is the result of a countless stream of communications of protest that arrives at the Vorwaerts office. From all provinces of the German empire come communications to the paper declaring that the old signs and inscriptions by which nearly everything was royal or "kaiserlich" still remain. Berlin authorities are "sleeping" as much as in the provinces in not removing the offending inscriptions, says the Vorwaerts. The "kaiserlich" postal bureau still exists, the "royal" courts are not abolished, and the buildings still bear everywhere the inscriptions "royal" and "kaiserlich." It is only in Southern Germany that the words have been stricken or painted out.

The Berlin police headquarters still bears the sign of "royal," although a Social Democrat is at the head, the police stations of Charlottenburg are also still "royal," and such buildings as the patent office and certain garisons are "kaiserlich" or "royal." In

most cases it would be possible to paint out the words.

Finally the socialist organ cites a letter mailed from the Charlottenburg magistracy in which that municipality is characterized as the "royal residence city Charlottenburg." The Vorwaerts asks if the authorities are asleep to allow all this.

ANY YOUNG WOMAN, NOT NOW EMPLOYED IN A USEFUL OCCUPATION, WILL SERVE
WICHITA FALLS AND HERSELF BY TAKING UP THIS ESSENTIAL PUBLIC UTILITY WORK

- She will be well paid.
- She will have more than ordinary opportunity for advancement.
- She will be under the personal direction of female executives who understand women and their needs.
- She will be protected from discrimination or favoritism by a carefully guarded routine of individual supervision.
- She will be protected in health and comfort by the constant diligence of qualified health experts.

Our Employment Department is located at corner Ninth and Scott Streets. There an applicant will be cheerfully told all about the work and full details of all employment conditions. There applicants will be carefully and most considerably examined to determine whether or not they be physically and mentally fitted to perform this service. The requirements are simple and reasonable, as is also our insistence upon satisfactory local personal references. This Department is open to receive applicants every weekday from 8 a. m. to 6 p. m.

Wichita Falls Telephone Operators are faithful and industrious. They are conscientiously serving you with their best efforts. Patrons are invited to visit our Telephone Exchange, inspect the work and to refer to our Employment Department those whom they think would take up this eminently desirable occupation.

The Southwestern Telegraph & Telephone Company

HOLD, SHELTER, INSURE AND MARKET COTTON SLOWLY URGES ADDRESS ISSUED TO PUBLIC

The following address touching the cotton situation has been issued from the office of the state department of agriculture:

To the Bankers.
You said reduce the acreage; you said the abandonment of much planted land, lack of labor to plant, cultivate and harvest, rains rotting growing bolls and lint in the fields, boll weevils, boll worms, and frost, root rot, drought, floods and frost, combined, will limit production to less than a 10,000,000 bale famine crop.

The world is bare of cotton. It would consume 15,000,000 bales profitably after paying 50 cents per pound for it.

When cotton producers get \$25 per bale that was all they could deposit. Now with your partial support last year and this, the farmers who have held their cotton can deposit eight times that amount per bale of foreign money with you. Your profits are limited only by volume of deposits. True, farmers are paying their notes, but with expansion of business through use of abundant capital you can always find borrowers. Your wealth has been created from labor and lands of the farmers. They have confidence in our banks and will act on your advice, therefore you are to some extent morally responsible in this instance for their assistance and success. So we emphatically, earnestly and urgently request that all of you advise the farmers to hold their cotton, shelter, insure and market slowly. The immediate and steady result will be that the growers will receive a price somewhat nearer cost of production.

There is not a chance for loss of a cent, but certainly of incalculable profits to you, and through general prosperity of the farmers, which adds to the possibility of a crop for next year, whose profits you will share. We hope for decisive action by you to utilize your influence and financial power for the benefit of all.

To the Merchants.
This cotton has cost the producers more than 44 cents per pound. The farmers are your customers and friends. The banks will carry you 90 days longer, with profit to themselves, to you and the farmers. Help hold, shelter and market slowly.

To the Farmers.
During the year 1917, the Texas department of agriculture advised you to hold your cotton and market slowly, and you would get 30 cents for it. Those of you who followed that advice, realized 30 cents a pound and over, for cotton which would have sold for 20 cents or less without that counsel and your action on it.

Last year it said 35 cents with the same results. We holdily advise the only thing necessary to get 40 cents a pound and up, for all good cotton is for you to hold, shelter and market slowly, as the department has again advised. If you own money, consult your banker. Let him know that your cotton is sheltered, insured and subject to his order. Not one banker in a thousand will fail to carry you cheer-

fully. If your banker is the exception and demands his money, wire the Commissioner of Agriculture at Austin for the name of a bank which will furnish you credit on your cotton.

To those farmers who are not in debt we appeal not to dump your cotton to the gamblers' prices, and break the market for those who hold. If prices begin to fall out selling. Let the world see that we will stand together to obtain a fair price and the victory is won.

Respectfully signed, your fellow citizens,
(Signed)
D. H. Metcalfe, cotton grower, San Angelo, Texas.

J. W. Johnson, vice president Central National Bank, San Angelo, Tex.
J. G. Murphy, editor, San Angelo Standard, San Angelo, Texas.

C. S. Miller, president, Ballinger State Bank and Trust Co.
K. M. Van Zandt, president, Fort Worth National Bank.

Forster A. Whaley, manager, West Texas Chamber of Commerce.
G. H. Alford, editor, Progressive Farmer, Dallas, Texas.

E. Lyday, president, Farmers Union.
W. B. Yeary, cotton specialist, department of agriculture.

In connection with my signature to the foregoing, I wish to give credit to the Farmers Union, to the warehouse and marketing department, to the State Bankers' Association, to the Retail Merchants' Association and to others for their assistance and support in the cotton campaign of 1917-1918.

(Signed) Fred W. Davis, Commissioner of Agriculture.
I have signed the foregoing statement because I heartily endorse any movement having a tendency to bring about increased returns to the producers of the South. I do not assume to have a personal knowledge, nor am I in a position to determine personally the cost of production. Therefore I do not sign this statement with regard to the facts stated as to the cost of production, nor am I in a position to assure the public that action upon the part of the producers, as advised by the department of agriculture or others, was the direct cause of the realization of increased prices during the years of 1917, 1918, although I heartily commend the department of agriculture for the advice given, nor can I give assurance as to the action of the banks with regard to carrying accounts.

(Signed) W. P. Hobby, Governor.
We have advocated the above plan practically, persistently through the

columns of Farm and Ranch and shall continue to do so.
(Signed) F. F. Holland, publisher, Farm and Ranch.
I think there should be a gradual marketing of cotton, that it should be well housed and preserved pending sale, and that all financial institutions, mercantile and banking, should adopt the most liberal policy possible in aid of a wise and gradual marketing plan.

(Signed) W. F. Ramsey, Federal Reserve Bank, Dallas, Texas.
OBJECTS TO THE HIGH MONOPOLIZING SCHOOL.
WEALSTONE, Eng.—The local council here does not approve of Dr. Christopher Addison, Minister of Health, with a salary of \$25,000 a year, sending his daughters to a public secondary school at Harrow, where the fees are only \$10 a term.
One councillor stated that he did not consider that people with \$25,000 a year should monopolize the school which was intended for the masses. There was a waiting list of 75.
Dr. Addison replied that he would gladly pay higher fees if the rules permitted and declared that he had as much right as any other citizen to send his children to a public secondary school.
"In my view," he added, "much advantage would accrue if there were less class distinction in our schools."

NEW RUMANIA OFFERS TRADE POSSIBILITIES FOR AMERICAN PEOPLE

ST. LOUIS, Nov. 18.—Basic information concerning the New Rumania and its trade possibilities for American manufacturers was given by Louis H. Van Norman, a trade commissioner of the Department of Commerce, before the Foreign Trade Bureau of the Chamber of Commerce here recently. Mr. Norman went to the Balkans last January and returned last month.

"New Rumania" is as large as Italy and has a population equal to that of Spain," he said. "It is the richest country in natural resources of any of its size in the world. Its soil is the alluvial valley of the Danube, needs no fertilizer and commonly produces enough foodstuffs to feed Rumania and leave 60 percent of the total available for export. It has unlimited beds of salt, vast forests, enormous oil fields, enough gas to supply all the industries using gas in the world, the whole forming a basis for credit unexcelled."

"The need for manufactured products and livestock, of which the Germans stripped the nation almost unbelievably. They took 50 percent of the locomotives and mill stock of the transportation system, mathematically all of the grains, and seeds, all utensils from the kitchens, the linen from the beds, the nails from the walls of the houses. When arrested, they had carried away 37,000 acres of the country itself, the topsoil, which caused Von Mackensen to remark: 'I have left the map.'"

"The Rumanians trust America. No nation ever entered trade relations with another having the same measure

of good will that the Rumanians stand ready to give Americans. When American, French and British goods are on the shelves, the American goods sell first.

Rumania has been partially nationalized, according to Mr. Norman, but there is no danger of Bolshevism invading the country.

MARTINIQUE PROFITS FROM SALE OF RUM

ST. PIERRE, Martinique.—The manufacture and sale of rum brought unusual prosperity to the little island of Martinique during the war. Hidden away among the West Indies this little French colony of 200,000 people, so small that it is found with difficulty on maps of the world, sent its sons overseas to fight for the motherland while the folks at home prospered by raising sugar, coffee, cocoa and manufacturing rum.

This took place, too, during a period when prohibition was sweeping over America.

Not only did the exports of this beverage increase from approximately 4,000,000 gallons in 1913 to 5,862,600 gallons in 1917, a gain of more than 40 percent, but the value of the exports increased from approximately \$85,000 in 1913 to \$9,932,000 in 1917, a gain of about 315 percent.

Exports of sugar, however, decreased from 32,000 tons in 1913 to 20,478 tons in 1917. The production of sugar cane was increased during the same period but the islanders found it more profitable to use the product in the manufacture of rum than to export it. From 1914 to 1917 imports of molasses used in the manufacture of rum, increased from 1,857 tons to 8,475 tons.

TUBERCULOSIS

It was when physicians said it was impossible for J. M. Miller, Ohio Druggist to survive the ravages of Tuberculosis, he began experimenting on himself, and discovered the Home Treatment, known as ADDILINE. Anyone with a cough showing tubercular tendency or Tuberculosis, may use it under plain directions. Send your name and address to ADDILINE, 104 Arcade Building, Columbus, Ohio.

LACK OF REST worry, over-work or imperfect nourishment, all in a measure contribute to and are the beginnings of nervous prostration.

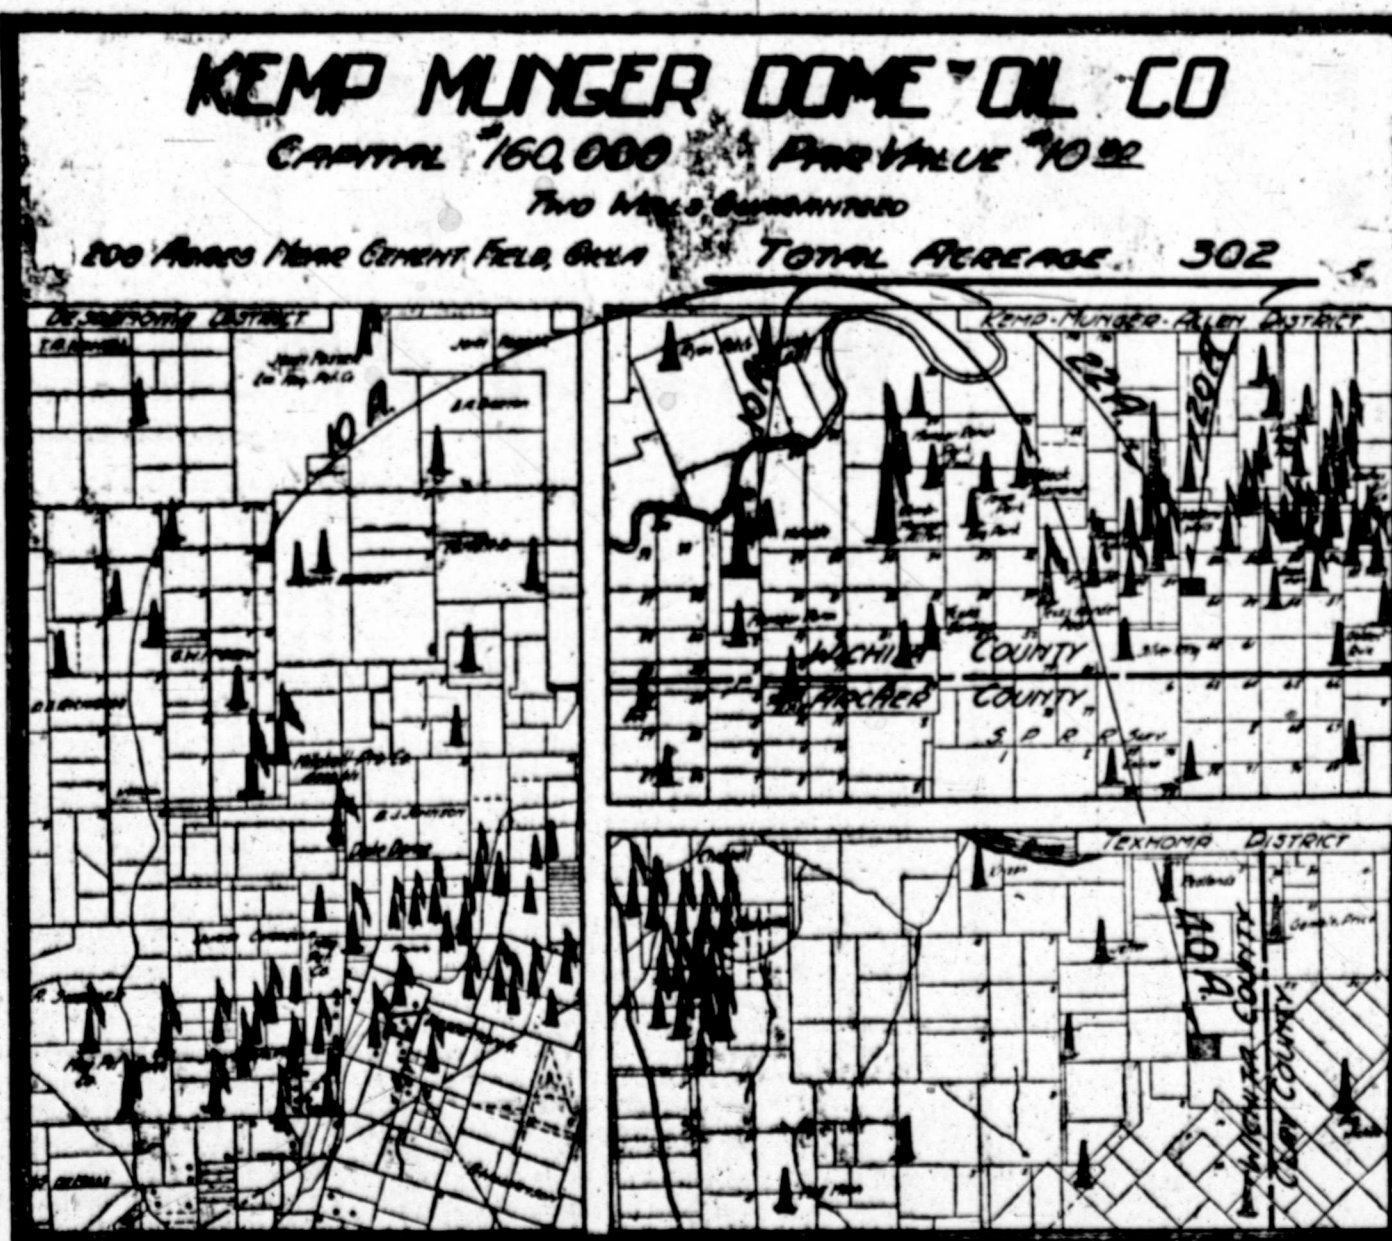

SCOTT'S EMULSION

is a decided help to those who are nervous, in that it provides an easily assimilated food that quickly builds up the general health by nourishing the whole body. Give less attention to worry; enjoy regular rest and sleep and take Scott's Emulsion regularly after meals. Scott's never fails to nourish and strengthen.

exclusive grade of cod-liver oil used in Scott's Emulsion is the famous A. B. Process, made in Norway and refined in our own American Laboratories. It is a guarantee of purity and palatability unsurpassed. Scott & Bowser, Bloomfield, N. J.

THIS wonderful cow produced 28493.7 lbs. of milk and 1470.5 lbs. of butter in 365 days—a record unsurpassed by any living cow. Read what her owner, Bernhard Meyer of FINDERNE STOCK FARM, FINDERNE, N. J., has to say about her:

"We have made another world record with our FINDERNE Cow, FINDERNE Pride, who has just won the 1919 World Dairy Contest, which is my greatest satisfaction in a very valuable food for dairy purposes."

Mr. Meyer, as well as other "top notchers" in the dairy industry, discovered long ago that

SCHUMACHER FEED

the old reliable standby that helps them to increase the production of their herds is the feed of World's Champions because it helps to make world Champions.

You may not expect to make any world's records, but if you follow the example of the most successful dairymen, whether fitting and feeding for records or for maximum dairy production day in and year out, SCHUMACHER FEED will more than make good for you.

It will prove that it is indeed the world's greatest maintenance dairy feed. Try it and be convinced. Come in and let us tell what other customers say about it.

OIL DEVELOPMENT IN CONCHO COUNTRY MAKING PROGRESS

Special to The Times.

SAN ANTONIO, TEX., Nov. 22.—Oil operations in Concho, Crockett, Pecos, Glasscock, Howard and other West Texas counties are again proceeding steadily, according to reports just received. In McCulloch county oil has been struck in another shallow well, in Irion county a star machine is being set up for a test and two derricks have just been completed in Pecos county.

In Concho county the Shultz Oil company on the W. O. Shultz ranch has underreamed a 5-8-inch casing to 3,100 feet and is now waiting on more pipe. Since underreaming was finished the hole has been carried down to approximately 3,200 feet. It is understood. The well is near Paint Rock.

The crew of the Leonard Petroleum company on the Sam Waring ranch below Eden has suspended underreaming the 5-8-inch casing to 2,910 feet and is awaiting orders. This well may be shot at the present level, as a strong showing of oil has been obtained thereabouts.

In Crockett county the Ryan Petroleum Corporation until last week had been shut down for some time at 600 feet on the Roy Henderson ranch, twenty-five miles below Barnhart. J. A. Pope, drilling contractor, has resumed work and drilling is under way.

Well cleaned in Pecos county. At last the deep test of the Reilly-Texas Acme company on the H. C. Noelke ranch near Sheffield, in Pecos county, has been cleaned out and 5-8-inch casing is being set preparatory to the resumption of drilling at

3,100 feet, which is expected to take place this week. The fishing out of two strings of tools required several weeks. F. G. Leidecker of Wichita, Kan., the drilling contractor, was in San Antonio Saturday on his way to the well from his home, where he was summoned by the illness of his daughter.

C. E. Menzie of Wichita, Kansas, at the last report was drilling around 2,400 feet on the Sherbrooke Brothers ranch in Pecos county. Excellent progress has been made at this test during the past forty days.

The Circle Oil company on Harrell Brothers' ranch is drilling below 1,000 feet.

On the Corder ranch in Pecos county and on the lower ranch of John W. Canon, in Terrell county, A. L. Jones of Coleman has just completed the building of rigs, and machinery is now being hauled to both sites. The Bethlehem-Texas Oil Syndicate is to sink the Corder well, twenty miles west of Sheffield on Section 51, Block 2, Corpus Christi, San Diego and Rio Grande Narrow Gauge Railway Company land.

Northward in Sterling county, the operations of the McCarty Oil Association have been taken over by T. A. Bunker of Beaumont, who will act as President. J. W. McCarty, during the war Mr. Bunker was construction inspector for the United States shipping board, and later has been master shipbuilder and assistant superintendent of the Beaumont Shipbuilding and Dry Dock Company. He has resigned this position to become associated with the McCarty Oil Association.

With bad weather at an end, work at the McCarty well is just now getting under good headway again. Drilling between 450 and 500 feet was in progress late last week.

Glasscock County Development. The General Oil Company, which is operating extensively in Glasscock and Howard counties, has purchased a Caterpillar tractor with which to put its trucks over muddy highways. At the A. T. Neal ranch, four miles north of Garden City, Glasscock county, a fishing job below 200 feet has lately held up drilling.

At the L. S. McDowell well, also in Glasscock county, the General Oil Company a few days ago made a test of its well, in which a strong showing of oil was obtained at 570 feet. First estimates of the showing were twenty-five barrels, but the test did not sustain the claim. The sinking of a shallow test further to develop the shallow sands is now being considered. In Well No. 1 on the McDowell ranch the fifteen-inch casing recently froze and to be pulled and 12 1/2-inch pipe inserted.

In the well of the Big Springs Production Company on the ranch of Mrs. Gary D. Quinn, twenty miles southwest of Big Springs, casing has been set in concrete to shut off the gas flow that developed around 767 feet, and drilling is now going forward below the 800-foot level.

The Brunson well of the Texas Producers' Oil Company, twenty miles east of Midland, over the line in Glasscock county, has been shut down lately around 1,400 feet. But Secretary H. H. Thomas last week announced that drilling would be resumed as soon as new material can be placed on the site.

Drilling in Midland county. In Midland county, nine miles south of Midland, the West Virginia-Texas Oil Corporation has been drilling around 1,200 feet in red clay. The McKerns Oil and Refining Company of Pierce City, Mo., has obtained a crew here for the drilling of its new shallow well on the Fawcett Tankerley ranch in Iron county. A star machine has been unloaded at Merton, and spudding will take place within a few days. The McKerns company close by has a well 720 feet deep, which will be finished later, after promising sands around 440 feet are tested by the lighter machine.

A contract has been closed by the California-Texas Oil and Development Company with the firm of Crandall & Henry for the spudding in within 90 days of a deep test well in Concho county. The 3,600 foot well will be located on 2,000 acres of land owned by Claude Ledbetter and situated south of Pache, which is on the Santa Fe railroad. Materials for a complete standard rig, with an eighty-four foot derrick, have already arrived.

With but one foot of sand pierced by the drill, every indication points to the "Three O' Day" well in McCulloch county as being a first-class producer. The well was bailed out Tuesday and the packers were found to be holding well. This well is on the Dutton tract, eleven miles north of Brady, and acreage around it has been selling at over \$100.

The latest sensation in McCulloch has been the striking of shallow oil at 349 feet on the Comfort ranch, two and one-half miles south of Mercury. Four and one-half feet of sand have been penetrated.

UNREST IN AMERICA BENEFITS THE WELSH

SWANSEA, WALES, Nov. 22.—Labor unrest in America is said here to have benefited Welsh manufacturers. A wave of prosperity is sweeping over Swansea and its surroundings which residents declare is reminiscent of "the good old days"—pre-war days when Swansea thrived.

The factories in the vicinity cannot keep pace with the orders flooding in. Iron, steel and tinplate works are glutted with orders and though prices have been forced upward through competitive bidding by eager buyers, this is not acting as a deterrent.

The Swansea Labor Exchange reports there are far fewer persons unemployed now than at any time since the armistice, and the numbers are decreasing weekly. Wages on all hands are such as to attract labor—unskilled workers receive \$20 and \$25 weekly which is materially higher than is paid in other localities in England.

FORSAKE DRUG HABIT TO FIGHT JAPANESE

HONOLULU.—That they are forsaking the drug habit to fit themselves to fight the Japanese is the declaration of hundreds of Koreans, who have sought entrance to the Oahu asylum for treatment during the past six months. This is the statement of Judge J. B. Lightfoot, to whom the applications have been made.

CUTICURA HEALS SCALP TROUBLE

Blisters Iched and Burned
Awfully. Hair Came Out.

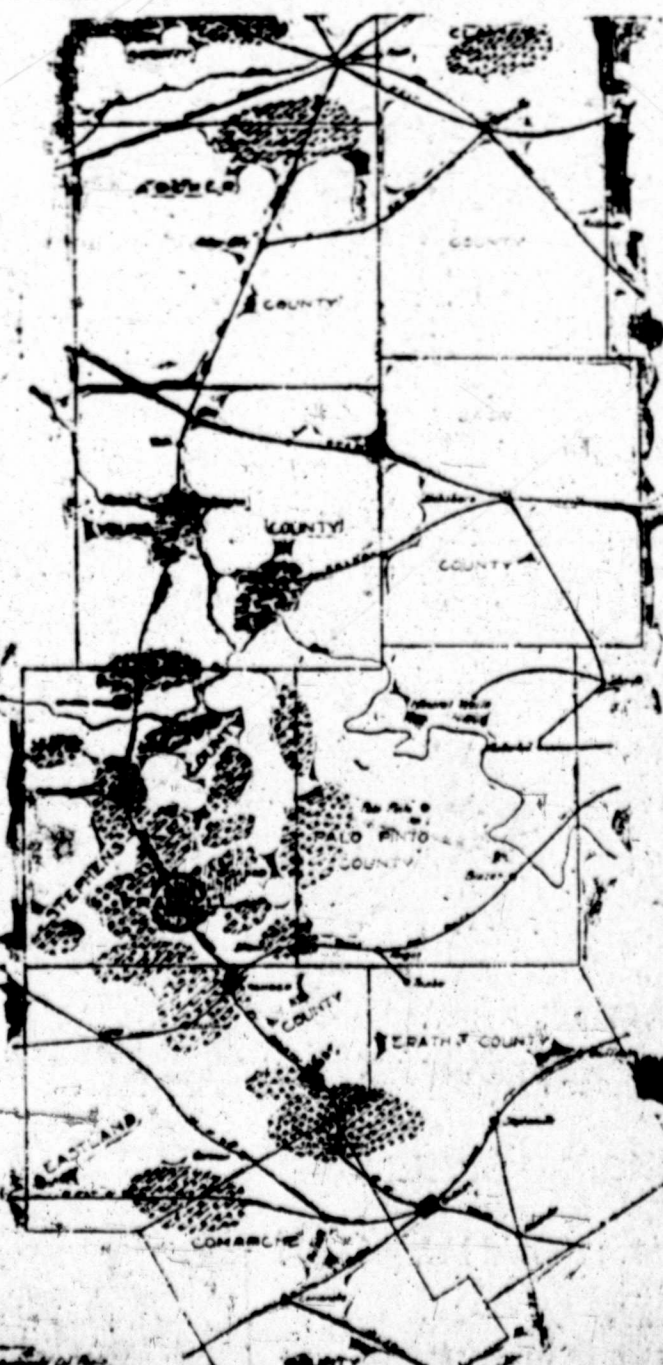

"I was bothered with a bad scalp trouble. Blisters broke out on my scalp, and they itched and burned awfully so that I could not rest at times. My scalp was very sore and red, and I would scratch the eruptions all they bled. My hair came out."

"I then used Cuticura Soap and Ointment, and I only used a very little before I could see a change, and now I am healed." (Signed) C. W. Pundleton, Dedham, Va.

Prevent further trouble by using Cuticura for all scalp purposes.
Send 25c, Cuticura Soap and Ointment, each free from address: Cuticura Laboratories, Dept. 10, Station, Boston, Mass.

FRANKELL

—A town that ten thousand people are waiting for in the biggest oil field in Texas
WILL BE OPENED DECEMBER 8TH.

Frankell is on the line of the Wichita Falls, Ranger & Fort Worth Railroad, in the middle of the famed and growing Caddo oil field in Stephens county. It is named for Frank Kell of Wichita Falls, one of the builders of the railroad, a man whose business successes and civic prominence, coupled with his successful railroad enterprises and industrial and banking business, have made him known and respected and followed all over Texas. Associated in the railroad enterprise with Mr. Kell is Jake L. Hamon, of Ardmore, a railroad and city builder whose towns are always successful and whose business ability has placed him in the front rank of American captains of industry and capitalists. Read what Mr. Hamon has to say about Frankell in this advertisement.

The Wichita Falls, Ranger & Fort Worth Railroad is being built to serve the oil fields of Texas. It was laid out for that sole purpose. Its towns are located in strategic positions that command the oil fields. Frankell was made to order for the service that oil fields demand. It is in exactly the right place for supplying the fields with material from the railroad tracks. It is designed from the location of the freight depot to the laying out of the streets and alleys to meet the needs of the oil industry in the field. It was purposely placed in the middle of the biggest field so far developed in the biggest oil county in Texas. From its freight depot and supply houses the materials for a thousand oil wells will be taken to the leases at the lowest cost and in the most direct way. Frankell will be the link that connects the lease with the steel mill and with the forest where the lumber comes from. It will be the ideal site for the refineries and shops and all manner of oil fields supplies that are demanded for a domain of oil production that is unequalled in the United States. It was conceived by an oil man whose operations are extensive and whose knowledge of the situation is beyond dispute. It is a made-to-order oil field

What Jake L. Hamon thinks of Frankell.

"This town is located in the center of the Caddo oil fields. I can stand on the townsite and count 1,000 drilling wells. It will be the center of the supply houses for Stephens county. A town where refineries should and will be built. This, in my opinion, will be the best town I have ever planned and sold. I believe that every investor will make money and that there will be 10,000 people on the townsite of Frankell making money faster than sites of other like number on the American continent within ninety days. No lots will be sold through the mails. We have no advertising matter. The purchaser, in order to make an investment in this splendid town, will have to be on the townsite and make his selection and purchase. This, however, will not prevent persons making purchase of lots by agents or attorneys representing their principals. I invite my friends to make investments here, and assure them that in my opinion they will reap a splendid return."

Jake L. Hamon

center that has the field awaiting it and the people of the field longing for its service.

From the heights of this most sightly townsite the eye can vision a thousand oil wells from Caddo to Breckenridge, and within the radius of vision are a dozen camps that will at once take advantage of the opportunity to make this first Stephens county railroad town their headquarters.

The millionaires of America are sending their wealth to develop the oil fields of Texas. They are taking from these fields in return other and more millions in oil. The oil production of Stephens county at this time is worth \$100,000 a day—and Frankell is the railroad town that will become at once the center and supply depot of this vast wealth producing area. The new town will start out with a daily payroll of approximately \$30,000 within its immediate territory. The production of oil

in this territory has just begun. The payroll is yet in its infancy.

America has never before seen such an opportunity to profit by the building of a great oil field city as that here presented in this new oil field town that has been made the pet of men whose dreams come true and is the Mecca of practical pilgrimages to prodigious possibilities.

Investments in new towns that have good settings are always good investments. Some of the world's best fortunes have been made from advances in real estate values. The opportunities to make investments in towns that are destined to become cities in a few months are few. They are becoming fewer. There are not many open places left on the American continent. Stephens county has for forty years been one of the few such places. It remained for oil to be discovered in Stephens county to bring the people to realize the possibilities of that section for constructive effort. It has since been discovered that the farming possibilities of the county are superb. Coupled with the impetus that a score of years of increasing oil production will give to it this section of Texas should, and will, become one of the great industrial regions of the Southwest. The man who accepts this invitation to make an investment in the new railroad town of Frankell will see his profits piling up month after month indefinitely.

Frankell is 12 miles north of Ranger. It is 15 miles north and east of Eastland. It is about 20 miles northeast of Cado. It can now be reached from either place by conveyance. In a very short while it will be reached by trains on the Wichita Falls, Ranger & Fort Worth Railroad, a \$5,000,000 enterprise that is being put through for no other purpose than to bring transportation to the oil fields and farms of an empire that is clamoring for them through the medium of towns that are designed to serve the territory. Frankell is the oil field railroad town of Stephens county.

Plats of Frankell will be available at the townsite on the opening day of the sale. All business and residence lots will be sold beginning December 8 and continuing from day to day. No lots will be sold in advance of the opening day of the sale and none will be reserved from sale.

Thirty per cent of the purchase price is payable on the day of the sale, the remainder in seven equal monthly installments.

HAMON & KELL, RANGER, TEXAS

WORTH OF A CAR IS WORTH OF THE MOTOR

The motor that makes an automobile the standpoint of utility," says Mr. Cochran, local dealer in Chevrolet passenger and commercial cars.

"Hundreds of dollars may be spent on body comfort and appearance, but at the end, the enjoyment of a car is the worth of the motor. Just as the heart is the center of life in a human being so the motor is the heart of the automobile. It makes it go."

"If a man has a strong heart he is generally capable of doing his physical things. The ordinary tests of everyday do not tax him at all, they do not wear him out. He has endurance. He lives and is fit and vigorous in his old age."

In just the same manner the capacity of a car for hard service and the length of that service depend on the character of its motor.

"It is because so many people fail to grasp this important point that they make so many costly experiments before finding real motor satisfaction. It is because of this that so many makes of automobiles are permitted to flourish on the sole strength of attractive surface features before public opinion snuffs them out."

"On the other hand the most successful cars of today are those whose motors have stood up to the tests of time. They are the kind in which the motor has been the first consideration. Then the rest of the car has been built to fit the power of the motor. "In such cars the motor is not overtaxed by unnecessary weight. Strength and flexibility have taken the place of bulk. And the result is greater riding comfort, endurance, freedom from repairs and far more power at far less cost for fuel."

NO REAL DEMOCRACY SAYS CHICAGO WOMAN IN ADDRESS AT DALLAS

DALLAS, Texas, Nov. 19.—There is no real democracy in the United States and there never will be until "industrial democracy" has been attained, said Miss Marcy McDowell of Chicago, settlement worker, speaking here before the Dallas School of Social Work.

"We merely have the machinery for democracy; we do not have democracy itself," Miss McDowell declared. "We are not democratic in our politics or industry, and I hasten to say that we will never have democracy at all until we have it industrially, for that is basic."

Women are in no way to blame for present unsettled conditions, Miss McDowell said, "because we have little voice in determining what course shall be followed. Our helplessness is inherited and we must not brood over our inability to remedy matters."

Speaking of strikes Miss McDowell said: "The strike is an undeniable right of the working class, but it should be used only as a last resort. A strike is a war and as such is never quite ethical."

"As to foreigners I will say they will obey the law if Americans enforce the laws. Americans need to be Americanized more than the foreigners."

England is seventy-five years ahead of the United States in industrial democracy. Unionization of laborers, moderate socialists and co-operators have worked wonders in that country. Employers want employees to organize of their own accord and for their own benefit."

GREAT BRITAIN PLANS FREIGHT RATE INCREASE

LONDON.—Freight rates in Great Britain will soon be increased by approximately fifty percent, it is stated. Passenger rates were increased by a like percentage during the war and have remained at that level ever since.

GULF DIVISION OF THE WESTERN UNION LEADS IN AMOUNT OF BUSINESS

DALLAS, Texas, 19.—The Gulf division of the Western Union Telegraph company, comprising the states of Texas, Oklahoma, Arkansas and Louisiana, leads the entire country in amount of business handled, according to S. M. English, general manager of the division, Dallas, he said, is the third largest telegraph distributing center in the United States. New York and Chicago hold first and second place, respectively.

This statement, Mr. English said, was based on reports to Gulf division headquarters from various "test" offices maintained by the Western Union.

"A comparison of these test reports," said Mr. English, "show an increase of 63 per cent in the business handled by the Gulf division for the week ending November 8, over the same week last year. The total gain for the month of October, 1919, accompanied with October, 1918, is doubled. The increased business in Dallas alone for the week ending November 1, is 53 per cent above that of the same week in 1918. In addition to this Dallas still maintains its status of being the third largest telegraph distributing center in the United States. The central division of the Western Union, which includes the grain belt, is the nearest aspirant to the record made by the Gulf division during the last week in October, and shows a gain of 37 per cent, which indicates that big business at the present time is more prevalent in the states west of the Mississippi river."

"To take care of the increased business in the Gulf division it has become necessary to distribute several thousand miles of additional wires for multiple circuits over this territory."

The multiplex system, Mr. English explained, permits the sending and receiving of eight messages simultaneously over one wire. From the sending point the message is typed from a standard keyboard which registers each letter on a tape and is distributed to the destination where it is automatically transcribed on paper ready for delivery. A school is maintained in Dallas for training girls in the operation of this system. Upon being graduated, they are sent to offices

IN THE FOUR STATES COMPRISING THE GULF DIVISION. RUSSIAN MONEY OF HALF DOZEN BRANDS

NOME, Alaska.—Russian paper money of half a dozen or more brands was left in Nome last week by sailors given shore leave from Admiral Koltchak's gunboat, the Yakut, when it spent several days here taking on supplies.

Bills brought by the sailors carry stamps of the old Russian imperial government, the Kerensky government, the Kolchak administration, the Bolshevik officials and several Russian provincial governments. As the money was of doubtful value here none of it passed at face value.

DECLARES TEXAS FACING SERIOUS BREAD SITUATION

FORT WORTH, Texas, Nov. 19.—Texas is facing a serious bread situation owing to heavy rains throughout the summer and fall which prevented farmers from preparing the ground for winter wheat, according to H. B. Dorsey, secretary of the Texas Grain Dealers' Association. "This condition also prevails over practically the entire country," the secretary said.

With prospects for dry weather Mr. Dorsey expresses the belief that there is yet ample time to raise winter wheat and in a circular letter he urged bankers, merchants and grain dealers and others to encourage farmers to plant immediately the largest possible acreage. "Our climate in Texas," he says in the letter, "is more favorable to sowing wheat at this late date than in any other state."

Texas wheat growers lost heavily on last season's crop, Mr. Dorsey said, owing to inability to secure sufficient threshers and inability to market wheat "because of embargoes at ports and failure to secure boats and cars to handle the crop." Many farmers affected by these conditions, he said, "are not overly anxious to plant wheat now," and should have every encouragement to do so.

Those who sow wheat now will certainly get good prices and will help supply the country with bread," according to Mr. Dorsey's letter.

Rockwood Pottery for Christmas Presents at Decorators Co., 715 Ninth. 173-lte

Watch the Little Pimples; They are Nature's Warning

Unsightly and Disfiguring Signs of Bad Blood.

Pimples on the face and other parts of the body are warnings from Nature that your blood is sluggish and impoverished. Sometimes they foretell eczema, boils, blisters, and other skin disorders that burn like flames of fire.

They mean that your blood needs S. S. S. to cleanse it of these impure accumulations that can cause

unlimited trouble. This remedy is one of the greatest vegetable compounds known, and contains no minerals or chemicals to injure the most delicate skin.

Go to your drug store, and get a bottle of S. S. S. today, get rid of those unsightly, disfiguring pimples, and other skin irritations. It will cleanse your blood thoroughly. For special medical advice free, address Medical Director, 41 Swift Laboratory, Atlanta, Ga.

FUTURE MARKET FOR AUTOS ON THE FARM

The most substantial future market for high grade automobiles is among the farmers—especially the farmers of the Middle West. This is the opinion of Edward S. Jordan, president of the Jordan Motor Car Company, Inc., represented in this city by the Marshall-Huff Automobile Company, who has made a careful study of the economic factors affecting the farmer as a buyer of high grade merchandise.

The Garden of the Billions or the "Land Where the Dollars Grow," as Mr. Jordan calls the rich middle western farming country, he designates as the center of a growing demand for reliable, permanent, and serviceable merchandise.

"The wise far-seeing manufacturer is looking to the farm purchaser as the source of the stable demand for high grade goods," said Mr. Jordan, in analyzing the farm demand. "During the war the farmer, especially the farmer of the Middle West, came into his own. His job was to supply food not only for his own country but for the war-ravaged countries of Europe. He came through in a way that called forth the grateful thanks of the world for his patriotic response and incidentally brought a degree of prosperity which he had never before obtained.

"There are 6,361,113 farms in the United States, not including Alaska or territorial possessions. The number in each state ranges from 2689 in Nevada, and 5292 in Rhode Island to 417,770 in Texas. Alaska, Illinois, Indiana, Iowa, Michigan, Missouri, and Ohio, all have more than 200,000 farms. These farms raised fourteen billion dollars worth of crops.

"To accomplish his task of world feeding in the best possible way, the American farmer equipped himself with the most up-to-date sort of machinery. American farmers own today \$461,657,433 worth of farm implements. These are in actual use.

"With the combination of up-to-date machinery and improved farm lands, note how fast new wealth is created on the farms of America. The latest value which has been compiled for all crops and animal products is \$19,443,549,351, an increase of nearly \$6,000,000,000 over the total value of the year before. In 1916 the corn crop passed the two billion mark for the first time. In 1917 it topped three billion. Last year it went over \$3,500,000,000. This year will be another bumper year.

"In three years the wheat crop of the American farmer about doubled in value, almost touching two billion dollars in 1919. Hay passed the \$1,500,000,000 mark that same year, and oats crossed the billion mark.

"With the increased price his crops were bringing, the farmers' dollar increased in value. One acre of wheat crop would bring him 102 gallons of gasoline; for an acre of corn he could get nine pairs of shoes; another acre of corn would bring him 14 flannel shirts or 373 yards of calico for his wife.

"Now what does all this mean to the farmer looking for a new car? It means that the producers of the country are the creators of new wealth on our farms. As capacity production is approached, American business men must find consumers of increased production of American goods. Let them look well to the market we have at home. It is stupendous. The demand for motor cars proves this.

"What car will the farmer buy? The mass will bring in the lower priced class, for there will be hundreds of thousands of new buyers ready. But don't forget that a tremendous number of well-to-do farmers will buy cars selling above \$3,000.

"The car that the well-to-do farmer wants today, and remember that the American farmer today is well-to-do, is a high grade, light weight, economical, machine built in a balanced way for long time service, and comfort over any road. It is rare in beauty and free from rumbles, rattles, and rust.

"A new day is dawning in the motor world. People are buying an automobile as an investment in happiness to the family.

"And the American farmer appreciates better than perhaps any other automobile buyer, whatever of style, of power, of performance, of balance, to make a car a good investment in family happiness.

TAUGHT KING TO RUN LOCOMOTIVE ENGINE
MOOREHEAD, Minn., Nov. 22.—John Kilbane, veteran engineer on the Great Northern railroad here, read with interest every press account of the visit of Belgium's royalty to America.

When King Albert, then a prince, visited America in 1898 and made a trip over the Great Northern as a guest of J. J. Hill, Kilbane taught the royal passenger to run an engine. He says Albert was an apt pupil and quickly learned to handle the throttle, lever and air brake and watched the track with solicitude.

The latch string of the Brussels palace is ever out for Kilbane. King Albert has assured the engineer in messages.

DISCHARGED SOLDIERS HAVE TUBERCULOSIS
AUSTIN, Nov. 22.—There are 4,000 discharged Texas soldiers who are affected with tuberculosis, according to estimates of the federal public health service, and several hundred of them need immediate hospital service.

General hospitals are slow to take tuberculosis patients, and federal authorities have offered to pay \$3 a day and furnish medical attention for these men, if Texas will provide a hospital.

In line with this the Benevolent War Risk Society of Texas has launched a campaign to raise \$500,000 to erect a sanitarium at or near Carlsbad for these men.

You will want turkey and cabbage for Thanksgiving. We have the turkeys, all sizes—Come early and get your choice. No deliveries. F. B. Massey, 401 Lee St. Phone 397. 175-74p

SUPERDREADNAUGHT IS A VERITABLE ELECTRIC SHIP

SAN FRANCISCO, Calif., Nov. 22.—The super-dreadnaught, California, launched at Mare Island here Thursday, is a veritable electric ship. Besides supplying her driving power, electricity is used to hoist the ammunition, rotate the turrets, operate the 14-inch guns, steer the ship, raise and lower the anchor, pump fresh and salt water, operate the machinery in the machine shop, carpenter shop and printing establishment, supply fresh air for ventilation, raise and lower the boats, operate the refrigeration plant, operate the searchlight and radio equipments.

In the kitchen electricity peels the potatoes, makes the ice cream, grinds the meat, mixes the dough, cuts the butter, and in many other ways lightens the labor of the sailor lads.

The chief advantage of electric drive for a battleship is fuel economy. Fuel economy is far more important aboard ship than ashore, naval officers point out, for a ship must carry her own fuel, and the longer a ship's fuel is consumed, the longer she is out of action.

The greatest saving occurs in the usual cruising speed of about 15 knots. As compared with the battleships driven by turbines directly coupled to the propellers, it is estimated that the California will save, while cruising, about 50 per cent of her fuel. This is because both the turbines and the propellers can rotate at their best and most economical speed, which, it is contended, is often impossible when steam is used to drive the screws.

Energy to operate the great battleship is taken aboard in the form of crude oil. This is burned under boilers that develop steam power, which in turn generates electric power.

The nozzles underneath the boilers are adjusted to mix air with the oil so that the oil will burn completely without smoke. However, if it is desired to throw a smoke-screen, by merely increasing the oil supply inky blackness will vomit from the California's smoke-stack.

From each of the two generators large copper cables convey the electricity to the control board. The control board is equipped with levers and handles whereby the engineers of the California will control the electrical propelling machinery. The navigating office sends word by loud speaking telephones or electrical indicators. One engineer stands at the control board and can start the vessel forward or backward, or vary the speed of the vessel.

He can start the vessel forward or backward, or vary the speed of the vessel in either direction as required. He can run all four of the 7,000-horse-power motors from one of the generators or from the other. He can even split up the load so that one of the generators can run two of the motors forward and the other generator run the other two motors "astern" in order to turn the ship quickly.

Health Department
CONDUCTING SURVEY

AUSTIN, Nov. 22.—In order to secure data to give the next legislature knowledge of conditions in state eleemosynary institutions in the state prisons, the state health department, at the request of the governor, is conducting a health survey of these institutions.

Lengthy questionnaires containing inquiries into every phase of the life of inmates, sanitary conditions, food, number needing medical attention, number of incurables, etc., are being mailed to the heads of all the institutions. Institution superintendents are also invited to make suggestions for improvement of conditions in which inmates are kept. When these questions are answered representatives of the health department will make personal visits to the various institutions.

Information gathered will then be compiled into a booklet to be presented to members of the next legislature.

Notice to the Public.

I Have Secured the Liberty Franchise

I have secured the franchise to sell Liberty cars in this territory.

The reason I wanted the franchise was that I wanted to buy for my own personal use the first Liberty car I rode in.

That first ride in the Liberty—it was not my Liberty either—made me sit up straight and pay attention.

The difference in the Liberty is immediately noticeable in the way it rides and drives. You will notice it, no matter how limited your experience may have been.

My wide experience told me in the first ten minutes that I had encountered an unusual car.

I determined however, not to be swept off my feet.

I went at it to find out why there was such a difference in the way the Liberty rides and drives.

I found, for instance, as Percy Owen, the president of the Liberty Company says, that I sat in the car instead of on it.

The location of the steering wheel spelled complete comfort.

The control lever and switch were just where they ought to be.

The gear shifted with a finger touch. The emergency break could be set by a three-year-old tot.

The slightest pressure depressed the clutch. I rode in the tonneau alone.

That's a test that destroys many a dream of easy riding.

Some cars have to have passenger weight to hold the springs down.

It was not so with the Liberty.

Riding alone in the tonneau, I was just as easy as when I rode with two friends and no more so.

I did not stop here, of course.

The real test of a car is the personnel of the men who make it.

My best friend went to the factory.

I can't tell you here, all the fine things he found out.

But I want to tell you the story in person.

Briefly—there isn't even one stockholder in the Liberty company who wasn't bred and broadened in the motor car business.

A half a dozen of the more active associated occupied positions of honor in the industry than which there are none higher.

They started out to build a car which would produce exactly the effect of surprise the Liberty did produce on me in the first ten minutes.

I am eager to show you that instead of over-stating, I have under-stated this Liberty difference in driving and riding.

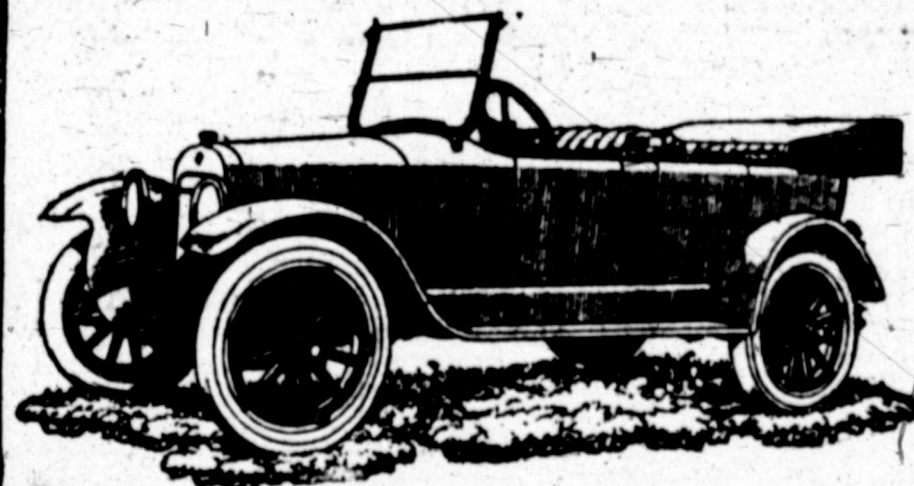

When can I let you sit at the wheel and see and feel for yourself?

H. R. HARLEY.

HARLEY MOTOR COMPANY

1092-04 SCOTT STREET WICHITA FALLS, TEXAS

"LIBERTY SIX"

To make the Maxwell light they used the quality steels

THE story of Maxwell is a story of metallurgy. This great science makes possible a 1960-lb., 109-inch wheel-base, 25 h.p. car, whose common denominator is Quality.

It has made possible a vehicle weighing but 1960 pounds itself to carry 750 to 1000 pounds of human weight a distance of 100,000 miles or more—to carry it at low cost and to carry its 5 passengers in comfort.

This is about 2 to 2 1/4 pounds of vehicle weight for a pound of "human freight."

When you stop to compare weight for weight with other cars, and size for size you will quickly realize that the Post-War Maxwell takes a leading rank on the subject of light weight.

But this light weight of the Post-War Maxwell is not a matter of "trimming the weight," but a matter of metallurgy.

The use of this science in building 300,000 previous Maxwells has developed lighter but stronger steels, and that is one reason why the Post-War Maxwell has caught the public fancy as few cars in recent years have done.

The demand is in excess of 140,000 for the current year. Only 100,000 can be built. Therefore, an early visit to look over the Post-War Maxwell may save disappointing days later on.

Price, \$985 f.o.b. Detroit.

Strong survey, two miles south of Ellaville, waiting on tankage, a hole full of oil. New Locations.

Texaco Co., Arnold No. 2, survey 113, one-half mile north-east of oil well drilled several years ago.

W. S. McNabb et al., Ruthy Campbell survey, south end of W. A. Corbett land, Young County.

Roxanna, W. E. McCharen, spudded in with 15-inch hole, on survey 1113, one-half mile north-east of Ellaville, Young Co.

Roxanna, location 500 feet east of Douglass well on J. M. Pratt survey 1110.

W. S. McNabb et al., Ruthy Campbell No. 1, on north 100 acre survey near South Bend, Texas; plantation; contracted for 4,000 feet.

Leary & Co. are to drill on the Allen Co. lease, block No. 43, Roxanna plantation, James Tobin survey. This well is to be drilled on the north 100 acre survey.

GRAHAM, TEX., Nov. 22.—Young county drilling operations for week ending November 19, 1911:

Tex. E. & L. Co. Dr. Donnell well, eleven miles southwest of Graham, survey 1111, 1,577 feet, pumping during day about 150 barrels; building steel tank.

Mattie Gerviss Oil Co., Stoen No. 1, survey No. 1006, eight miles north of Graham, 1,200 feet, pumping 100 barrels; doing overhauling, setting 8-inch casing.

The Merril Oil and Gas Co., Hunt No. 1, survey E. & L. Co. survey 2275, drilling at 1,310 feet.

The Merril Oil and Gas Co., Farmer No. 1, Pointwater survey, spot on the Pointwater survey, about 10 miles north of Dawson survey, drilling at 2,250 feet.

Cooden, Timmons No. 1, survey 1000, about 10 miles southwest of Graham, on top of black lime at 3,576 feet; waiting for unbleached Miami Oil Co. McKee No. 1, on the Wm. Fullerton survey, 348 feet; doing 30-inch casing and to make deep test.

Southwestern Petroleum Co., Scott No. 1, survey 1000, about 10 miles southwest of Graham, drilling at 640 feet; waiting for engine.

Sun Co., Donnell No. 1, on T. E. & L. Co. survey 1111, 1,577 feet; showing gas and oil; stripping log.

Langford, Bailey & Chensuit, Donnell No. 1, survey 1000, Donnell survey 1726, drilling at 980 feet.

Howden & Mcweeney, on R. F. Lindquist survey, about 10 miles southwest of Graham, drilling at 1,000 feet.

Humble Oil Co., Graham No. 1, on T. E. & L. Co. survey No. 3400, underreaming at 1,000 feet.

Tex. Co., Graham No. 1, running tubing and making about 80 barrels of oil with 100 barrels of gas; casing at 1,000 feet.

Tex. Co., Arnold No. 1, on the J. S. Lee survey 178, drilling at 4,061 feet; showing about 80 barrels of gas, 3,300 barrels oil new in survey.

Tex. Co., Norris No. 1, 2,110 feet; drilling at 2,775 feet on the S. A. & M. Ry. Co. survey 1000.

Tex. Co., Blair-Hughes No. 1; section at 2,775 feet on the S. A. & M. Ry. Co. survey 1000.

Manhattan Petroleum Co., Johnson No. 1, plugging back to make a gas well. This well is about 1,000 feet from the casing at about 2,400 feet. New well to be set near.

Manhattan Oil & Gas Co., Jeffery No. 1, survey 1000, drilling survey 330, drilling at 900 feet.

Tex. Ajax Oil Co., Benson tract, five miles east of Olney, T. E. & L. Co. survey 1431, drilling at 600 feet.

Tex. Co., on the Pointwater survey No. 1, ten miles south of Graham, 3,720 feet; shot with 500 quarts nitroglycerin Saturday, November 17, 1911.

Tex. Co., on the Pointwater survey, about 10 miles south of Graham, on the Arm-

Special to Times:

Special To Times:
FREDERICK, OKLA., Nov. 22.—Preparations are being made for setting the casing in the Fred-Till well, on the Duncan farm, five miles west of Fredrick, where the well, which is said to be 14 feet in the sand, will be tested out immediately. The Fred-Till well is the center of excitement in the Fredrick field for the past several weeks. Interest has been somewhat for sometime past but lessened considerably during the past week, when leases soared in price, the highest price being recorded Tuesday when Mounts and Darby closed at \$250 an acre. The total acre of leases at \$250 an acre.

This information was announced last night and it gave rise to men who are not interested in the development of the well since it was started early last summer. Nothing was said about the well since the sand is thought to be, but officers of the Fred-Till company are said to be in high spirits over the prospects of the well.

Another sale of acreage, which caused a stir of excitement in oil circles, was the proposed sale of 5,514 acres in section 5-5-14, about five miles south of Grandfield, for \$2,000 an acre. This acreage is located near the Duncan farm, five miles west north and east of the Burk-Senator well, which is the center of dispute between the Oklahoma and Texas claimants. The boundary line between the two states.

Fredrick has all the appearances of a boom town. The appearance is being so fully noticeable at night. Pictures shows and hotel lobbies are crowded and many persons are turned out on the sidewalks. The rooming houses every night, because of the crowded condition.

OMSK, via Vladivostok.—The Pol-

OMSK, via Vladivostok.—The Polish professor, A. A. Ossendofsky, chief of the intelligence reports of the All Russian Government estimates that the world war, bolshevism, civil war, starvation and disease has cost Russia a total of 35,000,000 lives. He places the cost of bolshevism at 22,250,000 lives. Professor Ossendofsky says that formerly the Russian population increased at the rate of four persons a minute. Today it is decreasing at the rate of twelve to thirteen a minute.

LONDON—British officers com-

LONDON.—British officers commanding troops which have since been withdrawn from the Archangel area, told from Moscow that the Russian artillery fire from annihilating by Russian mutineers at Tulgus shortly before they left Russia. The story has just been told by a special correspondent who was with the British forces in North Russia.

Some of the British were in a hut when they were fired upon by one of the Russian machine gunners. The way. The Russian missed and was shot down, his failure revealing plans for a general massacre. All the witnesses except one were killed. The Russian artillerymen were stationed near the British. The British had been cut and the mutineers were preparing to turn machine guns upon the British when the troops were alerted. The machine gunners immediately the loyal Russians began to drop 4.5 shells among the mutineers.

RAILROAD BILLS NOT FAMILIAR TO THE PEOPLE

Failure of Passage Will Give
Opportunity to Study Their
Provisions

TEXAS CONGRESSMEN MAKE
FIGHT ON ESCH MEASURE

Charge That Both Bills Make of
State Commissions Nice Little
Sewing Circle

WASHINGTON, Nov. 22.—Perhaps it is well for the people of Texas that all legislation looking to the future control and regulation of the railway lines of the country was delayed by Congress until the warning days of the extra session made it certain that final action on this most important piece of business cannot be taken until the December session. The great debate in the House on the Esch bill has brought to light so much that is of vital interest to Texas in the country's transportation problem that the shippers and the public generally are now in a position to let Congress know what they think about the whole business.

Working in committee with a mass of dry figures linked together with technical terms and little understood phrases, the House committee on Interstate and Foreign Commerce aroused but little general interest in the railroad bill. It was seeking to frame Owners of railroad securities, railroad presidents and a few of the big shippers appeared before the committee but Jones, who is reputed to pay the freight, did not get an inning. If Jones is to have his turn at bat, he will have to take it now and in a hurry, else his side will be out. There are more of the Joneses in Texas than most any state of the Union. Neither the House nor the Senate bill takes any particular care of the Jones family. It is going to be up to Jones and if he remains quiet for the next few weeks, he will have to take the umpire's decision—three strikes and out—with no chance for an appeal.

Loss of Sight of Bill. It is pointed out that the country has had so many things on its mind for the past few months, that it lost sight of the railroad bills pending before Congress. Way the L. W. Jones, who is reputed to pay the freight, did not get an inning. If Jones is to have his turn at bat, he will have to take it now and in a hurry, else his side will be out. There are more of the Joneses in Texas than most any state of the Union. Neither the House nor the Senate bill takes any particular care of the Jones family. It is going to be up to Jones and if he remains quiet for the next few weeks, he will have to take the umpire's decision—three strikes and out—with no chance for an appeal.
