Cholera Confirmed

Quarantine For County's Swine?

A herd of hogs was depopulated Wednesday after one case of cholera in the herd was confirmed.

The herd that was disposed of was that of Frank Rose, who farms south of Loraine city limits.

County Agent Bobby Lemons said some sort of quarantine will be placed on hogs. However he did not know if the quarantine will be area wide or will be for the entire county.

A quarantine restricts movement of swine in order to prevent spread of the disease.

Rose purchased a sow in La-mesa several weeks ago that is believed to have been the carrier of the disease.

After Rose bought the sow, she had a litter of pigs and they all died. Then Rose put more pigs with the sow and they died.

If a quarantine is imposed on Mitchell County or a part of Mitchell County, it would probably last several months in order to keep the disease in check.

The county has a hog population of about 2,500, few of which are thought to be vaccinated against cholera.

Vaccinating against the disease is not a common practice but many hog raisers probably will have their swine vaccinated since a case of cholera has been reported in the area.

Masonic Installation

Mitchell Lodge #563 AF&AM installed officers during ceremonies Saturday night. Officers of the lodge are, left to right, R. L. Mikle, outgoing worshipful master; S. D. Tarver, incoming worshipful master; Jimmy Harrison, senior deacon; Joe E. Boyd, senior warden; Odis Wise, junior deacon; Howard Hardcastle, junior warden; J. A. Sadler Jr., treasurer; Curtis Thoason, senior steward; C. W. Smith, tiller, and Charles Goodlett, junior steward. Not pictured is Charles Godwin, secretary.

Weekly Fly Drops

Worm Cases Bring Extra Drops

Weekly sterile fly drops--a prescription for "hot spots"--began July the Fourth for Mitchell County as more screwworm cases were confirmed within the county.

The new regular drop was continuing Wednesday, according to County Agent Bobby Lemons.

New screwworm cases in Mitchell were reported at 2 different locations in the Westbrook area.

The severity of the screwworm outbreak in Mitchell County is emphasized by the scheduling of the weekly drops. Already screwworms have been confirmed in every area of the county since the first outbreak last month.

Mitchell is one of at least 10 counties in this West Area added to the "hot spot" list for weekly drops. In this group are Nolan, Scurry, Borden, Jones, Stonewall, Taylor, Haskell and Throckmorton counties.

The drops here and in this area are being carried out from a screwworm control sub-station setting up in Sweetwater.

The sterile flies are being shipped by refrigerated truck from Mission laboratories to Sweetwater. In the weekly drops airplanes will disperse 800 flies per square mile in Mitchell and other "hot spots" counties.

That will amount something like 737,600 flies for Mitchell's 922 square miles.

State control authorities are zeroing on this area in a specific effort to stop the screwworm outbreak from spreading further northward.

Screwworms are firmly entrenched in the brush country and lower hill country of Texas. Moisture and temperature now make conditions favorable in South Texas and here for rapid increase of screwworm populations.

Accident Toll

Local Grandsons Killed

While the state's traffic death toll soared above the predicted high for the 4th of July holiday period, Mitchell County counted only 2 serious mishaps.

Both were highway wrecks Tuesday with one person injured in each.

Rain and wet pavement contributed to be first July 4th accident on Interstate 20 about 50 feet east of Westbrook city limits.

It was about 10 a.m. when Martin Carl Grant, 40, of Elm Springs, Ark., lost control of his freight liner.

Grant, driver for a frozen express firm, was traveling east on wet pavement when at a curve his tractor-trailer slid into the media between west and east traffic lanes, knocking out a section of guard rail and 4 posts.

He received minor injuries.

One person was hurt in a two-car collision at 6:45 p.m. Tuesday at Intersection of State 208 (to Snyder) and Farm Highway 1982.

William Alfred Cupp, 24, of San Angelo was reported by state highway patrol to have

TOWN TALK

By MAC McKINNON

Why should a town want to grow?

Many people moved here because they wanted to get away from the hustle and bustle of the big city.

They wanted to come to a small town where everybody knows each other and cares about his fellow man. They came here to escape the crime and problems of the big city.

It is for these same reasons that the people who were born here wanted to stay here.

So, why should a town want to grow?

Probably the most important reason is so that our children will be able to find jobs here and make a good living and so that they too can enjoy the priviledges of living in a small town.

Almost everyone wants their children to live close by so they'll be able to see them more often as well as to be able to see grandchildren as often as possible.

Keeping our young people here is a problem as it is in any other town the size of Colorado City. All the young people want to be able to be proud of their town and many would like to live and work here after they get out

Telephone Service Disrupted

Lightning apparently scored a direct hit on Southwestern Bell Telephone Co., telephone toll cable four miles east of Colorado City, cutting the telephone link between here and the rest of the world.

Long distance telephone service was restored early Wednesday.

A spokesman for the telephone company said about 400 feet of telephone line was burned by lightning which struck about 9 a.m. Tuesday.

The cable was the line that takes all long distance calls made in Colorado City to the telephone switching office in Sweetwater.

More Loans

Many additional families in Texas are now eligible for rural housing loans from the Farmers Home Administration, FHA State Director J. Lynn Rutch has announced.

"In families where both husband and wife are employed," Futch explained, "the new policy permits half of the wife's gross income to be excluded in

He is also on the rules committee, transportation committee, water and conservation committee and the committee on youth affairs.

Polishing Rah-Rah-Rahs

Colorado City's cheerleaders for the coming school year, left to right, Rhonda Nerger, Helen Haggerton, Patty Whatley, D'Ann Dement and Terri Pawkett, received an excellent rating during cheerleading school last week at Texas Tech. They also won the special "Spirit Stick" award given to the cheerleaders who display the most enthusiasm and who are able to instill the most spirit in the crowd present for the competition.

Braves Suffer Defeat

The Braves lost their first game of the season this last week as they were downed by the White Sox in a 21- game in the junior teenage baseball league.

However, the Braves maintained their league leading standing with 11 victories and only one defeat. With only slightly more than a week left in the season, the Braves have been declared winners.

In second place is the White Sox with an 8 win - 4 loss record.

The Lions this week downed the Colts 9-2 to remain in third place. The Colts are in the league cellar.

CONVERSATION CORNER

NAMES and whether they fit the so-named person have always been an intriguing matter.

Half the fun of expecting a new baby is choosing the right name, especially should the new baby turn out to be a little girl. Discussions and even arguments between expectant parents over the naming would stretch from here to Seattle, Washington, if there were any way to measure them.

Names go in cycles, you know, and right now the world is full of girl children named Kimberly, Stacy, Tracy and the trend currently is the spelling of ending most little girl names with the letter "i" instead of "y" or "ie".

* * *

PREVIOUS and the old-fashioned generations loved naming their female progeny after flowers.

The world used to be filled with girls named Rose, Violet, Pansy, Daisy, Dahlia, Ivy, Fern and so on. But think I never knew a girl named Nasturtium or Chrysanthemum, or Geranium, did you? Have known one or two Petunias, a few Altheas, one Magnolia, one zinnia though she spells it Xenia.

* * *

BIBLICAL names used to, and still are, much in favor for both girls and boys.

We still have Mary, Martha, Ruth, Dorcas, Naomi, Eve. But have yet to meet any girl or woman called BathSheba or Jezebel or Tamar, have you?

On the masculine side we still favor David, Matthew, Mark, Luke, John, Paul, Adam, James, Thomas, Joseph, Daniel and so on and on. But never met a boy or man with the name of Judas.

* * *

STATES are favored by some parents when naming time come. Would you believe my favorite Sunday School teacher was named Missouri? Her big Irish railroad engineer husband always called her Missy.

Lovelier state names stay with us--Virginia, Georgia, Caroline, Texas (usually changed to Texie) but never met a girl called Arizona or Arkansas.

Wasn't it the mother with numerous children in the old childhood book "The Birds Christmas Carol" who named her progeny for whatever town they happened to be born in? Remember best the small girl called Peoria because she was born in Peoria, Illinois. Don't know any girls named Galveston, however, Albuquerque, either.

* * *

JEWELS and precious gems have always had a wealth of namesakes. First, of course, comes the choice of Jewel itself as a name for girls.

Furthermore one of the most adorable little girls in all Texas was named simply Gem. Thought until her mother told me that she was calling her curly-haired and pretty little girl Jim.

Everybody everywhere has a friend names Pearl, Ruby, Opal. Read a novel once wherein the heroine was named Sapphire. Have yet to run across anybody named Diamond.

Knew a boy one time whose first name was Jewell. But when he got to be a judge in Dallas he legally changed his first name. Who could possibly blame him?

* * *

PEOPLE named for historical figures, male and female alike, would fill any convention or concert hall. . .Thomas Jefferson, Benjamin Franklin, Roosevelt, both Theodore and Franklin, Lincoln, Sam Houston, Truman, Grant. . .plus almost every king who ever ruled England.

Girls named Elizabeth or any of its drivities such as Beth, Betty, Betsy, and Liz carry the name of two English queens whether they know it or not. Also girls named Anne. And perhaps Marie (for Antoniette) and, Helen (of Troy).

Nobody ever located is called Napoleon but his Josephine has worlds of namesakes.

It is reasonably certain that none of the American Williams were NOT named after Kaiser Bill.

* * *

FINALLY, there used to be parents who liked naming their daughters for admirable traits.

Think how many you have known named Faith, Hope, Charity, Constance and sometimes Lovey.

Some mothers liked pet names, too, like Kitty or Kitten or maybe Birdie.

* * *

THERE WAS once a beautiful little dark-skinned girl child who had the name Mentholatum tacked on her.

When she grew big enough to go to school and some of the children taunted her by calling her Vaseline and Vicks she cried until her mother let her change her name to Vicky. Am strictly on her side.

DO YOU LIKE your name or had you ever thought about it? Along about the fifth grade decided Ruth was not too satisfactory. Wanted a double name and something much fancier.

So my Mother calmly said I could add any second name I chose. Decided on Ruth Eleanor and kept it clear through high school though it was no more my given name than Arabella.

HAVE ALWAYS held that you like certain names because you like the people who have them.

It would take too much space to list them all but one of the best friends ever had is named Princess.

Have You Ever Asked Yourself?

WHY should you travel extra miles and use up extra hours to shop out of town?

Answer You shouldn't. You can save time, gas and trouble by shopping right here in Colorado City.

HOW can this community grow and prosper unless Colorado City people spend most of their money here at home?

Answer It can't. Dollars spend away are gone forever. Dollars spent here stimulate local trade activity.

WHERE is the money coming from to maintain and improve our schools, civic services, our churches and other community facilities?

Answer Much of it must come from taxes and contributions made by Colorado City business people. Part of every dollar you spend in Colorado City helps build a better community for you.

"Scout Day" Barbecue

There were plenty of helpers for the barbeque lunch held in the Lions Club in Loraine Tuesday. A turnout of between 450 and 500 was estimated. The barbeque was sponsored by the Explorer Scout Troop 124 of Loraine. There are approximately 40 members in the troop. Their advisor is Edgar Haltom.

Excellent Turnout For Scout Barbecue In Spite Of Rain

A Fourth of July rain put a damper on activities scheduled in Loraine for Scout Day.

Events called off were the parade, a greased pig contest, and a baseball game.

Appreciation certificates were awarded at noon by Judge Bill Carter.

Receiving awards were Edgar Haltom, Explorer 124 advisor, for being helpful to the members of the troop; Hubert Mearse, representing the Lions Club, for being the Explorer 124 sponsor; Lee Prescott of Midland, for helping the boys cook the meat; and Bud Hill for helping the troop members roof the old Legion hut.

It was estimated that between 450 and 500 tickets were sold for the barbeque plate lunch during the day. Proceeds from this will go to the troop fund.

Ladies who helped the members in serving the meal were Mmes. Edgar Haltom, Wayne Oliver, and Lee Prescott.

Prescott and the boys of the troop stayed awake Monday night preparing the food for the next day's meal.

been traveling north on State 208 in a 1972 model 2-door sedan and attempting a left turn at the intersection.

Carl Everett Morris, 29, of Snyder, was driver of a 4-door sedan that was also traveling north on State 208 and attempting to pass the other vehicle.

Cupp received a head cut. Five other persons, passengers in the 2 cars, were not hurt.

Traffic accidents within the city limits were few and minor during the entire weekend and holiday period, Police Chief Jesse Browning reported.

Most complaints to police concerned the shooting of fireworks within the city.

However, the heavy Texas traffic toll did reach into Colorado City.

Deputy Sheriff's Bill Mc Guire and Simon Barrera went to the home of William (Willie) Renfro, Colorado City farm employee, to notify him that his grandson was one of the victims in the nation's worst July 4th auto wreck that killed 9 persons near Abilene.

Curtis Lee Renfro, 18, son of William Renfro Jr., Fort Worth, was killed instantly in the 2 car collision.

Another grandson, Michael Renfro, brother of Curtis, was fatally injured and died Wednesday morning at 9:30 o'clock in Abilene's Hendrick Memorial Hospital.

Survivors, in addition to the Colorado City family, include the mother of the 2 brothers, Mrs. Jewel C. Telford of Abilene, and a third brother, Jerry, also of Abilene.

Killed in the Abilene accident --which had the highest death toll of any holiday wreck within the nation--were the 2 Renfro brothers and Herman Suiters, 16; Brenda Joy Walker, 15; Deborah Bell, 13, and Kathy Livingston, 16, all of Abilene and all riding in the same car; and Mrs. Newt A. Sherman and her daughter, Linda, 18, and son, Jeff, 13, also of Abilene.

of high school and college.

However, too, often, they cannot find suitable jobs.

And, then, there is the time proven fact that nothing can stand still: a business, a town, anything is either getting better or worse, growing or deterioating.

Nothing stand still for very long.

If a town is on the road down, so are property values. And that affects everyone who owns any property anywhere in this area.

If a town is on the way up, property values also will climb.

For a town on the way up, new industry and businesses, will come in, more jobs will become available and the town will have more to offer propsective residents.

With a town on the grow, governing bodies have a growing tax base and can offer more and better services.

Our town can grow without losing the quality of life that is already here and growth would seem to be much better for everyone than a further loss of population.

I once heard a Chamber of Commerce banquet speaker tell a crowd, "If your town is not everything you want it to be, WHY don't you get off your complacency and work to make it what it should be?"

That particular town took the speaker's advice and great things have happened since.

Shouldn't we do the same?

determining whether the total family income is within the maximum limit for long eligibility."

James V. Smith, National Administrator of Farmers Home Administration emphasized that newly - eligible families must demonstrate that they otherwise merit FHA financing, and that credit is not available from regular commercial sources.

"The new policy will assist families in which the wife's income is needed to improve the standard of living. Note that if the wife is the principal breadwinner, the rule does not apply. This change will in no way affect our expanding service to low - income families," Mr. Smith said.
