THIRTY-EIGHTH WEEK

Father and daughter divide honors in the 21st annual Sonora Wool and Mohair Show held here last week. Elsie Earwood, left, exhibited the Grand Champion Bag of Wool at the show while her father, Armer Earwood, right, showed the Grand Champion Fleece. Last year, the roles were reversed. Elsie exhibits in the adult division of the show, competing with her father and with her grandfather, Fred T. Earwood.

Rains Up To 3 Inches Cover County Early This Week

By E. B. Keng

Life-giving rains continued to favor Sonora rangeland during the past week. Light showers and sible rains fell in south and east portions of the area Saturday, and most of the county received rain early Sunday morning.

Heavy winds pelted Sonora and most of Sutton County late Monday afternoon, accompanied by light but torrential rain. Wind damaged many shade trees in the city, but other property damage was light.

Dry Devil's River and Lowrey Draw had small flows following the Monday afternoon rainfall. The runoff producing showers were spotted over the watersheds and no major rises occurred.

Grass responded rapidly to the heavy June moisture and is expected to cover many of the drought induced bare areas. Young grass seedlings, germinated by the heavy rains and showers, are abundant on most ranges. A check of root plowed and seeded areas indicates a good stand of grass seedlings emerging.

The heavy weed cover acted as an excellent sponge or blotter in holding and soaking rainfall into the soil. Draws that ran bank full from two inch rains one year ago only trickled from the current four inch rains. With the rangeland soaked to near capacity, however, the stage is set for a major flood should a torrential 5 to 15 inch rain occur.

Moisture penetration checks show moisture from 8 to over 36 inches deep, depending primarily on the amount of plant cover present. Bare, deep soil areas tested showed moisture only 8 inches deep, while similar areas covered by good grass or heavy weeds were wet to 36 inches where 6 to 8 inches of rains has fallen.

Rainfall reports for the Saturday and Sunday rains included Billy Galbreath .80; Wool House .77; Thomas Morris 1.25; Paul Turney 1.00; George Brockman 2.00; SCD Trial Area .39; Jack Wardlaw .40; Alice Jones (Home ranch) 1.10; Edwin Sawyer .66; Joe B. Ross 1.30; Harold Friess .95; Tom Davis .55; Fred Earwood 1.05; Byron Newby 3.00; John Cauthorn 1.50; J. B. Merck 1.25; Bill Wade 2.85; R. A. Halbert .71; Mrs. E. E. Sawyer 1.50; Rip Ward .80; J. A. Cauthorn .50.

Representative measurements for the hard blowing rain Monday afternoon included Thelma Espy 1.80; Wool House 1.50; Lawrence Finklea 1.00; E. S. Mayer 1.00; George Brockman .45; Joe Logan .90; Edgar Shurley 1.29; W. B. McMillan (Mann) 1.80; Robert Pfluger .70; Tom Davis 1.20; Ben Cusenberry 2.45; and Billy Galbreath 2.00.

WOOL MARKETING PROBLEMS TALKED AT TS&GRA DEL RIO MEETING

The wool market situation, its causes and results were principle topics of discussion at the June

14 meeting of the Texas Sheep and Goat Raisers Association members and directors in Del Rio.

Raymond Morgan New Owner Of Pearl Distributing

Raymond Morgan has just taken over as general manager and owner of the Pearl Beer Distributing Company of Sonora, according to H. B. O'Brien, vice-president and general sale manager of the Pearl Brewing Company.

Morgan is a native of Sonora and was formerly in the contracting industry before taking over the Pearl distributorship.

After hearing reports on the current status of the National Wool Act now before Congress for extension, members asked Fred T. Earwood, president of the Texas Warehousemen's Association, and Chairman of TS&GRA's wool marketing committee, where wool growers would be without a wool bill.

Earwood described the wool and mohair business as being "in the most confused position" he has seen in his years as a grower and warehouseman.

Before the act, Earwood stated, the price differential between U. S. and Australian wools within a class, was 10c to 12c a pound, Australian fleeces bringing a higher price because of their preparation for market. The differential today is often as much as 40c or more per pound, yet the clean fleeces price on woolen materials is the same now as it was when domestic wools brought \$1.80 a pound.

The closest competitive fiber to wool is dralon which was introduced on the market in 1946. Since that time the price on dralon fiber has remained about the same with very little fluctuation. On the other hand, wool prices have gone up and down.

At the request of Edwin S. Mayer, former TSGRA president, and now candidate for governor, a five man marketing research committee will be appointed to examine present market conditions and investigate the possibility of selling wool to a foreign market.

Mayer suggested that Japan, a big buyer of wool for textiles, might provide a good outlet for domestic wools and offered financial support toward the study of the possibility of selling domestic wools in the foreign market.

Members of the special committee, who have not yet been appointed, will make a preliminary report at the September meeting.

SONORA STUDENTS ATTEND SAN MARCOS SUMMER TERM

Jenneil Mayhew Bride Of Hugh D. Russell In Church Rites Here Tuesday, June 17

Miss Jennell Mayhew, daughter of Mr. and Mrs. F. M. Mayhew of Sonora, became the bride of Hugh Dorsett Russell, son of

Mrs. George Russell and the late Mr. Russell of Ozona, Tuesday, June 17, with the Rev. J. E. Eldridge performing the ceremony. The wedding took place in the First Baptist Church before an altar flanked on either side by large white baskets of blue carnations and white gladioli.

Given in marriage by her father, the bride wore a waltz-length gown of antique satin topped with a short bolero. Her head dress, which held a shoulder-length veil, was trimmed with seed pearls. She carried a white Bible topped with a gardenia and Stephanotis shower.

Miss Addah Wardlaw, maid of honor and cousin of the bridegroom wore a waltz-length gown of blue taffeta and a head band of blue carnation. Bob McCombe of Ozona was best man and Freddie Fields and John Ed Neville were ushers. Miss Barbara Wilson presented organ music and accompanied Miss Yvonne Davis, soloist.

Following the ceremony a reception was held in the recreation room of the church. Miss Wardlaw registered guests. Mrs. Joe Graves and Mrs. Milton Jones served from a table centered with an arrangement of blue carnations.

Mrs. Russell is a 1958 graduate of Sonora High School. Her husband is a 1955 graduate of Ozona High School and attended San Angelo College.

The couple will make their

home in Ozona after a wedding trip to Colorado Springs, Colorado.

Out-of-town guests who attended the wedding included Mrs. Joe Graves and Judy of Balinger; Mrs. Milton Jones, Linda, Donald and Jo Nell of Rising Star; Mrs. Lloyd Coates and Cheri of Hugo, Colorado; Mrs. Birdie Rutledge of Ozona and Mrs. Bill Stallworth of Maracaibo, Venezuela.

YOUR MINISTER SAYS

By W. L. Brown

"PITY THE PREACHER"

Have we ever considered the life of a Preacher? What he does, what is expected of him? Most of all, do we know his responsibilities and what God requires of him? A Texas paper comments as follows:

"The preacher has a great time. If his hair is gray, he is old. If he is a young man, he hasn't had experience. If he has 10 children, he has too many; if he has none, he isn't setting a good example.

"If his wife sings in the choir,

she is presuming; if she doesn't, she isn't interested in her husband's work. If a preacher reads from his notes, he is a bore; if he speaks extemporaneously, he isn't deep enough.

"If he stays at home in his study, he doesn't mix enough with the people; if he is seen around on the streets, he ought to be at home getting up a good sermon.

"If he calls on some poor family, he is playing to the grandstand; if he calls at the home of the wealthy, he is an aristocrat. Whatever he does, someone could have told him to do better."

Details Of Wool Incentive Program Explained By U. S. Dept. Of Agriculture

Deductions of one cent per pound from shorn wool payments, and five cents per 100 pounds of liveweight from lamb payments will be made for the advertising promotion and related market development activities on wool and lamb. This self-help promotion program (under Section 708 of the National Wool Act of 1954)

is carried on by the American Sheep Producers Council, Inc., which was established for that purpose. The deductions from the payments to finance the program were approved by producers in a referendum in 1955.

The shorn wool payment rate was determined on the basis of the difference between the average price received by producers for shorn wool during the 1957 marketing year was 53.7 cents per pound as determined by the Agricultural Marketing Service on the basis of prices reported by producers in their applications for payment. The wool incentive rate of 15.5 percent is the amount needed to bring the average return for wool up to the incentive level of 62 cents. To determine the wool incentive payment for individual producers, the rate of 15.5 percent is applied to the dollar return each producer received for wool after paying marketing charges.

This method of payment is designed to encourage producers to do a good job of marketing their wool. While market prices differ greatly for the wide range of grade and classes of wool produced, each individual grower should market to get the best possible price for his quality wool.

Producers who sold their wool below the year's national average price will get less than the 62-cent incentive level. For example, a grower who sold his wool for 40 cents per pound which is below the year's national average price of 53.7 cents per pound

will receive a payment of 6.2 cents per pound, based on the 15.5 percent payment rate for 1957 marketings. This will give him a total return of 46.2 cents per pound.

A grower who sold his wool for 50 cents per pound will receive a payment of 9.3 cents per pound, giving him a total return of 59.3 cents per pound for his wool.

The lamb payment rate of 33 cents per hundred weight is determined as for past years on the basis of the average weight of wool per 100 pounds of lambs, the value of lamb wool in relation to shorn wool, and the average shorn wool incentive payment per pound. The average weight of lamb wool per 100 pounds of lamb is assumed to be five pounds for payment purposes. Because lamb wool is generally coarser in grade and shorter in staple length, the lamb wool value for payment purposes has been set at 80 percent of shorn wool value. The lamb payment of 33 cents per hundredweight of live animal is five (the average weight of wool in pounds per 100 pounds of lamb) times 6.6 cents which is 80 percent of the difference (8.3 cents) between the average price received by producers for shorn wool and the incentive price.

Substantially the same program as for 1957 is being continued for the 1958 marketing year which began April 1. The wool incentive price is being continued at 62 cents per pound grease basis. The payment rates for the 1958 marketing year will be determined in mid-1959 when the average price for 1958 wool marketings become known. The wool and unshorn lambs must be marketed between April 1, 1958, and March 31, 1959 to be eligible for payments under the 1958 program. Each producer who owns lambs for 30 days or more and

sells them unshorn is eligible for a payment. Producers or feeders who buy unshorn lambs and later sell them unshorn or shear them and sell the wool will have their payments adjusted downward by the amount of payment due on the weight of unshorn lambs purchased. Under this method, original producers and later breeder or feeder owners share in the lamb payment.

Applications for payments on either wool or lambs sold in the 1958 marketing year should be filed with County ASC offices not later than April 30, 1958.

To date, payments under the first two years of the wool incentive program total \$109,466,876. Of this total \$93,972,268 was paid on shorn wool and \$15,494,608 on lambs. From these amounts, \$6,111,535 was deducted for advertising and sales promotion of lamb and wool as authorized under Section 708 of National Wool Act of 1954.

Payment rates for the first year of the program, the 1955 marketing year, were 44.9 percent for shorn wool and 77 cents per hundredweight on lambs. Payments during the first year of operation totaled \$57,615,180 of which \$50,002,704 were on shorn wool and \$7,602,476 on lambs.

Payment rates during the second year's operation, the 1956 marketing year, were 40 percent for shorn wool and 71 cents per hundredweight for lambs. Payments totaled \$51,851,696 of which \$43,959,564 were on shorn wool and \$7,892,132 on lambs.

Under the National Wool Act of 1954, the wool incentive program is authorized to run four years, from the 1955 marketing year through the 1958 marketing year which ends March 31, 1959. The Act directs the Secretary of Agriculture to support the price of shorn wool at an incentive level he find necessary to encourage an annual production of the 300 million pounds. The Act sets the top incentive level at 110 percent of parity and limits the cumulative payments under the program to an amount equal to 70 percent of the specific duties collected on imports of wool and wool manufactures beginning Jan. 1, 1958.

For the 1955 marketing year,

A. Z. Joy of Salt Lake City, Utah, is in Sonora this week the guest of his parents, Mr. and Mrs. Artie Joy.

Mr. and Mrs. Jim Luckie attended a family reunion while visiting friends and relatives in Marble Falls last weekend.

Mrs. Thelma Espy accompanied her granddaughter, Allison Espy, to her home in Abilene Sunday.

the 62-cent per pound incentive level reflected 106 percent of the September 1954 parity, when the level was set. This 62-cent level has been continued for the three succeeding years of the program and was 106 percent of parity for the 1956 marketing year, 101 percent of parity for the 1957 marketing year, and 95 percent of parity for the 1958 marketing year.

When it comes to driving...

Economy is what you save—not what you do without

That's why Ford economy is true economy! The facts are plain. With the 58 FORD:

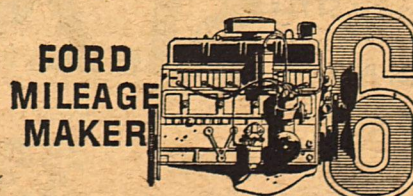

1. You don't have to do without modern styling to own a car within your budget

World-famed Thunderbird styling, a Ford exclusive, gives luxurious beauty to every 58 Ford. Yet Ford has the lowest-priced* convertible... and the lowest-priced* V-8 sedans and station wagons on the market today! You'll drive these beautiful cars with pride!

2. You don't have to do without big-car comfort to obtain a low price

Every Ford car has Automatic Ride Control... Angle-Poised Ball-Joint Front Suspension combined with long, tailored-to-weight rear springs... for a real luxury ride. For still greater comfort, front seats are foam rubber padded in every Ford model at no extra cost!

3. You don't have to do without lively performance to save on gas

The liveliest, most powerful Six you can buy is Ford's Mileage Maker Six. It's the only truly modern Six in any car today. With its exclusive short-stroke, low-friction design, this engine delivered the most actual miles per gallon of any car in Class A in the last two Mobilgas Economy Runs! Six or V-8 the savings are great in a Ford!

Are We Counting on the Other Fellow to Take Care of Our Future...

when he may not be working at the job

This is a good way to arrange for an unsatisfactory future . . . physical or economic.

For instance . . . some of us depend on our good neighbors to spend THEIR money in the home community to keep it going so we can make a living in it . . . while we do OUR buying somewhere else.

But . . . sort of like when a couple of fellows in a car each thinks the other one is driving . . . the habit of "Letting George Do It" can darken the future if George happens to be letting YOU do it.

And, anyhow, even if we DO have lots of good neighbors trading at home to support US, and

our schools and churches and other community activities . . . THINK how much BETTER all of these would be supported if ALL OF US were buying everything we could at home.

Trading with home merchants is just good practical business sense anyhow . . . because we automatically get more for our money from them than out-of-town stores can give us . . . the EXTRA PREMIUM of community prosperity that only home business establishments can throw in for free with the goods we buy.

1957 Incentive Payments Set At 15.5 Percent

The United States Department of Agriculture announced Friday June 20, that shorn wool payments for the 1957 marketing year under the wool incentive program will amount to 15.5 percent of the dollar returns each producer received from the sale of shorn wool during the 1957 marketing year. This will result in an incentive payment to producers of \$15.50 for every \$100 received from the sale of shorn wool.

The USDA also announced that the payment rate on sales of unshorn lambs to compensate for the wool on them will be 33 cents per hundredweight of live animals sold. This payment is designed to discourage unusual shearing of lambs before marketing.

Edwards County Reunion Slated July 4 Weekend

Rocksprings will have four western rodeos, four barbecues, three dances, and the Edwards County Old Settlers Reunion the weekend of July 3, 4, and 5.

The Legion's ninth annual rodeo will have its first performance Thursday night, July 3, with two performances Friday, July 4, and one Saturday night, July 5. A barbecue will be served before each rodeo.

The first event will be the reception for the old settlers and ex-students at the Park Building July 3 beginning at two o'clock. Mrs. J. C. Clark will be crowned queen of the old settlers at seven o'clock that evening in the rodeo arena. Miss Louise Whittle, 1958 rodeo queen, will be crowned at the July 4 matinee performance.

Robert Brown spent last weekend in Rocksprings the guest of Lindsey Davis.

Because the average mohair price of 88.6 cents per pound received by producers was above the mohair support price of 70 cents per pound, no payments will be made on mohair sold during the 1957 marketing year.

County Agricultural Stabilization and Conservation (ASC) offices will begin making payments soon after July 1. Applications for payment were filed with these offices by April 30. The payments will be made only on shorn wool and lambs marketed between April 1, 1957, and March 31, 1958. To be eligible for payments, the lambs must never have been shorn.

Further details of the incentive program will be found elsewhere in this issue.

\$10,000 Grant Goes To Dr. Thiers For Coastal Study

Dr. Harry D. Thiers, associate professor in the biology department, A. & M. College, and the son of Mr. and Mrs. Harry Thiers of Roosevelt, has been named the recipient of a \$10,000 grant from the National Science Foundation.

The grant will be administered by the Texas A. & M. Research Foundation over a period of three years for an intensive study of mushroom flora in the Gulf Coastal Plain area from Texas to Florida.

Dr. Thiers will collect material in Alabama, Mississippi, Louisiana and the eastern part of Texas during a two-month period for three summers. On his return to A. & M. College after each summer, he will identify and classify the mushrooms, particularly those belonging to the family Boletaceae.

Dr. Thiers received his BA and MA degrees from the University of Texas in 1941 and 1947 and his Ph.D. degree from the University of Michigan in 1956. He joined the A. & M. College staff in 1947. In 1948 and 1949 he was employed by the U. S. Department of Agriculture and worked on bacterial blight of cotton.

A nephew of Mrs. Laura Odum and Mrs. Bailey Renfro of Sonora, Dr. Thiers attended High School in Junction and graduated there in 1936.
