Veteran Plane Misses Course By 150 Miles

Trans-Atlantic Ship Columbia Not Damaged in Forced Landing in Scilly Islands Off Coast of England

To Continue Today

Motor Trouble Is Blamed for Failure of Two Airmen to Reach Croydon Airdrome; 24 Hours in Air

(By The Associated Press)
CROYDON, Eng., Oct. 10.—More than 150 miles off their course, Captain J. Errol Boyd and Lieutenant Harry P. Conner safely brought down the veteran trans-Atlantic monoplane Columbia soon after 8 p. m. (moon E. S. T.) today in the Scilly Isles, ending a flight of a little more than 4 hours from Newfoundland.

It was the veteran Columbia's second trans-Atlantic hop. The airmen telegraphed to London from Treason, one of the island group off Land's End, of southwestern England, that they hoped to get away early tomorrow for Croydon airdrome, their destination.

Plane Undamaged
Their message, sent to Charles A. Levine, who flew the Atlantic with Clarence Chamberlin in the Columbia in 1927, stated that the monoplane was undamaged.

Word of the Columbia's landing reached officials at the airdrome here from the coast guard station on St. Mary's Island, close to Treason. The message said motor trouble

Two Die When Plane Crashes

Ship Nose Dives from Hundred Feet to Carry Passenger and Pilot to Death in Iowa; Father of Victim Witness

(By The Associated Press)
NEVADA, Iowa, Oct. 10.—Earl Gray, 35, of Fairmont, Minn., and Roy Pond, 21, of Nevada, were killed in an airplane accident near here late today. The plane nose dived from 100 feet.

Pond was at the stick of the plane which was taking off for a flight to Fairmont. He lived a short while but died before reaching the sanitarium here. Gray was killed instantly.

Pond's father and an automobile salesman were watching the take-off. The plane crashed in a stubble field.

Edward Doheny Named In Sensational Plot For Defrauding Stockholders

(By The Associated Press)
LOS ANGELES, Oct. 10.—Sensational allegations of a plot between Edward L. Doheny, multi-millionaire oil operator and the Richfield Oil Co., a major gasoline producer of the Pacific coast, to defraud certain stockholders of the Pan-American Western Petroleum company were made today by John C. Blythe of St. Louis, in filing suit in federal court demanding an accounting.

Blythe charged Doheny, anticipating a victory for the government in an oil lease cancelling suit affecting the Pan-American company and under consideration in the federal court here, sold a controlling interest in the company to Richfield for "a wholly inadequate and unconscionable sum."

Made co-defendants with Doheny and the Richfield company in the suit are the Petroleum Securities Co., the Pan-American Western Petroleum Co., J. C. Anderson, Fred Ritter, C. W. Smith and R. M. Sando.

Blythe, who represents himself as appearing for all class B stock-

Stock Broker Slain by Man Who Suicides

Former Customer of Brokerage Firm Kills Member of Prominent Family Before Taking Own Life at Philadelphia

(By The Associated Press)
PHILADELPHIA, Oct. 10.—Edwin W. Sprinkle, member of a socially prominent suburban family and a confidential clerk of Carstairs & Co., stock brokers, was shot to death today at the company's offices by a former customer who then shot himself, dying later in a hospital.

Sprinkle, who was 32, was shot three times while he talked with the former customer, Adam Jakus, a barber of Oakview, a suburb. The shooting occurred on the ground floor of the stock exchange building and caused some alarm there.

No Motive Given
James B. Carstairs, senior member of the brokerage firm, said Jakus had closed out his account on September 18, and received a check for his balance. Carstairs said he was not known to have had further dealings with the company and could offer no motive for the shooting.

Police said Jakus recently had taken a friend to the company's office and the friend had lost heavily in the stock market slump. They indicated the shooting might have resulted from an argument over the friend's account.

Two Mexican Boys Are Injured Here

Two Mexican youths were injured Friday morning when a light automobile in which they were riding upset as a corner was being turned in "Little Juarez," Mexican quarters here.

Abel Bustillo, 19, suffered a fractured right hip. After being placed in a cast by a physician at West Texas hospital, Bustillo was taken to his home.

Julian Lasana, also 19, received minor body bruises, small cuts about the mouth and minor abrasions on the chest. He underwent emergency treatment in "Little Juarez" and was not taken to a hospital.

CONTEST POSTPONED

Lubbock Woman to Sing Over Radio Next Monday

Mrs. Y. W. Rogers of Lubbock and other women entrants in the state Atwater-Kent radio voice contest which will be broadcast from Dallas, will not sing until Monday night, beginning about 11 o'clock. Instead of tonight, it has been learned here.

Young men competing in the Atwater-Kent broadcasts will go on the air at 10:45 tonight.

Mrs. Rogers, the wife of Dr. Y. W. Rogers, dentist attached to the Lubbock Sanitarium clinic.

REPRESENTATIVE CURRY DIES
WASHINGTON, Oct. 10. (AP)—Representative Curry of California died tonight after several months' illness.

Reorganization Of Agriculture Aim of Confabs

Meetings to Be Held Throughout South Under Auspices of Federal Farm Board and Department of Agriculture

Cheapest Product

Decline in Price of Cotton Greater than Other Commodities According to Carl Williams of Farm Board

(By The Associated Press)
WASHINGTON, Oct. 10.—A permanent readjustment of southern agriculture for the best utilization of land was described today by Carl Williams, cotton member of the Farm Board, as the purpose of the meetings to be held throughout the south under the auspices of the Farm Board and the Department of Agriculture.

The three questions to think about, Williams said, are how to lower the cost of producing cotton, how to improve its quality, and how to increase the cotton farmers' income from other sources.

Must Restore Fertility
Soil fertility must be restored and maintained and farming reorganized in such a way that changes in the price of cotton will not hereafter alternately make and break the south," he said.

Compared with a year ago, Williams added, the price of cotton is down 42 per cent, while iron and steel are down 14 per cent and sugar is 18 per cent. It is now, he said, the cheapest raw product produced by the American people.

"This means that the farmers who grow cotton are in trouble. They cannot sell their product for anywhere near the cost of production," Williams said.

"When any city industry gets in that fix it does two things; first, it tries to increase consumption; second, it tries to decrease production until consumption catches up and

Hoover's Law Enforcement Commission Prepared to Go to Bottom of Prohibition Question; Solution Sought

(By The Associated Press)
WASHINGTON, Oct. 10.—Prepared to go "to the bottom" of the prohibition question, President Hoover's law enforcement commission today learned a formula for solving this troublesome problem.

This formula, still subject to future discussion, provides that the ten men and women of the commission first determine whether the dry law is being enforced, and if it is not, whether it can be perfected to make it enforceable.

Next Step Mapped
Should the commission reach the conclusion that prohibition cannot be enforced, the next step would be a decision whether it shall recommend for modification or repeal.

There is no unanimity among the eleven minds on all details of such a program, particularly over the latter part of it, but as the commissioners went home over the week end to study further the voluminous reports on prohibition there appeared to be signs that this plan was gaining favor.

During the hours of discussion over procedure there has been no division of the commission whatever on the merits of prohibition and little time has been spent in an actual discussion of the wisdom or unwisdom of the dry law.

TRIP IS POSTPONED

Tech Geology Students Fail to Go to Carlsbad

A proposed trip of geology students at Texas Technological college to Carlsbad cavern, which was scheduled for Friday, has been postponed indefinitely.

Dr. L. T. Patton, head of the geology department, said Friday night.

Plans for the trip called for transportation of camping supplies, as well as members of the party, in a geology department bus. No such trip has been made yet this school year.

Scenes From Revolution-Torn Brazil

The metropolis of Sao Paulo is the main objective of revolutionary forces that began an advance northward from Rio Grande do Sul, Brazil. The upper photo shows one of the beautiful parks in the heart of Sao Paulo where federal troops are awaiting the rebels' approach. Pictured below are some of the trained troops of Rio Grande do Sul who are in revolt against the Brazilian government.

Perry Sought As Slayer; Fifth Living Wife Found

(By The Associated Press)
BLYTHEVILLE, Ark., Oct. 10. (AP)—Police who had wired they were close to the elusive George "Jiggs" Perry, sought by Wisconsin authorities as the slayer of one woman and as the bigamous gain of several other living ones, announced tonight that Perry apparently had fled elsewhere.

Chief of Police M. G. Goodwin said a search of trains, buses and places where Perry was known when he was here in recent months had failed and that the bigamist and alleged wife-slayer apparently still had not heard of the search here or had not intended to return.

Officers said Miss Dorothy Davis, 21, Blytheville widow's daughter who knew Perry here, received a letter in which Perry promised to visit her today. Mrs. Clyde Davis, the girl's mother, said she knew nothing of the letter and understood Perry had gone to Chicago from St. Louis where police hunted and failed to find him yesterday.

The search turned to Blytheville when officers discovered the automobile of Mrs. Cora Belle Hackett, whose body was found on a government Indian reservation in Wisconsin. She had been shot to death, and a Wisconsin murder warrant charged Perry killed her soon after "marrying" her last June. Perry had stored the automobile here as security for a loan.

Goodwin said Milwaukee police informed him by long distance telephone tonight that five living "wives" of Perry had been found. Their addresses and names were not given.

Fifth Marriage of Perry Is Alleged

(By The Associated Press)
CHICAGO, Oct. 10. (AP)—Chief of Detectives John Norton tonight disclosed that he had information purporting that George W. E. (Jiggs) Perry wanted on a murder charge, had married a fifth woman, Lydia Downey, in Eldorado, Ill., August 18.

Norton said he received the information from Assistant State's Attorney D. F. Ramsey, of Harrisburg, Ill.

The fifth "wife," Norton said, told Harrisburg authorities Perry had left for a week after the marriage, saying he was going to Hot Springs, Arkansas, and that he would return soon to take her to California to visit on "sabbath" when

"I don't think," said the court, "being a prohibition agent is a very lovely or satisfactory or agreeable job. The miserable process of going around drinking and under alias and it seems they have to do it on a man's moral fiber."

Revolution Is Developed in Southern Zone

Rebels Suffer 16 Casualties but Capture Part of Town and Number of Federals in Skirmish at Joinville

Major Fight Looms

Insurgents Gathering Army of 40,000 for Attack of Metropolis of Sao Paulo in Parana; Victories Claimed

(By The Associated Press)
THE military campaign in Brazil's civil war has developed rapidly in the southern zone. Federals and insurgents fought at Joinville, Santa Catharina, and the insurgents, while admitting 16

casualties, claimed capture of part of the town and surrender of some of the federals.

Engagement Impending
A major engagement with the metropolis of Sao Paulo at state, has been impending more than 72 hours in the state of Parana. The insurgents are gathering an army of 40,000 men on the frontier of Sao Paulo state.

The federals claim important victories in Minas Geraes. Capture of the strategic railway town of Barbacena, was reported.

On the other hand, federal sources in Sao Paulo said federal police had been beaten off in an attack against the nearby railway town of Juiz de Fora.

The insurgents, apparently, are attempting to reach Rio de Janeiro

See REVOLUTION, Page 11

Tahoka Man Given Ten Years in Pen

(By The Associated Press)
TAHOKA, Oct. 10. (Special)—Dick Fitzgerald, charged with burglary of the local Santa Fe station October 27, 1927, was given ten years in the state penitentiary by a jury in district court here today.

Motion was filed for a new trial by Culwell and Culwell, attorneys for the defendant, but another hearing was refused by Judge Gordon B. McGuire. Notice of appeal has been filed and an appeal bond of \$7,500 set by the court.

The Fitzgerald case is of more than local importance and likely will affect many cases in Texas in future years because of the fact that a test will be afforded to see if a convict is legally a competent witness. District Attorney T. L. Price says. The point likely will be fought out before the court of criminal appeals and all future cases applied to the ruling.

Vernon Churchill, the principal witness for the prosecution, has served a term in the penitentiary. Later, he received another sentence, escaped from the pen, was captured and is awaiting return to the institution.

The Woman's Angle

BY BLANCH E. BEAN
Avalanche Woman's Editor

BUSINESS women of the world continue to expand in their contacts. Recently an International Federation of Business and Professional Women was formed at a conference in Geneva, and Miss Lena Madelin Phillips, New York City, whose name is familiar to practically every business woman in the United States, was elected president.

This federation is to be more than a fellowship society among the business women. Among the concrete aims which probably will be ultimately realized are a research bureau on both sides of the Atlantic to investigate the problems of business women; a survey of all existing organizations which accept business and professional women into membership; the development of a merchandising service which will help American women to find European markets and European women to find American markets.

Miss Phillips does not expect all these things to be done at once. For one thing, there must be more organizations. There are national organizations in France, Austria, Italy, Canada and the United States. There probably will be national societies soon in Great Britain, Norway, Sweden, Finland, Hungary, Poland and Germany, Miss Phillips believes.

Business women of the world are not discovering the possibilities of federation. No one can say where such an international organization will lead.

IT'S ANOTHER LUBBOCK RETURNING to Lubbock this week after an absence of 13 years, Mrs. E. B. Covington is having some difficulty realizing that this city is the little wind-swept community which she knew almost two decades ago.

The Covingtons were early residents in Lubbock and Crosby counties and have a wide acquaintance among the old timers. Before his death last summer, Mr. Covington made semi-annual trips here and this fall Mrs. Covington has come for the first time since she moved to California with her family 13 years ago.

"I drove around over the city this afternoon," Mrs. Covington related the other evening, "and there were few landmarks that I could recognize. I drove by the place where we lived. It was then on the outskirts of the city. Now it is in the center of the city. The Covington residence stood near the corner of what is now 16th street and Avenue N."

When the census was taken early this year and we thought of the Lubbock of ten years ago, most of us were startled at the growth. There must be an enormous change for one who has been away 13 years!

SHOULD BE INTERESTING THE Association of Women's colleges has undertaken a study of the women's colleges of the South, which the association hopes will be of great value in directing these institutions in their future development. Two methods of study are being undertaken. The first is a careful appraisal of the curricula of these institutions as they are set forth in their annual catalogues. The second is a study of the activities of the graduates.

This survey should bring to light some interesting data if the questions are conscientiously answered. Motives in entering college are sought, along with a history of one's college life and activities since leaving college. Favorite amusements are sought along with a list of magazines and books which the graduates read and their interest in politics, religion and activities of an avocational nature.

These surveys have one result that I am sure the investigators did not consider when they sent them out. They will make some of us resolve to do a few more worthwhile things in order that our answers will make a better showing in the next survey. I wonder if I have three really worthwhile books since I left college, for instance; and if I'm still practicing any of the good habits that the surveys assume that I formed while in college, such as thoroughness, dependability, reflective thinking, open mindedness, intellectual honesty, energetic application.

FOR THE GEOGRAPHERS DID you know that there is a society for women geographers and that the roster is made up of a list of eminent women who have done to the four corners of the earth, penetrating the most remote regions.

Eleanor Holgate Lattimore, alone, gave for her native expedition, traveled for 40 days by rail and sleigh while going from Siberia to Chinese Turkestan. Annie S. Peck, famous mountain climber, has recently ascended 18,000 feet in an airplane while flying across the Andes; Caroline Lytjager penetrated regions of East Java where no white woman had ever been; recently, Gloria E. Hollister, while with the Bernice Goodrich expedition, descended 400 feet in a coal mine where into the depths of the ocean.

These are only a few of the members. Others are going into other places, exploring, studying animals and plants and people and recording the material in books and magazines. About the only place woman hasn't tried to go yet is to the poles.

Bridge-Luncheon Thursday Is Complimentary To Mrs. T. H. Bleecker

Hotel Suite Is Scene for Prettily Appointed Party Given by Two Local Women

Mrs. Walker Stanton and Miss Mary Alyce Stanton Entertain in Honor of Mrs. Bleecker

Mrs. Walker Stanton and Miss Mary Alyce Stanton were hostesses at a bridge-luncheon Thursday afternoon at one o'clock in honor of Mrs. Thomas H. Bleecker, who has recently returned to Lubbock after an absence of several months. The affair was held in the Governor's suite of Hotel Lubbock.

The entertaining rooms were decked with white roses and red carnations, and green candles in Dresden china holders shed a soft light. These holders were later presented to the guests as favors.

The table was centered with a miniature flower garden in which was placed a fish pond, miniature well and tiny Dresden figures.

Following the luncheon which was served in four courses, games of contract bridge were played. Mrs. Bleecker was presented a favor and Miss Snyder, who scored high was favored. Guests were Mesdames Bleecker, Ralph Sherman, Winfield Watkins, Ross McWhorter, H. H. Cobb, Lawrence Bacon, Barney McBride, Misses Kate Boyd, Anne Snyder and Blanche Bradley.

Hallowe'en Is Motif at Party

Mrs. J. B. Morrisette Gives Party for Husband as Birthday Surprise and Forty-two Played

Mrs. J. B. Morrisette entertained Wednesday evening with a surprise birthday party for her husband in their home at 1614 18th street. Forty-two was played during the evening.

Guests included Mr. and Mrs. I. P. Kennedy, Mr. and Mrs. George Brewer, Mr. and Mrs. Rufus Scarborough, Mr. and Mrs. Walker Jackson, R. B. Boyd, Miss Ethel Lawson, Mrs. R. H. McPhail and Miss Zela McRoberts.

The Hallowe'en motif was used in appointments.

Committees Give Reports at Meet

Four committees in the First Methodist Sorority class made reports Thursday evening at an executive board meeting in the home of the president, Mrs. Olive Fiske.

New officers have been recently elected in this class and new committees are beginning to function on class activities. Reports were heard on parent education, evangelism and church loyalty, fellowship and Christian missions Thursday evening.

To Open Road To Lubbock Airport

Decision to open a road on the southern and eastern borders of municipal airport and expectations of beginning grading and construction work in that connection soon were announced Friday morning by city and county officials after the two groups had reached an agreement.

The proposed road will connect with the east and west county roads and with state highway No. 9, which runs north and south.

Property owners of the immediate section presented petitions to both the city and county commissions, asking for the road, which was decided upon after several months' activity on the part of the property owners.

Date for beginning grading and construction has not been determined, officials said, but indicated that the work probably will be started soon.

The rule that makes delicious doughnuts is the rule in

roasting HILLS BROS COFFEE

By cooking doughnuts a few at a time in the hot fat, every one is cooked and browned evenly. By roasting coffee a few pounds at a time instead of in bulk, Hills Bros. roast every berry of their fine blend evenly. No other roasting process can develop the flavor Hills Bros.' continuous process—Controlled Roasting—does.

Fresh from the original roasting pans, freshly ground with the best, look for the Hills Bros. logo on the tin.

Personals

Mrs. Zadie Bogan, 1603 Avenue E, has had as her house guests her mother, Mrs. S. L. Lancaster of Clovis, New Mexico, and her uncle George Womack, and Leslie Womack of Colorado, John Womack and his son, Jack, of Lamesa, has also been visitors here.

Marriage licenses have been issued from the county clerk's office at Clovis, New Mexico, to J. B. Williams of Lubbock and Miss Bessie Day, of Junction City, Kansas, and John S. Wofford and Miss Margaret Dalton, both of this city.

Dan Walter has been chosen as the name for a son born to Mr. and Mrs. Roy Davis in Plainview last Sunday. Mr. Davis is well known in Lubbock. He is a nephew of Mr. and Mrs. Sam T. Davis of this city.

Mrs. Y. W. Rogers, 1919 Broadway, is to sing over station WFAA, Dallas, this evening at 10:15 o'clock as one of the contestants in the national Atwater Kent radio audition which is held annually. Mrs. Rogers won in district contest which was conducted in Amarillo in September. She has a contralto voice.

Mr. and Mrs. Henry Whitlock and son, of Norman, Oklahoma and Mr. and Mrs. T. G. Whitlock, of Lewisville, are guests of Mr. and Mrs. John R. Poppler, 2203 7th street, and Mr. and Mrs. Robert Whitlock of 611 14th street.

Dan Boone, of Wichita Falls, was through Lubbock Thursday enroute to his home from El Paso and stopped for a visit with his parents, Mr. and Mrs. W. T. Boone, 1817 13th street.

Mr. and Mrs. D. I. Skelton, 2301 18th street, are announcing the birth of a daughter yesterday morning at the Mercy hospital in Slaton. The child has been named Ura John Skelton.

Mrs. Traylor Club Hostess

Members and Visitors Spend Afternoon in Sewing and Conversation on Thursday

Members and visitors of La Cienega club met Thursday afternoon with Mrs. C. M. Traylor at 1621 10th street. The time was spent sewing, visiting and conversation. Mesdames Wilfred Bates, C. W. Woods, C. M. Oakley, R. C. Harvey, E. E. Swindell and Gordon Gross.

Members in attendance were Mesdames I. F. Kennedy, George Brewer, Sidney Oglesbee, Herbert Stubbs and J. B. Gailand.

Miss Davidson Is Hostess Thursday

Emphasizing the theme of an old-fashioned quilting party, members of the 18th-A-While club met Thursday evening with Miss Lela Mae Davidson, 1909 17th street, and spent an hour quilting. The hostess served lemonade and gingerbread to further the quilting party motif.

Those who attended were Mesdames Mary Lee Fortenberry, Sallie Ratliff, Sybil Tyson, Gertrude Braden, Eutice McKinley, Mesdames Bill W. Davis and Ira Whitworth.

MUSIC CLUB MEETS

Program to Be Given Today in Wilson Home

"Foreign Composers Who Live in America" furnishes the program for a meeting of the Lubbock Music Club in the home of Mrs. Roscoe Wilson, 2201 Broadway, this afternoon at 3 o'clock. Roll call will be answered with vacation experiences in music. Mrs. E. L. Robertson is in charge of the program.

In El Food Dressing for salad, the egg yolk content is almost twice that of any other mayonnaise dressing. That's why El Food is so creamy rich... and contains so many bone-building and energy-giving essentials. Its vacuum whipping, no air is beaten into the mixture. This is a guarantee of full weight and an additional measure of goodness. It's approved by the Good Housekeeping Institute.

Holland's Future Queen To Wed

Holland's Princess Juliana, heir to the Dutch throne, is expected to announce her engagement to Prince Sigvard, second son of the Crown Prince Gustaf Adolf of Sweden, shortly.

Variety Lack For Diet May Be Dispelled

Modern Housewife May Have Products from Places All Over World in Preparing Foods Daily

Although the lack to variety in modern meals has long been an indictment against American women, the present accessibility of recipes and original menus makes this no longer necessary, according to Mrs. Leona Rusk Ihrig, who will conduct the annual free cooking school for the Lubbock-Journal publishing company here October 27 to 30.

The housewife today may draw products from every nation in the world for her grocery shelves. Mrs. Ihrig points out, but the rapidity with which these items were made available to her was not matched with corresponding information as to their proper use and serving.

Many a housewife is forced to peep with hungry eyes, items on her grocery shelves, which she would like to serve but would not know how to prepare, she points out.

School Meets Cooking schools conducted by trained lecturers with a wealth of scientific background preparing them for the intimate acquaintance with the details of listing a balanced menu, and the proper methods of preparation of savory dishes and utilization of materials that might otherwise be wasted, eliminates the last alibi of the American housewife to the charge of monotony of diet.

Mrs. Leona Rusk Ihrig, who will appear here October 27-30 under the auspices of the Lubbock-Journal and will conduct a practical cooking course of four lectures at the Uptown Dance Palace for the women readers of the newspaper, is one of the staunchest advocates of the varied diet.

"With the wealth of recipes available from most famous chefs of the world, any woman aspiring to better cooking results, can shortly achieve her aim," declares Mrs. Ihrig. "Peculiarly enough, some of the most attractive dishes of the world's famous chefs are prepared from the least expensive ingredients. There is a subtle and essential knowledge in preparation, which must be carried out to the most minute detail, if proper results are to be obtained," she says.

Ten Irish Free State has a population of nearly 3,000,000.

The daily sale of Sally Ann Bread is steadily climbing with the increased sales of electric toasters. Sally Ann Bread is unusually delicious when toasted with fresh butter. The chilly morning brings a demand for buttered toast, which is a very healthful breakfast for the active business man or for school children. Buttered toast has become an important factor in American life as the automobile. It is served in hotels and restaurants throughout America.

We want you to become one of the thousands of toast eaters. And when you want the best, get Sally Ann. Sally Ann is wrapped in an air tight wrapper, keeping it as fresh as if you were right here when we bake it out of the ovens. Lubbock Bakery—adv.

P.T. A. Holds Night Session In High School

Junior High Members Hear George Dupree on Themes of Co-Operation; Music Is Enjoyed

A meeting of the Junior High Parent-Teacher association was held Thursday evening in the girls' study hall of the high school building. Mrs. E. L. Robertson, president, opened the meeting with a prayer, after which one verse of "America" was sung by the group.

"Mighty Lak a Rose" (Nevin) was sung by the high school choral club and a violin ensemble presented Mendelssohn's "On Wings of Song," under the direction of Miss Beulah Dunn. Those playing were Mary Wilson, Martha Cooby, Elizabeth Prince, Jane Akers, Norma Smith and John Gerald Thompson.

George Dupree, local attorney, gave the address of the evening, stressing co-operation between teachers and parents.

During a social hour Mrs. E. L. Banks and Mrs. Carol Thompson served punch to 115 persons.

County Agents to Hold Winter Meet

County agents from five Texas districts will assemble for a mid-winter meeting in San Angelo, October 20 and remain in session five days. Lubbock county agents were notified Friday.

D. F. Eaton, county agricultural agent and Miss Ruth Stockton, home demonstration agent of Lubbock county, expect to attend the meeting.

A turkey grading school will be conducted in connection with the assembly under supervision of the United States department of agriculture and the bureau of standards.

Lubbock, San Antonio, San Angelo, Brownwood and Sweetwater districts will be represented by agents at the San Angelo meeting. The Lubbock county agents expect to travel by bus, visiting several county demonstrations while enroute.

LADIES' MUNSING UNDERWEAR

FULL RANGE OF KNIT AND RAYON STYLES ARE AVAILABLE

Many ladies still prefer light weight knit undergarments, especially at this season. Others have adopted the varied rayon weaves. All these materials are available in Munsing garments—tailored especially careful to give exact fit and fashioned from high grade materials for especially long service.

Ladies' Knit Unions

Light weight knit materials in three weights are featured in both tight knee and open styles with bodice and built up tops. These garments offer a wide range of choice in all sizes. The prices range in the following ranges

\$1.19 to \$1.69

Infants' Knit Vests

Light weight infants' vests—silk and wool infants' wrappers—all can be chosen in Munsing quality. There are weights for any preference—styles for every age—price groupings for every purse. Fitting qualities are a decided feature, too. Prices range—

\$39c to \$1.49

Children's Knit Garments

Children's knit unions in three styles with taped bodices—long lengths with short sleeves—bodice tops and long sleeves, long lengths. They are featured in two weights. Also for girls are garments un-taped in light weights and all styles prices range—

75c to \$1.50

Children's Rayon Garments

Clever Rayon garments for all age children—Rayon unions in pastel colors just like mother's—clever little Bloomers, fashioned just as carefully as ladies' garments would be designed. Every young miss just adores them. The same high grade materials are used at decidedly popular prices—

89c to \$1.50

Ladies' Rayon Garments

New lighter weights in Rayons are featured in Bloomers and Teds. There are the shorties, regular and yoke top in all the pastel shades. Two feature qualities are to be seen—all correctly designed with extra service a feature—Silk and Rayon combinations are to be had also. Prices range—

\$1.00 to \$5.00

Ladies' Rayon Pajamas

Fancy Lounging and Sleeping Pajamas made from the finest Munsing Rayon styles that feature the cleverest color combinations in decidedly attractive styles. Many of them with clever robes to match. Bright colors vie with dainty pastels for popularity in price ranges—

\$2.95 to \$5.00

business men on better business methods. He also spoke to the Kiwanis club Wednesday afternoon.

A \$5,000 prize for a cross-country glider flight is to be offered by the British Gliding association.

Laundries use approximately 32,000 bales of cotton yearly.

Blame Leaders Of Industries In Depression

U. S. Senator Wagner Places Responsibility of Unemployment of Government and Business Heads of Nation

BOSTON, Mass., Oct. 10. (P)—United States Senator Robert F. Wagner of New York in an address today before the convention of American Federation of Labor placed responsibility for unemployment at the door of business and government leaders who neglect in prosperous times to prepare for periods of depression.

He also assailed use of the injunction, the sole utility of which, he said, "is to harass the union, to hamper its work and to render inoperative the very function the trade organization was designed to exercise."

Must Run Gauntlet
"Where," he asked, discussing unemployment, "is the worker who has not run the gauntlet of loss of work because of seasonal slack, of periodic depression, of foreign competition, of change in fashion, of machine substitution?"

"Having experienced those, now the unemployed worker must ironically smile when he reads the well meaning advice extended to him that if only he would resume his normal purchases prosperity would resume its uninterrupted course. I wonder what his emotion is when he reads the official assurance that our fundamental national assets are undiminished. He knows only too well that he lives in a land of plenty much he had in the past shared in the making. These facts only aggravate the rank or in his heart that he must nevertheless go without work and without wages."

Senator Wagner asserted the American people will not "submissively accept these recurrent and lengthening periods of joblessness. They have learned, he said, "cannot live by optimism alone. He said it has been known for a long time that private industry could contribute to the stabilization of the seasonal and technological aspects of unemployment if it would assume more seriously the responsibility to provide regular employment, and the states and federal government could materially aid by timing the introduction of large projects into the market so as to provide a flow of wages when other sources were dry, but that "we stubbornly refuse to put any such plan into systematic and efficient operation."

GAINING CUSTOMERS

SPUR, Oct. 10. (Special)—The municipal light plant of Spur is gaining customers every month. L. R. Burrow, city secretary and in charge of the utility, reports. For September the plant had a net increase of four or five new customers, Mr. Burrow said.

A Film Star and a Murderer

When Patsy Ruth Miller, film star, visited Mexico City she decided she wanted to see some of the nation's famous criminals, and the authorities granted her request. Here she is, talking with Mexico's most notorious murderer, Luis Romero Carrasco, who killed his uncle, his aunt and their two servants in order to steal a few dollars and is still unrepentant.

Receiver for Firm Selected

Irving Trust Company Named to Take Charge of Prince and Whitley, 53 Year Old Brokerage Firm

NEW YORK, Oct. 10. (P)—The Irving Trust company today was appointed receiver for Prince and Whitley, 53 year old brokerage firm, by Federal Judge W. M. Bondy. The appointment was made on motion of W. Ludlow James, attorney for petitioning creditors. Announcement was made that the 500 employees, some of whom have worked for Prince & Whitley for 20 or 25 years, had been discharged effective tonight. The only exceptions will be those who are rehired by the receiver to assist in appraising the firm's assets and liabilities. The receivership action followed within a few hours announcement of the firm's suspension from the New York Stock Exchange yesterday for inability to meet its obligations. Attorneys for the firm announced that the firm's financial difficulties were only temporary and were hopeful that reorganization could be effected with no loss to creditors.

DIES OF INJURIES

Houston Woman Succumbs Due to Auto Collision

HOUSTON, Oct. 10. (P)—Mrs. Hattie Hudson died today from automobile accident injuries suffered here yesterday. Mrs. Hudson, riding in a machine driven by her daughter, Mrs. C. J. Dewitt, was thrown against the front seat in a collision with another automobile. "It was thought at first that she was not seriously injured," Mr. Dewitt said today, "but she died this morning." Mrs. Hudson was related to John Webb, news editor of the Dallas Times Herald. The body will be sent to Crockett for burial.

LET GOOD THINGS GET TOGETHER!

Try golden honey

and

Kellogg's CORN FLAKES

WHAT a treat! Crisp, flavorful flakes in a bowl of milk and honey! Every one will love them!

You'll never know how good corn flakes can be until you try Kellogg's—in the red-and-green package.

Kellogg's Corn Flakes have a delicious flavor and tempting crispness that no other corn flakes have ever duplicated. Try them for an extra special treat. With milk or cream—fruits or honey added.

You'll like them for breakfast, lunch or supper. Ideal for the children's evening meal. So easy to digest.

At all grocers. Served by hotels, restaurants. On diners. Always oven-fresh in the waxite inner sealed wrapper.

Made by Kellogg in Battle Creek, Mich. Also makers of Kellogg's ALL-BRAN, Rice Krispies, Kellogg's Shredded Whole Wheat Flakes, Pop Bran Flakes, Wheat Krimbles and Kaffee Hag Coffee—the coffee that lets you sleep.

RADIO BLUNDER MUSIC
One of the best loved features in Radio BLUNDER MUSIC is now being broadcast nationally over Station WZZ and associate stations of the National Broadcasting Company by the Kellogg Company every Sunday night at eleven o'clock. Listen! Hear! Enjoy it together with Kellogg's Kaffee Hag Coffee—the coffee that lets you sleep.

Double-sealed for freshness. Wax-wrapped inside the package and out.

ONE MINUTE PULPIT

Ye are of God, little children, and have overcome them; because greater is he that is in you, than he that is in the world.
They are of the world; therefore speak they of the world, and the world heareth them. —1 John, iv, 4, 5.

THE BEST MONTH OF ALL

THE poets have ever sung the praises of stormy March, "with ugly looks and threats," and flicker in April, "when every tear is answered by a blossom," and merry May, "when those who love must wed," and still December, "black and drear," but do not all ordinary humans agree that colorful October were a better object for their art and adoration?
"What is so rare as a day in June" unless it be an afternoon in October when the departing sun lends a tint and a mystic charm to all the purple and gold, yellow and brown and green of the trees, the hills and the field? There is a freshness and a life-giving vigor about the air of October unknown to her sister months. October is a month of out-of-doors when nature exerts her utmost magnetism and all humanity strains at the leash of confining civilization.
The melancholics that have been attributed to October is but reflection and pensiveness. October days invite sober thought and speculation on the beauties of nature and the sheer joy of living. October is the rugged manhood of the year in all its glorious strength; it is a symbol of tasks begun and completed; it is a synonym of achievement.
Particularly out here in West Texas is October the happiest month of the year. It ushers in the new fall and winter business, it sees the crops trundling to town and its benign sun, with a zest at early morn, makes life more worth living.We have our sandstorms in the spring, our heat in the summer and, when winter blows in we all know that it "gets a little chilly round the edges." But October—bright, blue October—is different. It combines the tinge of raw old wine with the snow-white bread and butter of the satisfied man's table!
Hail October, when sunshine pays a call!

SCHOOLS

The custom has been for parents and friends of pupils to visit schools on the last day of the term. Commencement periods seem to be the only time public interest in education manifests itself in the form of school visitations.

This indifference has lead teachers and other educators to emphasize commencement and graduation visitations during the school year in an attempt to lure into the schoolroom parents and others paying for the support of the schools. But the visitors do not obtain a true picture of the schools on such occasions. The schools are "dressed up" the pupils on their good behavior and the program is usually entertainment rather than lessons in reading, writing, and arithmetic.

Every citizen is free to criticize the schools, but no fair-minded citizen will condemn them without first investigating. And the time to learn something about them is by unannounced visits.

Visitation of the school in its daily routine will have a wholesome effect in bringing into closer and more intelligent and sympathetic cooperation those who have the welfare of the child most at heart—the parent and the teacher—and will eliminate much of the misunderstanding between taxpayer and those commissioned to administer education.

The schools are the brightest spots in Lubbock, and generally the most hopeful institution democracy has to count upon. The constant surprise is that the world is not better than it is with such tuition. But one has to search outside the school for the reason. It is reassuring to all with sufficient interest to visit a school to see with what intelligence, patience and skill their children are as a rule being taught.

BLIND

The human race, a leading expert in optometry warns us, will be blind in 200 years if the present rate of defective vision keeps up. That is bad news, and we hope it is exaggerated, but when we look about us and see the number of folk wearing glasses we are not so sure but what there's truth in it.

There are three major causes for this bad sight. They are smoking, beer and excessive tobacco. For posterity's sake, it is up to us to conquer them. Goodness knows, a man likes to stretch out in his arm chair of an evening and light up the old pipe. He stretches, his feet are comfortable in his slippers, and he likes to watch the clouds of smoke. It is really a soothing sensation when his wife scolds him for getting ashes on the carpet.

But try an experiment with yourself. Close your eyes and smoke. Three-fourths of the enjoyment is gone. So it really is largely a mental enjoyment, isn't it? You like the environment with which you habitually associate smoking better than the smoke itself.
About moonshine and narcotic drugs there is no real division of opinion among clean people. They want to get rid of both. Smoking is not by any means such an evil. It is excessive smoking that hurts the sight.

Quotations of Real Merit

It has been the experience of our country that all progress in the solution of our problems, be they tariff or any other great issue, have been achieved through compromise.—Representative Bertrand H. Steel.

You cannot believe in honor until you have achieved it. Better keep yourself clean and bright; you are the window through which you must see the world.—George Bernard Shaw.

Honor is a very fine man—like me he is probably more suited than I am to being a Rudy Valee.

When a film star appears in public everyone pays homage to her. At the studio she is only a necessary evil.—Marion Davies.

There are times when it is difficult to keep a clear and intelligent mind on the constructive side of the city government.—Mayor James J. Walker.

On the Firing Line at the Nation's Capital

HEAVY PRIMARY EXPENDITURES THREATEN TO TIE UP SENATE MORE THAN EVER NEXT YEAR

By Charles F. Stewart
(Central Press Staff Writer)WASHINGTON, Oct. 10.—Illinois had to get along with only one U. S. senator for nearly two years after the late William B. McKinley's term expired in 1927. Pennsylvania was in a similar fix for half again that long following the expiration of George Wharton Pepper's term at the same time.
This, of course, was because the senate refused to accept Frank L. Smith's credentials as McKinley's successor and William S. Vare's as Pepper's, and their states had to wait while Smith and Vare fought for the seats they claimed—ultimately to be definitely excluded, however, on the ground that their nominations had cost so much and that some of the money was tainted besides.

There have been occasions before when, due to one sort of a deadlock or another, a single senatorship has remained tied up for a couple of years, but having them hanging fire at once was a new thing, which caused a lot of talk, especially in Illinois and Pennsylvania.

Yet 1931 may see the beginning of a very much worse senatorial snarl than Illinois' and Pennsylvania's during 1927-28-29. At least half a dozen such senate fights are readily conceivable, starting when the seventy-second congress meets and perhaps lasting longer than Smith's and Vare's.

The number will depend on what candidates win in November.

Those who have spent large sums on their primary campaigns are sure to be challenged if elected, on presenting themselves for admission to the senate chamber. If beaten at the polls, the cost of their nominations will not matter so much.

Present indications are that the hottest of the so-called senatorial pluck fund investigating committee's reports will be those relating to primary expenditures in Colorado, Illinois, Massachusetts, Pennsylvania, Tennessee and West Virginia.

Pep might be looked for in the committee's account of the trickery said to have been employed in an attempt to prevent Senator George W. Norris' Nebraska renomination, were it not for the fact that "Uncle George" was renominated anyway—hence, what of it?

In several other states where complaints were received of heavy pre-primary expenditures, the money-spending candidates failed to be nominated, despite their liberality—whereupon the investigators lost interest in them and turned to commonwealths where cash accomplished actual results.

In the case each of Colorado, Illinois and West Virginia, according to evidence in the investigators' possession, it was the G. O. P. nomination that came high, and only in the event of the G. O. P. candidate's victory in November is the question of its cost likely to be raised. The Democratic contenders appear to have operated very economically, as political campaigning goes at the present time.

In Pennsylvania, senatorially speaking it generally is reckoned that the G. O. P. candidate alone counts—that is to say, this year, Secretary of Labor James J. Davis, who is supposed to have invested a snug sum in shoveling "Old Joe" Grand.

In Massachusetts, from all appearances fat bank rolls have been the rule among most senate aspirants, on both sides.

Proof that his nomination was mighty expensive does not necessarily disqualify a senator-elect, to be sure.

In few instances is a limit fixed, which he must not exceed.

Tennessee does, indeed, provide such a limit—\$10,000—which explains why the controversy in that state is particularly warm, despite the circumstance that the sum mentioned in connection with the campaign here is a shivering "Old Joe" Grand.

Nevertheless, the senate is explicitly on record as considering \$195,000 too much and this expenditure, incurred by Sen. Truman H. Newberry a few years ago, is a mere fraction of the figures reached now.

Your Health

SAME BLOOD TYPES NECESSARY TO INSURE SAFE TRANSFUSION
By Dr. Morris Fishbein, Editor Journal of the American Medical Association, and of Hygiene, the Health Magazine

Several substances have been found which have the special power of coagulating the blood, and it may be necessary, to apply these substances to wounds which bleed severely. It is also necessary to sustain the patient who may show signs of shock or falling heart action due to excessive loss of blood. The physician is acquainted with numerous drugs available for this purpose.

The person who has lost a good deal of blood obviously loses fluids at the same time as he loses blood, and is likely to show strong symptoms of this condition. The amount of additional fluid to be given to him must, of course, be judged by the physician on the basis of his experience.

After the hemorrhage has ceased, the physician is confronted with the problem of building the blood again to its original quantity and quality, and with protecting the organs of the patient against the blood loss that has been sustained. Normal blood contains anywhere from 4,500,000 to 5,000,000 red blood cells for each cubic centimeter, and it also contains approximately 15 grams of hemoglobin or red coloring matter, which may be taken as 100 per cent. It is customary to express the amount of hemoglobin in percentage.

One of the quickest ways of replacing blood that has been lost is to give a blood transfusion. In order to give a blood transfusion successfully and safely, it is necessary to have blood of the same type as that of the individual concerned. Human beings vary in their blood types. Sometimes the fluid matter of the blood of one person will agglutinate or clump together the red cells of the blood of another. Sometimes the fluid matter of the blood will break up or dissolve the red cells of the blood of another. Obviously, either of these processes is exceedingly dangerous, and it is necessary to be sure that the blood of one person will not be affected by the blood of another before the transfusion is made. The only way to find this out is to make certain that the donor of blood and the recipient are of the same type, and it may be desirable to make accurate tests of small quantities of blood under the microscope before the transfusion is finally made. It is then possible to inject into the person concerned any amount of blood that may be considered desirable.

In addition to injecting the whole blood, good effects are sometimes had by injecting merely the fluid matter of the blood, but under modern conditions with our knowledge concerning the mixture of blood, transfusion of considerable quantities of whole blood is considered quite safe. Certainly in cases where the number of red blood cells has fallen below 1,000,000 or the hemoglobin below 20 per cent, blood transfusion should be given quickly as a life saving measure. In cases in which convalescence seems to be unduly prolonged or in which the blood building seems to be going on very slowly, a blood transfusion may be considered desirable in order to take some of the burden off the blood forming organs and enable them to have a reasonable amount of rest in their work.

JAMES WYLLIE, LONG TIME CHECKER CHAMPION
Wyllie is one of the most famous checker players who ever lived, and was champion of the world from 1847 to 1859, from 1864 to 1876, and again from 1877 to 1894—a total of 41 years. This can be verified in any book on checkers.

Heart Hungry

by LAURA LOU BROOKMAN
AUTHOR OF "RASH ROMANCE" © 1930 by NEA SERVICE, INC.

BEGIN HERE TODAY
CELIA ROGERS, just out of high school, spends a hot July day looking for a job. Her mother, MARGARET ROGERS, is a widow, employed as a seamstress in a dress shop. On the day the story opens Margaret receives a letter which she goes to the shop to see her mother and finds Mrs. Rogers has been taken ill suddenly. The doctor says heat and exhaustion are the cause.

After a day's rest Mrs. Rogers returns to her duties, but three days later she pays a call to the doctor's office and is told her condition is serious. The physician insists she must give up work. That night Mrs. Rogers writes a letter to John Mitchell.

NOW GO ON WITH THE STORY CHAPTER VI
It was Wednesday night that Margaret Rogers wrote the letter. Two days later a man, middle-aged well dressed and obviously prosperous, paced up and down a room in the Belvedere Hotel. Once he stopped, snapped his fingers impatiently and then strode on again. He paused before the telephone.

"This is Mitchell in room 718," he said sharply. "Have there been any calls for me?"

"No, Mr. Mitchell."

"You're sure, are you?"

The feminine voice assured him she was quite sure. Why shouldn't she be? It was the third time in half an hour that the guest in room 718 had put the same inquiry.

John Mitchell replaced the telephone. Then he glanced at a wrist watch, seated himself in a large overstuffed chair and began drumming his fingers on the chair arm.

According to the watch there were still 10 minutes to wait.

Nonsense to be so upset over this interview, he told himself once more. Relax! That was what he needed to do—just relax!

The plan didn't seem to work. Three minutes later he was again pacing the floor.

John Mitchell was a large man, tall, with a figure that was well filled out but not stout. He looked like a golfer who also enjoyed his meals. His hair had been dark once—nearly black. Now there was more than a sprinkling of gray in it though from his face one would have placed the man's age at about 30. As a matter of fact John Mitchell knew how to drive a bargain. Indeed, he knew how to turn the vote in a directors' meeting. The color in his cheeks indicated an excellent digestion and the men looked on in splendid health. His tailoring (he wore a suit of dark gray) was the sort to be expected of a man of taste who ordered the best casually and thought no more of it.

Stuffed away in a pocket of that

SIDE GLANCES By George Clark

"That's the third girl that's thrown me over because I've got to leave and go to work just when they're ready to step out for a night of miniature golf."

A Review of a Great Movie Epic

"All Quiet on the Western Front" Described as Wonder Film After Private Showing in Lubbock

BY AL HILL
(Avalanche Staff Writer.)

As portrayed in "All Quiet on the Western Front," when Youth looks upon war with the eye of universal truth, death of one's country possesses no attraction. Youth desires to live.

Hatred of war, a deepening conviction of its being organized murder and the shame of civilization's utter madness in permitting the practice—all this and more are left indelibly impressed upon the consciousness of those who might be privileged to witness this epic of the human race.

The picture is to be offered at the Lubbock for four days, beginning Sunday, with a pre-view Saturday at midnight. It was exhibited to some 100 at a special pre-view Thursday night.

"All Quiet on the Western Front" is all but quiet as a sound moving picture production. There are perhaps more battle scenes in it than ever before have been placed in any picture. War as it is depicted in super-realistic fashion. As a spectacular achievement it equals any thing ever placed upon the screen. As a production it will forever be rated among such picture plays as "The Birth of a Nation," "The Four Horsemen of the Apocalypse," and far ahead of "The Big Parade."

Lacking the stereotyped love-story of youthful male and female, this story is one of the love of youth for life—youthful love for the privilege of living and hatred of the false necessity of dying because one country becomes offended at another.

Youth, while in the school room, is aroused to patriotic frenzy by the German tutor. The experience of those youths from this school room, as they witness their individuality buried beneath the machine-like greed of the army, on into battle some driven insane, others maimed for life, one back-home on leave and back again to the front line trench and inevitable death—brilliant that is the plot.

Lewis Ayres, as the last of these once-happy youths, and Louis Wolheim, as the seasoned veteran,

MEETINGS ANNOUNCED

Home Demonstration Clubs to Hold Sessions Next Week

Announcement of scheduled meetings of women's home demonstration clubs and girls' 4-H clubs met was made Friday by Miss Ruth Stockton, county home demonstration agent. Miss Stockton met with the Hardy club, Friday.

The county demonstration agent will meet Tuesday with women of Carlisle community and Wednesday with McClung women. The meetings to be held in the homes of yard demonstrators.

If schools of Liberty, Becton, Grovesville and Shawlow are open, Miss Stockton will meet with 4-H girls of those communities, Thursday and Friday.

SIGNS FOR FOUR

LAMESA, Oct. 10 (Special).—Lloyd Marr, son of Mr. and Mrs. W. L. Marr of this city, has signed for an eight weeks tour with the University of Wisconsin Lyceum, according to his parents. He has just closed an engagement with the Associated Chautauques of America. Marr is a graduate of the Lamesa High School.

Australia is using a stamp tax on wages to aid unemployment.

QUALITY BAKERY

1213 Broadway

Seen From The Top Of The Yellowhouse Windmill

BY J. SAM LEWIS, FIELD CORRESPONDENT

Carl Hyatt, young son of Dick Hyatt, editor of the Ralls Banner, has been playing in a little hard luck this fall. During the summer Carl had a fractured shoulder bone, the bone not breaking entirely across. The other day in a football scrimmage Carl's shoulder came in contact with something harder, the ground or somebody's foot or leg, he does not know just which. The bone had a clean break. Carl's football experience on the Ralls Bunnies is ended temporarily.

PROUD OF ROSES

L. R. Burrow, city secretary of Spur, is proud of the roses "grown by Spur water" he says, that adorn the office of the city, day after day. Spur has a city park or two and this year, after several attempts to keep it in first class shape, the club women took charge. They kept the place neat and clean all summer, had the flowers and shrubs attended to and all of that. The city supplied the water free and the rose bushes responded with the result that a big bouquet is picked every few days. The roses have stems of from ten to fifteen inches in length. All of them are of the monthly variety, American Beauty roses and several well known tea roses.

TALLEST GERANIUM

The big geranium in the lobby of the Ralls Inn, which has attained a height of nine feet, has several blooms on it. As far as has been reported to Mrs. McLaughlin, owner of the plant, it is the tallest in this section. Traveling men say they have never seen any other one as tall as it.

STORY IN BLACK AND WHITE
L. M. Laird, Texas Motor Ways driver, reports a perfectly black nanny goat of the famous tribe of "nervous goats" near Dickens, has three snow white young ones. "They are a little over a week old and they look funny trotting along with their black mother," L. M. says. The "nervous goats" are attracting wide attention in and around Dickens county. Many farmers are said to have two or three of the breed. Mr. Laird says the animals stay out in the highway so much it almost makes him nervous for fear he will run over one of them.

LOANS DECREASED

John Haney, president of the First National Bank of Ralls, has a prosperity note. He says "we have reduced our loans since the first of July about eight thousand dollars." This banker says, indications that conditions are on the up grade. Many farmers are interested in crop diversification. Mr. Haney reports and those who have tried the plan for several years are finding it easy to keep their credit good at the bank.

ALL NIGHT JAUNT

Dr. P. H. Mitchell, of Ralls, had an all night jaunt the other night with Mrs. Mitchell that did more to get him off his feet than it had spent the time out on a case. Miss Allie Armstrong, daughter of Mrs. Mitchell, and Randolph Moore, were married at the Ralls Inn, where Dr. and Mrs. Mitchell and their family reside. Before the ceremony the

TO TEMPT YOU AND
KEEP YOU WELL

Now you can have, in the improved Kellogg's ALL-BRAN, a ready-to-eat cereal that is as delicious as it is healthful. New processes have made the taste more appealing than ever. Kellogg's ALL-BRAN is far better than habit-forming laxatives. It sweeps out body poisons, and banishes headaches, dizziness, loss of energy, etc., that follow constipation. It is guaranteed. Two tablespoons of Kellogg's ALL-BRAN, eaten daily, will prevent and relieve both temporary and recurring constipation. In severe cases, use with each meal. ALL-BRAN also provides the body with iron. got wind of the thing somehow and the telephone man and the doctor were unable to get together long enough to effect a change of occupants. Finally, the doctor lost the other car and drove to Lubbock. He started for home early in the morning and found the party sitting beside the highway waiting for him. The transfer was made and the doctor and his wife went back to Ralls with the telephone man and his wife. "I feel worse than if I had been out that long on a call," Dr. Mitchell said. "I haven't any business doing a stunt like that. Not any more."

EDITOR VS. MINISTERS

W. D. Starcher, editor of the Dickens County Times, takes on the ministers of Spur for a little golf, regularly every week. The fourth estate and the parsons get along pretty well, as the ministers seem not to mind being beaten at golf by an editor. If some of the other business men of town beat them there is sometimes a question.

PAVING COMPLETED

Spur's downtown section looks considerably different with the pav-

ing work completed and open to the public. The gravel formerly used on the streets has been spread over other streets. There is now a gravel street from the center of town north to the city limits on the state highway. Traveling men tell business men, Mayor Ned Hogan reports, that they find a reflection of the new conditions in their business dealings with merchants. There are plenty of cars parked down town during the business hours of the day, on the paving.

DEER HUNTERS LOST

Search Pressed for Two Men Missing in Mountains

BOISE, Idaho, Oct. 10. —(AP)—Search was pressed today for two deer hunter, lost in the forested mountains north of here.

Hunt for R. H. Robertson of Boise went into the fifth day as the deer hunter continued lost in the mountains about 11 miles from here. Along with the search for Robertson, went a parallel hunt for Jimmy Mills of Emmett, Idaho, reported lost in the Indian creek

SECOND DEATH CAUSED

Seizure of Plane by Detroit Police Proves Fatal

DETROIT, Oct. 10. (AP)—The second fatality resulting from an attempt of Detroit police to seize an airplane occurred today with the death in a Mt. Clemens hospital of Detective Peter J. Sprott.

Sprott was a passenger in the plane with Junkie Kelly, whom the department employed Wednesday to remove the seized flying machine from Grosse Pointe airport to city airport. The plane crashed at the takeoff, injuring both men. Kelly died a few hours later.

The plane had been seized on complaint of Lee Phelps, Marion, Ind., who reported it stolen. Raymond Robinson, who was operating it here, was arrested but was released on his own bond after he explained that he and Phelps were joint purchasers and that he had taken it on an attorney's advice.

section out from Cascade. Rangers and woodmen were conducting a search for him.

MISSIONARY TO TALK

LAMESA, Oct. 10. (Special)—Rev. Wilmet D. Boone, Missionary to China, will speak to members of the Lamesa Presbyterian church Sunday, October 12th, according to Rev. E. H. Bertrac, pastor of the

church. Rev. Boone is engaged in city evangelistic work in Tientsin, China, and has served as principal of the Hamilton Memorial Academy at that place.

There are 25,000 miniature golf courses in the United States.

INDICTED FOR MURDER

SOUTH BEND, Ind., Oct. 10. (AP)—George Sherman Myers, 40, was indicted today for the murder of 8-year-old Marverine Appel who was attacked and killed here several weeks ago.

of the crust is SHORTENING

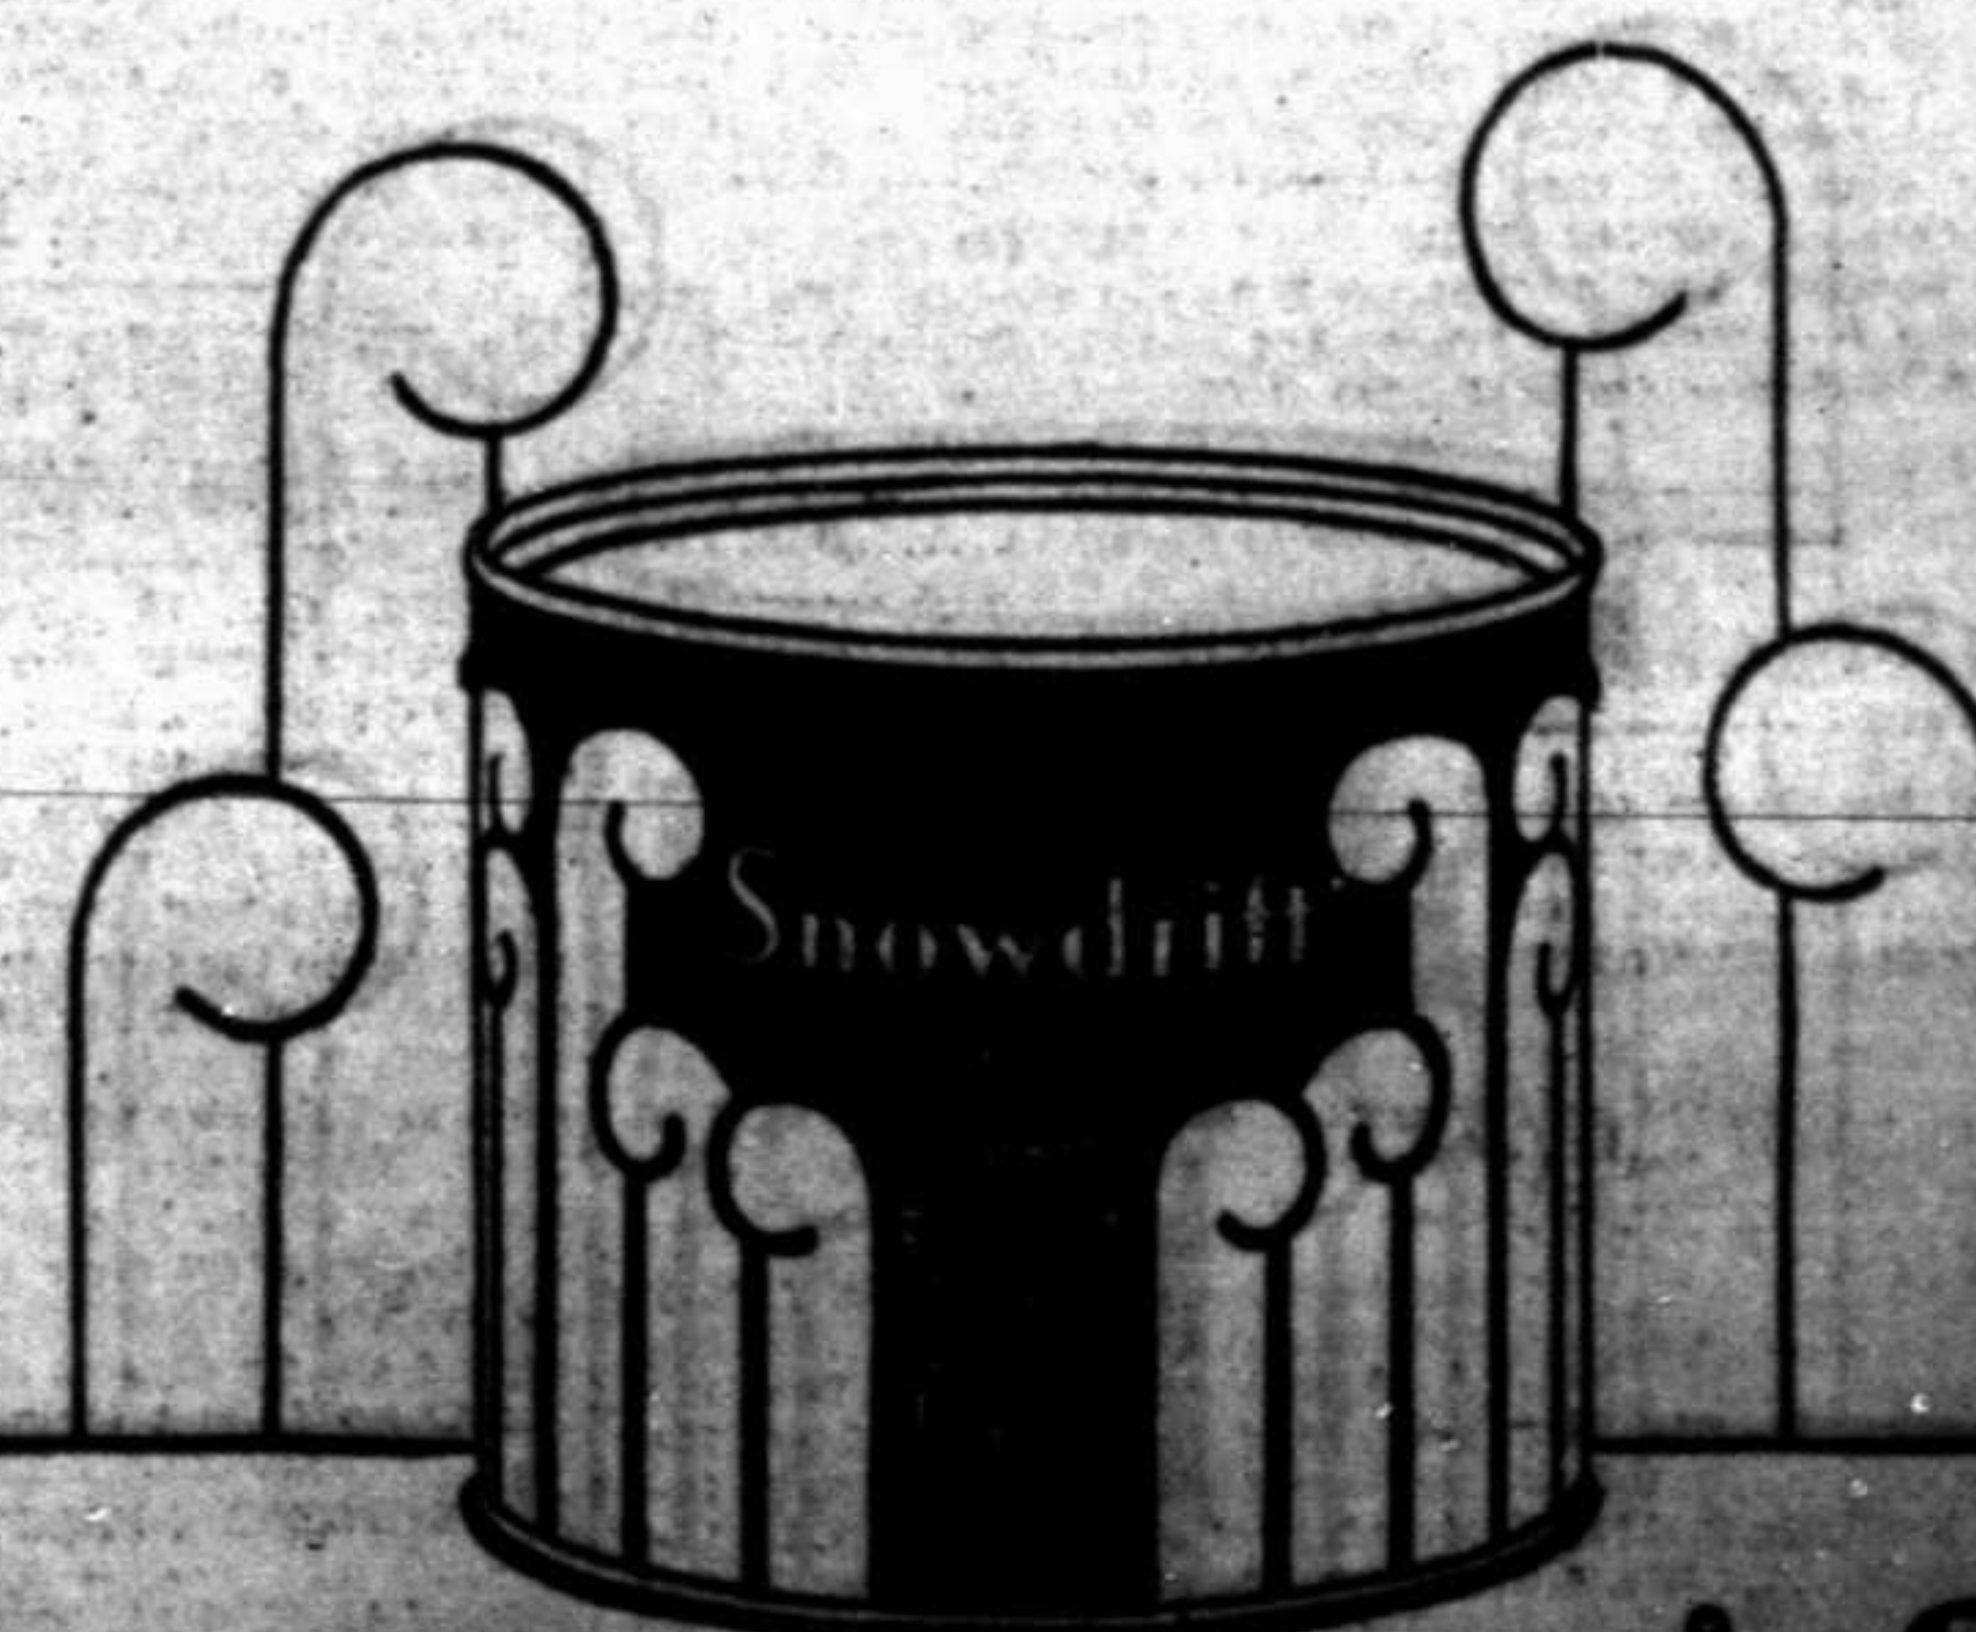

HAVE you ever stopped to think that almost one-third of the pie crust is the shortening you use? Doesn't it seem important, then, that the shortening should be pure, fresh and sweet . . . good to eat?

And when you serve the pie at your table you actually eat this shortening. Certainly it should be as fresh and good as the finest eggs, and as sweet and pure as the best milk.

The Wesson Oil people make Snowdrift for folks who feel that nothing can be too good to eat. The extra quality, extra care they put into every pound costs you ever so little more. And Snowdrift is pure—made from a selected oil as fine as a choice salad oil, free from animal fat. It is creamed while fresh and hurried into an air-tight, sealed can so that all its goodness is brought to you. Nothing, not even air, can touch it until you break that seal.

Snowdrift is Down in Price

Snowdrift is now down in price . . . at its lowest price in years. There's added goodness for every bit of cookie or hot-bread. There's an added sureness in baking. And the satisfaction of knowing that Snowdrift is as good and wholesome as any food you serve the family. Price Snowdrift and see how little it costs to have all the helpful "extras" for every day cooking.

Snowdrift

Airplane Sale To Brazil Up Before Nation

Whether American Government
Will Permit Sale of Aircraft
in Revolution Forms Subject
of Speculation

WASHINGTON, Oct. 10. (AP)—Whether the American government shall permit the sale of aircraft to federal authorities or revolutionists in Brazil became a question of speculation here today while the Brazilian embassy was denying reports attributed yesterday to revolutionists in their advance on Rio de Janeiro and Sao Paulo.

The consent of the American government must be obtained by American airplane manufacturers before selling certain types of air equipment either to federal authorities in Brazil or revolutionists.

Acting Secretary of State Cotten said the question was not before his department, however, despite reports from Brazil the federal government would endeavor to purchase bombing planes in the United States.

Officials explained the reason for making necessary government supervision over such sales was because certain types of planes were being manufactured for the American military and naval services. In the past in order to encourage airplane manufacturing in this country, the granting of such consent for the sale has been routine and there appeared little doubt among observers that the United States would readily permit the sale of the so called "certain types" of planes to the Brazilian government.

Opinions as to which course would be followed in the event the revolutionists endeavor to buy planes, were varied but the consensus was that there might be some hesitancy before granting consent in the present situation.

The usual course is for the manufacturer contemplating the sale to write directly to the war or navy department if either was concerned over the purchase.

Reports Denied
The denial of the Brazilian embassy was authorized by its government in an official dispatch which characterized as false in-

urgent reports that the city of Campos had been taken and that two federal destroyers had joined the revolution.

At the same time the embassy received a resume of government activities looking to suppression of the revolution and the manifesto issued today by President Washington Luis.

Slaton Tigers Tie Lubbock Pioneers

SLATON, Oct. 10. (Special) The Slaton High school Tigers played the Lubbock High school Pioneers, second and third string teams of Lubbock, to a 13 to 13 deadlock here today. The Slaton senior started his first string team, but drew them out of the game after the first half.

Manion Wins Petroleum Trophy

TULSA, Okla., Oct. 10. (AP)—Shooting sub-par golf in the afternoon round, Jimmy Manion, St. Louis, former trans-Mississippi champion defeated Logan L. Van Zandt, Tulsa, six and four, in their scheduled 36 hole final match for the 1930 international petroleum exposition golf crown, over the treacherous Tulsa country club course today.

Van Zandt, who was the defending champion, started with an advantage holding a three up margin after the first nine holes, but the St. Louisan rallied at the turn. After taking an easy 43 on the first nine, against a 39 for the Tulsa, he won six of the remaining nine holes of the morning round, streaking the inward journey in a 35, even par, against a 41 for Van Zandt, to go three up.

Dabbling in Psychology, Delving Into Classics and Picking Out Mistakes in Crimes are Hobbies of Phantom Lover

MILWAUKEE, Wis., Oct. 10. (AP)—Dabbling in psychology, delving into the classics and finding "mistakes" in ill-planned crimes were the hobbies of George "Jiggs" Perry, Milwaukee phantom lover sought by police on a charge of slaying his "wife," a close relative of Perry revealed today. And marriage to Perry was nothing but a "racket" to make money, the relative said.

Reported to police to have three known wives, probably a fourth, Perry is accused of slaying Cora Belle Hackett, 42, his third "wife." Her body was found on the Lac Du Flambeau Indian reservation in northern Wisconsin several days ago.

One Of Series
The relative, who preferred to remain unnamed because of "family complications," said Perry's apparent affair with Mrs. Hackett was but one of a series of "want ad" loves.

"Four years ago," the relative said, "Perry asked me to go with him on what he called a 'love racket' raid. He said it was easy to get women to fall for you and then take their money."

As police reconstructed the Hackett affair, Perry met her in Chicago after advertising for a "woman companion to drive to California." They were married and came to Wisconsin on a honeymoon financed partly by the bride.

Then Mrs. Hackett disappeared. Perry, police said, went to Cleveland, where he talked with his second "wife." She discovered evidence that Perry knew Mrs. Hackett, whom, she said, Perry explained away as a "wealthy aunt."

Then Perry left Cleveland. Meanwhile, Perry's only legal wife cared for three children in Milwaukee in poverty.

Picture Identified
From Illinois came word that a George E. Perry on Monday married Mrs. Harriet Milligan, St. Louis, Mo., widow C. C. Sweeney, hotel manager, identified a picture of Perry as a resident of his hotel, but when police went to arrest the man, he was gone. Mrs. Dorothy E. Hagerly, University City, St. Louis suburb, also identified a picture of Perry as that of a man whom she met through a want ad under similar circumstances surrounding the meeting of Perry and Mrs. Hackett in St. Louis, the man sought as Perry told both women he was her

PERMIT ISSUED

A permit to move a building from the country to the 400 block of Fifteenth street for storage purposes was issued Friday by the city building inspector.

D. E. Meredith, contractor, was authorized to do the work for W. N. Jackson, owner of the structure, for \$90.

Seven building permits having aggregate valuation of \$14,696 have been issued this week. This month there have been nine authorizations, total valuations of which were \$15,496.

A total of 215 permits has been issued here this year for an aggregate of \$1,352,428.

to a fortune and asked to marry Mrs. Milligan. St. Louis detectives located a Mrs. Harriet Milligan, but she denied she was the bride.

Perry spent much time to become a dapper educated man of the world, the relative said, all with intent of marrying women to get on "easy street." Shakespeare, Shelley, Byron and Plato decorated the book shelves of the former railroad worker's room, along with works on law and psychology.

"He read all about the murders in the newspapers," the relative said, "and then would point out to me just why the crime was ill-planned. George was usually right, too, and police would catch the criminals."

Louisiana's Youngest Moonshiners

After spending weeks looking for work so that they could support their aged, paralyzed mother and their 10-year-old sister, these two New Orleans boys started a whisky still and are now under arrest as Louisiana's youngest moonshiners. They are Joe Porrechio, 15 (left), and his brother, Paul, 17. Raiders took them as they were about to load five barrels of whisky on a wagon.

Right of Way Problem Faced

Plan to Obtain Hundred Feet
on All of Highway No. 7
and Part of No. 9 Object of
County Commission

A plan to obtain 100 feet of right-of-way on all of state highway No. 7 and a part of No. 9 was the object of a meeting of the Lubbock county commission Friday.

All but four tracts on highway 9 north have been obtained and all but one tract on the same route south. No signatures have as yet been obtained on highway 7, however.

Guy R. Johnson, resident engineer, left the city Monday for Austin stating that contract is ready to be let on highway No. 7 just as soon as right of way has been obtained.

Safety from Fire Subject Of Club Talk

J. Bryan Miller, Local City Manager, Speaks Before American Business Club on Fire Prevention Program

Speaking on "Safety From Fire," J. Bryan Miller, city manager, addressed members of the American Business Club at the organization's luncheon in the Hilton hotel Friday. Two railway representatives also spoke briefly before the club.

Final speaking engagement of the National Fire Prevention week program here was Friday night when H. D. Woods, chairman of the Lubbock fire prevention committee, and Gerald Wren, committee secretary of the chamber of commerce, attended a community meeting at Shallowater.

Persons in charge of the Shallowater assembly asked the Lubbock fire prevention group to send speakers to explain elimination of fire dangers at the meeting, which was held in a school building.

"Fire is a terrible destroyer of life as well as of property," the city manager said in addressing A. B. C. members.

"It causes more deaths than occur in all our railroad operations," including the grade crossing accidents we read so much about. It causes more deaths than drowning. In fact it is surpassed only by automobiles and by falls.

Something Wrong
"Accidental fire, like any other accident, results from doing something in the wrong way. To protect our lives and our property against fire loss, we do not need to give up the use of fire, probably the most valuable servant which mankind possesses—but we do need to learn how to use it properly."

"The remedies for all kinds of accidents, including fire, have been aptly grouped under the three E's—engineering, education and enforcement; and the greatest of these is education."

"The engineering remedies for fire loss include the proper construction of buildings, proper heating and lighting apparatus, exits, fire extinguishers, equipment and the like. Science and invention have introduced many new hazards into modern life, but other engineers, equally alert, have discovered and have told us the necessary protection for every new danger. Photographic film is a great blessing to mankind, and the use of X-ray film in medicine and surgery has saved many lives and much suffering; but the danger of such film in a basement room without automatic sprinkler protection, contrary to the engineering regulations published by the National Fire Protection association and the National Board of Fire Underwriters, resulted in the terrible Cleveland clinic disaster."

Enforcement Essential
Enforcement, too, is essential. We must have enforcement of building regulations and fire prevention ordinances by our communities; enforcement of good housekeeping rules in factories and enforcement by every parent and housekeeper, of fire prevention rules in the home.

"But all of these depend upon education—education of every man, woman and child in the hazards of matches, cigarettes, gasoline, gas, electricity and other things of everyday use; education of those engineers, architects and those public officials not yet alert to modern fire hazards and fire protection; education of all citizens to demand proper buildings, equipment, laws and enforcement."

Texas and Pacific railroad representatives who spoke before the A. B. C., briefly explaining the railway's position regarding the proposed extension of the line from Big Springs north to Vega, were O. B. Webb, assistant to the president of the road, and L. G. Porter of the legal department.

COURT OPENS MONDAY

Seventy-second Session Will Be Held at Morton

Seventy-second district court will open Monday in Morton, Cochran county, for a two week term. It was announced Friday morning at the office of Durwood Bradley, district attorney.

Criminal docket of Ninety-ninth district court in Lubbock occupied this week. Cases scheduled for trial at Morton were not announced by the district attorney.

ROUND TRIP \$5.50

Price for the round trip to the Tech-T. C. U. football game October 25, will be \$5.50 according to an agreement reached this week by the athletic council. Although complete arrangements have not been made tentative plans are for the trip to be made on the Port Worth and Denver railroad.

Plans are for the train to leave here Friday night, October 24 and return Sunday morning October 26. The game will be played Saturday October 25.

Although school will not be dismissed that day, all students making the trip on the special train will be given a chance to make up their work and cuts will not be counted against them that day.

ALL COLLEGE TONIGHT

The second all-college dance will be staged in the Tech gym beginning at 9 o'clock, according to the date set on the social calendar. Prices for admission will be as usual, one dollar for stage and seventy-five cents for couples.

HEIFERS DONATED

Professor W. L. Stangle, head of the animal husbandry department of the Agg school, and Business

Manager W. T. Gaston returned this week from Marfa, Texas, with the announcement that two Hereford heifers have been donated to the dairy department of the college. The donation was made by F. A. Mitchell and Son, and F. C.

Mellard of Marfa. "The heifers selected were tops of this year calf crop" states Professor Stangle. "The donation was made because the gentlemen were interested in the development of a real Hereford herd at the college. They are anxious that the students have a large number of good individuals for instruction purposes." Professor Stangle took part in the judging at the Highland Fair which was held at Marfa.

lege were given workouts yesterday in judging hogs. A similar workout will be held today.

BACK FOR FOOTBALL GAME
President Paul W. Horn left last night by train for Sweetwater where he will meet today with the board of directors of the West Texas Chamber of Commerce.

"I shall be back this afternoon in time for the football game with McMurry" stated Dr. Horn late yesterday.

SCURRY COUNTY CLUB

At a recent re-organization of the Scurry club Roe Bavousett was elected president. Cecil Worley, vice-president; Rogers Grantham, secretary; and Maxey Chevillet, reporter. This club consists of students in the college who are enrolled from Scurry county.

It is planned for the organiza-

tion to meet each first and third Monday night. About twenty-five students are members of the club.

TESTING APPARATUS

A chemical testing apparatus for testing bleach liquor recently has been received by the textile engineering department of the college. This apparatus will be used in the testing in textile work.

The apparatus was donated to the school by the Solway Process, with offices located at Syracuse, N. Y.

UNIFORM COMMITTEE

President Paul W. Horn has recently appointed a committee to work out plans for the purchase of the band uniforms for the Matador band. The committee consists of Culver Hill, president of the band, Harry Le Maire, band director, Wayne Castleberry, president of the student council, Cecil Kersey of the Y. M. C. A., and Jake Schober head yell leader.

A campaign has been waging for some time in an effort to obtain

money to purchase these uniforms. Red tags marked, "I'm for the new Tech Uniform band" have been selling for fifty-cents each. A benefit program was also given at the Palace theater.

Efforts are being made to have the uniforms here by October 25, which is the date of the T. C. U. football game. These costumes will carry out the Spanish style.

TALKS TO HOME ECS

"Personal Investment" was the subject discussed yesterday by Dr. J. O. Ellsworth, head of the agriculture Economics, when he spoke to an advance class in the home Economics school yesterday.

The class which consisted of about fifty juniors and seniors in the Home Ec school was a course in "Home Management."

SPANISH MEETINGS
If present plans of the Spanish club are perfected future meetings will be conducted in Spanish. At a meeting of the organization Wednesday night plans for the year were

discussed, one of the main things planned being an effort to create more interest in the Spanish language and in Spanish customs. One of the main features of the program was a Spanish song by A. Melendez student from Central America, who was accompanied by Miss Gleason.

Due to the failure of Elizabeth Crews to return to school, E. R. Fincher was selected as vice-president of the organization. Miss Crews was elected at the close of school last year for the vice-presidency. Other officers are, president, Virgil Rowland; secretary, Ruth Love; treasurer, Mildred Aldridge; and reporter, Faye Bumpass.

The welcome address for the affair was given by William Nelle, former president of the organization.

BURNS TO DEATH

Heart Hungry

(Continued From Page 4)

joining the lobby. It was deserted except for a young woman reading a newspaper. Mitchell pointed out two chairs in the distant corner. They moved over to them and sat down.

"This will do," Margaret agreed. "You've changed. You have changed too, John."

"No doubt! Well, it's been a long time—," he seemed embarrassed, dropped the sentence and hurried on. "I'm fatter. Don't get so much of it as I used to. Ought to have more exercise. But I feel pretty well just the same."

"You look well!"

"Think so?" John Mitchell eyed his companion closely. "I wouldn't have known you, Margaret. I'm not surprised. I didn't expect you to."

"Wouldn't have known you?" Mitchell repeated as though trying to convince himself of a surprising truth.

"Haven't we better get at what you came to talk about?"

The man nodded. The masklike expression settled over his face again.

"I want Celia," he said abruptly. He said it as a man accustomed to taking the things he desired.

Margaret Rogers' lips quivered but with an effort she kept them firm. "I don't know—," she began.

Mitchell broke in ruthlessly. "It's the only thing for the child," he insisted. "You ought to see that. What can you give her? What future have you planned for her here? She's finished high school. Seventeen almost a young woman. What's she going to do now?"

Margaret was swift in her own defense.

"Celia's been happy," she defied him.

He scoffed.

"She's a child. Now she needs to learn the world. Is she talented? I'll give her training in the finest schools in this country or in Europe. If she wants society I'll take care of that, too. I can do it. I can give her everything in the world she needs! Margaret, don't you see—?"

"Schools and money aren't everything," the woman countered. "I want her to have a chance for happiness. I want her to be safe!"

She put her hand to her face but John Mitchell did not notice the quick motion. He did not notice that when Margaret's hand dropped the fingers were wet with tears.

"I can all be arranged very easily," Mitchell was saying. "I'm in New York now. Moved there two months ago." He mentioned the name of an immensely respected legal firm with which he was affiliated. "Of course I still have interests in Chicago but this new connection means I'll spend most of my time in New York."

"But what about Celia?"

"I've arranged everything," Mitchell insisted. "She'll stay with my mother in the old Grammercy Square place. I'm there too. Mother may be getting old but no one could launch a girl socially better than she can. Mother knows everyone. She'll introduce her to the right people. In the fall I'll send Celia to Europe."

The whirlwind of plans was too much for Margaret Rogers.

"But I don't know—," she faltered. "I haven't said—"

"You haven't said you'll let her come but you'll do it. Great heavens! What can you offer to compare with this?"

"I can't offer anything," said Margaret through firm lips. "I'll keep what I've given her all her life. I'm willing to work for her. I'm willing to do anything to make her happy."

"Then that's the answer!" the man said, elated.

"Is it?" the woman asked gravely. "Are you so sure?"

John Mitchell's cheeks darkened.

"Celia is mine," Margaret Rogers reminded him firmly. "I don't have to give her up!"

"No!" the man's voice rose sharply. "You don't have to give her up. My God Margaret, you've robbed me of every happiness! You took her away. Do you want to ruin my whole life?"

He had forgotten where they were and so had Margaret. She was in the past again. Scenes forgotten for years flashed crystal clear through her mind.

"Don't—don't say that, John!" Margaret gasped.

Mitchell was on his feet.

"Where is she? When can I see her?" he asked.

Margaret Rogers was very pale. "You can see her," she said. "She's lovely. John. She's beautiful! Celia doesn't know anything about all this. She thinks she's going to be a stenographer and earn \$20 a week. Oh, I'm so proud of her. I want her to have the very best!"

The man's gaze was far away. "Does she look like you?" he wanted to know.

Margaret shook her head negatively.

"Not very much. Around the eyes maybe. Her hair curls—it's light brown. And she has brown eyes. Big eyes and she's usually laughing. She's taller than I am. Slim but not skinny like so many young girls. Celia will be 18 next month."

"I know."

Both of them were silent for a time. Mitchell's eyes were downcast. It was a moment of crisis and Margaret Rogers was making a tremendous effort.

"John," her words came finally in tortured rushes. "I'm trying—trying so hard not to be selfish. You can take her if you'll agree to my terms. You'll have to promise!"

"What are the conditions?" Mitchell asked harshly.

Margaret leaned forward, her face close to his.

"Promise," she said tensely "that Celia shall never—know!"

(To Be Continued.)

When the city manager of San Jose, California, took his vacation, Norma Haas, his secretary, assumed the managerial duties.

Gasoline tax collections in Louisiana for the first half of 1935 were \$4,153,925, compared with \$3,229,133 for the same period last year.

More than 47,000 people have died of cancer in Wisconsin during the past 20 years.

Sunday-School Lesson

BY DR. J. E. NUNN

INTERNATIONAL SUNDAY SCHOOL LESSON FOR OCTOBER 12, 1930

General Topic:— Mary, the Mother of Jesus: An Example of Motherhood.

Scripture Lesson:— Luke 2:15-19; John 3:1-6; 19:25-27.

Luke 2:15. And it came to pass, when the angels went away from them into heaven, the shepherds said one to another, Let us now go even unto Bethlehem, and see this thing that is come to pass, which the Lord hath made known to us.

16. And they came with haste, and found both Mary and Joseph, and the babe lying in the manger.

17. And when they saw it, they made known concerning the saying which was spoken to them about this child.

18. And all that heard it wondered at the things which were spoken unto them by the shepherds.

19. But Mary kept all these sayings, pondering them in her heart.

John 3:1. And the third day there was a marriage in Cana of Galilee, and the mother of Jesus was there.

2. And Jesus also was bidden, and his disciples, to the marriage.

3. And when the wine failed, the mother of Jesus saith unto him, They have no wine.

4. And Jesus saith unto her, Woman, what have I to do with thee? mine hour is not yet come.

5. His mother saith unto the servants, Whatsoever he saith unto you, do it.

John 19:25. These things therefore the soldiers did. But there were standing by the cross of Jesus his mother, and his mother's sister, Mary, the wife of Clopas, and Mary Magdalene.

26. When Jesus therefore saw his mother, and the disciple standing by whom he loved, he saith unto his mother, Woman, behold thy son!

27. Then saith he to the disciple, Behold, thy mother! And from that hour the disciple took her unto his own home.

Golden Text:—Mary kept all these sayings, pondering them in her heart.—Luke 2:19.

Time:— Christ was born in December, B. C. 5. The turning of water into wine, February, A. D. 7. The crucifixion, Friday, April 7, A. D. 30.

Place:—Bethlehem, Cana, Jerusalem.

INTRODUCTION

The worship of the Virgin Mary is superstitious and is not warranted by the Bible. It detracts seriously from the worship due to God and his Son and the Holy Spirit. To speak of Mary as "the Mother of God" is sacrilegious. And yet all Christendom rightly reveres this woman who was honored above all others of the Savior, and sees in her an ideal example of motherhood. It is thus that we study her life today.

THE "MAGNIFICAT" OF MARY

Luke 1:45-55

"And Mary said, My soul doth magnify the Lord." Mary showed her independence and force of character by making the long and arduous journey from Nazareth to the hill country of Judaea, in order to consult her noble kinswoman Elizabeth. Her hymn, "The Magnificat," "the Magnificat," from its first word in the Latin translation of Jerome, is the precious memorial of this visit which has come down to us. His glorious hymn of praise to God discloses the beautiful and forceful character of Mary. It is compact of Bible quotations, and shows her intimate acquaintance with the Old Testament, an acquaintance repeated in the utterances of her divine Son. "It is, and ever will be, the Magnificat, great in its theme, and great in its conception. Following the flight of Hannah's song, and making use of his wings at times, it soars far above, and sweeps beyond its original. Not even David sings of Jehovah in more exalted strains. The holiness of God, the might supreme above all powers, the faithfulness that cannot forget and that never fails to fulfill, the divine choice and exaltation of the lowly—these four chief chords of the Hebrew Psalter Mary strikes with a touch that is as sweet as it is clear."—Rev. Henry Burton, D. D.

THE ANGELS AND THE SHEPHERDS, V. 15

The story is of the uplands of Bethlehem, on Christmas morning. To announce the birth of the Wonderful Babe a vast choir of angels has sung praise to God out of the opening heavens. Then the anthem ceased, the splendor was withdrawn, the curtain of the heavens closed again, the familiar sky arched above the silent fields. Mary and Joseph were poor working people, and so were these shepherds. If the story were invention, a myth, it would not be thus written, but the characters would be high-born, as befitting the King of Glory. These shepherds were tending the flocks from which sheep were taken for offering in the temple at Jerusalem five miles away. The angel of the Lord announced the birth that day, in the city of David (Bethlehem, David's birthplace) near by, of "a Savior, who is Christ the Lord," that is, the long-expected, a clearly prophesied Messiah, the Son of God who was to redeem the world. They were to know the babe by the token that he would be lying in a manger.

MOTHER'S BELIEF IN THEIR CHILDREN

"A wise mother, like a wise statesman, will abound in sympathy. Everything that interests her children will interest her; she will delight to share in their pastimes as in their studies; she will be as prompt to partake of their disappointments as of their anticipations. Mary, the friend and biographer of Christ, tells us that the poet seldom mentioned his mother without a sigh. All that was best in his character and genius he inherited, and all his happiest hours he spent in her love. The talent which Lord Byron inherited from his mother she carefully cultivated,

and his earliest efforts in composition sprang from her enlightened encouragement. It was as his mother may find hope in record Burns' genius was kindled. Every mother may find hope in the record of the struggling St. Augustine's mother, Monica, to train her gifted son in the ways of peace and purity. "What," Napoleon once inquired, "is yet wanting in order that the people should be properly educated?" "Mothers," was Madame Campan's significant reply. The emperor immediately seized upon it. "Yes!" he exclaimed, "here is a system of education in one word!"

THE LAST GLIMPSE OF MARY

Acts 1:14

"These all continued with one accord in prayer and supplication, with the women, and Mary the mother of Jesus, with his brethren."

"We have but one more glimpse of Mary. In those early days before the coming of the Holy Spirit at Pentecost, but after their last sight of their Lord when he had ascended from the Mount of Olives, the apostles were in the habit of meeting together in the upper chamber where he had taken the last supper with them; and with the apostles were certain women, among whom was Mary the mother of Jesus with his brethren. At this point Mary fades entirely out of view. One tradition relates that, true to his trust, St. John remained in Jerusalem watching over her till her death, and did not go to Ephesus (A) after that event—a likely enough conjecture."

THE MOTHER'S TASK

"The mother's art is the most difficult perhaps in the world. She has to train the body through the most delicate and exposed period of its existence; she has to carry it through the period when particular diseases invade it; she has to attend to the physical developments of the entire man, in beauty in strength, in healthfulness. And then at the same time she has to rear the intellect and the heart to judge of a thousand difficult questions of conscience, that are rising up almost every day in her sphere. If an apprentice must be sent for a certain term of years to learn the simple trade of making a watch or a shoe or a hat, what shall we say of her that undertakes to mould the mind of immortal man, to prepare it to be steadfast amid the trials of life, and then to pass to the spheres of endless glory? Well might angels wish to take the place of a mother!"—Rev. Robert E. Tyler.

"It matters not how capable how wise, how devoted the mother may be; the fact that she does her part well does not free the father in any degree from his share of the responsibility."—J. R. Miller.

Mother and father working together, in mutual love and in unity of ideals, give to their children, under God, all that they have and are. The children cannot be too grateful. As their parents grow aged let their lives be brightened by the love and reverence of their children, which will be all the return they want for their long years of self-sacrificing toil.

THE MOTHER'S HEART

"The heart of a true mother overflows. She pours out her best for her own children, and she has something left for children less fortunate than her own, who are hungering for what has been denied them. Much of the glory of life comes just because there are women with the hungering mother heart, the heart that is filled with the spirit of Him who longed to gather to his arms the needy children of earth, even as a hen gathers her own brood under her wings, who are never satisfied with the love they can give, but long to give always more, and to include in this love not only those in their own homes, but those whom love has passed by."—Rev. John T. Paris, D. D.

"The greatest battle that ever was fought. Shall I will you where and when? On the maps of the world you will find it not."

"Twas fought by the mothers of men."

French film companies have begun large-scale production of talking pictures.

RID OF POISON, FEELS BETTER

Constipation Relieved by Help of Black-Draught, Without Bad After-Effects.

Lake View, S. C.—"I always keep Theodor's Black-Draught in my home to take when I feel a sick headache coming on, for, after taking a dose of Black-Draught I quickly recover," writes Mrs. Fannie Rogers, of this place.

"Every so often when I get dull and feel listless, my eyes hurt and I have a sick, nauseated feeling, my color gets yellow and I don't sleep well, then I believe I am full of poison and my system needs a thorough cleansing. I start taking a course of Black-Draught, and in a few days I feel like a different person. My energy comes back and I am able to do my work without much effort."

"Black-Draught is a fine medicine for constipation. It gives quick relief and I prefer it to others because it is a vegetable compound and there are no bad after-effects. It sets me up right off."

Constipation does up poisons in the bowels, where they are absorbed into the general system, causing many serious symptoms. At the first sign of constipation, take Black-Draught.

4th Annual
Harvest Sale

GROLLMAN'S HARVEST Sale

Store-Wide
Reductions

Our Great Fourth Annual Harvest Sale will launch on its second day Saturday. The way people responded to our announcement of the first day's selling proves conclusively that Grollman's reputation for honest values is recognized. If you are not getting your share of these very worthwhile savings in fresh new fall merchandise, we say, come here Saturday to a newly remodeled store and investigate, share in the savings.

Coat Values

Supremely Fashionable

Here is a group of the most lovely styles and fabrics—copied from expensive models—semi-fitted or straight line models—a value that will astound you when you see and realize—you will think it impossible.

\$16

Smart new coats—lavishly trimmed with the season's most popular furs—every coat is full lined with pure silk—never before such coat values at this height of the season—a genuine Harvest Sale value.

\$25

Giving you the latest word in fashion, these fine coats spell that tone of style wanted by all women—lavish—various—in appeal—they will charm you with their newness in semi-fitted, belted and flared in trico broad-cloth, and other new fabrics.

\$38

Here are coats with wolf, fox, fitch, mink, squirrel and kit fox trimmings—most wanted shades in materials of suede finish a n d mixtures—you will expect them to cost much more.

\$58

Hundreds of Smart New Frocks in Our Harvest Sale

FALL DRESSES

Every dress is a value in this group, every dress is extraordinary in style and workmanship—every dress has good materials—some with shell pebbly finish—lightweight woolsens, tweed looking prints—a frock for every need.

\$8.95

SMART NEW FROCKS

To appreciate this lovely group, you must attend our fourth annual Harvest Sale—an outstanding presentation of the new modes—lovely can-ton crepes, travel prints—light woolsens—covert jacket dresses—boleros, tunics, flares, every smart style of the season.

\$13.95

In our group of \$23.85 dresses there is quality, fascinating new styles, workmanship, minute trimming details, wanted shades and fabrics—copies of much higher priced models—come to the Harvest Sale where value reigns supreme.

\$23.85
