Injured in Car Wreck

Mayor and Mrs. C. E. Forbes Are
Called to Fort Worth Where
Her Brother Is Injured

Mayor and Mrs. C. E. Forbes and
Miss Neita Westbrook left for Fort
Worth Sunday to see the ladies' brother,
Mid Westbrook, who was seriously
injured in an automobile
accident between Fort Worth and
his home in Kerens, Saturday, De-
cember 4. No word has been re-
ceived as to his condition since
their departure, but his condition is
thought to be grave.

Mr. Westbrook, who is a banker
in Kerens, is a brother of Zach
Westbrook, pioneer farmer, who
formerly resided in the southwest
part of the county. His family was
with him at the time of the acci-
dent but were uninjured.

Asa Huston, Chino, Calif., and
George Huston and son, Phillip, of
Gridley, Calif., visited last Wednes-
day and Thursday in the home of
their brother, Fred Huston and fam-
ily. They were enroute to their home
after spending Thanksgiving hol-
idays with their mother, Mrs. E. P.
Huston, Idabel, Okla.

Cash Prizes Are Offered For Yuletide Home Decorations

The Perryton Junior Chamber of
Commerce is sponsoring a home
and lawn yuletide decoration con-
test in the city for the holidays
with \$25.00 in cash and merchandise
to be given away in prizes for the
best outdoor home decorations.

The decorations should be put up
at once and placed in the windows
on the house and on the lawn
where they may be seen from the
street, as the purpose of the con-
test is to encourage the yuletide
feeling among the people of Perry-
ton and to make our resident sec-
tion colorful and pleasant during
the holiday season.

The judging will take place be-
tween December 20 and December
25, therefore the decorations should
be put in place at once. They do not
have to be expensive or elaborate as

XMAS BASKETS FOR THE POOR

AMERICAN LEGION ANNUAL
DISTRIBUTION OF FOOD TO
NEEDY PLANS GET
UNDER WAY

Final arrangements are now being
made by the American Legion for the
distribution of baskets filled
with everything for a regular
Christmas dinner to every needy
family in the Perryton community.
so states Post Commander J. H.
Nail. While the Legion will sponsor
the "Christmas Cheer" program as
in years past, Mr. Nail states that
the Post does not have sufficient
funds to defray all of the expense
which will be considerable, hence
the public is being solicited for sub-
scriptions. Sibley Jines heads the
finance committee that will have
charge of raising the money. Vol-
untary donations will be accepted
by Mr. Jines or they can be left at
the Herald office.

The general committee to list
and investigate needy families is
headed by W. H. Lackey and A. N.
Dowers. This committee will also
supervise the purchase of all foods
and the filling of the baskets. The
distribution committee is composed
of A. W. Henry, R. J. Barlow, Kirt
Williams, E. W. Thomas, E. B. Gy-
ger, A. N. Dowers, Sibley Jines, and
H. C. Graham.

Needy and deserving families can
be listed with either Mr. Lackey or
Mr. Dowers and if after a thorough
investigation they are deemed wor-
thy, they will be placed on the ap-
proved list for a basket.

LOWER FREIGHT RATE HEARING

NOT REPRESENTED AT FREIGHT
RATE HEARING, COUNTIES
DROPPED FROM LIST
ON DECEMBER 6

Nine Panhandle counties were re-
fused an extension of the current 25
per cent freight rate reduction on
livestock feeds by the Texas Railroad
Commission on Monday, December 6,
because of lack of representation at
a hearing before the commission.

The counties stricken from the list
are Carson, Dallam, Hansford, Har-
ley, Moore, Oldham, Potter, Randall,
Sherman and Stephens.

Testifying before the commission,
ranchers and agricultural agents
presented a bleak picture of range
conditions in 30 Panhandle and South
Texas counties suffering from lack
of sufficient rainfall, and urged the
reduction granted them until Decem-
ber 31 be extended through the
remainder of the winter.

Counties from which evidence was
offered in support of continuation of
the emergency rates were Atascosa,
Bee, Brooks, Dimmitt, Duval, Frio,
Goliad, Gray, Hemphill, Hutchinson,
Jim Hogg, Jim Wells, Kinney, Kleb-
erg, Karnes, LaSalle, Lipscomb,

SNOW FLURRIES AND BE- LOW FREEZING WEATHER

Snow flurries Tuesday night
and during the day Wednesday
brought a trace of moisture and
a decided drop in temperature,
Tuesday night being the coldest
of the winter with the tempera-
ture going to about 15 above.
Continued cold weather will
freeze over the water holes for
the skaters enjoyment.

November was a dud in this
vicinity as far as moisture was
concerned, with the total mois-
ture as recorded by Jack Allen,
weatherman, of only .13 for the
entire month. This came from
1.5 inches of snow which fell
November 22. The total for the
previous month of October was
1.67 inches.

In The Spotlight

Two thousand people jammed
the sales room at the Universal
Motor Co. last Saturday to see the
1938 Ford V-8. The Herald does a
little "chest swelling" and takes
just a little credit for every single
line of publicity for this showing
was made in the last issue of this
newspaper. Manager Liel Lewel-
len informs us that this was just
as large a crowd as 1928 when the
Model "A" was introduced after a
year of hally-hee and non-pro-
duction by the Ford factories. The
Universal Motor Co. did not know
themselves until last Wednesday
afternoon that they would have
the new 1938 Ford on display Sat-
urday. The first and only an-
nouncement was made through
the Herald's advertising and news
columns. No hand bills or any
other advertising medium was
used but the results were remark-
able. It goes to prove what our
advertising department says, "Her-
ald advertising or no other brand
of advertising is guaranteed to sell
your merchandise, but "smart" ad-
vertising in the Herald will get
people into your place of business
for the Herald has "bought and
paid for" coverage and reader in-
terest.

And while we're talking about
advertising, has it ever occurred
to you just who makes possible
the publication of your home
town newspaper? Who pays the
bill for publicity of the schools,
churches, clubs, agricultural pro-
grams, community development
and the thousand and one things
that make up our small town and
country life? Who makes it pos-
sible to publicize births, the wed-
dings and the deaths? Who pays
the bill for the personal comings
and goings locals that fill the col-
umns? Who underwrites the op-
eration of the "show window" to

six such crossings which have been
built by the city at particularly bad
intersections in that vicinity. These
crossings have long been difficult to
cross in wet weather and their value
to motorists far exceeds the cost of
building the dips.

Two 1938 Ford V-8 Cars Displayed

TWO distinct lines of Ford V-8 cars are now being displayed in dealer showrooms. One is a newly-styled standard Ford line in three body types, the other a de luxe Ford line in eight body types. The de luxe sedan is pictured above. The de luxe sedans are larger in appearance, with longer hood and sweeping lines. The de luxe cars are powered with the 85 horsepower V-8 engine, the standard cars with either the 85 or the 60 horsepower engines. Newly-styled interiors are pictured at right. New instrument panel has instrument group in front of driver, grille for radio speaker installation in center, flanked by engine controls and cigar lighter, and glove compartment at right. In the de luxe cars, the compartment locks, and a clock is recessed in the compartment door.

A headlight beam control is fitted on the toe-board, a tell-tale light on instrument panel indicates whether the headlight beams are raised or depressed.

HOLIDAY ACCIDENT BY OBSERVING LAW OF THE ROAD

the approach of the Christmas holidays, many persons are making plans to visit with home folks, who are at a distance. At this time of the year, there are more car accidents, and persons are fatally injured. Persons would familiarize themselves with traffic regulations, there are fewer accidents. Do you know the traffic rules?

Division of Public Safety of the Highway Department of Texas, working to promote public safety. Under the Texas Highway Article 803, any peace officer is authorized to arrest without a warrant any person found committing a violation of any provision of the traffic laws. Knowing the traffic laws, the driver can keep said driver from a violation, and arrest.

Following extracts from the law, referred to as "Law of the Road" will be of value: Every driver or operator of any motor vehicle upon any public highway, wherever practicable, shall keep to the right hand side of the highway. Two vehicles which are approaching each other in opposite directions shall have the right of way to the vehicle on the right of the other of such two vehicles. No driver shall attempt to pass such vehicle.

When proceeding in opposite directions, each shall give the other the right of way on the highway as nearly as possible to the duty of the driver, rider or operator of a vehicle about to pass and passed to give way to the vehicle on the overtaking side on suitable and audible signal.

Where controlled by such regulations enacted by the authorities, as are permitted by law, the operator of a vehicle approaching an intersection of public highways shall yield the right of way to any vehicle approaching from the intersection from the right of such first named vehicle.

The duty of the person operating in charge of an overtaking vehicle to sound audible and signal before passing a vehicle proceeding in the same direction. Vehicles approaching an intersection of the public highway shall give the right of way to the vehicle on the right.

keep to the right of the center of such intersection, and in turning to the left, shall run beyond the center of such intersection, passing to the right before turning such vehicle to the left.

"Every person having control or charge of any motor vehicle or other vehicle upon any public highway and approaching any vehicle drawn by horse or horses, or any horse upon which any person is riding, shall operate and control such vehicle in such manner as to exercise every reasonable precaution to prevent the frightening of any such horse and to insure the safety of any person riding or driving the same."

"Before attempting to pass any railroad train, interurban car or street car stopped for the purpose of receiving or discharging passengers, every operator in charge of a motor vehicle or motorcycle approaching the same from the rear and proceeding in the same direction shall bring such motor vehicle or motorcycle to a full stop and shall not start up or attempt to pass until the said railroad train, interurban car or street car has finished receiving and discharging its passengers. Cities may provide for safety zones."

"Police patrols, police ambulances, fire patrols, fire engines and fire apparatus in all cases while being operated as such shall have the right of way with due regard to the safety of the public."

"Any person while operating or driving any motor vehicle upon a public highway who shall violate any provision of this article shall be fined not exceeding one hundred dollars."

"Tim" On The Way Up

J. BLAKE (TIM) TIMMONS

Austin, Texas, December 1.—J. Blake (Tim) Timmons, 21-year-old Amarillo youth, who has been in charge unofficially of the voluntary county parole board system established by Gov. James V. Allred as a member of the Governor's staff, today became assistant to the commissioner and office manager of the Texas Fire Insurance Department, it was announced by Commissioner Marvin Hall.

Young Timmons, nephew of the noted Washington correspondent from Texas, Bascom N. Timmons, was a member of the Amarillo Globe-News staff and police and courthouse reporter for the Austin-American-Statesman, before he joined the Governor's staff early last year.

He worked his way through high school in Amarillo, attended Amarillo College and the University of Texas, continuing the study of law in the Governor's office.

Interested in government and politics at an early age, "Tim" worked in Allred's first campaign for governor and served as assistant secretary of the 1934 Democratic convention at Galveston at the age of 18. He is the son of Mr. and Mrs. Jerome Timmons of Amarillo and has four younger brothers. His grandfather, John L. Blake, 91, of Plainview and Amarillo, is one of the few remaining ex-Confederate veterans of the the Panhandle.

A sliding mountain convinced Hollywood's movie moguls that Dame Nature is still in the super-colossal producer class.

HIGH SCHOOLS IN PANHANDLE

NINETY SEVEN ACCREDITED SCHOOLS IN PANHANDLE TODAY; PERRYTON IS APPROVED 1923

According to information furnished by the West Texas State College, there was only one accredited high school in the entire Panhandle in 1910. That was Amarillo high. This was the year that West Texas State College was established at Canyon.

Today there are 97 accredited schools in the Panhandle, according to statistics compiled by D. A. Shirley, registrar of the college, in the same area.

The number of accredited schools was three in 1911, Dalhart and Hereford high schools having been proved by the University of Texas. Canyon became accredited in 1912. Plainview, Childress and Clarendon in 1913, Memphis in 1914, Canadian and Floydada in 1915, none in 1916 and Lockney and Tulla in 1917.

Rapid strides were noted in 1918, when the number grew to 24. Ochiltree was among this number. Then in 1919, the town of Perryton was founded and the largest percent of the population of Ochiltree moved to Perryton. However, the Perryton high school was not affiliated with the State Department of Education until 1923. Booker and Pollett were also approved in 1923.

There were 132 Texas schools accredited by the University in 1910 and 228 in 1917 when the State Department of Education began its system of affiliation. The number grew to 1,242 by 1937.

Scholastics in the 32 Panhandle counties studied totaled 20,618 in 1910, compared with 71,076 of record this year. In 1910 the pupils were distributed as follows by counties: Dallam 552, Hansford 222, Hartley 373, Hemphill 461, Hutchinson 191, Lipscomb 432, Moore 167, Ochiltree 313.

Present scholastics by counties: Dallam 1,686, Hansford 830, Hartley 426, Hemphill 1,133, Hutchinson 3,552, Lipscomb 959, Moore 1,038, Ochiltree 1,018. The peak of the scholastics in the 32 counties was in 1930. There has been a recession since that time, with the current figures standing at 71,076. Boom

years, the oil development, and the depression affected the totals, and general agricultural development, especially growing of cotton, boosted the scholastics in some counties, notably Lamb and Bailey.

Watch Child's Health

Carelessly Handled Mild Diseases Often Cause Serious Epidemic Among Other Children

Austin, Texas, Dec. 7.—"It is a great mistake to treat even light cases of measles, chickenpox, scarlet fever, mumps, or any other of the communicable diseases of childhood as though they did not amount to much," states Dr. Geo. W. Cox, State Health Officer. "Treatment of that sort makes it possible for these diseases to spread and cause serious outbreaks among children whose impaired resistance makes them easy victims to any form of infection."

"Some of the most serious outbreaks we have had of scarlet fever, as well as of other diseases in different parts of the State, have been traced to mild cases—that is, to cases too light for the doctor to be called. In some instances the children have continued to go to school and to associate and play with other children. In others, after they have been kept at home for a few days suffering from what was believed to be just an ordinary cold,

they have returned to school and have scattered these germs around among their schoolmates. Eventually a group of cases—sometimes very serious ones—have developed from the carelessly-handled mild case. The result was another epidemic that could have been prevented."

"There are several things worth remembering in connection with children's diseases. Nearly all these diseases begin with a digestive upset or with symptoms closely resembling those of the common cold. Accordingly, it is a wise thing for mothers to regard every digestive upset and every common cold with suspicion until you are sure it is not the beginning of something more serious."

Your doctor is the best judge of the seriousness of such symptoms, and you will save suffering and anxiety if you put the child to bed, send for your doctor and follow his advice.

Mrs. W. L. Werneburg will receive one pound of SWEET CREAM BUTTER free upon presentation of this advertisement to the Perryton Creamery on Saturday, December 11th.

HEAR ADDRESS ON VENEZUELA

FORMER RESIDENT OF VENEZUELA
TALKS TO STUDENTS
ON HER EXPERIENCES
ON DECEMBER 1

A special chapel was held Wednesday, December 1. Mrs. J. G. Richards, Higgins, Texas, entertained the student body with a very interesting talk on Venezuela. She has resided there for the last three years, and of course she knows all the customs and styles of the inhabitants of Venezuela.

Mrs. Richards exhibited several interesting articles which she had personally collected. One trophy of special interest was a mounted tiger. Her husband had killed it and had it mounted. She told a very interesting story of the fate of the tiger.

Mrs. Richards also displayed several garments that were worn by the natives of Venezuela. The native women wear long dresses and veils.

CAMPUS CHATTER

Basketball season is with us again. Attention is focused on the tournament in our gymnasium, Friday and Saturday, of this week.

Among the girls who have lately reported for Rangerette practice are Barbara and Carolyn Chase, and Velma Taylor. Each lettered last year, and it is expected that they will demonstrate the ability they have already proved.

Speaking of star players, there is Glenna Williams, captain of the Rangerettes, and a spark-plug of a team even from the first practice. Incidentally, we heard a student say, "If all the players were like Glenna, we could win State."

Now if youse guys and gals want to make the column next week, you had better be at our tournament, yelling with all your vim and vitality.

Coach Burk hopes to keep a part of the laurels at home, with Reimer, McWilliams, and Gyger in there—proving formidable enemies to their opponents.

Among the other outstanding school events this week was "Love in a Boarding House" presented by the Dramatic Club, Tuesday evening. Miss Willie Allen was the capable director.

Then coming up Tuesday evening were practice games between Perryton's boys' and girls' teams and Spearman's.

We haven't done much socially that deserves mention—BUT—there have been a few surprise tricks turned our way. After all, fireworks ARE better than nothing.

"Yeah," Palmer says, "You back your word, and keep backing—down."

"Why don't you speak a little louder, Dale? There are some people in Darrouzett who haven't heard you yet."

Orchids to Bob Lawrence who did such a swell job on "The Drummer's Delight."

"The German Band," composed of Don Farnsworth, Herb Shindler, Harvey Wilson, and Bob Holt, reminded us of the days we spent in old Berlin. "The Zacatecas March" took us back to Mexico City. (That reminds me of my New Year's resolution to learn to speak Spanish.) Congratulations on the entire performance, Director Reed.

The Girl's Trio, composed of Jackie Enfield, Elaine Shockley and Virginia Highland, are in the limelight, having performed recently in high school assembly, at the P. T. A. County Council, and at the Ochil-tree school. We've lost sleep, however, wondering if those two who were "Away up Thar" and "Away Down Hyar" ever got together.

Recovering from headaches caused by report cards are Toots Garrison, Bob Lawrence, William Stark, Harold Witt, et al.

Oh, by the way, by the way, we almost forgot. Who was the teacher who came home from the bridge party Saturday night with the "booby" prize? Where must his thoughts have been? South?

About this time of year we wish the prairies had Christmas trees on them, but we suppose we'll make out very well on imported ones—or none at all.

Come to the tournament!!!

Attend District Meet

F. F. A. and Instructor Attend Meeting Held in Canadian on Saturday, December 4

W. H. Barker, Thomas Swink and C. H. Williams, vocational agriculture teacher, were in Canadian last Saturday for a regular meeting of the Pampa District of agriculture teachers and Future Farmers Association.

The meeting was called to order by F. F. A. district president, Kid McCoy. The regular opening ceremony was used with the district officers in their places. After the business session was over a contest consisting of the opening and closing ceremony for F. F. A. Chapter meeting was held. The White Deer chapter placed first and Claude chapter, second.

The next meeting will be held at Claude on Saturday, February 5th.

ROOM 5-A

This week we have been studying about the North Central states, and we find them very interesting. We have been making Christmas posters for our room and Christmas scenes for our windows.

The ones who made the honor roll are Anna Lou Herndon, Billie Fay Bell, Gale Rogers, Emma Lee Weldon, Joan Boston, Joyce Lance, O'Neal Wilson, Dorothy Jean Crisp, Kathleen Brillhart, Billie Louise King and Earlean West.

We have made posters for the basketball tournament.

At the last P. T. A. meeting the fifth grades won the picture.

CHAPEL PROGRAM

The Girls' Trio, composed of Elaine Shockley, Virginia Highland, and Jackie Enfield, sang two numbers during regular assembly, November 30. Audrey Brannon played two accordion solos. The trio then sang another number. Ruth Neufeld sang "The Merry Go Round Broke Down." The trio and Ruth Neufeld were accompanied by Miss Ruby Neufeld.

Cleo Payne announced a play, "Romance in a Boarding House," which was given Tuesday night.

Mr. Kelley requested that all the students inquire if they could keep some of the contestants during the basketball tournament, December 10th and 11th.

Mr. Burgess expressed appreciation for the new books which have been donated to our libraries by Mrs. A. N. Dowers and Van W. Stewart.

SOPHOMORE PARTY

A sophomore party was given in the school cafeteria, Friday evening, December 3.

Our room mothers, Mrs. Elzey, Mrs. Wade, and Mrs. Jackson, and Mr. Burgess, Supt. of Schools, were present in addition to about 40 class members.

During 10-Minute Chapel, December 2, Mr. Burgess gave a very interesting talk on the importance of making good grades. He gave a comparison between the students who studied hard and made good averages and those who did not. He then showed the comparison between the students in later life.

HOW TO STUDY

Starting out on a new six weeks, and it being the last six weeks of the semester too, I thought that a formula on "how to study" wouldn't be out of place.

First, one must get into the mood to study. You can't get all keyed up over a new taffeta formal that you want for Christmas and then sit down and work ten or twelve chemistry problems, just like that. You'll be more likely to see yourself dancing across the page in said dress.

After you get into the mood to study, then get everything that you will need and put it on your study table so that everytime you get an idea for your theme you won't lose it while you are looking for a pencil to write it down with.

When everything is ready to start studying, you then decide what you want to study first. (It wouldn't be a bad idea to do the hardest lessons first. That way if you get too sleepy before you are through studying, the easy ones can be quickly done before school time the next morning.)

One thing more before you start the actual studying—turn off the radio. How can one be expected to concentrate on a dull geometry problem when your favorite orchestra is playing your favorite song, or Gracie Allen has just told a funny incident about her "little blue hat?" Here's wishing you luck on your next report card.

HOMEMAKERS' CLUB

It was discussed and planned, during club period Thursday, to have a Christmas party, Monday, December 20, for all Homemaking girls. Each girl is to bring a present.

A very short discussion, on club pins was given.

LETTERS TO SANTA CLAUS

Please bring me a new story of Shakespeare. I'm tired of teaching this one.

Dear Santa Claus:
Perhaps it isn't the best thing for me, but I'm one who looks into the future. Would you please bring another basketball tournament next year? I've been a good little boy.

As ever,
E. D. Kelley.

Dear Santa:
Will you please bring me some stamps for Christmas? I have written so many letters this year that I can't afford to buy both stationery

After Avalanche Covered Highway

Tumbling huge boulders to within a few feet of store buildings, Elysian Park's sliding mountain collapsed, burying Los Angeles' famous Riverside Drive under the gigantic mass of debris shown above. Geologists feared any attempts to clear the highway or the wrecked viaduct approach of the Dayton avenue bridge might send the remainder of the hill roaring downward.

Twenty Questions on Social Security

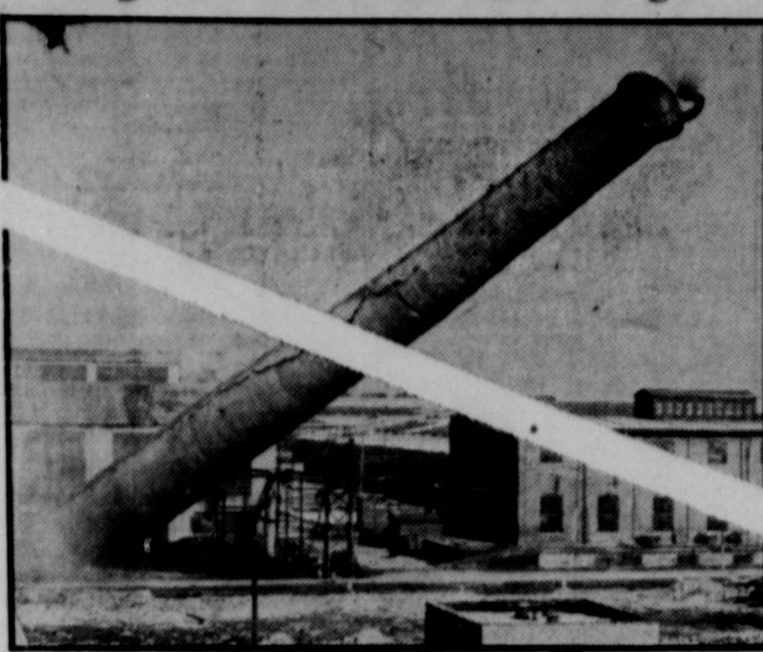

QUESTION: ... records of an individual employee ... set up and kept under the old-age ... fits provisions of the Social Security Act?

ANSWER: An account is opened for each employee by the Social Security Board at its Wage Records Division in Baltimore, Maryland, shortly after the employee receives his account card from the postmaster. This account is credited with the amount of wages paid the employee in covered occupations after the year 1936 and before he dies or attains age 65.

The amount of such wages is determined from reports submitted to the Treasury Department by employers in July, 1937, and quarterly thereafter. These reports, known as informational reports, are forwarded to the Wage Records Division of the Social Security Board where the amounts of wages are credited to each employee's account.

An employee may, if he wishes, inquire of the Social Security Board at any time regarding the amount of wages reported by the employers and credited to his wage account.

Gigantic Stack in Final Plunge

Crumbling as dynamite charges blasted its foundation, this 225-foot smokestack of a Chicago industrial plant is shown above falling to the ground. The stack began to crack two years ago after it had been struck by lightning.

Thomas discussed the need and ways of saving the meat produced by the farmers. William Deck gave an interesting account of the lecture made by Secretary of Agriculture Wallace, at Wichita in which he showed the effect of the prospective wheat production of 1938 on the price of wheat. He also explained methods suggested for turning a portion of the land back to grass.

Mr. Tomlinson stated: "It has been found that marginal land, as a rule, is occupied by the poor farmer. If the government takes over this land, what will become of the poor farmer? Will he go back on relief? Our consumption of wheat has dwindled because our people do not have money to buy."

The association adjourned to meet next on December 24.

CHRISTMAS REFLECTIONS

Numerous indeed are the hearts to which Christmas brings a brief season of happiness and enjoyment. How many families whose members have been dispersed and scattered far and wide, in the restless struggle of life, are then re-united, and meet once again in that happy state of companionship and mutual good-will, which is a source of such pure and unalloyed delight, and one so incompatible with the cares and sorrows of the world, that the religious belief of the most civilized nations, and the rude traditions of the roughest savages, alike number it among the first days of a future state of existence, provided for the blest and happy.

How many old recollections, and how many dormant sympathies, Christmas-time awakens.

I write these words now many miles distant from the spot at which year after year, we met on that day, a merry and joyous circle. Many of the hearts that throbbed so gaily then, have ceased to beat, many of the looks that shone so brightly then, have ceased to glow, the hands we grasped, have grown cold, the eyes we sought, have hid their luster in the grave, and yet the old house, the room, the merry voices, and smiling faces, the jest, the laugh, the most minute and trivial circumstance connected with those happy meetings, crowd upon our mind at each recurrence of the season, as if the last assemblage had been but yesterday.

Happy, happy Christmas, that can win us back to the delusions of our childish days, recall to the old man the pleasures of his youth, and transport the traveler back to his own fireside and quiet home.—Mrs. M. P. Browning.

NEWS of the WEEK by FOSTER GILROY

LINDBERGS HOME ON VISIT

Englewood, N. J.—Colonel and Mrs. Charles A. Lindbergh returned from a self-imposed two-year exile in England to spend the holidays with Mrs. Lindbergh's mother, Mrs. Dwight Morrow. They preserved the greatest secrecy on their arrival, and it was announced that their two children remained in England. Inquiries at the State Department at Washington as to whether the aviator's visit was occasioned by any necessity for renewing his passport because of his British residence, brought the reply that he was still an American citizen and would remain so until he formally renounced his allegiance.

INFANTRY STILL SUPREME

Washington, D. C.—Modern warfare as observed in Spain and China according to a report by General Malin Craig, Chief of Staff of the U. S. Army, has demonstrated that massed manpower is still supreme, and that neither the tank nor aircraft can overcome well organized infantry units. He points out that Madrid still holds out against the longest and most highly concentrated attacks by air and mobile motor units known to modern warfare.

JAPAN BOMBS BRITISH CRAFT

Nanking, China.—International tension was increased in the Far Eastern war between China and Japan when Japanese planes bombed a British gunboat and two British merchantmen near this city. The commander of the naval vessel was wounded and one of the cargo ships, carrying many refugees, was beached, a total loss.

PRESIDENT HASTENS RETURN

Washington, D. C.—Cutting short his Florida fishing trip by several days, President Roosevelt returned to the White House to have his jawbone scraped if necessary to remove the effect of an ulcerated tooth extracted before his departure for the South. His return to the Capital is expected to spur action on important bills now pending before Congress. Foremost among the Administration measures on which no action has been taken in the three weeks of the special session are the Wages and Hours Bills and the Farm Program. Both bills are bogged down in uncertainty, the agricultural bills being especially doubtful of passage in their present form.

THE WEEK IN BUSINESS

A drop of only 1 per cent in steel production is believed to indicate the end of the current recession in industry. "Some producers," states the Steel, "booked as much business in November as in October, indicating a leveling of demand. . . . Because of the loss of the California-Manila mail subsidy, the Dollar Line is suspending the New York-California-Orient service of its "President" class ships. . . . American Bureau of shipping announces 117 vessels aggregating 309,000 tons under construction in American shipyards, the largest being the 24,800-ton liner laid down at Newport News for the United States Lines to replace the Leventhian, which is destined for the scrap heap, probably in England. . . . Manufacturers agents report that retail stores are buying very cautiously for Spring consumption. . . . Sentiment in both London and Paris reflects the belief that any modification of President Roosevelt's attitude toward business will effect an immediate upturn in American industry. . . . During the first ten months of the year U. S. exports of cigarettes reached 4,776,566,000, a gain of a billion over the same period in 1936. Exports of other tobacco products declined by \$7,000,000.

GOVERNOR URGES G. O. P. PURGE

Montpelier, Vt.—Governor George D. PLANE SPECIFICATIONS CHANGED

Washington, D. C.—Because no American airplane manufacturer could comply with the Postoffice Department's specifications for planes to serve new postal routes in

Alaska, the specifications have been changed to provide for smaller load capacity. SETS HORSE'S BROKEN LEG

Ardmore, Pa.—When a 5-month-old filly belonging to a nearby horseman broke her leg romping in the paddock, he refused to follow tradition by destroying her. Instead he brought her to a local hospital where veterinarians set the bone between stainless steel bars. Dr. Otto Stader has used the same technique on nearly 200 dogs, and believes that he may reverse the dictum of horse-breeders that a horse with a broken leg must be immediately shot.

London, England.—Col. Josiah Wedgwood, fighting Labor member of Parliament, proposes that the Duke of Windsor be put to work in behalf of the British Empire, being "perfectly eligible as Governor-Gen-

eral of Canada or Australia." He points out that such a job would end the "present silly persecution" of the once-King Edward VIII.

BLUE LAWS DEFIED

Bellevue, Va.—Because a local movie theatre was forced to close, citizens united to make the Sunday blue laws of 1790 ridiculous. Men carried battered muskets to church because they had to do it 150 years ago by law; others mowed their lawns because it once was against the law; merchants sold everything banned by statute. Lawyers say it will be 40 years before malefactors whose names were taken by policemen will ever reach trial.

WHEAT ACREAGE, YIELD, AND PRODUCTION INCREASE

College Station.—A resume of recommendations made by program planning committees over the nation's wheat belt shows that they recommend 66 million acres as the ideal wheat acreage, according to W. E. Morgan, economist in program planning of the Extension Service division of Texas A. and M. College.

The recommendation is based on past acreages, yields, consumption, carry over, and land use, Morgan said.

If in 1937-38 farmers seed 81 million acres of wheat, as they did last year, and if yields are average, they will produce a crop of 950 million bushels. This, with the estimated carry over, will give a supply of more than a billion bushels.

A billion bushels supply would be some 350 million bushels more than we ordinarily use for domestic needs, Morgan pointed out.

Exports of American wheat have declined for the past 15 years, and there is little likelihood that the export market will absorb any considerable part of the carry over that large. This situation probably would depress domestic wheat prices to an unfavorable level, according to Morgan.

Mr. and Mrs. Ralph Gregory are the parents of a seven pound son born at the Beaver hospital on Wednesday, December 1.

NEW HOPE CLUB

Mrs. A. M. Koehn, Reporter
The New Hope Home Demonstration club met in the home of Mrs. R. E. Taylor on Wednesday, December 1.

At this meeting the members quilted two quilts and made plans for a Christmas party.

Those present were Mesdames: Carl Carter, O. E. Carter, J. E. Yeaton, W. G. Yeary, Charlie Cudd, Ben Jones, W. F. Taylor, Frank Wolf, George Budock, John Budock, Lloyd Furnish, W. L. Lovett, A. M. Koehn, Miss Dora Wolf and the hostess.

CHURCHES

CHRISTIAN SCIENCE

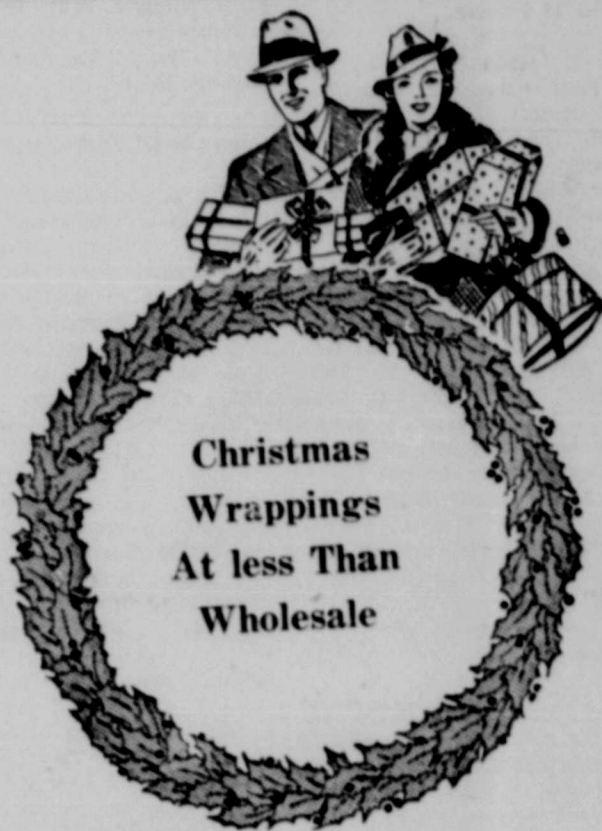

"God the Preserver of Man" is the Lesson-Sermon which will be read in all Churches of Christ, Scientist, on Sunday, December 12.

The Golden Text is: "The Lord shall deliver me from every evil work, and will preserve me unto his heavenly kingdom: to whom be glory for ever and ever" (II Timothy 4:18).

Among the citations which comprise the Lesson-Sermon is the following from the Bible: "The Lord is good to all: and his tender mercies are over all his works" (Psalms 145:9).

The Lesson-Sermon includes the following passage from the Christian Science textbook, "Science and Health with Key to the Scriptures" by Mary Baker Eddy: "To those leaning on the sustaining infinite, to-day is big with blessings. Divine Love always has met and always has met and always will meet every human need" (Preface vii, page 494).

Fred Huston and daughter, Edna returned last week from Isabelle, Okla., where they spent Thanksgiving with his mother, Mrs. E. P. Huston. All the Huston children were home for the first time in eight years.

Greenwich Village Folly

There's trouble in this bridal suite of an ocean liner as Marc Lawrence threatens Richard Arlen (wearing hat), Fay Wray and Leon Ames with a gun concealed in his coat pocket. All this, and more, takes place in Columbia's new picture "Murder in Greenwich Village", showing Thursday and Friday, December 9-10 at the Ellis Theatre. Wyn Gibson, Raymond Walburn, Mary Russell, Scott Colton and others are in the cast, too.

NEW UNDERSEA DRAMA COMING

GREAT STARS APPEAR IN CAST OF THRILLING SUBMARINE STORY AT ELLIS

Declared as the greatest motion picture ever made with an undersea boat as its subject and locale, "Submarine D-1" shows at the Ellis Theatre Sunday and Monday, December 12-13. It is a Warner Bros. melodrama starring Pat O'Brien and George O'Brien, featuring Wayne Morris. In the making of the United States Navy Department deserves as much credit as the film, for it threw open to the camera its submarine establishments at San Diego, Cocos Coco in the Panama Canal Zone, and New R. I.

The most modern of submarines, called the D-1 and also bearing the title of Dolphin, was used in all diving and surface-running scenes. It was impossible of access in the limited space aboard a submarine, to find room for men and light crews. So the makers built at the studio a scale of the D-1, cut into ten

different sections, and outside the ends of these sections the technicians were able to operate their apparatus for closeup shots.

The story of the D-1 was written by Commander Frank Wead, U. S. N., who was the author of "Coffin Zero" and other stage and screen hits.

Pat O'Brien and Wayne Morris play a couple of young submarine crewmen who have developed two great inventions—a device to shoot men safely to the ocean's surface if a ship is sunk, and another device to raise the U-Boat itself.

In the story the D-1 is rammed and sunk during some war game maneuvers, and the boys' inventions get a chance to show their worth. They are successful in saving the sub's whole crew and its heroic commander.

Scott Amed, soil conservationist, was ill in his home several days last week. He is improved now.

Mr. and Mrs. H. A. Wilson and son, Harvey, and Mr. and Mrs. E. M. Allen and baby surprised Mr. and Mrs. Bill Wilson with a birthday dinner Sunday.

Mr. and Mrs. James White of Spearman moved to the Bud Smith place on Palo Duro Creek this week.

In Another Triumphant Role

Greta Garbo as the fascinating patriot, Countess Marie Walewska, who becomes the favorite of Napoleon Bonaparte in "Conquest," showing at the Ellis Theatre Tuesday and Wednesday, December 14-15. The incomparable Garbo adds another unforgettable role to a long list of triumphs. Charles Boyer is co-starred in the new picture which comes from the hands of that directorial genius, Clarence Brown.

Love at First Sight

Wayne Morris and Doris Weston, whose work in "Submarine D-1," coming to the Ellis Sunday and Monday, December 12-13, plants them securely in the ranks of the stars.

Garbo Loves Boyer

Spectacular Drama of Napoleon and the Woman He Loved is Portrayed in "Conquest"

Hailed as the most distinguished motion picture in which Greta Garbo has yet appeared, the Ellis Theatre announces with pride its forthcoming showing of "Conquest," Tuesday and Wednesday, December 14-15. A stirring romance of the fabulous Napoleon Bonaparte and the woman he loved, in which the glamorous Swedish star makes her first co-starring appearance with Charles Boyer, hero of "The Garden of Allah" and "History is Made at Night."

In the new story, filled with the memories of an epochal period in world history, Garbo plays the role of the beautiful Countess Walewska who forsakes her home and her husband in an heroic attempt to win over Napoleon and thus save the life of her country. Boyer in an astoundingly realistic makeup is seen as Napoleon whose power-mad determination to rule the world leads him to doom.

The picture is the latest directorial achievement of Clarence Brown who was behind the cameras in the filming of such earlier Garbo suc-

cesses as "Anna Karenina," "Flesh and the Devil," "Romance," and "Anna Christie." Adrian designed a series of breathtaking costumes for the star and Herbert Stothart composed the lovely musical score which accompanies the picture.

As is customary in all Garbo pictures, no effort was spared in assembling a supporting cast of distinction. Reginald Owen is cast as the unscrupulous Talleyrand; Alan Marshal is Captain D'Ornano; Henry Stephenson is seen as Garbo's husband; Lelf Erickson as her brother; Dame May Whitty as Laetitia Bonaparte, and C. Henry Gordon as Prince Poniatowski. There are twenty-four other speaking roles in the imposing cast.

Mr. and Mrs. Chas. Hobbs went to Amarillo Wednesday where Mr. Hobbs attended a meeting of automobile dealers.

L. S. Hobbs of Amarillo spent Friday night in the home of his brother, Mr. and Mrs. Chas. Hobbs. He was in Perryton looking after business matters.

GUARD AGAINST THE HAZARDS COMMON TO CHRISTMAS TIME

Austin, December 8.—Marvin Hall, Texas fire insurance commissioner today called attention to the number of unusual fire hazards which should be guarded against during the festivities of the approaching holiday season.

"A destructive fire is the sworn enemy of the peace and happiness that Christmas should properly bring," Hall explained. "It is important, therefore, to be familiar with the hazards common to the month of December which have in past years caused wasteful loss of life and property."

Some of the "Don'ts" as listed by Commissioner Hall are as follows:

1. Don't decorate evergreen trees with highly inflammable materials.
2. Don't place cotton or lighted candles on the Christmas tree.
3. Don't carelessly smoke or get near an open flame when wearing a cotton Santa Claus beard.
4. Don't place a lighted candle in the window near curtains or other inflammable material.
5. Don't allow small children to

handle fireworks.

6. Don't use pennies or wire to replace blown-out electric fuses.

7. Don't use kerosene or gasoline to start or quicken a fire.

8. Don't permit children and other members of the family to get too close to stoves and open fireplaces.

"Among the many things the people of Texas have to be thankful for this Christmas," Hall said, "is the exceptionally low fire loss of the last eleven months. The first six months of 1937 showed a lower fire loss than any six-month period during the last twenty years. It is doubly important this last month of the year, then, to think of the fire-dangers to life and property which continually threaten to blight rejoicing because of a careless act or the use of an unsafe article."

"If we Texans will but observe diligently all safety rules, particularly those pertaining to fires," Hall concluded, "this Christmas will be one of joy and happiness for all."

THE BETHANY TUMBLEWEED

By School

Another six weeks has gone by and left behind a lot of relieved minds.

Some of the students who thought they couldn't possibly make good enough grades to be on the "B" honor roll put forth a mighty effort and managed to be an "A" student.

An "A" student doesn't mean one who can make from 95 to 100 per cent on an exam paper and recite on every and any question asked by the teacher in the class room. More than that is taken into consideration when making up the list of honor students. The interest he takes in his studies, his attitude toward school life and his personal conduct are elements of an "A" student.

When one student who thinks he should be on the honor roll but has failed to make it, is peeved and feels as though he has been slighted, it is not because a teacher is prejudiced but because the student has failed to put forth his best efforts.

A student who has a good conduct when contrasted with one who is boisterous and rude, cannot help but be favored. That's not saying that conduct is everything. But combined with good grades, they make up an "A" student.

P. M. A. C. GIVES PROGRAM

Two quartets, boys' and girls', and a tenor soloist from Goodwell, Oklahoma gave an interesting program at Bethany Friday evening, December 3. Everything in music from a bit of opera to novelty numbers was given and was especially enjoyed by the students of the music department. We hope we may have the pleasure of hearing them again some time in the future.

ART CLASS

A spot of red, blended with a touch of violet plus a streak of orange and yellow together with blue, and blotted with an ink blotter equal what? A sunset.

The meaning of such babble is that the art class has taken up the use of pastel crayons. They will continue this work for three months. So far, it has been nothing but splashes of color on paper which could resemble anything, provided one had a good imagination.

CLASS NEWS

The high school students held their regular class meetings last Wednesday.

The Freshmen drew names for a Christmas box.

The Sophomores drew names for peanut brothers and sisters and also for Christmas.

The Seniors have decided to order a number of play books and select from them the Senior play. They also discussed the trip which they plan to take in the spring.

GRADE NEWS

Four pupils of the sixth grade have had perfect attendance during the last six weeks.

grade, had an average of one hundred in spelling during the past six weeks.

Eight of the Primary pupils made the Honor Roll during the last six weeks.

International Sunday School Lesson

Comradeship in Christianity

The International Uniform Sunday School Lesson for Dec. 12.

Text: 1 John 1:1-7; Revelation 21:1-7

UPON the fellowship of Christ and His disciples Christianity had its foundation. Jesus surrounded Himself with earnest men, who were devoted to Him and His teachings. Inspired by His example, these disciples went forth to tell others of the Master and to bring them to Him. He taught these new disciples by example and through living with them from day to day. They met upon a plane of humility. He asked from them no obsequious devotion; only the loyalty of those who responded to the teaching of love and grace. The Christian church never comes nearer to its ideal, no matter how large it may grow or how extensive and varied its boundaries, than when it fulfills the simple principles of this early fellowship and brings men into relationships of love and comradeship.

This idea of fellowship is not confined to our lesson or to any one interpreter of the life and words of Jesus. John, in his first Epistle, from which part of our lesson is taken, has given the very highest expression of the reality and privileges of Christian love. "If we walk in the light as He is in the light, we have fellowship with another."

Paul interprets the Christian experience in exactly the same way. Its nature and its climax are found in love, which is the theme of Paul's greatest sermon in the brief 13th chapter of 1 Corinthians. Paul lays stress always upon fellowship in the church. The church is a "household of faith." Its members have the close relationship in an

ideal church of those in a community.

ALL love is mystical in its nature. That is, there is something about it that is instinctive and intuitional, deeper than words and actions; though love would not be very real if it did not find expression in words and in actions.

This mystic bond of fellowship in Christ binds us to one another in a world where Jesus is no longer seen as the disciples saw Him and knew Him. The New Testament commends those Christians who had not seen Jesus but who loved Him.

That is the real love; not the response to the outward form, but the yielding of heart and mind to the teaching and example of Christ, so coming to know Him that He becomes the environment of one's very being.

This is what Paul meant when he said, "If any man be in Christ, he is a new creature. Old things have passed away. Behold, all things are become new." Christ becomes the true spiritual environment of the sincere disciple.

This earthly fellowship with Christ is the symbol and forecast of a larger heavenly fellowship, in which the ideals of love and truth and righteousness will find their fulfillment. We live in a world which, despite many loving and devoted souls, is still marred with sin and hate. But in this other heavenly world there will be the society of those whose hearts and lives are purified and who live in the glory of a great experience from which all evil passion and hate have vanished.

We call that heaven, and it would be a very real heaven if we could produce anything like that on this earth.

LEGION AUXILIARY MAKES IT POSSIBLE FOR ALL VETERANS IN HOSPITALS TO RECEIVE GIFTS

At the regular business meeting Monday evening, December 6, the American Legion Auxiliary voted to cooperate with the Department and National organization in the Christmas program for ex-service men, who are confined to the government hospitals. Every veteran, located in a government hospital at Christmas, will be presented with gifts and treated by the American Legion Auxiliary. The Perryton Unit was assessed \$12.00 to help in this work in the Texas hospitals.

It was also decided to send the Department \$2.50 to help with the children's Christmas party, which is given each year for the children of needy veterans, located at the Legion, Texas, hospital. It was also voted to assist the son of a disabled veteran by purchasing school clothing for him.

The Unit was presented with a beautiful picture for the hall by Mrs. K. K. Thomas, who is the only Gold Star Mother of the Unit. A committee composed of Mrs. F. L. Garrett, Mrs. Sibley Jines and Mrs. E. W. Thomas was appointed to arrange a remembrance for Mrs. M. Q. McLelland, a member and mother, who is confined in her home. Christmas cards will be sent this year to all mothers, who are Unit members, and to all Unit members who do not reside in Ochiltree county.

It was decided to revive the birthday fund, to be used for incidentals, every member paying into the fund the number of pennies of her age. This amount to be paid during the month of her birthday, if possible.

Other reports given were by Mrs. F. L. Garrett, membership chairman, who reported fifty six members paying their 1938 dues. Mrs. Harry Nail, secretary, gave the high lights of the District convention held in Dalhart. Mrs. Tom Denman told of the Dorcas Class of the Baptist church dressing dolls, which they were going to present to the Legion for the Christmas baskets. These dolls to be distributed to children in needy families.

The next meeting of the Post and Unit will be a regular pot-luck supper, with a program following. An interesting program is promised. Hostesses for this meeting, Monday, December 20, are Mrs. Jack Allen, chairman, Mrs. E. M. Allen, Mrs. A. W. Henry and Mrs. Kirt Williams.

Dr. and Mrs. S. E. Ball of Excelsior Springs, Mo., visited in the home of Mr. and Mrs. E. O. Bruner, Saturday. They are enroute to California. Mrs. Bruner, who has been visiting the past week with Mrs. Henry Zentz, Greensburg, Kansas, returned here with them. Mrs. Ball is Mrs. Year's sister.

Winnie Jo Keen, social welfare worker for area 30, working out of Shamrock was in Perryton Wednesday on official business. There are eleven Panhandle counties under her supervision.

Mrs. L. H. Lance returned home Friday from the Shattuck hospital.

Before and After—FSA

How the Farm Security Administration is assisting farm families return to a self-supporting basis and maintain themselves through balanced, live-at-home programs is illustrated in the above photographs.

The top photo shows the home of a farmer in the Southern Great Plains region at the time he secured his first loan from the Farm Security Administration. It was in February, 1936, that he borrowed \$330. His livestock consisted of 4 horses, 5 cows and 30 hens. That year the family, including two adults, a boy of 14 and a girl of 8, showed splendid progress. The farmer repaid all money due the FSA and with the balance of his crop and a small commission's loan from the Farm Credit Administration he built his house (below) and outbuildings. He contoured and terraced his farm, and increased his livestock program to a basis where all living needs could be met from the sale of produce. In January, 1937, the farmer received another loan from the FSA for \$696. His livestock had increased to eight mares, four colts, 150 hens, three hogs and five cows. A cooker and canning equipment was purchased, and 400 containers have been filled with fruit, vegetables and meats for use this winter. The rural rehabilitation supervisor and home management supervisor, who have been working with this family, report that the farmer will repay his entire loan this year and will be able to finance his 1938 operations without further help from the FSA.

the outside world of our own little community? Your answer to these questions might be, "The subscriber pays the freight." You would be right in part but only a very small part for practically the entire income of this and all other regular newspapers come from the advertiser. So we are asking you to check the Ochiltree County Herald this week and in the weeks to come and see for yourself just what business firms are advertising and by their advertising in the Herald making it possible for this newspaper to function and serve you and your community as a purveyor of news. Patronize Herald advertisers. They are the ones that keep the linotypes and presses running, meet the payroll of our reporters and printers, pay the paper and postage bills, the rent, utility and tax bills. Without their loyal support the Herald could not exist and this community would be without a newspaper. In appreciation of this service to you and your community, we feel that it is your duty to spend your dollars with Herald advertisers.

We wish to congratulate the young men of the Junior Chamber of Commerce for the wonderful start they are making in civic work. Here they've only been organized a few weeks and have a big list of accomplishments. First they sponsored and "put over" a very successful motorcade to the Ranger-Building football game at Berger. Note we said sponsored and "put over." Civic and other organizations have a habit of doing a lot of sponsoring but darned little putting over. They joined with the Senior Chamber of Commerce and the city in putting up street decorations. Again those Jaycees were right on the job in their coveralls doing the actual work without a lot of conversation. Now they're sponsoring a Christmas home decoration contest and offering prizes amounting to \$25.00. Now its up to Perryton people to cooperate by decorating their homes, you know the Jaycees can't do this for you. And by the way, if you appreciate what these young business men are doing for Perryton, then attend the dance they are giving tonight at Donley Hall. They're not doing that just for fun and amusement, they want to make some money to assist them in carrying on their community work.

And again we want to remind you that the Herald's subscription price goes to \$2.00 per year on January 1, 1938. This rate is for Ochiltree and adjoining counties, elsewhere the rate will be \$2.50. But here's where we are giving readers residing in Ochiltree and adjoining counties a chance to subscribe or renew for \$1.00 per year, just half of what the price will be on New Years Day. And remember we're not putting any limit on the number of years you

can pay in advance. We've had several who have marked their time up for five years. Take advantage of this liberal offer before January 1.

If you are a member of the Perryton Chamber of Commerce and haven't mailed your director poll ballot back to R. T. Shindler, chairman of the nominating committee, then do so at once for the polling will close Saturday. If you have misplaced your ballot, get in touch with the secretary and he will furnish you with another. Every one of the fourteen men nominated are qualified to serve.

survey is being run between Horse Creek and a junction with State Highway 33. Obtaining the right-of-way will probably consume considerable time.

As an aid to night driving, the State Maintenance Department is putting a strip of caliche along the edge of the pavement. According to W. L. Werneburg, Maintenance Foreman, with headquarters in this city, this work is being done on State Highway 117 and Federal 83 in Hansford, Lipscomb and Ochiltree counties, totalling 68 miles. This is part of a safety program by the Maintenance Department. At night this white caliche strip will make it easier for drivers to see the edge of the pavement.

Dr. Manse Wood was called to Littlefield Wednesday to be at the bedside of his brother, Dr. Max Wood, who was operated on for appendicitis that afternoon. The brother is a dentist in the Littlefield hospital. Their father, Manse Wood Sr., is also a patient in the hospital there. He is recuperating from a accidental gun wound of several weeks ago. Mrs. Wood and Patricia Ann, accompanied him as far as Amarillo and remained in the home of Mr. and Mrs. Eual Wright, a sister of Mrs. Wood. They returned home Sunday night.

Mr. and Mrs. J. H. Woodward and Otto Stubbs were dinner guests with Mr. and Mrs. C. S. Nowlin last Thursday.

E. C. Fisher, Canadian.

Judge Fisher was high in his praise of the work of the Home Demonstration Clubs, stating that in his opinion, the club workers were accomplishing more than any other organization. He stressed the fact that during the past years of drouth and hard times, club members by their canning and other projects, had prevented many farm families from going on the relief rolls.

The guest list included Judge and Mrs. Dave Shanks, Judge E. C. Fisher, Commissioner and Mrs. J. H. Callihan; Home Demonstration Agent Miss Wertha Tarter, County Agent and Mrs. E. W. Thomas, members of the Herald staff and about sixty club members and their husbands.

The tables were decorated in the Christmas motif. Young ladies who served the banquet were as follows: Misses Lillian and Edith Williams, Ruth and Edna Huston, Rosa Barnes, Veda Fern and Alice Schwab, Roby Jo Edge, Clara Copeland, Irene Goucher, Waldeen and Beryl Dodson.

C. A. Studer, president of the Northeast Panhandle Feeders Association, said the situation in Hutchinson, Lipscomb, Ochiltree, Gray, Roberts and Hemphill counties was at its darkest "in 40 years, so far as I can learn."

The railroad commission indicated at the conclusion of the hearing on Tuesday, that it would decide this week whether to extend into 1938 lower freight rates on livestock feed

shipments to the 30 drouth-affected counties.

Rail lines opposing the extension did not offer any testimony, but rested on evidence in previous hearings.
