Attend Meeting In Albuquerque

On Friday of last week, Ezra Watts, Lacy Armstrong, Earl McCollum, Ted Forbes, and John Russell attended the state Republican convention at Albuquerque.

There was the usual fight between the progressives and the old Guard to gain control of the convention, the Progressives winning the fight.

Ezra Watts was a guest of Albert Simms at his ranch home on Friday night, where a select group were invited to confere with Senator and Mrs. Simms.

The hotel lobby looked like those of Santa Fe during the session of the legislature. Cacuses were held by the various groups, and an effort was made to bar the Pregressives.

When the meeting was under way, it was found that the progressives were in the majority and the old Guard gracefully accepted them into the ranks of the blessed.

New Mexico Plans Chicago Exhibit

The state of New Mexico is now making plans to place an exhibit at the Century of Progress in Chicago the coming summer.

The special session of the legislature will be asked to make an appropriation for this purpose, and funds are now being raised by private subscription to put on such an exhibit. Many corporations have made liberal donations, and it looks favorable that this exhibit will materialize.

New Mexico is rich in natural resources; it is also the nation's greatest play ground, and with the proper backing, the state can obtain advertising at the big show in Chicago that will bring millions of dollars to the state through tourists.

This is a project that should meet with the approval of every one.

ELECT NEW OFFICER OF MISSIONARY SOCIETY

At a meeting of the Presbyterian Missionary Society on Wednesday afternoon, Mrs. K. J. Brough was elected president. Mrs. Pogue was re-elected vice president; Mrs. C. L. Height secretary-treasurer and Mrs. Kenley Spence as assistant secetary.

Mrs. Brough served a delicious salad course to the following: Mesdames Cal Parker, J. K. Dunscomb, Kenley Spence, R. A. Brewer, C. R. Nelson, Ernest Pogue W. C. Newman, Harlen Kerr and Miss Ida Mae Newman.

Mrs. Irving Nunn and Casey Smith were in from Kentucky Valley Wednesday.

Schools of County Assured Full Term

County Superintendent A. E. Hunt received telegrams from Senators Hatch and Cutting on Tuesday of this week, announcing that Federal Emergency Relief Administration has approved grant of funds for immediate payment of teachers salaries in New Mexico.

This assures that every school in the county will be able to run full term and that the teachers will receive their pay.

This is good news for the pupils of the county as well as the teachers.

Announce New Set-Up For Farm Drought Relief

The drought relief set-up for Roosevelt county is as fololws:

1. Every farmer must exhaust every means on work relief. This is done by application through the office of Ralph R. Will, county agent, for feed and seed loan or through the Production Credit corporation at Clovis, for a Credit Production loan. After being cleared through these offices the farmer needing relief either in grain or other commodities must make application at the local relief office while awaiting action on this loan application, the family budget will be set up and the farmer given a work card on the highway, so that he may earn the necessary commodities or cash at the rate of 50 cents per hour for unskilled labor.

2. The amount of work allowed will depend upon the amount of money necessary to carry on farming operations for 1934. No man who is not farming is eligible on this program.

3. After the loan has gone thru the work card will be withdrawn in accordance with the earnings necessary for such farmer.

There will be no issuance of grain or coal, or relief of any nature until the farmer has exhausted every means of credit available to him.

Work will be discontinued on all CWA projects March 31, 1934.

Signed by Roosevelt County Relief Committee.

Basket Ball Squad Is Entertained

Coach and Mrs. C. F. Brown entertained the basket ball squad together with Superintendent F. D. Golden, Principal J. P. Steiner and Marion Stinnett with a delicious seven o'clock four-course dinner at their home, Saturday evening.

The room was cozy with its fire in the fire place in contrast to the snowy weather outside. The menu was served in the living room on quartet tables. Mrs. Golden, Mrs. Steiner and Mrs. Stinnett assisted Mrs. Brown in serving.

The squad is composed of Pete Briggs, Gordon Hatch, Bill Briggs, Noble Kirksey, Osman Jernigan, Paul Neville, Donald Briggs, Selwyn Jackon, Gerald Heflin, Junior Wentworth, Floyd Lovorn and Durwood Foster.

The boys were unanimous in their opinion that Coach knew how much and what kind of food was best for football boys and that Mrs. Brown knew how to prepare it.

HIGH SCHOOL HOLD FACULTY MEETING

The high school held their regular monthly faculty meeting on Tuesday afternoon at 4:15 o'clock at the home of Mr. and Mrs. K. J. Brough. All members being present.

R. A. Young was program leader.

Discussions on athletics by C. F. (Coach) Brown, mathematics by Marion Stinnett, education trends by Superintendent Golden, and marking and grading by Prin. J. P. Steiner were all interesting, timely and to the point.

Mrs. Brough served light refreshments.

Watt Williams of Floyd brought in a White Leghorn egg Saourday which measured 4 3-4 inches the stort way and 7 1-8 inches the long way. Mr. Williams says they have a flock of some 150 White Leghorn hens and sell about 55 dozen eggs per week.

Mrs. A. W. Freeman has been ill at her home in Potrales this week, but is reported improving.

KENT SPEAKS TO DAIRY INDUSTRY HERE

ADVISED DAIRY FARMERS TO STICK WITH THEIR ORGANIZATION

Necessity Urged

U. S. UNDERGOING SOCIAL, ECONOMIC AND POLITICAL CHANGES

Dr. H. L. Kent, president of the New Mexico A. & M. colleges, addressed the annual meeting of the Plains Cooperative, Inc., held in Portales Tuesday, March 27. This organization is composed of dairy farmers of Roosevelt county.

Dr. Kent urged the necessity of such an organization, particularly at this time when an organized group is necessary to consider the many new problems which are arising within the daily industry. He advised the dairy farmers to stick with their organization and not to be led off by false promises of those who seek to destroy the farmers' organization. He congratulated the dairy farmers upon the showing their organization had made during the past year of extremely difficult business conditions.

Dr. Kent expressed his opinion on this occasion that the United States of America is undergoing tremendous social, economic and political changes, and that all groups which expect to find their proper place in the new order must be securely organized to look after their interests in the changing world.

The school head expressed the hope that agriculture in Roosevelt county, including all forms, as well as the dairy industry, would continue with its efforts in organization. He pointed out that other industries, especially in the commercial world, are becoming better organized every day to protect their respective interests, and that this makes it more necessary than ever for agriculture to do likewise.

Pleasant H. Alford Dies at Son's Home

Pleasant H. Alford died at the home of his son at Causey Thursday afternoon about four o'clock.

His death was sudden, as he had only complained of feeling ill about noon. Rev. J. D. Wagner who was present, accompanied him to his room, and applied linament to his limbs, thinking he was only temporarily indisposed he left him to rest and when he went to see about him a little later he had passed away.

Mr. Alford and his family were among the old settlers at Rogers, of late years he made his home in Portales across the track, renting a part of the house.

Funeral services were held at Mt. Zion by Rev. J. Griffin Chapman. Interment followed in Mt. Zion cemetery.

Miss Gwyndolin Allen who has been with her aunt, Mrs. Jackson at Mexia for several months, has gained in weight and general health during her stay. She plans to remain there until spring.

Mrs. J. A. Smith returned to her home at Stonewall, Okla., Sunday, after a visit with her cousins, Mr. and Mrs. S. E. Kerr.

Special Assembly 2 o'clock Tuesday

There will be a special assembly Tuesday evening at 2 o'clock at the high school auditorium, at which time the finals of the extemporaneous speaking contest will be held.

Contestants for this occasion are Gary Wise and Mildred Hollis. A gold medal will be awarded the winner by the Woman's club of Portales.

The public is cordially invited to attend this special assembly.

John M. (Mit) Price Dies at Home in City

Funeral services for John M. (Mit) Price, who died at his home on Colorado Street Friday morning of last week were held from the Baptist church of Portales Sunday afternoon with the Rev. J. F. Nix of Clovis and Rev. J. Griffin Chapman pastor of the local Baptist church and Rev. Claude A. Lorts, pastor of the Christian church, in charge. Interment followed in Floyd cemetery with the Wheeler-Johnson mortuary in charge of funeral arrangements.

Mr. Price's sudden passing was a shock to the city. He had only left his place of business at noon the day before, asking Mr. Slaten to look after his coal and grain business for a few hours, adding that he was not feeling well.

Upon arriving home, he grew steadily worse, however, and died about 2 o'clock Friday morning.

Mr. Price was born in the state of Arkansas, November 22, 1876. He had been married to Mrs. Alice Price 31 years last January. They had no children. Mr. Price has been a resident of Portales for many years and his acquaintances were many. He was actively engaged in the coal and grain business for several years and had maintained that business until his death Friday morning.

Shooting of Targets, "Nigger" Shooters Banned in Portales

Sheriff Bond calls attention to boys in Portales that the shooting of targets and "nigger" shooters in the city limits is prohibited by law, and must stop at once.

Some boy accidentally shot out Dan Smith's window Wednesday and Bond wishes the boys to take notice that this practice of shooting these seemingly harmless implements must stop.

O. D. VICKERS OF FLOYD SHOWING IMPROVEMENTS

O. D. Vickers, superintendent of Floyd school transportation who has been seriously ill at his home in Floyd for the last week or two is greatly improved and is able to be up a few hours of the day, although he is still confined to his home.

Mr. Vickers was stricken two weeks ago with a severe case of npeumonia and on top of that he suffered a disturbing attack of neuralgia in his shoulders.

Mr. and Mrs. G. A. Emenluser and son moved from Clovis last week to Portales where Mr. Emenluser has accepted a position as bookkeeper for Leonard Westerman at Orange Service Station. He was formerly with Bays Motor company of Clovis.

Mrs. J. C. Click and Mrs. Alva Burbridge were shopping in Portales Thursday.

FARMERS OF ROOSEVELT ATTEND MEET

PLAINS COOPERATIVE HELD ANNUAL MEETING HERE TUESDAY

Will Support Tax

OLEOMARGARINE AND OTHER BUTTER SUBSTITUTES DISCUSSED

Dairy farmers of Roosevelt county who attended the annual meeting of the Plains Cooperative, Inc., held in Portales, Tuesday, March 27, considered matters of vital importance to the dairy industry and went on record concerning these problems.

It was voted by this meeting to support the movement for tax on oleomargarine and other butter substitutes, and a committee was appointed from this organization to confer with the senator and representative from this district to plan the method of procedure in the coming legislature. These dairy farmers are of the opinion that butter substitutes are holding down the price of butter fat in a great measure. It was brought out hat there is now consumed in the United States one-fourth as much oleomargarine and nut margarine as the total volume of butter. New Mexico is one of only six states in the union that does not protect its dairymen by taxing oleomargarine. Dairymen from other sections of the state were represented at the meeting in Portales Tuesday, and they are interested in the same measure. It is felt, however, that inasmuch as Roosevelt county is the leading dairy county in the state, this measure should originate here and should be introduced and sponsored by legislative representatives from this county.

It was also voted to support the Connally Amendment to the revenue bill now pending in the National cogress which provides for a 5-cet per pound excise tax on cocoanut and other foreign oils now used as substitutes for dairy products.

The dairymen also voted to support the dairymen of Bernalillo and Dona Ana counties in their request for a hearing on the code for fair competition for the dairy industry which was submitted last summer.

A discussion of the proposed Agricultural Adjustment plan with reference to dairy products resulted in a decision to take no action at this time either for or against the proposed plan. However, it was voted to send a representative of this organization to the hearing at Denver, Colo., which is being held on April 3 and 4, by the Agricultural Adjustment Administration, to consider this plan.

A number of the members of the Plains Cooperative from Texas were present on Tuesday, including A. B. Tarwater, member of the Texas house of representatives, who has introduced and sponsored a bill in the Texas legislature providing for a tax on oleomargarine. Mr. Tarwater is also a director of the Plains Cooperative.

Floyd Kennedy is back from De Baca county where he has been campaigning. He states that the date for candidates filing their candidacy in that county expired on Tuesday, and that he did not draw an opponent.

Will Organize Farmers Union

According to information given out, during the next week O. P. Bartlett will fill a number of speaking dates for the purpose of organizing a Farmers' Union.

During these speaking dates Mr. Bartlett will also urge all members to also become members of the co-operative associations of the county.

New Mex. Motor Freight Assn. to Form NRA Code

Under the provisions of the NRA the motor freight industry has been required to adopt a code of fair practice and competition.

The method adopted by the industry is that the individual operators shall join a local state association, which in turn affiliates with the national association, and thru this avenue the code is administered. In order to formulate a coordinated motor freight transportation system, operating under the code and rendering a more efficient and economic service to the public, the New Mexico Motor Freight Association has been formed. A number of operators have joined at the present time, and since the success of code operation depends almost entirely upon adoption thereof by all, or a majority of the eligible units, a further meeting has been planned at the Chamber of Commerce auditorium at Albuquerque, New Mexico, at ten o'clock a. m. Saturday, April 7.

Announce Opening of Seed Loan Office In Bank Building

The Portales Valley News has just received word that an emergency crop loan office has been opened at the First National Bank (rear office) Portales, New Mexico, and farmers desiring loans should apply between the hours of 9 a. m. and 5 p. m. Miss Loreta McCarty will be in charge.

According to the regulations under which the crop loans are to be made this year, any farmer who secures a loan must obtain a statement from the county production council, where one exists, that he does not intend to increase his acreage or production in violation of the Agricultural Adjustment Administration program.

In counties where a county production council has not been set up, before any application for a loan will be considered the farmer who is applying will have to give satisfactory evidence that he is cooperating with the production control program of the Agricultural Adjustment Administration.

The maximum amount of an emergency crop loan that may be obtained by any one individual is $250, the minimum is $25.

Applications for loans in any amount from $25 to $150 may be accepted by the emergency crop loan office provided the farmer does not have sufficient security to obtain a loan elsewhere.

A farmer applying for $150 or more must first make application to the production credit association for a loan from it. Rejection of this application by the production credit association will be considered sufficient evidence that other credit is not available and the applicant may then make application to the emergency crop loan office.

COUNTY LIBRARY

The library board of the Roosevelt county Public Library announces that Saturday, March 31 is Tag Day. The money derived from the sale of the tags will be used for necessary equipment.

The Boy Scouts are making a house-to-house canvas on Saturday, too, for books that you wish to donate to the library. The Scouts will begin the drive at 9 o'clock Saturday morning.

Please have your books ready for them when they call.

Mrs. Galloway is chairman of the board and Mrs. Chas. Starkey is secretary.

J. O. Wade of Melrose left Tuesday for his home after a week's visit with his old time friends, Mr. and Mrs. A. K. Atkinson. The Atkinsons took him as far as Clovis.

ABLE ORATOR ADDRESSES SCHOOL BODY

"PEOPLE ARE NOT CONCERNED ABOUT MODIFICATIONS," SAYS

Issues Warning

KENT SAYS ASSISTANCE MUST BE GIVEN WHEN NECESSARY

Dr. H. L. Kent, president of the Agricultural and Mechanical college at Las Cruces addressed the Portales high school Wednesday of the subject of the changing conditions that are existing at the present time and will continue until the pupils of the high school go out to take their positions in the world.

"People are not concerned," Dr. Kent continued, " about changes as long as things are running smoothly. However at the present time we are facing extreme changes and I believe that the finals will be for the best."

"We are coming to a realization that we are our brothers' keepers. Assistance will have to be given when it is necessary; at the same time these people who are getting assistance will have to give something in return. Relief money must be earned.

Dr. Kent predicts that the boys and girls of the high schools will go into a better regulated world. One of the changes he predicts is old age insurance. Workers will be required to put aside means to care for them when their earning power is gone.

The college head praised the efforts of President Roosevelt to meet the new conditions. "Changes are going to be made for both poor and rich. Initiative is going to be allowed, but it is going to be controlled," Dr. Kent stated.

"In the past law has been regarded as a device to protect property, but it should be to protect people."

Kent advised the pupils to read newspapers and magazines and to get themselves ready to fit into the new organization. "You will succeed or fail, according to your ability to fit into the new organization."

He warned students about partisian politics, and advised them to be independent citizens.

To Farmers Interested in Better Seed

Don't forget the meeting of the farmers interested in raising certified seed this year.

This meeting will be held at the Portales court house, Friday, March 30, at 1:30 p. m., and officers of the State Crop Improvement association will be present to explain the requirements for producing certified seed.

This meeting will be of interest to growers of sudan seed, grain seed, such as kafir and hegari, broom corn, Irish potatoes and sweet potatoes.

Please tell your neighbors about this important meeting.

Hold Scout Rally Saturday Evening

The Boy Scouts of Portales and their Scoutmasters, Jay Thompson and Broda McAlister, enjoyed a Scout Rally at the high school gymnasium Saturday evening.

Among the contests were knot tying, 3-legged race, wig-wagging, compas, tug o' war, fire building with flint and steel, hatchet throwing and others.

Troop 18 carried off the honors, but the Scouts enjoyed a most interesting time.

Mr. and Mrs. Little were guests in the R. L. Yoachum home Sunday and returtned to their home in Clovis Sunday evening. Wesley Jr., who had spent the week with his grand parents, returned with them.

Leonard Westerman has rented the Lee Carter apartments above the Liberty Cafe, where he will make his home.

Truth Is Stranger Than Fiction

Recently four farmers of Roosevelt county were in the market for washing machines. They decided to go in together and buy four and get quantity discount. A widowed lady also wanted a washing machine, and gave one of the men $100.00 to purchase the machine for her.

The group went to a store in a neighboring town and priced the machines. They were $110.00 each, but they were told that the five machines would be sold them at $105.00 each. They decided to buy, but there was only one machine in the stock, so the party that had the widow's money added $5.00 to the amount and purchased the machine for her. Then came back to Portales and decided to look over town for machines.

Upon entering a local hardware store, they found a machine of the same brand and on asking the price were told that it sold for $99.50. Nothing was said about buying more than one machine.

The moral is that the out-of-town merchant advertised his wares, and had he had the five machines in stock would have made the sale. While the local merchant had the same machine at a cheaper price, it was not advertised—and the public knew nothing about it.

Much trade is lost to Portales by not taking the public into its confidence through constructive advertising.

THE GOVERNMENT IS THE BIGGEST "CHISLERS"

The Federal government is the biggest chissler on the printing code.

Under the fair practice provision of the code, the post office department is supplying printed envelopes at less than the cost of production to the majority of printers over the nation. Not only do they print them below cost of production, but they deliver them without charge to the local post office.

Postage on 1000 envelopes by parcel post from the plant which supply these envelopes would cost the local printer from 50 cents to 75 cents per 1,000. Yet, there is an annual deficit in the post office department.

Fair practice by the government would do much to strengthen the NRA. The press of the nation has backed the government in every way, and it is to this backing that the government owes the success of this movement.

Let Uncle Sam come under the NRA the same as a private individual and the sooner will prosperity return.

DEFINITE RULINGS REQUIRED

General Hugh S. Johnson, administrator of the NRA is too vague in his rulings.

If he would make rulings on problems that come up in the various industries so that the average person can understand them, it will greatly simplify matters and be much easier to put the code in working order over the nation.

But when a ruling is asked, the reply seems to be an evasion, and yet the penalty for violation stands.

No governing body is ollowed to make a definite ruling, but must submit the matter to General J hnson's department, which gives much leave-way to 'chislers.'

DROUTH BROKEN ON THE EAST SIDE

The snow of the week end has broken the drouth over the Eastern portion of the state.

Grass will soon be here and farming will be in full swing from now until planting and cultivation of crops are over.

This snow not only insures moisture for the range, but sufficient to push all farming operations to the fullest extent.

A bountiful crop is predicted for this section of the state. That the moisture will benefit the wheat farmers of the state is the opinion of wheat farmers of Curry county, who were interviewed Saturday and Sunday.

It seems as if the weather department has joined with President Roosevelt to give the farmers a New Deal.

SUDAN PASTURE FOR THE DAIRY HERD

The wise farmer will provide summer pasture for his dairy herd by planting sufficient acreage of Sudan grass as soon as the weather warms up sufficiently for planting.

A summer pasture will bring greater returns in cream production and at the same time give the calves a better growth.

This will save the native grass lands for winter pasture, and save a great amount of feed.

THE REPUBLICAN CONVENTION

The Republican convention held at Albuquerque last Friday and Saturday, was a "stormy" affair. The Progressives seem to have had the whip hand and dominated the convention.

Cutting seems to have been the bone of contention, and the old guard favored kicking him out, but as the Progressive delegates outnumbered the old guard, they were "allowed" to come within the fold. One old guard republican was overheard to remark that the party was sunk, and that so long as President Roosevelt continued to feed millions of people they would vote for him.

The handwriting is on the wall, and the future of the political situation in New Mexico is forecast by this convention.

PRINTING INDUSTRY SET UP STATE CODE ORGANIZATION

At Albuquerque on Friday and Saturday of last week, the code administration machinery was set up for New Mexico.

This machinery was at the order of the national code authority, and provides for trade regulations, fair practice, and includes all branches of the printing industry.

That this code will be enforced, there can be no doubt, as this machinery gives the state organization power of enforcement, subject to appeal to the national authorities.

Not only does it affect the city shops, but also the "bedroom" printers.

Fair competition will be required, and cost of production demanded. Cost of production will be determined by a board selected from various sections of the state, and a schedule of costs will be supplied to all printers and publishers, under which they cannot go without violation of the code.

Other provisions of the code signed by President Roosevelt will also be enforced.

Regional boards have been provided to conduct an educational campaign, so that every section of the state will be able to meet in groups and study the code.

This is a step in the right direction for the new deal, so far as the printing industry is concerned.

THE HOUSING SHORTAGE

Several weeks now Artesia has experienced a shortage of desirable rent houses. There are vacant houses but these do not meet with the demand of the class of renters who are usually good tenants. We are told that quite a few houses over town are undesirable because they have been permitted to deteriorate. In this respect Artesia is no different from other cities of like size, especially in view of the financial stress of the last few years.

This article is not meant for a sales talk for the lumber yards, but we do believe the wise property owner will find it profitable to keep his property in repair, even though he finds it necessary to borrow the money to do it with. The wisdom of borrowing money depends on the purpose for which the money is borrowed.

Some classes of property will run down rapidly and in many instances the longer repair is neglected the greater will be the depreciation.

It occurs to us that it would be much wiser to spend a few dollars and get a fair return on the investment than to let the property stand and get a poor one. A good start can be made toward solving the housing problem by timely repair.—Artesia Advocate.

The same is true of Portales. Clean up, paint up.—Iit's Spring!

Governor A. W. Hockenhull believes in economy. The Arbor Proclamation was sent to newspapers in an envelope, the return of which to Arthur Seligman, governor.

A. L. Williamson was in the office Friday and he is strong for a second primary, for only in that was is there really a choice of the people. Mr. Williamson says enough people over the county would give their services free to hold the second primary.

THE CITY ELECTION

On Tuesday, April 3, the citizens of Portales will be called upon to select a mayor and four councilmen.

In making this selection, consider carefully the qualifications of the names on the ballot and select men that are sound thinkers, men who will safeguard your affairs during the next four years, men who have a vision as to the future of Portales.

In an election of this kind, personal friendship should not enter into the selection, but rather personal qualifications for the offices.

It is also the duty of every citizen to go to the polls on Tuesday, April 3, and vote for the good of Portales.

We are undergoing many changes, and no one can predict the problems that will come up in the city government within the next year or so.

The men that you select to administer the affairs of Portales, will be your representatives, and you should see to it that they will represent your interests, that they will be unprejudiced, fair and impartial.

It is up to the voters of Portales to make this selection and Tuesday, April 3 is the day.

It is not only your duty to vote, but also to see that your neighbor votes. If you stay at home you have forfeited your right to any voice in the city administration.

This is your obligation, and yours alone.

"THE PEN AND SWORD"

By LEONARD A. BARRETT

"The pen is mightier than the sword." History attests no truer statement. Nations which relied for protection upon the sword, perished through the sword. Brute force has never accomplished any results of permanent character. "He that killeth with the sword must be killed with the sword."

The cry is everywhere heard, let us have peace. The price for securing this peace is not to be paid by the use of arms. Many interpreters of history agree that the creation of firearms on so large a scale and the economic necessity of disposing of them primarily led to the great war. Be that as it may—it goes without saying that no problem is ever settled until it is settled right. The settlement of a problem depends primarily upon the influence of thought expressed in public opinion when the pen becomes mightier than the sword.

The most powerful influence for molding public opinion today is the product of the pen, expressed through the public press. It is an astounding fact that according to the census of 1920, "the total daily and weekly distribution of newspapers was fifty-six million." It is reported that of the twenty-four million families in America, two-fifths are now reading chain newspapers, and only a small portion of the remaining three-fifths do not have daily access to the metropolitan press. The newspaper is the most important propagandist in the world, and its influence for good or bad is unbelievably great.

Our efforts at moral reform as well as international good will (a matter of spirit and mental attitude) can be realized more through the molding of public opinion by way of the pen than by the brute force of the sword.

Lowell never wrote more truly: "Lo, before us gleam the campfires, we ourselves must Pilgrims be, Nor attempt the future portal with the Past's blood rusted Key."

FLOYD REPUTED TO HAVE LARGEST SCHOOL DISTRICT IN WORLD; 400 SQUARE MILES

FLOYD SCHOOL, DISTRICT NO FIVE, STATE OF NEW MEXICO:

Comprising over 400 square miles of territory, the Floyd school, district No. 5, is the largest rural consolidated school in the United States, and for that matter, in the world.

It is one of the very best accredited high school in the state of New Mexico. Admirably supervised and loyally patronized, the Floyd school stands out as one of the most outstanding and colorful rural schools of the state—and may be said to be on par with many of our city schools.

In addition to the wonderful showing made by former students as far as their class-room grades are concerned, departments such as vocational agriculture, home economics, athletics, dramatics, and public speaking hold a high precedence over the corresponding departments of many other schools in the state, both rural and urban.

The Floyd department of vocational agriculture is well known throughout this state and other states in regard to its ability in turning out winning livestock judging teams, poultry judging teams, and grain judging teams. Always taking an active part in everything which concerns its upbuilding, the Floyd F. F. A. (Future Farmers of America) chapter stands out as a great benefit to every young man who attends the Floyd high school. Farm shop work in this department is steadily increasing in educational value.

Provided with one of the most modernly equipped home economics cottages in New Mexico, Floyd's home economics department boasts not only both a wonderful class of first and second year girls, but at the present time, a boy's home economics class also.

Athletics have always been a strong factor in the Floyd school. The "Broncos" have long been known as one of the strongest teams in Roosevelt county and now as one of the strongest in New Mexico.

While dramatics and public speaking are not taught as separate subjects in the Floyd school, the interest and inclination in the development of these as extra-curricular activities have given to the Floyd school a greater inspiration in its development.

While much of the success attained by the Floyd school as a large rural educational center is due to the consistent loyalty provided by parents of the students and many other loyal members of the community, a high recognition should be awarded the worthy and efficient instructors which the Floyd school has been so fortunate in choosing and retaining. Instructors of this woderful, big, little, school at the present term are as follows:

Mr. Clarence T. Grable, superintendent and instructor in vocational agriculture, Mr. Ray J. Lofton, principal, and instructor in high school mathametics and boys' athletics in high school; Miss Lorene Black, instructor in home economics; Mrs. Nell B. Morgan, instructor in high school English; Miss Irene McCann, instructor in science, typing, girls' high school athletics; Mr. Foy Jones, principal and instructor in junior high; Mr. Tullos Tolliver, sixth grade and scoutmaster of Floyd chapter of the Boy Scouts of America; Miss Velva White, fifth grade; Miss Hazel McCollum, fourth grade; Miss Myrtle Walker, third grade; Miss Neomi McAlister, second grade; Mrs. Glenna Tolliver, first grade; and Mrs. Pearl Lofton, primary.

FLOYD H. H M. GIRLS GIVE PLAY

THE THREE PEGS, a three-act comedy drama, presented by the girls second year class in home economics at Floyd last Friday night, March 23, proved to be a great success. Wise selection of characters and superb acting on the part of the girls showed Miss Lorene Black, instructor in home economics at Floyd, capable and worthy of her position. The play which was filled with comedy, drama, pathos and exceedingly fine character parts was greatly enjoyed and appreciated by those present. Receipts amounted to $17.55 which will be used to purchase home economics pins.

F. F. A's. and H. H. M's, FLOYD, TO PRESENT NOVEL BANQUET

Members of the Floyd Chapter of the Future Farmers of America and the Happy Home Makers Chapter are planning to hold one of the most novel banquets on Saturday night, March 31, ever to be held at Floyd. It is to be a Father and Son-Mother and Daughter affair at which over 100 persons will be present.

It has not been learned how the menu has been planned but it has been announced that the male sex will wear blue overalls ad jumpers while members of the fairer sex will wear gingham dresses and aprons.

Miss Zelpha Bates, state supervisor of home economics, and Mr. Frank Wimberly, state supervisor of Agriculture, will be present at this banquet.

FLOYD LOCALS

Due to the severeness of the weather no Sunday school or church services were held at Floyd last Sunday. Rev. Roper, Methodist minister from Elida will preach next Sunday, April 1. All are invited to attend.

Mr. Mitt Price, pioneer citizen of Floyd died at his home in Portales last Saturday and was laid to rest in the Floyd cemetery at 4 o'clock Sunday afternoon. Mr. Price had formerly made his home in the Floyd community for over 25 years.

Principal Ray J. Lofton of the Floyd school attend the Curry County Forensic meet at Clovis last Saturday night. Mr. Lofton reported some very good one-act plays were presented.

Mr. Clarence T. Grable was a visitor in Portales last Sunday. Mr. Grable reports that Mrs. Grable, who has been confined in the Brasell sanitarium at Portales for the last few weeks is greatly improved and will be able to return to her home at Floyd soon as the weather permits.

The Floyd school gymnasium has just undergone a fresh coat of white paint.

Both girls' classes in home economics at Floyd are making many useful articles from sugar and flour sacks and other almost worthless scraps which they bring from their homes.

The farm shop, belonging to the department of vocational agriculture at Floyd has recently been ceiled and roofed.

Several students were absent from the Floyd school Monday due to the bad weather conditions.

PUBLIC HEALTH

Conducted by Dr. J. R. Earp Director, New Mexico Bureau of Public Health.

FATAL MOLES

Most people have moles. It is thought that nine people out of ten can boast of one or more of them. Most moles are harmless. But when a mole does go to the bad it goes all the way and turns into that most dangerous form of cancer called melanoma. Melanin is the skin pigment which gives us our tan or our freckles as the case may be and many moles are colored light brown, dark brown, or black according to the amount of melanin that is in them.

This month an article has appeared in the Journal of the American Medical association about 50 patients who had been treated for moles that had become malignant. Ten of them were not seen again. Of the other 40, 25 have died from the disease, the average survival after treatment being less than three years.

Moles may go to the bad at any time of life but they are most likely to do so during middle age. Usually they begin by growing larger and then grow darker. Occasionally the color changes before the size. It may be several months afterwards that the mole begins to ooze a little blood. When this happens the patient may become alarmed and go to a doctor. But by then much valuable time has been lost.

No one should ever attempt to remove moles themselves. To paint this with acids or to tie a thread around them is very likely to turn a quite harmless mole into a cancer. It is doubtful whether it is worthwhile to remove a harmless mole unless it is on the face, on the feet or in some spot where it is likely to be rubbed and arritated. But if change in size or color is noticed a good surgeon should be consulted at once. He will probably want to use radium and X-rays as well as surgery in his attempt to stop the spread of malignancy.

BETHEL

We only had nine at Sunday school last Sunday, due to the snowstorm. But we surely are grateful for the moisture, which will enable farmers to finish their spring plowing.

Mr. and Mrs. Anderson Smith and family have returned from an extended visit at Bluit.

Prayer meeting next Wednesday night at Mr. and Mrs. P. E. Dutton.

Mr. Early says he thinks we have the best ever Sunday school and would like to be with us. He is driving a new model V-8 Ford.

Mr. and Mrs. Ervin Cribbs expect to farm with Mr. A. A. Cribbs this year at Delphos.

Mr. and Mrs. Ed Adams and John Adams were dinner guests of Mr. and Mrs. Claude Elder and Mrs. Dunn Sunday.

Mr. and Mrs. Gaynor Milligan of Borger, visited with home folks Sunday night and Monday.

Mrs. R. L. Little spent the week end with relatives in Portales.

Bethel friends of O. D. Vickers are glad to learn he is improving.

The sympathy of our community is extended to the family of Mitt Price. He was one of those who contributed toward the building of Bethel church.

Girl Who Renounced Main Street to Follow Gandhi Returns to U. S.

NEW YORK, March 28.—The girl who renounced Main Street to become a disciple of Mahatma Gandhi—Nila Cram Cook—came back to America Saturday.

Arriving on the liner City of Elwood, with her six-year-old son, Miss Cook talked of many things, but on the subjects of Gandhi, her religion, and her experiences in the orient she said nothing—or else stymied interviewers by conveniently launching into pure fantasy.

Her son, Serios, had a few things to say about Gandhi.

"He is a grumpy old bear," he said, "He doesn't like me, and I don't like him. Mother used to like him. She doesn't any more."

Miss Cook refused to deny or confirm Serio's remarks.

Miss Cook, daughter of the late George Cram Cook, Davenport, Ia., poet, was deported from India early in February. Before that, she lived a life stranger than the most fantistic fiction.

In 1931, she renounced occidental ways on the grounds that they furnished no lasting, spiritual pleasures. She was baptized in the river Ganges and became a follower of Gandhi.

AN EASTER MESSAGE

By R. C. MARSHALL

If it were possible for demons to rejoice, then, there must have been great rejoicing in the regions of night when Jesus lay in the tomb.

He had claimed to be the Son of God. He had said, "all power in Heaven and in earth is given into my hand," but they who both hated and feared Him had sought His destruction, and now, they had triumphed. He had shown Himself master over the forces of earth, the wind and the waters obeyed His voice. He suspended the law of gravitation and walked upon the waters. Passing through the street He saw a funeral procession. He commanded the pallbearers to stand still, He touched the bier and the dead arose to life. He stood by the grave and cried, "Lazarus, come forth," and he who had been dead four days arose to life and Jesus said, "loose him and let him go."

But now He had been crucified and was dead. Joseph and Nicodemus had taken his body down and buried it. His Disciples were discouraged and scattered, their hope was gone and they said, "we hoped it had been He who should have redeemed Israel."

The Chief Priests came to Pilot and said, "We know that this deceiver said He would rise again after the third day; therefore, we want a guard of soldiers to prevent His disciples stealing Him away, and claiming He had risen. Pilot said, "Make it as secure as you can." A great stone was rolled to the door of His tomb. The official seal was placed upon it. The guard was placed, now, all was secure. But early in the morning the Angel of God descended, broke the seal, rolled the stone away and sat upon it. Then the Son of God by His own power burst the bands of death asunder, rose triumphantly over the grave and brought light, life and immortality to the world.

He showed Himself alive to those who loved Him, and for the space of forty days, and at His final ascension said to above 500 brethren, "Ye shall be my witnesses in Jerusalem, in Judea, in Samaria, and to the uttermost parts of the earth."

So ours is a gospel of the living Christ, a vital force in the lives of men; able to lift them from the death of sin unto lift eternal, through the resurrection of Jesus Christ, from the dead.

TURNER E. DEAVOURS

Was born October 8, 1854 in Habeesham County, Georgia. Departed this life, March 20, 1934, aged 79 years, 6 months and 12 days.

Converted at the age of 27, joined the Methodist church and lived in this church until three years ago. Then joined the Baptist church at Milnesand and remained in this church until his death.

Married Matilda Ivie at about the age of 22 years. To this union was born three children. The wife and two children have gone on before which leaves one daughter, Mrs. Mary T. Baker. There are living 15 grand children and 15 great-grand children. Mr. Deavours was a good citizen, a good husband, and father. He lived a good Christian life until his death. He made friends wherever he went and wherever he had lived, his loss is mourned. But our loss is his eternal gain.

He had one nephew, Rev. W. C. Grant, superintendent of the Orphans' Home of Portales.

He also leaves two brothers and one sister.—Contributed.

Code Making Required Trial and Error Plan

WASHINGTON. — "Out of the clashing aims of competing industries have been developed far better understandings of the problems of our commercial life than could be gained through years of academic research" said Donald R Richberg, general counsel of NRA in describing the purpose of the code conference and the preparatory week of public hearings.

This "coming-out party" he said, was not a celebration of achievements but "a rededication of a very young and immature department of government to a great task just unfolding." The making of codes "under unlimited public scrutiny and with controversies between conflicting interests invited" rendered it possible to "induce men trained in their own lines but frequently ignorant or careless of their public obligations to undertake responsibility for operating their enterprises in harmony with the general welfare."

NRA, he said, adopted the deliberate policy of approving codes based on different economic theories, letting one industry experiment with open price fixing and another with regional marketing associations; letting one try allocations of production and another limitation of machine hours.

In case of considerable doubt as to the effect upon the public interest, code provisions were made effective for a brief period only. Being embarked on "a vast experiment," a trial of self-government there was "frank use of the trial-and-error method of arriving at conclusions of fact, instead of conjectures of good or evil."

Re-employment under NRA codes in Manhattan and Brooklyn Boroughs of New Yory City to January 1, was in excess of 600,000.

Timely Storm Breaks Drought In This Section

Bringing smiles alike to stockmen and farmers, and sending city folks scuttling into overcoats and galoshes, the first major snow storm of 1933-34 swirled out of the skies onto a thirsty Eastern New Mexico Friday morning.

It began with a slow mist and grew heavier as the day passed, and turned into a warm snow, never ceasing until Sunday night, when about 7 inches of snow lay on the ground in Roosevelt county.

According to reports from surrounding country, all Eastern New Mexico received about the same, the moisture being lighter west. Albuquerque received scarcely any while Vaughn and Estancia only about an inch.

Those who have watched the situation of lack of moisture, say by either warmth or freeze, but has soaked into the thirsty earth.

A few of the sheepmen whose sheep have been in the midst of lambing for some weeks, feared for the new born, but the loss has been small.

Moisture is now assured for early planting and pastures will soon be green and prospects are bright now for Eastern New Mexico. Nothing could have aided the ranchers of this section more. The slow rain which came the last of February was sufficient to give the grass a good start, but the winds had dried this up, so that the grass which had started was needing rain, as was the farmer who was listing his fields.

The weather was cold enough so that no moisture has been lost.

Style Show and Review, Portala

Merchants and the audience as well consider the style show at the Portala theater, as presented by the Junior Woman's club Tuesday evening a great success.

The show depicted a family in dire poverty, then after an inheritance, they are dressed in the height of fashion, as well as comfort by dry goods merchants in Portales; are well fed by Portales grocerymen and drive cads sold by Portales dealers and many other business houses represented who would demand commendable comment. It all ends in a beautiful wedding.

Roosevelt County Boys and Girls 4-H Club Members Take Premiums At Roswell Baby Beef Show

Roosevelt County boys and girls were very ably represented in the 4-H Baby Beef show held in Roswell on March 16, in connection with the third annual auction sale of the Eastern New Mexico Hereford Breeder's association.

Nelson Ainsworth, son of Joe Ainsworth, Milnesand, won Grand Champion premium. His calf was eleven and one-half months old and weighed 820 pounds. The J. C. Penney company bought this calf at the auction sale for 21 cents a pound; the price of the calf being $172.20. The Grand Champion premium was $10.00 and J. P. White, Sr., offered another $25.00 for Grand Champion, making a total of $35.00.

The fifth premium calf was fed and exhibited by Abba Lee French, daughter of A. L. French of Elida. This calf was bought by W. T. Wamble of Hereford, Texas, at 10 1-2 cents a pound. The calf weighed 650 pounds, was ten and one-half months old, and was bred by A. L. French.

The sixth place calf was fed by Harold Herbert, age 13, son of O. C. Herbert of Elida, and was purchased by the Otis Gin company of Loving for ten cents a pound. The calf weighed 835 pounds, was 11 months old, and was bred by Courtney and Herbetr of Elida.

In addition to the above calves, Joan French, daughter of A. L. French, exhibited a very fine calf, which sold for 10 cents a pound. This calf was bred by A. L. French.

NEWS FROM ROGERS HOME ECONOMICS DEPARTMENT

The Rogers Home Economics department invites you at any time to visit their house. Since last fall the entire house has been redecorated. The walls have been calsomined a new green and the wood work as well as the floors, have been refinished. The girls have added to the appearance by making new curtains of monks cloth, which they finished with a green and orange stencil.

They also made green cushions and machine covers.

The pillows are to be used on the new four-piece wicker set that was purchased by the dramatic club and left in the Home Economics house when ot in use. This set, which is also green, adds much to the appearance of the house and gives the room an air of a home rather than a class room. This is one of the many things for which we have strived. This effect is also produced by a row of potted plants growing along the east window. They have been green all winter, and the blossoming hyacinths and narcissus have added color.

The Home Economics club purchased two reproductions of famous pictures, "The Song of the Lark," and "Feeding Her Birds," which now decorate our walls.

We again extend the invitations to visit our house, as we would also like to have you enjoy its spring freshness.

IN APPRECIATION

We wish to express our thanks for the kindness shown us at the death of our father and grandfather, and also for the beautiful flowers, which were received. May you receive like consideration in your hour of need.

J. T. Alford and family; C. W. Alford and family; W. C. Thompson and family; Mr. and Mrs. R. R. Alford.

REVIVAL CONTINUES

J. M. Bradley is getting everything ready for this year's crop. Mr. Bradley is one of the truck farmers of Roosevelt County Portales Valley. He plans to plant eight acres of onions. He has his plants already out. He is raising the Denia and Crystal Wax varieties. Mr. Bradley plans to plant 12 acres to potatoes. "I do not care to risk beans this year" Mr. Bradley stated. Like many other Portales Valley farmers, he is complaining about the profits. However, he is going right ahead with his plans for his crop as he thinks best.

J. P. Simmons and Lawrence Miller reported that they went hunting for jack rabbits both Sunday and Monday, and with two grey hounds caught 33 jack rabbits on Sunday and 8 on Monday. If those rabbits would have raised 10 l one year, the country is 330 rabbits short this year, and they say a rabbit eats as much grass as a cow.

Will Make Future Loans Through Federal Land Bank in Bonds; Will Be Secured by U. S. Government

Mrs. Maude Smith, secretary-treasurer of the Portales Valley National Farm Loan association, received word today from Wm. I. Myers, governor of the Farm Credit Administration, Washington, D. C., that federal land bank loans and land bank commissioner's loan will be made in the future through the federal land bank in bonds of the Federal Farm Mortgage corporation, which bonds are guaranteed by the United States government both as to principal and interest, which will be at the rate of 5 1-2 per cent per annum for the bonds to be issued at this time. These bonds will take the place of the cash distribution in the disbursement of the unclosed loans previously approved by the Federal land banks.

The bonds of the Federal Farm Martgage Corporation, according to the statement by Governor Myers, will have behind them not only the unconditional guarantee o fthe Federal government as to both principal and interest, and the capital of the Federal Farm Mortgage corporation amounting to about $200,000,000, but also the consolidated bonds of the Federal land banks issued in exchange for the bonds of the Federal Farm Mortgage corporation and the mortgages accepted by the land bank commissioner as security for loans.

Governor Myers assured Secretary-treasurer Mrs. Smith that the Federal Farm Mortgage corporation bonds will be an attractive investment. "They will be as readily marketable as bonds of the United States government and they will be quoted in all of the principal markets," he continued. "Holders who have to dispose of these bonds should not sell them without first ascertaining their real market value."

The Governor particularly stressed the fact that country bankers probably will be large investors in these securities since the creditors of farmers who are being refinanced may not all be in the position where they can hold the bonds so acquired and will find it necessary to sell them. Secretary-Treasurer Mrs. Smith states that these bonds, which will be tendered to farmers' creditors in payment of the refinanced indebtedness are "exempt from all federal, state, municipal and local taxation, except surtaxes and estate, inheritance and gift taxes. They are lawful security for 15-day borrowings by member banks of the Federal Reserve system. They are also lawful investments for all trust, public and fiduciary funds of which the deposit or investment is under the authority or control of the government. The payments of the interest on these bonds and the repayment of their principal are guaranteed by the United States, which means that if the Federal Farm Mortgage corporation should ever be unable to meet the payments on the bonds, the Treasury will assume such payments.

"These bonds will be issued in denominations of $100, $500, and $1,000. However, amounts less than $100 will be disbursed in cash. For example, a loan of $965 would be made in a $500 bond, four $100 bonds and the rest in cash. In addition, to provide for certain debts, such as taxes which cannot be paid in bonds, cash covering the required amounts will be provided.

"Loans which have been applied for and approved, but on which the cash has not been paid out, as well as those approved by the bank in the future, will be financed on the above basis. This arrangement in no way disturbs or alters the other provisions of the loans. The interest rate on new loans will continue to be 4 1-4 per cent for the emergency period when made through a national farm loan association and 5 per cent when made directly by the bank."

Arbor and Bird Day Is Governor's Proclamation

A Proclamation by the Governor

Tree conservation has taken on additional significance this year due to the intensive campaign carried on by the national government for the preservation and increase of tree life. Hand in hand with this movement we find a nation-wide desire to conserve and nurture wild bird life.

THEREFORE, in setting aside a day for calling public attention to these great God-given resources, I am combining the two subjects, TREES AND BIRDS and do hereby proclaim and designate Friday, April 6, 1934, as Arbor and Bird Day in the State of New Mexico.

This day should be actively and enthusiastically observed in all the schools of the state, as well as in cities, towns and villages, by the planting of trees and shrubs, and by baking plans to protect and conserve the life of our wild birds. Citizens in general should be reminded of their duty to cooperate with the forestry service in the prevention of destructive forest fires.

Trees are of vital necessity to the life of people. Our forests conserve our water supply, without which we would perish. Trees are also of great recreational and artistic value and contribute to our comfort and happiness. Birds also have a tremendous economic value, to say nothing of their ornamental beauty and lovely songs, so freely given us to enjoy. Statistics show that in recent years the annual loss to agriculture on account of insect pests amounts to over one and a half million dollars; that one-tenth of crops raised for food is being destroyed by these pests; that birds are the natural enemies of such insects, and the destruction of bird life means the destruction of food. It is high time that these conditions be made plain to our citizens, that school children be taught to love, care for and appreciate the great blessings bestowed upon us by Divine Providence.

Done at the Executive Office this 20th day of March, 1934.

Witness my hand and the Great Seal of the State of New Mexico.

Attest: A. W. Hockenhull, Secretary of State. Marguerite P. Baca, Governor.

Uncle Ed Wall Dies At Home in Elida

Uncle Ed Wall died at his home in Elida Saturday morning at 10 o'clock after an illness of less than a week of pneumonia.

Mr. Wall's health had not been good for several years. He has suffered much with rheumatism. His daughter, Letha, was killed in an auto accident in December, and since then Uncle Ed has been quietly waiting for the summons to come home. He sat for hours and looked at her picture and talked to her as though she were present. Just before his passing he said he could see her, and hear her calling him home.

Mr. Wall was only 67 years of age.

Funeral services were held at the Methodist church Monday afternoon by his pastor Ernest Roper, and a former pastor and friend, Rev. W. B. Gilliam and the body was laid to rest underneath a blanket of flowers and beside his baby as he called his youngest daughter, Letha. He leaves a devoted wife, a daughter, Mrs. Lewis Nelson and two sons, Kary and Embry Wall and several grand children.

Uncle Ed, as he was usually called, was a true Christian gentleman. A member of the Methodist church of long standing, and he and all his family are considered among the most respected citizens of the whole county.

KENNA

The funeral services of Mrs. Mary E. Lemon were held at the Lemons home Thursday. The buried was in Kenna cemetery.

Ewdin Denton's new Chevrolet truck was almost completely ruined when it struck a large steer near Roswell. The truck was being driven by Sterling Lee.

Kenna reports a five-inch snow which fell Saturday night and Sunday.

Mrs. Katie Crume and daughter, Mrs. Essie Southard came down from Ft. Sumner Thursday to attend Mrs. Lemons' funeral.

Guy Howell, Mrs. McCombs and Mrs. Sears attended Grand Lodge at Albuquerque last week, representing the orders of the O. E. S. and Masons.

Dad Sherman has been ill the last few days.

Several young folks enjoyed a party at the home of Johnny and Genevieve Jones Thursday night. The Jonses' live 11 miles south of Kenna.

ARCH

There was no Sunday school or church Sunday due to inclement weather. The attendance at school is very low due to so much illness.

The candidates for the various county offices will speak here on Monday night, April 2, according to last week's newspaper reports. Plans will be made to raise funds for new song books for that night.

There will be a program presented by the singing class Sunday night, April 1, if the weather permits. Everyone is urged to attend.

The musical in the Parson home last Monday night was enjoyed by all present.

Mrs. Harmon Gravelee has been very ill with the measles.

An enjoyable time was reported at the musical in the Moore home last Tuesday night.

Frank Howard of Portales visited friends here over the week end.

Mrs. Dovie Hill greatly surprised her parents, Mr. and Mrs. Terry with a party last Friday night. Games were played after which refreshments of cake, cocoa and coffee were served.

Mrs. Kirksey and son, Edward, spent Sunday in the Mike Riley home.

Mr. and Mrs. W. R. Murrill entertained with a musical last Saturday night. All reported a fine time.

Mr. Buddy Dougherty is very ill with rheumatism.

FAIRFIELD

A good wet four-inch snow has made farmers of this section rejoice. Those who have not begun their spring plowing are planning to begin soon as possible.

Several are taking advantage of the snow to kill off a few rabbits.

Mr. S. C. Wall who teaches at Grier, visited his wife and daughter here Wednesday evening.

Beryl Brown who has been quite ill for several days is better at this writing.

Mrs. Clarence Taylor visited her ssiter Mrs. Penn Curtis Friday.

H. W. Curtis and family visited R. E. Haynes and family Saturday evening.

The busy Workers club meets April 4, with Grandmother Pratt. We hope all members will be present.

Don't forget the school election on April 3. Two trustees are to be elected.

Mr. and Mrs. T. W. Johnston left Tuesday for California on a business trip.

"DID I PAY THAT BILL?"

Ask yourself how far a business would get if they paid their money out helter-skelter without keeping track of where it was going. You'll agree that unless its business was tremendously profitable the concern who followed such methods would soon be on the rocks. Then why follow such a method in conducting the business of keeping a home running? You don't need elaborate books or budgets to give you "money control"—simply start a checking account and you'll always know where your money goes.

Light and Sight

1 The pupil of the eye becomes smaller with age, consequently the need for more light as birthdays come and go.

2 It takes three times as much light to read a newspaper with the same ease as a well printed book.

3 Light acts as a magnifier of smaller details.

4 Our eyes are used abou 30 per cent more for severe visual tasks than was common a generation ago—and many times more than a century ago.

5 If your child holds the book he is reading closer than 14 inches, it is quite probable that his eyes are being strained—the remedy may be better lighting, eye glasses, or both.

Darrow Board Acts in Interest of Small Business

WASHINGTON.—The arrival of Fred P. Mann, Sr., member of the recently created Review Advisory board at the public conference of Group 5 on "small enterprises" marked the entrance of the new board at what General Hugh S. Johnson has termed NRA's first round up.

The Board was selected by Senator Gerald P. Nye on invitation of General Johnson, at whose suggestion, however, the members were appointed by President Roosevelt, to accentuate their entire independence of NRA and its administrator. The chairman, Clarence Darrow, attended sessions of Group No. 1, considering the subject of employment. The chairman of Group No. 5 presented Mr. Mann to the audience, and the latter said:

"We have just returned from a visit to the President. He is in absolute sympathy with our purpose to observe the effect of codes on minorities in industries. I am sure we have his backing. And I anticipate that when our Board gets into action all of the independent businesses of the United States will have their complaints investigated and solved if possible."

20,00 Workers Under Master Fishery Code

WASHINGTON. — More than 200,000 workers directly engaged in the fishing industry, deriving income of $125,963,000 from commercial fishing are affected by the master fishery industry code just approved by the President.

It will "hasten the ecenomic recovery of the industry and place it on a more favorably competitive basis with other food industries," according to NRA's statement.

Provision is made in the master code that any division may apply for supplemental codes, 80 of which already have been submitted. "As fishing is an occupation depending upon the presence of the fish, season, wind, tide, weather, State laws, etc," wrote General Johnson in recommending approval of the code, "it is underisable to limit the hours of those engaged in the enterprise. And, as fishermen depend upon the sales value of the catch rather than fixed wages, no wage scale were set up for the fishermen who operate individually or on a profit-sharing basis." Two codes approved by General Johnson brought the total number of approved codes to 311.

Depending on Codes to Stop Fake 'Remedies'

WASHINGTON. — Appearing in behalf of the American Medical association Dr. Wm. C. Woodward assailed a code proposed by the package medicine industry, at a public hearing before NRA. He saw a "joker" in the code's failure to forbid misrepresentation of any remedy's "effect upon the purchaser," and declared that the prohibition of "false and fraudulent" advertising or selling methods concerning curative or therapeutic "effects" should be amended to read "false or fraudulent." He voiced an urgent plea that this industry be "cleaned up," and exhibited a recent copy of a weekly publication issued in Washington which evoked gales of laughter by reading aloud the captions of a number of advertisements. In these the reader was told "you don't have to be operated on for gallstones!" "new hair or no pay." Proposals to "standardize" retail prices encountered a barrage of criticism. The hearing was indefinitely recessed to consider modifications.

Declares Lumber Code Is Friend Of Small Man

LINCOLN, Neb.—In an address before the Nebraska lumber merchants' convention here, Hawley Wilbur, of West Allis, Wis., a member of the national code authority of the lumber and timber products industries, declared the lumber code "is iron-clad protection for the small consumer and an assurance to the small dealer of being able to do business profitably."

Five hundred lumbermen and more than 200 coal dealers were present.

Mr. and Mrs. James P. Kelley of Morton, Texas, came in Saturday for a visit with their son, Lee Kelly.

Record Price Paid For 4-H Club Calves

On March 16, the first Eastern New Mexico 4-H club baby beef show was held in connection with the third annual Registered Hereford Cattle sale of the Eastern New Mexico Hereford Breeders' association at Roswell. There were 17 calves exhibited at this show by 16 4-H club members according to W. L. Black of the New Mexico State college. A rather unusual feature was the fact that seven of these club members were girls. The championship was won by Nelson Ainsworth of Milnesand, Roosevelt County. The premium money was divided $10 for first; $10 for second; $7.50 for third; $5 for fourth and $2.50 each for fifth, sixth and seventh places. This money was donated by firms and individuals of Roswell. An additional $25 premium was given by J. P. White for the champion calf, and as a further award, the American Hereford Journal gave each exhibitor a year's subscription free.

In the sale which was held on March 17, Col. Fred Reppert of Decatur, Ind., sold the calves for the highest price that has been received in any club sale in the United States this year. The top price was 21 cents per pound, which was paid by the J. C. Penney company of Roswell, for the champion calf. The average price paid for the entire consignment was 11.2 cents per pound. The high light of the sale was when Col. Pearson of the New Mexico Military Institute paid 18 cents per pound for the calf that placed at the bottom of the list. Col. Pearson stated that he was making this bid in order to enable the club member to purchase a better calf to exhibit in the show next year.

At the banquet, which was given at the Women's Club building the night of March 17, practically every speaker stressed the pleasure that he had received through observing the wonderful support extended to this calf club show by the business firms of West Texas and Eastern New Mexico, and the members of the Eastern New Mexico Hereford Breeders association.

Plans are going forward to have a much larger show next year, and there is a possibility that a lamb show will also be added.

Mrs. Jay Slone and little son, Billy Jay, left Thursday night for Little Rock, Ark., for a visit to Mrs. Slone's father, W. B. Elliott and her sister, Miss Eula, and her brothers, Hugh, Ben and Flynn.

Farmers Can Borrow Money at 5½ Per Cent

Just as the five newly organized Production Credit associations in New Mexico were completing their organizations for the issuing of production credit to farmers and livestock men in the state, announcement was received from Gov. Wm. I. Myers of the Farm Credit Administration that intermediate credit banks will reduce their interest rates on new loans from three to two and one-half per cent.

This low rate of interest will be immediately reflected to the farmer-borrowers from production credit association by the lowering of the interest rate charged the farmer or livestockmen from six to five and one-half per cent.

This lower rate of interest, which became effective March 16, is made possible by the recent sale of intermediate credit bank debentures bearing a low rate of interest. Not only was the rate low, but the issue was heavily oversubscribed. When these interest rates are lower, it is possible for the intermediate credit banks to lower their rates for rediscounting the paper of production credit associations. When the market stiffens and the cost of money is higher, of course the intermediate credit banks have to advance their rates accordingly.

This is the first time in history that low interest rates in the big money markets have been reflected immediately to farmers throughout all parts of the United States. This nation-wide reflection is made possible through the newly organized production credit associations. The location of the five associations organized in New Mexico are Albuquerque, Las Cruces, Roswell, Clovis and Springer. The state has been divided into districts so that these five associations will serve the agricultural production credit needs of all sections of the state.

Must Pay Postage on Dodgers in Mail Box

Persons or firms who allow their distributors to put handbills or circulars in mail boxes of homes or offices can look forward to a request from the post office to pay postage, Postmaster Roy L. Cook said Friday. Cook displayed a stack of circulars that had been taken out of the boxes by carriers on his instructions.—Albuquerque Journal.

Mrs. Chas. Goodloe and James Goodloe have both been ill this week with flu.

New Mexico Gets 14 CCC Camps

WASHINGTON, March 28.—The forest service advised Senator Cutting (R-NM) today that fourteen CCC camps will be located in New Mexico forests this summer, in the Carson near El Rito, Gila near Silver City, Lincoln near High Rolls, Santa Fe near Jemez, Santa Fe near Pena Blanca, Gila near Beaverhead, Cibola near Manzano.

Two camps at Santa Fe and Silver City will be located on private land and one at Bandelier National monument.

Four state park camps are planned at Santa Fe, Hyde Park, Eastern New Mexico State park and Bottomless Lake near Roswell.

C. M. Granger, acting forester told Senator Cutting that a number of camps had to be moved out of New Mexico in order to provide camps during the summer for states farther north where work can be undertaken only during the summer months.

"Decision as to the restoration of some of these camps to present sites next winter will be made when the winter program is prepared next fall," Mr. Granger said.

J. A. Moss and M. A. Tidwell of Texico were in the office Friday. They were down on business and The News will keep them posted on county affairs for a year.

Mr. and Mrs. Charley Johnson of Floyd are staying with Mrs. Mitt Price for a few days.

National Civic Group Orders Study of NRA

NEW YORK.—A comprehensive study of the effects of the NRA will be made under the auspices of the National Civic Federation.

This was revealed in the adoption of a set of resolutions by the Lawyers club, James W. Gerard, chairman of the Industrial Department of the Federation, found that NRA has "accomplished four excellent things," namely, elimination of child labor, fixing a minimum wage, shortening hours of work, and doing away with "the ridiculous situation created by the Sherman Anti-Trut Act which made it impossible for business to meet in any reasonable combination."

Matthew Woll, acting president of the federation, said he felt that that all groups affected by NRA should make the study to determine what the future policy of the government should be when the act expires.

Daniel Willard, president of the Baltimore & Ohio, declared he was "not opposed to collective bargaining." The resolution offered by A. E. Stevenson, attorney, were adopted unanimously.

METHODIST REVIVAL

Rev. R. J. Parker is preaching some forceful gospel sermons each morning at 10 o'clock and each evening at 7:30 o'clock at the Methodist church.

Rev. Parker is one of the best Bible scholars ever heard in Portales. He is not a sensationalist, but preaches sound reasonable gospel sermons. His voice is round and full, carrie well, and as his adticulation is good one gets the full benefit of his message.

His talk on Cuba Sunday evening was most interesting as well as instructive. Rev. Parker spent some 17 years on that island and is thoroughly conversant with even the smallest details of the work and people there. He says Rum is one of the particular bad features of the island, and that it is sold in every grocery store. Jesus is quite a common name for Cuban boys and it is not uncommon for the saloon keeper to be named Jesus, or his saloon named after some sacred saint.

Edgar Sparks who lives in the Panhandle of Roosevelt county was in Portales over the week end on business and meeting his friends. Mr. Sparks stated that it was snowing when he left home. His community did not receive much of the early rain.

O. E. S. AND MASONIC MEET AT ALBUQUERQUE

Mrs. J. C. Compton, Mrs. Henry Carroll and Mrs. Wilma Trapp returned Sunday from a most interesting time attending the O. E. S. meeting at Albuquerque.

Mrs. Compton served on the Credential committee, and Mrs. Carroll is Worthy Matron of Portales chapter. They were entertained with a lovely tea at the Alvaroda, by the Eastern Stars of Albuquerque and a banquet at the Franciscan by the Masonic lodge of that city, as well as numerous other social events.

One of the most interesting programs of the entire meeting was the exemplification of the work of the O. E. S. of 1867. Both men and women were dressed in handsome costumes of the that time and the work was most impressive. In contrast in point of costume, followed the work of the present day. The work however was quite similar.

J. C. Compton drove the ladies over there and went back on Saturday with Bill Crume and drove the car back for them.

The meeting will be held in clovis next year.

CONTRACT CLUB

Monday afternoon the Contract club met with Mrs. Edwin Neer for the game. Those playing were Mesdames J. H. Morgan, Wm. LeMaster, A. D. Ribble, J. P. Steiner, K. J. Brough, James D. Turner, Coe Howard, E. L. Wright, Harry Buchanan, Bert Rawlins, W. W. King and Mrs. J. C. Compton.

At the close of the game Mrs. King and Mrs. Turner were each high while Mrs. Howard and Mrs. Steiner were low.

Mrs. Neer served a lovely plate lunch at the close of the games.

CHRISTIAN CHURCH

Mrs. Rothermel who is a returned missionary from India and who expects to again take up her work as a missionary to that place, was a most interesting speaker at the Christian church Sunday morning.

Her subject was the needs and customs of that country. She said that the average wage for a family man in India was $1.50 per month. Their one meal a day consists mainly of bread, made from meal, which they have ground by hand. Most of the people said she have only one garment, while India's three-fifths the size of U. S. she has 3 times as many people.

CONFERENCE CLUB

There was a meeting of the Conference Club of the Christian Endeavor at the home of Mr. and Mrs. Carl Case Monday night to discuss plans for the meeting in the Sandias in July.

There were ten members present.

Those who attended last year were Misses Vivian Case, Georgia Johnson, Agnes Foreman and Mrs. Maury Sanders, Durwood Wright and Alford Powell. They are all enthusiastic about the camp. Miss Ewelyn Pendley is also planning to attend this year.

TRI-CITY ENDEAVOR MEETING

Friday night, 22 young people from the Portales Christian Endeavor drove to Clovis where the Tri-City Endeavor met. There were 32 from Tucumcari and 34 from Clovis in the meeting.

The program consisted of songs, readings and reports for each Endeavor.

Those from Portales were on the program were Miss Ruth Richardson and Durwood Wright in a duet and Miss Richardson and Mrs. Sanders in a duet. Rev. Lorts was chairman of the program and Durwood Wright spoke on the camp in the Sandias.

Following the program the young people repaired to the basement of the church where they enjoyed games and delicious refreshments.

PORTALES WOMAN'S CLUB PROGRAM

Mrs. R. A. Young sponsored a most enjoyable musical program for the pleasure of the Portales Woman's club and a number of guests at the regular meeting Wednesday afternoon.

The Portales High School orchestra, directed by Prof. Ernest Pogue presented the following program:

Spirit of Youth, March.
Miami Short, March.
Golden Rule, Overture.
Caravan.
The Bells of St. Mary.
Flying Colonel, March.
Promenade, One Step.

The concluding number was a medley of popular tunes, especially arranged by Prof. Pogue and cleverly presented.

Mr. Pogue introduced each member of the orchestra and accepted the thanks of Mrs. Young in behalf of the Woman's club. The orchestra is composed of twenty boys and girls and although a new organization, promises some real entertainment for Portales.

Mrs. H. H. Buchanan and Mrs. E. N. Neer presided at a beautiful appointed tea table suggestive of Easter in color, with Easter Bunnies and nests of Easter eggs.

The hostesses for this Easter entertainment were Mrs. W. F. Shaw, Mrs. Ernest Pogue, Mrs. J. B. Priddy and Mrs. W. B. Oldham.

WILSON-SLATEN

Mr. and Mrs. Woodrow Slaten announce their marriage which occurred in Clovis February 5. Rev. Clyde Campbell performed the ceremony, and the couple at first decided to keep their marriage a secret until after school closed, as Mrs. Slaten is a senior in Hereford high school, but as the secret seemed to have leaked out they have decided to announce the marriage.

Mrs. Slaten is the daughter of Mr. and Mrs. O. S. Wilson of Hereford and will graduate this spring from Hereford school. She was Miss Theda Lou Wilson before her marriage.

Woodrow Slaten is the son of Mr. and Mrs. Willis Slaten of Portales. Hhe graduated from the Portales high school last year. He was a prominent football and basketball player. He now has a place with the paint crew of the Phillips 66, and Mrs. Slaten will remain in Hereford until school is out.

LATIN CLUB PARTY

The Latin club with Miss Bernice Van Kirk as sponsor held a most interesting meeting on Friday evening with Miss Jeffie Hunter.

The evening meal was cooked out in the open, over an improvised fire place, all of which added to the novelty of the occasion.

Those enjoying this party were Misses Van Kirk, Jeffie Hunter, Marie Nelson, Mannie Lois Naylor, Doris Doyle Frances, Estelle Bryant, Exalee Ainsworth, Nadine Brown, Elizabeth Burke and Marie Neer, and Messrs. Collins Hilliard, Roy Creek, Nolan Fields, Homer Braxton and Eugene Martin.

How Much Cheese Do We Eat?

One of the finest things America could do for health and economy is to develop the habit of eating cheese in the amounts comparable to European consumption—which, is most instances average as much as thrice the amount consumed per capita in the U. S. Cheese is a superior food. Made from whole milk, it may be considered a concentrated form of milk, the food which comes nearest to fulfilling all the needs of the body. It contains muscle building protein—of a quality particularly suited to the best growth of children as well as adult maintenance.

Insure good health for your family by increasing your consumption of cottage cheese today, and order some of our cottage cheese from your grocer.
