OZONA VARSITY TENNIS TEAM competed in the state team championship this weekend in Round Rock. Ozona made it to the final match, but was rained out. They will face Mason April 12 at Bentwood Country Club in San Angelo to decide the winner.

Ozona's Varsity Tennis Team will square off against Mason April 12 in San Angelo to determine the state champion of team tennis.

This historic match up was set up by the unprecedented success of the Ozona tennis team this past weekend at the state championship in Round Rock.

The team tennis is a match up between two schools in a dual type format where the first school to win 10 matches advances to the next round to face a different school. Ozona began the tournament as the third seed behind the first seeded, and defending state champions, Mason and second

seeded, and defending state runner-up, Reagan County.

In the first round, the Lady Lions and Lions swept regional champion Wellington High 19 matches to 0 to advance to the quarterfinals.

After a rain delay, Ozona triumphed over a very talented fifth seeded Thrall High 10-1. This placed the Lady Lions and Lions in a semifinal showdown with the second seeded Reagan County Owls.

The Owls were a veteran team who have been in this pressure filled atmosphere many times and proved to be formidable foes. The Ozona squad played with determination and pride, and was able to defeat the Owls 10-6 to

advance to the final Match for the coveted state title.

The finals were rained out just as Ozona finished off Reagan County, so both teams agreed to play for the title April 12 at the Bentwood Country Club in San Angelo.

"After last weeks emotional roller coaster regional tournament, we had finally made it to the state tournament," said Coach Rick Bachman. "I was simply excited and didn't think anything could top the joy and pride. I've had a fantastic group of young men and young women. They have a lot of determination and character to put on a performance. This year has been one of the greatest years, and I'm proud of our team this year."

By MELISSA PERNER
Editor and Publisher

Ron Hawthorne hasn't been a rookie since 1969. Now, he's the newest member of the Crockett County Sheriff's Department.

Hawthorne was sworn in as the new investigator Monday.

For the past 35 years, Hawthorne has worked for the city of Bedford outside Fort Worth. He started in law enforcement in 1966 and became a Bedford police officer in 1969.

In 1975, Bedford started a paid fire department. Hawthorne was on the volunteer fire department, while working as a police officer.

Soon after that, the city appointed him to fire marshal and arson investigator.

During his time as a firefighter, Hawthorne met Steve Kenley and Bob Falkner from Ozona. He also knows Alton Davis from his first days in law enforcement.

About 11 years ago, Hawthorne bought some

Governor travels to Italy to bring business to Texas

HIGHLIGHTS
By Mike Cox

AUSTIN - Gov. Rick Perry this week is in Italy - the boot-shaped country, not the town in Ellis County - to try to interest Italian officials in doing some business in a state with a boot-shaped culture.

The governor will try to interest Italian companies in locating plants in Texas, or expanding Italian-owned businesses already here. He traveled at the invitation of the Italian prime minister and Texas consul general.

Though taxpayers are not picking up the tab for the four-day trip to the European country, the Democratic party pulled no punches in saying what it thought of the trip.

Party Chairman Charles Soechting said he hoped Perry would discover a solution to the state's school financing problems "in an Italian gondola ... because it sure doesn't seem to be anywhere near the Texas Capitol."

Kathy Walt, the governor's press secretary, countered that Perry "has made economic development a cornerstone of his administration" and likely has been "the most active governor we've ever had in terms of economic development and job creation."

Property tax plan...

While he was packing for the out-of-country trip, Perry laid out a four-point plan he said would provide relief to Texas property taxpayers.

What the governor said he would like to see the Legislature do is limit homestead property tax appraisal increases to 3 percent a year, limit the amount of revenue local governments can generate from property taxes, require sales price disclosure on real property and create elected appraisal district boards.

Under the plan, local governments would be limited to tax income equal to the previous year's revenue adjusted for inflation and population growth.

The plan also would allow a local governmental entity needing a tax increase above the cap to seek voter approval. With a simple majority, taxes could still be raised.

Election alters political landscape...

Last week's primary produced a couple of surprises - losses by two longtime incumbents. Thirty-year House veteran Rep. Ron Wilson, D-Houston, was turned out of office, as was Rep. Glenn Lewis, D-Fort Worth.

Both lawmakers still will be able to participate in a special session on school finance, but the long term picture has definitely changed, since both representatives are members of the House Select Committee on School Finance.

Goodbye to a pollution source...
Glen Rose writer John Graves wrote his classic, "Goodbye to a River" back in 1960, realizing a planned dam would change the Brazos River forever.

The river survived the building of lakes along its course, but anglers and other Texans concerned about the stream's quality had more recently been worried about the effect runoff from a rock quarrying operation was having on the stream.

After nearly nine months of effort on the part of the Office of the Attorney General, Osborne Stone Co. agreed recently to close its rockmining site near the river in Santo and pick up the tab for a mitigation effort to stop dirt from washing into the river. That runoff had been playing havoc with the environmental quality of the historic stream, which near its mouth saw the first Anglo settlement in Texas.

The company's decision to abandon the site came after the Office of the Attorney General got a second temporary injunction closing the operation because of the pollution problems.

Lubbock in your rearview mirror...

Whether it's getting back to the basics at Luckenbach or seeing Lubbock in your rearview mirror, music and Texas go together like barbecue and potato salad.

For those interested in Texas' musical history, and what's happening in the state's music scene today, the Texas Department of Transportation's Travel Division has a new tourism publication out, "Sites & Sounds: A Texas Music Road Trip."

The 48-page publication, which lists museums and monuments commemorating Texas music, is available free by calling 800-452-9292.

My favorite green things

In celebration of St. Patrick's Day, I have a top 10 list of my favorite green things:

10. Kermit the Frog-after all it was him who sang "it's not easy being green."
9. Green grass and leaves on trees-the symbol that spring is near.
8. Green sopapillas-a favorite story of how my father and I ate these on St. Patrick's Day at a Mexican food restaurant in Stephenville. The green queso didn't go well, the manager told us.
7. My green covered day planner-it holds the phone numbers and addresses of my favorite people.
6. Turtles-my favorite animal

next to my cat.

5. Yoda-as a big "Star Wars" fan he's my favorite character. Remember, "Try not. Do or do not. There is no try."

4. Blue-green ocean water-it reminds me of the water in the Bahamas Paul and I swam in on our honeymoon.

3. Green Dodge pickup-the one Paul was driving when I first met him in San Angelo.

2. Emeralds-like the ones I wear on my ears and around my neck given to me by Paul.

1. St. Patrick's Day itself-for it was three years ago this day that Paul and I said "I do."

Have a happy day in green.

Diabetes management classes begin March 26

Diabetes is a serious illness. But the good news is, it doesn't have to be a life-threatening one. Early diagnosis and treatment, and good management practices are the keys to a long and healthy life for persons with diabetes.

According to the American Diabetes Association (www.diabetes.org/main/anolication/commercew) when a person has diabetes, his or her body doesn't produce insulin (type 1) or properly use insulin (type 2), a hormone needed to convert some foods into energy. No one knows what causes diabetes, although genetics and such factors as lack of exercise and obesity may contribute.

Facts and figures from the ADA list about 17 million Americans with diabetes - but only about 11.1 million diagnosed. This means nearly one-third - 5.9 million people with diabetes - don't know they have it.

The costs of all these cases of diabetes is enormous. The ADA estimated the total direct and indirect cost in 1997 (the most recent year figures are available) to be \$98 billion. Of that, \$44 billion was medical and treatment costs, and \$54 billion was for indirect costs, such as disability.

A simple blood test by a health care provider is required for a diagnosis of diabetes. However, being aware of the symptoms can lead to an earlier diagnosis and a better quality of life. The ADA

lists some of the symptoms to look for: frequent urination, excessive thirst and extreme hunger, blurry vision, increased fatigue, irritability and unusual and unexplained weight loss.

Once the medical diagnosis has been made, proper treatment and management can make life healthier for the person with diabetes. A combination of exercise, weight control, proper diet and sometimes medications can keep the person - not the disease - in charge of his or her life.

For more information on living with diabetes - especially Type 2 - plan to attend "Do Well, Be Well with Diabetes" program, hosted by Texas Cooperative Extension and the Wesley Nurse Program of the Ozona United Methodist Church.

The classes will begin at 10 a.m. March 26 at the Crockett County Extension Office. They will continue meeting every Friday until April 30. They will be taught by E.A. Wadsworth, RN, and Wendy Scott, County Extension Agent - Crockett County.

Call 392-3060 or 392-2721 to sign up.

Extension programs serve people of all ages regardless of socioeconomic level, race, color, sex, Religion, disability or national origin. The Texas A&M University System, U.S. Department of Agriculture and the County Commissioners Courts of Texas Cooperating.

⁽²²⁾ But the Scriptures has confined all under sin, that the promise by faith is Jesus Christ might be given to those who believe.
⁽²³⁾ But before faith came we were kept under guard by the law, kept for the faith which would be revealed
⁽²⁴⁾ Is the law then against the promises of God? Certainly not! For if there had been a law given which could have given life — truly righteousness would have been given by the law.

The family of Joe L. Vitela want to express our heartfelt appreciation for all the calls, visits, flowers and food; especially Fr. Serafin Avenida, for his beautiful and comforting words to the family. To all the families that worked so hard to put the reception for the memorial together and to all who served the meal. We will be eternally grateful for the love shown to us at this time. May the Peace and Love of Our Lord be with all of you.

The Man With Two Hearts

He seemed perfectly normal and I would guess him to be in his mid-60s.

As we were talking I mentioned that I had recently met a young doctor doing heart research and he said, "I received a heart transplant five years ago."

He had been sick a long time and suffered very much. When they did the transplant they installed the new younger heart beside the old one. After the transplant and he was

informed that he had received the heart of a young women killed in a car wreck. He said that it was very hard for him to accept emotionally.

Why should a young woman have to give her life so that an old dying man could live?

As I thought about what he said it reminded of what God has done for us on the cross (Romans 5:6). He sent His only son (Jesus, John 3:16) to die for us that we

may receive a new life (2 Corinthians 5:17), or Spirit, or heart (Galatians 2:20).

Just as that young woman's family had to allow or agree for her heart to be given for someone else so did God do for us. Have you received that precious gift from God, that new life in Christ (Ezekiel 36:26,27)?

See you in Church on Sunday.

Care Center Chatter

By JAN ST. CLAIR

This past Tuesday, residents Helen Stokes and Mildred Couch, along with other residents, cleaned the small back courtyard of the facility. We're ready to plant when the time comes. I tell you these two ladies can really work hard. I had aches and pains the next day. All they could do was laugh at me. Believe me ladies, I'll get even when I'm able.

We're still in need for volunteers for our Thursday morning beauty shop starting at 8:30 a.m. Nell Wester was our volunteer for this past Thursday. Thank you Nell.

Otis Nester and Mary and Merle Welty rocked our facility Wednesday afternoon. Thank you three for your music and singing. Everyone enjoyed Wednesday afternoon.

We were glad to have our art

lady Jonny Johnson back with us on Thursday afternoons.

Our St. Patrick's Day and residents' birthday party will be Wednesday at 3 p.m. in the main dining room. Come join the afternoon with wine, cheese and birthday cake. Cake is sponsored by Crockett National Bank.

Churches that gave their faithful services for the week are Ozona Church of Christ and First Baptist Church. Thank you all that provide.

The rains this last week were heavenly. We just don't like the severe storm warnings. That is so scary. Residents Sunday got a tornado drill because of such weather. It's always good to practice. We're ready if any such thing should happen and hope it never does.

Have a good week from all of us here at the CCCC. May the luck of the Irish always be with you.

Robert F. Buckner

Robert F. Buckner, 41, passed away March 12, 2004, at Christopher House Hospice in Austin, Texas, from injuries sustained in a tragic motorcycle accident on Feb. 22.

The son of Cecil F. and Elma Hernandez Buckner, Robert was born July 29, 1962, in Lovington, N.M. He was raised in Ozona and graduated from Ozona High School in 1980. After high school he attended and graduated from Sul Ross State University in Alpine. After a few years in Dallas, Robert settled in the Austin area and has called it home for 12 years.

Employed by TEK Systems, as a Software Engineer, at IBM, he loved his job and his co-workers, and took pride in his performance and his ever present pager. His zest for life, magnetic personality and his outrageous sense of humor, made him a person everyone was proud to call their friend. His flashy smile and hearty laugh are unforgettable.

Since Feb. 23, relatives and friends visited a Web Site created

for Robert over 23,000 times, posting their prayers, thoughts and favorite memories. Robert would have been amazed, but we aren't at all surprised at the outpouring of love and concern for a man that treated everyone with kindness and respect.

Robert is survived by his parents, Cecil F. and Elma Hernandez Buckner of Ozona; sister, Sherri A. Goree of Austin; brother, Kelly Buckner of Ozona; Godparents, Lionel and Concha Ramos, of Alpine; uncle and aunt, Douglas and Joyce Buckner of Sweetwater; uncle, Luis Hernandez of Alpine; nieces Taylor and Carlee Goree of Austin and nephew Chance Buckner of San Angelo. He leaves behind countless other relatives and friends who are mourning the loss of such a promising life cut short.

A viewing will be held at the All Faiths Funeral Service North location, 8507 Interstate-35, Austin, on Monday, March 15, from 1-3 p.m. The funeral will be held at Our Lady of Perpetual Help, 302 Bitela Street, Ozona, on Wednesday, March 17th, at 2 p.m.

In lieu of flowers, donations can be made to the Robert Buckner Fund, at the Compass Bank, 4100 N. Lamar Blvd, Austin; or the Crockett National Bank in Ozona.

"Don't be troubled. You trust God, now trust in me. There are many rooms in my Father's home, and I am going to prepare a place for you. If this were not so, I would tell you plainly. When everything is ready, I will come and get you, so that you will always be with me where I am." - John 14:1-3

Margaret and Tom were married February 14, 1992. They were blessed with two beautiful children, Max and Elaine, in 1994 and 1995 respectively. By BECKY BARRERA
Stockman sportswriter

Ozona's Varsity and Junior Varsity boys track team traveled to Sonora Saturday to compete in the Bronco Relays.

This was a voluntary meet, but we still had many athletes participating for the purple and gold.

"I was very encouraged, just as Coach Matt Gueterrez was about how our guys performed," said Coach Tom Duncan.

The Lions competed with great effort and had many improvements in race times and field distances. The greatest encouragement is that the athletes prepared and had a quality of effort, which will continue their later season progress to a successful end, Duncan said.

Texas landowner liability workshop March 26 in Eden

AUSTIN - The Texas Department of Agriculture has scheduled a workshop addressing landowner liability issues on March 26 in Eden.

The event, hosted by the city of Eden, Texas Department of Agriculture, Texas Forts Trail and several Eden businesses, will begin at 8:30 a.m. at the Eden Multi-Purpose Center, 319 W. Blanchard. The workshop lasts until 3:30 p.m.

The workshop is aimed at landowners who have opened or are thinking about opening their ranches or farms to paying guests for any recreational purpose — hunting, birding, fishing, wildlife viewing, trail rides, camping, bed and breakfasts or nature tourism.

Workshop topics include wildlife economics, insurance for diversified farms and ranches and liability topics including bed and breakfasts and equine issues.

Presenters include Judon

Fambrough from the Texas A&M Real Estate Center and Kirby Brown from the Texas Wildlife Association.

TDA's rural economic development programs help Texas rural communities by increasing rural and agribusiness development opportunities throughout the state.

These programs help Texas producers, processors, marketers and entrepreneurs capture a greater share of state, national and international markets, and assist in economic development for rural communities.

The cost of the conference is \$25 per person, and this fee includes breakfast, lunch, coffee and snacks. Those who register before March 19 receive a discounted rate of \$20.

To register for the workshop or for lodging information, call Genora Young at (325) 869-2211 or e-mail her at genyoung.ed@wcc.net.

Natural gas production allowables set for March

AUSTIN - Railroad Commission Chairman Victor G. Carrillo, Commissioner Charles R. Matthews, and Commissioner Michael L. Williams have set March 2004 natural gas production allowables for prorated fields in the state to meet market demand of 28,807,643 Mcf (thousand cubic feet).

For these fields, the March 2004 allowable represents an increase of 14,655 Mcf when compared to actual production of 28,792,988 Mcf in March 2003. In setting the March 2004 allowable, the Commission used historical production figures from March 2003 and producer forecasts for the March 2004 demand, and then adjusted the figures to account for such factors as well capability, new wells in a field, etc.

Texas natural gas storage reported by the Commission for

January 2004 is 217,832,112 Mcf compared to 172,548,895 Mcf in January 2003. The February 2004 gas storage estimate is 169,751,704 Mcf.

Gas well gas from prorated fields accounts for 9 percent of total gas well production in Texas.

Preliminary statewide production reported for December 2004 is 28,582,817 barrels of crude oil and 375,588,204 Mcf of gas well gas.

The Commission's estimated final production for this month can be obtained by multiplying these preliminary production totals by a production adjustment factor of 1.0476 for crude oil and 1.0975 for gas well gas. (These production totals do not include casinghead gas or condensate.)

The next statewide hearing has been scheduled for 9:30 a.m. March 24.
