## Broncos Take 39-0 Win Over Crane

### Olenick Named DHT Supervisor

District Engineer D. R. Watson of the State Department of Highways and Public Transportation (DHT) in San Angelo, has announced the appointment of Sonoran Louis Olenick as Maintenance Construction Supervisor of the Sutton / Schleicher County Maintenance Section.

Olenick, a 12 year veteran of the DHT, and a graduate of Falls City High School, has worked closely for a number of years with Cullen Luttrell, recently retired Maintenance Construction Supervisor in the Sutton/Schleicher County area. Speaking of the new responsibilities he is assuming for maintenance of more than 350 miles of Interstate, State, and Farm and Ranch to Market highways, Olenick commented "It would be impossible to fill Cullen's shoes, but with men, equipment, and organization that we have, maybe we can step in his tracks."

Before beginning his department career, Olenick served three years in U.S. Army Transportation as a Specialist 4. His experience with the DHT has included almost every job in highway maintenance. He has worked as a laborer, an equipment operator (truck, front-end loader and bulldozer), a sign man, welder, equipment repair, plus several years as assistant foreman and crew chief.

District Engineer Watson stated that "We are fortunate to have a man within our organization so versatile, well trained and familiar with the Sutton-Schleicher Counties highway system. We expect Louis to extend to the citizens and travelling public of this area the same high quality of safety concern, highway maintenance and roadside beauty for which Cullen became so well known."

Olenick and his wife, Nova, have three children and are members of the

Catholic Church. He is a member of the Sonora Volunteer Fire Department, and served as Fire Chief for Five years. His hobbies are fishing, hunting, and supporting the Sonora Broncos and the Dallas Cowboys football teams.

### The Weather

Louis Olenick, new maintenance supervisor for Texas Highway Department.

**By Don Holdridge**  
 With their most superlative outing of the season, the Sonora Broncos forced the Crane Golden Cranes into near extinction in Friday night's 39-0 rout.

Moving through the Crane defense like CB's through a speed trap, the Bronco offensive machine scored on all six possessions in the first half.

Quarterback John Elliott was at his peak for the game. The shifty senior rushed nine times for 76 yards, four for touchdowns, and connected on four of six passes for 102 yards.

The Broncos set the tone of the game, taking the opening kickoff and whipping 64 yards in six plays.

Elliott turned up field on an option to find the final 16 steps to the end zone. John David Cook's extra

Quarterback John Elliott scores his first of four touchdowns in Friday's game.

point kick sailed wide but the Broncos held a six point lead with less than two minutes ticked off the clock.

Sonora got their second six-pointer on the board three minutes later when Crane quarterback Dale Mitchell bobbled the snap from center and the hungry Bronco defense gobbled the ball at the visitors' 45.

Elliott again got the score after rolling out to pass and seeing an unprotected corner from the 11.

Elliott's conversion pass to Gregg Parker was overthrown.

The first play of the second quarter caught the senior signal caller again capping a drive with a two-yard keeper.

Cook's boot was true this time and the Broncos led 19-0.

With six minutes left in the half Garry Jones capped a five-play, 79-yard drive on a 12-yard pitchout.

Key plays in the march were a 17-yard scamper by Johnny Creek and a 36-yard aerial from Elliott to Gregg Parker. Cook's PAT was again successful.

The Broncos got the ball right back as Parker picked off a Mitchell pass at the visitors' 42 and returned it 12 yards.

Two plays later Elliott took off around right end and scampered 26 yards for his fourth TD. After the ball was moved back on a penalty, Mike Jones' PAT failed.

Parker turned the trick again on the Cranes' next play from scrimmage as he pulled in the errant pigskin on the 37.

Five plays later Creek

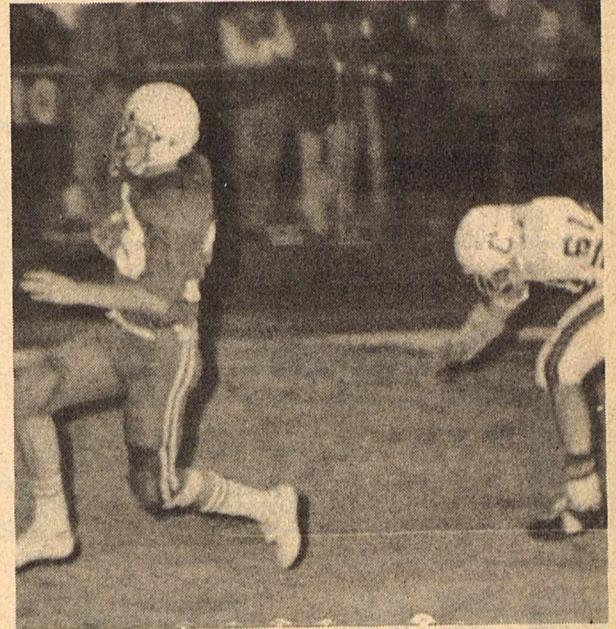

burst off right tackle for the final Bronco tally.

Cook's PAT gave the locals their final 39-point margin.

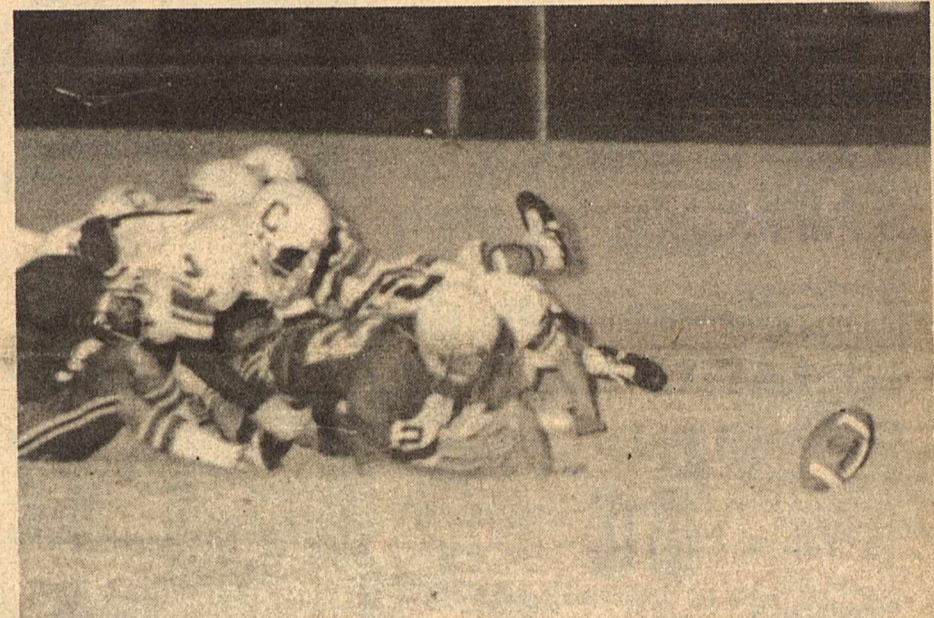

Coach Bill Bundy left the starters in just long enough to insure the victory during the second half and the reserves came in to hold their own against the Cranes.

The victory lifted the Red and White record to 7-2, 1-1 in district, and set up tomorrow night's showdown in Ozona.

Sonora		Crane	
22	1st Downs	11	
261	Yds. Rushing	115	
102	Yds. Passing	38	
363	Ttl. Yds.	153

4	Int. By	1	
1	Fumbles Lost	2	
9-65	Penalties-Yds.	8-97	
3-38	Punts-Avg.	3-34	

No. 33 Garry Jones carries the ball in for a score aiding the Broncos in their 36-0 win over the Cranes Friday night.

THE BALL? THE BALL? Who's got the ball? In this case it was the Sonora Broncos who recovered two fumbles over the Crane Golden Dranes in last Friday's one-sided clash.

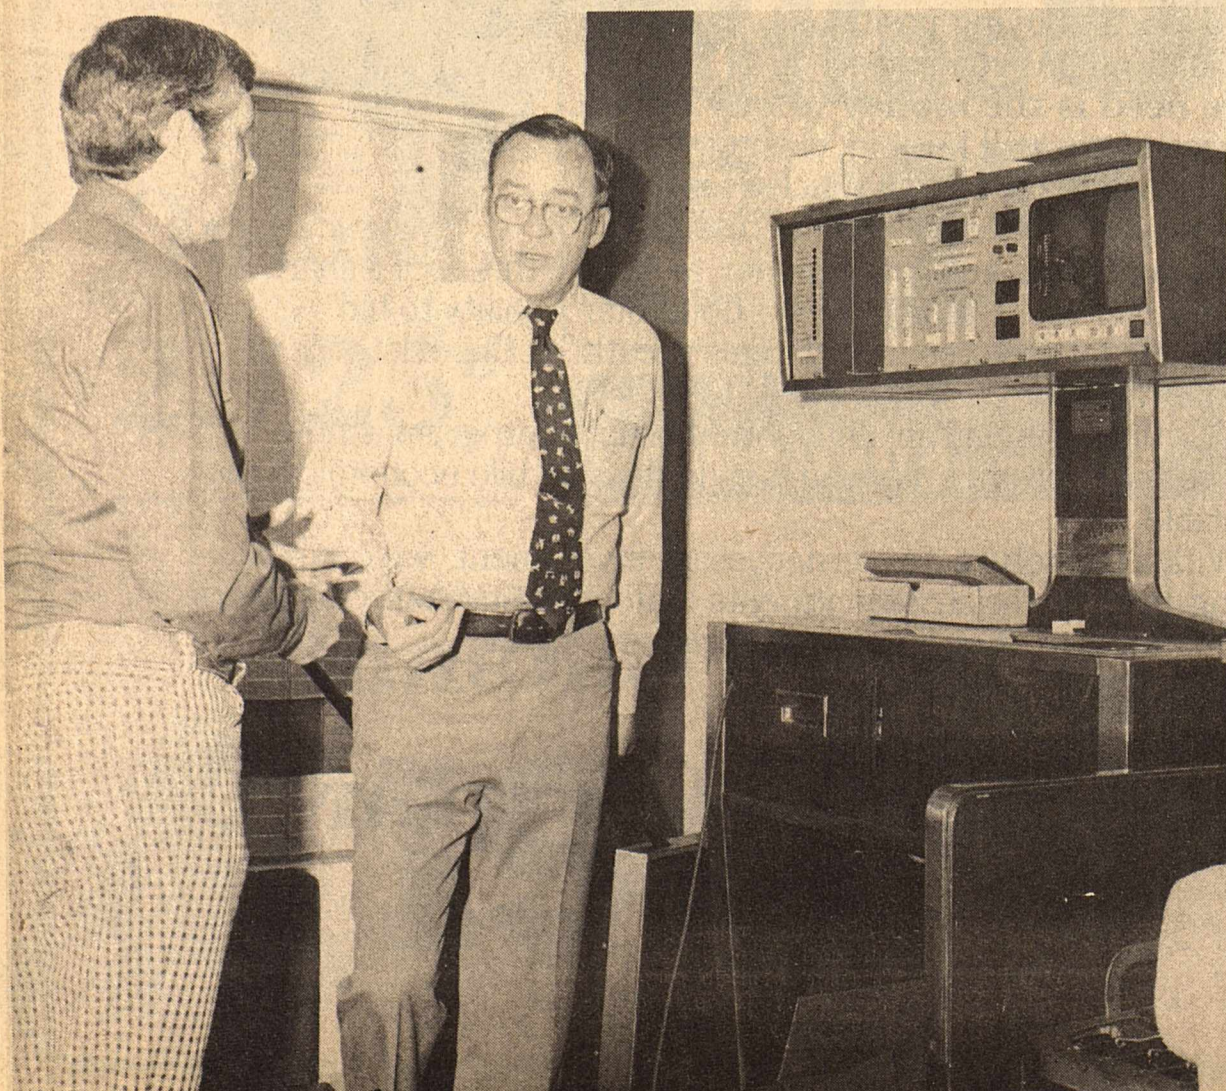

**The Sonora Bronco Marching Band won a Division 1 rating in 2A UIL competition at Brady Saturday.**

### Donations Needed

Dr. David Owensby tells Hospital Board President Doyle Morgan about the many qualities of the new Computerized Stressed EKG machine now located at the Lillian M. Hudspeth Memorial Hospital. Dr. Owensby and Dr. Charles F. Browne say the new heart stress testing machine is virtually 100 percent effective in detecting heart disease. Since 60 percent of all heart attacks occur without warning or without knowledge of any past heart disease, both doctors encourage persons to have the test. The main purpose of the machine is to diagnose heart disease before an attack occurs.

The machine which includes a treadmill, costs \$20,000. Both Dr. Owensby and Dr. Browne are asking friends and patients to contribute toward the purchase of this machine since the hospital board has declined the purchase. Any donation will be accepted and is a tax deductible donation. Checks should be made payable to the hospital and marked for heart stress machine.

### Swine Flu Clinic To Be Held Sunday

Local doctors, David Owensby and C. F. Brown, with the help of hospital and civilian volunteers, will present a swine flu vaccination program Sunday, from 1 until 5 p.m., at the Central Elementary School. The injections are free and the

public is encouraged to avail themselves of this protection.

The following precautions are necessary. Persons who have had fever within the past 24 hours should wait and receive the vaccine at a later date. People with a known allergy to eggs should receive the vaccine only under medical supervision. People who have received another type of vaccine in the past 14 days should consult a physician before taking the flu vaccine.

Spanish and Spanish-speaking interpreters will be available. Doctors will be available to answer any questions that might arise.

All persons will be given two slips of paper to take home; one telling where to write to file a claim, and another telling what to do in case of a reaction.

### Co. Court Canvasses Votes

Sutton County Commissioners met Monday morning in a short session to canvass votes of the November 2 election.

The report from the Justice of the Peace office was approved with fines in the amount of \$7123 being reported. The jailer's report was also approved.

Commissioners attending the meeting were Bill Wade, P.E. Adams, Philip Jacoby and Preston Love. Judge J.W. Elliott presided.

Children under 18 will not be given the vaccine at the clinic. Also, adults with chronic illnesses are advised to take the bivalent vaccine, a New Jersey and A-Victoria, which will be administered at the clinic.

All persons receiving the vaccine will be given a special information form that tells about swine flu,

the vaccine and possible side effects. The form includes a registration form which must be filled out and signed. The form is available in English and

### Ozona Band Boosters To Serve Supper

Bronco football fans will be most welcome at the Poor Man's Supper being sponsored by the Ozona Band Boosters on Friday night at the Civic Center, according to Joan Nicholas, band booster publicity chairman.

Beans, cornbread, salad and tea will be served from 5 to 7 p.m., at a cost of \$1.75 for adults and \$1.25 for children under 12. Cake, pie, and cokes will also be available.

## 2 Grants Approved

Governor Dolph Briscoe has approved two criminal justice grants to Concho Valley of Governments. Criminal justice planning will be continued with a grant of \$31,882 for the 13 counties.

A \$26,786 grant will provide law enforcement training for more than 200 peace officers in the 13-county region.

The local grants were among 101 approved by Governor Briscoe with funds from the Law Enforcement Assistance Administration (LEAA) under the Crime Control Act of 1973.

## Screwworm Count...27,082

Maggots collected from wounds in 27,082 animals in 194 Texas counties this year have proven to be screwworm. Sutton County had 340 of these reported cases.

This report comes from Dr. M.E. (Cotton) Meadows, Jr., of the U.S. Department of Agriculture (USDA) Screwworm Eradication Program.

Noting 7,104 of these samples were identified during October, the screwworm fighter says he expects cooling fall and winter weather to slow the problem. In only three of the past 14 years have November cases outnumbered those identified in October.

Screwworms are flesh

eating larvae of the screwworm fly. Adult females of this species mate only once in their lifetimes. The Screwworm Eradication Program, operated for USDA by the Animal and Plant Health Inspection Service (APHIS), is based on this fact.

Sterile flies, produced in the APHIS insectary, are released to mate with wild flies. Eggs produced as the result of a sterile to fertile mating will not hatch, ending the life cycle.

Starting the second week of November, Program officials intend to concentrate all sterile flies produced at the Mission plant in the overwintering areas of South Texas. Cool winter weather is expected to eliminate screwworm populations farther north.

At the same time, sterile flies produced by the Mexico-U.S. Screwworm Program, will be released in Mexico just south of the Rio Grande. It is hoped this two-pronged attack, coupled with strong preventative efforts by livestock owners, can bring about complete eradication of the parasite in Texas.

## Warehousemen Re-Elected

Murph Compton of Menard was recently re-elected president of the Texas Wool and Mohair Warehouse Association during that organization's annual meeting held in Kerrville.

All other officers were also re-elected for another year including: George Taylor of San Angelo, 1st vice-president; Jo Ed Hill, Eldorado, 2nd vice-president; Fred Campbell, Sonora, secretary treasurer; and Bill Sims of San Angelo, executive secretary.

The Texas Wool and Mohair Warehouse Association is an organization of private and producer-owned warehouses organized to provide a forum for discussion on common interests and opportunities relating to their field. The Association handles the majority of wool and mohair marketed within the state.

## Tax Representative Sets Sonora Visit

Comptroller Bob Bullock announced that a representative from his San Angelo office will be in Sonora Tuesday, November 16, to answer questions from taxpayers and provide assistance in filing tax returns.

Bullock said Enforcement Officer Eugene Honea will be at the driver's license room in the county courthouse from 9 a.m. to 11 a.m.

"I hope local merchants will take this opportunity to get any questions they have about the sales or franchise taxes answered," said Bullock. "A little straight information can save us both headaches."

The San Angelo office, headed by Tom Goff, serves Coke, Concho, Crockett, Irion, Kimble, Mason, McCulloch, Menard, Reagan, Runtels, Schleicher, Sterling, Sutton, Tom Green, and Val Verde Counties.

## Women's Lib Has Taken Setback in Mysterious China

**Editor's note:** The Devil's River Philosopher on his bitterweed ranch on the Dry Devil's River discusses China this week, which is pretty far afield for him.

Dear editor:

Since I don't even know what's going on in the political world in Sonora, I'm certainly not qualified to discuss what's going on in China.

As I understand it, Chairman Mao has made the biggest mistake a dictator can make: he grew old and died.

Naturally when this happens there's a scramble for his job, with a lot of politicians arguing with whatever guns they have at hand that each is the best qualified to lead the people toward a better life, each being equally willing to demonstrate to the masses what that better life is by taking over the fallen dictator's limousines, town house and country estate.

It's an odd thing, but I've noticed that around the world you can't tell by the kind of car a man is chauffeured around in what form of government he's the head of.

But what I started out to do in this uninformed discussion of China was to point out what a setback the change in power over

there has given Women's Liberation. Here one day Madame Ching, wife of Chairman Mao, is being cheered and waved at by the masses as she rides through the streets of Peking, and a few days later Widow Ching is in jail and being jeered at by the same masses.

It's one thing to say the times are not ripe yet for a woman to become President, I mean dictator, of China, but it sure seems male chauvinistic to throw her in jail for trying.

But I guess that's the mysterious Orient for you. In China, it's true, women have made great strides in seeking equality. In the cities they've attained the right to sweep the streets, shovel snow, lay bricks, build roads and stand shoulder to shoulder with men to wave at whoever they've been told is the new dictator. Out in the rice fields they're even allowed to pull a plow and, when the rice is harvested, tote the bags.

China is a dark mystery, and to nobody more so probably than the average Chinese. Those folks are even worse than we are about not going to the polls.

Tell me, What's going on in Sonora?

Yours faithfully,  
J.A.

RECEIVES TOP EXTENSION AWARD--D.C. "Clint" Langford (left), Sutton County Extension agent, is shown receiving the prestigious Texas Superior Service Award for outstanding contributions to Extension education from Dr. Daniel C. Pfannstiel, director of the Texas Agricultural Extension Service. The award was presented Oct. 29 at Texas A&M University.

# With our connections, we can supply all the gas you'll need.

Lone Star's existing gas reserves will meet the requirements of all of our customers for the next 12½ years, based on 1975 consumption rates.

What about the thirteenth year — and beyond — when these reserves are depleted?

Fortunately, Lone Star is in a position to buy new gas reserves that could last our customers far into the 21st century.

We're in the right place at the right time. And we have all of the right connections.

Lone Star's pipeline system enters eight of the nine major gas producing areas in Texas and Oklahoma.

Our transmission lines cross areas which contain over 50% of the remaining on-shore gas reserves in the continental U.S.

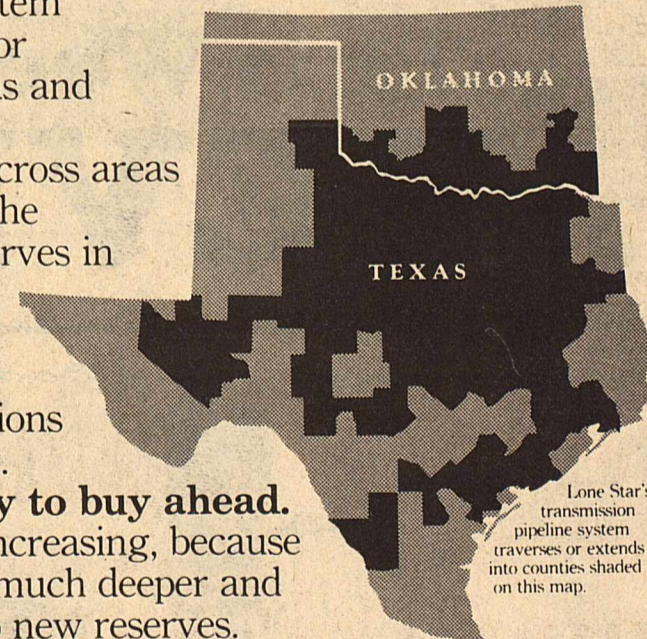

This strong network puts Lone Star in one of the most favorable buying positions of any natural gas company.

**All we need is the money to buy ahead.** The price of gas will keep increasing, because producers will have to drill much deeper and more costly wells to develop new reserves.

It's going to take a lot of money to secure this area's share of these reserves. Unfortunately, Lone Star's ability to bid successfully for new reserves hinges greatly on the existence of adequate rates for the gas we sell.

The time to begin an aggressive resupply program is now, while we have a competitive buying edge and while economical gas is available.

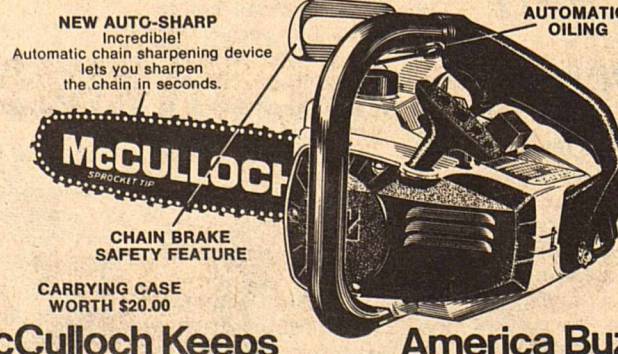

With a fair return on our necessary investment, we can make the long-term financial commitments that will assure our customers all the natural gas they'll need for decades to come. And we will.

Lone Star's transmission pipeline system traverses or extends into counties shaded on this map.

AT CONFERENCE--Some 40 public school superintendents took part in a recent "shirtsleeve conference" sponsored by Southwest Texas State University's School of Education at 7-A Ranch in Wimberley. Mutual problems were discussed by the

participants and resource persons. Among them were, left to right, Dr. Robert Hefner of SWT's education faculty, Crandall J. Young of Fredericksburg and Dr. Joe R. Andrews of Sonora. [SWT News Service Photo]

### Police Reports

On October 25 Ozona patrolmen apprehended a vehicle that had left a local drive in without paying for gasoline, after being alerted by local police.

At 7:30 p.m., a child was bitten by a dog at 1205 Orient. The child was not seriously injured but the dog owner was advised to chain the dog.

October 27 - 8:15 a.m., Report from Johnny Fields that several windows had been broken at the Sonora Veterinary Clinic was investigated.

4:05 p.m., An accident involving Robert Steven King and Jimmy Keno Kincheloe was investigated. The accident occurred behind the high school building.

November 1 - At 2:40 p.m., a report from 1205 Orient St. was investigated regarding a dog attacking a child.

November 3 - James White reported to police at 1:50 p.m., that a woman had run into his car and left the scene of the accident. The accident occurred near a church building. White reported the license number of the vehicle and it was found to belong to Joe W. Turnbull of Sonora.

November 6 - At 1 a.m., a disturbance outside a local lounge was investigated. Carlos Badillo received numerous knife cuts in the affray that required 285 stitches. Arrested and charged with aggravated assault was Salvador Castillija. Justice of the Peace Mat Adams set bond at \$2,000.

John Casparis reported theft of a tool box from his pickup that was parked in front of a local restaurant. Another resident, Sam Gauny reported his pickup broken into while parked at the same restaurant. Arrested and charged with two counts of burglary was Rocky Day Crossland. Bonds were set at \$1,000 and \$5,000.

At 7:30 p.m., a disturbance at a local lounge was investigated. DPS Patrolman Archie Crenwelge made the arrest.

At 11p.m., local police assisted Sheriff's Deputy Mack West in the report of a stabbing at the 4-H Center.

## Hunting Season Opens Saturday

Hunting season opens Saturday in the Edwards Plateau region and hunters will find game plentiful and in good condition, according to Sutton County Game Warden Nolan Johnson.

Johnson stated that there is at least one deer to every 14 acres of land in the county and this is an abundance. Deer should stay in top condition through the season as there are lots of acorns this year.

Turkeys also become game for the hunter on Saturday as do quail. Hunters may kill two gobblers or bearded hens and these birds must be properly tagged. Quail season ends on February 13 and hunters will be allowed 12 per day with 36 possession.

Hunters may pursue deer from 30 minutes before daylight until 30 minutes after sunset and may take a total of three with no more than two bucks. According to landowner permits, a hunter may kill as many as three does. The season ends on January 2.

### HUNTING PARTY

Being held to welcome hunters again this year is the annual hunting party scheduled for Tuesday, November 16. Sponsoring the party is the Edwards Plateau Game and Wildlife Association, Downtown Lions Club, Sonora Chamber of Commerce and the Sonora Jaycees. The party

### Local Artist's Painting Chosen

The Texas Fine Arts Association has announced that the watercolor painting, "Falls of Home", by local artist Barbara Earwood, has been selected to go on circuit throughout the state for a year.

The painting won a State Citation Award in October in the annual Region XV11 show in Sweetwater, and is currently being exhibited in the TFAA Annual State Citation Show at Laguna Gloria Museum in Austin until November 14.

The selection of State Circuit from the exhibit, which consists of paintings from fifteen regions throughout Texas, was judged by Ralph White, Professor of Art and Otis Jones, Instructor of Art, both from the University of Texas.

The minimum inside finished depth of a clothes closet should be 24 inches.

### Teen Scene by Lorie Olson

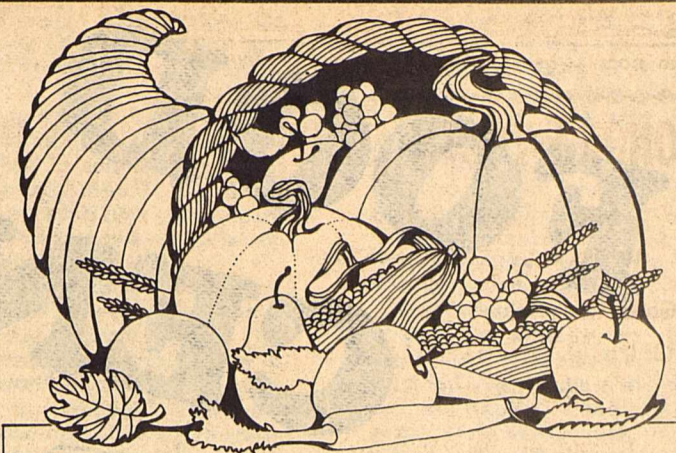

Seniors planning on attending college should be thinking about taking the SAT or ACT college entrance examinations. Most colleges will accept the SAT scores while others prefer the ACT.

In order to take these tests there is a registration deadline. You must have your registration fee and information card post-marked by the deadline required for the date on which you have chosen to take the test.

These tests are offered many times during the year, it is sometimes best to take them more than once to obtain the score you desire.

-shs- Monday was 50's day at S.H.S. It was to set the mood for "American Graffiti", a movie sponsored by the Speech Club department.

The movie was open to everyone. Advance tickets sold for \$1.00 and tickets at the door sold for \$1.50. The Speech Club will be sponsoring more movies later in the year.

## Characteristics Of The Child Abuser

(This is the second in a five-part series of articles on child abuse and neglect and is part of a regional campaign sponsored by the Texas Department of Public Welfare. This week's article is on the characteristics of the child abuser.)

Julie, 43-days old, was dead when she got to the hospital. A fall from her crib the mother claimed. An autopsy showed "extensive multiple fractures of the skull, brain hemorrhaging" and other damage. Mother was charged with murder.

Henry, 9, was admitted to the emergency ward with second and third degree burns to both hands. At first, his father described the injury as an accident. Later it was discovered that Henry's hands were thrust over gas stove flames as punishment for stealing money.

Robert's parents said their year-old son had suffered first and second degree burns accidentally in the bathtub. When doctors found the boy also suffered from frostbite, the district attorney's office was called.

Neighbors in the apartment building had called police to break up a family fight. The cause: the mother was hysterically angry because the father had severely injured their 2-year-old daughter in repeated sexual attacks.

Liza, 4½, opened the front door to a man her father disliked. The punishment, a severe beating with an iron bar that dislocated one of the girl's hands and left severe bruises and lacerations on her back and legs. No, the father told police, he did not consider the punishment excessive in view of the offense.

These are typical cases of child abuse that exist throughout the nation. Some physicians and psychiatrists consider about 10 percent or more of the abuse participants to be serious child abusers, and to be psychotic, or seriously ill mentally.

Many other experts say the overwhelming number are suffering only from neuroses. These are a lesser category of mental problems which nearly all humans experience to some extent. What society would allow well-adjusted men and women reach a moment of rage too powerful to be bottled up and anger rules the mind for a few violence-filled minutes.

Mrs. Gertrude Bacon, executive director of Parents Anonymous in New York City, summed up the view of many experts in the field.

"We are all potential abusers. There are many forms of abusers--physical, verbal, emotional and sexual. Can any parent honestly say he has never fit into any of these categories? We've all been there. The man serving 10 years for crippling his child--it could be any of us."

Parents Anonymous chapters help parents who cannot stop abusing their children without help. It operates much like Alcoholics Anonymous and one credo is to go "from one day to the next without striking my child."

Members have included bankers, waitresses, and people from all races and all religions. These parents realize they have crossed the line between discipline and abuse.

Tens of thousands do not. Broken arms and fractured skulls are often passed off by parents, even to themselves, as "accidents" that occurred during "normal disciplining."

Tens, perhaps hundreds of thousands of parents are child abusers without really knowing it.

Dr. John Caffey of Pittsburgh reported in the American Journal of Diseases of Children that substantial evidence shows the common practice of giving a child "a good shaking" can have serious and even fatal consequences.

Shakings, slappings, and harsh spanking done in high anger can have a psychological toll even if there are no physical injuries.

One researcher said, "There is an abysmal lack of knowledge of what it means to be a parent and how easily the normal development of the child can be adversely affected. We tend to say 'Oh, they'll get over it and forget it.' They won't forget."

Dr. Edwin Nichols, chief of the federal center for Studies for Child and Family Mental Health, says any number of factors from unwanted pregnancy, job insecurity and a home

break up, to a quick temper and emotional exhaustion can trigger destructive rages in parents.

The father of a "quite active" 18-month-old son, Dr. Nichols says his wife has adopted a tactic that successfully heads off particularly explosive situations in their home. When his wife feels occasional periods of heavy stress, she dons a red cap which has come to mean "absolutely no nonsense" to the boy.

"The hat says my wife has only one nerve left, that she intends to hang on to it and the baby is standing on it," said Dr. Nichols.

It is the rare parent who is not pushed near the line of serious abuse and not a few cross the line once or twice. But it is the habitual abuser that most threatens the lives and well-being of our young.

If there is a common denominator among abusers, the experts say they have yet to spot it. But one tragic strand runs through thousands of cases studied over the years. That is the phenomenon of the badly abused child who survives to adulthood, becomes a parent and then repeats the twisted lessons of his own childhood severely abusing his own children.

Because of their own childhood, these adults often approach parenthood with the assumption that their child will give them all the things they were denied in childhood--love, compassion, understanding, support.

In a sense, more than one researcher said, there is a complete role reversal with the parent trying to demand from the child just those things he lacked as a child. When their offsprings display the normal stream of demands with an incomprehension of the parent's needs, the parent often loses control and the cycle starts once again.

Until fairly recently, abusers were believed to be centered in the lower socio-economic groups, but no longer.

"The cases that showed up on the police blotter were once the only real indication of what was going on," one researcher said. "Now we realize that those who could afford private physicians and hospitals in effect were buying insulation since they went unreported."

Along with a better understanding of the scope of abuse is a different view of the abuser, once written off as a heartless slob, sadist, or candidate for an asylum.

One researcher, a woman, said, "Men are more often the abuser, but women most often are the more deadly." Another woman said, because of the society's strong maternal love ethic, consider abuse far more unacceptable than men and thus often are far more emotionally disturbed by the time they cross the line into violence.

While it is not uncommon for both parents to abuse their child or children, more often it is only one adult. Why the other covers up for his mate is not fully understood. Some say it is out of fear; some that the mate worries about breaking up the home and particularly having to raise the children alone.

But a Washington emergency room physician said, "I believe that the mate who doesn't report the other's violence has something in the situation going for them. Something like an alcoholic whose partner stands by not so much out of loyalty but because he enjoys dominating the situation and watching the degradation of his partner."

"Sick? You're damn right it is, especially when children's lives are at stake."

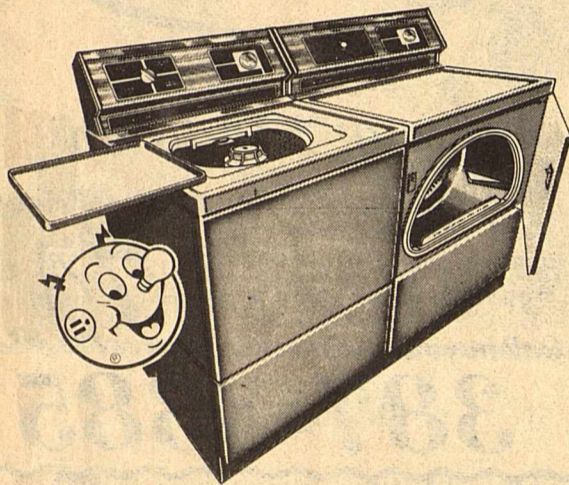

Closer to the heart of the problem is another pattern, that of picking only on one child while the others enjoy mostly normal, even loving, home lives.

The abused child in this situation, experts say, usually represents something other than his real self to the abusing parent. He may remind the parent of a hated brother or father. Or the resemblance may be to a mate who is hated. Abuse develops quite frequently in homes about to break up.

Many researchers also report that once an abused child is removed from the family, often, but not inevitably, none of the other children is picked for abuse. But if, after years, the abused child is returned, the abuse pattern often quickly resumes. The only sure way to break the cycle is for the abuser to work with counselors to get at the

## Proper Energy Management Can Save You Money!

In Your Home Laundry

- ★ Utilize the washer's full capacity. Wash larger loads — wash less often.
- ★ Same goes for dryers: dry more than just a few items at a time.
- ★ Use the washer's load selector to save on hot water when you must wash small loads.
- ★ Use a cold rinse whenever possible to conserve hot water.
- ★ For more efficient drying, clean the dryer lint screen after each load.
- ★ If your dryer has an automatic cycle, use it to prevent unnecessary overdrying. Also, when allowed to overdry, clothes tend to wrinkle, thus require more ironing.

yellow pages

root of the violence.

Some of the easier defined cases are illegitimate and deformed children and children born of an unwanted pregnancy.

The highest risk of unintentional death from abuse ranges from three months to three years. Serious abuse doesn't necessarily end at age three, but by this time children often learn how to avoid the worst anger storms by trading warily.

Serious abuse occurs most frequently between midnight and 3 a.m., with 3 a.m., and 6 a.m. a close second.

Statistics also suggest that abuse is disproportionately high in households with only one parent who must shoulder all the stress of child rearing, often on a budget made slim by divorce or desertion. Alcoholics and drug addicts often turn up in the ranks of abusers.

Recognizing child abuse as an unacceptable social ill is relatively new in America, which once believed in the absolute parental right to discipline the

young.

For some social historians, the fight against the abuser, as differentiated from the murderers of their children, began in earnest in New York City just a century ago. Then authorities, after considerable ducking of the issue, finally freed Mary Ellen, a little girl chained to her bed and otherwise mistreated by her adoptive parents.

The fight to free Mary Ellen was won by the Society for the Prevention of Cruelty to Animals.

Barry Fredrickson, regional administrator in Abilene for the Texas Department of Public Welfare, said that such incidents of abuse and neglect can be investigated if individuals would report it to either their local welfare office or by calling a statewide hotline number.

"If you suspect child abuse and neglect, you can report it any hour of the day or night," he said. "You can call your local welfare office, or the statewide, toll-free, hotline number at 1-800-292-5400."

## A Bishop Looks at Life

By Everett H. Jones  
Bishop, Episcopal Church  
WE CAN LEARN  
TO RELAX

The most helpful book I have read lately is "The Relaxation Response" by Dr. Herbert Benson, associate professor of medicine at the Harvard Medical School. It is published by Avon, and is available in an inexpensive, paperback edition.

The book brings together in simple, understandable language the insights of both Eastern and Western religions, as well as those of medical science, in answer to the question, "How can I avoid stress and anxiety, and achieve greater inner peace and relaxation?"

The author declares that we are in the midst of a hidden epidemic that is taking a heavy toll in our physical and spiritual well-being, and in our very lives: it includes every form of stress, especially the most serious one of hypertension.

There is not room here to review the causes of our problem as outlined by the author, but the encouraging message of the book is that there are practical

steps we can take (and that have been taken effectively by thousands of people) to reduce tension, to relieve fatigue, and to help us cope with our anxieties.

The basic thesis is that our mental and spiritual attitudes can affect and alter our bodily functions. The mind has a powerful influence over the body. Various religious teachers have long held this conviction, but now medical science thru experiments in bio-feedback has given additional support to this theory. There are now hundreds of patients who will tell you they have lowered their blood pressure and achieved other desirable results by thinking relaxing thoughts.

Dr. Benson, in his concluding chapters, spells out the methods that he has found most effective at the Beth Israel Hospital in Boston. They are forms of eliciting the Relaxation Response. In truth they are an up-dating of age-old wisdom about the need for quiet meditation as part of one's life.

The four basic components (which need fuller explanation than can be given here) are (1) a quiet environment (2) a mental device to assist in concentration (3) a passive attitude to ignore distracting thoughts, and (4) a comfortable position.

## Jr. High School News

By Kay Holdridge

The jr. high school recently held student council elections. The officers for the 1976-1977 school year are President, David Creek, eighth grade; vice-president, Marche Lane, eighth grade; secretary, Shelly Hughes, seventh grade; and treasurer, Sandi Wright, seventh grade. Those elected as class representatives were seventh graders Linda McClung and Brad Johnson. Eighth graders elected were Trina Powers and Rex Surber, and Tammy Butler and Chris Reynolds were chosen to represent the sixth grade. The student council sponsored the bingo booth at the Holloween carnival and made over \$100.

Football season ended for both Colt football teams last week. The seventh grade team was victorious by a whopping 42-0 score. The eighth graders were less lucky as they lost by a 22-12 score. The Colts had a combined record of 17-5 on the season. Basketball workouts have begun as the boys and girls are preparing for the upcoming season.

The Sonora Junior Historian Club, sponsored by Miss Melinda Brandon, has organized and will begin activities in the near future.

The Spanish Club took a field trip to San Antonio. The students, their sponsor, Mrs. Kay Holdridge, and Mr. and Mrs. Mike Hale, viewed the Alamo, the Lone Star Wax Museum, the Institute of Texan Culture, the riverwalk, and the new Windsor Mall. The club raised the money for their trip by having a successful bake sale. The students greatly enjoyed their trip and the Mexican supper along the river ended a tiring exciting time in San Antonio.

Paul Venema's appearance and a belly dancing exhibition were two unplanned side events that the group saw.

Water that has been boiled before cooling will freeze faster, because the boiling drives out some air bubbles.

## Dee's Notes

by Dee Nevill

NBC's television production "Gone With The Wind" followed closely on the heels of the election, and that is exactly what happened nationally. Well, as usual, some are jubilant and others disconcerted with the results, but hopefully we will band together and lend our support to the elected officials through our efforts and our prayers.

Sonora High School Band won a Division 1 Rating in 2A University Interscholastic League competition at Brady Saturday. The accomplishment is the first in three rounds of band competition during the current school year. Our congratulations to Mr. Martinez and all band members.

Mr. and Mrs. Louie Andrews who recently returned from a tour of duty in England and Scotland with an oil company, have purchased Loma Alto store from the Glen Chadwicks. Louie, son of Mrs. Willie Andrews, and his wife are making their home at the store location.

THIS WEEKEND begins the annual trek to the woods and the great shootout. Occasionally we do tend to become irritated when a hopeful hunter bangs on our door at midnight, or 5 a.m. wanting a place to hunt -- but then there are those who provide chuckles. A Louisianan with a thick foreign accent, called for hunting info. We gave him an Edwards County landowner's name -- but when he asked where Edwards County is located, and we told him 'Rocksprings', his reply was "no, thank you!" "I spent \$100 bucks for a weekend of hunting there before, and I ain't seen nothin' but ROCKS..they gave that PLACE a good name!" (Sorry, Rocksprings)

TIME FOR SWINE FLU SHOTS! local doctors and others will present a Swine Flu vaccine program Sunday, Nov. 14, from 1 p.m. to 5 p.m. at Central Elementary School. The injections are free, and the public is encouraged to avail themselves of this protection say our doctors. Children under 18 will not be given the vaccine at the clinic. Any questions you have about the vaccine will

be answered by doctors at the clinic and Spanish-speaking interpreters will be available..so REMEMBER SUNDAY AFTERNOON. Idaho may be famous for its potatoes, but it perhaps should be noted for its beautiful and delicious apples. LEANNE HENDRICKS and BRENDA SMITH have visitors this week -- their mothers from Nampa, Idaho. Mrs. Dorothy Lageschulte and Mrs. Midge Sedwick brought several boxes of Idaho apples for their daughters and for some of us who fortunately heard they had some spares.

FRIENDS of Katie Lea and Lum Trainer will be interested in knowing that their son, David, will be undergoing heart surgery today in Seaton Hospital in Austin. The Lum Trainers reside in Mertzon. A speedy recover for David.

MARRIAGE PLANS are being announced for the Rev. Mr. Doyle Morton, who pastored First Methodist Church here several years past. He and Mrs. Jewel Kincaid of Sabinal will be marrying today. He pastors Faith United Methodist Church in Austin. The church celebrated its 25th anniversary Sunday, and the George Wallaces attended the ceremony. We extend very best wishes to Doyle, who has many friends in Sonora.

WE KNOW of at least 20 families who are trying to relocate here presently. Two young women were in this morning looking for 'just anything'. They could not believe that we have such shortage of rentals. It must be quite frustrating to look and look - and find the searching futile. We hear another mobile home park may be under construction soon..this would probably help; however, and apartment building would sure be great.

BRONCOS will be battling with Ozona come Friday night, and what a battle this will be! They had an excellent win over Crane last Friday -- perhaps the team spirit can hold out against the Lions as they travel to Ozona for the encounter.

HELP! HELP! -- who has a 'goat fleece'? A correspondent from Laramie, Wyo. writes -- "I was wondering if you had someone in your area that sells goat fleeces. In travelling through southern Texas, I remember seeing high fences and was told they were to keep in goats. Could this have been in your area?" --we-l-l..we always thought those high fences were to keep the deer from jumping the fences. FOR WHAT IT'S WORTH: Doctor on phone: "I don't make house calls -- could you cough into the phone?"

YOUNGSTERS FROM all four teams of the Sonora Youth Football League were honored with a party held Saturday at the Community Park Pavillion. Coaches and team members were honored.

## 4-H Club To Hold Meeting

The Sutton County 4-H Club will hold its regular monthly meeting at 6:30, Wednesday, November 17 at the 4-H Center.

Dr. Milo Shult, Extension Wildlife Specialist from Uvalde will present a slide program on trapping fur bearing animals and predators. The meeting will serve as a training meeting for boys and girls enrolled in the Hunter Safety Program. Ranchers and all other persons who are interested in learning more about trapping animals are invited to attend.

All Sutton County 4-H members, 4-H Leaders and parents are urged to be present.

Seventh and Eighth Grade Colts played their final game last Thursday night in Bronco Stadium. The eighth grade lost their game by a score of 22-12 while the 7th graders completely shut out the Crane Golden Cranes by 42 points.

### Elementary News

In the third level, magazine tests in reading classes are being given. These tests will aid teachers in diagnosing the needs of individual students.

Third graders are becoming acquainted with geometry and units of measure in mathematics. Plump turkeys decorate the halls and rooms. Other Thanksgiving art will include detailed paper Indians and Pilgrims. Some of our Thanksgiving art will be used to decorate the nursing home.

Several sections of the fourth grade are preparing to construct door decorations for the nursing home.

Emphasis will be placed on Map Skills during the coming weeks. They are also discovering ways they are physically and emotionally like others in their health studies on Being Happy With Yourself.

The Social Studies class on the fifth level completed a unit on "How to Become a President", the qualifications to run for president, and a map study showing the electoral votes of each state. Students learned a new vocabulary of such words as platform endorsement, popular vote, electoral vote and landslide victory. When the National Elections are always held was also stressed. A mock election was held November 2.

The different math groups are meeting chal-

lenges as they tackle geometry, addition and multiplication.

Students are discovering the variety of expressions used in different English speaking areas of the U. S. Language students are also exploring the uses of transitive and intransitive verbs.

A nutrition unit introduces students to reasons why they should eat well. Students have also wound up their study of the origin of rocks.

### 7th Graders Shut Out Cranes In Final Game

By Kay Holdridge

The seventh grade Colts put it all together in their last game of the season and scored 42 points while the defense completely shut out Crane.

The first of six touchdowns came after Pete Lira recovered a Crane fumble on their second play from scrimmage on the Crane 36. Allan Stewart ran a quarterback option to the 8 yard line and Scott Savell rambled in from the 8 to put the Colts on top to stay. The PAT failed and with 5:20 remaining in the first quarter, the Colts led 6-0.

The next possessions for both teams produced little yardage and both teams

It would take over one million earths to fill the interior of the sun.

### 8th Grade Takes Loss

back to the 25. The Colts tried a little razzle dazzle and scored on a reverse to Doan who passed to Vallejo for a 25 yard TD with 5:33 left in the 3rd period. The PAT failed and the Colts were only behind by a 6-16 stretch.

Crane failed to cover the ball on the kickoff and Sonora covered it on the Crane 7. Runs by Berkley and Surber moved the ball to the 1. Quarterback Creek followed Corbie DuBose's block to paydirt. The PAT was again no good and the Colts trailed by only 4 points.

A Vallejo fumble on the Sonora 41 stalled another Colt attempt to go ahead.

The fourth quarter opened with Crane driving to the Sonora 15 before a host of Colts pounced on a Crane fumble. The Colts

were again unable to capitalize on the Crane mistake when Berkley's halfback pass was picked off on the midfield stripe.

Two plays later Crane added 6 points on a 25 yard TD run. With 4 minutes to go the score stood 12-22.

Sonora ran out of time and a rushed Colt pass fell into a Crane's arms with 13 seconds to go. The game ended in a 12-22 loss for the 8th grade Colts and dropped the Sonora unit to an 8-3 record for the season.

Defensive standouts for the Sonora team included Ronald Berkley, David Sanchez, Cades Pope, and Gary Minatra.

Johnny Doan caught several key Creek passes, as did Tommy Burch, to keep the Colts' hopes alive.

### Broncos Vie For District

By Don Holdridge

The whole season culminates in tomorrow night's clash as the Sonora Broncos travel IH 10 to Ozona to try to grab a share of the District 7-AA crown.

The match is a book-maker's nightmare as comparative scores give little indication of what the outcome should be.

Ozona had less than an easy time running by

Crane, 13-0, while Sonora scored 39 points in one half on the Golden Cranes. Kermit nipped Sonora 17-14 while Ozona stung the Yellowjackets 35-3.

The Lion defense has been the forte of their team, allowing only 169 yards total offense in the two previous district games.

The lopsided victory over Kermit was due directly to the defense as they picked up five loose fumbles and nabbed an interception.

The Broncos were unstoppable against Crane. Quarterback John Elliott caught fire, passing for 102 yards and running for 76 more.

Bronco running backs spread out the 261 yards rushing in the game.

Johnny Creek had 15 carries for 68 yards; Tony Mathews, nine for 43; and Garry Jones, seven for 36. Craig Parker rushed three times for 33 yards and hauled in two passes

for 47 more.

The Red Hoss defense, keyed by two Gregg Parker interceptions, had its finest effort of the year.

A 36-yard pass helped the Cranes move the ball to the Bronco 21-yard line before giving up the pigskin on downs.

Except for that one effort the visitors never cracked the Sonora 40-yard line.

Ozona backs have had a nose for the goal line all year.

Halfbacks Gary Warren, the District's leading scorer and Blake Moody are excellent rushers while quarterback Vaden Aldridge is considered one of the top helmets in the area.

The outcome is simple: an Ozona victory or tie gives the Lions the title outright, while a Sonora win throws the race into a two-or-three way tie, depending on the outcome of the Crane-Kermit tilt.

### Man Dies In Motorcycle Wreck

21-year-old Charles Edwin Berkley was pronounced dead at the scene of a motorcycle accident at 12:10 a.m., Tuesday morning. The accident occurred on Concho Street in front of the elementary school. Young Berkley was the driver of a 1976 Kawasaki motorcycle and was southbound on Concho Street when he passed a vehicle and struck the curb on the left side of the street. He traveled some 75 feet on the curb before striking the rock retainer wall in front of the new elementary buildings.

Officer Jerry Kemp investigated the accident. Born November 20, 1955 in Stevens County, Berkley is survived by a wife, Darla Moore Berkley; his parents, Mr. and Mrs. Charles W. Berkley; two brothers, Travis and Ronald Berkley; four sisters, Rena Harris, Yvonne Berkley and Vanessa Berkley, all of Sonora, and Charlotte McKee of Manhattan, Kansas.

Funeral services were held Wednesday at 4 p.m., at the Episcopal Church with burial in Sonora Cemetery. Pallbearers were Hub Wood, Seco Mayfield, Steve Anderson, Kevin Taylor, Walter Smith, Mike Hooper, Larry Hooper and Mike Doss.

### Election Results

Complete results of the November 2 general election are as follows: These results are for Sutton County only and do not indicate the winner or loser in any of the mentioned races with the exception of those for offices within the county such as county commissioners and sheriff tax assessor-collector.

A total of 1642 votes were cast. 184 of these votes were by the absentee method. 882 votes were cast in precinct one; 525 in precinct two; twenty in precinct three, and 31 in precinct four.

In the race for president and vice-president Carter and Mondale tallied 768 votes; Ford and Dole, 830; Anderson and Shackelford on the American party ticket, 2; Socialist Workers party, 0; Eugene McCarthy, Independent candidate, four, and Reagan, four write-in votes.

**UNITED STATES SENATOR** - Lloyd Bentsen, 1012; Steelman, 449; Gallion, 10, and Vasquez, 22.

**U.S. REPRESENTATIVE** - District 21 - Krueger, 1310; Locke, 157; Carrillo, 32 and Gallion, 13.

**RR COMMISSIONER** - Newton, 1055; Vendlandt 288; Garza, 47, and O'Reilly, 3.

**ASSOCIATE JUSTICE**, Supreme Court Place 1, Pope, 1180.

**ASSOCIATE JUSTICE** - Supreme Court, Place 2 - Yarbrough, 876; Houston (write-in) 278; and Lorange (write-in) 19.

**ASSOCIATE JUDGE**, Supreme Court, Place 3 - Denton, 1171.

**PRESIDING JUDGE**, Court of Criminal Appeals, John F. Onion, Jr., 1171.

**JUDGE**, Court of Criminal Appeals - Truman Roberts, 1154.

**JUDGE**, Court of Criminal Appeals, unexpired term - W.T. Phillips, 1150.

### Card Of Thanks

My very sincere thanks to all those who supported the Youth Football league. A special thanks to the many donors, who are too numerous to mention. I feel the program was a tremendous success.

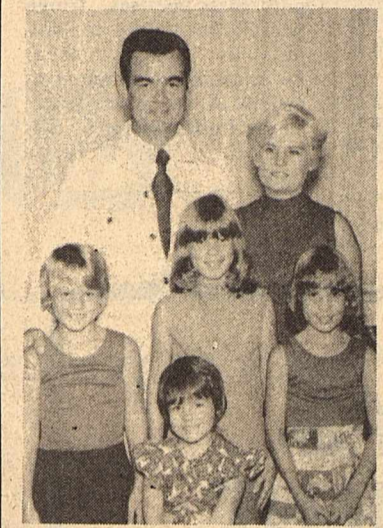

Ray Jones  
1p11

### THANK YOU

I would like to thank all of the people of Sutton County who voted for me in the Nov. 2 General Election.

I appreciate your vote of confidence and will strive to do as good a job as I possibly can, as your next Sheriff/Tax Assessor Collector.

Thank you again,  
W.W. (Bill) Webster

**Sonora Minister Speaks**

He never hear the word of God, that thrills the childish mind; While other children went to class, this child was left behind.

As he grew from babe to youth, Dad saw to his dismay; A soul that once was snowy white, became a dingy gray.

Realizing that his son was lost, Dad tried to win him back; But now the soul that once was white, had turned to ugly black.

Dad even started back to church and Bible study, too; He begged the preacher, "Isn't there anything that you can do?"

The preacher tried, failed, and said, "We're just too far behind; I tried to tell you years ago, but you would pay no mind."

And so another soul was lost, that once was white as snow; Sunday School would have helped, but Daddy would not go!

Mothers and Daddys, there's a tremendous amount of responsibility resting upon your shoulders, to set the example for your children. Many of the older people may ask, "What's wrong with this younger generation?" I believe I'd be safe in placing 90 percent of the blame on their parents.

Proverbs 22:6 - Train up a child in the way he should go; and when he is old, he will not depart it.

Parents, if you really love those wonderful little children, get them in church, and teach them to serve the Lord. By setting the example.
